UNION PLANTERS CORPORATION AND SUBSIDIARIES

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

Note 1. Principles of Accounting

The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America. The foregoing financial statements are unaudited; however, in the opinion of management, all adjustments, consisting only of normal recurring adjustments, necessary for a fair statement of the results for the interim periods have been included.

The accounting policies followed by Union Planters Corporation and its subsidiaries (collectively, Union Planters or the Company) for interim financial reporting are consistent with the accounting policies followed for annual financial reporting except for newly issued accounting pronouncements discussed below. The notes included herein should be read in conjunction with the notes to the consolidated financial statements included in Appendix C of Union Planters Corporation's Definitive Proxy Statement for the Annual Shareholders' Meeting held April 18, 2002 (the Definitive Proxy Statement including the 2001 Annual Financial Disclosures are referred to as the Proxy and Annual Financial Disclosures). Certain prior period amounts have been reclassified to conform with the 2002 financial reporting

presentation.

Goodwill and Other Intangible Assets.

In June 2001, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No. 142, "Goodwill and Other Intangible Assets." This standard addresses how intangible assets that are acquired individually or with a group of other assets (but not those acquired in a business combination) should be accounted for in the financial statements upon their acquisition and supercedes Accounting Principles Board (APB) Opinion No. 17, "Intangible Assets." SFAS No. 142 changes the accounting for goodwill and other intangible assets in the following significant respects:

- Acquiring entities integrate acquired entities into their operations; thus, the acquirers' expectations of benefits from the resulting synergies usually are reflected in the premium that they pay to acquire those entities. APB No. 17 treated the acquired entity as if it remained a stand-alone entity rather than being integrated with the acquiring entity. SFAS No. 142 adopts a view of goodwill that bases the accounting for goodwill on the units of the combined entity into which the acquired entity is integrated.
- APB Opinion No. 17 presumed that goodwill and other intangible assets were wasting assets and were amortized over an estimated life. SFAS No. 142 requires goodwill and other intangible assets that have indefinite lives to not be amortized but rather to be tested at least annually for impairment. Intangible assets that have finite useful lives will continue to be amortized over their useful lives, but without the constraint of an arbitrary ceiling.
- SFAS No. 142 provides specific guidance for testing goodwill for impairment.
- SFAS No. 142 provides specific guidance on testing intangible assets that will not be amortized for impairment and thus removes those assets from the scope of other impairment guidance. Intangible assets that are not amortized will be tested for impairment at least annually by comparing the fair value of those assets with their recorded amount.
- SFAS No. 142 requires disclosure about changes in the carrying amount of goodwill from period to period (in the aggregate and by reportable segment), the carrying amount of intangible assets by major intangible asset class for those subject to amortization and for those not subject to amortization and the estimated asset amortization for the next five years.

Union Planters adopted this standard on January 1, 2002. For the three and nine months ended September 30, 2002, the net impact on the consolidated statement of earnings was an increase in net earnings of \$8.0 million and \$24.1 million, respectively. See Note 12 for further discussion.

In October 2001, the FASB issued interpretive guidance for SFAS No. 142 affirming that intangible assets acquired through the purchase of branches will continue to be amortized. This resulted in the continued amortization of certain unidentified intangibles included in goodwill associated with branch purchases. During the three and nine months ended September 30, 2002, this amortization expense was \$3.7 million and \$11.0 million, respectively.

In October 2002, the FASB issued SFAS No. 147, "Acquisitions of Certain Financial Institutions." This statement amends the accounting for acquisitions of branches qualifying as a business. Such acquisitions will now be accounted for in accordance with SFAS No. 142. Thus, the requirement to recognize and amortize any excess of the fair value of liabilities assumed over the fair value of tangible and identifiable intangible assets acquired as an unidentifiable intangible asset no longer applies to acquisitions within the scope of this statement. During the fourth quarter, Union Planters, will adopt this standard and, as required, restate net earnings for the first three quarters of the year, reversing approximately \$6.8 million of pretax amortization expense incurred during the first nine months of 2002. The effect on net earnings for the first nine months of 2002 is expected to be \$4.7 million or \$.02 per diluted share. Unidentifiable intangible assets included in goodwill with a book value of \$61.4 million will continue to be amortized, resulting in quarterly amortization expense of \$1.4 million.

Impairment or Disposal of Long-Lived Assets.

In August 2001, the FASB issued SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets," which supersedes SFAS No. 121, "Accounting for the Impairment of Long-Lived Assets and for Long-Lived Assets to be Disposed of," and the accounting and reporting provisions of APB Opinion No. 30, "Reporting the Results of Operations - Reporting the Effects of Disposal of a Segment of a Business and Extraordinary, Unusual and Infrequently Occurring Events and Transactions," for the disposal of a business and amends Accounting Research Bulletin (ARB) No. 51, "Consolidated Financial Statements." Significant changes in accounting include:

- Establishment of a single accounting model for long-lived assets to be disposed of by sale.
- Goodwill is no longer included in the scope of this guidance.

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

- Long-lived assets to be abandoned are now required to have depreciable lives that are in accordance with APB Opinion No. 20, "Accounting Changes."
- Long-lived assets to be disposed of by sale are required to be measured at the lower of book value or the fair value, less the cost to sell.
- Losses related to discontinued operations are no longer reported until they have been incurred.

The provisions of this standard are required to be applied starting with fiscal years beginning after December 15, 2001. Union Planters adopted this standard on January 1, 2002. The adoption had an immaterial impact on the Company's financial condition, results of operations and cash flows.

Costs associated with Exit or Disposal Activities.

In June of 2002, the FASB issued SFAS No. 146 "Accounting for Costs Associated with Exit or Disposal Activities." Previous guidance required expenses for exit or disposal activities to be accrued when the exit or disposal plan was approved by management and the liability was probable and quantifiable regardless of when the expense would be incurred. This standard requires that liabilities or costs associated with such activities be recognized when incurred. This standard also requires that any such liability be recognized initially at fair value. The provisions of this standard are effective for exit or disposal activities initiated after December 31, 2002 with earlier application permitted. Union Planters will adopt the new standard as required and does not expect it to have a material impact on the Company's financial condition, results of operations or cash flows.

Note 2. Acquisitions

On February 12, 2001, Union Planters acquired Jefferson Savings Bancorp, Inc. (Jefferson Savings) of Ballwin, Missouri, the parent of Jefferson Heritage Bank, a federal savings bank. Jefferson Savings had total assets of \$1.6 billion, total loans of \$1.3 billion and total deposits of \$877 million at acquisition. Union Planters exchanged approximately 6.6 million shares of its common stock for all of the outstanding shares of Jefferson Savings. The acquisition was accounted for as a purchase. Goodwill and other intangibles resulting from the acquisition were \$46.5 million.

Union Planters previously announced its intent to purchase common shares up to the number of shares issued in the transaction, and at September 30, 2002, all shares had been purchased and retired.

Note 3. Investment Securities

The amortized cost and fair value of investment securities are summarized as follows:

	Amortized <u>Cost</u>	<u>September 30, 2002</u>		<u>Fair Value</u>
		<u>Unrealized</u>		
		<u>Gains</u>	<u>Losses</u>	
(Dollars in thousands)				
Available for sale securities				
U.S. Government and federal agencies

Mortgage-backed	369,275	20,490	2	389,763
Other	<u>154,552</u>	<u>7,081</u>	<u>16</u>	<u>161,617</u>
Total U.S. Government and federal agencies	2,406,156	74,111	26	2,480,241
Obligations of states and political subdivisions	760,566	45,351	155	805,762

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Other stocks and securities	<u>1,441,833</u>	<u>30,580</u>	<u>1,396</u>	<u>1,471,017</u>
Total available for sale securities	<u>\$ 4,608,555</u>	<u>\$ 150,042</u>	<u>\$ 1,577</u>	<u>\$ 4,757,020</u>

	<u>December 31, 2001</u>			
	Amortized <u>Cost</u>	<u>Unrealized</u>		<u>Fair Value</u>
		<u>Gains</u>	<u>Losses</u>	
	(Dollars in thousands)			
Available for sale securities				
U.S. Government and federal agencies				
U.S. Treasury	\$ 78,414	\$ 1,478	\$ 156	\$ 79,736
U.S. Government agencies				
Collateralized mortgage obligations	1,699,771	34,352	1,480	1,732,643
Mortgage-backed	355,830	9,323	621	364,532
Other	<u>324,361</u>	<u>9,421</u>	<u>95</u>	<u>333,687</u>
Total U.S. Government and federal agencies	2,458,376	54,574	2,352	2,510,598
Obligations of states and political subdivisions	1,084,757	24,065	4,049	1,104,773
Other stocks and securities	<u>1,151,115</u>	<u>21,277</u>	<u>7,134</u>	<u>1,165,258</u>
Total available for sale securities	<u>\$ 4,694,248</u>	<u>\$ 99,916</u>	<u>\$ 13,535</u>	<u>\$ 4,780,629</u>

Investment securities having a fair value of approximately \$2.2 billion at September 30, 2002 and December 31, 2001 were pledged to secure public and trust funds on deposit, securities sold under agreements to repurchase and Federal Home Loan Bank (FHLB) advances.

