**to be held on May 5, 2010 at 8:30 a.m.
at the offices of Goodwin Procter LLP, 53 State Street, Boston, MA 02109**

April 5, 2010

Proxies in the form enclosed with this Proxy Statement are solicited by the Board of Directors of Insulet Corporation, a Delaware corporation (the Company), for use at the Annual Meeting of Stockholders to be held at 8:30 a.m., local time, on Wednesday, May 5, 2010 at the offices of Goodwin Procter LLP, 53 State Street, Boston, MA 02109, or at any adjournments or postponements thereof (the Annual Meeting). An Annual Report to Stockholders, containing financial statements for the fiscal year ended December 31, 2009, is being mailed together with this Proxy Statement to all stockholders entitled to vote at the Annual Meeting. The Annual Report, however, is not a part of the proxy solicitation material.

**Important Notice Regarding the Availability of Proxy Materials for
the Stockholder Meeting to be Held on May 5, 2010**

This Proxy Statement and the Annual Report to Stockholders are available at <http://www.insulet.com/proxy>.

As more fully described in this Proxy Statement, the purposes of the Annual Meeting are to:

- (i) elect two (2) Class III directors nominated by the Board of Directors, each to serve for a three-year term and until his successor has been duly elected and qualified or until his earlier resignation or removal;
- (ii) ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010; and
- (iii) consider and vote upon such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof.

Proposal 1 relates solely to the election of two (2) Class III directors nominated by the Board of Directors and does not include any other matters relating to the election of directors, including without limitation, the election of directors nominated by any stockholder of the Company.

Only stockholders of record at the close of business on March 22, 2010 (the Record Date) are entitled to notice of and to vote at the Annual Meeting and at any adjournments or postponements thereof. As of that date, 37,934,316 shares of common stock, par value \$0.001 per share, of the Company were issued and outstanding, and there were 30 stockholders of record. The holders of the Company's common stock are entitled to one vote per share on any proposal presented at the Annual Meeting. You may vote in one of the following three ways whether or not you plan to attend the Annual Meeting: (1) by completing, signing and dating the accompanying proxy card and returning it in the postage-prepaid envelope enclosed for that purpose, (2) by completing your proxy using the toll-free telephone number listed on the proxy card, or (3) by completing your proxy on the Internet at the address listed on the proxy card. Votes made by phone or on the Internet must be received by 11:59 p.m., local time, on May 4, 2010. If you attend the Annual Meeting, you may vote in person even if you have previously returned your proxy card or

completed your proxy by phone or on the Internet.

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time before it is voted. Proxies may be revoked by (a) filing with the Secretary of the Company, before the taking of the vote at the Annual Meeting, a written notice of revocation bearing a later date than the proxy, (b) duly completing a later-dated proxy relating to the same shares and delivering it to the Secretary of the Company

Table of Contents

before the taking of the vote at the Annual Meeting, or (c) attending the Annual Meeting and voting in person (although attendance at the Annual Meeting will not in and of itself constitute a revocation of a proxy). Any written notice of revocation or subsequent proxy should be sent so as to be delivered to Insulet Corporation, 9 Oak Park Drive, Bedford, Massachusetts 01730, Attention: Secretary, before the taking of the vote at the Annual Meeting.

The representation in person or by proxy of at least a majority of the outstanding shares of the Company's common stock entitled to vote at the Annual Meeting is necessary to constitute a quorum for the transaction of business. Votes withheld from any nominee, abstentions and broker non-votes are counted as present or represented for purposes of determining the presence or absence of a quorum for the Annual Meeting. A non-vote occurs when a nominee holding shares for a beneficial owner votes on one proposal but does not vote on another proposal because, with respect to such other proposal, the nominee does not have discretionary voting power and has not received instructions from the beneficial owner.

For Proposal 1, the election of Class III directors, the nominees receiving the highest number of affirmative votes of the shares present or represented by proxy and entitled to vote on such matter at the Annual Meeting shall be elected as directors. For Proposal 2, the ratification of the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2010, an affirmative vote of a majority of the shares present, in person or represented by proxy, and voting on each such matter is required for approval. Abstentions are included in the number of shares present or represented and voting on each matter. Broker non-votes are not considered voted for the particular matter and have the effect of reducing the number of affirmative votes required to achieve a majority for such matter by reducing the total number of shares from which the majority is calculated.

The persons named as attorneys-in-fact in the proxies, Duane DeSisto and R. Anthony Diehl, were selected by the Board of Directors and are officers of the Company. All properly executed proxies returned in time to be counted at the Annual Meeting will be voted by such persons at the Annual Meeting. Where a choice has been specified on the proxy with respect to the foregoing matters, the shares represented by the proxy will be voted in accordance with the specifications. If no such specifications are indicated, such proxies will be voted **FOR** the election of the director nominees and **FOR** the ratification of the appointment of Ernst & Young LLP.

Aside from the election of directors and ratification of the appointment of Ernst & Young LLP, the Board of Directors knows of no other matters to be presented at the Annual Meeting. If any other matter should be presented at the Annual Meeting upon which a vote properly may be taken, shares represented by all proxies received by the Board of Directors will be voted with respect thereto in accordance with the judgment of the persons named as attorneys-in-fact in the proxies.

PROPOSAL 1

ELECTION OF DIRECTORS

The Company's Board of Directors currently consists of seven members. The Company's certificate of incorporation divides the Board of Directors into three classes. One class is elected each year for a term of three years. The Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, has nominated Duane DeSisto and Steven Sobieski and recommends that each be elected to the Board of Directors as a Class III director, each to hold office until the Annual Meeting of Stockholders to be held in the year 2013 and until his successor has been duly elected and qualified or until the earlier of his death, resignation or removal. The Board of Directors knows of no reason why any of the nominees would be unable or unwilling to serve, but if any nominee should for any reason be unable or unwilling to serve, the proxies will be voted for the election of such other person for the office of director as the Board of Directors may recommend in the place of such nominee. Unless otherwise instructed, the proxy holders will vote the proxies received by them for the nominees named below.

Board Leadership Structure

The Board has designated Ms. Crawford to serve as the Company's lead independent director. As lead director, Ms. Crawford performs many of the same functions and duties as a Chairman of the Board. Pursuant

Table of Contents

to the Company's Corporate Governance Guidelines, the lead director is responsible for coordinating with the chief executive officer in the creation of the agenda for each meeting, ensuring that topics at each meeting are effectively covered, chairing executive sessions of the Board of Directors and acting as the principal liaison between the independent directors and management. The Board of Directors believes that having a lead director ensures a greater role for the independent directors in the oversight of the Company and active participation of the independent directors in setting agendas and establishing priorities and procedures for the work of the Board of Directors.

The Company does not currently have a designated Chairman of the Board and does not have a policy as to whether the same person should serve as both the chief executive officer and the Chairman of the Board. The Board believes that it should have the flexibility to make these determinations at any given point in time in the way that it believes provides the most appropriate leadership for the Company at that time. Given the Company's size and focus on a single market and product, the Company believes that this leadership structure has been effective thus far and does not feel it is necessary to appoint a Chairman of the Board. The Company recognizes that depending on the circumstances, different board leadership structures may be appropriate; however, the Company believes its current board leadership structure remains the optimal board leadership structure for the Company.

