PROXY STATEMENT

This proxy statement is furnished in connection with the solicitation by the board of directors of Centruue Financial Corporation of proxies to be voted at the annual meeting of stockholders to be held at the Hilton Chicago O'Hare Airport, O'Hare International Airport, Chicago, Illinois, on Wednesday, April 22, 2009, at 8:00 a.m., local time, or at any adjournments or postponements of the meeting.

Centruue Financial Corporation, a Delaware corporation, is a regional financial services company based in St. Louis, Missouri which has one bank subsidiary. Our offices serve a market area which extends from the far western and southern suburbs of the Chicago metropolitan area across Central and Northern Illinois down to the metropolitan St. Louis area.

This proxy statement and the accompanying notice of meeting and proxy are first being mailed to holders of shares of our common stock, par value \$1.00 per share, on or about March 23, 2009 to stockholders of record as of February 23, 2009. We are required to file an annual report, called a Form 10-K, with the SEC. A copy of Form 10-K for the fiscal year ended December 31, 2008 is enclosed for your reference.

Important Notice Regarding the Availability of Proxy Materials for the Stockholder Meeting

The proxy statement and annual report to security holders are available in the investor relations section of our website at www.centruue.com.

Voting Rights and Proxy Information

The board of directors has fixed the close of business on February 23, 2009, as the record date for the determination of stockholders entitled to notice of, and to vote at, the annual meeting. Our transfer books will not be closed between the record date and the date of the annual meeting. The board of directors hopes that all stockholders can be represented at the annual meeting. Whether or not you expect to be present, please sign and return your proxy in the enclosed self-addressed, stamped envelope. Stockholders giving proxies retain the right to revoke them at any time before they are voted by written notice of revocation to the secretary of Centruue Financial Corporation and stockholders present at the meeting may revoke their proxy and vote in person.

The shares represented by each valid proxy received in time will be voted at the annual meeting and, if a choice is specified on the proxy, it will be voted in accordance with that specification. If no instructions are specified in a signed proxy returned to the company, the shares represented thereby will be voted in FAVOR of the election of the directors listed in the enclosed proxy and FOR the approval of our executive officers' compensation. If any other matters are properly presented at the annual meeting, including, among other things,

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

consideration of a motion to adjourn the meeting to another time or place, the individuals named as proxies and acting thereunder will have the authority to vote on those matters according to their best judgment to the same extent as the person delivering the proxy would be entitled to vote. If the annual meeting is adjourned or postponed, a proxy will remain valid and may be voted at the adjourned or postponed meeting. As of the date of printing of this proxy statement, we do not know of any other matters that are to be presented at the annual meeting other than the election of three Class II directors and the non-binding executive compensation proposal.

Stockholders giving proxies retain the right to revoke them at any time before they are voted by written notice of revocation to the secretary of Centrue Financial Corporation or by a later executed proxy. Attendance at the annual meeting will not automatically revoke a proxy, but a stockholder attending the annual meeting may request a ballot and vote in person, thereby revoking a prior granted proxy.

On February 23, 2009, we had 6,028,491 issued and outstanding shares of common stock. For the election of directors, and for all other matters to be voted upon at the annual meeting, each share of common stock is entitled to one vote. A majority of the outstanding shares of the common stock must be present in person or represented by proxy to constitute a quorum for purposes of the annual meeting. Abstentions and broker non-votes (i.e., shares held by brokers in street name, voting on certain matters due to discretionary authority or instructions from the beneficial owners but not voting on other matters due to lack of authority to vote on such matters without instructions from the beneficial owner) will be counted for purposes of determining a quorum but will not count toward the determination of whether such matters are approved or directors are elected. Directors will be elected by a plurality of the votes present in person or represented by proxy at the meeting and entitled to vote. In all other matters, the affirmative vote of the majority of shares of common stock present in person or represented by proxy at the annual meeting and entitled to vote on the subject matter shall be required to constitute stockholder approval.

I. ELECTION OF DIRECTORS

We have a staggered board of directors, divided into three classes. One class is elected annually to serve for three years. At the annual meeting, our stockholders will be entitled to elect three Class II directors for terms of three years or until their successors are elected and qualified. Each of the nominees for election as Class II directors are incumbent directors. Our board of directors has reviewed the independence of the nominees for election to the board and the independence of the incumbent directors in accordance with the standards of the Nasdaq Stock Market. In accordance with such review, the board of directors has determined that each of Messrs. Berry, Breipohl, Ganim, Griffith, Hejna, McDonnell, Shinkle, Smith and Sullivan are independent under those standards.