Included in available for sale investment securities is \$271.1 million and \$269.9 million of Federal Home Loan Bank and Federal Reserve Bank stock at September 30, 2002 and December 31, 2001, respectively, for which there is no readily determinable market value.

The following table presents the gross realized gains and losses on available for sale investment securities for the three and nine months ended September 30, 2002 and 2001:

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>	
	<u>September 30,</u>		<u>September 30,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
	(Dollars in thousands)			
Realized gains	\$ 564	\$ 591	\$ 12,789	\$ 11,628
Realized losses	1,864	11	2,053	2,694

The loss during the third quarter of 2002 is related to interest only strips arising from Union Planters' sales and securitizations of mortgage loans, which had an other than temporary decline in value due to increased prepayment speeds on the underlying mortgages that was accounted for as a realized loss.

Note 4. Nonperforming Loans

Nonperforming loans are summarized as follows:

	September 30, <u>2002</u>	December 31, <u>2001</u>
	(Dollars in thousands)	
Nonaccrual loans	\$ 298,689	\$ 234,405
Restructured loans	<u>561</u>	<u>868</u>
Total nonperforming loans	<u>\$ 299,250</u>	<u>\$ 235,273</u>
FHA/VA government-insured/guaranteed loans on nonaccrual status	\$ 1,659	\$ 1,872

Note 5. Allowance for Losses on Loans

The changes in the allowance for losses on loans for the three and nine months ended September 30, 2002 and 2001 are as follows:

	Three Months Ended <u>September 30,</u>		Nine Months Ended <u>September 30,</u>	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
	(Dollars in thousands)			
Beginning balance	\$ 353,566	\$ 342,868	\$ 341,930	\$ 335,452
Provision for losses on loans	48,000	41,933	137,901	96,133
Recoveries of loans previously charged off	10,911	29,290	28,860	54,014
Loans charged off	(55,916)	(71,222)	(152,130)	(145,867)
Increase due to acquisitions	-	-	-	5,753
Decrease due to sale of loans	<u>-</u>	<u>(675)</u>	<u>-</u>	<u>(3,291)</u>
Ending balance	<u>\$ 356,561</u>	<u>\$ 342,194</u>	<u>\$ 356,561</u>	<u>\$ 342,194</u>

Note 6. Borrowings

Short-Term Borrowings

Short-term borrowings include short-term FHLB advances, federal funds purchased, securities sold under agreements to repurchase and other short-term borrowings. Short-term FHLB advances are borrowings from the FHLB, which are collateralized by mortgage-backed securities and mortgage loans. Federal funds purchased arise from Union Planters' market activity with its correspondent banks and generally mature in one business day. Securities sold under agreements to repurchase are collateralized by U.S. Government and agency securities.

Short-term borrowings are summarized as follows:

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

	<u>September 30,</u>		<u>December 31,</u>
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in thousands)		
Balances at period-end			
Short-term FHLB advances	\$ 400,000	\$ 400,000	\$ 400,000
Federal funds purchased	1,293,935	1,414,345	1,266,804
Securities sold under agreements to repurchase	1,329,758	1,408,905	1,408,134
Other short-term borrowings	<u>25,162</u>	<u>1,740</u>	<u>1,741</u>
Total short-term borrowings	<u>\$ 3,048,855</u>	<u>\$ 3,224,990</u>	<u>\$ 3,076,679</u>
Federal funds purchased and securities sold under agreements to repurchase			
Year-to-date daily average balance	\$ 2,176,550	\$ 3,370,256	\$ 3,198,989
Weighted average interest rate	1.49%	4.43%	2.54%
Short-term FHLB advances			
Year-to-date daily average balance	\$ 90,842	\$ 1,249,817	\$ 1,035,616
Weighted average interest rate	1.80%	5.21%	4.93%

Short- and Medium-Term Senior Notes

Union Planters has a \$5.0 billion senior and subordinated bank note program. Under the program, Union Planters Bank, N.A. (UPB) may issue senior bank notes with maturities ranging from 30 days to one year from their respective issue dates (Short-Term Senior Notes), senior bank notes with maturities more than one year to 30 years from their respective dates of issue (Medium-Term Senior Notes) and subordinated bank notes with maturities from 5 years to 30 years from their respective dates of issue (Subordinated Notes).

At September 30, 2002, September 30, 2001 and December 31, 2001, there were no Subordinated Notes outstanding under this program. At September 30, 2002 and December 31, 2001, there were no Short-Term Senior Notes outstanding.

On June 7, 2002, UPB issued \$600.0 million in Medium-Term Senior Notes. The notes carry an interest rate of 5.125% annually and mature in June 2007. A summary of the Medium-Term Senior Notes outstanding is as follows:

	<u>Medium-Term Senior Notes</u>		
	<u>September 30,</u>		<u>December 31,</u>
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in thousands)		
Fixed-rate notes at period-end	\$ 598,141	\$ 20,000	\$ -
Range of maturities	6/07	10/01	-

Federal Home Loan Bank Advances

Certain of Union Planters' banking and thrift subsidiaries had outstanding advances with original maturity dates of greater than one year from the FHLB under Blanket Agreements for Advances and Security Agreements (the Agreements). The Agreements enable these subsidiaries to borrow funds from the FHLB to fund mortgage loan programs and to satisfy certain other funding needs. The value of the mortgage-backed securities and mortgage loans pledged under the Agreements must be maintained at not less than 115% and 150%, respectively, of the outstanding advances. At September 30, 2002, Union Planters had an adequate amount of mortgage-backed securities and loans to satisfy the collateral requirements. A summary of the advances is as follows:

	<u>September 30,</u>		<u>December 31,</u>
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in thousands)		

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Balance at period-end	\$ 960,743	\$ 1,461,530	\$ 1,461,190
Range of interest rates	1.71% - 6.92%	1.75% - 6.92%	1.75% - 6.92%
Range of maturities	2002 - 2021	2001 - 2021	2002 - 2021

Other Long-Term Debt

Union Planters' other long-term debt is summarized as follows. Reference is made to Note 9 to the consolidated financial statements in the Proxy and Annual Financial Disclosures for additional information regarding these borrowings.

	<u>September 30,</u>		December 31,
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in thousands)		
8.20% Trust Preferred Securities	\$ 207,244	\$ 199,106	\$ 199,115
6.25% Subordinated Notes due 2003	74,443	74,391	74,404
6.75% Subordinated Notes due 2005	99,817	99,758	99,773
7.75% Subordinated Notes due 2011	499,242	499,153	499,175

Other long-term debt	<u>668</u>	<u>2,643</u>	<u>2,360</u>
Total other long-term debt	<u>\$ 1,249,688</u>	<u>\$ 1,275,780</u>	<u>\$ 1,275,509</u>

Note 7. Shareholders' Equity

Common Stock

During the second quarter of 2002, the Union Planters Board of Directors declared a three-for-two stock split, in the form of a 50% stock dividend, on the shares of Union Planters common stock. The additional shares were paid on June 6, 2002 to shareholders of record at the close of business on May 22, 2002. As a result of the stock split, 67.6 million shares were issued, and cash in the amount of \$.3 million was paid in lieu of fractional shares. All share and per share information has been adjusted for the impact of the split.

Preferred Stock

Union Planters' outstanding preferred stock, all of which is convertible into shares of Union Planters' common stock, is summarized as follows:

	<u>September 30,</u>		December 31,
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in thousands)		
Preferred stock, without par value, 10,000,000 shares authorized			
Series E, 8% cumulative, convertible, preferred stock (stated at liquidation value of \$25 per share) 518,362 shares issued and outstanding (659,104 at September 30, 2001 and 644,037 at December 31, 2001)	\$ 12,959	\$ 16,478	\$ 16,101
Series F preferred stock			
300,000 shares authorized, none issued	<u>-</u>	<u>-</u>	<u>-</u>
Total preferred stock	<u>\$ 12,959</u>	<u>\$ 16,478</u>	<u>\$ 16,101</u>

Note 8. Other Noninterest Income and Expense

Note 9. Income Taxes

Applicable income taxes for the nine months ended September 30, 2002 were \$173.7 million, resulting in an effective tax rate of 30.94%. Applicable income taxes for the same period in 2001 were \$168.2 million, resulting in an effective tax rate of 33.92%. The decrease in the effective rate in 2002, as compared to 2001, is due to the change in the mix of taxable and nontaxable revenues and the change in accounting treatment for goodwill. Additionally, other tax strategies were initiated that are designed to enhance the Company's ability to raise Tier I capital and have the added benefit of reducing both federal and state tax expense. The Company anticipates that over the next several quarters, it will sustain an effective tax rate comparable to that of the third quarter of 2002. The tax expense applicable to investment securities gains for the nine months ended September 30, 2002 and 2001 was \$4.0 million and \$3.3 million, respectively.

