**PROXY STATEMENT
for Annual Meeting of Stockholders
to be held April 19, 2005**

GENERAL INFORMATION

This proxy statement is being furnished to the stockholders of Gold Banc Corporation, Inc., a Kansas corporation (the "Company"), in connection with the Annual Meeting of Stockholders to be held in The Ballroom at the Ritz Carlton, 1111 Ritz Carlton Drive, Sarasota, Florida on Tuesday, April 19, 2005, at 9:00 a.m. local time. This proxy statement was first mailed on or about March 29, 2005 to all stockholders entitled to vote at the Annual Meeting.

The Company's Board of Directors is soliciting proxies in order to provide every stockholder with an opportunity to vote on all matters scheduled to come before the Annual Meeting and to be able to transact business at the meeting. Whether or not you are able to attend the Annual Meeting, you are urged to sign, date and return the proxy in the enclosed envelope. Upon execution and return of the enclosed proxy, the shares represented by it will be voted by the persons designated therein as proxies in accordance with the stockholder's directions. A stockholder may vote on a matter by marking the appropriate box on the proxy or, if no box is marked for a specific matter, the shares will be voted as recommended by the Board of Directors on that matter.

The enclosed proxy may be revoked at any time before it is voted by (a) so notifying the Corporate Secretary of the Company in writing, (b) executing a proxy with a later date and delivering such later proxy to the Corporate Secretary of the Company prior to the Annual Meeting or (c) attending the Annual Meeting and voting in person. Unless the proxy is revoked or is received in a form that renders it invalid, the shares represented by it will be voted in accordance with the instructions contained therein.

Employees of the Company and its affiliates who participate in the Gold Banc Corporation, Inc. Employees' Stock Ownership Plan and Trust may vote shares of common stock of the Company credited to their account by instructing Gold Trust Company, St. Joseph, Missouri, the trustee of the plan. The enclosed proxy card will serve as the instruction card. The trustee of the plan will vote such shares in accordance with duly executed instructions received by April 9, 2005. The trustee at its discretion will vote shares credited to a participant's account for which no instructions are received. Each participant may revoke previously given voting instructions by filing with the trustee a written notice to that effect by April 9, 2005.

For the purpose of determining whether the stockholders have approved matters other than the election of directors, abstentions are treated as shares present in person or represented by proxy. Because all matters other than the election of directors requires the affirmative approval of all shares present in person or represented by proxy at the meeting, abstentions have the same effect as a negative vote. With respect to the election of directors, abstentions and instructions on the accompanying proxy card to withhold authority to vote for one or more of the nominees will result in the respective nominees receiving fewer votes. If no instructions are given on the accompanying proxy, the shares registered thereby will be voted for the nominees listed herein. For shares which are held of record by a broker for the beneficial owner (typically referred to as being held in "[street name]"), absent instructions from the beneficial owner of such shares, the broker will have the discretion to vote such shares on routine matters, including the elections of directors and ratification of auditors.

The Company will bear the cost of solicitation of proxies, which will be principally conducted by mail; however, certain officers of the Company may also solicit proxies by telephone, internet, facsimile or in person. Such cost may also include ordinary charges and expenses of brokerage firms and others for forwarding soliciting material to beneficial owners.

On March 4, 2005, the record date for determining stockholders entitled to vote at the Annual Meeting and any postponements and adjournments thereof, the Company had outstanding and entitled to vote approximately 45,038,701 shares of common stock, par value \$1.00 per share (the "Common Stock"). Each outstanding share of Common Stock entitles the record holder to one vote.

