ING Prime Rate Trust

PORTFOLIO MANAGERS' REPORT

Dear Shareholders:

ING Prime Rate Trust (the "Trust") is a diversified, closed-end investment company that seeks to provide investors with as high a level of current income as is consistent with the preservation of capital. The Trust seeks to achieve this objective by investing in a professionally managed portfolio comprised primarily of senior loans.

PEFORMANCE SUMMARY

The Trust declared \$0.42 of dividends during the fiscal year ended February 29, 2004. Based on the average month-end net asset value ("NAV") per share of \$7.17, this resulted in an annualized distribution rate of 5.95%(1) for the year. The Trust's total return for the fiscal year, based on NAV, was 15.72%, versus a total return on the S&P/LSTA Leveraged Loan Index of 9.40% for the same period. The total market value return (based on full reinvestment of dividends) for the Trust's common shares during the fiscal year was 28.77%.

MARKET OVERVIEW

The non-investment grade loan market closed out the twelve-month period ended February 29, 2004 in robust fashion, driven by bullish investor sentiment and the continuation of several positive trends, both macroeconomic and specific to credit markets. Although sustained job creation still appears elusive at this point, revitalization of the U.S. economy has clearly taken hold, as evidenced by above-consensus gross domestic product numbers during recent quarters, and stronger than expected corporate earnings across many key industry sectors. Importantly, an improved economic outlook played a significant role in the effective re-opening of debt capital markets to a broader spectrum of non-investment grade borrowers. At the corporate level, although top-line revenue growth remains difficult to come by during this period of muted pricing power and intense global competition, in general, corporate executives continue to do the right things, I.E., lower production costs, improve productivity, and address liquidity concerns via renewed access to capital. These factors, taken as a whole, propelled the leveraged loan market to record returns during 2003 with continued momentum into the first quarter of 2004.

PORTFOLIO OVERVIEW

Against the backdrop of an increasingly strong loan market, we continued during the fiscal year to emphasize industries and individual loan positions that we believe offer value. Cable television and wireless communications finished out the fiscal year as the Trust's two largest industry sectors, primarily on the basis of offering attractive returns for the underlying risk. During the fiscal year, several of the Trust's larger individual holdings from these two sectors benefited from fundamental credit improvement. Specifically, Charter Communications Operating, LLC reported several quarters in which it met or exceeded analyst expectations, and in doing so, the third largest cable television provider in the U.S. has effectively regained access to much needed capital in order to address specific balance sheet issues. As a result, the price of the company's term loans have returned to near-par levels. Charter's resurgence also directly impacted, in a favorable manner, the loans of Adelphia Communications and its subsidiaries, the country's fifth largest cable operator. Although Adelphia continues to work through a very complex Chapter 11 bankruptcy proceeding, the market value of the company's debt obligations continues to point to a full recovery to lenders upon exit from bankruptcy. We continue to monitor this situation closely.

TOP TEN INDUSTRY SECTORS AS OF FEBRUARY 29, 2004 AS A PERCENTAGE OF:

	TOTAL ASSETS	NET ASSETS
	-----	-----
Cable Television	11.9%	20.0%
Cellular Communications	9.1%	15.2%
Healthcare, Education and Childcare	6.5%	11.0%
Printing and Publishing	6.4%	10.7%
Automobile	5.2%	8.7%
Chemicals, Plastics and Rubber	4.5%	7.5%

Containers, Packaging and Glass	4.0%	6.7%
Radio and TV Broadcasting	3.6%	6.0%
Leisure, Amusement, Entertainment	3.4%	5.7%

Similarly, Nextel Communications ("Nextel"), the bellwether issuer in the non-investment grade wireless sector, turned in a succession of very strong quarters during the period under review and, during the Trust's fourth fiscal quarter, refinanced it's sizeable credit facility at attractive borrowing rates. We took this opportunity to reduce the Trust's overall exposure to Nextel. As in the recent past, Nextel's operational strength and capital markets activity has provided a catalyst to improved sentiment across the overall wireless sector, historically one of the Trust's largest.

While we proactively manage the Trust's largest exposures, we continue to maintain a high level of diversification of the portfolio, across both issuer and industry lines. As of February 29, 2004, the average individual position accounted for approximately 0.26% of the Trust's total assets, as compared to

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

roughly 0.35% as of February 29, 2003. The average amount invested per industry was also reduced during the fiscal year, to approximately 2.47% of total assets, from 2.73% at the end of the year-ended February 28, 2003.

USE OF LEVERAGE

The Trust utilizes financial leverage to seek to increase the yield to the holders of common shares. As of February 29, 2004, the Trust had \$450 million of "Aaa/AAA(2)" rated cumulative auction rate preferred shares outstanding, and \$225 million of borrowings outstanding under \$525 million in available credit facilities. Total leverage, as a percentage of total assets (including preferred shares), was 39.88% at year end. The use of leverage for investment purposes increases both investment opportunity and investment risk.

OUTLOOK

As we move further into 2004, loan investors, when analyzing their options, will seek to balance the prospects of an improving domestic economy with a supply/demand picture still heavily in favor of loan issuers. On one hand, the current environment has distinctly impacted existing loan prices in a favorable manner. On the other, it has also ushered in a period of unprecedented spread tightening, and made uncovering value a difficult proposition. While there is likely little upside left in loan prices at this point, fortunately, absent any significant external economic or geopolitical shocks, the downside also appears limited, at least for the foreseeable future. Default levels continue to drift lower, and a generational low in corporate borrowing rates, combined with historically strong investor demand for higher-yielding investments, has enabled many corporations to shore up balance sheets and thereby improve cash flow. Over the next few months, all eyes will be on the Federal Reserve as it determines when it is appropriate to increase short-term interest rates. Given the ultra-short duration of floating rate loans, an upward move in short-term rates would prove positive for the Trust's distributable yield.

We thank you for your investment in ING Prime Rate Trust.

