**INDEPENDENT AUDITORS REPORT**

The Participants and Administrator  
Ryder System, Inc. Employee Savings Plan B:

We have audited the accompanying statements of net assets available for plan benefits of Ryder System, Inc. Employee Savings Plan B (the Plan ) as of December 31, 2002 and 2001, and the related statements of changes in net assets available for plan benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of the Plan as of December 31, 2002 and 2001, and the changes in net assets available for plan benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included in Schedules I and II is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan s management. The supplemental schedules have been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**RYDER SYSTEM, INC. EMPLOYEE SAVINGS PLAN B**

**NOTES TO FINANCIAL STATEMENTS**

**1. Description of Plan**

The following description of the Ryder System, Inc. Employee Savings Plan B (the Plan) provides only general information. Participants should refer to the Plan document for a more comprehensive description of the Plan's provisions.

*General.* The Plan, established January 1, 1993, is a defined contribution plan and, as such, is subject to some, but not all, of the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). It is excluded from coverage under Title IV of ERISA, which generally provides for guaranty and insurance of retirement benefits; and it is not subject to the funding requirements of Title I of ERISA. The Plan is, however, subject to those provisions of Title I and II of ERISA which, among other things, require that each participant be furnished with an annual financial report and a comprehensive description of the participant's rights under the Plan, set minimum standards of responsibility applicable to fiduciaries of the Plan, and establish minimum standards for participation and vesting.

The Plan Administrator is the Ryder System, Inc. Retirement Committee comprised of eight persons appointed by the Ryder System, Inc. Board of Directors. The Plan's trustee and recordkeeper is Fidelity Management Trust Co. and Fidelity Investments Institutional Operations Company, respectively.

*Eligibility.* Participation in the Plan is voluntary. In general, any salaried employee of Ryder System, Inc. (the Company) and participating affiliates, as well as, field hourly employees of Ryder Integrated Logistics are immediately eligible to participate in the Plan. However, an employee who is in a unit of employees represented by a collective bargaining agent is excluded from participation in the Plan unless the unit has negotiated coverage under the Plan. In addition, employees eligible to participate under another Company sponsored qualified savings plan, will be excluded from participation in the Plan.

*Contributions.* Effective January 1, 2002 participants may elect to contribute by having their compensation reduced by a maximum of the lesser of a) 50% of compensation, depending on an individual's annual salary level, b) IRS limit of \$11,000 or c) such other amount as shall be determined by the Plan Administrator from time to time. Prior to January 1, 2002, participants could elect to contribute to the Plan by having their compensation reduced by a minimum of 1% of compensation up to a maximum of the lesser of a) 10% or 15% of compensation, depending on an individual's annual salary level, b) IRS limit of \$10,500 or c) such other amount as shall be determined by the Plan Administrator from time to time. Participants can also elect a direct rollover of an existing balance from a tax-qualified retirement or savings plan into the Plan. Participants may elect to contribute to any of fifteen investment options and may transfer among funds on a daily basis.

If a participant meets certain requirements related to employment date, age, and service hours, the Company will contribute to the participant's account. Effective October 1, 2002 matching contributions are invested in the investment funds in the same allocation percentages as each participant's deferred contributions. Prior to October 1, 2002 the Company's contributions were automatically allocated to the Ryder System, Inc. Common Stock Fund (RCS Fund). Participants may elect to diversify Company contributions that were automatically invested in the

## Edgar Filing: RYDER SYSTEM INC - Form 11-K

RCS Fund prior to October 1, 2002 in increments of 25% on each of the following dates: October 1, 2002, January 1, 2003, April 1, 2003 and July 1, 2003.

For salaried employees, the Company matches 50% of the employee's annual contribution not to exceed the greater of (1) 50% of the first \$1,200 in contributions for any plan year, or, (2) 50% of the first 4% of the employee's compensation for any plan year. The Company will match an additional 50% of the next 2% of employees' compensation if the Company meets its Economic Value Added (EVA) goal or a pro-rata portion of the EVA match based on the portion of EVA goal attained.