ELECTION OF DIRECTORS

The Board of Directors is divided into three classes, elected for terms of three years and until their successors are elected and qualified. Two Class III directors are to be elected at the Annual Meeting. The Nominating and Corporate Governance Committee has recommended and the Board of Directors has nominated Messrs. William Randon and Robert J. Gourley to stand for election as Class III directors. In the event Messrs. Randon or Gourley should become unavailable for election, which is not anticipated, substitute nominees may be nominated by the Board of Directors. The Company's bylaws require all nominations for director by stockholders to be submitted to the corporate secretary of the Company no later than 120 days prior to the day corresponding to the date on which the Company released its proxy statement in connection with the previous year's annual meeting of stockholders. No nominations were received by the Company from stockholders. Accordingly, if a quorum is present, all of the directors recommended by the Nominating and Corporate Governance Committee and nominated by the Board of Directors, will be elected directors of the Company.

Compensation Committee Report on Executive Compensation

The Compensation Committee is composed of D. Patrick Curran, Donald C. McNeill and Allen D. Peterson, each of whom are independent directors. The Compensation Committee met four times during the course of 2004 to consider the compensation programs for executive officers and senior managers of the Company.

Compensation Philosophy and Objectives

The Company's compensation programs are designed to provide fair and reasonable compensation to all employees, including its executive officers and senior managers. The Committee's specific objectives are to: (i) provide annual compensation that takes into account the Company's performance relative to its financial goals and objectives; (ii) align the financial interests of the executive officers with those of stockholders by providing significant equity-based long-term incentives; and (iii) offer a total compensation program for executive officers based on the level of responsibility of the executive's position and necessary skills and experience relative to other senior management positions and comparative compensation of similarly positioned executives and senior managers of peer financial institutions.

Compensation Components and Process

There are three major components of the Company's executive officer and senior manager compensation programs: base salary, (2) annual incentive awards, and (3) long-term incentives.

The process utilized by the Committee in determining executive officer compensation levels for all of these components is based upon the Committee's judgment and takes into account qualitative and quantitative factors. However, the Committee emphasizes that in determining executive officer compensation levels, particular attention is placed on tying a significant portion of executive compensation to the success of the executive officer and the Company in meeting established financial and performance goals.

For support in the compensation decision process, the Committee engaged an independent compensation consultant to provide assistance in developing guidelines for executive compensation and providing market data to determine relevant compensation practices of the Company's peer group of banks. The Company's peer group of banks, as developed by the independent compensation consultant, consists of regional bank holding companies that offer diversified financial services to its customers and are of comparable asset size. The committee took into account the peer information when formulating its recommendations, but the Committee does not target total compensation or any component thereof to any particular point within, or outside, the range of the peer group results. In general, the base salaries of Gold Banc's executive officers in 2004 were competitive with its peers but the annual cash incentives for that period were below its peers due in part to the low incentive payments related to the 2003 performance of Gold Banc. Long-term incentive compensation received by executive officers in 2004 was generally below peers, except that the Chief Executive Officer and the Chief Financial Officer were previously awarded restricted stock and restricted stock units which became vested in 2004 as a result of meeting pre-established stock price goals which enabled their long-term incentive compensation to be in line with peers. The Committee plans to monitor and periodically revise total compensation, with particular emphasis on long-term incentive compensation, to all executive officers to ensure that Gold Banc can attract, retain and properly motivate executives with the ability to generate market-competitive financial performance for Gold Banc's shareholders.

Long-term Incentive Awards

In consultation with an independent compensation consultant, the Committee in 2003 ceased granting stock options and followed an industry trend of granting awards of restricted stock and restricted stock units to its executive officers. This trend anticipated the expensing of stock options that will be required for financial reporting purposes. The Committee is also utilizing restricted stock rather than stock options because it reduces the amount of dilution to earnings per share since fewer shares need to be awarded to convey an equivalent economic opportunity to the executives. Similarly, the value of restricted stock units tracks the performance of Gold Banc's stock but will be paid out in cash and thus avoids increasing the number of outstanding shares which would dilute earnings per share. The Committee has allocated the awards to include 60% in restricted stock and 40% in restricted stock units so that the executives will have the cash needed to pay income taxes that become due when the restricted stock is no longer subject to a risk of forfeiture.

