s.y. bancorp, inc. and subsidiary

(1) Summary of Significant Accounting Policies

Edgar Filing: S Y BANCORP INC - Form 10-Q

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with the instructions to Form 10-Q and do not include all information and footnotes required by U.S. generally accepted accounting principles for complete financial statements. The consolidated financial statements of S.Y. Bancorp, Inc. (Bancorp) and its subsidiary reflect all adjustments (consisting only of adjustments of a normal recurring nature) which are, in the opinion of management, necessary for a fair presentation of financial condition and results of operations for the interim periods.

The consolidated financial statements include the accounts of S.Y. Bancorp, Inc. and its wholly-owned subsidiary, Stock Yards Bank & Trust Company (Bank). Significant intercompany transactions and accounts have been eliminated in consolidation.

A description of other significant accounting policies is presented in the notes to the Consolidated Financial Statements for the year ended December 31, 2007 included in S.Y. Bancorp, Inc. 's Annual Report on Form 10-K. Certain reclassifications have been made in the prior year financial statements to conform to current year classifications.

Interim results for the three and six month periods ended June 30, 2008 are not necessarily indicative of the results for the entire year.

(a) Critical Accounting Policies

Edgar Filing: S Y BANCORP INC - Form 10-Q

Management has identified the accounting policy related to the allowance for loan losses as critical to the understanding of Bancorp's results of operations and discussed this conclusion with the Audit Committee of the Board of Directors. Since the application of this policy requires significant management assumptions and estimates, it could result in materially different amounts to be reported if conditions or underlying circumstances were to change. Assumptions include many factors such as changes in borrowers' financial condition which can change quickly or historical loss ratios related to certain loan portfolios which may or may not be indicative of future losses. To the extent that management's assumptions prove incorrect, the results from operations could be materially affected by a higher or lower provision for loan losses. The accounting policy related to the allowance for loan losses is applicable to the commercial banking segment of Bancorp.

Additionally, management has identified the accounting policy related to accounting for income taxes as critical to the understanding of Bancorp's results of operations and discussed this conclusion with the Audit Committee of the Board of Directors. The objectives of accounting for income taxes are to recognize the amount of taxes payable or refundable for the current year and deferred tax liabilities and assets for the future tax consequences of events that have been recognized in an entity's financial statements or tax returns. Judgment is required in assessing the future tax consequences of events that have been recognized in Bancorp's financial statements or tax returns. Fluctuations in the actual outcome of these future tax consequences, including the effects of periodic IRS and state agency examinations, could materially impact Bancorp's financial position and its results from operations.

(b) Securities

Edgar Filing: S Y BANCORP INC - Form 10-Q

Unrealized losses on Bancorp's bond portfolio have not been recognized in income because the securities are of high credit quality, management has the intent and the ability to hold for the foreseeable future, and the decline in fair values is largely due to changes in the prevailing interest rate and credit environment since the purchase date. The fair value is expected to recover as the bonds reach their

Table of Contents

maturity date and/or the interest rate and credit environment returns to conditions similar to when the bonds were purchased.

Securities with gross unrealized losses consist of 16 and 42 separate investment positions as of June 30, 2008 and December 31, 2007, respectively that are not considered other-than-temporarily impaired.

Management evaluates the impairment of the investment portfolio on a quarterly basis, considering various factors including issuer financial condition, agency rating, payment prospects, impairment duration and general industry condition. As of June 30, 2008, Bancorp has 7 securities which were temporarily impaired for 12 months or longer, all of which are debt securities. These securities, which have a total fair value of \$7,583,000, have an unrealized loss limited to \$95,000.

(c) Stock-Based Compensation

On January 1, 2006, Bancorp adopted the modified version of prospective application of Statement of Financial Standard No. 123 (R) Share-based Payment , (SFAS No. 123R). Under this method, the fair value of all new and modified awards granted subsequent to the date of adoption will be recognized as compensation expense, net of estimated forfeitures. Further, the fair value of any unvested awards at the date of adoption was recognized as compensation expense, net of estimated forfeitures.

Bancorp currently has one stock-based compensation plan. The 2005 Stock Incentive Plan reserved 735,000 shares of common stock for issuance of stock based awards. As of June 30, 2008, there were 264,062 shares available for future awards. Bancorp s 1995 Stock Incentive Plan expired in 2005; however, options granted under this plan expire as late as 2015. Options and stock appreciation rights (SARs) granted have been subject to a vesting schedule of 20% per year except for those granted to certain executive officers which vest six months after grant date. Restricted shares vest over two to five years. All awards under both plans were granted at an exercise price equal to the market value of common stock at the time of grant and expire ten years after the grant date.

As a result of applying the provisions of SFAS No. 123R, Bancorp recognized, within salaries and employee benefits in the consolidated statements of income, stock-based compensation expense of \$363,000 and \$242,000 before income taxes and a deferred tax benefit of \$127,000 and \$85,000 resulting in a reduction of net income of \$236,000 and \$157,000 for the six months ended June 30, 2008 and 2007, respectively. For the second quarter of 2008 and 2007, Bancorp recognized \$218,000 and \$189,000 of compensation expense before taxes, a deferred tax benefit of \$76,000 and \$66,000, and a reduction of net income of \$142,000 and \$123,000, respectively. Bancorp expects to record an additional \$308,000 of compensation expense in 2008. As of June 30, 2008 Bancorp has \$1,774,000 of unrecognized stock-based compensation expense that will be recorded as compensation expense over the next 5 years as awards vest. Bancorp received cash of \$422,000 and \$813,000 from the exercise of options during the first six months of 2008 and 2007, respectively.

In accordance with the Financial Accounting Standards Board Staff Position SFAS No. 123R 3, Transition Election to Accounting for the Tax Effects of Share-Based Payment Awards , Bancorp has elected the alternative transition method to calculate the beginning balance of the pool of excess tax benefits. The beginning balance of excess tax benefits was calculated as the sum of all net increases in additional paid-in-capital related to tax benefits from stock-based employee compensation, less the incremental stock-based after-tax compensation costs that would have been recognized if the fair value recognition provisions of SFAS No. 123 had been used to account for stock-based compensation costs.

Table of Contents

Under SFAS No. 123R, Bancorp is required to reduce future stock-based compensation expense by estimated forfeitures at the grant date. These forfeiture estimates are based on historical experience.

The fair value of Bancorp's stock options and SARs is estimated at the date of grant using the Black-Scholes option pricing model, a leading formula for calculating the value of stock options. This model requires the input of subjective assumptions, changes to which can materially affect the fair value estimate. The fair value of restricted shares is determined by Bancorp's closing stock price on the date of grant. The following assumptions were used in SAR/option valuations:

	2008	2007
Dividend yield	1.95%	1.81%
Expected volatility	14.99	14.49
Risk free interest rate	3.84	4.69
Forfeitures	5.65	5.55
Expected life of options and SARs (in years)	7.5	7.7

The expected life of options is based on actual experience of past like-term awards. All outstanding options have a 10-year contractual term. Bancorp evaluated historical exercise and post-vesting termination behavior when determining the expected life of options and SARs.

