

YORK WATER CO
Form 10-K
March 11, 2008

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-K

ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the fiscal year ended December 31, 2007 Commission file number 0-690

THE YORK WATER COMPANY

(Exact name of registrant as specified in its charter)

PENNSYLVANIA

23-1242500

(State or other jurisdiction of incorporation or
organization)

(I.R.S. Employer Identification No.)

130 EAST MARKET STREET, YORK,
PENNSYLVANIA

17405

(Address of principal executive offices)

(Zip Code)

Registrant's telephone number, including area code

(717) 845-3601

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class

Name of Each Exchange on Which
Registered

None

Securities registered pursuant to Section 12(g) of the Act:

COMMON STOCK, NO PAR VALUE

(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

YES

NO

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.

YES

NO

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

YES

NO

Edgar Filing: YORK WATER CO - Form 10-K

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act (check one):

Large accelerated filer Accelerated filer
Non-accelerated filer Small Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
YES NO

The aggregate market value of the Common Stock, no par value, held by nonaffiliates of the registrant on June 30, 2007 was \$199,380,417.

As of March 10, 2008 there were 11,264,923 shares of Common Stock, no par value, outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the 2007 Annual Report to Shareholders are incorporated by reference into Parts I, II and III.

Portions of the Proxy Statement for the Company's 2008 Annual Meeting of Shareholders are incorporated by reference into Parts II and III.

THE YORK WATER COMPANY

PART I

Item 1. Business.

The Company is a corporation duly organized under the laws of the Commonwealth of Pennsylvania in 1816.

The business of the Company is to impound, purify and distribute water. The Company operates within its franchised territory, which covers 39 municipalities within York County, Pennsylvania and seven municipalities within Adams County, Pennsylvania. The Company is regulated by the Pennsylvania Public Utility Commission, or PPUC, in the areas of billing, payment procedures, dispute processing, terminations, service territory and rate setting. The Company must obtain PPUC approval before changing any of the aforementioned procedures. Water service is supplied through the Company's own distribution system. The Company obtains its water supply from the south branch and east branch of the Codorus Creek, which drains an area of approximately 117 square miles. The Company has two reservoirs, Lake Williams and Lake Redman, which together hold up to approximately 2.2 billion gallons of water. The Company has a 15-mile pipeline from the Susquehanna River to Lake Redman which provides access to an additional supply of 12.0 million gallons of water per day. As of December 31, 2007, the Company's present average daily availability was 35.0 million gallons, and daily consumption was approximately 19.1 million gallons. As of December 31, 2007, the Company's service territory had an estimated population of 171,000. Industry within the Company's service territory is diversified, manufacturing such items as fixtures and furniture, electrical machinery, food products, paper, ordnance units, textile products, air conditioning systems, barbells and motorcycles.

The Company's business is somewhat dependent on weather conditions, particularly the amount of rainfall; however, minimum customer charges are in place, and the Company expects to cover its fixed costs of operations under all likely weather conditions. The Company's business does not require large amounts of working capital and is not dependent on any single customer or a very few customers.

During the five year period ended December 31, 2007, the Company maintained an increasing growth in number of customers and distribution facilities. The Company presently has 109 full time employees.

The following table sets forth certain of our summary statistical information.

(In thousands of dollars)	For the Years Ended December 31,				
	2007	2006	2005	2004	2003
Revenues					
Residential	\$ 19,722	\$ 17,972	\$ 16,737	\$ 13,789	\$ 12,574
Commercial and industrial	9,290	8,497	8,009	6,893	6,598
Other	2,421	2,189	2,059	1,822	1,717
Total	\$ 31,433	\$ 28,658	\$ 26,805	\$ 22,504	\$ 20,889
Average daily consumption (gallons per day)	19,058,000	18,769,000	18,657,000	18,116,000	17,498,000
Miles of mains at year-end	845	817	786	752	730
Additional distribution mains installed/acquired (ft.)	147,803	159,330	212,702	114,658	44,958

Edgar Filing: YORK WATER CO - Form 10-K

Number of customers at year-end	58,890	57,578	55,731	53,134	51,916
Population served at year-end	171,000	166,000	161,000	158,000	156,000

Please refer to the “Highlights of Our 192nd Year” section of our 2007 Annual Report to Shareholders filed herewith as Exhibit 13 for summary financial information for the last five years.

