**CGG wins contract for 4<sup>th</sup> consecutive season offshore India**

Compagnie Generale de Geophysique (CGG) announces its fourth consecutive season of work in India with the award of a major 3D seismic offshore acquisition contract, worth over 100 million \$. This deepwater seismic program to be performed between October 2006 and March 2007 covers a surface area of 8600 sq km off the eastern coast. Full onboard processing will be performed onboard the three 3 D seismic vessels using CGG s proprietary software, Geocluster.

This contract constitutes a clear measure of the quality of our relations with ONGC. stated Christophe Pettenati-Auzière, CGG s President, Geophysical Services. It marks our commitment to our continued strategy of maintaining a strong presence in India, where the CGG Group regularly conducts deepwater and land acquisition surveys as well as data processing activities with the center we opened in Mumbai last year.

*The information included herein contains certain forward-looking statements within the meaning of Section 27A of the securities act of 1933 and section 21<sup>E</sup> of the Securities Exchange Act of 1934. These forward-looking statements reflect numerous assumptions and involve a number of risks and uncertainties as disclosed by the Company from time to time in its filings with the Securities and Exchange Commission. Actual results may vary materially.*

*The Compagnie Generale de Geophysique group is a global participant in the oilfield services industry, providing a wide range of seismic data acquisition, processing and geosciences services and software to clients in the oil and gas exploration and production business. It is also a global manufacturer of geophysical equipment.*
