ITEM 1. MANAGEMENT REPORT ON THE INTERIM FINANCIAL RESULTS
AS OF JUNE 30, 2011
(UNAUDITED)

The following discussion should be read in conjunction with the disclosure contained in the consolidated financial statements as of December 31, 2010, which includes a study about risks and uncertainties that can influence our operational results or our financial position.

1. OPERATING PERFORMANCE FOR THE THREE- AND THE SIX- MONTH PERIODS ENDED JUNE 30, 2011

During the second quarter of 2011, both the growth trend and Luxottica's investments continued. In a macroeconomic environment that was, as a whole, positive, the Group has successfully achieved results that show great improvement in all the major geographic areas where it operates, with particularly solid performance recorded in Europe, North America and the emerging markets. Despite the significant depreciation of the U.S. dollar against the Euro, going from Euro 1.2708 during the second quarter of 2010 to Euro 1.4391 (12 percent) during the second quarter of 2011, net sales for the second quarter of 2011 exceeded Euro 1.6 billion and net income stood at Euro 162 million, the best results ever recorded in the history of the Company.

In the second quarter of the year, Luxottica achieved positive performances in most geographic regions where it is present. The results recorded by the wholesale distribution segment are worthy of note, improving on the best-ever sales of previous quarters, recording strong growth in net sales (+11.6 percent at constant exchange rates¹). Emerging markets made a key contribution to this performance, along with Europe, particularly France, Germany, Spain and Italy, which enjoyed an especially positive season.

¹ We calculate constant exchange rates by applying to the current period the average exchange rates between the Euro and the relevant currencies of the various markets in which we operated during the three-month period ended June 30, 2010. Please refer to Attachment 1 for further details on exchange rates.

The results for Sunglass Hut were also exceptional, for the fourth consecutive quarter, benefitting from the continuous actions aimed at attracting and creating meaningful relationships with new consumers, as well as the opening of the first stores in Brazil and China. LensCrafters once again proved to be the point of reference for the optical sector in North America, thanks in part to the major investments made in new technologies and laboratories.

In the second quarter of 2011, net sales for the Group increased by 9.5 percent at constant exchange rates (+2.4 percent at current exchange rates), to Euro 1,633.5 million from Euro 1,595.1 million in the second quarter of 2010. During the first six months of 2011, net sales increased by 9.3 percent at constant exchange rates to Euro 3,189.6 million (Euro 2,986.8 million in the first six months of 2010).

EBITDA² for the second quarter of 2011 increased over the previous year by 5.0 percent to Euro 352.2 million, from Euro 335.4 million in the second quarter of 2010. For the first six months of the year, EBITDA increased to Euro 635.1 million from Euro 578.0 million posted for the first six months of 2010.

² For a further discussion of EBITDA, see page 15 "Non-IAS/IFRS Measures."

Table of Contents

Operating income for the second quarter of 2011 settled at Euro 276.8 million (Euro 258.3 million for the same period last year, +7.2 percent), while the Group's operating margin grew from 16.2 percent in the second quarter of 2010 to 16.9 percent in the second quarter of 2011. For the first six months of the year, the operating income amounted to Euro 484.2 million, up 12.7 percent over the Euro 429.6 million posted for the same period last year.

Net income for the second quarter of 2011 increased to Euro 162.1 million, up by 8.0 percent from Euro 150.1 million for the same period of 2010, resulting in earnings per share (EPS) of Euro 0.35 (at an average Euro/U.S. dollar exchange rate of Euro 1.4391). The EPS in U.S. dollars increased by 21.9 percent from U.S. \$0.42 in the second quarter of 2010 to U.S. \$0.51 in the second quarter of 2011.

For the second quarter of 2011, the Group increased the investments, opening new stores and investing in new technologies. By carefully controlling working capital, Luxottica once again generated excellent positive free cash flow³ (Euro 154 million). Thanks to this excellent performance and after having paid dividends during the quarter of approximately Euro 200 million, net debt as of June 30, 2011 came to Euro 2,118 million (Euro 2,111 million at the end of 2010), with a ratio of net debt to EBITDA⁴ of 1.9x as of June 30, 2011 as compared with 2.0x at the end of 2010.

³ For a further discussion of free cash flow, see page 15 "Non-IAS/IFRS Measures."

⁴ For a further discussion of net debt to EBITDA ratio, see page 15 "Non-IAS/IFRS Measures."

2. SIGNIFICANT EVENTS DURING THE SIX MONTHS ENDED JUNE 30, 2011

January

On January 20, 2011, the Company terminated the revolving credit line with Banca Nazionale del Lavoro totaling Euro 150 million. The original maturity date of the credit line was July 13, 2011. As of December 31, 2010, the credit line was undrawn.

February

On February 17, 2011, the Company announced that it had entered into agreements pursuant to which it will acquire two sunglass specialty retail chains totaling more than 70 stores in Mexico for a total amount of Euro 19.5 million. This transaction marks the Company's entry into the sun retail business in Mexico where the Group already has a solid presence through its wholesale division. Over time, the stores will be rebranded under the Sunglass Hut brand. The acquisition was completed by June 1, 2011.

March

During the first three months of 2011, we purchased on the Mercato Telematico Azionario ("MTA") 466,204 of our ordinary shares at an average price of Euro 22.45 per share, for a total amount of Euro 10,467,359, pursuant to the stock purchase program approved at the Stockholders' Meeting on October 29, 2009 and launched on November 16, 2009. This stock purchase program expired on April 28, 2011.

April

At the Stockholders' Meeting on April 28, 2011, the stockholders approved the Statutory Financial Statements as of December 31, 2010, as proposed by the Board of Directors and the distribution of a cash dividend of Euro 0.44 per ordinary share, reflecting a year-over-year 26 percent increase. The aggregate dividend amount of Euro 204.6 million was fully paid in May 2011.

May

On May 23, 2011, the Company announced that it had entered into an agreement pursuant to which it will exercise in advance, in July 2011, its call option on 57 percent of Multipticas Internacional S.L.

Table of Contents

("Multiópticas Internacional") share capital. The Company already owns a 40 percent stake in Multiópticas Internacional, which itself currently owns over 470 eyewear stores operating under the Ópticas GMO, Econópticas and Sun Planet retail brands in Chile, Peru, Ecuador and Colombia.

Once the call option is exercised (which is worth approximately Euro 95 million), the Company will own 97 percent of Multiópticas Internacional's share capital.

Multiópticas Internacional is currently present in South America with more than 470 stores, as follows: 221 in Chile, 141 in Peru, 40 in Ecuador and 77 in Colombia. In 2010 they had total net sales exceeding Euro 80 million. Over the last four years, Compound Annual Growth Rate (CAGR) of net sales was more than 11 percent. It is expected that net sales for 2011 for the Multiópticas Internacional business could reach Euro 95 million.

