TOTAL INVESTMENTS

+Publicly-owned company

++ Unrestricted securities as defined in Note (a)

Notes to Portfolio of Investments

(a) Unrestricted securities (indicated by ++) are freely marketable securities having readily available market quotations. All other securities are restricted securities which are subject to one or more restrictions on resale and are not freely marketable. At September 30, 2007, restricted securities represented approximately 88.5% of the value of the consolidated investment portfolio.

(b) Under the valuation policy of the Company, unrestricted securities are valued at the closing sale price for listed securities and at the lower of the closing bid price or the last sale price for Nasdaq securities on the valuation date. Restricted securities, including securities of publicly-owned companies which are subject to restrictions on resale, are valued at fair value as determined by the Board of Directors. Fair value is considered to be the amount which the Company may reasonably expect to receive for portfolio securities if such securities were sold on the valuation date. Valuations as of any particular date, however, are not necessarily indicative of amounts which may ultimately be realized as a result of future sales or other dispositions of securities.

Among the factors considered by the Board of Directors in determining the fair value of restricted securities are the financial condition and operating results of the issuer, the long-term potential of the business of the issuer, the market for and recent sales prices of the issuer's securities, the values of similar securities issued by companies in similar businesses, the proportion of the issuer's securities owned by the Company, the nature and duration of resale restrictions and the nature of any rights enabling the Company to require the issuer to register restricted securities under applicable securities laws. In determining the fair value of restricted securities, the Board of Directors considers the inherent value of such securities without regard to the restrictive feature and adjusts for any diminution in value resulting from restrictions on resale.

(Unaudited)

1. Basis of Presentation

Principles of Consolidation. The consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for investment companies. Under rules and regulations applicable to investment companies, we are precluded from consolidating any entity other than another investment company. An exception to this general principle occurs if the investment company has an investment in an operating company that provides services to the investment company. Our consolidated financial statements include our management company.

The financial statements included herein have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and the instructions to Form 10-Q and Article 6 of Regulation S-X. The financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our Form 10-K/A for the year ended March 31, 2007. Certain information and footnotes normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted, although we believe that the disclosures are adequate for a fair presentation. The information reflects all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the results of operations for the interim periods.

2. Restatement of Consolidated Financial Statements

Capital Southwest Corporation (the "Company") has filed an amendment to its Annual Report on Form 10-K for the year ended March 31, 2007, to amend and restate its consolidated financial statements and selected per share data and ratios for each of the fiscal years ended March 31, 2007, 2006 and 2005 and our selected per share data and ratios for the years ended March 31, 2004 and 2003. In addition, we have filed an amendment to our Quarterly Report on Form 10-Q for the quarter ended June 30, 2007.

After reviewing the accounting treatment for deferred taxes on unrealized appreciation of investments, the Company has determined its long-standing policy of recording deferred taxes on unrealized appreciation of investments was not in conformity with generally accepted accounting principles and its previously issued financial statements required restatement. The effect of the restatement on the consolidated statement of financial condition as of March 31, 2007; the consolidated statement of operations and consolidated statement of cash flows for the three months and six months ended September 30, 2006; the consolidated statement of changes in net assets for the six months ended September 30, 2006 and year ended March 31, 2007 is as follows and shown in tables below:

(A) A Regulated Investment Company (RIC) is required to record deferred taxes when it is probable the RIC will not qualify under Subchapter M of the Internal Revenue Code for a period longer than one year. Historically, management believed it was probable the Company would not maintain its qualifying status as a RIC in future years and recorded a deferred tax liability on the unrealized appreciation of investments. However, upon further analysis, the Company determined it was only reasonably possible, but not probable, the Company would not maintain its qualifying status as a RIC. Thus the deferred tax liability consistently recorded and disclosed should not have been recognized.

