**PROXY STATEMENT
for
2007 ANNUAL MEETING OF STOCKHOLDERS
May 16, 2007**

The board of directors of BioMed Realty Trust, Inc., a Maryland corporation, is soliciting the enclosed proxy for use at the 2007 Annual Meeting of Stockholders to be held on Wednesday, May 16, 2007 at 9:00 a.m., local time, and at any adjournments or postponements thereof. The annual meeting will be held at the Rancho Bernardo Inn, 17550 Bernardo Oaks Drive, San Diego, California. This proxy statement will be first sent to stockholders on or about April 19, 2007.

Unless contrary instructions are indicated on the proxy, all shares represented by valid proxies received pursuant to this solicitation (and not revoked before they are voted) will be voted **FOR** the election of the board of directors nominees for directors, or for a substitute or substitutes in the event a nominee or nominees are unable to serve or decline to do so, and **FOR** the ratification of the selection of KPMG LLP as the company's independent registered public accounting firm for the year ending December 31, 2007. As to any other business which may properly come before the annual meeting and be submitted to a vote of the stockholders, proxies received by the board of directors will be voted in the discretion of the designated proxy holders. A proxy may be revoked by written notice to the Secretary of BioMed at any time prior to the annual meeting, by executing a later dated proxy or by attending the annual meeting and voting in person. Attendance at the annual meeting will not by itself revoke a proxy.

We will bear the cost of solicitation of proxies. In addition to the use of mails, proxies may be solicited by personal interview, telephone, facsimile, e-mail or otherwise, by our officers, directors and other employees. We also will request persons, firms and corporations holding shares in their names, or in the names of their nominees, which are beneficially owned by others to send or cause to be sent proxy material to, and obtain proxies from, such beneficial owners and will reimburse such holders for their reasonable expenses in so doing.

Voting

Holders of record of our common stock, \$.01 par value per share, at the close of business on March 30, 2007 will be entitled to notice of and to vote at the annual meeting or any adjournments or postponements thereof.

As of March 30, 2007, 65,454,998 shares of our common stock were outstanding and represent our only voting securities. Each share of our common stock is entitled to one vote. A majority of the outstanding shares of our common stock represented in person or by proxy will constitute a quorum at the annual meeting. Directors are elected by a plurality of the votes cast. The ratification of the selection of KPMG LLP as our independent registered public accounting firm requires the affirmative vote of a majority of the votes cast on the proposal.

Votes cast by proxy or in person at the annual meeting will be counted by the person appointed by us to act as inspector of election for the annual meeting. The inspector of election will treat shares represented by proxies that reflect abstentions (or votes withheld) or include broker non-votes as shares that are present and entitled to vote for purposes of determining the presence of a quorum. Broker non-votes refer to unvoted proxies submitted by brokers who are not able to vote on a proposal absent instructions from the applicable beneficial owner. Since brokers are empowered to vote with regard to the election of directors, there will be no broker non-votes with respect to this proposal. Withhold votes will have no effect on the election of directors. For purposes of the vote on the ratification of

the selection of KPMG LLP as our independent registered public accounting firm, abstentions and broker non-votes will not be counted as votes cast and will have no effect on the result of the vote. Any executed, unmarked proxies, including those submitted by brokers or nominees, will be voted in favor of the nominees for the board of directors and for the ratification of the selection of KPMG LLP as our independent registered public accounting firm, as indicated in the accompanying proxy card.

Table of Contents

No person is authorized to make any representation with respect to the matters described in this proxy statement other than those contained herein and, if given or made, such information or representation must not be relied upon as having been authorized by us or any other person.

PROPOSAL 1**ELECTION OF DIRECTORS**

Our board of directors has nominated and recommends for election as directors the seven persons named herein to serve until the next annual meeting of stockholders and until their respective successors are duly elected and qualify. All of the nominees are presently directors of BioMed, and following the annual meeting there will be no vacancies on the board. Directors are elected by a plurality of the votes cast at the annual meeting. Cumulative voting is not permitted. The enclosed proxy will be voted in favor of the persons nominated unless otherwise indicated. If any of the nominees should be unable to serve or should decline to do so, the discretionary authority provided in the proxy will be exercised by the proxy holders to vote for a substitute or substitutes nominated by the board of directors, or the board of directors, on the recommendation of the nominating and corporate governance committee, may reduce the size of the board and number of nominees. Information Regarding the Board

Board Independence

Gold and Kreitzer, has no material relationship with BioMed (either directly or as a partner, stockholder or officer of an organization that has a relationship with BioMed) and is independent within the meaning of our director independence

standards, which reflect the New York Stock Exchange director independence standards, as currently in effect. Furthermore, our board of directors has determined that each of the members of each of the audit committee, the compensation committee and the nominating and corporate governance committee has no material relationship with BioMed (either directly or as a partner, stockholder or officer of an organization that has a relationship with BioMed) and is independent within the meaning of our director independence standards.

Board Meetings

Our board of directors held 11 meetings during fiscal 2006. No director attended fewer than 75% of the aggregate of the total number of meetings of our board of directors and the total number of meetings of committees of our board of directors on which he or she served.

To ensure free and open discussion among the independent directors of the board, regularly scheduled executive sessions are held, at which only independent directors are present. The independent directors have nominated the chair of the nominating and corporate governance committee, currently Ms. Cambon, to serve as presiding director at each executive session.

Committees of the Board

Our board of directors has three standing committees: the audit committee, the compensation committee and the nominating and corporate governance committee.

