(Zip Code)

Registrant's telephone number, including area code: (318) 484-7400

Indicate by check mark whether the Registrants: (1) have filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrants were required to file such reports) and (2) have been subject to such filing requirements for the past 90 days.

Yes No

Edgar Filing: CLECO POWER LLC - Form 10-Q

Indicate by check mark whether the Registrants have submitted electronically and posted on their corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the Registrants were required to submit and post such files). Yes No

Indicate by check mark whether Cleco Corporation is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether Cleco Power LLC is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the Registrants are shell companies (as defined in Rule 12b-2 of the Exchange Act) Yes No

Number of shares outstanding of each of Cleco Corporation's classes of Common Stock, as of the latest practicable date.

Registrant	Description of Class	Shares Outstanding at April 30, 2012
Cleco Corporation	Common Stock, \$1.00 Par Value	60,919,728

Cleco Power LLC, a wholly owned subsidiary of Cleco Corporation, meets the conditions set forth in General Instructions H(1)(a) and (b) of Form 10-Q and is therefore filing this Form 10-Q with the reduced disclosure format.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

This Combined Quarterly Report on Form 10-Q is separately filed by Cleco Corporation and Cleco Power. Information in this filing relating to Cleco Power is filed by Cleco Corporation and separately by Cleco Power on its own behalf. Cleco Power makes no representation as to information relating to Cleco Corporation (except as it may relate to Cleco Power) or any other affiliate or subsidiary of Cleco Corporation.

This report should be read in its entirety as it pertains to each respective Registrant. The Notes to the Unaudited Condensed Consolidated Financial Statements are combined.

GLOSSARY OF TERMS

References in this filing, including all items in Parts I and II, to “Cleco” mean Cleco Corporation and its subsidiaries, including Cleco Power, and references to “Cleco Power” mean Cleco Power LLC and its subsidiaries, unless the context clearly indicates otherwise. Additional abbreviations or acronyms used in this filing, including all items in Parts I and II are defined below:

ABBREVIATION OR ACRONYM	DEFINITION
401(k) Plan	Cleco Power 401(k) Savings and Investment Plan
ABR	Alternate Base Rate
Acadia	Acadia Power Partners, LLC, a wholly owned subsidiary of APH. Acadia no longer owns any materials and supply inventory, property, plant, and equipment, or land as a result of the disposition of Acadia Unit 2 to Entergy Louisiana on April 29, 2011. From February 23, 2010 to April 29, 2011, Acadia was owned 100% by Cajun and consisted of Acadia Unit 2. Prior to February 23, 2010, Acadia was 50% owned by APH and 50% owned by Cajun and consisted of Acadia Unit 1 and Acadia Unit 2.
Acadia Unit 1	Cleco Power’s 580-MW unit, combined cycle, natural gas-fired power plant located at the Acadia Power Station near Eunice, Louisiana
Acadia Unit 2	Entergy Louisiana’s 580-MW unit, combined cycle, natural gas-fired power plant located at the Acadia Power Station near Eunice, Louisiana. Prior to April 29, 2011, Acadia Unit 2 was owned by Acadia.
Acadiana Load Pocket	An area in south central Louisiana that has experienced transmission constraints caused by local load and lack of generation. Transmission within the Acadiana Load Pocket is owned by several entities, including Cleco Power.
AFUDC	Allowance for Funds Used During Construction
Amended Lignite Mining Agreement	Amended and restated lignite mining agreement effective December 29, 2009
AMI	Advanced Metering Infrastructure
APH	Acadia Power Holdings LLC, a wholly owned subsidiary of Midstream
Attala	Attala Transmission LLC, a wholly owned subsidiary of Cleco Corporation
Cajun	Cajun Gas Energy L.L.C. In conjunction with the disposition of Acadia Unit 2 on April 29, 2011, APH no longer has any ownership interest in Cajun. From February 23, 2010 to April 29, 2011, Cajun was 50% owned by APH and 50% owned by third parties. Prior to February 23, 2010, Cajun was 100% owned by third parties.
CSAPR	The Cross-State Air Pollution Rule
Cleco Innovations LLC	A wholly owned subsidiary of Cleco Corporation
Cleco Katrina/Rita	Cleco Katrina/Rita Hurricane Recovery Funding LLC, a wholly owned subsidiary of Cleco Power
Coughlin	Coughlin Power Station, a combined-cycle, natural gas-fired power plant located in Evangeline Parish, Louisiana.
DHLC	Dolet Hills Lignite Company, LLC, a wholly owned subsidiary of SWEPCO
Diversified Lands	Diversified Lands LLC, a wholly owned subsidiary of Cleco Innovations LLC
Dodd-Frank Act	The Dodd-Frank Wall Street Reform and Consumer Protection Act, signed into law on July 21, 2010. Section 1503 under Title XV – Miscellaneous Provisions include requirements for reporting mine safety.
DOE	United States Department of Energy
EAC	Environmental Adjustment Clause
Entergy Gulf States	Entergy Gulf States Louisiana, L.L.C., formerly Entergy Gulf States, Inc.
Entergy Louisiana	Entergy Louisiana, LLC

Edgar Filing: CLECO POWER LLC - Form 10-Q

Entergy Mississippi	Entergy Mississippi, Inc.
Entergy Services	Entergy Services, Inc., as agent for Entergy Louisiana and Entergy Gulf States
EPA	United States Environmental Protection Agency
ERO	Electric Reliability Organization
ESPP	Cleco Corporation Employee Stock Purchase Plan
Evangeline	Cleco Evangeline LLC, a wholly owned subsidiary of Midstream
Evangeline 2010 Tolling Agreement	Capacity Sale and Tolling Agreement between Evangeline and JPMVEC, which was executed in February 2010 and expired on December 31, 2011
Evangeline Restructuring Agreement	Purchase, Sale and Restructuring Agreement entered into on February 22, 2010, by Evangeline and JPMVEC
FASB	Financial Accounting Standards Board
FERC	Federal Energy Regulatory Commission
FRP	Formula Rate Plan
GAAP	Generally Accepted Accounting Principles in the United States
GO Zone	Gulf Opportunity Zone Act of 2005 (Public Law 109-135)
ICT	Independent Coordinator of Transmission
Interconnection Agreement	One of two Interconnection Agreement and Real Estate Agreements, one between Attala and Entergy Mississippi, and the other between Perryville and Entergy Louisiana
IRP	Integrated Resource Planning
IRS	Internal Revenue Service
JPMVEC	J.P. Morgan Ventures Energy Corporation. In September 2008, BE Louisiana LLC was merged into JPMVEC.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

ABBREVIATION OR ACRONYM	DEFINITION
kWh	Kilowatt-hour(s) as applicable
LIBOR	London Inter-Bank Offer Rate
Lignite Mining Agreement	Dolet Hills Mine Lignite Mining Agreement, dated as of May 31, 2001
LPSC	Louisiana Public Service Commission
LTICP	Cleco Corporation Long-Term Incentive Compensation Plan
Madison Unit 3	A 600-MW solid-fuel generating unit at Cleco Power's plant site in Boyce, Louisiana that commenced commercial operation on February 12, 2010.
Midstream	Cleco Midstream Resources LLC, a wholly owned subsidiary of Cleco Corporation
MMBtu	Million British thermal units
Moody's	Moody's Investors Service
MW	Megawatt(s) as applicable
NERC	North American Electric Reliability Corporation
Not Meaningful	A percentage comparison of these items is not statistically meaningful because the percentage difference is greater than 1,000%
NO _x	Nitrogen oxides
OCI	Other Comprehensive Income
Oxbow	Oxbow Lignite Company, LLC, 50% owned by Cleco Power and 50% owned by SWEPCO
PCAOB	Public Company Accounting Oversight Board
PCB	Polychlorinated biphenyl
Perryville	Perryville Energy Partners, L.L.C., a wholly owned subsidiary of Cleco Corporation
Power Purchase Agreement	Power Purchase Agreement, dated as of January 28, 2004, between Perryville and Entergy Services
PPACA	Patient Protection and Affordable Care Act (HR 3590)
Registrant(s)	Cleco Corporation and Cleco Power
RFP	Request for Proposal
RTO	Regional Transmission Organization
Sale Agreement	Purchase and Sale Agreement, dated as of January 28, 2004, between Perryville and Entergy Louisiana
SEC	Securities and Exchange Commission
SERP	Cleco Corporation Supplemental Executive Retirement Plan
Shaw	Shaw Contractors, Inc., a subsidiary of The Shaw Group Inc.
SPP	Southwest Power Pool
Support Group	Cleco Support Group LLC, a wholly owned subsidiary of Cleco Corporation
SWEPCO	Southwestern Electric Power Company, a wholly owned subsidiary of American Electric Power Company, Inc.
USB NMTC Fund 2008-1 LLC	Fund formed to hold new markets tax credits and solar credits for the benefit of Cleco Corporation.
VaR	Value-at-risk

2012 1ST QUARTER FORM 10-Q

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Combined Quarterly Report on Form 10-Q includes “forward-looking statements” about future events, circumstances, and results. All statements other than statements of historical fact included in this Combined Quarterly Report are forward-looking statements, including, without limitation, future capital expenditures; projections, including with respect to base revenue; business strategies; goals, beliefs, plans, and objectives; competitive strengths; market developments; development and operation of facilities; growth in sales volume; meeting capacity requirements, including through RFPs; expansion of service to certain customers and service to new customers; future environmental regulations and remediation liabilities; electric customer credits; and the anticipated outcome of various regulatory and legal proceedings. Although the Registrants believe that the expectations reflected in such forward-looking statements are reasonable, such forward-looking statements are based on numerous assumptions (some of which may prove to be incorrect) and are subject to risks and uncertainties that could cause the actual results to differ materially from the Registrants’ expectations. In addition to any assumptions and other factors referred to specifically in connection with these forward-looking statements, the following list identifies some of the factors that could cause the Registrants’ actual results to differ materially from those contemplated in any of the Registrants’ forward-looking statements:

factors affecting utility operations, such as unusual weather conditions or other natural phenomena, catastrophic weather-related damage (such as hurricanes and other storms or severe drought conditions), unscheduled generation outages, unanticipated maintenance or repairs, unanticipated changes to fuel costs, fuel supply costs or availability constraints due to higher demand, shortages, transportation problems, or other developments, fuel mix of Cleco’s generation facilities, decreased customer load, environmental incidents, environmental compliance costs, and power transmission system constraints,

- Cleco Corporation’s holding company structure and its dependence on the earnings, dividends, or distributions from its subsidiaries to meet its debt obligations and pay dividends on its common stock,
- Cleco Power’s ability to recover costs incurred on projects funded or partially funded through government grants,
- Cleco Power’s ability to maintain its right to sell wholesale generation at market-based rates within its control area,
- dependence of Cleco Power for energy from sources other than its facilities and the uncertainty of future sources of such additional energy,
- nonperformance by and creditworthiness of counterparties under power purchase agreements, or the restructuring of those agreements, including possible termination,
- nonperformance by and creditworthiness of the guarantor counterparty of the USB NMTC Fund 2008-1 LLC,
- regulatory factors such as changes in rate-setting policies, recovery of investments made under traditional regulation,

recovery of storm restoration costs, the frequency and timing of rate increases or decreases, the results of periodic NERC and LPSC audits, the formation of ICTs, including possible participation in an RTO and Cleco Power’s ability to recover related transmission upgrade costs, and the compliance with the ERO reliability standards for bulk power systems by Cleco Power and Evangeline,

- financial or regulatory accounting principles or policies imposed by FASB, the SEC, the PCAOB, FERC, the LPSC, or similar entities with regulatory or accounting oversight,
- economic conditions, including the ability of customers to continue paying utility bills, related growth and/or
- down-sizing of businesses in Cleco’s service area, monetary fluctuations, changes in commodity prices, and inflation rates,
- the current global and U.S. economic environment,
- credit ratings of Cleco Corporation and Cleco Power,
- ability to remain in compliance with debt covenants,
- changing market conditions and a variety of other factors associated with physical energy, financial transactions, and energy service activities, including, but not limited to, price, basis, credit, liquidity, volatility, capacity, transmission,

interest rates, and warranty risks,
the availability and use of alternative sources of energy and technologies,
the imposition of energy efficiency requirements or of increased conservation efforts of customers,
reliability of Cleco Power and Midstream generating facilities, particularly Madison Unit 3,
acts of terrorism or other man-made disasters,
availability or cost of capital resulting from changes in Cleco's business or financial condition, interest rates, or market
perceptions of the electric utility industry and energy-related industries,
changes in tax laws or disallowances of uncertain tax positions that may result in a change to tax benefits or expenses,
employee work force factors, including work stoppages and changes in key executives,
legal, environmental, and regulatory delays and other obstacles associated with mergers, acquisitions, reorganizations,
investments in joint ventures, or other capital projects, including the joint project to upgrade the Acadiana Load
Pocket transmission system and the AMI project,
costs and other effects of legal and administrative proceedings, settlements, investigations, claims, and other matters,
changes in federal, state, or local laws and changes in tax laws or rates, or regulating policies,
the impact of current or future environmental laws and

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

regulations, including those related to greenhouse gases and energy efficiency, which could limit or terminate the operation of certain generating units, increase costs, reduce customer demand for electricity, or otherwise materially adversely impact the Registrants' financial condition or results of operations, ability of Cleco Power to recover from its customers the costs of compliance with environmental laws and regulations, and ability of Dolet Hills lignite reserve to provide sufficient fuel to the Dolet Hills Power Station until at least 2026.

For more discussion of these factors and other factors that could cause actual results to differ materially from those contemplated in the Registrants' forward-looking statements, please read "Risk Factors" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011. All subsequent written and oral forward-looking statements attributable to the Registrants or persons acting on their behalf are expressly qualified in their entirety by the factors identified above.

The Registrants undertake no obligation to update any forward-looking statements, whether as a result of changes in actual results, changes in assumptions, or other factors affecting such statements.

Notes to the Unaudited Condensed Consolidated Financial Statements

Note 1 — Summary of Significant Accounting Policies

Principles of Consolidation

The accompanying condensed consolidated financial statements of Cleco include the accounts of Cleco and its majority-owned subsidiaries after elimination of intercompany accounts and transactions.

Basis of Presentation

The condensed consolidated financial statements of Cleco Corporation and Cleco Power have been prepared pursuant to the rules and regulations of the SEC. Accordingly, certain information and note disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted; however, Cleco believes that the disclosures are adequate to make the information presented not misleading.

The year-end condensed consolidated balance sheet data was derived from audited financial statements, but does not include all disclosures required by GAAP. The unaudited financial information included in the condensed consolidated financial statements of Cleco Corporation and Cleco Power reflects all adjustments of a normal recurring nature which are, in the opinion of the management of Cleco Corporation and Cleco Power, necessary for a fair statement of the financial position and the results of operations for the interim periods. Information for interim periods

is affected by seasonal variations in sales, rate changes, timing of fuel expense recovery, and other factors, and is not indicative necessarily of the results that may be expected for the full fiscal year. For more information on recent authoritative guidance and its effect on financial results, see Note 2 — “Recent Authoritative Guidance.”

Property, Plant, and Equipment

Property, plant, and equipment consist primarily of regulated utility generation and energy transmission assets. Regulated assets, utilized primarily for retail operations and electric

transmission and distribution, are stated at the cost of construction, which includes certain materials, labor, payroll taxes and benefits, administrative and general costs, and the estimated cost of funds used during construction. Jointly owned assets are reflected in property, plant, and equipment at Cleco Power’s share of the cost to construct or purchase the assets.

Property, plant, and equipment consist of:

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Regulated utility plants	\$3,768,322	\$3,759,541
Other	266,764	264,114
Total property, plant, and equipment	4,035,086	4,023,655
Accumulated depreciation	(1,252,575) (1,230,783
Net property, plant, and equipment	\$2,782,511	\$2,792,872

Restricted Cash

Various agreements to which Cleco is subject contain covenants that restrict its use of cash. As certain provisions under these agreements are met, cash is transferred out of related escrow accounts and becomes available for its intended purposes and/or general corporate purposes. Cleco’s restricted cash consisted of:

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Diversified Lands’ mitigation escrow	\$97	\$97
Cleco Katrina/Rita’s storm recovery bonds	3,320	8,761
Cleco Power’s future storm restoration costs	25,450	24,876
Cleco Power’s renewable energy grant	—	381
Cleco Power’s NQ allowance escrow	1,713	1,713
Total restricted cash	\$30,580	\$35,828

Cleco Katrina/Rita has the right to bill and collect storm restoration costs from Cleco Power’s customers. As cash is collected, it is restricted for payment of operating expenses, interest, and principal on storm recovery bonds. During the three months ended March 31, 2012, Cleco Katrina/Rita had collected \$4.8 million net of operating expenses. In March

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

2012, Cleco Katrina/Rita used \$6.7 million for scheduled storm recovery bond principal payments and \$3.6 million for related interest.

Fair Value Measurements and Disclosures

Various accounting pronouncements require certain assets and liabilities to be measured at their fair values. Some assets and liabilities are required to be measured at their fair value each reporting period, while others are required to be measured only one time, generally the date of acquisition or debt issuance. Cleco and Cleco Power are required to disclose the fair value of certain assets and liabilities by one of three levels when required for recognition purposes under GAAP. Other financial assets and liabilities, such as long-term debt, are reported at their carrying values at their date of issuance on the condensed consolidated balance sheets with their fair values as of the balance sheet date disclosed within the three levels. For more information about fair value levels, see Note 4 — “Fair Value Accounting.”