The Company believes that restricted stock and restricted units are a very important means of creating incentive to improve the long-term financial performance of Gold Banc which should be reflected in appreciation of the stock price. These awards align the financial interests of Gold Banc's shareholders and executives by enabling each of them to benefit from such appreciation. In addition, vesting of awards made to the Chief Executive Officer in 2004 and 2003 and the Chief

Financial Officer in 2003 were linked to specified increases in the stock price as well as additional periods of service which further strengthened the alignment of such awards with the financial interests of stockholders.

Compensation of Chief Executive Officer

In establishing the compensation of the Chief Executive Officer for 2004, the Committee applied the criteria described above under "Compensation Components and Process." The Committee also relied on its independent compensation consultant to determine that the total compensation, and the components of such compensation, paid to the Chief Executive Officer are generally competitive with Gold Banc's peers. Mr. Aslin earned his long-term incentive compensation based on the stock price achieving pre-established goals which caused his awards of restricted stock and restricted stock units to become vested, thus producing a very substantial benefit for stockholders.

Options Granted and Options Exercised in the Last Fiscal Year

The Committee has historically granted stock options as a means of providing long-term incentives to employees. For the reasons described in the Compensation Committee report, the Committee in 2003 began granting awards of restricted stock and restricted stock units to certain of its executive officers in lieu of stock options. These grants benefit the recipients by enabling the recipients to receive the appreciation in the value of the Company's common stock, thus providing additional long-term incentives. In addition, the vesting of awards made to the Company's Chief Executive Officer and Chief Financial Officer are tied to the price of the Company's common stock, thereby aligning the interests of these officers with the Company's stockholders. Restricted stock units also provide an equity-based compensation that may not result in dilution of the Company's stockholders as such awards may be paid out in cash upon vesting.

COMMITTEES OF THE BOARD OF DIRECTORS

The standing committees of the Board of Directors consisted of an Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee.

Audit Committee. Daniel P. Connealy, Robert J. Gourley and J. Gary Russ were members of the Company's Audit Committee during 2004. On April 22, 2003, the Board of Directors appointed Mr. Connealy to serve as the Chairman of the Audit Committee. The Board of Directors has determined that all members of the Audit Committee are "independent" defined by applicable listing standards of Nasdaq Stock Market, Inc., and that Mr. Connealy is an audit committee financial expert. The Audit Committee is governed by the Amended and Restated Audit Committee Charter adopted by the Board of Directors, a copy of which is available on the Company's web site at www.goldbanc.com. As set forth in the Audit Committee Charter, the Audit Committee is appointed by the Board of Directors to perform specific duties and responsibilities, including the following:

- reviewing areas of potential significant financial risk to the Company and discussing guidelines and the process by which risk assessment and management is undertaken; and
- overseeing and reviewing the independence, qualifications and performance of the Company's Independent Registered Public Accounting Firm.

Compensation Committee. D. Patrick Curran, Donald C. McNeill and Allen D. Petersen are members of the Company's Compensation Committee. Mr. Curran is the Chairman of the Compensation Committee. The Compensation Committee is appointed by the Board of Directors to perform specified duties and responsibilities, including the following:

- reviewing, approving and overseeing the procedures and substance of the Company's compensation policy;

Edgar Filing: GOLD BANC CORP INC - Form DEF 14A

- evaluating and setting the compensation of the Company's Chief Executive Officer ("CEO");
- in determining the long-term incentive component of CEO compensation, considering all relevant factors, including the Company's performance and relative stockholder return, the value of similar incentive awards to CEO's at comparable companies, and the awards given to the CEO in past years;

- reviewing and recommending to the Board, or determining, the annual salary, bonus, stock options, and other benefits, direct and indirect, of the other senior executives, including development of an appropriate balance between short-term pay and long-term incentives while focusing on long-term stockholder interests;
- planning for executive development and succession;
- making recommendations to the Board with respect to incentive-compensation plans and equity-based plans; and
- recommending an appropriate method by which stockholder concerns about compensation may be communicated by stockholders to the Compensation Committee and, as the Compensation Committee deems appropriate, to respond to such stockholder concerns.