Page 2

For further information, please see the Shareholder Information page of our 2007 Annual Report to Shareholders filed herewith as Exhibit 13.

Item 1A. Risk Factors.

The rates we charge our customers are subject to regulation. If we are unable to obtain government approval of our requests for rate increases, or if approved rate increases are untimely or inadequate to cover our investments in utility plant and equipment and projected expenses, our results of operations may be adversely affected.

Our ability to maintain and meet our financial objectives is dependent upon the rates we charge our customers, which are subject to approval by the PPUC. We file rate increase requests with the PPUC, from time to time, to recover our investments in utility plant and equipment and projected expenses. Any rate increase or adjustment must first be justified through documented evidence and testimony. The PPUC determines whether the investments and expenses are recoverable, the length in time over which such costs are recoverable, or, because of changes in circumstances, whether a remaining balance of deferred investments and expenses is no longer recoverable in rates charged to customers. Once a rate increase application is filed with the PPUC, the ensuing administrative and hearing process may be lengthy and costly. The timing of our rate increase requests are therefore dependent upon the estimated cost of the administrative process in relation to the investments and expenses that we hope to recover through the rate increase.

We can provide no assurances that future requests will be approved by the PPUC; and, if approved, we cannot guarantee that these rate increases will be granted in a timely or sufficient manner to cover the investments and expenses for which we sought the rate increase. If we are unable to obtain PPUC approval of our requests for rate increases, or if approved rate increases are untimely or inadequate to cover our investments in utility plant and equipment and projected expenses, our results of operations may be adversely affected.

We are subject to federal, state and local regulation that may impose costly limitations and restrictions on the way we do business.

Various federal, state and local authorities regulate many aspects of our business. Among the most important of these regulations are those relating to the quality of water we supply our customers and water allocation rights. Government authorities continually review these regulations, particularly the drinking water quality regulations, and may propose new or more restrictive requirements in the future. We are required to perform water quality tests that are monitored by the PPUC, the U.S. Environmental Protection Agency, or EPA, and the Pennsylvania Department of Environmental Protection, or DEP, for the detection of certain chemicals and compounds in our water. If new or more restrictive limitations on permissible levels of substances and contaminants in our water are imposed, we may not be able to adequately predict the costs necessary to meet regulatory standards. If we are unable to recover the cost of implementing new water treatment procedures in response to more restrictive water quality regulations through our rates that we charge our customers, or if we fail to comply with such regulations, it could have a material adverse effect on our financial condition and results of operations.

We are also subject to water allocation regulations that control the amount of water that we can draw from water sources. The Susquehanna River Basin Commission, or SRBC, and DEP regulate the amount of water withdrawn from streams in the watershed for water supply purposes to assure that sufficient quantities are available to meet our needs and the needs of other regulated users. In addition, government drought restrictions could cause the SRBC or DEP to temporarily reduce the amount of our allocations. If new or more restrictive water allocation regulations are implemented or our allocations are reduced due to weather conditions, it may have an adverse effect on our ability to supply the demands of our customers, and in turn, on our revenues and results of operations.

Our business is subject to seasonal fluctuations, which could affect demand for our water service and our revenues.

Demand for our water during the warmer months is generally greater than during cooler months due primarily to additional requirements for water in connection with cooling systems, swimming pools, irrigation systems and other outside water use. Throughout the year, and particularly during typically warmer months, demand will vary with temperature and rainfall levels. If temperatures during the typically warmer months are cooler than expected, or there is more rainfall than expected, the demand for our water may decrease and adversely affect our revenues.

Page 3

Weather conditions and overuse may interfere with our sources of water, demand for water services, and our ability to supply water to our customers.

We depend on an adequate water supply to meet the present and future demands of our customers and to continue our expansion efforts. Unexpected conditions may interfere with our water supply sources. Drought and overuse may limit the availability of surface water. These factors might adversely affect our ability to supply water in sufficient quantities to our customers and our revenues and earnings may be adversely affected. Additionally, cool and wet weather, as well as drought restrictions and our customers' conservation efforts, may reduce consumption demands, also adversely affecting our revenue and earnings. Furthermore, freezing weather may also contribute to water transmission interruptions caused by pipe and main breakage. If we experience an interruption in our water supply, it could have a material adverse effect on our financial condition and results of operations.