Risk Management

Market risk inherent in Cleco Power’s market risk-sensitive instruments and positions includes potential changes arising from changes in interest rates and the commodity market prices of power and natural gas on different energy exchanges. Cleco’s Energy Market Risk Management Policy authorizes the use of various derivative instruments, including exchange traded futures and option contracts, forward purchase and sales contracts, and swap transactions to reduce exposure to fluctuations in the price of power and natural gas. Cleco applies the authoritative guidance as it relates to derivatives and hedging to determine whether the market risk-sensitive instruments and positions are required to be marked-to-market. Generally, Cleco Power’s market risk-sensitive instruments and positions qualify for the normal-purchase, normal-sale exception to mark-to-market accounting because Cleco Power takes physical delivery and the instruments and positions are used to satisfy customer requirements.

Cleco Power may enter into positions to mitigate the volatility in customer fuel costs. These positions are marked-to-market with the resulting gain or loss recorded on the balance sheet as a component of energy risk management assets or liabilities. Such gain or loss is deferred as a component of deferred fuel assets or liabilities. When these positions close, actual gains or losses will be included in the fuel adjustment clause and reflected on customers’ bills as a component of the fuel cost adjustment.

Cleco Power maintains margin accounts with commodity brokers used to partially fund the acquisition of natural gas futures, options, and swap contracts. These contracts/positions are used to mitigate the risks associated with the volatility in customer fuel costs noted above. The current and long-term portions of collateral are reported as a component of energy risk management assets or liabilities and other deferred credits, respectively.

Cleco and Cleco Power maintain a master netting agreement policy and monitor credit risk exposure through review of counterparty credit quality, counterparty credit exposure, and counterparty concentration levels. Cleco manages these risks by establishing appropriate credit and concentration limits on transactions with counterparties and by requiring contractual guarantees, cash deposits, or letters of

credit from counterparties or their affiliates, as deemed necessary. Cleco Power has agreements in place with various counterparties that authorize the netting of financial buys and sells and contract payments to mitigate credit risk for transactions entered into for risk management purposes.

Cleco has entered into various contracts to mitigate the volatility in interest rate risk. These contracts include, but are not limited to, interest rate swaps and treasury rate locks. For these contracts in which Cleco is hedging the variability of cash flows related to forecasted transactions that qualify as cash flow hedges, the changes in the fair value of such derivative instruments are reported in other comprehensive income. To qualify for hedge accounting, the relationship between the hedging instrument and the hedged item must be documented to include the risk management objective and strategy, and, at inception and on an ongoing basis, the effectiveness of the hedge in offsetting the changes in the cash flows of the item being hedged. Gains or losses accumulated in other comprehensive income are reclassified as earnings in the periods in which earnings are affected by the variability of the cash flows of the hedged item. The ineffective portions of hedges will be recognized in current-period earnings unless management determines that it is

probable that the costs will be recovered through the rate-making process. If management determines that it is probable that the costs will be recovered, then they will be recognized as a regulatory asset or liability and amortized to earnings over the life of the related debt. For those contracts in which Cleco is hedging the variability of cash flows related to forecasted transactions that do not qualify as cash flow hedges, the changes in the fair value of such derivative instruments will be recognized in current period earnings unless management determines that it is probable that the costs will be recovered through the rate-making process. If management determines that it is probable that the costs will be recovered, then they will be recognized as a regulatory asset or liability and amortized to earnings over the life of the related debt. For more information on the interest rate risk contracts, see Note 4 — “Fair Value Accounting — Interest Rate Derivatives.”

Reclassifications

Certain reclassifications have been made to the 2011 financial statements to conform them to the presentation used in the 2012 financial statements. These reclassifications had no effect on Cleco Corporation’s net income applicable to common stock or total common shareholders’ equity or Cleco Power’s net income or total member’s equity.

In 2011, the Registrants determined that an error existed in the statement of cash flow methodology for determining non-cash transactions related to property, plant, and equipment, specifically the dollar amount of property, plant, and equipment acquisitions included in accounts payable. This caused errors between the operating activities section and investing activities section for prior periods.

Cleco and Cleco Power’s Condensed Consolidated Statements of Cash Flows for the period ended March 31, 2011, were adjusted to correct the presentation of cash flows related to accruals for property, plant, and equipment. These corrections had no impact on the Registrants’ financial condition or results of operations. Management believes that these corrections did not have a material effect on the Registrants’ Condensed Consolidated Statements of Cash Flows. The corrections to the March 31, 2011 Condensed

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Consolidated Statements of Cash Flows are presented in the following table.

Accrued additions to property, plant, and equipment	\$17,155	\$ 23,245	\$17,233	\$ 23,246

Earnings per Average Common Share

The following table shows the calculation of basic and diluted earnings per share.

(THOUSANDS, EXCEPT SHARES AND PER SHARE AMOUNTS)	INCOME	SHARES	FOR THE THREE MONTHS ENDED MARCH 31,			
			2012 PER SHARE AMOUNT	INCOME	SHARES	2011 PER SHARE AMOUNT
Income from continuing operations	\$30,031			\$29,016		
Deduct: non-participating stock dividends (4.5% preferred stock)	—			12		
Basic net income applicable to common stock	\$30,031	60,372,567	\$0.50	\$29,004	60,576,004	\$0.48
Effect of dilutive securities						
Add: stock option grants		13,097			22,701	
Add: restricted stock (LTICP)		213,311			306,162	
Diluted net income applicable to common stock	\$30,031	60,598,975	\$0.50	\$29,004	60,904,867	\$0.48

Stock option grants are excluded from the computation of diluted earnings per share if the exercise price is higher than the average market price. There were no stock option grants excluded from the computation of diluted earnings per share for the three months ended March 31, 2012, and 2011, due to the average market price being higher than the

exercise prices of the stock options.

Stock-Based Compensation

At March 31, 2012, Cleco had two stock-based compensation plans: the ESPP and the LTICP. Substantially all employees, excluding officers and general managers, may choose to participate in the ESPP and purchase a limited amount of common stock at a discount through a stock option agreement. Options or restricted shares of stock, known as

non-vested stock as defined by the authoritative guidance on stock-based compensation, common stock equivalents, and stock appreciation rights may be granted to certain officers, key employees, or directors of Cleco Corporation and its subsidiaries pursuant to the LTICP.

On January 27, 2012, Cleco granted 137,175 shares of non-vested stock to certain officers, key employees, and directors of Cleco Corporation and its subsidiaries pursuant to the LTICP. On March 17, 2012, Cleco granted an additional 3,011 shares of non-vested stock to certain key employees of Cleco Corporation and its subsidiaries pursuant to the LTICP.

Cleco and Cleco Power reported pre-tax compensation expense for their share-based compensation plans as shown in the following table:

(THOUSANDS)	CLECO CORPORATION		CLECO POWER	
	FOR THE THREE MONTHS ENDED MARCH 31,

2012 1ST QUARTER FORM 10-Q

Note 2 — Recent Authoritative Guidance

The Registrants adopted, or will adopt, the recent authoritative guidance listed below on their respective effective dates.

In April 2011, FASB issued guidance to improve the accounting for repurchase agreements and other similar agreements. Specifically, this guidance modifies the criteria for determining when these transactions would be accounted for as financings as opposed to sales or purchases with commitments to repurchase or resale. The adoption of this guidance is effective in the first interim or annual period beginning on or after December 15, 2011. The adoption of this guidance did not have a material impact on the financial condition or results of operations of the Registrants.

In May 2011, FASB issued guidance on fair value measurements. This guidance results in a consistent definition of fair value and common requirements for measurement of and disclosure about fair value between GAAP and IFRS (International Financial Reporting Standards). The adoption of this guidance is effective prospectively for interim and annual periods beginning after December 15, 2011. The adoption of this guidance did not have a material impact on the financial condition or results of operations of the Registrants.

In December 2011, FASB revised the disclosure requirements related to balance sheet offsetting. After the effective date, entities must disclose both the gross and net information about instruments and transactions eligible for offsetting on the balance sheet, including transactions under master netting agreements. The adoption of this revision is required for interim and annual periods beginning on or after January 1, 2013. The adoption of this revision will not have any effect on the financial condition or results of operations of the Registrants since it relates to disclosures.

Note 3 — Regulatory Assets and Liabilities

Cleco Power follows the authoritative guidance on regulated operations, which allows utilities to capitalize or defer certain costs based on regulatory approval and management's ongoing assessment that it is probable these items will be recovered through the ratemaking process. The following table summarizes Cleco Power's regulatory assets and liabilities at March 31, 2012, and December 31, 2011:

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Regulatory assets – deferred taxes, net	\$215,793	\$214,421
Mining costs	\$18,480	\$19,117
Interest costs	6,575	6,667
Asset removal costs	818	829
Postretirement plan costs	130,790	132,556
Tree trimming costs	7,693	8,371
Training costs	7,447	7,486
Storm surcredits, net	6,481	9,254
Construction carrying costs	9,395	10,883
Lignite mining agreement contingency	3,781	3,781
AFUDC equity gross-up	74,125	74,346
Rate case costs	983	1,117
Acadia Unit 1 acquisition costs	2,945	2,971
IRP/RFP costs	391	508
AMI pilot costs	120	153
Financing costs	6,944	4,433
Biomass costs	151	—
Total regulatory assets – other	\$277,119	\$282,472
Construction carrying costs	(31,552) (40,322
Fuel and purchased power	(6,198) 2,136
Total regulatory assets, net	\$455,162	\$458,707

Construction Carrying Costs

In February 2006, the LPSC approved Cleco Power's plans to build Madison Unit 3. Terms of the approval included authorization for Cleco Power to collect from customers an amount equal to 75% of the LPSC-jurisdictional portion of the carrying costs of capital during the construction phase of the unit. Cleco Power's retail rate plan, which was approved in October 2009, established that Cleco Power return carrying costs to customers and record a regulatory asset for all carrying costs incurred by Cleco Power above the actual amount collected from customers. On February 12, 2010, Madison Unit 3 commenced commercial operations and Cleco Power began returning the construction carrying costs to customers. These costs are being amortized over a four-year period. As of March 31, 2012, Cleco Power had returned \$134.9 million to customers. At March 31, 2012, \$28.5 million was due to be returned to customers within one year.

Fuel and Purchased Power Costs

The cost of fuel used for electric generation and the cost of power purchased for utility customers are recovered through the LPSC-established fuel adjustment clause, which enables Cleco Power to pass on to its customers substantially all such charges. For the three months ended March 31, 2012, approximately 90% of Cleco Power's total fuel cost was regulated by the LPSC, while the remainder was regulated by FERC.

The \$8.3 million decrease was primarily due to \$6.8 million of lower per unit costs of fuel and purchased power and a \$2.0 million decrease in mark-to-market losses on natural gas positions, which was primarily due to the contractual expiration of certain positions.

Financing Costs

In 2011, Cleco Power entered into and settled two treasury rate locks. Of the \$26.8 million in settlements, \$7.0 million was recorded as a regulatory asset relating to ineffectiveness of the hedge relationship. As a result of management's assessment

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

that it is probable that the ineffectiveness will be recovered through the rate-making process, Cleco Power will amortize the regulatory asset over the 30-year term of the related debt issuance.

Biomass Test Burn Costs

In November 2011, the LPSC approved Cleco Power's request to establish a regulatory asset for the non-fuel, non-capital portion of costs incurred to conduct a test burn of biomass fuel at Madison Unit 3. These costs will be amortized over a five-year period.

Note 4 — Fair Value Accounting

The amounts reflected in Cleco and Cleco Power's Condensed Consolidated Balance Sheets at March 31, 2012, and December 31, 2011, for cash and cash equivalents, accounts receivable, other accounts receivable, accounts payable, and short-term debt approximate fair value because of their short-term nature. Estimates of the fair value of Cleco and Cleco Power's long-term debt are based upon the quoted market price for the same or similar issues or by a discounted present value analysis of future cash flows using current rates obtained by Cleco and Cleco Power for debt with similar maturities. The following tables summarize the carrying value and estimated market value of Cleco and Cleco Power's financial instruments subject to fair value accounting.

Cleco

(THOUSANDS)	AT MARCH 31, 2012		AT DECEMBER 31, 2011	
	CARRYING VALUE	ESTIMATED FAIR VALUE	CARRYING VALUE	ESTIMATED FAIR VALUE
Financial instruments not marked-to-market				
Cash and cash equivalents	\$47,249	\$ 47,249	\$93,576	\$ 93,576
Restricted cash	\$30,580	\$ 30,580	\$35,828	\$ 35,828
Long-term debt, excluding debt issuance costs	\$1,326,720	\$ 1,483,939	\$1,354,567	\$ 1,542,867

(THOUSANDS)	AT MARCH 31, 2012		AT DECEMBER 31, 2011	
	CARRYING VALUE	ESTIMATED FAIR VALUE	CARRYING VALUE	ESTIMATED FAIR VALUE
Financial instruments not marked-to-market				
Cash and cash equivalents	\$35,885	\$ 35,885	\$67,458	\$ 67,458
Restricted cash	\$30,484	\$ 30,484	\$35,731	\$ 35,731
Long-term debt, excluding debt issuance costs	\$1,326,720	\$ 1,483,939	\$1,344,567	\$ 1,532,867

At March 31, 2012, Cleco and Cleco Power were exposed to concentrations of credit risk through their short-term investments classified as cash equivalents and restricted cash. Cleco had \$70.4 million (\$39.8 million of cash and \$30.6 million of restricted cash) in short-term investments in institutional money market funds. Cleco Power had \$63.5 million (\$33.0 million of cash and \$30.5 million of restricted cash) in short-term investments in institutional money market funds. If the money market funds failed to perform under the terms of the investments, Cleco and Cleco Power would be exposed to a loss of the invested amounts. Collateral on these types of investments is not required by

either Cleco or Cleco Power. In order to mitigate credit risk, Cleco and Cleco Power have established guidelines for short-term investments. Money market funds must have at least \$1.0 billion in assets under management; must have been in existence for not less than two years; must have portfolios not comprised of more than 50% of securities issued by foreign entities; and must be rated in the top two ratings categories by at least one nationally recognized rating agency. Commercial paper must be issued by a company with headquarters in the U.S. and rated not less than A1 by Standard & Poor's or P1 by Moody's. For split-rated issuers, the second rating must not be lower than either A2 or P2; the issuer's long-term debt must be rated not lower than A by Standard & Poor's or A2 by Moody's; and the issuer cannot be on negative credit watch. Investments in commercial paper rated A2 by Standard & Poor's or P2 by Moody's may be made if approved by the appropriate level of management.

Interest Rate Derivatives

Forward Starting Interest Rate Swap

On November 14, 2011, Cleco Power entered into a pay fixed/receive variable forward starting interest rate swap contract in order to mitigate the interest rate exposure on coupon payments related to a \$50.0 million fixed-rate forecasted debt issuance. The forward starting interest rate swap has a spot 30-year all-in swap rate of 3.05%, notional amount of \$50.0 million, with the pricing date of May 14, 2013, or the issuance of the notes, whichever is earlier. The forward starting interest rate swap meets the criteria of a cash flow hedge under the authoritative guidance as it relates to derivatives and hedging and is carried on the balance sheet at its fair value. The fair market value of the forward starting interest rate swap is the difference between the present value of the fixed payments to be paid by Cleco Power and the present value of the three-month LIBOR payments to be received by Cleco Power. Since future LIBOR rates are not available for each month until termination, quoted LIBOR rates from an active exchange for observable time periods were used to create a forward LIBOR curve for all months until termination. Because of the inputs and common techniques used to calculate fair value, the swap valuation was considered Level 2. Cleco Power recognized \$4.7 million of unrealized mark-to-market gains in other comprehensive income for the three months ended March 31, 2012. The fair market value of \$1.3 million for the forward starting interest rate swap was recorded on Cleco and Cleco Power's Condensed Consolidated Balance Sheets as an

Edgar Filing: CLECO POWER LLC - Form 10-Q

Asset Description		(LEVEL 1)		(LEVEL 1)				
Institutional money market funds	\$63,483	\$ —	\$ 63,483	\$ —	\$ 100,331	\$ —	\$ 100,331	\$ —

Energy market derivatives	\$3,308	\$ —	\$ 3,308	\$ —	\$ 5,336	\$ —	\$ 5,336	\$ —
Interest rate derivatives	—	—	—	—	3,330	—	3,330	—
Long-term debt	1,483,939	—	1,483,939	—	1,532,867	—	1,532,867	—
Total liabilities	\$ 1,487,247	\$ —	\$ 1,487,247	\$ —	\$ 1,541,533	\$ —	\$ 1,541,533	\$ —

The derivative assets and liabilities are classified as either current or non-current depending on when the positions close. All energy market derivative current assets and current liabilities are reported as a net current energy risk management asset or liability. All energy market derivative non-current assets and non-current liabilities are reported net in other deferred charges or other deferred credits. Net presentation is appropriate due to the right of offset included in the master netting agreements. On the balance sheet, the net current and net non-current derivative positions are netted with the applicable margin deposits. At March 31, 2012, a net current energy risk management liability of \$3.1 million represented the current derivative positions of \$3.3 million with a reduction for net option premiums of \$0.2 million.

The institutional money market funds were reported on the Cleco Condensed Consolidated Balance Sheet in cash and cash equivalents, current restricted cash, and non-current restricted cash of \$39.8 million, \$3.3 million, and \$27.3 million, respectively at March 31, 2012. At Cleco Power, the institutional money market funds were reported on the

condensed consolidated balance sheet in cash and cash equivalents, current restricted cash, and non-current restricted cash and were \$33.0 million, \$3.3 million, and \$27.2 million, respectively, as of March 31, 2012.

The forward starting interest rate swap was reported on Cleco and Cleco Power's Condensed Consolidated Balance Sheets as a current asset in the line item interest rate risk management asset as of March 31, 2012.

Cleco utilizes different valuation techniques for fair value calculations. In order to measure the fair value for Level 1 assets and liabilities, Cleco obtains the closing price from published indices in active markets for the various instruments and multiplies this price by the appropriate number of instruments held. Level 2 fair values for assets and liabilities are determined by obtaining the closing price from published indices in active markets for instruments that are similar to Cleco's assets and liabilities. The fair value obtained is then discounted to the current period using a U.S. Treasury published interest rate as a proxy for a risk-free rate of return. For some options, Cleco uses the Black-Scholes model using

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

observable and available inputs to calculate the fair value, consistent with the income approach. These techniques have been applied consistently from fiscal period to fiscal period. Level 3 fair values allow for situations in which there is little, if any, market activity for the asset or liability at the measurement date. Cleco had no Level 3 assets or liabilities at March 31, 2012, or December 31, 2011.