At September 30, 2002, the Company had a net deferred tax asset of \$19.4 million compared to \$67.4 million at December 31, 2001. The net deferred tax asset includes a deferred tax liability related to the net unrealized gain on available for sale securities of

\$58.0 million and \$31.8 million at September 30, 2002 and December 31, 2001, respectively. Based upon historical earnings and anticipated future earnings, management believes that normal operations will generate sufficient future taxable income to realize these deferred tax benefits in full. Therefore, no extraordinary strategies are deemed necessary by management to generate sufficient taxable income for purposes of realizing the net deferred tax asset.

Note 10. Earnings Per Share

The calculation of earnings per share is summarized as follows:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
	(Amounts in thousands, except per share data)			
Basic:				
Net earnings	\$ 134,229	\$ 112,004	\$ 387,722	\$ 327,696
Less: Preferred dividends	<u>260</u>	<u>301</u>	<u>754</u>	<u>1,066</u>
Net earnings applicable to common shares	<u>\$ 133,969</u>	<u>\$ 111,703</u>	<u>\$ 386,968</u>	<u>\$ 326,630</u>

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Average common shares outstanding	200,501	205,798	203,049	205,397
Earnings per common share-basic	\$ 0.67	\$ 0.54	\$ 1.91	\$ 1.59

Earnings per common share-diluted	\$ 0.66	\$ 0.54	\$ 1.88	\$ 1.58

Note 11. Mortgage Loan Servicing

Union Planters acted as servicing agent for residential mortgage loans totaling approximately \$18.9 billion at September 30, 2002, compared to \$16.2 billion at December 31, 2001. The loans serviced for others are not included in Union Planters' consolidated balance sheet. The following table presents a reconciliation of the changes in mortgage servicing rights:

	Nine Months Ended September 30,	
	<u>2002</u>	<u>2001</u>
	(Dollars in thousands)	
Beginning balance	\$ 150,303	\$ 123,940
Additions	98,279	68,760
Amortization of servicing rights	(28,291)	(30,088)
Net recovery of provision for impairment	<u> </u>	<u> </u>
	<u>15,120</u>	=
Ending balance	<u>\$ 235,411</u>	<u>\$ 162,612</u>

Union Planters had no valuation allowance associated with the mortgage servicing rights portfolio at September 30, 2002 compared to \$15.1 million as of December 31, 2001. The estimated fair value of mortgage servicing rights at September 30, 2002 was \$259.4 million. Significant assumptions utilized in estimating the fair value were as follows:

Estimated portfolio prepayment speed	7.0% - 20.6% CPR
Market discount rates	9.5% - 13.0%

Both of the significant assumptions above directly relate to and move in concert with mortgage interest rates. In the view of management, in order to understand the hypothetical effect on the fair value of the mortgage servicing rights as a result of unfavorable variations in the significant assumptions, it is necessary to measure the effect that would result from a decline in mortgage interest rates. At September 30, 2002, the reduction in the current fair value of

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

mortgage servicing rights resulting from an immediate 50 and 100 basis point decline in mortgage interest rates would be approximately \$14.2 million and \$82.2 million, respectively. The actual decline in fair value related to decreased mortgage interest rates could differ significantly from this estimate due to the propensity of borrowers to refinance in light of the remaining life and unpaid principal balance of their existing mortgage loan and the costs related to refinancing.

As a result of the implementation of a new modeling tool used to evaluate mortgage servicing rights, in July of 2002, the Company refined certain estimates, principally prepayment speed estimates, used in each market, which project cash flows from serviced mortgage loans and the fair value of mortgage servicing rights. These changes in estimates resulted in the recovery of \$11.9 million in previously recorded impairment in mortgage servicing rights and thus an increase in earnings after taxes of \$8.3 million, or \$.04 per diluted share for both the quarter and the nine months ended September 30, 2002. As a result of these changes, the mortgage servicing rights for the two strata of mortgage loans having an impairment of \$11.9 million at June 30, 2002 had an estimated fair value of \$42.1 million more than their recorded value.

Note 12. Intangible Assets

In accordance with SFAS No. 142, most goodwill is no longer subject to amortization. The carrying value of goodwill not subject to amortization was \$529.3 million at September 30, 2002 of which \$50.7 million was in the "other operating units" line of business, with the remainder in the "banking" line of business. During the third quarter of 2002, Union Planters performed its annual evaluation of goodwill for impairment using a discounted cash flow method. The evaluation resulted in no impairment. Had SFAS No. 142 been implemented prior to 2001, net earnings for the third quarter and first nine months of 2001 would have increased \$8.0 million and \$24.1 million, respectively. Both basic and diluted earnings per share would have increased \$.04 for the quarter and \$.12 for the first nine months.

Union Planters' other intangible assets are core deposit intangibles acquired through bank acquisitions and are subject to amortization periods up to 15 years with no residual value. The gross amount of other intangible assets at September 30, 2002 and December 31, 2001 was \$232.0 million, with accumulated amortization of \$99.2 million at September 30, 2002 and \$8.69 million at December 31, 2001. All other intangibles are in the "banking" line of business. The weighted average amortization period is 159.9 months.

Note 14. Contingent Liabilities

Union Planters and/or its subsidiaries are parties to various legal proceedings that have arisen in the ordinary course of business and are parties to various pending civil actions, all of which are being defended vigorously. Certain proceedings previously outstanding have been subsequently settled within previously estimated amounts. While it is impossible to predict with certainty the outcome of any legal proceeding, based upon present information including evaluations by outside counsel, management is of the opinion that neither Union Planters' financial position, results of operations nor liquidity will be materially affected by the ultimate resolution of pending or threatened legal proceedings. Reference is made to Part II Item 1 for a discussion of legal proceedings.

Note 15. Derivative Financial Instruments

During the third quarter of 2002, Union Planters entered into an interest rate swap with a notional value of \$185 million to hedge the fair value of certain debt. This transaction qualifies as a fair value hedge under SFAS No. 133. The swap and the debt are reported on the balance sheet at current fair value at the end of each period. The changes in fair value of both instruments and the net interest income or expense on the swap are netted against the interest expense related to the debt on the income statement.

At September 30, 2002, the swap had a fair value of \$8.1 million, which is included in other assets. The ineffective portion of the hedge resulted in an increase in interest expense of less than \$.1 million.

Note 16. Subsequent Event

On October 17, 2002, the Board of Directors approved the repurchase of up to 15 million shares of Union Planters common stock in addition to the 10.7 million shares previously approved. On October 22, 2002, Union Planters repurchased and retired 2.0 million shares of its common stock. To date, 9.0 million of the approved 25.7 million shares have been repurchased and retired.

Item 2 - Management's Discussion and Analysis of Financial Condition and Results of Operations

The following provides a narrative discussion and analysis of significant changes in Union Planters' results of operations and financial condition. This discussion should be read in conjunction with the notes to the consolidated financial statements included in Appendix C of Union Planters Corporation's Definitive Proxy Statement for the Annual Shareholders' Meeting held April 18, 2002 (the Definitive Proxy Statement including the 2001 Annual Financial Disclosures are referred to as the Proxy and Annual Financial Disclosures), the interim unaudited consolidated financial statements and notes for the three and nine months ended September 30, 2002 included in Part I hereof and the supplemental financial data included in this discussion.

Cautionary Statement Regarding Forward-Looking Information

This discussion contains certain forward-looking statements (as defined in the Private Securities Litigation Reform Act of 1995). These statements are contained in certain sections that follow, such as Net Interest Income, Provision for Losses on Loans, Noninterest Income, Noninterest Expense, Loans, Interest Rate Risk, as well as Legal Proceedings in Part II, Item 1. Forward-looking statements are not based on historical information, but rather are related to future operations, strategies, financial results or other developments. The words "anticipate," "project," "expect," "believe," "intend," "estimate," "should," "is likely," "target" and other expressions that indicate future events and trends identify forward-looking statements. Forward-looking statements are based on management's expectations as well as certain assumptions and estimates made by, and information available to, management at the time the statements are made. Examples of factors that could cause future results to vary from current management expectations include the following: the timing and amount of interest rate movements (which can have a significant impact on a financial institution); effects of changes in general economic conditions, as well as economic conditions in markets in which Union Planters conducts business; market and monetary fluctuations and uncertainties in the financial markets; inflation; competition within and outside the financial services industry; technology; risks inherent in originating loans, including prepayment risks, fluctuations in collateral values and changes in customer profiles; loan loss experience, the rate of loan charge-offs and the level of the provision for losses on loans; and changes in accounting principles. Additionally, the policies of the Office of the Comptroller of the Currency (OCC), the Board of Governors of the Federal Reserve System (Federal Reserve), and insurance and securities regulatory agencies, unanticipated regulatory and judicial proceedings, unanticipated results in pending litigation or Internal Revenue Service examinations, changes in the laws, regulations and regulatory policies applicable to Union Planters and its subsidiaries, and Union Planters' success in executing its business plans and strategies and managing the risks involved in the foregoing, could cause actual results to differ materially from current expectations. Union Planters assumes no obligation to update any forward-looking statements that are made from time to time.

Critical Accounting Policies

The accounting and reporting policies of Union Planters and its subsidiaries conform with accounting principles generally accepted in the United States and general practices within the financial services industry. The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates. Union Planters considers its critical accounting policies to include the following:

Allowance for Losses on Loans

. The allowance for losses on loans represents management's best estimate of probable losses inherent in the existing loan portfolio. The allowance for losses on loans is increased by the provision for losses on loans charged to expense and reduced by loans charged off, net of recoveries. The provision for losses on loans is determined based on management's assessment of several factors: reviews and evaluations of specific loans, changes in the nature and volume of the loan portfolio, current and anticipated economic conditions and the related impact on specific borrowers and industry groups, historical loan loss experience, the level of classified and nonperforming loans and the results of regulatory examinations.

Loans are considered impaired if, based on current information and events, it is probable that Union Planters will be unable to collect the scheduled payments of principal or interest when due according to the contractual terms of the loan agreement. The measurement of impaired loans is generally based on the present value of expected future cash flows discounted at the historical effective interest rate stipulated in the loan agreement, except that all collateral-dependent loans are measured for impairment based on the fair value of the collateral. In measuring the fair value of the collateral, management uses assumptions (e.g., discount rates) and methodologies (e.g., comparison to the recent selling price of similar assets) consistent with those that would be utilized by unrelated third parties.

Changes in the financial condition of individual borrowers, in economic conditions, in historical loss experience and in the conditions of the various markets in which collateral may be sold may all affect the required level of the allowance for losses on loans and the associated provision for loan losses.

Estimation of Fair Value.

The estimation of fair value is significant to a number of Union Planters' assets, including trading account assets, loans held for resale, available for sale investment securities, mortgage servicing rights, goodwill, other real estate owned, as well as assets and liabilities associated with derivative financial instruments. These are all recorded at either fair value or at the lower of cost or fair value. Furthermore, accounting principles generally accepted in the United States require disclosure of the fair value of financial instruments as a part of the notes to the consolidated financial statements. Fair values are volatile and may be influenced by a number of factors, including market interest rates, prepayment speeds, discount rates and the shape of yield curves.

Fair values for trading account assets and most available for sale investment securities are based on quoted market prices, where available. If quoted market prices are not available, fair values are based on the quoted prices of similar instruments. The fair values of loans held for resale are based on anticipated liquidation values, while the fair values of mortgage servicing rights are based on discounted cash flow analysis utilizing estimated portfolio prepayment speeds and market discount rates. The fair values of residual interests in loans securitized or sold (included as part of available for sale investment securities) are estimated based on prepayment speeds, weighted-average life, expected credit losses and an assumed discount rate. The fair values of other real estate owned are typically determined based on appraisals by third parties, less estimated costs to sell. The fair values of derivative financial instruments are calculated using market interest rates. The calculated valuations are periodically confirmed with recognized derivative dealers. Fair values of goodwill are estimated using the present value of discounted cash flows method. Cash flows are estimated by weighting the probability of several possible trends.

Selected Financial Data

The following table presents selected financial highlights for the three- and nine-month periods ended September 30, 2002 and 2001:

	Three Months Ended		Percentage Change	Nine Months Ended		Percentage Change
	September 30,			September 30,

THIRD QUARTER EARNINGS OVERVIEW

For the third quarter of 2002, Union Planters reported net earnings of \$134.2 million, or \$.66 per diluted common share, an increase from \$112.0 million, or \$.54 per diluted common share, for the same period in 2001. These earnings represented annualized returns on average assets and average common equity of 1.64% and 16.62%, respectively, compared to 1.31% and 14.18%, respectively, for the same period in 2001.

EARNINGS ANALYSIS

Net Interest Income

Fully taxable-equivalent net interest income for the third quarter of 2002 was \$330.4 million, a decrease of \$.9 million over the same quarter last year and a \$4.6 million increase from the second quarter of 2002.

The net interest margin for the third quarter of 2002 was 4.42%, which compares to 4.27% and 4.45%, respectively, for the third quarter of 2001 and second quarter of 2002. The net interest rate spread was 3.96% for the third quarter of 2002, an increase from 3.61% for the third quarter of 2001, and unchanged from the second quarter of 2002.

Changes in net interest income and net interest margin since September 30, 2001 are the result of repositioning the balance sheet, which was largely completed during the first quarter of 2002. Reference is made to Union Planters' average balance sheet, analysis of volume and rate changes and Market Risk and Asset/Liability Management section, which follow this discussion, for additional information regarding the changes in net interest income and balance sheet repositioning initiatives.

Over the first nine months of the year, management has established initiatives to reposition the balance sheet to make the most effective use of assets and capital. In this effort, Union Planters has grown transaction and savings accounts, which consists of demand deposit accounts, unlimited transaction interest-bearing accounts and limited transaction savings accounts, reduced reliance on wholesale funding, refinanced long-term debt, focused on pricing of relationships and reduced interest rate risk. The reduction in average rate paid for interest-bearing liabilities is attributable to these management initiatives and the lower interest rate environment. Reference is made to the Market Risk and Asset/Liability Management section for a discussion of the impact of changing interest rates.

Interest Income

The following table presents a breakdown of average earning assets:

<u>Three Months Ended</u>		<u>Nine Months Ended</u>			
<u>September 30,</u>	June 30,	<u>September 30,</u>			
<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2002</u>	<u>2001</u>	
(Dollars in billions)					
Average earning assets	\$ 29.7	\$ 30.8	\$ 29.4	\$ 29.5	\$ 31.5

Comprised of:

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Loans	83 %	82 %	82 %	83 %	81 %
Investment securities	16	16	16	16	18
Other earning assets	1	2	2	1	1

Fully taxable-equivalent yield on average earning assets 6.42 % 7.58 % 6.61 % 6.62 % 7.93 %

Fully taxable-equivalent interest income decreased \$108.7 million for the third quarter of 2002 compared to the same period in 2001. This decline was attributable primarily to a decrease in the average yield on earning assets from 7.58% to 6.42%, which reduced interest income by \$87.5 million. The decline in yield is attributable primarily to decline in market interest rates. A \$1.1 billion decrease in average earning assets, primarily loans, decreased interest income \$21.2 million. Compared to the second quarter of 2002, interest income decreased \$4.5 million, which was attributable to a decline in the average yield on earning assets, partly offset by an increase in earning assets.

For the first nine months of 2002, interest income decreased \$409.1 million compared to the same period last year. The decrease was driven by a decrease in the average yield on earning assets from 7.93% to 6.62%, causing a \$295.8 million decrease in interest income. Average earning assets, primarily investment securities and loans, decreased \$2.0 billion, due to the balance sheet repositioning initiatives, which include reduction in available for sale securities, sale and securitization of loans and branch rationalization. The lower average earning assets caused a \$113.3 million decrease in interest income.

The decline in average yields on earning assets during the third quarter of 2002 is a result of a lower interest rate environment. While the average yields on earning assets declined, average rates paid for interest-bearing liabilities also decreased, and overall net interest income improved. Reference is made to the Market Risk and Asset/Liability Management discussions for additional information regarding balance sheet management initiatives, changes in interest rates and how the Company is positioned to respond to the changes.

The percentage of loans to total earning assets has increased over the prior year. This change in mix is due to an effort by management to reposition the balance sheet and make more effective use of assets. In this effort, Union Planters has sold selected investment securities and sold or reduced portfolios of low return loan products.

Interest Expense

The following table presents a breakdown of average interest-bearing liabilities:

	<u>Three Months Ended</u>		Nine Months Ended		
	<u>September 30,</u>	<u>June 30,</u>	<u>September 30,</u>		
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2002</u>	<u>2001</u>
	(Dollars in billions)				
Average interest-bearing liabilities	\$24.1	\$25.7	\$24.0	\$24.1	\$26.7
Comprised of:					
Deposits	78 %	76 %	80 %	79 %	73%
Short-term borrowings	10	13	9	9	17
FHLB advances and long-term debt	12	11	11	12	10

Rate paid on average interest-bearing liabilities 2.46 % 3.97 % 2.65 % 2.64 % 4.48%

Interest expense decreased \$107.9 million in the third quarter of 2002 compared to the same quarter last year. This decrease was driven by a decrease in the average rate paid for interest-bearing liabilities from 3.97% to 2.46%, which primarily resulted from the decline in market interest rates and management pricing initiatives. This reduction in rates paid decreased interest expense \$91.0 million. Average interest-bearing liabilities also decreased \$1.6 billion, which

decreased interest expense an additional \$16.9 million. Compared to the second quarter of 2002, interest expense decreased \$9.0 million due primarily to the decline in interest rates, slightly offset by an increase in average interest-bearing liabilities.

For the first nine months of 2002, interest expense decreased \$417.5 million. The decrease was driven by a decrease in the average rate paid for interest-bearing liabilities from 4.48% to 2.64%, which contributed \$330.1 million to the reduced expense. A \$2.6 billion decrease in average interest-bearing liabilities also contributed an \$86.7 million decrease to interest expense. The decrease in average interest-bearing liabilities related primarily to reduced funding requirements as evidenced by reduced short-term debt.

