**INDEPENDENT AUDITORS REPORT**

To the Board of Directors and Shareholders of

LifeLink Corporation

We have audited the accompanying balance sheets of LifeLink Corporation as of December 31, 2003 and 2002, and the related statements of income and retained earnings and cash flows for the years then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of LifeLink Corporation as of December 31, 2003 and 2002, and the results of its operations and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

LIFELINK CORPORATION

NOTES TO FINANCIAL STATEMENTS

December 31, 2003 and 2002

1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**General** LifeLink Corporation (the Company) was incorporated in Utah on July 3, 2001. The Company is engaged in the development and distribution of software and support for the insurance industry throughout the United States.

**Cash and Cash Equivalents** The Company considers all highly liquid investments with maturities of three months or less when purchased to be cash equivalents. The Company maintains its cash and cash equivalents in federally insured banks. The Company's deposits may at times exceed federal insurance limits. The Company believes it is not exposed to any significant credit risk on cash.

**Prepaid Expenses** Prepaid expenses consist primarily of prepaid marketing and trade show expenses, subscriptions and travel expenses.

**Furniture and Equipment** Furniture and equipment are stated at cost, net of accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the related assets.

**Software Development Costs** Costs incurred for software development before technological feasibility is established are expensed as research and development expenses when incurred. After establishment of technological feasibility and before a product is released to customers, software development costs are capitalized. These costs have not been material and have been expensed as incurred.

**Intangible Assets** Intangible assets include software and Internet technology, licenses to insurance databases, and customer lists and relationships, and are valued at the amount allocated in the business combination which occurred in 2001. Intangible assets are being amortized over five years. Amortization expense was \$324,364 for each of the years ended December 31, 2003 and 2002.

**Revenue Recognition** The Company derives its revenues from software licenses fees, subscriptions fees for its products, as well as related services and customer support. The software is primarily used by insurance sales agent and companies to provide comparative data to evaluate various insurance policies. Support includes telephone technical support, bug fixes and rights to unspecified upgrades on a when and if available basis. Revenues are recognized only when evidence of an agreement exists, delivery has occurred, which includes end-users actually using the software, all significant obligations of the Company are satisfied, which includes completion of the set-up services evidenced by use of software by end-users, the fee is fixed and determinable, and collection is probable. License fees and maintenance fees are generally billed monthly and recognized monthly over the life of the contract, typically one-year beginning when the product has been delivered and accepted by the client. Subscription revenue is recognized ratably over the subscription period. Revenue allocated to customer support is recognized on a straight-line basis over the period support is provided. Set-up fees are not sold separately. The Company does not offer discounts. Contract accounting is not used. Customers do not have the right of return. A customer can discontinue using the software, but no refunds are provided.

**Income Taxes** The Company provides for income taxes on the asset and liability method, which requires recognition of deferred tax assets and liabilities based on differences between financial reporting and tax bases of assets and liabilities measured using enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse.

**Use of Estimates** The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

## 2. NOTE RECEIVABLE

In April 2003 the Company made a loan to an employee for \$32,000, with an interest rate of 3%, and principal and accrued interest due in April 2006. The employee is required to pay against the note, one-half of any bonuses received, with the payment being first applied to accrued interest. The employee made a voluntary payment of \$2,900 in November 2003. Because the amount of any bonus to be paid has not yet been determined, the entire balance of the note and accrued interest are shown as long-term on the balance sheet.

## 3. FURNITURE AND EQUIPMENT

Furniture and equipment consists of the following at December 31, 2003 and 2002:

	2003	2003
Computer equipment	\$ 286,093	226,212
Furniture and fixtures	57,511	57,511
Office equipment	40,391	40,391
	383,995	324,114
Accumulated depreciation	(254,850)	(181,928)
	\$ 129,145	142,186

## 4. NOTE PAYABLE

On November 26, 2001 the Company entered into a note payable with Zions First National Bank for \$1,500,000, with a due date of May 15, 2003. The interest rate was prime plus 1% (5.25% at December 31, 2002), payable monthly. The note was collateralized by essentially all assets of the Company. Principal payments were made against the note in 2002 and 2003, reducing it to \$900,000. In June 2003 the note was renewed and extended. The interest rate is prime plus 0.5% (4.5% at December 31, 2003), payable monthly. Three equal payments of \$300,000 are due in June 2004, June 2005 and February 2006. In October 2003 the Company made a principal payment of \$200,000. Although this payment reduces the balance of the note, the terms of the note specify that the regularly scheduled payment in June 2004 must still be made. The note is secured by the personal guarantee and personal assets of the holder of all of the Company's common stock.

5. RELATED PARTY TRANSACTIONS

The Company leases its office facilities from an entity owned by the holder of all of the Company's common stock.

During 2002 the Company received a reimbursement of \$24,000 for expenses incurred before the business combination in 2001. This reimbursement rightfully belongs to the shareholder of the Company and is shown as a payable to shareholder on the balance sheet at December 31, 2002. It was paid during 2003.

The Company has an agreement under which sales commissions of \$10,000 were paid in each of the years ended December 31, 2003 and 2002 to the father of the holder of all of the Company's common stock.

