PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

May 31, 2002

This Proxy Statement is furnished by the Board of Directors (the "Board") of CSG Systems International, Inc. (the "Company") in connection with the Board's solicitation of proxies for use at the annual meeting of stockholders of the Company (the "Annual Meeting") to be held at the office of the Company, 7887 East Belleview Avenue, Suite 1000, Englewood, Colorado, on Friday, May 31, 2002, at 8:30 a.m., and at any adjournments of the Annual Meeting. All proxies will be voted in accordance with the instructions contained therein; if no choice is specified, the proxies will be voted in favor of the director nominees named in this Proxy Statement. A stockholder may revoke a proxy at any time before it is exercised either by giving written notice to that effect to the Secretary of the Company, by delivering to the Company a duly executed proxy bearing a later date or by attending the Annual Meeting and voting in person.

The Board fixed the close of business on April 2, 2002, as the record date for determining the stockholders of the Company who are entitled to notice of and to vote at the Annual Meeting. At the close of business on April 2, 2002, there were outstanding and entitled to vote at the Annual Meeting 52,668,841 shares of Common Stock of the Company, par value \$.01 per share ("Common Stock"). Each share is entitled to one vote.

The Company will bear all costs of this solicitation of proxies. In addition to solicitations by mail, the Company's directors, officers and regular employees, without additional remuneration, and their appointed agents may solicit proxies in person or by telephone, e-mail, facsimile or other means. The Company will request brokers, custodians and fiduciaries to forward proxy soliciting material to the owners of stock held in their names. The Company will reimburse banks and brokers for their reasonable out-of-pocket expenses incurred in connection with the distribution of proxy material.

The Company is mailing its Annual Report to stockholders for the year ended December 31, 2001, with this Proxy Statement and the accompanying proxy on or about April 12, 2002.

Quorum and Votes Required

A majority of the shares of Common Stock outstanding on the record date is required to be present or represented by proxy at the Annual Meeting in order to have the quorum necessary to take action at the Annual Meeting. Assuming that a quorum is present at the Annual Meeting, the two nominees for election as Class II directors who receive the greatest number of votes cast in the election of directors will be elected as Class II directors.

Votes cast in person or by proxy at the Annual Meeting will be tabulated by the inspector appointed for the Annual Meeting. The inspector will treat abstentions as Common Stock that is present and entitled to vote for purposes of determining the presence of a quorum but as not voted for purposes of determining the approval of any matter submitted to stockholders for a vote. Abstentions will have no effect in the election of directors but will have the effect of a "no" vote with respect to any other matters voted upon. If a broker indicates on a proxy that such broker does not have discretionary authority to vote on a particular matter as to certain shares of Common Stock, then such shares will not be counted in determining the number of votes required for approval of such matter; however, such "broker non-votes" will be counted for purposes of determining whether a quorum is present at the Annual Meeting.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's officers (as defined in the applicable regulations) and directors, and persons who beneficially own more than 10% of a class of the Company's equity securities registered under such Act, to file certain reports of ownership and changes of ownership of the Company's equity securities with the SEC. Officers, directors and more than 10% stockholders are required by SEC regulation to furnish to the Company copies of all Section 16(a) forms which they file.

Based solely on its review of the copies of such forms submitted to it, or written representations from certain reporting persons that no Form 5 was required for those persons, the Company believes that all filing requirements applicable to its officers and directors were complied with for the year ended December 31, 2001.