The proxy provides instructions for voting for all director nominees or for withholding authority to vote for one or more director nominees. Unless instructed to the contrary, the persons acting under the proxy which we are soliciting will vote for the nominees listed below. In the event, however, that any nominee shall be unable to serve, which is not now contemplated, the proxy holders reserve the right to vote at the annual meeting for a substitute nominee.

Board Committees and Meetings

Our board of directors generally meets on a quarterly basis. The board of directors met six times during 2008. Our board of directors has standing executive & compensation, corporate governance & nominating and audit committees.

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

Executive & Compensation Committee

The members of the executive & compensation committee are Messrs. Griffith (Chair), Hejna, McDonnell and Shinkle. The committee met four times during 2008. The executive & compensation committee adopted a charter on June 16, 2005, which was last revised in January 2009. The executive & compensation committee charter combines the duties of both the executive committee and the compensation committee and is available on the company's website at www.centtrue.com.

The executive & compensation committee is organized, and its members appointed, by the board of directors to carry out the responsibilities of the board of directors relating to the effective administration of the company's executive compensation and benefits programs as well as the general oversight of the company's compensation program for all company employees. The committee responsibilities include reviewing the performance of the CEO and all compensation matters for our executive officers. The committee is comprised of four independent directors and is responsible for providing oversight to ensure that the company's compensation incentives and benefits are competitive and are aligned with company goals so that such goals can be successfully achieved.

The executive & compensation committee does not generally delegate any matters relating to the compensation and benefits of named executive officers to any other party other than to the full board of directors. Items of daily management and decisions relating to company-wide compensation and benefits, not specifically targeting named executive officers, is delegated to company management to the extent that it does not result in decisions that may materially benefit named executive officers in comparison with the overall employee population. The company's chief executive officer may recommend or provide information for consideration regarding the compensation and benefits of named executive officers to members of the board of directors.

In the course of determining base salaries and total compensation for our executive officers, the committee reviews data for institutions which are deemed to be the company's peer group. In determining base salaries throughout 2008, the committee considered peer data as compiled and reported internally and by consultants including Amalfi Consulting. When determining the base salaries of the chief executive officer and the chief financial officer, specifically, the committee reviewed a group of ten high-performing publicly traded banks ranging in asset size from \$1-2 billion with respect to their base salaries, bonus, all other compensation and total compensation. This group included: Camden National Corp, Columbia Bancorp, Horizon Bancorp, Lakeland Financial Corp, Merchants Bancshares, Royal Bancshares, SY Bancorp, Southside Bancshares, Univest Corp and West Bancorporation. These institutions were identified as "high performing" based on each having achieved a return on equity consistent with the company's goal of being in the upper quartile of comparably sized institutions in relation to this benchmark. No peer institutions were selected from the states of California, Florida or New York. The committee also reviewed a group of 17 comparably-sized Midwest financial institutions with respect to direct compensation, bonus, total equity, retirement benefits, all other compensation and total compensation specific to the positions of chief executive officer, chief financial officer, and the next three most highly compensated officers. This group included: Lakeland Financial Corporation, Enterprise Financial Services Corp, Farmers Capital Bank Corporation, People Bancorp Inc., Mercantile Bancorp Inc., S.Y. Bancorp, Inc., QCR Holdings, Inc. Porter Bancorp, Inc., MBT Financial Corp., West Bancorporation Inc., Firstbank Corporation, Hawthorn Bancshares, Inc., Horizon Bancorp, German American Bancorp, Inc., Princeton National Bancorp, Inc., Dearborn Bancorp, Inc., and Camco Financial Corporation.

The executive & compensation committee also periodically reviews director compensation. This oversight may be done in conjunction with or as delegated to the corporate governance committee or the full board of directors.

