**CONDENSED NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)**

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

*Basis of Presentation*

The accompanying unaudited consolidated financial statements for the interim periods have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and in accordance with the rules and regulations of the Securities and Exchange Commission. Accordingly, they do not include all of the financial information and footnotes required by GAAP for complete financial statements, although we believe the disclosures are adequate to make the information presented not misleading. These statements should be read in conjunction with our Annual Report on Form 10-K for the year ended December 31, 2008. The operating results for the interim periods presented are not necessarily indicative of the results expected for the full year or for any other interim period. In our opinion, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included.

The preparation of financial statements in conformity with GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. In preparing these consolidated financial statements, we have made our best estimates and judgments of certain amounts included in the consolidated financial statements, giving due consideration to materiality. Changes in the estimates and assumptions used by us could have a significant impact on our financial results, since actual results could differ from those estimates.

*Summary of Significant Accounting Policies*

In preparing the consolidated financial statements in conformity with accounting principles generally accepted in the United States, we must make decisions which impact the reported amounts and related disclosures. Such decisions include the selection of the appropriate principles to be applied and the assumptions on which to base accounting estimates. In reaching such decisions, we apply judgment based on our understanding and analysis of the relevant circumstances.

The accounting principles followed in the preparation of the consolidated financial information contained on Form 10-Q are the same as those described in our Annual Report on Form 10-K for the year ended December 31, 2008, some of which have been included herein.

*Revenue Recognition*

## Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

We recognize revenue upon shipment of manufactured products to customers, when title has passed, all contractual obligations have been satisfied and collection of the resulting receivable is reasonably assured. We also provide engineering services separate from the manufacture of a product. Revenue for engineering services is recognized upon completion of the engineering process, providing standalone fair value to our customers. Our engineering services are short-term in nature. In addition, we have another separate source of revenue that comes from short-term repair services, which are recognized upon completion of the repairs, and the repaired products are shipped back to the customer. Shipping and handling costs charged to our customers are included in net sales, while the corresponding shipping expenses are included in cost of goods sold.

Table of Contents**Stock-Based Compensation**

We have two types of stock-based compensation awards consisting of restricted stock and stock options. Following is a summary of the key terms and methods of valuation for our stock-based compensation awards.

**Restricted Stock**

On March 7, 2006, 28,500 shares of restricted common stock were granted to our management and directors. This benefit was valued at the market price of the stock on the date of grant. These awards vested over a three-year term and were expensed ratably over the same period. We recorded compensation expense of \$0 and \$17,475 for the three months ended March 31, 2009 and 2008, respectively. All restricted shares were fully vested as of December 31, 2008, and as a result there was no unrecognized compensation remaining as of March 31, 2009.

Following is the status of all stock options as of March 31, 2009, including changes during the three-month period then ended:

	Shares	Weighted-Average Exercise Price Per Share	Weighted-Average Remaining Contractual Term (in years)	Aggregate Intrinsic Value
Outstanding - January 1, 2009	799,850	\$ 7.27		
Granted	8,250	\$ 3.70		
Forfeited	(5,000)	\$ 7.50		
Outstanding - March 31, 2009	803,100	\$ 7.23	7.26	\$ 7,150
Exercisable - March 31, 2009	303,161	\$ 7.10	5.34	\$ 7,150

To calculate the fair value of option-based awards under Statement of Financial Accounting Standard No. 123R (SFAS 123R), we used the Black-Scholes option-pricing model. Our determination of fair value of option-based awards on the date of grant using the Black-Scholes model is affected by our stock price as well as assumptions regarding a number of subjective variables. These variables include, but are not limited to, our expected stock price volatility over the term of the awards, risk-free interest rate, and the expected life of the options. The risk-free interest rate is based on a treasury instrument whose term is consistent with the expected life of our stock options. The expected volatility and holding period of options are based on our historical experience. For all grants, the amount of compensation expense to be recognized is adjusted for an estimated forfeiture rate, which is also based on historical data. The variables used for the grants for the three months ended March 31, 2009 and 2008 are below.

	2009	2008
Expected Volatility	49%	46%
Risk-free interest rate	2.6%	3.1%
Expected life	7 yrs	7 yrs
Expected dividend yield	0%	0%

Table of Contents

***Stock Options with Time-Based Vesting***

Total compensation expense related to stock options with time-based vesting for the three months ended March 31, 2009 and 2008 was \$31,296 and \$49,615, respectively. As of March 31, 2009 we have 361,500 time-based options outstanding.