- (1) The distribution rate is calculated by annualizing dividends declared during the quarter and dividing the resulting annualized dividend by the Trust's average month-end net asset value (In the case of NAV) or the average month-end NYSE Composite closing price (in the case of Market). The distribution rate is based solely on the actual dividends and distributions, which are made at the discretion of management. The distribution rate may or may not include all investment income and ordinarily will not include capital gains or losses, if any.
- (2) Obligations rated Aaa by Moody's Investors Service are judged to be of the highest quality, with minimal credit risk. An obligator rated 'AAA' has extremely strong capacity to meet its financial commitments. 'AAA' is the highest Issuer Credit Rating assigned by Standard & Poor's.

INDEX DESCRIPTIONS

THE S&P/LSTA LEVERAGED LOAN INDEX ("LLI") is an unmanaged total return index that captures accrued interest, repayments, and market value changes. It represents a broad cross section of leveraged loans syndicated in the United States, including dollar-denominated loans to overseas issuers. Standard & Poor's and the Loan Syndications & Trading Association ("LSTA") conceived the LLI to establish a performance benchmark for the syndicated leveraged loan industry. An investor cannot invest directly in an index.

THE CREDIT SUISSE FIRST BOSTON LEVERAGED LOAN INDEX is an unmanaged index of below-investment-grade loans designed to mirror the investable universe of the U.S. dollar-denominated leveraged loan market. An investor cannot invest directly in an index.

- (1) Total investment return calculations are attributable to common shareholders.
- (2) Total investment return measures the change in the market value of your investment assuming reinvestment of dividends and capital gain distributions, if any, in accordance with the provisions of the dividend reinvestment plan.
- (3) Total investment return at net asset value has been calculated assuming a purchase at net asset value at the beginning of each period and a sale at net asset value at the end of each period and assumes reinvestment of dividends and capital gain distributions in accordance with the provisions of the dividend reinvestment plan. This calculation differs from total investment return because it excludes the effects of changes in the market values of the Trust's shares.
- (4) Asset coverage represents the total assets available for settlement of Preferred Stockholder's interest and notes payables in relation to the Preferred Shareholder interest and notes payable balance outstanding. The Preferred Shares were first offered November 2, 2000.

ING Prime Rate Trust

NOTES TO FINANCIAL STATEMENTS as of February 29, 2004

NOTE 1 -- ORGANIZATION

ING Prime Rate Trust (the "Trust"), a Massachusetts business trust, is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as a diversified, closed-end, investment management company. The Trust invests in senior loans which are exempt from registration under the Securities Act of 1933 as amended (the "33 Act"), but contain certain restrictions on resale and cannot be sold publicly. These loans bear interest (unless otherwise noted) at rates that float periodically at a margin above the Prime Rate of a U.S. bank specified in the credit agreement, the London Inter-Bank Offered Rate ("LIBOR"), the certificate of deposit rate, or in some cases another base lending rate. The following is a summary of the significant accounting policies consistently followed by the Trust in the preparation of its financial statements. The policies are in conformity with accounting principles generally accepted in the United States of America.

NOTE 2 -- SIGNIFICANT ACCOUNTING POLICIES

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

The following is a summary of the significant accounting policies consistently followed by the Fund in the preparation of its financial statements. The policies are in conformity with generally accepted accounting principles in the United States of America.

- A. SENIOR LOAN AND OTHER SECURITY VALUATION. Loans are normally valued at the mean of the means of one or more bid and asked quotations obtained from a pricing service or other sources determined by the Board of Trustees to be independent and believed to be reliable. Loans for which reliable market value quotations are not readily available may be valued with reference to another loan or a group of loans for which quotations are more readily available and whose characteristics are comparable to the loan being valued. Under this approach, the comparable loan or loans serve as a proxy for changes in value of the loan being valued. The Trust has engaged an independent pricing service to provide quotations from dealers in loans and to calculate values under the proxy procedure described above. As of February 29, 2004, 96.85% of total investments were valued based on these procedures. It is expected that most of the loans held by the Trust will be valued with reference to quotations from the independent pricing service or with reference to the proxy procedure described above.

Prices from a pricing source may not be available for all loans and ING Investments, LLC (the "Investment Manager") or Aeltus Investment Management, Inc. ("ING Aeltus" the "Sub-Adviser"), may believe that the price for a loan derived from market quotations or the proxy procedure described above is not reliable or accurate. Among other reasons, this may be the result of information about a particular loan or borrower known to the Investment Manager that the Investment Manager believes may not be known to the pricing service or reflected in a price quote. In this event, the loan is valued at fair value as determined in good faith under procedures established by the Trust's Board of Trustees and in accordance with the provisions of the 1940 Act. Under these procedures, fair value is determined by the Investment Manager and monitored by the Trust's Board of Trustees through its Valuation and Proxy Committee. In fair valuing a loan, consideration is given to several factors, which may include, among others, the following: (i) the characteristics of and fundamental analytical data relating to the loan, including the cost, size, current interest rate, period until the next interest rate reset, maturity and base lending rate of the loan, the terms and conditions of the loan and any related agreements, and the position of the loan in the borrower's debt structure; (ii) the nature, adequacy and value of the collateral, including the Trust's rights, remedies and interests with respect to the collateral; (iii) the creditworthiness of the borrower and the cash flow coverage of outstanding principal and interest, based on an evaluation of its financial condition, financial statements and information about the borrower's business, cash flows, capital structure and future prospects; (iv) information relating to the market for the loan, including price quotations for, and trading in, the loan and interests in similar loans; (v) the

reputation and financial condition of the agent for the loan and any intermediate participants in the loan; (vi) the borrower's management; and (vii) the general economic and market conditions affecting the fair value of the loan. Securities for which the primary market is a national securities exchange are valued at the last reported sale price. Securities reported by NASDAQ will be valued at NASDAQ official closing price. Debt and equity securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the mean between the last reported bid and asked price. Securities other than senior loans for which reliable quotations are not readily available and

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

all other assets will be valued at their respective fair values as determined in good faith by, and under procedures established by, the Board of Trustees of the Trust. Investments in securities maturing in less than 60 days from the date of acquisition are valued at amortized cost.

- B. FEDERAL INCOME TAXES. It is the Trust's policy to comply with subchapter M of the Internal Revenue Code and related excise tax provisions applicable to regulated investment companies and to distribute substantially all of its net investment income and net realized capital gains to its shareholders. Therefore, no federal income tax provision is required. No capital gain distributions shall be made until any capital loss carryforwards have been fully utilized or expire.
- C. SECURITY TRANSACTIONS AND REVENUE RECOGNITION. Loans are booked on a settlement date basis and security transactions are accounted for on trade date (date the order to buy or sell is executed). Realized gains or losses are reported on the basis of identified cost of securities sold. Dividend income is recognized on the ex-dividend date. Interest income is recorded on an accrual basis at the then-current interest rate of the loan. The accrual of interest on loans is discontinued when, in the opinion of management, there is an indication that the borrower may be unable to meet payments as they become due. Upon such discontinuance, all unpaid accrued interest is reversed. Cash collections on nonaccrual senior loans are generally applied as a reduction to the recorded investment of the loan. Senior loans are returned to accrual status only after all past due amounts have been received. For all loans acquired prior to March 1, 2001, arrangement fees received, which represent non-refundable fees associated with the acquisition of loans are deferred and recognized over the shorter of 2.5 years or the actual terms of the loan. For all loans, except revolving credit facilities, acquired subsequent to February 28, 2001, fees received are treated as discounts and accreted as described in Note 2.H. Fees associated with revolving credit facilities acquired subsequent to February 28, 2001 are deferred and recognized over the shorter of four years or the actual term of the loan.
- D. DISTRIBUTIONS TO COMMON SHAREHOLDERS. The Trust declares dividends monthly for net investment income. Distributions from capital gains, if any, are declared and paid annually. The Trust may make additional distributions to comply with the distribution requirements of the Internal Revenue Code. The character and amounts of income and gains to be distributed are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America for investment companies. Dividends paid by the Trust from net investment income and distributions of net realized short-term capital gains are, for federal income tax purposes, taxable as ordinary income to shareholders. The Trust records distributions to its shareholders on the ex-dividend date.
- E. DIVIDEND REINVESTMENTS. Pursuant to the Shareholder Investment Program (formerly known as the Automatic Dividend Reinvestment Plan), DST Systems, Inc., the Plan Agent, purchases, from time to time, shares of beneficial interest of the Trust on the open market to satisfy dividend reinvestments. Such shares are purchased only when the closing sale or bid price plus commission is less than the net asset value per share of the stock on the valuation date. If the

market price plus commissions is equal to or exceeds the net asset value, new shares are issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

5%.

- F. USE OF ESTIMATES. Management of the Trust has made certain estimates and assumptions relating to the reporting of assets, liabilities, revenues, expenses and contingencies to prepare these financial statements in conformity with generally accepted accounting principles in the United States of America. Actual results could differ from these estimates.
- G. SHARE OFFERINGS. During the year ended February 28, 1999, the Trust began issuing shares under various shelf registration statements, whereby the net proceeds received by the Trust from share sales may not be less than the greater of (i) the NAV per share or (ii) 94% of the average daily market price over the relevant pricing period.
- H. CHANGE IN ACCOUNTING PRINCIPLE. In November 2000 the American Institute of Certified Public Accountants (the "AICPA") issued a revised version of the AICPA Audit and Accounting Guide for Investment Companies (the "Guide"). Effective March 1, 2001, the Fund adopted the provisions of the Guide and began amortizing premiums and accreting discounts on debt securities. Prior to March 1, 2001, the Trust had not amortized premiums nor accreted discounts. The cumulative effect of this accounting change had no impact on net assets of the Trust, but resulted in a \$3,653,000 increase in the cost of securities and a corresponding \$3,653,000 increase in net unrealized depreciation of investments, based on securities held by the Trust on March 1, 2001.

NOTE 3 -- INVESTMENTS

For the year ended February 29, 2004, the cost of purchases and the proceeds from principal repayment and sales of investments, excluding short-term notes, totaled \$1,411,276,175 and \$1,354,283,285, respectively. At February 29, 2004, the Trust held senior loans valued at \$1,632,623,334 representing 97.1% of its total investments. The market value of these assets is established as set forth in Note 2.

The senior loans acquired by the Trust may take the form of a direct lending relationship with the borrower, or an assignment of a lender's interest in a loan. The lead lender in a typical corporate loan syndicate administers the loan and monitors collateral. In the event that the lead lender becomes insolvent, enters FDIC receivership or, if not FDIC insured, enters into bankruptcy, the Trust may incur certain costs and delays in realizing payment, or may suffer a loss of principal and/or interest.

Common and preferred shares, and stock purchase warrants held in the portfolio were acquired in conjunction with loans held by the Trust. Certain of these stocks and warrants are restricted and may not be publicly sold without registration under the '33 Act, or without an exemption under the '33 Act. In some cases, these restrictions expire after a designated period of time after issuance of the shares or warrant.

The Investment Manager entered into a subadvisory agreement with ING Aeltus, a wholly owned subsidiary of ING Groep N.V. effective August 19, 2003. Borrowing rates under these agreements are based on a fixed spread over LIBOR, the federal funds rate, or a commercial paper-based rate. Prepaid arrangement fees for these facilities are amortized over the term of the agreements. The amount of borrowings outstanding at February 29, 2004, was \$225 million. Weighted average interest rate on outstanding borrowings was 1.49%, excluding fees related to the unused portion of the facilities, and other fees. Preferred Shares pay dividends based on a rate set at auctions, normally held every 7 days. In most instances dividends are also payable every 7 days, on the first business day following the end of the rate period.

NOTE 8 -- CUSTODIAL AGREEMENT

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

State Street Bank and Trust Company ("SSB") serves as the Trust's custodian and recordkeeper. Custody fees paid to SSB are reduced by earnings credits based on the cash balances held by SSB for the Trust. There were no earnings credits for the year ended February 29, 2004.

NOTE 9 -- SUBORDINATED LOANS AND UNSECURED LOANS

The primary risk arising from investing in subordinated loans or in unsecured loans is the potential loss in the event of default by the issuer of the loans. The Trust may acquire a subordinated loan only if, at the time of acquisition, it acquires or holds a Senior Loan from the same borrower. The Trust will acquire unsecured loans only where the Investment Manager believes, at the time of acquisition, that the Trust would have the right to payment upon default that is not subordinate to any other creditor. The Trust may invest up to 5% of its total assets, measured at the time of investment, in subordinated loans and unsecured loans. As of February 29, 2004, the Trust held 0.79% of its total assets in subordinated loans and unsecured loans.

NOTE 10 -- FEDERAL INCOME TAXES

The amount of distributions from net investment income and net realized capital gains are determined in accordance with federal income tax regulations, which may differ from accounting principles generally accepted in the United States of America for investment companies. These book/tax differences may be either temporary or permanent. Permanent differences are reclassified within the capital accounts based on their federal tax-basis treatment; temporary differences are not reclassified. Key differences include the treatment of short-term capital gains and wash sale deferrals. Distributions in excess of net investment income and/or net realized capital gains for tax purposes are reported as distributions of paid-in capital.

The following permanent tax differences have been reclassified as of February 29, 2004:

ADDITIONAL INFORMATION (Unaudited)

SHAREHOLDER INVESTMENT PROGRAM

The Trust offers a Shareholder Investment Program (the "Program," formerly known as the Dividend Reinvestment and Cash Purchase Plan) which allows holders of the Trust's common shares a simple way to reinvest dividends and capital gains distributions, if any, in additional common shares of the Trust. The Program also offers holders of the Trust's common shares the ability to make optional cash investments in any amount from \$100 to \$25,000 on a monthly basis. Amounts in excess of \$25,000 require prior approval of the Trust. DST Systems, Inc., the Trust's Transfer Agent, is the administrator for the Program.

For dividend reinvestment purposes, DST Systems, Inc. will purchase shares of the Trust on the open market when the market price plus estimated commissions is less than the net asset value on the valuation date. The Trust may issue new shares when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date. New shares may be issued at the greater of (i) net asset value or (ii) the market price of the shares during the pricing period, minus a discount of 5%.

For optional cash investments, shares will be purchased on the open market by the DST Systems, Inc. when the market price plus estimated commissions is less than the net asset value on the valuation date. New shares may be issued by the Trust when the market price plus estimated commissions is equal to or exceeds the net asset value on the valuation date.

There is no charge to participate in the Program. Participants may elect to discontinue participation in the Program at any time. Participants will share, on a pro-rata basis, in the fees or expenses of any shares acquired in the open market.

Participation in the Program is not automatic. If you would like to receive more information about the Program or if you desire to participate, please contact your broker or our Shareholder Services Department at (800) 992-0180.

- (e) (1) AUDIT COMMITTEE PRE-APPROVAL POLICIES AND PROCEDURES

MODEL AUDIT AND NON-AUDIT SERVICES PRE-APPROVAL POLICY

I. STATEMENT OF PRINCIPLES

Under the Sarbanes-Oxley Act of 2002 (the "Act"), the Audit Committee of the Board of Directors or Trustees (the "Committee") of the ING Funds (each a "Fund," collectively, the "Funds") set out under Paragraph I on EXHIBIT A

to this Audit and Non-Audit Services Pre-Approval Policy ("Policy") is responsible for the oversight of the work of the Funds' independent auditors. As part of its responsibilities, the Committee must pre-approve the audit and non-audit services performed by the auditors in order to assure that the provision of these services does not impair the auditors' independence from the Funds. The Committee has adopted, and the Board has ratified, this Policy, which sets out the procedures and conditions under which the services of the independent auditors may be pre-approved.

Under Securities and Exchange Commission ("SEC") rules promulgated in accordance with the Act, the Funds' may establish two different approaches to pre-approving audit and non-audit services. The Committee may approve services without consideration of specific case-by-case services ("general pre-approval") or it may pre-approve specific services ("specific pre-approval"). The Committee believes that the combination of these approaches contemplated in this Policy results in an effective and efficient method for pre-approving audit and non-audit services to be performed by the Funds' independent auditors. Under this Policy, services that are not of a type that may receive general pre-approval require specific pre-approval by the Committee. Any proposed services that exceed pre-approved cost levels or budgeted amounts will also require the Committee's specific pre-approval.

For both types of approval, the Committee considers whether the subject services are consistent with the SEC's rules on auditor independence and that such services are compatible with maintaining the auditors independence. The Committee also considers whether a particular audit firm is in the best position to provide effective and efficient services to the Funds. Reasons that the auditors are in the best position include the

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

auditors' familiarity with the Funds' business, personnel, culture, accounting systems, risk profile, and other factors, and whether the services will enhance the Funds' ability to manage and control risk or improve audit quality. Such factors will be considered as a whole, with no one factor being determinative.

The appendices attached to this Policy describe the audit, audit-related, tax-related, and other services that have the Committee's general pre-approval. For any service that has been approved through general pre-approval, the general pre-approval will remain in place for a period 12 months from the date of pre-approval, unless the Committee determines that a different period is appropriate. The Committee will annually review and pre-approve the services that may be provided by the independent auditors without specific pre-approval. The Committee will revise the list of services subject to general pre-approval as appropriate. This Policy does not serve as a delegation to Fund management of the Committee's duty to pre-approve services performed by the Funds' independent auditors.

II. AUDIT SERVICES

The annual audit services engagement terms and fees are subject to the Committee's specific pre-approval. Audit services are those services that are normally provided by auditors in connection with statutory and regulatory filings or engagements or those that generally only independent auditors can reasonably provide. They include the Funds' annual financial statement audit and procedures that the independent auditors must perform in order to form an opinion on the Funds' financial statements (E.G., information systems and procedural reviews and testing). The Committee will monitor the audit services engagement and approve any changes in terms, conditions or fees deemed by the Committee to be necessary or appropriate.

The Committee may grant general pre-approval to other audit services, such as statutory audits and services associated with SEC registration statements, periodic reports and other documents filed with the SEC or issued in connection with securities offerings.

The Committee has pre-approved the audit services listed on Appendix A. The Committee must specifically approve all audit services not listed on Appendix A.

III. AUDIT-RELATED SERVICES

Audit-related services are assurance and related services that are reasonably related to the performance of the audit or the review of the Funds' financial statements or are traditionally performed by the independent auditors. The Committee believes that the provision of audit-related services will not impair the independent auditors' independence, and therefore may grant pre-approval to audit-related services. Audit-related services include accounting consultations related to accounting, financial reporting or disclosure matters not classified as "audit services;" assistance with

understanding and implementing new accounting and financial reporting guidance from rulemaking authorities; agreed-upon or expanded audit procedures relating to accounting and/or billing records required to respond to or comply with financial, accounting or regulatory reporting matters; and assistance with internal control reporting requirements under Form N-SAR or Form N-CSR.

The Committee has pre-approved the audit-related services listed on

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

Appendix B. The Committee must specifically approve all audit-related services not listed on Appendix B.

IV. TAX SERVICES

The Committee believes the independent auditors can provide tax services to the Funds, including tax compliance, tax planning, and tax advice, without compromising the auditors' independence. Therefore, the Committee may grant general pre-approval with respect to tax services historically provided by the Funds' independent auditors that do not, in the Committee's view, impair auditor independence and that are consistent with the SEC's rules on auditor independence.

The Committee will not grant pre-approval if the independent auditors initially recommends a transaction the sole business purpose of which is tax avoidance and the tax treatment of which may not be supported in the Internal Revenue Code and related regulations. The Committee may consult outside counsel to determine that tax planning and reporting positions are consistent with this Policy.

The Committee has pre-approved the tax-related services listed on Appendix C. The Committee must specifically approve all tax-related services not listed on Appendix C.

V. OTHER SERVICES

The Committee believes it may grant approval of non-audit services that are permissible services for independent auditors to a Fund. The Committee has determined to grant general pre-approval to other services that it believes are routine and recurring, do not impair auditor independence, and are consistent with SEC rules on auditor independence.

The Committee has pre-approved the non-audit services listed on Appendix D. The Committee must specifically approve all non-audit services not listed on Appendix D.

A list of the SEC's prohibited non-audit services is attached to this Policy as Appendix E. The SEC's rules and relevant guidance should be consulted to determine the precise definitions of these impermissible services and the applicability of exceptions to certain of the SEC's prohibitions.

VI. PRE-APPROVAL OF FEE LEVELS AND BUDGETED AMOUNTS

The Committee will annually establish pre-approval fee levels or budgeted amounts for audit, audit-related, tax and non-audit services to be provided to the Funds by the independent auditors. Any proposed services exceeding these levels or amounts require the Committee's specific pre-approval. The Committee considers fees for audit and non-audit services when deciding whether to pre-approve services. The Committee may determine, for a pre-approval period of 12 months, the appropriate ratio between the total amount of fees for the Fund's audit, audit-related, and tax services (including fees for services provided to Fund affiliates that are subject to pre-approval), and the total amount of fees for certain permissible non-audit services for the Fund classified as other services (including any such services provided to Fund affiliates that are subject to pre-approval).

VII. PROCEDURES

Requests or applications for services to be provided by the independent auditors will be submitted to management. If management determines that the

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

services do not fall within those services generally pre-approved by the Committee and set out in the appendices to these procedures, management will submit the services to the Committee or its delagee.

Any such submission will include a detailed description of the services to be rendered. Notwithstanding this paragraph, the Committee will, on an annual basis, receive from the independent auditors a list of services provided by the auditors during the prior 12-month period.

VIII. DELEGATION

The Committee may delegate pre-approval authority to one or more of the Committee's members. Any member or members to whom such pre-approval authority is delegated must report any pre-approval decisions, including any pre-approved services, to the Committee at its next scheduled meeting. The Committee will identify any member to whom pre-approval authority is delegated in writing. The member will retain such authority for a period of 12 months from the date of pre-approval unless the Committee determines that a different period is appropriate. The period of delegated authority may be terminated by the Committee or at the option of the member.

IX. ADDITIONAL REQUIREMENTS

The Committee will take any measures the Committee deems necessary or appropriate to oversee the work of the independent auditors and to assure the auditors' independence from the Funds. This may include reviewing a formal written statement from the independent auditors delineating all relationships between the auditors and the Funds, consistent with Independence Standards Board No. 1, and discussing with the auditors their methods and procedures for ensuring independence.

PROXY VOTING PROCEDURES AND GUIDELINES

Effective as of July 10, 2003

As amended August 21, 2003 and November 11, 2003

I. INTRODUCTION

The following are the Proxy Voting Procedures and Guidelines (the "Procedures and Guidelines") of the ING Funds set forth on Exhibit 1 attached hereto and each portfolio or series thereof (each a "Fund" and collectively, the "Funds"). The purpose of these Procedures and Guidelines is to set forth the process by

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

which each Fund will vote proxies related to the assets in its investment portfolio (the "portfolio securities"). The Procedures and Guidelines have been approved by each of the Funds' Board of Trustees/Directors(1) (each a "Board" and collectively, the "Boards"), including a majority of the independent Trustees/Directors(2) of the Board. These Procedures and Guidelines may be amended only by the Board. The Board shall review these Procedures and Guidelines at its discretion, and make any revisions thereto as deemed appropriate by the Board.

II. VALUATION AND PROXY VOTING COMMITTEE

The Boards hereby delegate to the Valuation and Proxy Voting Committee of each Board (each a "Committee" and collectively, the "Committees") the authority and responsibility to oversee the implementation of these Procedures and Guidelines, and where applicable, to make determinations

(1) Reference in these Procedures to one or more Funds shall, as applicable, mean those Funds that are under the jurisdiction of the particular Board or Valuation and Proxy Voting Committee at issue. No provision in these Procedures is intended to impose any duty upon the particular Board or Valuation and Proxy Voting Committee with respect to any other Fund.

(2) The independent Trustees/Directors are those Board members who are not "interested persons" within the meaning of Section 2(a)(19) the Investment Company Act of 1940.

on behalf of the Board with respect to the voting of proxies on behalf of each Fund. Furthermore, the Boards hereby delegate to each Committee the authority to review and approve material changes to proxy voting procedures of any Fund's investment adviser (the "Adviser"). The Proxy Voting Procedures of the Adviser are attached hereto as Exhibit 2. Any determination regarding the voting of proxies of each Fund that is made by a Committee, or any member thereof, as permitted herein, shall be deemed to be a good faith determination regarding the voting of proxies by the full Board. Each Committee may rely on the Adviser through the Agent, Proxy Coordinator and/or Proxy Group (as such terms are defined below and in the Adviser's proxy voting procedures) to deal in the first instance with the application of these Procedures and Guidelines. Each Committee shall conduct itself in accordance with its charter.

III. DELEGATION OF VOTING RESPONSIBILITY

The Board hereby delegates to the Adviser to each Fund the authority and responsibility to vote all proxies with respect to all portfolio securities of each Fund in accordance with then current proxy voting procedures and guidelines that have been approved by the Board. The Board may revoke such delegation with respect to any proxy or proposal, and assume the responsibility of voting any Fund proxy or proxies as it deems appropriate. Non-material amendments to the Procedures and Guidelines may be approved for immediate implementation by the President or Chief Financial Officer of a Fund, subject to ratification at the next regularly scheduled meeting of the Valuation and Proxy Voting Committee.

When a Fund participates in the lending of its securities and the securities are on loan at record date, proxies related to such securities will not be forwarded to the Adviser by the Fund's custodian and therefore will not be voted.

When a Fund is a feeder in a master/feeder structure, proxies for the portfolio securities of the master fund will be voted pursuant to the master fund's proxy voting policies and procedures.

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

IV. APPROVAL AND REVIEW OF PROCEDURES

Each Fund's Adviser has adopted proxy voting procedures in connection with the voting of portfolio securities for the Funds as attached hereto in Exhibit 2. The Board hereby approves such procedures. All material changes to such procedures must be approved by the Board or the Valuation and Proxy Voting Committee prior to implementation; however, the President or Chief Financial Officer of a Fund may make such non-material changes as they deem appropriate, subject to ratification by the Board or the Valuation and Proxy Voting Committee at its next regularly scheduled meeting.

V. VOTING PROCEDURES AND GUIDELINES

The Guidelines which are set forth in Exhibit 3 hereto specify the manner in which the Funds generally will vote with respect to the proposals discussed therein.

ROUTINE MATTERS

The Agent shall be instructed to submit a vote in accordance with the Guidelines where such Guidelines provide a clear "For", "Against" or "Abstain" on a proposal. However, the Agent shall be directed to refer proxy proposals to the Proxy Coordinator for instructions as

if it were a matter requiring case-by-case consideration under circumstances where the application of the Guidelines is unclear, they appear to involve unusual or controversial issues, or an Investment Professional recommends a vote contrary to the Guidelines.

B. Matters Requiring Case-by-Case Consideration

The Agent shall be directed to refer proxy proposals accompanied by its written analysis and voting recommendation to the Proxy Coordinator where the Guidelines have noted a "case-by-case" consideration.

Upon receipt of a referral from the Agent, the Proxy Coordinator may solicit additional research from the Agent, Investment Professional(s), as well as from any other source or service.

The Proxy Coordinator will forward the Agent's analysis and recommendation and/or any research obtained from the Investment Professional(s), the Agent or any other source to the Proxy Group. The Proxy Group may consult with the Agent and/or Investment Professional(s), as it deems necessary.

1. Votes in Accordance with Agent Recommendation

In the event the Proxy Group recommends a vote in accordance with the Agent's recommendation, the Proxy Group will instruct the Agent, through the Proxy Coordinator, to vote in accordance with the Agent's recommendation.

2. Non-Votes

The Proxy Group may recommend that a Fund refrain from voting under the following circumstances: (1) if the economic effect on shareholders' interests or the value of the portfolio holding is indeterminable or insignificant or (2) if the cost of voting a proxy outweighs the benefits, E.G., certain international

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

proxies. In such instances, the Proxy Group may instruct the Agent, through the Proxy Coordinator, not to vote such proxy.

3. Votes Contrary to Procedures and Guidelines, or Agent Recommendation, where applicable, or Where No Recommendation is Provided by Agent.

If the Proxy Group recommends that a Fund vote contrary to the Procedures and Guidelines, or the recommendation of the Agent, where applicable, or if the Agent has made no recommendation and the Procedures and Guidelines are silent, the Proxy Coordinator will then request that each member of the Proxy Group and each Investment Professional participating in the voting process provide a Conflicts Report (as such term is defined for purposes of the Adviser's proxy voting procedures).

If Counsel determines that a conflict of interest appears to exist with respect to any member of the Proxy Group or the relevant Investment Professional(s), the Proxy Coordinator will then call a meeting of the Valuation and Proxy Voting Committee and forward to such committee all information relevant to their review, including the

following materials or a summary thereof: the applicable Procedures and Guidelines, the recommendation of the Agent where applicable, the recommendation of the Investment Professional(s), where applicable, any resources used by the Proxy Group in arriving at its recommendation, the Conflicts Report and any other written materials establishing whether a conflict of interest exists, and findings of Counsel (as such term is defined for purposes of the Adviser's proxy voting procedures).

If Counsel determines that there does not appear to be a conflict of interest with respect to any member of the Proxy Group or the relevant Investment Professional(s), the Proxy Coordinator will instruct the Agent to vote the proxy as recommended by the Proxy Group.

4. Referrals to a Fund's Valuation and Proxy Voting Committee

A Fund's Valuation and Proxy Voting Committee may consider all recommendations, analysis, research and Conflicts Reports provided to it by the Agent, Proxy Group and/or Investment Professional(s), and any other written materials used to establish whether a conflict of interest exists, in determining how to vote the proxies referred to the Committee. The Committee will instruct the Agent through the Proxy Coordinator how to vote such referred proposals.

The Proxy Coordinator will maintain a record of all proxy questions that have been referred to a Fund's Valuation and Proxy Voting Committee, all applicable recommendations, analysis, research and Conflicts Reports.

VI. CONFLICTS OF INTEREST

In all cases in which a vote has not been clearly determined in advance by the Procedures and Guidelines or for which the Proxy Group recommends a vote contrary to the Procedures and Guidelines, or contrary to the recommendation of the Agent, or where the Procedures and Guidelines are silent and the Agent has

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

made no recommendation, and Counsel has determined that a conflict of interest appears to exist with respect to any member of the Proxy Group or any Investment Professional participating in the voting process, the proposal shall be referred to the Fund's Valuation and Proxy Voting Committee for determination so that the Adviser shall have no opportunity to vote a Fund's proxy in a situation in which it may be deemed to have a conflict of interest.

VII. REPORTING AND RECORD RETENTION

Beginning in August 2004, on an annual basis, each Fund will post its proxy voting record or a link thereto for the prior one-year period ending on June 30th on the ING Funds website. The proxy voting record posted for any Fund that is a feeder in a master/feeder structure will be that of the master fund. The proxy voting record for each Fund will also be available in the EDGAR database on the SEC's website.

PROXY VOTING PROCEDURES
Effective as of July 10, 2003, as amended

I. INTRODUCTION

ING Investments, LLC, Directed Services, Inc. and ING Life Insurance and Annuity Company (each an "Adviser" and collectively, the "Advisers") are the investment advisers for the registered investment companies and each series or portfolio thereof (each a "Fund" and collectively, the "Funds") comprising the ING family of funds. As such, the Advisers

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

have been delegated the authority to vote proxies with respect to securities for the Funds over which they have day-to-day portfolio management responsibility.

The Advisers will abide by the proxy voting guidelines adopted by a Fund's respective Board of Directors or Trustees (each a "Board" and collectively, the "Boards") with regard to the voting of proxies unless otherwise provided in the proxy voting procedures adopted by a Fund's Board.

In voting proxies, the Advisers are guided by general fiduciary principles. Each must act prudently, solely in the interest of the beneficial owners of the Funds it manages. The Advisers will not subordinate the interest of beneficial owners to unrelated objectives. Each Adviser will vote proxies in the manner that it believes will do the most to maximize shareholder value.

The following are the Proxy Voting Procedures of ING Investments, LLC, Directed Services, Inc. and ING Life Insurance and Annuity Company with respect to the voting of proxies on behalf of their client Funds as approved by the respective Board of each Fund.

Unless otherwise noted, proxies will be voted in all instances.

II. ROLES AND RESPONSIBILITIES

A. Proxy Coordinator

The Proxy Coordinator identified in Appendix 1 will assist in the coordination of the voting of each Fund's proxies in accordance with the ING Funds Proxy Voting Procedures and Guidelines ("Procedures and Guidelines"). The Proxy Coordinator is authorized to direct

the Agent to vote a Fund's proxy in accordance with the Procedures and Guidelines unless the Proxy Coordinator receives a recommendation from an Investment Professional (as described below) to vote contrary to the Procedures and Guidelines. In such event, the Proxy Coordinator will call a meeting of the Proxy Group.

B. Agent

An independent proxy voting service (the "Agent"), as approved by the Board of each Fund, shall be engaged to assist in the voting of Fund proxies through the provision of vote analysis, implementation, recordkeeping and disclosure services. The Agent is responsible for coordinating with the Funds' custodians to ensure that all proxy materials received by the custodians relating to the portfolio securities are processed in a timely fashion. To the extent applicable, the Agent is required to vote and/or refer all proxies in accordance with these Procedures. The Agent will retain a record of all proxy votes handled by the Agent. Such record must reflect all the information required to be disclosed in a Fund's Form N-PX pursuant to Rule 30b1-4 under the Investment Company Act. In addition, the Agent is responsible for maintaining copies of all proxy statements received by issuers and to promptly provide such materials to the Adviser upon request.

The Agent shall be instructed to vote all proxies in accordance with the ING Funds' Guidelines, except as otherwise instructed through the Proxy Coordinator by the Adviser's Proxy Group, or a Fund's Valuation and Proxy Voting Committee.

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

The Agent shall be instructed to obtain all proxies from the Funds' custodians and to review each proxy proposal against the Guidelines. The Agent also shall be requested to call the Proxy Coordinator's attention to specific proxy proposals that although governed by the Guidelines appear to involve unusual or controversial issues.

C. Proxy Group

The Adviser shall establish a Proxy Group (the "Proxy Group") which shall assist in the review of the Agent's recommendations when a proxy voting issue is referred to the Group through the Proxy Coordinator. The members of the Proxy Group, which may include employees of the Advisers' affiliates, are identified in Appendix 1, as may be amended from time at the Advisers' discretion.

A minimum of four (4) members of the Proxy Group (or three (3) if one member of the quorum is either the Fund's Chief Investment Risk Officer or Chief Financial Officer) shall constitute a quorum for purposes of taking action at any meeting of the Group. The vote of a simple majority of the members present and voting shall determine any matter submitted to a vote. The Proxy Group may meet in person or by telephone. The Proxy Group also may take action via electronic mail in lieu of a meeting, provided that each Group member has received a copy of any relevant electronic mail transmissions circulated by each other participating Group member prior to voting and provided that the Proxy Coordinator follows the directions of a majority of a quorum (as defined above) responding via electronic mail. For all votes taken in person or by telephone or teleconference, the vote shall be taken outside the presence of any person other than the members of the Proxy Group.

A meeting of the Proxy Group will be held whenever the Proxy Coordinator receives a recommendation from an Investment Professional to vote a Fund's proxy contrary to the Procedures and Guidelines, or the recommendation of the Agent, where applicable, or if the Agent has made no recommendation with respect to a vote on a proposal.

For each proposal referred to the Proxy Group, it will review (1) the Procedures and Guidelines, (2) the recommendation of the Agent, if any, (3) the recommendation of the Investment Professional(s) and (4) any other resources that the Proxy Group deems appropriate to aid in a determination of a recommendation.

If the Proxy Group recommends that a Fund vote in accordance with the Procedures and Guidelines, or the recommendation of the Agent, where applicable, it shall instruct the Proxy Coordinator to so advise the Agent.

If the Proxy Group recommends that a Fund vote contrary to the Procedures and Guidelines, or the recommendation of the Agent, where applicable, it shall follow the procedures for such voting as established by a Fund's Board.

D. Investment Professionals

The Funds' Advisers, sub-advisers and/or portfolio managers (referred to herein as "Investment Professionals") may be asked to submit a recommendation to the Proxy Group regarding the voting of proxies related to the portfolio securities over which they have day-to-day

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

portfolio management responsibility. The Investment Professionals may accompany their recommendation with any other research materials that they deem appropriate.

III. VOTING PROCEDURES

- A. In all cases, the Adviser shall follow the voting procedures as set forth in the Procedures and Guidelines of the Fund on whose behalf the Adviser is exercising delegated authority to vote.

ROUTINE MATTERS

The Agent shall be instructed to submit a vote in accordance with the Guidelines where such Guidelines provide a clear "For", "Against" or "Abstain" on a proposal. However, the Agent shall be directed to refer proxy proposals to the Proxy Coordinator for instructions as if it were a matter requiring case-by-case consideration under circumstances where the application of the Guidelines is unclear.

- C. Matters Requiring Case-by-Case Consideration

The Agent shall be directed to refer proxy proposals accompanied by its written analysis and voting recommendation to the Proxy Coordinator where the Guidelines have noted a "case-by-case" consideration.

Upon receipt of a referral from the Agent, the Proxy Coordinator may solicit additional research from the Agent, Investment Professional(s), as well as from any other source or service.

The Proxy Coordinator will forward the Agent's analysis and recommendation and/or any research obtained from the Investment Professional(s), the Agent or any other source to the Proxy Group. The Proxy Group may consult with the Agent and/or Investment Professional(s), as it deems necessary.

1. Votes in Accordance with Agent Recommendation

In the event the Proxy Group recommends a vote in accordance with the Agent's recommendation, the Proxy Group will instruct the Agent, through the Proxy Coordinator, to vote in accordance with the Agent's recommendation.

2. Non-Votes

The Proxy Group may recommend that a Fund refrain from voting under the following circumstances: (1) if the economic effect on shareholders' interests or the value of the portfolio holding is indeterminable or insignificant or (2) if the cost of voting a proxy outweighs the benefits, E.G., certain international proxies. In such instances, the Proxy Group may instruct the Agent, through the Proxy Coordinator, not to vote such proxy.

3. Votes Contrary to Procedures and Guidelines, or Agent Recommendation, where applicable, or Where No Recommendation is Provided by Agent.

If the Proxy Group recommends that a Fund vote contrary to the Procedures and Guidelines, or the recommendation of the Agent, where applicable, or if the Agent has made no recommendation and

Edgar Filing: ING PRIME RATE TRUST - Form N-CSR

the Procedures and Guidelines are silent, the Proxy Coordinator will then implement the procedures for handling such votes as adopted by the Fund's Board.

4. The Proxy Coordinator will maintain a record of all proxy questions that have been referred to a Fund's Valuation and Proxy Voting Committee, all applicable recommendations, analysis, research and Conflicts Reports.

IV. CONFLICTS OF INTEREST

In connection with their participation in the voting process for portfolio securities, each member of the Proxy Group and each Investment Professional participating in the voting process must act solely in the best interests of the beneficial owners of the applicable Fund. The members of the Proxy Group may not subordinate the interests of the Fund's beneficial owners to unrelated objectives.

For all matters for which the Proxy Group recommends a vote contrary to Procedures and Guidelines, or the recommendation of the Agent, where applicable, or where the Agent has made no recommendation and the Procedures and Guidelines are silent, the Proxy Coordinator will implement the procedures for handling such votes as adopted by the Fund's Board, including completion of such Conflicts Reports as may be required under the Fund's procedures. Completed Conflicts Reports shall be provided to the Proxy Coordinator within two (2) business days. Such Conflicts Report should describe any known conflicts of either a business or personal nature, and

set forth any contacts with respect to the referral item with non-investment personnel in its organization or with outside parties (except for routine communications from proxy solicitors). The Conflicts Report should also include written confirmation that any recommendation from an Investment Professional provided under circumstances where a conflict of interest exists was made solely on the investment merits and without regard to any other consideration.

The Proxy Coordinator shall forward all Conflicts Reports to a member of the mutual funds practice group of ING US Legal Services ("Counsel") for review. Counsel shall review each report and provide the Proxy Coordinator with a brief statement regarding whether or not a material conflict of interest is present. Matters as to which a conflict of interest is deemed to be present shall be handled as provided in the Fund's Procedures and Guidelines.

V. REPORTING AND RECORD RETENTION

The Adviser shall maintain the records required by Rule 204-2(c)(2), as may be amended from time to time, including the following: (1) A copy of each proxy statement received regarding a Fund's portfolio securities. Such proxy statements received from issuers are available either in the SEC's EDGAR database or are kept by the Agent and are available upon request. (2) A record of each vote cast on behalf of a Fund. (3) A copy of any document created by the Adviser that was material to making a decision how to vote a proxy, or that memorializes the basis for that decision. (4) A copy of written requests for Fund proxy voting information and any written response thereto or to any oral request for information on how the Adviser voted proxies on behalf of a Fund. All proxy voting materials and supporting documentation will be retained for a minimum of six (6) years.

As amended August 21, 2003 and November 11, 2003

I. INTRODUCTION

The following is a statement of the proxy voting Guidelines that have been adopted by the respective Boards of Directors or Trustees of each Fund.

Proxies must be voted in the best interest of the Fund. The Guidelines summarize the Funds' positions on various issues of concern to investors, and give a general indication of how Fund portfolio securities will be voted on proposals dealing with particular issues. The Guidelines are not exhaustive and do not include all potential voting issues.

The Advisers, in exercising their delegated authority, will abide by the Guidelines as outlined below with regard to the voting of proxies except as otherwise provided in the Procedures. In voting proxies, the Advisers are guided by general fiduciary principles. Each must act prudently, solely in the interest of the beneficial owners of the Funds it manages. The Advisers will not subordinate the interest of beneficial owners to unrelated objectives. Each Adviser will vote proxies in the manner that it believes will do the most to maximize shareholder value.

An additional section addresses proposals most frequently found in Global Proxies.
