June 30, 2008

Settlement Date:

We expect to deliver the notes against payment for the notes on or about July 9, 2008, which will be the 6th business day following the date of the pricing of the notes. Since trades in the secondary market generally settle in three business days, purchasers who wish to trade notes on the date of pricing or the next three succeeding business days will be required, by virtue of the fact that the notes initially will settle in T+ 6, to specify alternative settlement arrangements to prevent a failed settlement.

Additional Information

We are subject to governmental regulations, procedures and requirements; our noncompliance or a significant regulatory change could adversely affect our business, the results of our operations or our financial condition.

Edgar Filing: RITE AID CORP - Form FWP

Our business is subject to federal, state and local government laws, regulations and administrative practices. We must comply with numerous provisions regulating health and safety, equal employment opportunity, minimum wage and licensing for the sale of drugs, alcoholic beverages, tobacco and other products. In addition, we must comply with regulations pertaining to product labeling, dating and pricing. We have in the past and are currently the subject of investigations and legal proceedings in various states regarding some of our stores that have been found to sell front end products past their expiration date. Our pharmacy business is also subject to local

Edgar Filing: RITE AID CORP - Form FWP

registrations in the states where our pharmacies are located, applicable Medicare and Medicaid regulations and prohibitions against paid referrals of patients. Failure to properly adhere to these and other applicable regulations could result in the imposition of civil and criminal penalties, including suspension of payments from government programs; injunctions affecting the sales of our products, loss of required government certifications; loss of authorizations to participate in or exclusion from government reimbursement programs, such as the Medicare and Medicaid programs; loss of licenses; and significant fines or monetary penalties for anti-kickback law violations, submission of false claims or other failures to meet reimbursement program requirements. The imposition of any such penalties could adversely affect the continued operation of our business and any public statements surrounding these matters, including those that we have recently experienced, could adversely affect our reputation and brand.

Our pharmacy business is subject to patient privacy and other obligations, including corporate, pharmacy and associate responsibility, imposed by the Health Insurance Portability and Accountability Act. As a covered entity, we are required to implement privacy standards, train our associates on the permitted use and disclosures of protected health information, provide a notice of privacy practice to our pharmacy customers and permit pharmacy health customers to access and amend their records and receive an accounting of disclosures of protected health information. Failure to properly adhere to these requirements could result in the imposition of civil as well as criminal penalties.

Federal and state reform programs, such as healthcare reform and enforcement initiatives of federal and state governments, may also affect our pharmacy business. These initiatives include:

- proposals designed to significantly reduce spending on Medicare, Medicaid and other government programs;
- changes in programs providing for reimbursement for the cost of prescription drugs by third party plans;
- increased scrutiny of, and litigation relating to, prescription drug manufacturers pricing and marketing practices; and
- regulatory changes relating to the approval process for prescription drugs.

These initiatives could lead to the enactment of, or changes to, federal regulations and state regulations that could adversely impact our prescription drug sales and, accordingly, our results of operations, financial condition or cash flows. It is uncertain at this time what additional healthcare reform initiatives, if any, will be implemented, or whether there will be other changes in the administration of governmental healthcare programs or interpretations of governmental policies or other changes affecting the healthcare system. Future healthcare or budget legislation or other changes, including those referenced above, may materially adversely impact our pharmacy sales.

On June 25, 2008, a putative class action lawsuit was filed in the United States District Court for the Eastern District of Pennsylvania against Rite Aid for allegedly selling expired products to consumers. The action seeks class certification, injunctive relief, refunds for expired products purchased and monetary damages. We have not yet been served with this matter and cannot estimate or predict any potential liability to us or other relief that could be granted at this time. Although the class has not been certified and we do not currently believe that this action will have a material adverse effect on our business, financial condition or results of operations, we cannot assure you that a judgment against us pursuant to this or any other similar suits that may be filed would not have a material adverse effect on our business, financial condition or results of

operations.

U.S. Holders are required to pay United States federal income tax on accrual of original issue discount on the notes.

The notes will be treated as being issued with original issue discount for U.S. federal income tax purposes. The amount of the original issue discount is the excess of the principal amount of the notes over their issue price. A U.S. Holder (as defined in Certain Material United States Federal Income Tax Consequences) of a note is required to include such original issue discount in gross income as it accrues, in advance of the receipt of cash attributable to that income and regardless of the U.S. Holders regular method of accounting for United States federal income tax purposes.