For Ryder Integrated Logistics field hourly employee who meets certain requirements related to employment date, age, and service hours, the Company will make a basic contribution of \$400 prorated on an annual basis, whether or not the employee contributes to the Plan. If the employee contributes to the Plan, the Company will match the first \$300 at 100% and match the next \$800 at 50% (100% if the Company meets its EVA goal or a pro-rata portion of the EVA match based on the portion of EVA goal attained).

*Participant Accounts.* Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balance. Earnings are currently allocated on a daily basis. The benefit for a participant is the benefit that can be provided from the participant's vested account. Forfeited balances of terminated participants' nonvested accounts are used to reduce future Company contributions. In 2002 and 2001, employer contributions were reduced by \$684,425 and \$12,500, respectively, from forfeited nonvested accounts. At December 31, 2002, forfeited nonvested accounts available to reduce future employee contributions totaled \$56,697.

*Vesting.* Participants are immediately vested in their contributions plus earnings thereon. Upon completion of two years of service, participants vest 25% in the Company contributions and the earnings attributable to such contributions and 25% upon completion of each year thereafter until they are fully vested. At retirement age, (the earlier of age 65 or the date in which a participant has both attained age 55 and completed at least 10 years of service), a participant becomes fully vested in the Company contributions and the earnings attributable to such contributions. Ryder Integrated Logistics field hourly employees' basic company contributions are immediately fully vested.

*Participant Loans.* Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loans fund. Loan terms range from 1-5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and accrue interest at a rate which is comparable to those of most major lending institutions. Interest rates vary depending on the current prime interest rate. Principal and interest is paid ratably through payroll deductions. All principal and interest payments are allocated to the Plan's investment funds based on the participant's investment elections at the time of payment. Loans which are granted and repaid in compliance with the Plan provisions will not be considered distributions to the participant for tax purposes.

*Distributions.* On termination of service, if a participant's account balance is greater than \$5,000, a participant's account is distributed to the participant in the form of a single lump-sum payment upon receipt of participant's consent. Terminated participants whose account balance is less than

\$5,000 receive automatic distributions. As of December 31, 2002 and 2001, amounts allocated to accounts of terminated persons who have not yet been paid their automatic distributions totaled \$393,589 and \$1,299,869, respectively. A participant may request a withdrawal of all or a portion of his elective contribution account balance if he can demonstrate financial hardship. The Plan administrator approves the request, and the amount withdrawn cannot be subsequently repaid to the Plan. Such amounts will be considered distributions to the participant for income tax purposes.

## 2. Summary of Significant Accounting Policies

*Basis of Accounting.* The financial statements of the Plan are prepared on the accrual basis of accounting.

*Use of Estimates.* The preparation of financial statements in conformity with accounting principles generally accepted in United States of America requires management to make estimates and assumptions that affect reported amounts and related disclosures. Actual results could differ from those estimates.

*Investments.* Short-term money market instruments are stated at cost, which approximates fair value. Investments in fully benefit-responsive insurance company and bank guaranteed investment contracts ( GICs ) are stated at contract value which represents cost plus accrued interest (Note 5). A fully benefit-responsive contract provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers to other investment options offered to the participant by the Plan.

Investments in synthetic GICs are also stated at contract value. A synthetic GIC is comprised of two components, an underlying asset and a wrapper contract. The underlying asset is valued at representative quoted market prices. The wrapper contract is valued as the difference between the fair value of the underlying asset (or pro-rata pool of assets) and the contract value. Wrapper contracts generally change the investment characteristics of underlying securities (such as corporate debt or U.S. government securities) to those of guaranteed investment contracts. The wrapper contracts provide that benefit-responsive distributions for specific underlying securities may be withdrawn at contract or face value. Benefit-responsive distributions are generally defined as a withdrawal or account of a participant's retirement, disability or death, or participant-directed transfers, in accordance with the terms of the Plan.