Executive Sessions of Independent Directors

Non-management members of the Board of Directors meet without the employee director of the Company following most regularly scheduled in-person meetings of the Board of Directors. These executive sessions include only those directors who meet the independence requirements promulgated by Nasdaq, and Ms. Crawford, as lead director, has been responsible for chairing these executive sessions.

Meeting Attendance

The Board of Directors met eleven times during the fiscal year ended December 31, 2009, and took action by unanimous written consent three times. Each of the directors attended at least 75% of the aggregate of the total number of meetings of the Board of Directors and the total number of meetings of all committees of the Board of Directors on which he or she served during fiscal 2009.

The Company's policy is that all directors are encouraged to attend the Company's Annual Meeting of Stockholders. This is our third Annual Meeting of Stockholders since the Company consummated its initial public offering on May 15, 2007. Six members of the Board of Directors (other than Steven Sobieski) attended the Annual Meeting of Stockholders held in 2009.

Risk Oversight

The Board of Directors is responsible for overseeing the Company's risk assessment and management function, considering the Company's major financial risk exposures and evaluating the steps that the Company's management has taken to monitor and control such exposures. For example, the Board of Directors receives regular reports from senior management on areas of material risk to the Company, including operational, financial, legal and regulatory, and reputational risks. The Company believes that the leadership structure of the Board of Directors supports effective oversight of risk assessment and management.

Audit Committee

The Audit Committee of the Board of Directors currently consists of Steven Sobieski, who is the Chairman of the Audit Committee, Charles Liamos and Regina Sommer. The Board of Directors has determined that each member of the Audit Committee meets the independence requirements promulgated by Nasdaq and the SEC, including

Rule 10A-3(b)(1) under the Exchange Act. In addition, the Board of Directors has determined that each member of the Audit Committee is financially literate and qualifies as an audit committee financial expert under the rules of the SEC. Stockholders should understand that this designation is a disclosure requirement of the SEC related to the experience and understanding of the Audit Committee members with respect to certain accounting and auditing matters. The designation does not impose upon them

any duties, obligations or liabilities that are greater than those generally imposed on members of the Audit Committee and the Board of Directors, and designation as an audit committee financial expert pursuant to this SEC requirement does not affect the duties, obligations or liability of any member of the Audit Committee or the Board of Directors.

The purposes of the Audit Committee are to, among other functions, oversee our accounting and financial reporting processes and the audits of our financial statements, and take, or recommend that our Board of Directors take, appropriate action to oversee the qualifications, independence and performance of our independent auditors. The Audit Committee is also responsible for preparing the Audit Committee Report for inclusion in this and subsequent proxy statements in accordance with applicable rules and regulations.

The Audit Committee met six times during the year ended December 31, 2009. The Audit Committee operates under a written charter adopted by the Board of Directors and reviewed by the Audit Committee on an annual basis, a copy of which is included as Appendix A to this Proxy Statement and is also available at the Corporate Governance section of the Company's website at <http://www.insulet.com>.

Compensation Committee

The Compensation Committee currently consists of Sally Crawford, who is the Chairperson of the Compensation Committee, Ross Jaffe, M.D. and Joseph Zakrzewski. The Board of Directors has determined that each member of the Compensation Committee meets the independence requirements promulgated by Nasdaq. The purposes of the Compensation Committee are to, among other functions, discharge our Board of Directors' responsibilities relating to compensation of our directors and executives, oversee our overall compensation programs and prepare the Compensation Committee Report required to be included in this Proxy Statement. See the section entitled "Executive and Director Compensation" for a more detailed description of the policies and procedures of the Compensation Committee.

The Compensation Committee met five times during the year ended December 31, 2009, and took action by unanimous written consent four times. The Compensation Committee operates under a written charter adopted by the Board of Directors and reviewed by the Compensation Committee on an annual basis, a current copy of which is available at the Corporate Governance section of the Company's website at <http://www.insulet.com>.

Compensation Committee Interlocks and Insider Participation

During 2009, Ms. Crawford, Dr. Jaffe and Mr. Zakrzewski served as members of the Compensation Committee. Gary Eichhorn served as a member of the Compensation Committee until April 29, 2009. No member of the Compensation Committee was an employee or former employee of the Company or any of its subsidiaries, or had any relationship with the Company requiring disclosure herein.

During 2009, no executive officer of the Company served as: (i) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served on the Compensation Committee of the Company; (ii) a director of another entity, one of whose executive officers served on the Compensation Committee of the Company; or (iii) a member of the compensation committee (or other committee of the board of directors performing equivalent functions or, in the absence of any such committee, the entire board of directors) of another entity, one of whose executive officers served as a director of the Company.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee of the Board of Directors currently consists of Ross Jaffe, M.D., who is the Chairman of the Nominating and Corporate Governance Committee, Sally Crawford and Regina Sommer. The Board of Directors has determined that each member of the Nominating and Corporate Governance Committee meets the independence requirements promulgated by Nasdaq. The purposes of the Nominating and Corporate Governance Committee are to, among other functions, identify

individuals qualified to become board members, recommend that our Board of Directors selects the director nominees for election at each annual meeting of stockholders and periodically review and recommend to our Board of Directors any changes to our corporate governance guidelines.

The Nominating and Corporate Governance Committee met four times during the year ended December 31, 2009. The Nominating and Corporate Governance Committee operates under a written charter adopted by the Board of Directors and reviewed by the Nominating and Corporate Governance Committee on an annual basis, a current copy of which is available at the Corporate Governance section of the Company's website at <http://www.insulet.com>.

Policies Governing Director Nominations

Director Qualifications

The Nominating and Corporate Governance Committee of the Board of Directors is responsible for reviewing with the Board of Directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board of Directors in the context of the needs of the business and current make-up of the Board of Directors. The Nominating and Corporate Governance Committee must be satisfied that each committee-recommended nominee shall have high personal and professional integrity, demonstrated exceptional ability and judgment, a broad experience base or an area of particular expertise or experience that is important to the long-term success of the Company, a background that is complementary to that of existing directors so as to provide management and the Board with a diversity and freshness of views, a level of self-confidence and articulateness to participate effectively and cooperatively in Board discussions, the willingness and ability to devote the necessary time and effort to perform the duties and responsibilities of Board membership, and the experience and ability to bring informed, thoughtful and well-considered opinions for the benefit of all stockholders to the Board and management. In addition to these minimum qualifications, the Nominating and Corporate Governance Committee will recommend that the Board of Directors select persons for nomination to help ensure that a majority of the Board of Directors shall be independent, in accordance with the standards established by Nasdaq, that at least one member of the Audit Committee shall have such experience, education and other qualifications necessary to qualify as an audit committee financial expert, as defined by SEC rules, that the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee each shall be comprised entirely of independent directors, and that each member of the Audit Committee is able to read and understand fundamental financial statements, including a company's balance sheet, income statement and cash flow statement. Finally, in addition to any other standards the Nominating and Corporate Governance Committee may deem appropriate from time to time for the overall structure and composition of the Board of Directors, the Nominating and Corporate Governance Committee may consider whether a nominee has direct experience in the industry or in the markets in which the Company operates.

