PART I

FORWARD-LOOKING STATEMENTS

Statements included in this document, or incorporated herein by reference, that do not relate to present or historical conditions are "forward looking statements" within the meaning of that term in Section 27A of the Securities Act of 1933, as amended, and Section 21F of the Securities Exchange Act of 1934, as amended. Additional oral or written forward looking statements may be made by the Company from time to time, and such statements may be included in documents that are filed with the Securities and Exchange Commission. Such forward looking statements involve risks and uncertainties which could cause results or outcomes to differ materially from those expressed in such forward looking statements. Forward-looking statements may include, without limitation, statements relating to the Company's plans, strategies, objectives, expectations and intentions and are intended to be made pursuant to the safe harbor provisions of the Private Securities Litigation Reform Act of 1995. Words such as "believes," "forecasts," "intends," "possible," "expects," "estimates," "anticipates," or "plans" and similar expressions are intended to identify forward-looking statements. Among the important factors on which such statements are based are assumptions concerning the anticipated growth of the information technology industry, the continued need of current and prospective customers for the Company's services, the availability of qualified professional staff, and price and wage inflation.

ITEM 1. BUSINESS

Computer Task Group, Incorporated (the Company, CTG, or the Registrant) was incorporated in Buffalo, New York on March 11, 1966, and its corporate headquarters are located at 800 Delaware Avenue, Buffalo, New York 14209 (716-882-8000). CTG provides information technology (IT) professional services. CTG employs approximately 3,200 people worldwide and serves customers through an

Edgar Filing: COMPUTER TASK GROUP INC - Form 10-K405

international network of offices in North America and Europe. During 2001, the Company had eight operating subsidiaries: CTG Services, Inc., CTG HealthCare Solutions (Kansas), Inc., and Computer Task Group of Canada, Inc., providing services primarily in North America, Inc.; and Computer Task Group Belgium N.V., Computer Task Group France S.A., Computer Task Group Luxembourg S.A., Computer Task Group Nederland B.V., and Computer Task Group (U.K.) Ltd. providing services primarily in Europe.

BACKGROUND

The Company operates in one industry segment, providing IT professional services to its clients. The services provided typically encompass the IT business solution life cycle, including phases for planning, developing, implementing, managing, and maintaining the IT solution. A typical customer is an organization with large, complex information and data processing requirements. Approximately 85.1 percent of consolidated 2001 revenue of \$312.1 million was generated in North America and 14.9 percent in Europe. CTG provides three primary services. A brief discussion of these services is as follows:

- IT STAFFING: CTG recruits, retains, and manages IT talent for its clients. CTG services both large organizations with multiple locations and high-volume IT requirements, and companies that need to augment their own staff on a flexible basis. Our recruiting organization works with customers to define their requirements and develop the most competitive pricing to meet those requirements.
- APPLICATION MANAGEMENT OUTSOURCING (AMO): In an AMO project, a client outsources the management of some or all of its applications so that their internal management and staff can focus on projects that will help them in creating and fostering initiatives that will aid in delivering a competitive advantage to the company. CTG's services in this area include support of single or multiple applications, help desk, and facilities management through a full suite of cost-effective maintenance, enhancement, and systems development and integrated solutions.
- IT SOLUTIONS: CTG's services in this area range from helping clients assess their business needs and identifying the right IT solutions to meet them, to the delivery of services that include the selection and implementation of packaged software and the design, construction, testing, and integration of new systems.

International Business Machines Corporation (IBM) is CTG's largest customer. CTG provides services to various IBM divisions in approximately 50 locations. In November 2000, CTG signed a contract with IBM for three years as one of IBM's national technical service providers for the United States. This contract covered 93 percent of the total services provided to IBM by CTG in 2001. IBM accounted for a total of \$77.2 or 24.7 percent of 2001 consolidated revenue; \$95.3 million or 27.6 percent of 2000 consolidated revenue; and a total of \$128.9 million or 27.3 percent of CTG's 1999 consolidated revenue. Although revenues from IBM were constrained in 2001, the Company expects to continue to derive a significant portion of its business from IBM in 2002 and future years. While the decline in revenue from IBM has had a negative impact on the Company's revenue and profits, the Company believes the simultaneous loss of all IBM

Edgar Filing: COMPUTER TASK GROUP INC - Form 10-K405

business is unlikely to occur due to the diversity of the projects performed for IBM, and the number of locations and divisions involved.

The Company has registered its symbol and logo with the U.S. Patent and Trademark Office. It has entered into agreements with various software and hardware vendors from time to time in the normal course of business, none of which are material to the business.

No employees are covered by a collective bargaining agreement or are represented by a labor union. CTG is an equal opportunity employer.