The assets and liabilities reported at fair value are grouped into classes based on the underlying nature and risks associated with the individual asset or liability.

Level 2 of energy market derivative assets and liabilities consists of two classes. The first class contains natural gas swaps which fluctuate in value as the underlying natural gas futures fair value changes, and as market interest rates change. Cleco records the mark-to-market value of the natural gas swaps at the net present value. The second class consists of natural gas options. The fair value of natural gas options fluctuates with the volatility in the fair value of natural gas, the number of days until the options expire, the underlying natural gas futures price fluctuations, and market interest rates. Cleco records the mark-to-market value of the natural gas options at the net present value. Both of these energy market derivative classes also contain counterparty execution risk because the transactions are entered into with a direct counterparty and are not traded through an exchange.

The Level 2 institutional money market funds asset consists of a single class. In order to capture interest income and minimize risk, cash is invested in money market funds that invest primarily in short-term securities issued by the U.S. Treasury in order to maintain liquidity and achieve the goal of a net asset value of a dollar. The risks associated with this class are counterparty risk of the fund manager and risk of price volatility associated with the underlying securities of the fund.

The Level 2 interest rate derivative was one forward starting interest rate swap asset that consisted of a single class that only contains one instrument. The risks are changes in the three-month LIBOR rate and counterparty risk. This instrument is with a direct counterparty and not traded through an exchange.

The Level 2 long-term debt liability consists of a single class. In order to fund capital requirements, Cleco issues long-term, fixed rate debt with various tenors. The fair value of this class fluctuates as the market interest rates for fixed rate debt with similar tenors and credit ratings changes. The fair value of the debt could also change from period to period due to changes in the credit rating of the Cleco entity that issued the debt.

Cleco has a policy which states that transfers between Levels 1, 2, and 3 are recognized at the end of a reporting period. During the three months ended March 31, 2012, and the year ended December 31, 2011, Cleco did not experience any transfers between levels.

Derivatives and Hedging

The authoritative guidance on derivatives and hedging requires entities to provide transparent disclosures about a company's derivative activities and how the related hedged items affect a company's financial position, financial performance, and cash flows. Cleco is required to provide qualitative disclosures about derivative fair value, gains and losses, and credit-risk-related contingent features in derivative agreements.

The following table presents the fair values of derivative instruments and their respective line items as recorded on Cleco and Cleco Power's Condensed Consolidated Balance Sheets as of March 31, 2012, and December 31, 2011:

DERIVATIVES NOT DESIGNATED AS HEDGING INSTRUMENTS			
LIABILITY DERIVATIVES			
(THOUSANDS) FAIR VALUE	BALANCE SHEET LINE ITEM	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Commodity contracts			
Fuel cost hedges:			
Current		\$ (3,308) \$ (5,336

	Energy risk management liability, net			
Total		\$(3,308)	\$(5,336
)

The following table presents the effect of derivatives not designated as hedging instruments on Cleco and Cleco Power's Condensed Consolidated Statements of Income for the three months ended March 31, 2012, and 2011:

		FOR THE THREE MONTHS ENDED MARCH 31,			
		2012	2011		
(THOUSANDS)	LOSS IN INCOME OF DERIVATIVES LINE ITEM	AMOUNT OF LOSS RECOGNIZED IN INCOME ON DERIVATIVES)	AMOUNT OF LOSS RECOGNIZED IN INCOME ON DERIVATIVES)
Commodity contracts					
Fuel cost hedges ⁽¹⁾	Fuel used for electric generation	\$(3,484)	\$(3,794)
Total		\$(3,484)	\$(3,794)

⁽¹⁾In accordance with the authoritative guidance for regulated operations, an additional \$3.3 million of unrealized losses and \$1.7 million of deferred losses associated with fuel cost hedges are reported in Accumulated Deferred Fuel on the balance sheet as of March 31, 2012, compared to \$5.3 million of unrealized losses and \$1.2 million of deferred losses associated with fuel cost hedges as of December 31, 2011. As gains and losses are realized in future periods, they will be recorded as Fuel Used for Electric Generation on the income statement.

At March 31, 2012, Cleco Power had 2.1 million MMBtus hedged for natural gas fuel costs, which is approximately 3% of the estimated natural gas requirements for a two-year period. At December 31, 2011, Cleco Power had 2.2 million MMBtus hedged or approximately 3% of gas requirements for a two-year period.

The following table presents the effect of derivatives designated as hedging instruments on Cleco and Cleco Power's Condensed Consolidated Statements of Income for the three months ended March 31, 2012, and 2011:

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

	2012		FOR THE THREE MONTHS ENDED MARCH 31, 2011	
	AMOUNT OF GAIN RECOGNIZED IN OCI	AMOUNT OF GAIN RECLASSIFIED FROM ACCUMULATED OCI INTO INCOME (EFFECTIVE PORTION)	AMOUNT OF GAIN RECOGNIZED IN OCI	AMOUNT OF GAIN RECLASSIFIED FROM ACCUMULATED OCI INTO INCOME (EFFECTIVE PORTION)
Interest rate derivatives ⁽¹⁾	\$4,657	\$ 1 *	\$—	\$ 89 *

* The gain reclassified from accumulated OCI into income (effective portion) is reflected in interest charges.

⁽¹⁾ During the three months ended March 31, 2012, Cleco recorded \$2.6 million of ineffectiveness related to the interest rate derivatives as a regulatory asset.

At March 31, 2012, Cleco Power expected \$0.4 million of the effective portion of deferred net losses related to interest rate derivatives to be reclassified from accumulated OCI to an increase in interest charges over the next 12 months.

Note 5 — Debt

Short-term Debt

At March 31, 2012, and December 31, 2011, Cleco had no short-term debt outstanding. Cleco Power had no short-term debt outstanding at March 31, 2012, or December 31, 2011.

Long-term Debt

At March 31, 2012, Cleco's long-term debt outstanding was \$1.33 billion, of which \$13.5 million was due within one year, compared to \$1.36 billion outstanding at December 31, 2011, of which \$24.3 million was due within one year. The long-term debt due within one year at March 31, 2012, represents principal payments for the Cleco Katrina/Rita storm recovery bonds. For Cleco, long-term debt decreased \$28.1 million due to \$11.2 million of 5.875% Rapides Parish pollution control bonds that were redeemed, prior to maturity, at par on January 25, 2012, a \$10.0 million decrease in credit facility draws, a \$6.7 million scheduled Cleco Katrina/Rita storm recovery bond principal payment made in March 2012, and \$0.4 million of capital lease payments. These decreases were partially offset by debt premium amortizations of \$0.2 million.

At March 31, 2012, Cleco Power's long-term debt outstanding was \$1.33 billion, of which \$13.5 million was due within one year, compared to \$1.35 billion outstanding at December 31, 2011, of which \$24.3 million was due within one year. The long-term debt due within one year at March 31, 2012, represents principal payments for the Cleco Katrina/Rita storm recovery bonds. For Cleco Power, long-term debt decreased \$18.1 million primarily due to \$11.2 million of 5.875% Rapides Parish pollution control bonds that were redeemed, prior to maturity, at par on January 25, 2012, a \$6.7 million scheduled Cleco Katrina/Rita storm recovery bond principal payment made in March 2012, and \$0.4 million of capital lease payments. These decreases were partially offset by debt premium amortizations of \$0.2 million.

Credit Facilities

At March 31, 2012, Cleco Corporation and Cleco Power had no borrowings outstanding under their existing credit facilities.

Note 6 — Pension Plan and Employee Benefits

Pension Plan and Other Benefits Plan

Most employees hired before August 1, 2007, are covered by a non-contributory, defined benefit pension plan. Benefits under the plan reflect an employee's years of service, age at

retirement, and highest total average compensation for any consecutive five calendar years during the last 10 years of employment with Cleco. Cleco's policy is to base its contributions to the employee pension plan upon actuarial computations utilizing the projected unit credit method, subject to the IRS's full funding limitation. During the first three months of 2012, Cleco made no discretionary or required contributions to the pension plan and does not expect to make required or discretionary contributions to the pension plan for the remainder of the year. During 2011, Cleco made \$60.0 million in discretionary contributions to the pension plan, with \$40.1 million designated for the 2010 plan year and the remaining \$19.9 million designated for the 2011 plan year. The required contributions are driven by liability funding target percentages set by law which could cause the required contributions to be uneven among the years. The ultimate amount and timing of the contributions may be affected by changes in the discount rate, changes in the funding regulations, and actual returns on fund assets. Cleco Power is considered the plan sponsor, and Support Group is considered the plan administrator.

Cleco's retirees and their dependents are eligible to receive medical, dental, vision, and life insurance benefits (other benefits). Cleco recognizes the expected cost of these other benefits during the periods in which the benefits are earned.

The components of net periodic pension and other benefit cost for the three months ended March 31, 2012, and 2011 are as follows:

(THOUSANDS)	PENSION BENEFITS		OTHER BENEFITS	
	FOR THE THREE MONTHS ENDED MARCH 31,			
	2012	2011	2012	2011
Components of periodic benefit costs:				
Service cost	\$2,149	\$2,052	\$397	\$379
Interest cost	4,430	4,392	476	460
Expected return on plan assets	(5,194)	(5,512)	—	—
Amortizations:				
Transition obligation	—	—	5	5
Prior period service cost	(18)	(18)	—	(52)
Net loss	1,783	1,403	200	257
Net periodic benefit cost	\$3,150	\$2,317	\$1,078	\$1,049

Since Cleco Power is the pension plan sponsor and the related trust holds the assets, the net unfunded status of the pension plan is reflected at Cleco Power. The liability of Cleco's other subsidiaries is transferred, with a like amount of assets, to Cleco Power monthly. The expense of the pension plan related to Cleco's other subsidiaries for both the three months ended March 31, 2012, and 2011 was \$0.5 million.

Cleco Corporation is the plan sponsor for the other benefit plans. There are no assets set aside in a trust, and the liabilities are reported on the individual subsidiaries' financial statements. At both March 31, 2012, and December 31, 2011,

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

the current portion of the other benefits liability for Cleco was \$3.1 million. At both March 31, 2012, and December 31, 2011, the current portion of the other benefits liability for Cleco Power was \$2.9 million. The expense related to other benefits reflected in Cleco Power's Condensed Consolidated Statements of Income for both the three months ended March 31, 2012, and 2011 was \$0.9 million.

In March 2010, the President signed the PPACA, a comprehensive health care law. While the provisions of the PPACA are not effective immediately, the provisions could increase the Registrants' retiree medical unfunded liability and related expenses before the effective date. Management will continue to monitor this law and its possible impact on the Registrants.

SERP

Certain Cleco executive officers are covered by the SERP. The SERP is a non-qualified, non-contributory, defined benefit pension plan. Benefits under the plan reflect an employee's years of service, age at retirement, and the sum of the highest base salary paid out of the last five calendar years and the average of the three highest bonuses paid during the 60 months prior to retirement, reduced by benefits received from any other defined benefit pension plan, SERP Plan, or Cleco contributions under the enhanced 401(k) Plan to the extent such contributions exceed the limits of the 401(k) Plan. Cleco Corporation does not fund the SERP liability but instead pays for current benefits out of the general funds available. Cleco Power has formed a Rabbi Trust designated as the beneficiary for life insurance policies issued on the SERP participants. Proceeds from the life insurance policies are expected to be used to pay the SERP participants' life insurance benefits, as well as future SERP payments. However, since SERP is a non-qualified plan, the assets of the trust could be used to satisfy general creditors of Cleco Power in the event of insolvency. All SERP benefits are paid out of the general cash available of the respective companies from which the officer retired. No contributions to the SERP were made during the three months ended March 31, 2012, or 2011. Cleco Power is considered the plan sponsor, and Support Group is considered the plan administrator.

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31,	
	2012	2011
Components of periodic benefit costs:		
Service cost	\$1,001	\$450
Interest cost	574	525
Amortizations:		
Prior period service cost	14	14
Net loss	309	262
Net periodic benefit cost	\$1,898	\$1,251

The SERP liabilities are reported on the individual subsidiaries' financial statements. At March 31, 2012, and December 31, 2011, the current portion of the SERP liability for Cleco was \$2.6 million and \$2.2 million, respectively. At both March 31, 2012, and December 31, 2011, the current portion of the SERP liability for Cleco Power was \$0.8 million. The expense related to the SERP reflected on Cleco Power's Condensed Consolidated Statements of Income was \$0.3 million for both the three months ended March 31, 2012, and 2011.

401(k) Plan

Most employees are eligible to participate in the 401(k) Plan. Under the 401(k) Plan, Cleco makes matching contributions and funds dividend reinvestments with cash. Cleco's 401(k) Plan expense for the three months ended March 31, 2012, and 2011 is as follows:

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31,	
	2012	2011
401(k) Plan expense	\$1,493	\$1,201

Cleco Power is the plan sponsor for the 401(k) Plan. The expense of the 401(k) Plan related to Cleco's other subsidiaries for the three months ended March 31, 2012, was \$0.4 million, compared to \$0.3 million for the same period in 2011.

Note 7 — Income Taxes

The following table summarizes the effective income tax rates for Cleco and Cleco Power for the three-month periods ended March 31, 2012, and 2011.

	FOR THE THREE MONTHS ENDED MARCH 31,			
	2012		2011	
Cleco	30.9	%	29.6	%
Cleco Power	35.1	%	32.4	%

Effective Tax Rates

For the three months ended March 31, 2012, and 2011, the effective income tax rate for Cleco was different than the federal statutory rate due to permanent tax deductions, flow-through of tax benefits associated with AFUDC equity, and benefits associated with tax credits delivered, which is partially offset by state tax expense. For the three months ended March 31, 2012, and 2011, the effective income tax rate for Cleco Power was different than the federal statutory rate due to permanent tax deductions, flow-through of tax benefits associated with AFUDC equity, and state tax expense.

Valuation Allowance

Valuation allowances are recorded to reduce deferred tax assets when it is more likely than not that a tax benefit will not be realized. In 2010, a \$1.2 million valuation allowance against the \$2.7 million deferred tax asset on capital loss carryforwards was reflected on Cleco and Cleco Power's Condensed Consolidated Balance Sheets. The previously recorded \$1.2 million valuation allowance was reversed in the second quarter of 2011 due to capital gains generated by the disposition of Acadia Unit 2. In addition, as of March 31, 2012, Cleco had a deferred tax asset resulting from new markets tax credit carryforwards of \$61.9 million. If the new markets tax credit carryforwards are not utilized, they will begin to expire in 2029. Management considers it more likely than not that all deferred tax assets related to new markets tax credit carryforwards will be realized; therefore, no valuation allowance has been recorded.

Net Operating Losses

As of March 31, 2012, Cleco generated federal net operating losses and state net operating losses of \$64.0 million and \$57.1 million, respectively, which will begin to expire in 2031 and 2026. Cleco Power generated federal net operating losses and state net operating losses of \$40.6 million and

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

\$33.2 million, respectively, which will begin to expire in 2031 and 2026. Cleco and Cleco Power consider it more likely than not that these losses will be utilized to reduce future income taxes. Cleco and Cleco Power expect to utilize the entire net operating loss carryforward in 2012.

Uncertain Tax Positions

Cleco classifies all interest related to uncertain tax positions as a component of interest payable and interest expense. The total amounts of uncertain tax positions and related interest payable and interest expense, as reflected on Cleco and Cleco Power's Condensed Consolidated Balance Sheets and Statements of Income, are shown in the following tables:

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Interest payable		
Cleco	\$2,522	\$13,843
Cleco Power	\$4,113	\$17,327

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31,	
	2012	2011
Interest charges		
Cleco	\$(2,867) \$1,415
Cleco Power	\$(4,593) \$718

The total liability for unrecognized tax benefits for Cleco and Cleco Power at March 31, 2012, and December 31, 2011, are shown in the following tables:

Cleco

LIABILITY FOR UNRECOGNIZED

(THOUSANDS)	TAX BENEFITS
Balance at December 31, 2011	\$56,235
Additions for tax positions of current period	2
Reductions for tax positions of current period	(674)

Additions for tax positions of prior periods	1,400
Reduction for tax positions of prior periods	(10,418)
Reduction for settlement with tax authority	—
Reduction for lapse of statute of limitations	—
Balance at March 31, 2012	\$42,894

The federal income tax years that remain subject to examination by the IRS are 2001 through 2011. The Louisiana state income tax years that remain subject to examination by the Louisiana Department of Revenue are 2001 through

2011. In December 2010, Cleco deposited \$52.2 million with the IRS associated with the years under audit. In February 2011, Cleco deposited an additional \$8.2 million with the IRS associated with the years currently under audit. Of the \$60.4 million deposited, \$43.2 million remains to offset tax and interest liabilities for tax years subsequent to 2003.

Cleco is currently under audit by the IRS for the years 2001 through 2009 which has proposed adjustments to taxes for various issues, including but not limited to, deductible storm costs, research and experimentation costs, domestic production activities deduction, and repair allowance deductions. Cleco estimates that it is reasonably possible that the balance of unrecognized tax benefits as of March 31, 2012, could decrease by a maximum of \$38.0 million for Cleco and \$37.3 million for Cleco Power in the next 12 months as a result of reaching settlements with the IRS and state tax authorities. The settlements could involve the payment of additional taxes, the adjustment of deferred taxes, and/or the recognition of tax benefits, which may have an effect on Cleco's effective tax rate.