Nominating and Corporate Governance Committee. Robert J. Gourley, William R. Hagman and William Randon are members of the Company's Nominating and Corporate Governance Committee. Mr. Gourley is the Chairman of the Nominating and Corporate Governance Committee. The Board of Directors has determined that all members of the Nominating and Corporate Governance Committee are "independent" as defined by applicable listing standards of Nasdaq Stock Market, Inc. The Nominating and Corporate Governance Committee operates pursuant to its Amended and Restated Charter, a copy of which is available on the Company's web site at www.goldbanc.com. The Nominating and Corporate Governance Committee is appointed by the Board of Directors to perform specific duties and responsibilities, including the following:

- evaluating, in consultation with the Chairman of the Board and Chief Executive Officer, the current composition, size, role and functions of the Board and its committees to oversee successfully the business and affairs of the Company in a manner consistent with the Company's Corporate Governance Guidelines, and making recommendations to the Board for approval;
- making recommendations to the Board concerning the appointment of directors to Board committees and the selection of Board committee chairs consistent with the Company's Corporate Governance Guidelines; and
- evaluating and review the Company's Corporate Governance Guidelines.

As set forth in the Company's Corporate Governance Guidelines, members of the Board of Directors shall be persons who have the highest personal and professional integrity and who have demonstrated the kind of ability and judgment to work effectively with other members of the Board to serve the long-term interests of the stockholders. Members should act in a thorough and inquisitive manner, be objective and have practical wisdom and mature judgment. The Committee works with the Board of Directors as a whole on an annual basis to determine the appropriate characteristics, skills and experience for the Board of Directors as a whole and its individual members. In evaluating the suitability of nominees for election to the Board of Directors, the Committee takes into account many factors, including the following: a general understanding of management, marketing, accounting, finance and other elements relevant to the Company's success in today's business environment; an understanding of the principal operational, financial and other plans, strategies and objectives of the Company; the results of operations and the financial condition of the Company for recent periods; educational and professional background; diversity of gender and race of the Board; and ownership of the Company's stock. However, this list is not an exhaustive list of all the qualifications used by the Committee in determining the fitness or eligibility of potential director candidates. Appropriate flexibility is needed to evaluate all relevant facts and circumstances in context of the needs of the Board of Directors and the Company at a particular point in time. Accordingly, the Committee reserves the right to consider those factors as it deems relevant and appropriate, including the current composition of the Board of Directors and its committees and the need for Audit Committee expertise.

In addition, a candidate is not eligible for election to the Board if such candidate is either at or above the age of 70 at the time of election to the Board, or would be at or above the age of 70 in the year the candidate would be eligible for re-election at the next election of the class of directors to which the candidate is proposed to be elected. Furthermore, all candidates also must be willing to serve on any committee of the Board to which the candidate may be elected at any time during his or her term as a director.

In determining whether to recommend a director for re-election, the Committee also considers the director's past attendance at meetings and participation in and contributions to the activities of the Board.

The Committee does not have a formal policy of considering stockholder nominations for inclusion in the Company's proxy statement sent to stockholders in connection with the election of directors. However, the Committee will consider nominations from stockholders at the annual meeting of stockholders if the following requirements as set forth in the Company's Amended and Restated Bylaws are met. First, the stockholder making the nominee must be a stockholder of

record on the record date for such meeting, must continue to be a stockholder of record at the time of such meeting, and must be entitled to vote thereat. Second, the stockholder must deliver or cause to be delivered a written notice to the Company's Corporate Secretary. The Secretary of the Company must receive such written notice no later than 120 days prior to the day corresponding to the date on which the Company released the proxy statement for the previous year, that is no later than November 22, 2005 for the 2006 annual meeting of stockholders. However, if the date of the annual meeting is changed by more than 30 days from the date of the previous year's annual meeting, the written notice must be received by the Company's Corporate Secretary at a reasonable time prior to the time at which notice of such meeting is delivered to stockholders.