Provision for Losses on Loans

The provision for losses on loans for the third quarter of 2002 was \$48.0 million, or .82% of average loans on an annualized basis. This compares to \$41.9 million, or .61% of average loans, for the third quarter of 2001. The higher provision for losses on loans in 2002 is attributable to current economic conditions and the resulting increase in nonperforming loans. Reference is made to the Allowance for Losses on Loans and Nonperforming Loans discussions for additional information regarding loan charge-offs and other items impacting the provision for losses on loans.

Noninterest Income

Noninterest income for the third quarter of 2002 was \$194.1 million, a decrease of \$2.2 million, or 1.1%, from the third quarter of 2001 and an increase of \$11.5 million, or 6.3%, from the second quarter of 2002. Adjusted for significant items, noninterest income as a percentage of total revenues (net interest income plus noninterest income) was 38% in the third quarter of 2002, compared to 35% for both the same quarter last year and the second quarter of 2002.

Items included in noninterest income that management considers significant are:

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>		
	<u>September 30,</u>		<u>September 30,</u>		
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2002</u>	<u>2001</u>
	(Dollars in thousands)				

Gain on branch sales	\$ 522	\$ 18,586	\$ 730	\$ 2,850	\$ 19,838
Expiration of merchant services obligation	-	-	8,924	8,924	-
Investment securities (losses) gains	(1,300)	580	2,800	10,736	8,934

Excluding these items, noninterest income was \$194.9 million for the current quarter, an increase of \$24.7 million from the second quarter of this year and \$17.7 million from the same quarter last year. Noninterest income for the first nine months was \$529.6 million, a decrease of \$9.9 million from the same period last year.

Growth in noninterest income continues to be one of management's priorities, and as such, considerable effort has been devoted to improving its sources. In that effort, Union Planters has, among other things, implemented controls around the administration of pricing for products and services. The major components of noninterest income are presented on the consolidated statement of earnings; following is a discussion of the key components:

Service charges on deposit accounts

. These fees were \$61.1 million for the third quarter of 2002, an increase of \$7.4 million compared to the same period in 2001 and \$4.5 million compared to the second quarter of 2002. The increase compared to the second quarter of 2002 is attributable to a significant increase in the volume of insufficient fund fees assessed. For the first nine months of 2002, these fees increased \$6.6 million from the same period of 2001 to \$170.0 million. The increase from the third quarter and nine months of 2001 is attributable primarily to the implementation of UPEXcel pricing initiatives and increased volume of insufficient fund fees assessed.

Mortgage banking revenues.

These revenues increased \$8.3 million in the third quarter of 2002 compared to the same period in 2001, and increased \$14.4 million compared to the second quarter of 2002. For the first nine months of 2002, mortgage banking revenues increased \$15.4 million, or 11.1%, to \$154.1 million compared to the same period last year. The lower interest rate environment during 2002 increased mortgage loan production and the level of mortgage refinancing activity and resulted in increased mortgage origination fees and gains on mortgage loans sold to the secondary market. Mortgage production was \$8.5 billion during the first nine months of 2002 compared to \$7.3 billion during the first nine months of 2001. Mortgage production during the third quarter of 2002 was \$3.7 billion compared to \$2.6 billion during the third quarter of 2001.

Merchant services income.

In the fourth quarter of 2001, Union Planters sold its nonstrategic merchant services business and entered into a long-term marketing agreement with the buyer to continue to offer this service to Union Planters' customers. Income was \$.5 million in the third quarter of 2002 compared to \$10.4 million for the third quarter of last year and \$.7 million for the second quarter of 2002 (excluding \$8.9 million related to certain obligations arising from the sale, which expired during the second quarter of 2002). For the nine months ended September 30, 2002 and 2001, these revenues were \$2.1 million and \$31.4 million, respectively.

Factoring commissions and fees.

Commissions and fees earned by Capital Factors, a subsidiary of Union Planters, were \$11.6 million for the third quarter of 2002, an increase of 9.7% from the second quarter of 2002 and 20.3% from the third quarter of last year. These increases are related to an increased volume of factored receivables and the development of new client relationships. For the first nine months of 2002, these revenues were \$31.1 million compared to \$28.7 million for the same period last year.

Insurance and investments.

This category of noninterest income is comprised of insurance commissions, annuity sales commissions and brokerage fee income. For the third quarter of 2002, these revenues were \$16.0 million, an increase of \$1.2 million from the second quarter of 2002 and \$2.4 million from the third quarter of 2001. For the first nine months of 2002, insurance and investments revenues were \$43.0 million compared to \$37.2 million for the same period in 2001. The increase during the third quarter and nine months ended September 30, 2002 compared to the third quarter and nine months ended September 30, 2001 is primarily due to a substantial increase in annuity sales.

Other noninterest income.

The components of other noninterest income are presented in Note 8 to the unaudited interim consolidated financial statements.

- Professional employment services net revenues generated by Strategic Outsourcing Inc. (SOI), a subsidiary of Union Planters, were \$7.3 million for the third quarter of 2002, an increase of \$1.2 million compared to the same period in 2001 and a slight increase compared to the second quarter of 2002. For the first nine months of 2002, net revenues were \$20.0 million compared to \$18.3 million for the same period in 2001. The growth in net revenues is principally related to an increase in the pricing structure for SOI's services.
- Fees for the usage of debit/ATM cards were \$10.3 million for the current quarter compared to \$7.6 million for the same quarter last year and \$10.1 million for the second quarter of 2002. Fees for the first nine months of 2002 were \$28.4 million compared to \$22.6 million for the same period of last year. This increase is due to the more consistent administration of pricing for bankcard products and services implemented in the fourth quarter of 2001, as well as an increase in debit card transaction volume since the second quarter of 2001.
- Revenues associated with other real estate, principally gain on sale, were \$1.5 million for the third quarter of 2002, a slight increase over the same period last year and a slight decrease from the second quarter of 2002. Revenues for the first nine months of 2002 were \$6.3 million compared to \$3.6 million for the same period last year. The increase is attributable to the corresponding increase in other real estate.
- Revenues from Union Planters' Small Business Administration trading operations were \$1.8 million for the third quarter of 2002, a slight increase from both the third quarter of 2001 and the second quarter of 2002. For the first nine months of 2002, these revenues decreased \$1.8 million over the same period in 2001 due to lower trading volume.

Noninterest Expense

Noninterest expense for the third quarter of 2002 was \$276.1 million, which compares to \$307.6 million for the third quarter of 2001 and \$272.3 million for the second quarter of 2002. For the first nine months of 2002, noninterest expense was \$816.5 million compared to \$906.3 million for the same period in 2001. The Company's efficiency ratio

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

for the third quarter of 2002, excluding significant items and the amortization of goodwill and other intangibles, was 50.1%, compared to 50.7% for the second quarter of 2002 and 52.0% for the third quarter of 2001.

Items included in noninterest expense that management considers significant are:

	<u>Three Months Ended</u>		<u>Nine Months Ended</u>	
	<u>September</u>	<u>June 30,</u>	<u>September</u>	
	<u>30,</u>	<u>2002</u>	<u>30,</u>	<u>2001</u>
	<u>2002</u>	<u>2001</u>	<u>2002</u>	<u>2001</u>
	(Dollars in thousands)			

(Gain)/loss on fixed assets in sold branches	\$ (450)	\$ (2,163)	\$ (151)	\$ 1,126	\$ (1,380)
Expiration of merchant services obligation	-	-	(647)	(647)	-
Mortgage intangibles expense, net	(3,478)	15,652	12,317	13,171	30,088
UPEXcel project expenses	8,949	9,846	1,323	14,120	17,880
Write-off of software	-	3,790	-	-	3,790

Excluding these items, noninterest expense was \$271.1 million for the current quarter, a decrease of \$9.4 million compared to the same quarter last year and an increase of \$11.7 million from the second quarter of 2002. Noninterest expense for the first nine months of 2002 was \$788.7 million, a decrease of \$67.2 million compared to the same period last year.

UPEXcel, a comprehensive strategic initiative introduced by management last year, has driven the reduction of noninterest expense by reducing the number of banking centers, streamlining back office operations and improving procurement practices.

The major components of noninterest expense are presented on the consolidated statement of earnings; following is a discussion of the key components:

Salaries and employee benefits.

These expenses were \$135.0 million for the third quarter of 2002, an increase of \$1.5 million compared to the third quarter of 2001 and \$6.4 million compared to the first quarter of 2002. For the first nine months of 2002, salaries and employee benefits decreased \$8.6 million compared to the same period last year. The reduction is primarily due to the reduction in full-time equivalent employees. At September 30, 2002, Union Planters had 11,254 full-time equivalent employees, compared to 12,023 and 11,313, respectively, at September 30, 2001 and June 30, 2002.

Occupancy and equipment expense.

Net occupancy and equipment expense was \$46.6 million for the third quarter of 2002, a decrease of \$2.0 million from the third quarter of 2001 and up \$1.2 million from the second quarter of 2002. For the first nine months of 2002, these expenses were \$138.1 million, a decrease of \$6.7 million compared to the same period in 2001. The decreases are primarily attributable to better control over spending, renegotiated contracts with vendors, as well as a decrease in the number of banking locations since June 2001.

