#### 2008-2010 Performance Period Under the Long Term Performance Share Unit Program

On March 18, 2008, the Compensation Committee of our Board of Directors established the 2008-2010 performance measures for the Long Term Performance Share Unit program ("PSU Program"), which is a program under our 2004 Omnibus Incentive Compensation Plan.

The structure and terms of the PSU Program were not amended: The Committee establishes target awards of Performance Share Units ("PSUs") at the beginning of each three-year performance period. Participants, who include our Named Executive Officers ("NEOs"), are assigned individual target opportunities for PSU Program payouts and receive payouts in the form of common stock at the end of the performance period, in an amount dependent on the degree to which the assigned targets were achieved. Participants can earn from 0 percent to 200 percent of their target PSU award depending on whether the Company's performance is below target or above target, respectively.

The performance goals and weight factors applicable to the NEOs under the 2008-2010 PSU Program performance period differ from prior years' and are as follows:

- Achievement of Revenue, 30% weighting
- Achievement of Diluted Earnings per Share from continuing operations, 70% weighting.

The achievement of each goal shall be separately determined as a percentage of target as of the end of each fiscal year in the performance period. The total payout for the performance period will be based on the three-year average of results under the applicable goal.