(B) The Company historically has accrued income taxes payable on its investment gains as they have been incurred, as it has been the Company's practice to retain its investment gains. However, RICs are required to

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

accrue federal income taxes on investment gains that are retained only on the last day of the tax year. The Company incorrectly recorded the tax impact of its investment gains in periods other than the last day of its tax year, December 31. Therefore, the income taxes payable recorded at times other than the tax year end should not have been recognized.

(C) The Company incorrectly classified its' return of capital contributions cumulatively as "undistributed net realized gains on investments." RICs are required to classify return of capital contributions as "additional capital" in the period in which tax basis amounts become permanent; and reflect undistributed amounts remaining since its' previous tax year end adjusted for temporary tax basis differences as "undistributed net realized gains on investments."

12

Notes to Consolidated Financial Statements (continued)

The restatement will eliminate the accrual for deferred taxes on unrealized appreciation of investments, and income taxes payable and related tax carryforwards on realized gains, increasing the net asset value per share and net assets from operations for the periods restated; and reclassify return of capital contributions to "additional capital."

	As of March 31, 2002

(3) As presented in the Company's original Form 10-K for the fiscal year ended March 31, 2007

(A), (B) and (C) are described in detail above.

3. Stock-Based Compensation

In December 2004, the Financial Accounting Standards Board (FASB) issued SFAS No. 123 (revised 2004), Share-Based Payment (SFAS 123R), which revised SFAS 123. SFAS 123R also supersedes APB 25 and amends SFAS No. 95, Statement of Cash Flows. SFAS 123R eliminates the alternative to account for employee stock options under APB 25 and requires the fair value of all share-based payments to employees, including the fair value of grants of employee stock options, be recognized in the income statement, generally over the vesting period.

In March 2005, the Securities and Exchange Commission issued Staff Accounting Bulletin ("SAB") No. 107, which provides additional implementation guidance for SFAS 123R. Among other things, SAB 107 provides guidance on

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

share-based payment valuations, income statement classification and presentation, capitalization of costs and related income tax accounting.

Effective April 1, 2006, we adopted SFAS 123R using the modified prospective transition method. We recognize compensation cost over the straight-line method for all share-based payments granted on or after that date and for all awards granted to employees prior to April 1, 2006 that remain unvested on that date. The fair value of stock options are determined on the date of grant using the Black-Scholes pricing model and are expensed over the vesting period of the related stock options. Accordingly, for the quarter and six months ended September 30, 2007, we recognized compensation expense of \$44,100 and \$87,686, respectively.

As of September 30, 2007, the total remaining unrecognized compensation cost related to non-vested stock options was \$1,971,812, which will be amortized over the weighted-average service period of approximately 6.4 years.

4. Employee Stock Option Plan

On July 19, 1999, shareholders approved the 1999 Stock Option ("Plan"), which provides for the granting of stock options to employees and officers and authorizes the issuance of common stock upon exercise of such options for up to 140,000 shares. All options are granted at or above market price, generally expire ten years from the date of grant and are generally exercisable on or after the first anniversary of the date of grant in five to ten annual installments.

At September 30, 2007, there were 37,500 shares available for grant under the Plan. The per share weighted-average fair value of the stock options granted on May 15, 2006 was \$31.276 per option 15

15

Notes to Consolidated Financial Statements (continued)

using the Black-Scholes pricing model with the following assumptions: expected dividend yield of .64%, risk-free interest rate of 5.08%, expected volatility of 21.1%, and expected life of 7 years. The per share weighted-average fair value of the stock options granted on July 17, 2006 was \$33.045 per option using the Black-Scholes pricing model with the following assumptions: expected dividend yield of .61%, risk-free interest rate of 5.04%, expected volatility of 21.2%, and expected life of 7 years. The per share weighted-average fair value of the stock options granted on July 16, 2007 was \$41.777 per option using the Black-Scholes pricing model with the following assumptions: expected dividend yield of .39%, risk-free interest rate of 4.95%, expected volatility of 19.9%, and expected life of 5 years.