Director Compensation

Each non-employee director of the Company is entitled to receive the following compensation: (i) \$2,500 for each meeting of the Board attended in person, (ii) \$500 for each meeting of the Board attended by conference telephone call or its equivalent and (iii) \$500 for each meeting of a committee of the Board attended in person or by conference telephone call or its equivalent. Directors who are officers or employees of the Company do not receive additional compensation for serving as a director or committee member. The Company also has a Stock Option Plan for Non-Employee Directors (the Directors Plan) which was approved at the 1997 annual meeting of stockholders. During the year ended December 31, 2001, the Board granted an option under the Directors Plan to Mr. Sica to purchase 24,000 shares of Common Stock at a price per share equal to the last sale price of the Common Stock as quoted on the Nasdaq National Market System on the date of the grant. Such option becomes exercisable in three equal installments on the first, second and third anniversaries of the grant date if Mr. Sica is then a member of the Board and will expire ten years after the date of the grant if not sooner exercised. If Mr. Sica ceases to be a member of the Board before fully exercising such option, then various provisions of the Plan relating to such an event will govern the continuing exercisability of such option.

The following table sets forth information with respect to the compensation paid by the Company to its chief executive officer and to each of its other four most highly compensated executive officers for services rendered during 2001. The numbers of stock options awarded for 1999 have been adjusted to reflect a 2-for-1 stock split which became effective through the payment of a 100% stock dividend in March 1999.

- All options were granted pursuant to the Company's 1996 Stock Incentive Plan. Except as indicated in footnote (4), one-fourth of each option becomes exercisable on the first anniversary of the grant date and an additional one-fourth becomes exercisable on each of the second through the fourth anniversaries thereafter.
- The exercise price is the closing market price on the date the option was granted.
- Grant date present value is determined using a modified Black-Scholes option pricing model. The estimated value under the model is based on several assumptions, including an expected volatility factor of 50%, a weighted-average risk-free rate of return of 4.84%, no dividend yield and an expected option life of 5.68 years, and may not be indicative of actual value. The actual gain, if any, that the option holder may realize will depend on the excess of the actual market price of the stock over the exercise price on the date the option is exercised. There is no assurance that the value that may be realized by the option holder will be at or near the value estimated by the modified Black-Scholes model.
- This option becomes exercisable as to 76,000, 101,333, 101,333 and 101,334 shares on December 14, 2002, 2003, 2004 and 2005, respectively. The exercisability of this option will be accelerated upon the occurrence of certain change of control events specified in the option agreement.

- (2) In-the-Money Options are options outstanding at the end of 2001 for which the fair market value of the Common Stock at the end of 2001 (closing price of \$40.45 per share on December 31, 2001) exceeded the exercise price of the options.

Employment Agreements

Mr. Hansen

Mr. Hansen currently is employed by the Company pursuant to an employment agreement entered into in November 1998 (the Agreement). The initial term of the Agreement was from November 17, 1998, through December 31, 2001. On December 31 of each year during its term, the term of the Agreement automatically is extended by one year unless, not later than one year prior to a particular December 31, either the Company or Mr. Hansen notifies the other that such extension shall not occur, in which case the Agreement will terminate at the end of its then remaining term. The current expiration date of the Agreement is December 31, 2004.

The Agreement provides for Mr. Hansen to receive an annual base salary of not less than \$400,000 (with annual Consumer Price Index (CPI) adjustments). Mr. Hansen also has the opportunity under the Agreement to earn an annual incentive bonus of not less than 65% of his base salary if the objectives established annually by the Board are fully achieved. The Agreement also provides certain group insurance coverages, an automobile allowance, certain expenses of club membership, the right to personal use of the Company's aircraft and various other benefits to Mr. Hansen.

The Agreement will terminate upon Mr. Hansen's death, and the Company may terminate the Agreement in the event of Mr. Hansen's disability for a continuous period of more than six months or for more than 180 days in the aggregate during any 12-month period. The Company also may terminate the Agreement for cause, as defined in the Agreement. In the cases of death or disability, Mr. Hansen (or his estate) would be entitled to receive his base salary through the termination date and a pro rata portion of his annual incentive bonus for the year of termination. In the case of termination for cause, Mr. Hansen is not entitled to receive any portion of his incentive bonus for the year of termination.

