All information as of December 31, 2009 and June 30, 2009 and 2010, and for the three and six months ended June 30, 2009 and 2010 is unaudited but, in the opinion of management, contains all adjustments, consisting only of normal recurring adjustments, necessary to present fairly the condensed consolidated financial position, results of operations and cash flows of the Company. In May 1998, the Company adopted the Strayer Education, Inc. Employee Stock Purchase Plan (ESPP), which was re-authorized on April 28, 2009 for an additional 10 years. Under the ESPP, eligible employees may purchase shares of the Company s common stock, subject to certain limitations, at 90% of its market value at the date of purchase. Purchases are limited to 10% of an employee s eligible compensation. The aggregate number of shares of common stock that may be made available for purchase by participating employees under the ESPP is 2,500,000 shares.

6. Marketable Securities

The Company invests excess cash in bank overnight deposits, taxable and tax-exempt money market funds, and diversified, short-term, investment grade, taxable and tax-exempt bond funds. The Company uses tax-exempt investments to minimize principal risk and to benefit from the tax efficiency of the funds—underlying securities when the taxable equivalent yield is higher. As of June 30, 2010, the Company had a total of \$52.9 million invested in the short-term tax-exempt bond fund. The investments are considered—available-for-sale—as they are not held for trading and will not be held to maturity, in accordance with the Investments-Debt and Equity Securities Topic, ASC 320. The Company records the net unrealized gains and losses for changes in fair value as a component of accumulated other comprehensive income in stockholders—equity. Realized gains and losses from the sale of marketable securities are based on the specific identification method. At June 30, 2010, all of the Company—s investments were classified as Level 1. Items not subject to fair value reporting include cash and cash equivalents and restricted cash totaling \$88.5 million.

7. Long-Term Liabilities

Lease Incentives

In conjunction with the opening of new campuses and renovating existing ones, the Company, in some instances, was reimbursed by the lessors for improvements made to the leased properties. In accordance with the Operating Leases Subtopic, ASC 840-20, these improvements were capitalized as leasehold improvements and a long-term liability was established for the reimbursements. The leasehold improvements and the long-term liability are amortized on a straight-line basis over the corresponding lease terms, which range from five to ten years. As of December 31, 2009 and June 30, 2010, the Company had deferred lease incentives of \$3.7 million.

Deferred Rent

In accordance with ASC 840-20, the Company records rent expense on a straight-line basis over the initial term of a lease. The difference between the rent payment and the straight-line rent expense is recorded as a long-term liability. As of December 31, 2009 and June 30, 2010, the Company had deferred rent associated with its lease obligations of \$6.2 million and \$6.8 million, respectively.

Sale of Campus Building and Deferred Gain

In conjunction with the sale and lease back of its Loudoun, Virginia campus building in June 2007, the Company realized a gain of \$2.8 million before tax, which is deferred and recognized over the 10-year lease term. The non-current portion of this gain, which was \$1.8 million and \$1.7 million at December 31, 2009 and June 30, 2010, respectively, is recorded as a long-term liability.

8. Income Taxes

The Fair Value Measurements and Disclosures Topic, ASC 740, requires the Company to determine whether uncertain tax positions should be recognized within the Company s financial statements. As a result of the implementation of ASC 740, no material adjustment in the liability for unrecognized income tax benefits was recognized. The amount of unrecognized tax benefits at the adoption date of January 1, 2007 and at June 30, 2010 is immaterial. The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. As of June 30, 2010, the amount of accrued interest related to uncertain tax positions was immaterial. The tax years 2007-2009 remain open to examination by the major taxing jurisdictions in which the Company is subject.

9. Recent Accounting Pronouncements

In May 2009, the FASB issued the Subsequent Events Topic, ASC 855, which establishes general accounting and disclosure guidelines for events that occur after the balance sheet date but before financial statements are issued or available to be issued. The Company adopted the provisions of ASC 855 effective June 15, 2009. In June 2009, the FASB issued The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles a replacement of FASB Statement No. 162 (SFAS 168). Under the new FASB ASC, SFAS 168 is now the Generally Accepted Accounting Principles Topic (ASC 105). The ASC becomes the single, authoritative source for US accounting and reporting standards and supersedes all previously issued FASB statements and related accounting literature references for reporting purposes. The Company adopted the provisions of ASC 105 for reporting periods ending after September 15, 2009.