The following summarizes activity in the stock option plan since March 31, 2007:

	Number of shares	Weighted-Average Exercise Price
Balance at March 31, 2007	52,500	\$ 86.184
Granted	25,000	152.980
Exercised	(3,100)	74.642
Canceled	(4,000)	93.490
	-----	-----

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

Balance at September 30, 2007	70,400 =====	109.998 =====
-------------------------------	-----------------	------------------

At September 30, 2007, the range of exercise prices and weighted-average remaining contractual life of outstanding options was \$65.00 to \$152.98 and 6.41 years, respectively. The total intrinsic value of options exercised during the six months ended September 30, 2007 was \$75,129 with the exercise prices ranging from \$65.00 to \$93.49 per share. A total of 3,100 new shares were issued for the \$231,390 cash received from option exercises for the six months ended September 30, 2007.

At September 30, 2007, the number of options exercisable was 9,930 and the weighted-average exercise price of those options was \$79.01.

5. Summary of Per Share Information

* Net decrease is due to the exercise of employee stock options at prices less than beginning of period net asset value.

Notes to Consolidated Financial Statements
(continued)

6. Subsequent Events

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

In July 2007, William R. Thomas, retired from role as President and Chief Executive Officer, but has continued in capacity as Chairman of the Board. Gary L Martin was named President and Chief Executive Officer.

In August 2007, Susan K. Hodgson resigned from her position as Secretary-Treasurer and Chief Financial Officer. Tracy L. Morris was hired in September 2007, as Controller and Chief Financial Officer.

As described in Part II. Item 1. Legal Proceedings; on August 27, 2007 a lawsuit was filed against, Capital Southwest Corporation, Capital Southwest Venture Corporation, Heelys, Inc., and its Chief Executive Officer, Chief Financial Officer and directors who signed its registration statement with the SEC in connection with its December 7, 2006 initial public offering ("IPO") and its underwriters for the IPO. Four similar suits were filed in September and October 2007.

On November 15, 2007, the Company received a Staff Determination Letter from NASDAQ, stating that we were delinquent in our SEC filings for the quarter ended September 30, 2007 and in violation of NASDAQ rules. The letter instructed us to file for an appeal for the determination or trading of the Company's stock would be suspended. On November 20, 2007, the Company requested a written hearing with NASDAQ. The hearing date is set for January 10, 2008.

7. Recent Accounting Pronouncements

The State of Texas recently passed House Bill 3 (HB3), which revises the existing franchise tax system to create a new tax on virtually all Texas businesses. Starting in the fiscal year 2007, HB3 changes the franchise tax base, lowers the tax rate and extends coverage to active businesses receiving state law liability protection. We have been subject to an immaterial amount of Texas franchise taxes and expect the HB3 to have some affect, but have not determined the extent of this impact.

In May 2005, the FASB issued Statement of Financial Accounting Standards No. 154, "Accounting Changes and Error Corrections--a replacement of APB Opinion No. 20 and FASB Statement No. 3" ("SFAS 154"). This Statement replaces APB Opinion No. 20, "Accounting Changes," and FASB Statement No. 3, "Reporting Accounting Changes in Interim Financial Statements." SFAS 154 requires retrospective application to prior periods' financial statements for changes in accounting principle, unless it is impracticable to determine either the period-specific effects or the cumulative effect of the change. SFAS 154 also requires that a change in depreciation, amortization, or depletion method for long-lived, non-financial assets be accounted for as a change in accounting estimate effected by a change in accounting principle. SFAS 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2005. The impact of this standard, if any, will depend upon accounting changes or errors that may occur in future periods. The Company adopted SFAS 154 effective December 31, 2005. Prior to the quarter ended September 30, 2007, SFAS 154 did not have any impact on the company's financial statements.

In September 2006, the FASB issued Statement of Financial Accounting Standard No. 157, "Fair Value Measurements" (SFAS 157). The standard defines fair value, outlines a framework for measuring fair value, and details the required disclosures about fair value measurements. The standard is effective for years beginning after November 15, 2007; therefore, we will adopt SFAS 157 effective April 1, 2008. We are evaluating the impact of SFAS 157.