The dividend yield and expected volatility are based on historical information corresponding to the expected life of awards granted. The expected volatility is the volatility of the underlying shares for the expected term on a quarterly basis. The risk free interest rate is the implied yield currently available on U. S. Treasury issues with a remaining term equal to the expected life of the awards.

A summary of stock option and SARs activity and related information for the six months ended June 30, 2008 follows. The number of options and SARs and aggregate intrinsic value are stated in thousands.

Table of Contents

	Options and SARs	Exercise Price	Weighted Average Exercise Price	Aggregate Intrinsic Value (\$) (1)	Weighted Average Fair Value	Weighted Average Remaining Contractual Life
At December 31, 2007

Vested during quarter						
	2	20.25-24.02	20.78	1	4.78	

(1) Awards with an exercise price exceeding the common stock's market price at June 30, 2008, have no intrinsic value as of that date.

The weighted average fair values of options and SARs granted in 2008 and 2007 were \$4.57 and \$6.14, respectively.

In February 2008, Bancorp adopted a stock appreciation rights program under the terms of the Company's 2005 Stock Incentive Plan and granted 114,195 SARs at the current market price of \$23.37 and a fair value of \$4.57. Of these SARs, 22,700 were granted to certain executive officers and will vest six months from the date of grant. Other awards will primarily vest 20% per year over the next five years. All SARs expire ten years from the date of grant.

Also, in February 2008, Bancorp granted 23,043 shares of common stock at the weighted average current market price of \$23.44. Of these shares 5,397 granted to certain executive officers will vest six months from the date of grant. Other grants vest over two to five years. As of June 30, 2008, 210 restricted shares had been forfeited. In the first six months of 2008, 939 restricted shares granted in 2007 vested.

(3) Federal Home Loan Bank Advances

Edgar Filing: S Y BANCORP INC - Form 10-Q

The Bank had outstanding borrowings of \$90,000,000, at June 30, 2008, via four separate advances. The first two are fixed rate, non-callable advances of \$20,000,000 and \$30,000,000. The third advance of \$20,000,000 is a fixed rate advance eligible to be called by the FHLB in December of 2008, and then quarterly going forward until its maximum maturity in December of 2010. The fourth advance of \$20,000,000 is a fixed rate advance eligible to be called by the FHLB in August of 2008 and then quarterly going forward until its maximum maturity in May of 2012. The weighted average rate of these advances was 4.58% at June 30, 2008. Interest payments are due monthly, with principal due at maturity. Advances from the FHLB are collateralized by certain commercial and residential real estate mortgage loans under a blanket mortgage collateral agreement and FHLB stock.

The Bank's agreement with the Federal Home Loan Bank of Cincinnati (FHLB) enables the Bank to borrow up to an additional \$12.7 million as of June 30, 2008 under terms to be established at the time of the advance. The Bank also has a standby letter of credit from the FHLB for \$34 million outstanding at June 30, 2008. Under Kentucky law, customer cash balances in Investment Management and Trust accounts, may be retained as deposits in the Bank. As a part of this transaction, Kentucky law requires these deposits above the \$100,000 per account protection provided by the FDIC, to be backed by some form of collateral. The standby letter of credit from the FHLB collateralizes these accounts.

(4) Intangible Assets

Edgar Filing: S Y BANCORP INC - Form 10-Q

Statement of Financial Accounting Standards No. 142, Goodwill and Intangible Assets (SFAS No. 142), requires that goodwill and intangible assets with indefinite useful lives no longer be amortized, but instead be tested for impairment at least annually. Annual evaluations have resulted in no charges for impairment. Bancorp currently has goodwill from the acquisition of a bank in southern Indiana in the amount of \$682,000. This goodwill is assigned to the commercial banking segment of Bancorp.

(5) Defined Benefit Retirement Plan

The Bank sponsors an unfunded, non-qualified, defined benefit retirement plan for certain key officers. Benefits vest based on years of service. The Bank does not make contributions to this plan. Information about the components of the net periodic benefit cost of the defined benefit plan follows (in thousands):

Table of Contents

	Three months ended June 30		Six months ended June 30	
	2008	2007	2008	2007
Components of net periodic benefit cost:				
Service cost	\$	\$	\$	\$
Interest cost	28	28	55	57
Expected return on plan assets				
Amortization of prior service cost				
Amortization of the net loss	6	7	12	13
Net periodic benefit cost	\$ 34	\$ 35	\$ 67	\$ 70

(6) Commitments to Extend Credit

Edgar Filing: S Y BANCORP INC - Form 10-Q

As of June 30, 2008, Bancorp had various commitments outstanding that arose in the normal course of business, including standby letters of credit and commitments to extend credit, which are properly not reflected in the financial statements. In management's opinion, commitments to extend credit of \$409,517,000 including standby letters of credit of \$21,038,000 represent normal banking transactions, and no significant losses are anticipated to result from these commitments as of June 30, 2008. Commitments to extend credit were \$360,604,000, including letters of credit of \$19,414,000, as of December 31, 2007. Bancorp's exposure to credit loss in the event of nonperformance by the other party to these commitments is represented by the contractual amount of these instruments. Bancorp uses the same credit and collateral policies in making commitments and conditional guarantees as for on-balance sheet instruments.

Commitments to extend credit are agreements to lend to a customer as long as there is no violation of any condition established in the contract. Commitments generally have fixed expiration dates or other termination clauses. Commitments to extend credit are primarily made up of commercial lines of credit, construction and development loans and home equity credit lines. Since some of the commitments are expected to expire without being drawn upon, the total commitment amounts do not necessarily represent future cash requirements. Bancorp evaluates each customer's creditworthiness on a case-by-case basis. The amount of collateral obtained, if deemed necessary by Bancorp upon extension of credit, is based on management's credit evaluation of the customer. Collateral held varies but may include accounts receivable, inventory, property, plant and equipment, income-producing commercial properties, residential properties and real estate under development.

Standby letters of credit and financial guarantees written are conditional commitments issued by Bancorp to guarantee the performance of a customer to a third party. Those guarantees are primarily issued to support private borrowing arrangements.

(7) Preferred Stock

Edgar Filing: S Y BANCORP INC - Form 10-Q

At Bancorp's 2003 annual meeting of shareholders, the shareholders approved an amendment to the Articles of Incorporation to create a class of preferred stock and authorize 1,000,000 shares of this preferred stock with no par value. The relative rights, preferences and other terms of this stock or any series within the class will be determined by the Board of Directors prior to any issuance. Some of this preferred stock will be used in connection with a shareholders' rights plan upon the occurrence of certain triggering events. None of this stock had been issued as of June 30, 2008.

Table of Contents

(8) Net Income Per Share

Edgar Filing: S Y BANCORP INC - Form 10-Q

The following table reflects, for the three and six months ended June 30, 2008 and 2007, net income (the numerator) and average shares outstanding (the denominator) for the basic and diluted net income per share computations (in thousands except per share data):

Edgar Filing: S Y BANCORP INC - Form 10-Q

	Three months ended		Six months ended	
	June 30		June 30	
	2008	2007	2008	2007
Net income, basic and diluted	\$ 6,129	\$ 6,297	\$ 11,167	\$ 12,001
Average shares outstanding	13,409	14,325	13,431	14,357
Effect of dilutive securities	175	211	167	231
Average shares outstanding including dilutive securities including dilutive securities	13,584	14,536	13,598	14,588
Net income per share, basic	\$ 0.46	\$ 0.44	\$ 0.83	\$ 0.84
Net income per share, diluted	\$ 0.45	\$ 0.43	\$ 0.82	\$ 0.82

(9) Segments

The Bank's, and thus Bancorp's, principal activities include commercial banking and investment management and trust. Commercial banking provides a full range of loan and deposit products to individual consumers and businesses. Commercial banking also includes the Bank's mortgage banking and brokerage activity. Investment management and trust provides wealth management services including investment management, trust and estate administration, and retirement plan services.

The financial information for each business segment reflects that which is specifically identifiable or allocated based on an internal allocation method. Principally, all of the net assets of Bancorp are involved in the commercial banking segment. Income taxes are allocated to the investment management and trust segment based on the marginal federal tax rate. The measurement of the performance of the business segments is based on the management structure of the Bank and is not necessarily comparable with similar information for any other financial institution. The information presented is also not necessarily indicative of the segments' operations, if they were independent entities.

Selected financial information by business segment for the three and six month periods ended June 30, 2008 and 2007 follows:

Table of Contents

Table of Contents

(10) Income Taxes

Edgar Filing: S Y BANCORP INC - Form 10-Q

Bancorp adopted Financial Accounting Standards Board Interpretation No. 48 Accounting for Uncertainty in Income Taxes, an Interpretation of FASB Statement No. 109 (FIN 48) in 2007. FIN 48 provides guidance on financial statement recognition and measurement of tax positions taken, or expected to be taken, in tax returns. The initial adoption of FIN 48 had no impact on the Company's financial statements. As of December 31, 2007 and June 30, 2008, the gross amount of unrecognized tax benefits was \$230,000. If recognized, all of the tax benefits would increase net income, resulting in a decrease of the effective tax rate. The amount of unrecognized tax benefits may increase or decrease in the future for various reasons including adding amounts for current tax year positions, expiration of open income tax returns due to statutes of limitation, changes in management's judgment about the level of uncertainty, status of examination, litigation and legislative activity and the addition or elimination of uncertain tax positions. Federal and state income tax returns are subject to examination from the 2003 tax return year and forward. Management does not anticipate significant adjustments to the total amount of unrecognized tax benefits within the next twelve months.

Bancorp's policy is to report interest and penalties, if any, related to unrecognized tax benefits in income tax expense. As of January 1 and June 30, 2008, the amount accrued for the potential payment of interest and penalties was \$20,000.

(11) Fair Value Measurements

Edgar Filing: S Y BANCORP INC - Form 10-Q

Effective January 1, 2008 the Company adopted FASB Statement No. 157, Fair Value Measurements. This statement is definitional and disclosure oriented and addresses how companies should approach measuring fair value when required by Generally Accepted Accounting Principals (GAAP); it does not create or modify any current GAAP requirements to apply fair value accounting. FASB Statement No. 157 prescribes various disclosures about financial statement categories and amounts which are measured at fair value, if such disclosures are not already specified elsewhere in GAAP. The adoption of FASB Statement No. 157 did not have an impact on Bancorp's consolidated financial statements. In February 2008 the FASB issued a statement delaying the effective date of Statement No. 157 for nonfinancial assets and nonfinancial liabilities except those that are recognized or disclosed at fair value on a recurring basis. Accordingly, the Company has deferred applying Statement No. 157 to other real estate owned and goodwill until 2009.

Statement No. 157 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between participants at the measurement date. Statement No. 157 also establishes a hierarchy to group assets and liabilities carried at fair value in three levels based upon the markets in which the assets and liabilities trade and the reliability of assumptions used to determine fair value. These levels are:

- Level 1 Valuation is based upon quoted prices for identical instruments traded in active markets.
- Level 2 Valuation is based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Table of Contents

- **Level 3** Valuation is generated from model-based techniques that use significant assumptions not observable in the market. These unobservable assumptions would reflect our own estimates of assumptions that market participants would use in pricing the asset or liability. Valuation techniques could include pricing models, discounted cash flows and other similar techniques.

Our policy is to maximize the use of observable inputs and minimize the use of unobservable inputs in fair value measurements. Where there exists limited or no observable market data, we use our own estimates generally considering characteristics of the asset/liability, the current economic and competitive environment and other factors. For this reason, results cannot be determined with precision and may not be realized on an actual sale or immediate settlement of the asset or liability.

The Company's investment securities available for sale are recorded at fair value on a recurring basis. Other accounts including mortgage loans held for sale, mortgage servicing rights, impaired loans, and other real estate owned may be recorded at fair value on a non-recurring basis, generally in the application of lower of cost or market adjustments or write-downs of specific assets.

The portfolio of investment securities available for sale is comprised of debt securities of U.S. Treasury and other U.S. government-sponsored corporation, mortgage-backed securities, obligations of state and political subdivisions, trust preferred securities of other banks and a domestic private investment fund. These securities are priced using standard industry models or matrices with various assumptions such as yield curves, volatility, prepayment speeds, default rates, time value, credit rating and market prices for the instruments. These assumptions are generally observable in the market place and can be derived from or supported by observable data. These measurements are classified as Level 2 in the hierarchy above. When quoted prices are available in an active market, the measurements are classified as Level 1.

Below are the carrying values of assets measured at fair value on a recurring basis (in thousands).

	Total	Fair Value at June 30, 2008		
		Level 1	Level 2	Level 3
Investment securities available for sale	\$ 114,104	\$	\$ 114,104	\$

Mortgage loans held for sale are carried at the lower of cost or market value. The portfolio is comprised of residential real estate loans and fair value is based on specific prices of underlying contracts for sales to investors. These measurements are classified as Level 2.

Mortgage servicing rights (MSRs) are recorded at fair value, are amortized to correspond with estimated servicing income and are periodically assessed for impairment based on fair value at the reporting date. Fair value is based on a valuation model that calculates the present value of estimated net servicing income. The model incorporates assumptions that market participants would use in estimated future net servicing income. These measurements are classified as Level 3.

Table of Contents

Loans are measured for impairment and, if indicated, and are written down based on the value of underlying collateral. In cases of real estate collateral, fair value is generally determined from external appraisals and assessment of values as estimated by management. In cases of non-real estate collateral, fair value is estimated using judgments and estimates of external professionals and of management. Many of these inputs are not observable and, accordingly, these measurements are classified as Level 3. At June 30, 2008, the carrying value of impaired loans with a valuation allowance was \$3,921,000 and the corresponding valuation allowance was \$1,288,000. Charge-offs of impaired loans totaled \$483,000 for the second quarter of 2008, and the valuation allowance for impaired loans decreased \$440,000 from \$1,728,000 at March 31, 2008.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This item discusses the results of operations for S.Y. Bancorp, Inc. (Bancorp or Company), and its subsidiary, Stock Yards Bank & Trust Company (Bank) for the three and six months ended June 30, 2008 and compares this period with the same period of the previous year. Unless otherwise indicated, all references in this discussion to the Bank include Bancorp. In addition, the discussion describes the significant changes in the financial condition of Bancorp and the Bank that have occurred during the first six months of 2008 compared to the year ended December 31, 2007. This discussion should be read in conjunction with the unaudited condensed consolidated financial statements and accompanying notes presented in Part 1, Item 1 of this report.