Note 8 — Disclosures about Segments

Cleco's reportable segments are based on its method of internal reporting, which disaggregates business units by first-tier subsidiary. Cleco's reportable segments are Cleco Power and Midstream. The reconciling items in the following tables consist of the holding company, a shared services subsidiary, two transmission interconnection facilities, and an investment subsidiary.

Each reportable segment engages in business activities from which it earns revenue and incurs expenses. Segment managers report periodically to Cleco's Chief Executive Officer (the chief operating decision-maker) with discrete financial information and, at least quarterly, present discrete financial information to Cleco Corporation's Board of Directors. Each reportable segment prepared budgets for 2012 that were presented to and approved by Cleco Corporation's Board of Directors.

The financial results of Cleco's segments are presented on an accrual basis. Management evaluates the performance of its segments and allocates resources to them based on segment profit and the requirements to implement new strategic initiatives and projects to meet current business objectives. Material intercompany transactions occur on a regular basis. These intercompany transactions relate primarily to joint and common administrative support services provided by Support Group.

Note 9 — Electric Customer Credits

Beginning in 2010, the amount of Cleco Power's yearly retail earnings is subject to the terms of a FRP established by the LPSC. The new rates and the FRP became effective upon commencement of commercial operations at Madison Unit 3 on February 12, 2010. The 2010 FRP establishes a target return on equity and requires all or a portion of regulated earnings for each yearly review period above the targeted regulatory rate of return on equity to be credited to Cleco Power's customers. The 2010 FRP allows Cleco Power the opportunity to earn a target return on equity of 10.7%, including returning to retail customers 60% of retail earnings between 11.3% and 12.3% and all retail earnings over 12.3%. The amount of credits due customers, if any, is determined by Cleco Power and the LPSC annually. The 2010 FRP established that Cleco Power file monitoring reports for the 12

months ended June 30, 2010, and September 30, 2010, on or before October 31, 2010, and January 31, 2011, respectively. Beginning in 2011, Cleco Power has filed annual monitoring reports no later than October 31 for the 12-month period ending June 30.

On October 31, 2011, Cleco Power filed its report for the 12 months ended June 30, 2011, which indicated that \$5.1 million was due to be returned to customers. The ultimate amount of any customer refund is subject to LPSC approval.

The accrual for estimated electric customer credits reflected on Cleco and Cleco Power's Condensed Consolidated Balance Sheets at March 31, 2012, and December 31, 2011, was \$7.0 million and \$7.3 million, respectively.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Note 10 — Variable Interest Entities

Cleco reports its investments in VIEs in accordance with the authoritative guidance. Cleco and Cleco Power report the investment in Oxbow on the equity method of accounting. Under the equity method, the assets and liabilities of this entity are reported as equity investment in investees on Cleco and Cleco Power's Condensed Consolidated Balance Sheets. The revenue and expenses of this entity are netted and reported as equity income or loss from investees on Cleco and Cleco Power's Condensed Consolidated Statements of Income.

Prior to April 30, 2011, Cleco Corporation also reported its investment in Cajun on the equity method of accounting. In conjunction with the disposition of Acadia Unit 2, APH received 100% ownership in Acadia in exchange for its 50% interest in Cajun, and Acadia became a consolidated subsidiary of APH.

Consolidated VIEs

Acadia

In October 2009, Acadia and Entergy Louisiana announced that definitive agreements had been executed whereby Entergy Louisiana would acquire Acadia Unit 2. On April 29, 2011, Acadia completed its disposition of Acadia Unit 2 to Entergy Louisiana for \$298.8 million. Following the disposition, Acadia no longer owns any materials and supply inventory, property, plant, and equipment, or land. Acadia has minimal ongoing operations relating only to settling accounts receivable and accounts payable resulting from operations prior to the closing of the transaction and servicing indemnifications which Cleco assumed in the transaction. In conjunction with the transaction, APH received 100% ownership in Acadia in exchange for its 50% interest in Cajun, and Acadia became a consolidated subsidiary of APH. For more information on the Acadia Unit 2 transaction, see Note 13 — "Acadia Unit 2 Transaction."

The following table contains summarized financial information for Cajun prior to the disposition of Acadia Unit 2.

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31, 2011
Operating revenue	\$5,177
Operating expenses	4,824
Other income	872
Income before taxes	\$1,225

Prior to the reconsolidation, income tax expenses related to Cajun were recorded on APH's financial statements. For the three months ended March 31, 2011, income tax expenses related to Cajun on APH's financial statements were \$0.3 million.

Equity Method VIEs

Equity investment in investees at March 31, 2012, primarily represented Cleco Power's \$14.5 million investment in Oxbow. Equity investments which are less than 100% owned by Cleco Innovations LLC represented less than \$0.1 million of the total balance.

The following table presents the equity income (loss) from each investment accounted for using the equity method.

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31,	
	2012	2011
Cajun	\$—	\$612
Subsidiaries less than 100% owned by Cleco Innovations	1	(1)
Total equity income	\$1	\$611

Oxbow

Edgar Filing: CLECO POWER LLC - Form 10-Q

Oxbow is owned 50% by Cleco Power and 50% by SWEPCO and is accounted for as an equity method investment. Cleco Power is not the primary beneficiary because it shares the power to control Oxbow's significant activities with SWEPCO. Cleco's current assessment of its maximum exposure to loss related to Oxbow at March 31, 2012, consisted of its equity investment of \$14.5 million. The following table presents the components of Cleco Power's equity investment in Oxbow.

INCEPTION TO DATE (THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Purchase price	\$12,873	\$12,873
Cash contributions	1,659	1,659
Total equity investment in investee	\$14,532	\$14,532

The following table compares the carrying amount of Oxbow's assets and liabilities with Cleco's maximum exposure to loss related to its investment in Oxbow.

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Oxbow's net assets/liabilities	\$29,065	\$29,065
Cleco Power's 50% equity	\$14,532	\$14,532
Cleco's maximum exposure to loss	\$14,532	\$14,532

The following tables contain summarized financial information for Oxbow.

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Current assets	\$1,641	\$1,711

Oxbow's property, plant, and equipment, net consists of land and lignite reserves. The lignite reserves are intended to be used to provide fuel to the Dolet Hills Power Station. DHLC mines the lignite reserves at Oxbow through the Amended Lignite Mining Agreement.

Oxbow has no third-party agreements, guarantees, or other third-party commitments that contain obligations affecting Cleco Power's investment in Oxbow.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees

Litigation

Devil's Swamp

In October 2007, Cleco received a Special Notice for Remedial Investigation and Feasibility Study (RI/FS) from the EPA pursuant to CERCLA (also known as the Superfund statute). CERCLA establishes several classes of potentially responsible parties (PRPs) for a contaminated site, and imposes strict, joint and several liability on those PRPs for the cost of response to the contamination. The special notice requested that Cleco Corporation and Cleco Power, along with many other listed PRPs, enter into negotiations with the EPA for the performance of an RI/FS at an area known as the Devil's Swamp Lake site just northwest of Baton Rouge, Louisiana. The EPA has identified Cleco as one of many companies sending PCB wastes for disposal to the site. The Devil's Swamp Lake site has been proposed to be added to the National Priorities List (NPL) based on the release of PCBs to fisheries and wetlands located on the site. The EPA has yet to make a final determination on whether to add Devil's Swamp Lake site to the NPL. The PRPs began discussing a potential proposal to the EPA in February 2008. Negotiations among the PRPs and the EPA are ongoing in regard to the RI/FS for the Devil's Swamp Lake site, with little progress having been made since February 2008. Since this investigation is in the preliminary stages, management is unable to determine how significant Cleco's share of the costs associated with the RI/FS and possible response action at the facility site, if any, may be a material adverse effect on the Registrants' financial condition, results of operations, or cash flows.

Discrimination Complaints

On December 11, 2009, a complaint was filed in the U.S. District Court for the Western District of Louisiana (the Court) on behalf of eight current employees and four former employees alleging that Cleco discriminated against each of them on the basis of race. Each is seeking various remedies provided under applicable statutes prohibiting racial discrimination in the workplace, and together, the plaintiffs seek monetary compensation exceeding \$35.0 million. On July 29, 2010, the plaintiffs moved to add an additional current employee alleging that Cleco had discriminated on the basis of race. The additional plaintiff seeks compensation of no less than \$2.5 million and became the thirteenth plaintiff. On April 13, 2011, Cleco entered into a settlement with one of the current employees which resulted in a dismissal of one of the thirteen cases with prejudice. In September 2011, the Court ruled on Cleco's summary judgment motions. The judge granted and denied the motions in part, with the end result that eleven out of twelve of the remaining plaintiffs have at least one claim remaining. The Court has severed the cases of the eleven remaining plaintiffs for further proceedings, and, if necessary, trial. After additional depositions were completed in February 2012, Cleco filed a summary judgment motion in each of the remaining eleven cases on March 8, 2012. None of these matters have been set for trial. In view of the uncertainty of the claims, management is not able to predict or give a reasonable estimate of the possible range of liability, if

any, of these claims.

City of Opelousas

On March 9, 2010, a complaint was filed in the 27th Judicial District Court of St. Landry Parish, State of Louisiana, on behalf of three Cleco Power customers in Opelousas, Louisiana. The complaint alleges that Cleco Power overcharged the plaintiffs by applying to customers in Opelousas the same retail rates as Cleco Power applies to all of its retail customers. The plaintiffs claim that Cleco Power owes customers in Opelousas more than \$30.0 million as a result of the alleged overcharges. The plaintiffs allege that Cleco Power should have established, solely for customers in Opelousas, retail rates that are separate and distinct from the retail rates that apply to other customers of Cleco Power and that Cleco Power should not collect from customers in Opelousas the storm surcharge approved by the LPSC following hurricanes Katrina and Rita. Cleco Power currently operates in Opelousas pursuant to a franchise granted to Cleco Power by the City of Opelousas in 1986 and an operating and franchise agreement dated May 14,

1991, pursuant to which Cleco Power operates its own electric facilities and leases and operates electric facilities owned by the City of Opelousas. In April 2010, Cleco Power filed a petition with the LPSC appealing to its expertise in declaring that the ratepayers of Opelousas have been properly charged the rates that are applicable to Cleco Power's retail customers and that no overcharges have been collected. In addition, Cleco Power removed the purported class action lawsuit filed on behalf of Opelousas electric customers from the state court to the U.S. District Court for the Western District of Louisiana in April 2010, so that it could be properly addressed under the terms of the Class Action Fairness Act. On May 11, 2010, a second class action lawsuit was filed in the 27th Judicial District Court for St. Landry Parish, State of Louisiana, repeating the allegations of the first complaint, which was submitted on behalf of 249 Opelousas residents. Cleco Power has responded in the same manner as with the first class action lawsuit. In September 2010, the federal court remanded both cases to the state court in which they were originally filed for further proceedings. In January 2011, the presiding judge in the state court proceeding ruled that the jurisdiction to hear the two class actions resides in the state court and not with the LPSC as argued by both Cleco and the LPSC Staff. Both Cleco and the LPSC Staff appealed this ruling to the Third Circuit Court of Appeals for the State of Louisiana (Third Circuit). In September 2011, the Third Circuit denied both appeals. In October 2011, both Cleco and the LPSC appealed the Third Circuit's ruling to the Louisiana Supreme Court. In November 2011, the Louisiana Supreme Court granted the appeals and remanded the case to the Third Circuit for further briefing, argument, and opinion. In February 2011, the administrative law judge (ALJ) in the LPSC proceeding ruled that the LPSC has jurisdiction to decide the claims raised by the class action plaintiffs. At its December 2011, Business and Executive Session, the LPSC adopted the ALJ's recommendation that Cleco be granted summary judgment in its declaratory action finding that Cleco's ratepayers in the City of Opelousas have been served under applicable rates and policies approved by the LPSC and Cleco's Opelousas ratepayers have not been overcharged in connection with LPSC rates or ratemaking. On January 30, 2012, the class action plaintiffs filed their appeal of such LPSC decision to the 19th Judicial District Court for Baton Rouge

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Parish, State of Louisiana. On February 15, 2012, the Third Circuit ruled that the State Court, and not the LPSC, has jurisdiction to hear the case. On March 15, 2012, Cleco Power appealed the Third Circuit's ruling to the Louisiana Supreme Court asking that it overturn the Third Circuit decision and confirm the LPSC's exclusive jurisdiction over this matter. The LPSC also appealed the Third Circuit's ruling to the Louisiana Supreme Court in March 2012. In view of the uncertainty of the claims, management is not able to predict or give a reasonable estimate of the possible range of liability, if any, of these claims. However, if it is found that Cleco Power overcharged customers resulting in a refund, any such refund could have a material adverse effect on the Registrants' results of operations, financial condition, and cash flows.

LPSC Audits

Fuel Audit

The cost of fuel used for electric generation and the cost of power purchased for utility customers are recovered through an LPSC-established fuel adjustment clause that enables Cleco Power to pass on to its customers substantially all such charges. The LPSC Fuel Adjustment Clause General Order issued November 6, 1997, in Docket No. U-21497 provides that an audit of fuel adjustment clause filings will be performed not less than every other year. In March 2009, the LPSC initiated an audit of fuel adjustment clause filings for the years 2003 through 2008. The total amount of fuel expenses included in the audit is approximately \$3.26 billion. In February 2012, the LPSC Staff's consultant issued a preliminary audit report recommending a cost disallowance of approximately \$0.4 million plus interest for these filing years. This report must be approved by the LPSC and ratified by the intervenors in the proceeding before the audit results can be deemed final. Management does not expect any opposition from the intervenors to the audit recommendations and anticipates a vote by the LPSC on the report by the end of the second quarter of 2012. Cleco Power has fuel adjustment clause filings for the years 2009 through 2011 that are still subject to audit.

Environmental Audit

In July 2009, the LPSC issued Docket No. U-29380 Subdocket A, which provides for an EAC to recover certain costs of environmental compliance as an adder to customers' bills. The costs eligible for recovery are prudently incurred air emissions credits associated with complying with federal, state, and local air emission regulations that apply to the generation of electricity reduced by the sale of such allowances. Also eligible for recovery are variable emission mitigation costs, which are the cost of reagents such as ammonia and limestone that are used to reduce air emissions. In November 2011, the LPSC opened Docket No. X-32150 to audit the costs for the period October 2009 through October 2010. The total amount of environmental expenses included in the audit is approximately \$2.4 million. Cleco Power has responded to data requests from the LPSC. In April 2012, The LPSC Staff's consultant issued a preliminary audit report recommending no cost disallowance for the review period. This report must be approved by the LPSC and ratified by the intervenors in the proceeding before the audit results can be deemed final. Management does not expect any opposition from the intervenors to the audit recommendations and

anticipates a vote by the LPSC on the report by the end of the second quarter of 2012.

Other

Cleco is involved in various litigation matters, including regulatory, environmental, and administrative proceedings before various courts, regulatory commissions, arbitrators, and governmental agencies regarding matters arising in the ordinary course of business. The liability Cleco may ultimately incur with respect to any one of these matters in the event of a negative outcome may be in excess of amounts currently accrued. Management regularly analyzes current information and, as of March 31, 2012, believes the range of probable and reasonably estimable liabilities based on the eventual disposition of these matters is between \$3.0 million and \$7.0 million.

Off-Balance Sheet Commitments

Edgar Filing: CLECO POWER LLC - Form 10-Q

Cleco Corporation and Cleco Power have entered into various off-balance sheet commitments, in the form of guarantees and standby letters of credit, in order to facilitate their activities and the activities of Cleco Corporation's subsidiaries and equity investees (affiliates). Cleco Corporation and Cleco Power also have agreed to contractual terms that require them to pay third parties if certain triggering events occur. These contractual terms generally are defined as guarantees in the authoritative guidance.

Cleco Corporation entered into these off-balance sheet commitments in order to entice desired counterparties to contract with its affiliates by providing some measure of credit assurance to the counterparty in the event Cleco's affiliates do not fulfill certain contractual obligations. If Cleco Corporation had not provided the off-balance sheet commitments, the desired counterparties may not have contracted with Cleco's affiliates, or may have contracted with them at terms less favorable to its affiliates.

The off-balance sheet commitments are not recognized on Cleco's Condensed Consolidated Balance Sheets because management has determined that Cleco's affiliates are able to perform these obligations under their contracts and that it is not probable that payments by Cleco will be required. Cleco's off-balance sheet commitments as of March 31, 2012, are summarized in the following table, and a discussion of the off-balance sheet commitments follows the table. The discussion should be read in conjunction with the table to understand the impact of the off-balance sheet commitments on Cleco's financial condition.

(THOUSANDS)	AT MARCH 31, 2012

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

In January 2006, Cleco Corporation provided a \$0.5 million guarantee to Entergy Mississippi for Attala's obligations under the Interconnection Agreement. This guarantee will be effective through the life of the agreement.

On January 4, 2012, Cleco Corporation provided a \$1.0 million guarantee to Tenaska Power Services for Cleco Evangeline's obligations under the Western Systems Power Pool agreement. This guarantee matures on May 31, 2012. The State of Louisiana allows employers of certain financial net worth to self-insure their workers' compensation benefits. Cleco Power has a certificate of self-insurance from the Louisiana Office of Workers' Compensation and is required to post a \$3.7 million letter of credit, an amount equal to 110% of the average losses over the previous three years, as surety.

Disclosures about Guarantees

Cleco Corporation provided a limited guarantee and an indemnification to Entergy Louisiana and Entergy Gulf States for Perryville's performance, indemnity, representation, and warranty obligations under the Sale Agreement, the Power Purchase Agreement, and other ancillary agreements related to the sale of the Perryville facility in 2004. This is a continuing guarantee and all obligations of Cleco Corporation shall continue until the guaranteed obligations have been fully performed or otherwise extinguished. The discounted probability-weighted liability under the guarantees and indemnifications recognized on Cleco's Condensed Consolidated Balance Sheet as of March 31, 2012, was \$0.2 million. The maximum amount of the potential payment to Entergy Louisiana and Entergy Gulf States is \$42.4 million. Currently, management does not expect to be required to pay Entergy Louisiana and Entergy Gulf States under the guarantee.