Under the terms of the agreement, the Company paid on July 13, 2011, 70 percent of the exercise price, determined on the basis of Multiópticas Internacional's sales and EBITDA values, at the time of the exercise of the call option. The remaining 30 percent of the exercise price will be paid by the end of 2011.

3. FINANCIAL RESULTS

We are a global leader in the design, manufacture and distribution of fashion, luxury and sport eyewear, with net sales reaching Euro 5.8 billion in 2010, over 60,000 employees and a strong global presence. We operate in two industry segments: (i) manufacturing and wholesale distribution; and (ii) retail distribution. See Note 4 to the Condensed Consolidated Half Year Financial Report as of June 30, 2011 (unaudited) for additional disclosures about our operating segments. Through our manufacturing and wholesale distribution segment, we are engaged in the design, manufacture, wholesale distribution and marketing of house and designer lines of mid- to premium-priced prescription frames and sunglasses. We operate our retail distribution segment principally through our retail brands, which include, among others, LensCrafters, Sunglass Hut, Pearle Vision, ILORI, The Optical Shop of Aspen, OPSM, Laubman & Pank, Budget Eyewear, Bright Eyes, Oakley "O" Stores and Vaults, David Clulow and our Licensed Brands (Sears Optical and Target Optical).

As a result of our numerous acquisitions and the subsequent expansion of our business activities in the United States through these acquisitions, our results of operations, which are reported in Euro, are susceptible to currency rate fluctuations between the Euro and the U.S. dollar. The Euro/U.S. dollar exchange rate has fluctuated from an average exchange rate of Euro 1.00 = U.S. \$1.3268 in the first six months of 2010 to Euro 1.00 = U.S. \$1.4032 in the same period of 2011. With the acquisition of OPSM and Bright Eyes (acquired through Oakley), our results of operations have also been rendered susceptible to currency fluctuations between the Euro and the Australian dollar. Additionally, we incur part of our manufacturing costs in Chinese Yuan; therefore, the fluctuation of the Chinese Yuan relative to other currencies in which we receive revenues could impact the demand of our products or the profitability in consolidation. However, in the first six months of 2011, the fluctuation of the Chinese Yuan did not significantly affect demand for our products or decrease our profitability in consolidation. Although we engage in certain foreign currency hedging activities to mitigate the impact of these fluctuations, they have impacted our reported revenues and expenses during the periods discussed herein. This discussion should be read in conjunction with the risk factor discussion in Note 10 of the Management Report of the 2010 Consolidated Financial Statements.

Net Sales. Net sales increased by Euro 202.8 million, or 6.8 percent, to Euro 3,189.6 million in the first six months of 2011 from Euro 2,986.8 million in the same period of 2010. Euro 140.4 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution segment in the first six months of 2011 as compared to the same period in 2010 and to increased sales in the retail distribution segment of Euro 62.4 million for the same period.

Net sales for the retail distribution segment increased by Euro 62.4 million, or 3.5 percent, to Euro 1,844.5 million in the first six months of 2011 from Euro 1,782.1 million in the same period in 2010. The increase in net sales for the period was partially attributable to a 5.6 percent improvement in comparable store sales⁵. In particular, we saw a 6.1 percent increase in comparable store sales for the North American retail operations, which was partially offset by almost flat comparable store sales of 0.3 percent for the Australian/New Zealand retail operations. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar compared to the Euro, decreased net sales in the

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

retail distribution segment by Euro 66.8 million during the period.

⁵ Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Table of Contents

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 140.4 million, or 11.7 percent, to Euro 1,345.1 million in the first six months of 2011 from Euro 1,204.7 million in the same period in 2010. This increase was mainly attributable to increased sales of most of our house brands, in particular Ray-Ban and Oakley, and of some designer brands such as Chanel, Prada, Polo, Burberry and Tiffany. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially offset by negative currency fluctuations, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar and other minor currencies, including but not limited to the Brazilian Real, the Canadian Dollar and the Japanese Yen, the total effect of which was to decrease net sales to third parties in the manufacturing and wholesale distribution segment by Euro 9.6 million.

In the first six months of 2011, net sales in the retail distribution segment accounted for approximately 57.8 percent of total net sales, as compared to approximately 59.7 percent of total net sales for the same period in 2010. This decrease in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to a 11.7 percent increase in net sales to third parties in our manufacturing and wholesale distribution segment for the first six months of 2011 as compared to the same period of 2010, which exceeded a 3.5 percent increase in net sales in the retail distribution segment for the first six months of 2011 as compared to the same period of 2010.

In the first six months of 2011, net sales in our retail distribution segment in the United States and Canada comprised 81.8 percent of our total net sales in this segment as compared to 83.1 percent of our total net sales in the same period of 2010. In U.S. dollars, retail net sales in the United States and Canada increased by 7.7 percent to U.S. \$2,116.2 million in the first six months of 2011 from U.S. \$1,964.0 million for the same period in 2010, due to sales volume increases. During the first six months of 2011, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 18.2 percent of our total net sales in the retail distribution segment and increased by 11.5 percent to Euro 336.5 million in the first six months of 2011 from Euro 301.9 million, or 16.9 percent of our total net sales in the retail distribution segment for the same period in 2010, mainly due to positive currency fluctuation effects.

In the first six months of 2011, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 682.0 million, comprising 50.7 percent of our total net sales in this segment, compared to Euro 622.0 million, or 51.6 percent of total net sales in the segment, for the same period in 2010. The increase in net sales in Europe of Euro 60.0 million in the first six months of 2011 as compared to the same period of 2010 constituted a 9.7 percent increase in net sales to third parties, due to a general increase in consumer demand. Net sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$422.5 million and comprised 22.4 percent of our total net sales in this segment for the first six months of 2011, compared to U.S. \$366.2 million, or 22.9 percent of total net sales in the segment, for the same period of 2010. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the first six months of 2011, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 362.0 million, comprising 26.9 percent of our total net sales in this segment, compared to Euro 306.7 million, or 25.5 percent of our net sales in this segment, in the same period of 2010. The increase of Euro 55.3 million, or 18.0 percent, in the first six months of 2011 as compared to the same period of 2010, was due to the positive effect of currency fluctuations as well as an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 67.6 million, or 6.6 percent, to Euro 1,097.1 million in the first six months of 2011 from Euro 1,029.5 million in the same period of 2010, essentially in line with the increase of net sales in the period. As a percentage of net sales, cost of sales decreased to 34.4 percent in the first six months of 2011 as compared to 34.5 percent in the same period of 2010. In the first six months of 2011, the average number of frames produced daily in our facilities increased to

Table of Contents

approximately 266,000 as compared to approximately 233,300 in the same period of 2010, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 135.2 million, or 6.9 percent, to Euro 2,092.5 million in the first six months of 2011 from Euro 1,957.3 million for the same period of 2010. As a percentage of net sales, gross profit increased to 65.6 percent in the first six months of 2011 as compared to 65.5 percent for the same period of 2010, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 80.6 million, or 5.3 percent, to Euro 1,608.3 million in the first six months of 2011 from Euro 1,527.7 million in the same period of 2010. As a percentage of net sales, operating expenses decreased to 50.4 percent in the first six months of 2011, from 51.1 percent in the same period of 2010.