Audit Committee

The audit committee is responsible for assisting the board of directors with oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) the independent auditor's qualifications and independence and (4) the performance of our internal accounting function and independent auditors. The audit committee has the direct authority and responsibility to select, evaluate and, where appropriate, replace the independent auditors, and is an "audit committee" for purposes of Section 3(a)(58)(A) of the Securities Exchange Act of 1934. The members of the audit committee are Messrs. Smith (Chair), Breipohl, Ganim and Sullivan. The committee met ten times during 2008.

Corporate Governance & Nominating Committee

Our board of directors has a corporate governance & nominating committee which consists of four directors. Messrs. McDonnell (Chair), Hejna, Smith and Sullivan are the current members of this committee. The corporate governance & nominating committee identifies individuals to become board members and selects, or recommends for the board's selection, director nominees to be presented for stockholder approval at the annual meeting of stockholders or to fill any vacancies. The corporate governance & nominating committee met once in 2008.

Our board of directors has adopted a written charter for the corporate governance & nominating committee. The charter and principles are available on the company's website at www.centru.com. Based upon the review described above under the section "Election of Directors", the board of directors has determined that each of the members of our corporate governance & nominating committee is independent under the applicable standards of the Nasdaq Stock Market.

The corporate governance & nominating committee will consider director nominees recommended by stockholders. A stockholder who wishes to recommend a person or persons for consideration as a nominee for election to the board of directors must send a written notice by mail, c/o corporate governance & nominating committee, Centru Financial Corporation, 7700 Bonhomme Avenue, St. Louis, Missouri 63105, that sets forth: (1) the name, address (business and residence), date of birth and principal occupation or employment (present and for the past five years) of each person whom the stockholder proposes to be considered as a nominee; (2) the number of shares of the common stock beneficially owned (as defined by section 13(d) of the Securities Exchange Act of 1934) by each such proposed nominee; (3) any other information regarding such proposed nominee that would be required to be disclosed in a definitive proxy statement to stockholders prepared in connection with an election of directors pursuant to section 14(a) of the Securities Exchange Act of 1934; and (4) the name and address (business and residential) of the stockholder making the recommendation and the number of shares of the common stock beneficially owned (as defined by section 13(d) of the Securities Exchange Act of 1934) by the stockholder making the recommendation.

We may require any proposed nominee to furnish additional information as may be reasonably required to determine the qualifications of such proposed nominee to serve as a director of Centru Financial Corporation. Stockholder recommendations will be considered only if received no less than 120 days or no more than 150 days before the date of the proxy statement sent to stockholders in connection with the previous year's annual meeting of stockholders. The corporate governance & nominating committee will consider any nominee recommended by a stockholder in accordance with the preceding paragraph under the same criteria as any other potential nominee.

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

The corporate governance & nominating committee seeks board members from diverse professional backgrounds who combine a broad spectrum of experience and expertise with a reputation for integrity. Directors should have experience in positions with a high degree of responsibility, be leaders in the companies or institutions with which they are affiliated and be selected based upon contributions they can make to the board in performing its oversight responsibilities. The corporate governance & nominating committee uses a subjective process for identifying and evaluating nominees for director, based on the information available to, and the subjective judgments of, the members of the corporate governance & nominating committee and our then current needs. We do not believe there would be any difference in the manner in which the committee evaluates nominees based on whether the nominee is recommended by a stockholder or not.

5.

Code of Ethics

The company has adopted a code of ethics that applies to all of our employees, officers and directors, including our principal executive officer, principal financial officer, principal accounting officer or controller, or persons performing similar functions. Our code of ethics contains written standards that we believe are reasonably designed to deter wrongdoing and to promote:

- o Honest and ethical conduct, including the ethical handling of actual or apparent conflicts of interest between personal and professional relationships;
- o Full, fair, accurate, timely, and understandable disclosure in reports and documents that we file with, or submit to, the Securities and Exchange Commission and in other public communications we make;
- o Compliance with applicable governmental laws, rules and regulations;
- o The prompt internal reporting of violations of the code to an appropriate person or persons named in the code; and
- o Accountability for adherence to the code.

Stockholder Communications with the Board and Policy for Director Attendance at Annual Meetings

Our board of directors has a process for stockholders to send communications to the board of directors, its executive & compensation committee, its corporate governance & nominating committee or its audit committee, including complaints regarding accounting, internal accounting controls, or auditing matters. Communications can be sent to the board of directors, its executive & compensation committee, its corporate governance & nominating committee or its audit committee or specific directors either by regular mail to the attention of the board of directors, its executive & compensation committee, its corporate governance & nominating committee, its audit committee or specific directors, at our principal executive offices at 7700 Bonhomme Avenue, St. Louis, Missouri 63105. All of these communications will be reviewed by our secretary (1) to filter out communications that our secretary deems, in his or her reasonable judgment, are not appropriate for our directors, such as spam and communications offering to buy or sell products or services, and (2) to sort and relay the remainder to the appropriate committee or directors.

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

We expect and encourage all of our directors and nominees for election as directors to attend the annual meeting of stockholders, absent a compelling reason. All of our directors at the time of the 2008 annual meeting of stockholders, with the exception of Mr. Griffith, attended that meeting.

Compensation of Directors

Each non-employee Centrue Financial Corporation director received an annual retainer of \$10,000, and each non-employee Centrue Bank director received an annual retainer of \$5,000. Additionally, the audit committee chairman received an annual retainer of \$40,000. Each non-employee Centrue Financial Corporation director earned a fee of \$1,750 for each board meeting attended and \$750 for each committee meeting attended, and each non-employee Centrue Bank director earned \$1,500 for each board meeting attended, \$1,000 for each credit committee meeting attended and \$750 for all other committee meetings attended. Additionally, the credit committee chairman received an annual retainer of \$18,350. Non-employee directors may also receive an annual grant of options to purchase shares of common stock under the company's 2003 Stock Option Plan. The 2003 Stock Option Plan provides for annual formula grants to each of our directors of options to purchase shares of common stock with an exercise price of not less than 100% of the then current market price of the common stock on the date of the grant. Such previously issued options were exercisable over five years. During 2008, non-employee directors were granted 5,000 in stock options.

II. ADVISORY VOTE ON EXECUTIVE COMPENSATION

On February 17, 2009, the President signed into law the American Recovery and Reinvestment Act of 2009. Among other things, the broad sweeping legislation requires that "TARP recipients during the period in which any obligation arising from financial assistance provided under the TARP remains outstanding shall permit a separate [nonbinding] shareholder vote to approve the compensation of executives, as disclosed pursuant to the compensation disclosure rules of the Commission." The nonbinding vote is required annually at each annual or other meeting of shareholders during the period that any obligation arising from financial assistance provided under the TARP remains outstanding.

On January 9, 2009, the Company completed the sale of \$32.7 million of preferred stock and a warrant to purchase up to 508,320 shares of the Company's common stock to the U.S. Treasury under the TARP Program. As a result, the Company is submitting this nonbinding proposal for consideration by shareholders in compliance with Section 7001 of the American Recovery and Reinvestment Act of 2009.

This proposal, commonly known as a "Say-on-Pay" proposal, gives you as a shareholder the opportunity to endorse or not endorse our executive pay program and policies through the following resolution:

"Resolved, that the shareholders approve the executive compensation of the Company, as described in the "Compensation Discussion and Analysis" and the tabular disclosure regarding named executive officer compensation (together with the accompanying narrative disclosure) in this proxy statement. "

Because your vote is advisory, it will not be binding upon the Board. However,

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

the executive & compensation committee will take into account the outcome of the vote when considering future executive compensation arrangements.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" APPROVAL OF THE EXECUTIVE COMPENSATION OF THE COMPANY, AS DESCRIBED IN THE "COMPENSATION DISCUSSION AND ANALYSIS", AND THE TABULAR DISCLOSURE REGARDING NAMED EXECUTIVE OFFICER COMPENSATION (TOGETHER WITH THE ACCOMPANYING NARRATIVE DISCLOSURE) IN THIS PROXY STATEMENT.

SECURITY OWNERSHIP OF CERTAIN
BENEFICIAL OWNERS AND MANAGEMENT

The following table sets forth certain information with respect to the beneficial ownership of our common stock at February 23, 2009, by each person known by us to be the beneficial owner of more than 5% of the outstanding common stock, by each director or nominee, by each executive officer named in the summary compensation table which can be found later in this proxy statement, and by all of our directors and executive officers as a group.

The following table is based on information supplied to us by the directors, officers and stockholders described above. The company has determined beneficial ownership in accordance with the rules of the SEC. Shares of common stock subject to options that are either currently exercisable or exercisable within 60 days of February 23, 2009 are treated as outstanding and beneficially owned by the option holder for the purpose of computing the percentage ownership of the option holder. However, these shares are not treated as outstanding for the purpose of computing the percentage ownership of any other person. The table lists applicable percentage ownership based on 6,028,491 shares outstanding as of February 23, 2009. Unless otherwise indicated, the address for each person listed below is 7700 Bonhomme Avenue, St. Louis, Missouri 63105.

Report of Executive & Compensation Committee

The executive & compensation committee has reviewed and discussed the Compensation Discussion and Analysis (the "CD&A") for the year ended December 31, 2008 with management. Based on the review and discussions, the executive & compensation committee recommended to the board of directors that the CD&A be included in the company's annual report on Form 10-K for the year ended December 31, 2008 and the company's 2009 proxy statement for filing with the SEC.

The committee certifies that it has reviewed with the company's senior risk officers the company's incentive compensation arrangements that it has with its senior risk officers (as such term is defined in the Emergency Economic Stabilization Act of 2008) and that the committee has made reasonable efforts to ensure that such arrangements do not encourage the company's senior executive officers to take unnecessary and excessive risks that threaten the value of the company.

Respectively Submitted,
2008 Executive & Compensation Committee

COMPENSATION DISCUSSION AND ANALYSIS

Philosophy

The executive & compensation committee's principal responsibilities include acting upon matters delegated to the committee by the full board and ensuring the alignment of compensation with the strategic objectives of the organization.

The executive & compensation committee recognizes that the company's success is largely dependent on the selection, training and development of top caliber executive, managerial, and professional talent. Ongoing investment in human capital is expected to produce favorable long-term returns to our customers and shareholders by offering extensive and progressive services that provide a unique and pleasant banking experience to an ever-growing customer base. The company has positioned itself for future balance sheet growth and enhanced operating performance that is dependent upon many factors including its ability to retain existing and attract new customers, maintain strong asset quality, continue to improve operational efficiencies, offer comprehensive financial products and services, and enhance technological capabilities.

The committee has established an objective that the company's executives be among the most highly qualified and talented professionals available in their respective areas of expertise, when compared to a peer group that represents competition for business and talent. The committee evaluates the performance of the chief executive officer and other executive officers of the organization considering input from other board members, the chief executive officer and the head of human resources in order to evaluate the company's progress in relation to this objective.

The company believes successful compensation programs link business and compensation strategies with thought processes that address a broad array of program influences. This approach to strategy is a core value as it relates to how the company competes with other organizations while meeting the needs of its customers.

Elements of Compensation and Determination of Payments

The executive & compensation committee annually reviews and approves goals and objectives relevant to the incentive compensation plans of the chief executive officer and other executive officers of the organization.

11.

Executive officers shall, for the purposes of the committee's oversight, include those individuals who are the annually named executive officers of the company.

In determining the compensation and benefits of our executive officers, the following factors are generally taken into consideration: the performance of the executive officers in achieving short and long-term goals; payment of compensation commensurate with the ability and expertise of the executive officers; and payment of compensation that is competitive with similar companies (see "Executive & Compensation Committee" above). The committee considers the foregoing factors, as well as others, in determining the compensation and benefits plans of our executive officers.

In the course of determining base salaries and total compensation for our executive officers, the committee reviews data for institutions which are deemed to be the company's peer group. In determining base salaries throughout 2008, the committee considered peer data as compiled through proxy data and reported

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

internally and by independent consultants including Amalfi Consulting.

The following elements include factors that will be considered when reviewing executive officer compensation and benefits: base salary, bonus, long-term incentives, officer benefits, retirement plan funding, perquisites and group insurance benefits.

The following is a general description of how each of these elements applies to our executive officers.

Base Salary - In determining the base salary of executive officers, the executive & compensation committee defines base salary as the annualized regular cash compensation of an employee, excluding bonus awards, company contributions to employee benefits plans, or other compensation not designated as salary. The executive & compensation committee considers the individual job performance of the executive officers, as well as overall corporate performance, and the median salaries as published by our peers and other third party consultants. Base salaries are generally reviewed and considered for adjustment on an annual basis, unless circumstances exist in which the executive is assuming a scope and degree of responsibilities materially greater or lesser than the executive's present duties, or it is deemed that an adjustment is needed to meet marketplace demands.

