NOTES TO THE CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

(In thousands, except shares and per share data)

1. Basis of Presentation

The accompanying unaudited Condensed Consolidated Financial Statements have been prepared in accordance with the Securities and Exchange Commission (“SEC”) requirements for interim reporting, which allows certain footnotes and other financial information normally required by accounting principles generally accepted in the United States of America to be condensed or omitted. In our opinion, the Condensed Consolidated Financial Statements contain all adjustments (consisting of only normal recurring adjustments) necessary for the fair presentation of our financial position and results of operations.

These statements should be read in conjunction with the Consolidated Financial Statements and Notes included in our annual report on Form 10-K for the year ended December 31, 2014. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year.

2. Management Action

During the fourth quarter of 2013, we implemented a restructuring action to right size the cost structure in our European operations, primarily as a result of the strategic decision to adjust our Direct versus Distribution selling efforts, to enhance our go-to-market approach which was designed to improve profitability and increase customer satisfaction. The pre-tax charge of \$1,577 recognized in the fourth quarter consisted primarily of severance and was included within Selling and Administrative Expense in the Condensed Consolidated Statements of Earnings. We believe the anticipated savings will offset the pre-tax charge in approximately 1.5 years from the date of the action. The charge impacts our Europe, Middle East, Africa (EMEA) operating segment, which has no goodwill balance. We do not expect additional costs will be incurred related to this restructuring action.

A reconciliation of the beginning and ending liability balances is as follows:

	Severance and Related Costs
Q4 2013 restructuring action	\$ 1,577
December 31, 2013 balance	1,577
2014 utilization:

2015 utilization:

3. Divestiture

On July 31, 2012, we entered into a Share Purchase Agreement (“SPA”) with M&F Management and Financing GmbH (“M&F”) for the sale of ownership of our subsidiary, Tennant CEE GmbH, and our minority interest in a joint venture, OOO Tennant. In exchange for the ownership of these entities, we received €815, or \$1,014, in cash, as of the date of sale and financed the remaining €5,351, for a total purchase price of €6,166. A total of €2,126, or \$2,826, was received in equal quarterly payments during 2013 and the first anniversary payment of €1,075, or \$1,435, was received on July 31, 2013. The second anniversary payment of €1,075, or \$1,418, was received on July 31, 2014. The remaining €1,075, or \$1,153, as of March 31, 2015, will be received on the third anniversary date of the divestiture, which is July 31, 2015. As a result of this divestiture, we recorded a pre-tax gain of \$784 in our Profit from Operations in the Condensed Consolidated Statements of Earnings for the year ended December 31, 2012.

M&F is now a master distributor of Tennant products in the Central Eastern Europe, Middle East and Africa markets. In addition, as further discussed in Note 16, M&F was a related party to Tennant at the time of the transaction. We have identified M&F as a variable interest entity (“VIE”) and have performed a qualitative assessment that considered M&F’s purpose and design, our involvement and the risks and benefits and determined that we are not the primary beneficiary of this VIE. The only financing we have provided to M&F was related to the SPA, as noted above, and there are no arrangements that would require us to provide significant financial support in the future.

4. Inventories

Inventories are valued at the lower of cost or market. Inventories at March 31, 2015 and December 31, 2014 consisted of the following:

	March 31, 2015	December 31, 2014
Inventories carried at LIFO:		
Finished goods	\$45,589	\$41,687
Raw materials, production parts and work-in-process	26,113	24,458
LIFO reserve	(28,166) (28,166)
Total LIFO inventories	43,536	37,979
Inventories carried at FIFO:		
Finished goods	29,685	29,851
Raw materials, production parts and work-in-process	12,390	12,681
Total FIFO inventories	42,075	42,532
Total inventories	\$85,611	\$80,511

The LIFO reserve approximates the difference between LIFO carrying cost and FIFO.

HSBC Bank (China) Company Limited, Shanghai Branch

On June 20, 2012, we entered into a banking facility with the HSBC Bank (China) Company Limited, Shanghai Branch in the amount of \$5,000. As of March 31, 2015, there were no outstanding borrowings on this facility.

7. Warranty

We record a liability for warranty claims at the time of sale. The amount of the liability is based on the trend in the historical ratio of claims to sales, the historical length of time between the sale and resulting warranty claim, new product introductions and other factors. Warranty terms on machines generally range from one to four years. However, the majority of our claims are paid out within the first six to nine months following a sale. The majority of the liability for estimated warranty claims represents amounts to be paid out in the near term for qualified warranty issues, with immaterial amounts reserved to be paid for older equipment warranty issues.