Selling and advertising expenses (including royalty expenses) increased by Euro 54.6 million, or 4.6 percent, to Euro 1,241.1 million in the first six months of 2011 from Euro 1,186.5 million in the same period of 2010. Selling expenses increased by Euro 42.8 million, or 4.6 percent. Advertising expenses increased by Euro 7.2 million, or 3.7 percent. Royalties increased by Euro 4.6 million, or 8.7 percent. As a percentage of net sales, selling and advertising expenses decreased to 38.9 percent in the first six months of 2011, compared to 39.7 percent for the same period of 2010, mainly due to efficiencies reached in managing our sales force.

General and administrative expenses, including intangible asset amortization increased by Euro 26.0 million, or 7.6 percent, to Euro 367.2 million in the first six months of 2011 as compared to Euro 341.2 million in the same period of 2010. As a percentage of net sales, general and administrative expenses were 11.5 percent in the first six months of 2011 as compared to 11.4 percent in the same period of 2010.

Income from Operations. For the reasons described above, income from operations increased by Euro 54.7 million, or 12.7 percent, to Euro 484.2 million in the first six months of 2011 from Euro 429.6 million in the same period of 2010. As a percentage of net sales, income from operations increased to 15.2 percent in the first six months of 2011 from 14.4 percent in the same period of 2010.

Other Income (Expense) Net. Other income (expense) net was Euro (56.1) million in the first six months of 2011 as compared to Euro (53.0) million in the same period of 2010. Net interest expense was Euro 53.2 million in the first six months of 2011 as compared to Euro 48.3 million in the same period of 2010. The increase in net interest expense is attributable to an increase in the cost of debt, mainly due to (i) the arrangement of new long-term debt, which has extended the average maturity of the Group's debt and (ii) a higher debt exposure in certain emerging markets where the Group now operates, where the cost of indebtedness is significantly higher as compared to the cost of indebtedness in markets where the Group historically has obtained financing.

Net Income. Income before taxes increased by Euro 51.6 million, or 13.7 percent, to Euro 428.1 million in the first six months of 2011 from Euro 376.5 million in the same period of 2010, for the reasons described above. As a percentage of net sales, income before taxes increased to 13.4 percent in the first six months of 2011 from 12.6 percent in the same period of 2010. Net income attributable to non-controlling interests increased to Euro 4.1 million in the first six months of 2011 as compared to Euro 3.4 million in the same period of 2010. Our effective tax rate was 34.4 percent in the first six months of 2011 as compared to 34.0 percent for the same period of 2010.

Net income attributable to Luxottica Group stockholders increased by Euro 31.7 million, or 12.9 percent, to Euro 276.8 million in the first six months of 2011 from Euro 245.1 million in the same period of

2010. Net income attributable to Luxottica Group stockholders as a percentage of net sales increased to 8.7 percent in the first six months of 2011 from 8.2 percent in the same period of 2010.

Basic and diluted earnings per share were Euro 0.60 in the first six months of 2011 as compared to Euro 0.53 in the same period of 2010.

Net Sales. Net sales increased by Euro 38.4 million, or 2.4 percent, to Euro 1,633.5 million in the three-month period ended June 30, 2011 from Euro 1,595.1 million in the same period of 2010. Euro 52.8 million of such increase was attributable to the increased sales in the manufacturing and wholesale distribution segment in the three-month period ended June 30, 2011 as compared to the same period in 2010,

partially offset by decreased sales in the retail distribution segment of Euro 14.4 million for the same period.

Table of Contents

Net sales for the retail distribution segment decreased by Euro 14.4 million, or 1.5 percent, to Euro 929.6 million in the three-month period ended June 30, 2011 from Euro 944.0 million in the same period in 2010. The decrease in net sales for the period was attributable to negative currency fluctuations. The segment experienced a 5.4 percent improvement in comparable store sales⁶. In particular, there was a 5.8 percent increase in comparable store sales for the North American retail operations, which was partially curbed by almost flat comparable store sales of 0.6 percent for the Australian/New Zealand retail operations. The effects from currency fluctuations between the Euro (which is our reporting currency) and other currencies in which we conduct business, in particular the weakening of the U.S. dollar, despite the strengthening of the Australian dollar compared to the Euro, decreased net sales in the retail distribution segment by Euro 90.2 million during the period.

⁶ Comparable store sales reflects the change in sales from one period to another that, for comparison purposes, includes in the calculation only stores open in the more recent period that also were open during the comparable prior period in the same geographic area, and applies to both periods the average exchange rate for the prior period.

Net sales to third parties in the manufacturing and wholesale distribution segment increased by Euro 52.8 million, or 8.1 percent, to Euro 704.0 million in the three-month period ended June 30, 2011 from Euro 651.2 million in the same period in 2010. This increase was mainly attributable to increased sales of most of our house brands, in particular Ray-Ban, and of some designer brands such as Chanel, Polo, Burberry and Tiffany. These sales volume increases occurred in most of the geographic markets in which the Group operates. These positive effects were partially decreased by negative currency fluctuations, in particular a weakening of the U.S. dollar and other minor currencies, including but not limited to the Brazilian Real, the Canadian dollar and the Japanese Yen, which decreased net sales to third parties in the manufacturing and wholesale distribution segment by Euro 22.7 million, notwithstanding the strengthening of the Australian dollar.

During the three-month period ended June 30, 2011, net sales in the retail distribution segment accounted for approximately 56.9 percent of total net sales, as compared to approximately 59.2 percent of total net sales for the same period in 2010. This decrease in sales for the retail distribution segment as a percentage of total net sales was primarily attributable to an 8.1 percent increase in net sales to third parties in our manufacturing and wholesale distribution segment for the three-month period ended June 30, 2011 from the same period of 2010, as compared to a 1.5 percent decrease in net sales in the retail distribution segment for the three-month period ended June 30, 2011 from the same period of 2010.

During the three-month period ended June 30, 2011, net sales in our retail distribution segment in the United States and Canada comprised 81.6 percent of our total net sales in this segment as compared to 83.5 percent of our total net sales in the same period of 2010. In U.S. dollars, retail net sales in the United States and Canada increased by 8.4 percent to U.S. \$1,091.1 million in the three-month period ended June 30, 2011 from U.S. \$1,007.0 million for the same period in 2010, due to sales volume increases. During the three-month period ended June 30, 2011, net sales in the retail distribution segment in the rest of the world (excluding the United States and Canada) comprised 18.4 percent of our total net sales in the retail distribution segment and increased by 9.7 percent to Euro 170.9 million in the three-month period ended June 30, 2011 from Euro 155.8 million, or 16.5 percent of our total net sales in the retail distribution segment for the same period in 2010, mainly due to an increase in consumer demand.