Short-term Incentive Compensation (Cash Bonus) -The short-term incentive compensation program is intended to sustain management's focus on the company's requirement for strategic long-range planning by encouraging attainment of the annual profitability goals. The plan is designed to attract, develop, retain and reward well-qualified management and executive staff.

Each year, the executive & compensation committee approves participants for the program and corresponding rewards tiers ranging up to 50% of base salary, commensurate with the responsibility level of each position. Eligible rewards, including those of the chief executive officer, are based on both personal goals and corporate performance. A minimum threshold must be met before any rewards are paid, and all rewards are subject to final approval by the board of directors. In 2008, the minimum threshold was an earnings per share target of \$1.91. No corporate or personal rewards would be payable unless this minimum core earnings level was achieved (without credit for one time items such as gains on the sale of branches). The committee may, at its discretion, recommend rewards when the threshold is not met to recognize exemplary performance during times when unforeseen circumstances may negatively impact attainment of the earnings per share target.

The corporate performance goal was an earnings per share of \$2.05. Corporate performance rewards would be paid if the final budgeted corporate earnings per share level was achieved. In 2008, the chief executive officer had a bonus potential equal to 50% of his base salary with half of that tied to the corporate performance goal and half tied to attainment of the company's strategic plan objectives. The chief financial officer had a bonus potential equal to 30% of his base salary with half of that tied to the corporate performance goal and half tied to personal goals. Executive vice presidents had a bonus potential equal to 25% of base salary with half of that tied to the corporate performance goal and half tied to personal goals. Market presidents (with the exception of Donald Davis whose bonus structure is discussed in "Employment Agreements and Other Arrangements") had a bonus potential of 25% of base salary with 25% of that tied to the corporate performance goal and 75% tied to personal goals. All other officers have a bonus potential of between 5%-20% with personal goals representing a more significant portion as the officer levels lessen.

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

Personal goals are set jointly by the participant and company management and are comprised of tactical initiatives to be completed within the period that can ultimately advocate the successful completion of long-range strategic initiatives. Specific accomplishments considered in granting bonuses may include goals linked to: attainment of annual budget and key strategic accomplishments including, but not limited to, earnings per share and return on equity targets, efficiency ratio, growth goals, asset quality, compliance, capital planning and human resources accomplishments.

Beginning with the 2009 plan year, a corporate threshold related to maintaining a satisfactory compliance program will also be incorporated. The committee, at its sole discretion, may scale down the payment to as far as a \$0 reward if management fails to maintain risk management controls sufficient to protect depositors and capital. For those executives whose primary job responsibility is the control of risk, and compliance with rules and laws, the incentive compensation structure will specifically incorporate achievement of risk management objectives and exclude targets related to earnings. In addition, direct reports of these executives will be reviewed for applicability to this provision.

Long-Term Incentive Compensation - The company's primary long-term incentive vehicle is stock options. Inclusion in the company's long-term incentive program is based on the recommendation of the chief executive officer and the executive & compensation committee, and is approved by the board of directors. No specific formula is used in determining the amount and frequency of long-term incentives. However, the committee considers factors such as earnings per share, return on equity and total return to shareholders and generally reserves long-term incentive grants to motivate and reward extraordinary performance that may positively impact the company's long-term objectives. Restricted stock awards may also be utilized.

Officer Benefits - Officer benefits programs focus on two general types of officer benefits: nonqualified retirement benefits and officer life insurance. Officer benefits are considered to be a critical component in attracting, retaining and motivating key talent.

