PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS

TO BE HELD

MARCH 7, 2013

INTRODUCTION

This Proxy Statement is furnished in connection with the solicitation on behalf of the Board of Directors of AECOM Technology Corporation, a Delaware corporation ("we," "our," the "Company" or "AECOM"), of proxies for use at our 2013 Annual Meeting of Stockholders ("2013 Annual Meeting") to be held on March 7, 2013, at 9:00 a.m. local time, or at any adjournment or postponement thereof. At the 2013 Annual Meeting, you will be asked to consider and vote on the matters described in this Proxy Statement and in the accompanying notice. The 2013 Annual Meeting will be held at The Millennium Biltmore Hotel, 506 South Grand Avenue, Los Angeles, California 90071. Only stockholders of record at the close of business on January 7, 2013, which is the record date for the 2013 Annual Meeting, are permitted to vote at the 2013 Annual Meeting and any adjournment or postponement thereof.

The Board of Directors is soliciting your vote to

Elect the four Class II Directors named in this Proxy Statement to the Company's Board of Directors to serve until the Company's 2016 Annual Meeting of Stockholders and until the election and qualification of their respective successors;

Ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending September 30, 2013; and

Approve an advisory resolution on the Company's executive compensation.

We are pleased to again take advantage of the Securities and Exchange Commission rule allowing companies to furnish proxy materials to their stockholders over the Internet. We believe that this e-proxy process expedites stockholders' receipt of proxy materials, while also lowering the costs and reducing the environmental impact of our annual meeting. On January 24, 2013, we began mailing a Notice of Internet Availability of Proxy Materials (the "Notice") to all stockholders of record as of January 7, 2013, and posted our proxy materials on the Web site referenced in the Notice. As more fully described in the Notice, all stockholders may choose to access our proxy materials on the Web site referred to in the Notice or may request to receive a printed set of our proxy materials. In addition, the Notice and Web site provide information regarding how you may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis.

The Proxy Statement and Annual Report on Form 10-K are available at *investors.aecom.com*.

INFORMATION REGARDING VOTING AT THE 2013 ANNUAL MEETING

Proxies

You may vote your shares in person at the 2013 Annual Meeting or by proxy. There are three ways to vote by proxy: (1) by Internet by following the instructions on the Notice or proxy card, (2) by telephone by calling 1-800-652-8683 and following the instructions on the Notice or proxy card, or (3) by requesting a printed copy of the proxy materials and signing, dating and mailing the enclosed proxy card to our Corporate Secretary at the address below. If your shares are held in the name of a bank, broker or other holder of record, you will receive instructions from the holder of record. You must follow the instructions of the holder of record in order for your shares to be voted. Internet and telephone voting also will be offered to stockholders owning shares through certain banks and brokers.

You may revoke your proxy at any time before it is exercised by (1) giving our Corporate Secretary written notice of revocation, (2) delivering to us a signed proxy card with a later date, (3) granting a subsequent proxy through the Internet or telephone, or (4) by attending the 2013 Annual Meeting and voting in person. Written notices of revocation and other communications with respect to the revocation of proxies should be addressed to AECOM Technology Corporation, 555 South Flower Street, Suite 3700, Los Angeles, CA 90071, Attention: Corporate Secretary.

All shares represented by valid proxies received and not revoked before they are exercised will be voted in the manner specified in the proxy. Other than with respect to certain trustees who hold our shares in trust, if you submit proxy voting instructions but do not direct how to vote on each item, the persons named as proxies will vote in favor of each of the proposals. Our Board of Directors is unaware of any other matters that may be presented for action at our 2013 Annual Meeting. If other matters do properly come before our 2013 Annual Meeting, however, it is intended that shares represented by proxies will be voted in the discretion of the proxy holders.

If you are a beneficial owner and hold your shares in the name of a bank, broker or other holder of record and do not return the voting instruction card, the broker or other nominee will vote your shares on each matter at the 2013 Annual Meeting for which he or she has the requisite discretionary authority. Under applicable rules, brokers have the discretion to vote on routine matters, which include the ratification of the selection of the independent registered public accounting firm. Brokers will not have the discretion to vote on any of the other proposals presented at the 2013 Annual Meeting.

Solicitation of Proxies

We will pay the entire cost of soliciting proxies. In addition to soliciting proxies by mail, we will request banks, brokers and other record holders to send proxies and proxy materials to the beneficial owners of our common stock and to secure their voting instructions, if necessary. We will reimburse record holders for their reasonable expenses in performing these tasks. In addition, we have retained Georgeson, Inc. to act as a proxy solicitor in conjunction with the 2013 Annual Meeting. We have agreed to pay Georgeson a fee of \$8,000, plus reasonable expenses, costs and disbursements for proxy solicitation services. If necessary, we may use our regular employees, who will not be specially compensated, to solicit proxies from stockholders, whether personally or by telephone, letter or other means.

Record Date and Voting Rights

Our Board of Directors has fixed January 7, 2013, as the record date for determining the stockholders who are entitled to notice of, and to vote at, our 2013 Annual Meeting. Only stockholders of record at the close of business on the record date will receive notice of, and be able to vote

at, our 2013 Annual Meeting. As of the

Table of Contents

record date, there were 104,609,368 shares of our common stock outstanding held by 2,106 record holders, in addition to approximately 21,325 holders who do not hold shares in their own names. A majority of the stock issued and outstanding and entitled to vote must be present at our 2013 Annual Meeting, either in person or by proxy, in order for there to be a quorum at the meeting. Each share of our outstanding common stock entitles its holder to one vote. Shares of our common stock with respect to which the holders are present in person at our 2013 Annual Meeting but not voting, and shares for which we have received proxies but with respect to which holders of the shares have abstained, will be counted as present at our 2013 Annual Meeting for the purpose of determining whether or not a quorum exists. Broker non-votes will also be counted as present for the purpose of determining whether a quorum exists. "Broker non-votes" are shares of common stock held by brokers or nominees over which the broker or nominee lacks discretionary power to vote and for which the broker or nominee has not received specific voting instructions from the beneficial owner.

Directors are elected by a plurality. Therefore, the four nominees who receive the most votes will be elected. Abstentions and broker non-votes will not be counted as participating in the voting for the election of directors, and will therefore have no effect for purposes of such proposal. Both the ratification of our independent registered public accounting firm and the advisory resolution on the Company's executive compensation require the affirmative vote of the holders of a majority of the shares of common stock present in person or represented by proxy and entitled to vote at the 2013 Annual Meeting in order to be approved by our stockholders. In each case, abstentions will be counted as present and will have the effect of a vote against the proposal, while broker non-votes will not be counted as participating in the voting, and will therefore have no effect on the outcome of the vote on either of these proposals. Votes will be tabulated by the inspector of election appointed for the 2013 Annual Meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes. Due to its advisory nature, the results of the advisory vote on the Company's executive compensation will not be binding on our Board of Directors but will be carefully considered by our Board. Our Board of Directors urges you to vote promptly by either electronically submitting a proxy or voting instruction card over the Internet, by telephone or by delivering to us or your broker, as applicable, a signed and dated proxy card.

A representative of Computershare Trust Company, N.A., our transfer agent, will tabulate the votes and act as the inspector of election.

Year-End Reporting Convention

We report our results of operations based on 52- or 53-week periods ending on the Friday nearest September 30. For clarity of presentation, all periods are presented as if the fiscal year ended on September 30. Fiscal years 2012, 2011 and 2010 contained 52 weeks each and ended on September 28, September 30 and October 1, respectively.

PROPOSAL 1

ELECTION OF CLASS II DIRECTORS

The Company's Certificate of Incorporation provides for a classified Board of Directors, consisting of three classes, with each class serving a three-year term. The Board of Directors is currently composed of 12 members, of whom four each are Class I Directors, Class II Directors and Class III Directors. In accordance therewith, four Class II Directors will be elected at the 2013 Annual Meeting to serve until the 2016 Annual Meeting of Stockholders, and until their successors are duly elected and qualified. If a quorum is present at our 2013 Annual Meeting, the four nominees receiving the greatest number of votes will be elected.

Shares represented by proxies will be voted, if authority to do so is not withheld, for the election of the four nominees named below. Each of the nominees has consented to serve as a director, if elected, and management has no reason to believe that any nominee will be unable or unwilling to serve if elected as a director. In the event that any nominee is unavailable for re-election as a result of an unexpected occurrence, shares will be voted for the election of such substitute nominee as our Board of Directors may propose. Pursuant to the vote and immediately following the 2013 Annual Meeting, our Board of Directors will be composed of four Class I Directors, four Class II Directors and four Class III Directors.