As of March 31, 2009 there was approximately \$153,000 of unrecognized compensation expense related to unvested option awards that we expect to recognize over a weighted-average period of 1.40 years.

***Stock Options with Performance-Based Vesting***

As mentioned previously, the vesting of certain options granted are conditional upon our achievement of established performance measurements. At March 31, 2009, management has estimated the probability of achieving any of the performance goals is less than 50%, thus in accordance with provisions of SFAS 123R, no compensation expense has been recorded for the three months ended March 31, 2009.

As of March 31, 2009 we have 441,600 performance-based options outstanding. There was approximately \$1,717,000 of unrecognized compensation expense available to be earned and expensed in future periods up through December 2009 on performance-based stock options.

***Segment Reporting Information***

Our results of operations for the three months ending March 31, 2009 and 2008 represent a single segment referred to as Contract Manufacturing. Export sales represent 4% and 3% of consolidated net sales for the three-month periods ended March 31, 2009 and 2008, respectively.

Long-lived assets by country are as follows:

	United States	Mexico	Total
<b>March 31, 2009</b>			
Net Property and Equipment	\$ 9,671,280	\$ 259,091	\$ 9,930,371
Other Assets	957,323	7,726	965,049
<b>December 31, 2008</b>			
Net Property and Equipment	\$ 9,948,496	\$ 296,712	\$ 10,245,208
Other Assets	996,176	7,726	1,003,902

*Finite Life Intangible Assets*

Finite life intangible assets at March 31, 2009 and December 31, 2008 are as follows:

Table of Contents

## March 31, 2009

	Estimated Lives (Years)	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Bond Issue Costs	15	\$ 79,373	\$ 14,553	\$ 64,820
Customer Base	5	676,557	294,495	382,062
Other Intangibles	3	28,560	20,625	7,935
Totals		\$ 784,490	\$ 329,673	\$ 454,817

## December 31, 2008

	Estimated Lives (Years)	Gross Carrying Amount	Accumulated Amortization	Net Book Value
Bond Issue Costs	15	\$ 79,373	\$ 13,230	\$ 66,143
Customer Base	5	676,557	259,345	417,212
Other Intangibles	3	28,560	18,245	10,315
Totals		\$ 784,490	\$ 290,820	\$ 493,670

Amortization expense related to these assets is as follows:

Quarter ended March 31, 2009	\$ 38,853
Quarter ended March 31, 2008	\$ 36,885

Estimated future amortization expense related to these assets is as follows:

Remainder of 2009	\$ 112,000
2010	141,000
2011	141,000
2012	17,000
2013	5,000
Thereafter	39,000
Total	\$ 455,000

**Recent Accounting Pronouncement**

Effective January 1, 2008, we adopted SFAS 157 for our financial instruments with the remaining provisions of SFAS 157 for our non-financial assets and liabilities being adopted during the first quarter of fiscal 2009. The adoption of SFAS 157 did not have a material impact on our consolidated financial statements.

## NOTE 2. PRINCIPLES OF CONSOLIDATION

## Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

The consolidated financial statements include the accounts of Nortech Systems Incorporated ( Nortech ) and its wholly owned subsidiary, Manufacturing Assembly Solutions of Monterrey, Inc. All significant intercompany accounts and transactions have been eliminated.

Table of Contents

NOTE 3. MAJOR CUSTOMERS AND CONCENTRATION OF CREDIT RISK

Financial instruments that potentially subject us to concentrations of credit risk consist principally of cash and accounts receivable. With regard to cash, we maintain our excess cash balances in checking accounts at three financial institutions. We do not require collateral on our accounts receivable. Historically, we have not suffered significant losses with respect to accounts receivable.

Two customers accounted for 10% or more of our net sales for the three-month periods ended March 31, 2009 and 2008. G.E. s Medical and Transportation Divisions together accounted for 22% and 16% of net sales for the three-month periods ended March 31, 2009 and 2008, respectively. Accounts receivable from G.E. s Medical and Transportation Divisions represented 16% of total accounts receivable at March 31, 2009. Additionally, Northrop Grumman Corp. accounted for 13% and 20% of net sales for the three-month periods ended March 31, 2009 and 2008, respectively. Accounts receivable from Northrop Grumman Corp. at March 31, 2009 represented 11% of total accounts receivable.

