On December 28, 2012, the Company entered into a definitive agreement to sell its wholly owned subsidiary Carrizo UK Huntington Limited and all of its interest in the Huntington Field in the UK North Sea to a subsidiary of Iona Energy Inc. (TSX-V: INA) for cash consideration of \$184.0 million. The Company intends to use the net proceeds from this sale to retire and close its U.K. Huntington Field development project credit facility, fund a portion of our 2013 capital investment needs and for other general corporate purposes.

The definitive agreement contains customary representations and warranties, including, ownership of the assets being purchased, compliance with laws, including environmental laws, and payment of taxes, and indemnification provisions under which the parties thereto have agreed to indemnify each other against certain liabilities. During the period following signing of the definitive agreement until the closing, the Company has agreed to operate the assets being purchased according to the guidelines in the definitive agreement.

The sale is expected to close on or before the end of January, subject to customary closing conditions and purchase price adjustments. There can be no assurance as to such timing or that all of the conditions to closing the sale will be satisfied.

Although the Company believes that its expectations are based on reasonable assumptions, it can give no assurance that these expectations will prove correct. Important factors that could cause actual results to differ materially from those in the forward-looking statements include purchase price adjustments, failure of closing conditions, actions by the purchaser, actions by banks, results of wells and production testing, performance of rig operators and gathering systems, actions by governmental authorities, joint venture partners, industry partners, lenders and other third parties, market and other conditions, availability of well connects, capital needs and uses, commodity price changes, effects of the global economy on exploration activity, results of and dependence on exploratory drilling activities, operating risks, right-of-way and other land issues, availability of capital and equipment, weather, and other risks described in the Company's Form 10-K for the year ended December 31, 2011 and its other filings with the Securities and Exchange Commission.