Audit Committee. The audit committee has been established in accordance with Section 3(a)(58)(A) of the Securities Exchange Act of 1934, as amended. The audit committee helps ensure the integrity of our financial statements, the qualifications and independence of our independent registered public accounting firm and the performance of our internal audit function and independent registered public accounting firm. The audit committee appoints, assists and meets with the independent registered public accounting firm, oversees each annual audit and quarterly review, establishes and maintains our internal audit controls and prepares the report that federal securities laws require be included in our annual proxy statement. Dr. Riedy is the chair and Ms. Cambon and Ms. Wilson serve as members of the audit committee. Our board of directors has determined that each of Dr. Riedy and Ms. Wilson is an audit committee financial expert as defined by the Securities and Exchange Commission. The audit committee held ten meetings in 2006.

Compensation Committee. The compensation committee reviews and approves the compensation and benefits of our executive officers, administers and makes recommendations to our board of directors regarding our compensation and stock incentive plans, and produces an annual report on executive compensation for inclusion in our proxy statement. Mr. Roth is the chair and Dr. Dennis and Dr. Riedy serve as members of the compensation committee. The compensation committee held five meetings in 2006.

Nominating and Corporate Governance Committee. The nominating and corporate governance committee develops and recommends to our board of directors a set of corporate governance principles, adopts a code of ethics, adopts policies with respect to conflicts of interest, monitors our compliance with corporate governance requirements of state and federal law and the rules and regulations of the New York Stock Exchange, establishes criteria for prospective members of our board of directors, conducts candidate searches and interviews, oversees and evaluates our board of directors and management, evaluates from time to time the appropriate size and composition of our board of directors, recommends, as appropriate, increases, decreases and changes in the composition of our board of directors and recommends to our board of directors the slate of directors to be elected at each annual meeting of our stockholders. Ms. Cambon is the chair and Dr. Dennis, Mr. Roth and Ms. Wilson serve as members of the nominating and corporate governance committee. The nominating and corporate governance committee held three meetings in 2006.

Our board of directors has adopted charters for each of the audit committee, compensation committee and nominating and corporate governance committee. Each of the charters is available on our website at www.biomedrealty.com and will be provided without charge upon request to BioMed Realty Trust, Inc., 17140 Bernardo Center Drive, Suite 222, San Diego, California 92128, Attention: Secretary. The information contained on our website is not incorporated by reference into and does not form a part of this proxy statement.

Table of Contents

Our board of directors may from time to time establish certain other committees to facilitate the management of BioMed.

Compensation Committee Interlocks and Insider Participation

There were no insider participations or compensation committee interlocks among the members of the committee during fiscal year 2006. At all times during fiscal year 2006, the committee was comprised solely of independent, non-employee directors.

Director Qualifications

The nominating and corporate governance committee has not set minimum qualifications for board nominees. However, pursuant to its charter, in identifying candidates to recommend for election to the board, the nominating and corporate governance committee considers the following criteria: (1) personal and professional integrity, ethics and values, (2) experience in corporate management, such as serving as an officer or former officer of a publicly held company, and a general understanding of marketing, finance and other elements relevant to the success of a publicly traded company in today's business environment, (3) experience in our industry and with relevant social policy concerns, (4) experience as a board member of another publicly held company, (5) academic expertise in an area of our operations and (6) practical and mature business judgment, including ability to make independent analytical inquiries. Our board of directors evaluates each individual in the context of our board as a whole, with the objective of assembling a group that can best perpetuate the success of the business and represent stockholder interests through the exercise of sound judgment using its diversity of experience in these various areas. In determining whether to recommend a director for re-election, the nominating and corporate governance committee also considers the director's past attendance at meetings and participation in and contributions to the activities of the board.

Identifying and Evaluating Nominees for Directors

The nominating and corporate governance committee identifies nominees by first evaluating the current members of our board willing to continue in service. Current members with qualifications and skills that are consistent with the nominating and corporate governance committee's criteria for board service are re-nominated. As to new candidates, the nominating and corporate governance committee will generally poll board members and members of management for their recommendations. The nominating and corporate governance committee may also hire a search firm if deemed appropriate. An initial slate of candidates will be presented to the chair of the nominating and corporate governance committee, who will then make an initial determination as to the qualification and fit of each candidate. Final candidates will be interviewed by the Chief Executive Officer and a nominating and corporate governance committee member. The nominating and corporate governance committee will then approve final director candidates and, after review and deliberation of all feedback and data, will make its recommendation to our board of directors. Recommendations received by stockholders will be considered and processed and are subject to the same criteria as are candidates nominated by the nominating and corporate governance committee.

The foregoing notwithstanding, if we are legally required by contract or otherwise to permit a third party to designate one or more of the directors to be elected or appointed (for example, pursuant to articles supplementary designating the rights of a class of preferred stock to elect one or more directors upon a dividend default), then the nomination or appointment of such directors shall be governed by such requirements.

Each of the nominees for election as director at the annual meeting is recommended by the nominating and corporate governance committee to stand for reelection.

Stockholder Recommendations for Director Nominees

The nominating and corporate governance committee's policy is to consider candidates recommended by stockholders. The stockholder must submit a detailed resume of the candidate and an explanation of the reasons why the stockholder believes the candidate is qualified for service on our board of directors and how the candidate satisfies the board's criteria. The stockholder must also provide such other information about the candidate as would be required by the Securities and Exchange Commission rules to be included in a proxy statement. In addition, the

Table of Contents

stockholder must include the consent of the candidate and describe any arrangements or undertakings between the stockholder and the candidate regarding the nomination. The stockholder must submit proof of BioMed Realty Trust stockholdings. All communications are to be directed to the chair of the nominating and corporate governance committee, c/o BioMed Realty Trust, Inc., 17140 Bernardo Center Drive, Suite 222, San Diego, California 92128, Attention: Secretary. For the annual meeting in any subsequent year, recommendations received after 120 days prior to the anniversary of the mailing of the prior year's proxy materials will likely not be considered timely for consideration at that year's annual meeting.