NOTE 4. FINANCING ARRANGEMENTS

We have a credit agreement with Wells Fargo Bank, N.A. (WFB), which provides for a line of credit arrangement of \$15 million which expires, if not renewed, on June 30, 2010. The credit arrangement also has a real estate term note with a maturity date of May 31, 2012. Both the line of credit and real estate term note are subject to variations in LIBOR rates. On March 31, 2009, we had an outstanding balance of \$7.1 million under the line of credit and unused availability of \$4.7 million supported by the borrowing base level. The line of credit is secured by substantially all of our assets.

The line of credit and real estate term note with WFB contain certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. As of March 31, 2009, we are not in compliance with certain financial covenants. These covenant violations constitute an event of default under our current credit agreement and also result in a cross-default under our indebtedness related to the Blue Earth County Industrial Revenue Bond debt (Blue Earth) and the related interest rate swap. Although WFB is not presently exercising its rights and remedies available upon an event of default, it reserves its right to do so at any time in its sole discretion. As such, we have reclassified all outstanding debt with WFB and Blue Earth, including the fair value of the interest rate swap, as current on our March 31, 2009 balance sheet.

We are presently negotiating with WFB relating to a new financing agreement that we expect to be in place on or about May 31, 2009. However, we make no assurances that we will be able to obtain a waiver related to current or future covenant violations, refinance or replace our current financing agreements with terms and conditions acceptable to the Company.

NOTE 5. DERIVATIVE INSTRUMENTS AND HEDGING STRATEGIES

We are exposed to interest rate risk associated with fluctuations in the interest rates on our variable interest rate debt. In order to manage some of the risk, we have entered into an interest rate swap agreement with a notional amount of \$1.4 million with a goal to effectively convert our industrial revenue bond debt from a variable rate to a fixed rate of 4.07% for five years, maturing on June 28, 2011. The fair value of the swap

## Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

was determined based on LIBOR and swap rates, which fall within Level 2 in the fair value hierarchy of SFAS 157. The fair value of the swap of approximately \$64,000 was recorded as a current liability at March 31, 2009 (see Note 4). The fair value of the swap of approximately \$65,000 was recorded as a long-term liability at December 31, 2008. The \$1,000 change in fair value from December 31, 2008 was recorded as a component of interest expense for the quarter ended March 31, 2009.

Table of Contents

In March 2008, the FASB issued SFAS 161, *Disclosures about Derivative Instruments and Hedging Activities*, which was effective January 1, 2009. The adoption of SFAS 161 did not have a significant impact on our consolidated financial statements. SFAS 161 requires that objectives for using derivative instruments be disclosed in terms of underlying risk and accounting designation, in order to better convey the purpose of derivative use in terms of the risks that we are intending to manage. Management assessed and evaluated the new disclosure requirements as it relates to our interest rate swap used to hedge the cash flows for interest on certain of our long-term debt. We do not use its interest rate swap for speculative purposes.

**NOTE 6. NET INCOME (LOSS) PER COMMON SHARE**

The following is a reconciliation of the numerators and the denominators of the basic and diluted per common share computations.

	<b>For the three months ended March 31,</b>	
	<b>2009</b>	<b>2008</b>
<b><u>Basic Earnings Per Common Share</u></b>		
Net income (loss), as reported	\$ (1,289,218)	\$ 625,827
Weighted average common shares outstanding	2,738,955	2,705,389
Basic earnings (loss) per common share	\$ (0.47)	\$ 0.23
<b><u>Diluted Earnings Per Common Share</u></b>		
Net income (loss), as reported	\$ (1,289,218)	\$ 625,827
Weighted average common shares outstanding	2,738,955	2,705,389
Effect of Stock options		15,654
Effect of Restricted stock		8,660
Weighted average common shares for diluted earnings per common share	2,738,955	2,729,703
Diluted earnings (loss) per common share	\$ (0.47)	\$ 0.23

**For the three-month period ended March 31, 2009, the effect of all stock options is antidilutive due to the net loss incurred and, therefore, they were not included in the computation of per-share amounts. For the three-month period ended March 31, 2008, 119,636 shares were excluded from the computation of diluted earnings (loss) per common share because to include them would be antidilutive.**

**NOTE 7. INCOME TAXES**

On a quarterly basis, we estimate what our effective tax rate will be for the full fiscal year and record a quarterly income tax provision based on the anticipated rate. As the year progresses, we refine our estimate based on the facts and circumstances by each tax jurisdiction. The effective tax rates for the quarters ended March 31, 2009 and 2008 were 42% and 39%, respectively. Additional research and development credits impacted the current quarter.

