PROXY STATEMENT FOR 2007 ANNUAL MEETING OF SHAREHOLDERS

PROCEDURAL MATTERS

General

The enclosed Proxy is solicited on behalf of BSQUARE CORPORATION, a Washington corporation (the Company), for use at the 2007 Annual Meeting of Shareholders (the Annual Meeting) to be held on Tuesday, June 6, 2007 at 10:00 a.m., local time, and at any adjournment thereof, for the purposes set forth herein and in the accompanying Notice of Annual Meeting of Shareholders. The Annual Meeting will be held at the Company's principal executive offices at 110 110th Avenue NE, Suite 200, Bellevue, Washington 98004. The Company's telephone number at its principal business office is (425) 519-5900.

These proxy solicitation materials were mailed on or about May 10, 2007 to all shareholders entitled to vote at the Annual Meeting.

Record Date and Principal Share Ownership

Only shareholders of record at the close of business on April 24, 2007 (the Record Date) are entitled to receive notice of and to vote at the Annual Meeting. The only outstanding voting securities of the Company are shares of Common Stock, no par value. As of the Record Date, 9,789,631 shares of the Company's Common Stock were issued and outstanding, held by 208 shareholders of record. See Security Ownership of Principal Shareholders, Directors and Management below for information regarding beneficial owners of more than five percent of the Company's Common Stock and ownership of the Company's directors and management.

Revocability of Proxies

Any proxy given pursuant to this solicitation may be revoked by the person giving it at any time prior to its use by delivering to the Secretary of the Company a written instrument revoking the proxy or a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person.

Voting and Solicitation

Each holder of Common Stock is entitled to one vote for each share held.

This solicitation of proxies is made by the Company, and all related costs will be borne by the Company. In addition, the Company may reimburse brokerage firms and other persons representing beneficial owners of shares for their expenses in forwarding solicitation material to such beneficial owners. Proxies may also be solicited by certain of the Company's directors, officers and other employees, without additional compensation, personally or by telephone.

Quorum; Abstentions; Broker Non-Votes

At the Annual Meeting, inspectors of election will determine the presence of a quorum and tabulate the results of the voting by shareholders. A quorum exists when holders of a majority of the total number of outstanding shares of Common Stock that are entitled to vote at the Annual Meeting are present at the Annual Meeting in person or by proxy. A quorum is necessary for the transaction of business at the Annual Meeting. Abstentions and broker non-votes

will be included in determining the presence of a quorum at the Annual Meeting. Broker non-votes occur when a person holding shares in street name, meaning through a bank or brokerage account, does not provide instructions as to how his or her shares should be voted and the bank or broker does not have discretion to vote those shares or, if the bank or broker has discretion to vote such shares, does not exercise such discretion. The three nominees for election to the Board of Directors who receive the greatest number of votes cast for the election of directors by the shares present, in person or by proxy, will be elected to the Board of Directors. For the election of directors, abstentions and broker non-votes

Table of Contents

will have the effect of neither a vote for, nor a vote against, the nominee and thus will have no effect on the outcome. Shareholders are not entitled to cumulate votes in the election of directors. If a quorum is present, approval of all other matters that properly come before the meeting requires that the votes cast in favor of such actions exceed the votes cast against such actions.

All shares entitled to vote and represented by properly executed, unrevoked proxies received prior to the Annual Meeting will be voted at the Annual Meeting in accordance with the instructions indicated on those proxies. If no instructions are indicated on a properly executed proxy, the shares represented by that proxy will be voted *for* the election of the three Class I directors nominated by the Board of Directors and *for* the proposed modification to the Company's existing Board of Directors compensation program.

If any other matters are properly presented for consideration at the Annual Meeting, including, among other things, consideration of a motion to adjourn the Annual Meeting to another time or place (including, without limitation, for the purpose of soliciting additional proxies), the persons named in the enclosed proxy and acting thereunder will have discretion to vote on those matters in accordance with their best judgment. The Company does not currently anticipate that any other matters will be raised at the Annual Meeting.

Deadline for Receipt of Shareholder Proposals

Shareholders are entitled to present proposals for action at a forthcoming meeting if they comply with the requirements of the proxy rules promulgated by the Securities and Exchange Commission (the "SEC") and those set forth in the Company's Bylaws. Under applicable SEC proxy rules, proposals of shareholders of the Company intended to be presented for consideration at the Company's 2008 Annual Meeting of Shareholders must be received by the Company no later than January 5, 2008, in order that they may be considered for inclusion in the proxy statement and form of proxy relating to that meeting.