During the three-month period ended June 30, 2011, net sales to third parties in our manufacturing and wholesale distribution segment in Europe were Euro 370.2 million, comprising 52.6 percent of our total net sales in this segment, compared to Euro 326.6 million, or 50.2 percent of total net sales in the segment, for the same period in 2010. The increase in net sales in Europe of Euro 43.6 million in the three-month period ended June 30, 2011 as compared to the same period of 2010 constituted a 13.3 percent increase in net sales to third parties, due to a general increase in consumer demand. Net

sales to third parties in our manufacturing and wholesale distribution segment in the United States and Canada were U.S. \$212.8 million and comprised 21.0 percent of our total net sales in this segment for the three-month period ended June 30, 2011, compared to U.S. \$203.7 million, or 24.3 percent of total net sales in the segment, for the same period of 2010. The increase in net sales in the United States and Canada was primarily due to a general increase in consumer demand. In the three-month period ended June 30, 2011, net sales to third parties in our manufacturing and wholesale distribution segment in the rest of the world were Euro 186.0 million, comprising 26.4 percent of our total net sales in this segment, compared to Euro 166.0 million, or 25.5 percent of our net sales in this segment, in the same period of 2010. The increase of Euro 20.0 million, or 12.0 percent, in the three-month period ended June 30, 2011 as compared to the same period of 2010, was due to an increase in consumer demand.

Cost of Sales. Cost of sales increased by Euro 12.9 million, or 2.4 percent, to Euro 542.7 million in the three-month period ended June 30, 2011 from Euro 529.8 million in the same period of 2010, essentially in line with the increase of net sales in the period. As a percentage of net sales, cost of sales remained flat at 33.2 percent in the three-month periods ended June 30, 2011 and 2010. The average number of frames produced daily in our facilities increased to approximately 280,700 in the three-month period ended June 30, 2011, as compared to approximately 243,200 in the same period of 2010, which was attributable to increased production in all manufacturing facilities in response to an overall increase in demand.

Gross Profit. Our gross profit increased by Euro 25.5 million, or 2.4 percent, to Euro 1,090.9 million in the three-month period ended June 30, 2011 from Euro 1,065.4 million for the same period of 2010. As a percentage of net sales, gross profit remained flat at 66.8 percent in the three-month periods ended June 30, 2011 and 2010, due to the factors noted above.

Operating Expenses. Total operating expenses increased by Euro 7.1 million, or 0.9 percent, to Euro 814.1 million in the three-month period ended June 30, 2011 from Euro 807.0 million in the same period of 2010. As a percentage of net sales, operating expenses decreased to 49.8 percent in the three-month period ended June 30, 2011, from 50.6 percent in the same period of 2010.

Selling and advertising expenses (including royalty expenses) increased by Euro 2.2 million, or 0.3 percent, to Euro 629.9 million in the three-month period ended June 30, 2011 from Euro 627.7 million in the same period of 2010. Selling expenses increased by Euro 3.3 million, or 0.7 percent. Advertising expenses decreased by Euro 2.1 million, or 1.8 percent. Royalties increased by Euro 0.9 million, or 3.2 percent. As a percentage of net sales, selling and advertising expenses decreased to 38.6 percent in the three-month period ended June 30, 2011, compared to 39.4 percent for the same period of 2010, mainly due to efficiencies reached in managing our sales force.

General and administrative expenses, including intangible asset amortization increased by Euro 4.9 million, or 2.7 percent, to Euro 184.2 million in the three-month period ended June 30, 2011 as compared to Euro 179.3 million in the same period of 2010. As a percentage of net sales, general and administrative expenses were 11.3 percent in the three-month period ended June 30, 2011 as compared to 11.2 percent in the same period of 2010.

Income from Operations. For the reasons described above, income from operations increased by Euro 18.5 million, or 7.2 percent, to Euro 276.8 million in the three-month period ended June 30, 2011 from Euro 258.3 million in the same period of 2010. equipment net of Euro 36.9 million, investments of Euro 0.5 million and other assets of Euro 4.1 million partially offset by increases of deferred tax assets of Euro 4.8 million.

NON-IAS/IFRS MEASURES

Adjusted measures

We use in this Management Report certain performance measures that are not in accordance with IAS/IFRS. Such non-IAS/IFRS measures are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding our operational performance.

Such measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors. Such non-IAS/IFRS measures are explained in detail and reconciled to their most comparable IAS/IFRS measures below.

In order to provide a supplemental comparison of current period results of operations to prior periods, we have adjusted for certain non-recurring transactions or events.

We have made such adjustments to the following measures: EBITDA, EBITDA margin and net income.

For comparative purposes, management has adjusted each of the foregoing measures by excluding the following:

- (a) a non-recurring gain in 2010 from the release of a provision for taxes of approximately U.S. \$27 million (approximately Euro 20 million at December 31, 2010) related to the sale of the Things Remembered retail chain in 2006; and
- (b) a non-recurring loss in the fourth quarter of 2010 from the impairment charge recorded of approximately Euro 20 million related to certain of the Company's assets in the Australian region.

The Company believes that these adjusted measures are useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry because they exclude the impact of non-recurring items that are not relevant to the Company's operating performance.

The adjusted measures referenced above are not measures of performance in accordance with International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS). We include these adjusted comparisons in this presentation in order to provide a supplemental view of operations that excludes items that are unusual, infrequent or unrelated to our ongoing core operations. See the tables below for a reconciliation of the adjusted measures discussed above to their most directly comparable IAS/IFRS financial measure or, in the case of adjusted EBITDA, to EBITDA, which is also a non-IAS/IFRS measure. For reconciliation of EBITDA to its most directly comparable IAS/IFRS measure, see the pages following the tables below:

EBITDA and EBITDA margin

EBITDA represents net income attributable to Luxottica Group stockholders, before non-controlling interest, provision for income taxes, other income/expense, depreciation and amortization. EBITDA margin means EBITDA divided by net sales. We believe that EBITDA is useful to both management and investors in evaluating our operating performance compared with that of other companies in our industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business.

EBITDA and EBITDA margin are not measures of performance under IAS/IFRS. We include them in this Management Report in order to:

improve transparency for investors;

assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;

assist investors in their assessment of the Company's cost of debt;

ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;

properly define the metrics used and confirm their calculation; and

share these measures with all investors at the same time.

EBITDA and EBITDA margin are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculating EBITDA may differ from methods used by other companies. We recognize that the usefulness of EBITDA has certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss.

