Report of Independent Registered Public Accounting Firm

To the Participants and Administrative Committee of the
Baxter Healthcare of Puerto Rico Savings and Investment Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of Baxter Healthcare of Puerto Rico Savings and Investment Plan (formerly Baxter Healthcare Corporation of Puerto Rico Savings and Investment Plan) (the Plan) at December 31, 2007 and 2006, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As discussed in Note 1 to the financial statements, the Plan has restated its previously issued financial statements for 2006.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule of Assets (Held at End of Year) and Schedule of Reportable Transactions are presented for the purpose of additional analysis and are not a required part of the basic financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

1. General Description of the Plan

The following brief description of Baxter Healthcare of Puerto Rico Savings and Investment Plan (formerly Baxter Healthcare Corporation of Puerto Rico Savings and Investment Plan) (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

On December 1, 2006, the Plan's sponsor changed from Baxter Healthcare Corporation of Puerto Rico, a subsidiary of Baxter International Inc. (Baxter or the Company), to Baxter Healthcare S.A., another subsidiary of Baxter, due to a tax reorganization. Effective January 1, 2007, the Plan changed its name from Baxter Healthcare Corporation of Puerto Rico Savings and Investment Plan to Baxter Healthcare of Puerto Rico Savings and Investment Plan.

General

The Plan is a defined contribution plan which became effective on January 1, 1998. The Plan covers substantially all employees of Baxter Healthcare S.A. (Puerto Rico Branch), and Baxter Sales and Distribution Corporation (collectively, the Sponsor) who have one month of service. The Plan was created for the purpose of providing retirement benefits to employees and to encourage and assist employees in adopting a regular savings program by means of payroll deductions through a plan that qualifies under the applicable laws of the Commonwealth of Puerto Rico and the United States Internal Revenue Code. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On February 28, 2007, Baxter divested substantially all of the assets and liabilities of its Transfusion Therapies (TT) business to an affiliate of TPG Capital, L.P. Approximately 30% of the Plan participants were employed by TT and as any other participant of the Plan would be able to do, these participants have the option to roll over their account to another plan or leave their account in the Plan.

Contributions

Plan participants may authorize the Company to make payroll deductions under the Plan ranging from 1% to 10% of their pre-tax monthly compensation, limited to a maximum of \$8,000 a year. The Company matches a participant's savings contributions at the rate of 50 cents for each dollar of a participant's pre-tax contribution, up to a maximum of 6% of a participant's compensation. The Company may make additional contributions in such amounts as the Company may determine.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and (b) Plan earnings. Allocations are based on participant earnings or account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. The net income of the Plan is posted to the participant's accounts on a daily basis.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions plus actual earnings thereon is based on years of service. The contributions vest in accordance with the following vesting schedule:

Years of Service	Vesting%
1	20
2	40
3	60
4	80
5 or more	100

Employees are fully vested in the Company's matching contributions account, regardless of years of service with the Company, upon attaining age 65, upon becoming disabled in accordance with the provisions of the Plan or upon dying while employed by the Company.

Participant Loans

Participants may borrow from their vested accounts a minimum of \$500 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the last day of the month prior to loan request, plus one percent. Principal and interest are paid through monthly payroll deductions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions into various investment options: Stable Income Fund, Baxter Common Stock Fund, Composite Fund, General Equity Fund, S&P 500 Flagship Fund, International EAFE Equity Index Fund and Small Cap Fund. Additionally, certain participants maintain shares in Edwards Lifesciences Corporation. These shares were placed into the Edwards Lifesciences Common Stock Fund in connection with Baxter's 2000 spin-off of its cardiovascular business. Participants are not able to make contributions or transfer existing account balances to the Edwards Lifesciences Common Stock Fund.

Payments of Benefits

Plan participants can not request withdrawals from the Plan unless they are at least 59½ years old or incur a financial hardship. On termination of service due to retirement or other reasons, a participant may elect to receive either a lump sum amount equal to their entire vested account balance or installment payments. In the case of a participant termination because of death or disability, the entire vested amount is paid to the person or persons legally entitled thereto.

Restatement of Previously Issued Financial Statements

The Plan has restated its previously issued financial statements for 2006, primarily due to the improper classification of investments and investment income, and inadequate disclosures related to its securities lending program. See Note 5 for further information regarding the securities lending program. This restatement had no impact on net assets available for benefits as of December 31, 2006 or total investment income for the year ended December 31, 2006.

The following is a summary of the impact of the restatement on the previously issued financial statements.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting. Accordingly, investment income is recognized when earned and expenses are recognized when incurred.