The notice shall specify: (a) the name and address of the stockholder as they appear on the books of the Company; (b) the class and number of shares of the Company's stock that are beneficially owned by the stockholder; (c) for each nomination sought to be made, a description of the qualifications and business or professional experience of each proposed nominee together with the reasons for each nomination; and (d) a statement signed by each nominee indicating his or her willingness to serve if elected, and disclosing the information about him or her that is required by the Securities and Exchange Act of 1934, as amended (the "Exchange Act"), and the rules and regulations promulgated thereunder to be disclosed in the proxy materials for such meeting.

The Committee also has the authority under its Charter to retain a search firm to assist it in finding appropriate nominees for election to the Board of Directors.

During the 2004 fiscal year, the Board of Directors met 11 times. The Audit Committee met 4 times in 2004. The Compensation Committee met 4 times in 2004. The Nominating and Corporate Governance Committee met 3 times in 2004. During 2004, each of the directors attended at least seventy-five percent of the aggregate number of meetings of the Board of Directors and the committees on which they serve. The Company also encourages all directors to attend the annual meeting of stockholders. The Board of Directors typically meets immediately after the annual meeting of stockholders, which facilitates their ability to attend the annual meeting of stockholders. Nine directors personally attended the 2004 annual meeting of stockholders.

Audit Committee Report

The role of the Audit Committee is to assist the Board of Directors in its oversight of the Company's financial reporting process. As set forth in the Audit Committee Charter, management of the Company is responsible for the preparation, presentation and integrity of the Company's financial statements, the Company's accounting and financial reporting principles and internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. The Independent Registered Public Accounting Firm is responsible for auditing the Company's financial statements and expressing an opinion as to their conformity with generally accepted accounting principles and auditing the effectiveness of the Company's internal control over financial reporting.

In the performance of its oversight function, the Audit Committee has considered and discussed the audited financial statements and the effectiveness of the Company's internal control over financial reporting with management and the Independent Registered Public Accounting Firm. The Audit Committee has also discussed with the Independent Registered Public Accounting Firm the matters required to be discussed by Statement on Auditing Standards No. 61, *Communication with Audit Committees*, as currently in effect. Finally, the Audit Committee has received the written disclosures and the letter from the Independent Registered Public Accounting Firm required by Independence Standards Board No. 1, *Independence Discussions with Audit Committees*, as currently in effect. The Audit Committee has considered whether other services provided by the Independent Registered Public Accounting Firm to the Company are compatible with maintaining the Independent Registered Public Accounting Firm's independence and has discussed with the Independent Registered Accounting Firm their independence.

The members of the Audit Committee are not professionally engaged in the practice of auditing or accounting. Members of the Audit Committee rely without independent verification on the information provided to them and on the representations made by management and the Independent Registered Public Accounting firm. Accordingly, the Audit Committee's oversight does not provide an independent basis to determine that management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures designed to assure compliance with accounting standards and applicable laws and regulations. Furthermore, the Audit Committee's considerations and discussions referred to above do not assure that the audit of the Company's financial statements have been carried out in accordance with the Standards of

the Public Company Accounting Oversight Board (United States), that the financial

statements are presented in accordance with generally accepted accounting principles, or that the Company's Independent Registered Public Accounting Firm is in fact independent.

Based on the reports and discussions described in this report, and subject to the limitations on the role and responsibilities of the Audit Committee referred to above and in the Charter, the Audit Committee recommended to the Board that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2004 filed with the Securities and Exchange Commission.

The Board of Directors, upon recommendation of its Audit Committee, has determined to continue the services of KPMG LLP for the current fiscal year ending December 31, 2005. Such services will include the audit of the financial statements of the Company and the effectiveness of the Company's internal control over financial reporting for the fiscal year ending on such date and other appropriate accounting services. A member of KPMG LLP will attend the annual meeting and will have the opportunity to make a statement if desired. Such member will also be available to respond to appropriate questions from the stockholders.