We compensate for the foregoing limitations by using EBITDA as a comparative tool, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

The following table provides a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of EBITDA margin on net sales:

Free Cash Flow

Free cash flow represents net income before noncontrolling interests, taxes, other income/expense, depreciation and amortization (i.e., EBITDA) plus or minus the decrease/(increase) in working capital over the prior period, less capital expenditures, plus or minus interest income/(expense) and extraordinary items, minus taxes paid. We believe that free cash flow is useful to both management and investors in evaluating our operating performance compared with other companies in our industry. In particular, our calculation of free cash flow provides a clearer picture of our ability to generate net cash from operations, which is used for mandatory debt service requirements, to fund discretionary investments, pay dividends or pursue other strategic opportunities.

Free cash flow is not a measure of performance under IAS/IFRS. We include it in this Management Report in order to:

Improve transparency for investors;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

Assist investors in their assessment of our operating performance and our ability to generate cash from operations in excess of our cash expenses;

Ensure that this measure is fully understood in light of how we evaluate our operating results;

Properly define the metrics used and confirm their calculation; and

Share this measure with all investors at the same time.

Free cash flow is not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, this non-IAS/IFRS measure should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that this measure is not a defined term under IAS/IFRS and its definition should be carefully reviewed and understood by investors.

Investors should be aware that our method of calculation of free cash flow may differ from methods used by other companies. We recognize that the usefulness of free cash flow as an evaluative tool may have certain limitations, including:

The manner in which we calculate free cash flow may differ from that of other companies, which limits its usefulness as a comparative measure;

Free cash flow does not represent the total increase or decrease in the net debt balance for the period since it excludes, among other things, cash used for funding discretionary investments and to pursue strategic opportunities during the period and any impact of the exchange rate changes; and

Free cash flow can be subject to adjustment at our discretion if we take steps or adopt policies that increase or diminish our current liabilities and/or changes to working capital.

We compensate for the foregoing limitations by using free cash flow as one of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance.

The following table provides a reconciliation of free cash flow to EBITDA and the table above provides a reconciliation of EBITDA to net income, which is the most directly comparable IAS/IFRS financial measure:

Net debt to EBITDA ratio

Net debt means the sum of bank overdrafts, current portion of long-term debt and long-term debt, less cash. EBITDA represents net income before non-controlling interest, taxes, other income/expense, depreciation and amortization. The Company believes that EBITDA is useful to both management and investors in evaluating the Company's operating performance compared with that of other companies in its industry. Our calculation of EBITDA allows us to compare our operating results with those of other companies without giving effect to financing, income taxes and the accounting effects of capital spending, which items may vary for different companies for reasons unrelated to the overall operating performance of a company's business. The ratio of net debt to EBITDA is a measure used by management to assess the Company's level of leverage, which affects our ability to refinance our debt as it matures and incur additional indebtedness to invest in new business opportunities. The ratio also allows management to assess the cost of existing debt since it affects the interest rates charged by the Company's lenders.

EBITDA and ratio of net debt to EBITDA are not measures of performance under International Financial Reporting Standards as issued by the International Accounting Standards Board (IAS/IFRS).

We include them in this Management Report in order to:

- improve transparency for investors;
- assist investors in their assessment of the Company's operating performance and its ability to refinance its debt as it matures and incur additional indebtedness to invest in new business opportunities;
- assist investors in their assessment of the Company's cost of debt;
- ensure that these measures are fully understood in light of how the Company evaluates its operating results and leverage;
- properly define the metrics used and confirm their calculation; and
- share these measures with all investors at the same time.

EBITDA and ratio of net debt to EBITDA are not meant to be considered in isolation or as a substitute for items appearing on our financial statements prepared in accordance with IAS/IFRS. Rather, these non-IAS/IFRS measures should be used as a supplement to IAS/IFRS results to assist the reader in better understanding the operational performance of the Company.

The Company cautions that these measures are not defined terms under IAS/IFRS and their definitions should be carefully reviewed and understood by investors.

Investors should be aware that Luxottica Group's method of calculating EBITDA and the ratio of net debt to EBITDA may differ from methods used by other companies.

The Company recognizes that the usefulness of EBITDA and the ratio of net debt to EBITDA as evaluative tools may have certain limitations, including:

EBITDA does not include interest expense. Because we have borrowed money in order to finance our operations, interest expense is a necessary element of our costs and ability to generate profits and cash flows. Therefore, any measure that excludes interest expense may have material limitations;

EBITDA does not include depreciation and amortization expense. Because we use capital assets, depreciation and amortization expense is a necessary element of our costs and ability to generate profits. Therefore, any measure that excludes depreciation and expense may have material limitations;

Edgar Filing: LUXOTTICA GROUP SPA - Form 6-K

Table of Contents

EBITDA does not include provision for income taxes. Because the payment of income taxes is a necessary element of our costs, any measure that excludes tax expense may have material limitations;

EBITDA does not reflect cash expenditures or future requirements for capital expenditures or contractual commitments;

EBITDA does not reflect changes in, or cash requirements for, working capital needs;

EBITDA does not allow us to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss; and

The ratio of net debt to EBITDA is net of cash and cash equivalents, restricted cash and short-term investments, thereby reducing our debt position.

Because we may not be able to use our cash to reduce our debt on a dollar-for-dollar basis, this measure may have material limitations. We compensate for the foregoing limitations by using EBITDA and the ratio of net debt to EBITDA as two of several comparative tools, together with IAS/IFRS measurements, to assist in the evaluation of our operating performance and leverage.

See the table below for a reconciliation of net debt to long-term debt, which is the most directly comparable IAS/IFRS financial measure, as well as the calculation of the ratio of net debt to EBITDA. For a reconciliation of EBITDA to its most directly comparable IAS/IFRS measure, see the table on the earlier page.

Luxottica Group S.p.A. (hereinafter the "Company" or together with its consolidated subsidiaries, the "Group") is a company listed on Borsa Italiana and the New York Stock Exchange with its registered office located at Via C. Cantù 2, 20123 Milan (Italy).

The Company is controlled by Delfin S.à r.l., based in Luxembourg. The chairman of the Board of Directors of the Company, Leonardo Del Vecchio, controls Delfin S.à r.l.

The Company's Board of Directors, at its meeting on July 25, 2011, approved this Condensed Consolidated Half Year Financial Report (hereinafter referred to as the "Half Year Financial Report") for publication.

The financial statements included in this Half Year Financial Report are unaudited.

2. BASIS OF PREPARATION

This Half Year Financial Report has been prepared in accordance with article 154-ter of the Legislative Decree No. 58 dated February 24, 1998.

The financial statements included in the Half Year Financial Report (the "Half Year Financials") have been prepared in compliance with the International Financial Reporting Standards issued by the International Accounting Standards Board ("IASB") and endorsed by the European Union ("IAS/IFRS"), and in accordance with International Accounting Standard ("IAS") 34 *Interim Financial Reporting*.

The principles and standards used in the preparation of this unaudited Half Year Financial report are consistent with those used in preparing the audited consolidated financial statements as of December 31, 2010, except as described in Note 3 "New Accounting Standards".

In particular, this Half Year Financial report has been prepared on a going concern basis. Management believes that there are no material uncertainties that may cast significant doubt upon the Group's ability to continue as a going concern.

The consolidated financial statements in this report are composed of the consolidated statements of financial position, the consolidated statements of income, the consolidated statements of comprehensive income, the consolidated statements of stockholders' equity, the consolidated statements of cash flows and these Notes to the Half Year Financial Report.

The preparation of an interim report requires management to use estimates and assumptions that affect the reported amounts of revenue, costs, assets and liabilities, as well as disclosures relating to contingent assets and liabilities at the reporting date. Results published on the basis of such estimates and assumptions could vary from actual results that may be realized in the future.

These measurement processes and, in particular, those that are more complex, such as the calculation of impairment losses on non-current assets, are generally carried out only when the audited consolidated financial statements for the fiscal year are prepared, when all the necessary information is available, unless there are indicators requiring immediate impairment testing. Similarly, the actuarial

calculations necessary to calculate certain employee benefit liabilities, the changes to most deferred tax assets and liabilities and the impact of share-based payments are normally carried out when the audited consolidated financial statements for the fiscal year are prepared.

Lastly, with reference to Consob resolution no. 15519 of July 27, 2006, which addresses the format of the financial statements, the Company has not included any specific supplements to the statement of income, statement of financial position or statement of cash flows showing related party transactions, as these are immaterial. Please see Note 27 "Related Party Transactions" for additional details regarding transactions with related parties.

CONSOLIDATION AREA

In the first six months of 2011 there were no significant changes to the consolidation area.

3. NEW ACCOUNTING STANDARDS

Beginning in 2011, the Group applied the following new accounting standards, amendments and interpretations, as revised by the IASB:

IFRS 3 Business Combinations: The amendment, applicable for annual periods beginning on or after July 1, 2010, clarifies that contingent consideration balances arising from business combinations whose acquisition date preceded the date when an entity first applied IFRS 3 as issued in 2008, do not have to be adjusted upon application of this IFRS. The amendment also clarifies that for each business combination, the acquirer shall measure at the acquisition date components of non-controlling interests in the acquiree that are present ownership interests and entitle the holder to a proportionate share of the entity's net assets in the event of liquidation. The amendment also specifies that an acquirer must measure a liability or an equity instrument related to share-based payment transactions of the acquiree or the replacement of an acquiree's share-based payment transactions with share-based payment transactions of the acquirer in accordance with the method set forth in IFRS 2 at the acquisition date. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IAS 24 (revised) Related party disclosures, issued in November 2009. It supersedes *IAS 24 Related party disclosures*, issued in 2003. The revised standard, mandatory for periods beginning on or after January 1, 2011, clarifies and simplifies the definition of a related party and removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IFRIC 14 amendments Prepayments of a minimum funding requirement, issued in November 2009. The amendments, effective for annual periods beginning January 1, 2011, correct an unintended consequence of IFRIC 14, IAS 19 *The limit on a defined benefit asset, minimum funding requirements and their interactions*. Without the amendments, entities are not permitted to recognize as an asset certain voluntary prepayments for minimum funding contributions. The amendments had no significant effects on the Group consolidated financial statements as of June 30, 2011.

3. NEW ACCOUNTING STANDARDS (Continued)

IFRIC 19 Extinguishing financial liabilities with equity instruments, issued in November 2009, is effective for annual periods beginning on or after July 1, 2010. The interpretation clarifies the accounting by an entity when the terms of a financial liability are renegotiated and result in the entity issuing equity instruments to a creditor of the entity to extinguish all or part of the financial liability. It requires a gain or loss to be recognized in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued. If the fair value of the equity instruments issued cannot be reliably measured, the equity instruments should be measured to reflect the fair value of the financial liability extinguished.

IAS 32 amendment *Classification of rights issues*, issued in October 2009. The amendment, applicable to annual periods beginning on or after February 1, 2010, addresses the accounting for rights issues that are denominated in a currency other than the functional currency of the issuer. Provided certain conditions are met, such rights issues are now classified as equity regardless of the currency in which the exercise price is denominated. The amendment applies retrospectively in accordance with IAS 8 *Accounting policies, changes in accounting estimates and errors*. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IFRS 7 *Financial Instruments: Disclosures*. The amendment, applicable to annual periods beginning on or after July 1, 2010, emphasizes the interaction between qualitative and quantitative disclosures about the nature and extent of risks arising from financial liabilities. The amendment eliminates the requirement to disclose the carrying amount of financial assets that would otherwise be past due or impaired where their terms were renegotiated. The amendment also eliminates the requirement to disclose the fair value of collateral and other credit enhancements, which can be potentially misleading, although an entity is still required to disclose a description of the collateral and its financial effects. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IAS 1 *Presentation of Financial Statements*. The amendment, applicable to annual periods beginning on or after January 1, 2011, requires, either in the statement of changes in equity or in the notes, an analysis of other comprehensive income by item. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IAS 27 *Consolidated and separate financial statements*. The amendment clarifies the transition requirements for amendments arising as a result of IAS 27. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

IAS 34 *Interim Financial Reporting*. The amendment clarifies that the information included in the interim financial reporting on significant transactions and events should update the relevant information presented in the most recent annual report. The amendment had no significant effects on the Group consolidated financial statements as of June 30, 2011.

3. NEW ACCOUNTING STANDARDS (Continued)*Amendments and interpretations of existing principles which are effective for reporting periods beginning after January 1, 2011, and not early adopted*

IFRS 9 *Financial instruments*, issued in November 2009. This standard is the first step in the process to replace IAS 39 *Financial instruments: recognition and measurement*. IFRS 9 introduces new requirements for classifying and measuring financial assets. The new standard reduces the number of categories of financial assets pursuant to IAS 39 and requires that all financial assets be: (i) classified on the basis of the model which a company has adopted in order to manage its financial activities and on the basis of the cash flows from financing activities; (ii) initially measured at fair value plus any transaction costs in the case of financial assets not measured at fair value through profit and loss; and (iii) subsequently measured at their fair value or at the amortized cost. IFRS 9 also provides that embedded derivatives which fall within the scope of IFRS 9 must no longer be separated from the primary contract which contains them and states that a company may decide to directly record within the consolidated statement of comprehensive income any changes in the fair value of investments which fall within the scope of IFRS 9. The standard is not applicable until January 1, 2013, but is available for early adoption. The Group has not early adopted and has not yet assessed IFRS 9's full impact.

4. SEGMENT REPORTING

In accordance with IFRS 8 *Operating Segments* the segment reporting schedules are provided below using a reporting format which includes two market segments: the first relates to Manufacturing and Wholesale Distribution ("Wholesale"), while the second relates to Retail Distribution ("Retail").

