OVERVIEW

The Company is a Delaware corporation that operates in two business segments. Its Guardian Laboratories Division ("Guardian") conducts research, product development, manufacturing and marketing of cosmetic ingredients, personal and health care products, pharmaceuticals, and specialty industrial products. The products manufactured by Guardian are marketed through marketing partners, distributors, direct advertising, mailings, and trade exhibitions. Its most important personal care product line is its LUBRAJEL(R) line of water based moisturizing and lubricating gels. It also sells two pharmaceutical products, which are distributed primarily through drug wholesalers and surgical supply houses. There are also indirect sales to the Veteran's Administration and other government agencies, and to some hospitals and physicians.

While the Company does have competition in the marketplace for some of its products, many of its products or processes are either unique in their field or have some unique characteristics, and therefore are not in direct competition with the products or processes of other pharmaceutical, chemical, or health care companies. Guardian's research and development department is actively working on the development of new products to expand the Company's personal care line.

The Company has been issued many patents and trademarks, and intends whenever possible to make efforts to obtain patents in connection with its product development program.

The Company's Eastern Chemical subsidiary distributes an extensive line of fine organic chemicals, research chemicals, test solutions, indicators, dyes and reagents. Eastern's products are marketed through advertising in trade publications and direct mailings and are sold to both to distributors and directly to end users for use in a wide variety of applications. Since the Company's business activities and marketing efforts over the past several years

Edgar Filing: UNITED GUARDIAN INC - Form 10QSB

have focused increasingly on the Guardian division, which the Company believes has greater growth potential, the Company has reduced Eastern's inventory levels in order to make the subsidiary more marketable in the event the Company decided to sell the Eastern operation. This has resulted in some reduction in sales for this division. Sales of this division have also declined as a result of increased competition from new and existing competitors that are making increased use of the Internet as a selling tool. Recently the Company entered into discussions with several companies that expressed interest in purchasing the Eastern operation, and is continuing discussions with one Company in particular that could be a likely candidate to purchase the operation. Although there is not yet any firm agreement between the parties, the Company is hopeful that an agreement can be reached shortly.

Products manufactured by the Company are marketed worldwide through its extensive marketing and distribution arrangements. Approximately half of the Company's sales are to foreign customers.

The following discussion and analysis covers material changes in the financial condition of the Company since year end December 31, 2003, and a comparison of the results of operations for the three and nine month periods ended September 30, 2004 and September 30, 2003. This discussion and analysis should be read in conjunction with "Management's Discussion and Analysis or Plan of Operation" included in the Company's Form 10-KSB for the year ended December 31, 2003.

The increase in Guardian's and Eastern's sales for the three and nine month periods is believed to be due mainly to normal fluctuations in purchasing patterns of its customers.

Cost of sales as a percentage of sales decreased to 44.6% for the nine months ended September 30, 2004 from 46.5% for the comparable period ended September 30, 2003. Excluding realized savings from disposal costs and obsolete inventory, cost of sales, as a percentage of sales, would have been 50.0% for the nine month period ended September 30, 2003 as compared to 44.6% for the comparable period in the current year.

Edgar Filing: UNITED GUARDIAN INC - Form 10QSB

For the three months ended September 30, 2003, cost of sales as a percentage of sales would have been 54.7% as compared to 46.9% for the comparable period in the current year. This decrease for the three month period ended September 30, 2004 is mainly due to a favorable production variance.

For the three months ended September 30, 2003, the Company realized savings in disposal costs and obsolete inventory of approximately \$50,000 and \$126,000 respectively. The Company had recorded such reserves in prior years.

Operating Expenses

Operating expenses increased \$68,538 (3.7%) for the nine months ended September 30, 2004 compared to the comparable period in 2003. For the three month period ended September 30, 2004 operating expenses decreased \$16,141 (2.8%) over the comparable period in 2003. The increase for the nine month period was primarily due to the net effect of increased insurance costs and a one time reserve for the payment of a civil fine in September of 2003 (see "Legal Proceedings" section of the Company's Form 10-QSB for the period ended September 30, 2003). For the three month period decreases in expenses were mainly due to the aforementioned civil penalty that was accrued in September 2003.

Investment income

Investment income increased \$41,976 (35.5%) for the nine months ended September 30, 2004 as compared to the comparable period in 2003, and \$14,728 (37.6%) for the three months ended September 30, 2004 when compared to the comparable period in 2003. These increases were mainly attributable to an increase in interest rates. Investment income is recorded net of brokerage fees.

The provision for income taxes increased \$125,000 (12.1%) for the nine months ended September 30, 2004 when compared to the comparable period in 2003, and \$99,000 (34.1%) for the three months ended September 30, 2004 when compared to the comparable period in 2003. The current ratio decreased from 9.3 to 1 at December 31, 2003 to 7.7 to 1 at September 30, 2004. The decrease in current ratio was due to a \$.25 per share dividend declared in September 2004. The Company has no commitments for any further significant capital expenditures during the remainder of 2004, and believes that its working capital is and will continue to be sufficient to support its operating requirements.

The company generated cash from operations of \$1,654,531 and \$2,155,423 for the nine months ended September 30, 2004 and September 30, 2003 respectively.

Edgar Filing: UNITED GUARDIAN INC - Form 10QSB

The decrease was primarily due to the increase in inventories and accounts payable.

During the nine month period ended September 30, 2004 \$397,070 was provided by investment activities, as compared to the nine months ended September 30, 2003 when \$3,298,890 was used in investing activities. The change from \$3,298,890 used in investing activities in 2003 to \$397,070 provided by investing activities in 2004 was due to an decrease in purchases of marketable securities (primarily bonds) and redemption of some money market accounts.