On January 1, 2008, the Centru Financial Corporation Executive Deferred Compensation Plan took effect. Participants may defer up to 50% of salary and up to 100% of bonus (beginning with bonuses earned in 2008). The plan is available to members of the senior management team and other select individuals deemed to meet the criteria of "top hat" plan participants. Participant deferrals are invested in a phantom account representing units of Centru Financial Corporation common stock. The company may make discretionary matching contributions with respect to a portion of the participant's deferral and discretionary contributions that are not related to the participant's deferrals. The company match, and any discretionary employer contributions, are credited quarterly (with the exception of an annual 3% contribution to those officers who would have otherwise received a 3% safe harbor 401(k) match of deferred dollars) and invested per the participant's direction into one or more of the following: Centru Financial Corporation common stock (phantom units), Vanguard Lifestyle Income, Vanguard Lifestyle Conservative Growth, Vanguard Lifestyle Moderate Growth, Vanguard Lifestyle Growth. Participants are always 100% vested in their own deferrals. Company dollars (with the exception of an annual 3% contribution to those officers who would have otherwise received a 3% safe harbor 401(k) match of deferred dollars) are subject to a five-year cliff vesting schedule per each year's match (e.g. all company dollars credited in 2008 will be vested on 12/31/13). No trust was established for the plan. However, the plan is structured to allow for a rabbi trust. Participants may elect to receive distributions upon separation of service or upon normal retirement age (65) in a lump sum, over a five-year period or over a 10-year period. Participants have

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

the option to take a distribution upon a change of control.

Several officers, not including our chief executive officer, are currently covered by a bank owned life insurance (BOLI) policy. A small group of officers with BOLI are also covered by a split dollar plan which, subject to the achievement of certain conditions, pays out a portion of death benefits to the executives' named beneficiaries.

Retirement Benefits - The executive & compensation committee considers various benefits, including retirement benefits, in determining compensation. The primary retirement vehicle is the company's 401(k) plan. The 401(k) plan holds a safe harbor status and allows eligible participants to defer compensation up to annual IRS limits. In 2008, all eligible participants received a safe harbor contribution equal to 3% of their total eligible compensation regardless of whether and to what extent salary deferrals were elected.

13.

Company executives participate in retirement plan programs in a manner consistent with plan provisions covering other employees. Currently, the company does not provide executives with any supplemental executive retirement plan benefits.

Perquisites - Executive officers may have a limited number of perquisites made available to them. The main perquisites that may be offered are country club memberships, reimbursement of business expenses and employment or change-in-control agreements. In March of 2008, the company stopped paying country club dues for executives. Modest one-time base salary adjustments were made to offset this loss of benefits for covered executives. A detailed explanation of employment agreements is provided in the section designated as Employment Agreements and Other Arrangements.

Group Insurance Benefits - The company offers a comprehensive employee benefits package for all eligible employees which includes group health, dental, vision, life, dependent life, short and long-term disability insurance and a flexible spending account plan. Executive officers are afforded the same participation and rewards terms as all other eligible staff.

Total Rewards - The company considers compensation a single package consisting of the parts described in this statement. When viewed in this manner, the organization is positioned to: 1) establish specific goals for each form of compensation, 2) project funding requirements consistent with the company's business strategies, and 3) administer the program with predetermined goals as a guide. Assuming strategic goals are met, the combined total rewards would be expected to be comparable to similarly sized banks within the company's market area.

Tarp Related Compensation Matters

In connection with the company's participation in January 2009 in the U.S. Department of Treasury's Troubled Asset Relief Program Capital Purchase Program (the "TARP Program"), the executive & compensation committee is required to identify the features in the company's incentive compensation arrangements that could encourage its senior executive officers to take unnecessary and excessive risks that could threaten the value of the company. The committee is required to review the company's incentive compensation arrangements to ensure that senior executive officers are not encouraged to take such risks. The committee must also meet at least annually with the company's senior risk officers to discuss and review the relationship between the company's risk management policies and practices and its incentive compensation arrangements. The committee began this

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

dialogue with the company's senior risk officers in January of 2009.

In order to further assist the executive & compensation committee in ensuring that all compensation matters as they relate to TARP were properly addressed, management formed a task force consisting of: the executive management team, the senior risk management team and finance. A checklist of action items, along with responsible parties and due dates, was developed. The company's legal counsel reviewed the document to ensure that all critical items were being addressed and was called upon periodically throughout the process to provide clarification and guidance on TARP's mandates, as well as best practices, as they relate to compensation. After analyzing various company practices and procedures as they relate to compensation risk, the senior risk managers concluded that the compensation plan arrangements do not encourage unnecessary and excessive risks that threaten the value of Centrue Financial Corporation. The collective group provided the executive & compensation committee with its findings, observations and recommendations and served as a resource for the committee during its certification exercises.

During the period that the U.S. Treasury holds the company's preferred or common stock, the company may be restricted from paying bonus and other incentive compensation in cash to the company's executive officers.