The changes in warranty reserves for the three months ended March 31, 2015 and 2014 were as follows:

	Three Months Ended March 31	
	2015	2014
Beginning balance	\$9,686	\$9,663
Additions charged to expense	2,413	2,131
Foreign currency fluctuations	(167) 22
Claims paid	(2,498) (2,358
Ending balance	\$9,434	\$9,458

8. Fair Value Measurements

Estimates of fair value for financial assets and financial liabilities are based on the framework established in the accounting guidance for fair value measurements. The framework defines fair value, provides guidance for measuring fair value and requires certain disclosures. The framework discusses valuation techniques, such as the market approach (comparable market prices), the income approach (present value of future income or cash flow) and the cost approach (cost to replace the service capacity of an asset or replacement cost). The framework utilizes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The following is a brief description of those three levels:

Level 1: Observable inputs such as quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in markets that are not active.

Level 3: Unobservable inputs that reflect the reporting entity's own assumptions.

Our population of assets and liabilities subject to fair value measurements at March 31, 2015 is as follows:

	Fair Value	Level 1	Level 2	Level 3
Assets:				
Foreign currency forward exchange contracts	\$443	\$—	\$443	\$—
Total Assets	\$443	\$—	\$443	\$—
Liabilities:				
Foreign currency forward exchange contracts	\$61	\$—	\$61	\$—
Total Liabilities	\$61	\$—	\$61	\$—

Our foreign currency forward exchange contracts are valued based on quoted forward foreign exchange prices at the reporting date.

Table of Contents

We use derivative instruments to manage exposures to foreign currency only in an attempt to limit underlying exposures from currency fluctuations and not for trading purposes. Gains or losses on forward foreign exchange contracts that hedge foreign currency-denominated assets and liabilities are recognized in Other Current Assets and Other Current Liabilities within the Condensed Consolidated Balance Sheets and are recognized in Other Income (Expense) under Net Foreign Currency Transaction Losses within the Condensed Consolidated Statements of Earnings. As of March 31, 2015, the fair value of such contracts outstanding was an asset of \$443 and a liability of \$61. As of December 31, 2014, the fair value of such contracts outstanding was an asset of \$130. There were no outstanding liabilities. At March 31, 2015 and December 31, 2014, the notional amounts of foreign currency forward exchange contracts outstanding were \$42,366 and \$34,631, respectively. We recognized a net gain of \$3,131 and a net loss of \$441 on such contracts during the first three months of 2015 and 2014, respectively.

The carrying amounts reported in the Condensed Consolidated Balance Sheets for Cash and Cash Equivalents, Accounts Receivable, Other Current Assets, Accounts Payable and Other Current Liabilities approximate fair value. The fair value of our Long-Term Debt approximates cost based on the borrowing rates currently available to us for bank loans with similar terms and remaining maturities.

9. Retirement Benefit Plans

Our defined benefit pension plans and postretirement medical plan are described in Note 11 of our annual report on Form 10-K for the year ended December 31, 2014. We have contributed \$126 and \$380 during the first quarter of 2015 to our pension plans and to our postretirement medical plan, respectively.

The components of the net periodic cost (benefit) for the three months ended March 31, 2015 and 2014 were as follows:

	Three Months Ended					
	March 31					
	Pension Benefits		Non-U.S. Plans		Postretirement Medical Benefits

10. Commitments and Contingencies

Certain operating leases for vehicles contain residual value guarantee provisions, which would become due at the expiration of the operating lease agreement if the fair value of the leased vehicles is less than the guaranteed residual value. As of March 31, 2015, of those leases that contain residual value guarantees, the aggregate residual value at lease expiration was \$11,316, of which we have guaranteed \$9,171. As of March 31, 2015, we have recorded a liability for the estimated end of term loss related to this residual value guarantee of \$183 for certain vehicles within our fleet. Our fleet also contains vehicles we estimate will settle at a gain. Gains on these vehicles will be recognized at the end of the lease term.

12. Income Taxes

We and our subsidiaries are subject to U.S. federal income tax as well as income tax of numerous state and foreign jurisdictions. We are generally no longer subject to U.S. federal tax examinations for taxable years before 2011 and, with limited exceptions, state and foreign income tax examinations for taxable years before 2007.