Process for Identifying and Evaluating Director Nominees

The Board of Directors is responsible for approving nominees to the Board. Generally, the Nominating and Corporate Governance Committee identifies candidates for director nominees in consultation with management, through the use of search firms or other advisors, through the recommendations submitted by members of the Board of Directors, stockholders or through such other methods as the Nominating and Corporate Governance Committee deems to be helpful to identify candidates. Once candidates have been identified, the Nominating and Corporate Governance

Committee confirms that the candidates meet all of the minimum qualifications for director nominees established by the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee may gather information about the candidates through interviews, detailed questionnaires, background checks or other means that the Nominating

Table of Contents

and Corporate Governance Committee deems to be helpful in the evaluation process. The Nominating and Corporate Governance Committee then meets as a group to discuss and evaluate the qualities and skills of each candidate, both on an individual basis and taking into account the overall composition and needs of the Board of Directors. Based on the results of the evaluation process, the Nominating and Corporate Governance Committee recommends candidates for the Board of Directors approval as director nominees for election to the Board of Directors. The Nominating and Corporate Governance Committee also recommends candidates to the Board of Directors for appointment to the committees of the Board of Directors.

Procedures for Recommendation of Director Nominees by Stockholders

The Nominating and Corporate Governance Committee will consider director nominee candidates who are recommended by stockholders of the Company. Stockholders, in submitting recommendations to the Nominating and Corporate Governance Committee for director nominee candidates, must follow the following procedures:

candidate must complete a detailed questionnaire regarding his or her experience, background and independence.

Once the Nominating and Corporate Governance Committee receives the nomination of a candidate and the candidate has complied with the minimum procedural requirements above, such candidacy will be evaluated and a recommendation with respect to such candidate will be delivered to the Board of Directors. These procedures for recommending a director nominee to the Nominating and Corporate Governance Committee are subject to the Company's By-Laws which are described in the "Stockholder Proposals" section of this Proxy Statement.

EXECUTIVE AND DIRECTOR COMPENSATION

Compensation Discussion and Analysis

We provide what we believe is a competitive total compensation opportunity to our executive management team through a combination of base salary, cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. For each individual, the amount of pay that is actually realized will be primarily driven by the performance of the Company and each individual. We believe this construct is a key underpinning of our pay for performance philosophy.

This Compensation Discussion and Analysis explains the following as they relate to 2009:

our compensation objectives;

our executive compensation process; and

our Company policies, practices, and actions with respect to each compensation element.

Included in each of the above will be the rationale for compensation decisions made in 2009 with respect to our Chief Executive Officer, our Chief Financial Officer and the other three most highly-compensated executive officers during 2009 as determined in accordance with applicable SEC rules, which are collectively referred to as the named executive officers.

Objectives of Our Executive Compensation Programs

Our compensation programs for our named executive officers are designed to achieve the following objectives:

attract and retain talented and experienced executives in the highly competitive and dynamic medical device industry;

motivate and reward executives whose knowledge, skills and performance are critical to our success;

align the interests of our executives and stockholders by motivating executives to increase stockholder value and rewarding executives when stockholder value increases;

provide a competitive compensation opportunity in which a significant portion of actual realized pay is determined by Company and individual results and the creation of stockholder value;

ensure fairness among the executive management team by recognizing the contributions each executive makes to our success;

foster a shared commitment among executives by coordinating their Company and individual performance goals; and

motivate our executives to manage our business to meet our short- and long-term objectives, and reward them for meeting these objectives.

Our Executive Compensation Process

The Compensation Committee of our Board of Directors is primarily responsible for determining compensation for our executives. The Board of Directors has determined that each member of the Compensation Committee is independent as that term is defined in the applicable Nasdaq rules. In addition, each member of the Compensation Committee is an outside director as defined in Section 162(m) of the Internal Revenue Code and a non-employee director as defined under the Section 16 of the Exchange Act.

Our Compensation Committee has engaged an independent compensation consultant, Towers Watson (formerly Watson Wyatt). Towers Watson's role is to assist the Committee in reviewing the Company's executive compensation programs and practices from a market perspective. Their involvement is generally to provide market assessments on compensation levels and programs, as well as provide opinion and commentary with respect to proposed actions or changes. The Company did not independently engage Towers Watson for

Table of Contents

any services in 2009. We expect to continue to rely on our independent compensation consultant and other more formal market data regarding comparable companies' executive compensation programs and amounts in determining executive compensation.

In connection with its market assessments, Towers Watson, with input from the Compensation Committee, developed a comparison group for 2009. Peer companies were identified based on industry comparability, annual revenue, market value, employee size, total shareholder return and development stage. The 2009 group identified by Towers Watson consisted of the following companies: Abaxis Inc., Abiomed Inc., ATS Medical, DexCom Inc., Cutera, I-Flow, Hansen Medical, Micrus Endovascular Corp., NeuroMetrix, NxStage Medical Inc., Quidel, Somanetics, Stereotaxis Inc. Synovis Life Technologies, and TranS1. Based on this 2009 peer group, we targeted our total compensation for our newly hired executive officers to be between the 50th and 75th percentiles. A comparison of our total equity compensation versus our 2009 peer group shows that for 2009 our total annual equity grants measured below the median percentile.

In making executive compensation decisions, our Compensation Committee reviews, among other things:

the past compensation levels of each of our executives and of our executives as a group;

current compensation for consistency with benchmarks and previous compensation decisions;

alignment with our overall compensation philosophy;

relative compensation levels among our executives;

existing levels of stock and option ownership among our executives, previous grants of stock options to our executives and vesting schedules of previously granted options to ensure executive retention and alignment with stockholder interests;

the basis for management recommendations; and

general trends in executive compensation.

The general process the Compensation Committee undertakes is to review the recommendations of our Chief Executive Officer with respect to our named executive officers, excluding himself, and then make an independent decision. The Compensation Committee bases its performance assessment on a number of subjective and objective factors, including the achievement of pre-established Company and individual performance goals.

Our Executive Compensation Programs

Our executive compensation primarily consists of base salary, cash incentive bonuses, long-term equity incentive compensation and broad-based benefits programs. Overall, we designed our executive compensation programs to achieve the objectives described above. In particular, we place significant emphasis on performance-based incentive compensation that focuses our executives' efforts on delivering short-term and long-term successes for our stockholders without encouraging excessive risk taking.

Within the context of the overall objectives of our compensation programs, we determined the specific amounts of compensation, both targeted and realized, for each of our executives in 2009 based on a number of factors including:

our understanding of the amount of compensation paid by our peer companies to their executives with similar roles and responsibilities;

our executives' performance during 2009 in general and as measured against predetermined performance goals;

the need to avoid excessive risk taking;

the roles and responsibilities of our executives;

the individual experience and skills of, and expected contributions from, our executives;

Table of Contents

the amounts of compensation being paid to our other executives;

our executives' historical compensation at our Company; and

any contractual commitments we have made to our executives regarding compensation.

Each of the primary elements of our executive compensation is discussed in detail below, including a description of the particular element and how it fits into our overall executive compensation and a discussion of the amounts of compensation paid to our named executive officers in 2009 under each of these elements. In the descriptions below, we highlight particular compensation objectives that we have designed and specific elements of our executive compensation program to address; however, it should be noted that we have designed the specific elements of our compensation programs to complement each other and collectively serve all of our executive compensation objectives described above. Accordingly, whether or not specifically mentioned below, we believe that each element of our executive compensation program to a greater or lesser extent serves each of our objectives.

Base Salary

We pay our executives a base salary, which we review and determine annually. We believe that a competitive base salary is a necessary element of any compensation program that is designed to attract and retain talented and experienced executives. We also believe that attractive base salaries can motivate and reward executives for their overall performance. Base salaries are generally established in part based on the executive's experience, skills and expected contributions during the coming year as well as our executive's performance during the prior year.