In addition, the Company's Bylaws establish an advance notice procedure with regard to certain matters, including shareholder proposals not included in the Company's proxy statement, to be brought before an annual meeting of shareholders. In general, nominations for the election of directors may be made by: (i) the Board of Directors or a committee appointed by the Board of Directors, or (ii) any shareholder entitled to vote who has delivered written notice to the Secretary of the Company 90 days prior to the date one year from the date of the immediately preceding annual meeting of shareholders (or, with respect to an election of directors to be held at a special meeting, the close of business on the tenth day following the date on which notice of such meeting is first given to shareholders), which notice must contain specified information concerning the nominees and concerning the shareholder proposing such nominations. The Company's Bylaws also provide that the only business that shall be conducted at an annual meeting is business that is brought before such meeting: (i) by or at the direction of the Board of Directors, or (ii) by any shareholder entitled to vote who has delivered written notice to the Secretary of the Company 90 days prior to the date one year from the date of the immediately preceding annual meeting of shareholders, which notice must contain specified information concerning the matters to be brought before such meeting and concerning the shareholder proposing such matters. Accordingly, shareholders who intend to present a proposal at the Company's 2008 Annual Meeting of Shareholders without inclusion of such proposal in the Company's proxy materials are required to provide proper notice of such proposal to the Company no later than March 8, 2008. A copy of the full text of the Bylaw provisions discussed above may be obtained by writing to the Secretary of the Company. All notices of proposals by shareholders, whether or not included in the Company's proxy materials, should be sent to BSQUARE CORPORATION, 110 110th Avenue NE, Suite 200, Bellevue, Washington 98004, Attention: Secretary.

The Board of Directors has adopted additional requirements specifically with respect to shareholder nominations for the election of directors. See "Corporate Governance" - "Director Nomination Process."

Table of Contents**PROPOSAL ONE****ELECTION OF DIRECTORS****General**

The Company currently has seven directors. The Company's Board of Directors is divided into three classes with overlapping three-year terms. A director serves in office until his or her respective successor is duly elected and qualified unless the director is removed, resigns or, by reason of death or other cause, is unable to serve in the capacity of director. Any additional directorships resulting from an increase in the number of directors will be distributed among the three classes so that, as nearly as possible, each class will consist of an equal number of directors. Set forth below is certain information furnished to the Company by the director nominees and by each of the incumbent directors whose terms will continue following the Annual Meeting. There are no family relationships among the Company's directors and officers.

Nominees For Directors

Three Class I directors are to be elected at the Annual Meeting for three-year terms ending in 2010. The independent members of the Board of Directors have nominated Elliott H. Jurgensen, Jr., Scot E. Land and Kendra A. VanderMeulen for election as Class I directors.

Unless otherwise instructed, the proxy holders will vote the proxies received by them for Messrs. Jurgensen and Land and Ms. VanderMeulen. The proxies cannot be voted for more than three nominees. These three nominees are current directors of the Company, and each has indicated that they will serve if elected. The Company does not anticipate that the nominees will be unable or unwilling to stand for election, but, if that occurs, all proxies received will be voted by the proxy holders for another person or persons nominated by the Board of Directors.

Vote Required for Election of Directors

PROPOSAL TWO

AMENDMENT OF BOARD OF DIRECTORS COMPENSATION PROGRAM

General

The Company has previously established a compensation program to attract and retain qualified non-employee directors to serve on the Company's Board of Directors.

Currently, if the non-employee director meets certain attendance requirements, the Company pays annual cash fees of \$20,000 to directors who do not serve on any Board committees, \$25,000 to directors who serve on any Board committees other than the Audit Committee, and \$30,000 to directors who serve on the Audit Committee. Directors who serve on more than one committee earn additional annual cash fees of \$5,000 provided that no additional amounts are paid if a directors serves on more than two committees. All amounts are payable in quarterly increments. Directors are also reimbursed for reasonable expenses incurred in attending Board of Directors and committee meetings. As compensation for his services as Chairman of the Board, Mr. Bibeault receives an additional \$10,000 in annual cash fees, payable in quarterly increments. No in-person attendance fees are paid to directors nor do directors receive incremental fees for telephonic and other meetings beyond the typical quarterly meetings. Each newly elected non-employee director also currently receives, as of the date of his or her election, an option under the Company's Second Amended and Restated Stock Plan to purchase 25,000 shares of the Company's Common Stock at an exercise

price equal to the closing price of the Company's Common Stock on the date of the grant. These options vest quarterly over a two-year period. Non-employee directors also currently receive quarterly refresher option grants. Currently, options to purchase 6,250 shares of the Company's Common Stock are granted each fiscal quarter to all non-employee directors, other than the Chairman of the Board, who is granted options for 12,500 shares, all at an exercise price equal to the closing price of the Company's Common Stock on the date of grant where the date

Table of Contents

of grant is the third full trading day following release of the Company's quarterly earnings. These options also vest quarterly over a two-year period.