PROPOSAL 2

**RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED
PUBLIC ACCOUNTING FIRM**

The audit committee of our board of directors has selected KPMG LLP to serve as our independent registered public accounting firm for the year ending December 31, 2007, and our board of directors has directed that management submit the selection of the independent registered public accounting firm for ratification by our stockholders at the annual meeting. KPMG LLP has audited our financial statements since our inception in 2004. Representatives of KPMG LLP are expected to be present at the annual meeting. Such representatives will have the opportunity to make a statement if they desire to do so and are expected to be available to respond to appropriate questions.

Stockholder ratification of the selection of KPMG LLP as our independent registered public accounting firm is not required by our bylaws or otherwise. However, the board of directors is submitting the selection of KPMG LLP to the stockholders for ratification as a matter of good corporate practice. If the stockholders fail to ratify the selection, the audit committee will reconsider whether or not to retain that firm. Even if the selection is ratified, the audit committee in its discretion may direct the appointment of a different independent registered public accounting firm at any time during the year if the audit committee determines that such a change would be in the best interests of the company.

The affirmative vote of a majority of the votes cast at the annual meeting is required for the ratification of the selection of KPMG LLP as our independent registered public accounting firm.

Recommendation of the Board of Directors

Our board of directors recommends that stockholders vote FOR the ratification of the selection of KPMG LLP as the company's independent registered public accounting firm for the year ending December 31, 2007.

EXECUTIVE COMPENSATION AND OTHER INFORMATION

Compensation Discussion and Analysis

Executive Compensation Program Overview

The compensation committee reviews and approves our compensation program, and has the primary authority to determine the compensation (including annual base salaries and bonuses), for our executive officers. The committee also administers our compensation plans, including our incentive award plan and the granting of restricted stock and any other awards thereunder.

The compensation program is intended to encourage high performance, promote accountability and assure that employee interests are aligned with the interests of our stockholders. We seek to provide total compensation to the executive officers that is competitive with total compensation paid by comparable companies. The compensation committee may retain compensation and other management consultants to assist with, among other things, structuring our various compensation programs and determining appropriate levels of salary, bonus and other compensatory awards payable to our executive officers and key employees, as well as to guide us in the development of near-term and long-term individual performance objectives necessary to achieve long-term profitability. Any compensation consultant retained by the compensation committee reports to the chairman of the compensation committee, and the compensation committee retains the right to terminate or replace the consultant at any time. Pursuant to the compensation committee's charter, the compensation committee has the power to engage such consultants and other advisors.

Our executive compensation policies are designed to meet the following objectives: (1) to attract, retain and motivate talented executives, (2) to reward individual achievement appropriately and (3) to enhance BioMed's financial performance, and thus stockholder value, by significantly aligning the financial interests of our executives with those of our stockholders. To accomplish these objectives, our executive compensation program primarily includes: (A) annual base salaries, (B) cash bonuses and (C) long-term incentives through restricted stock grants and other equity-based compensation. When making compensation decisions for executive officers, the compensation committee evaluates each compensation element in the context of the executive's overall total compensation.

We believe that the compensation of our executive officers should largely reflect their success as a management team, rather than as individuals, and that the performance of the executives in managing our company and creating long-term value for our stockholders should be the basis for determining their overall compensation.

To assist in its efforts to meet the objectives outlined above, the compensation committee has retained FPL Associates Compensation, a nationally known executive compensation and benefits consulting firm, to advise it on the amount and form of our executive compensation and benefit programs, as well as to provide general executive compensation consulting services and respond to any compensation committee member's questions and to management's need for advice and counsel. In connection with the compensation committee's year-end 2006 compensation review and determinations, FPL Associates provided data regarding market practices and provided

Table of Contents

advice regarding executive annual base salaries, cash bonuses and long-term incentive compensation, consistent with our compensation philosophies and objectives.

In determining compensation for our executive officers, the compensation committee annually surveys each company in our peer group and examines each peer company's performance and the compensation elements and levels provided to their executive officers. The compensation committee then evaluates our performance and generally determines whether the compensation elements and levels that we provide to our executive officers are appropriate relative to the compensation elements and levels provided to their counterparts at our peer companies, in light of each executive officer's individual contribution to our performance. In addition to reviewing executive officers' compensation against the peer companies, the compensation committee also solicits input and recommendations from Mr. Gold, our chief executive officer, regarding total compensation for each of our executive officers. The compensation committee believes that the compensation paid to each of our executive officers is generally consistent with the compensation paid to executive officers of our peer group companies.

The compensation committee, with input from the compensation consultant, annually reviews the composition of the peer group and the criteria and data used in compiling the peer group list, and makes appropriate modifications. For 2006, the peer group used by the compensation committee included the following real estate investment trusts: Alexandria Real Estate Equities, Inc., Brandywine Realty Trust, Corporate Office Properties Trust, Crescent Real Estate Equities Company, Digital Realty Trust, Inc., First Industrial Realty Trust, Inc., Glenborough Realty Trust Incorporated, Health Care REIT, Inc., Highwoods Properties, Inc., Kilroy Realty Corporation, Mack-Cali Realty Corporation, Maguire Properties, Inc., Mid-America Apartment Communities, Inc., Nationwide Health Properties, Inc., New Plan Excel Realty Trust, Inc., Pennsylvania Real Estate Investment Trust, Post Properties, Inc., Realty Income Corporation and Strategic Hotels & Resorts, Inc.