This report contains forward-looking statements under the Private Securities Litigation Reform Act that involve risks and uncertainties. Although Bancorp believes the assumptions underlying the forward-looking statements contained herein are reasonable, any of these assumptions could be inaccurate. Factors that could cause actual results to differ from results discussed in forward-looking statements include, but are not limited to the following: economic conditions both generally and more specifically in the markets in which Bancorp and the Bank operate; competition for Bancorp's customers from other providers of financial services; government legislation and regulation which change from time to time and over which Bancorp has no control; changes in interest rates; material unforeseen changes in liquidity, results of operations, or financial condition of Bancorp's customers; and other risks detailed in Bancorp's filings with the Securities and Exchange Commission, all of which are difficult to predict and many of which are beyond the control of Bancorp.

Overview of 2008 through June 30

The second quarter and first six months of 2008 were marked by higher net interest income but lower net income, as compared to the year-earlier periods, driven primarily by a combination of loan growth partially offset by continued pressure on net interest margin, a higher provision for loan losses and increasing non-interest expenses arising primarily from the Company's expansion. Higher non-interest income was generated particularly by mortgage and bankcard transaction revenue. With these factors combined, the Company completed the second quarter and first six months of 2008 with net income less than the comparable periods of 2007 by 2.7% and 6.9%, respectively. The impact of the Company's stock repurchase program over the past year helped mitigate the effect of lower net income on earnings per share. Diluted EPS for the second quarter and first six months of 2008 was up 4.7% and unchanged, respectively, compared to the year-earlier periods.

As is the case with most banks, the primary source of Bancorp's revenue is net interest income and fees from various financial services provided to customers. Net interest income is the difference between interest income earned on loans, investment securities and other interest earning assets less interest expense on deposit accounts and other interest bearing liabilities. Loan volume and the interest rates earned on those loans are critical to overall profitability. Similarly deposit volume is crucial to funding loans, and rates paid on deposits directly

Table of Contents

impact profitability. Business volumes are influenced by overall economic factors including market interest rates, business spending, consumer confidence and competitive conditions within the marketplace. Bancorp's loan totals at June 30, 2008, increased 9.9% compared to December 31, 2007. To support the growth, the Company aggressively sought deposits in the first half of 2008.

Net interest income increased 5.9% for the second quarter and 2.4% year to date compared with the year-earlier periods. The increase for the 2008 was primarily due to strong loan growth, which offset pressure on net interest margin in the wake of recent rate cuts by the Federal Reserve together with competitive factors particularly on deposit rates. Net interest margin for the second quarter, at 4.07% increased 12 basis points from the first quarter of 2008 and was 19 basis points lower than the 4.26% reported in the year-earlier period. For the first six months ended June 30, 2008, net interest margin was 4.01% compared to 4.24% for the year-earlier period. This ongoing margin pressure, which began in the third quarter of 2006, reflects the drop in prevailing short-term interest rates coupled with the impact on interest rates associated with local competition for loans and deposits. The Company expects continued competitive pressures on deposit rates will negatively impact net interest margins. However, less aggressive competitive pricing on loans should help mitigate some of the impact of higher cost deposits.

The Bank increased its provision for loan losses to \$975,000 in the second quarter from \$460,000 in the second quarter of 2007. For the first six months of 2008, the provision totaled \$2,200,000, compared to \$1,240,000 for the same period in 2007. While the Company's asset quality remains strong despite turmoil in the economy, management continues to be concerned about, and regularly monitors the loan portfolio for, the effects of well-publicized macroeconomic challenges. The Company's allowance for loan losses was 1.09% of total loans at June 30, 2008, compared with 1.12% of total loans at December 31, 2007, and 1.04% at June 30, 2007.

Non-performing loans at June 30, 2008 were \$5,481,000 or 0.42% relative to total loans, an increase from \$3,370,000 or 0.28% at the end of the fourth quarter of 2007, and from \$4,769,000 or 0.41% in the same quarter last year. Net charge-offs totaled \$616,000 or 0.05% of average loans in the second quarter of 2008 compared with \$578,000 or 0.05% in the same period last year. Management continues to believe it has appropriately recognized the loan-loss exposure in its portfolio.

Non-interest income decreased 0.7% in the second quarter compared with the same quarter last year, primarily due to lower investment management and trust service income, service charges on deposit accounts and gains on sales of mortgage loans. Much of this decrease was offset by higher bankcard transaction revenue, which rose 17.1% compared to the same period in 2007, along with BOLI and other non-interest income. Non-interest income increased 0.9% in the first half of 2008 compared with the year-earlier period, again driven primarily by higher bankcard transaction revenue.

Non-interest expense increased 7.1% in the second quarter of 2008 versus the same period last year. Higher non-interest expense for 2008 was primarily due to increasing personnel and occupancy expenses in part from the development of a second office in the Indianapolis market and the Company's recent entry into the Cincinnati market. Non-interest expense increased 6.1% in the first half of 2008 compared with the year-earlier period. The Company's second quarter efficiency ratio was 55.19% compared with 57.26% in the first quarter of 2008 and 53.22% in the second quarter last year.

The following sections provide more details on subjects presented in this overview.

Table of Contents

a) Results Of Operations

Edgar Filing: S Y BANCORP INC - Form 10-Q

Net income of \$6,129,000 for the three months ended June 30, 2008 decreased \$168,000, or 2.7%, from \$6,297,000 for the comparable 2007 period. Basic net income per share was \$0.46 for the second quarter of 2008, an increase of 4.5% from the \$0.44 for the same period in 2007. Net income per share on a diluted basis was \$0.45 for the second quarter of 2008 compared to \$0.43 for the second quarter of 2007; a 4.7% increase. Annualized return on average assets and annualized return on average stockholders' equity were 1.60% and 18.30%, respectively, for the second quarter of 2008, compared to 1.80% and 17.90%, respectively, for the same period in 2007.

Net income of \$11,167,000 for the six months ended June 30, 2008 decreased \$834,000, or 6.9%, from \$12,001,000 from the comparable 2007 period. Basic net income per share was \$0.83 for the first six months of 2008, a decrease of 1.2% from the \$0.84 for the same period in 2007. Net income per share on a diluted basis was \$0.82 for the first six months of 2008, unchanged from the first six months of 2007. Annualized return on average assets and annualized return on average stockholders' equity were 1.49% and 16.85%, respectively, for the first six months of 2008, compared to 1.72% and 17.26%, respectively, for the same period in 2007.

Net Interest Income

Edgar Filing: S Y BANCORP INC - Form 10-Q

The following tables present the average balance sheets for the three and six month periods ended June 30, 2008 and 2007 along with the related calculation of tax-equivalent net interest income, net interest margin and net interest spread for the related periods. See the notes following the tables for further explanation.