Mr. Crowley, the Company's President and Chief Executive Officer, as the only current employee director, is not entitled to the compensation described above other than reasonable expense reimbursement.

Proposal

The Company seeks shareholder approval to modify the program under which it attracts and retains directors. For the reasons outlined below, the Board of Directors is recommending that the stock compensation component for independent directors be modified to replace the existing stock option program with grants of restricted stock and reduce the number of shares underlying the awards. The restricted stock would be subject to forfeiture for a period of one year, and would be issued under the Company's Second Amended and Restated Stock Plan, which was approved by shareholders in May 2005. **There is no change proposed for cash compensation for directors.**

The following table outlines where changes are being recommended in the independent directors' stock compensation:

	Current (In shares)	Proposed (In shares)
Stock Compensation:		
Independent director:		
Initial grant	Stock Options 25,000	Stock Options 25,000
Quarterly refresher grant	Stock Options 6,250	Restricted Stock 1,500
Chairman of the Board of Directors:		
Initial grant	Stock Options 50,000	Stock Options 50,000
Quarterly refresher grant	Stock Options 12,500	Restricted Stock 3,000

The Company's current Board of Directors compensation program was approved by shareholders in May 2005. Prior to putting the current program to a shareholder vote in May 2005, and as a major catalyst for doing so, the Company engaged the services of a consultant to benchmark its Board of Directors compensation program against those of similar sized public companies largely in the Pacific Northwest. The consultant found that the cash portion of the Company's Board compensation was slightly below market average while the quarterly refresher grants were fairly significantly below market average. Since the current compensation arrangement was approved by shareholders in 2005, there has been no substantive change in the program. The Company believes a change in the stock component of the Board of Directors compensation program is in the best interests of the Company for the following reasons:

A recent study conducted by a consultant engaged to benchmark the Company's Board of Directors compensation practices against those of other similar sized public companies in the Pacific Northwest as well as larger public companies engaged in the embedded software business, found that the Company's proposed director stock compensation program is consistent with a trend in public companies to move away from stock options and towards more direct equity-based incentives such as restricted stock grants. Further, the study found that the current quarterly refresh stock option grant levels, and the implied value thereof, exceeded those of the benchmark group primarily as a result of an increase in the Company's stock price as compared to prior years.

Under the Company's current stock compensation program, independent directors currently have options outstanding to purchase an aggregate of 563,969 shares of the Company's common stock, which represents

approximately 29% of the Company's total options outstanding as of March 31, 2007. The Company believes that continuing to grant options to directors under the current program will result in a disproportionate percentage of the Company's option pool being held by directors;

The Company would prefer to keep options available for grant to potential candidates for key employee positions. In this regard, because of the nature of restricted stock grants, the number of shares required

Table of Contents

for restricted stock grants under the proposed Director stock compensation program will be considerably less than that required for stock option grants under the existing program. For example, under the Company's proposal, quarterly option grants for independent directors of 6,250 shares would be replaced by restricted stock grants of 1,500 shares;

By reducing the number the number of shares granted every quarter fairly significantly, the Company hopes to reduce the resulting stock compensation expense despite the fact that restricted stock awards have more value. The exact stock compensation impact of both the current and proposed awards is difficult to determine because it is impacted by a number of variables including the Company's current stock price, stock volatility etc.; and

The Company believes that granting outright equity in the form of restricted stock will more closely align the financial incentives of the Board of Directors with those of the Company's shareholders and management.

Based on the reasons above, and the Company's desire to maintain a competitive director compensation program, the Company is proposing the changes described above.

It should be noted that there is no legal requirement that this proposal be approved by shareholders. However, as a matter of corporate governance, the Board of Directors deemed it to be in the Company's and shareholders' best interest to do so. In the event that the shareholders do not approve this proposal, the Company will continue using its existing Board of Directors compensation program as described above. The Board retains the right to further amend the Board of Directors compensation program in the future.

Vote Required for Approval of Amendment of Board of Directors Compensation Program

If a quorum is present and voting, this proposal will be approved if the votes cast in favor of the proposal exceed votes cast against the proposal.

VOTE FOR THE ABOVE DESCRIBED AMENDMENT TO THE
BOARD OF DIRECTORS COMPENSATION PROGRAM.**

The IPO Litigation Committee has the sole authority to review any proposed agreement to settle the class action litigation on behalf of the Company and to decide whether or not the Company should enter into or reject any proposed settlement.

No director attended fewer than 75% of the aggregate of the meetings of the Board of Directors and committees thereof, if any, upon which such director served during the period for which he has been a director or committee member during 2006.

Director Nomination Process

Given the relatively small size of the Company's Board of Directors, the Board has determined that nomination responsibilities should be handled by the independent members of the Board of Directors rather than a separate nominating committee and therefore has not adopted a nominating committee charter. The Company's goal is to assemble a Board that brings to the Company a variety of perspectives and skills derived from high quality business and professional experience. In making its determinations, the Board considers such factors as it deems appropriate to develop a Board and committees that are diverse in nature and comprised of experienced and seasoned advisors. These factors may include judgment, knowledge, skill, diversity (including factors such as race, gender or experience), integrity, experience with businesses and other organizations of comparable size, including experience in software products and services, business, finance, administration or public service, the complementarity of a candidate's experience with the needs of the Company and experience of other Board members, familiarity with national and international business matters, experience with accounting rules and practices, the desire to balance the considerable benefit of continuity with the periodic injection of the fresh perspective provided by new members and the extent to

which a candidate would be a desirable addition to the Board and any committees of the Board. In addition, directors are expected to be able to exercise their best business judgment when acting on behalf of the Company and its shareholders, act ethically at all times and adhere to the applicable provisions of the Company's Code of Business Conduct and Ethics. Other than consideration of the foregoing, there are no stated minimum criteria, qualities or skills for director nominees, although the Board may also consider such other factors as it may deem are in the best interests of the Company and its shareholders. The Board does, however, believe it is preferable that more than one member of the Board meet the criteria for an audit committee financial expert as defined by applicable SEC rules, and that a majority of the members of the Board meet the definition of independent director under applicable Nasdaq rules.

Table of Contents

The Board identifies nominees by first evaluating the current members of the Board willing to continue in service. Current members of the Board with skills and experience that are relevant to the Company's business and who are willing to continue in service are considered for renomination, balancing the value of continuity of service by existing members of the Board with that of obtaining a new perspective. The Board will also take into account an incumbent director's performance as a Board member. If any member of the Board does not wish to continue in service, if the Board decides not to renominate a member for reelection, or if the Board decides to recommend that the size of the Board be increased, the Board shall identify the desired skills and experience of a new nominee in light of the criteria described above. Current members of the Board and management are polled for suggestions as to individuals meeting the Board's criteria. Research may also be performed to identify qualified individuals. To date, the Company has not engaged third parties to identify, evaluate or assist in identifying potential nominees, although the Company reserves the right in the future to retain a third party search firm, if appropriate. Nominees for director are selected by a majority of the Company's independent directors.

It is the policy of the Board of Directors of the Company to consider suggestions for persons to be nominated for director that are submitted by shareholders. The Board will evaluate shareholder suggestions for director nominees in the same manner as it evaluates suggestions for director nominees made by management, then-current directors or other sources. Shareholders suggesting persons as director nominees should send information about a proposed nominee to the Corporate Secretary at the Company's address at least 120 days prior to the anniversary of the mailing date of the prior year's proxy statement. This information should be in writing and should include a signed statement by the proposed nominee that he or she is willing to serve as a director of the Company, a description of the nominee's relationship to the shareholder and any information that the shareholder feels will fully inform the Board about the proposed nominee and his or her qualifications. The Board may request further information from the proposed nominee and the nominating shareholder (including proof of ownership and holding period) and may also seek the consent of both the nominee and the nominating shareholder to be identified in the Company's proxy statement. The Company has not received any recommendations from shareholders for director candidates for the Annual Meeting.

Code of Ethics

The Company has adopted a Code of Business Conduct and Ethics in compliance with the applicable rules of the SEC that applies to the Company's principal executive officer, our principal financial officer and our principal accounting officer or controller, or persons performing similar functions. A copy of this policy is available on the Investors page on its website at www.bsquare.com or free of charge upon written request to the attention of the Corporate Secretary by regular mail, email to investorrelations@bsquare.com, or facsimile at 425-519-5998. The Company intends to disclose, on its website, any amendment to, or a waiver from, a provision of our code of ethics that applies to its principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions and that relates to any element of the code of ethics enumerated in applicable rules of the SEC.

Compensation Committee Interlocks and Insider Participation

No interlocking relationship exists between any member of the Company's Board of Directors or Compensation Committee and any member of the Board of Directors or Compensation Committee of any other company, nor has any such interlocking relationship existed in the past.

2006 Director Compensation

The Company has established a compensation plan to attract and retain qualified non-employee directors to serve on the Company's Board of Directors. During 2006, compensation provided to non-employee directors was modified as approved by shareholders at the 2005 Annual Shareholders Meeting. The modifications increased the cash and stock

compensation directors receive for serving on the Board of Directors, serving as Chairman of the Board of Directors and serving on Committees of the Board of Directors. The current director compensation program, under which 2006 director compensation was paid, is more fully described above in

the section titled Proposal Two, except that Mr. Bibeault received additional compensation for consulting services as described below.

The following table presents the 2006 compensation of our non-employee directors. The compensation of Mr. Crowley, our President and Chief Executive Officer and a member of the Company's Board of Directors, is fully reflected in the Summary Compensation Table.

INFORMATION REGARDING EXECUTIVE OFFICER COMPENSATION

Compensation Discussion and Analysis

This following discussion presents an overview of our executive compensation objectives and philosophy, the programs themselves, information regarding the compensation of the executive officers, which includes the executives named in the Summary Compensation Table, and certain other information as required to be included in this Compensation Discussion and Analysis.

Overview

The objectives and the philosophy of our executive compensation programs are to:

Encourage and reward individual and corporate performance. We seek to accomplish this through the use of financial operating goals and the attainment of individual and functional operating objectives as determinants in the compensation programs;

Seek alignment of executive officers' compensation with shareholder interests on both short-term and long-term bases. We seek to accomplish this through the use of financial operating goals as a determinant of annual bonuses as well as the use of stock options and/or restricted stock which provide meaningful compensation over a longer timeframe; and

Attract and retain highly-qualified executives. We seek to accomplish this through all components of the executive compensation programs.

Components of Compensation

Our executive compensation programs are comprised of three primary components:

Base salaries: We pay base salaries to provide a base level of financial stability to our executives that are largely market-driven;

Shorter-term incentives in the form of annual cash bonuses and discretionary cash bonuses: We provide these incentives to encourage executives to focus maximum effort on achieving near-term profitability, operating objectives and personal growth; and

Longer-term incentives in the forms of stock options and restricted stock: We provide these incentives to focus executives' efforts on achieving long-term growth in shareholder value and to retain key executives as well as provide them with the ability to participate in our ownership.

We believe that the overall compensation of our executive officers is competitive with compensation offered by similar sized public companies in the Pacific Northwest.

Determination of Compensation

Total Compensation. For purposes of evaluating and setting the three components of executive compensation, we primarily consider two factors:

Benchmark data: On an annual basis, we utilize the services of a compensation consultant to compare our compensation programs with those of public companies in the Pacific Northwest with revenue of less than \$100 million. Specifically, over the last several years, the consultant has benchmarked our compensation programs against approximately 30 other similar sized companies.

Company and individual-specific factors: In addition to considering compensation levels of executives at similar sized regional public companies, we also review company performance objectives and non-financial performance objectives applicable to each executive. The company performance objectives are determined through collaboration with the Chief Executive Officer, the Board of Directors and the Compensation Committee. The non-financial performance objectives applicable to each executive

Table of Contents

officer are determined in collaboration with the Chief Executive Officer, the executive officer and the Compensation Committee.

Base Salary. Our primary objective is to provide a competitive base salary for the Company's executive officers. The Compensation Committee has not established any formal guidelines (i.e. pay at 50th percentile of the benchmark group) for purposes of setting base salary but chooses instead to consider the benchmark data along with the individual's performance and experience in determining what represents a competitive salary. The following adjustments were made in executive officer base salaries based almost exclusively on the benchmarking data described above. The Compensation Committee anticipates that future increases may be necessary given the increasingly competitive nature of the marketplace for executive officers in the Pacific Northwest.

Name	Annual Base Salary Before Adjustments	April 2006 Increase	March 2007 Increase	Current Base Salary
Brian T. Crowley	\$ 225,000	\$ 10,000	\$ 25,000	\$ 260,000
Carey E. Butler	\$ 170,000	\$	\$ 20,000	\$ 190,000
Pawan Gupta(1)	\$ 180,000	\$	\$	\$ 180,000
Scott C. Mahan	\$ 180,000	\$ 10,000	\$ 10,000	\$ 200,000
Larry C. Stapleton	\$ 135,000	\$	\$ 15,000	\$ 150,000

(1) Mr. Gupta's employment with the Company terminated effective November 1, 2006.

Annual Executive Bonus Program and Discretionary Cash Bonuses. Our annual executive bonus program (AEBP), in which executives have the potential to earn both cash and restricted stock is maintained in collaboration between the Compensation Committee, the Board of Directors and the Chief Executive Officer. The AEBP first went into effect in fiscal 2006. The achievement of bonuses under the AEBP is contingent on the achievement of an adjusted annual net income target for the Company *and* the achievement of individual objectives set for the executive. Examples of such individual objectives are objectives related to growing our service business, maintaining low employee turnover and improving our infrastructure to enhance business velocity.

The target bonus opportunity for each executive in the AEBP is set as a percentage of base salary. The philosophy used by the Compensation Committee in setting the participation percentages is similar to that used in setting base salaries for the executive officers.

In addition to cash and restricted stock which may be awarded under the AEBP, the Compensation Committee, in collaboration with the Board of Directors and the Chief Executive Officer, may elect to award discretionary cash or stock bonuses.

2006 and current AEBP participation percentages, which became effective March 31, 2006, are as follows:

Name	Participation Percentage of Base Salary	Potential Bonus at 100% Achievement(1)
-------------	--	---

Brian T. Crowley	55%	\$	129,250
Carey E. Butler	30%	\$	51,000
Scott C. Mahan	40%	\$	76,000

(1) Based upon base salary in effect as of December 31, 2006, on which 2006 potential payments under AEBP were based.

Mr. Stapleton does not participate in the AEBP. Rather, Mr. Stapleton has the opportunity to earn certain commissions and bonuses based largely upon the achievement of certain revenue targets. The Compensation Committee reviews Mr. Stapleton's base salary and his target incentive compensation on an annual basis. Working in collaboration with the Chief Executive Officer, the Compensation Committee establishes an

Table of Contents

incentive compensation target. Mr. Stapleton's incentive compensation target for fiscal 2007 is \$130,000 which is in addition to his base salary. Using the incentive compensation target, the Company's Chief Executive Officer then designs incentive compensation programs for Mr. Stapleton which are largely revenue-based and largely earned on a quarterly basis.

If an executive becomes eligible for a bonus under the AEBP, the form of consideration is dependent on the amount of bonus earned. Under the AEBP, the first 25% of an executive's target bonus potential will be paid in cash with the remainder paid in the form of restricted stock vesting in annual increments over two years. For example, if Mr. Crowley earned \$35,000 in bonus, he would receive the entire amount in cash because the bonus amount was less than \$32,312 (25% of his target bonus potential of \$129,250). The payout ratio between cash and restricted stock was established to provide what we believe to be an appropriate balance between short-term tangible cash awards and restricted stock awards, the objective of which is to enhance executive retention, preserve the Company's cash and align executives' interests more closely with those of shareholders.

The structure of the AEBP is identical for both fiscal 2006 and fiscal 2007, except as to the adjusted net income target and individual objectives, which are reset annually.

For the fiscal 2006 AEBP, the Company had to achieve a minimum adjusted net income target of \$2 million for the fiscal year. Given the Company's results, no bonuses were earned under the AEBP. Mr. Gupta did receive a discretionary cash bonus of \$20,000 in fiscal 2006 based on the closing of a strategically-significant contract for the Company. Further, Mr. Stapleton received commissions and bonuses totaling \$110,558 based largely on the achievement of quarterly revenue targets and other goals and objectives.

For fiscal 2007, the AEBP provides that the Company must achieve adjusted net income for the year of \$2 million for executives to be eligible for any bonus. Once that level of adjusted net income is achieved, the level of eligibility is as follows:

Adjusted Net Income(1)	Achievement % as % of Bonus Potential(2)
Less than \$2 million	0%
\$2 to \$3 million	20-100%
\$3 million to \$4.6 million	100-150%
More than \$4.6 million	150%

(1) Net income for fiscal 2007, as determined under Generally Accepted Accounting Principles, is adjusted for certain items, the most notable of which is FAS 123R non-cash stock compensation expense (i.e. add-back for calculation purposes).

(2) Achievement between \$2-3 million and \$3-4.6 million is prorated. Bonus participation is capped at 150% of bonus potential.

In addition to bonus eligibility being dependent on the achievement of adjusted net income, each executive must also accomplish certain individual objectives established by the Compensation Committee in collaboration with the Board of Directors and Chief Executive Officer.

By way of example, if the Company were to achieve adjusted net income for fiscal 2007 of \$2.5 million, Mr. Crowley would be potentially eligible for a bonus of \$85,800 (\$143,000 eligibility at 100% achievement prorated to reflect less than \$3 million in actual adjusted net income achievement.) Assuming Mr. Crowley achieved all of his individual objectives, he would be entitled to \$85,800. Mr. Crowley would receive \$35,750 of this bonus in cash (25% of his target bonus potential of \$143,000) with the remainder received in the form of restricted stock. If Mr. Crowley achieved 60% of his individual objectives, he would be entitled to \$51,480.

In March 2007, the Compensation Committee, in collaboration with the Board of Directors and Chief Executive Officer, decided to award certain executives discretionary cash bonuses due to company achievement, particularly in the second half and fourth quarter of 2006, and individual contributions. Mr. Crowley, Ms. Butler and Mr. Mahan each received \$15,000 in discretionary cash bonuses.

Longer-Term Incentives. Longer-term incentives in the form of grants of stock options, restricted stock and other forms of equity instruments to executive officers are governed by the Company's Second Amended and Restated Stock Plan (the Plan). To date, executive officers have only been granted incentives under the Plan in the form of qualified and non-qualified stock options.

The Compensation Committee approves all stock options and other forms of equity instruments granted to our executive officers under the Plan. Grants approved by the Compensation Committee are then reviewed with the Board of Directors. Stock options have historically been granted at the time of hire of an executive officer. Further, the Compensation Committee periodically reviews the equity ownership of the executive officers which may result in additional awards of equity instruments under the Plan based on a number of factors including company performance and individual performance, the vested status of currently outstanding equity awards, the executive's equity ownership in relation to the other executives and other factors. The Compensation Committee maintains no formal guidelines for these periodic reviews. Stock options are awarded with exercise prices equal to the closing market price per share of our common stock on the grant date. We do not have any program, plan or practice to time grants to new executives or to our existing executives in coordination with the release of material non-public information nor have we or do we intend to time the release of material non-public information for the purpose of affecting the value of our executive officers' compensation.

In March 2006, the Compensation Committee, in collaboration with the Board of Directors and Chief Executive Officer, awarded Mr. Stapleton 25,000 non-qualified stock options in recognition of his efforts during 2005 in reinvigorating the Company's sales efforts. In March 2007, the Compensation Committee, in collaboration with the Board of Directors, awarded Mr. Crowley 50,000 qualified stock options, Ms. Butler and Mr. Mahan each 35,000 qualified stock options and Mr. Stapleton 25,000 qualified stock options after review of the company's performance, their individual performance and after consideration of their current vesting status.

Other Compensation and Perquisites. Executives are eligible to participate in standard benefit plans available to all employees including our 401(k) Retirement Plan (for which the Company provides a match subject to vesting), medical, dental, disability, vacation and sick leave and life and accident insurance. Executives' participation in these benefits is identical to all employees except where the value of the benefit may be greater due to the fact that our executives are more highly paid than most employees (e.g. disability benefits). We provide no pension or deferred compensation benefits for our executive officers. We do not currently have in place any tax gross-up arrangements with our executives.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management and, based on the review and discussion, it has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in the Company's proxy statement.

2006 Grants of Plan-Based Awards

The following table presents the 2006 plan-based awards granted to the named executive officers.

(1) The amounts reported represent 2006 cash incentive award potential under the AEBP, except with respect to Mr. Stapleton, who does not participate in the AEBP. The AEBP and the sales incentive plan applicable to Mr. Stapleton are discussed in Compensation Discussion and Analysis. No cash incentive awards were paid under the AEBP with respect to 2006 because the threshold Company performance criterion of \$2 million in adjusted net income for fiscal year 2006 was not achieved.

Table of Contents

- (2) The amounts reported represent restricted stock award potential under the AEBP. No equity incentive awards were paid under the AEBP with respect to 2006 because the threshold Company performance criterion of \$2 million in adjusted net income for fiscal year 2006 was not achieved. The number of shares granted upon achievement is a function of the bonus earnings as measured in dollars, less the amount payable in cash, with the resulting sum divided by the intrinsic value of the Company's stock option awards at the grant date factor to arrive at the actual number of restricted shares awarded. The intrinsic value is a function of certain assumptions using the Black-Scholes-Merton option pricing model. The amounts reported are based on an intrinsic value of 85% and the Company's common stock price of \$4.41 as of March 31, 2007. Shares granted under the AEBP vest in equal annual installments over two years.
- (3) There is no threshold amount payable under AEBP because the threshold amount of potential bonus based on Company achievement of \$2 million in adjusted net income is reduced proportionately by the extent to which the executive achieved his or her individual objectives, from 0% to 100% achievement. As such, AEBP payments may range between 0% of potential bonus (as set forth Compensation Discussion and Analysis) to 150% of potential bonus. There is no threshold amount payable under the sales incentive plan applicable to Mr. Stapleton because his award is determined as a sales commission, with no floor or ceiling amount payable.
- (4) Represents stock options granted during 2006, which vest quarterly over four years and have a term of ten years.
- (5) Mr. Stapleton's target bonus level for 2006 was \$125,000, and the amount earned was 110,558.