In February 2010, Cleco Power acquired Acadia Unit 1 and half of Acadia Power Station's related common facilities. Acadia provided limited guarantees and indemnifications to Cleco Power under the Master Reorganization and Redemption Agreement. The maximum amount of the potential payment to Cleco Power for indemnifications is \$30.0 million, except for the indemnifications relating to the fundamental organizational structure of Acadia against which there is no maximum amount. Cleco Corporation is obligated to pay a maximum of \$10.0 million if Acadia is unable to pay claims to Cleco Power pursuant to the guarantee. Acadia recorded an indemnification liability and a corresponding reduction of the gain of \$13.5 million which represents the fair value of these indemnifications. Acadia and APH will reduce the indemnification liabilities either through expiration of the contractual life or through a reduction in the probability of a claim arising. The indemnification obligation is expected to have a term of approximately three years. After the three-year period, a residual value of less than \$0.1 million will remain. At March 31, 2012, Acadia had an indemnification liability of approximately \$0.4 million, which represents the risk of payment, as a contingent sale obligation recorded on Cleco's Condensed Consolidated Balance Sheet. APH recognized no

income for the three months ended March 31, 2012, and income of \$0.4 million for the three months ended March 31, 2011, primarily due to the contractual expiration of the underlying indemnifications. During the three months ended March 31, 2012, and 2011, Acadia recognized income of \$7.2 million and \$0.9 million, respectively, primarily due to the contractual expiration of the underlying indemnifications.

On April 29, 2011, Acadia completed its disposition of Acadia Unit 2 and Acadia Power Station's remaining common facilities to Entergy Louisiana. Acadia provided limited guarantees and indemnifications to Entergy Louisiana and recorded an indemnification liability and a corresponding reduction of the gain of \$21.8 million, which represents the fair value of these indemnifications. In conjunction with the disposition of Acadia Unit 2, APH received 100% ownership in Acadia in exchange for its 50% interest in Cajun, and Acadia became a consolidated subsidiary of APH.

Acadia and APH will reduce the indemnification liabilities either through expiration of the contractual life or through a reduction in the probability of a claim arising. The indemnification obligation is expected to have a term of three years. After the three-year period, a residual value of approximately \$0.2 million will remain. At March 31, 2012, Acadia had an indemnification liability of \$21.8 million, which represents the risk of payment, as a contingent sale obligation recorded on Cleco's Condensed Consolidated Balance Sheet. The maximum amount of the potential

payment to Entergy Louisiana for the indemnifications is the purchase price of \$298.8 million, except for the liabilities retained by Acadia, for which there is no maximum amount. Cleco Corporation is obligated to pay the same maximum amounts as Acadia if Acadia is unable to pay claims to Entergy Louisiana pursuant to the guarantee. As part of the Lignite Mining Agreement amended in 2009, Cleco Power and SWEPCO, joint owners of Dolet Hills, have agreed to pay the lignite miner's loan and lease principal obligations when due, if the lignite miner does not have sufficient funds or credit to pay. Any amounts paid on behalf of the miner would be credited by the lignite miner against the next invoice for lignite delivered. At March 31, 2012, Cleco Power had a liability of \$3.8 million related to the amended agreement. The maximum projected payment by Cleco Power under this guarantee is estimated to be \$72.5 million; however, the Amended Lignite Mining Agreement does not contain a cap. The projection is based on the forecasted loan and lease obligations to be incurred by DHLC, primarily for purchases of equipment. Cleco Power has the right to dispute the incurrence of loan and lease obligations through the review of the mining plan before the incurrence of such loan and lease obligations. The Amended Lignite Mining Agreement does not terminate pursuant to its terms until 2026 and does not affect the amount the Registrants can borrow under their credit facilities. Currently, management does not expect to be required to pay DHLC under the guarantee. The following table summarizes the expected termination dates of the off-balance sheet commitments and on-balance sheet guarantees discussed above:

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

(THOUSANDS)	NET AMOUNT COMMITTED	AMOUNT OF COMMITMENT EXPIRATION PER PERIOD			
		LESS THAN ONE YEAR	1-3 YEARS	3-5 YEARS	MORE THAN 5 YEARS
Off-balance sheet commitments	\$ 5,225	\$4,725	\$—	\$—	\$ 500
On-balance sheet guarantees	26,156	—	22,150	—	4,006
Total	\$ 31,381	\$4,725	\$ 22,150	\$—	\$ 4,506

In its bylaws, Cleco Corporation has agreed to indemnify directors, officers, agents, and employees who are made a party to a pending or completed suit, arbitration, investigation, or other proceeding whether civil, criminal, investigative or administrative, if the basis of inclusion arises as the result of acts conducted in the discharge of their official capacity. Cleco Corporation has purchased various insurance policies to reduce the risks associated with the indemnification. In its Operating Agreement, Cleco Power provides for the same indemnification as described above with respect to its managers, officers, agents, and employees.

Generally, neither Cleco Corporation nor Cleco Power has recourse that would enable them to recover amounts paid under their guarantee or indemnification obligations. The one exception is the insurance contracts associated with the indemnification of directors, managers, officers, agents, and employees. There are no assets held as collateral for third parties that either Cleco Corporation or Cleco Power could obtain and liquidate to recover amounts paid pursuant to the guarantees or indemnification obligations.

Other Commitments

New Markets Tax Credits

In August 2008, Cleco Corporation acquired a 99.9% membership interest in USB NMTC Fund 2008-1 LLC (Fund). The Fund was formed by U.S. Bancorp Community Development Corporation (USBCDC). The purpose of the Fund is to invest in projects located in qualified active low-income communities that are underserved by typical debt capital markets. These investments are designed to generate new markets tax credits and historical rehabilitation tax credits. In July 2011, the operating agreement of the Fund was amended to include renewable energy investments qualifying for grants under Section 1603 of the American Recovery and Reinvestment Tax Act of 2009. As part of the amendment, the guarantee performance targets provided to Cleco by the Fund were increased. U.S. Bank is the parent company of the managing member of the Fund and is the guarantor of the performance targets. In April 2012, the operating agreement of the Fund was amended. The primary purpose of the amendment was to adjust the ownership percentage of an underlying project. There was no material change to total capital contributions made by Cleco or total benefits and cash to be received by Cleco.

The tax benefits received from the Fund reduce the federal income tax obligations of Cleco Corporation. In total, Cleco Corporation will contribute \$286.3 million of equity contributions to the Fund and will receive at least \$304.6 million of net tax benefits and cash from the inception of the investment in 2008 over the life of the investment, which ends in 2017 under the new amendment. The \$18.3 million difference between equity contributions and total benefits received will be recognized over the life of the Fund as net tax

benefits are delivered. The following table reflects remaining future equity contributions.

(THOUSANDS)	CONTRIBUTION
Nine months ending December 31, 2012	\$58,089
Years ending December 31,	

2013	36,225
2014	22,927
2015	21,904
2016	7,584
Thereafter	13,224
Total	\$159,953

Of the \$160.0 million, \$66.5 million is due to be paid within the next twelve months. Due to the right of offset, the investment and associated debt are presented on Cleco Corporation's Condensed Consolidated Balance Sheet in the line item titled tax credit fund investment, net. The amount of tax benefits delivered in excess of capital contributions as of March 31, 2012, was \$85.5 million. The amount of tax benefits delivered but not utilized as of March 31, 2012, was \$64.8 million and is reflected as a deferred tax asset.

The equity contribution does not contain a stated rate of interest. Cleco Corporation has recorded the liability and investment at its calculated fair value within the framework of the authoritative guidance. In order to calculate the fair value, management used an imputed rate of interest assuming that Cleco Corporation obtained financing of a similar nature from a third-party. The imputed interest rate was used in a net present value model in order to calculate the fair value of the remaining portion of the delayed equity contributions. The following table contains the disclosures required by the authoritative guidelines for equity investments with an imputed interest rate.

(THOUSANDS)

Equity contributions, imputed interest rate 6%	
Principal payment schedule above:	\$159,953
Less: unamortized discount	17,195
Total	\$142,758

The gross investment amortization expense will be recognized over a ten-year period, with five years remaining under the new amendment, using the cost method in accordance with the authoritative guidance for investments. The grants received under Section 1603 and other cash reduce the basis of the investment. Periodic amortization of the investment and the deferred taxes generated by the basis reduction temporary difference are included as components of income tax expense.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Risks and Uncertainties

Cleco Corporation

Cleco Corporation could be subject to possible adverse consequences if Cleco's counterparties fail to perform their obligations or if Cleco Corporation or its affiliates are not in compliance with loan agreements or bond indentures.

Other

Access to capital markets is a significant source of funding for both short- and long-term capital requirements not satisfied by operating cash flows. After assessing the current operating performance, liquidity, and credit ratings of Cleco, management believes that Cleco will have access to the capital markets at prevailing market rates for companies with comparable credit ratings. If Cleco Corporation's credit ratings were to be downgraded by Moody's and Standard & Poor's, Cleco Corporation would be required to pay additional fees and higher interest rates under its bank credit and other debt agreements.

Changes in the regulatory environment or market forces could cause Cleco to determine its assets have suffered an other-than-temporary decline in value, whereby an impairment would be required to be taken and Cleco's financial condition could be materially adversely affected.

Cleco Power

Cleco Power supplies the majority of its customers' electric power requirements from its own generation facilities. In addition to power obtained from power purchase agreements, Cleco Power purchases power from other utilities and marketers to supplement its generation at times of relatively high demand or when the purchase price of power is less than its own cost of generation. Due to its location on the transmission grid, Cleco Power relies on two main suppliers of electric transmission when accessing external power markets. At times, constraints limit the amount of purchased power these transmission providers can deliver into Cleco Power's service territory.

Access to capital markets is a significant source of funding for both short- and long-term capital requirements not satisfied by operating cash flows. After assessing the current operating performance, liquidity, and credit ratings of Cleco Power, management believes that Cleco Power will have access to the capital markets at prevailing market rates for companies with comparable credit ratings. Cleco Power pays fees and interest under its bank credit agreements based on the highest rating held. If Cleco Power's credit ratings were to be downgraded by Moody's and Standard & Poor's, Cleco Power would be required to pay additional fees and higher interest rates under its bank credit agreements. Cleco Power's collateral for derivatives is based on the lowest rating held. If Cleco Power's credit ratings were to be downgraded by Moody's or Standard & Poor's, Cleco Power would be required to pay additional collateral for derivatives.

Note 12 — Affiliate Transactions

At March 31, 2012, Cleco Corporation had no affiliate balances that were payable to or due from its non-consolidated affiliates.

Cleco Power has affiliate balances that are payable to or due from its affiliates. At March 31, 2012, the payable to Cleco Corporation was \$14.6 million, the payable to Support Group

was \$5.7 million, the payable to Cleco Evangeline was \$0.3 million, and the payable to other affiliates was less than \$0.1 million. Also, at March 31, 2012, the receivable from Support Group was \$2.2 million, the receivable from Cleco Corporation was \$0.1 million, and the receivable from other affiliates was less than \$0.1 million.

Note 13 — Acadia Unit 2 Transaction

Acadia Unit 2

On April 29, 2011, Acadia completed its disposition of Acadia Unit 2 and Acadia Power Station's remaining common facilities to Entergy Louisiana. The significant terms of the transaction were:

Entergy Louisiana acquired Acadia Unit 2 for \$298.8 million;

In exchange for \$10.9 million, APH indemnified the third-party owners of Cajun and their affiliates against 50% of Acadia's liabilities and other obligations related to the Acadia Unit 2 transaction; APH recognized a gain of \$62.0 million, which included \$26.2 million of equity income that represents the 2007 investment impairment charge of \$45.9 million, partially offset by \$19.7 million of capitalized interest during the construction of Acadia; APH received 100% ownership in Acadia in exchange for its 50% interest in Cajun, and Acadia became a consolidated subsidiary of APH; and Cleco Power operates Acadia Unit 2 on behalf of Entergy Louisiana.

Following the transaction, ongoing operations at Acadia were minimal, relating only to the previously established accounts receivable, accounts payable, and servicing of indemnities. Therefore, Acadia did not meet the definition of a business.

Note 14 — Subsequent Events

Cleco Power Debt Issuance

On April 5, 2012, Cleco Power entered into an agreement to issue \$50.0 million senior unsecured private placement notes at an interest rate of 4.33%. The closing date of the notes is set for May 8, 2012. The maturity date of the notes will be May 15, 2027. The proceeds will be used for the early redemption of Cleco Power's 5.875% DeSoto Parish pollution control revenue bonds.

Cleco Power Notice of Redemption

On April 5, 2012, Cleco Power issued a notice of redemption to redeem at par all \$50.1 million principal amount of its outstanding 5.875% DeSoto Parish pollution control revenue bonds due September 2029. The redemption date for the notes will be May 11, 2012. As part of the redemption, Cleco Power will pay \$0.6 million of accrued interest on the redeemed notes.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion and analysis should be read in combination with the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011, and Cleco Corporation and Cleco Power's Condensed Consolidated Financial Statements contained in this Combined Quarterly Report on Form 10-Q. The information included therein is essential to understanding the following discussion and analysis. Below is information concerning the consolidated results of operations of Cleco for the three months ended March 31, 2012, and March 31, 2011.

RESULTS OF OPERATIONS

Overview

Cleco is a regional energy company that conducts substantially all of its business operations through its two primary subsidiaries:

Cleco Power, a regulated electric utility company, which owns 9 generating units with a total nameplate capacity of 2,524 MW and serves approximately 281,000 customers in Louisiana through its retail business and 10 communities across Louisiana and Mississippi through wholesale power contracts; and

Midstream, a wholesale energy business, which owns Evangeline (which operates Coughlin).

Cleco Power

Many factors affect Cleco Power's primary business of selling electricity. These factors include the presence of a stable regulatory environment, which can impact cost recovery and return on equity, as well as the recovery of costs related to growing energy demand and rising fuel prices; the ability to increase energy sales while containing costs; and the ability to meet increasingly stringent regulatory and environmental standards. Key initiatives that Cleco Power is currently working on include the Acadiana Load Pocket project, the AMI project and power supply options for 2012 and beyond. These initiatives are discussed below.

Acadiana Load Pocket Project

In September 2008, Cleco Power entered into an agreement with two other utilities to upgrade and expand interconnected transmission systems in south central Louisiana in an area known as the Acadiana Load Pocket. The project received LPSC and SPP approval in February 2009. Cleco Power's estimated cost for its portion of the project is \$125.0 million, including AFUDC. At March 31, 2012, Cleco Power had spent \$102.5 million on the project, including AFUDC. A return on and recovery of the costs associated with the completed portions of the Acadiana Load Pocket project are included in base revenue. The project is expected to be substantially complete by June 2012. Remaining portions of the project are expected to be complete by December 2012. For information on the impact the Acadiana Load Pocket project is expected to have on base revenue, see "— Comparison of the Three Months Ended March 31, 2012, and 2011 — Cleco Power — Base."

AMI Project

In May 2010, Cleco Power accepted the terms of a \$20.0 million grant from the DOE under the DOE's small-grant process to implement advanced metering technology for all of Cleco Power's retail customers. Cleco Power estimates the project will cost \$73.0 million, with the DOE grant providing \$20.0 million toward the project and Cleco Power providing the remaining \$53.0 million. The grant program is a part of the American Recovery and Reinvestment Act of 2009, an economic stimulus package passed by Congress in February 2009. Advanced metering technology includes the installation of electric meters that enable two-way communication capabilities between a home or business and a utility company. At March 31, 2012, Cleco Power had incurred \$12.1 million in project costs, of which \$5.3 million has been submitted to the DOE for reimbursement. As of March 31, 2012, Cleco Power had received

\$4.7 million in payments from the DOE. The project is expected to be completed in the third quarter of 2013. For more information on the AMI Project, see "— Financial Condition — Regulatory and Other Matters — AMI Project."

Power Supply Options

Cleco Power is evaluating a range of power supply options for 2012 and beyond. Cleco Power is continuing to update its IRP to look at future sources of supply to meet its capacity and energy requirements and to comply with new environmental standards, primarily CSAPR. In August 2011, Cleco Power issued an RFP for resources to enhance reliability for January through April 2012 and has since selected and negotiated two agreements from the RFP, a power purchase agreement with NRG Power Marketing LLC and a tolling agreement with Evangeline. Both agreements began on January 1, 2012. In October 2011, a second RFP, seeking up to approximately 750 MW of capacity and energy, for a three- or five-year period was issued for supply starting May 1, 2012, to meet CSAPR. Cleco Power selected Evangeline's proposal for a 730-MW product beginning May 1, 2012, and ending April 30, 2015. The definitive agreement between Evangeline and Cleco Power was executed in January 2012 and approved by the LPSC in March 2012 and FERC in April 2012. Cleco Power also expects to issue a draft RFP during the second quarter of 2012 seeking long-term resources beyond April 2015. For more information on Cleco Power's RFPs, see "— Financial Condition — Regulatory and Other Matters — Generation RFP."

Cleco Midstream

Evangeline

In March 2010, Evangeline restructured its tolling agreement with JPMVEC and shortened the expiration of the prior long-term agreement from 2020 to December 31, 2011 (with a JPMVEC option to extend one year). JPMVEC did not exercise the option to extend the tolling agreement and as a result, Coughlin's capacity and energy became available to Midstream beginning January 1, 2012. Evangeline was one of the successful bidders in Cleco Power's RFP for short-term 2012 resources beginning January 1, 2012, and began providing 250 MW of capacity and energy to Cleco Power under a tolling agreement through April 30, 2012. In addition

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

to Cleco Power's RFP referenced above, in December 2011, Evangeline was also notified that Cleco Power selected its proposal to fulfill Cleco Power's capacity and energy needs as defined in the Cleco Power RFP for contractual resources to meet CSAPR beginning in 2012. The proposal was for a 730-MW product beginning May 1, 2012, and ending April 30, 2015. The definitive agreement between Evangeline and Cleco Power was executed in January 2012 and was approved by the LPSC in March 2012 and FERC in April 2012. Currently, Midstream is marketing Coughlin's capacity for periods beginning after April 30, 2015, and is evaluating various options to optimize Coughlin's value. For more information, see "— Financial Condition — Regulatory and Other Matters — Generation RFP."

