Item 1.01 Entry into a Material Definitive Agreement.

On March 10, 2005, the board of directors (the Board) of Valero Energy Corporation (the Company), upon the recommendation of the Compensation Committee of the Board, revised the compensation structure for members of the Board.

Under the new compensation structure, non-employee directors will receive a retainer fee of \$60,000 per year, plus \$1,500 for each Board and committee meeting attended in person, and \$1,000 for each Board and committee meeting attended telephonically. A director who serves as chairperson of the Audit or Compensation Committee will receive an additional \$20,000 annually, and a director who serves as chairperson of a committee other than the Audit or Compensation Committee will receive an additional \$10,000 annually. Each director will also be reimbursed for expenses of meeting attendance. Directors who are employees of the Company will receive no compensation (other than reimbursement of expenses) for serving as directors.

Valero maintains its Restricted Stock Plan for Non-Employee Directors (Director Stock Plan) and its Non-Employee Director Stock Option Plan (Director Option Plan) to supplement the compensation paid to non-employee directors and to increase their identification with the interests of Valero's stockholders through ownership of Valero's common stock, \$.01 par value (Common Stock). Each non-employee director will receive from the Director Stock Plan an annual grant of Common Stock valued at \$60,000 that will vest (become nonforfeitable) in equal annual installments over a three-year period.

The Director Option Plan provides non-employee directors of Valero annual grants of options to purchase Valero's Common Stock. The plan provides that each new non-employee director elected to the Valero Board will receive an initial grant of 5,000 options that will vest in equal annual installments over a three-year period. On the date of each subsequent annual meeting of stockholders, each non-employee director (who is not a new non-employee director) will automatically receive a grant of 1,000 additional options that will vest fully one year following the date of grant. Stock options granted from the Director Option Plan have an exercise price equal to the market price of the Common Stock on the date of grant, and expire seven years following the date of grant. The options will vest and remain exercisable in accordance with their original terms if a director retires from the Board.

In the event of a Change of Control as defined in the Director Stock Plan and the Director Option Plan, all unvested shares of Common Stock and options previously granted under the plans will immediately become vested or exercisable. Each plan also contains anti-dilution provisions providing for an adjustment in the number of options granted to prevent dilution of benefits in the event any change in the capital structure of the Company affects the Common Stock.