In 2009, in light of the macroeconomic environment and consistent with our cost-cutting initiatives, we did not increase the base salaries of any of our named executive officers. We took this action notwithstanding our positive assessment of the performance of these executives. As a result, for 2009, Mr. DeSisto's base salary was \$375,000, Mr. Malavé's base salary was \$285,000, Mr. Boess's base salary was \$285,000, Mr. Roberts's base salary was \$280,000 and Mr. Devlin's base salary was \$275,000. Mr. Roberts and Mr. Devlin were hired in March 2009 and August 2009, respectively.

Cash Incentive Bonuses

Consistent with our emphasis on performance-based incentive compensation programs, our executives are eligible to receive cash incentive bonuses primarily based upon their performance as measured against predetermined incentive goals established by us, including financial measures and the achievement of specific strategic objectives. We establish the target amount of our cash incentive bonuses at a level that represents a meaningful portion of our executives' currently paid out cash compensation, and set additional threshold and maximum performance levels below and above these target levels. In establishing these levels, in addition to considering the incentives that we want to provide to our executives, we have also historically considered target bonus levels for comparable positions at our peer competitor companies. For 2009, the Company did not anticipate changing our existing target incentive opportunities, and so we did not perform any competitive assessments for this element of pay. In addition to market referencing, we also typically review our historical practices and any contractual commitments that we have relating to executive bonuses.

The Compensation Committee concluded that our named executive officers' target bonus compensation levels for 2008 met our compensation objectives and, therefore, the Compensation Committee determined to make no changes to the target bonus compensation levels for 2009. As a result, for 2009, Mr. DeSisto's target bonus was 60%, Mr. Devlin's target bonus was 50% and Mr. Roberts, Mr. Malavé's, and Mr. Boess' target bonuses were 45% each.

A specified percentage of the cash incentive bonus was payable based on the achievement of each of the different performance goals, and generally, for each goal, the executive had the ability to earn between 0% and 125% of the target bonus amount. Each of our named executive officers' bonuses were measured and paid on an annual basis.

Table of Contents

Overall, the targets for the performance measures were set at levels that we believed to be achievable with strong performance by our executives. Although we cannot always predict the different events that will impact our business during an upcoming year, we set our performance goals for the target amount of cash incentive bonuses at levels that we believe will be achieved by our executives during years of strong performance. Our maximum and threshold levels for these performance goals are determined in relation to our target levels, are intended to provide for correspondingly greater or lesser incentives in the event that performance is within a specified range above or below the target level, and are correspondingly easier or harder to achieve. We set the performance goals for the maximum amount at a level that we believe will be achieved in some years, but will not be achieved a majority of the time.

Our cash incentive bonuses are designed to motivate and reward our named executive officers for meeting our short-term objectively-determinable Company and individual performance goals. The objective Company goals for each of our named executive officers, consists of a combination of: (1) the Company achieving a specified annual revenue target; (2) the Company achieving a specified annual level of earnings before income tax and depreciation (EBIT); and (3) the Company achieving an annual customer retention rate above a specified threshold. The objective performance goals for our named executive officers are established based on predetermined, executive-specific performance metrics to avoid excessive risk taking and are described in the table below.

In addition, we believe that there are important aspects of executive performance that are not capable of being specifically quantified in a predetermined incentive goal. Thus, for certain executives, a portion of their cash incentive bonuses are based on the achievement of subjective management objectives specifically set for each officer and measured annually. Accordingly, in 2009, we reserved a portion of Mr. DeSisto's cash incentive bonus to be paid at the discretion of our Board of Directors based on his leadership of our Company and a portion of Mr. Boess' cash incentive bonus to be paid based upon his ability to establish an international distribution network.

For 2009, the mix of objective Company goals, objective performance goals and subjective performance goals for each of our named executive officers is set forth in the table below:

	Objective Company Goals	Objective Performance Goals	Subjective Performance Goals
Duane DeSisto(1)	25% Revenue 25% EBIT 10% Retention Rate		40%
Brian Roberts(2)	30% Revenue 20% EBIT 20% Retention Rate	30%	
Luis Malavé(3)	25% Revenue 20% EBIT 25% Retention Rate	30%	
Carsten Boess(4)	20% Revenue 20% EBIT 10% Retention Rate		50%
Peter Devlin	50% Revenue 25% EBIT 25% Retention Rate		

- (1) For 2009, Mr. DeSisto's subjective performance goals were based on the continued development of a strong and cohesive organization able to capitalize on market opportunities in line with our strategic goals.
- (2) For 2009, Mr. Roberts' objective performance goals were based on the achievement of billing, collections and patient conversion ratios.
- (3) For 2009, Mr. Malavé's objective performance goal was based on the achievement of a specified cost of goods sold target.

Table of Contents

- (4) For 2009, Mr. Boess subjective performance goal consisted of the achievement of establishing an international distribution network.

The achievement level of each of the objective and subjective performance goals for our named executive officers was measured after the end of fiscal 2009. For each target goal the Company uses a sliding performance scale to determine the percentage of each target attained and related payout. At a meeting held on February 4, 2010, the Compensation Committee determined that each of the named executive officers was entitled to receive 100% of the targeted payout for achievement of the revenue goal, 60% of the targeted payout for EBIT, and 95% of the targeted payout for the rate of customer retention. In addition, the Compensation Committee determined that Mr. DeSisto met his subjective performance goal and was therefore entitled to receive 100% of his targeted payout and that Mr. Boess made significant progress towards the achievement of his subjective performance goal and was therefore entitled to receive 70% of his targeted payout. The Compensation Committee also determined that Mr. Roberts and Mr. Malavé each met their objective performance goals and, as a result, Mr. Roberts and Mr. Malavé were entitled to receive 100% of their targeted payout.

As a result, the named executive officers received the following cash incentive bonuses for 2009:

	Cash Incentive Bonus Amount for:			Total
	Objective Company Goals	Objective Performance Goals	Subjective Performance Goals	
Duane DeSisto	\$ 111,375	N/A	\$ 90,000	\$ 201,375
Brian Roberts	\$ 76,860	\$ 37,800	N/A	\$ 114,660
Luis Malavé	\$ 77,912	\$ 38,475	N/A	\$ 116,387
Carsten Boess	\$ 53,223	N/A	\$ 44,888	\$ 98,111
Peter Devlin	\$ 45,762	N/A	N/A	\$ 45,762

Long-Term Equity Incentive Compensation

We grant long-term equity incentive compensation in the form of stock options to executives as part of our total compensation package. Consistent with our emphasis on performance-based incentive compensation programs, these awards represent a significant portion of total executive compensation. We use long-term equity incentive compensation in order to align the interests of our executives and our stockholders by providing our executives with strong incentives to increase stockholder value and a significant reward for doing so. Based on the relatively early stage of our Company's development in 2009 and the incentives we were then trying to provide to our executives, in 2009 we chose to use stock options, which derive value exclusively from increases in stockholder value, as opposed to restricted stock or other forms of equity awards. Our decisions regarding the amount and type of long-term equity incentive compensation and relative weighting of these awards among total executive compensation have also been based on our understanding of market practices of similarly situated companies and our negotiations with our executives in connection with their initial employment or promotion by our Company. For 2010, we modified this position and granted a mix of stock options and restricted stock.