Comparison of the Three Months Ended March 31, 2012, and 2011
Cleco Consolidated

(THOUSANDS)	FOR THE THREE MONTHS ENDED MARCH 31,				
	2012	2011	FAVORABLE/(UNFAVORABLE)		
			VARIANCE	CHANGE	
Operating revenue, net	\$222,773	\$253,690	\$(30,917)	(12.2))%
Operating expenses	167,800	188,456	20,656	11.0	%
Operating income	\$54,973	\$65,234	\$(10,261)	(15.7))%
Allowance for other funds used during construction	\$1,017	\$1,978	\$(961)	(48.6))%
Equity income from investees, before tax	\$1	\$611	\$(610)	(99.8))%
Other income	\$9,375	\$1,205	\$8,170	678.0	%
Interest charges	\$20,624	\$26,614	\$5,990	22.5	%
Federal and state income taxes	\$13,410	\$12,195	\$(1,215)	(10.0))%
Net income applicable to common stock	\$30,031	\$29,004	\$1,027	3.5	%

Consolidated net income applicable to common stock increased \$1.0 million, or 3.5%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to higher Midstream and corporate earnings. Partially offsetting this increase was lower earnings at Cleco Power.

Operating revenue, net decreased \$30.9 million, or 12.2%, in the first quarter of 2012 compared to the first quarter of 2011 largely as a result of lower fuel cost recovery revenue at Cleco Power.

Operating expenses decreased \$20.7 million, or 11.0%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower per unit costs and volumes of fuel used for electric generation.

Allowance for funds used during construction decreased \$1.0 million, or 48.6%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower AFUDC accruals related to the completion of Teche Unit 4 and decreased construction activity of the Acadiana Load Pocket project.

Equity income from investees decreased \$0.6 million, or 99.8%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to the absence in the first quarter of 2012 of equity earnings at APH resulting from the disposition of Acadia Unit 2 and the subsequent consolidation of Acadia effective April 29, 2011.

Other income increased \$8.2 million, or 678.0%, in the first quarter of 2012 compared to the first quarter of 2011 largely as a result of the contractual expiration of an underlying indemnification resulting from the acquisition of Acadia Unit 1

by Cleco Power.

Interest charges decreased \$6.0 million, or 22.5%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower interest charges at Cleco Power.

Federal and state income taxes increased \$1.2 million, or 10.0%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to \$1.2 million for the change in pre-tax income excluding AFUDC equity and \$1.5 million to record tax expense at the consolidated projected annual effective tax rate. These increases were partially offset by \$1.5 million for tax credits.

Edgar Filing: CLECO POWER LLC - Form 10-Q

Results of operations for Cleco Power and Midstream are more fully described below.

Cleco Power

FOR THE THREE MONTHS ENDED MARCH 31,

Interest charges	\$18,486	\$24,402	\$5,916		24.2%	
Federal and state income taxes	\$14,507	\$14,400	\$(107)	(0.7)%	
Net income	\$26,805	\$30,030	\$(3,225)	(10.7)%	

Cleco Power's net income in the first quarter of 2012 decreased \$3.2 million, or 10.7%, compared to the first quarter of 2011. Contributing factors include:

- lower base revenue,
- higher depreciation expense,
- lower other operations revenue, and
- higher non-recoverable fuel and power purchased.

These factors were partially offset by:

- lower interest charges and
- lower electric customer credits.

Total retail	121,849	134,404	(9.3)	%
Sales for resale	11,785	11,939	(1.3)	%
Unbilled	(4,302) (12,269)	64.9	%
Total retail and wholesale customer sales	\$129,332	\$134,074	(3.5)	%

Cleco Power's residential customers' demand for electricity largely is affected by weather. Weather generally is measured in cooling-degree days and heating-degree days. A cooling-degree day is an indication of the likelihood that a consumer will use air conditioning, while a heating-degree day is an indication of the likelihood that a consumer will use heating. An increase in heating-degree days does not produce the same increase in revenue as an increase in cooling-degree days, because alternative heating sources are more available and because winter energy is priced below the rate charged for energy used in the summer. Normal heating-degree days and cooling-degree days are calculated for a month by separately calculating the average actual heating- and cooling-degree days for that month over a period of 30 years.

The following table shows how cooling and heating degree-days varied from normal conditions and from the prior period. Cleco Power uses weather data provided by the National Oceanic and Atmospheric Administration to determine degree days.

	FOR THE THREE MONTHS ENDED MARCH 31,			2012 CHANGE		NORMAL	
	2012	2011	NORMAL	PRIOR YEAR	%		
Heating-degree days	491	911	890	(46.1)	(44.8)
Cooling-degree days	251	139	78	80.6	%	221.8	%

Base

Base revenue decreased \$4.7 million, or 3.5%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower electric sales, generally resulting from milder winter weather.

Cleco Power expects new industrial load to be added during the remainder of 2012 and 2013, principally driven by expected development of Haynesville shale discovered in Northwestern Louisiana. In addition, Cleco Power expects to begin providing service to expansions of current customers' operations, as well as service to new customers. These expansions of service to current customers and service to new customers are expected to contribute base revenue of \$1.2 million during the remainder of 2012 and an additional \$0.4 million in 2013. Cleco Power also anticipates up to an additional \$1.8 million of base revenue for the remainder of 2012 associated with the completed portions of the Acadiana Load Pocket transmission project. In January 2012, Cleco Power signed a new 10-year wholesale power contract with service to begin in April 2014 pending LPSC approval. The contract is expected to grow Cleco Power's load by more than 20%. For information on the effects of future energy sales on Cleco Power's financial condition, results of operations, and cash flows, see "Risk Factors — Future Electricity Sales" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Fuel Cost Recovery

Fuel cost recovery revenue billed to customers decreased \$24.1 million, or 23.1%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to decreases in the per-unit cost of fuel used for electric generation and power purchased for utility customers. Also contributing to the decrease were lower volumes of fuel used for electric generation. Partially offsetting the decrease were higher volumes of power purchased for utility customers. Changes in fuel costs historically have not significantly affected Cleco Power's net income. Generally, fuel and purchased power expenses are recovered through the LPSC-established fuel adjustment clause, which enables Cleco Power to pass on to its customers substantially all such charges. Approximately 90% of Cleco Power's total fuel cost during the first quarter of 2012 was regulated by the LPSC, while the remainder was regulated by FERC. Recovery of fuel adjustment clause costs is subject to refund until approval is received from the LPSC. For information on Cleco Power's current LPSC fuel audit, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees."

Electric Customer Credits

Electric customer credits decreased \$2.7 million, or 615.4%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to a change in the estimated accrual for rate refunds. For more information on the accrual for electric customer credits, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 9 — Electric Customer Credits."

Other Operations

Other operations revenue decreased \$1.8 million, or 14.7%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower mineral lease payments.

Operating Expenses

Operating expenses decreased \$19.2 million, or 10.5%, in the first quarter of 2012 compared to the first quarter of 2011. Fuel

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

used for electric generation (recoverable) decreased \$23.5 million, or 24.4%, primarily due to lower per unit costs and volumes of fuel used for electric generation as compared to the first quarter of 2011. Power purchased for utility customers (recoverable) decreased \$0.7 million, or 8.1%, largely due to lower per unit costs of purchased power. Partially offsetting this decrease was higher volumes of purchased power. Fuel used for electric generation and power purchased for utility customers generally are influenced by natural gas prices, as well as availability of transmission. However, other factors such as scheduled and/or unscheduled outages, unusual maintenance or repairs, or other developments may affect fuel used for electric generation and power purchased for utility customers. Non-recoverable fuel and power purchased increased \$1.1 million, or 65.0%, primarily due to higher capacity charges. Other operations expense increased \$1.0 million, or 3.8%, primarily due to higher transmission and generating station expenses. Depreciation expense increased \$2.0 million, or 7.3%, primarily due to Teche Unit 4 and portions of the Acadiana Load Pocket project being placed in service and other normal recurring additions to fixed assets.

Allowance for Other Funds Used During Construction

Allowance for other funds used during construction decreased \$1.0 million, or 48.6%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower AFUDC accruals related to the completion of Teche Unit 4 and decreased construction activity of the Acadiana Load Pocket project.

Other Income

Other income increased \$0.9 million, or 419.4%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to higher royalty payments.

Interest Charges

Interest charges decreased \$5.9 million, or 24.2%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to \$5.3 million related to uncertain tax positions, \$1.8 million related to reacquired debt in October and December 2011, and \$0.2 million of lower other net miscellaneous interest charges. Partially offsetting these decreases was \$1.4 million related to the issuance of private placement notes in December 2011.

Income Taxes

Federal and state income taxes increased \$0.1 million, or 0.7%, during the first quarter of 2012 compared to the first quarter of 2011. The increase is primarily due to \$0.5 million to record tax expense at the projected annual effective tax rate, \$0.3 million for tax credits, and \$0.1 million for miscellaneous items. These increases were partially offset by \$0.8 million for the change in pre-tax income excluding AFUDC equity.

Factors affecting Midstream during the first quarter of 2012 are described below.

Operating Revenue

Operating revenue decreased \$1.6 million, or 56.1%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to lower tolling revenue at Evangeline resulting from the new power purchase agreement with Cleco Power that began in January 2012 as compared to the Evangeline 2010 Tolling Agreement with JPMVEC.

Equity Income from Investees

Equity income from investees decreased \$0.6 million, or 100.0%, in the first quarter of 2012 compared to the first quarter of 2011 primarily due to the absence in the first quarter of 2012 of equity earnings at APH resulting from the disposition of Acadia Unit 2 and the subsequent consolidation of Acadia effective April 29, 2011.

Other Income

Other income increased \$6.8 million in the first quarter of 2012 compared to the first quarter of 2011 largely as a result of the contractual expiration of an underlying indemnification resulting from the acquisition of Acadia Unit 1 by Cleco Power.

Interest Charges

Interest charges increased \$0.9 million, or 152.3%, during the first quarter of 2012 compared to the first quarter of 2011 primarily related to uncertain tax positions.

Income Taxes

Federal and state income taxes increased \$1.4 million, or 208.2%, during the first quarter of 2012 compared to the first quarter of 2011 primarily due to an increase in pre-tax income.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

FINANCIAL CONDITION

Liquidity and Capital Resources

General Considerations and Credit-Related Risks

Credit Ratings and Counterparties

Financing for operational needs and capital expenditure requirements not satisfied by operating cash flows depends upon the cost and availability of external funds through both short- and long-term financing. The inability to raise capital on favorable terms could negatively affect Cleco's or Cleco Power's ability to maintain or expand its businesses. Access to funds is dependent upon factors such as general economic and capital market conditions, regulatory authorizations and policies, Cleco Corporation's and Cleco Power's credit ratings, the cash flows from routine operations, and the credit ratings of project counterparties. After assessing the current operating performance, liquidity, and credit ratings of Cleco Corporation and Cleco Power, management believes that Cleco and Cleco Power will have access to the capital markets at prevailing market rates for companies with comparable credit ratings. The following table presents the credit ratings of Cleco Corporation and Cleco Power at March 31, 2012:

	SENIOR UNSECURED DEBT	
	MOODY'S	STANDARD & POOR'S
Cleco Corporation	Baa3	BBB-
Cleco Power	Baa2	BBB

Cleco notes that credit ratings are not recommendations to buy, sell, or hold securities and may be subject to revision or withdrawal at any time by the assigning rating agency. Each rating should be evaluated independently of any other rating.

For the three-month period ended March 31, 2012, there were no changes to Cleco or Cleco Power's credit ratings or rating agency's outlooks. At March 31, 2012, Moody's and Standard & Poor's outlooks for both Cleco Corporation and Cleco Power were stable. Cleco Corporation and Cleco Power pay fees and interest under their bank credit agreements based on the highest rating held. If Cleco Corporation or Cleco Power's credit rating were to be downgraded by Moody's and Standard & Poor's, Cleco Corporation and/or Cleco Power would be required to post additional fees and incur higher interest rates under their bank credit agreements. Cleco Power's collateral for derivatives is based on the lowest rating held. If Cleco Power's credit ratings were to be downgraded by Standard & Poor's or Moody's, Cleco Power would be required to post additional collateral for derivatives.

With respect to any open power or natural gas trading positions that Cleco may initiate in the future, Cleco may be required to provide credit support or pay liquidated damages. The amount of credit support that Cleco may be required to provide at any point in the future is dependent on the amount of the initial transaction, changes in the market price of power and natural gas, the changes in open power and gas positions, and changes in the amount counterparties owe Cleco. Changes in any of these factors could cause the amount of requested credit support to increase or decrease.

Global and U.S. Economic Environment

The current economic environment and uncertainty may have an impact on Cleco's business and financial condition. Access to capital markets is a significant source of funding for both short- and long-term capital requirements not satisfied by operating cash flows. Market conditions during the past few years have limited the availability and have increased the costs of capital for many companies. Although the Registrants have not experienced restrictions in the financial markets, their ability to access the capital markets may be restricted at a time when the Registrants would like, or need, to do so. Any restrictions could have a material impact on the Registrants' ability to fund capital

expenditures or debt service, or on their flexibility to react to changing economic and business conditions. Credit constraints could have a material negative impact on the Registrants' lenders or customers, causing them to fail to meet their obligations to the Registrants or to delay payment of such obligations. The lower interest rates that the Registrants have been exposed to have been beneficial to recent debt issuances; however, these rates have negatively affected interest income for the Registrants' short-term investments.

Fair Value Measurements

Various accounting pronouncements require certain assets and liabilities to be measured at their fair values. Some assets and liabilities are required to be measured at their fair value each reporting period, while others are required to be measured only one time, generally the date of acquisition or debt issuance. Cleco and Cleco Power are required to disclose the fair value of certain assets and liabilities by one of three levels when required for recognition purposes under GAAP. Other financial assets and liabilities, such as long-term debt, are reported at their carrying values at their date of issuance on the consolidated balance sheets with their fair values as of the balance sheet date disclosed within the three levels. For more information about fair value levels, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 4 — Fair Value Accounting."

Cash Generation and Cash Requirements

Restricted Cash

Various agreements to which Cleco is subject contain covenants that restrict its use of cash. As certain provisions under these agreements are met, cash is transferred out of related escrow accounts and becomes available for its intended purposes and/or general corporate purposes. Cleco's restricted cash consisted of:

(THOUSANDS)	AT MARCH 31, 2012	AT DECEMBER 31, 2011
Diversified Lands' mitigation escrow	\$97	\$97
Cleco Katrina/Rita's storm recovery bonds	3,320	8,761
Cleco Power's future storm restoration costs	25,450	24,876
Cleco Power's renewable energy grant	—	381
Cleco Power's NQ allowance escrow	1,713	1,713
Total restricted cash	\$30,580	\$35,828

Cleco Katrina/Rita has the right to bill and collect storm restoration costs from Cleco Power's customers. As cash is collected, it is restricted for payment of operating expenses,

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

interest, and principal on storm recovery bonds. During the three months ended March 31, 2012, Cleco Katrina/Rita had collected \$4.8 million net of operating expenses. In March 2012, Cleco Katrina/Rita used \$6.7 million for scheduled storm recovery bond principal payments and \$3.6 million for related interest.

Debt

Cleco Consolidated

Cleco had no short-term debt outstanding at March 31, 2012, or December 31, 2011.

At March 31, 2012, Cleco's long-term debt outstanding was \$1.33 billion, of which \$13.5 million was due within one year, compared to \$1.36 billion outstanding at December 31, 2011, which included \$24.3 million due within one year. The long-term debt due within one year at March 31, 2012, represents principal payments for the Cleco Katrina/Rita storm recovery bonds. For Cleco, long-term debt decreased \$28.1 million primarily due to \$11.2 million of 5.875% Rapides Parish pollution control bonds that were redeemed, prior to maturity, at par on January 25, 2012, a \$10.0 million decrease in credit facility draws, a \$6.7 million scheduled Cleco Katrina/Rita storm recovery bond principal payment made in March 2012, and \$0.4 million of capital lease payments. These decreases were partially offset by debt premium amortizations of \$0.2 million.

On April 5, 2012, Cleco Power entered into an agreement to issue \$50.0 million senior unsecured private placement notes at an interest rate of 4.33%. For more information on the debt issuance, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 14 — Subsequent Events — Cleco Power Debt Issuance." Cash and cash equivalents available at March 31, 2012, were \$47.2 million combined with \$550.0 million facility capacity (\$250.0 million from Cleco Corporation and \$300.0 million from Cleco Power) for total liquidity of \$597.2 million. Cash and cash equivalents available at March 31, 2012, decreased \$46.3 million when compared to cash and cash equivalents available at December 31, 2011. This decrease is primarily due to additions to property, plant, and equipment, repayment of debt, and payment of common dividends.

At March 31, 2012, Cleco and Cleco Power were exposed to concentrations of credit risk through their short-term investments classified as cash equivalents. In order to mitigate potential credit risk, Cleco and Cleco Power have established guidelines for short-term investments. For more information on the concentration of credit risk through short-term investments classified as cash equivalents, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 4 — Fair Value Accounting."

At March 31, 2012, and December 31, 2011, Cleco had a working capital surplus of \$143.6 million and \$135.8 million, respectively. The \$7.8 million increase in working capital is primarily due to:

- a \$53.9 million decrease in accounts payable primarily due to year-end pending ad valorem tax payments, employee incentive payments and fuel payments,
- an \$11.7 million net increase related to changes in the recognition of current taxes and uncertain tax positions and related interest charges expected to be settled in the next 12 months, and
- an \$11.2 million long-term debt payment to retire the

Rapides Parish pollution control bonds.

These increases in working capital were partially offset by:

- a \$46.3 million decrease in cash and cash equivalents as discussed above,
- an \$11.9 million decrease in accrued interest, excluding interest on uncertain tax positions, due to timing of debt service schedules, and
- an \$8.3 million net decrease in accumulated deferred fuel.

Cleco Corporation (Holding Company Level)

Cleco Corporation had no short-term debt outstanding at March 31, 2012, or December 31, 2011.

At March 31, 2012, Cleco Corporation had no draws outstanding under its \$250.0 million credit facility compared to \$10.0 million outstanding at December 31, 2011. This facility provides for working capital and other needs. Cleco Corporation and Cleco Power have uncommitted lines of credit with a bank that allow up to \$10.0 million each in short term borrowings, but no more than \$10.0 million in aggregate, to support their working capital needs. Cash and cash equivalents available at March 31, 2012, were \$9.8 million. Cash and cash equivalents available at March 31, 2012, decreased \$12.9 million when compared to cash and cash equivalents available at December 31, 2011, primarily due to routine working capital fluctuations.

Cleco Power

There was no short-term debt outstanding at Cleco Power at March 31, 2012, or December 31, 2011. At March 31, 2012, Cleco Power's long-term debt outstanding was \$1.33 billion, of which \$13.5 million was due within one year, compared to \$1.35 billion at December 31, 2011, of which \$24.3 million was due within one year. The long-term debt due within one year at March 31, 2012, represents principal payments for the Cleco Katrina/Rita storm recovery bonds. For Cleco Power, long-term debt decreased \$18.1 million primarily due to \$11.2 million of 5.875% Rapides Parish pollution control bonds that were redeemed, prior to maturity, at par on January 25, 2012, a \$6.7 million scheduled Cleco Katrina/Rita storm recovery bond principal payment made in March 2012, and \$0.4 million of capital lease payments. These decreases were partially offset by debt premium amortizations of \$0.2 million.

On April 5, 2012, Cleco Power entered into an agreement to issue \$50.0 million senior unsecured private placement notes at an interest rate of 4.33%. For more information on the debt issuance, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 14 — Subsequent Events — Cleco Power Debt Issuance."

At March 31, 2012, and December 31, 2011, there were no borrowings outstanding under Cleco Power's \$300.0 million credit facility. This facility provides for working capital and other needs. Cleco Corporation and Cleco Power have uncommitted lines of credit with a bank that allow up to \$10.0 million each in short term borrowings, but no more than \$10.0 million in aggregate, to support their working capital needs.

Cash and cash equivalents available at March 31, 2012, were \$35.9 million, combined with \$300.0 million facility capacity for total liquidity of \$335.9 million. Cash and cash equivalents decreased \$31.6 million, when compared to cash and cash equivalents at December 31, 2011, primarily due to additions to property, plant, and equipment, payment of

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

intercompany dividends, and repayment of debt.

At March 31, 2012, and December 31, 2011, Cleco Power had a working capital surplus of \$46.6 million and \$36.4 million, respectively. The \$10.2 million increase in working capital is primarily due to:

- a \$43.3 million decrease in accounts payable primarily due to year-end pending ad valorem tax payments, employee incentive payments and fuel payments,
- a \$21.3 million net increase related to changes in the recognition of current taxes and uncertain tax positions and related interest charges expected to be settled in the next 12 months, and
- an \$11.2 million long-term debt payment to retire the Rapides Parish pollution control bonds

These decreases in working capital were partially offset by:

- a \$31.6 million decrease in cash and cash equivalents, as discussed above,
- an \$11.9 million decrease in accrued interest, excluding interest on uncertain tax positions, due to timing of debt service schedules,
- an \$11.3 million increase in affiliate accounts payable primarily due to the allocation of corporate tax liability to Cleco Power, and
- an \$8.3 million net decrease in accumulated deferred fuel.

Credit Facilities

Cleco Corporation's current credit facility agreement has a maximum capacity of \$250.0 million and a maturity date of October 7, 2016. The borrowing costs are LIBOR plus 1.50% or ABR plus 0.50%, plus facility fees of 0.25%. If Cleco Corporation's credit ratings were to be downgraded one level, Cleco Corporation would be required to pay fees and interest at a rate of 0.25% higher than the level for its current credit facility.

Cleco Power's current credit facility agreement has a maximum capacity of \$300.0 million and matures on October 7, 2016. The borrowing costs are LIBOR plus 1.275% or ABR plus 0.275%, plus facility fees of 0.225%. If Cleco Power's credit ratings were to be downgraded one level, Cleco Power would be required to pay fees and interest at a rate of 0.25% higher than the level on its current credit facility.

At March 31, 2012, Cleco Corporation and Cleco Power were in compliance with the covenants in their credit facilities. If Cleco Corporation were to default under the covenants in its credit facility or other debt agreements, it would be unable to borrow additional funds under the facility, and the lenders could accelerate all principal and interest outstanding. Further, if Cleco Power were to default under its credit facility or other debt agreements, Cleco Corporation would be considered in default under its credit facility.

Midstream

Midstream had no debt outstanding at March 31, 2012, or December 31, 2011.

Cleco Consolidated Cash Flows

Net Operating Cash Flow

Net cash provided by operating activities was \$41.4 million during the first three months of 2012, compared to \$2.3 million during the first three months of 2011. Cash provided by

operating activities during the first three months of 2012 increased \$39.1 million from the first three months of 2011, primarily due to the following items:

- lower pension plan contributions of \$60.0 million and
- higher collection of receivables of \$20.2 million.

These increases were partially offset by:

- higher vendor payments of \$17.6 million,

• lower fuel oil inventory sales of \$16.1 million, and
• lower expenditures for other fuel inventories of \$12.0 million, primarily petroleum coke and coal.

Net Investing Cash Flow

Net cash used in investing activities was \$40.8 million during the first three months of 2012, compared to \$19.5 million during the first three months of 2011. Net cash used in investing activities during the first three months of 2012 was higher than the first three months of 2011 primarily due to higher additions to property, plant, and equipment, higher contributions to the tax credit fund, and lower transfers of cash from restricted accounts, partially offset by a higher return of investment in the tax credit fund.

During the first three months of 2012, Cleco had additions to property, plant, and equipment, net of AFUDC of \$38.4 million and an \$18.5 million investment in New Markets Tax Credits. This was partially offset by a \$10.2 million return of investment from the tax credit fund and the transfer of \$5.2 million of cash from restricted accounts, primarily related to cash restricted for storm costs.

During the first three months of 2011, Cleco had additions to property, plant, and equipment, net of AFUDC of \$19.9 million and a \$9.2 million investment in New Markets Tax Credits. This was partially offset by the transfer of \$9.4 million of cash from restricted accounts, primarily related to GO Zone bonds and cash restricted for storm costs.

Net Financing Cash Flow

Net cash used in financing activities was \$46.9 million during the first three months of 2012, compared to \$36.7 million during the first three months of 2011. Net cash used in financing activities during the first three months of 2012 was higher than the first three months of 2011 primarily due to higher repayments of long-term debt and higher dividend payments. This was partially offset by lower payments on the credit facility.

During the first three months of 2012, Cleco retired \$27.8 million of long-term debt, consisting of \$17.8 million of long-term bonds and \$10.0 million of credit facility draws. Cleco also used \$18.9 million for dividend payments.

During the first three months of 2011, Cleco retired \$21.3 million of long-term debt, consisting of \$15.0 million of credit facility draws and \$6.3 million of long-term bonds. Cleco also used \$15.2 million for dividend payments.

Cleco Power Cash Flows

Net Operating Cash Flow

Net cash provided by operating activities was \$47.5 million during the first three months of 2012, compared to \$5.3 million during the first three months of 2011. Cash provided by operating activities during the first three months of 2012 increased \$42.2 million from the first three months of 2011 primarily due to the following items:

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

• lower pension plan contributions of \$60.0 million and
• higher collection of receivables of \$16.5 million.

These increases were partially offset by:

• higher vendor payments of \$8.7 million,
• lower fuel oil inventory sales of \$16.1 million, and
• lower expenditures for other fuel inventories of \$12.0 million, primarily petroleum coke and coal.

Net Investing Cash Flow

Net cash used in investing activities was \$30.8 million during the first three months of 2012, compared to \$9.0 million during the first three months of 2011. Net cash used in investing activities during the first three months of 2012 was higher than the first three months of 2011 primarily due to higher additions to property, plant, and equipment and lower transfers of cash from restricted accounts.

During the first three months of 2012, Cleco had additions to property, plant, and equipment, net of AFUDC of \$37.5 million. This was partially offset by the transfer of \$5.2 million of cash from restricted accounts, primarily related to cash restricted for storm costs.

During the first three months of 2011, Cleco Power had additions to property, plant, and equipment, net of AFUDC of \$18.7 million. This was partially offset by the transfer of \$9.4 million of cash from restricted accounts, primarily related to GO Zone bonds and cash restricted for storm costs.

Net Financing Cash Flow

Net cash used in financing activities was \$48.3 million during the first three months of 2012, compared to \$56.8 million during the first three months of 2011. Net cash used in financing activities during the first three months of 2012 was lower than the first three months of 2011 primarily due to \$20.0 million of lower distributions made to Cleco Corporation, partially offset by higher repayments of long-term debt.

Contractual Obligations and Other Commitments

Cleco, in the normal course of business activities, enters into a variety of contractual obligations. Some of these result in direct obligations that are reflected in the Condensed Consolidated Balance Sheets while other commitments, some firm and some based on uncertainties, are not reflected in the consolidated financial statements.

For more information regarding Cleco's Contractual Obligations and Other Commitments, please read "Management's Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Contractual Obligations and Other Commitments" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Off-Balance Sheet Commitments and Disclosures about Guarantees

Cleco Corporation and Cleco Power have entered into various off-balance sheet commitments, in the form of guarantees and standby letters of credit, in order to facilitate their activities and the activities of Cleco Corporation's subsidiaries and equity investees (affiliates). Cleco Corporation and Cleco Power have also agreed to contractual terms that require them to pay third parties if certain triggering events occur. These contractual terms generally are defined as guarantees in the authoritative guidance. For more information on off-balance

sheet commitments, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees — Off-Balance Sheet Commitments" and "— Disclosures about Guarantees."

Regulatory and Other Matters

Generation RFP

Renewable Energy Pilot Program

In November 2010, the LPSC established a two-part renewable energy pilot program implementation plan consisting of a research component and an RFP component. Cleco Power is meeting the requirements of the research component by developing eight self-build renewable energy projects, each with a maximum nameplate rating of 300 kilowatts. The RFP component of the program requires each LPSC jurisdictional utility to conduct an RFP for new long-term renewable resources, while prohibiting the utilities from bidding self-build projects into the long-term RFP. Cleco Power's requirement is 43 MW of renewable energy with a minimum term of 10 years and a maximum term of 20 years, and can reasonably be expected to be deliverable within the 2011-2014 time period. Because Madison Unit 3 is designed to burn biomass fuel, with minor modifications, in addition to its primary fuel, Cleco Power has been given an exception allowing it to conduct an RFP for biomass fuel along with identifying the costs to co-fire biomass fuel in Madison Unit 3. In November 2011, Cleco Power received LPSC approval for recovery of the test burn costs, and performed a biomass test burn at Madison Unit 3 during the fourth quarter of 2011. Cleco Power issued its final RFP for biomass fuel in February 2012, with a deadline of April 17, 2012 for potential suppliers to submit their proposals. Cleco plans to file in July 2012 a written report to the LPSC regarding the cost of co-firing biomass fuel in Madison Unit 3. Following its review of the results of Cleco Power's RFP and Cleco Power's written report, the LPSC may authorize Cleco Power to pursue co-firing biomass fuel in Madison Unit 3 or require Cleco Power to conduct an additional RFP for 43 MW of renewable energy as discussed above. For more information on Cleco's renewable energy pilot program, please read "Management's Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Generation RFP" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

RFP for Short-Term 2012 Resources

In August 2011, Cleco Power issued an RFP for short-term 2012 resources to enhance reliability for the period January through April 2012. Cleco Power selected and negotiated two agreements from the RFP, a power purchase agreement with NRG Power Marketing LLC, and a tolling agreement with Evangeline. Cleco Power filed with the LPSC an application for a certificate of public convenience and necessity for the two agreements, and additionally filed an application with the FERC for authorization to make power sales between affiliates pursuant to Section 205 of the Federal Power Act. The NRG agreement provided 200 MW of capacity and energy from January 1, 2012, through April 30, 2012, while the Evangeline agreement provided 250 MW of capacity and energy from January 1, 2012, through April 30, 2012.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

RFP for Contractual Resources to Meet CSAPR Beginning in May 2012

In September 2011, Cleco Power issued a draft RFP for resources to meet CSAPR and conducted a bidders conference on October 13, 2011. The final RFP seeking up to approximately 750 MW of capacity and energy for a three- or five-year term was published on October 21, 2011. In March 2012, Cleco Power received approval from the LPSC for a three-year power purchase agreement providing 730 MW of capacity and energy with Evangeline for a delivery term beginning May 1, 2012, and ending April 30, 2015. Because Cleco Power and Evangeline are affiliates, Cleco Power also received approval from FERC to make power sales between affiliates pursuant to Section 205 of the Federal Power Act.

2012 Long-Term RFP for Capacity and Energy Resources

During the second quarter of 2012, Cleco Power expects to issue a draft RFP for long-term resources beginning May 2015 to meet long-term capacity and energy needs due to load growth and environmental regulations. According to the current schedule, Cleco Power will conduct a bidders conference in May 2012 prior to issuing a final RFP in July 2012. Proposals are due from potential suppliers in August 2012.

Environmental Matters

Cleco is subject to extensive environmental regulation by federal, state, and local authorities and is required to comply with numerous environmental laws and regulations, and to obtain and comply with numerous governmental permits, in operating its facilities. In addition, existing environmental laws, regulations, and permits could be revised or reinterpreted; new laws and regulations could be adopted or become applicable to Cleco or its facilities; and future changes in environmental laws and regulations could occur, including potential regulatory and enforcement developments related to air emissions. Cleco may incur significant additional costs to comply with these revisions, reinterpretations, and requirements. Cleco Power would then seek recovery of additional environmental compliance costs as riders through the LPSC's environmental adjustment clause or its FRP, or as a base rate adjustment as appropriate. If Cleco fails to comply with these revisions, reinterpretations, and requirements, it could be subject to civil or criminal liabilities and fines.

For a discussion of other Cleco environmental matters, please read "Business — Environmental Matters" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Retail Rates of Cleco Power

For information concerning amounts accrued and refunded by Cleco Power as a result of the FRP and information on the LPSC Staff's FRP reviews, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 9 — Electric Customer Credits."

For information on certain other regulatory aspects of retail rates concerning Cleco Power, please read "Management's Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Retail Rates of Cleco Power" in the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Wholesale Rates of Cleco

Transmission Service

On March 29, 2012, Cleco Power filed a request with the FERC for revisions to its Open Access Transmission Tariff (OATT). The revisions are proposed to allow adoption of a formula rate methodology for transmission delivery and ancillary services provided by Cleco Power under the OATT and the existing bilateral Electric System Interconnection Agreements that preceded the OATT. The new formula rates also will permit recovery of Cleco Power's FERC-jurisdictional investments in transmission and other assets placed in service since the existing rates were

established. Cleco Power anticipates settlement of this rate proceeding in late 2013.

For more information on the wholesale rates of Cleco, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Wholesale Rates of Cleco” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Market Restructuring

Wholesale Electric Markets

For more information on regulatory aspects of wholesale electric markets affecting Cleco, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Market Restructuring — Wholesale Electric Markets” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Retail Electric Markets

For a discussion of the regulatory aspects of retail electric markets affecting Cleco Power, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Market Restructuring — Retail Electric Markets” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Lignite Deferral

At March 31, 2012, and December 31, 2011, Cleco Power had \$18.5 million and \$19.1 million, respectively, in deferred lignite mining costs remaining uncollected.

For more information on Cleco Power’s deferred lignite mining expenditures, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Lignite Deferral” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Acadiana Load Pocket Project

In September 2008, Cleco Power entered into an agreement with two other utilities to upgrade and expand interconnected transmission systems in south central Louisiana in an area known as the Acadiana Load Pocket. The project received LPSC and SPP approval in February 2009. Cleco Power’s estimated cost for its portion of the project is \$125.0 million, including AFUDC. At March 31, 2012, Cleco Power had spent \$102.5 million on the project, including AFUDC. A return on and recovery of the costs associated with the completed

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

portions of the Acadiana Load Pocket project are included in base revenue. The project is expected to be substantially complete by June 2012. Remaining portions of the project are expected to be complete by December 2012. For more information, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — Acadiana Load Pocket Project” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011. For information on the impact the Acadiana Load Pocket project is expected to have on base revenue, see “Results of Operations — Comparison of the Three Months Ended March 31, 2012, and 2011 — Cleco Power — Base.”

AMI Project

In May 2010, Cleco Power accepted the terms of a \$20.0 million grant from the DOE under the DOE’s small-grant process to implement advanced metering technology for all of Cleco Power’s retail customers. Cleco Power estimates the project will cost \$73.0 million, with the DOE grant providing \$20.0 million toward the project and Cleco Power providing the remaining \$53.0 million. The grant program is a part of the American Recovery and Reinvestment Act of 2009, an economic stimulus package passed by Congress in February 2009. Advanced metering technology includes the installation of electric meters that enable two-way communication capabilities between a home or business and a utility company. At March 31, 2012, Cleco Power had incurred \$12.1 million in project costs, of which \$5.3 million has been submitted to the DOE for reimbursement. As of March 31, 2012, Cleco Power had received \$4.7 million in payments from the DOE. The project is expected to be completed in the third quarter of 2013. For more information, please read “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Financial Condition — Regulatory and Other Matters — AMI Project” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Franchises

On March 13, 2012, the City of Slidell unanimously voted to renew the franchise agreement with Cleco Power. The renewal extends the agreement for 33 years until April 2045. Approximately 16,400 Cleco Power customers are located in Slidell.