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value and establishes presentation and disclosure requirements designed

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 is effective for us beginning April 1, 2008. The impact, if any, from the adoption of SFAS 159 has not been determined.

17

Notes to Consolidated Financial Statements (continued)

In February 2007, the FASB issued SFAS No. 159, "The Fair Value Option for Financial Assets and Financial Liabilities" (SFAS 159). SFAS 159 permits entities to choose to measure many financial instruments and certain other items at fair value and establishes presentation and disclosure requirements designed to facilitate comparisons between entities that choose different measurement attributes for similar types of assets and liabilities. SFAS 159 is effective for us beginning April 1, 2008. The impact, if any, from the adoption of SFAS 159 has not been determined.

Net asset value at September 30, 2007 was \$606,872,698, equivalent to \$156.04 per share. Assuming reinvestment of all dividends and tax credits on retained long-term capital gains, less deferred taxes on unrealized appreciation on investments in prior periods, the September 30, 2007 net asset value reflects an increase of 10.6% during the past twelve months.

	September 30, 2007	September 30, 2006
	----	----
Net assets	\$606,872,698	\$561,572,243
Shares outstanding	3,889,151	3,875,751
Net assets per share	\$156.04	\$144.89

Item 2. Managements Discussion and Analysis of Financial Condition and Results of Operations

Results of Operations

The composite measure of our financial performance in the Consolidated Statements of Operations is captioned "Increase (decrease) in net assets from operations" and consists of three elements. The first is "Net investment income", which is the difference between our income from interest, dividends and fees and our combined operating and interest expenses, net of applicable income taxes. The second element is "Net realized gain on investments", which is the difference between the proceeds received from disposition of portfolio securities and their stated cost. The third element is the "Net increase (decrease) in unrealized appreciation of investments", which is the net change in the market or fair value of our investment portfolio, compared with stated cost. It should be noted that the "Net realized gain on investments" and "Net increase (decrease) in unrealized appreciation of investments" are directly related in that when an appreciated portfolio security is sold to realize a gain, a corresponding decrease in net unrealized appreciation occurs by transferring the gain associated with the transaction from being "unrealized" to being "realized". Conversely, when a loss is realized on a depreciated portfolio security, an increase in net unrealized appreciation occurs.

Net Investment Income

Interest income of \$1,244,129 in the six months ended September 30, 2007 increased from \$1,139,530 in the year-ago period due to an increase in excess

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

cash and interest rates. During the six months ended September 30, 2007 and 2006, we recorded dividend income from the following sources:

	Six Months Ended September 30	
	2007	2006
	-----	-----
Alamo Group Inc.	\$ 339,096	\$ 338,556
Dennis Tool Company	37,499	49,999
Encore Wire Corporation	163,470	
Kimberly-Clark Corporation	81,811	75,636
Lifemark Group	150,000	300,000
PalletOne, Inc.	0	89,842
PETsMart, Inc.	18,000	18,000
The RectorSeal Corporation	240,000	480,000
TCI Holdings, Inc.	40,635	40,635
The Whitmore Manufacturing Company	60,000	120,000
Other	34,383	27,833
	-----	-----
	\$1,164,894	\$1,540,501
	=====	=====

18

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Net Increase (Decrease) in Unrealized Appreciation of Investments

Set forth in the following table are the significant increases and decreases in unrealized appreciation by portfolio company:

	Three Months Ended September 30		Six Months Ended September 30	
	2007	2006	2007	2006
	-----	-----	-----	-----
Encore Wire Corporation	\$ --	\$ --	\$ 6,130,000	\$ 8,174,000
Heelys, Inc.	(130,442,000)	30,000,000	(139,760,000)	30,000,000
Media Recovery, Inc.	(9,000,000)	--	(9,000,000)	--
Palm Harbor Homes, Inc.	(7,855,000)	(15,710,000)	(7,855,000)	(23,565,000)
The RectorSeal Corporation	--	--	10,850,000	--

During the six months ended September 30, 2007, the value of our investment in Encore Wire Corporation was increased by \$6,130,000 due to the company's ability to cope with an increasingly volatile wire and cable market. The value of our investment in The RectorSeal Corporation was increased by \$10,850,000 due to increased sales and earnings at the company derived largely from growing demand for the smoke containment systems manufactured by its Smoke Guard subsidiary.