We recognize potential accrued interest and penalties related to unrecognized tax benefits in Income Tax Expense. In addition to the liability of \$2,803 for unrecognized tax benefits as of March 31, 2015, there was approximately \$574 for accrued interest and penalties. The total amount of unrecognized tax benefits that, if recognized, would affect the effective tax rate as of March 31, 2015 was \$2,468. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be revised and reflected as an adjustment of the Income Tax Expense. Unrecognized tax benefits were reduced by \$131 during the first three months of 2015 for expiration of the statute of limitations in various jurisdictions.

We are currently undergoing income tax examinations in various state and foreign jurisdictions covering 2007 to 2013. Although the final outcome of these examinations cannot be currently determined, we believe that we have adequate reserves with respect to these examinations.

13. Share-Based Compensation

Our share-based compensation plans are described in Note 15 of our annual report on Form 10-K for the year ended December 31, 2014. During the three months ended March 31, 2015 and 2014, we recognized total Share-Based Compensation Expense of \$2,707 and \$1,540, respectively. The total excess tax benefit recognized for share-based compensation arrangements during the three months ended March 31, 2015 and 2014 was \$648 and \$169, respectively.

During the first three months of 2015, we granted 15,080 restricted shares. The weighted average grant date fair value of each share awarded was \$66.97. Restricted share awards generally have a three year vesting period from the effective date of the grant. The total fair value of shares vested during the three months ended March 31, 2015 and 2014 was \$811 and \$807, respectively.

Excluded from the dilutive securities shown above were options to purchase 145,293 and 142,168 shares of Common Stock during the three months ended March 31, 2015 and 2014, respectively. These exclusions were made as the effects were anti-dilutive.

15. Segment Reporting

We are organized into four operating segments: North America; Latin America; Europe, Middle East and Africa; and Asia Pacific. We combine our North America and Latin America operating segments into the "Americas" for reporting Net Sales by geographic area. In accordance with the objective and basic principles of the applicable accounting guidance, we aggregate our operating segments into one reportable segment that consists of the design, manufacture and sale of products used primarily in the maintenance of nonresidential surfaces.

Net Sales attributed to each geographic area for the three months ended March 31, 2015 and 2014 were as follows:

	Three Months Ended March 31	
	2015	2014
Americas	\$134,003	\$122,389
Europe, Middle East and Africa	34,647	43,064
Asia Pacific	17,090	18,526
Total	\$185,740	\$183,979

Net Sales are attributed to each geographic area based on the country from which the product was shipped and are net of intercompany sales.

16. Related Party Transactions

On July 31, 2012, we entered into a share purchase agreement with M&F, as further discussed in Note 3. Two of the M&F shareholders are individuals who were employed by Tennant prior to the transaction date and were no longer employed by Tennant as of the transaction date.

During the first quarter of 2008, we acquired Sociedade Alfa Ltda. and entered into lease agreements for certain properties owned by or partially owned by the former owners of this entity. Some of these individuals are current employees of Tennant. Lease payments made under these lease agreements are not material to our financial position or results of operations.

The Company reaches these customers through the industry's largest direct sales and service organization and through a strong and well-supported network of authorized distributors worldwide.

Net Earnings for the first quarter of 2015 were \$5.0 million, or \$0.27 per diluted share, as compared to Net Earnings of \$5.8 million, or \$0.31 per diluted share, in the first quarter of 2014. Operating Profit for the first quarter of 2015 was \$8.3 million, or 4.4% of Net Sales, as compared to Operating Profit of \$9.2 million, or 5.0% of Net Sales, in the first quarter of 2014. Operating Profit during the first quarter of 2015 was favorably impacted by higher Net Sales, somewhat offset by higher Selling and Administrative ("S&A") Expense and Research and Development ("R&D") Expense. Due to the strength of the U.S. dollar in the 2015 first quarter, foreign currency exchange reduced operating profit by approximately \$1.9 million.

Net Earnings for the first quarter of 2014 were \$5.8 million, or \$0.31 per diluted share, as compared to Net Earnings of \$5.1 million, or \$0.27 per diluted share, in the first quarter of 2013. Net Earnings during the first quarter of 2014 were favorably impacted by higher Net Sales, somewhat offset by lower gross margins and higher S&A Expense.

Net Sales

Consolidated Net Sales for the first quarter of 2015 totaled \$185.7 million, a 1.0% increase as compared to consolidated Net Sales of \$184.0 million in the first quarter of 2014.