Goodwill and other intangibles amortization.

These expenses decreased \$8.6 million from the third quarter of 2001 and were relatively unchanged compared to the second quarter of 2002. For the nine months ended September 30, 2002, these expenses were \$23.3 million compared to \$49.2 million for the same period last year. The decrease is due to the adoption of SFAS No. 142, "Goodwill and Other Intangible Assets," which discontinued the amortization of goodwill for most acquisitions. Refer to Notes 1 and 12 to the unaudited interim consolidated financial statements for more information.

Mortgage intangibles expense.

For the third quarter of 2002, these expenses were a net credit of \$3.5 million representing \$8.4 million of current quarter amortization of mortgage intangibles and an \$11.9 million recovery of previous impairment of mortgage intangibles. See Note 11 to the Unaudited Consolidated

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Financial Statements for more information. These expenses for the third quarter of 2001 and the second quarter of 2002 were \$15.7 million and \$12.3 million, respectively.

Other noninterest expenses.

The components of other noninterest expense are presented in Note 8 to the unaudited interim consolidated financial statements.

- UPEXcel project expenses were \$8.9 million compared to \$9.8 million for the same quarter last year and \$1.3 million for the second quarter of 2002. Project expenses for the first nine months of 2002 were \$14.1 million compared to \$17.9 million for the same period last year. The decreases are due to the substantial completion of most projects under the initiative. Expenses for the period ended September 30, 2002 included (dollars in thousands):

	<u>Three Months</u>	<u>Nine Months</u>
Consulting fees	\$ 949	\$ 2,538
Severance accruals	4,111	4,111
Other payroll related expenses	363	1,089
Loss on fixed assets	3,483	4,076
Occupancy and equipment expense	-	938
Travel expense	33	655
Taxes other than income	-	600
Other	<u>10</u>	<u>113</u>
Total UPEXcel expenses	<u>\$ 8,949</u>	<u>\$ 14,120</u>

- For the third quarter and first nine months of 2002, miscellaneous charge-offs decreased \$4.4 million and \$6.9 million, respectively, compared to 2001. Compared to the second quarter of 2002, miscellaneous charge-offs increased \$2.8 million.
- Provisions for losses on FHA/VA foreclosure claims decreased \$2.1 million for the nine months ended September 30, 2002 compared to the same period in 2001. There was a slight increase compared to the third quarter of 2001 and a slight decrease compared to the second quarter of 2002.
- Merchant services expense decreased \$6.8 million and \$19.3 million for the third quarter and first nine months of 2002 compared with 2001 due to the sale of this nonstrategic business in the fourth quarter of 2001.
- Advertising and promotion expense for the third quarter of 2002 decreased \$3 million compared to the third quarter of 2001, and decreased \$1.6 million compared to the second quarter of 2002. For the first nine months of 2002, advertising and promotion expenses decreased \$2.7 million compared to the same period in 2001. The decreases compared to the third quarter and nine months ended September 30, 2001 are attributable to centralization within the Company of marketing activities, which resulted in more focused advertising and promotions at lower costs. The decrease compared to the second quarter of 2002 is attributable to the timing of product promotions.
- Postage and carrier expense decreased \$.8 million and \$3.6 million, respectively, for the third quarter and first nine months of 2002 compared with 2001. The decrease compared to the third quarter and nine months ended September 30, 2001 is due to more favorable terms negotiated with carrier services, as well as branch sales occurring since the third quarter of 2001. Compared to the second quarter of 2002, there was a slight decrease.
- Credit-related expenses (expenses related to origination of loan products) increased \$3.4 million in the third quarter of 2002 compared to the third quarter of 2001 and \$1.3 million over the second quarter of 2002. For the first nine months of 2002, these expenses

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

increased \$14.3 million compared to the same period in 2001. The increase is attributable primarily to the increase in mortgage loan production.

- Legal fees and litigation expense increased \$4.2 million in the third quarter of 2002 compared to the same period in 2001 and \$4.1 million compared with the second quarter of 2002. For the first nine months of 2002, these expenses increased \$5.0 million compared to the same period in 2001. Litigation reserves increased \$4.1 million during the third quarter of 2002 due to revisions to the range of probable losses of several smaller cases, none of which are expected to have a material impact on the Company.

Accounting changes

For information regarding accounting standards issued which will be adopted in future periods, refer to Note 1 to the Unaudited Consolidated Financial Statements.

FINANCIAL CONDITION

Union Planters' total assets were \$33.2 billion at September 30, 2002 and December 31, 2001 compared to \$33.4 billion at September 30, 2001. Average assets were \$32.5 billion for the third quarter of 2002 compared to \$33.8 billion for the third quarter of 2001.

Earning assets at September 30, 2002 were \$30.4 billion compared to \$30.1 billion at December 31, 2001 and \$30.5 billion at September 30, 2001. Average earning assets were \$29.7 billion for the third quarter of 2002, which compares to \$30.8 billion for the same period last year and to \$29.4 billion for the second quarter of 2002.

Investment Securities

Union Planters' investment securities portfolio of \$4.8 billion at September 30, 2002 consisted entirely of available for sale securities, which are carried on the balance sheet at fair value. This compares to investment securities of \$5.1 billion and \$4.8 billion at September 30, 2001 and December 31, 2001, respectively. The decrease in investment securities from September 30, 2001 is consistent with management's strategy of using the investment portfolio to assist in managing the Company's interest rate risk profile and liquidity position. During the first nine months of 2002, Union Planters sold \$359.6 million of investment securities at a gain of \$10.7 million.

At September 30, 2002, these securities had net unrealized gains of \$148.5 million (before income taxes). This compares to net unrealized gains of \$141.6 million and \$86.4 million, respectively, at September 30, 2001 and December 31, 2001. Refer to Note 3 to the Unaudited Consolidated Financial Statements for the composition of the investment portfolio at September 30, 2002 and December 31, 2001.

U.S. Treasury and U.S. Government agency obligations represented approximately 52% of the investment securities portfolio at September 30, 2002, including government Collateralized Mortgage Obligations (CMOs) and mortgage-backed securities issues, which represented 47% of the portfolio. Union Planters has limited credit risk in the investment portfolio which, at September 30, 2002 consisted of investment grade CMOs representing 25% of the portfolio, municipal obligations representing 17% of the portfolio, and other stocks and securities, primarily Federal Reserve Bank and FHLB stock representing 6% of the portfolio. Union Planters has some credit risk in the investment securities portfolio; however, management does not consider that risk to be significant and does not believe that cash flows will be significantly impacted. Reference is made to the Net Interest Income and Market Risk and Asset/Liability Management discussions for information regarding the market-risk in the investment securities portfolio.

Loans

Loans, net of unearned income, at September 30, 2002 were \$23.3 billion compared to \$23.9 billion and \$23.2 billion at September 30, 2001 and December 31, 2001, respectively. Loans held for resale were \$1.9 billion at September 30, 2002 and December 31, 2001 compared to \$1.2 billion at September 30, 2001.

Average loans, excluding FHA/VA loans, were \$23.1 billion for the third quarter of 2002 compared to \$23.9 billion for the same quarter in 2001 and compared to \$23.0 billion for the second quarter of 2002. Excluding the impact of loan divestitures of \$659.3 million, average loans decreased slightly compared to the same quarter last year.

Allowance for Losses on Loans

The allowance for losses on loans (the Allowance) at September 30, 2002 was \$356.6 million, an increase of \$14.6 million from December 31, 2001. The Allowance at September 30, 2001 was \$342.2 million. The increase in the allowance from December 31, 2001 related to higher provision for losses on loans in 2002 due to current economic conditions and the resulting increase in nonperforming loans. Annualized net charge-offs as a percentage of average loans were .77% for the third quarter of 2002, an increase from .69% in the third quarter of 2001. Union Planters' loan portfolio has no significant concentration in terms of industry, geography, product type or size of individual borrowing relationship. Management does not expect any significant changes in the level of nonperforming assets in the near future. While the timing of actual charge-off of loans for which reserves have been established is uncertain, management believes that all inherent loan losses have been adequately provided for in the allowance for loan losses. This is a forward-looking statement, and actual results could differ because of several factors, including those identified in this discussion and in the discussion of Cautionary Statements Regarding Forward-Looking Information.

Union Planters maintains the Allowance at a level deemed sufficient to absorb probable losses in the loan portfolio at the balance sheet date. The Allowance is reviewed quarterly to assess the risk in the portfolio. This methodology includes assigning loss factors to loans with similar characteristics for which inherent probable loss can be assessed. The loss factors are based on historical experience as adjusted for current business and economic conditions and are applied to the respective portfolios to assist in determination of the overall adequacy of the Allowance.

A periodic review of selected credits (based on loan size) is conducted to identify loans with heightened risk or inherent losses. The primary responsibility for this review rests with the management personnel assigned with accountability for the credit relationship. This review is supplemented with periodic reviews by Union Planters' credit review function, as well as periodic examination of both selected credits and the credit review process by the applicable regulatory agencies. These reviews provide information, which assists management in the timely identification of problems and potential problems and provides a basis for deciding whether the credit represents a probable loss or risk that should be recognized.

