Common stock offered:

By Crocs, Inc.	4,950,000 shares
By the selling stockholders	4,950,000 shares
Total	9,900,000 shares
Common stock to be outstanding after the offering	38,272,247 shares

Use of Proceeds

We estimate that the net proceeds from the sale of 4,950,000 shares of common stock offered by us will be approximately \$87.8 million, assuming a public offering price of \$19.50 per share, which is the mid-point of the range set forth above, and after deducting the underwriting discounts and commissions and estimated offering expenses payable by us in connection with this offering. All shares of our common stock that are subject to the underwriters' over-allotment option will be sold to the underwriters by the selling stockholders. We will not receive any proceeds from the sale of shares to be sold by the selling stockholders. Our intended use of proceeds is not affected by the increase in the proposed initial public offering price or by the increase in the number of shares of common stock being offered by us.

Dilution

If you invest in our common stock in this offering, upon the completion of this offering your ownership interest will be diluted to the extent of the difference between the initial public offering price per share and the pro forma net tangible book value per share of our common stock. Our pro forma net tangible book value as of September 30, 2005 was approximately \$14.9 million, or approximately \$0.45 per share. Pro forma net tangible book value per share is determined by dividing the excess of our pro forma total tangible assets over our pro forma total liabilities by the pro forma total number of shares of common stock outstanding. The pro forma total number of shares of common stock outstanding includes the effect of:

conversion of all outstanding shares of Series A preferred stock into 7,452,492 shares of common stock;

the termination of the put option on redeemable shares of our common stock in connection with the closing of this offering;

an amendment to our certificate of incorporation to increase our authorized capital stock to 125,000,000 shares of common stock and 5,000,000 shares of preferred stock;

the issuance of 137,097 shares of common stock to employees on October 1, 2005, and 4,868 shares of common stock to our chief executive officer on each of November 1, 2005, December 1, 2005, January 1, 2006, and February 1, 2006; and

the sale by us of 4,950,000 shares of common stock in this offering.

Investors participating in this offering will incur immediate, substantial dilution. After giving effect to our sale and issuance of common stock in this offering at the initial public offering price of \$19.50 per share, which is the mid-point of the range set forth on the first page of this free writing prospectus, and our receipt of the estimated net proceeds of the offering of \$87.8 million, after deducting underwriting discounts and commissions and estimated offering expenses payable by us, our pro forma net tangible book value as of September 30, 2005 would have been approximately \$102.6 million, or \$2.68 per share of common stock. This represents an immediate increase in net tangible book value of \$2.23 per share to existing stockholders and an immediate dilution of \$16.82 per share to new investors purchasing shares of common stock in this offering at the initial offering price. The following table illustrates this dilution on a per share basis:

Assumed initial public offering price per share	\$	19.50
Pro forma net tangible book value per share at September 30, 2005	\$	0.45
Increase in pro forma net tangible book value per share attributable to this offering	\$	2.23
Pro forma net tangible book value per share after this offering	\$	2.68
Dilution per share to new investors	\$	16.82

The following table sets forth on a pro forma basis as of September 30, 2005, the total number of shares of common stock purchased from us, the total consideration paid to us for these shares and the average price per share paid to us by our existing stockholders and by new investors, before deducting underwriting discounts and commissions and estimated offering expenses payable by us at an assumed

Edgar Filing: Crocs, Inc. - Form FWP

initial public offering price of \$19.50 per share, which is the mid-point of the range set forth on the first page of this free writing prospectus.

	Shares Purchased		Total Consideration		Average Price Per Share
	Number	Percent	Amount	Percent	
Existing stockholders	33,322,247	87.1%	\$ 3,807,000	3.8%	\$ 0.11
New investors	4,950,000	12.9%	\$ 96,525,000	96.2%	\$ 19.50
Total	38,272,247	100%	\$ 100,332,000	100%	\$ 2.62

Sales by the selling stockholders in this offering will cause the number of shares held by existing stockholders to be reduced to 28,372,247, or 74.1% of the total number of shares of our common stock outstanding after this offering, and will increase the total number of shares held by new investors to 9,900,000, or 25.9% of the total number of shares of our common stock outstanding after this offering. If the underwriters' over-allotment option is exercised in full, the number of shares held by existing stockholders after this offering, including the effect of sales by the selling stockholders, would be reduced to 26,887,247, or 70.3% of the total number of shares of our common stock outstanding after this offering, and the number of shares held by new investors would increase to 11,385,000, or 29.7% of the total number of shares of our common stock outstanding after this offering.

To the extent options are exercised or shares of common stock are issued pursuant to restricted stock award agreements or other awards under our 2005 Equity Incentive Plan, there will be further dilution to investors in this offering.

Principal and Selling Stockholders

The following table sets forth information with respect to the beneficial ownership of our common stock as of February 6, 2006, and after the sale of shares in this offering, by:

each person who is known by us to own beneficially more than 5% of our voting securities;

each current director;

each of the named executive officers;

all directors and executive officers as a group; and

each selling stockholder participating in this offering.

Beneficial ownership is determined in accordance with the SEC's rules. In addition, shares that are required to be issued by us to any person pursuant to a restricted stock award agreement within 60 days of February 6, 2006 are also deemed to be outstanding and beneficially owned by that person. Percentage ownership is based on 33,322,247 shares of our common stock outstanding on February 6, 2006, which assumes the conversion of all preferred stock into common stock on a one-for-one basis. Of these shares, the 9,900,000 shares of our common stock sold in this offering will be freely tradable without restriction under the Securities Act of 1933, except that any shares of our common stock purchased by our affiliates, as that term is defined in Rule 144 under the Securities Act, may generally only be sold in compliance with the limitations of Rule 144 described below.

The remaining 28,372,247 shares of our common stock outstanding upon completion of this offering are deemed "restricted shares" under Rule 144 or Rule 701 under the Securities Act. Of these restricted securities, 931,003 shares will be eligible for sale in the public market pursuant to Rule 701 or Rule 144 commencing 90 days from the effective date of the registration statement to which this free writing prospectus relates. Upon expiration of the lock-up agreements described below, 180 days after the effective date of the registration statement to which this free writing prospectus relates, an additional 27,331,402 shares of our common stock will be eligible for sale in the public market pursuant to Rule 144 or Rule 701.

Rule 144. In general, under Rule 144 under the Securities Act, a person (or persons whose shares are required to be aggregated, including our affiliates) who has beneficially owned shares of our common stock for at least one year would be entitled to sell within any three-month period a number of shares that does not exceed the greater of:

one percent of the number of shares of common stock then outstanding, which will equal 382,722 shares immediately after this offering, or

the average weekly trading volume of our common stock on the Nasdaq National Market during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales under Rule 144 are generally subject to certain manner of sale provisions and notice requirements as to the availability of current public information about us.