Further information about these and other relevant risks and uncertainties may be found in the Company s annual report on Form 10-K and its other filings with the Securities and Exchange Commission. The Company undertakes no obligation to update or revise forward looking statements, except as may be required by law.

Table of Contents

Three Months Ended June 30, 2010 Compared to Three Months Ended June 30, 2009

Enrollment. Enrollment at Strayer University for the 2010 spring term, which began April 13, 2010 and ended June 21, 2010, increased 22% to 55,970 students compared to 46,038 students for the same term in 2009. Across the Strayer University campus and online system, new student enrollments increased 16% and continuing student enrollments increased 23%. Global online enrollments increased 34%. Students taking 100% of their classes online (including campus based students) increased 18%. The total number of students taking at least one course online in the 2010 spring term increased 21% to 40,097.

Revenues. Revenues increased 26% to \$159.3 million in the second quarter of 2010 from \$125.9 million in the second quarter of 2009, principally due to a 22% increase in enrollment and a 5% tuition increase implemented at the beginning of 2010.

Instruction and educational support expenses. Instruction and educational support expenses increased \$9.2 million, or 22%, to \$50.1 million in the second quarter of 2010 from \$40.9 million in the second quarter of 2009. This increase was principally due to direct costs necessary to support the increase in student enrollments, including faculty compensation, related academic staff salaries, and campus facility costs, which increased \$3.5 million, \$1.9 million, and \$1.7 million, respectively. Instruction and educational support expenses as a percentage of revenues decreased to 31.5% in the second quarter of 2010 from 32.5% in the second quarter of 2009, largely due to faculty costs growing at a lower rate than tuition revenue.

Marketing and admissions expenses. Marketing and admissions expenses increased \$4.9 million, or 24%, to \$24.9 million in the second quarter of 2010 from \$20.0 million in the second quarter of 2009. This increase was principally due to the direct costs required to build the Strayer University brand and to attract prospective students, and the addition of admissions personnel, particularly at new campuses. Marketing and admissions expenses as a percentage of revenues decreased to 15.6% in the second quarter of 2010, from 15.9% in the second quarter of 2009, as the higher rate of tuition growth more than offset incremental marketing costs.

General and administration expenses. General and administration expenses increased \$5.7 million, or 29%, to \$25.6 million in the second quarter of 2010 from \$19.9 million in the second quarter of 2009. This increase was principally due to increased employee salaries and related costs, higher bad debt expense, and other administrative expenses (e.g., professional services and travel), which increased \$2.8 million, \$0.4 million, and \$1.0 million, respectively, over the prior year. General and administration expenses as a percentage of revenues increased to 16.1% in the second quarter of 2010 from 15.8% in the second quarter of 2009 primarily due to the increase in other administrative expenses.

Income from operations. Income from operations increased \$13.6 million, or 30%, to \$58.7 million in the second quarter of 2010 from \$45.1 million in the second quarter of 2009, due to the aforementioned factors. *Investment and other income*. Investment and other income was \$0.2 million in the second quarter of 2010 compared to \$0.4 million in the second quarter of 2009. The decrease was primarily attributable to lower investment yields partly offset by a higher average cash balance.

Provision for income taxes. Income tax expense increased \$5.3 million, or 30%, to \$23.3 million in the second quarter of 2010 from \$18.0 million in the second quarter of 2009, primarily due to the increase in income before taxes attributable to the factors discussed above. Our effective tax rate was 39.5% for the second quarter of 2010 and the second quarter of 2009.

Net income. Net income increased \$8.2 million, or 30%, to \$35.7 million in the second quarter of 2010 from \$27.5 million in the second quarter of 2009 because of the factors discussed above.