Although the compensation committee obtains and reviews compensation data from its peers, it does not believe that it is appropriate to establish compensation levels based solely on benchmarking. Instead, the compensation committee relies upon its judgment in making compensation decisions, after reviewing the performance of the company and carefully evaluating an executive officer's individual performance during the year and, for executive officers other than Mr. Gold, business unit performance during the year. We strive to achieve an appropriate mix between equity incentive awards and cash payments in order to meet our objectives. Any apportionment goal is not applied rigidly and does not control our compensation decisions. Our mix of compensation elements is designed to reward recent results and motivate long-term performance through a combination of cash and equity incentive awards.

Based on the performance of the company and our executive team, the objective of the compensation committee was to target total compensation for 2006 for our executive officers at a level that was generally at or near the 75th percentile of the total compensation paid to executives holding comparable positions within the peer group companies. The compensation committee also allocated total compensation between cash and equity compensation based on benchmarking to our peer group companies. The committee compared the executive compensation programs as a whole and also compared the pay of individual executives if the positions were sufficiently similar to make the comparisons meaningful.

Elements of the Executive Compensation Program

Base Salary

The initial base salary for each executive officer is provided in the employment agreement between BioMed and such officer, as described below under "Employment Agreements," subject to annual increases based on increases in the consumer price index and further increases in the discretion of the board of directors or compensation committee. In determining base salary increases, the compensation committee considered each executive officer's individual

performance, the company's overall performance and competitive salary information.

In connection with the annual review of their performance, in January 2007, the compensation committee approved increases to the annual base salaries of our executive officers, effective January 1, 2007, with Mr. Gold's annual base salary increased 7% to \$450,000, each of Messrs. Wilson's, Griffin's and McDevitt's annual base salary increased 3% to \$298,500, and Mr. Kreitzer's annual base salary increased 4% to \$150,000.

Table of Contents

Annual Cash Bonuses

Our annual executive bonus program is intended to reward our executive officers for individual achievement in supporting the fulfillment of corporate objectives, and each executive officer's employment agreement provides for an annual bonus range. Our goal is to have a significant portion of the executive officers' cash compensation consist of performance-based bonuses.

The compensation committee, subject to the terms of the executive officers' employment agreements and with input from our chief executive officer with respect to the other executive officers, uses its discretion in determining actual bonus amounts, based on its review of the performance of the company, careful evaluation of each executive officer's performance and applicable business unit performance during the year, and the level of pay of each executive officer compared to other similarly situated executives in the peer companies as described above.

The specific amounts of the cash bonuses awarded to our Named Executive Officers for the 2006 fiscal year are reflected in the Summary Compensation Table. Bonuses were approved by the Compensation Committee in January 2007 and paid in February 2007.

Long-Term Incentives - Restricted Stock Awards

Our 2004 incentive award plan authorizes the compensation committee to grant stock options, restricted stock, LTIP units, dividend equivalents, stock appreciation rights, restricted stock units and other incentive awards to our executive officers and other key employees. The long-term incentive aspect of our executive compensation program is realized primarily by the granting of restricted stock awards and LTIP units under our incentive award plan. These equity incentive awards are designed to increase senior management's stock ownership in BioMed, attract and retain experienced and talented employees and to encourage their long-term quality performance with BioMed. Because the value of the equity award is dependent upon stock performance, the long-term equity incentive program directly aligns employee compensation with the interests of our stockholders. In addition, equity incentive awards generally vest over three or four years, thereby providing an incentive for the grantee to remain with BioMed, and dividends are paid on the entirety of the grant from the date of the grant.

The compensation committee has authority to grant equity incentive awards to our executive officers. Annual equity incentive awards are generally made in connection with the compensation committee's annual review of company performance and executive officer performance conducted in the first quarter of each year. In granting equity incentive awards, the compensation committee considers the recommendations of senior management, the duties and responsibilities of the individual, the anticipated future performance of the individual, and that individual's ability to impact positively the achievement of BioMed's objectives, as well as competitive compensation information from our peer group companies. The incentive award plan does not provide any formulated method for weighing these factors, and a decision to grant an award is based primarily upon the compensation committee's evaluation of the past as well as the future anticipated performance and responsibilities of the individual in question.

For the 2006 fiscal year, in January 2007, Mr. Gold was granted 52,500 LTIP units, Mr. Kreitzer was granted 45,000 LTIP units, Mr. Wilson was granted 52,500 LTIP units, Mr. Griffin was granted 32,500 shares of restricted stock and 32,500 LTIP units, and Mr. McDevitt was granted 70,000 LTIP units. The equity incentive awards granted to our Named Executive Officers in 2006 are reflected in the Grants of Plan-Based Awards table.

Prior to December 28, 2006, our 2004 incentive award plan determined the fair market value of our common stock by reference to the closing price of our common stock on the New York Stock Exchange as of the trading day immediately preceding the date of grant. Effective as of December 28, 2006, we amended this stock award plan to

provide that the fair market value of our common stock is determined by reference to the closing price of our common stock on the New York Stock Exchange on the date of grant.

Equity Grant Practices.