The following table provides a reconciliation of the Allowance at the dates indicated and certain key ratios for the nine-month periods ended September 30, 2002 and 2001 and for the year ended December 31, 2001:

(1) See the preceding table for the amount of FHA/VA government-insured guaranteed/loans on nonaccrual and past due 90 days or more and still accruing interest.

Loans Other than FHA/VA Loans.

Nonperforming assets increased \$37.1 million over the second quarter of 2002 and \$96.0 million over September 30, 2001. A general increase in all categories of nonperforming assets has been experienced since the third quarter of 2001 primarily due to prevailing economic conditions.

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

During the third quarter of 2002, there has been a decrease in loans past due more than 90 days and an increase in foreclosed property due to action taken on past due accounts. Management does not expect any significant changes in the level of nonperforming assets for the next several quarters and believes the risk of losses in nonperforming assets will be mitigated by the diversity of the loan portfolio and the generally sound collateralization practices across the banking franchise. These are forward-looking statements, and actual results could differ because of several factors, including those mentioned in the Cautionary Statements Regarding Forward-Looking Information at the beginning of this discussion.

Loans past due 90 days or more and still accruing interest totaled \$186.4 million, or .81% of loans, at September 30, 2002 compared to \$152.6 million, or .64%, and \$201.6 million, or .87 % of loans, at September 30, 2001 and June 30, 2002, respectively. The preceding table details the composition of these loans. As discussed above, the increase in these loans related primarily to the slowing of the economy.

FHA/VA Loans.

FHA/VA government-insured/guaranteed loans do not, in management's opinion, have traditional credit risk inherent in the balance of the loan portfolio, and risk of principal loss is considered minimal. FHA/VA loans past due 90 days or more and still accruing interest totaled \$57.7 million at September 30, 2002, which compares to \$68.3 million and \$35.1 million at September 30, 2001 and June 30, 2002, respectively. At September 30, 2002, September 30, 2001 and June 30, 2002, \$1.7 million, \$2.0 million and \$1.7 million, respectively, of these loans were placed on nonaccrual status by management because the contractual payment of interest by FHA/VA had stopped due to missed filing dates. No loss of principal is expected from these loans.

FHA/VA Foreclosure Claims

Provisions for losses related to FHA/VA claims are provided through noninterest expense as provisions for losses on FHA/VA foreclosure claims, and the corresponding liability is carried in other liabilities. The provision for losses on FHA/VA foreclosure claims was \$.5 million for both the three and nine months ended September 30, 2002. At September 30, 2002, the Company had a reserve for FHA/VA claims losses of \$2.4 million compared to \$5.9 million and \$2.9 million at September 30, 2001 and June 30, 2002, respectively.

Potential Problem Assets

Potential problem assets consist of assets that are generally secured and are not currently considered nonperforming. They include those assets where information about possible credit problems has raised serious doubts as to the ability of the borrowers to comply with present repayment terms. Historically, such assets have been loans, which have ultimately become nonperforming. At September 30, 2002, Union Planters had potential problem assets (all loans) aggregating \$39.2 million, comprised of 11 loans, the largest of which was \$10.0 million. This compares to potential problem assets (all loans) aggregating \$55.5 million, comprised of 15 loans, at September 30, 2001 and \$69.7 million, or 16 loans, at June 30, 2002.

Capital Expenditures

During the first nine months of 2002, the Company capitalized approximately \$39.7 million in expenditures for premises and equipment. Included in this amount are expenditures for hardware and software, as well as consulting fees directly related to their installation.

Deposits

Union Planters' deposit base is its primary source of liquidity and consists of deposits from the communities served by Union Planters.

Total time deposits	<u>8,460,078</u>	<u>10,170,299</u>	<u>8,598,476</u>	<u>8,592,061</u>	<u>10,558,475</u>
Total average deposits	\$ 23,185,704	\$ 23,657,059	\$ 23,521,596	\$ 23,439,318	\$ 23,484,814

Average deposits were \$23.2 billion for the third quarter of 2002 compared to \$23.7 billion for the third quarter of 2001 and \$23.5 billion for the second quarter of 2002. Average transaction and savings accounts, which consists of demand deposit accounts, unlimited transaction interest-bearing accounts and limited transaction savings accounts, for the third quarter of 2002 increased \$1.2 billion from the third quarter of 2001 and decreased \$197.5 million from the second quarter of 2002. The increase from the third quarter of 2001 has been driven by weak performance in financial markets as well as the offering of a standard set of deposit products throughout the Union Planters organization. Overall, deposits decreased \$471.4 million from September 30, 2001 and \$242.0 million from the December 31, 2001. Average deposits were impacted over the past year by sales of branches having deposit balances of over \$500 million. Excluding these sales, deposits for the third quarter of 2002 increased \$98.9 million over the third quarter of 2001 and decreased \$148.9 million from December 31, 2001.

Short-Term Borrowings

Short-term borrowings were \$3.0 billion at September 30, 2002 compared to \$3.2 billion at September 30, 2001 and \$2.5 billion at June 30, 2002. Average short-term borrowings for the third quarter of 2002 declined \$866.8 million and \$509.4 million, respectively, compared to the same quarter last year and the second quarter of 2002. The composition of this decrease, primarily short-term FHLB advances, federal funds purchased and securities sold under agreements to repurchase, has resulted from the strategic repositioning of the balance sheet referenced in the Investment Securities, Loan, and Market Risk and Asset/Liability Management discussions. Reference is made to the Investment Securities, Loan, and Market Risk and Asset/Liability Management discussions for additional information.

Short- and Medium-Term Senior Notes

On June 7, 2002, UPB issued \$600.0 million in Medium-Term Senior Notes under its \$5.0 billion senior and subordinated bank note program. The notes carry an interest rate of 5.125% annually and mature in June 2007. The funds from the issuance were used for general corporate purposes. At December 31, 2001, there were no notes outstanding under this program. At September 30, 2001, there was \$20.0 million outstanding.

Shareholders' Equity

Union Planters' total shareholders' equity increased \$8.6 million from December 31, 2001 to \$3.2 billion at September 30, 2002. The major items affecting shareholders' equity are as follows:

- \$ 183.9 million increase due to retained net earnings (net earnings less dividends paid)
- \$ 39.5 million increase due to the net change in the unrealized gain or loss on available for sale investment securities
- \$ 21.1 million increase due to common stock issued for employee benefit plans
- \$ 235.9 million decrease due to common shares repurchased and retired (7.6 million shares repurchased)

The Board of Directors authorized the purchase from time to time of up to 10.7 million shares. During 2002, 6.0 million shares were purchased, bringing the total purchased under this authorization to 7.0 million. The Board of

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

Directors also authorized the purchase of 6.5 million shares issued in the Jefferson Heritage acquisition. During 2002, 3.0 million shares were purchased under this authorization, which completed the acquisition of the shares issued.

Subsequent to September 30, 2002, the Board of Directors' authorized the repurchase and retirement of up to an additional 15.0 million shares under the Company's share repurchase program. The Company intends to continue the repurchase program in a manner consistent with its objective to maintain a targeted leverage ratio of 7.5% or higher.

Capital Adequacy

The following table presents information concerning Union Planters Corporation's and Union Planters Bank, National Association's risk-based capital and capital adequacy ratios. The regulatory capital ratios qualify both entities for the "well-capitalized" regulatory classification.

Union Planters Corporation

Risk-Based Capital

	<u>September 30, December 31,</u>		
	<u>2002</u>	<u>2001</u>	<u>2001</u>
	(Dollars in millions)		
Tier 1 capital	\$ 2,442	\$ 2,371	\$ 2,440

Total risk-based capital	12.07	11.79	11.70

1. Based on period-end capital and quarterly adjusted average assets.

Liquidity

Union Planters requires liquidity sufficient to meet cash requirements for deposit withdrawals, to make new loans and satisfy loan commitments, to take advantage of attractive investment opportunities and to repay borrowings at maturity. Deposits, available for sale securities and money market investments are Union Planters' primary sources of liquidity. Liquidity is also achieved through short-term borrowings, borrowings under available lines of credit, and issuance of securities and debt instruments in the financial markets. Union Planters believes it has adequate liquidity to meet its operating requirements.

Parent company liquidity is achieved and maintained by dividends received from subsidiaries, interest on advances to subsidiaries and interest on its available for sale investment securities portfolio. At September 30, 2002, the parent company had cash and cash equivalents totaling \$434.7 million, which compares to \$408.3 million and \$518.4 million, respectively, at September 30, 2002 and December 31, 2001. Net working capital (total assets maturing within one year less similar liabilities) was \$413.1 million, which compares to \$393.1 million and \$502.0 million, respectively, at September 30, 2001 and December 31, 2001.

At October 1, 2002, the parent company could have received dividends from subsidiaries of \$357.7 million without prior regulatory approval. The payment of dividends by Union Planters' subsidiaries will be dependent on the future earnings and capital and liquidity considerations. Management believes that the parent company has adequate liquidity to meet its cash needs, including the payment of its regular dividends and servicing of its debt.