6. LEASE COMMITMENTS

The Company leases its office facilities under an operating lease expiring on December 31, 2006, with a one-year renewal option. Rent is increased 4% each year, beginning in 2003. The lessor waived the 4% rent increase for 2003. The lessor is a limited liability company owned by the holder of all of the Company's outstanding common stock. Future minimum lease payments required under the lease at December 31, 2003 are as follows:

Year Ending		
2004	\$	142,771
2005		148,482
2006		154,421
Total minimum lease payments	\$	445,674

Total rent expense under the lease was \$132,000 for each of the years ended December 31, 2003 and 2002.

7. INCOME TAXES

Deferred income taxes reflect the net effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. The Company's deferred tax asset results primarily from the longer amortization life of intangible assets used for income tax purposes.

Income tax expense for the years ended December 31, 2003 and 2002, consist of the following:

	<b>2003</b>	<b>2002</b>
Current Federal income tax expense	\$ 215,912	239,318
Current state income tax expense	32,325	37,046
Deferred Federal income tax benefit	(65,662)	(81,026)
Deferred state income tax benefit	(8,906)	(11,947)
	<b>\$ 173,669</b>	<b>183,391</b>

8. EMPLOYEE BENEFIT PLAN

The Company has adopted a tax qualified employee savings and retirement plan (401(k) Plan) covering eligible employees. Employees are eligible after one month of service and attainment of age 21. The Plan allows employees to contribute up to 15 percent of their annual compensation, subject to maximum amounts allowable by law. The Plan requires the Company to match 60 percent of the first 5 percent of the employee's contributions. The Company may also make additional discretionary contributions to the Plan. The Company made matching contributions of \$54,395 and \$55,578 during the years ended December 31, 2003 and 2002, respectively. The Company also made discretionary contributions of \$47,830 and \$43,564 during the years ended December 31, 2003 and 2002, respectively.

**Notes to Unaudited Pro Forma Condensed Combining Financial Statements  
(amounts in thousands)**

**1. BASIS OF PRESENTATION**

The unaudited pro forma condensed combining balance sheet as of December 31, 2003 gives effect to the acquisition of LifeLink Corporation ( LifeLink ) a privately-held Utah corporation, as if it occurred on that date. The unaudited pro forma condensed combining statement of operations for the year ended December 31, 2003 gives effect to the acquisition of LifeLink as if it occurred on January 1, 2003.

Under the terms and conditions of the Stock Purchase Agreement, dated February 23, 2004, LifeLink became a wholly-owned subsidiary of Ebix, Inc. ( the Company ). The Company acquired all of the assets of LifeLink for approximately \$10,226. The Company also incurred approximately \$70 of direct expenses related to closing the LifeLink acquisition. The Company funded the acquisition using available cash on hand as well as the issuance of stock and debt.

The assets acquired and liabilities assumed in this acquisition were recorded based on management's best estimates of fair market value with any excess purchase price being allocated to goodwill and other intangible assets. The preliminary purchase price allocation may be subject to further adjustments as the Company finalizes its allocation in accordance with accounting principles generally accepted in the United States of America.

**2. PRO FORMA ADJUSTMENTS TO THE BALANCE SHEET AND STATEMENT OF OPERATIONS**

---

(A) Reflects Ebix, Inc.'s purchase price of approximately \$10,226 in cash, note and stock paid to LifeLink's shareholder.

(B) Reflects the adjustment reclassifying the guarantee of \$2,700 relating to the 200,000 shares of common stock issued to the former owner. The terms of the common stock included a put option that would allow the shareholder to put the shares received from Ebix back to the Company for a cash settlement. The reclass represents the value assigned the put option and the classification of the put option as a liability in accordance with EITF Topic D-98.

(C) Reflects the reduction of the value of the pre-acquisition intangible assets of Lifelink to zero.

(D) Reflects the establishment of goodwill in the amount of \$5,520 and other intangible assets of \$3,851.

(E) Reflects the reclassification of deposits from deferred revenue to deposit liabilities.

(F) Reflects the adjustment to deferred revenue acquired to its estimated fair value. The deferred revenue

recognized represents the direct costs plus a 25% profit margin, which has been deemed a normal profit margin by the Company.

The pro-forma requirements of Article 11 of regulation S-X require that the Company assume the acquisition occurred as of the first date of the period presented. The pro-forma statement of operations is dated as of December 31, 2003, meaning the acquisition of Lifelink was assumed to occur on January 1, 2003. If the acquisition had occurred on that date, the revenue recognized by Lifelink in 2003 would have reduced by any deferred revenue write-down that would have occurred under EITF 00-3 on January 1, 2003. The Company assumed a fair value adjustment to deferred revenue at a rate similar to that experienced for purposes of compiling the December 31, 2003 pro forma balance sheet.

- (G) Reflects the elimination as part of the purchase price as this asset or liability was not assumed as part of the purchase price of the transaction and as such, the fair values of these assets or liabilities were deemed to be zero.
- (H) Reflects the elimination of LifeLink's common stock and accumulated retained earnings.
- (I) Reflects the acquisition costs related to the LifeLink acquisition.
- (J) Reflects the elimination of the 2003 amortization expense related to LifeLink's intangible assets from the 2001 business combination.
- (K) Reflects the assumed amortization of \$661 during 2003 related to the establishment of intangible assets in connection with the acquisition.
- (L) Imputed interest related to note payable to former shareholder.
- (M) Reflects a reduction of revenue related to recording LifeLink's deferred revenue to fair value at January 1, 2003 and subsequent recognition of adjusted deferred revenue. The Company assumed a fair value adjustment to deferred revenue at a rate similar to that experienced for purposes of compiling the December 31, 2003 pro forma balance sheet.