Table of Contents

Effective January 1, 2007, we adopted FASB Interpretation No. 48 (FIN 48), Accounting for Uncertainty in Income Taxes. On adoption, we recognized a \$32,000 income tax liability for unrecognized tax benefits, which was accounted for as a cumulative change to opening retained earnings. At March 31, 2009 we had \$96,250 of net uncertain tax benefit positions that would reduce our effective income tax rate if recognized. Due to statute expiration, a decrease could occur with respect to this FIN 48 reserve of approximately \$40,000 during fiscal year 2009. This reserve, including associated interest, relates primarily to federal research tax credits taken in prior years.

NOTE 8. COMPREHENSIVE INCOME

Comprehensive income (loss) is comprised of net income (loss) and other comprehensive income (loss). Other comprehensive income (loss) includes gains and losses resulting from foreign currency translations. The details of comprehensive income are as follows:

	<b>Three Months Ended</b>	
	<b>March 31, 2009</b>	<b>March 31, 2008</b>
Net Income (Loss), as reported	\$ (1,289,218)	\$ 625,827
<b>Other Comprehensive Income (Loss):</b>		
Currency Translation Adjustment	(12,702)	14,146
Comprehensive Income (Loss)	\$ (1,301,920)	\$ 639,973

Table of Contents**ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS****Overview:**

We are a Wayzata, Minnesota based full-service Electronics Manufacturing Services (EMS) contract manufacturer of wire and cable assemblies, printed circuit board assemblies, higher-level assemblies and box builds for a wide range of industries. Major markets served include industrial equipment and transportation, vision, medical and military/defense. We have operating facilities in Baxter, Bemidji, Blue Earth, Fairmont and Merrifield, Minnesota, Garner, Iowa, Augusta, Wisconsin, and Monterrey, Mexico.

**Summary:**

For the quarter ended March 31, 2009, we reported net sales of \$21.6 million compared to \$31.2 million reported in the same quarter of 2008. Sales in the first quarter of 2009 were heavily impacted by the economic downturn as our customers reacted by canceling and delaying orders as well as adjusting their inventory levels to the current demand for their products. The gross profit percentage was 3.9% and 15.3% for the first quarter of 2009 and 2008, respectively. Our gross profits were impacted by volume shortfall, product mix and underutilization of our manufacturing facilities. Loss from operations for the first quarter of 2009 totaled \$2.1 million compared to operating income of \$1.2 million reported in the first quarter of 2008. Net loss for the first quarter of 2009 totaled \$1.3 million, or \$(0.47) per diluted common share compared to net income of \$0.6 million, or \$0.23 per diluted common share, reported in the first quarter of 2008.

**(1.) Results of Operations:**

The following table presents statement of operations data as percentages of total revenues for the periods indicated:

	Three Months Ended March 31	
	2009	2008
Net Sales	100.0%	100.0%
Cost of Goods Sold	96.1%	84.7%
Gross Profit	3.9%	15.3%
Selling Expenses	6.6%	4.3%
General and Administrative Expenses	7.2%	7.1%
Income (Loss) from Operations	-9.9%	3.9%
Other Expenses, Net	0.4%	0.7%
Income Tax Expense (Benefit)	-4.3%	1.2%
Net Income (Loss)	-6.0%	2.0%

Net Sales:

We reported net sales of \$21.6 million and \$31.2 million for the first quarters ended March 31, 2009 and 2008, respectively. Recent unfavorable economic conditions and uncertainty because of fluctuating circumstances in the global financial markets is impacting businesses around the globe. The global economic downturn has had a negative affect on demand for our customers products and thus has adversely affected our sales, resulting in a 41% sales decrease in Electronic Board Assembly, a 34% sales decrease in Cable and Wire, and a sales decrease of 17% in Aerospace Systems. Our 90-day order backlog as of March 31, 2009 was approximately \$15.2 million, compared to approximately \$18.2 million at the beginning of the quarter. We have seen increased customer order cancellations

Table of Contents

and reschedules over the past several months and anticipate this trend to continue into the second quarter.

Gross Profit:

Our gross profit for the first quarter of 2009 was \$0.8 million or 3.9% of net sales compared to gross profit of \$4.8 million or 15.3% of net sales for the first quarter of 2008. Our gross profits were impacted by our volume shortfall causing underutilization of our manufacturing facilities, as well as the mix of products and services. The manufacturing facilities have taken steps first at the end of January and again at the start of April to balance production resources and spending to current customer demand, including work force reductions, reduced management salaries, hiring and wage freezes, and reduced discretionary spending.

