Notes to the financial statements

For the six months ended June 30, 2005

(Unaudited- expressed in US dollars)

1. BASIS OF PRESENTATION AND GOING CONCERN

The accompanying unaudited financial statements have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (SEC) and, in the opinion of management, include all adjustments (consisting of normal recurring accruals) necessary for fair presentation of financial position, results of operations and cash flows for the interim periods. Certain information and footnote disclosures normally included in financial statements prepared in accordance with United States generally accepted accounting principles have been condensed or omitted pursuant to the rules and regulations of the SEC. The Company believes that the disclosures contained herein are adequate to make the information presented not misleading. The statements of operations for the six months ended June 30, 2005 are not necessarily indicative of the results to be expected for the full year. These unaudited financial statements should be read in conjunction with the audited financial statements and accompanying notes included in the Company's 2004 Annual Report on Form 10-KSB for the year ended December 31, 2004.

As of June 30, 2005, the Company has not reached a level of operations which would finance day-to day activities. These financial statements have been prepared on the assumption that the Company is a going concern, meaning it will continue in operation for the foreseeable future and will be able to realize assets and discharge liabilities in the ordinary course of operations. Different bases of measurement may be appropriate when a company is not expected to continue operations for the foreseeable future. The Company's continuation as a going concern is dependent upon its ability to attain profitable operations and generate funds therefrom and/or raise equity capital or borrowings sufficient to meet current and future obligations. The Company incurred losses from operations of \$24,092 and \$21,100 for the six month periods ended June 30, 2005 and 2004 respectively. The Company had working capital deficiencies of \$317,702 as of June 30, 2005 and \$319,090 as of December 31, 2004. These conditions give rise to substantial doubt about the Company's ability to continue as a going concern.

2.

SHARE CAPITAL

The Company received \$25,000 during the prior quarter which was originally entered into as a promissory note financing. This was subsequently amended to become part of a private placement for a total of 1,500,000 Units (comprised of one share of common stock and one share purchase warrant) at \$0.05 for total proceeds of \$75,000. Each warrant is exercisable at \$0.10 per share, expiring three years after issuance.

The balance of \$50,000 was received in November, 2005, and the 1,500,000 shares of common stock were issued in December, 2005. The Company also issued 239,380 Units to a director in repayment of advances he had made to the Company, and these shares were also issued in December 2005.

4.

DEFERRED COMPENSATION

On March 5, 2004, the Company issued 465,000 shares of the Company's common stock, valued at \$0.12 per share, being the fair value at the time of issuance, totalling \$57,000 to the Company's directors and attorney for services provided. As of June 30, 2005, total fees and expenses charged to these shares was \$54,254 (June 30, 2004 - \$40,554). The balance of \$2,746 (June 30, 2004 - \$6,356) represents retainers paid for future services.

5.

COMPARATIVE FIGURES

Certain comparative figures have been reclassified to conform with the current quarter's presentation.

Item 2 Management Discussion and Analysis

(a) Liquidity

The Company is experiencing illiquidity and has been dependent upon shareholders and directors to provide funds to maintain its activities. At June 30, 2005, the balance of funds loaned by the shareholders amounted to \$33,004, which is included in accounts payable. In addition, two directors advanced \$15,152 to the Company, of which \$3,796 was repaid during the six-month period of 2005, leaving a balance owing to directors of \$11,356 which is included in accounts payable. There are no specific terms of repayment.

(b) Capital Resources

The Company had a working capital deficiency of \$317,702 at June 30, 2005. As noted above, the Company is receiving funding from shareholders and directors.

(c) Results of Operations

For the six-month period ended June 30, 2005, the Company incurred a net loss of \$24,092.

Administration expenses for the six-month period amounted to \$24,092 compared to \$21,100 in the same period of 2004. The higher loss in the 2005 period was principally due to a gain of \$366 on foreign exchange in the 2005 six month period, compared to a gain of \$2,800 in the 2004 period, due to fluctuations in exchange rates for expenses denominated in Canadian dollars.

The loss and administration expenses for the three months ended June 30, 2005 was \$9,880 compared to \$16,000 in the same three months of 2004. The 2004 year-end audited financial statements and 10KSB were completed and filed in late April, 2004, so that accounting, legal and other expenses related thereto were primarily recorded in the second quarter of 2004.

(d) Stock Options

During the 2005 six-month period, 3,000 stock options to purchase shares of the Company were cancelled. The Company currently has 800,000 stock options outstanding priced at \$0.15 with an expiry date of October 31, 2006.