The decrease in income taxes receivable was primarily due to an offset of tax receivables by Euro 45.1 million of tax payables in the North American operations.

The increase in other assets is related to the timing of payments of royalty advances as contractually agreed.

The net book value of financial assets is approximately equal to their fair value and corresponds to the maximum exposure of the credit risk. The Group has no guarantees or other instruments to manage credit risk.

(a) In April 2008, the Company entered into a Euro 150.0 million unsecured credit facility with Banca Nazionale del Lavoro. This facility was an 18-month revolving credit facility that provided borrowing availability of up to Euro 150.0 million. The amounts borrowed under the revolving facility could be borrowed and repaid until final maturity. Interest accrued at EURIBOR plus 0.375 percent. The Company could select interest periods of one, three or six months. In June 2009, the Company renegotiated this credit facility. Interest accrued at EURIBOR plus 1.90 percent. The final maturity of the amended credit facility was July 13, 2011. On January 20, 2011, the Company terminated this credit line.

On May 29, 2008, the Company entered into a Euro 250.0 million revolving credit facility, guaranteed by its subsidiary, Luxottica U.S. Holdings Corp. ("US Holdings"), with Intesa Sanpaolo S.p.A., as agent, and Intesa Sanpaolo S.p.A., Banca Popolare di Vicenza S.c.p.A. and Banca Antonveneta S.p.A., as lenders. The final maturity of the credit facility is May 29, 2013. This revolving credit facility will require repayments of equal quarterly installments of Euro 30.0 million of principal starting on August 29, 2011, with a repayment of Euro 40.0 million on the final maturity date of May 29, 2013. Interest accrues at EURIBOR (as defined in the agreement) plus a margin between 0.40 percent and 0.60 percent based on the "Net Debt/EBITDA" ratio, as defined in the agreement (1.883 percent as of June 30, 2011). As of June 30, 2011, Euro 250.0 million was borrowed under this credit facility. The credit facility contains certain financial and operating covenants. The Company was in compliance with those covenants as of June 30, 2011.

In June and July 2009, the Company entered into eight interest rate swap transactions with an aggregate initial notional amount of Euro 250.0 million with various banks ("Intesa Swaps"). The Intesa Swaps will decrease their notional amount on a quarterly basis, following the amortization schedule of the underlying facility, starting on August 29, 2011. These Intesa Swaps will expire on May 29, 2013. The Intesa Swaps were entered into as a cash flow hedge on the Intesa Sanpaolo S.p.A. credit facility discussed above. The Intesa Swaps exchange the floating rate of EURIBOR for an average fixed rate of 2.252 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and

On November 10, 2010, the Company issued senior unsecured guaranteed notes to institutional investors (Eurobond November 10, 2015) for an aggregate principal amount of Euro 500.0 million. The notes mature on November 10, 2015 and interest accrues at 4.00 percent. The notes are listed on the Luxembourg Stock Exchange (ISIN XS0557635777). The Company was in compliance with those covenants as of June 30, 2011.

(c) On June 3, 2004, as amended on March 10, 2006, the Company and US Holdings entered into a credit facility with a group of banks providing for loans in the aggregate principal amount of Euro 740.0 million and U.S. \$325.0 million. The five-year facility consisted of three Tranches (Tranche A, Tranche B and Tranche C). The March 10, 2006 amendment increased the available borrowings to Euro 1,130.0 million and U.S. \$325.0 million, decreased the interest margin and defined a new maturity date of five years from the date of the amendment for Tranche B and Tranche C. In February 2007, the Company exercised an option included in the amendment to the term and revolving facility to extend the maturity date of Tranches B and C to March 2012. In February 2008, the Company exercised an option included in the amendment to the term and revolving facility to extend the maturity date of Tranches B and C to March 2013. Tranche A, which was to be used for general corporate purposes, including the refinancing of existing Company debt as it matures, was a Euro 405.0 million amortizing term loan requiring repayment of nine equal quarterly installments of principal of Euro 45.0 million beginning in June 2007. Tranche A expired on June 3, 2009 and was repaid in full. Tranche B is a term loan of U.S. \$325.0 million which was drawn upon on October 1, 2004 by US Holdings to finance the purchase price of the acquisition of Cole National Corporation ("Cole"). Amounts borrowed under Tranche B will mature in March 2013. Tranche C is a Revolving Credit Facility of Euro 725.0 million-equivalent multi-currency (Euro/US dollar). Amounts borrowed under Tranche C may be repaid and reborrowed with all outstanding balances maturing in March 2013. The Company can select interest periods of one, two, three or six months with interest accruing on Euro-denominated loans based on the corresponding EURIBOR rate and US dollar-denominated loans based on the corresponding LIBOR rate, both plus a margin between 0.20 percent and 0.40 percent based on the "Net Debt/EBITDA" ratio, as defined in the agreement. The interest rate on June 30, 2011 was 0.500 percent for Tranche B, while Tranche C was not used. The credit facility contains certain financial and operating covenants. The Company was in compliance with those covenants as of June 30, 2011. Under this credit facility, Euro 202.8 million was borrowed as of June 30, 2011.

During the third quarter of 2007, the Group entered into 13 interest rate swap transactions with an aggregate initial notional amount of U.S. \$325.0 million with various banks ("Tranche B Swaps"). These swaps will expire on March 10, 2012. The Tranche B Swaps were entered into as a cash flow hedge on Tranche B of the credit facility discussed above. The Tranche B Swaps exchange the floating rate of LIBOR for an average fixed rate of 4.634 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

(d) On November 14, 2007, the Group completed the merger with Oakley for a total purchase price of approximately U.S. \$2.1 billion. term loans and a short-term bridge loan for an aggregate principal amount of U.S. \$2.0 billion. The term loan facility is a term loan of U.S. \$1.5 billion, with a five-year term, with options to extend the maturity on two occasions for one year each time. The term loan facility is divided into two facilities, Facility D and Facility E. Facility D is a U.S. \$1.0 billion amortizing term loan requiring repayments of U.S. \$50.0 million on a quarterly basis starting from October 2009, made available to US Holdings, and Facility E consists of a bullet term loan in an aggregate amount of U.S. \$500.0 million, made available to the Company. Interest accrues on the term loan at LIBOR plus 20 to 40 basis points based on "Net Debt to EBITDA" ratio, as defined in the facility agreement (0.535 percent for Facility D and 0.499 percent for Facility E on June 30, 2011). In September 2008, the Company exercised an option included in the agreement to extend the maturity date of Facilities D and E to October 12, 2013. These credit facilities contain certain financial and operating covenants. The Company was in compliance with those covenants as of June 30, 2011. These swaps will expire on October 12, 2012. The Tranche E Swaps were entered into as a cash flow hedge on Facility E of the credit facility discussed above. The Tranche E Swaps exchange the floating rate of LIBOR for an average fixed rate of 4.260 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

During the fourth quarter of 2008 and the first quarter of 2009, US Holdings entered into 14 interest rate swap transactions with an aggregate initial notional amount of U.S. \$700.0 million with various banks ("Tranche D Swaps"), which will start to decrease by U.S. \$50.0 million every three months beginning on April 12, 2011. The final maturity of these swaps will be October 12, 2012. The Tranche D Swaps were entered into as a cash flow hedge on Facility D of the credit facility discussed above. The Tranche D Swaps exchange the floating rate of LIBOR for an average fixed rate of 2.503 percent per annum. The ineffectiveness of cash flow hedges was tested at the inception date and at least every three months. The results of the tests indicated that the cash flow hedges are highly effective.

The short-term bridge loan facility was for an aggregate principal amount of U.S. \$500.0 million. Interest accrued on the short-term bridge loan at LIBOR (as defined in the facility agreement) plus 0.15 percent. The final maturity of the credit facility was eight months from the first utilization date. On April 29, 2008, the Company and US Holdings entered into an amendment and transfer agreement to this short-term bridge loan facility. The terms of this amendment and transfer agreement, among other things, reduced the total facility amount from U.S. \$500.0 million to U.S. \$150.0 million, effective on July 1, 2008, and provided for a final maturity date that was 18 months from the effective date of the agreement. From July 1, 2008, interest accrued at LIBOR (as defined in the facility agreement) plus 0.60 percent. On November 27, 2009, the Company and US Holdings amended the U.S. \$150.0 million short-term bridge loan facility to, among other things, reduce the total facility amount from U.S. \$150.0 million to U.S. \$75.0 million, effective November 30, 2009, and provide for a final maturity date of November 30, 2011. The new terms also provided for the repayment of U.S. \$25.0 million on November 30, 2010 and the remaining principal at the final maturity date. From November 30, 2009, interest accrued at LIBOR (as defined in the facility agreement) plus 1.90 percent. US Holdings prepaid U.S. \$25.0 million on

26. COMMITMENTS AND RISKS

The Group has commitments under contractual agreements in place. Such commitments relate to the following:

royalty agreements signed with certain designers whereby the Group is required to pay royalties and advertising fees calculated as a percentage of turnover (as contractually defined) guaranteeing, in some cases, a minimum annual amount. These agreements require minimum payments of an aggregate of Euro 316.7 million as of June 30, 2011 and Euro 392.4 million as of December 31, 2010.

rental and operating lease agreements for various stores, plants, warehouses and offices, along with a portion of the IT system and motor vehicles. The agreements include renewal options subject to various conditions. The rental and licensing agreements for the Group's points of sale in the United States often include rent increase clauses and conditions requiring the payment of progressively higher rent installments, in addition to an established minimum, in relation to the achievement of sales targets set forth in such agreements. Future minimum rental payments required under these rental and operating agreements were Euro 1,027.3 million as of June 30, 2011 and Euro 1,285.0 million as of December 31, 2010.

other commitments which include future payments for endorsement contracts, supplier purchases and other long-term commitments mainly consist of auto, machinery and equipment lease commitments as well as commitments to open additional Sunglass Hut points of sale in approximately 430 Macy's department stores in the U.S. subsequent to an agreement entered into with Macy's Inc. on December 4, 2009. Future payments related to those commitments were Euro 50.8 million as of June 30, 2011 and Euro 32.8 million as of December 31, 2010.

Guarantees

The United States Shoe Corporation, a wholly-owned subsidiary within the Group, has guaranteed the lease payments for five stores in the United Kingdom. A sixth such lease terminated on June 30, 2011. These lease agreements have varying termination dates through June 30, 2017. At June 30, 2011, the Group's maximum liability amounted to Euro 3.5 million (Euro 4.0 million at December 31, 2010).

A wholly-owned U.S. subsidiary guaranteed future minimum lease payments for lease agreements on certain stores. The lease agreements were signed directly by the franchisees as part of certain franchising agreements. Total minimum guaranteed payments under this guarantee were Euro 0.7 million (U.S. \$1.0 million) at June 30, 2011 (Euro 1.5 million at December 31, 2010). The commitments provided for by the guarantee arise if the franchisee cannot honor its financial commitments under the lease agreements.

Credit lines

As of June 30, 2011 and as of December 31, 2010, the Company had unused short-term lines of credit of approximately Euro 593.0 million and Euro 559.8 million, respectively.

The Company and its wholly-owned Italian subsidiary Luxottica S.r.l. maintain unsecured lines of credit with primary banks for an aggregate maximum credit of Euro 326.8 million. These lines of credit

are renewable annually, can be canceled on short notice and have no commitment fees. At June 30, 2011, these credit lines were utilized for Euro 0.1 million.

US Holdings maintains unsecured lines of credit with three separate banks for an aggregate maximum credit of Euro 92.8 million (U.S. \$134.1 million). These lines of credit are renewable annually, can be canceled on short notice and have no commitment fees. At June 30, 2011, they were not used and there were Euro 35.7 million in aggregate face amount of standby letters of credit outstanding under these lines of credit (see below).

The blended average interest rate on these lines of credit is approximately LIBOR plus 0.40 percent.

Outstanding Standby Letters of Credit

A wholly-owned U.S. subsidiary has obtained various standby and trade letters of credit from banks that aggregated Euro 35.7 million and Euro 34.0 million as of June 30, 2011 and December 31, 2010, respectively. Most of these letters of credit are used for security in risk management contracts, purchases from foreign vendors or as security on store leases. Most standby letters of credit contain evergreen clauses under which the letter is automatically renewed unless the bank is notified not to renew. Trade letters of credit are for purchases from foreign vendors and are generally outstanding for a period that is less than six months. Substantially all the fees associated with maintaining the letters of credit fall within the range of 40 to 60 basis points annually.

Litigation

The Group and its subsidiaries are involved in the following legal and regulatory proceedings of which, unless already settled or otherwise concluded, the timing and outcomes are inherently uncertain, and such outcomes could have a material adverse effect on the Group's business, financial position or operating results.

French Competition Authority Investigation

Our French subsidiary Luxottica France S.A.S., together with other major companies which operate in the French eyewear industry, has been the subject of an investigation conducted by the French Competition Authority relating to pricing practices in such industry. The investigation is still ongoing and, to date, no formal action has yet been taken by the French Competition Authority. As a consequence, it is not possible to estimate or provide a range of potential liability that may be involved in this matter. The outcome of any such action, which the Group intends to vigorously defend, is inherently uncertain, and there can be no assurance that such action, if adversely determined, will not have a material adverse effect on our business, results of operations and financial condition.

Other proceedings

The Group is a defendant in various other lawsuits arising in the ordinary course of business. It is the opinion of the management of the Group that it has meritorious defenses against all such outstanding claims, which the Company will vigorously pursue, and that the outcome of such claims, individually or in the aggregate, will not have a material adverse effect on the Group's consolidated financial position or results of operations.