Selling Expense:

We had selling expenses of \$1.4 million or 6.6% of net sales for the first quarter of 2009 and \$1.3 million or 4.3% of net sales for the first quarter of 2008. The increase in selling expense as a percent of sales is mainly due to the shortfall in sales. It is our intent to maintain our sales infrastructure and marketing initiatives during the economic downturn in order to maintain a high level of customer service and expand our customer base as OEM's look to outsourcing and consolidation of their supply base to reduce their costs.

General and Administrative Expense:

Our general and administrative expenses were \$1.5 million or 7.2% of net sales for the first quarter of 2009 and \$2.2 million or 7.1% of net sales reported for the first quarter of 2008. The \$0.7 million decrease in general and administrative expenses for the quarter was the result of decreased personnel and discretionary spending levels as we adjust our cost structure to current customer demand levels.

Other Expense:

Other expenses, net were \$85,178 for the quarter ended March 31, 2009 compared to \$218,971 for the first quarter of 2008. The decrease in other expenses was mainly due to a decrease in interest expense as a result of lower interest rates.

Income Tax:

Income tax benefit for the three months ended March 31, 2009 was \$919,000 compared to an income tax expense of \$393,000 for the three months ended March 31, 2008. The effective tax rate of 42% for the first three months of 2009 is the result of higher than estimated research

and development credits for 2008. The annual effective tax rate for 2009 is expected to be approximately 39% which is consistent with the 2008 annual effective tax rate.

**(2.) Liquidity and Capital Resources:**

We have satisfied our liquidity needs over the past several years through revenue generated from operations and an operating line of credit through Wells Fargo Bank, N.A. (WFB). Both the line of credit and real estate term note are subject to variations in the LIBOR rates. The line of credit and real estate term note with WFB contain certain covenants which, among other things, require us to adhere to regular reporting requirements, abide by annual shareholder dividend limitations, maintain certain financial ratios, and limit the amount of annual capital expenditures. As of March 31, 2009, we are not in compliance with certain financial covenants. These covenant violations constitute an event of default under the current credit agreement and also result in a cross-default under our indebtedness related to the Blue Earth County Industrial Revenue Bond debt (Blue Earth). Although WFB is not presently exercising its rights and remedies available upon an event of default, it reserves its right to do so at any time in its sole discretion. As such, we have reclassified all outstanding debt with WFB

## Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

### Table of Contents

and Blue Earth, including the related interest rate swap, as current on our March 31, 2009 balance sheet.

We are presently negotiating with WFB relating to a new financing agreement that meets our current financial position and projected cash flows. We expect this agreement to be in place on or about May 31, 2009. However, we cannot be certain that we will be able to enter into a new financing agreement with terms favorable to Nortech given the current capital market conditions. As previously stated, we have implemented various cost-reduction and cash-management measures over the past several months, including employee layoffs, reducing management salaries, hiring and wage freezes, and cutting discretionary spending to adjust to the lower customer demand levels. We continue to focus our efforts on lowering inventory levels and collecting accounts receivable within terms in order to improve our cash position. We expect our working capital position and current availability under our existing line of credit will allow us to meet our future projected cash requirements.

The availability under our line is subject to borrowing base requirements, and advances are at the discretion of the lender. The line of credit is secured by substantially all of our assets. On March 31, 2009, we had an outstanding balance of \$7.1 million under the line of credit and unused availability of \$4.7 million supported by our borrowing base level.

The following unaudited ratios are not required under the SEC guidelines or accounting principles generally accepted in the United States of America, however, we believe they are meaningful measures and are useful to readers of our financial statements.

	March 31, 2009	December 31, 2008	December 31, 2007	December 31, 2006
Current Ratio (Current Assets / Current Liabilities)	1.43	1.74	1.68	1.63
Working Capital (Current Assets - Current Liabilities)	\$ 10,380,231	\$ 15,777,784	\$ 14,812,352	\$ 12,711,278
Quick Ratio (Cash + Accounts Receivable / Current Liabilities)	0.57	0.65	0.75	0.75
Accounts Receivable to Working Capital (Average Accounts Receivable/ Working Capital)	1.29	0.97	1.01	1.14
Inventory to Working Capital (Average Inventory/ Working Capital)	1.85	1.33	1.18	1.25

Our working capital of \$10.4 million as of March 31, 2009 decreased from \$15.8 million at December 31, 2008. In addition to the reclassification of outstanding WFB and Blue Earth debt from long-term to current liabilities, the working capital decrease can be attributed to decreases in inventories, which were offset by a decrease in accounts payable and increases in accounts receivable.