The components of the consolidated Net Sales change for the three months ended March 31, 2015 as compared to the same period in 2014 were as follows:

	2015 v. 2014 Three Months Ended March 31
Organic Growth:	
Volume	5.0%
Price	1.0%
Organic Growth	6.0%
Foreign Currency	(5.0%)
Total	1.0%

The 1.0% increase in consolidated Net Sales in the first quarter of 2015 as compared to the same period in 2014 was driven by:

An organic sales increase of approximately 6.0%, which excludes the effects of foreign currency exchange (and acquisitions when applicable), due to an approximate 5.0% volume increase and a 1.0% price increase. The volume increase was primarily due to robust sales to strategic accounts in the Americas region, continued demand for new products, such as the T12 and T17 rider scrubbers, and increased global sales of outdoor equipment. Sales of new products introduced within the past three years totaled 14% of equipment revenue for the first quarter of 2015, up from 10% in the first quarter of 2014. The price increase was the result of selling list price increases, typically in the range of 2 percent to 4 percent in most geographies, with an effective date of February 1, 2015. We expect the increase in selling prices to increase Net Sales in the range of 1 percent to 2 percent for the 2015 full year. The impact to gross margin is estimated to be minimal as these selling price increases were taken to offset inflation.

The following table sets forth the Net Sales by geographic area for the three months ended March 31, 2015 and 2014 and the percentage change from the prior year (in thousands, except percentages):

	Three Months Ended March 31		
	2015	2014	%
Americas	\$134,003	\$122,389	9.5
Europe, Middle East and Africa	34,647	43,064	(19.5)
Asia Pacific	17,090	18,526	(7.8)
Total	\$185,740	\$183,979	1.0

Americas

Net Sales in the Americas were \$134.0 million for the first quarter of 2015, an increase of 9.5% from the first quarter of 2014. Organic sales in the first quarter of 2015 were favorably impacted by robust sales to strategic accounts in North America and sales of newly introduced products, including the T12 and T17 rider scrubbers. The direct impact of foreign currency translation exchange effects within the Americas unfavorably impacted Net Sales by approximately 2.0% during the first quarter of 2015. As a result, organic sales increased approximately 11.5% in the first quarter of 2015.

Europe, Middle East and Africa

In our markets within Europe, the Middle East and Africa (“EMEA”), Net Sales decreased 19.5% to \$34.6 million for the first quarter of 2015, compared to the first quarter of 2014. Organic sales decreased approximately 5.0% in the first quarter which reflected a fragile European economy, although outdoor equipment had positive sales growth for the sixth consecutive quarter. There was an unfavorable foreign currency exchange impact on Net Sales during the first quarter of 2015 of approximately 14.5%.

Table of Contents

Asia Pacific

Net Sales in the Asia Pacific market for the first quarter of 2015 totaled \$17.1 million, a decrease of 7.8% from the first quarter of 2014. Organic sales decreased approximately 1.3% in the first quarter of 2015 due primarily to economic weakness in Australia and slower sales in China compared to the robust double-digit organic sales growth in the prior year quarter. Direct foreign currency translation exchange effects unfavorably impacted Net Sales by approximately 6.5% in the first quarter of 2015.

Gross Profit

Gross profit in the first quarter of 2015 was \$78.1 million, or 42.0% of Net Sales, as compared to \$76.9 million, or 41.8% of Net Sales, in the first quarter of 2014. Gross profit dollars increased 1.5% versus the prior year period due to the higher Net Sales in the first quarter of 2015. Gross margin was 20 basis points higher versus the prior year period despite an unfavorable impact from the selling channel mix, given the robust sales to strategic accounts. In addition, foreign currency headwinds unfavorably impacted gross margin by approximately 60 basis points.

Operating Expense

Research & Development Expense

R&D Expense in the first quarter of 2015 was \$7.7 million as compared with \$7.5 million in the first quarter of 2014. R&D Expense as a percentage of Net Sales was 4.2% for the first quarter of 2015, an increase of 10 basis points as compared to 4.1% in the first quarter of 2014.

We continued to invest in developing innovative new products for our traditional core business, as well as in our Orbio Technologies Group, which is focused on advancing a suite of sustainable cleaning technologies. New products are a key driver of sales growth. In the 2015 first quarter, we launched four new ergonomic backpack vacuum models for professional cleaners to maximize comfort and mobility. There are plans to introduce an additional 32 new products in the last three quarters of 2015.