Stock option awards provide our executive officers with the right to purchase shares of our common stock at a fixed exercise price typically for a period of up to ten years, subject to continued employment with our Company. Stock options are earned on the basis of continued service to us and have generally vested over four years, beginning with

one-fourth vesting one year after the date of grant, then pro-rata vesting monthly or quarterly thereafter. Prior to our initial public offering, all stock option awards were made pursuant to our 2000 Stock Option and Incentive Plan. Following the closing of our initial public offering in May 2007, option awards have generally been made pursuant to our 2007 Stock Option and Incentive Plan. In 2009, we made two non-qualified stock option awards in the form of inducement grants to newly appointed executive officers which were granted outside of our 2007 Stock Option and Incentive Plan in compliance with Nasdaq Listing Rule 5635. Each of these stock option awards was a material inducement to attract and employ these executive officers. These inducement stock option awards have similar vesting terms to those stock option awards typically granted under our 2007 Stock Option and Incentive Plan to all of our executive officers. Each of

Table of Contents

these stock option awards will vest over four years, beginning with one-fourth vesting one year after the date of grant, then pro-rata vesting monthly or quarterly thereafter. See Potential Payments Upon Termination or Change-in-Control for a discussion of the change-in-control provisions related to stock options.

The exercise price of each stock option granted under our 2000 Stock Option and Incentive Plan or our 2007 Stock Option and Incentive Plan is equal to the fair market value of our common stock on the grant date. Leading up to our initial public offering, the fair market value of our common stock for purposes of determining the exercise price of stock options was determined by our Board of Directors based on independent appraisals by an outside valuation consultant. Since our initial public offering, all stock options continue to be granted with an exercise price equal to the fair market value of our common stock on the date of grant, but fair market value is defined as the closing market price of a share of our common stock on the date of grant. We do not have any program, plan or practice of setting the exercise price based on a date or price other than the fair market value of our common stock on the grant date.

We have generally granted all of our stock options to executives as incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended, subject to the volume limitations contained in the Internal Revenue Code. Generally, for stock options that do not qualify as incentive stock options, we are entitled to a tax deduction in the year in which the stock options are exercised equal to the spread between the exercise price and the fair market value of the stock for which the stock option was exercised. The holders of the stock options are generally taxed on this same amount in the year of exercise. For stock options that qualify as incentive stock options, we do not receive a tax deduction and the holder of the stock option may receive more favorable tax treatment than he or she would for a non-qualified stock option. Historically, we have granted primarily incentive stock options in order to provide these potential tax benefits to our executives, particularly given the limited expected benefits to our Company of the tax deductions as a result of our historical net losses.

We have made grants to our named executive officers on a periodic, but not necessarily annual, basis. In 2009, we considered a number of factors in determining what, if any, stock options to grant to our executives, including:

the number of shares subject to, and exercise price of, outstanding options, both vested and unvested, held by our executives;

the vesting schedule of the unvested stock options held by our executives;

the amount and percentage of our total equity on a diluted basis held by our executives; and

market reference points from our peer group on long-term incentive compensation.

On February 26, 2009, we granted Mr. DeSisto options to purchase 100,000 shares of our common stock, Mr. Malavé options to purchase 55,000 shares of our common stock, and Mr. Boess options to purchase 40,000 shares of our common stock, in each case at an exercise price of \$6.83 per share. Upon their hire, we granted Mr. Roberts options to purchase 180,000 shares of our common stock at an exercise price of \$5.11 per share and Mr. Devlin options to purchase 180,000 shares of our common stock at an exercise price of \$8.30 per share. The options issued to Mr. Roberts and Mr. Devlin were in the form of inducement stock option awards issued outside of our 2007 Stock Option and Incentive Plan in compliance with Nasdaq Listing Rule 5635 in order to attract and obtain their services as executive officers.

Broad-Based Benefits Programs

All full-time employees, including our named executive officers, may participate in our health and welfare benefit programs, including medical and dental care coverage, disability insurance and life insurance, employee stock

purchase plan and our 401(k) plan.

Severance and Change in Control Programs

Our Amended and Restated Executive Severance Plan, which was established on May 8, 2008 and amended and restated on November 14, 2008, provides for certain severance and change of control benefits to

Table of Contents

all of our executive officers. For a detailed description of these potential payments, see the sections below entitled Discussion of Summary Compensation and Grants of Plan Based Awards Tables Amended and Restated Executive Severance Plan and Potential Payments Upon Termination or Change-in-Control.

Conclusion

The Compensation Committee is satisfied that the executive officers of the Company are dedicated to achieving significant improvements in the long-term financial performance of the Company and that the compensation policies and programs implemented and administered have contributed and will continue to contribute towards achieving that goal.

Discussion of Summary Compensation and Grants of Plan-Based Awards Tables

Our executive compensation policies and practices, pursuant to which the compensation set forth in the Summary Compensation Table and the Grants of Plan Based Awards Table was paid or awarded, are described above under Compensation Discussion and Analysis. A summary of certain material terms of our compensation plans and arrangements is set forth below.

Employment Agreements***Amended and Restated Executive Severance Plan***

On May 8, 2008 we enacted the Executive Severance Plan, which was amended and restated on November 14, 2008. All named executive officers of the Company are provided the benefit of the Amended and Restated Executive Severance Plan. In the event that any of our named executive officers employment is terminated by us without cause, resigns for good reason or is terminated as a result of a change in control, as defined by the Amended and Restated Executive Severance Plan, they will be entitled to twelve months of their base salary with the exception of Mr. DeSisto who will be entitled to twenty-four months of his base salary. If the named executive officer's employment is terminated prior to a change of control, such amounts are payable over twelve months (twenty-four months in the case of Mr. DeSisto). If the named executive officer's employment is terminated after a change of

control, such amounts are payable in a lump sum. Additionally, these named executive officers will be entitled to a pro-rata bonus, continued health, dental and life insurance coverage, reimbursement for outplacement services not to exceed \$15,000, provided that such expenses are incurred by the executive within twelve months of the termination, and payment for any accrued unused vacation time. Notwithstanding the foregoing, our obligation to make these severance payments to any of these named executive officers is subject to the executive's delivery of a release of claims in favor of the Company and that executive's continued compliance with the confidentiality, non-compete and non-solicitation obligations under his or her non-competition and non-solicitation agreement and employee non-disclosure and developments agreement with us. In the instance that the termination occurs within twelve months after the effective date of a change in control, all outstanding stock options and other stock-based awards held by the executive will accelerate to become fully exercisable or nonforfeitable as of the executive's termination date.

2009 Offer Letters

We entered into an offer letter with Brian Roberts, which was signed March 2, 2009 and effective on March 5, 2009, to hire him as our Chief Financial Officer. For 2009, we agreed to pay Mr. Roberts an annual base salary of \$280,000 and a target bonus of 45% of his base salary. In connection with the commencement of Mr. Roberts' employment, we agreed to grant him a non-qualified stock option to purchase 180,000 shares of our common stock at a purchase price equal to the fair market value as of the date of grant. This inducement stock option award was granted outside of our 2007 Stock Option and Incentive Plan in compliance with Nasdaq Listing Rule 5635. This stock option award will vest over four years with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. As a condition to his employment, Mr. Roberts was required to enter into our standard form of non-disclosure and developments agreement and our standard form of non-competition and non-solicitation agreement. Mr. Roberts will also be covered by our Amended and Restated Executive Severance Plan.

