#### Tom Brown, Inc. Announces 2004 Guidance

**DENVER, December 18, 2003** Tom Brown, Inc. (NYSE: TBI) today announced its operational and financial guidance for 2004. The forward-looking guidance excludes the impact of potential property divestitures, property acquisitions or exploration drilling success.

Tom Brown's exploration and development capital expenditures (excluding acquisitions) for the full-year 2004 are projected to be in the range of \$250-\$300 million, which includes approximately 70%-80% for development activities and the remainder for leasing and exploration activities. Tom Brown expects cash flow to significantly exceed its stated capital spending. Cash flow in excess of the estimated capital spending program will be utilized to reduce debt, acquire properties or fund additional drilling activity.

## Edgar Filing: BROWN TOM INC /DE - Form 8-K

Based upon the anticipated range of capital spending, Tom Brown's full-year 2004 production is expected to total approximately 114-117 Bcfe (85% natural gas).

In 2004, we expect to increase production by approximately 20% over 2003 while keeping our capital spending well within our cash flow," commented Jim Lightner Chairman, CEO and President of Tom Brown, Inc.