Director Qualifications

The Board of Directors believes that the Board, as a whole, should possess a combination of skills, professional experience and diversity of backgrounds necessary to oversee the Company's business. The Nominating, Governance and Risk Committee is responsible for developing and recommending Board membership criteria to the full Board for approval. The criteria, which are set forth in the Company's Corporate Governance Guidelines, include the highest professional and personal ethics and values, commitment to enhancing stockholder value with sufficient time to carry out his or her duties, and business acumen. In considering director candidates, the Nominating, Governance and Risk Committee looks for business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, public policy and the absence of potential conflicts with the Company's interests. While the Nominating, Governance and Risk Committee does not have a formal policy with respect to diversity, the Nominating, Governance and Risk Committee believes that it is essential that Board members represent diverse viewpoints and backgrounds.

The Nominating, Governance and Risk Committee periodically reviews the appropriate skills and characteristics required of Board members in the context of the current composition of the Board, the operating requirements of the Company and the long-term interests of stockholders. In conducting this assessment, the Nominating, Governance and Risk Committee considers diversity, age, skills, and such other factors as it deems appropriate to maintain a balance of knowledge, experience and capability. This periodic assessment enables the Board to update the skills and experience it seeks in the Board as a whole, and in individual directors, as the Company's needs evolve and change over time and to assess effectiveness of efforts at pursuing diversity. In identifying director candidates from time to time, the Nominating, Governance and Risk Committee may establish specific skills and experience that it believes the Company should seek in order to constitute a balanced and effective board.

The following list sets forth our four director nominees, as well as each of our eight continuing directors.

PROPOSAL 2

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Audit Committee of our Board of Directors has retained Ernst & Young LLP to serve as our independent registered public accounting firm for the fiscal year ending September 30, 2013. A representative of Ernst & Young LLP is expected to be present at the 2013 Annual Meeting and will have an opportunity to make a statement if the representative so desires, and will be available to respond to appropriate questions.

Reasons for the Proposal

Selection of our independent registered public accounting firm is not required to be submitted for stockholder approval, but the Audit Committee of our Board of Directors is seeking ratification of its selection of Ernst & Young LLP from our stockholders as a matter of good corporate practice. If stockholders do not ratify this selection, the Audit Committee of our Board of Directors will reconsider its selection of Ernst & Young LLP, and will, in its sole discretion, either continue to retain this firm or appoint a new independent registered public accounting firm. Even if the selection is ratified, the Audit Committee may, in its discretion, appoint a different independent registered public accounting firm at any time during the fiscal year if it determines that such a change would be in the Company's best interests and the best interests of our stockholders.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the 2013 Annual Meeting is required to ratify the selection of Ernst & Young LLP, as our independent registered public accounting firm for the fiscal year ending September 30, 2013. Abstentions will be counted as a vote against the proposal.

The Board of Directors recommends that you vote FOR the ratification of Ernst & Young LLP.

PROPOSAL 3

ADVISORY RESOLUTION ON EXECUTIVE COMPENSATION

In accordance with Section 14A of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), which was added under the Dodd-Frank Wall Street Reform and Consumer Protection Act ("Dodd-Frank"), we are asking stockholders to approve an advisory resolution on the Company's executive compensation as reported in this Proxy Statement. Taking into consideration the voting results from the Company's 2011 Annual Meeting of Stockholders concerning the frequency of the stockholder advisory vote on executive compensation, the Company's Board of Directors has determined the Company shall hold an annual advisory vote on executive compensation until the next advisory vote on the frequency of such votes.

At AECOM, executive compensation is directly linked to short- and long-term financial performance metrics. It is also designed to increase value for stockholders through balanced capital allocation priorities, which support improved returns over time.

Since its initial public offering in 2007, AECOM has achieved notable success as a direct result of having talented employees, a strong leadership team and committed stockholders; as well as by delivering improved profitability and cash flow. In fiscal year 2012, the Company effectively navigated a challenging global macro-economic environment. AECOM's balanced growth strategy further expanded the Company's capabilities and diversified the business into high potential areas such as emerging and natural resources-rich markets positioning AECOM well for the future.

Through a combination of operational and financial initiatives, AECOM has a balanced approach to capital allocation with the goal of optimizing long-term returns. The Company is committed long term to achieving an improved mix of growth, profitability and liquidity. In the field, AECOM is strategically focused on strengthening key, fast-growing markets, improving project delivery, enhancing the client experience, as well as leveraging the Company's global end-to-end service platform. Financially, AECOM is committed to improved returns over time driven by profitable growth and enhanced cash conversion, which provide additional opportunities for deploying capital in value enhancing ways.

We urge stockholders to read the "Compensation Discussion and Analysis" below beginning on page 21 of this Proxy Statement, which describes in more detail how our executive compensation policies and procedures operate and are designed to achieve our compensation objectives, as well as the Summary Compensation Table and related compensation tables and narrative which provide detailed information on the compensation of our Named Executive Officers. The Compensation/Organization Committee and the Board of Directors believe that the policies, procedures and programs articulated in the "Compensation Discussion and Analysis" are effective in achieving our goals and that the compensation of our Named Executive Officers reported in this Proxy Statement has supported and contributed to the Company's success.

We are asking stockholders to approve the following advisory resolution at the 2013 Annual Meeting:

RESOLVED, that the stockholders of AECOM Technology Corporation (the "Company") approve, on an advisory basis, the compensation of the Company's Named Executive Officers set forth in the Compensation Discussion and Analysis, the Summary Compensation Table and the related compensation tables and narrative in the Proxy Statement for the Company's 2013 Annual Meeting of Stockholders.

This advisory resolution, commonly referred to as a "say-on-pay" resolution, is non-binding on the Board of Directors. Although non-binding, the Board and the Compensation/Organization Committee will carefully review and consider the voting results when evaluating our executive compensation program.

Vote Required and Recommendation of the Board of Directors

The affirmative vote of a majority of the shares present in person or represented by proxy and entitled to vote at the 2013 Annual Meeting is required to approve the advisory resolution on the Company's executive compensation. Abstentions will be counted as a vote against the resolution, whereas broker non-votes will have no effect on the vote.

The Board of Directors recommends that you vote FOR the advisory resolution on executive compensation.

CORPORATE GOVERNANCE

Board Meetings

During our fiscal year ended September 30, 2012, our Board of Directors met six times, the Audit Committee met five times, the Compensation/Organization Committee met four times, the Nominating, Governance and Risk Committee met two times, and the Planning, Finance and Investment Committee met four times. Each incumbent director attended at least 75% of the aggregate of (1) the total number of meetings of our Board of Directors and (2) the total number of meetings held by all committees of the Board of Directors on which he or she served during fiscal year 2012.

Director Independence

Eight of the 12 members of our Board of Directors are independent directors as defined in accordance with the listing standards of the New York Stock Exchange. These standards provide that a director is independent only if our Board of Directors affirmatively determines that the director has no direct or indirect material relationship with the Company. They also specify various relationships that preclude a determination of director independence. Material relationships may include commercial, industrial, consulting, legal, accounting, charitable, family and other business, professional and personal relationships.

Applying these standards, our Board of Directors, upon the recommendation of our Nominating, Governance and Risk Committee, annually reviews the independence of our directors. In its most recent review, our Board of Directors considered, among other things, the absence of any employment relationships between the Company and our directors and their families; the absence of any of the other specific relationships that would preclude a determination of independence under New York Stock Exchange independence rules; the absence of any affiliation of the Company's directors and their families with the Company's independent registered public accounting firm, compensation consultants, legal counsel and other consultants and advisors; the absence of any transactions with directors and members of their families that would require disclosure in this Proxy Statement under U.S. Securities and Exchange Commission rules regarding related person transactions; the insubstantial amount of goods and services that we purchase in the ordinary course of business from companies, and the modest amount of our discretionary contributions to non-profit organizations of which some of our directors or members of their families are associated.

Our Board of Directors has determined that the following members are independent as determined in reference to the standards of the New York Stock Exchange: Messrs. Fordyce, Gillis, Joos, Lowe, Ouchi, Routs and Rutledge and Ms. Griego.

Board Leadership Structure

The Board has been, and continues to be, a strong proponent of Board independence. As a result, the Company's corporate governance structures and practices provide for a strong, independent Board and include several independent oversight mechanisms, including a lead independent director, only independent directors serving as committee chairpersons and the directors' and committees' ability to engage independent consultants and advisors.

The independent directors annually appoint a lead independent director. William G. Ouchi served as the lead independent director for fiscal year 2012 and is continuing to serve in that role for fiscal year 2013.

The position and role of the lead independent director is intended to expand lines of communication between the Board and members of management. It is not intended to reduce the free and open access and

Table of Contents

communications that each independent board member has with other board members and members of management. The lead independent director has the following duties:

To organize, convene and preside over executive sessions of the non-employee and independent directors and promptly communicate approved messages and directives to the Chairman of the Board and Chief Executive Officer.

To preside at all meetings of the Board of Directors at which the Chairman of the Board is not available.

To collect and communicate to the Chairman of the Board and Chief Executive Officer the views and recommendations of the independent directors, relating to his or her performance.

To perform such other duties and responsibilities as may be assigned from time-to-time by the independent directors.

To complement this structure, the Board believes it is important to retain its flexibility to allocate the responsibilities of the offices of the Chairman of the Board and Chief Executive Officer in the best interests of the Company. The Board believes that the decision as to who should serve in those roles, and whether the offices should be combined or separate, should be assessed periodically by the Board, and that the Board should not be constrained by a rigid policy mandate when making these determinations. Additionally, the Board believes that it needs to retain the ability to balance the independent Board structure with the flexibility to appoint as Chairman of the Board someone with hands-on knowledge of and experience in the operations of the Company.

Currently, the positions of Chairman of the Board and Chief Executive Officer are held by one person. We believe this structure is optimal for the Company at this time because it demonstrates for our employees, customers and other stakeholders that the Company is under strong leadership, with a single person setting the tone and having primary responsibility for managing our operations. Having a single leader for both the Company and the Board eliminates the potential for confusion or duplication of efforts, and provides clear leadership for our Company.

The Board of Directors believes this governance structure and these practices enables strong and independent directors to effectively oversee the Company's management and key issues related to long-range business plans, long-range strategic issues, risks and integrity.

Executive Sessions

Executive sessions of non-employee directors are included on the agenda for every regularly scheduled Board of Directors meeting and, during fiscal year 2012, executive sessions were held at each regularly scheduled Board of Directors meeting. The executive sessions are chaired by the lead independent director, which is William G. Ouchi.

Board's Role in Risk Oversight

The Board plays an active role, both as a whole and also at the committee level, in overseeing management of the Company's risks. Management is responsible for the Company's day-to-day risk management activities. The Company relies on a comprehensive risk management process to aggregate, monitor, measure and manage risks. The risk management process is designed to enable the Board of Directors to establish a mutual understanding with management of the effectiveness of the Company's risk management practices and capabilities, to review the Company's risk exposure and to elevate certain key risks for discussion at the Board level. The Company's risk management process is overseen by its Chief Risk Officer, who is a member of the Company's senior management. The full Board receives regular updates on the Company's risk management process.

The Nominating, Governance and Risk Committee oversees the Company's overall policies regarding risk assessment and risk management. However, the Nominating, Governance and Risk Committee consults with the Audit Committee in reviewing guidelines and policies with

respect to risk assessment and risk management

and with the Planning, Finance and Investments Committee in reviewing strategies with respect to foreign exchange risk. The Compensation/Organization Committee oversees risks relating to the Company's compensation policies and practices, as described below. The full Board monitors risk through regular reports from each of the Committee chairs and is apprised of particular risk management matters in connection with its general oversight and approval of corporate matters. We believe the division of risk management responsibilities described above provides an effective framework for evaluating and addressing the risks facing the Company, and that our Board leadership structure supports this approach because it allows our independent directors, through the independent committee chairpersons, to exercise effective oversight of the actions of management.

Risk Assessment of Compensation Policies and Practices

In fiscal year 2012, the Compensation/Organization Committee's independent consultant, Exequity, conducted a risk assessment of the Company's compensation policies and practices as they apply to all employees, including all executive officers. The consultant reviewed the design features and performance metrics of our cash and stock-based incentive programs along with the approval mechanisms associated with each to determine whether any of these policies and practices could create risks that are reasonably likely to have a material adverse effect on the Company.

As part of the review, several factors were noted that reduce the likelihood of excessive risk-taking:

Our compensation mix is balanced among fixed components such as salary and benefits, annual incentive payments and long-term incentives, including Performance Earnings Program awards and Restricted Stock Units granted under our 2006 Stock Incentive Plan, which typically vest or are earned over three years.

Performance Earnings Program awards, which make up 60% of long-term incentives for our executives, balance both growth and profitability and are earned if thresholds are met in both growth in earnings before interest, taxes and amortization ("EBITA") and return on investment over three years.

The Compensation/Organization Committee has ultimate authority to determine, and reduce if appropriate, compensation provided to our executive officers, including each of the Named Executive Officers.

The Compensation/Organization Committee, under its charter, has the authority to retain any advisor it deems necessary to fulfill its obligations and has engaged Exequity LLP as its independent consultant. Exequity performs services for the Compensation/Organization Committee as described in the Compensation Discussion and Analysis section of this Proxy Statement.

Our annual incentive programs for employees are funded in aggregate based on the results of certain financial metrics. Individual payouts are based on a combination of financial metrics as well as qualitative factors.

Our long-term incentive and stock-based awards, including Performance Earnings Program awards and Restricted Stock Units granted under our 2006 Stock Incentive Plan, are all approved by either the Compensation/Organization Committee for our executive officers and by or our CEO for non-executive officers under our delegations of authority.

Our Named Executive Officers are subject to stock ownership guidelines and our insider trading policy.

Based on this assessment, the Company concluded that its compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

Committees of the Board of Directors

The Board of Directors of the Company has four standing committees: an Audit Committee, a Compensation/Organization Committee, a Nominating, Governance and Risk Committee and a Planning, Finance and Investment Committee. In accordance with New York Stock Exchange regulations, each member of the Audit

Director Nominations

The Nominating, Governance and Risk Committee of our Board of Directors is charged with identifying, reviewing and recommending to the Board of Directors qualified individuals to become directors and regularly assessing the size and composition of the Board of Directors and recommending any changes to the Board of Directors.

It is our belief that members of the Board of Directors should have the highest professional and personal ethics and values. The Board's Nominating, Governance and Risk Committee periodically reviews the appropriate skills and characteristics required of members of the Board of Directors in the context of the current composition of the Board of Directors, the operating requirements of the Company and the long-term interests of stockholders. We believe that, as a whole, the Board of Directors should include individuals that are committed to enhancing stockholder value with sufficient time to effectively carry out their duties. While all directors should possess business acumen, the Board of Directors endeavors to include an array of targeted skills and experience in its overall composition. Criteria that the Nominating, Governance and Risk Committee looks for in director candidates include business experience and skills, judgment, independence, integrity, an understanding of such areas as finance, marketing, regulation, end markets and public policy, and the absence of potential conflicts with the Company's interests. While the Nominating, Governance and Risk Committee does not have a formal policy with respect to diversity, the Nominating, Governance and Risk Committee believes that it is essential that Board members represent diverse viewpoints and backgrounds.

Our Nominating, Governance and Risk Committee will consider stockholder nominations for directors. The Nominating, Governance and Risk Committee evaluates any such nominees that are properly submitted using the same criteria it otherwise employs, as described above. Any recommendation submitted by a stockholder must include the same information concerning the potential candidate as is required when a stockholder wishes to nominate a candidate directly. In addition, any such recommendation must be received in the same time frame as is required by our Bylaws when a stockholder wishes to nominate a candidate directly. To be timely, the notice must be received not less than 90 nor more than 120 days prior to the date of the first anniversary of the preceding year's annual meeting of stockholders. However, in the event that the date of the annual meeting is advanced more than 30 days prior to such anniversary date or delayed more than 30 days after such anniversary date, notice by the stockholder to be timely must be received no more than 120 days prior to the date of the annual meeting and not less than the later of the close of business (a) 90 days prior to the date of the annual meeting and (b) the tenth day following the day on which the notice of stockholder meeting was mailed or public disclosure of such meeting was made by the Company. To be in proper form, the notice must, as to each person whom the stockholder proposes to nominate for election or re-election as a director, set forth all information concerning such person as would be required in a Proxy Statement soliciting proxies for the election of directors in a contested election pursuant to Section 14 of the Securities Exchange Act of 1934, as amended (including such person's signed written consent to being named in the Proxy Statement as a nominee and to serve as a director of the Company, if elected) and a description of all direct and indirect compensation and other material monetary agreements, arrangements and understandings during the past three years between or among such stockholder and beneficial owner, if any, on whose behalf the nomination is being made, and their respective affiliates and associates, or others acting in concert therewith, on the one hand, and each proposed nominee, and his or her respective affiliates and associates, or others acting in concert therewith, on the other hand. In addition, as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination is being made, the notice must also state the name and address, as they appear on the Company's books, of such stockholder and such beneficial owner, the class and number of shares of the Company that are owned of record and beneficially by such stockholder and such beneficial owner, a description of any agreement, arrangement or understanding with respect to the nomination between such stockholder or beneficial owner and any other person, including without limitation any agreements that would be required to be disclosed pursuant to Item 5 or Item 6 of Schedule 13D (regardless of whether the requirement to file a Schedule 13D is applicable to the stockholder or beneficial owner) of the Exchange Act, and a description of any agreement, arrangement or understanding (including any derivative or short positions, profit interests, options, hedging transactions, and borrowed or loaned shares) that has been entered into as of the date of the stockholder's notice by, or on behalf of, such stockholder or beneficial owner, the effect or intent of which is to mitigate loss, manage risk or benefit from changes in the share price of any class of the Company's capital stock, or maintain, increase or decrease the voting power of the stockholder or beneficial

owner with respect to shares of stock of the Company. Stockholders who wish to nominate candidates for director must do so pursuant to these procedures.

The Nominating, Governance and Risk Committee recommended and the Board of Directors approved the inclusion of Robert J. Lowe as a director candidate for re-election at the 2013 Annual Meeting.

Related Party Transaction Policy

We have adopted a related party transaction policy, which covers transactions involving in excess of \$120,000 between us and our directors, executive officers, 5% or greater stockholders and parties related to the foregoing, such as immediate family members and entities they control. The policy requires that any such transaction be considered and approved by our Audit Committee prior to entry into such transaction. In reviewing such transactions, the policy requires the Audit Committee to consider all of the relevant facts and circumstances available to the Audit Committee, including (if applicable) but not limited to the benefits to the Company, the availability of other sources for comparable products or services, the terms of the transaction and the terms available to unrelated third parties or to employees generally.

Under the policy, if we should discover related party transactions that have not been approved, the Audit Committee will be notified and will determine the appropriate action, including ratification, rescission or amendment of the transaction.

Stock Ownership Guidelines for Non-Employee Directors

Non-employee directors are subject to stock ownership guidelines, which are intended to align their interests with those of our stockholders. Under the guidelines, our non-employee directors must maintain ownership of AECOM stock at the lesser of a multiple of five times the annual retainer or a minimum number of shares. The minimum number of shares guideline is updated annually based on the current retainer (\$80,000) and the 12-month trailing average AECOM stock price. Shares owned directly or indirectly, deferred stock units, 60% of the value of vested but unexercised stock options and 60% of unvested Restricted Stock Units are counted toward the guidelines. Non-employee directors have five years after becoming a director to comply with the guidelines and the compliance requirements will first become effective in fiscal year 2014. The following table outlines the ownership of our independent non-employee directors as of September 30, 2012.

Non-Employee Director	Retainer Multiple

Robert J. Lowe	27.2
Richard G. Newman	233.3
William G. Ouchi	16.7
Robert J. Routs	1.8

All of our non-employee directors exceeded the stock ownership guidelines, with the exception of Messrs. Joos and Routs and Ms. Griego for whom, as noted above, compliance with the guidelines is not required until the later of fiscal year 2014 or five years after becoming a director.

COMPENSATION DISCUSSION AND ANALYSIS (CD&A)

EXECUTIVE SUMMARY

At AECOM, executive compensation is directly linked to short- and long-term financial performance metrics. It is designed to increase value for shareholders through balanced capital allocation priorities which support improved returns over time.

Since our initial public offering (IPO) in 2007, AECOM has achieved notable success as a direct result of having talented employees, a strong leadership team and committed shareholders; as well as by delivering improved profitability and cash flow. In fiscal year 2012, the Company effectively navigated a challenging global macro-economic environment. AECOM's balanced growth strategy further expanded the Company's capabilities and diversified the business into high potential areas such as emerging and natural resources-rich markets positioning AECOM well for the future.

Performance

Through a combination of operational and financial initiatives, AECOM has a balanced approach to capital allocation with the goal of optimizing long-term returns. The Company is committed long term to achieving an improved mix of growth, profitability and liquidity. In the field, AECOM is strategically focused on strengthening its presence in key, fast-growing markets, improving project delivery, enhancing the client experience, and leveraging the Company's global end-to-end service platform. Financially, AECOM is committed to improved returns over time driven by profitable growth and enhanced cash conversion, which provide additional opportunities for deploying capital in value enhancing ways.

Table of Contents

AECOM has a 23-year track record of increasing profitability and growth. Since the Company's IPO in 2007, it has delivered strong performance across various economic environments, as illustrated by the financial metrics in the graphs below.

Backlog: Non-GAAP measure is defined as future awarded or contracted gross revenue; **CAGR:** Compound annual growth rate; **EBITDA and EBITDA Margin:** Non-GAAP measures. EBITDA is defined as earnings before interest expenses, taxes, depreciation and amortization and EBITDA margin is defined as EBITDA divided by revenue, net of other direct costs, which is also a non-GAAP measure that segregates other direct costs from revenue; EBITDA and EBITDA Margin exclude the \$336 million goodwill impairment recognized in 2012. **Bps:** Basis points; **Adjusted Earnings Per Share (EPS):** Non-GAAP measure is defined as diluted EPS from continuing operations attributable to AECOM, which excludes the net of tax impact of the goodwill impairment of \$317.2 million recognized in 2012; **Free Cash Flow:** Non-GAAP measure is defined as net cash provided by operating activities less payments for capital expenditures.

Pay and Performance Alignment

AECOM's executive compensation programs clearly link pay to performance:

Program Design Over 60% of the Company CEO's target pay is performance based, aligning compensation with results. Short-Term Incentive (STI) Program Long-Term Incentive (LTI) Program For 2012, the Compensation/Organization Committee (the "Committee") incorporated a target performance formula that links financial results and strategic measures of individual key contributions to Company performance. 70% of the program is based on pre-established financial goals that require a high level of performance to be achieved with no payouts below 94% of target performance. Payouts may range from 0% to 200% of target based on actual performance. The remaining 30% is based on individual key performance indicators (KPIs) around the areas of people, growth, innovation and excellence. For 2012, the Committee implemented a new LTI compensation mix composed of: 60% performance units under the Performance Earnings Program for 2012 (PEP2012); and 40% Restricted Stock Units (RSUs). The PEP2012 awards are structured similar to the Performance Earnings Program awards from prior years, with metrics relating to earnings and return on investment. The pre-established goals require a high level of financial performance to be achieved over the three-year period and payouts may range from 0% to 200% of target based on actual performance. Performance Assessment: The Committee takes into account a broad array of factors in establishing the incentive opportunities for each executive, including the financial performance of the Company, an individual's performance against their pre-defined goals, peer company market data and the experience level of the individuals in their current positions.

CEO Pay At-A-Glance

The Committee determined that the appropriate Total Direct Compensation (TDC), composed of base salary, STI and LTI, for John M. Dionisio for 2012 performance was \$8.1 million, representing a decrease of 16.5% from last year. The Committee considered AECOM's financial performance during the past year, as well as the organizational and operational actions Mr. Dionisio took to navigate the challenging market environment and better align the Company for future success in setting his compensation at this level. The chart below shows the components of TDC awarded to the CEO for 2012, as compared to the prior year.

CEO Total Direct Compensation (\$ mils.)

CEO TDC decreased 16.5% primarily due to a \$1.5 million (50%) decline in STI award year-over-year.

CEO PAY-FOR-PERFORMANCE ALIGNMENT

A significant portion of the compensation package for AECOM's CEO is tied to the long-term performance of the stock price and the financial performance of the Company. The realizable value of Mr. Dionisio's equity compensation over the last three fiscal years decreased by 29% (as expressed in the following chart) as a result of AECOM's three-year Total Shareholder Return (TSR) declining 8% over the same period and the \$1.4 million in 2011 equity awards that Mr. Dionisio was not paid in December 2012 (refer to box). Three-year TSR represents the annualized rate of return reflecting AECOM's stock price performance over the three year period.

Grant Date and Realizable Equity Values To strengthen the pay-for-performance linkage, Mr. Dionisio agreed in 2012 to a retroactive change to his 2011 LTI awards. Rigorous performance criteria based on cumulative EPS growth were added to \$2.4 million in equity grants (\$1.4 million in stock options and \$1.0 million in RSUs) scheduled to vest in December 2012 and December 2013. Included in the \$1.4 million in stock options was \$0.5 million that had previously vested in 2011. The reported grant date value in the chart above is the grant date fair value for all equity awards granted in each fiscal year. The realizable value is the value of the equity awards determined by the share price at the end of fiscal year 2012 (\$21.16). The Company's performance based equity award (i.e. Performance Earnings Program or PEP awards) granted in 2010 is valued at 85.8% of target, which was the actual earned percentage. PEP awards granted in 2011 and 2012 are valued assuming they are earned at target performance. The Company's EPS growth in 2012 did not meet the performance criteria established for those awards, and as a result Mr. Dionisio did not receive the \$1.4 million in stock options and RSUs scheduled to vest in December 2012.

Active Shareholder Engagement

The Committee understands the importance of shareholder feedback in the development of AECOM's executive compensation programs including the annual shareholder advisory vote on executive compensation. We actively seek shareholder input as AECOM periodically evaluates the Company's compensation plans continuously to further strengthen the link between pay and performance with the ultimate goal of creating long-term value for shareholders.

Following the 2012 Annual Meeting of Stockholders, AECOM Investor Relations consulted with shareholders representing over 50% of its institutional ownership to discuss and better understand the reasons for their votes and to obtain their input on the Company's compensation programs. In particular, shareholders expressed support for short and long-term KPIs focused on cash flow metrics. After considering feedback received during these consultations as well as during routine ongoing communications with these shareholders, the Committee implemented new performance metrics for fiscal 2013, which included an expanded and increased weighting toward cash flow KPIs. The following enhancements and actions were implemented by the Committee:

2011/2012 Program Enhancements and Actions 2013 Program Enhancements and Actions STI Plan Design
Implemented "target" and "maximum" guidelines for annual incentive awards to NEOs for 2011 and beyond to further clarify compensation opportunity and how rewards compare to expectations for performance. STI Plan Design
Incorporated performance metrics that directly link compensation to financial results and strategic measures of individual key contributions to Company performance. Pre-established financial goals determined 70% of the funding for the STI program for 2012 and beyond. Individual key performance indicators (KPIs) around the areas of people, growth, innovation and excellence constitute the remaining 30% of the STI Program. LTI Pay Mix Changed the LTI mix for 2012 and beyond to increase the proportion of awards that are explicitly linked to long-term financial objectives. In 2012, equity awards for the NEOs consisted of 60% PEP performance units and 40% RSU awards. STI Plan Design Changed the financial metrics the NEOs will be measured against in 2013 to 35% Earnings Per Share and 35% Operating Cash Flow Per Share (from 50% EPS, 10% Free Cash Flow and 10% EBITA in 2012). LTI Plan Design Changed the financial metrics in the performance-based equity awards that will be granted in 2013 to 50% Earnings Per Share and 50% Free Cash Flow Per Share (from 50% EBITA and 50% Return on Investment in 2012).

These metrics vary from certain NEOs with operational responsibility. Clawback Policy Implemented a clawback policy for incentive-based compensation.

Compensation Practices

The table below outlines the Company's pay-for-performance philosophy and strong governance practices employed with the intention of best serving shareholders over the long term:

AECOM's Executive Compensation Practices Executive Compensation Practices AECOM Does Not Employ
AECOM links executive pay-for-performance to shareholder interests, using Company earnings, Earnings Per Share and Cash Flow as incentive plan KPIs. AECOM implemented a clawback policy for all incentive-based compensation. AECOM communicates with institutional shareholders throughout the year about executive compensation programs. AECOM's Change in Control Severance Policy provides severance benefits, including accelerated vesting of any equity awards, only if there is a change in control and an eligible termination of employment ("double trigger" for both cash and equity). AECOM's NEOs are subject to ownership guidelines that require them to maintain a significant equity stake in the Company. The CEO ownership guideline is six times base salary. The Committee utilizes the services of an independent compensation consultant who does not provide any other services to the Company. The Committee's compensation consultant performs an independent risk assessment of compensation programs. The Committee uses tally sheets in assessing executive total compensation. AECOM adopted a policy to hold an advisory vote on executive compensation on an annual basis. AECOM's NEOs do not determine their own compensation. Compensation packages are reviewed and approved by the Committee. AECOM does not have any employment agreements or multi-year guarantees for any NEOs. AECOM does not provide tax gross-ups on change in control severance benefits to NEOs. AECOM does not re-price underwater stock options. AECOM's insider trading policy prohibits hedging transactions involving Company securities by NEOs and does not allow trading in puts, calls, options or other similar transactions involving Company securities by NEOs.

EXECUTIVE COMPENSATION PROGRAM STRUCTURE

Overview of Philosophy, Design and Provisions

The purpose of AECOM's executive compensation program is to recognize and reward outstanding achievement, as well as attract, motivate, reward and retain executives in a competitive environment. The Committee seeks feedback from investors to better align its executive compensation program with shareholders' interests.

AECOM'S PAY PHILOSOPHY

The Committee's approach to compensation for executives is directly linked to the Company's business focus on profitable growth and improved returns, as well as rewarding performance. Specifically, AECOM's compensation philosophy is made up of the following elements:

Seeking to provide a competitive compensation package that will allow AECOM to attract, motivate, reward and retain key talent to achieve business objectives;

Table of Contents

Providing incentives that promote sustained short- and long-term financial growth and returns in order to enhance shareholder value;

Believing in a strong pay-for-performance model, with a majority of NEO compensation at-risk and total compensation over time dependent on, and balanced between, each executive's individual performance and the overall performance of the Company; and

Aiming to optimize performance without encouraging unreasonable risks or incentivizing behavior that would be reasonably likely to result in a material adverse effect on the Company.

Assessing Competitive Practice

The Company's pay program is designed to reward achievement of goals and to attract, motivate, reward and retain leaders in an increasingly competitive talent market. The Committee examines pay data for a group of 19 companies to stay current with market pay practices and trends, and to understand the competitiveness of the Company's total compensation and its components of pay. The Committee uses this data for informational purposes. The Company does not target a specific percentile or make significant pay decisions based on market data alone. The Committee considers Company performance as well as the level of responsibility, experience and tenure of the individual and performance in the role.

This group of companies has not changed since 2010. It consists of companies within AECOM's industry and companies specializing in industrial services or government contracting with sizeable international presence in locations where AECOM operates and competes for talent.

Pay Mix Focuses on Performance

The charts below show that most of AECOM's NEOs' pay is performance based (56% to 61%). The percentages shown below for the 2012 performance year may change based on market or performance considerations in the future.

Performance Measures and Time Horizons

AECOM uses both specific measures and time horizons to drive and reward performance:

Profitability and growth (measured by growth in EPS, Free Cash Flow and EBITA)

Shareholder value creation (measured by stock price)

Market share and sustainable competitive advantage (attainment of strategic milestones)

The following chart shows the Company's selected performance measures and time frames used to evaluate in order to make decisions about variable pay elements. The chart also highlights that when certain metrics are used in more than one incentive vehicle, they are set and measured over different time frames (i.e., 1 year or 3 years). This ensures that there is limited duplication of metrics with the same time horizon.

PERFORMANCE MEASURES

COMPENSATION GOVERNANCE, PROCESS AND DECISIONS

The Decision Makers

Under its charter, the Committee, which is composed solely of independent directors, has the sole authority to determine and approve compensation for AECOM's executive officers. The Committee is also responsible for reviewing the compensation for the members of the Company's Board of Directors and submits any modifications for approval to the Board of Directors.

Making Decisions

To implement the compensation principles outlined above, the Committee reviews compensation for the NEOs considering base salary, as well as STI and LTI compensation, with a focus on the total reward package. The Company looks to AECOM's peer group of companies, as well as the broader market, as a base line for compensation decisions for NEOs. However, AECOM does not target executive officer compensation at a specific level or percentage relative to compensation provided by the companies in the peer group or broader market, whether for TDC or any element of TDC. Instead, when determining compensation for the executive officers, the Committee takes into account a broad array of factors, including the experience level of the individuals in their current positions, the overall financial and strategic performance of the Company during the year, and the individual performance and contribution of each individual executive during the year relative to pre-defined goals and objectives for each individual.

The Compensation Committee's Process

At the beginning of each year the Committee:

Approves design changes to the executive compensation program.

Reviews and approves the Company's financial, strategic and operational metrics and goals, and the performance objectives of the CEO and other executive officers.

Table of Contents

In the following November, the Committee:

Reviews full-year Company financial and strategic performance to understand what was accomplished relative to established objectives.

Evaluates the CEO's performance in light of the review of Company performance.

Discusses with the CEO his evaluation of the performance of each of the other executive officers relative to their individual performance objectives.

Determines TDC amounts for the CEO and each of the other executive officers, starting with the prior year's compensation, and adjusted based on:

Performance assessments (described in the 2012 TDC Decisions section above).

Market considerations.

Company payment guidelines, individual performance and succession planning and retention considerations.

Input from the Committee's independent compensation consultant.

For the other NEOs: The CEO's recommendations.

Reviews and approves the payouts for each PEP with performance periods completed at the end of the fiscal year.

Compensation decisions for 2012 related to base salary and long-term compensation were made in November 2011 and decisions regarding short-term compensation were made in November 2012.

LTI COMPENSATION

The initial step in determining LTI awards is the Committee's determination of an overall pool for LTI awards. This determination is based on a recommendation from the CEO, which takes into account the size of previous pools relative to the growth in the Company's earnings and in eligible employees; the accounting expense; the number of shares that would be granted relative to AECOM common shares outstanding; and the external competitiveness of individual awards.

The Committee considers market data, including the comparable TDC, and determines the LTI value to be awarded to each NEO including the CEO. In making these decisions, the Committee takes into account the impact of the awards to the NEOs on the remaining pool available for allocation to other executives. The dollar value awarded by the Committee to each NEO is then converted into a specific number of units, based on the fair market value of AECOM common stock on the date of grant. The awards provided to each NEO for fiscal year 2012 can be found in the column labeled "Stock Awards" of the Summary Compensation Table.

The Committee has the authority to retain the services of outside consultants to assist it in performing its responsibilities. Since January 2010, the Committee has engaged the services of the consulting firm Exequity LLP. During fiscal 2012, the consultant provided data on the compensation and relative performance of peer group companies as well as general industry data to the Committee; made presentations on regulatory and legislative matters affecting executive compensation; provided opinions on the degree to which compensation arrangements are consistent with market practices; and consulted on other compensation matters as needed. Exequity LLP does not provide any additional services to the Company.

OTHER PROGRAMS, POLICIES AND GUIDELINES

Stock Ownership Guidelines for Named Executive Officers

NEOs are subject to stock ownership guidelines, which ensures their interests are aligned with those of shareholders. Under the guidelines, AECOM's CEO must maintain ownership of AECOM stock at six times base salary and the other NEOs at three times base salary. The minimum number of shares guideline is updated annually based on each executive's salary and the 12-month trailing average AECOM stock price. Shares owned directly and indirectly, deferred stock units, unvested PEP units, as well as other RSUs and vested stock options/shares are counted toward the guidelines. All share amounts that are pre-tax are reduced in value under the guidelines by 40% to cover expected tax withholding. Executives have five years from becoming subject to the guidelines to comply and the compliance requirements will first become effective in fiscal year 2014.

The following table outlines the ownership of AECOM's NEOs as of September 30, 2012. With the exception of AECOM's CFO who became subject to the guidelines in October 2011, all of the Company's NEOs exceed the stock ownership guidelines.

Named Executive Officer	Guideline	Actual
	Salary Multiple	Salary Multiple
CEO	6.0	16.7
President	3.0	6.1
COO	3.0	4.5
CFO	3.0	2.6
President, Americas and Government	3.0	4.9

Benefit, Retirement and Perquisite Programs

To protect the Company's executives' health and well-being, facilitate the operation of the business, assist in the retention of current executives and aid in the recruitment of new executives, AECOM's NEOs are eligible to participate in benefit plans that are available to a substantial amount of all employees, including participation in retirement plans, medical insurance, dental insurance, life insurance and disability insurance programs. Further, the Company offers certain additional benefits only to executive officers and, where applicable, other senior officers consisting of the following:

Executive Life Insurance. All of the NEOs are eligible to participate in the U.S. Executive Life Insurance plan on an annual basis. This plan is in addition to the basic life insurance program which is open to a large majority of AECOM employees and provides up to an additional \$800,000 in coverage.

Executive Health Program. AECOM's CEO and President, who both became executive officers prior to the time the plan became frozen to new participants, are eligible to participate in the U.S. Executive Health Program on an annual basis. This plan provides up to 100% reimbursement for certain medical, dental and vision expenses.

AECOM Executive Deferred Compensation Plan (EDCP). The EDCP, which was established in December 2012, is a nonqualified deferred compensation plan that enables highly compensated U.S. employees to defer compensation.

Accrual Freeze of the AECOM Pension Plan, Management Supplemental Executive Retirement Plan (MSERP), 1992 Supplemental Executive Retirement Plan (92 SERP) and Excess Benefit Plan. Effective October 9, 2009, AECOM decided to freeze future accruals to the AECOM Pension Plan, MSERP, 92 SERP and Excess Benefit Plan for all plan participants.

Since the October 9, 2009 freeze,

participants have not accrued any additional benefits under the plans. Additional information is provided below in the Pension Benefits for Fiscal Year 2012 section.

Perquisites. The Company believes that offering NEOs certain limited perquisites, including an executive allowance (ranging from \$20,000 to \$40,000 annually), facilitates the operation of AECOM's business and assists in their retention.

Change in Control Provisions, Severance Benefits and Employment Agreements

AECOM typically does not enter into employment agreements with executives except in limited circumstances such as to ensure the retention of an executive for a period of time after an acquisition. The Company does not have any employment agreements in effect with any NEOs, including the CEO. Effective March 5, 2009, the Company adopted the "AECOM Technology Corporation Change in Control Severance Policy for Key Executives." The policy was created to provide severance benefits to key executives and to make certain that those executives would remain focused on shareholder interests in the event of a corporate transaction, in connection with a change in control of the Company and an involuntary termination.

The policy provides the following benefits upon termination without cause or for good reason following a change in control ("double trigger" for cash and equity):

A lump-sum severance payment equal to a multiple (two times for the CEO and Chairman and one-and-a-half times for the other NEOs) of the sum of each individual's base salary and average bonus (the average of the bonus paid for the three fiscal years preceding the year of termination);

Continuation of group health benefits for the number of years equal to the severance multiple;

Accelerated vesting of all time vested equity awards, including stock options and RSUs; and

Accelerated vesting of performance based awards, such as PEP awards, with payment based on performance achievement through the date of the change in control.

The policy does not provide a gross-up for excise or other taxes. Additional details can be found under Payments and Benefits upon Termination or Change in Control section.

The Company also maintains a severance policy for U.S. employees, including each of the NEOs. U.S. employees may be eligible for severance if their employment is terminated due to lack of work, restructuring/reorganization of a group, a reduction in force with no reasonable offer of an internal transfer, elimination of a job/position or voluntary acceptance of a Company-initiated retirement program. A release agreement must be signed in order to receive severance pay. Employees with a title of Vice President or above are eligible for 12 weeks of base pay regardless of years of service.

Clawback Provisions

At its November 2012 meeting, the Committee adopted a clawback policy with respect to incentive awards to executive officers under the Executive Incentive Plan and 2006 Stock Incentive Plan that were awarded subsequent to fiscal year 2012. In the event of material noncompliance with any financial reporting requirement under the securities laws, the Company is authorized to recover a portion of incentive awards paid during the three full fiscal years prior to the date of the covered event, but in no event prior to the effective date of the policy (October 1, 2012).

Hedging and Pledging

The Company's insider trading policy prohibits all directors, executive officers (as defined by Section 16 of the Securities Act of 1934) and certain other employees designated as insiders from engaging in any hedging or monetization transactions, such as zero-cost collars and forward-sale contracts, involving Company securities. In addition, the policy prohibits the pledging of Company securities by NEOs except in certain limited

Table of Contents

circumstances subject to Company approval and demonstration of the NEO's ability to repay the applicable loan without selling such securities. No NEOs pledged securities in fiscal year 2012.

Tax Treatment

Section 162(m) of the Internal Revenue Code limits a company's federal tax deduction on compensation paid in excess of \$1 million a year to the CEO and the other NEOs other than the CFO. The IRS' limitation does not apply to compensation that qualifies as "performance based" under federal tax law. AECOM's policy is to structure compensation arrangements to the extent practicable with the Company's executive officers that are intended to be deductible under federal tax law, unless the benefit of such deductibility is outweighed by AECOM's corporate objectives. However, since corporate objectives may not always be consistent with the requirements for full deductibility, and further given that the application of Section 162(m) is complex and may change with time (with potentially retroactive effect), AECOM is prepared, when appropriate, to enter into compensation arrangements under which payments may not be deductible under Section 162(m).

Accounting Standards

Financial Accounting Standards Board Accounting Standards Codification Topic 718 (which formerly was referred to as SFAS 123R), requires a charge to compensation expense for the fair value of equity compensation awards. Grants of stock options, RSUs and PEP awards under the Company's 2006 Stock Incentive Plan are accounted for under Codification Topic 718. The Committee considers the accounting implications of significant compensation decisions, particularly in connection with decisions that relate to AECOM's LTI awards.

(1) Includes any deferrals to the qualified defined contribution plan. The FY2012, FY2011 and FY2010 compensation amounts are for a 52-week fiscal year.

(2) The FY2011 and FY2010 incentive compensation was earned in each fiscal year and paid in December 2011 and 2010, respectively.

(3)

These amounts represent the grant date fair value of the stock awards issued during the applicable fiscal year. With respect to the PEP awards, these amounts represent the value based on the probable performance as of the grant date. The value of the FY2012 PEP awards based on maximum performance is as follows: Mr. Dionisio \$6,600,002; Mr. Burke \$3,360,007; Ms. Chmielinski \$1,920,028; Mr. Kadenacy \$960,014 and Mr. Jaska \$1,830,019. The Grants of Plan-Based Awards for Fiscal Year 2012 table, Outstanding Equity Awards at Fiscal Year-End 2012 and the Option Exercises and Stock Vested for FY2012 tables include additional information with respect to all awards outstanding as of September 30, 2012.

Each participant who received a PEP award was awarded a specific number of target units that will be earned by the participant throughout a three-year performance period based on a formula that will include two categories of performance for AECOM. The future value of these PEP grants is dependent upon the performance of the Company during the performance period. Each participant who received a RSU award was awarded a specific number of units that will be earned after three years and paid at a future settlement date. Please refer to the Long-Term Incentive Compensation section of the CD&A in this Proxy Statement for more details regarding these equity programs.

(4)

These amounts represent the grant date fair value of the option awards issued during the applicable fiscal year. The fair value of these awards is based on the Black-Scholes option pricing model on the date of grant. Assumptions used in the calculation of these amounts are included in "Stock Plans" in note 17 to the Company's audited financial statements for the fiscal year ended September 30, 2012, included in the Company's Annual Reports on Form 10-K filed with the Securities and Exchange Commission.

Table of Contents**Grants of Plan-Based Awards for Fiscal Year 2012**

The Compensation/Organization Committee typically considers and approves non-equity incentive targets and long-term incentive awards in the first quarter of each fiscal year at regular meetings. The grant date for the long-term incentive award is the date the Compensation/Organization Committee meets and approves the award.

The following table sets forth information with respect to non-equity incentive targets and long-term incentive awards granted to Named Executive Officers during FY2012. The long-term incentive awards issued on November 28, 2011, used the following mix: 60% PEPs and 40% RSUs. Refer to the discussion of long-term incentive awards in the "Compensation Discussion and Analysis" in this Proxy Statement for more details regarding the various long-term incentive programs. All of the long-term incentive awards in the table below were made pursuant to the Company's 2006 Stock Incentive Plan.

(3) The Grant Date Fair Value of Stock Awards amounts in this column are based on the following calculations:

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

PEP Awards are calculated based upon the number of target PEP units granted multiplied by the common stock price of \$20.55 on the day of grant. This PEP award will cliff vest 100% on December 15, 2014, following the close of the three-year performance period, provided the performance conditions are achieved.

RSU Awards are calculated based upon the number of RSUs granted multiplied by the common stock price of \$20.55 on the day of grant for the awards issued on November 28, 2011. These RSU awards will vest 100% on December 15, 2014 for each of the Named Executive Officers other than the Chairman and CEO, whose awards will vest one-third each year on December 15, 2012, 2013 and 2014.

The Awards were originally scheduled to vest in three annual installments, subject to the Mr. Dionisio's continued service with the Company. Pension Benefits for Fiscal Year 2012

As of October 9, 2009, AECOM froze all future benefit accruals under the AECOM Technology Corporation Pension Plan, AECOM Technology Corporation Management Supplemental Executive Retirement Plan and 1992 AECOM Technology Corporation Supplemental Executive Retirement Plan.

AECOM Technology Corporation Pension Plan. The AECOM Pension Plan is a U.S. defined benefit plan that was adopted in September 1990. Participation in the AECOM Pension Plan was closed to new entrants effective April 1, 1998.

AECOM Technology Corporation Management Supplemental Executive Retirement Plan ("MSERP"). The Company amended the AECOM Pension Plan, effective July 1, 1998, to provide that certain participants, including Named Executive Officers (our Chairman and CEO), earning benefits under the AECOM Pension Plan would instead earn identical benefits under a plan known as the Management Supplemental Executive Retirement Plan, or MSERP. The MSERP replaces and provides benefits identical in nature to the AECOM Pension Plan but on an unfunded basis.

1992 AECOM Technology Corporation Supplemental Executive Retirement Plan ("92 SERP"). In October 1992, we established the unfunded Supplemental Executive Retirement Plan, or 92 SERP, in order to provide some of our U.S. resident executive officers with pre-retirement death

Edgar Filing: AECOM TECHNOLOGY CORP - Form DEF 14A

benefits and retirement benefits consistent with the level provided by the previous AECOM Pension Plan formula. The 92 SERP requires a participant to have reached the minimum age of 50 and to have worked at AECOM for at least five years. The plan also includes early retirement provisions at age 62 with full retirement benefits.

AECOM Excess Benefit Plan. In July 1996, we established the AECOM Excess Benefit Plan for U.S. participants in the Supplemental Executive Retirement Plans in order to provide only those benefits which the AECOM Pension Plan cannot provide due to federal tax limits. Benefits from the Excess Benefit Plan are unfunded and will reduce, dollar-for-dollar, the pension benefit paid by the Supplemental Executive Retirement Plans.

Of our Named Executive Officers, only our Chairman and CEO is eligible to receive any benefits from the AECOM Technology Corporation Pension Plan, 92 SERP and AECOM Excess Benefit Plan.

The following table sets forth information with respect to the present value of the accumulated pension benefits for the Named Executive Officers during FY2012. Ms. Chmielinski and Messrs. Burke, Jaska and Kadenacy are not eligible to participate in any of the AECOM Pension Plans.

Name and Principal Position	Plan Name	Number of	Present Value of	Payments During
		Years Credited Service (#)	Accumulated Benefits (\$)(1)	Last FY (\$)
John M. Dionisio Chairman and CEO (PEO)	Pension Plan(2)	22.5000	\$277,526	\$0
	Management Supplemental Executive Retirement Plan(3)	22.5000	\$383,237	\$0
	1992 Supplemental Executive Retirement Plan(4)	22.5000	\$3,007,146	\$0

(1) *Present Value of Accumulated Benefits (\$).* Liabilities shown in this table are computed using the projected unit credit method reflecting average salary and service (where applicable) as of fiscal year end 2012. The material assumptions used to determine these liabilities can be located in the notes to our consolidated financial statements found in our Annual Report Form 10-K, except we assumed no pre-retirement decrements and that retirement occurs on the respective plans' earliest unreduced retirement age.

(2) *AECOM Technology Corporation Pension Plan.* The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and "Final Average Compensation." Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Compensation is further limited to the applicable Internal Revenue Code section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code section 415(b) limit. Only employees hired before April 1, 1998 are eligible to participate in the plan. In addition, eligibility for the plan occurs no later than the completion of one year of service. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. The earliest unreduced retirement age is 65. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to a Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k). The plan was frozen October 9, 2009.

(3) *AECOM Technology Corporation Management Supplemental Executive Retirement Plan.* The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. Compensation is further limited to the applicable Internal Revenue Code section 401(a)(17) limit. The plan benefit is limited to the applicable Internal Revenue Code section 415(b) limit. The participant's benefit under this plan is equal to the participant's Total AECOM Pension Plan Benefit minus the benefit payable to the participant under the AECOM Technology Corporation Pension Plan. Only employees hired before April 1, 1998 are eligible to participate in the plan. In addition, eligibility for the plan occurs no later than the completion of one year of service and the participant has to be a member of a select group of management or highly compensated employees, is an officer, is eligible for the AECOM Technology Corporation Incentive Compensation Plan and has been selected by the Compensation and Organization Committee to participate in the plan. Early retirement age is the first day of any month after age 55, provided the participant has earned five years of service. The earliest unreduced retirement age is 65. Compensation is the participant's salary, plus sick pay, overtime pay, shift premiums, contract completion bonuses, incentive compensation bonuses, severance pay paid within 30 days of termination of employment, vacation pay, pre-tax contributions made on the participant's behalf to a Internal Revenue Code Section 125 cafeteria plan and pre-tax contributions to the Retirement and Savings Plan under Internal Revenue Code Section 401(k). The plan was frozen October 9, 2009.

1992 AECOM Technology Corporation Supplemental Executive Retirement Plan. The plan's benefit formula is integrated with Social Security and is based on the participant's years of service for the Company and Final Average Compensation. Effective April 1, 2004, compensation for use in determining the Final Average Compensation was limited to the participant's highest annual compensation for any calendar year during the period beginning January 1, 1994, and ending December 31, 2003. The participant's benefit under this plan is equal to the participant's Unlimited AECOM Pension Plan benefit minus the benefit payable to the participant under the AECOM Technology Corporation Management Supplemental Executive Retirement Plan and the AECOM Technology Corporation Pension Plan. Only employees hired before April 1, 1998 are eligible to participate in the plan. In addition, eligibility for the plan occurs when the participant is a member of a select group of management or highly compensated employees, has completed at least five years of service, is at least 50 years old and has been selected by the Board of Directors to participate in the plan. Early retirement age is the first day of any month after age 55, provided the participant has earned three years of service. The earliest unreduced retirement age is 62. Payments and Benefits Upon Termination or Change in Control

Payments and benefits that would be provided to each Named Executive Officer in addition to those received by all employees (such as payout of 401(k) balances and paid time off) as a result of certain termination events are set forth in the table below. The amounts shown assume termination of employment effective as of September 30, 2012.

No Named Executive Officer has an employment agreement that provides for severance or change in control benefits.

Change in Control Severance Policy for Key Executives

Pursuant to the AECOM Technology Corporation Change in Control Severance Policy for Key Executives, the Named Executive Officers in the table below will receive the following benefits in connection with a change in control:

Upon a change in control ("single trigger"): (i) full vesting acceleration of equity awards only if the surviving entity does not continue or substitute such awards post-closing; and, (ii) deemed satisfaction of PEP Award targets based on actual performance through the change in control date and conversion of the earned PEPs to unvested Restricted Stock Units that will continue to vest based on continued employment through the time-based vesting period for the PEPs (generally through December 31 following the end of the PEP performance cycle).

Upon a termination without cause or with good reason within the period that begins 90 days prior to a change in control and ends 18 months following a change in control ("double trigger"): (i) full vesting acceleration of all unvested PEP (but based on actual performance through the change in control date), stock option, Restricted Stock Unit and other equity awards; (ii) a lump sum cash severance payment equal to a multiple (2.0 times for Chairman and CEO and 1.5 times for other Named Executive Officers) of the Named Executive Officer's base salary and average bonus earned over the three years prior to the year of termination (but including only those years in which the Named Executive Officer was employed as a key executive of the Company); and (iii) continued health coverage for number of years equal to the severance multiple (i.e., either two years or 18 months).

Additional details regarding the Company's Change in Control Severance Policy for Key Executives are provided below:

"Cause" means: (i) the commission of an act of fraud or theft against the Company; (ii) conviction (including a guilty plea or plea of nolo contendere) of any felony; (iii) conviction (including a guilty plea

Table of Contents

or plea of nolo contendere) of any misdemeanor involving moral turpitude which could, in the administrator's opinion, cause material injury to the Company; (iv) a material violation of any material Company policy; (v) willful or repeated non-performance or substandard performance of material duties to the Company that is not cured within 30 days after written notice thereof to the executive; or (vi) violation of any local, state or federal laws, rules or regulations in connection with or during performance of the executive's duties to the Company that could, in the administrator's opinion, cause material injury to the Company, that remains uncured after 30 days notice thereof.

"Change in Control" means the consummation of the first to occur of: (i) any "person" becomes the "beneficial owner," directly or indirectly, of securities of the Company representing more than 50% of the total voting power represented by the Company's then outstanding voting securities; (ii) a change in the composition of the Board occurring within a one-year period, as a result of which fewer than a majority of the directors are "incumbent directors" (those directors serving on the date the policy is adopted and any replacements approved by the Board); (iii) the consummation of a merger or consolidation of the Company with any other corporation, other than a merger or consolidation in which the holders of the Company's outstanding voting securities immediately prior to such merger or consolidation receive, in exchange for their voting securities of the Company in consummation of such merger or consolidation, securities possessing at least 50% of the total voting power represented by the outstanding voting securities of the surviving entity (or ultimate parent thereof) immediately after such merger or consolidation; or (iv) the sale, lease or other disposition by the Company of all or substantially all the Company's assets.

"Good Reason" means a termination of a participant's employment with the Company by the participant, upon 90 days written notice to the Company and after giving the Company 30 days to cure (if curable), if, other than for cause, any of the following has occurred: (i) any material reduction in the executive's base salary; (ii) a material reduction in the executive's authority, duties or responsibilities; (iii) the material breach by the Company (or any subsidiary) of any written employment agreement covering the executive; or (iv) the transfer of the executive's primary workplace by more than 50 miles from the executive's then existing primary workplace; provided, however, that, in each case, the executive resigns within 30 days after the expiration of the Company's cure period referred to above.

Regular U.S. Severance Policy

Subject to the terms, conditions and limitations of the Company's U.S. severance program, regular full-time and regular part-time fixed schedule employees are eligible for severance pay if their employment in the U.S. is terminated under the following circumstances: lack of work, reorganization or restructuring of a unit or group, reduction in force with no reasonable offer of an internal transfer, elimination of job or position, or voluntary acceptance of a company-initiated retirement program. The Company retains the right to amend or terminate its severance pay plan at any time without advance notice.

Severance benefits are computed on the basis of the employee's base rate of pay, regular full time or part time fixed classification, most recent date of hire and regular work schedule at the time of termination, excluding all other types of compensation, such as overtime, shift differential or other salary uplifts, bonuses, commissions and incentives. Employees with a title of Vice President or above (including all of the Named Executive Officers) are eligible for 12 weeks of base pay regardless of years of service.

Long-Term Incentives

Pursuant to the terms of each of the RSU and PEP awards ("Long-Term Incentives" in the tables below) held by our Named Executive Officers, upon the date of a termination of the executive's employment as a result of death or Total and Permanent Disablement, the unvested awards granted prior to December 2010 (including Mr. Kadenacy's RSU11 award) will vest on a pro-rata basis which will then be applied to the percent earned at the time of the event and all other unvested awards will vest in full. Total and Permanent Disablement means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months. Pro-rata vesting is calculated as the percentage where the denominator is the number of months in the performance cycle of the relevant award and the numerator is the

number of whole months from the beginning date of the performance cycle through the date of the executive's termination.

- (1) Under the Change in Control Severance Policy in the event that any benefit payable constitutes a "parachute payment" within the meaning of Internal Revenue Code Section 280G and would be subject to excise tax imposed by Section 4999 of the Internal Revenue Code, then payments shall be provided either in full or reduced to an amount in which no portion of the benefits would be subject to excise tax, whichever provides the greatest after-tax benefit. The amounts in the table represent the benefits without consideration of reduction to avoid excise tax and based on assumption of a double-trigger event.
- (2) *Present Value of Accumulated Benefits (\$).* Liabilities shown in this table for the AECOM Technology Corporation Pension Plan and the AECOM Technology Corporation Management Supplemental Executive Retirement Plan are computed using the same material assumptions used to determine the analogous liabilities located in the notes to our consolidated financial statements found elsewhere in this registration statement, except that the values provided are the values had the participant terminated and received immediate benefits as of September 30, 2012. In addition, the values provided above for the 1992 AECOM Technology Corporation Supplement Executive Retirement Plan have been calculated using the Plan's lump sum basis, which is a 2.15% interest rate and GAM83 mortality for distributions made during the plan year beginning October 1, 2012, since the payment would occur on October 1, 2012, if the participants had terminated on September 30, 2012. The interest rate of 2.15% is determined as the yield on the September 28, 2012 10-year U.S. Treasury Note of 1.65% plus 50 basis points.
- (3) This row includes the payment of all outstanding RSU2012, RSU2011, RSU2010, PEP2012, PEP2011 and PEP2010 awards upon Death and Total and Permanent Disability as applicable for each individual. All calculations in this row are based on the AECOM common stock price as of September 28, 2012, which was \$21.16 per share.