Selling & Administrative Expense

S&A Expense in the first quarter of 2015 was \$62.1 million, as compared to \$60.2 million in the first quarter of 2014. S&A Expense as a percentage of Net Sales was 33.4% for the first quarter of 2015, an increase of 70 basis points from 32.7% in the comparable 2014 quarter. The increase in S&A Expense in the first quarter of 2015 as compared to the same period in the prior year was primarily due to investments in direct sales, distribution and marketing to build organic sales. This was somewhat offset by continued cost controls and improved operating efficiencies that favorably impacted S&A Expense in the first quarter of 2015.

Other Income (Expense), Net

Interest Income

There was no significant change in Interest Income in the first quarter of 2015 as compared to the same period in 2014.

Interest Expense

Interest Expense in the first quarter of 2015 was \$0.4 million as compared to \$0.5 million in the first quarter of 2014. The lower Interest Expense in the first quarter of 2015 was due to a lower level of debt.

Net Foreign Currency Transaction Losses

Net Foreign Currency Transaction Losses in the first quarter of 2015 were \$0.4 million as compared to Net Foreign Currency Transaction Losses of \$0.2 million in the same period in the prior year. The unfavorable change in the impact from foreign currency transactions in 2015 was due to fluctuations in foreign currency rates and settlement of transactional hedging activity in the normal course of business.

Other Expense, Net

There was no significant change in Other Expense, Net in the first quarter of 2015 as compared to the same period in 2014.

Table of Contents

Income Taxes

The effective tax rate in the first quarter of 2015 was 32.4% compared to the effective rate in the first quarter of the prior year of 32.5%.

The 2015 first quarter tax rate did not include any benefit for Federal R&D tax credits as we are not allowed to consider these credits in our tax rate until they are formally reenacted.

We do not have any plans to repatriate the undistributed earnings of non-U.S. subsidiaries. Any repatriation from foreign subsidiaries that would result in incremental U.S. taxation is not being considered. It is management's belief that reinvesting these earnings outside the U.S. is the most efficient use of capital.

Liquidity and Capital Resources

Liquidity

Cash and Cash Equivalents totaled \$76.8 million at March 31, 2015, as compared to \$93.0 million as of December 31, 2014. Wherever possible, cash management is centralized and intercompany financing is used to provide working capital to subsidiaries as needed. Our current ratio was 2.6 as of March 31, 2015 and 2.4 as of December 31, 2014, and our working capital was \$195.3 million and \$201.5 million, respectively. Our debt-to-capital ratio was 8.7% and 9.1% at March 31, 2015 and December 31, 2014, respectively.

Cash Flow Summary

Cash used in our operating, investing and financing activities is summarized as follows (in thousands):

	Three Months Ended	
	March 31	
	2015	2014
Operating Activities	\$(2,122)	\$(3,913)
Investing Activities:		
Purchases of Property, Plant and Equipment, Net of Disposals	(4,043)	(3,471)
Increase in Restricted Cash	(13)	(2)
Financing Activities	(8,627)	(10,157)
Effect of Exchange Rate Changes on Cash and Cash Equivalents	(1,333)	(41)
Net Decrease in Cash and Cash Equivalents	\$(16,138)	\$(17,584)

Operating Activities

Operating activities used \$2.1 million of cash for the three months ended March 31, 2015. Cash used in operating activities was driven primarily by cash outflows resulting from an increase in Inventories of \$9.5 million and a decrease in Employee Compensation and Benefits liabilities and Other Current Liabilities in the amounts of \$8.9 million and \$5.8 million, respectively, partially offset by cash inflows resulting from a decrease in Accounts Receivable of \$16.2 million and Net Earnings of \$5.0 million.

Operating activities used \$3.9 million of cash for the three months ended March 31, 2014. Cash used in operating activities was driven primarily by an increase in Inventories of \$7.3 million, a decrease in Employee Compensation and Benefits liabilities of \$4.7 million and an increase in Accounts Receivable of \$4.1 million, partially offset by Net Earnings of \$5.8 million.

Management evaluates how effectively we utilize two of our key operating assets, Accounts Receivable and Inventories, using Accounts Receivable "Days Sales Outstanding" (DSO) and "Days Inventory on Hand" (DIOH), on a FIFO basis. The metrics are calculated on a rolling three month basis in order to more readily reflect changing trends in the business. These metrics for the quarters ended were as follows (in days):

	March 31, 2015	December 31, 2014	March 31, 2014
DSO	64	62	64
DIOH	97	84	88

Table of Contents

As of March 31, 2015, DSO was the same as compared to March 31, 2014 and increased 2 days as compared to December 31, 2014. The increase is primarily due to the variety of terms offered and mix of business having a larger unfavorable impact than the favorable trend of continued proactive management of our receivables by enforcing tighter credit limits and continuing to successfully collect past due balances.