Item 3 - Quantitative and Qualitative Disclosures About Market Risk

Market Risk and Asset/Liability Management

Union Planters' assets and liabilities are principally financial in nature, and the resulting earnings, primarily net interest income, are subject to change as a result of fluctuations in market interest rates and the mix of the various assets and liabilities. Interest rates in the financial markets affect pricing decisions on assets and liabilities, and the resulting net interest income represents approximately 63% of Union Planters' revenues for the three months ended September 30, 2002. Consequently, a substantial part of Union Planters' risk-management activities are devoted to managing interest rate risk. Currently, Union Planters does not have significant risks related to foreign exchange, commodities or equity risk.

Interest Rate Risk

Since one of the most important aspects of management's efforts to sustain long-term profitability for Union Planters is the management of interest rate risk, management's goal is to optimize net interest income within acceptable levels of interest rate and liquidity risk. To achieve this goal, a proper balance must be maintained between assets and liabilities with respect to size, maturity, repricing date, rate of return and degree of risk. Reference is made to the Investment Securities, Loans and Other Earning Assets discussions for additional information regarding the risks related to these items.

Union Planters' Asset/Liability Management Committee (the ALCO Committee) oversees the management of interest rate risk, investments, capital and liquidity management activities. The ALCO Committee meets monthly and reviews the outlook for the economy and interest rates, Union Planters' balance sheet structure, yields on earning assets and rates on interest-bearing liabilities, and the impact of anticipated business activities on these items. The primary method of analyzing and managing interest rate risk at Union Planters is simulation analysis (projecting net interest income under various interest rate and balance sheet assumptions).

Interest rate risk is evaluated by conducting balance sheet simulations to project net interest income for twelve months forward under various interest rate scenarios. Each of these scenarios is compared with a base case scenario wherein current market rates and current period balances are held constant for the simulation period.

The scenarios include immediate "shocks" to current rates of 200 basis points up, 100 basis points down and a "most likely" scenario in which current rates are moved according to economic forecasts and management's expectations of changes in administered rates.

The results of these simulations are compared to policy guidelines approved by the ALCO Committee, which limit the change in net interest income to 20% of net earnings when compared with the base case (flat) scenario. Management targets a neutral rate risk profile.

The impact of changes in interest rates on net earnings, stated in terms of annual dollar amount and percentage of net earnings, are as follows:

	<u>September 30, 2002</u> <u>December 31, 2001</u>			
	(Dollars in millions)			
Immediate 200 basis point rise in rates	\$ 31.5	6.1%	\$ (12.4)	(2.8)%
Immediate 100 basis point decline in rates	(20.7)	(4.0)	(3.4)	(1.0)
Most likely change in rates (a)	(7.4)	(1.4)	(0.9)	(1.0)

(a) The most likely change scenario at September 30, 2002 was updated to reflect the 50 basis point reduction in the targeted federal funds rate by the Federal Open Market Committee on November 6, 2002. Inherent in the simulation is the assumption that the federal funds rate will remain at 1.25% through June 2003 and then increase to 1.75% by September 2003. At December 31, 2001 the scenario reflects a 175 basis point increase in federal funds rate over the last 8 months of simulation.

The key assumptions used in simulation analysis include the following:

Edgar Filing: UNION PLANTERS CORP - Form 10-Q

- Prepayment rates on mortgage-related assets and fixed rate loans
- Cash flows and repricings of all financial instruments
- Changes in volumes and pricing
- Future shapes of the yield curve
- Relationship of market interest rates to each other (basis risk)
- Credit spread
- Deposit sensitivity
- Management's financial plan

The assumptions are inherently uncertain, and, as a result, the simulation cannot precisely estimate net interest income nor predict the impact of higher or lower interest rates on net interest income. Actual results will differ from simulated results due to the timing, magnitude and frequency of interest rate changes, the difference between actual experience and the characteristics assumed, as well as changes in market conditions and management strategies.

The following Repricing Gap analysis illustrates the cash flows and repricings under a stable rate environment that are fundamental to the simulations used by management to manage the interest rate risk position of the Company:

Total sources of funds	<u>\$ 11,400</u>	<u>\$ 1,509</u>	<u>\$ 2,500</u>	<u>\$ 4,538</u>	<u>\$ 1,571</u>	<u>\$ 2,657</u>	<u>\$ 209</u>	<u>\$ 8,864</u>
Interest rate swaps (9)	(185)	-	-	-	185	-	-	-
Interest rate sensitivity gap								
	2,433	605	912	2,166	805	(1,658)	(105)	(5,158)
Cumulative interest rate sensitivity gap (8)	2,433	3,038	3,950	6,116	6,921	5,263	5,158	
Cumulative gap as a percentage of total assets (8)	7%	9%	12%	18%	21%	16%	16%	

Management has made the following assumptions in presenting the above analysis:

- (1) Assets and liabilities are generally scheduled according to their earliest repricing dates regardless of their contractual maturities.
- (2) Nonaccrual loans and accounts receivable-factorings are included in the noninterest-bearing category.
- (3) Fixed-rate mortgage loan maturities include estimates of principal prepayments using industry estimates of prepayment speeds for various coupon segments of the portfolio.
- (4) Delinquent FHA/VA loans are scheduled based on foreclosure and repayment patterns.
- (5) The scheduled maturities of mortgage-backed securities and CMOs include principal prepayments of these securities using proprietary models and their estimates of prepayment speeds.
- (6) Securities are generally scheduled according to their call dates when valued at a premium to par.
- (7) Money market deposits, interest-bearing checking and savings deposits that have no contractual maturities are scheduled according to management's best estimate of their repricing in response to changes in market rates. The impact of changes in market rates would be expected to vary by product type and market.

8. If all money market, interest-bearing checking and savings deposits had been included in the 0-90 Days category above, the cumulative gap as a percentage of total assets would have been negative 5% and 4%, respectively, for the 0-90 Days and 91-180 Days categories and positive 1%, 14%, 16% and 16%, respectively, for the 1-3 Years, 3-5 Years, 5-15 Years and over 15 Years categories at September 30, 2002.

9. The notional value of interest rate swaps at September 30, 2002 is \$185 million.

Item 4 - Controls and Procedures

Union Planters maintains disclosure controls and procedures that are designed to ensure that information Union Planters is required to disclose in the reports it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms.

Union Planters' Chief Executive Officer and its Chief Financial Officer have evaluated the effectiveness of these disclosure controls and procedures as of a date within the 90 day period prior to the filing date of this quarterly report. Based on that evaluation, the Chief Executive Officer and the Chief Financial Officer have concluded that Union Planters' disclosure controls and procedures are effective in ensuring that all material information required to be filed in this quarterly report has been made known to them in a timely fashion.

There have been no significant changes in internal controls, or in other factors that could significantly affect internal controls, subsequent to the date the Chief Executive Officer and the Chief Financial Officer completed their evaluation.

PART II - OTHER INFORMATION

Item 1 - Legal Proceedings

Union Planters and/or its various subsidiaries are parties to certain pending or threatened civil actions, which are described in Item 3, Part I of the Union Planters' 2001 Form 10-K, Form 8-K dated June 6, 2002 and in Note 20 to Union Planters' consolidated financial statements, in the Proxy and Annual Financial Disclosures, and Item 1, Part II of Union Planters' Form 10-Q for the quarter ended June 30, 2002, to which reference is made. Various other legal proceedings pending against Union Planters and /or its subsidiaries have arisen in the ordinary course of business.

While it is impossible to predict with certainty the outcome of any legal proceeding, based upon present information, including evaluations by outside counsel, management is of the opinion that neither Union Planters' financial position, results of operations nor liquidity will be materially affected by the ultimate resolution of pending or threatened legal proceedings. There were no material developments during the third quarter of 2002 in any of the pending or threatened actions that affected such opinion.

CERTIFICATIONS

I, Jackson W. Moore certify that:

1. I have reviewed this quarterly report on Form 10-Q of Union Planters Corporation
2. Based on my knowledge, this quarterly report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this quarterly report;
3. Based on my knowledge, the financial statements, and other financial information included in this quarterly report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this quarterly report;
4. The registrant's other certifying officers and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-14 and 15d-14) for the registrant and we have:
 - a) designed such disclosure controls and procedures to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this quarterly report is being prepared;
 - b) evaluated the effectiveness of the registrant's disclosure controls and procedures as of a date within 90 days prior to the filing date of this quarterly report (the "Evaluation Date"); and
 - c) presented in this quarterly report our conclusions about the effectiveness of the disclosure controls and procedures based on our evaluation as of the Evaluation Date;
5. The registrant's other certifying officers and I have disclosed, based on our most recent evaluation, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent function):
 - a) all significant deficiencies in the design or operation of internal controls which could adversely affect the registrant's ability to record, process, summarize and report financial data and have identified for the registrant's auditors any material weaknesses in internal controls; and
 - b) any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal controls; and
6. The registrant's other certifying officers and I have indicated in this quarterly report whether or not there were significant changes in internal controls or in other factors that could significantly affect

internal controls subsequent to the date of our most recent evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.