## Edgar Filing: NORTECH SYSTEMS INC - Form 10-Q

Net cash used in operating activities for the three months ended March 31, 2009 was \$3.1 million, which is up from the \$2.3 million of net cash used in operating activities for the three months ended March 31, 2008. The cash flow used in operations for the three months ended March 31, 2009 is the result of a net loss of \$1.3 million, adjusted for noncash adjustments including depreciation, amortization and stock-based compensation expense which combined totaled \$0.5 million in positive

Table of Contents

adjustments, plus the net change in operating assets and liabilities of \$2.3 million. A decrease in inventories of \$3.0 million offset by a decrease in accounts payable, income taxes payable, and accruals totaling \$5.1 million account for the majority of net cash used in the first quarter of 2009.

Net cash used in investing activities of \$0.2 million for the three months ended March 31, 2009 is comprised entirely of equipment purchases.

Net cash provided by financing activities for the three months ended March 31, 2009 was \$2.5 million, consisting primarily of line of credit advances of \$2.8 million, offset by principal payments on long-term debt.

(3.) Critical Accounting Policies and Estimates

Our significant accounting policies and estimates are summarized in Management's Discussion and Analysis of Financial Condition and Results of Operations in our Annual Report on Form 10-K for the year ended December 31, 2008. There have been no significant changes in these critical accounting policies since December 31, 2008, other than the adoption of SFAS 157 and 159 as discussed in Note 4 of the Condensed Notes to the Consolidated Financial Statements in this Form 10-Q. Some of our accounting policies require us to exercise significant judgment in selecting the appropriate assumptions for calculating financial estimates. Such judgments are subject to an inherent degree of uncertainty. These judgments are based on our historical experience, known trends in our industry, terms of existing contracts and other information from outside sources, as appropriate. Actual results could differ from these estimates.

(4.) Forward-Looking Statements:

Those statements in the foregoing report that are not historical facts are forward-looking statements made pursuant to the safe-harbor provisions of the Private Securities Litigation Reform Act of 1995. Such statements generally will be accompanied by words such as anticipate, believe, estimate, expect, forecast, intend, possible, potential, predict, project, or other similar words that convey the uncertainty of future outcomes. Although we believe these forward-looking statements are reasonable, they are based upon a number of assumptions concerning future conditions, any or all of which may ultimately prove to be inaccurate. Forward-looking statements involve a number of risks and uncertainties. Important factors that could cause actual results to differ materially from the forward-looking statements include, without limitation:

- **Volatility in the marketplace which may affect market supply and demand for our products;**
- **Increased competition;**

- **Increased competition;**

- **Changes in the reliability and efficiency of operating facilities or those of third parties;**
- Risks related to availability of labor;
- Increase in certain raw material costs such as copper;
- Commodity and energy cost instability;
- General economic, financial and business conditions that could affect our financial condition and results of operations.

The factors identified above are believed to be important factors (but not necessarily all of the important factors) that could cause actual results to differ materially from those expressed in any forward-looking statement made by us. Unpredictable or unknown factors not discussed herein could also have material adverse effects on forward-looking statements. All forward-looking statements included in this Form 10-Q are expressly qualified in their entirety by the forgoing cautionary statements. We undertake no obligations to update publicly any forward-looking statement (or its associated cautionary language) whether as a result of new information or future events.

Table of Contents

Please refer to forward-looking statements and risks as previously disclosed in our report on Form 10-K for fiscal year ended December 31, 2008.

**ITEM 3. CONTROLS AND PROCEDURES**

Evaluation of Disclosure Controls and Procedures:

In accordance with Rule 13a-15(b) of the Securities Exchange Act of 1934 (the Exchange Act), as of the end of the period covered by this Quarterly Report on Form 10-Q, our management evaluated, with the participation of our Chief Executive Officer and Executive Vice President and Chief Financial Officer, the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) under the Exchange Act). Based upon their evaluation of these disclosure controls and procedures, the Chief Executive Officer and Chief Financial Officer have concluded that the disclosure controls and procedures were effective as of the date of such evaluation in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting:

There was no change in our internal control over financial reporting that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.