Notes to Financial Statements

December 31, 2007 and 2006

Valuation of Investments

The valuation of Plan investments is determined as follows:

Cash and cash equivalents	Value based on cost which approximates fair value
Common stock:	
Traded on national exchanges	Value based on composite pricing of all national closing sales prices on the valuation date
Traded on over-the-counter market	Value based on last reported sale price defaulting to bid quotations
U.S. government and government agency issues	Value based on reputable pricing vendors that typically use pricing matrices or models
Corporate and other obligations	Value based on reputable pricing vendors that typically use pricing matrices or models
Commingled funds	Value based on net asset value per unit of the underlying funds
Participant loans	Value based on outstanding principal balance which approximates fair value
Synthetic guaranteed investment contracts	Value based on closing prices of the underlying securities on the valuation date
Collateral held on loaned securities	Value based on cost which approximates fair value

Income Recognition

Plan investment return includes dividend and interest income, gains and losses on sales of investments and unrealized appreciation or depreciation of investments. Purchases and sales of investments are recorded on a trade date basis. Dividends are recorded on the ex-dividend date.

The financial statements reflect the net appreciation or depreciation in the fair value of the Plan's investments. This net appreciation or depreciation consists of realized gains and losses calculated as the difference between proceeds from a sales transaction and cost determined on a moving average basis, and unrealized gains and losses calculated as the change in the fair value between beginning of the year (or purchase date if later) and the end of the year.

Synthetic Guaranteed Investment Contracts

The Plan holds synthetic guaranteed investment contracts (GICs) as part of the Stable Income Fund. The synthetic GICs provide for a fixed return on principal over a specified time through fully benefit-responsive contracts issued by Aegon Institutional Markets and Bank of America N.A. The portfolio of assets underlying the synthetic GICs primarily includes U.S. government and government agency issues, corporate and other bonds, and registered investment companies.

Table of Contents

Baxter Healthcare of Puerto Rico

Savings and Investment Plan

(formerly Baxter Healthcare Corporation of Puerto Rico Savings and Investment Plan)

Notes to Financial Statements

December 31, 2007 and 2006

The fair value of the synthetic GICs equals the total of the fair value of the underlying assets plus the fair value of the wrapper contracts. The fair value of the wrapper contracts is computed using a replacement cost approach that incorporates a comparison of the current fee rate on similar wrapper contracts to the fee being paid by the Plan. Using this approach, the fair value of the wrapper contracts was zero at both December 31, 2007 and 2006.

Fully benefit-responsive synthetic GICs are valued at contract value, rather than fair value, for determining the net assets available for benefits. Contract value represents contributions, plus earnings, less participant withdrawals and administrative expenses. The wrapper contracts used by the Plan are fully benefit-responsive because the wrapper contract issuers are contractually obligated to make up any shortfall in the event that the underlying asset portfolio has been liquidated and is inadequate to cover participant withdrawals and transfers at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or any other risk. The contract value for the synthetic GICs was \$9,908,698 and \$12,641,218 at December 31, 2007 and 2006, respectively.

The crediting interest rate, which is reset quarterly, can never fall below zero. The crediting rate formula smoothes the impact of interest rate changes on participant returns by amortizing any difference between market value and book value over a period of years equal to the duration of the portfolio benchmark. The average yield on the synthetic GICs was approximately 6.37% and 4.48% at December 31, 2007 and 2006, respectively. The average interest rate credited to participants on the synthetic GICs was approximately 4.91% and 4.73%, respectively, for the years ended December 31, 2007 and 2006. Credit ratings for both issuers of the synthetic GICs at December 31, 2007 and 2006 were AA.

Events that lead to market value withdrawals that exceed 20 percent of the contract value would limit the ability of the Plan to transact at contract value with participants. These events include restructurings, early retirement plans, divestitures, bankruptcies or as the result of legal, tax or regulatory changes. The Plan sponsor believes that the occurrence of any such event is remote.

The wrapper providers can only terminate at a value different than contract value under an event of default (that was not remedied) such as failure to follow the terms of the contract. If a wrapper provider would like to exit the contract for another reason, the Plan can maintain the contract through an extended termination process designed to ensure continued benefit-responsive treatment for withdrawals.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and related notes to the financial statements. Changes in such estimates may affect amounts reported in future periods.

Other

Due from or due to brokers for securities sold or purchased, respectively, represent the net cash value of security trades initiated but not yet settled at each respective year-end.

Notes to Financial Statements

December 31, 2007 and 2006

Risks and Uncertainties

The Plan's investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits. Individual participants' accounts bear the risk of loss resulting from fluctuations in investment values.

Investments underlying the Plan's synthetic GICs include securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of these securities are sensitive to changes in economic conditions, including real estate values, delinquencies and/or defaults, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

New Accounting Standard

In September 2006, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 157, Fair Value Measurements (SFAS No. 157), which clarifies the definition of fair value whenever another standard requires or permits assets or liabilities to be measured at fair value. Specifically, the standard clarifies that fair value should be based on the assumptions market participants would use when pricing the asset or liability, and establishes a fair value hierarchy that prioritizes the information used to develop those assumptions. SFAS No. 157 does not expand the use of fair value to any new circumstances, and must be applied on a prospective basis except in certain cases. The standard also requires expanded financial statement disclosures about fair value measurements, including disclosure of the methods used and the effect on earnings. Management is in the process of analyzing this new standard, which will be effective for the Plan on January 1, 2008.

