II. Business Development

During the first six months of 2003, faced with intensifying market competition and the challenges posed by the SARS outbreak, the Company continued to achieve satisfactory development in its businesses, through the establishment of a high quality networks, and the strengthening of sales and marketing and customer service in accordance with the Company's development strategies.

1. Continuation of the coordinated development of the GSM and CDMA businesses, preliminary success with the transformation of the sales model for the CDMA business and the accelerated introduction of new businesses helped maintain the rapid development of the cellular business.

During the first six months of 2003, subscriber growth for both networks remained steady. The Group recorded a net addition of 9.931 million GSM and CDMA cellular subscribers. As of June 30, 2003, the Group had a total of 69.641 million GSM and CDMA cellular subscribers. The Group's market share in its service areas increased from 33.1% at the end of 2002 to 34.2% and its share of the new subscriber additions market was 41.5%.

As of June 30, 2003, on a pro forma combined basis, the total number of GSM cellular subscribers was 59.663 million, representing an increase of 6.198 million from 53.465 million at the end of 2002, of which post-paid subscribers accounted for 31.654 million; pre-paid subscribers accounted for 28.009 million and the proportion of pre-paid subscribers to the total number of subscribers rose from 44.4% at the end of 2002 to 46.9%. Following the increase in the number of subscribers, total usage volume for GSM cellular subscribers reached 57.45 billion minutes, representing a 40.1% increase from the same period last year. For the first six months of 2003, the average minutes of usage per user per month (MOU) for GSM services was 168.7 minutes, up 3.2 minutes from 165.5 minutes in 2002, of which, the MOU for post-paid subscribers was 221.6 minutes, whilst the MOU for pre-paid subscribers was 106.1 minutes. Average revenue per user per month (ARPU) was RMB 58.9, representing a decline of RMB 8.4 from RMB 67.3 in 2002. ARPU for post-paid subscribers was RMB 68.4, whilst ARPU for pre-paid subscribers was RMB 47.6.

As of June 30, 2003, on a pro forma combined basis, the number of CDMA cellular subscribers was 9.978 million, representing an increase of 3.733 million subscribers from 6.245 million subscribers at the end of 2002. Total usage volume for CDMA subscribers reached 16.94 billion minutes, representing an increase of 17 times over the same period last year. For the first six months of 2003, the MOU for CDMA services was 349.5 minutes, up 21.4 minutes from 328.1 minutes in 2002. ARPU was RMB 148.7, representing a decline of RMB 23.5 from RMB 172.2 in 2002.

Uniformly branded as U-Max, the Company introduced various wireless data services on its CDMA 1X technology, namely U-Info, U-Mail, U-Net, U-Magic and U-Map. The Company also offered SMS service for subscribers under the brand name UNI-INFO. Short voice message service was also launched. For the first six months of 2003, the usage volume of SMS from GSM and CDMA cellular subscribers reached 11.70 billion messages. Incoming SMS received by GSM and CDMA subscribers from other operators reached 2.68 billion messages. As of June 30, 2003, over 600,000 subscribers were using CDMA 1X data services.

2. *International and domestic long distance, data and Internet businesses developed rapidly*

In the first six months of 2003, total minutes of outgoing international and domestic long distance calls reached 8.68 billion minutes, up 52.0% from the same period last year. Market share increased from 11.6% at the end of 2002 to 13.2%. The total minutes of PSTN outgoing long distance calls accounted for 3.39 billion minutes, representing an increase of 16.5% from the same period of last year. Market share increased from 11.5% to 12.3%. The total minutes of IP outgoing long distance calls reached 5.28 billion minutes, representing an increase of 88.6% from the same period last year. Market share increased from 11.7% to 13.9%. The total minutes of incoming calls from international destinations, together with Hong Kong, Macau and Taiwan was 860 million minutes, representing an increase of 36.5% from the same period last year.

As of June 30, 2003, the total bandwidth leased for our leased line business was 15,602 x 2Mbps. The total bandwidth leased for asynchronous transfer mode (ATM) and frame relay (FR) data carrier operations amounted to 4,797 x 2Mbps. The Company was the first in the PRC to provide UNI-VIDEO video conference service, as well as video phone service by applying IP technology and the subscriber number for these services was 2,227. As of June 30, 2003, Internet subscribers increased from 7.292 million in 2002 to 9.754 million, representing an increase of 33.8%. Of this total, the number of dedicated line subscribers amounted to 37,000, whilst the number of dial-up subscribers was 9.717 million. In addition, Internet data center (IDC), virtual private network (VPN), virtual private dial-up network (VPDN), Ruyi mailbox and other e-commerce businesses also developed rapidly.

3. *Actively pursued the transformation of the paging business*

On the basis of its traditional wireless paging business, the Company introduced the Unicom Paging Information Service to offer a variety of information services to its subscribers. With the launch of services such as Cellular-paging Bundled Service and Unicom Assistant, the Company integrated its wireless paging information and mobile SMS businesses. Apart from voice services, the Company fully utilized its paging resources, and provided value-added services such as Operator-assisted SMS and Secretarial Service through Operator to our existing cellular subscribers to provide differentiated services. As of June 30, 2003, the number of wireless paging subscribers was 13.025 million, representing a decrease of 4.657 million subscribers or 26.3% from 17.682 million subscribers at the end of 2002. However, the subscribers for Unicom Assistant increased significantly to 15.18 million. ARPU for wireless paging subscribers was RMB 7.9.

4. *Further strengthened network construction and steadily increasing the quality of communications*

The nationwide optical fiber transmission network provided a guarantee in terms of network resources for the rapid development of the Company's businesses. The Company has placed emphasis on the expansion of its integrated business, and has established a unified network platform for its voice, data, Internet and video broadcasting businesses in the PRC. As of June 30, 2003, the optical fiber transmission network has expanded to 522,000 km in length, of which the total length of the nationwide optical fiber backbone transmission network reached 113,000 km. Following completion of the Phase Two Construction Project for the CDMA business, the network has been upgraded to CDMA 1X, further enhancing communication quality. The Company has devoted significant effort to building a high-quality cellular network and establishing scientific network quality maintenance standards in order to improve the operation and maintenance technologies and quality of its cellular networks.

5. *Enhanced sales and marketing activities to facilitate the rapid growth of various businesses*

The Company also placed emphasis on the research of customers' needs. Through the creation of renowned brands, such as Unicom New Horizon, U-Max, Ruyi Tong, Ruyi 133, UNI-INFO and UNI-VIDEO, the Company fully capitalized on the advantages of being an integrated telecommunication services operator. By applying the differentiated advantages on its businesses, technologies and services, we offer bundled services of GSM and CDMA cellular service, international and domestic long distance service, data, Internet and paging services, bundled services of basic and value-added services, as well as bundled services of voice and data services, and offer flexible packages to win customers. The industry value chain, comprising handset manufacturers, distributors and content providers, will be further strengthened. The model for the CDMA business was transformed from handset subsidies to acquisition of handsets at the cost of the subscriber. Sales channels were switched from the proprietary ones to those formed by external parties. A nationwide sales network was established and constituted by the established sales offices of the Company, cooperative joint ventures, and licensed retail outlets. There are now 57,302 sales outlets throughout our network. The Company has further strengthened the establishment of the UNI-CRM customer relationship management system, and improved the service standards of the nationally centralized 1001 customer service hotline. Through the establishment of the Unicom Subscriber Club, customer satisfaction levels have also been raised.

III. Business Outlook

We believe that the demand in the telecommunications market will remain strong through the second half of the year. This in turn will introduce more opportunities for the continuous growth of the Group's businesses. By leveraging on the Group's high quality cellular network and service standards, we expect the Group's market share in terms of revenue from the PRC telecommunication market to further increase. We will continue to implement business development strategies and objectives of the Company, to further increase the economic efficiency of the Company.

With respect to cellular services, the Group will continue to sustain the coordinated development of both the GSM network and CDMA network. The network resources available for the GSM business will be fully capitalized. Steady growth of the business will be sustained by retaining existing subscribers and acquiring new subscribers through the strengthening of SMS services, development of new initiatives on GSM services and customer care activities. Our parent company is now implementing the phase three construction project for the CDMA network, which aims at expanding the CDMA network coverage as well as indoor coverage, increasing wireless data capacity and optimizing network quality. These measures are expected to significantly enhance the quality of the CDMA network. The Company will capitalize on the advantages of U-Max, to accelerate the development of mid to high-end customers, and will also actively promote its branding activities and the launch of Ruyi 133 pre-paid services to expand the market share of CDMA New Horizon.

With respect to long distance, data and Internet businesses, the Group will continue to capitalize on the technological advantages of its unified network platform and introduce new business initiatives to increase business revenue and market share. The data business will be adopted as part of our integrated businesses and marketing and promotion efforts will be devoted to broadband video conference and video phone services. Parallel with the rapid growth of Internet business, emphasis will be placed on the promotion of feature services, such as Ruyi mailbox, to actively promote e-commerce applications and develop the Unicom Internet Plaza broadband Internet model with other third parties.

With respect to our wireless paging business, the Group will continue to reduce the operating cost through the bundling of wireless paging businesses with other business of the Group, and will seek to transform the wireless paging business to call center business by offering value-added services such as Unicom Assistant , Unicom Paging Information Services , and telemarketing.

The Company plans to acquire the GSM cellular assets and cellular businesses of the ten unlisted provincial branches from the parent company at the appropriate time, in order to become a national cellular service operator. The Company also plans to sell the wireless paging business to the parent company at the appropriate time, in order to optimize the Company's assets portfolio. When the opportunity arises, the Company intends to utilize lower cost of funding in the international capital market, to minimize finance costs of the Company.

I am confident that through the concerted endeavors of the management and all staff, we will achieve even better results.

The Board of Directors resolved that no interim dividend be declared for 2003, and has the intention to pay annual dividend for the year when 2003 annual results are announced.

Finally, on behalf of the Board of Directors, I would like to express my sincere gratitude for the care and support from shareholders and the public at large, in particular, Mr. Yang Xian Zu, for his outstanding contribution to the Company during his tenure as the Chairman and Chief Executive Officer of the Company. I would also like to extend my gratitude to both the management team and all the staff of the Company for their hard work and diligence.

Wang Jianzhou
Chairman and Chief Executive Officer

Notes to the Unaudited Condensed
Consolidated Interim Accounts
(Amounts expressed in RMB unless otherwise stated)

1. PRINCIPAL ACTIVITIES

The Company was incorporated in the Hong Kong Special Administrative Region (Hong Kong), the People's Republic of China (the PRC) on 8 February 2000. The principal activities of the Company are investment holding and the Company's subsidiaries are engaged in the provision of GSM and CDMA cellular, data, Internet, long distance and paging services in the PRC. The Company and its subsidiaries are hereinafter referred to as the Group .

2. BASIS OF PREPARATION AND ACCOUNTING POLICIES

These unaudited condensed consolidated interim accounts are prepared in accordance with Hong Kong Statement of Standard Accounting Practice (SSAP) 25, Interim Financial Reporting issued by the Hong Kong Society of Accountants (HKSA). The condensed consolidated interim accounts are unaudited but have been reviewed by the Audit Committee of the Company.

The unaudited condensed consolidated interim accounts include the financial information of the Company and its subsidiaries. These condensed consolidated interim accounts should be read in conjunction with the 2002 annual report. The details of the Company's subsidiaries are set out in Note 23 to the audited financial statements included in its 2002 annual report.

In 2002, the Company acquired the entire interests of Unicom New Century Telecommunications Corporation Limited (a limited liability company established in the PRC, hereinafter referred to as Unicom New Century), from its ultimate parent company, China United Telecommunications Corporation (a state-owned enterprise established in the PRC, hereinafter referred to as Unicom Group). For details of this acquisition, see Note 31 to this interim accounts. The Company has adopted the purchase method of accounting for this acquisition, and the identifiable assets and liabilities acquired were recorded based on their respective fair values as of 31 December 2002. The excess of the purchase consideration over the fair value of the net assets acquired has been recorded as goodwill, which is amortised using the straight-line method over a period of 20 years. The effective date of this acquisition was 31 December 2002, accordingly, the operating results of Unicom New Century have been included in the condensed consolidated income statement of the Group for the six months ended 30 June 2003. Details of the acquisition have already been set forth in the shareholder's circular Connected Transactions and Renewal of Waiver for Existing Connected Transactions of the Company issued on 29 November 2002 and the Company's 2002 annual report.

The accounting policies adopted in the preparation of these condensed consolidated interim accounts are consistent with those used in the annual report for the year ended 31 December 2002 except the Group has changed its accounting policies following the adoption of SSAP 35

Government Grants and Disclosure of Government Assistance and SSAP 12 Income Taxes issued by the HKSA, which are effective for accounting periods commencing on or after 1 July 2002 and 1 January 2003, respectively.

Upon the adoption of SSAP 12 *Income Taxes* in 2003, deferred taxation is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the accounts. Taxation rates enacted or substantively enacted at the balance sheet date are used to determine deferred taxation. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Prior to 2003, deferred taxation was accounted for at the current taxation rate in respect of timing differences between profit as computed for taxation purpose and profit as stated in the income statement. A deferred tax asset was not recognised unless the related benefits are expected to crystallise in the foreseeable future. The adoption of the new SSAP 12 in 2003 represents a change in accounting policy which has been applied retrospectively so that the comparatives presented have been restated to conform to the changed policy.

As detailed in the unaudited condensed consolidated statement of changes in equity, the change in the accounting policy has resulted in an increase of opening retained profits as of 1 January 2003 and 2002 by approximately RMB405,300,000 and RMB373,159,000, respectively, which represented the deferred tax assets relating to the provision for doubtful debts previously not recognised. This change has resulted in an increase in deferred tax assets at 1 January 2003 by approximately RMB405,300,000. The profit for the six months ended 30 June 2002 has also been reduced by approximately RMB114,775,000.

In addition, the adoption of SSAP 12 also resulted in an increase of the deferred tax assets of Unicom New Century as of 31 December 2002 by approximately RMB80,448,000, which had reduced the goodwill recorded by the Group arising from the acquisition of Unicom New Century on 31 December 2002 accordingly.

Since the impact of the adoption of the SSAP 35 *Government Grants and Disclosure of Government Assistance* on the Group's financial statements is not significant, no prior period adjustment has been required.

3. OPERATING REVENUE

Operating revenue primarily comprises usage fees, monthly fees, interconnection revenue, leased line rental income and sales of telecommunication products earned by the Group from GSM, CDMA, data, Internet, long distance and paging services. Tariffs for these services are subject to regulations by various government authorities, including the State Development and Reform Commission, the Ministry of Information Industry (MII) and the provincial regulatory authorities.

Operating revenue is net of business tax and government surcharges.

		966,170	843,434

There is no Hong Kong profits tax liability as the Group did not have any assessable income sourced from Hong Kong for the six months ended 30 June 2003 and 2002.

The income tax liabilities of the Group were assessed as follows:

- (a) The tax liabilities of China Unicom Corporation Limited (the Company's principal subsidiary in the PRC, hereinafter referred to as CUCL) and its wholly-owned subsidiaries for the six months ended 30 June 2003 and 2002 were assessed in accordance with FIE (Foreign Investment Enterprises) taxation requirements and on a consolidated basis as a single entity and settled income tax liabilities centrally in Beijing as approved by the tax authority;
- (b) The tax liabilities of Unicom New Century for the six months ended 30 June 2003 was assessed in accordance with FIE taxation requirements on a consolidated basis as a single entity; and
- (c) Various provincial branches/municipal cities of CUCL and Unicom New Century were granted a preferential treatment by tax authorities to assess their enterprise income tax at a rate of 15%. The remaining provincial branches were assessed at a tax rate of 33%.

The reconciliation of PRC enterprise income tax between the statutory tax rate of 33% applied to profit before taxation and the effective tax rate actually recorded in the income statement is as follows:

	Unaudited	
	Six months ended 30 June	
	2003	2002

	2003	2002
Aggregate amount (RMB in millions)	157.9	129.6
Per share effect (RMB)	0.013	0.010

Notes:

(a) For the six months ended 30 June 2002, investment tax credits represented the tax credits relating to the additions of certain domestic equipment that were deductible against current income tax having obtained the tax approvals.

The movement of the deferred tax assets is as follows:

	Note	Unaudited Six months ended 30 June 2003 RMB 000	Audited As restated Year 2002 RMB 000 (Note 2)

9. RETIREMENT BENEFITS

All the full time employees of the Group are covered by a state-sponsored pension scheme under which the employees are entitled to an annual pension equal to their basic salaries at their retirement dates. The PRC government is responsible for the pension liability to these retired employees. The Group was required to make defined contributions to the pension scheme at the rate of 19% for the six months ended 30 June 2003 (2002: 19%) of the employees' basic salaries. Under this scheme, the Group has no obligation for post-retirement benefits beyond the annual contributions. For the six months ended 30 June 2003, accrued retirement benefit contributions amounted to approximately RMB151,245,000 (2002: RMB88,733,000).

10. HOUSING BENEFITS

In 2001, the Group finalised its monetary housing benefit scheme as a special employee incentive scheme for all qualified employees.

For the six months ended 30 June 2003 and 2002, certain provinces were expected to achieve the annual performance budget and thus were approved by management to distribute and pay out such monetary housing benefits. The provision for special monetary housing benefits for qualified employees of these provinces for the six months ended 30 June 2003 and 2002 amounted to approximately RMB90,724,000 and RMB170,570,000 respectively. The remaining provinces have not accrued for these special monetary housing benefits since they are not expected to achieve their annual performance budget in 2003 and accordingly no provision for such benefits was made.

11. DISTRIBUTION OF PROFITS ATTRIBUTABLE TO SHAREHOLDERS

(a) At the annual general meeting held on 12 May 2003, the shareholders of the Company approved the payment of final dividend of RMB0.10 per ordinary share for the year ended 31 December 2002 totalling RMB1,255,299,607 (2002: Nil) which has been reflected as an appropriation of retained profits for the six months ended 30 June 2003. As of 30 June 2003, such dividends have been fully paid by the Company.

(b) As stated in Note 2, the change in accounting policy on income taxes has resulted in an increase of distributable reserves to shareholders of CUCL for the year ended 31 December 2002 and 2001 respectively. As result, CUCL appropriated additional statutory reserves amounting to approximately RMB40,530,000 in 2003 (2002: RMB37,316,000).

(c) During the six months ended 30 June 2003, the Group has not made any appropriation to reserves or declared any dividends to the shareholders (2002: Nil).

12. EARNINGS PER SHARE

Basic earnings per share for the six months ended 30 June 2003 and 2002 were computed by dividing the profit attributable to shareholders of approximately RMB2,385,273,000 and RMB2,136,755,000 (restated) respectively, by the weighted average number of 12,552,996,070 ordinary shares in issue during the periods.

Diluted earnings per share for the six months ended 30 June 2003 and 2002 were computed by dividing the profit attributable to shareholders by the weighted average number of ordinary shares in issue during the periods, after adjusting for the effects of the potential dilutive ordinary shares. All potential dilutive shares arose from share options granted under (i) the amended Pre-Global Offering Share Option Scheme; and (ii) the amended Share Option Scheme (see Note 27).

There was no dilution of earnings per share for both periods after taking into account the dilutive effect of the share options. For the six months ended 30 June 2003, anti-dilutive shares arising from the share options of approximately 60,735,000 shares (2002: 33,841,000 shares) were not included in the calculation of diluted earnings per share.

13. TRADING SECURITIES

Trading securities represented listed equity securities in the PRC, which are carried at fair value. The realised gains on trading securities for the six months ended 30 June 2003 amounted to approximately RMB7,902,000 (2002: RMB1,569,000) and the unrealised gains amounted to RMB14,489,000 (2002: RMB15,117,000). There have been no significant changes in the fair values of the listed securities after the balance sheet date.

Notes:

(a) As part of the arrangement with certain CDMA contractual subscribers under special promotion packages, CDMA mobile phone handsets were provided to certain subscribers for their use at no additional cost during specified contract periods ranging from 6 months to 2 years.

Under the terms of these contracts, subscribers are required to spend a minimum amount of service fees during the contract period. In addition, to secure future performance, these subscribers are also required to (i) prepay service fees or deposits, (ii) maintain a restricted bank deposits in a designated commercial banks to secure the minimum contract amount, or (iii) provide the Group with a guarantor who will compensate the Group for any loss upon their non-performance. The costs of CDMA handsets under the above contractual arrangements are treated as deferred customer acquisition costs, to the extent recoverable based on management periodic assessment, and are amortised over the contractual period (not exceeding 2 years) to match with the Group's minimum contract revenue.

For the six months ended 30 June 2003, amortisation of these deferred customer acquisition costs amounted to approximately RMB3,104 million (2002: RMB66 million), which was recorded in selling and marketing expenses. As of 30 June 2003, the carrying amount of unamortised deferred customer acquisition costs totaled approximately RMB5,733 million, with approximately RMB492 million (2002: RMB509 million) recorded in prepayment and other current assets (for contract period within 1 year) and with approximately RMB5,241 million (2002: RMB5,474 million) recorded in other assets (for contract period over 1 year) (See Note 19).

As of 30 June 2003, the carrying amount of prepaid service fees and deposits obtained by the Group under the above contracts amounted to RMB2,190 million (2002: RMB2,775 million).

There was no property, plant and equipment pledged to banks as loan security as of 30 June 2003 (2002: Nil).

Edgar Filing: CHINA UNICOM LTD - Form 6-K

As of 30 June 2003, prepayments for property, plant and equipment to be used in construction amounting to approximately RMB2,491 million (2002: RMB4,164 million) have been included in construction-in-progress.

For the six months ended 30 June 2003, interest of approximately RMB291 million (2002: RMB237 million) was capitalised to construction-in-progress.

As of 30 June 2003, the cost or valuation of land use rights (located in the PRC) and the accumulated depreciation amounted to approximately RMB473 million and RMB84 million respectively (2002: RMB348 million and RMB77 million).

Land use rights and buildings of the Group as of 31 March 2000 were valued by Sallmanns (Far East) Ltd., registered property valuers in Hong Kong, using the replacement cost or open market value approach, as appropriate. The resulting revaluation surplus and deficit amounted to RMB177 million and RMB28 million, respectively. The additional depreciation attributable to the revaluation surplus amounted to approximately RMB4.4 million for the six months ended 30 June 2003 (2002: RMB4.4 million). The revaluation deficit was charged to the income statement during the year ended 31 December 2000. As of 30 June 2003, for these land use right and buildings stated at revalued amounts, their carrying amount would have been approximately RMB1,979 million (2002: RMB2,032 million) had they been carried at cost less accumulated depreciation.

As of 30 June 2003, net book value of telecommunications equipment held under finance leases amounted to approximately RMB153 million (2002: RMB159 million).

Impairment of assets for the Paging Business:

Management conducts an impairment assessment at each balance sheet date to identify whether the carrying values of the property, plant and equipment may be impaired. In 2003, the Group conducted such re-assessment of the recoverable amount of the paging assets based on the best estimates of the discounted net future cash flows expected to be generated from the Paging Business in the future years. Management has made key assumptions and estimations on the appropriate discount rate adopted (8% per annum), the period covered by the cash flow forecast, the impact of the continuous decline of traditional paging business, the future loss of subscribers, the expected trend in average revenue per subscriber, as well as incremental cash flows arising from new paging businesses and the effects of the adoption of cost reduction plans. All these assumptions and estimations are made based on historical trends adjusted for the current market situation (including physical conditions of these assets) and the forecast of the future development of new value-added paging businesses.

Based on the updated analysis and the worsening trend of the decline of the traditional paging business in the first half of 2003, despite the continuous growth of new value-added paging businesses, the Group expected that the related incremental future cash inflows to be generated from these new paging services could unlikely offset the effects of the rapid decline of the traditional paging business in future. Consequently, based on the latest estimate of the discounted future net cash flows expected to arise from the continuing operations of the Paging Business, after considering the unexpected rapid decline of the traditional paging business in the first half of 2003, the Group concluded that the carrying amount of paging assets as of 30 June 2003 had exceeded their expected recoverable amounts. Accordingly, the Group has recorded an additional impairment loss for property, plant and equipment of the Paging Business amounting to approximately RMB528 million for the six months ended 30 June 2003 (2002: Nil). As of 30 June 2003, the balance of provision for impairment loss for the property, plant and equipment of Paging Business amounted to RMB1,001 million (2002: RMB473 million).

In addition, the Group has also recognised losses on disposal of property, plant and equipment of approximately RMB46 million for the six months ended 30 June 2003 (2002: RMB70 million).

18. GOODWILL

Impairment losses	(202,697)	(202,697)
	2,227,631	2,285,771

In 2002, goodwill arising from the acquisition represented the excess of costs of investment in Unicom New Century of RMB4,909 million over the fair value of the net assets acquired amounting to RMB2,624 million as of 31 December 2002. Such goodwill is amortised over 20 years on a straight-line method based on the estimated economic beneficial period.

Prior to 2002, goodwill represented the excess of purchase consideration over the fair values of the separately identifiable assets acquired by Guoxin Paging Corporation Ltd. (a subsidiary of the CUCL, Guoxin) for (i) certain local Paging Businesses during its restructuring in 1998 and (ii) minority interests in the provincial subsidiaries of Guoxin.

The amortisation charge of goodwill for the six months ended 30 June 2003 amounted to approximately RMB58,140,000 (2002: RMB22,409,000).

Information presented above for the six months ended 30 June 2003 also comprised new related party transactions between Unicom New Century and Unicom Group and its subsidiaries after the acquisition of Unicom New Century by the Company on 31 December 2002. The nature, terms and conditions of these new related party transactions of Unicom New Century are substantially the same as the Group's, which have been set forth in the shareholders' circular "Connected Transactions and Renewal of Waiver for Existing Connected Transactions" of the Company issued on 29 November 2002 and the Company's 2002 annual report.

Prior to 31 December 2002, the Group's transactions with Unicom New Century (previously a subsidiary of Unicom Group) were treated as related party transactions, and had been included in the related party transactions described above for the six months ended 30 June 2002. Such transactions mainly included (i) interconnection and roaming revenues, (ii) interconnection and roaming charges, (iii) revenue for leasing of transmission line capacity and (iv) sales of CDMA mobile handsets. Upon the acquisition of Unicom New Century, these transactions become inter-group transactions and have been eliminated in the Group's consolidated financial statements starting from 1 January 2003.

(b) Amounts due from and to related parties/Unicom Group

Amounts due from and to related parties or Unicom Group are unsecured, non-interest bearing, repayable on demand and arise in the ordinary course of business in respect of transactions with Unicom Group or the subsidiaries of Unicom Group as described in (a) above.

(c) Short-term loans from Unicom Group

As of 31 December, 2002, short-term loans from Unicom Group represented loans provided by Unicom Group to relevant branches of Unicom New Century to finance the operations of the Cellular Business. These loans were borrowed by Unicom Group from banks at the interest rate of 4.54%. These bank loans were identified as attributable to the relevant branches of Unicom New Century based on the amount of funds actually utilised by the relevant branches of Unicom New Century. The corresponding interest expenses were also charged to these relevant branches based on funds actually utilised. All these loans were guaranteed by Unicom Group. As of 30 June 2003, such loans have already been fully repaid by the Group.

(d) Bank loans guaranteed by Unicom Group

As of 30 June 2003, the Group has approximately RMB10,377 million (2002: RMB12,635 million) of long-term bank loans and RMB90 million (2002: RMB463 million) of short-term bank loans guaranteed by Unicom Group.

29. TRANSACTIONS WITH DOMESTIC CARRIERS

The Group's telecommunications networks depend, in large part, on interconnection with domestic carriers' public switched telephone network and on transmission lines leased from major domestic carriers. Major domestic carriers include China Telecommunications Corporation and its subsidiaries (China Telecom), China Mobile Communications Corporation and its subsidiaries (China Mobile) and China Netcom Corporation and its subsidiaries (China Netcom).

(a) Transactions with domestic carriers

The following is a summary of significant transactions with domestic carriers in the ordinary course of business:

	Note	Unaudited	
		Six months ended 30 June	
		2003	2002
		RMB '000	RMB '000
Interconnection revenue	(i)	665,224	260,722
Interconnection charges	(i)	2,313,318	1,068,192
Leased line rental income	(ii)	99,272	
Leased line charges	(ii)	335,955	231,462
Operating lease charges	(iii)	3,106	8,343
Agency fee on collection of revenue	(iv)	1,832	2,160

Note:

(i) The interconnection revenue and charges mainly represent the amounts due from or to domestic carriers for telephone calls made between the Group's networks and the public switched telephone network of domestic carriers. The interconnection settlements are calculated in accordance with interconnection agreements reached between the branches of the Group and domestic carriers on a provincial basis. The terms of these agreements are set in accordance with the standard settlement arrangement stipulated by the MII.

(ii) Leased line charges are paid or payable to domestic carriers by the Group for the provision of leasing transmission line. At the same time, the Group leases transmission line to domestic carriers and leased line rental income represents the amount received or receivable from them. The charges are calculated at a fixed charge per line, depending on the number of lines being used by the Group and domestic carriers.

(iii) Guoxin has signed operating lease agreements with the relevant domestic carriers for the use of certain land and buildings. The rentals are based on the market rates in the locality of the land and building.

(iv) Guoxin has signed agency agreements with the relevant domestic carriers for sales agency services based on standard commission rates, being the prevailing market rates in the locality. Charges for collection services are calculated at a fixed percentage of fees collected from subscribers.

(b) Amounts due from and to domestic carriers

	Unaudited 30 June 2003 RMB 000	Audited 31 December 2002 RMB 000
Amounts due from domestic carriers		
- revenue collected on behalf of Guoxin	313,933	260,578
- less: provision for doubtful debts	(40,373)	(49,116)
	273,560	211,462
Amounts due to domestic carriers		
- payables for interconnection charges, leased lines, operating leases and agency fees, etc.	1,166,698	1,123,580
Long-term payable due to domestic carriers		
- payables for obligations under finance leases:		
- current portion of obligations under finance leases	21,114	16,793
- obligations under finance leases	100,511	101,302
	121,625	118,095

All amounts due from and to domestic carriers were unsecured, non-interest bearing and repayable within one year.

Long-term payable for obligations under finance lease was related to the leasing of certain subsea transmission cables from a domestic carrier for a period of 25 years (see Note 25).

30. SEGMENT INFORMATION

Operating segments represent components of an enterprise regarding which separate financial information is available for regular evaluation by the chief operating decision maker, or decision making group, when considering how to allocate resources and in assessing performance.

The Group organises its business segments based on the various types of telecommunications services provided to customers in the PRC. The major business segments operated by the Group are classified as below:

GSM Business the provision of GSM telephone and related services;

CDMA Business the provision of CDMA telephone and related services, through a leasing arrangement of CDMA network capacities from Unicom New Horizon;

Data and Internet Business the provision of domestic and international data, Internet and other related services;

Long Distance Business the provision of domestic and international long distance and other related services;
and

Paging Business the provision of paging and related services.

The operating segments are managed separately because each operating segment represents a strategic business unit that provides various kinds of telecommunication services. All the operating segments of the Group have been aggregated into the above reportable segments since they are expected to exhibit similar future economic characteristics under central management at separate locations.

The Group's primary measure of segment results is based on segment profit or loss before taxation.

(1) Capital expenditures classified under unallocated amounts represent capital expenditures on common facilities, which benefit all business segments.

(b) *Geographical segments*

The Group's services users are mainly in the PRC. There is no other geographical segment with segment revenue from external customers equal to or greater than 10% of total consolidated revenue from sales to all external customers.

Although the Group has its corporate headquarters in Hong Kong, a substantial portion of the Group's non-current assets (including property, plant and equipment and other assets) are situated in mainland China, as the Group's principal activities are conducted in the PRC. For the six months ended 30 June 2003, substantially all capital expenditures were incurred to acquire assets located in the mainland China. There is no other geographical segment with segment assets equal to or greater than 10% of the total assets of all geographical segments.

31. ACQUISITION

Unicom New Century was a limited liability company established in the PRC on 16 July 2002 to engage in the provision of GSM and CDMA cellular telecommunications services in 8 provinces and 1 municipality in the PRC, namely, Sichuan, Heilongjiang, Jilin, Henan, Jiangxi, Guangxi, Xinjiang, Shaanxi and Chongqing. The GSM Businesses and the relevant net assets were previously owned and operated by various branches of Unicom Group.

Pursuant to the ordinary resolution passed by the Company's Board of Directors on 20 November 2002 and extraordinary general meeting passed by the Company's shareholders on 23 December 2002, the Company acquired the entire equity interests of Unicom New Century (via intermediary holding company, Unicom New Century (BVI) Limited) by a cash consideration of RMB4,909 million (including other direct costs of acquisition of RMB109 million). Thereafter, Unicom New Century has become a wholly-owned subsidiary of the Company.

The aforementioned acquisition of Unicom New Century became effective on 31 December 2002 when all the conditions to the acquisition were satisfied and cash consideration was settled by the Group. The Company has adopted the purchase method of accounting to account for this acquisition. The total fair value of the identifiable assets and liabilities of Unicom New Century as of 31 December 2002 amounted to approximately RMB2,624 million, the excess of purchase consideration over the fair value of identifiable assets and liabilities has been recorded as goodwill amounting to RMB2,285 million, which is amortised using the straight-line method over the beneficial period of 20 years.

The effective date of this acquisition was 31 December 2002, accordingly, the operating results of Unicom New Century have been included in the condensed consolidated income statement of the Group for the six months ended 30 June 2003. Details of the acquisition have already been set forth in shareholders' circular "Connected Transactions and Renewal of Waiver for Existing Connected Transactions" of the Company issued on 29 November 2002 and the Company's 2002 annual report.

32. CONTINGENCIES AND COMMITMENTS

(a) Capital commitments

As of 30 June 2003 and 31 December 2002, the Group had capital commitments, mainly in relation to the construction of telecommunications networks, as follows:
