* The Gross Operating Revenue and the Net Operating Revenue, as well as the Cost of Merchandise do not include the financial export credit operation (R\$ 27.3 million), given that it does not represent the Company's core business activity.

(1) Revenue including Taxes (ICMS, Confins, and PIS).

(2) Not including Cost of Merchandise.

(3) Not including Depreciation and Amortization.

(4) Operating Result + Amortizations + Financial Result.

TCO Celular obtained a consolidated net profit of R\$ 92.2 million in the quarter, which is 27.8% higher than in the first quarter of 2002. Its earnings before interest, tax, depreciation, and amortization (EBITDA) was R\$ 161.9 million and the EBITDA margin was 39.47%. The Company's Gross Operating Revenue was R\$ 524.9 million and its Net Operating Revenue was R\$ 410.0 million, the latter representing a 25.0% growth compared to the same period of last year.

Edgar Filing: TELE CENTRO OESTE CELULAR PARTICIPACOES - Form 6-K

NBT was the first Band B carrier to generate a Net Profit in this first quarter: R\$ 12.1 million. Its earnings before interest, tax, depreciation, and amortization (EBITDA) was R\$ 24.6 million and the EBITDA margin was 30.55%. NBC's Gross Operating Revenue was R\$ 102.9 million and its Net Operating Revenue was R\$ 80.4 million, representing a 34.5% growth compared to the same period of last year.

OPERATING PERFORMANCE

TCO Celular holds a concession to provide cellular telephoning services both directly and by means of its controlled companies in 11 Brazil's Federal District and in Brazilian states: Acre, Amazonas, Amapá, Goiás, Maranhão, Mato Grosso, Mato Grosso do Sul, Pará, Rondônia, Roraima, and Tocantins, comprising altogether 5.8 million Km² and 31.2 million people.

During the first quarter of 2003, TCO Celular reached 3,178,239 clients, of which 2,560,706 in Area 7 and 617,533 in Area 8. TCO Celular's client base has presented a steady growth rate in both its areas of operation. Whereas in Area 7 the client base expanded 24.0% by the end of the first quarter of 2003, compared to the same period in 2002, the client base in Area 8 grew 36.8%.

According to data provided by ANATEL, the number of wireless users in Brazil went up from 34.9 million at the end of 2002 to 36.0 million in this first quarter of 2003. Of this total, TCO Celular closed the quarter with a market share of 8.8%. Comparing the country's net addition with TCO Celular's consolidated addition one can see that TCO Celular represented 10.4% of the net additions in the national user base, which demonstrates that, comparatively, the company achieved a more significant increase in wireless service penetration in Brazil.

TCO Celular's churn rate reached 4.28% at the end of the first quarter of 2003, a decrease of 1.2% over the figure registered in the last quarter, and an increase of 0.06% compared to the first quarter of 2002.

TCO Celular's ARPU (average net revenue per user) remained unaltered in this first quarter of 2003, compared to the same period of last year: R\$ 39.73. The ARPU obtained in Area 7 was R\$ 39.92, while in Area 8 it was R\$ 39.15. The ARPU obtained by TCO Celular's pre-paid service was R\$ 23.29 and the ARPU attained by the post-paid service was R\$ 83.01 at the end of the quarter.

TCO Celular obtained an Outgoing MOU (minutes of use per user) of 48.90 minutes, which represents a 31.0% growth relative to the value registered in the first quarter of 2002. The Incoming MOU achieved by TCO Celular in this same first quarter of 2003 was 56.48 minutes, which corresponds to a decrease of 17.1% against the figure registered in the in the same period of last year.

At the end of the quarter, TCO Celular had maintained market leadership in Area 7, achieving an estimated market share of 71.7% above the national Band A average, which was 62.9%. In Area 8, TCO Celular maintained an estimated market share of 34.3%, also above the national Band B average, which was 31.1%.

The wireless penetration rate in TCO Celular's areas of operation was 23.6 per 100 residents in Area 7, where 3 (three) wireless carriers operate, and 11.2 per 100 residents in Area 8, where 4 (four) wireless carriers operate. This shows that wireless telephoning services still have plenty of room for expansion, considering that both regions in which the Company operates have been presenting spectacular economic growth.

In the first quarter of 2003, TCO Celular expanded its coverage and operated in 521 municipalities and locations. In Area 7, TCO Celular served 364 municipalities and locations at the end of the quarter; in Area 8 it attended 157 municipalities and locations.

At the end of the first quarter of 2003, 97.93% of the cellular handsets in Area 7 were digital. Since its implementation, NBT has operated using 100% digital technology. The wireless telephoning services currently provided by TCO Celular use TDMA technology.

In line with its plans to expand and modernize its system, TCO Celular proceeded with the process of optimizing its resources during the first quarter of 2003. At the end of the period, the Company had 951 radio base stations and enhancers, and 25 switches.

At the end of the first quarter of 2003, TCO Celular had 39 proprietary stores, 1,200 accredited retailers of handsets and 19.5 thousand direct and indirect retailers of telephone cards in Area 7. In Area 8, TCO Celular had at the end of the quarter 18 proprietary stores, 340 accredited retailers of handsets and 7.0 mil direct and indirect retailers of cards.

Edgar Filing: TELE CENTRO OESTE CELULAR PARTICIPACOES - Form 6-K

The workforce employed by the carriers operating in Area 7 decreased by 0.3%, going from 2,512 in December of 2002 to 2,505 in March of 2003. Of the total workforce, 52.1% are permanent employees and the remaining are interns and outsourced third parties. The Permanent Employees per 1,000 Accesses indicator was 0.51 in March of 2003. The workforce employed by the carrier operating in Area 8 decreased by 1.9%, going down from 478 in December of 2002 to 469 in March of 2003. Of this total, 61.2% are permanent employees and the remaining are interns and outsourced parties. NBT's Permanent Employees per 1,000 Accesses was 0.46 in March of 2003.

FINANCIAL PERFORMANCE

TCO Celular's Net Operating Revenue reached R\$ 410.0 million at the end of the first quarter of 2003, which represents a 25.0% increase compared to the first period of last year. During this period, the net revenue obtained from services was R\$ 372.6 million and the net revenue from the sales of merchandise was R\$ 37.4 million.

TCO Celular's Cost of Merchandise Sales was R\$ 60.7 million at the end of the first quarter of 2003, which corresponds to a 41.9% growth compared to the first quarter of 2002. The Subscriber Acquisition Cost (SAC) for the period was R\$ 183.

At the end of the first quarter of 2003, TCO Celular's EBITDA was R\$ 161.9 million, demonstrating that the Company was more efficient in generating cash using its operating assets. The EBITDA margin obtained in the period was 39.47%. Not considering the sales of handsets, the EBITDA obtained was R\$ 185.1 million and the EBITDA was 49.68%.

Edgar Filing: TELE CENTRO OESTE CELULAR PARTICIPACOES - Form 6-K

Expenses with depreciation and amortization totaled R\$ 46.6 million at the end of the period. Depreciation is calculated based on the linear method, considering assets' useful life.

The EBIT obtained in the first quarter of 2003 was R\$ 115.3 million and the EBIT margin was 28.11%.

The Provision for Doubtful Debtors plus Losses in the period was R\$ 9.5 million, representing 1.8% of the Gross Operating Revenue. The chart below shows TCO Celular's evolution with regard to the PDD Losses indicator against its Gross Operating Revenue.

The Net Financial Result obtained by TCO Celular totaled R\$ 27.3 million at the end of the first quarter of 2003, due mainly to the positive exchange rate obtained by the Brazilian Real against the Dollar in the hedged portion of the debt.

	R\$ Million	
	1Q03	1Q02
Financial Revenue	77,898	44,52
Exchange Gains or Losses	22,175	7,183
Other Financial Revenues	59,693	37,337
(-) PIS / Confins over the Financial Revenue	-3,97	-
Financial Expense	50,603	37,311
Exchange Gains or Losses *	-	2,588
Other Financial Expenses	25,555	18,6
(Gains) Losses with hedge	25,048	16,123
Net Financial Revenue (Expense)	27,295	7,209

*Reflects the currency devaluation affecting the debts in foreign currencies, which include operations with the Brazilian Development Bank (BNDES) linked to the currency basket UMBNDES.

On March 31, 2003, TCO Celular's total indebtedness was R\$ 608.0 million (R\$ 627.8 million on December 31, 2002) of which 67.64% was denominated in foreign currency (64.24% denominated in North American Dollars and 3.4% in a basket of currencies an index used by the BNDES - Brazilian Development Bank). Of the total debt in American Dollars, 86.10% was protected by hedge operations at the end of the quarter, and 81.76% of the total debt in foreign currency was protected by hedge operations. This indebtedness was counterbalanced by the resources available in cash (R\$ 194.8 million), by investments in bonds and securities (R\$ 747.9 million), and by accounts receivable from hedge operations (R\$ 31.0 million), resulting in a negative net debt of R\$ 365.7 million.

The Net Profit obtained by TCO Celular in the first quarter of 2003 was R\$ 92.2 million, which shows to an increase of 27.8% compared to the first quarter of 2002. The Net Profit generated by NBT was R\$ 12.1 million in the quarter.

A total of R\$ 28,6 million was invested in Property, Plant, and Equipment during the first quarter of 2003, mainly in projects to expand the mobile telephone network, to modernize telecommunications services, and to develop proprietary transmission routes

SOCIAL RESPONSIBILITY

In an effort to contribute to the construction of a better society, TCO Celular invests significantly in social and cultural projects which benefit educational and social organizations, as well as sports and cultural actions. The Company is fully committed to citizenship and to the country as a whole, particularly in the region where it operates, and invested R\$ 1.03 million in the first quarter of 2003.

CORPORATE NEWS

Jan./03 TCO Celular informed its shareholders and the general public that it has been notified by means of its controlling shareholder of the Preliminary Share Purchase and Sale Agreement to be celebrated between its controlling shareholder

Edgar Filing: TELE CENTRO OESTE CELULAR PARTICIPACOES - Form 6-K

and Brasilcel N.V., aiming to transfer the controlling interest of the Company to Telesp Celular Participações S.A. or to another company belonging to the same economic group as Brasilcel N.V., a joint venture formed by Portugal Telecom, SGPS, S.A., PT Móveis, SGPS, S.A., and Telefónica Móviles, S.A..

Feb./03 TCO Celular and the Brazilian Telecommunications Agency (ANATEL) signed an Authorization Term allowing the migration of Cellular Mobile Services to Personal Mobile Services. With this authorization, the Company can operate under a private regime, no longer rendering services under concession agreements. In addition, the company is now able to promote mergers and incorporations, as well as to transfer shareholding control prior to the end of the five-year period provided by law.

Mar./03 TCO Celular informed its shareholders and the general public that it had been notified by its controlling shareholder of the Share Purchase and Sale Agreement, which provides the final terms and conditions for the operation of transferring controlling interest of the Company to Telesp Celular Participações S.A..

FURTHER CORPORATE NEWS

On April 10, 2003 the Brazilian Telecommunications Agency ANATEL approved the transfer of the interest held by BID S.A. in the capital stock of Tele Centro Oeste Celular Participações S.A. to Telesp Celular Participações S.A..

On April 25, 2003, Tele Centro Oeste Celular Participações S.A. was informed by its controlling shareholder that the operation to transfer the controlling interest of the Company to Telesp Celular Participações S.A. had been closed under the terms provided in the Preliminary Share Purchase and Sale Agreement and in the Share Purchase and Sale Agreement. The operation was financially settled on that date and the shares representing the control of the Company were transferred to Telesp Celular Participações S.A..

With the conclusion of the operation for transference of controlling interest, the standard technology to be adopted by its network was established as the overlay for CDMA 1Xrtt, maintaining the current TDMA network.

All efforts are being made to make the new technology available for sale, as of the third quarter of 2003, in some capitals within the areas where TCO Celular operates. In this way, new products and services will be presented, offering higher data transmission speed and considerably improving the capacity of the products and services offered by the present network.

Now that we are part of the largest wireless telephoning carrier in South America, we will be able to offer our users a number of additional advantages and benefits.

Notes to the Quarterly Information for the three months ended
March 31, 2003
(expressed in thousand of reais R\$)

1. Operations

Tele Centro Oeste Celular Participações S.A. is a publicly traded company directly controlled by BID S.A. (company controlled by Splice Group), which acquired 53.23% of voting capital and 17.75% of total capital.

The Company controls the following companies: Telegoiás Celular S.A., Telemat Celular S.A., Telems Celular S.A., Teleron Celular S.A. and Teleacre Celular S.A. The subsidiaries are responsible for providing cellular telephone services - Band A throughout Midwestern Brazil, including the States of Rondônia and Acre, according to the concession terms signed by the Federal Government, which expire on August 5, 2008 but can be extended for another 15 years.

On May 24, 1999 Norte Brasil Telecom S.A. NBT was formed as a private company, with the objective of exploring cellular telephone services, as well as all necessary and useful activities for delivering these services within area 8 - Band B comprising the States of Amazonas, Roraima, Amapá, Pará and Maranhão. Norte Brasil Telecom S.A. started up its activities in 1999, serving 11 of the 97 cities comprising the respective operating area. The expenses incurred to December 31, 1999 were considered as pre-operating expenses and amortized as from January 2000 when the company became operational and the respective expenses started being amortized.

The business of Tele Centro Oeste Celular Participações S.A., including the services provided by its subsidiaries and respective charges are controlled by ANATEL (National Telecommunications Agency), the entity responsible for regulating telecommunications in Brazil in accordance with Law No. 9472 of July 16, 1997 and respective regulations.

On November 21, 2000 TCO IP S.A. was formed as a private company, with the objective of rendering telecommunications and internet access services, developing solutions and others.

TELE CENTRO OESTE CELULAR PARTICIPAÇÕES S.A.

Notes to the Quarterly Information for the three months ended
March 31, 2003
(expressed in thousand of reais R\$)

1. Operations continued

On April 26, 2002, Tele Centro Oeste Celular Participações S.A. merged the subsidiary Telebrasilíia Celular S.A., based on the evaluation of the latter's shareholders' equity at December 31, 2001, with the aim of rationalizing the corporate structure of the Company and subsidiaries so that the existing administrative and commercial synergies are used, as well as concentrating the liquidity of the private companies' shares in one company only, thus reducing the capital cost. Please note that this merger operation was authorized by the National Agency of Telecommunications ANATEL.

On January 16, 2003, Tele Centro Oeste Celular Participações S.A. published a Relevant Fact communicating its shareholders and the public in general, under the terms of CVM Instruction No. 358/02 and according to information provided by the controlling shareholder, that a Preliminary Shares Purchase/Sale Contract was entered into between the controlling shareholder and Brasilcel N.V for transferring the Company's shareholding control to Telesp Celular Participações S.A. or other company belonging to the economic group of Brasilcel N.V. However, the effective transfer of the Company's shareholding control is subject to the implementation of certain preceding conditions.

2. Presentation of the financial statements

The Company's financial statements and the consolidated financial statements were prepared in conformity with accounting practices adopted in Brazil and accounting norms and procedures established by the CVM (Brazilian Securities Commission).

The balances recorded in the statement of income as of March 31, 2002 do not include the operations of the merged company Telebrasilíia Celular S.A..

3. Summary of the principal accounting practices (company and consolidated)

a. Short-term investments

Refers to temporary investments of high liquidity falling due within less than three months, stated at cost plus income earned to the balance sheet date.

b. Marketable securities

Refers to investments to be maintained up to the respective maturity, which should not exceed 12 months, and are recorded at cost plus interest earned to the balance sheet date.

TELE CENTRO OESTE CELULAR PARTICIPAÇÕES S.A.
(A free translation from the original in Portuguese)
Notes to the Quarterly Information for the three months ended
March 31, 2003
(expressed in thousand of reais R\$)

3. Summary of the principal accounting practices (company and consolidated)--Continued

c. Credits and obligations

Credits and obligations are stated at their historical value. The amounts subject to monetary correction, foreign exchange variation and interest are adjusted to the balance sheet date

d. Allowance for doubtful accounts

This provision was constituted to cover accounts receivable unlikely to be collected. The methodology comprises the recording of a provision to cover 100% of accounts overdue more than 90 days. Additionally, for the accounts not yet billed, not yet due and overdue more than 90 days, the percentages historically obtained from write-offs are applied on the respective gross revenues computed within the last 12 months.

e. Inventories

The inventories classified in current assets comprise cellular telephones stated at the average acquisition cost, to be sold to own shops and authorized, as well as materials applied to the plant maintenance. The inventories to be applied in expansion activities are classified in construction and installations in progress under property, plant and equipment.

f. Investments

Refers to permanent participation in the capital of subsidiaries which are recorded according to the equity pickup method. The accounting practices adopted by subsidiaries are consistent to those adopted by the Company. Other investments are stated at cost not exceeding market value.

g. Property, plant and equipment

Property, plant and equipment is stated at acquisition and/or construction cost, monetarily corrected to December 31, 1995 less accumulated depreciation.

The operation right (concession area 8) of cellular services - Band B relating to the subsidiary Norte Brasil Telecom S.A. was stated at the respective acquisition cost and is being amortized in accordance to concession terms.

TELE CENTRO OESTE CELULAR PARTICIPAÇÕES S.A.
(A free translation from the original in Portuguese)
Notes to the Quarterly Information for the three months ended
March 31, 2003
(expressed in thousand of reais R\$)

3. Summary of the principal accounting practices (company and consolidated)--Continued

Materials related to the plant expansion are stated at average acquisition cost.

The maintenance and repair expenses representing improvements (increase of installed capacity or useful life) are capitalized while the remaining expenses are charged to operating results following the accrual method.

g. Property, plant and equipment--continued

Depreciation is calculated by the straight-line method considering the useful life of the assets at rates shown in Note 8.

h. Deferred charges

The income and expenses computed during the pre-operating phase of subsidiaries Norte Brasil Telecom S.A. and TCO IP S.A. are charged to deferred charges and amortized by the straight-line method over a period of 10 years.

i. Income and social contribution taxes

Income and social contribution taxes are recorded on the accrual basis, calculated in accordance with the current tax legislation. Deferred taxes are recorded over temporary differences, calculated based on the rates applicable at the respective realization or liquidation.

j. Provision for contingencies

The provision for contingencies was recorded based on an analysis of the Company's lawyers regarding all existing legal actions.

k. Income and expenses

Income and expenses are charged to the year's operating result on the accrual basis. The revenues derived from sales of prepaid recharging cellular telephone cards are deferred and charged to the operating result as the cards are used.

Billings are computed monthly and the revenues not billed between the billings date and the end of the respective period are estimated and recognized as revenue in the month that the service was rendered.

(expressed in thousand of reais R\$)

3. Summary of the principal accounting practices (company and consolidated)--Continued

l. Financial result - net

The financial result net is represented by interest and monetary correction on short-term investments and loans obtained and granted. In compliance with the current tax legislation, the interest on shareholders' equity was recorded as financial expenses and considered as destination of result for financial statement purposes, according to Deliberation No. 207 of December 12, 1996 of the CVM.

m. Pension plan

Tele Centro Oeste Celular Participações S.A. and subsidiaries sponsor a private social security plan, which is managed by SISTEL. According to the CVM Resolution No. 371 of December 13, 2000, the Company conducted studies on future benefits to employees. However, the Company opted to record the adjustment to actuarial liabilities directly in the year's operating result as of 2002 for a period of five years, or if lower, for the period of the service or remaining life of the employees.

n. Employees' income participation

Tele Centro Oeste Celular Participações S.A. and subsidiaries provide for employees' income participation based on Article 5 of Provisional Measure No. 980 of April 25, 1995 and subsequent publications.

The amount provided for is equivalent to a monthly salary subject to approval of the Shareholders Meeting. In 2002 these expenses were classified as operating expenses.

o. Profit per share

Profit per share was calculated based on the number of outstanding shares at the balance sheet date.

4. Consolidation of the financial statements

The consolidated financial statements were prepared in accordance with consolidation basic principles established by Brazil's Corporation Law and norms of the CVM.

We present below the main consolidation procedures:

- a) Elimination of assets and liability account balances between the consolidated companies;
- b) Elimination of shareholding, reserves and retained earnings of the consolidated companies;
- c) Elimination of revenues and expenses derived from business between the consolidated companies;
- d) Highlighting the minority interest amounts on the financial statements.