1999 ACQUISITION

On February 23, 1999, the Company acquired the stock of Elumen Solutions, Inc. (Elumen). The transaction was valued at \$89 million, of which \$86 million was paid in cash or through the assumption of debt, and the remainder was satisfied through the issuance of approximately 128,000 shares of CTG common stock. The acquisition was accounted for as a purchase, and the results of Elumen have been included in the Company's consolidated financial statements since the date of acquisition. CTG recorded approximately \$84.9 million of goodwill and other identifiable intangibles from the acquisition.

PRICING AND BACKLOG

The majority of CTG's IT professional services business is performed on a time-and-materials basis. Rates vary based on the type and level of skill required by the customer, as well as geographic location. Agreements for work performed on a time-and-materials basis generally do not specify any dollar amount as services are rendered on an "as required" basis.

The Company performs a portion of its business on a monthly fee basis, as well as a small portion of its project business on a fixed-price basis. These contracts generally have different terms and conditions regarding cancellation and warranties, and are usually negotiated based on the unique aspects of the project. Contract value for fixed-price contracts is generally a function of the type and level of skills required to complete the related project and the risk associated with the project. Risk is a function of the project deliverable, completion date and CTG's management and staff performance. Fixed-price contracts accounted for under the percentage of completion method represented approximately one percent of 2001, and two percent of the Company's 2000 and 1999 consolidated revenue, respectively. Revenue from all fixed-price contracts, including those accounted for under the percentage of completion method and on a monthly fee basis, represented 12 percent, 15 percent, 11 percent of consolidated revenue in 2001, 2000, and 1999, respectively. As of December 31, 2001 and 2000, the backlog for fixed-price and all managed-support contracts was approximately \$79 million and \$98 million, respectively. Approximately 59 percent of the December 31, 2001 backlog of \$79 million, or \$46.8 million, is expected to be earned in 2002. Of the \$98 million of backlog at December 31, 2000, approximately 48 percent, or \$47.2 million was earned in 2001. Revenue is subject to seasonal variations, with a minor downturn in months of high vacation and legal holidays (July, August, and December). Backlog does not tend to be seasonal, however, it does fluctuate based upon the timing of long-term contracts.

COMPETITION

Edgar Filing: COMPUTER TASK GROUP INC - Form 10-K405

The IT services market is highly competitive. The market is also highly fragmented with many providers with no single competitor maintaining a clear market leadership. The Company's competition varies by location, the type of service provided, and the customer to whom services are provided. Competition comes from four major channels: large national or international vendors, including major accounting and consulting firms; hardware vendors and suppliers of packaged software systems; small local firms or individuals specializing in specific programming services or applications; and, a customer's internal data processing staff. CTG competes against all four of these channels for its share of the market. The Company believes that to compete successfully it is necessary to have a local geographic presence, offer appropriate IT solutions, provide skilled professional resources, and price its services competitively.

CTG has implemented a Global Management System, with a goal to achieve continuous, measured improvements in services and deliverables. As part of this program, CTG has developed specific methodologies for providing high value services that result in unique solutions and specified deliverables for its clients. The Company believes these methodologies will enhance its ability to compete. CTG achieved worldwide ISO 9001 certification in June, 2000. The Company believes it is the only IT services company of its size to achieve worldwide certification.

ITEM 2. PROPERTIES

Edgar Filing: COMPUTER TASK GROUP INC - Form 10-K405

The Company occupies a headquarters building at 800 Delaware Avenue, and an office building at 700 Delaware Avenue, both located in Buffalo, New York. The corporate headquarters consists of approximately 40,000 square feet and is occupied by corporate administrative operations. The office building consists of approximately 39,000 square feet and is also occupied by corporate administrative operations. There are no mortgages on either of these buildings.

The Company also owns a 37,000 square foot building in Melbourne, Florida with a net book value of \$1.8 million, which it has leased to a third party under a one-year lease. Subsequent to December 31, 2001, the Company has accepted a purchase offer to sell this building, and expects to close the sale in the second quarter of 2002. Net proceeds from the sale are anticipated to be approximately \$2 million, and the Company does not expect to record a loss on the sale of the property.

The remainder of the Company's locations are leased facilities. Most of these facilities serve as sales and support offices and their size varies, generally in the range of 1,000 to 16,000 square feet, with the number of people employed at each office. The Company's lease terms generally vary from periods of less than a year to five years and generally have flexible renewal options. The Company believes that its present owned and leased facilities are adequate to support its current and anticipated future needs.

ITEM 3. LEGAL PROCEEDINGS

The Company is involved in various legal proceedings, including litigation arising in the normal course of business. In the opinion of management, an adverse outcome to any of these proceedings will not have a material effect on the financial condition of the Company.