If the Company terminates Mr. Hansen's employment without cause prior to a change of control of the Company, then Mr. Hansen is entitled to continue to receive his base salary for the remaining term of the Agreement (less compensation received from other employment), his full incentive bonus for the year of termination (payable at the regularly scheduled time) and an additional amount equal to 195% of his base salary in effect at the time of the termination (the latter amount being payable 50% one year after the termination and 50% two years after the termination). If the Company terminates Mr. Hansen's employment without cause after a change of control of the Company, then he is entitled to receive the amounts referred to in the preceding sentence, but the payment times generally are accelerated to 30 days after the effective date of the termination. Change of Control is defined in the Agreement and includes among other events various types of mergers, dissolutions or changes in ownership of the Company or its principal operating subsidiary, certain acquisitions of significant amounts of the voting stock of the Company and certain changes in the composition of the Board.

If the Company or a permitted successor to the Company materially alters Mr. Hansen's duties and responsibilities under the Agreement or assigns to Mr. Hansen duties and responsibilities inappropriate to the chief executive officer of the Company without Mr. Hansen's consent, then Mr. Hansen may resign from his offices and positions with the Company (without further obligation to perform any services) and will be entitled to receive the compensation described in the applicable sentence of the preceding paragraph, depending upon whether such event occurs before or after a change of control of the Company.

If any payments made to Mr. Hansen under the preceding two paragraphs cause Mr. Hansen to be subject to excise taxes on excess parachute payments under the Internal Revenue Code, then the Company is obligated to reimburse Mr. Hansen for such excise taxes and for any additional income, excise or other taxes which he incurs as a result of such reimbursements.

If Mr. Hansen voluntarily resigns prior to the expiration of the Agreement, he is entitled to receive only his base salary through the termination date (unless the termination date is December 31, in which case he also is entitled to receive his incentive bonus for the year of termination.)

The Agreement also contains provisions which prohibit Mr. Hansen from competing with the Company or soliciting the Company's employees for a period of one year after the termination of his employment for any reason.

Mr. Pogge

In November 1998, the Company entered into an employment agreement with Mr. Pogge, which generally is similar to Mr. Hansen's agreement, except that Mr. Pogge's minimum annual base salary is \$290,000 (with CPI adjustments), his annual incentive bonus target is 60% of his base salary and his additional payment in the event of termination without cause is an amount equal to 180% of his base salary, and the agreement does not provide for personal use of the Company's aircraft. The current expiration date of Mr. Pogge's agreement is December 31, 2004.

Messrs. Nafus, Abramson and Kalan

In November 1998, August 2000 and January 2001, the Company entered into employment agreements with Messrs. Nafus, Abramson and Kalan, respectively. The agreements currently cover the period from January 1, 2002, through December 31, 2003, and provide for automatic one-year extensions (similar to Mr. Hansen's). Mr. Nafus's agreement provides for a minimum annual base salary of \$262,500 (with CPI adjustments), an annual incentive bonus target of 55% of his base salary and various group insurance coverages. Mr. Abramson's agreement provides for a minimum annual base salary of \$300,000 (with CPI adjustments), an annual incentive bonus target of 55% of his base salary and various group insurance coverages. Mr. Kalan's agreement provides for a minimum annual base salary of \$225,000, an annual incentive bonus target of 50% of his base salary and various group insurance coverages. The provisions of these agreements in the cases of termination for death, disability or cause are the same as in Mr. Hansen's agreement. If the Company terminates the employment of Mr. Nafus, Mr. Abramson or Mr. Kalan without cause prior to a change of control of the Company, then the Company must continue to pay such person's base salary for one year after the termination (less compensation received from another employer) and also must pay such person's annual incentive bonus for the year of termination and an additional amount equal to 55% (in the case of Mr. Nafus and Mr. Abramson) or 50% (in the case of Mr. Kalan) of such person's base salary (payable one year after the termination); Mr. Abramson's employment with the Company will terminate on June 30, 2002, and he will receive severance payments substantially in accordance with the preceding provisions of this sentence. If the termination without cause occurs after a change of control, then the Company must pay (within 30 days after the termination) the person's base salary for two years, the annual incentive bonus for the year of termination and an additional amount equal to 110% (in the case of Mr. Nafus and Mr. Abramson) or 100% (in the case of Mr. Kalan) of such person's base salary. The provisions of these agreements relating to a constructive termination require that the employee give notice to the Company of a claimed constructive termination, and the Company then has an opportunity to take appropriate actions to remove the basis for such claim. Other provisions of these agreements generally are similar to those contained in Mr. Hansen's agreement.