Table of Contents

Notes to the average balance and interest rate tables:

- Net interest income, the most significant component of the Bank's earnings is total interest income less total interest expense. The level of net interest income is determined by the mix and volume of interest earning assets, interest bearing deposits and borrowed funds, and changes in interest rates.
- Net interest spread is the difference between the taxable equivalent rate earned on interest earning assets less the rate expensed on interest bearing liabilities.
- Net interest margin represents net interest income on a taxable equivalent basis as a percentage of average interest earning assets. Net interest margin is affected by both the interest rate spread and the level of non-interest bearing sources of funds, primarily consisting of demand deposits and stockholders' equity.
- Interest income on a fully tax equivalent basis includes the additional amount of interest income that would have been earned if investments in certain tax-exempt interest earning assets had been made in assets subject to federal taxes yielding the same after-tax income. Interest income on municipal securities and loans have been calculated on a fully tax equivalent basis using a federal income tax rate of 35%. The approximate tax equivalent adjustments to interest income were \$247,000 and \$277,000, respectively, for the three month periods ended June 30, 2008 and 2007, and \$494,000 and \$560,000, respectively, for the six month periods ended June 30, 2008 and 2007.

Fully taxable equivalent net interest income of \$14,621,000 for the three months ended June 30, 2008 increased \$765,000, or 5.5%, from \$13,856,000 when compared to the same period last year. Net interest spread and net interest margin were 3.66% and 4.07%, respectively, for the second quarter of 2008 and 3.57% and 4.26%, respectively, for the second quarter of 2007.

Fully taxable equivalent net interest income of \$28,129,000 for the six months ended June 30, 2008 increased \$576,000, or 2.1%, from \$27,553,000 when compared to the same period last year. Net interest spread and net interest margin were 3.55% and 4.01%, respectively, for the first six months of 2008 and 3.56% and 4.24%, respectively, for the first six months of 2007.

This ongoing margin pressure began in the third quarter of 2006 and reflects several forces. Approximately 40% of the Company's loan portfolio is variable rate and when the Federal Reserve cuts short-term interest rates that portion of the portfolio reprices immediately. At inception, the rates on fixed rate loans generally correlate to the five year Treasury, and the persistence of low short term rates has held those rates low. Both of these factors have coupled with downward pressure on loan rates and higher interest rates on deposits due to the volume of deposits needed to fund loan growth, and the higher rates created by local competition. The Company expects pressure on net interest margins to continue in the near term, and further reductions in short-term rates by the Federal Reserve could add more compression.

Edgar Filing: S Y BANCORP INC - Form 10-Q

Average earning assets increased \$100.3 million or 7.7%, to \$1.410 billion for the first six months of 2008 compared to 2007, reflecting growth in the loan portfolio partially offset by decreases in investment securities and short term earning assets. Average interest bearing liabilities increased \$111.9 million, or 10.6%, to \$1.168 billion for the first six months of 2008 compared to 2007 primarily due to increases in money market, time deposits, and short term borrowings, partially offset by decreases in securities sold under agreements to repurchase and fed funds purchased.

Managing interest rate risk is fundamental for the financial services industry. The primary objective of interest rate risk management is to neutralize effects of interest rate changes on net income. Bank

Table of Contents

management evaluates interest rate sensitivity while attempting to optimize net interest income within the constraints of prudent capital adequacy, liquidity needs, market opportunities and customer requirements.

Bancorp uses an earnings simulation model to estimate and evaluate the impact of changing interest rates on earnings. The simulation model is designed to reflect the dynamics of interest earning assets, interest bearing liabilities and off-balance sheet financial instruments, in a one year forecast. By estimating the effects of interest rate increases and decreases, the model can reveal approximate interest rate risk exposure. The simulation model is used by management to gauge approximate results given a specific change in interest rates at a given point in time. The model is therefore a tool to indicate earnings trends in given interest rate scenarios and does not indicate actual expected results. The June 30, 2008 simulation analysis indicates that an increase in interest rates would have a positive effect on net interest income, and a decrease in interest rates would have a negative impact. These estimates are summarized below.

Interest Rate Simulation Sensitivity Analysis

	Net interest income change
Increase 200bp	1.37%
Increase 100bp	0.68
Decrease 100bp	(1.07)
Decrease 200bp	(3.30)

Table of Contents***Provision for Loan Losses***

The allowance for loan losses is based on management's continuing review and risk evaluation of individual loans, loss experience, current economic conditions, risk characteristics of the various categories of loans, and such other factors that, in management's judgment, require current recognition in estimating loan losses.

Management has established loan grading procedures which result in specific allowance allocations for any estimated inherent risk of loss. For all loans graded, but not individually reviewed, a general allowance allocation is computed using factors typically developed over time based on actual loss experience. The specific and general allocations plus consideration of qualitative factors represent management's best estimate of probable losses contained in the loan portfolio at the evaluation date. Although the allowance for loan losses is comprised of specific and general allocations the entire allowance is available to absorb any credit losses.

An analysis of the changes in the allowance for loan losses and selected ratios for the three and six month periods ended June 30, 2008 and 2007 follows:

(Dollars in thousands)	Three months ended June 30		Six months ended June 30	
	2008	2007	2008	2007
Balance at the beginning of the period	\$ 14,097	\$ 12,183	\$ 13,450	\$ 12,203
Provision for loan losses	975	460	2,200	1,240
Loan charge-offs, net of recoveries	(616)	(578)	(1,194)	(1,378)
Balance at the end of the period	\$ 14,456	\$ 12,065	\$ 14,456	\$ 12,065
Average loans, net of unearned income	\$ 1,308,304	\$ 1,160,064	\$ 1,271,745	\$ 1,151,437
Provision for loan losses to average loans (1)	0.07%	0.04%	0.17%	0.11%
Net loan charge-offs to average loans (1)	0.05%	0.05%	0.09%	0.12%
Allowance for loan losses to average loans	1.10%	1.04%	1.14%	1.05%
Allowance for loan losses to period-end loans	1.09%	1.04%	1.09%	1.04%
Allowance to nonperforming loans	263.75%	252.99%	263.75%	252.99%

(1) Amounts not annualized

The provision for loan losses increased \$960,000 during the first six months of 2008 as compared to 2007. The provision for loan losses for the period is calculated after considering credit quality factors, and ultimately relies on an overall internal analysis of the risk in the loan portfolio. Based on this detailed analysis of credit risk, management considers the allowance for loan losses adequate to cover probable losses inherent in the loan portfolio at June 30, 2008. Among many factors considered in determining the provision for loan losses are net charge-offs and non-performing loans. Net charge-offs decreased \$184,000 for the first six months of 2008 compared to the same period in 2007. Charge offs in the first six months of 2007 included \$800,000 for one loan involving fraudulent collateral. Although the ratio of loan charge-offs to average loans was unchanged in the second quarter of 2008 as compared to 2007, management feels this trend is not entirely indicative of potential exposure in the portfolio given the current uncertainty in the general economy. Please refer to the "Non-performing Loans and Assets" section of this report for further information regarding asset quality.

Table of Contents*Non-interest Income and Expenses*

The following table sets forth the major components of non-interest income and expenses for the three and six month periods ended June 30, 2008 and 2007.

(In thousands)	Three months ended June 30		Six months ended June 30	
	2008	2007	2008	2007
Non-interest income:				
Investment management and trust services	\$ 3,236	\$ 3,336	\$ 6,515	\$ 6,533
Service charges on deposit accounts	2,117	2,204	4,109	4,222
Bankcard transaction revenue	691	590	1,312	1,132
Gains on sales of mortgage loans held for sale	351	391	694	647
Gains on sales of securities available for sale				
Brokerage commissions and fees	444	452	885	945
Bank owned life insurance income	258	247	510	483
Other	570	504	992	918
Total non-interest income	\$ 7,667	\$ 7,724	\$ 15,017	\$ 14,880
Non-interest expenses:				
Salaries and employee benefits	\$ 7,367	\$ 6,632	14,555	\$ 13,239
Net occupancy expense	1,036	930	2,045	1,820
Data processing expense	896	1,051	1,648	2,066
Furniture and equipment expense	276	290	552	582
State bank taxes	314	311	654	489
Other	2,412	2,270	4,790	4,662
Total non-interest expenses	\$ 12,301	\$ 11,484	\$ 24,244	\$ 22,858

Total non-interest income decreased \$57,000, or 0.7%, for the second quarter of 2008, but increased \$137,000, or 0.9%, for the first six months of 2008, compared to the same periods in 2007.

Investment management and trust services income decreased \$100,000, or 3.0%, in the second quarter of 2008, as compared to the same period in 2007. This decrease arose from a decline in executor fees and the impact of a decline in the value of assets under management, partially offset by a number of factors, none of which is individually significant. For the first six months of 2008, investment management and trust services income decreased \$18,000, or 0.3%, compared to 2007. Trust assets under management at

Table of Contents

June 30, 2008 were \$1.54 billion, compared to \$1.67 billion at December 31, 2007 and \$1.67 billion at June 30, 2007. Trust assets are expressed in terms of market value, and total assets under management are affected directly by the performance of the equity and bond markets. As of June 30, 2008, declines in market value of trust assets more than offset 2008 growth from net new business.

Service charges on deposit accounts decreased \$87,000, or 3.9%, in the second quarter of 2008, and decreased \$113,000, or 2.7%, for the first six months of 2008 as compared to the same periods in 2007. Service charge income is driven by transaction volume in deposit accounts, which can fluctuate throughout the year, and has been slowly trending downward after a high in 2006.

Bankcard transaction revenue increased \$101,000, or 17.1%, in the second quarter of 2008, and increased \$180,000, or 15.9%, for the first six months of 2008 as compared to the same periods in 2007. Results in 2008 compared favorably to 2007 as bankcard transaction volume continues to increase.

The Bank operates a mortgage banking division, which originates residential mortgage loans and sells the majority of these loans in the secondary market. Prior to late 2007, all loans were sold without retaining servicing rights. Beginning in 2007, the Bank began to service mortgage loans that were sold to Fannie Mae. Gains on sales of mortgage loans were \$351,000 in the second quarter of 2008 and \$391,000 in 2007. This represents a decrease of 10.2%. For the six months ended June 30, 2008, gains on the sale of mortgage loans increased 7.3% to \$694,000 from \$647,000 in 2007. Prevailing mortgage interest rates fell substantially in late 2007 and remained at attractive levels for the first six months of 2008 resulting in an increase in loan volume during the first six months of 2008.

Brokerage commissions and fees decreased \$8,000, or 1.8%, in the second quarter of 2008, and decreased \$60,000, or 6.3%, for the first six months of 2008, as compared to the same period in 2007. The quarterly and year-to-date decrease corresponded to lower overall brokerage volume. The Company expects brokerage volume to continue to be hindered until retail investor confidence in the stock market improves.

Bank owned life insurance income increased \$11,000 or 4.5%, and other non-interest income increased \$66,000, or 13.1%, in the second quarter of 2008 as compared to the same period in 2007. For the first six months of 2008, bank owned life insurance income increased \$27,000, or 5.6%, and other non-interest income increased 74,000, or 8.1%, as compared to the same period in 2007.

Total non-interest expenses increased \$817,000, or 7.1%, for the second quarter of 2008 as compared to the same period in 2007. Total non-interest expenses increased \$1,386,000, or 6.1%, for the first six months of 2008 as compared to the same period in 2007.

Salaries and employee benefits increased \$735,000, or 11.1%, for the second quarter of 2008, and \$1,316,000, or 9.9% for the first six months of 2008, as compared to the same periods of 2007. These increases reflect the addition of staff associated with the development of a second office in the Indianapolis market and the Company's recent entry into the Cincinnati market along with regular salary increases and the rising costs of health insurance. The Bank had 457 full time equivalent employees as of June 30, 2008, compared to 445 full time equivalents as of June 30, 2007.

Edgar Filing: S Y BANCORP INC - Form 10-Q

Net occupancy expense increased \$106,000, or 11.4%, in the second quarter of 2008, and \$225,000, or 12.4% for the first six months of 2008, as compared to the same periods of 2007, primarily reflecting costs associated with the Company's geographical expansion. Data processing expense decreased \$155,000 or 14.7% for the first quarter of 2008, and \$418,000, or 20.2% for the first six months of 2008, as compared to the same periods in 2007, largely due to renegotiated terms with the Bank's provider of ATM network and debit card processing. Furniture and equipment expense decreased \$14,000 or 4.8% for the second

Table of Contents

quarter of 2008, and \$30,000 or 5.2% for the first six months of 2008, as compared to the same periods in 2007. These fluctuations relate to a variety of factors, none of which is individually significant.

State bank taxes increased \$3,000, or 1.0%, for the second quarter of 2008, and \$165,000, or 33.7% for the first six months of 2008, as compared to the same periods in 2007. These bank taxes are based on five-year average capital levels. The year-to-date increase is primarily because the Bancorp purchased Commonwealth of Kentucky historic tax preservation credits at a discount reducing state tax expense in the first quarter of 2007 by approximately \$160,000.

Other non-interest expenses increased \$142,000 or 6.3% in the second quarter of 2008, and \$128,000, or 2.7% for the first six months of 2008, as compared to the same periods in 2007. The increases in other non-interest expenses are related to a variety of factors, none of which is individually significant.

Income Taxes

In the second quarter of 2008, Bancorp recorded income tax expense of \$2,636,000, compared to \$3,062,000 for the same period in 2007. The effective rate for the three month period was 30.1% in 2008 and 32.7% in 2007. Bancorp recorded income tax expense of \$5,041,000 for the first six months of 2008, compared to \$5,774,000 for the same period in 2007. The effective rate for the six months period was 31.1% in 2008 and 32.5% in 2007. The decreases in the effective tax rate were primarily due to an increased level of tax credits and proportion of tax-exempt interest income to total interest income.

Commitments

The Company utilizes a variety of financial instruments in the normal course of business to meet the financial needs of its customers. These financial instruments include commitments to extend credit and standby letters of credit. A discussion of the Company's commitments is included in Note 6.