The RCS Fund is offered as an investment option to participants in the Plan. The RCS Fund invests primarily in Ryder System, Inc. common stock, which is traded on the New York Stock Exchange under the ticker symbol (R) and is valued at quoted market price. A small portion of the fund is invested in short-term money market investments. The money market portion of RCS Fund provides liquidity which enables the Plan participants to transfer money daily among all investment choices.

Mutual funds are valued at quoted market prices, which represent the net asset value of the securities held in such funds. Participant loans bear interest at market rates and are stated at the outstanding principal balance plus accrued interest, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. The Plan presents in the statements of changes in net assets available for plan benefits the net appreciation (depreciation) in the fair value of its investments which consists of the related gains or losses and the unrealized

## Edgar Filing: RYDER SYSTEM INC - Form 11-K

appreciation (depreciation) on those investments. Dividends on Company common stock and mutual funds are recorded on the record date. Interest income is recorded on the accrual basis.

*Payment of Benefits.* Benefits are recorded when paid.

*Risk and Uncertainties.* The Plan's invested assets ultimately consist of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits and the statement of changes in net assets available for plan benefits.

*New Accounting Pronouncements.* In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133, as amended, requires all derivatives, including derivatives embedded in other contracts, to be recognized at fair value as either assets or liabilities on the balance sheet and establishes new accounting rules for hedging activities. The Plan adopted SFAS No. 133 effective January 1, 2001. There was an inconsistency in accounting literature between SFAS No. 133, requiring derivatives to be measured at fair value, and the AICPA Statement of Position 94-4, Reporting of Investment Contracts Held by Health and Welfare Benefit plans and Defined Contribution Pension Plans, requiring benefit responsive investment contracts (including synthetic guaranteed investment contracts) to be measured at contract value. The Financial Accounting Standards Board has tentatively resolved the inconsistency. The tentative guidance provides that contracts accounted for under SOP 94-4 are not subject to the requirements of SFAS 133. Therefore, the Plan continues to account for synthetic guaranteed investment contracts at contract value. Accordingly, the adoption of SFAS 133 did not have a material impact on the financial statements.

### 3. Investments

The Plan held the following individual investments whose aggregate fair value equaled or exceeded 5% of the Plan's net assets at either December 31, 2002 or 2001:

	2002	2001
Ryder System, Inc. Common Stock Fund	\$51,719,304	\$52,593,428
Fidelity Equity-Income Fund	30,322,723	37,808,574
Putnam Voyager Fund A	45,455,760	69,925,187
Fidelity Contrafund	33,301,827	38,535,203
Fidelity Diversified International Fund	17,160,015	19,278,184
Fidelity Aggressive Growth		12,128,035

## Edgar Filing: RYDER SYSTEM INC - Form 11-K

During 2002 and 2001, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated/(depreciated) in value as follows:

	2002	2001
Mutual Funds	\$(45,442,137)	\$(55,950,440)
Ryder System, Inc. Common Stock Fund	2,125,914	14,422,132
	\$(43,316,223)	\$(41,528,308)

#### 4. Investment Contracts with Insurance Companies

The Managed Interest Income Fund, one of the Plan's investment funds, may be invested in short-term money market instruments through the Fidelity Short-Term Interest Fund and contracts with insurance companies, banks and other financial institutions. The Managed Interest Income Fund continues to maintain investments in fully benefit-responsive traditional and synthetic guaranteed investment contracts with various insurance companies, banks, and financial institutions. The fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. These contracts are included in the financial statements at contract value. Contract value represents contributions made under the contract, plus earnings at crediting interest rates which reset quarterly, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of a contract issuer or otherwise. The average annual yield for the Managed Interest Income Fund was 5.6% and 6.2% in 2002 and 2001, respectively. The weighted average crediting interest rates for the investment contracts as of December 31, 2002 and 2001 were, 5.3% and 5.6%, respectively. At December 31, 2002 and 2001 the fair value of the underlying assets of the synthetic GICs and the value of the related wrapper contracts were \$99,152,084 and \$(5,411,705), respectively and \$84,781,200 and \$(2,452,745) respectively. At December 31, 2002 the Plan had no traditional GICs. At December 31, 2001 the contract value and fair value of the traditional GICs were \$1,042,821 and \$1,054,414, respectively.