Offsetting the gains at Encore and RectorSeal during the six months ended September 30, 2007, was a \$139,760,000 decline in the value of Heelys, Inc.,

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

which experienced significantly slower growth and an extreme decline in market price during the past quarter; a \$7,855,000 decline in the value of Palm Harbor Homes, Inc. due to the deterioration of the manufactured housing market; and a \$9,000,000 decline in the value of Media Recovery, Inc. due to reduced sales and earnings at the company.

Portfolio Investments

During the quarter ended September 30, 2007, we made additional investments of \$1,050,000 in an existing portfolio company.

We have agreed, subject to certain conditions, to invest up to \$4,846,947 in four portfolio companies.

Financial Liquidity and Capital Resources

At September 30, 2007, we had cash and cash equivalents of approximately \$31.9 million. Pursuant to Small Business Administration (SBA) regulations, cash and cash equivalents of \$3.8 million held by Capital Southwest Venture Corporation (CSVC) may not be transferred or advanced to us without the consent of the SBA. Under current SBA regulations and subject to SBA's approval of its credit application, CSVC would be entitled to borrow up to \$16.4 million. With the exception of a capital gain distribution made in the form of a distribution of the stock of a portfolio company in the fiscal year ended March 31, 1996, we have elected to retain all gains realized during the past 39 years. Retention of future gains is viewed as an important source of funds to sustain our investment activity. Approximately \$65.2 million of our investment portfolio is represented by unrestricted publicly-traded securities, and represent a source of liquidity.

Funds to be used by us for operating or investment purposes may be transferred in the form of dividends, management fees or loans from Lifemark Group, The RectorSeal Corporation and The Whitmore Manufacturing Company, wholly-owned portfolio companies, to the extent of their available cash reserves and borrowing capacities.

19

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations (continued)

Management believes that our cash and cash equivalents and cash available from other sources described above are adequate to meet our expected requirements. Consistent with our long-term strategy, the disposition of investments from time to time may also be an important source of funds for future investment activities.

Item 3. Quantitative and Qualitative Disclosure About Market Risk

We are subject to financial market risks, including changes in marketable equity security prices. We do not use derivative financial instruments to mitigate any of these risks.

Our investment performance is a function of our portfolio companies' profitability, which may be affected by economic cycles, competitive forces, foreign currency fluctuations and production costs including labor rates, raw material prices and certain commodity prices. Most of the companies in our investment portfolio do not hedge their exposure to raw material and commodity price fluctuations. However, the portfolio company with the greatest exposure to foreign currency fluctuations generally hedges its exposure. All of these

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

factors may have an adverse effect on the value of our investments on our net asset value.

Our investment in portfolio securities includes fixed-rate debt securities which totaled \$9,913,348 at September 30, 2007, equivalent to 1.7% of the value of our total investments. Generally these debt securities are below investment grade and have relatively high fixed rates of interest; therefore, minor changes in market yields of publicly-traded debt securities have little or no effect on the values of debt securities in our portfolio and no effect on interest income. Our investments in debt securities are generally held to maturity and their fair values are determined on the basis of the terms of the debt security and the financial condition of the issuer.

