Commenting on the First Quarter Orders and Sales, announced this morning, Pierre Bilger, Chairman and Chief Executive Officer of ALSTOM stated:

"The good level of orders in the first quarter of fiscal year 02/03 compared to the same period last year and to the previous quarter is encouraging. It confirms our customers' confidence in our products and we believe that ALSTOM is resisting well to the current, challenging, economic environment.

Also, during the quarter ending 30 June 2002 we met the first significant milestone of the Restore Value plan, the rights issue, which was successfully concluded despite difficult stock market conditions.

We maintain our efforts and continue to focus on free cash flow and improvement in operating margins in order to meet our objectives."