Other commitments discussed in the Company's Annual Report on Form 10-K for the year ended December 31, 2007, have not materially changed since that report was filed, relative to qualitative and quantitative disclosures of fixed and determinable contractual obligations.

b) Financial Condition

Balance Sheet

Edgar Filing: S Y BANCORP INC - Form 10-Q

Total assets increased \$114.1 million, or 7.7%, from \$1.482 billion on December 31, 2007 to \$1.596 billion on June 30, 2008. The most significant contributor of the increase in assets was loan growth. Loan totals increased \$118,571,000 from the end of 2007. This increase was partially offset by a \$51,160,000 decrease in investment securities primarily resulting from maturities and calls. Due to low prevailing interest rates, management chose not to replace maturing securities during the six month period. Total assets at June 30, 2008 increased \$171 million from June 30, 2007, representing a 12.0% increase. Average assets for the first six months of 2008 were \$1.503 billion.

Total liabilities increased \$112.3 million, or 8.3%, from \$1.349 billion on December 31, 2007 to \$1.461 billion on June 30, 2008. The most significant component of the increase was in time deposits which rose \$95,023,000, or 22.4% in support of loan growth. Total money market deposits increased \$41,326,000 or 15.6%, savings deposits increased \$4,814,000 or 12.4%, and other short-term borrowings increased \$4,052,000 or 38.0%. Beginning late in 2007 the Bank introduced a non-collateralized corporate sweep account. These balances are included in money market deposits, and at the end of the second quarter of 2008, totaled approximately \$28 million. Securities sold under repurchase agreements and federal funds purchased decreased \$52,930,000 or 48.7%. The decline in securities sold under repurchase agreements

Table of Contents

corresponds to the increase in money market deposits as discussed above, while federal funds purchased decreased \$27,490,000 to \$0 at June 30, 2008.

Equity holdings in the investment portfolio are concentrated in the bank and financial service companies, and as such, have been negatively impacted by declining industry performance. Management evaluates these investments considering various factors, and volatility in these markets, particularly subsequent to June 30 could give rise to other-than-temporary impairment in the future.

Non-performing Loans and Assets

Non-performing loans, which include non-accrual loans of \$4,938,000 and loans past due over 90 days and still accruing of \$543,000, totaled \$5,481,000 at June 30, 2008. Non-performing loans were \$3,370,000 at December 31, 2007 including \$406,000 of loans past due over 90 days and still accruing. Non-performing loans represents 0.42% of total loans at June 30, 2008 compared to 0.28% at December 31, 2007. As noted in the Provision for Loan Losses section of this report, non-performing loans are analyzed in management's evaluation of the allowance and provision for loan losses.

Non-performing assets, which include non-performing loans, other real estate and repossessed assets, totaled \$8,476,000 at June 30, 2008 and \$7,201,000 at December 31, 2007. This represents 0.53% of total assets at June 30, 2008 compared to 0.49% at December 31, 2007.

c) Liquidity

The role of liquidity is to ensure that funds are available to meet depositors' withdrawal and borrowers' credit demands. This is accomplished by balancing changes in demand for funds with changes in the supply of those funds. Liquidity to meet demand is provided by maturing assets, short-term liquid assets that can be converted to cash, and the ability to attract funds from external sources, principally deposits. Management believes it has the ability to increase deposits at any time by offering rates slightly higher than the market rate.

The Bank has a number of sources of funds to meet its liquidity needs on a daily basis. The deposit base, consisting of relatively stable consumer and commercial deposits, is a source of funds. Most of these deposits come from long-term customers and provide a steady source of funds.

Other sources of funds available to meet daily needs include the sale of securities under agreements to repurchase, sweep accounts as they are commonly called, which consist of commercial customers' excess cash balances. Also, the Bank is a member of the Federal Home Loan Bank of Cincinnati (FHLB). As a member, the Bank has access to credit products of the FHLB. As of June 30, 2008, the Bank's additional borrowing capacity with the FHLB was approximately \$12.7 million. Additionally, the Bank had an available line of credit and federal funds purchased lines with correspondent banks totaling \$110 million.

Edgar Filing: S Y BANCORP INC - Form 10-Q

Bancorp's liquidity depends primarily on the dividends paid to it as the sole shareholder of the Bank. At June 30, 2008, the Bank may pay up to \$6,281,000 in dividends to Bancorp without regulatory approval subject to the ongoing capital requirements of the Bank. As a result of a \$20 million dividend in 2006 to fund redemption of trust preferred securities, the Bank obtained approval for its first quarter 2007 and 2008 dividends. For the first six months of 2008, the Bank declared dividends to Bancorp totaling \$4,571,380. Prior to the declaration of dividends, management considers the effect such payments will have on total stockholders' equity and capital ratios.

d) Capital Resources

At June 30, 2008, stockholders' equity totaled \$134,848,000, an increase of \$1,824,000 since December 31, 2007. See the Consolidated Statement of Changes in Stockholders' Equity for further detail of the change in equity since the end of 2007. Much of the 2008 growth in capital was offset by share repurchase activity. During the first quarter, the Company repurchased 227,600 shares and as of June 30, 2008, the Company had remaining authorization to repurchase approximately 163,000 shares. However,

Table of Contents

management does not contemplate resuming repurchase activity in the near term. Accumulated other comprehensive income/(loss) which, for Bancorp, consists of net unrealized gains/(losses) on securities available for sale and a minimum pension liability adjustment, net of taxes, totaled (\$213,000) at June 30, 2008 and \$83,000 at December 31, 2007. The change since year end is a reflection of maturities within the portfolio and the effect of change in interest rates on the valuation of the Bank's portfolio of securities available for sale. The unrealized pension liability is adjusted annually by reference to updated actuarial data.

Bank holding companies and their subsidiary banks are required by regulators to meet risk based capital standards. These standards, or ratios, measure the relationship of capital to a combination of balance sheet and off-balance sheet risks. The values of both balance sheet and off-balance sheet items are adjusted to reflect credit risks. To be categorized as well capitalized, the Bank must maintain a total risk-based capital ratio of at least 10%; a Tier 1 ratio of at least 6%; and a leverage ratio of at least 5%.

The following table sets forth Bancorp's risk based capital amounts and ratios as of June 30. The decrease in the total risk-based capital ratio from 11.62% at June 30, 2007 to 10.26% at June 30, 2008 is largely due to share repurchase activity and loan growth.

	2008		June 30		2007	
	Amount	Ratio	Amount	Ratio	Amount	Ratio
Total risk-based capital	\$ 148,695	10.26%	154,513	11.62%		
For capital adequacy purposes	115,942	8.00	106,389	8.00		
To be well capitalized	144,927	10.00	132,986	10.00		
Tier 1 risk-based capital	\$ 134,179	9.26%	142,358	10.70%		
For capital adequacy purposes	57,961	4.00	53,194	4.00

e) Recently Issued Accounting Pronouncements

In May 2008, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards No. 162, "The Hierarchy of Generally Accepted Accounting Principles". This Statement identifies the sources of accounting principles and the framework for selecting the principles to be used in the preparation of financial statements of nongovernmental entities that are presented in conformity with generally accepted accounting principles (GAAP) in the United States (the GAAP hierarchy). Prior to SFAS No.162, the GAAP hierarchy was identified in SAS No. 69, "The Meaning of Presents Fairly in Conformity with Generally Accepted Accounting Principles", and was directed at auditors. The FASB believes that the hierarchy of GAAP sources should be directed at preparers of financial statements and thus should be included within the accounting literature. This Statement is effective 60 days following the SEC's approval of the Public Company Accounting Oversight Board amendments to AU Section 411, "The Meaning of Present Fairly in Conformity With Generally Accepted Accounting Principles". Any effect of applying SFAS No. 162

Table of Contents

should be reported as a change in accounting principle. The implementation of this statement is not anticipated to have a significant impact on the Company's financial statements.

The Company adopted Statement of Financial Accounting Standards No. 157, Fair Value Measurements, on January 1, 2008. This Statement defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles, and expands disclosures about fair value measurements. It emphasizes that fair value is a market-based measurement and should be determined based on assumptions that a market participant would use when pricing an asset or liability. Additionally, it establishes a fair value hierarchy that provides the highest priority to measurements using quoted prices in active markets and the lowest priority to measurements based on unobservable data. The Statement does not require any new fair value measurements. The adoption of FASB Statement No. 157 did not have a material impact on Bancorp's consolidated financial statements.

In February 2007, the FASB issued Statement of Financial Accounting Standards No. 159, The Fair Value Option for Financial Assets and Financial Liabilities Including an amendment of FASB Statement No. 115. This Statement permits entities to choose to measure many financial instruments and certain other items at fair value, on an instrument-by-instrument basis. Once an entity has elected to record eligible items at fair value, the decision is irrevocable and the entity should report unrealized gains and losses for which the fair value option has been elected in earnings. The Statement's objective is to improve financial reporting by providing entities with the opportunity to mitigate volatility in reported earnings caused by measuring related assets and liabilities differently without having to apply complex hedge accounting provisions. The Statement may be applied to financial instruments existing at the January 1, 2008 adoption date, financial instruments recognized after the adoption date, and upon certain other events. As of the adoption date and subsequent to that date, the Company has chosen not to elect the fair value option, but will consider future election and the effect on its consolidated financial statements.

In December 2007 the Financial Accounting Standards Board issued a revision to Statement of Financial Accounting Standards No. 141, Business Combinations, (SFAS 141R). This statement will become effective in 2009 and sharpens the accounting guidance for business combinations and significantly expands disclosure requirements. As the Company has no business combinations underway, no impact of this pronouncement on the Company is anticipated at this time.

Statement of Financial Accounting Standards No. 160, Non-controlling Interests in Consolidated Financial Statements, must be implemented for fiscal years beginning after December 31, 2008. The objective of this statement is to improve the relevance, comparability and transparency of financial information that a reporting entity provides in its consolidated financial statements relating to an outstanding non-controlling interest in one or more subsidiaries or that deconsolidate a subsidiary. At present, these circumstances do not apply to the Company.

Statement of Financial Accounting Standards No. 161, Disclosures about Derivative Instruments and Hedging Activities, must be implemented for fiscal years beginning after November 15, 2008. This statement amends SFAS No. 133, Accounting for Derivative Instruments and Hedging Activities, This statement changes the disclosure requirements for derivative instruments and hedging activities. It requires entities to discuss how and why it uses derivatives instruments, how derivative instruments and relate hedged items are accounted for under SFAS No. 133 and its related interpretations, and how derivative instruments and related hedged items affect its financial

positions, financial performance and cash flows. The implementation of this statement is not anticipated to have a significant impact on the Company's financial statements.

Staff Accounting Bulletin No. 109 expresses the view of SEC staff that, for written loan commitments that are accounted for at fair value through earnings, the expected net future cash flows related to the associated servicing of those loans should be included in the measurement of fair value. It is to be applied prospectively to derivative loan commitments issued or modified in fiscal quarters beginning after December 15, 2007. The implementation of this Bulletin is not anticipated to have a significant impact on the Company's financial statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Information required by this item is included in Item 2, Management's Discussion and Analysis of Financial Condition and Results of Operations.

Item 4. Controls and Procedures

Bancorp maintains disclosure controls and procedures designed to ensure that it is able to collect the information it is required to disclose in reports it files with the Securities and Exchange Commission (SEC), and to record, process, summarize and report this information within the time periods specified in the rules and forms of the SEC. Based on their evaluation of Bancorp's disclosure controls and procedures as of the end of the quarterly period covered by this report, the Chief Executive and Chief Financial Officers believe that these controls and procedures are effective to ensure that Bancorp is able to collect, process and disclose the information it is required to disclose in reports it files with the SEC within the required time periods.

Based on the evaluation of Bancorp's disclosure controls and procedures by the Chief Executive and Chief Financial Officers, there were no significant changes during the quarter ended June 30, 2008 in Bancorp's internal control over financial reporting that has materially affected, or is reasonably likely to materially affect, Bancorp's internal control over financial reporting.

PART II OTHER INFORMATION

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

The following table shows information relating to the repurchase of shares of common stock by Bancorp during the three months ended June 30, 2008.

Table of Contents

	Total number of Shares Purchased	Average price Paid Per Share	Total number of Shares Purchased as Part of Publicly Announced Plan	Maximum Number of Shares that May Yet Be Purchased Under the Plan
April 1 - April 31		\$		163,000
May 1 - May 31				163,000
June 1 - June 30				163,000
Total		\$		163,000

The Board of Directors of S.Y. Bancorp Inc. first approved a share buyback plan in 1999. In February 2005, the Directors of Bancorp expanded this plan to allow for the repurchase of up to 577,500 shares. The Directors expanded this plan by 550,000 additional shares in July 2007, and again in November 2007. The plan's expiration date is set for November 2008. In 2007, as part of this stock repurchase program, the Company established a Rule 10b5-1 stock trading plan. There has been no repurchase activity since March 2008. As noted above, as of June 30, 2008 there remain 163,000 shares yet to be purchased under the program.

Item 4. Submission of Matters to a Vote of Security Holders

On April 23, 2008, at the Annual Meeting of Shareholders of S.Y. Bancorp, Inc., the following matters were submitted to a vote of shareholders. Represented in person or by proxy were 11,095,022 shares, and those shares were voted as follows:

(1) Fixing the number of directors at twelve:

For	10,965,372
Against	126,282
Abstain	2,441

(2) Amend Article IX to declassify Board of Directors:

For	10,436,831
Against	308,517
Abstain	348,750

Table of Contents

(3) Election of Directors: The following individuals were nominated in 2008 to serve until the next annual meeting of shareholders. All nominees were elected. The results were as follows:

	Votes For	Votes Withheld
David H. Brooks	11,007,275	86,654
James E Carrico	11,007,258	86,640
Charles R. Edinger III	10,996,576	97,427
David P. Heintzman	11,006,919	87,189
Carl G. Herde	10,996,593	97,130
Richard A. Lechleiter	11,007,565	86,263
Bruce P. Madison	11,007,258	86,465
Nicholas X. Simon	11,007,275	86,448
Norman Tasman	11,007,275	87,569
Robert L. Taylor	11,007,565	86,158
Kathy C. Thompson	11,007,275	86,553

Item 6. Exhibits

The following exhibits are filed or furnished as a part of this report:

Exhibit number	Description of exhibit
31.1	Certifications pursuant to Section 302 of the Sarbanes-Oxley Act by David P. Heintzman
31.2	Certifications pursuant to Section 302 of the Sarbanes-Oxley Act by Nancy B. Davis
32	Certifications pursuant to 18 U.S.C. Section 1350

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.