A portion of our investment portfolio consists of debt and equity securities of private companies. We anticipate little or no effect on the values of these investments from modest changes in public market equity valuations. Should significant changes in market valuations of comparable publicly-owned companies occur, there may be a corresponding effect on valuations of private companies, which would affect the value and the amount and timing of proceeds eventually realized from these investments. A portion of our investment portfolio also consists of restricted common stocks of publicly-owned companies. The fair values of these restricted securities are influenced by the nature of applicable resale restrictions, the underlying earnings and financial condition of the issuers of such restricted securities and the market valuations of comparable publicly-owned companies. A portion of our investment portfolio also consists of unrestricted, freely marketable common stocks of publicly-owned companies. These freely marketable investments, which are valued at the public market price, are directly exposed to equity price risks, in that a change in an issuer's public market equity price would result in an identical change in the fair value of our investment in such security.

Item 4. Controls and Procedures

An evaluation was performed under the supervision and with the participation of our Management, including the President and Controller, of the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15 and 15d-15 of the Securities Exchange Act of 1934). Based on that evaluation, the President and Controller concluded that our disclosure controls and procedures were not effective due to a material weakness in the Company's internal control over financial reporting ("ICFR") disclosed in "Item 9A. Controls and Procedures" of the Company's Annual Report on Form 10-K/A, for the fiscal year ended March 31, 2007. The following material weakness is the basis for our conclusion:

20

Item 4. Controls and Procedures

(continued)

- o We did not maintain an adequate process to assess and determine the probability of the Company maintaining its qualifying status as a RIC subject to subchapter M of the IRC over the next twelve months at any given quarter.

To address this material weakness, Management will add a formal evaluation to consider whether it is probable the company will not qualify as a RIC subject to Subchapter M of the IRC over the next 12 months at any given quarter. Additionally, the Company will review its investment gains quarterly and calculate the tax impact on those gains it will retain, however, they will only

Edgar Filing: CAPITAL SOUTHWEST CORP - Form 10-Q

record the tax liability at the last day of the tax year. Management will also determine, based on materiality, any footnote disclosure that may be required during the interim periods. Furthermore, Management will review and assess temporary and permanent differences for reclassification to "additional capital" at each tax year end. When considered necessary by Management, an independent attorney or accountant with requisite knowledge of investment company taxation will be consulted in order to provide necessary guidance. Accordingly, Management believes that the financial statements included in this report fairly represent in all material respects the Company's financial position, results of operations and cash flows for the periods presented. There were no changes in the Company's internal control over financial reporting that have materially affected, or are reasonably likely to materially affect our ICFR during the fiscal quarter ended September 30, 2007.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We are currently the subject of certain legal actions. In our judgment, none of the lawsuits currently pending against us, either individually or in the aggregate, is likely to have a material adverse effect on our business, results of operations, or financial position.

We, Capital Southwest Corporation and Capital Southwest Venture Corporation, have been named in a lawsuit filed on August 27, 2007 in the United States District Court of the Northern District of Texas, Dallas Division, against Heelys, Inc and its Chief Executive Officer, Chief Financial Officer and the directors who signed its registration statement with the Securities and Exchange Commission in connection with its December 7, 2006 initial public offering ("IPO"), and its underwriters for the IPO. The complaint alleges violations of Sections 11 and 15 of the Securities Act of 1933 and the plaintiffs are seeking compensatory damages in an unspecified amount, as well as reasonable costs and expenses incurred in the action, including counsel fees and expert fees.

Four similar suits were also filed in September and October 2007 in the United States District Court of the Northern District of Texas making substantially similar allegations under Sections 11, 12 and 15 of the Securities Act of 1933, and seeking substantially similar damages. These lawsuits have been transferred to a single judge, and we expect that all the cases will be consolidated into a single action, with a consolidated complaint filed shortly thereafter.

We believe that the plaintiffs' claims are without merit, we deny the allegations in the complaints, and we intend to vigorously defend the lawsuits.

Item 1A. Risk Factors

There have been no material changes to our risk factors as disclosed in Item 1A, "Risk Factors", in our Annual Report on Form 10-K/A for the fiscal year ended March 31, 2007.

Item 4. Submission of Matters to a Vote of Security Holders

Our Annual Meeting of Stockholders was held on July 16, 2007, with the following results of elections and approval:
