GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Organization and Basis of Presentation

Organization

Global Partners LP (the Partnership) is a publicly traded master limited partnership that engages in the wholesale and commercial distribution of refined petroleum products and small amounts of natural gas and provides ancillary services to companies.

The Partnership has five operating subsidiaries: Global Companies LLC, its subsidiary, Glen Hes Corp., Global Montello Group Corp., Chelsea Sandwich LLC and Global Energy Marketing LLC (Global Energy) (the five operating subsidiaries, collectively, the Companies). The Companies (other than Glen Hes Corp.) are wholly owned by Global Operating LLC, a wholly owned subsidiary of the Partnership. Global Energy was recently formed to expand the Partnership's natural gas operations. It is in the process of obtaining licensure and is not yet operational. In addition, GLP Finance Corp. (GLP Finance) is a wholly owned subsidiary of the Partnership. GLP Finance has no material assets or liabilities. Its activities will be limited to co-issuing debt securities and engaging in other activities incidental thereto.

The Partnership's 1.73% general partner interest is held by Global GP LLC, the Partnership's general partner (the General Partner). The General Partner, which is owned by affiliates of the Slifka family, manages the Partnership's operations and activities and employs its officers and substantially all of its personnel. The General Partner and affiliates of the General Partner, including its directors and executive officers, own 229,683 common units and 5,642,424 subordinated units, representing a combined 44.1% limited partner interest.

Basis of Presentation

Interim Financial Statements

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The accompanying consolidated financial statements as of September 30, 2009 and December 31, 2008 and for the three and nine months ended September 30, 2009 and 2008 reflect the accounts of the Partnership. All intercompany balances and transactions have been eliminated.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (GAAP) and reflect all adjustments (consisting of normal recurring adjustments) which are, in the opinion of management, necessary for a fair presentation of the financial condition and operating results for the interim periods. The interim financial information, which has been prepared pursuant to the rules and regulations of the Securities and Exchange Commission (SEC), should be read in conjunction with the consolidated financial statements for the year ended December 31, 2008 and notes thereto contained in the Partnership s Annual Report on Form 10-K. The results of operations for the three and nine months ended September 30, 2009 are not necessarily indicative of the results of operations that will be realized for the entire year ending December 31, 2009.

As demand for some of the Partnership s refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally greater during the winter months, sales are generally higher during the first and fourth quarters of the calendar year which may result in significant fluctuations in the Partnership s quarterly operating results.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 1. Organization and Basis of Presentation (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table presents the Partnership's products as a percentage of total sales for the periods presented:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Distillate sales	27%	31%	44%	44%
Gasoline sales	68%	65%	51%	52%
Residual oil sales	5%	4%	5%	4%
	100%	100%	100%	100%

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership had one customer, ExxonMobil Oil Corporation (ExxonMobil), who accounted for approximately 27% and 24% of total sales for the three months ended September 30, 2009 and 2008, respectively and approximately 22% and 21% of total sales for the nine months ended September 30, 2009 and 2008, respectively.

The consolidated balance sheet at December 31, 2008 has been derived from the audited consolidated financial statements and footnotes thereto included in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2008.

Reclassifications

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Certain prior year amounts in the consolidated financial statements have been reclassified to conform to the current year presentation.

Note 2. Net Income Per Limited Partner Unit

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

On January 1, 2009, the Partnership adopted guidance issued by the Financial Accounting Standards Board (FASB) to the calculation of earnings per share (in the Partnership's case, net income per limited partner unit). This guidance specifies the treatment of earnings per unit calculations when incentive distributions rights (IDRs) exist in master limited partnerships. This guidance further provides that net income for the current period is to be reduced by the amount of available cash that will be distributed with respect to that period for purposes of calculating net income per unit. Any residual amount representing undistributed net income (or losses) is assumed to be allocated to the ownership interests in accordance with the contractual provisions of the partnership agreement.

Under the Partnership's partnership agreement, for any quarterly period, the IDRs participate in net income only to the extent of the amount of cash distributions actually declared, thereby excluding the IDRs from participating in the Partnership's undistributed net income or losses. Accordingly, the Partnership's undistributed net income is assumed to be allocated to the common and subordinated unitholders, or limited partners' interest, and to the General Partner's interest.

On April 22, 2009, the board of directors of the General Partner declared a quarterly cash distribution of \$0.4875 per unit for the period from January 1, 2009 through March 31, 2009. On July 23, 2009, the board declared a quarterly cash distribution of \$0.4875 per unit for the period from April 1, 2009 through June 30, 2009. On October 21, 2009, the board declared a quarterly cash distribution of \$0.4875 per unit for the period from July 1, 2009 through September 30, 2009. These declared cash distributions resulted in incentive distributions to the General Partner, as the holder of the incentive distribution rights, as indicated above, and enabled the Partnership to reach its second target distribution with respect to such incentive distribution rights. See Note 9, Cash Distributions for further information.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 2. Net Income Per Limited Partner Unit (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table provides a reconciliation of net income and the assumed allocation of net income to the limited partners' interest for purposes of computing net income per limited partner unit for the three and nine months ended September 30, 2009 (in thousands, except per unit data):

Numerator:	Three months ended September 30, 2009			
	Total	Limited Partner Interest	General Partner Interest	IDRs
Net income	\$ 2,059	\$ 1,973	\$ 86	\$
Declared distribution	\$ 6,483	\$ 6,321	\$ 112	\$ 50
Assumed allocation of undistributed net income	(4,424)	(4,348)	(76)	
Assumed allocation of net income	\$ 2,059	\$ 1,973	\$ 36	\$ 50
 Denominator:				
Basic weighted average limited partner units outstanding		12,979		
Dilutive effect of phantom units		325		
Diluted weighted average limited partner units outstanding		13,304		
Basic net income per limited partner unit		\$ 0.15		
Diluted net income per limited partner unit		\$ 0.15		

Numerator:	Nine months ended September 30, 2009			
	Total	Limited Partner Interest	General Partner Interest	IDRs
Net income	\$ 21,900	\$ 21,371	\$ 529	\$
Declared distribution	\$ 19,522	\$ 19,036	\$ 336	\$ 150
Assumed allocation of undistributed net income	2,378	2,335	43	
Assumed allocation of net income	\$ 21,900	\$ 21,371	\$ 379	\$ 150
 Denominator:				
Basic weighted average limited partner units outstanding		13,037		
Dilutive effect of phantom units		297		
Diluted weighted average limited partner units outstanding		13,334		
Basic net income per limited partner unit		\$ 1.64		
Diluted net income per limited partner unit		\$ 1.60		

At September 30, 2009, limited partner units outstanding excluded common units held on behalf of the Partnership pursuant to its Repurchase Program and for future satisfaction of the General Partner's Obligations (as defined in Note 12). These units are not deemed outstanding for purposes of calculating net income per limited partner unit (basic and diluted).

The Partnership applied the guidance issued by the FASB on a retroactive basis which had an immaterial impact on the limited partners' interest in net income and net income per limited partner unit for the three and nine months ended September 30, 2008.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 2. Net Income Per Limited Partner Unit (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table provides a reconciliation of net income and the assumed allocation of net income to the limited partners' interest for purposes of computing net income per limited partner unit for the three and nine months ended September 30, 2008 (in thousands, except per unit data):

	Three months ended September 30, 2008			
	Total	Limited Partner Interest	General Partner Interest	IDRs

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 3. Comprehensive Income

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The components of comprehensive income consisted of the following (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net income	\$ 2,059	\$ 1,007	\$ 21,900	\$ 8,372
Change in fair value of interest rate collars	(674)	(251)	2,741	(367)
Change in pension liability	696	(756)	1,047	(1,537)
Total comprehensive income	\$ 2,081	\$	\$ 25,688	\$ 6,468

Note 4. Inventories

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership hedges substantially all of its inventory purchases through futures contracts and swap agreements. Hedges are executed when inventory is purchased and are identified with that specific inventory. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales. All hedged inventory is valued using the lower of cost, as determined by specific identification, or market. Prior to sale, hedges are removed from specific barrels of inventory, and the then unhedged inventory is sold and accounted for on a first-in, first-out basis.

Inventories consisted of the following (in thousands):

	September 30, 2009		December 31, 2008
Distillates: home heating oil, diesel and kerosene	\$ 327,982	\$	160,000
Residual oil	19,652		24,878
Gasoline	56,055		40,183
Blend stock	16,612		15,285
Total	\$ 420,301	\$	240,346

In addition to its own inventory, the Partnership has exchange agreements with unrelated third-party suppliers, whereby it may draw inventory from these other suppliers and suppliers may draw inventory from the Partnership. Positive exchange balances are accounted for as accounts receivable and amounted to \$14.4 million and \$14.8 million at September 30, 2009 and December 31, 2008, respectively. Negative exchange balances are accounted for as accounts payable and amounted to \$12.9 million and \$8.4 million at September 30, 2009 and December 31, 2008, respectively. Exchange transactions are valued using current quoted market prices.

Note 5. Derivative Financial Instruments

Accounting and reporting guidance for derivative instruments and hedging activities requires that an entity recognize derivatives as either assets or liabilities on the balance sheet and measure the instruments at fair value. Changes in the fair value of the derivative are to be recognized currently in earnings, unless specific hedge accounting criteria are met.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

On January 1, 2009, the Partnership adopted additional guidance issued by the FASB which requires the Partnership to provide enhanced disclosures about (a) how and why the Partnership uses derivative instruments, (b) how derivative instruments and related hedged items are accounted for, and (c) how derivative instruments and related hedged items affect the Partnership's financial position, financial performance and cash flows.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 5. Derivative Financial Instruments (continued)

The following table presents the volume of activity related to the Partnership's derivative financial instruments at September 30, 2009:

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

	Units(1)	Unit of Measure
Oil Contracts		
Long	12,570	Thousands of barrels
Short	(16,751)	Thousands of barrels
Natural Gas Contracts		
Long	16,753	Thousands of decatherms
Short	(16,753)	Thousands of decatherms
Interest Rate Collars	\$ 200	Thousands of dollars

(1) Number of open positions and gross notional amounts do not quantify risk or represent assets or liabilities of the Partnership, but are used in the calculation of cash settlements under the contracts.

Fair Value Hedges

The fair value of the Partnership's derivatives is determined through the use of independent markets and is based upon the prevailing market prices of such instruments at the date of valuation. The Partnership enters into futures contracts for the receipt or delivery of refined petroleum products in future periods. The contracts are entered into in the normal course of business to reduce risk of loss of inventory on hand, which could result through fluctuations in market prices. Changes in the fair value of these contracts, as well as the offsetting gain or loss on the hedged inventory item, are recognized in earnings as an increase or decrease in cost of sales. Ineffectiveness related to these hedging activities was immaterial at September 30, 2009.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership also uses futures contracts and swap agreements to hedge exposure under forward purchase and sale commitments. These agreements are intended to hedge the cost component of virtually all of the Partnership's forward purchase and sale commitments. Changes in the fair value of these contracts, as well as offsetting gains or losses on the forward fixed price purchase and sale commitments, are recognized in earnings as an increase or decrease in cost of sales. Gains and losses on net product margin from forward fixed price purchase and sale contracts are reflected in earnings as an increase or decrease in cost of sales as these contracts mature. Ineffectiveness related to these hedging activities was immaterial at September 30, 2009.

Note 5. Derivative Financial Instruments (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table presents the gross fair values of the Partnership's derivative instruments and firm commitments and their location in the Partnership's consolidated balance sheets at September 30, 2009 and December 31, 2008 (in thousands):

Derivatives	Balance Sheet Location (Net)	Assets		Balance Sheet Location (Net)	Liabilities	
		September 30, 2009 Fair Value	December 31, 2008 Fair Value		September 30, 2009 Fair Value	December 31, 2008 Fair Value
<i>Derivatives designated as hedging instruments and firm commitments</i>						
Oil product contracts(1)	(2)	\$ 34,455	\$ 207,370	(3)	\$ 43,737	\$ 49,640
<i>Derivatives not designated as hedging instruments</i>						
Oil product and natural gas contracts	(2)	8,262	14,606	Accrued expenses and other current liabilities	7,450	14,666
Total derivatives		\$ 42,717	\$ 221,976		\$ 51,187	\$ 64,306

(1) Includes forward fixed price purchase and sale contracts as recognized in the Partnership's consolidated balance sheets at September 30, 2009 and December 31, 2008.

(2) Fair value of forward fixed price contracts, prepaid expenses and other current assets and accrued and other current liabilities

(3) Obligations on forward fixed price contracts and accrued expenses and other current liabilities

The following table presents the amount of gains and losses from derivatives involved in fair value hedging relationships recognized in the Partnership's consolidated statements of income for the three and nine months ended September 30, 2009 and 2008 (in thousands):

Derivatives in Fair Value Hedging Relationship	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Income on Derivatives Three Months Ended		Hedged Items in Fair Value Hedge Relationships	Location of Gain (Loss) Recognized in Income on Related Hedged Item	Amount of Gain (Loss) Recognized in Income on Hedged Items Three Months Ended	
		September 30, 2009	September 30, 2008			September 30, 2009	September 30, 2008
Oil product contracts	Cost of sales	\$ (876)	\$ 96,559	Inventories and forward fixed price contracts	Cost of sales	\$ 879	\$ (96,945)

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 5. Derivative Financial Instruments (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Derivatives in Fair Value Hedging Relationship	Location of Gain (Loss) Recognized in Income on Derivative	Amount of Gain (Loss) Recognized in Income on Derivatives		Hedged Items in Fair Value Hedge Relationships	Location of Gain (Loss) Recognized in Income on Related Hedged Item	Amount of Gain (Loss) Recognized in Income on Hedged Items	
		Nine Months Ended September 30, 2009	Nine Months Ended September 30, 2008			Nine Months Ended September 30, 2009	Nine Months Ended September 30, 2008
Oil product contracts	Cost of sales	\$ (200,478)	\$ 13,673	Inventories and forward fixed price contracts	Cost of sales	\$ 201,126	\$ (13,745)

The Partnership's derivative financial instruments do not contain credit-risk-related or other contingent features that could cause accelerated payments when these financial instruments are in net liability positions.

The table below presents the composition and fair value of forward fixed price purchase and sale contracts on the Partnership's consolidated balance sheet being hedged by the following derivative instruments (in thousands):

	September 30, 2009	December 31, 2008
Futures contracts, net	\$ (5,760)	\$ 138,741
Swaps and other, net	(2,431)	15,092
Total	\$ (8,191)	\$ 153,833

The total balances of \$(8.2 million) and \$153.8 million reflect the fair value of the forward fixed price contract (liability)/asset net of the corresponding asset/(liability) on the accompanying consolidated balance sheets at September 30, 2009 and December 31, 2008, respectively.

The Partnership also markets and sells natural gas. The Partnership generally conducts business by entering into forward purchase commitments for natural gas only when it simultaneously enters into arrangements for the sale of product for physical delivery to third-party users. The Partnership generally takes delivery under its purchase commitments at the same location as it delivers to third-party users. Through these transactions, which establish an immediate margin, the Partnership seeks to maintain a position that is substantially balanced between firm forward purchase and sales commitments. Natural gas is generally purchased and sold at fixed prices and quantities. Current price quotes from actively traded markets are used in all cases to determine the contracts' fair value. Changes in the fair value of these contracts are recognized in earnings as an increase or decrease in cost of sales.

The Partnership formally documents all relationships between hedging instruments and hedged items after its risk management objectives and strategy for undertaking the hedge are determined. The Partnership calculates hedge effectiveness on a quarterly basis. This process includes specific identification of the hedging instrument and the hedged transaction, the nature of the risk being hedged and how the hedging instrument's effectiveness will be assessed. Both at the inception of the hedge and on an ongoing basis, the Partnership assesses whether the derivatives that are used in hedging transactions are highly effective in offsetting changes in fair value of hedged items. The derivative instruments that qualify for hedge accounting are fair value hedges.

The Partnership has a daily margin requirement with its broker based on the prior day's market results on open futures contracts. The required brokerage margin balance was \$5 thousand and \$9.0 million at September 30, 2009 and December 31, 2008, respectively.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 5. Derivative Financial Instruments (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership is exposed to credit loss in the event of nonperformance by counterparties of forward purchase and sale commitments, futures contracts, options and swap agreements, but the Partnership has no current reason to expect any material nonperformance by any of these counterparties. Futures contracts, the primary derivative instrument utilized by the Partnership, are traded on regulated exchanges, greatly reducing potential credit risks. The Partnership utilizes primarily one clearing broker, a major financial institution, for all New York Mercantile Exchange (NYMEX) derivative transactions and the right of offset exists. Accordingly, the fair value of all derivative instruments is presented on a net basis on the consolidated balance sheets. Exposure on forward purchase and sale commitments, swap and certain option agreements is limited to the amount of the recorded fair value as of the balance sheet dates.

The Partnership generally enters into master netting arrangements to mitigate counterparty credit risk with respect to its derivatives. Master netting arrangements are standardized contracts that govern all specified transactions with the same counterparty and allow the Partnership to terminate all contracts upon occurrence of certain events, such as a counterparty's default or bankruptcy. Because these arrangements provide the right of offset, and the Partnership's intent and practice is to offset amounts in the case of contract terminations, the Partnership records fair value of derivative positions on a net basis in accordance with guidance issued by the FASB.

Cash Flow Hedges

The Partnership links all hedges that are designated as cash flow hedges to forecasted transactions. To the extent such hedges are effective, the changes in the fair value of the derivative instrument is reported as a component of other comprehensive income and reclassified into interest expense in the same period during which the hedged transaction affects earnings.

The Partnership executed two zero premium interest rate collars with major financial institutions. Each collar is designated as a cash flow hedge and accounted for in accordance with guidance issued by the FASB. The first collar, which became effective on May 14, 2007 and expires on May 14, 2011, is used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings. Under the first collar, the Partnership capped its exposure at a maximum three-month LIBOR rate of 5.75% and established a minimum floor rate of 3.75%. As of September 30, 2009, the three-month LIBOR rate of 0.45% was lower than the floor rate. As a result, in November 2009, the Partnership will remit to the respective financial institution the difference between the floor rate and the current rate which amounted to approximately \$440,000 and, at September 30, 2009, was recorded in accrued expenses and other current liabilities on the accompanying consolidated balance sheet. As of September 30, 2009, the fair value of the first collar was a liability of approximately \$4.4 million and was recorded in both other long-term liabilities and accumulated other comprehensive income. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively. The changes in the fair value of the first collar are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the three-month LIBOR rate above and below the first collar's strike rates. Ineffectiveness related to the first collar was immaterial at September 30, 2009.

On September 29, 2008, the Partnership executed its second zero premium interest rate collar. The second collar, which became effective on October 2, 2008 and expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on the Partnership's \$100.0 million one-month LIBOR-based borrowings (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate. Under the second collar, the Partnership capped its exposure at a maximum one-month LIBOR rate of 5.50% and established a minimum floor rate of 2.70%. As of September 30, 2009, the one-month LIBOR rate of 0.26% was lower than the floor rate. As a result, in October 2009, the Partnership remitted to the respective financial institution the difference between the floor rate and the current rate which amounted to approximately \$196,700 and, at September 30, 2009, was recorded in accrued expenses and other current liabilities on the accompanying consolidated balance sheet. As of September 30, 2009, the fair value of the second collar was a liability of approximately \$3.7 million and was recorded in both other long-term liabilities and

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 5. Derivative Financial Instruments (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

accumulated other comprehensive income in the accompanying consolidated balance sheet. Hedge effectiveness was assessed at inception and is assessed quarterly, prospectively and retrospectively, using the regression analysis. The changes in the fair value of the second collar are expected to be highly effective in offsetting the changes in interest rate payments attributable to fluctuations in the one-month LIBOR rate above and below the second collar's strike rates. Ineffectiveness related to the second collar was immaterial at September 30, 2009.

The following table presents the fair value of the Partnership's derivative instruments and their location in the Partnership's consolidated balance sheets at September 30, 2009 and December 31, 2008 (in thousands):

Derivatives	Balance Sheet Location	Assets	December 31,	Balance Sheet Location	Liabilities	December 31,
		September 30, 2009 Fair Value	2008 Fair Value		September 30, 2009 Fair Value	2008 Fair Value
<i>Derivatives designated as hedging instruments</i>						
Interest rate collars		\$	\$	Other long-term liabilities	\$ 8,105	\$ 10,846

The following table presents the amount of gains and losses from derivatives involved in cash flow hedging relationships recognized in the Partnership's consolidated statements of income for the three and nine months ended September 30, 2009 and 2008 (in thousands):

Derivatives in Cash Flow Hedging Relationship	Amount of Gain (Loss) Recognized in Other Comprehensive Income on Derivatives		Recognized in Income on Derivatives (Ineffectiveness Portion and Amount Excluded from Effectiveness Testing)	
	Three Months Ended		Three Months Ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
Interest rate collars	\$ (674)	\$ (251)	\$	\$

Derivatives in Cash Flow Hedging Relationship	Amount of Gain (Loss) Recognized in Other Comprehensive Income on Derivatives		Recognized in Income on Derivatives (Ineffectiveness Portion and Amount Excluded from Effectiveness Testing)	
	Nine Months Ended		Nine Months Ended	
	September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
Interest rate collars	\$ 2,741	\$ (367)	\$	\$

Ineffectiveness related to the interest rate collars is recognized as interest expense and was immaterial at September 30, 2009. The effective portion related to the interest rate collars that was originally reported in other comprehensive income and reclassified to earnings was \$1.4 million and \$3.7 million for the three and nine months ended September 30, 2009, respectively.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 5. Derivative Financial Instruments (continued)

Derivatives Not Involved in a Hedging Relationship

While the Partnership seeks to maintain a position that is substantially balanced within its product purchase activities, it may experience net unbalanced positions for short periods of time as a result of variances in daily sales and transportation and delivery schedules as well as logistical issues associated with inclement weather conditions. In connection with managing these positions and maintaining a constant presence in the marketplace, both necessary for its business, the Partnership engages in a controlled trading program for up to an aggregate of 250,000 barrels of refined petroleum products at any one point in time.

The following table presents the amount of gains and losses from derivatives not involved in a hedging relationship recognized in the Partnership's consolidated statements of income for the three and nine months ended September 30, 2009 and 2008 (in thousands):

Derivatives Not Designated as Hedging Instruments	Location of Gain (Loss) Recognized in Income on Derivatives	Amount of Gain (Loss) Recognized in Income on Derivatives Three Months Ended		Amount of Gain (Loss) Recognized in Income on Derivatives Nine Months Ended	
		September 30, 2009	September 30, 2008	September 30, 2009	September 30, 2008
Oil product contracts	Cost of sales	\$ 2,402	\$ 3,030	\$ 8,154	\$ 7,533

Note 6. Debt

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership has a senior secured credit agreement (the Credit Agreement) with total available commitments of \$750.0 million. There are three facilities under the Credit Agreement:

- a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of the Partnership's borrowing base and \$650.0 million; the \$650.0 million includes two \$50.0 million seasonal overline facilities that are available each year only during the period between September 1 and June 30;
- an \$85.0 million acquisition facility to be used for funding acquisitions similar to the Partnership's business line that have a purchase price of \$25.0 million or less or \$35.0 million or less in the aggregate in any 12-month period; and
- a \$15.0 million revolving credit facility to be used for general purposes, including payment of distributions to the Partnership's unitholders.

In addition, the Credit Agreement has an accordion feature whereby the Partnership may request on the same terms and conditions of its then existing Credit Agreement, provided no Event of Default (as defined in the Credit Agreement) then exists, an increase to: (1) the acquisition facility by up to another \$50.0 million, for a total acquisition facility of up to \$135.0 million; and (2) the working capital revolving credit facility by up to another \$200.0 million, for a total working capital revolving credit facility of up to \$850.0 million. Any such request for an increase by the Partnership must be in a minimum amount of \$5.0 million, and no more than three such requests may be made for each facility. The Partnership, however, cannot provide assurance that its lending group will agree to fund any request by the Partnership for additional amounts in excess of the total available commitments of \$750.0 million.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 6. Debt (continued)

Availability under the Partnership's working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time and based on specific advance rates on eligible current assets. Under the Credit Agreement, the Partnership can borrow only up to the level of its then current borrowing base. Availability under the Partnership's borrowing base may be affected by events beyond the Partnership's control, such as changes in refined petroleum product prices, collection cycles, counterparty performance, advance rates and limits and deteriorating economic conditions. These and other events could require the Partnership to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. The Partnership can provide no assurance that such waivers, amendments or alternative financing could be obtained or, if obtained, would be on terms acceptable to the Partnership.

During the period from January 1, 2008 through July 20, 2008, borrowings under the Partnership's working capital revolving credit, acquisition and revolving credit facilities bore interest at the Partnership's option at (1) the Eurodollar rate, plus 1%, 1½% and 1½%, respectively, (2) the cost of funds rate, plus 1%, 1¾% and 1½%, respectively, or (3) the bank's base rate.

Commencing July 21, 2008, borrowings under the working capital revolving credit facility bear interest at (1) the Eurodollar rate plus 1.75% to 2.25%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the Credit Agreement, as amended, which in turn depends upon the Combined Interest Coverage Ratio (as such term is defined in the Credit Agreement). Commencing July 21, 2008, borrowings under the acquisition and revolving credit facilities bear interest at (1) the Eurodollar rate plus 2.25% to 2.75%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the Credit Agreement, as amended, which in turn depends upon the Combined Interest Coverage Ratio. The average interest rates were approximately 3.5% and 4.5% for the three months ended September 30, 2009 and 2008, respectively, and 3.7% and 4.3% for the nine months ended September 30, 2009 and 2008, respectively.

In addition, the Partnership executed two zero premium interest rate collars with major financial institutions. The first collar, which became effective on May 14, 2007, is used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings. The second collar, which became effective on October 2, 2008, is used to hedge the variability in cash flows in monthly interest payments made on the Partnership's \$100.0 million one-month LIBOR-based borrowings (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate (see Note 5 for further discussion on the interest rate collars).

The Partnership incurs a letter of credit fee of 1.75% per annum for each letter of credit issued. In addition, the Partnership incurs a commitment fee on the unused portion of the three facilities under the Credit Agreement (including the unused portion of either of the seasonal overline facilities exercised by the Partnership) equal to 0.3% to 0.375% per annum, depending on the pricing level and the Combined Interest Coverage Ratio provided in the Credit Agreement. The Partnership also incurs a facility fee of 0.1% per annum on any unexercised seasonal overline facility during the period between September 1 and June 30 and a seasonal overline fee of \$30,000 each time the Partnership elects to exercise either of the seasonal overline facilities.

The Credit Agreement will mature on April 22, 2011. The Partnership classifies a portion of its working capital revolving credit facility as a long-term liability because the Partnership has a multi-year, long-term commitment from its bank group. The long-term portion of the working capital revolving credit facility was \$254.2 million and \$154.1 million at September 30, 2009 and December 31, 2008, respectively, representing the amounts expected to be outstanding during the year. In addition, the Partnership classifies a portion of its working capital revolving credit facility as a current liability because it repays amounts outstanding and reborrows funds based on its working capital requirements. The current portion of the working capital revolving credit facility was approximately \$113.5 million and \$208.2 million at September 30, 2009 and December 31, 2008, respectively, representing the amounts the Partnership expects to pay down during the course of the year.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 6. Debt (continued)

As of September 30, 2009, the Partnership had total borrowings outstanding under the Credit Agreement of \$438.9 million, including \$71.2 million outstanding on the acquisition facility. In addition, the Partnership had outstanding letters of credit of \$64.5 million. The total remaining availability for borrowings and letters of credit at September 30, 2009 and December 31, 2008 was \$246.6 million and \$211.3 million, respectively.

The Credit Agreement is secured by substantially all of the assets of the Partnership and each of the Companies and is guaranteed by the General Partner. The Credit Agreement imposes certain requirements including, for example, a prohibition against distributions if any potential default or Event of Default (as defined in the Credit Agreement) would occur, and limitations on the Partnership's ability to grant liens, make certain loans or investments, incur additional indebtedness or guarantee other indebtedness, make any material change to the nature of the Partnership's business or undergo a fundamental change, make any material dispositions, acquire another company, enter into a merger, consolidation, sale leaseback transaction or purchase of assets, or make capital expenditures in excess of specified levels.

The Credit Agreement imposes financial covenants that require the Partnership to maintain certain minimum working capital amounts, capital expenditure limits, a minimum EBITDA ratio, a minimum combined interest coverage ratio and a maximum leverage ratio. The Partnership was in compliance with the foregoing covenants at September 30, 2009. The Credit Agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the Credit Agreement).

The Credit Agreement also requires that in each calendar year, the outstanding amount under the working capital revolving credit facility must be equal to or less than \$263.0 million for a period of ten consecutive calendar days. The Partnership has complied with this provision for the year ending December 31, 2009.

The Credit Agreement limits distributions by the Partnership to its unitholders to the amount of the Partnership's available cash and permits borrowings to fund such distributions only under the \$15.0 million revolving credit facility. The revolving credit facility is subject to an annual clean-down period, requiring the Partnership to reduce the amount outstanding under the revolving credit facility to \$0 for 30 consecutive calendar days in each calendar year. The Partnership has complied with this provision for the year ending December 31, 2009.

The lending group under the Credit Agreement includes the following institutions: Bank of America, N.A.; Standard Chartered Bank; JPMorgan Chase Bank, N.A.; Societe Generale; RBS Citizens, National Association; Sovereign Bank; Fortis Capital Corp.; Webster Bank National Association; KeyBank National Association; TD Bank, N.A. (f/k/a TD BankNorth, N.A.); Wells Fargo Bank, N.A.; Wachovia Bank, National Association; and Calyon New York Branch.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 7. Employee Benefit Plan with Related Party

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The General Partner employs substantially all of the Partnership's employees and charges the Partnership for their services. The Partnership also reimburses the General Partner for its contributions under the General Partner's 401(k) Savings and Profit Sharing Plan and the General Partner's qualified and non-qualified pension plans. The Partnership's net periodic benefit cost for the defined benefit pension plan consisted of the following components (in thousands):

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Service cost	\$ 325	\$ 265	\$ 975	\$ 796
Interest cost	230	200	687	600
Expected return on plan assets	(161)	(166)	(482)	(496)
Recognized net actuarial loss	48	1	144	1
Net periodic benefit cost	\$ 442	\$ 300	\$ 1,324	\$ 901

Note 8. Related Party Transactions

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership is a party to a Second Amended and Restated Terminal Storage Rental and Throughput Agreement with Global Petroleum Corp. (GPC), an affiliate of the Partnership, which extends through December 2013 with annual renewal options thereafter. The agreement is accounted for as an operating lease. The expenses under this agreement totaled approximately \$2.1 million and \$2.2 million for the three months ended September 30, 2009 and 2008, respectively, and approximately \$6.3 million and \$6.4 million for the nine months ended September 30, 2009 and 2008, respectively.

Pursuant to an Amended and Restated Services Agreement with GPC, GPC provides certain terminal operating management services to the Partnership and uses certain administrative, accounting and information processing services of the Partnership. The expenses from these services totaled approximately \$18,500 and \$21,500 for the three months ended September 30, 2009 and 2008, respectively, and approximately \$55,000 and \$64,500 for the nine months ended September 30, 2009 and 2008, respectively. These charges were recorded in selling, general and administrative expenses in the accompanying consolidated statements of income. The agreement is for an indefinite term, and either party may terminate its receipt of some or all of the services thereunder upon 180 days notice at any time after January 1, 2009. As of September 30, 2009, no such notice of termination was given by either party.

Pursuant to the Partnership's Amended and Restated Services Agreement with Alliance Energy LLC (formerly known as Alliance Energy Corp.) (Alliance), the Partnership also provides certain administrative, accounting and information processing services, and the use of certain facilities, to Alliance, an affiliate of the Partnership that is wholly owned by AE Holdings Corp., which is approximately 95% owned by members of the Slifka family. The income from these services was approximately \$95,500 and \$216,500 for the three months ended September 30, 2009 and 2008, respectively, and \$286,500 and \$649,500 for the nine months ended September 30, 2009 and 2008, respectively. These fees were recorded as an offset to selling, general and administrative expenses in the accompanying consolidated statements of income. The agreement extends through January 1, 2010.

The Partnership sells refined petroleum products to Alliance at prevailing market prices at the time of delivery. Sales to Alliance were approximately \$5.7 million for each of the three months ended September 30, 2009 and 2008, and \$12.3 million and \$25.1 million for the nine months ended September 30, 2009 and 2008, respectively.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 8. Related Party Transactions (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The General Partner employs substantially all of the Partnership's employees and charges the Partnership for their services. The expenses for the three months ended September 30, 2009 and 2008, including payroll, payroll taxes and bonus accruals, were \$9.2 million and \$6.5 million, respectively, and \$29.1 million and \$20.9 million for the nine months ended September 30, 2009 and 2008, respectively. The Partnership also reimburses the General Partner for its contributions under the General Partner's 401(k) Savings and Profit Sharing Plan and the General Partner's qualified and non-qualified pension plans.

The table below presents trade receivables with Alliance, receivables incurred in connection with the services agreements between Alliance and the Partnership and GPC and the Partnership, as the case may be, and receivables from the General Partner (in thousands):

	September 30, 2009		December 31, 2008
Receivables from Alliance	\$ 1,251	\$	383
Receivables from GPC	207		325
Receivables from the General Partner (1)	3,263		1,810
Total	\$ 4,721	\$	2,518

(1) Receivables from the General Partner reflect the Partnership's prepayment of payroll taxes and payroll accruals to the General Partner.

Note 9. Cash Distributions

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership intends to consider regular cash distributions to unitholders on a quarterly basis, although there is no assurance as to the future cash distributions since they are dependent upon future cash flows, capital requirements, financial condition and other factors. The Credit Agreement prohibits the Partnership from making cash distributions if any potential default or event of default, as defined in the Credit Agreement, occurs or would result from the cash distribution.

Within 45 days after the end of each quarter, the Partnership will distribute all of its available cash (as defined in its partnership agreement) to unitholders of record on the applicable record date. The amount of available cash is all cash on hand at the end of the quarter; plus all cash on hand on the date of determination of available cash for the quarter resulting from working capital borrowings made after the end of the quarter; less the amount of cash reserves established by the General Partner to provide for the proper conduct of the Partnership's business, to comply with applicable law, any of the Partnership's debt instruments, or other agreements or to provide funds for distributions to unitholders and to the General Partner for any one or more of the next four quarters. Working capital borrowings are generally borrowings that are made under the Credit Agreement and in all cases are used solely for working capital purposes or to pay distributions to partners.

The Partnership will make distributions of available cash from operating surplus for any quarter during the subordination period as defined in its partnership agreement in the following manner: firstly, 98.27% to the common unitholders, pro rata, and 1.73% to the General Partner, until the Partnership distributes for each outstanding common unit an amount equal to the minimum quarterly distribution for that quarter; secondly, 98.27% to the common unitholders, pro rata, and 1.73% to the General Partner, until the Partnership distributes for each outstanding common unit an amount equal to any arrearages in payment of the minimum quarterly distribution on the common units for any prior quarters during the subordination period; thirdly, 98.27% to the subordinated unitholders, pro rata, and 1.73% to the General Partner, until the Partnership distributes for each subordinated unit an amount equal to the minimum quarterly distribution for that quarter; and thereafter, cash in excess of the minimum quarterly distributions is distributed to the unitholders and the General Partner, as the holder of the incentive distribution rights, based on the percentages as provided below.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 9. Cash Distributions (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

As the holder of the incentive distribution rights, the General Partner is entitled to incentive distributions if the amount that the Partnership distributes with respect to any quarter exceeds specified target levels shown below:

	Total Quarterly Distribution Target Amount	Marginal Percentage Interest in Distributions	
		Unitholders	General Partner
Minimum Quarterly Distribution	\$0.4125	98.27%	1.73%
First Target Distribution	Up to \$0.4625	98.27%	1.73%
Second Target Distribution	above \$0.4625 up to \$0.5375	85.27%	14.73%
Third Target Distribution	above \$0.5375 up to \$0.6625	75.27%	24.73%
Thereafter	above \$0.6625	50.27%	49.73%

The Partnership paid the following cash distribution during 2009 (in thousands, except per unit data):

Cash Distribution Payment Date	Per Unit Cash Distribution	Common Units	Subordinated Units	General Partner	Incentive Distribution	Total Cash Distribution
02/13/09(1)	\$0.4875	\$3,621	\$2,751	\$112	\$ 50	\$ 6,534
05/15/09(2)	\$0.4875	\$3,621	\$2,751	\$112	\$ 50	\$ 6,534
08/14/09(3)	\$0.4875	\$3,621	\$2,751	\$112	\$ 50	\$ 6,534

(1) This distribution of \$0.4875 per unit resulted in the Partnership reaching its second target distribution for the fourth quarter of 2008. As a result, the General Partner, as the holder of the IDRs, received this additional incentive distribution.

(2) This distribution of \$0.4875 per unit resulted in the Partnership reaching its second target distribution for the first quarter of 2009. As a result, the General Partner, as the holder of the IDRs, received this additional incentive distribution.

(3) This distribution of \$0.4875 per unit resulted in the Partnership reaching its second target distribution for the second quarter of 2009. As a result, the General Partner, as the holder of the IDRs, received this additional incentive distribution.

In addition, on October 21, 2009, the board of directors of the General Partner declared a quarterly cash distribution of \$0.4875 per unit for the period from July 1, 2009 through September 30, 2009 (\$1.95 per unit on an annualized basis). On November 13, 2009, the Partnership will pay this cash distribution to its common and subordinated unitholders of record as of the close of business November 4, 2009. This distribution will result in the Partnership reaching its second target distribution for the quarter ended September 30, 2009.

Note 10. Segment Reporting

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership is a wholesale and commercial distributor of gasoline, distillates and residual oil whose business is organized within two operating segments, Wholesale and Commercial, based on the way the chief operating decision maker (CEO) manages the business and on the similarity of customers and expected long-term financial performance of each segment. The accounting policies of the segments are the same as those described in Note 2, Summary of Significant Accounting Policies, in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2008.

In the Wholesale segment, the Partnership sells gasoline, home heating oil, diesel, kerosene and residual oil to unbranded retail gasoline stations and other resellers of transportation fuels, home heating oil retailers and wholesale distributors. Generally, customers use their own vehicles or contract carriers to take delivery of the product at bulk terminals and inland storage facilities that the Partnership owns or controls or with which it has throughput arrangements.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 10. Segment Reporting (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Commercial segment includes (1) sales and deliveries of unbranded gasoline, home heating oil, diesel, kerosene, residual oil and small amounts of natural gas to customers in the public sector and to large commercial and industrial customers, either through a competitive bidding process or through contracts of various terms, and (2) sales of custom blended distillates and residual oil delivered by barges or from a terminal dock through bunkering activity. Commercial segment customers include federal and state agencies, municipalities, large industrial companies, many autonomous authorities such as transportation authorities and water resource authorities, colleges and universities and a limited group of small utilities. Unlike the Wholesale segment, in the Commercial segment, the Partnership generally arranges the delivery of the product to the customer's designated location, typically hiring third-party common carriers to deliver the product.

The Partnership evaluates segment performance based on net product margins before allocations of corporate and indirect operating costs, depreciation, amortization (including non-cash charges) and interest. Based on the way the CEO manages the business, it is not reasonably possible for the Partnership to allocate the components of operating costs and expenses between the reportable segments. Additionally, due to the commingled nature and uses of the Partnership's assets, it is not reasonably possible for the Partnership to allocate assets between the two segments. There were no intersegment sales for any of the periods presented below.

Summarized financial information for the Partnership's reportable segments is presented in the table below (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Wholesale Segment:				
Sales				
Distillates	\$ 329,362	\$ 677,381	\$ 1,741,038	\$ 3,164,368
Gasoline	871,770	1,468,790	2,093,759	3,727,534
Residual oil	6,594	23,765	23,937	67,342
Total	\$ 1,207,726	\$ 2,169,936	\$ 3,858,734	\$ 6,959,244
Net product margin (1)				
Distillates	\$ 15,456	\$ 12,001	\$ 62,786	\$ 44,422
Gasoline	10,999	13,554	34,912	32,522
Residual oil	1,814	412	6,928	7,542
Total	\$ 28,269	\$ 25,967	\$ 104,626	\$ 84,486
Commercial Segment:				
Sales	\$ 77,605	\$ 102,143	\$ 260,701	\$ 331,536
Net product margin (1)	\$ 3,717	\$ 2,460	\$ 11,241	\$ 7,389
Combined sales and net product margin:				
Sales	\$ 1,285,331	\$ 2,272,079	\$ 4,119,435	\$ 7,290,780
Net product margin (1)	\$ 31,986	\$ 28,427	\$ 115,867	\$ 91,875
Depreciation allocated to cost of sales	2,713	2,499	8,091	7,658
Combined gross profit	\$ 29,273	\$ 25,928	\$ 107,776	\$ 84,217

(1) Net product margin is a non-GAAP financial measure used by management and external users of the Partnership's consolidated financial statements to assess the Partnership's business. The table above reconciles net product margin on a combined basis to gross profit, a directly comparable GAAP measure.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 10. Segment Reporting (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

A reconciliation of the totals reported for the reportable segments to the applicable line items in the consolidated financial statements is as follows (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Combined gross profit	\$ 29,273	\$ 25,928	\$ 107,776	\$ 84,217
Operating costs and expenses not allocated to reportable segments:				
Selling, general and administrative expenses	13,859	10,457	45,233	31,712
Operating expenses	8,666	8,429	26,278	26,225
Amortization expenses	747	738	2,350	2,199
Total operating costs and expenses	23,272	19,624	73,861	60,136
Operating income	6,001	6,304	33,915	24,081
Interest expense	(3,742)	(5,297)	(10,940)	(15,414)
Income tax expense	(200)		(1,075)	(295)
Net income	\$ 2,059	\$ 1,007	\$ 21,900	\$ 8,372

There were no foreign sales for the three and nine months ended September 30, 2009 and 2008. The Partnership has no foreign assets.

Note 11. Environmental Liabilities

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership currently owns or leases properties where refined petroleum products are being or have been handled. These properties and the refined petroleum products handled thereon may be subject to federal and state environmental laws and regulations. Under such laws and regulations, the Partnership could be required to remove or remediate containerized hazardous liquids or associated generated wastes (including wastes disposed of or abandoned by prior owners or operators), to clean up contaminated property arising from the release of liquids or wastes to the environment, including contaminated groundwater, or to implement best management practices to prevent future contamination.

The Partnership maintains insurance of various types with varying levels of coverage that it considers adequate under the circumstances to cover its operations and properties. The insurance policies are subject to deductibles that the Partnership considers reasonable and not excessive. In addition, the Partnership has entered into indemnification agreements with various sellers in conjunction with several of its acquisitions. Allocation of environmental liability is an issue negotiated in connection with each of the Partnership's acquisition transactions. In each case, the Partnership makes an assessment of potential environmental liability exposure based on available information. Based on that assessment and relevant economic and risk factors, the Partnership determines whether to, and the extent to which it will, assume liability for existing environmental conditions.

In connection with the November 2007 acquisition of ExxonMobil's Glenwood Landing and Inwood, New York terminals, the Partnership assumed certain environmental liabilities, including the remediation obligations under remedial action plans submitted by ExxonMobil to and approved by the New York Department of Environmental Conservation (NYDEC) with respect to both terminals. As a result, the Partnership recorded, on an undiscounted basis, total environmental liabilities of approximately \$1.2 million, of which approximately \$0.7 million was paid by the Partnership. The remaining liability of \$0.5 million was recorded as a current liability of \$0.4 million and a long-term liability of \$0.1 million on the accompanying consolidated balance sheet at September 30, 2009. The remedial action plans submitted by ExxonMobil have been implemented by Global Companies LLC. The Partnership does not believe that compliance with the terms thereof will result in material costs in excess of the environmental reserve or have a material impact on its operations.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 11. Environmental Liabilities (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

In connection with the May 2007 acquisition of ExxonMobil's Albany and Newburgh, New York and Burlington, Vermont terminals, the Partnership assumed certain environmental liabilities, including the remediation obligations under a proposed remedial action plan submitted by ExxonMobil to NYDEC with respect to the Albany, New York terminal. As a result, the Partnership recorded, on an undiscounted basis, total environmental liabilities of approximately \$8.0 million, of which approximately \$0.1 million was paid for the year ended December 31, 2008 for a balance of \$7.9 million. In June 2008, the Partnership submitted a remedial action work plan to NYDEC, implementing NYDEC's conditional approval of the remedial action plan submitted by ExxonMobil. The Partnership responded to NYDEC's requests for additional information and conducted pilot tests for the remediation outlined in the work plan. Based on the results of such pilot tests, the Partnership changed its estimate and reduced the environmental liability by \$2.8 million during the fourth quarter ended December 31, 2008. At September 30, 2009, this liability had a balance of \$5.0 million which was recorded as a current liability of \$2.9 million and a long-term liability of \$2.1 million on the accompanying consolidated balance sheet. In July 2009, NYDEC approved the remedial action work plan, and the Partnership signed a Stipulation Agreement with NYDEC to govern implementation of the approved plan. The Partnership does not believe that compliance with the terms of the approved remedial action work plan will result in material costs in excess of the environmental reserve or have a material impact on its operations.

The Partnership's estimates used in these reserves are based on all known facts at the time and its assessment of the ultimate remedial action outcomes. Among the many uncertainties that impact the Partnership's estimates are the necessary regulatory approvals for, and potential modification of, its remediation plans, the amount of data available upon initial assessment of the impact of soil or water contamination, changes in costs associated with environmental remediation services and equipment and the possibility of existing legal claims giving rise to additional claims. Therefore, although the Partnership believes that these reserves are adequate, no assurances can be made that any costs incurred in excess of these reserves or outside of indemnifications or not otherwise covered by insurance would not have a material adverse effect on the Partnership's financial condition, results of operations or cash flows.

Note 12. Long-Term Incentive Plan

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

In October 2005, the General Partner adopted a Long-Term Incentive Plan (LTIP) whereby 564,242 common units were authorized for issuance. Any units delivered pursuant to an award under the LTIP may be acquired in the open market or from any affiliate, be newly issued units or any combination of the foregoing. The LTIP provides for awards to employees, consultants and directors of the General Partner and employees and consultants of affiliates of the Partnership who perform services for the Partnership. The LTIP allows for the award of unit options, unit appreciation rights, restricted units, phantom units and distribution equivalent rights (DERs).

Long-Term Incentive Plan

On August 14, 2007, the Compensation Committee of the board of directors of the General Partner granted awards of phantom units and associated DERs under the LTIP to certain employees and non-employee directors of the General Partner. The phantom units granted will cliff vest on December 31, 2009 and become payable on a one-for-one basis in common units of the Partnership (or cash equivalent) upon the achievement of certain performance goals over the vesting period. The DERs that were granted in tandem with the phantom units will vest and become payable in cash simultaneously with the vesting of the phantom units. Any phantom units and associated DERs that have not vested as of the end of the cliff vesting period will be forfeited. The Partnership currently intends and reasonably expects to issue and deliver the common units upon vesting.

Accounting guidance for share-based compensation requires that a non-vested equity share unit awarded to an employee is to be measured at its fair value as if it were vested and issued on the grant date. The fair value of the Partnership's award at the August 14, 2007 grant date approximated the fair value of the Partnership's common unit at that date.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 12. Long-Term Incentive Plan (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Compensation cost for an award of share-based employee compensation classified as equity, as is the case of the Partnership's award, is recognized over the requisite service period. The requisite service period for this award is from August 14, 2007, the grant date, through December 31, 2009, the vesting date. The Partnership will recognize as compensation expense the value of the portion of the award that is ultimately expected to vest over the requisite service period on a straight-line basis. In accordance with the guidance issued by the FASB, the Partnership estimated forfeitures at the time of grant. Such estimates, which were based on the Partnership's service and performance history, are revised, if necessary, in subsequent periods if actual forfeitures differ from estimates.

With respect to these awards, the Partnership recorded compensation expenses of approximately \$0.2 million for each of the three months ended September 30, 2009 and 2008, and \$0.6 million for each of the nine months ended September 30, 2009 and 2008, which are included in selling, general and administrative expenses in the accompanying consolidated statements of income. The total compensation cost related to the non-vested awards not yet recognized at September 30, 2009 is approximately \$0.2 million and is expected to be recognized ratably over the remaining requisite service period.

Three-Year Phantom Units

On December 31, 2008, the Compensation Committee of the board of directors of the General Partner granted 99,700 phantom units to a named executive officer, including a contingent right to receive an amount in cash equal to the number of phantom units multiplied by the cash distribution per common unit made by the Partnership from time to time during the period the phantom units are outstanding. The phantom units, which are subject to graded vesting, will vest in six equal installments on June 30 and December 31 of each year commencing June 30, 2009. Compensation expense related to these phantom units is recognized using the accelerated attribution method. The Partnership recorded compensation expense related to this phantom unit award of approximately \$0.1 million and \$0.6 million for the three and nine months ended September 30, 2009, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated statements of income. The total compensation cost related to the non-vested awards not yet recognized at September 30, 2009 is approximately \$0.5 million and is expected to be recognized over the remaining three-year requisite service period. On June 30, 2009, 16,617 common units vested under this award and were distributed to the named executive officer. In addition, in July 2009, the Partnership paid a cash distribution related to these units of approximately \$8,000.

Five-Year Phantom Units

On February 5, 2009, the Compensation Committee of the board of directors of the General Partner granted awards of 277,777 phantom units under the LTIP to certain employees of the General Partner. The phantom units will vest and become payable on a one-for-one basis in common units of the Partnership (and/or cash in lieu thereof) on December 31, 2013 (or potentially sooner as described below), subject in each case to continued employment of the respective employee and subject to a performance goal for the phantom units granted to one of the recipients. Any phantom units that have not vested as of the end of the five year cliff vesting period will be forfeited.

All or a portion of the phantom units granted to the employees may vest earlier than December 31, 2013 if the Average Unit Price (as defined below) equals or exceeds specified target prices during specified periods. Specifically, if the Average Unit Price equals or exceeds: (i) \$21.00 at any time prior to December 31, 2013, then 25% of the phantom units will automatically vest; (ii) \$27.00 at any time during the period from February 5, 2011 through December 31, 2013, then an additional 25% of the phantom units will automatically vest; and (iii) \$34.00 at any time during the period from June 5, 2012 through December 31, 2013, then all of the remaining phantom units will automatically vest. Average Unit Price means the closing market price of the Partnership's common unit for any 10-consecutive trading day period. On August 21, 2009, the Average Unit Price of \$21.00 per unit for the first tranche was achieved and, as a result, 25% of the phantom units vested at a price of \$22.50 per unit. See Note 17.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 12. Long-Term Incentive Plan (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The fair value of the Partnership's award at the February 5, 2009 grant date approximated the fair value of the Partnership's common unit at that date, reduced by the present value of the distributions stream on the equivalent number of common units over the derived service period. Compensation cost is recognized ratably over the derived service period which was determined for each tranche using the Monte Carlo simulation model. The derived service period of the award was assessed using expected volatility which was estimated based on historical volatility of the Partnership's units. The Partnership recorded compensation expense related to this phantom units award of approximately \$0.3 million and \$0.4 million for the three and nine months ended September 30, 2009, respectively, which is included in selling, general and administrative expenses in the accompanying consolidated statements of income. The total compensation cost related to the non-vested awards not yet recognized at September 30, 2009 is approximately \$0.7 million and is expected to be recognized ratably over the remaining derived service periods.

Repurchase Program

In May 2009, the board of directors of the General Partner authorized the repurchase of the Partnership's common units (the Repurchase Program) for the purpose of assisting it in meeting the General Partner's anticipated obligations to deliver common units under the LTIP and meeting the General Partner's obligations under existing employment agreements and other employment related obligations of the General Partner (collectively, the General Partner's Obligations). The Partnership is authorized to spend up to \$6.6 million to acquire up to 445,000 of its common units in the aggregate, over an extended period of time, consistent with the General Partner's Obligations. Common units of the Partnership may be repurchased from time to time in open market transactions, including block purchases, or in privately negotiated transactions. Such authorized unit repurchases may be modified, suspended or terminated at any time, and are subject to price, economic and market conditions, applicable legal requirements and available liquidity. As of September 30, 2009, the General Partner repurchased 174,391 common units pursuant to the Repurchase Program for approximately \$3.5 million, of which 16,617 common units vested under the *Three-Year Phantom Units* award and 69,444 common units vested under the *Five-Year Phantom Units* award.

At September 30, 2009, common units outstanding excluded 105,480 common units held on behalf of the Partnership pursuant to its Repurchase Program and for future satisfaction of the General Partner's Obligations.

Status of Non-Vested Units

The following table presents a summary of the status of the non-vested units as of September 30, 2009:

	Number of Non-vested Units	Weighted Average Grant Date Fair Value
Outstanding non-vested units at January 1, 2009	162,320	\$ 18.13
Granted	277,777	3.73
Vested	(86,061)	20.34
Forfeited		
Outstanding non-vested units at September 30, 2009	354,036	\$ 6.90

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 13. Fair Value Measurements

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Certain of the Partnership's assets and liabilities are measured at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The FASB established a fair value hierarchy, which prioritizes the inputs used in measuring fair value into the following three levels:

- Level 1 Observable inputs such as quoted prices in active markets for identical assets or liabilities.

- Level 2 Inputs other than the quoted prices in active markets that are observable for assets or liabilities, either directly or indirectly. These include quoted prices for similar assets or liabilities in active markets and quoted prices for identical or similar assets or liabilities in inactive markets.

- Level 3 Unobservable inputs based on the entity's own assumptions.

The following table presents those financial assets and financial liabilities measured at fair value on a recurring basis as of September 30, 2009 (in thousands):

	Fair Value September 30, 2009		Level 1	Fair Value Measurements Using Level 2	Level 3
Assets:					
Hedged inventories	\$ 397,170	\$		\$ 397,170	\$
Fair value of forward fixed price contracts	4,063			4,063	
Swap agreements and options	1,648		1,513	135	
Total assets	\$ 402,881	\$	1,513	\$ 401,368	\$
Liabilities:					
Obligations on forward fixed price contracts	\$ (12,254)	\$		\$ (12,254)	\$
Swap agreements and option contracts	(1,927)		(139)	(1,788)	
Interest rate collars	(8,106)			(8,106)	
Total liabilities	\$ (22,287)	\$	(139)	\$ (22,148)	\$

For assets and liabilities measured on a non-recurring basis during the period, accounting guidance requires quantitative disclosures about the fair value measurements separately for each major category. During the quarter ended September 30, 2009, the Partnership did not remeasure assets or liabilities at fair value on a non-recurring basis.

Financial Instruments

The fair value of the Partnership's financial instruments approximated the carrying value as of September 30, 2009 and December 31, 2008, in each case due to the short-term and the variable interest rate nature of the financial instruments.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 14. Income Taxes

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table presents a reconciliation of the difference between the statutory federal income tax rate and the effective income tax rate for the periods presented:

	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
	2009	2008	2009	2008
Federal statutory income tax rate	34.0%	34.0%	34.0%	34.0%
State income tax rate, net of federal tax benefit	6.4%	6.4%	6.4%	6.4%
Partnership income not subject to tax	(31.5)%	(51.8)%	(35.7)%	(37.0)%
Effective income tax rate	8.9%	(11.4)%	4.7%	3.4%

Note 15. Legal Proceedings

General

Although the Partnership may, from time to time, be involved in litigation and claims arising out of its operations in the normal course of business, the Partnership does not believe that it is a party to any litigation that will have a material adverse impact on its financial condition or results of operations. Except as described in the Partnership's Annual Report on Form 10-K for the year ended December 31, 2008 and in Note 11 included herein, the Partnership is not aware of any significant legal or governmental proceedings against it, or contemplated to be brought against it. The Partnership maintains insurance policies with insurers in amounts and with coverage and deductibles as its general partner believes are reasonable and prudent. However, the Partnership can provide no assurance that this insurance will be adequate to protect it from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

On October 22, 2009, the Federal Trade Commission (FTC) issued a Civil Investigative Demand and a Subpoena Duces Tecum in connection with the FTC's regulatory review of the Partnership's planned acquisition of three refined petroleum terminal facilities in Newburgh, New York from Warex Terminals Corporation. The Partnership will continue to cooperate with the FTC during its review. The Partnership cannot predict the outcome of the FTC's review or its effect on the transaction. As a result of the FTC review, closing of the transaction will not be completed in 2009 and remains subject to the FTC review, receipt of certain regulatory approvals and various other customary closing conditions.

Note 16. Recently Issued Accounting Guidance

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

On September 30, 2009, the Partnership adopted guidance issued by the FASB to the authoritative hierarchy of nongovernmental U.S. GAAP. These changes establish the FASB Accounting Standards Codification (Codification) as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the SEC under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The FASB will no longer issue new standards in the form of Statements, FASB Staff Positions or Emerging Issue Task Force Abstracts; instead, the FASB will issue Accounting Standards Updates. This guidance and the Codification itself do not change GAAP. Other than the manner in which new accounting guidance is referenced, the adoption of these changes did not have an impact on the Partnership's consolidated financial statements.

On June 30, 2009, the Partnership adopted guidance issued by the FASB to fair value accounting. This guidance relates to: (1) estimating fair value when the volume and level of activity for an asset or liability have significantly decreased in relation to normal market activity for the asset or liability, and (2) circumstances that may indicate that a transaction is not orderly (i.e., forced liquidation or distressed sale). The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 16. Recently Issued Accounting Guidance (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

On June 30, 2009, the Partnership adopted guidance issued by the FASB to fair value accounting. This guidance requires disclosures about the fair value of financial instruments for interim reporting periods of publicly traded companies as well as in annual financial statements. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements. See Note 13.

On June 30, 2009, the Partnership adopted guidance issued by the FASB to subsequent events. This guidance establishes general standards of accounting and disclosure of events that occur after the balance sheet date but before financial statements are issued or are available to be issued. This guidance requires entities to disclose the date through which they have evaluated subsequent events and whether the date corresponds with the release of their financial statements. The adoption of this guidance did not have an impact on the Partnership's consolidated financial statements. See Note 17.

On January 1, 2009, the Partnership adopted guidance issued by the FASB to fair value accounting and disclosures. This guidance provides guidelines for the determination of the unit of accounting for a liability issued with an inseparable third-party credit enhancement when it is measured or disclosed at fair value on a recurring basis. The effect of the credit enhancement is to be excluded in the fair value measurement of the liability, and entities are required to disclose the existence of the inseparable third-party credit enhancement on the issued liability. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

On January 1, 2009, the Partnership adopted guidance issued by the FASB to earnings per share. This guidance provides that unvested share-based payment awards that contain nonforfeitable rights to dividends or dividend equivalents (whether paid or unpaid) are participating securities and, therefore, should be included in the computation of earnings per share pursuant to the two-class method. However, the award would not be considered a participating security if the holder forfeits the right to receive dividends or dividend equivalents in the event that the award does not vest. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

On January 1, 2009, the Partnership adopted guidance issued by the FASB to earnings per share. This guidance specifies the treatment of earnings per unit calculations when incentive distribution rights exist in master limited partnerships. Further, when earnings exceed cash distributions, undistributed earnings are to be allocated to the general partner, limited partners and holders of the incentive distribution rights based on the distribution formula for available cash set forth in the partnership agreement. Conversely, when cash distributions exceed earnings, net income (or loss) would be reduced (or increased) by distributions to the general partner, limited partners and holders of incentive distribution rights. The excess of distributions over earnings would be allocated to the general partner and limited partners based on their respective sharing of losses set forth in the partnership agreement. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements. See Note 2.

On January 1, 2009, the Partnership adopted guidance issued by the FASB to intangible assets. This guidance amends the factors that should be considered in developing renewal or extension assumptions used to determine the useful life of a recognized intangible asset. The objective is to improve the consistency between the useful life of a recognized intangible asset and the period of expected cash flows used to measure the fair value of the asset. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

On January 1, 2009, the Partnership adopted guidance issued by the FASB which requires enhanced disclosures about an entity's derivatives and hedging activities and how they affect an entity's financial position, financial performance and cash flows. See Note 5.

GLOBAL PARTNERS LP

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

Note 16. Recently Issued Accounting Guidance (continued)

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

On January 1, 2009, the Partnership adopted guidance issued by the FASB to accounting for business combinations. This guidance defines the acquirer as the entity that obtains control of one or more businesses in the business combination, establishes the acquisition date as the date that the acquirer achieves control and requires the acquirer to recognize the assets acquired, liabilities assumed and any noncontrolling interest at their fair values as of the acquisition date. This guidance also requires that acquisition-related costs be recognized separately from the acquisition. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements.

The Partnership adopted the guidance issued by the FASB to fair value accounting and disclosures. This guidance defines fair value, establishes guidelines for measuring fair value and requires additional disclosures regarding fair value measurements. This guidance applies only to fair value measurements currently required or permitted and are expected to increase the consistency of those measurements. On January 1, 2008, the Partnership adopted this guidance for its financial assets and liabilities measured at fair value on a recurring basis and on January 1, 2009 for its non-financial assets and non-financial liabilities measured at fair value on a non-recurring basis. The adoption of this guidance did not have a material impact on the Partnership's consolidated financial statements. See Note 13.

Note 17. Subsequent Events

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The Partnership evaluated all events or transactions that occurred through November 6, 2009, the date the Partnership issued its financial statements. Except as described below, no material subsequent events have occurred since September 30, 2009 that required recognition or disclosure in the accompanying financial statements.

On November 5, 2009, the Partnership filed a definitive proxy statement with the SEC in connection with a proposal to amend its partnership agreement. The definitive proxy materials will be mailed to unitholders of record as of November 5, 2009.

On October 22, 2009, the FTC issued a Civil Investigative Demand and a Subpoena Duces Tecum in connection with the FTC's regulatory review of the Partnership's planned acquisition of three refined petroleum terminal facilities in Newburgh, New York from Warex Terminals Corporation. The Partnership will continue to cooperate with the FTC during its review. The Partnership cannot predict the outcome of the FTC's review or its effect on the transaction. As a result of the FTC review, closing of the transaction will not be completed in 2009 and remains subject to the FTC review, receipt of certain regulatory approvals and various other customary closing conditions.

In October 2009, the Partnership executed a forward starting swap with a major financial institution. This swap, which will become effective on May 16, 2011 and expire on May 16, 2016, will be used to hedge the variability in interest payments due to changes in the one-month LIBOR rate with respect to \$100.0 million of one-month LIBOR-based borrowings at a fixed rate of 3.93%.

On October 21, 2009, the board of directors of the General Partner declared a quarterly cash distribution of \$0.4875 per unit (\$1.95 per unit on an annualized basis) for the period from July 1, 2009 through September 30, 2009. On November 13, 2009, the Partnership will pay this cash distribution to its common and subordinated unitholders of record as of the close of business November 4, 2009.

On October 14, 2009, the General Partner distributed 69,444 common units pursuant to the Repurchase Program (see Note 12).

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of financial condition and results of operations of Global Partners LP should be read in conjunction with the historical consolidated financial statements of Global Partners LP and the notes thereto included elsewhere in this Quarterly Report on Form 10-Q.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain forward-looking statements within the meaning of the federal securities laws. These forward-looking statements are identified as any statements that do not relate strictly to historical or current facts and can generally be identified by the use of forward-looking terminology including may, believe, expect, anticipate, estimate, continue or other similar words. Such statements may discuss future expectations for, or contain projections of, results of operations, financial condition or our ability to make distributions to unitholders or state other forward-looking information. Forward-looking statements are not guarantees of performance. Although we believe these forward-looking statements are based on reasonable assumptions, statements made regarding future results are subject to a number of assumptions, uncertainties and risks, many of which are beyond our control, which may cause future results to be materially different from the results stated or implied in this document. These risks and uncertainties include, among other things:

- We may not have sufficient cash from operations to enable us to pay the minimum quarterly distribution or maintain distributions at current levels following establishment of cash reserves and payment of fees and expenses, including payments to our general partner.
- A significant decrease in demand for refined petroleum products in the areas served by our storage facilities would reduce our ability to make distributions to our unitholders.
- Our sales of home heating oil and residual oil could be significantly reduced by conversions to natural gas which conversions could have an adverse effect on our financial condition, results of operations and cash available for distribution to our unitholders.
- Warmer weather conditions could adversely affect our financial condition, results of operations and cash available for distribution to our unitholders.
- Our risk management policies cannot eliminate all commodity risk. In addition, any noncompliance with our risk management policies could result in significant financial losses.
- Our results of operations are influenced by the overall forward market for refined petroleum products, and increases and/or decreases in the prices of refined petroleum products may adversely impact the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates.

- We are exposed to trade credit risk in the ordinary course of our business activities.
- We are exposed to risk associated with our trade credit support in the ordinary course of our business activities.
- The condition of credit markets may adversely affect our liquidity.
- Due to our lack of asset and geographic diversification, adverse developments in the terminals that we use or in our operating areas could reduce our ability to make distributions to our unitholders.
- We are exposed to performance risk in our supply chain.
- Our general partner and its affiliates have conflicts of interest and limited fiduciary duties, which may permit them to favor their own interests to the detriment of unitholders.
- Unitholders have limited voting rights and are not entitled to elect our general partner or its directors or to remove our general partner without the consent of the holders of at least 66 2/3% of the outstanding units (including units held by our general partner and its affiliates), which could lower the trading price of our common units.

- Unitholders may be required to pay taxes on their share of our income even if they do not receive any cash distributions from us.

Additional information about risks and uncertainties that could cause actual results to differ materially from forward-looking statements is contained in Part I, Item 1A, Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2008 and Part II, Item 1A, Risk Factors, in this Quarterly Report on Form 10-Q.

All forward-looking statements included in this Form 10-Q and all subsequent written or oral forward-looking statements attributable to us or persons acting on our behalf are expressly qualified in their entirety by these cautionary statements. The forward-looking statements speak only as of the date made, other than as required by law, and we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

Overview

General

We own, control or have access to one of the largest terminal networks of refined petroleum products in Massachusetts, Maine, Connecticut, Vermont, New Hampshire, Rhode Island, New York, New Jersey and Pennsylvania (collectively, the Northeast). We are one of the largest wholesale distributors of gasoline, distillates (such as home heating oil, diesel and kerosene) and residual oil to wholesalers, retailers and commercial customers in the Northeast. For the three and nine months ended September 30, 2009, we sold approximately \$1.3 billion and \$4.1 billion, respectively, of refined petroleum products and small amounts of natural gas.

We purchase our refined petroleum products primarily from domestic and foreign refiners (wholesalers), traders and producers and sell these products in two segments, Wholesale and Commercial. Like most independent marketers of refined petroleum products, we base our pricing on spot physical prices and routinely use the NYMEX or other derivatives to hedge our commodity risk inherent in buying and selling energy commodities. Through the use of regulated exchanges or derivatives, we maintain a position that is substantially balanced between purchased volumes and sales volumes or future delivery obligations. We earn a margin by selling the product for physical delivery to third parties.

Products and Operational Structure

Our products include gasoline, distillates and residual oil. We sell gasoline to unbranded retail gasoline stations and other resellers of transportation fuels. The distillates we sell are used primarily for fuel for trucks and off-road construction equipment and for space heating of residential and commercial buildings. We sell residual oil to major housing units, such as public housing authorities, colleges and hospitals and large industrial facilities that use processed steam in their manufacturing processes. In addition, we sell bunker fuel, which we can custom blend, to cruise ships, bulk carriers and fishing fleets. We have increased our sales in the non-weather sensitive components of our business, such as transportation fuels; however, we are still subject to the impact that warmer weather conditions may have on our home heating oil and residual oil sales.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Our business is divided into two segments:

- *Wholesale.* This segment includes sales of gasoline, distillates and residual oil to unbranded retail gasoline stations and other resellers of transportation fuels, home heating oil retailers and wholesale distributors.
- *Commercial.* This segment includes sales and deliveries of unbranded gasoline, distillates, residual oil and small amounts of natural gas to customers in the public sector and to large commercial and industrial customers, primarily either through a competitive bidding process or through contracts of various terms. This segment also purchases, custom blends, sells and delivers bunker fuel and diesel to cruise ships, bulk carriers and fishing fleets generally by barges.

Our business activities are substantially comprised of purchasing, storing, terminalling and selling refined petroleum products. In a contango market (when product prices for future deliveries are higher than for current deliveries), we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In a backwardated market (when product prices for future deliveries are lower than current deliveries), we attempt to minimize our inventories to reduce commodity risk and maintain or increase net product margins. See Part I, Item 1A, Risk Factors, in our Annual Report on Form 10-K for the year ended December 31, 2008 for additional information related to commodity risk.

Outlook

This section identifies certain risks and certain economic or industry-wide factors that may affect our financial performance and results of operations in the future, both in the short-term and in the long-term. Our results of operations and financial condition depend, in part, upon the following:

- *The condition of credit markets may adversely affect our liquidity.* In the past several months, world financial markets experienced a severe reduction in the availability of credit. Although we have not been negatively impacted by this condition in the short-term, it is difficult to predict its impact on us in future quarters. Possible negative impacts include a decrease in the availability of borrowings under our credit agreement, increased counterparty credit risk on our derivatives contracts and our contractual counterparties requiring us to provide collateral. In addition, we could experience a tightening of trade credit from our suppliers.
- *We commit substantial resources to pursuing acquisitions, though there is no certainty that we will successfully complete any acquisitions or receive the economic results we anticipate from completed acquisitions.* Consistent with our business strategy, we are continuously engaged in discussions with potential sellers of terminalling, storage and/or marketing assets and related businesses. In an effort to prudently and economically leverage our asset base, knowledge base and skill sets, management pursues businesses that are closely related to or significantly intertwined with our existing lines of business. Our growth largely depends on our ability to make accretive acquisitions. We may be unable to make such accretive acquisitions for a number of reasons, including, but not limited to, the following: (1) we are unable to identify attractive acquisition candidates or negotiate acceptable purchase contracts; (2) we are unable to raise financing for such acquisitions on economically acceptable terms; or (3) we are outbid by competitors. In addition, we may consummate acquisitions that at the time of consummation we believe will be accretive, but that ultimately may not be accretive. If any of these events were to occur, our future growth would be limited. We can give no assurance that our acquisition efforts will be successful or that any such acquisition will be completed on terms that are favorable to us.
- *Our financial results are generally better in the first and fourth quarters of the calendar year.* Demand for some refined petroleum products, specifically home heating oil and residual oil for space heating purposes, is generally higher during November through March than during April through October. We obtain a significant portion of these sales during these winter months. Therefore, our results of operations for the first and fourth calendar quarters are generally better than for the second and third quarters. With lower cash flow during the second and third calendar quarters, we may be required to borrow money in order to maintain current levels of distributions to our unitholders.
- *Warmer weather conditions could adversely affect our results of operations and financial condition.* Weather conditions generally have an impact on the demand for both home heating oil and residual oil. Because we supply distributors whose customers depend on home heating oil and residual oil for space heating purposes during the winter, warmer-than-normal temperatures during the first and fourth calendar quarters in the Northeast can decrease the total volume we sell and the gross profit realized on those sales.

- *Energy efficiency, new technology and alternative fuels could reduce demand for our products.* Increased conservation and technological advances have adversely affected the demand for home heating oil and residual oil. Consumption of residual oil has steadily declined over the last three decades. We could face additional competition from alternative energy sources as a result of future government-mandated controls or regulation further promoting the use of cleaner fuels. End users who are dual-fuel users have the ability to switch between residual oil and natural gas. Other end users may elect to convert to natural gas. During a period of increasing residual oil prices relative to the prices of natural gas, dual-fuel customers may switch and other end users may convert to natural gas. Residential users of home heating oil may also convert to natural gas. Such switching or conversion could have an adverse effect on our results of operations and financial condition.
- *Our financial condition and results of operations are influenced by the overall forward market for refined petroleum products, and increases and/or decreases in the prices of refined petroleum products may adversely impact the amount of borrowing available for working capital under our credit agreement, which credit agreement has borrowing base limitations and advance rates.* Results from our supply, marketing and terminalling operations are influenced by prices for refined petroleum products, pricing volatility and the market for such products. Prices in the overall forward market for refined petroleum products may impact our ability to execute advantageous purchasing opportunities. In a contango market (when product prices for future deliveries are higher than for current deliveries), we may use our storage capacity to improve our margins by storing products we have purchased at lower prices in the current market for delivery to customers at higher prices in the future. In a backwardated market (when product prices for future deliveries are lower than current deliveries), we attempt to minimize our inventories to reduce commodity risk and maintain or increase net product margins. When prices for refined petroleum products rise, some of our customers may have insufficient credit to purchase supply from us at their historical purchase volumes, and their customers, in turn, may adopt conservation measures which reduce consumption, thereby reducing demand for product. Furthermore, when prices increase rapidly and dramatically, we may be unable to promptly pass our additional costs to our customers, resulting in lower margins for us which could adversely affect our results of operation. Lastly, higher prices for refined petroleum prices may (1) diminish our access to trade credit support and/or cause it to become more expensive and (2) decrease the amount of borrowings available for working capital under our credit agreement as a result of total available commitments, borrowing base limitations and advance rates thereunder. In addition, when prices for refined petroleum products decline, our exposure to risk of loss in the event of nonperformance by our customers of our forward contracts may be increased as they and/or their customers may breach their contracts and purchase refined petroleum products at the then lower spot and/or retail market price. Furthermore, lower prices for refined petroleum products may diminish the amount of borrowings available for working capital under our working capital revolving credit facility as a result of borrowing base limitations.
- *New, stricter environmental laws and regulations could significantly increase our costs, which could adversely affect our results of operations and financial condition.* Our operations are subject to federal, state and local laws and regulations regulating product quality specifications and other environmental matters. The trend in environmental regulation is towards more restrictions and limitations on activities that may affect the environment. Our business may be adversely affected by increased costs and liabilities resulting from such stricter laws and regulations. We try to anticipate future regulatory requirements that might be imposed and plan accordingly to remain in compliance with changing environmental laws and regulations and to minimize the costs of such compliance. However, there can be no assurances as to the timing and type of such changes in existing laws or the promulgation of new laws or the amount of any required expenditures associated therewith.

Results of Operations

Evaluating Our Results of Operations

Our management uses a variety of financial and operational measurements to analyze our performance. These measurements include: (1) net product margin, (2) gross profit, (3) selling, general and administrative expenses (SG&A), (4) operating expenses, (5) degree days, (6) net income per diluted limited partner unit, (7) earnings before interest, taxes,

depreciation and amortization (EBITDA) and (8) distributable cash flow.

Net Product Margin

We view net product margin as an important performance measure of the core profitability of our operations. We review net product margin monthly for consistency and trend analysis. We define net product margin as our sales minus product costs. Sales include sales of unbranded gasoline, distillates, residual oil and natural gas. Product costs include the cost of acquiring the refined petroleum products and natural gas that we sell and all associated costs including shipping and handling costs to bring such products to the point of sale. Net product margin is a non-GAAP financial measure used by management and external users of our consolidated financial statements to assess our business. Net product margin should not be considered as an alternative to net income, operating income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, our net product margin may not be comparable to net product margin or a similarly titled measure of other companies.

Gross Profit

We define gross profit as our sales minus product costs and terminal depreciation expense allocated to cost of sales. Sales include sales of unbranded gasoline, distillates, residual oil and natural gas. Product costs include the cost of acquiring the refined petroleum products and natural gas that we sell and all associated costs to bring such products to the point of sale.

Selling, General and Administrative Expenses

Our SG&A expenses include marketing costs, corporate overhead, employee salaries and benefits, pension and 401(k) plan expenses, discretionary bonuses, non-interest financing costs, professional fees and information technology expenses. Employee-related expenses including employee salaries, discretionary bonuses and related payroll taxes, benefits, and pension and 401(k) plan expenses are paid by our general partner which, in turn, is reimbursed for these expenses by us.

Operating Expenses

Operating expenses are costs associated with the operation of the terminals used in our business. Lease payments and storage expenses, maintenance and repair, utilities, taxes, labor and labor-related expenses comprise the most significant portion of our operating expenses. These expenses remain relatively stable independent of the volumes through our system but fluctuate slightly depending on the activities performed during a specific period.

Degree Day

A degree day is an industry measurement of temperature designed to evaluate energy demand and consumption. Degree days are based on how far the average temperature departs from a human comfort level of 65°F. Each degree of temperature above 65°F is counted as one cooling degree day, and each degree of temperature below 65°F is counted as one heating degree day. Degree days are accumulated each day over the course of a year and can be compared to a monthly or a long-term (multi-year) average, or normal, to see if a month or a year was warmer or

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

cooler than usual. Degree days are officially observed by the National Weather Service and officially archived by the National Climatic Data Center. For purposes of evaluating our results of operations, we use the normal heating degree day amount as reported by the National Weather Service at its Logan International Airport station in Boston, Massachusetts.

Net Income Per Diluted Limited Partner Unit

We use net income per diluted limited partner unit to measure our financial performance on a per-unit basis. Net income per diluted limited partner unit is defined as net income, divided by the weighted average number of outstanding diluted common and subordinated units, or limited partner units, during the period.

EBITDA

EBITDA is a non-GAAP financial measure used as a supplemental financial measure by management and external users of our consolidated financial statements, such as investors, commercial banks and research analysts, to assess:

- our compliance with certain financial covenants included in our debt agreements;

- our financial performance without regard to financing methods, capital structure, income taxes or historical cost basis;
- our ability to generate cash sufficient to pay interest on our indebtedness and to make distributions to our partners;
- our operating performance and return on invested capital as compared to those of other companies in the wholesale, marketing and distribution of refined petroleum products, without regard to financing methods and capital structure; and
- the viability of acquisitions and capital expenditure projects and the overall rates of return of alternative investment opportunities.

EBITDA should not be considered as an alternative to net income, operating income, cash flow from operating activities or any other measure of financial performance or liquidity presented in accordance with GAAP. EBITDA excludes some, but not all, items that affect net income, and this measure may vary among other companies. Therefore, EBITDA may not be comparable to similarly titled measures of other companies.

Distributable Cash Flow

Distributable cash flow is an important non-GAAP financial measure for our limited partners since it serves as an indicator of our success in providing a cash return on their investment. Distributable cash flow means our net income plus depreciation and amortization less our maintenance capital expenditures. Specifically, this financial measure indicates to investors whether or not we have generated sufficient earnings on a current or historic level that can sustain or support an increase in our quarterly cash distribution. Distributable cash flow is a quantitative standard used by the investment community with respect to publicly traded partnerships. Distributable cash flow should not be considered as an alternative to net income, cash flow from operations, or any other measure of financial performance presented in accordance with GAAP. In addition, our distributable cash flow may not be comparable to distributable cash flow or similarly titled measures of other companies.

Three and nine months ended September 30, 2009 and 2008

During the three and nine months ended September 30, 2009, we experienced the following events:

- Refined petroleum product prices dramatically declined compared to the same periods in 2008 which we believe contributed to lower revenues and lower financing costs as a result of decreased borrowings to finance inventory.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

- Temperatures for the three months ended September 30, 2009 were 9% colder than normal and 35% colder than the third quarter of 2008. Temperatures for the nine months ended September 30, 2009 were 1% colder than normal and 8% colder than the same period in 2008.
- We increased our reserve for credit losses by expensing approximately \$0.4 million and \$1.5 million for the three and nine months ended September 30, 2009, respectively.
- We believe heating oil conservation continued during the three and nine months ended September 30, 2009 even though prices declined.
- Additionally, we experienced the following events during the first quarter of 2008 that we did not experience during the three and nine months ended September 30, 2009:
 - Adverse market conditions in our markets, including volatility and backwardation, led to lower margins and intensified competition from other wholesalers.
 - The opportunistic conversion of certain gasoline markets to ethanol put us in a temporarily disadvantaged competitive position while our terminal infrastructure was being converted.
 - Temporary logistical supply issues related to rail capacity adversely affected the performance of our Burlington, Vermont facility.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table provides the prices of and percentage decreases in refined petroleum product and natural gas prices at the end of the first three quarters in 2009 as compared to each comparable quarter in 2008:

Period:	Heating Oil \$ per gallon(1)	Gasoline \$ per gallon(1)	Residual Oil \$ per barrel(2)	Natural Gas \$ per barrel equivalent(3)
At March 31, 2008	\$3.05	\$2.62	\$72.75	\$64.38
At March 31, 2009	\$1.34	\$1.40	\$40.00	\$25.96
Change	(56%)	(47%)	(45%)	(60%)
At June 30, 2008	\$3.90	\$3.50	\$111.30	\$86.37
At June 30, 2009	\$1.72	\$1.90	\$62.50	\$26.15
Change	(56%)	(46%)	(44%)	(70%)
At September 30, 2008	\$2.86	\$2.48	\$83.55	\$47.41
At September 30, 2009	\$1.80	\$1.73	\$63.15	\$22.62
Change	(37%)	(30%)	(24%)	(52%)

Key Performance Indicators

The following table provides a summary of some of the key performance indicators that may be used to assess our results of operations. These comparisons are not necessarily indicative of future results (gallons and dollars in thousands, except per unit amounts):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Net income	\$ 2,059	\$ 1,007	\$ 21,900	\$ 8,372
Net income per diluted limited partner unit (1)	\$ 0.15	\$ 0.07	\$ 1.60	\$ 0.62
EBITDA (2)	\$ 9,980	\$ 10,053	\$ 45,932	\$ 35,322
Distributable cash flow (3)	\$ 4,978	\$ 4,151	\$ 30,262	\$ 18,208
Wholesale Segment:				
Volume (gallons)	650,983	713,171	2,372,373	2,404,319
Sales				
Distillates	\$ 329,362	\$ 677,381	\$ 1,741,038	\$ 3,164,368
Gasoline	871,770	1,468,790	2,093,759	3,727,534
Residual oil	6,594	23,765	23,937	67,342
Total	\$ 1,207,726	\$ 2,169,936	\$ 3,858,734	\$ 6,959,244
Net product margin (4)				
Distillates	\$ 15,456	\$ 12,001	\$ 62,786	\$ 44,422
Gasoline	10,999	13,554	34,912	32,522
Residual oil	1,814	412	6,928	7,542
Total	\$ 28,269	\$ 25,967	\$ 104,626	\$ 84,486
Commercial Segment:				
Volume (gallons)	46,728	38,439	167,989	142,018
Sales	\$ 77,605	\$ 102,143	\$ 260,701	\$ 331,536
Net product margin (4)	\$ 3,717	\$ 2,460	\$ 11,241	\$ 7,389
Combined sales and net product margin:				
Sales	\$ 1,285,331	\$ 2,272,079	\$ 4,119,435	\$ 7,290,780
Net product margin (4)	\$ 31,986	\$ 28,427	\$ 115,867	\$ 91,875
Depreciation allocated to cost of sales	2,713	2,499	8,091	7,658
Combined gross profit	\$ 29,273	\$ 25,928	\$ 107,776	\$ 84,217
Weather conditions:				
Normal heating degree days	96	96	3,750	3,781
Actual heating degree days	105	78	3,798	3,527
Variance from normal heating degree days	9%	(19%)	1%	(7%)
Variance from prior period actual heating degree days	35%	26%	8%	(7%)

(1) See Note 2 of Notes to Consolidated Financial Statements for net income per diluted limited partner unit calculation.

(2) EBITDA is a non-GAAP financial measure which is discussed above under Evaluating Our Results of Operations. The table below presents reconciliations of EBITDA to the most directly comparable GAAP financial measures.

(3) Distributable cash flow is a non-GAAP financial measure which is discussed above under Evaluating Our Results of Operations. The table below presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

(4) Net product margin is a non-GAAP financial measure which is discussed above under Evaluating Our Results of Operations. The table above reconciles net product margin on a combined basis to gross profit, a directly comparable GAAP financial measure.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The following table presents reconciliations of EBITDA to the most directly comparable GAAP financial measures on a historical basis for each period presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Reconciliation of net income to EBITDA:				
Net income	\$ 2,059	\$ 1,007	\$ 21,900	\$ 8,372
Depreciation and amortization and amortization of deferred financing fees	3,979	3,749	12,017	11,241
Interest expense	3,742	5,297	10,940	15,414
Income tax expense	200		1,075	295
EBITDA	\$ 9,980	\$ 10,053	\$ 45,932	\$ 35,322
Reconciliation of cash flow provided by operating activities to EBITDA:				
Cash flow provided by operating activities	\$ 5,597	\$ 60,097	\$ 25,778	\$ 54,124
Net changes in operating assets and liabilities and certain non-cash items	441	(55,341)	8,139	(34,511)
Interest expense	3,742	5,297	10,940	15,414
Income tax expense	200		1,075	295
EBITDA	\$ 9,980	\$ 10,053	\$ 45,932	\$ 35,322

The following table presents reconciliations of distributable cash flow to the most directly comparable GAAP financial measures on a historical basis for each period presented (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2009	2008	2009	2008
Reconciliation of net income to distributable cash flow:				
Net income	\$ 2,059	\$ 1,007	\$ 21,900	\$ 8,372
Depreciation and amortization and amortization of deferred financing fees	3,979	3,749	12,017	11,241
Maintenance capital expenditures	(1,060)	(605)	(3,655)	(1,405)
Distributable cash flow	\$ 4,978	\$ 4,151	\$ 30,262	\$ 18,208
Reconciliation of cash flow provided by operating activities to distributable cash flow:				
Cash flow provided by operating activities	\$ 5,597	\$ 60,097	\$ 25,778	\$ 54,124
Net changes in operating assets and liabilities and certain non-cash items	441	(55,341)	8,139	(34,511)
Maintenance capital expenditures	(1,060)	(605)	(3,655)	(1,405)
Distributable cash flow	\$ 4,978	\$ 4,151	\$ 30,262	\$ 18,208

Consolidated Results

Our total sales for the third quarter of 2009 decreased by \$986.7 million, or 43%, to \$1,285.3 million compared to \$2,272.1 million for the same period in 2008. The decrease was driven primarily by significantly lower refined petroleum product and natural gas prices for the three months ended September 30, 2009 compared to the same period in 2008. Our aggregate volume of product sold decreased by approximately 54 million gallons to 698 million gallons. The decrease in volume primarily includes decreases of approximately 35 million gallons, 19 million gallons and 2 million gallons in gasoline, distillates and residual oil, respectively. Our gross profit for the third quarter of 2009 was \$29.3 million, an increase of \$3.3 million, or 13%, compared to \$25.9 million for the same period in 2008. The increase was primarily due to higher net product margins in distillates.

Our total sales for the nine months ended September 30, 2009 decreased by \$3,171.3 million, or 43%, to \$4,119.4 million compared to \$7,290.8 million for the same period in 2008. The decrease was driven primarily by significantly lower refined petroleum product and natural gas prices for the nine months ended September 30, 2009 compared to the same period in 2008. Our aggregate volume of product sold decreased by approximately 6 million gallons to 2,540 million gallons. The decrease in volume primarily includes decreases of approximately 27 million gallons and 2 million gallons in gasoline and residual oil, respectively, offset by an increase of 16 million gallons in distillates. Our gross profit for the nine months ended September 30, 2009 was \$107.8 million, an increase of \$23.6 million, or 28%, compared to \$84.2 million for the same period in 2008. The increase was primarily due to higher net product margins in distillates and gasoline.

Wholesale Segment

Distillates. Wholesale distillate sales for the three months ended September 30, 2009 were \$329.3 million compared to \$677.4 million for the three months ended September 30, 2008. During the first nine months of 2009, wholesale distillate sales were \$1,741.0 million compared to \$3,164.4 million for the same period in 2008. The decreases of \$348.0 million, or 51%, and \$1,423.3 million, or 45%, for the three and nine months ended September 30, 2009, respectively, were due to the significantly lower refined petroleum product prices.

We experienced a 21 million gallon, or 11%, decrease in distillate volume sold for the third quarter of 2009 compared to the same period in 2008 which was attributed to increased competition in the marketplace and continued conservation. We also experienced a 7 million gallon, or 1%, increase in distillate volume sold for the nine months ended September 30, 2009 compared to the same period in 2008.

Our net product margin from distillate sales increased by \$3.5 million, or 29%, to \$15.5 million for the three months ended September 30, 2009 and by \$18.4 million, or 41% to \$62.8 million for the nine months ended September 30, 2009 compared to the same periods in 2008, primarily attributable to better unit margins, improved margin and inventory management and advantageous purchasing opportunities.

Gasoline. Wholesale gasoline sales for the three months ended September 30, 2009 were \$871.8 million compared to \$1,468.8 million for the same period in 2008. During the first nine months of 2009, wholesale gasoline sales were \$2,093.8 million compared to \$3,727.5 million for the same period in 2008. The decreases of \$597.0 million, or 41%, and \$1,633.8 million, or 44%, were due primarily to significantly lower gasoline prices compared to the prior periods

and decreases in volume.

Our net product margin from gasoline sales decreased by \$2.6 million to \$11.0 million for the three months ended September 30, 2009 due to competition in the marketplace and a moderate decrease in volume sold. Our net product margin from gasoline increased by \$2.4 million to \$34.9 million for the nine months ended September 30, 2009 compared to the same periods in 2008, primarily attributable to better unit margins, improved margin and inventory management and advantageous purchasing opportunities.

Residual Oil. Wholesale residual oil sales for the three months ended September 30, 2009 were \$6.6 million compared to \$23.8 million for the three months ended September 30, 2008. During the first nine months of 2009, residual oil sales were \$23.9 million compared to \$67.3 million for the same period in 2008. The decreases of \$17.2 million, or 72%, and \$43.4 million, or 64%, were primarily due to significantly lower refined petroleum product prices compared to the prior periods and decreases in volume sold. The decreases in volume sold were the result of continued conservation, current economic conditions and conversion and fuel switching related to the decrease in natural gas prices compared to residual oil prices.

Our net product margin contribution from residual oil sales increased by \$1.4 million, or 340%, to \$1.8 million for the three months ended September 30, 2009, primarily due to improved year-over-year margin and inventory management. Our net product margin decreased by \$0.6 million, or 8%, to \$6.9 million for the nine months ended September 30, 2009 compared to the same periods in 2008 due to intensified competition in the marketplace.

Commercial Segment

In our Commercial segment, residual oil accounted for approximately 60% and 63% of total commercial volume sold for the three months ended September 30, 2009 and 2008, respectively, and approximately 62% and 67% for the nine months ended September 30, 2009 and 2008, respectively. Distillates, gasoline and natural gas accounted for the remainder of the total volume sold.

Commercial residual oil sales for the quarter ended September 30, 2009 decreased by 25% compared to the same period in 2008. For the nine months ended September 30, 2009, residual oil sales decreased 28% compared to the same period in 2008. We attribute the decreases in sales to the competitive pricing from natural gas and reductions in production by certain industry participants in our markets.

Selling, General and Administrative Expenses

SG&A expenses increased by \$3.4 million, or 33%, to \$13.8 million for the three months ended September 30, 2009 compared to \$10.4 million for the same period in 2008. The increase was primarily due to increases of \$0.6 million in accrued bonuses, \$0.5 million in compensation cost on our long-term incentive plan, \$0.5 million in due diligence costs on potential expansion projects, \$0.4 million in professional fees, \$0.4 million in bad debt accrual due to some credit strain on our customer base, \$0.3 million in costs associated with the expansion of our natural gas operations, and \$0.7 million in various other variable SG&A expenses, including information systems and marketing and product promotion.

SG&A expenses increased by \$13.5 million, or 43%, to \$45.2 million for the nine months ended September 30, 2009 compared to \$31.7 million for the same period in 2008. The increase was primarily due to increases of \$5.6 million in accrued bonuses, \$1.5 million in bad debt accrual due to some credit strain on our customer base, \$1.3 million in professional fees, \$1.0 million in compensation cost on our long-term incentive plan, \$0.8 million in due diligence costs on potential expansion projects, \$0.5 million in employee benefits, \$0.5 million in bank fees, \$0.5 million in costs associated with the expansion of our natural gas operations and \$1.8 million in various other variable SG&A expenses, including information systems and marketing and product promotion.

Operating Expenses

Operating expenses increased by \$0.3 million, or 3%, to \$8.7 million for the three months ended September 30, 2009 compared to \$8.4 million for the same period in 2008. The increase was primarily due to increased costs of approximately \$0.5 million related to our recently leased storage facility in Long Island, New York, offset by a decrease of approximately \$0.2 million in other operating expenses.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Operating expenses were relatively flat at \$26.3 million for the nine months ended September 30, 2009 and \$26.2 million for the same period in 2008. During the first nine months of 2009, operating expenses included an increase of \$1.2 million in costs related to our recently leased storage facility in Long Island, New York, offset by decreases of \$1.0 million in cost savings related to the non-renewal of the terminal lease in New Haven, Connecticut and \$0.2 million in other operating costs.

Interest Expense

Interest expense for the three months ended September 30, 2009 decreased by \$1.6 million, or 29%, to \$3.7 million compared to \$5.3 million for the same period in 2008. Interest expense for the nine months ended September 30, 2009 decreased by \$4.5 million, or 29%, to \$10.9 million compared to \$15.4 million for the same period in 2008. We attribute the decreases primarily to lower average balances on our working capital credit facility from carrying lower average balances on inventories and accounts receivable due to lower refined petroleum product prices. In addition, interest rates were lower during the three and nine months ended September 30, 2009 compared to the same periods in 2008.

Liquidity and Capital Resources

Liquidity

Our primary liquidity needs are to fund our working capital requirements and our capital expenditures. Cash generated from operations and our working capital revolving credit facility provide our primary sources of liquidity. Working capital increased by \$102.3 million to \$300.9 million at September 30, 2009 compared to \$198.6 million at December 31, 2008.

On February 13, 2009, we paid a cash distribution to our common and subordinated unitholders and our general partner of approximately \$6.5 million for the fourth quarter of 2008. On May 15, 2009, we paid a cash distribution to our common and subordinated unitholders and our general partner of approximately \$6.5 million for the first quarter of 2009. On August 14, 2009, we paid a cash distribution to our common and subordinated unitholders and our general partner of approximately \$6.5 million for the first quarter of 2009. On October 21, 2009, the board of directors of our general partner declared a quarterly cash distribution of \$0.4875 per unit for the period from July 1, 2009 through September 30, 2009 (\$1.95 per unit on an annualized basis) to our common and subordinated unitholders of record as of the close of business November 4, 2009. We expect to pay the cash distribution of approximately \$6.5 million on November 13, 2009.

Capital Expenditures

Our terminalling operations require investments to expand, upgrade and enhance existing operations and to meet environmental and operations regulations. Our capital requirements primarily consist of maintenance capital expenditures and expansion capital expenditures. Maintenance capital expenditures represent capital expenditures to repair or replace partially or fully depreciated assets to maintain the operating capacity of, or revenues generated by, existing assets and extend their useful lives. Maintenance capital expenditures include expenditures required to maintain equipment reliability, tankage and pipeline integrity and safety and to address certain environmental regulations. We anticipate that maintenance capital expenditures will be funded with cash generated by operations. We had approximately \$3.6 million and \$1.4 million in maintenance capital expenditures for the nine months ended September 30, 2009 and 2008, respectively, which are included in capital expenditures in the accompanying consolidated statements of cash flows. Repair and maintenance expenses associated with existing assets that are minor in nature and do not extend the useful life of existing assets are charged to operating expenses as incurred.

Expansion capital expenditures include expenditures to acquire assets to grow our business or expand our existing facilities, such as projects that increase our operating capacity or revenues by increasing tankage, diversifying product availability at various terminals and adding terminals. We generally fund our expansion capital expenditures through our cash generated from operations or our acquisition and working capital revolving credit facilities or by issuing additional equity. We had approximately \$4.4 million and \$6.9 million in expansion capital expenditures for the nine months ended September 30, 2009 and 2008, respectively, to increase our operating capacity and capabilities. Specifically, for the nine months ended September 30, 2009, expansion capital expenditures consisted of approximately \$3.2 million in costs related to dock expansion and bringing formerly out-of-permit tanks back online at the Albany, New York terminal, \$0.9 million in additional terminal equipment at the Providence, Rhode Island terminal, \$0.2 million in automation costs at our recently leased storage facility in Long Island, New York and \$0.1 million in other expansion capital expenditures. Comparatively, for the nine months ended September 30, 2008, expansion capital expenditures included \$4.9 million in expenditures related to construction in process on our leased terminal in Providence, Rhode Island, \$1.1 million related to conversion expenditures to handle ethanol-based gasoline and \$0.9 million in other expansion capital expenditures.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

We believe that we will have cash flow from operations, borrowing capacity under our credit agreement and the ability to issue additional common units and/or debt securities to meet our financial commitments, debt service obligations, contingencies and anticipated capital expenditures. However, we are subject to business and operational risks that could adversely affect our cash flow. A material decrease in our cash flows would likely produce an adverse effect on our borrowing capacity.

Cash Flow

The following table summarizes cash flow activity (in thousands):

	Nine Months Ended	
	September 30,	
	2009	2008
Net cash provided by operating activities	\$ 25,778	\$ 54,124
Net cash used in investing activities	\$ (8,022)	\$ (8,288)
Net cash used in financing activities	\$ (18,017)	\$ (47,341)

Cash flow from operating activities generally reflects our net income, the purchasing patterns of inventory, the timing of collections on our accounts receivable, the seasonality of our business, fluctuations in refined petroleum product prices, our working capital requirements related to acquisitions and general market conditions.

Net cash provided by operating activities was \$25.8 million for the nine months ended September 30, 2009 compared to net cash provided by operating activities of \$54.1 million for the nine months ended September 30, 2008.

During the nine months ended September 30, 2009, refined petroleum product and natural gas prices declined significantly compared to the same period in 2008, causing the carrying values of our accounts receivable and accounts payable for the nine months ended September 30, 2009 to be less than the carrying values we experienced for the nine months ended September 30, 2008. As a result, for the nine months ended September 30, 2009, we had decreases of \$53.9 million and \$54.0 million in accounts receivable and accounts payable, respectively, while, we had decreases of \$125.0 million, \$89.7 million and \$78.5 million in inventories, accounts receivable and accounts payable, respectively, for the nine months ended September 30, 2008. Due to favorable market conditions, we elected to use our storage capacity to carry increased inventories of approximately \$180.0 million for the nine months ended September 30, 2009. Through the use of regulated exchanges or derivatives, we maintain a position that is substantially hedged with respect to such inventories.

The cash provided by operating activities is also reflected in the year-over-year increase in net income of \$13.5 million and a \$248.6 million change in the fair value of our forward fixed price contracts. For the nine months ended September 30, 2009, contracts supporting our forward fixed price hedge program provided funds from the NYMEX of approximately \$162.0 million while for the nine months ended September 30, 2008 similar hedging activity required margin payments of approximately \$86.6 million to the NYMEX due to market direction.

Net cash used in investing activities was 8.0 million for the nine months ended September 30, 2009 compared to the same period in 2008 and included \$3.6 million in maintenance capital expenditures and \$4.4 million in expansion capital expenditures (\$3.2 million in costs related to dock expansion and bringing formerly out-of-permit tanks back online at the Albany, New York terminal, \$0.9 million in additional terminal equipment at the Providence, Rhode Island terminal, \$0.2 million in automation costs at our recently leased storage facility in Long Island, New York and \$0.1 million in other expansion capital expenditures). Comparatively, for the nine months ended September 30, 2008, net cash used in investing activities included \$8.3 million in total capital expenditures comprised of \$1.4 million in maintenance capital expenditures and \$6.9 million in expansion capital expenditures (\$4.9 million related to construction in process on our leased terminal in Providence, Rhode Island, \$1.1 million related to conversion expenditures to handle ethanol-based gasoline and \$0.9 million in other expansion capital expenditures).

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Net cash used in financing activities was \$18.0 million for the nine months ended September 30, 2009 and primarily included \$19.6 million in cash distributions to our common and subordinated unitholders and our general partner, \$3.5 million in the repurchases of common units held on our behalf pursuant to our Repurchase Program and for future satisfaction of our General Partner's Obligations (as defined in Note 12 of Notes to Consolidated Financial Statements) and \$0.3 million repurchased units held for tax obligations, offset by \$5.4 million in net proceeds from our credit facilities. Comparatively, for the nine months ended September 30, 2008, net cash used in financing activities included net payments on our credit facilities of \$26.5 million, \$19.6 million in cash distributions to our common and subordinated unitholders and our general partner and \$1.2 million in payments on our note payable.

Credit Agreement

We, our general partner, our operating company and our operating subsidiaries have a four-year senior secured credit agreement with total available commitments of \$750.0 million. We repay amounts outstanding and reborrow funds based on our working capital requirements and, therefore, classify as a current liability the portion of the working capital revolving credit facility we expect to pay down during the course of the year. The long-term portion of the working capital revolving credit facility is the amount we expect to be outstanding during the entire year. The credit agreement will mature on April 22, 2011.

There are three facilities under our credit agreement:

- a working capital revolving credit facility to be used for working capital purposes and letters of credit in the principal amount equal to the lesser of our borrowing base and \$650.0 million; the \$650.0 million includes two \$50.0 million seasonal overline facilities that are available each year only during the period between September 1 and June 30;
- an \$85.0 million acquisition facility to be used for funding acquisitions similar to our business line that have a purchase price of \$25.0 million or less or \$35.0 million or less in the aggregate in any 12-month period; and
- a \$15.0 million revolving credit facility to be used for general purposes, including payment of distributions to our unitholders.

In addition, the credit agreement has an accordion feature whereby we may request on the same terms and conditions of our then existing credit agreement, provided no Event of Default (as defined in the credit agreement) then exists, an increase to: (1) the acquisition facility by up to another \$50.0 million, for a total acquisition facility of up to \$135.0 million; and (2) the working capital revolving credit facility by up to another \$200.0 million, for a total working capital revolving credit facility of up to \$850.0 million. Any such request for an increase by us must be in a minimum amount of \$5.0 million, and no more than three such requests may be made for each facility. We, however, cannot provide assurance that our lending group will agree to fund any request by us for additional amounts in excess of the total available commitments of \$750.0 million.

Availability under our working capital revolving credit facility is subject to a borrowing base which is redetermined from time to time and based on specific advance rates on eligible current assets. Under the credit agreement, we can borrow only up to the level of our then current borrowing base. Availability under our borrowing base may be affected by events beyond our control, such as changes in refined petroleum product prices, collection cycles, counterparty performance, advance rates and limits and deteriorating economic conditions. These and other events could require us to seek waivers or amendments of covenants or alternative sources of financing or to reduce expenditures. We can provide no assurance that such waivers, amendments or alternative financing could be obtained, or, if obtained, would be on terms acceptable to us.

During the period from January 1, 2008 through July 20, 2008, borrowings under our working capital revolving credit, acquisition and revolving credit facilities bore interest at our option at (1) the Eurodollar rate, plus 1%, 1½% and 1½%, respectively, (2) the cost of funds rate, plus 1%, 1¾% and 1½%, respectively, or (3) the bank's base rate. Commencing July 21, 2008, borrowings under the working capital revolving credit

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

facility bear interest at (1) the Eurodollar rate plus 1.75% to 2.25%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Combined Interest Coverage Ratio (as defined in the credit agreement). Commencing July 21, 2008, borrowings under the acquisition and revolving credit facilities bear interest at (1) the Eurodollar rate plus 2.25% to 2.75%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Combined Interest Coverage Ratio. The average interest rates were approximately 3.5% and 4.5% for the three months ended September 30, 2009 and 2008, respectively, and 3.7% and 4.3% for the nine months ended September 30, 2009 and 2008, respectively.

We incur a letter of credit fee of 1.75% per annum for each letter of credit issued. In addition, we incur a commitment fee on the unused portion of the three facilities under the credit agreement (including the unused portion of either of the seasonal overline facilities exercised by us) equal to 0.3% to 0.375% per annum, depending on the pricing level and the Combined Interest Coverage Ratio provided in the credit agreement. We also incur a facility fee of 0.1% per annum on any unexercised seasonal overline facility during the period between September 1 and June 30 and a seasonal overline fee of \$30,000 each time we elect to exercise either of the seasonal overline facilities.

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

As of September 30, 2009, we had total borrowings outstanding under our credit agreement of \$438.9 million, including \$71.2 million outstanding on our acquisition facility, and outstanding letters of credit of \$64.5 million. The total remaining availability for borrowings and letters of credit at September 30, 2009 and December 31, 2008 was \$246.6 million and \$211.3 million, respectively.

The credit agreement imposes financial covenants that require us to maintain certain minimum working capital amounts, capital expenditure limits, a minimum EBITDA ratio, a minimum combined interest coverage ratio and a maximum leverage ratio. We were in compliance with the foregoing covenants at September 30, 2009. The credit agreement also contains a representation whereby there can be no event or circumstance, either individually or in the aggregate, that has had or could reasonably be expected to have a Material Adverse Effect (as defined in the credit agreement).

The credit agreement provides that in each calendar year the outstanding amount under the working capital revolving credit facility must be equal to or less than \$263.0 million for a period of ten consecutive calendar days. We have complied with this provision for the year ending December 31, 2009. It is anticipated that the seasonal decrease in working capital as we exit our heating season will contribute to a decrease in borrowings outstanding under our credit agreement.

The credit agreement limits distributions to our unitholders to available cash and permits borrowings to fund such distributions only under the \$15.0 million revolving credit facility. The revolving credit facility is subject to an annual clean-down period, requiring us to reduce the amount outstanding under the revolving credit facility to \$0 for 30 consecutive calendar days in each calendar year. We have complied with this provision for the year ending December 31, 2009.

Our obligations under the credit agreement are secured by substantially all of our assets and the assets of our operating company and operating subsidiaries.

The lending group under the credit agreement includes the following institutions: Bank of America, N.A.; Standard Chartered Bank; JPMorgan Chase Bank, N.A.; Societe Generale; RBS Citizens, National Association; Sovereign Bank; Fortis Capital Corp.; Webster Bank National Association; KeyBank National Association; TD Bank, N.A. (f/k/a TD BankNorth, N.A.); Wells Fargo Bank, N.A.; Wachovia Bank, National Association; and Calyon New York Branch.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Critical Accounting Policies and Estimates

Management's Discussion and Analysis of Financial Condition and Results of Operations discusses our consolidated financial statements, which have been prepared in accordance with GAAP. The preparation of these consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results may differ from these estimates under different assumptions or conditions.

These estimates are based on our knowledge and understanding of current conditions and actions that we may take in the future. Changes in these estimates will occur as a result of the passage of time and the occurrence of future events. We have identified the following estimates that, in our opinion, are subjective in nature, require the exercise of judgment, and involve complex analysis: inventory, leases, revenue recognition, derivative financial instruments and environmental and other liabilities.

The significant accounting policies and estimates that we have adopted and followed in the preparation of our consolidated financial statements are detailed in Note 2 of Notes to Consolidated Financial Statements, Summary of Significant Accounting Policies included in our Annual Report on Form 10-K for the year ended December 31, 2008. There have been no subsequent changes in these policies and estimates that had a significant impact on our financial condition and results of operations for the periods covered in this report.

Recent Accounting Pronouncements

A description and related impact expected from the adoption of certain new accounting pronouncements is provided in Note 16 of Notes to Consolidated Financial Statements.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

Market risk is the risk of loss arising from adverse changes in market rates and prices. The principal market risks to which we are exposed are interest rate risk and commodity risk. We utilize two interest rate collars to manage exposure to interest rate risk and various derivative instruments to manage exposure to commodity risk.

Interest Rate Risk

We utilize variable rate debt and are exposed to market risk due to the floating interest rates on our credit facility. Therefore, from time to time, we utilize interest rate collars to hedge interest obligations on specific and anticipated debt issuances.

During the period from January 1, 2008 through July 20, 2008, borrowings under our working capital revolving credit, acquisition credit and revolving credit facilities bore interest at our option at (1) the Eurodollar rate, plus 1%, 1½% and 1½%, respectively, (2) the cost of funds rate, plus 1%, 1¾% and 1½%, respectively, or (3) the bank's base rate. Commencing July 21, 2008, borrowings under the working capital revolving credit facility bear interest at (1) the Eurodollar rate plus 1.75% to 2.25%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Combined Interest Coverage Ratio (as defined in the credit agreement). Commencing July 21, 2008, borrowings under the acquisition and revolving credit facilities bear interest at (1) the Eurodollar rate plus 2.25% to 2.75%, (2) the cost of funds rate plus 1.75% to 2.25%, or (3) the base rate plus 0.75% to 1.25%, each depending on the pricing level provided in the credit agreement, which in turn depends upon the Combined Interest Coverage Ratio. The average interest rates were approximately 3.5% and 4.5% for the three months ended September 30, 2009 and 2008, respectively, and 3.7% and 4.3% for the nine months ended September 30, 2009 and 2008, respectively.

As of September 30, 2009, we had total borrowings outstanding under the credit agreement of \$438.9 million. The impact of a 1% increase in the interest rate on this amount of debt would have resulted in an increase in interest expense, and a corresponding decrease in our results of operations, of approximately \$4.4 million annually, assuming, however, that our indebtedness remained constant throughout the year.

We executed two zero premium interest rate collars with major financial institutions. Each collar is designated as a cash flow hedge and accounted for in accordance with the guidance issued by the Financial Accounting Standards Board. The first collar, which became effective on May 14, 2007 and expires on May 14, 2011, is used to hedge the variability in interest payments due to changes in the three-month LIBOR rate with respect to \$100.0 million of three-month LIBOR-based borrowings. Under the first collar, we capped our exposure at a maximum three-month LIBOR rate of 5.75% and established a minimum floor rate of 3.75%. Whenever the three-month LIBOR rate is greater than the cap, we receive from the respective financial institution the difference between the cap and the current three-month LIBOR rate on the \$100.0 million of three-month LIBOR-based borrowings. Conversely, whenever the three-month LIBOR rate is lower than the floor, we remit to the respective financial institution the difference between the floor and the current three-month LIBOR rate on the \$100.0 million of

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

three-month LIBOR-based borrowings. As of September 30, 2009, the three-month LIBOR rate of 0.45% was lower than the floor rate. As a result, in November 2009, we will remit to the respective financial institution the difference between the floor rate and the current rate which amounted to approximately \$440,000.

On September 29, 2008, we executed our second zero premium interest rate collar. The second collar, which became effective on October 2, 2008 and expires on October 2, 2013, is used to hedge the variability in cash flows in monthly interest payments made on our \$100.0 million one-month LIBOR-based borrowings (and subsequent refinancings thereof) due to changes in the one-month LIBOR rate. Under the second collar, we capped our exposure at a maximum one-month LIBOR rate of 5.50% and established a minimum floor rate of 2.70%. Whenever the one-month LIBOR rate is greater than the cap, we receive from the respective financial institution the difference between the cap and the current one-month LIBOR rate on the \$100.0 million of one-month LIBOR-based borrowings. Conversely, whenever the one-month LIBOR rate is lower than the floor, we remit to the respective financial institution the

difference between the floor and the current one-month LIBOR rate on the \$100.0 million of one-month LIBOR-based borrowings. As of September 30, 2009, the one-month LIBOR rate of 0.26% was lower than the floor rate. As a result, in October 2009, we remitted to the respective financial institution the difference between the floor rate and the current rate which amounted to approximately \$196,700. See Note 5 of Notes to Consolidated Financial Statements for further discussion on the interest rate collars.

Commodity Risk

We hedge our exposure to price fluctuations with respect to refined petroleum products in storage and expected purchases and sales of these commodities. The derivative instruments utilized consist primarily of futures contracts traded on the NYMEX and over-the-counter transactions, including swap agreements entered into with established financial institutions and other credit-approved energy companies. Our policy is generally to purchase only products for which we have a market and to structure our sales contracts so that price fluctuations do not materially affect our profit. While our policies are designed to minimize market risk, some degree of exposure to unforeseen fluctuations in market conditions remains. Except for the controlled trading program discussed below, we do not acquire and hold futures contracts or other derivative products for the purpose of speculating on price changes that might expose us to indeterminable losses.

While we seek to maintain a position that is substantially balanced within our product purchase activities, we may experience net unbalanced positions for short periods of time as a result of variances in daily sales and transportation and delivery schedules as well as logistical issues associated with inclement weather conditions. In connection with managing these positions and maintaining a constant presence in the marketplace, both necessary for our business, we engage in a controlled trading program for up to an aggregate of 250,000 barrels of refined petroleum products at any one point in time.

We enter into futures contracts to minimize or hedge the impact of market fluctuations on our purchases and forward fixed price sales of refined petroleum products. Any hedge ineffectiveness is reflected in our results of operations. We utilize the NYMEX, which is a regulated exchange for energy products that it trades, thereby reducing potential delivery and supply risks. Generally, our practice is to close all NYMEX positions rather than to make or receive physical deliveries. With respect to other energy products, we enter into derivative agreements with counterparties that we believe have a strong credit profile, in order to hedge market fluctuations and/or lock-in margins relative to our commitments.

At September 30, 2009, the fair value of all of our commodity risk derivative instruments and the change in fair value that would be expected from a 10% price increase or decrease are shown in the table below (in thousands):

Gain (loss):

	Fair Value at September 30, 2009	Effect of 10% Price Increase	Effect of 10% Price Decrease
NYMEX contracts	\$ (14,279)	\$ (29,950)	\$ 29,950
Swaps, options and other, net	(279)	(1,395)	(2,680)
	\$ (14,558)	\$ (31,345)	\$ 27,270

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

The fair values of the futures contracts are based on quoted market prices obtained from the NYMEX. The fair value of the swaps and option contracts are estimated based on quoted prices from various sources such as independent reporting services, industry publications and brokers. These quotes are compared to the contract price of the swap, which approximates the gain or loss that would have been realized if the contracts had been closed out at September 30, 2009. For positions where independent quotations are not available, an estimate is provided, or the prevailing market price at which the positions could be liquidated is used. All hedge positions offset physical exposures to the spot market; none of these offsetting physical exposures are included in the above table. Price-risk sensitivities were calculated by assuming an across-the-board 10% increase or decrease in price regardless of term or historical relationships between the contractual price of the instruments and the underlying commodity price. In the event of an actual 10% change in prompt month prices, the fair value of our derivative portfolio would typically change less than that shown in the table due to lower volatility in out-month prices. We have a daily margin requirement to maintain a cash deposit with our broker based on the prior day's market results on open futures contracts. The balance of this deposit will fluctuate based on our open market positions and the commodity exchange's requirements. The required brokerage margin balance was \$5 thousand at September 30, 2009.

We are exposed to credit loss in the event of nonperformance by counterparties of futures contracts, forward contracts and swap agreements. We anticipate some nonperformance by some of these counterparties which, in the aggregate, we do not believe at this time will have a material adverse effect on our financial condition results of operations or cash available for distribution to our unitholders. Futures contracts, the primary derivative instrument utilized, are traded on regulated exchanges, greatly reducing potential credit risks. Exposure on swap and certain option agreements is limited to the amount of the recorded fair value as of the balance sheet dates. We utilize primarily one clearing broker, a major financial institution, for all NYMEX derivative transactions and the right of offset exists. Accordingly, the fair value of all derivative instruments is displayed on a net basis.

Item 4. Controls and Procedures

Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that the information required to be disclosed by us in the reports we file or submit under the Securities Exchange Act of 1934 (the Exchange Act) is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms and that information is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate, to allow timely decisions regarding required disclosure. Under the supervision and with the participation of our principal executive officer and principal financial officer, management evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15(e) or 15d-15(e) of the Exchange Act). Based on that evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were effective as of September 30, 2009.

Internal Control over Financial Reporting

There has not been any change in our internal control over financial reporting that occurred during the quarter ended September 30, 2009 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

General

Although we may, from time to time, be involved in litigation and claims arising out of our operations in the normal course of business, we do not believe that we are a party to any litigation that will have a material adverse impact on our financial condition or results of operations. Except as described in our Annual Report on Form 10-K for the year ended December 31, 2008 and in Note 11 in this Quarterly Report on Form 10-Q, we are not aware of any significant legal or governmental proceedings against us, or contemplated to be brought against us. We maintain insurance policies with insurers in amounts and with coverage and deductibles as our general partner believes are reasonable and prudent. However, we can provide no assurance that this insurance will be adequate to protect us from all material expenses related to potential future claims or that these levels of insurance will be available in the future at economically acceptable prices.

On October 22, 2009, the Federal Trade Commission (FTC) issued a Civil Investigative Demand and a Subpoena Duces Tecum in connection with the FTC's regulatory review of the Partnership's planned acquisition of three refined petroleum terminal facilities in Newburgh, New York from Warex Terminals Corporation. The Partnership will continue to cooperate with the FTC during its review. The Partnership cannot predict the outcome of the FTC's review or its effect on the transaction. As a result of the FTC review, closing of the transaction will not be completed in 2009 and remains subject to the FTC review, receipt of certain regulatory approvals and various other customary closing conditions.

Item 1A. Risk Factors

There have been no material changes to the Risk Factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2008.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

The table below provides information with respect to purchases of our common units made by our general partner on our behalf during the quarter ended September 30, 2009:

Total Number of Units Purchased as	Maximum Number (or Approximate Dollar Value) of Units That May
---	---

Edgar Filing: GLOBAL PARTNERS LP - Form 10-Q

Period	Total Number Of Units Purchased	Average Price Paid Per Unit (\$)	Part of Publicly Announced Plans or Programs(1)	Yet Be Purchased Under the Plans or Programs(1)
July 1 July 31, 2009	28,025	17.91	28,025	
August 1 August 31, 2009	39,691	21.86	39,691	
September 1 September 30, 2009	29,700	23.06	29,700	

(1) On May 7, 2009, the board of directors of our general partner announced that it authorized the repurchase of our common units for the purpose of assisting us in meeting our general partner's anticipated obligations to deliver common units under the LTIP and meeting the general partner's obligations under existing employment agreements and other employment related obligations of the general partner. We are authorized to spend up to \$6.6 million to acquire up to 445,000 of our common units in the aggregate, over an extended period of time, consistent with the general partner's obligations under the LTIP and employment agreements. Common units may be repurchased from time to time in open market transactions, including block purchases, or in privately negotiated transactions. Such authorized unit repurchases may be modified, suspended or terminated at any time, and are subject to price, economic and market conditions, applicable legal requirements and available liquidity.

Item 6. Exhibits

- | | |
|------|---|
| 3.1 | Second Amended and Restated Agreement of Limited Partnership of Global Partners LP dated as of May 9, 2007 (incorporated herein by reference to Exhibit 3.1 to the Current Report on Form 8-K filed on May 10, 2007). |
| 3.2 | Amendment No. 1 to the Second Amended and Restated Agreement of Limited Partnership of Global Partners LP dated April 14, 2008 (incorporated herein by reference to Exhibit 3.1 to the Current Report on Form 8-K filed on April 17, 2008). |
| 31.1 | Rule 13a-14(a)/15d-14(a) Certification of Principal Executive Officer of Global GP LLC, general partner of Global Partners LP. |