The consolidated companies comprise the following:

	Total shareholding (%)	
	3/31/2003	12/31/2002
Telegoiás Celular S.A.	97.07	97.07
Telemat Celular S.A.	97.57	97.57
Telems Celular S.A.	98.45	98.45
Teleron Celular S.A.	97.21	97.21
Teleacre Celular S.A.	98.35	98.35
Norte Brasil Telecom S.A. NBT	98.33	98.33
TCO IP S.A.	99.99	99.99

5. Marketable securities

	Interest	Maturity date	Company		Consolidated	
			3/31/2003	12/31/2002	3/31/2003	12/31/2002
Debentures Fixcel S.A.	- CDI plus 2.0% per year	06/27/2002 and 08/08/2003	235,517	224,254	747,947	712,135
			235,517	224,254	747,947	712,135

Tele Centro Oeste Celular Participações S.A., directly and through its subsidiaries, acquired a total of R\$ 660 million in debentures issued by Fixcel S.A., from which R\$ 470 million was due on July 2, 2002 and R\$ 190 million on August 13, 2002. The debentures have variable guarantee on the assets of Fixcel S.A. and are secured by Splice do Brasil Telecomunicações e Eletrônica S.A..

As informed by the controlling shareholder, as from the effective transfer of the Company's shareholding control, Telesp Celular Participações S.A. will ensure the liquidation of the debentures issued by the parent company Fixcel S.A. which are held by the Company.

 Notes to the Quarterly Information for the three months ended
 March 31, 2003
 (expressed in thousand of reais R\$)

10. Provision for contingencies

Based on the lawyers' opinion, the Company recorded a provision for contingencies in amounts considered necessary to cover possible losses derived from the outcome of ongoing processes, as follows:

	3/31/2003	12/31/2002	3/31/2003	12/31/2002
Tax	11,868	12,199	16,041	16,404
Labor	9	-	185	269
Others (a)	88,853	82,431	88,853	82,431
	100,730	94,639	105,079	99,104

(a) Corresponding to the original loans from Telecomunicações Brasileiras S.A. TELEBRÁS, which according to Attachment II of the Spin-Off Report of February 28, 1998, approved by the General Shareholders Meeting of May 1998, and according to Company management, should be charged to the respective holding controlled by Telegoiás Celular S.A. and Telebrasil Celular S.A.

Local management, based on the understanding that the respective loans were wrongly allocated at the time of the spin-off, suspended the payments flow subsequent to the changes in Company's controls. These loans are being indexed by the IGP-M (Market General Price Index) plus 6% annual interest.

In June 1999, Tele Centro Oeste Celular Participações S.A. (parent company) filed a legal action claiming that the assets related to these obligations - loans and financing - belong to the Company as well as the respective accessories, plus compensations for the installments paid.

In November 1999, Company management decided to transfer to the actual holding - Tele Centro Oeste Celular Participações S.A., the liability derived from the loan originally due to Telecomunicações Brasileiras S/A TELEBRÁS and absorbed during the spin-off process.

On August 1, 2001, a sentence was handed down denying the action filed by Tele Centro Oeste Celular Participações S.A., however, on October 8, 2001 Tele Centro Oeste Celular Participações S.A. filed an appeal awaiting decision to date.

According to the opinion of the Company's lawyers, they consider the chances of unfavorable outcome for these contingencies as probable with regard to merit, and possible with regard to the adjustment factor. The difference between the original contract charges and the above mentioned monetary correction at March 31, 2003, which has not been recorded, is estimated to be R\$ 55,660 (R\$ 68,780 at December 31, 2002).

TELE CENTRO OESTE CELULAR PARTICIPAÇÕES S.A.
 (A free translation from the original in Portuguese)
 Notes to the Quarterly Information for the three months ended
 March 31, 2003
 (expressed in thousand of reais R\$)

11. Related party transactions--Continued

According to the contract entered into by and among Splice do Brasil S.A. and the subsidiaries of Tele Centro Oeste Celular Participações S.A., Telems Celular S.A., Telemat Celular S.A., Teleron Celular S.A., Telegoiás Celular S.A and Teleacre Celular S.A., a technical assistance shall be provided to Splice do Brasil S.A., corresponding to 1% of net operating revenues. For the period ended March 31, 2003, R\$ 3,644 (R\$ 1,887 at December 31, 2002) was appropriated to general and administrative expenses.

In January 2002 the Company, through a contract with BID S.A., made an advance payment for the acquisition of shares corresponding to the present value of the tax benefit on the merged premium in the amount of R\$ 34,259 which was increased by R\$ 6,939 due to the financial pro-rata discount at March 31, 2003 (R\$ 5,967 at December 31, 2002), according to the discount rate practiced in the financial market.

All the related party transactions were carried out in accordance with the Company's articles of incorporation and at normal market conditions.

12. Shareholder' equity

a) Capital

The authorized capital at March 31, 2003 and December 31, 2002 correspond to 700,000,000,000 shares. The subscribed and paid-in capital at March 31, 2002 and December 31, 2002 corresponds to R\$ 534,046, represented by 379,200,036,000 shares with no par value, held as follows (in thousands of shares):

	3/31/2003	12/31/2002
Common shares	126,433,338	126,433,338
Preferred shares	252,766,698	252,766,698
	379,200,036	379,200,036
Book value per lot of thousand share (in R\$)	3.456616	3.213404

The preferred shares of Tele Centro Oeste Celular Participações S. are nonvoting and have priority of reimbursement and payment of noncumulative minimum dividends. These shares will become voting if the Company, for a period of three consecutive years, stops paying the minimum dividends established on the Articles of Incorporation.

On April 26, 2002, the minority shareholders of Telebrasilíia Celular S.A transferred their shares according to the merger agreement to Tele Centro Oeste Celular Participações S.A., thus increasing the latter's capital.

12. Shareholder' equity - continued

b) Special premium reserve

This reserve was constituted as a result of the Company's partial spin-off and refers to the premium paid for the acquisition of BID S.A. (subsequently recorded at Coverage Participações S.A., a company merged by Tele Centro Oeste Celular Participações S.A.). This operation was recorded in a specific permanent assets account against the capital reserve account recorded in shareholders' equity. This reserve is reduced by the provision for maintaining shareholders' equity completeness.

c) Retained income reserve for expansion - Article 196 of Law No. 6.404/76

On April 29, 2003, the General Shareholders Meeting approved the constitution of a reserve for retained earnings in the amount of R\$ 219,225 in connection with the remaining balance of the net income for the year, after allocating the legal reserve and dividends. The amount in question will be used for future investment purposes and according to the capital budget.

The General Shareholders Meeting also approved the transfer of the 2001 retained earnings remaining balance of R\$ 44,252, which was not used in investment activities mainly due to the Overlay implantation as included in the 2002 capital budget, for expansion purposes. The referred amount will be invested according to the 2003 capital budget under the terms of the Company's bylaws. The decision of postponing the Overlay was based on market regulatory conditions and on the perspective of consolidating the cellular telephone companies who appeared to ready to make such a significant decision only at the beginning of 2003.

d) Treasury stock

At a meeting held on November 8, 2002, the Board of Directors of Tele Centro Oeste Celular Participações S.A., in continuation of the decisions made on June 22, 2001, September 25, 2001 and December 26, 2001, respectively, approved the acquisition at market value of up to 23,334,500.000 shares of the Company issuance, from which 1,670,000.000 are common shares and 21,664.500.000 are preferred shares, representing up to 10% of the outstanding preferred shares, to be cancelled or kept in treasury for subsequent disposal, without capital reduction.

14. Financial instruments

Pursuant to Normative Instruction of CVM No. 235/95, Tele Centro Oeste Celular Participações S.A. and subsidiaries performed an evaluation of book value of their assets and liabilities in relation to market value based on available information and appropriate evaluation methodologies. However, the interpretation of market information, as well as of the selection of evaluation methods, require considerable judgment and reasonable estimates in order to conclude on the most adequate realization value. Consequently, the estimates presented do not necessarily indicate the amounts that could be realized in the current market. The application of different market hypothesis and/or estimate could have a material effect on the estimated realization values.

14. Financial instruments --Continued

The Company's investments are recorded by the equity pickup method. These investments comprise subsidiaries of strategic interest to the Company. Therefore, market value considerations are not applicable. The accounts receivable and accounts payable recorded in current assets and liabilities approximate market value due to their short-term maturity.

The main market risk factors affecting the Company's business comprise the following:

a) Exchange rate risk

This risk relates to the possibility of the Company computing losses derived from foreign exchange rate fluctuations, increasing the debt balance of foreign currency loans obtained in the market and the financial expenses balance. In order to reduce this type of risk, the Company enters into hedge contracts (swaps of CDI) with financial institutions.

In March 2003, the total debt amounted to R\$ 608,009 from which 67.64% is expressed in foreign currency (64.24% updated by the U.S. dollar and Yen and 3.40% denominated currency basket BNDDES index). The portion expressed in U.S. dollars and Yen, 86.10% was protected by hedge operations at the end of the quarter. From the total denominated in foreign currency 81.76% was protected by hedge operations. The hedge operations were carried out for purposes of partially covering future maturity of debts in U.S. dollar and Yen, indexed at fixed or variable interest rates. The gains or losses derived from these operations have been recorded in the statement of operations.

The Company's net exposure to the foreign exchange rate risk, at book and market value, at March 31, 2003 corresponds to the following:

	Book value	Fair value
Loans in U.S. dollars	390,565	390,565
Hedge	336,280	333,262
Net exposure	54,285	57,303

The valuation method used for calculating the market value of loans, financing and swap contracts was based on discounted cash flow, considering the expectations of liquidation or realization of liabilities and assets at market rates in effect at the balance sheet date. The Company intends to maintain the existing hedge operations up to their maturity.

(expressed in thousand of reais R\$)

14. Financial instruments --Continued

b) Interest rates risk

The risk relates to the possibility of the Company computing losses resulting from interest rate fluctuations, increasing the debt balances of loans obtained in the market and the financial expenses. The Company has not entered into hedge contracts against this risk. However, the Company constantly monitors the market interest rates in order to assess the need for contracting derivatives and to hedge against the risk of interest rates volatility.

At March 31, 2003, the Company presents the amount of R\$ 196,727 (R\$ 206,066 at December 31, 2002) in loans and financing in local currency obtained at various fluctuating rates (as explained in Note 9), as well as short-term investments in the amount of R\$ 176,557 (R\$ 121,362 at December 31, 2002) and investments in marketable securities of R\$ 747,947 (R\$ 712,135 at December 31, 2002) based on the CDI variation.

At March 31, 2003, the Company presents R\$ 163,634 (R\$ 163,358 at December 31, 2002) in loans and financing in foreign currency at variable interest rates (Libor renegotiated on a semiannual basis) and hedge contracts for these operations amounting to R\$ 109,348 (R\$ 106,930 at December 31, 2002) at fixed interest rates plus the exchange variation.

Another risk to which Tele Centro Oeste Celular Participações S.A. and subsidiaries are exposed is the non-connection between the monetary updating indexes on their debts and those on accounts receivable. The telephone charge readjustments do not necessarily correspond to the local interest rates rise affecting the Company's debts.

c) Operating credit risk

The risk relates to the possibility of the Company computing losses derived from difficulties in collecting the amounts billed to customers, represented by cellular equipment dealers and distributors of prepaid telephone cards. In order to reduce this type of risk, the Company performs credit analyses supporting the risk management over collection problems and monitors the accounts receivable from subscribers, locking the calling capacity in case customers fail to pay their debts. With respect to shops and distributors, the Company maintains individual credit limits based on the analysis of sales potential, risk history and collection problem risks.

Notes to the Quarterly Information for the three months ended
March 31, 2003
(expressed in thousand of reais R\$)

14. Financial instruments --Continued

c) Operating credit risk --Continued

Credit risk linked to rendering of services

The credit risk in relation to accounts receivable from cellular telephone services is diversified.

Credit risk linked to the sale of equipment

The Company's policy for selling equipment and distributing prepaid telephone cards is closely related to the credit risk levels accepted during the normal course of business. The selection of partners, the diversification of receivables portfolio, the monitoring of loan terms, position and request limits established for dealers, obtaining guarantees are procedures adopted by the Company in order to minimize possible collection problems with its trading partners.

d) Financial credit risk

The risk relates to the possibility of the Company computing losses derived from difficulties in the realization of short-term investments and hedge contracts. The Company and subsidiaries minimize the risks associated with these financial instruments by investing with good rating financial institutions.

15. Subsequent events

On April 10, 2003 the National Telecommunications Agency - ANATEL approved the transfer of the participation of Bid S.A. in the capital of Tele Centro Oeste Celular Participações S.A. to Telesp Celular Participações S.A..

On April 25, 2003, Tele Centro Oeste Celular Participações S.A. was notified by its controlling shareholder of the conclusion of the operation involving the transfer of the Company's shareholding control to Telesp Celular Participações S.A., under the terms of the Preliminary Contract for the Purchase and Sale of Shares and the Contract for Purchase and Sale of Shares, and on the referred date the financial liquidation of the operation occurred as well as the transfer of the Company's shares, representing its shareholding control, to Telesp Celular Participações S.A..

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