Effective August 17, 2009, we entered into an offer letter with Peter Devlin to hire him as our Chief Commercial Officer. For 2009, we agreed to pay Mr. Devlin an annual base salary of \$275,000, a one-time signing bonus of \$40,000 and a target bonus of 50% of his base salary. In connection with the commencement of Mr. Devlin's employment, we agreed to grant him a non-qualified stock option to purchase 180,000 shares of our common stock at a purchase price equal to the fair market value as of the date of grant. This inducement stock option award was granted outside of our 2007 Stock Option and Incentive Plan in compliance with Nasdaq Listing Rule 5635. This stock option award will vest over four years with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. As a condition to his employment, Mr. Devlin was required to enter into our standard form of non-disclosure and developments agreement and our standard form of non-competition and non-solicitation agreement. Mr. Devlin will also be covered by our Amended and Restated Executive Severance Plan.

Other Agreements

Each of our named executive officers has entered into a non-competition and non-solicitation agreement and an employee non-disclosure and developments agreement with us, which provide for protection of our confidential information, assignment to us of intellectual property developed by our executives and non-compete and non-solicitation obligations that are effective while the executive is employed by us and for a period of twelve months thereafter.

Cash Incentive Bonuses

In 2009, we established target cash incentive bonuses for each of our named executive officers as a percentage of that executive's base salary, as follows: Mr. DeSisto 60%; Mr. Roberts 45%; Mr. Malavé 45%; Mr. Boess 45%; and Mr. Devlin 50%. Any bonus amounts paid based on the achievement of subjective performance goals are reported as Bonus in the Summary Compensation Table. The remainder of the bonuses were paid based on the executives' achievement of a number of objective company goals and objective performance goals, as described above under Our Executive Compensation Programs Cash Incentive Bonuses. Generally, for each goal, the executive had the ability to earn between 0% and 125% of the target bonus amount based on the level of achievement of that goal. The bonuses paid upon the achievement of these predetermined performance goals are reported as Non-Equity Incentive Plan Compensation in the Summary Compensation Table and are described in detail above under Our Executive Compensation Programs Cash Incentive Bonuses.

Additionally, in the 2009 Grants of Plan-Based Awards table, the Estimated Future Payouts under Non-Equity Incentive Plan Awards column for each of the executives relates to the portion of our cash incentive bonuses that was

payable upon the achievement of these predetermined performance goals. The threshold payouts represent the payout that would have been received if each performance goal was met at the minimum level, the target represents the payout that would have been received if each performance goal was met at the

target level and the maximum represents the payout that would have been received if each performance goal was met at the maximum level.

2009 Stock Option Grants and 2009 Inducement Stock Option Grants

In 2009, we granted Mr. DeSisto options to purchase 100,000 shares of our common stock, Mr. Malavé options to purchase 55,000 shares of our common stock and Mr. Boess options to purchase 40,000 shares of our common stock in each case at an exercise price of \$6.83 per share.

In addition, as an inducement to hire we granted Mr. Roberts options to purchase 180,000 shares of our common stock at an exercise price of \$5.11 per share and Mr. Devlin options to purchase 180,000 shares of our common stock at an exercise price of \$8.30 per share. Each of these options were inducement grants issued outside of our 2007 Stock Option and Incentive Plan in compliance with Nasdaq Listing Rule 5635. Each of these options were approved by our Board of Directors based on the recommendation and approval of our Compensation Committee, as an inducement material to Mr. Roberts and Mr. Devlin's entering into employment with us.

These stock options have a term of ten years and may be exercised at any time after they vest and prior to their expiration for all or a portion of such option shares. These stock options vest over four years with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. Vesting of these stock options is also subject to acceleration in connection with a change-in-control as described in Potential Payments Upon Termination or Change-in-Control.

2000 Stock Option and Incentive Plan

Our 2000 Stock Option and Incentive Plan was initially adopted by our Board of Directors and approved by our stockholders in October 2000. Following our initial public offering in May 2007, no additional grants have been or will be made under our 2000 Stock Option and Incentive Plan.

As a matter of practice, most stock options issued under our 2000 Stock Option and Incentive Plan were issued as incentive stock options, subject to the volume limitations contained in the Internal Revenue Code, and subject to a four-year vesting period, with 25% of the total award vesting after one year and the remainder vesting in equal monthly installments each month thereafter for 36 months. Additionally, most of the stock options granted under our 2000 Stock Option and Incentive Plan, including all stock options issued prior to December 20, 2006, allow for the exercise of unvested options at any time after the options were issued, provided that the vesting terms will continue to apply to the shares acquired upon such an exercise and any unvested shares will be subject to repurchase by us at the exercise price paid to acquire the shares. After termination of an optionee, he or she may exercise his or her vested options for the period of time stated in the stock option agreement issued under our 2000 Stock Option and Incentive Plan. Generally, if termination is due to death or disability, the vested option will remain exercisable for 180 days; if termination is for cause, the option may no longer be exercised; and, in all other cases, the vested options will remain exercisable for three months. In addition, each stock option we have granted under our 2000 Stock Option and Incentive Plan generally expires ten years after the issuance of such option, regardless of whether the optionee has been terminated.

2007 Stock Option and Incentive Plan

Background. Our 2007 Stock Option and Incentive Plan was adopted by our Board of Directors and approved by our stockholders in April 2007. At the annual meeting of stockholders held on May 8, 2008, our stockholders approved an amendment to our 2007 Stock Option and Incentive Plan to increase the aggregate number of shares of our common stock authorized for issuance by 600,000.

Administration. Our Compensation Committee of our Board of Directors is responsible for administering our 2007 Stock Option and Incentive Plan. Under our 2007 Stock Option and Incentive Plan, the plan administrator has the power to determine the terms of the awards, including the officers, employees, non-

Table of Contents

employee directors and key persons (including consultants and prospective employees) who will receive awards, the exercise price, the number of shares subject to each award, the vesting schedule and exercisability of awards and the form of consideration payable upon exercise of an option.

Eligibility. All of our officers, employees, non-employee directors and key persons (including consultants and prospective employees) are eligible to be granted awards under our 2007 Stock Option and Incentive Plan.

Number of Shares Available for Issuance. The maximum number of shares of our common stock that are authorized for issuance under our 2007 Stock Option and Incentive Plan currently is 3,310,000 shares, which amount will be increased on January 1, 2011 and January 1, 2012, by a number of shares equal to 3% of the number of shares of our common stock outstanding as of the immediately preceding December 31, up to the maximum increase of 725,000 additional shares per year. In addition, each share of deferred stock, restricted stock, unrestricted stock or performance shares awarded under the 2007 Stock Option and Incentive Plan will count as 1.5 shares against the total pool of shares available for issuance under the plan. Shares issued under the 2007 Stock Option and Incentive Plan may be authorized but unissued shares or shares reacquired by us. Any shares subject to awards that are forfeited, canceled, held back upon exercise of an option or settlement of an award to cover the exercise price or tax withholding, reacquired by us prior to vesting, satisfied without the issuance of shares or otherwise terminated (other than by exercise) shall be added back to the shares available for issuance under the 2007 Stock Option and Incentive Plan. Upon the occurrence of a merger, consolidation, recapitalization, reclassification, stock split, stock dividend, combination of shares or the like, the plan administrator will make an appropriate or proportionate adjustment in the shares reserved for issuance under, and the number of shares or exercise price applicable to any award which will remain outstanding under, the 2007 Stock Option and Incentive Plan.

Types of Awards. The plan administrator may grant the following types of awards under our 2007 Stock Option and Incentive Plan: stock options; stock appreciation rights; deferred stock awards; restricted stock; unrestricted stock; cash based awards; performance share awards; or dividend equivalent rights. Stock options awarded under our 2007 Stock Option and Incentive Plan may be nonqualified stock options or incentive stock options under Section 422 of the Internal Revenue Code of 1986, as amended. With the exception of incentive stock options, the plan administrator may grant, from time to time, any of the types of awards under our 2007 Stock Option and Incentive Plan to our officers, employees, non-employee directors and key persons (including consultants and prospective employees). Incentive stock options may only be granted to our employees.

Stock Options. A stock option is the right to acquire shares of our common stock at a fixed price for a fixed period of time and generally is subject to a vesting requirement. We typically grant options subject to a four-year vesting period, with 25% of the total award vesting after one year and the remainder vesting in equal quarterly installments each quarter thereafter for twelve quarters. In the event we are acquired or are otherwise subject to a change in control, all of the outstanding options granted under our 2007 Stock Option and Incentive Plan will become fully vested. A stock option will be in the form of a nonqualified stock option or an incentive stock option. The exercise price is set by the plan administrator, which is our Board of Directors or our Compensation Committee, but cannot be less than 100% of the fair market value of our common stock on the date of grant, or, in the case of incentive stock options granted to an employee who owns 10% or more of total combined voting power of our common stock, or a 10% owner, the exercise price cannot be less than 110% of the fair market value of our common stock on the date grant. The term of a stock option may not exceed ten years (or five years in the case of incentive stock options granted to a 10% owner). After an optionee's employment with us is terminated, he or she may exercise his or her vested options for the period of time stated in the stock option agreement. Generally, if termination is due to death or disability, any outstanding stock options become fully vested, and will remain exercisable for twelve months; if termination is for cause, the option may no longer be exercised; and, in all other cases, the vested options will remain exercisable for three months. However, an option may not be exercised later than its expiration date.

Amendment and Discontinuance; Term. Our Board of Directors may at any time amend or discontinue our 2007 Stock Option and Incentive Plan, and the plan administrator may at any time amend or cancel any outstanding award for the purpose of satisfying changes in law or for any other lawful purpose, but no such

Table of Contents

action will adversely affect rights under any outstanding awards without the holder's consent. To the extent required by applicable laws or rules, plan amendments may be subject to stockholder approval. Unless terminated earlier, our 2007 Stock Option and Incentive Plan will expire on the tenth anniversary of its effective date.

2007 Employee Stock Purchase Plan

Our 2007 Employee Stock Purchase Plan was adopted by our Board of Directors and approved by our stockholders in April 2007 and became effective upon the closing of our initial public offering in May 2007. Our 2007 Employee Stock Purchase Plan authorizes the issuance of up to a total of 380,000 shares of our common stock to participating employees.

All of our employees who have been employed by us for at least six months and whose customary employment is for more than 20 hours a week are eligible to participate in our 2007 Employee Stock Purchase Plan. Any employee who owns 5% or more of the voting power or value of our stock is not eligible to purchase shares under our 2007 Employee Stock Purchase Plan.

We will make one or more offerings each year to our employees to purchase stock under our 2007 Employee Stock Purchase Plan. The first offering began on the date of the closing of our initial public offering and ended on December 31, 2007. Subsequent offerings generally start on each January 1 and July 1 and continue for six-month periods, referred to as offering periods.

Each employee who is a participant in our 2007 Employee Stock Purchase Plan may purchase shares by authorizing payroll deductions of up to 10% of his or her cash compensation during an offering period. Unless the participating employee has previously withdrawn from the offering, his or her accumulated payroll deductions will be used to purchase common stock on the last business day of the offering period at a price equal to 85% of the fair market value of the common stock on the last day of the offering period. Under applicable tax rules, an employee may purchase no more than \$25,000 worth of common stock, valued at the start of the purchase period, under our 2007 Employee Stock Purchase Plan in any calendar year.

The accumulated payroll deductions of any employee who is not a participant on the last day of an offering period will be refunded. An employee's rights under our 2007 Employee Stock Purchase Plan terminate upon voluntary withdrawal from the plan or when the employee ceases employment for any reason.

Our 2007 Employee Stock Purchase Plan may be terminated or amended by our Board of Directors at any time. An amendment that increases the number of shares of our common stock that is authorized under our 2007 Employee Stock Purchase Plan and certain other amendments require the approval of our stockholders.

Option Exercises and Stock Vested

Our named executive officers did not exercise any options during the year ended December 31, 2009. Our named executive officers did not hold any stock subject to vesting in the year ended December 31, 2009.

Potential Payments Upon Termination or Change-in-Control

During 2008, all pre-existing employment agreements with our named executive officers expired, or were terminated, and were replaced on May 8, 2008 with the Executive Severance Plan, which was amended and restated on November 14, 2008. The Amended and Restated Executive Severance Plan provides for certain severance and change of control benefits to all of our executive officers.

Table of Contents

In the event that any of our named executive officers' employment is terminated by us without cause, resigns for good reason or is terminated as a result of a change in control, as defined by the Amended and Restated Executive Severance Plan they will be entitled to twelve months of their base salary with the exception of Mr. DeSisto who will be entitled to twenty-four months of his base salary. If the named executive officer's employment is terminated prior to a change of control, such amounts are payable over twelve months (twenty-four months in the case of Mr. DeSisto). If the named executive officer's employment is terminated after a change of control, such amounts are payable in a lump sum. Additionally, these named executive officers will be entitled to a pro-rata bonus, continued health, dental and life insurance coverage, reimbursement for outplacement services not to exceed \$15,000 provided that such expenses are incurred by the executive within twelve months of the termination, and payment for any accrued unused vacation time. Notwithstanding the foregoing, our obligation to make these severance payments to any of these named executive officers is subject to the executive's delivery of a release of claims in favor of the Company and that executive's continued compliance with the confidentiality, non-compete and non-solicitation obligations under his or her non-competition and non-solicitation agreement and employee non-disclosure and developments agreement with us. We agreed to provide severance payments to these executives in these circumstances based on the terms of the Amended and Restated Executive Severance Plan in order to provide a total compensation package that we believed to be competitive.

Cause means any of the following: the failure or refusal of the named executive officer to render services to us in connection with the performance of their duties; disloyalty, gross negligence, dishonesty or breach of fiduciary duty or the other agreements executed in connection therewith; the commission by the named executive officer of an act of fraud, embezzlement or disregard of our rules or policies or the commission by the named executive officer of any other action which injures us; acts which, in the judgment of our Board of Directors, would tend to generate adverse publicity toward us; the commission, or plea of nolo contendere, by the named executive officer of a felony; the commission of an act which constitutes unfair competition with us or which induces any of our customers to breach a contract with us; or a breach by the named executive officer of the terms of the non-competition and non-solicitation agreement or the employee non-disclosure and developments agreement between us and the named executive officer.

Good Reason means any of the following: material diminution in the named executive officer's responsibilities, authority or duties; a material reduction in the named executive officer's base salary except for across-the-board salary reductions similarly affecting all or substantially all management employees; the relocation of the office in which the named executive officer is principally employed to a location more than 50 miles from such location.

We are not obligated to pay any tax gross-ups or similar amounts to the named executive officers with respect to amounts payable to them under the Amended and Restated Executive Severance Plan. Amounts payable to our named executive officers under the Amended and Restated Executive Severance Plan will be reduced to an amount that would cause such officer to not be subject to any excise tax under Section 4999 of the Internal Revenue Code, to the extent such officer would benefit on a net after-tax basis by doing so.

If any of our named executive officers had been terminated without cause on December 31, 2009, the approximate value of the severance benefits, assuming no unused vacation time, under the Amended and Restated Executive Severance Plan would have been as follows: Mr. DeSisto \$796,677; Mr. Roberts \$310,839; Mr. Malavé \$310,842; Mr. Boess \$315,839; and Mr. Devlin \$305,839. Also, any remaining unvested options granted to such named executive officer under the 2000 Stock Option and Incentive Plan and options granted under the 2007 Stock Option and Incentive Plan would have ceased vesting on that date.

If any of our named executive officers had been terminated for cause or if such named executive officer had terminated their employment for any other reason than good reason, the approximate value of the severance benefits, assuming no unused vacation time, under the Amended and Restated Executive Severance Plan for the named officers would have been \$0. Also, any remaining unvested options granted to such named executive officer under the 2000

Stock Option and Incentive Plan and the 2007 Stock Option and Incentive Plan would have ceased vesting on that date.

Table of Contents

Upon a change-in-control, a named executive officer will be entitled to accelerated vesting for 50% of any remaining unvested options granted under the 2000 Stock Option and Incentive Plan and 100% of any unvested options granted under the 2007 Stock Option and Incentive Plan. Further, in the event that, within twelve months following a change-in-control, a named executive officer's employment is terminated without cause, he or she experiences a material negative change in his or her compensation or responsibilities or he or she is required to be based at a location more than 50 miles from his or her current work location, any remaining unvested options granted under the 2000 Stock Option and Incentive Plan will become fully vested. Change-in-control means any of the following: a sale or other disposition of all or substantially all of our assets; or a merger or consolidation after which our voting securities outstanding immediately before the transaction cease to represent at least a majority of the combined voting power of the successor entity's outstanding voting securities immediately after the transaction. We agreed to provide payments to these executives in these circumstances in order to provide a total compensation package that we believed to be competitive. Additionally, the primary purpose of our equity-based incentive awards is to align the interests of our executives and our stockholders and provide our executives with strong incentives to increase stockholder value over time. As change-in-control transactions typically represent events where our stockholders are realizing the value of their equity interests in our Company, we believe it is appropriate for our executives to share in this realization of stockholder value, particularly where their employment is terminated in connection with the change-in-control transaction. We believe that this acceleration of vesting will also help to better align the interests of our executives with our stockholders in pursuing and engaging in these transactions.

If a change-in-control had occurred on December 31, 2009, the value of 50% of any then unvested options granted under the 2000 Stock Option and Incentive Plan and the value of 100% of any then unvested options granted under the 2007 Stock Option and Incentive Plan, in each case that would vest as a result of such change-in-control, for each named executive officer, calculated based on the spread between the exercise price of the unvested options and \$14.28, which was the closing price for our common stock on The Nasdaq Global Market on December 31, 2009, would have been approximately as follows: Mr. DeSisto \$745,000; Mr. Roberts \$1,650,600; Mr. Malavé - \$439,999; Mr. Boess \$353,130; and Mr. Devlin \$1,076,400.

If a change-in-control had occurred on December 31, 2009 and on that date each named executive officer had been terminated without cause, experienced a material negative change in his or her compensation or responsibilities or was required to be based at a location more than 50 miles from his or her current work location, the value of 100% of any then unvested options granted under the 2000 Stock Option and Incentive Plan and the 2007 Stock Option and Incentive Plan, in each case that would vest as a result of such change-in-control and such termination or other circumstance, for each named executive officer, calculated based on the spread between the exercise price of the unvested options and \$14.28, which was the closing price for our common stock on The Nasdaq Global Market on December 31, 2009, would have been approximately as follows: Mr. DeSisto - \$745,000; Mr. Roberts \$1,650,600; Mr. Malavé \$470,248; Mr. Boess \$408,261; and Mr. Devlin - \$1,076,400.

The Audit Committee oversees the Company's accounting and financial reporting processes on behalf of the Board of Directors. The Company's management has the primary responsibility for preparing the Company's financial statements, for maintaining effective internal control over financial reporting, and for assessing the effectiveness of internal control over financial reporting. In fulfilling its oversight responsibilities, the Audit Committee has reviewed and discussed with management the Company's consolidated financial statements for the fiscal year ended December 31, 2009, including a discussion of, among other things, the quality of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosures in the Company's financial statements.

The Audit Committee also reviewed with Ernst & Young LLP, the Company's independent registered public accounting firm, the results of their audit and discussed matters required to be discussed by the Statement on Auditing Standards No. 61 (*Communications with Audit and Finance Committees*), as currently in effect, other standards of the Public Company Accounting Oversight Board, rules of the SEC and other applicable regulations. The Audit Committee has reviewed permitted services under rules of the SEC, as currently in effect, and discussed with Ernst & Young LLP their independence from management and the Company, including the matters in the written disclosures and the letter from the independent registered public accounting firm required by applicable requirements of the Public Company Accounting Oversight Board, as currently in effect, and has considered and discussed the compatibility of non-audit services provided by Ernst & Young LLP with that firm's independence.

The Audit Committee meets with the independent registered public accounting firm, with and without management present, to discuss the results of their examinations; their evaluations of the Company's internal controls, including internal control over financial reporting; and the overall quality of the Company's financial reporting.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2009 for filing with the Securities and Exchange Commission.

Respectfully submitted by the Audit Committee,

Steven Sobieski (Chairman)
Charles Lamos

The Audit Committee charter contains procedures for the pre-approval of audit and non-audit services (the Pre-Approval Policy) to ensure that all audit and permitted non-audit services to be provided to the Company have been pre-approved by the Audit Committee. Specifically, the Audit Committee pre-approves the use of Ernst & Young LLP for specific audit and non-audit services, except that pre-approval of non-audit services is not required if the de minimus provisions of Section 10A(i)(1)(B) of the Exchange Act are satisfied. If a proposed service has not been pre-approved pursuant to the Pre-Approval Policy, then it must be specifically pre-approved by the Audit Committee before it may be provided by Ernst & Young LLP. All of the audit-related, tax and all other services provided by Ernst & Young LLP to the Company in fiscal 2009 were approved by the Audit Committee by means of specific pre-approvals or pursuant to the Pre-Approval Policy. All non-audit services provided in 2009 were reviewed with the Audit Committee, which concluded that the provision of such services by Ernst & Young LLP was compatible with the maintenance of that firm's independence in the conduct of its auditing functions. For additional information concerning the Audit Committee and its activities with Ernst & Young LLP, see Management Audit Committee and Report of the Audit Committee of the Board of Directors.

The Company expects that a representative of Ernst & Young LLP will attend the Annual Meeting, and the representative will have an opportunity to make a statement if he or she so desires. The representative will also be available to respond to appropriate questions from stockholders.