Edgar Filing: CENTRUE FINANCIAL CORP - Form PRE 14A

named in the compensation table:

Thomas A. Daiber and Kurt R. Stevenson

The post-merger Centrue entered into employment agreements with Thomas A. Daiber and Kurt R. Stevenson on June 30, 2006. Except as described below, each agreement is substantially identical. Initially the agreements are effective for a three-year term. On the second anniversary of the agreements' effective date, the term was extended an additional day so that the term is always one year, unless either party gives written notice of non-renewal to the other party.

The agreement for Mr. Daiber provides for an annual base salary of not less than \$290,000. Additionally, Mr. Daiber will have the opportunity to receive an annual performance bonus of up to 50% of his base salary. The agreement also provided for the award of incentive stock options to Mr. Daiber, and on July 7, 2006 Mr. Daiber was awarded options to purchase equal to 12,500 shares of Centrue stock after the merger. Mr. Daiber is entitled to not less than twenty-three days of paid time off as well as benefits at least as favorable to the benefits provided to all other employees.

The agreement for Mr. Stevenson provides for an annual base salary of not less than \$170,000. Additionally, Mr. Stevenson will have the opportunity to receive an annual performance bonus of up to 30% of his base salary. Mr. Stevenson is entitled to not less than twenty-three days of paid time off as well as benefits at least as favorable to the benefits provided to all other employees.

The employment agreements include customary provisions prohibiting the executive from competing and other activities that would be harmful to the company. Payments under the employment agreements will be reduced to the extent necessary to prevent any portion of the payments from being treated as a nondeductible excess parachute payment under the federal tax laws.

Both executives signed non-material contract amendments in December 2008 to address Internal Revenue Code Section 409A compliance matters for 2009.

Donald M. Davis

On October 5, 2007, the company entered into an employment agreement with Donald M. Davis. Initially the agreement is effective for a four-year term. Compensation of the Chief Executive Officer

Thomas A. Daiber

During 2008, Thomas A. Daiber served as the chief executive officer of Centrue Financial Corporation. The board of directors approved Mr. Daiber's 2008 salary of \$325,000 as part of the company's customary annual review of all salaries. 17.

Since the corporate threshold of \$1.91 earnings per share was not met, Mr. Daiber received no bonus for year 2008 performance.

In an effort to provide incentive toward achievement of the company's long-term objectives and further promote ownership of the senior management team, Mr. Daiber received a grant of 20,000 stock options in February 2008.

Mr. Daiber was eligible for participation in all company-sponsored benefits programs in 2008, including the company's group health/dental/vision coverage, group-term life insurance coverage, and company-sponsored retirement programs including the Centruet Financial Corporation 401(k) and Profit Sharing Plan.

Mr. Daiber did not receive any compensation associated with a car allowance or country club dues.

The compensation and benefits package for 2008 for Mr. Daiber was approved by the company's board of directors and was commensurate with his knowledge, skills and abilities, as supported by his professional experience and accomplishments, as well as the Board's belief in his ability to successfully lead the organization. The executive & compensation committee has reviewed all components of the total compensation package of the chief executive officer and the other named executive officers in this proxy statement and believes them to be reasonable and not excessive.

Annually, the executive & compensation committee evaluates four primary areas of performance in determining the chief executive officer's level of compensation. Changes to the base salary, cash bonus, long-term rewards and other benefits of the chief executive officer are based on:

- o long-range strategic planning and implementation;
- o the company's financial performance;
- o compliance with regulatory requirements and relations with regulatory agencies; and
- o the individual's effectiveness of managing relationships with stockholders and the board of directors.

When evaluating the company's financial performance, the executive & compensation committee considers profitability, asset growth, asset quality and risk management. The primary evaluation criteria are considered to be essential to our long-term viability and are given equal weight in the evaluation. Finally, the executive & compensation committee reviews compensation packages of peer institutions, as well as compensation surveys provided by independent third parties, to ensure that the chief executive officer's compensation is competitive and commensurate with his level of performance.

The audit committee, after consideration of the matter, does not believe that the rendering of these services by Crowe Horwath LLP to be incompatible with maintaining its independence as our principal accountant. In accordance with Section 10A(i) of the Exchange Act, before Crowe Horwath LLP is engaged by us to render audit or non-audit services, the engagement is approved by our audit committee.