On April 5, 2012, the City of Oakdale unanimously voted to renew the franchise agreement with Cleco Power. The renewal extends the agreement for 27 years until April 2039. Approximately 3,400 Cleco Power customers are located in Oakdale.

On April 10, 2012, the Town of Berwick unanimously voted to renew the franchise agreement with Cleco Power. The renewal extends the agreement for 22 years until April 2034. Approximately 2,700 Cleco Power customers are located in Berwick.

For more information on other electric service franchises, please read “Business — Regulatory Matters, Industry Developments, and Franchises — Franchises” in the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Other Franchise Matters

On March 9, 2010, a complaint was filed in the 27th Judicial

District Court of St. Landry Parish, State of Louisiana on behalf of three Cleco Power customers in Opelousas, Louisiana. The complaint alleges that Cleco Power overcharged the plaintiffs by applying to customers in Opelousas the same retail rates as Cleco Power applies to all of its retail customers. In addition, on May 11, 2010, a second complaint repeating the allegations of the first was filed on behalf of a number of Opelousas residents. For more information regarding these complaints, see Item 1, “Notes to the Unaudited Condensed Consolidated Financial Statements — Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees — City of Opelousas.”

Recent Authoritative Guidance

For a discussion of recent authoritative guidance, see Item 1, “Notes to the Unaudited Condensed Consolidated Financial Statements — Note 2 — Recent Authoritative Guidance” of this Combined Quarterly Report on Form 10-Q, which discussion is incorporated herein by reference.

CRITICAL ACCOUNTING POLICIES

Cleco’s critical accounting policies include those accounting policies that are both important to Cleco’s financial condition and results of operations and those that require management to make difficult, subjective, or complex judgments about future events, which could result in a material impact to the financial statements of Cleco Corporation’s segments or to Cleco as a consolidated entity. The financial statements contained in this report are prepared in accordance with accounting principles generally accepted in the United States of America, which require Cleco to make estimates and assumptions. Estimates and assumptions about future events and their effects cannot be made with certainty. Management bases its current estimates and assumptions on historical experience and on various other factors that are believed to be reasonable under the circumstances. On an ongoing basis, these estimates and assumptions are evaluated and, if necessary, adjustments are made when warranted by new or updated information or by a change in circumstances or environment. Actual results may differ significantly from these estimates under different assumptions or conditions.

For more information on Cleco’s critical accounting policies, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations — Critical Accounting Policies” in the Registrant’s Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

CLECO POWER — NARRATIVE ANALYSIS OF RESULTS OF OPERATIONS

Set forth below is information concerning the results of operations of Cleco Power for the three months ended March 31, 2012, and March 31, 2011. The following narrative analysis should be read in combination with Cleco Power’s Unaudited Condensed Consolidated Financial Statements and the Notes contained in this Combined Quarterly Report on Form 10-Q.

Cleco Power meets the conditions specified in General Instructions H(1)(a) and (b) to Form 10-Q and is therefore permitted to use the reduced disclosure format for wholly owned subsidiaries of reporting companies. Accordingly, Cleco Power has omitted from this report the information called for by Item 2 (Management’s Discussion and Analysis of

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

Financial Condition and Results of Operations) and Item 3 (Quantitative and Qualitative Disclosures about Market Risk) of Part I of Form 10-Q and the following Part II items of Form 10-Q: Item 2 (Unregistered Sales of Equity Securities and Use of Proceeds) and Item 3 (Defaults upon Senior Securities). Pursuant to the General Instructions, Cleco Power has included an explanation of the reasons for material changes in the amount of revenue and expense items of Cleco Power between the first quarter of 2012 and the first quarter of 2011. Reference is made to Management's Discussion and Analysis

of Financial Condition and Results of Operations in Item 7 of the Registrants' Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

For an explanation of material changes in the amount of revenue and expense items of Cleco Power between the first quarter of 2012 and the first quarter of 2011, see "— Results of Operations — Comparison of the Three Months Ended March 31, 2012, and 2011 — Cleco Power" of this Combined Quarterly Report on Form 10-Q, which discussion is incorporated herein by reference.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Risk Overview

Market risk inherent in Cleco's market risk-sensitive instruments and positions includes potential changes arising from changes in interest rates and the commodity market prices of power and natural gas in the industry on different energy exchanges.

Cleco applies the authoritative guidance as it relates to derivatives and hedging to determine whether the market risk-sensitive instruments and positions are required to be marked-to-market. Generally, Cleco Power's market risk-sensitive instruments and positions qualify for the normal-purchase, normal-sale exception to mark-to-market accounting since Cleco Power takes physical delivery and the instruments and positions are used to satisfy customer requirements. When positions close, actual gains or losses are included in the fuel adjustment clause and reflected on customers' bills as a component of the fuel cost adjustment.

Cleco's exposure to market risk, as discussed below, represents an estimate of possible changes in the fair value or future earnings that would occur, assuming possible future movements in the interest rates and commodity prices of power and natural gas. Management's views on market risk are not necessarily indicative of actual results, nor do they represent the maximum possible gains or losses. The views do represent, within the parameters disclosed, what management estimates may happen.

Cleco monitors credit risk exposure through reviews of counterparty credit quality, aggregate counterparty credit exposure, and aggregate counterparty concentration levels. Cleco manages these risks by establishing appropriate credit and concentration limits on transactions with counterparties and requiring contractual guarantees, cash deposits, or letters of credit from counterparties or their affiliates, as deemed necessary. Cleco Power has agreements in place with various counterparties that authorize the netting of financial transactions and contract payments to mitigate credit risk for transactions entered into for risk management purposes.

Access to capital markets is a significant source of funding for both short- and long-term capital requirements not satisfied by operating cash flows. Market conditions during the past few years have limited the availability and have increased the costs of capital for many companies. The inability to raise capital on favorable terms could negatively affect Cleco's ability to maintain and expand its businesses. After assessing the current operating performance, liquidity, and credit ratings of Cleco, management believes that it will have access to the capital markets at prevailing market rates for companies with comparable credit ratings. Cleco Corporation and Cleco Power pay fees and interest under their respective credit facilities based on the highest rating held. If

Cleco Corporation or Cleco Power's credit ratings were to be downgraded by Moody's and Standard & Poor's, Cleco Corporation or Cleco Power, as the case may be, would be required to pay additional fees and higher interest rates under their respective credit facilities. Cleco Power's collateral for derivatives is based on the lowest rating held. If Cleco Power's credit ratings were to be downgraded by Standard & Poor's or Moody's, Cleco Power would be required

to pay additional collateral for derivatives.

Interest Rate Risks

Cleco monitors its mix of fixed- and variable-rate debt obligations in light of changing market conditions and from time to time may alter that mix, for example, refinancing balances outstanding under its variable-rate credit facility with fixed-rate debt. For details, see Item 1, "Notes to the Unaudited Condensed Consolidated Financial Statements — Note 5 — Debt." Calculations of the changes in fair market value and interest expense of the debt securities are made over a one-year period.

Sensitivity to changes in interest rates for fixed-rate obligations is computed by calculating the current fair market value using a net present value model based upon a 1% change in the average interest rate applicable to such debt. Sensitivity to changes in interest rates for variable-rate obligations is computed by assuming a 1% change in the current interest rate applicable to such debt.

At March 31, 2012, Cleco had no short-term variable rate debt outstanding.

At March 31, 2012, Cleco Corporation had no borrowings outstanding under its \$250.0 million credit facility.

On November 14, 2011, Cleco Power entered into a forward starting interest rate swap contract in order to mitigate the interest rate exposure on coupon payments related to a \$50.0 million fixed-rate forecasted debt issuance. The forward starting interest rate swap has a spot 30-year all-in swap rate of 3.05%, notional amount of \$50.0 million, with the pricing date of May 14, 2013, or the issuance of the notes, whichever is earlier. The forward starting interest rate swap meets the criteria of a cash flow hedge under the authoritative guidance as it relates to derivatives and hedging. The fair market value of the forward starting interest rate swap is the difference between the present value of the fixed payments to be paid by Cleco Power and the present value of the three-month LIBOR payments to be received by Cleco Power. Cleco Power recognized \$4.7 million of unrealized mark-to-market gains in other comprehensive income for the three months ended March 31, 2012. The offsetting asset was recorded on Cleco and Cleco Power's Condensed Consolidated Balance Sheets as an interest rate risk management asset. There was no impact to earnings due to ineffectiveness for the three months

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

ended March 31, 2012. For every 0.01% change in the three-month LIBOR forward curve, the value of the forward starting interest rate swap changes by approximately \$0.1 million.

Commodity Price Risks

Management believes Cleco has controls in place to minimize the risks involved in its financial and energy commodity activities. Independent controls over energy commodity functions consist of a middle office (risk management), a back office (accounting), and regulatory compliance staff, as well as monitoring by a risk management committee comprised of officers and the General Manager – Internal Audit, who are approved by Cleco Corporation’s Board of Directors. Risk limits are recommended by the Risk Management Committee and monitored through a daily risk report that identifies the current VaR, current market conditions, and concentration of energy market positions.

Cleco Power provides fuel for generation and purchases power to meet the power demands of customers. Cleco Power has entered into positions to mitigate the volatility in customer fuel costs, as encouraged by an LPSC order. Cleco Power’s fuel stabilization policy targets certain levels of hedging percentages to help mitigate the volatility in customer fuel costs. The change in positions could result in increased volatility in the marked-to-market amounts for the financial positions. These positions are marked-to-market with the resulting gain or loss recorded on the balance sheet as a component of the accumulated deferred fuel asset or liability and a component of the energy risk management assets or liabilities. When these positions close, actual gains or losses are deferred and included in the fuel adjustment clause in the month the physical contract settles. Based on market prices at March 31, 2012, and December 31, 2011, the net mark-to-market impact related to open natural gas positions was losses of \$3.3 million and \$5.3 million, respectively. All of these natural gas positions open at March 31, 2012, will close over the next 12 months. Deferred losses relating to closed natural gas positions at March 31, 2012, and December 31, 2011,

totaled \$1.7 million and \$1.2 million, respectively.

Cleco utilizes a VaR model to assess the market risk of its hedging portfolios, including derivative financial instruments. VaR represents the potential loss in fair value for an instrument from adverse changes in market factors over a defined period of time with a specified confidence level. VaR is calculated daily, using the variance/covariance method with delta approximation, assuming a holding period of one day, and a 95% confidence level for natural gas and power positions. Volatility is calculated daily from historical forward prices using the exponentially weighted moving average method. Based on these assumptions, the VaR relating to Cleco Power’s hedge transactions for the three months ended March 31, 2012, as well as the VaR at December 31, 2011, is summarized as follows.

(THOUSANDS)	FOR THE THREE MONTHS ENDED			AT MARCH 31, 2012	AT DECEMBER 31, 2011
	MARCH 31, 2012	HIGH	LOW		
Fuel cost hedges	\$382.0	\$179.5	\$286.5	\$227.4	\$196.1

Cleco Power

Please refer to “— Risk Overview” for a discussion of market risk inherent in Cleco Power’s market risk-sensitive instruments.

Cleco Power has entered into various fixed- and variable-rate debt obligations. Please refer to “— Interest Rate Risks” for a discussion of how Cleco Power monitors its mix of fixed- and variable-rate debt obligations and the manner of calculating changes in fair market value and interest expense of its debt obligations.

Cleco Power had no short- or long-term variable-rate debt as of March 31, 2012.

Please refer to “— Commodity Price Risks” for a discussion of controls, transactions, VaR, and market value maturities associated with Cleco Power’s energy commodity activities.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

As of March 31, 2012, evaluations were performed under the supervision and with the participation of Cleco Corporation and Cleco Power LLC (individually, "Registrant" and collectively, the "Registrants") management, including the Chief Executive Officer (CEO) and Chief Financial Officer (CFO). The evaluations assessed the effectiveness of the Registrants' disclosure controls and procedures. Based on the evaluations, the CEO and CFO have concluded that the Registrants' disclosure controls and procedures are effective to ensure that information required to be disclosed by each Registrant in reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized, and reported within the time periods specified in Securities and Exchange Commission rules and forms; and that the Registrants' disclosure controls and procedures are also effective in ensuring that such information is accumulated and communicated to the Registrants' management, including the CEO and CFO, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

Under the supervision and with the participation of the Registrants' management, including the CEO and CFO, the Registrants evaluated changes in internal control over financial reporting that occurred during the quarter ended March 31, 2012, and found no change that has materially affected, or is reasonably likely to materially affect, internal control over financial reporting.

PART II — OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

CLECO

For information on legal proceedings affecting Cleco, see Part I, Item 1, “Notes to the Unaudited Condensed Consolidated Financial Statements — Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees — Litigation.”

CLECO POWER

For information on legal proceedings affecting Cleco Power, see Part I, Item 1, “Notes to the Unaudited Condensed Consolidated Financial Statements — Note 11 — Litigation, Other Commitments and Contingencies, and Disclosures about Guarantees — Litigation.”

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors disclosed under the heading “Risk Factors” in Item 1A of the Registrants’ Combined Annual Report on Form 10-K for the fiscal year ended December 31, 2011 (the “2011 Annual Report on Form 10-K”). For risks that could affect actual results and cause results to differ materially from those expressed in any forward-looking statements made by, or on behalf of, the Registrants, see the risk factors disclosed under “Risk Factors” in Item 1A of the 2011 Annual Report on Form 10-K.

ITEM 4. MINE SAFETY DISCLOSURES

The information concerning mine safety violations or other regulatory matters required by Section 1503(a) of the Dodd-Frank Act and Item 104 of Regulation S-K is included in Exhibit 95 to this Combined Quarterly Report on Form 10-Q.

CLECO CORPORATION
CLECO POWER

2012 1ST QUARTER FORM 10-Q

ITEM 5. OTHER INFORMATION

Departure of Directors

Effective April 27, 2012, Brigadier General Sherian G. Cadoria retired as a director of Cleco Corporation. General Cadoria has served as a director of Cleco Corporation since 1993 and has reached the retirement age for outside directors specified in Cleco Corporation's Bylaws.

Amendment to Bylaws

Effective April 27, 2012, and in connection with the retirement of General Cadoria, the Board of Directors of Cleco Corporation amended Cleco Corporation's Bylaws to decrease the number of directors serving on the board to nine. Prior to the amendment, the Bylaws provided for ten directors to serve on the board. A copy of the bylaws, as revised, is filed as Exhibit 3.1 to this Combined Quarterly Report on Form 10-Q.

Stock Award to Mr. Williamson

On April 27, 2012, the Board of Directors of Cleco Corporation approved a special award in the amount of 5,000 restricted shares of Cleco Corporation common stock to Mr. Bruce A. Williamson, President and Chief Executive Officer of Cleco Corporation. This award was made pursuant to the 2010 LTICP. The shares will be restricted until January 1, 2019. During the restricted period, Mr. Williamson may not sell, assign, transfer, pledge or otherwise dispose of the shares. Dividends will accrue on the shares during the restricted period without interest and will be paid to Mr. Williamson upon the lapse of the restrictions. The shares (and any accrued dividends thereon) will be forfeited if Mr. Williamson is no longer an employee of Cleco Corporation (other than because of death or disability) before the end of the restricted period. Upon a change of control (as defined in the 2010 LTICP), the restrictions will lapse and the shares (and any accrued dividends) will be delivered to Mr. Williamson. The Compensation Committee or the Board of Directors may amend the terms and conditions of the award.

Submission of Matters to a Vote of Security Holders

(a) The Annual Meeting of Shareholders of Cleco Corporation was held on April 27, 2012, in Pineville, Louisiana.

Proxies for the election of directors were solicited pursuant to Regulation 14A under the Securities Exchange Act (b) of 1934, as amended. There was no solicitation in opposition to management's nominees, and all nominees listed in the proxy statement were elected.

(c) The following is a tabulation of the votes cast upon each proposal presented at the Annual Meeting of Shareholders of Cleco Corporation on April 27, 2012.

(1) Election of Directors to serve until the 2015 Annual Meeting of Shareholders:

CLASS I DIRECTORS	FOR	WITHHELD	ABSTAIN	BROKER NON-VOTE
J. Patrick Garrett	48,570,412	2,100,125	0	5,919,199
Elton R. King	48,580,315	2,090,222	0	5,919,199
Shelley Stewart, Jr.	48,791,535	1,879,002	0	5,919,199

The term of office as a director of each of Messrs. Logan W. Kruger, William L. Marks, Robert T. Ratcliff, Sr., Peter M. Scott III, William H. Walker, Jr., and Bruce A. Williamson continued after the meeting.

(2) Ratification of the Audit Committee's appointment of PricewaterhouseCoopers LLP as Cleco's independent registered public accounting firm for the fiscal year ending December 31, 2012:

Edgar Filing: CLECO POWER LLC - Form 10-Q

FOR	AGAINST	ABSTAIN	BROKER NON-VOTE
56,001,409	456,306	144,772	0

Consideration of a non-binding advisory vote to approve the compensation of Cleco's named executive officers as (3) described in the "Compensation Discussion and Analysis" and "Executive Officers Compensation" sections of the proxy statement:

FOR	AGAINST	ABSTAIN	BROKER NON-VOTE
48,041,563	2,209,409	432,316	5,919,199

Consideration of a shareholder proposal to require Cleco to issue a sustainability report that includes a (4) comprehensive discussion of its sustainability risks and opportunities, including an analysis of material water-related risks:

FOR	AGAINST	ABSTAIN	BROKER NON-VOTE
14,645,360	28,428,470	7,609,458	5,919,199