**REPORT OF THE COMPENSATION COMMITTEE
ON EXECUTIVE COMPENSATION**

The Compensation Committee of the Board of Directors (the "Committee"), consisting entirely of non-employee directors, provides oversight with respect to the compensation and benefits policies, plans and programs of the Company for the executive management of the Company and its subsidiaries and, to the extent not otherwise determined by contract or formal plan, reviews and recommends to the Board salaries, bonuses and other benefits and compensation for the executive officers of the Company. The Committee currently is composed of Messrs. Sica (Chairman), Holland and Reznicek.

Compensation Philosophy

The Company's executive compensation program is premised on the belief that the interests of executives should be closely aligned with those of the Company's stockholders and is designed to attract, retain, motivate and appropriately reward individuals who are responsible for both short-term and long-term profitability and growth of the Company. Based on this philosophy, a significant portion of each executive's total compensation is placed at-risk and linked to the accomplishment of specific Company and individual financial, strategic and other performance objectives, as well as to potential appreciation in the value of the Common Stock.

Compensation Program

Each year we review the Company's overall executive compensation program. Such review includes consideration of compensation programs adopted by competing companies and by other employers likely to recruit executives with skill sets similar to those which the Company regularly seeks. At our request, the Company engages an independent compensation consulting firm to prepare a comprehensive formal assessment of the competitiveness of the Company's executive compensation and compares the several components of the Company's executive compensation program with those of other publicly owned technology companies.

We annually review and recommend to the Board the compensation of the executive officers of the Company, including the Chief Executive Officer, whose compensation is presented in detail earlier in this Proxy Statement; and, in consultation with management of the Company, we establish the Company's policies with respect to its executive compensation program generally.

The key elements of the Company's executive compensation program consist of base annual salaries, performance bonuses and stock options.

Our approach to each of these elements, including the basis for the compensation paid to Mr. Hansen, are discussed below.

Base Annual Salaries

We initially determine base annual salaries for executive officers by evaluating the responsibilities of the position, the experience and knowledge of the individual and the scope and complexity of the executive's position relative to other senior management positions both internally and at a select group of other companies. We base our external comparison on the results of the report prepared by the Company's independent compensation consulting firm, and we take into consideration the compensation practices and programs of other companies which are likely to compete with the Company for the services of senior executive management personnel.

We determine annual base salary adjustments by evaluating both the position and the performance of each executive officer, taking into account any year-to-year changes in responsibilities and other relevant factors. Individual performance ratings are based in part on the executive's achievement of specific individual objectives. We also take into account CPI changes, although these have not been a significant consideration in recent years.

With respect to the base salary paid to Mr. Hansen in 2001, we took into account a comparison of base salaries of chief executive officers of peer companies, the Company's performance in 2000 and our assessment of Mr. Hansen's individual performance. Based upon this evaluation, we recommended to the Board and the Board approved an increase in Mr. Hansen's base salary by \$100,000 to \$650,000 for 2001.

Performance Bonuses

The Company maintains a Performance Bonus Plan (the "Bonus Plan"), which provides for the payment of performance bonuses to most management employees of the Company who do not receive sales commissions. Executive officers of the Company participate in the Bonus Plan, which is a pay-for-performance plan designed to compensate participants for achieving certain objectives established in the context of the Company's annual financial plan.

Annually, we review and recommend to the Board targeted levels and minimum threshold levels of Company performance with respect to key financial objectives affecting the executive officers' performance bonuses. For executive officers of the Company, the performance bonus objectives are based primarily upon revenue and earnings of the Company. The Company pays performance bonuses during the first quarter after the year in which they are earned. The Company's 2001 revenue and earnings on a combined basis satisfied the requirements for a full performance bonus payment, and the 2001 performance bonus payments to the Company's executive officers ranged from 50% of base salary to 65% of base salary, depending upon the applicable provision of the particular executive officer's employment agreement.

Mr. Hansen's performance bonus for 2001 was based on the Company's overall revenue and earnings. Mr. Hansen earned a performance bonus of \$422,500 for 2001, representing 65% of his 2001 base salary, based upon the levels of achievement of the applicable Company targets, as compared with a performance bonus of \$407,550 for 2000, which represented approximately 74% of his 2000 base salary.

The Company substantially increased the targeted levels of Company performance for 2001 over those for 2000 for purposes of the Bonus Plan.

Stock Options

The third component of executive officers' compensation is the Company's 1996 Stock Incentive Plan, pursuant to which the Company grants to its executive officers options to purchase shares of Common Stock. We are responsible for the administration of such plan and the granting of stock options to executive officers and other employees of the Company.

Stock options are designed to align the interests of executives with those of the Company's stockholders. Stock options are granted at an exercise price equal to the market price of the Common Stock on the date of grant, generally vest in equal installments over four or five years and are exercisable no later than ten years from the date of grant. This plan is designed to provide incentives for the creation of value for the Company's stockholders over the long term because the full benefit of an executive's compensation package cannot be realized unless stock price appreciation occurs and is maintained over a number of years.

During 2001 we made stock option grants to Mr. Hansen and to the other named executive officers of the Company as set forth in the table above under "Option Grants in 2001". The stock option grant which we made to Mr. Hansen in December 2001 covering 380,000 shares was the first part of a special grant to Mr. Hansen covering a total of 750,000 shares (the balance of which was made in January 2002). The purposes of such special grant were to recognize Mr. Hansen's contributions to the success of the Company and to provide a further incentive to Mr. Hansen to remain active in the senior executive management of the Company for at least the next several years.

Conclusion

Through the programs described above, we have based significant portions of the Company's executive compensation directly upon individual and Company performance and upon potential stock price appreciation. We presently intend to continue a policy of closely linking executive compensation to Company performance and stockholder return.

STOCK PRICE PERFORMANCE

INDEPENDENT PUBLIC ACCOUNTANTS

The firm of Arthur Andersen LLP served as the Company's independent public accountants for the year ended December 31, 2001, and, based upon the recommendation of the Audit Committee of the Board, on January 17, 2002, was selected by the Board to serve in such capacity for the current year ending December 31, 2002. Because of the subsequent criminal indictment of Arthur Andersen LLP and uncertainties as to such firm's continued existence and professional capabilities, the Audit Committee and Board intend to monitor the ability of such firm to competently and with appropriate continuity of personnel provide the audit services required by the Company in compliance with applicable professional standards. If it becomes appropriate to do so, the Board, upon the recommendation of the Audit Committee, will select other independent accountants to provide audit services to the Company for 2002.

The Company expects that a representative of Arthur Andersen LLP will be present at the Annual Meeting, with the opportunity to make a statement if he or she desires to do so, and that such representative will be available to respond to appropriate questions.

The Company has paid or expects to pay Arthur Andersen LLP the following fees in connection with the annual audit and quarterly reviews of the Company's financial statements for the year ended December 31, 2001, and for other audit-related and non-audit services provided to the Company during such year:

Audit Fees (1)	\$	121,295
Audit Related Fees (2)	\$	48,725
Financial Information Systems		
Design and Implementation Fees		None
All Other Fees (3)	\$	348,063

- (1) Audit Fees include fees for the Company's annual audit and quarterly reviews and for accounting consultation relating to such audit and reviews.
- (2) Audit Related Fees include fees for a statutory audit of a foreign subsidiary, an audit of an employee benefit plan and internal audit services.
- (3) All Other Fees include fees for domestic and foreign corporate tax services and financial services for certain key employees.

The Audit Committee of the Board has considered whether the provision by Arthur Andersen LLP of the non-audit services for which the fees (other than Audit Fees) listed above were paid is compatible with maintaining the independence of such accountants.

REPORT OF THE AUDIT COMMITTEE

A written charter for the Audit Committee was adopted by the Board in April 2000. The complete text of the Company's Audit Committee Charter appeared as an appendix to the Proxy Statement for the Company's 2001 annual meeting of stockholders.

The purpose of the Audit Committee, as set forth in its charter, is to assist the Board in monitoring (1) the quality and integrity of the Company's financial statements, (2) the Company's compliance with legal and regulatory requirements relating to the Company's financial reporting practices and processes and (3) the independence and performance of the Company's independent auditors.

We have implemented procedures to assure that the Audit Committee performs each of its responsibilities under the charter. During the year ended December 31, 2001, and thereafter through the completion of the audit of the Company's financial statements for such year, those procedures included regular meetings with management of the Company and with appropriate representatives of the Company's independent public accountants.

We reviewed and discussed both with management of the Company and with the Company's independent public accountants, Arthur Andersen LLP, the Company's audited financial statements for the year ended December 31, 2001.

We also discussed with Arthur Andersen LLP the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as amended.

We received the written disclosures and the letter from Arthur Andersen LLP required by Independence Standards Board Standard No. 1, *Independence Discussions with Audit Committees*, and discussed with Arthur Andersen LLP its independence.

Based upon the reviews and discussions referred to in the immediately preceding three paragraphs of this report, we recommended to the Board that the audited financial statements of the Company for the year ended December 31, 2001, be included in the Company's Annual Report on Form 10-K for such year for filing with the Securities and Exchange Commission.

OTHER MATTERS

Because no stockholder has given the Company timely written notice of business not discussed in this Proxy Statement which such stockholder intends to bring before the Annual Meeting, under the bylaws of the Company no stockholder may properly bring any other business before the Annual Meeting. As of the date of this Proxy Statement, the Company does not know of any matter that may come before the Annual Meeting other than the matters discussed in this Proxy Statement; however, if any other matter is properly presented at the Annual Meeting, the persons named in the accompanying proxy or their substitutes will have discretionary authority to vote on such matter in accordance with their judgment.

DEADLINE FOR SUBMISSION OF STOCKHOLDER PROPOSALS

Under the bylaws of the Company, a stockholder who wishes to bring any business before the 2003 annual meeting of stockholders of the Company must give advance written notice to the Company of such business and of any proposal which such stockholder wishes to have included in the Company's proxy statement and on the Company's proxy card for such annual meeting. The notice must be sent to the Secretary of the Company at the principal executive office of the Company, must be received by the Secretary of the Company not later than December 13, 2002, and must contain certain information required by the bylaws of the Company. Such advance notice requirement applies to all matters even if a stockholder does not seek to include in the Company's proxy statement a proposal with respect to a particular matter.

The bylaws of the Company also provide that stockholder nominations of persons for election to the Board of Directors are subject to certain advance notice and informational requirements.

Copies of the Company's bylaws are available to stockholders upon request made to the Secretary of the Company at the address set forth on the first page of this Proxy Statement.

The bylaw requirements referred to above do not supersede the conditions and requirements established by the Securities and Exchange Commission for stockholder proposals to be included in the Company's proxy materials for a meeting of stockholders, and in that regard stockholders also must comply with the applicable requirements of Rule 14a-8 under the Securities Exchange Act of 1934.
