Committee of the Sterling Savings Bank

Employee Savings and Investment Plan and Trust

We have audited the accompanying statements of net assets available for benefits of the Sterling Savings Bank Employee Savings and Investment Plan and Trust (the Plan) as of December 31, 2002 and 2001, and the related statement of changes in net assets available for benefits for the year ended December 31, 2002. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2002 and 2001, and the changes in net assets available for benefits for the year ended December 31, 2002, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedules of assets held for investment purposes at end of year and reportable transactions for the year ended December 31, 2002, are presented for the purpose of additional analysis and are not a required part of the basic financial statements, but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. These supplemental schedules are the responsibility of the Plan's management. The supplemental schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

**Sterling Savings Bank
Employee Savings and Investment Plan and Trust
Summary of Accounting Policies**

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Investments

The Plan's investments are stated at fair value. Mutual funds are valued at quoted market prices which represent the value of shares held by the Plan at year-end. The estimated value of the collective trust funds is determined based on the trustee's calculation of the aggregate quoted market price of the underlying investments adjusted for certain expenses. Sterling Financial Corporation common stock is valued at its quoted market price.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation or depreciation in the fair value of its investments which consists of the realized gains or losses and the net unrealized appreciation or depreciation on those investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Benefit Payments

Benefits are recorded when paid.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in combinations of stocks, bonds, fixed income securities, mutual funds and other investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net

assets available for benefits and the statement of changes in net assets available for benefits.

Notes to Financial Statements**

1. Description of Plan

The following description of the Sterling Savings Bank (Sterling or the Employer) Employee Savings and Investment Plan and Trust (the Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan s provisions.

General

The Plan is a defined contribution plan, which became effective on July 1, 1985. Employees who have attained the age of 18 may enroll on the first day of the month following one calendar month of employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Participants may contribute from 1% to 20% of their compensation up to the statutory maximum through payroll deductions to the Plan.

Participants contributing to the Plan are entitled to an Employer matching contribution should Sterling elect to make one. Sterling s matching contribution for the year ended December 31, 2002 was 35% of the employee s contribution up to 10% of the participant s compensation. Additional amounts may be contributed at the option of Sterling as a profit sharing contribution. All Employer contributions are initially invested in the common stock of Sterling Financial Corporation. Participants who have been employed with Sterling for five years or more have the option of reallocating employer contributions into any of the Plan s other investment funds. Amounts contributed by both Sterling and the participant shall not exceed 25% of compensation paid to the participants during the fiscal year or the maximum amount allowable as a tax deduction by Sterling.

Investment Options

Participant contributions are invested in separate investment types as designated by the individual participants. Participants may elect to reallocate the amounts invested in each investment on any business day.

Participant Accounts

Separate accounts are maintained for each participant. Each participant s account is credited with the participant s contribution and an allocation of Sterling s contribution and Plan earnings. Allocations of Sterling s contribution and Plan earnings are based on participant account balances, as defined in the Plan document. The participant s benefit is limited to the benefit that has accumulated in the participant s account.

Vesting

A participant is 100% vested in their voluntary contributions plus actual earnings thereon. Company contributions and earnings thereon are subject to a vesting schedule of 50% after two years and 100% after three years of service.

Forfeitures

Forfeited invested accounts totaled \$20,109 and \$3,042 at December 31, 2002 and 2001, respectively. Forfeitures of Company contributions will reduce future matching contributions. Forfeitures in the amount of \$3,042 were used to offset employer's contributions for the year ended December 31, 2002.

F-5

Payment of Benefits

Distributions are made upon termination, death, disability or retirement. Participants or their beneficiaries will receive payment of benefits as follows: (a) balances of \$5,000 or less will be distributed in a lump sum, or (b) balances greater than \$5,000 will be distributed in various optional forms of distribution.

Participant Loans

Commencing March 2002 participants may borrow from their fund accounts up to a maximum of 50% of their vested account balance. However, participant loans can be no more than \$50,000 minus the participant's highest outstanding loan amount during the prior twelve months. The loans are secured by the vested balance in the participant's account and bear interest at the Federal Reserve prime rate plus 1%, calculated at the end of each month and applied to all loans funded during the next month. Principal and interest are paid ratably through regular payroll deductions over a period not to exceed five years.

Administrative Expenses

Expenses for administration of the Plan are paid by the Plan.

2. Investments

The following table presents the fair value of investments, including those that represent 5% or more of the Plan's net assets at December 31, 2002 and 2001.