#### 5. Concentration of Credit Risk

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across fifteen participant-directed fund elections. Additionally, the investments within each participant-directed fund election are further diversified into varied financial instruments, with the exception of the Ryder Stock Fund, which invests in a single security. The Plan's exposure to credit risk on the wrapper contracts is limited to the fair value of the contracts with each company.

#### 6. Plan Transfers

Effective January 1, 2002, the Plan was amended to permit former employees of Accenture (previously out-sourced IT function) who were hired by the Company to rollover outstanding loans to the Plan. Loan transfers from Accenture to the Plan for 2002 amounted to \$290,128. The Company also sponsors the Ryder System, Inc. Employee Savings Plan A for non-salaried employees other than Ryder Integrated Logistics hourly field employees. Transfers from

Company plans, mostly Plan A, for 2002 amounted to \$345,168. Transfers to other Company plans, mostly Plan A, for 2001 amounted to \$579,581.

#### **7. Related Party Transactions**

The Plan holds shares of Ryder System, Inc. common stock and recorded dividend income, net realized losses on sale and net unrealized depreciation in value of these securities.

Certain Plan investments are shares of mutual funds managed by Fidelity Management Company, which is affiliated with the Plan's current trustee and, therefore, these transactions qualify as party-in-interest. Fees incurred by the Plan to Fidelity Management Company for investment management and recordkeeping services amounted to \$439,388 and \$420,579 for the years ended December 31, 2002 and 2001, respectively.

#### **8. Plan Termination**

While it has not expressed any intention to do so, the Company may amend or terminate the Plan at any time. In the event of termination, Plan assets are payable to each participant in a lump sum equal to the balance in the participant's account.

#### **9. Tax Status of the Plan**

The Plan qualifies as a profit sharing plan under Section 401(a) of the Internal Revenue Code of 1986, as amended, (the Code) and also qualifies as a cash or deferred arrangement under Section 401(k) of the Code and, therefore, is exempt from federal income taxes under Section 501(a) of the Code. A favorable tax determination letter dated June 4, 2002 has been obtained from the Internal Revenue Service.

Under a plan qualified pursuant to Sections 401(a) and (k) of the Code, participants generally will not be taxed on contributions or matching contributions, or earnings thereon, until such amounts are distributed to participants or their beneficiaries under the Plan. The tax-deferred contributions and matching contributions are deductible by the Company for tax purposes when those contributions are made, subject to certain limitations set forth in Section 404 of the Code.

Participants or their beneficiaries will be taxed, at ordinary income tax rates, on the amount they receive as a distribution from the Plan, at the time they receive the distribution. However, if the participant or beneficiary receives a lump sum payment of the balance under the Plan in a single taxable year, and the distribution is made by reason of death, disability or termination of employment of the participant, or after the participant has attained age 59 1/2, then certain special tax rules may be applicable.

**10. Reconciliation of Financial Statements to Forms 5500**

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	<b>December 31,</b>	
	<b>2002</b>	<b>2001</b>
Net assets available for benefits per the financial statements	\$ 351,890,776	\$ 383,913,772
Amounts allocated to withdrawing participants with balances less than \$5,000	(393,589)	(1,299,869)
Net assets available for benefits per the Form 5500	\$ 351,497,187	\$ 382,613,903

The following is a reconciliation of benefits paid to participants per the financial statements to the Form 5500:

	<b>Year ended December 31, 2002</b>
Benefits paid to participants per the financial statements	\$ 39,285,642
Add: Amounts allocated to withdrawing participants with balances less than \$5,000 at December 31, 2001	393,589
Less: Amounts allocated to withdrawing participants with Balances less than \$5,000 at December 31, 2000	(1,299,869)
Benefits paid to participants per the Form 5500	\$ 38,379,362

Amounts allocated to withdrawing participants are recorded on the Form 5500 for benefit claims that have been processed and approved for payment prior to December 31 but not yet paid as of that date.