The annual awards of unvested restricted stock and LTIP units are granted to our executive officers at the compensation committee's regularly scheduled meeting in the first quarter of each year. Such equity awards are effective upon grant. Board and committee meetings are generally scheduled at least a year in advance. Scheduling

decisions are made without regard to anticipated earnings or other major announcements by the company. We have not awarded any stock options.

Defined Contribution Plan

We established and maintain a retirement savings plan under Section 401(k) of the Internal Revenue Code of 1986, as amended, or the Code, to cover our eligible employees, including our executive officers, which became effective as of January 1, 2005. The plan allows eligible employees to defer, within prescribed limits, up to 100% of their compensation on a pre-tax basis through contributions to the plan. We currently match each eligible participant's contributions, within prescribed limits, with an amount equal to 50% of such participant's initial 6% tax-deferred contributions. In addition, we reserve the right to make additional discretionary contributions on behalf of eligible participants. Our employees are eligible to participate in the plan if they meet certain requirements, including a minimum period of credited service. Any matching and discretionary company contributions may be subject to certain vesting requirements. Some classes of employees, such as those covered by a collective bargaining agreement, will not be eligible to participate in the plan. We believe that our 401(k) plan is an appropriate element of compensation, which is competitive within our peer group companies and necessary to attract and retain employees.

Other Benefits

We provide benefits such as medical, dental and life insurance and disability coverage for all of our employees, including our executive officers. We also provide personal paid time off and other paid holidays to all employees, including the executive officers, which are similar to those provided at comparable companies. In addition, under the terms of the executive officers' employment agreements described below, we provide reimbursement for the premiums for long-term disability and life insurance policies and car allowances, and in the case of Mr. Griffin, we provided a relocation reimbursement upon his joining the company in 2006.

Employment Agreements

In order to specify our expectations with regard to our executive officers' duties and responsibilities and to provide greater certainty with regard to the amounts payable to our executive officers in connection with certain terminations or change in control events, our board of directors has approved and we have entered into employment agreements with each of our executive officers. Except as provided below, all of the employment agreements with our executive officers contain substantially similar terms. We believe that the employment agreements offer competitive terms and are appropriate to attract and retain individuals at the executive officer level.

We entered into employment agreements, effective as of August 6, 2004, with Messrs. Gold, Kreitzer, Wilson and McDevitt. The employment agreements, as amended to date, provide for Mr. Gold to serve as our Chairman, Chief Executive Officer and President, Mr. Kreitzer to serve as our Executive Vice President, General Counsel and Secretary, Mr. Wilson to serve as our Executive Vice President - Operations and Mr. McDevitt to serve as our Regional Executive Vice President. We also entered into an employment agreement, effective as of March 27, 2006, with Mr. Griffin to serve as our Chief Financial Officer. These employment agreements require Messrs. Gold, Wilson, McDevitt and Griffin, as applicable, to devote such attention and time to our affairs as is necessary for the performance of their duties, but also permit them to devote time to their outside business interests consistent with past practice. Under the employment agreements with Messrs. Gold and Kreitzer, we will use our best efforts to cause Mr. Gold to be nominated and elected as Chairman of our board of directors and Mr. Kreitzer to be nominated and elected as a member of our board of directors.

On September 15, 2006, we entered into an amendment to Mr. Kreitzer's employment agreement, under which Mr. Kreitzer will continue to serve as Executive Vice President, General Counsel and Secretary of BioMed at 50% of

a full-time work schedule and Mr. Kreitzer will continue to serve as a member of BioMed's board of directors. Among other things, the amendment reduced Mr. Kreitzer's annual base salary to \$144,375 and provides that any bonuses will be determined by BioMed's board of directors or the compensation committee of the board of directors, in its discretion.

Table of Contents

The employment agreements with Messrs. Gold, Kreitzer and Wilson have a term of three years, and the employment agreements with Messrs. McDevitt and Griffin have two-year terms, starting on their respective effective dates. Each employment agreement provides for automatic one-year extensions thereafter, unless either party provides at least six months' notice of non-renewal.

The employment agreements provide for:

initial annual base salaries, subject to annual increases based on increases in the consumer price index and further increases in the discretion of our board of directors or the compensation committee of our board of directors,

eligibility for annual cash performance bonuses based on the satisfaction of performance goals established by our board of directors or the compensation committee of our board of directors,

participation in other incentive, savings and retirement plans applicable generally to our senior executives,

medical and other group welfare plan coverage and fringe benefits provided to our senior executives,

payment of the premiums for a long-term disability insurance policy which will provide benefits equal to at least 60% of an executive's annual base salary,

payment of the premiums for a \$1 million term life insurance policy,

monthly payments of \$750 (\$1,000 in the case of Mr. Gold and \$375 in the case of Mr. Kreitzer) for an automobile allowance, and

in the case of Mr. Griffin, a one-time reimbursement payment for reasonable moving expenses up to a total of \$50,000.

Each executive, other than Mr. Kreitzer, has a minimum annual bonus equal to 50% of base salary. Mr. Gold's annual bonus may be up to 200% of his base salary. Messrs. Wilson, McDevitt and Griffin may have annual bonuses up to 150% of their base salary.

The employment agreements provide that, if an executive's employment is terminated by us without cause or by the executive for good reason (each as defined in the applicable employment agreement), or, in the case of Mr. Gold, if we fail to renew his employment agreement for each of the first two renewal years, the executive will be entitled to the following severance payments and benefits, subject to his execution and non-revocation of a general release of claims:

an amount, which we refer to as the severance amount, equal to the sum of the then-current annual base salary plus average bonus over the prior three years, multiplied by

with respect to Messrs. Gold, Kreitzer, Wilson and Griffin, three, or

with respect to Mr. McDevitt, one,

50% of which amount shall be paid in a lump sum and the remaining 50% of which amount will be paid in equal monthly installments over two years (or, with respect to Mr. McDevitt, one year),

payments of premiums for long-term disability insurance and life insurance for 12 months following the executive's termination of employment, subject to reduction to the extent that the executive receives comparable benefits from a subsequent employer,

health benefits for 18 months following the executive's termination of employment at the same level as in effect immediately preceding such termination, subject to reduction to the extent that the executive receives comparable benefits from a subsequent employer,

up to \$15,000 worth of outplacement services at our expense, and

100% of the unvested stock options held by the executive will become fully exercisable and 100% of the unvested restricted stock held by such executive will become fully vested.

Table of Contents

Under the employment agreements, we agree to make an additional tax gross-up payment to the executive if any amounts paid or payable to the executive would be subject to the excise tax imposed on certain so-called "excess parachute payments" under Section 4999 of the Code. However, if a reduction in the payments and benefits of 10% or less would render the excise tax inapplicable, then the payments and benefits will be reduced by such amount, and we will not be required to make the gross-up payment.

Each employment agreement provides that, if the executive's employment is terminated by us without cause or by the executive for good reason within one year after a "change in control" (as defined in the applicable employment agreement), then the executive will receive the above benefits and payments as though the executive's employment was terminated without cause or for good reason. However, the severance amount shall be paid in a lump sum.

Each employment agreement also provides that the executive or his estate will be entitled to certain severance benefits in the event of his death or disability. Specifically, each executive or, in the event of the executive's death, his beneficiaries, will receive:

an amount equal to the then-current annual base salary,

health benefits for the executive and/or his eligible family members for 12 months following the executive's termination of employment, and

in the event the executive's employment is terminated as a result of his disability, we will continue to pay the premiums on the long-term disability and life insurance policies described above for 12 months.

The employment agreements also contain standard confidentiality provisions, which apply indefinitely, and non-solicitation provisions, which apply during the term of the employment agreements and for any period thereafter during which the executive is receiving payments from us.

Additional information concerning the potential payments our executive officers may receive in the event of termination of their employment or a change in control of the company is provided in the Potential Payments Upon Termination or Change-in-Control table below.

Tax Deductibility of Executive Compensation

Section 162(m) of the Code precludes a publicly held company from taking a deduction for compensation in excess of \$1 million for its chief executive officer or any of its four other highest paid officers, unless such compensation is performance based and certain specific and detailed criteria are satisfied. The compensation committee considers the anticipated tax treatment to the company and the executive officers in its review and establishment of compensation programs and payments. The deductibility of some types of compensation payments can depend upon the timing of the executive's vesting or exercise of previously granted rights. Interpretations of and changes in applicable tax laws and regulations as well as other factors beyond the committee's control also can affect deductibility of compensation. Based on current interpretations, the committee believes that BioMed's current incentive award plans have been structured so that compensation paid in connection with the grant of restricted stock under the plans will qualify as performance based compensation under Section 162(m). However, the committee's general policy is to maintain flexibility in compensating executive officers in a manner designed to promote varying corporate goals. Accordingly, the compensation committee has not adopted a policy that all compensation must be deductible.

Sections 280G and 4999 of the Code

Sections 280G and 4999 of the Code impose certain adverse tax consequences on compensation treated as excess parachute payments. An executive is treated as having received excess parachute payments for purposes of Sections 280G and 4999 of the Code if his or her compensation is contingent on a change in the ownership or control of a corporation, and the aggregate amount of such contingent compensatory payments and benefits equal or exceeds three times the executive's base amount. If the executive's aggregate contingent compensatory payments and benefits equal or exceeds three times the base amount, the portion of the payments and benefits in excess of the base amount are treated as excess parachute payments. Treasury Regulations define the events that constitute a

Table of Contents

change in ownership or control of a corporation for purposes of Sections 280G and 4999 of the Code and the executives subject to Sections 280G and 4999 of the Code.

An executive's base amount generally is determined by averaging the executive's Form W-2 taxable compensation from the corporation and its subsidiaries for the five calendar years preceding the calendar year in which the change in ownership or control occurs. An executive's excess parachute payments are subject to a 20% excise tax under Section 4999 of the Code, in addition to any applicable federal income and employment taxes. Also, the corporation's compensation deduction with respect to the executive's excess parachute payments is disallowed under Section 280G of the Code. If we were to be subject to a change of control, certain amounts received by our executives (for example, amounts attributable to the accelerated vesting of nonvested stock awards) could be excess parachute payments under Sections 280G and 4999 of the Code.

2004 Incentive Award Plan

We have adopted the 2004 Incentive Award Plan of BioMed Realty Trust, Inc. and BioMed Realty, L.P. The incentive award plan became effective on August 3, 2004. The incentive award plan provides for the grant to employees and consultants of our company and our operating partnership (and their respective subsidiaries) and directors of our company of stock options, restricted stock, LTIP units, dividend equivalents, stock appreciation rights, restricted stock units and other incentive awards. Only employees of our company and its qualifying subsidiaries are eligible to receive incentive stock options under the incentive award plan. We have reserved a total of 2,500,000 shares of our common stock for issuance pursuant to the incentive award plan, subject to certain adjustments as set forth in the plan. As of December 31, 2006, 705,014 shares of restricted stock had been granted and 1,794,986 shares remained available for future grants under the incentive award plan.

In December 2006, we amended the incentive award plan to allow for the issuance of LTIP units to directors, officers and other employees. LTIP units represent a profits interest in our operating partnership for services rendered or to be rendered by the LTIP unitholder in their capacity as a partner, or in anticipation of becoming a partner, in the operating partnership. Initially, LTIP units do not have full parity with common units of the operating partnership with respect to liquidating distributions although they receive the same quarterly per unit distributions as common units and may vote the LTIP units from the date of issuance. The LTIP units are subject to vesting requirements, which lapse over a specified period of time (normally three or four years from the date of issuance). In addition, the LTIP units are generally subject to a two-year lock-up period during which time the LTIP unit may not be redeemed or sold by the LTIP unitholder. Upon the occurrence of specified events, LTIP units may over time achieve full parity with common units of the operating partnership for all purposes. Upon achieving full parity, known as the equalization date, and satisfying the vesting and any related lock-up periods, LTIP units may be redeemed for an equal number of shares of our common stock or cash, at our election.

In connection with the amendments to the incentive award plan described above, we granted to certain officers the right to cancel previously issued unvested restricted stock grants and to receive in return an equal number of LTIP units, which would retain the same vesting schedule. As a result, on December 28, 2006, 140,000 LTIP units were granted to our Named Executive Officers pursuant to the cancellation of the corresponding unvested restricted stock awards.

Potential Payments Upon Termination or Change-in-Control

The table below reflects the amount of compensation that each of our Named Executive Officers would be entitled to receive under his existing employment agreement with the company upon termination of such executive's employment in certain circumstances. The amounts shown assume that such termination was effective as of December 31, 2006, and are only estimates of the amounts that would be paid out to such executives upon termination of their employment. The actual amounts to be paid out can only be determined at the time of such executive's separation from the company. Please see the section above entitled "Compensation Discussion and Analysis - Employment Agreements" for further discussion. In the event of a termination for cause or without good reason, including in connection with a change in control, the executives would not be entitled to any of the amounts reflected in the table.

- (1) In the event the executive's employment is terminated without cause or for good reason, other than within one year after a change in control, 50% of the severance payment will be paid in a lump sum and the remaining 50% will be paid in equal monthly installments over two years (or, with respect to Mr. McDevitt, one year). If the executive's employment is terminated without cause or for good reason within one year after a change in control, the severance payment is paid in a single lump sum. The severance payment is an amount equal to the sum of the then-current annual base salary plus average bonus over the prior three years (or such lesser number of years as the executive has been employed by us), multiplied by (a) with respect to Messrs. Gold, Kreitzer, Wilson and Griffin, three, or (b) with respect to Mr. McDevitt, one. The calculations in the table are based on the annual base salary on December 31, 2006 and an averaging of the bonuses paid in 2005, 2006 and 2007 with

respect to Messrs. Gold, Kreitzer, Wilson and McDevitt and the bonus paid in 2006 for Mr. Griffin. Mr. Gold is also entitled to these payments in the event we fail to renew his employment agreement for each of the first two renewal years.

- (2) This column assumes permanent disability (as defined in the existing employment agreements) for each executive at December 31, 2006.
- (3) For purposes of this calculation, each executive's total unvested equity awards, including restricted stock and LTIP units, on December 31, 2006 are multiplied by the closing market price of our common stock at December 29, 2006 of \$28.60.
- (4) If the executive's employment is terminated without cause or for good reason, represents the amount needed to pay for health benefits for the executive and his eligible family members for 18 months following the executive's termination of employment at the same level as in effect immediately preceding such termination. If the executive's employment is terminated by reason of the executive's death or disability, represents the amount needed to pay for health benefits for the executive and his eligible family members for 12 months following the executive's termination of employment at the same level as in effect immediately preceding such termination.
- (5) Represents the amount needed to pay for premiums for long-term disability and life insurance for 12 months at the levels in effect for each executive officer as of December 31, 2006.

Audit Committee Report

The audit committee oversees BioMed's financial accounting and reporting processes and the audits of the financial statements of BioMed. All committee members satisfy the definition of independent director set forth in the listing standards of the New York Stock Exchange. The board of directors adopted a written charter for the audit committee on August 6, 2004, a copy of which is available on BioMed's website at www.biomedrealty.com.

In fulfilling its oversight responsibilities, the committee reviewed and discussed with management the audited financial statements in the Annual Report on Form 10-K, including a discussion of the quality, and not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements.

BioMed's independent registered public accounting firm, KPMG LLP, is responsible for expressing an opinion on the conformity of its audited financial statements with generally accepted accounting principles. KPMG LLP met with the committee and expressed its judgment as to the quality, not just the acceptability, of BioMed's accounting principles and discussed with the committee other matters as required under generally accepted auditing standards, including those matters required under Statement on Accounting Standards No. 61 (Communication with Audit Committees) or the Codification of Statements on Auditing Standards, AU Section 380. In addition, KPMG

Table of Contents

LLP discussed the auditors' independence from BioMed and from BioMed's management and delivered to the committee those matters to be set forth in written disclosures as required by Independence Standards Board Standard No. 1.

The committee discussed with BioMed's independent registered public accounting firm the overall scope and plan of its audit. The committee meets with the independent registered public accounting firm, with and without our management present, to discuss the results of its examinations, its evaluations of our internal controls, and the overall quality of our financial reporting.

In reliance on the reviews and discussions referred to above, the committee has recommended that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2006 for filing with the Securities and Exchange Commission.

This report of the audit committee shall not be deemed incorporated by reference by any general statement incorporating by reference this proxy statement into any filing under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, except to the extent that the company specifically incorporates this information by reference, and shall not otherwise be deemed filed under such acts.

The foregoing report has been furnished by the audit committee.

RELATED PARTY TRANSACTIONS

We have adopted a written policy regarding the review, approval and ratification of any related party transaction. Under this policy, our audit committee will review the relevant facts and circumstances of each related party transaction, including if the transaction is on terms comparable to those that could be obtained in arm's length dealings with an unrelated third party and the extent of the related party's interest in the transaction, and either approve or disapprove the related party transaction. Any related party transaction shall be consummated and shall continue only if the audit committee has approved or ratified the transaction in accordance with the guidelines set forth in the policy. For purposes of our policy, a Related Party Transaction is a transaction, arrangement or relationship (or any series of similar transactions, arrangements or relationships) requiring disclosure under Item 404(a) of Regulation S-K promulgated by the Securities and Exchange Commission, or any successor provision, as then in effect, except that the \$120,000 threshold stated therein shall be deemed to be \$60,000.

Formation Transactions and Contribution of Properties

BioMed Realty Trust, Inc. was formed as a Maryland corporation on April 30, 2004. We also formed our operating partnership, BioMed Realty, L.P., as a Maryland limited partnership on April 30, 2004. In connection with our initial public offering in August 2004, we acquired interests in six properties through our operating partnership that were previously owned by limited partnerships and a limited liability company in which Messrs. Gold, Kreitzer, Wilson and McDevitt, entities affiliated with them, and private investors and tenants who are not affiliated with them owned interests.

Contribution Agreements

We received the interests in the properties contributed by our executive officers and their affiliates under contribution agreements with the individuals or entities that held those interests. Under the contribution agreements we agreed that if our operating partnership directly or indirectly sells, exchanges or otherwise disposes of (whether by way of merger, sale of assets or otherwise) in a taxable transaction any interest in the properties contributed by our executive officers and their affiliates before the tenth anniversary of the completion of our initial public offering, then our operating partnership will indemnify each contributor for all direct and indirect adverse tax consequences. The calculation of damages will not be based on the time value of money or the time remaining within the

Table of Contents

indemnification period. These tax indemnities do not apply to the disposition of a restricted property under certain circumstances.

We have also agreed for a period of ten years following the date of our initial public offering to use reasonable best efforts consistent with our fiduciary duties to maintain at least \$8.0 million of debt, some of which must be property specific, to enable the contributors of these properties to guarantee such debt in order to defer any taxable gain they may incur if our operating partnership repays existing debt.

Redemption or Exchange of the Limited Partnership Units in our Operating Partnership

As of October 1, 2005, limited partners of our operating partnership, including Messrs. Gold, Kreitzer, Wilson and McDevitt, have the right to require our operating partnership to redeem all or a part of their units for cash, based upon the fair market value of an equivalent number of shares of our common stock at the time of the redemption, or, at our election, shares of our common stock in exchange for such units, subject to certain ownership limits set forth in our charter. As of March 31, 2007, the limited partners of our operating partnership held units exchangeable for an aggregate of 2,863,564 shares of our common stock, assuming the exchange of units into shares of our common stock on a one-for-one basis.

Other Benefits to Related Parties

Messrs. Gold, Kreitzer and Wilson have agreed to indemnify the lenders of the debt on the contribution properties for certain losses incurred by the lender as a result of breaches by the borrowers of the loan documents. In connection with our initial public offering, we agreed to indemnify Messrs. Gold, Kreitzer and Wilson against any payments they may be required to make under such indemnification agreements. However, our indemnification obligation will not be effective with respect to losses relating to a breach of the environmental representations and warranties made to our operating partnership by Messrs. Gold, Kreitzer and Wilson in their respective contribution agreements. For losses relating to such breaches, Messrs. Gold, Kreitzer and Wilson have agreed to indemnify our operating partnership.

We have entered into a registration rights agreement with the limited partners in our operating partnership to provide registration rights to holders of common stock to be issued upon redemption of their units. Pursuant to the registration rights agreement, in the fourth quarter of 2005, we filed and caused to become effective a registration statement on Form S-3 for the registration of the common stock to be issued upon redemption of the units.

Audit Committee Policy Regarding Pre-Approval of Audit and Permissible Non-Audit Services of Our Independent Registered Public Accounting Firm

Our audit committee has established a policy that requires that all audit and permissible non-audit services provided by our independent registered public accounting firm will be pre-approved by the audit committee, or a designated audit committee member. These services may include audit services, audit-related services, tax services and other services. All permissible non-audit services provided by our independent registered public accounting firm have been pre-approved by the audit committee, or a designated audit committee member. Our audit committee has considered whether the provision of non-audit services is compatible with maintaining the accountants' independence and determined that it is consistent with such independence.

Section 16(a) Beneficial Ownership Reporting Compliance

Under Section 16(a) of the Securities Exchange Act of 1934, as amended, directors, officers and beneficial owners of 10% or more of our common stock, or reporting persons, are required to report to the Securities and Exchange Commission on a timely basis the initiation of their status as a reporting person and any changes with respect to their beneficial ownership of our common stock. Based solely on our review of such forms received by us and the written representations of the reporting persons, we believe that no reporting persons known to us were delinquent with respect to their reporting obligations as set forth in Section 16(a) of the Exchange Act during 2006.

In addition, our bylaws include other requirements for nomination of candidates for director and proposals of other business.

Stockholders sharing an address who have been previously notified by their broker, bank or other intermediary and have consented to householding will receive only