The following table presents fees for professional audit services rendered by KPMG LLP, the Independent Registered Public Accounting Firm, for the audit of the Company's annual financial statements and internal control over financial reporting for 2004 and 2003, and fees billed for other services rendered by KPMG LLP. The Audit Committee pre-approves all of the services to be provided by KPMG and thus does not have a formal pre-approval policy for any non-audit services to be provided by the Company's Independent Registered Public Accounting Firm.

Compensation Committee Interlocks and Insider Participation

During the fiscal year ended December 31, 2004, there were no interlocking relationships between any executive officers of the Company and any entity whose directors or executive officers serve on the Board's Compensation Committee, nor did any current or past officers of the Company serve on the Compensation Committee.

CERTAIN RELATED TRANSACTIONS

Loans to Executive Officers, Directors and Principal Stockholders

Certain of the officers, directors and principal stockholders of the Company and its subsidiary bank, and members of their immediate families and businesses in which these individuals hold controlling interests, are

customers of the Company's subsidiary bank and it is anticipated such parties will continue to be customers of the Company's subsidiary bank in the future. Credit transactions with these parties are subject to review by the board of directors of the Company's subsidiary bank.

Except as discussed below, all outstanding loans and extensions of credit by the Company's subsidiary bank to these parties were made in the ordinary course of business on substantially the same terms, including interest rates and collateral, as those prevailing at the time for comparable transactions with other persons, and, in the opinion of management, did not and do not involve more than the normal risk of collectibility or present other features unfavorable to the bank. None of the loans to the directors and executive officers of the Company have been classified by regulatory authorities. The aggregate balance of loans and advances under existing lines of credit to these parties was \$30.2 million and \$57.9 million at December 31, 2004 and 2003, respectively.

Executive officers and directors and greater than ten percent stockholders are required by Securities and Exchange Commission rules to furnish the Company with copies of all Section 16(a) reports they file.

Based solely on a review of the copies of such forms furnished to the Company, the Company believes that during the fiscal year ended December 31, 2004 all Section 16(a) filing requirements applicable to the Company's officers, directors and greater than ten percent beneficial owners were complied with in a timely manner, except as follows: One form covering one transaction for Mr. Petersen.

PROPOSALS AND COMMUNICATIONS BY SECURITY HOLDERS

No stockholder proposals were received by the Company for the 2005 Annual Meeting of Stockholders.

A stockholder proposal may be considered at the Company's 2006 Annual Meeting of Stockholders only if it meets the following requirements set forth in the Company's Amended and Restated Bylaws. First, the stockholder making the proposal must be a stockholder of record on the record date for such meeting, must continue to be a stockholder of record at the time of such meeting, and must be entitled to vote thereat. Second, the stockholder must deliver or cause to be delivered a written notice to the Company's Corporate Secretary. The Secretary of the Company must receive such written notice of proposals no later than 120 days prior to the day corresponding to the date on which the Company released this proxy statement (that is, no later than November 22, 2005). However, if the date of the 2006 annual meeting is changed by more than 30 days from the date of the 2005 annual meeting, this written notice must be received by the Company's Corporate Secretary at a reasonable time prior to the time at which notice of such meeting is delivered to stockholders.

Notwithstanding satisfaction of the above, the proposed business described in the notice may be deemed not properly before the meeting if, pursuant to state law or any rule or regulation of the SEC, it was offered as a stockholder proposal and was omitted, or had it been so offered, it would have been omitted, from the notice of, and proxy materials for the meeting (and any supplement thereto) authorized by the Board of Directors.

In the event such notice is timely given and the business described therein not disqualified, such business may be presented by, and only by, the stockholder who shall have given the notice required or a representative of such stockholder who is qualified under the law of the State of Kansas to present the proposal on the stockholder's behalf at the meeting.

The Company does not have a formal policy concerning stockholders communicating with the Board of Directors or individual directors.