3. Administration of the Plan

Banco Popular de Puerto Rico (the Trustee) and State Street Bank and Trust Company (the Custodian) serve as trustee and custodian, respectively, for the Plan. Prior to April 1, 2007, Watson Wyatt Worldwide, Inc., served as recordkeeper for the Plan. Effective April 1, 2007, Citistreet LLC serves as recordkeeper for the Plan.

The Administrative Committee is responsible for the general administration of the Plan and for carrying out the provisions thereof. The Investment Committee has authority, responsibility and control over the management of the assets of the Plan. Members of both committees are appointed by the Board of Directors of Baxter.

Substantially all investment manager, trustee and administrative fees incurred in the administration of the Plan were paid from the assets of the Plan.

5. Securities Lending Transactions

The Plan participates in a securities lending program with the Custodian. The program allows the Custodian to loan securities, which are assets of the Plan, to approved brokers (the Borrowers). The Custodian requires the Borrowers, pursuant to a security loan agreement, to deliver collateral to secure each loan. The Plan bears the risk of loss with respect to any unfavorable change in fair value of the invested cash collateral. However, the Borrower bears the risk of loss related to the decrease in the fair value of the securities collateral and, therefore, would have to deliver additional securities to maintain the required collateral. In the event of default by the Borrower, the Custodian shall indemnify the Plan by purchasing replacement securities equal to the number of unreturned loaned securities, or, if replacement securities are not able to be purchased, the Custodian shall credit the Plan for the market value of the unreturned securities. In each case, the Custodian would apply the proceeds from the collateral for such a loan to make the Plan whole.

The collateral received pursuant to securities lending transactions is reflected on the Statements of Net Assets Available for Benefits as both an asset and liability, and has no effect on the net assets available for benefits of the Plan.

As of December 31, 2007 and 2006, the Plan had securities on loan with a market value of \$2,352,715 and \$1,656,170, respectively, with cash collateral received of \$2,304,866 and \$1,675,090, respectively. Cash collateral was invested in a short-term commingled investment fund (Quality D Short-Term Investment Fund) as of December 31, 2007 and 2006.

Non-cash collateral of \$105,359 and \$16,964 received for securities on loan at December 31, 2007 and 2006, respectively, consisted of U.S. government and government agency issues, equity securities, and corporate and other obligations held by the Custodian on behalf of the Plan. Non-cash collateral is not included with the collateral balances on the Statements of Net Assets Available for Benefits because it cannot be sold or replugged. A portion of the income generated upon investment of cash collateral is remitted to the Borrowers, and the remainder is allocated between the Plan and the Custodian in its capacity as a security agent. Securities

lending income allocated to the Plan amounted to \$9,690 for 2007. Securities lending income is classified as interest income in the Statement of Changes in Net Assets Available for Benefits.

6. Plan Termination

Although it has not expressed any intent to do so, the Plan sponsor has the right under the Plan to reduce, suspend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the interest of each participating employee in the Plan shall become fully vested and such termination of the Plan would not reduce the interest of any participating employee or their beneficiaries accrued under the Plan up to the date of such termination.

7. Tax Status of the Plan

The Puerto Rico Treasury Department has determined and informed the Plan sponsor that the Plan and the related trust are designed in accordance with applicable sections entitling exemption from income taxes. The Plan sponsor has also obtained a favorable determination letter dated October 1, 2003, from the Internal Revenue Service (IRS) stating that the Plan is in compliance with IRS regulations. The Plan has been amended since receiving the determination letter. The Plan Sponsor believes that the Plan is currently designed and being operated in compliance with the applicable tax requirements. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Related Parties

At December 31, 2007 and 2006, the Plan held shares of common stock of Baxter, the Plan sponsor's parent, and units of participation in certain investment funds of State Street Bank and Trust Company, the Plan's Custodian, loans with participants, and shares of common stock and fixed income securities in various affiliates of CitiStreet LLC, the recordkeeper. These transactions are allowable party-in-interest transactions under ERISA and the regulations promulgated thereunder.

9. Plan Amendment

In 2007, Baxter amended the Plan in response to changes made to its Puerto Rico defined benefit pension plan. Employees hired on or after January 1, 2008 will receive a higher level of Company contributions (an additional non-matching 3% of the employee's compensation) in the Plan but will not be eligible to participate in the pension plan. In addition, these employees will automatically have 3% of their annual salary contributed to the Plan if they do not enroll in the Plan within 60 days of their hire date. Employees hired prior to January 1, 2008 will continue in the pension plan and not be able to participate in the higher level of Company contributions in the Plan.