As of March 31, 2015, DIOH increased 9 days as compared to March 31, 2014 and thirteen days as compared to December 31, 2014, primarily due to increased levels of inventory in support of higher sales levels and the launches of many new products, somewhat offset by progress from inventory reduction initiatives.

Investing Activities

Investing activities during the three months ended March 31, 2015 used \$4.1 million in cash. Net capital expenditures used \$4.0 million. Capital expenditures included investments in information technology process improvement projects, tooling related to new product development, and manufacturing equipment.

Investing activities during the three months ended March 31, 2014 used \$3.5 million in cash. Net capital expenditures used \$3.5 million. Capital expenditures included investments in tooling related to new product development and manufacturing and also information technology process improvement projects.

Financing Activities

Net cash used by financing activities was \$8.6 million during the first three months of 2015. The purchases of our Common Stock per our authorized repurchase program used \$4.1 million, dividend payments used \$3.7 million and the payment of Long-Term Debt used \$2.0 million, partially offset by proceeds from the issuance of Common Stock of \$0.6 million and the excess tax benefit on stock plans of \$0.6 million.

Net cash used by financing activities was \$10.2 million during the first three months of 2014. The purchase of our Common Stock per our authorized repurchase program used \$3.6 million, dividend payments used \$3.5 million, the payment of Long-Term Debt used \$2.0 million and the repayment of Short-Term borrowings used \$1.5 million, partially offset by proceeds from the issuance of Common Stock of \$0.2 million and the excess tax benefit of stock plans of \$0.2 million.

Newly Issued Accounting Guidance

Within our annual report on Form 10-K for the year ended December 31, 2014, we discussed Accounting Standards Update (ASU) No. 2014-09, Revenue from Contracts with Customers (Topic 606), including a description of the ASU, the effective date and the methods of transition. As it relates to the effective date in the original standard issued in May 2014, the provisions of the ASU are effective for annual periods beginning after December 15, 2016, including interim periods within that reporting period. Early adoption is not permitted.

On April 1, 2015, the Financial Accounting Standards Board proposed deferring the effective date by one year to December 15, 2017 for annual reporting periods beginning after that date. The Financial Accounting Standards Board also proposed permitting early adoption of the standard, but not before the original effective date of December 15, 2016. Management is currently evaluating the methods of adoption allowed by the new standard and the effect the standard is expected to have on our financial statements and related disclosures.

Additional information about factors that could materially affect our results can be found in Part I, Item 1A, Risk Factors in our annual report on Form 10-K for the year ended December 31, 2014 and Part II, Item 1A of this Form 10-Q.

We undertake no obligation to update or revise any forward-looking statement, whether as a result of new information, future events or otherwise. Investors are advised to consult any further disclosures by us in our filings

with the Securities and Exchange Commission and in other written statements on related subjects. It is not possible to anticipate or foresee all risk factors, and investors should not consider any list of such factors to be an exhaustive or complete list of all risks or uncertainties.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes in our market risk since December 31, 2014. For additional information, refer to Item 7A of our 2014 annual report on Form 10-K for the year ended December 31, 2014.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

Our management, with the participation of our Chief Executive Officer and our Principal Financial and Accounting Officer, have evaluated the effectiveness of our disclosure controls and procedures for the period ended March 31, 2015 (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the “Exchange Act”). Based on that evaluation, our Chief Executive Officer and our Principal Financial and Accounting Officer have concluded that our disclosure controls and procedures are effective to ensure that information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to our management, including our principal executive and our principal financial officers, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls

There were no changes in our internal controls over financial reporting during the most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

There are no material pending legal proceedings other than ordinary routine litigation incidental to the Company’s business.

Item 1A. Risk Factors

We documented our risk factors in Item 1A of Part I of our annual report on Form 10-K for our fiscal year ended December 31, 2014. There have been no material changes to our risk factors since the filing of that report.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On April 25, 2012, the Board of Directors authorized the repurchase of 1,000,000 shares of our common stock. Share repurchases are made from time to time in the open market or through privately negotiated transactions, primarily to offset the dilutive effect of shares issued through our share-based compensation programs. Our credit agreements and Shelf Agreement restrict the payment of dividends or repurchasing of stock if, after giving effect to such payments, our leverage ratio is greater than 2.00 to 1, in such case limiting such payments to an amount ranging from \$50.0 million to \$75.0 million during any fiscal year.