Employment Agreements

The Company has agreements with Brian T. Crowley, Scott C. Mahan, Carey E. Butler, Larry C. Stapleton, and Pawan Gupta, which include the following substantive provisions, in addition to base salaries which have in most cases been increased since the agreements were entered into:

That if such officer is terminated without cause (as defined in the applicable agreement, subject to certain exceptions), he or she will continue to receive termination payments equal to four months of their annual base salary except for Messrs. Crowley and Mahan, who would receive six months of their annual base salary. In each case, the termination payments are not made as lump-sum payments but on the Company's normal payroll schedule. Also, each officer's stock options, or other stock awards, would continue to vest for the same amount of time during which they are receiving termination payments. Each officer agrees to enter into a release agreement as a condition of receiving the aforementioned benefits;

That such officer will not induce, or attempt to induce, any employee, officer, director (and others as defined) of the Company to terminate their relationship with the Company for a period of twelve months following termination, except as to Mr. Gupta's where the period is four months;

That such officer will not own an interest in, manage or participate in the management of, or be connected in any other manner with a Competitor (as defined) for a period of twelve months following termination except as to Mr. Gupta's where the period is four months; and

That such officer will protect the property of the Company including intellectual property.

Mr. Gupta's employment with the Company terminated effective November 1, 2006. In connection, Mr. Gupta and the Company entered into a Separation and Release Agreement dated October 30, 2006 wherein Mr. Gupta agreed to a release of claims relating to his employment. The Separation and Release Agreement also reiterated the previously

established severance benefits noted above and also provided for the continuation of medical benefits for one additional month to which Mr. Gupta was not otherwise entitled.

Severance. We do not have a formal severance policy or plan applicable to our executive officers as a group but, instead, have entered into individual severance arrangements with each of our executives as set forth in their respective employment agreements. In all cases, these agreements provide for the continuation of base salary and stock option vesting for a specified period of time (as set forth in the table below) after termination by the Company where the termination occurred other than for cause or permanent disability (each as defined in the applicable employment agreement). No other benefits accrue to the officers under these severance agreements (e.g., continuation

of medical benefits). The agreements do not provide for AEBP or other cash bonus achievement in the event an officer was present for a portion of the fiscal year. Additionally, as the agreements only speak to the termination of an officer by the Company, they do not address termination by an acquiring company of an executive officer after effectiveness of a change in control. The following severance benefits would be payable to our named executive officers in connection with a termination by the Company effective December 31, 2006 other than for cause or permanent disability.

Name	Continuation Period in Months	Value of Base Salary Continuance(1)	Value of Stock Option Vesting Continuance(2)
Brian T. Crowley	6	\$ 130,000	\$ 8,281
Scott C. Mahan	6	\$ 100,000	\$ 4,141
Carey E. Butler	4	\$ 63,333	\$ 2,071
Larry C. Stapleton	4	\$ 50,000	\$

(1) Calculated using the base salaries in effect as of the filing of this proxy statement. Amounts are payable on our normal payroll schedule.

- (2) Represents the intrinsic value of the incremental shares that would vest over the continuation period and is computed as the difference between the market price of the Company's common stock price of \$2.85 as of December 31, 2006 and the exercise price, multiplied by the number of incremental shares vested.

Change in Control. There are no individual change in control agreements in effect with any of our executive officers. The terms of the Plan do not specifically provide for accelerated vesting of options for participants in the event of a change in control. Instead, the Plan provides that individual stock option agreements may provide for accelerated vesting in connection with certain transactions defined in the Plan (including certain change-in-control transactions). No outstanding stock option agreement provides for such acceleration of vesting. In addition, the Plan provides that the Board of Directors may elect to accelerate vesting for any Plan participant at such times and in such amounts as the Board of Directors determines, unless it would result in certain unfavorable accounting treatment for a reorganization. Any change in control agreement with an executive officer, should it be deemed necessary, would require approval by the Compensation Committee.