The current concentration of our business in central and southern Pennsylvania makes us susceptible to adverse developments in local economic and demographic conditions.

Our service territory presently includes 39 municipalities within York County, Pennsylvania and seven municipalities within Adams County, Pennsylvania. Our revenues and operating results are therefore subject to local economic and demographic conditions in the area. A change in any of these conditions could make it more costly or difficult for us to conduct our business. In addition, any such change would have a disproportionate effect on us, compared to water utility companies that do not have such a geographic concentration.

Contamination of our water supply may cause disruption in our services and adversely affect our revenues.

Our water supply is subject to contamination from the migration of naturally-occurring substances in groundwater and surface systems and pollution resulting from man-made sources. In the event that our water supply is contaminated, we may have to interrupt the use of that water supply until we are able to substitute the flow of water from an uncontaminated water source through our interconnected transmission and distribution facilities. In addition, we may incur significant costs in order to treat the contaminated source through expansion of our current treatment facilities or development of new treatment methods. Our inability to substitute water supply from an uncontaminated water source, or to adequately treat the contaminated water source in a cost-effective manner, may have an adverse effect on our revenues.

The necessity for increased security has and may continue to result in increased operating costs.

In the wake of the September 11, 2001 terrorist attacks and the ensuing threats to the nation's health and security, we have taken steps to increase security measures at our facilities and heighten employee awareness of threats to our water supply. We have also tightened our security measures regarding the delivery and handling of certain chemicals used in our business. We have and will continue to bear increased costs for security precautions to protect our facilities, operations and supplies. We are not aware of any specific threats to our facilities, operations or supplies. However, it is possible that we would not be in a position to control the outcome of such events should they occur.

We depend on the availability of capital for expansion, construction and maintenance.

Our ability to continue our expansion efforts and fund our construction and maintenance program depends on the availability of adequate capital. There is no guarantee that we will be able to obtain sufficient capital in the future or that the cost of capital will not be too high for future expansion and construction. In addition, approval from the PPUC must be obtained prior to our sale and issuance of securities. If we are unable to obtain approval from the PPUC on these matters, or to obtain approval in a timely manner, it may affect our ability to effect transactions that are beneficial to us or our shareholders. A single transaction may itself not be profitable but might still be necessary to continue providing service or to grow the business.

We may face competition from other water suppliers that may hinder our growth and reduce our profitability.

We face competition from other water suppliers for acquisitions, which may limit our growth opportunities. Furthermore, even after we have been the successful bidder in an acquisition, competing water suppliers may challenge our application for extending our franchise territory to cover the target company's market. Finally, third parties either supplying water on a contract basis to municipalities or entering into agreements to operate municipal water systems might adversely affect our business by winning contracts that may be beneficial to us. If we are unable to compete successfully with other water suppliers for these acquisitions, franchise territories and contracts, it may impede our expansion goals and adversely affect our profitability.

Page 4

An important element of our growth strategy is the acquisition of water systems. Any pending or future acquisitions we decide to undertake will involve risks.

The acquisition and integration of water systems is an important element in our growth strategy. This strategy depends on identifying suitable acquisition opportunities and reaching mutually agreeable terms with acquisition candidates. The negotiation of potential acquisitions as well as the integration of acquired businesses could require us to incur significant costs. Further, acquisitions may result in dilution for the owners of our common stock, our incurrence of debt and contingent liabilities and fluctuations in quarterly results. In addition, the businesses and other assets we acquire may not achieve the financial results that we expect, which could adversely affect our profitability.

We have restrictions on our dividends. There can also be no assurance that we will continue to pay dividends in the future or, if dividends are paid, that they will be in amounts similar to past dividends.

The terms of our debt instruments impose conditions on our ability to pay dividends. We have paid dividends on our common stock each year since our inception in 1816 and have increased the amount of dividends paid each year since 1997. Our earnings, financial condition, capital requirements, applicable regulations and other factors, including the timeliness and adequacy of rate increases, will determine both our ability to pay dividends on our common stock and the amount of those dividends. There can be no assurance that we will continue to pay dividends in the future or, if dividends are paid, that they will be in amounts similar to past dividends.

If we are unable to pay the principal and interest on our indebtedness as it comes due or we default under certain other provisions of our loan documents, our indebtedness could be accelerated and our results of operations and financial condition could be adversely affected.

Our ability to pay the principal and interest on our indebtedness as it comes due will depend upon our current and future performance. Our performance is affected by many factors, some of which are beyond our control. We believe that our cash generated from operations, and, if necessary, borrowings under our existing credit facilities will be sufficient to enable us to make our debt payments as they become due. If, however, we do not generate sufficient cash, we may be required to refinance our obligations or sell additional equity, which may be on terms that are not as favorable to us. No assurance can be given that any refinancing or sale of equity will be possible when needed or that we will be able to negotiate acceptable terms. In addition, our failure to comply with certain provisions contained in our trust indentures and loan agreements relating to our outstanding indebtedness could lead to a default under these documents, which could result in an acceleration of our indebtedness.

We depend significantly on the services of the members of our senior management team, and the departure of any of those persons could cause our operating results to suffer.

Our success depends significantly on the continued individual and collective contributions of our senior management team. If we lose the services of any member of our senior management or are unable to hire and retain experienced management personnel, our operating results could suffer.

There is a limited trading market for our common stock; you may not be able to resell your shares at or above the price you pay for them.

Although our common stock is listed for trading on the NASDAQ Global Select Market, the trading in our common stock has substantially less liquidity than many other companies quoted on the NASDAQ Global Select Market. A public trading market having the desired characteristics of depth, liquidity and orderliness depends on the presence in the market of willing buyers and sellers of our common stock at any given time. This presence depends on the individual decisions of investors and general economic and market conditions over which we have no control. Because of the limited volume of trading in our common stock, a sale of a significant number of shares of our common stock in the open market could cause our stock price to decline.

The credit rating of the insurer of our \$12 million variable rate PEDFA Series B Bonds was recently downgraded and, as a result, all of the bonds were tendered. If our remarketing agent is not successful in remarketing the bonds, our Standby Bond Purchase Agreement with PNC Bank may be terminated, and the Company may be required to refund and refinance all of the bonds.

The holders of our \$12,000 variable rate PEDFA Series B Bonds may tender their bonds at any time. When the bonds are tendered, they are subject to an annual remarketing agreement, pursuant to which a remarketing agent attempts to remarket the tendered bonds pursuant to the terms of the Indenture. We also have a Standby Bond Purchase Agreement (also known as a liquidity facility) whereby bonds which cannot be remarketed are purchased by a financial institution (PNC Bank). If PNC Bank is unable to remarket or sell the bonds within 6 months, we must begin to buy back the bonds in monthly installments over a five-year period.

In January 2008, the credit rating of the insurer of the bonds was downgraded, and as a result, all of the bonds were tendered. The remarketing agent is currently attempting to remarket the bonds, but these efforts may not be successful. Also, the terms of the standby agreement permit PNC Bank to terminate the agreement after an insurer credit downgrade has occurred. If the remarketing agent is unable to remarket the bonds, it is likely that PNC Bank will terminate the standby agreement and we will be required to refund and refinance all of the bonds. We are currently investigating both fixed and variable financing options that will best satisfy both short-term and long-term objectives. We also have sufficient line of credit capacity to be able to buy the bonds back temporarily until a more permanent refinancing can be achieved. There can be no assurances that we will receive terms as favorable as those of the bonds in any such refinancing, which could adversely affect our results of operations.

Item 1B. Unresolved Staff Comments.

The Company has no unresolved staff comments.

Item 2. Properties.

Source of Supply

The Company has two impounding dams located in York and Springfield Townships adjoining the Borough of Jacobus to the south. The lower dam, the Lake Williams Impounding Dam, is constructed of compacted earth with a concrete core wall and is 700 feet long and 58 feet high and creates a reservoir covering approximately 165 acres containing about 870 million gallons of water. About 800 acres surrounding the reservoir are planted with more than 1.2 million evergreen trees, which the Company believes will protect the area both from pollution and also from soil erosion, which might otherwise fill the reservoir with silt. The upper dam, the Lake Redman Impounding Dam, is constructed of compacted earth and is 1,000 feet long and 52 feet high and creates a reservoir covering approximately 290 acres containing about 1.3 billion gallons of water. About 600 acres surrounding the reservoir are planted with grass, which the Company believes will protect the area both from pollution and also from soil erosion, which might otherwise fill the reservoir with silt.

In addition to the two impounding dams, the Company owns a 15-mile pipeline from the Susquehanna River to Lake Redman that provides access to a supply of an additional 12.0 million gallons of water per day. As of December 31, 2007, the Company's present average daily availability was 35.0 million gallons, and daily consumption was approximately 19.1 million gallons.

Pumping Stations

The Company's main pumping station is located in Spring Garden Township on the south branch of the Codorus Creek about 1,500 feet upstream from its confluence with the west branch of the Codorus Creek and about four miles

downstream from the Company's lower impounding dam. The pumping station presently houses pumping equipment consisting of three electrically driven centrifugal pumps and two diesel-engine driven centrifugal pumps with a combined pumping capacity of 68.0 million gallons per day. The pumping capacity is more than double peak requirements and is designed to provide an ample safety margin in the event of pump or power failure. In 2007, a large diesel backup generator was added to provide power to our pumps in the event of an emergency. The raw water is pumped approximately two miles to the filtration plant through pipes owned by the Company.

The Susquehanna River Pumping Station is located on the western shore of the Susquehanna River several miles south of Wrightsville, PA. The pumping station is equipped with (3) Floway Vertical Turbine pumps rated at 6 million gallons per day each. The pumps are driven by (3) Caterpillar 3512 Diesel Engines rated at 1175 H.P. each. The pumping station pumps water from the Susquehanna River approximately 15 miles through a combination of 30" and 36" ductile iron main to the Company's upper impounding dam, Lake Redman.

Page 6

Water Treatment

The Company's filtration plant is located in Spring Garden Township about one-half mile south of the City of York. Water at this plant is filtered through twelve dual media filters having a stated capacity of 31.0 million gallons per day with a maximum supply of 42.0 million gallons per day for short periods if necessary. Based on an average daily consumption in 2007 of approximately 19.1 million gallons, the Company believes the pumping and filtering facilities are adequate to meet present and anticipated demands. In 2005, the Company performed a capacity study of the filtration plant and in 2007, began upgrading the facility to increase capacity for future growth. The project is expected to continue over the next several years.

Transmission and Distribution

The distribution system of the Company has approximately 845 miles of main water lines which range in diameter from 2 inches to 36 inches. The distribution system includes 24 booster stations and 27 standpipes and reservoirs capable of storing approximately 56.0 million gallons of potable water. All booster stations are equipped with at least two pumps for protection in case of mechanical failure. In 2008, the Company plans to construct new booster stations in the northwest area of York, New Oxford and West Manheim Township. An additional standpipe is planned for West Manheim Township.

Other Properties

The Company's distribution center and material and supplies warehouse are located at 1801 Mt. Rose Avenue, Springettsbury Township and are composed of three one-story concrete block buildings aggregating 30,680 square feet.

The accounting and executive offices of the Company are located in one three-story and one two-story brick and masonry buildings, containing a total of approximately 21,861 square feet, at 124 and 130 East Market Street, York, Pennsylvania.

All of the Company's properties described above are held in fee by the Company. There are no material encumbrances on such properties.

In 1976, the Company entered into a Joint Use and Park Management Agreement with York County under which the Company licensed use of certain of its lands and waters for public park purposes for a period of 50 years. This property includes two lakes and is located on approximately 1,700 acres in Springfield and York townships. Of the Park's acreage, approximately 500 acres are subject to an automatically renewable one-year license. Under the Joint Use Agreement, York County has agreed not to erect a dam upstream on the East Branch of the Codorus Creek or otherwise obstruct the flow of the creek. The Joint Use Agreement subordinates the County's use of the lands and waters for recreational purposes to our prior and overriding use of the lands and waters for utility purposes.

Item 3. Legal Proceedings.

There are no material legal proceedings involving the Company.

Item 4. Submission of Matters to a Vote of Security Holders.

No matter was submitted to a vote of the security holders during the fourth quarter of the fiscal year covered by this report.

PART II

Item 5. Market for the Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

The information set forth under the caption "Market for Common Stock and Dividends" and "Dividend Policy" of the 2007 Annual Report to Shareholders is incorporated herein by reference.

Page 7

The Company has no securities authorized for issuance under equity compensation plans with the exception of an employee stock purchase plan. The employee stock purchase plan allows employees to purchase stock at a 5% discount up to a maximum of 10% of their gross compensation. Under this plan, approximately 59,000 authorized shares remain unissued as of December 31, 2007.

The information set forth under the caption "Company Performance" of the Proxy Statement for the Company's 2008 Annual Meeting of Shareholders is incorporated herein by reference.

The Company did not repurchase any of its securities during the fourth quarter of 2007.

Item 6. Selected Financial Data.

The information set forth under the caption "Highlights of Our 192nd Year" of the 2007 Annual Report to Shareholders is incorporated herein by reference.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations.

The information set forth under the caption "Management's Discussion and Analysis of Financial Condition and Results of Operations" of the 2007 Annual Report to Shareholders is incorporated herein by reference.

This annual report on Form 10-K contains certain matters which are not historical facts, but which are forward-looking statements. Words such as "may," "should," "believe," "anticipate," "estimate," "expect," "intend," "plan" and similar expressions are intended to identify forward-looking statements. The Company intends these forward-looking statements to qualify for safe harbor from liability established by the Private Securities Litigation Reform Act of 1995. These forward-looking statements include certain information relating to the Company's business strategy; statements including, but not limited to:

- expected profitability and results of operations;
- goals, priorities and plans for, and cost of, growth and expansion;
 - strategic initiatives;
 - availability of water supply;
 - water usage by customers; and
- ability to pay dividends on common stock and the rate of those dividends.

The forward-looking statements in this Annual Report reflect what the Company currently anticipates will happen. What actually happens could differ materially from what it currently anticipates will happen. The Company does not intend to make any public announcement when forward-looking statements in this Annual Report are no longer accurate, whether as a result of new information, what actually happens in the future or for any other reason. Important matters that may affect what will actually happen include, but are not limited to:

- changes in weather, including drought conditions;
 - levels of rate relief granted;
- the level of commercial and industrial business activity within the Company's service territory;
- construction of new housing within the Company's service territory and increases in population;
 - changes in government policies or regulations;
 - the ability to obtain permits for expansion projects;
- material changes in demand from customers, including the impact of conservation efforts which may impact the demand of customers for water;
- changes in economic and business conditions, including interest rates, which are less favorable than expected; and
 - other matters set forth in Item 1A, "Risk Factors".

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

All dollar amounts are stated in thousands of dollars.

The Company does not use off-balance sheet transactions, arrangements or obligations that may have a material current or future effect on financial condition, results of operations, liquidity, capital expenditures, capital resources or significant components of revenues or expenses. The Company does not use securitization of receivables or unconsolidated entities. The Company does not engage in trading or risk management activities, with the exception of the interest rate swap agreement discussed in Note 4 to the financial statements, does not use derivative financial instruments for trading purposes, has no lease obligations, and does not have material transactions involving related parties.

The Company's operations are exposed to market risks primarily as a result of changes in interest rates. This exposure to these market risks relates to the Company's debt obligations under its lines of credit. As of February, 2008 the Company has lines of credit with maximum availability of \$28,000 with two banks, under which there were borrowings outstanding of \$11,210 as of December 31, 2007. Loans granted under these lines bear interest based upon LIBOR plus 0.70 to 0.75 percent. Both lines of credit are unsecured. One line, amounting to \$11,000 is payable upon demand, whereas the other is a committed line with a revolving 2-year maturity. Other than lines of credit, the Company has long-term fixed rate debt obligations as discussed in Note 4 to the Financial Statements included in the 2007 Annual Report to Shareholders included as Exhibit 13 to this Form 10-K and the variable rate PEDFA loan agreement described below.

In December 2004, the Pennsylvania Economic Development Financing Authority, or the PEDFA, issued \$12,000 aggregate principal amount of PEDFA Exempt Facilities Revenue Bonds, Series B. The PEDFA then loaned the proceeds to the Company pursuant to a variable interest rate loan agreement with a maturity date of October 1, 2029. In connection with the loan agreement, the Company entered into an interest rate swap transaction whereby the Company exchanged its floating rate obligation for a fixed rate obligation. The purpose of the interest rate swap is to manage the Company's exposure to fluctuations in the interest rate. See Note 4 to the financial statements of our 2007 Annual Report to Shareholders included as Exhibit 13 to this Form 10-K.

The table below provides information about the Company's derivative financial instrument and other financial instruments that are sensitive to changes in interest rates, including interest rate swaps and debt obligations. For debt obligations, the table presents principal cash flows and related weighted average interest rates by expected maturity dates. For interest rate swaps, the table presents notional amounts and weighted average interest rates by expected maturity dates. Notional amounts are used to calculate the contractual payments to be exchanged under the contract. Weighted average variable rates are based on implied forward rates in the yield curve at the reporting date.

(In thousands of dollars) Liabilities	Expected Maturity Date						Total	Fair Value
	2008	2009	2010	2011	2012	Thereafter

Average pay rate	3.15%	3.16%	3.16%	3.16%	3.19%	3.16%	3.16%		
Average receive rate	2.52%	1.94%	2.33%	2.58%	2.75%	3.12%	2.96%		

The liabilities portion of the table includes the \$12,000 variable rate loan, as the underlying bonds were tendered in January 2008. Interest on the \$12,000 variable rate loan is included at an assumed interest rate of 3.71% which represents the average rate paid to bondholders in 2007. Since the bonds were tendered in January and may not be able to be remarketed, the Company may be required to refund the bonds and refinance them. If the variable rate debt were refinanced, the interest rate could be in the 4.00% - 7.00% range, which is a substantial increase. The Company would ask the Pennsylvania Public Utility Commission for the additional interest to be included in rates charged to customers.

The liabilities table also includes \$8,210 in 2009 of outstanding borrowings under the Company's committed line of credit. The interest rate is variable but is included in the table at its most current rate of 4.0 percent.

The interest rate derivative portion of the table assumes the interest rate swap agreement continues. If the Company refunds and refinances the variable rate debt, the swap may continue or it may be terminated. In the event the interest rate swap terminates, either we or PNC Bank, the swap counterparty, may be required to make a termination payment to the other based on market conditions at such time. If the Company had terminated the rate swap as of February 27, 2008, the Company's termination payment would have amounted to \$405.

Item 8. Financial Statements and Supplementary Data.

The following financial statements set forth in the 2007 Annual Report to Shareholders are incorporated herein by reference:

Management's Report on Internal Controls Over Financial Reporting	Page 11
Report of Independent Registered Public Accounting Firm on Internal Control Over Financial Reporting	Page 12
Report of Independent Registered Public Accounting Firm	Page 13
Balance Sheets as of December 31, 2007 and 2006	Page 14
Statements of Income for Years Ended December 31, 2007, 2006 and 2005	Page 16
Statements of Common Stockholders' Equity and Comprehensive Income for Years Ended December 31, 2007, 2006 and 2005	Page 17
Statements of Cash Flows for Years Ended December 31, 2007, 2006 and 2005	Page 18
Notes to Financial Statements	Page 19

Except for the above financial data and the information specified under Items 1, 5, 6, 7, and 7A of this report, the 2007 Annual Report to Shareholders is not deemed to be filed as part of this report.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None.

Page 10

Item 9A. Controls and Procedures.

(a) Evaluation of Disclosure Controls and Procedures

The Company's management, with the participation of the Company's President and Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon this evaluation, the Company's President and Chief Executive Officer along with the Chief Financial Officer concluded that the Company's disclosure controls and procedures as of the end of the period covered by this report are functioning effectively to provide reasonable assurance that the information required to be disclosed by the Company in reports filed under the Securities Exchange Act of 1934 is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms and (ii) accumulated and communicated to the Company's management, including the President and Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding disclosure. A controls system cannot provide absolute assurance, however, that the objectives of the controls system are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

The Company's management's report on internal control over financial reporting is set forth in Item 8 of this annual report on Form 10-K and is incorporated by reference herein.

(b) Attestation Report of the Registered Public Accounting Firm

The Company's internal controls over financial reporting as of December 31, 2007 have been audited by Beard Miller Company LLP, the independent registered public accounting firm who also audited the Company's financial statements. Beard Miller's attestation report on the Company's internal control over financial reporting is set forth in Item 8 of this annual report on Form 10-K and is incorporated by reference herein.

(c) Change in Internal Control over Financial Reporting

No change in the Company's internal control over financial reporting occurred during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

Item 9B. Other Information.

None.

PART III

Item 10. Directors, Executive Officers and Corporate Governance.

Directors and Executive Officers

The information set forth under the caption "Voting Securities and Principal Holders Thereof" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Other Directorships

The information set forth under the caption “General Information about Other Boards of Directors” of the Proxy Statement issued pursuant to Regulation 14A for the Company’s 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Section 16(a) Beneficial Ownership Reporting Compliance

The information set forth under the caption "Section 16(a) Beneficial Ownership Reporting Compliance" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Page 11

Code of Ethics

The Company's Board of Directors has adopted a Code of Conduct applicable to all Directors, officers and employees. There were no waivers of the code made for any Director, officer or employee during 2007. A copy of the Code of Conduct was filed with the Securities and Exchange Commission as Exhibit 14 to the Company's Annual Report on Form 10-K for the year ended December 31, 2002. The Code of Conduct is also available, free of charge, on the Company's website at www.yorkwater.com. The Company intends to disclose amendments to, or Director, officer and employee waivers from, the Code of Conduct, if any, on its website, or by Form 8-K to the extent required.

Audit Committee

The information set forth under the caption "Committees and Functions" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

The Board of Directors has determined that John L. Finlayson, Chairman of the Audit Committee, is an Audit Committee financial expert within the meaning of the applicable SEC rules. Mr. Finlayson is a Certified Public Accountant, and has an understanding of generally accepted accounting principles and financial statements, as well as the ability to assess the general application of such principles in connection with the accounting for estimates, accruals and reserves. Mr. Finlayson is experienced in the preparation and auditing of financial statements of public companies, and has an understanding of accounting estimates, internal control over financial reporting and audit committee functions. He is independent of management.

Item 11. Executive Compensation.

The information set forth under the caption "Compensation of Directors and Executive Officers" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Compensation Committee Interlocks and Insider Participation

The information set forth under the caption "Committees and Functions" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Compensation Committee Report

The information set forth under the caption "Compensation Committee Report" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters.

The Company has no securities authorized for issuance under equity compensation plans with the exception of an employee stock purchase plan. The employee stock purchase plan allows employees to purchase stock at a 5% discount up to a maximum of 10% of their gross compensation. Under this plan, approximately 59,000 authorized shares remain unissued as of December 31, 2007.

The information set forth under the caption "Voting Securities and Principal Holders Thereof" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is

incorporated herein by reference.

Item 13. Certain Relationships and Related Transactions, and Director Independence.

Michael W. Gang, an independent director of the Company, is a partner in the law firm of Post & Schell PC. The Company retained this firm for various matters during 2007 and expects to do so again during 2008. The Company paid approximately \$76,000 to this law firm in 2007. The Company plans to consult with Jeffrey S. Osman, Retired President and Chief Executive Officer and Director, regarding regulatory matters in 2008. The value of these services is expected to be less than \$50,000.

The information set forth under the captions "Election of Directors" and "Disclosure of Related Party Transactions" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

Page 12

Item 14. Principal Accountant Fees and Services.

The information set forth under the caption, "Shareholder Approval of Appointment of Independent Public Accountants" of the Proxy Statement issued pursuant to Regulation 14A for the Company's 2008 Annual Meeting of Shareholders to be held May 5, 2008 is incorporated herein by reference.

PART IV

Item 15. Exhibits and Financial Statement Schedules.

(a)(1) Certain documents filed as a part of the Form 10-K.

The financial statements set forth under Item 8 of this Form 10-K.

(a)(2) Financial Statement schedules.

Schedule Number	Schedule Description	Page Number
II	<u>Valuation and Qualifying Accounts</u> for the years ended December 31, 2007, 2006, and 2005	15

The report of the Company's independent registered public accounting firm with respect to the financial statement schedule appears on page 14.

All other financial statements and schedules not listed have been omitted since the required information is included in the financial statements or the notes thereto, or is not applicable or required.

(a)(3) Exhibits required by Item 601 of Regulation S-K.

The exhibits are set forth in the Index to Exhibits shown on pages 17 through 20.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Stockholders

The York Water Company

The audits referred to in our report dated March 10, 2008 relating to the financial statements of The York Water Company as of December 31, 2007 and 2006, and for each of the years in the three-year period ended December 31, 2007 incorporated in Item 8 of this Form 10-K by reference to the annual report to stockholders for the year ended December 31, 2007 included the audit of the financial statement schedule listed in Item 15(a)(2). This financial statement schedule is the responsibility of the Company's management. Our responsibility is to express an opinion on this financial statement schedule based upon our audits.

In our opinion, the financial statement schedule presents fairly, in all material respects, the information set forth therein.