Revenues. Revenues increased 27% to \$317.2 million in the six months ended June 30, 2010 from \$250.4 million in the six months ended June 30, 2009, principally due to a 21% increase in average enrollment and a 5% tuition increase implemented at the beginning of 2010.

Instruction and educational support expenses. Instruction and educational support expenses increased \$19.1 million, or 24%, to \$99.1 million in the six months ended June 30, 2010 from \$80.0 million in the six months ended June 30, 2009. This increase was principally due to direct costs necessary to support the increase in student enrollments, including faculty compensation, related academic staff salaries, and campus facility costs, which increased \$7.1 million, \$4.4 million, and \$3.7 million, respectively. These expenses as a percentage of revenues decreased to 31.2% for the six months ended June 30, 2010 from 32.0% in the six months ended June 30, 2009.

Marketing and admissions expenses. Marketing and admissions expenses increased \$9.7 million, or 24%, to \$49.6 million in the six months ended June 30, 2010 from \$39.9 million in the six months ended June 30, 2009. This increase was principally due to the direct costs required to build the Strayer University brand and to attract prospective students, and the addition of admissions personnel, particularly at new campuses. These expenses as a percentage of revenues decreased to 15.6% for the six months ended June 30, 2010 from 15.9% in the six months ended June 30, 2009.

General and administration expenses as a percentage of revenues increased to 15.7% for the six months ended June 30, 2010 from 15.1% for the six months ended June 30, 2009.

Income from operations. Income from operations increased \$25.9 million, or 28%, to \$118.6 million in the six months ended June 30, 2010 from \$92.7 million in the six months ended June 30, 2009 due to the aforementioned factors.

Table of Contents

Investment and other income. Investment and other income decreased \$0.4 million to \$0.5 million in the six months ended June 30, 2010 from \$0.9 million in the six months ended June 30, 2009. This decrease was principally attributable to lower investment yields partly offset by a larger average cash balance.

Provision for income taxes. Income tax expense increased \$10.1 million, or 27%, to \$47.1 million in the six months ended June 30, 2010 from \$37.0 million in the six months ended June 30, 2009, primarily due to the increase in income before taxes discussed above. Our effective tax rate decreased slightly to 39.5% for the six months ended June 30, 2010, compared to 39.6% for the six months ended June 30, 2009.

Net income. Net income increased \$15.4 million, or 27%, to \$72.0 million in the six months ended June 30, 2010 from \$56.6 million in the six months ended June 30, 2009 because of the factors discussed above.

Liquidity and Capital Resources

At June 30, 2010, we had cash, cash equivalents and marketable securities of \$140.9 million compared to \$116.5 million at December 31, 2009 and \$90.4 million at June 30, 2009. At June 30, 2010, most of our excess cash was invested in bank overnight deposits, money market funds, and a diversified, short-term, investment grade, tax-exempt bond fund to minimize our principal risk and to benefit from the tax efficiency of the fund s underlying securities. As of June 30, 2010, we had a total of \$52.9 million invested in the short-term tax-exempt bond fund. At June 30, 2010, the 1,201 issues in this fund had an average credit rating of AA, an average maturity of 1.3 years, an average duration of 1.2 years, and an average yield to maturity of 0.8%. We had no debt as of December 31, 2009 and June 30, 2010.

For the six months ended June 30, 2010, we reported \$87.9 million of net cash from operating activities compared to \$71.9 million for the same period in 2009. Capital expenditures were \$22.6 million for the six months ended June 30, 2010 compared to \$13.0 million for the same period in 2009. During the six months ended June 30, 2010, we paid regular, quarterly common stock dividends of \$20.9 million (\$0.75 per share for each quarterly dividend) and we received \$0.5 million upon the exercise of 6,667 stock options. During the three months ended June 30, 2010, we invested \$7.0 million to repurchase 29,200 shares of common stock at an average price of \$239.77 per share as part of a previously announced common stock repurchase authorization. Our remaining authorization for stock repurchases was \$68.0 million at June 30, 2010, having spent \$22.0 million for repurchases in the six months ended June 30, 2010. In the second quarter of 2010, bad debt expense as a percentage of revenues was 3.6% compared to 4.2% for the same period in 2009. Days sales outstanding, adjusted to exclude tuition receivable related to future quarters, was 12 days at the end of the second quarter of 2010, compared to 15 days at the end of the second quarter of 2009.

Currently, we invest our cash in bank overnight deposits, money market funds and a short-term, tax exempt bond fund. In addition, we have available a \$15.0 million line of credit facility. There have been no borrowings under the credit facility. We believe that existing cash and cash equivalents, cash generated from operating activities, and if necessary, cash borrowed under the credit facility, will be sufficient to meet our requirements for at least the next 12 months.

ITEM 3: QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is subject to the impact of interest rate changes and may be subject to changes in the market values of its future investments. The Company invests its excess cash in bank overnight deposits, money market funds and a short-term tax-exempt bond fund. The Company has not used derivative financial instruments in its investment portfolio.

Earnings from investments in bank overnight deposits, money market mutual funds, and short-term tax-exempt bond funds may be adversely affected in the future should interest rates change. The Company s future investment income may fall short of expectations due to changes in interest rates or the Company may suffer losses in principal if forced to sell securities that have declined in market value due to changes in interest rates. As of June 30, 2010, a 10% increase or decrease in interest rates would not have a material impact on the Company s future earnings, fair values, or cash flows related to investments in cash equivalents or interest earning marketable securities.

ITEM 4: CONTROLS AND PROCEDURES

- a) Disclosure Controls and Procedures. The Company s Chief Executive Officer and Chief Financial Officer have evaluated the effectiveness of the Company s disclosure controls and procedures as of June 30, 2010. Based upon such review, the Chief Executive Officer and Chief Financial Officer have concluded that the Company has in place, as of June 30, 2010, effective controls and procedures designed to ensure that information required to be disclosed by the Company (including consolidated subsidiaries) in the reports it files or submits under the Securities Exchange Act of 1934, as amended, and the rules thereunder, is recorded, processed, summarized and reported within the time periods specified in the Commission s rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in reports it files or submits under the Securities Exchange Act is accumulated and communicated to the Company s management, including its principal executive officer or officers and principal financial officer or officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.
- b) *Internal Control Over Financial Reporting*. There have not been any changes in the Company s internal control over financial reporting during the quarter ended June 30, 2010 that have materially affected, or are reasonably likely to materially affect, the Company s internal control over financial reporting.

PART II OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, the Company is involved in litigation and other legal proceedings arising out of the ordinary course of its business. There are no pending material legal proceedings to which the Company is subject or to which the Company is property is subject.

Item 1A. Risk Factors

In addition to the updated risk factor set forth below, you should carefully consider the factors discussed in Part I, Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2009, which could materially affect our business. Those risks, except to the extent they are updated or amended below, are incorporated herein by this reference. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business.

Risks Related to Extensive Regulation of Our Business

The U.S. Department of Education s current rulemaking process may result in material regulatory changes. On June 18, 2010, the Department of Education released for public comment a notice of proposed rulemaking that addressed program integrity issues for postsecondary education institutions that participate in Title IV programs. The Department of Education also recently released another notice of proposed rulemaking addressing substantive measurements for whether an educational program leads to gainful employment in a recognized occupation for purposes of that program s eligibility for Title IV funds. With respect to both notices of proposed rulemaking, the Department of Education would need to issue final rules by November 1, 2010, for them to be effective July 1, 2011. We cannot predict the substance of any final rules that may be adopted by the Department of Education with respect to the program integrity issues.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

During the three months ended June 30, 2010, the Company used \$7.0 million to repurchase shares of common stock under its repurchase program⁽¹⁾. The Company s remaining authorization for common stock repurchases was \$68.0 million at June 30, 2010. A summary of the Company s share repurchases during the quarter is set forth below:
