**1. Description of Business**

*Business Description*

Hawaiian Telcom Holdco, Inc. and subsidiaries (the Company) is the incumbent local exchange carrier for the State of Hawaii with an integrated telecommunications network servicing approximately 435,000 switched access lines as of March 31, 2011. The Company also served approximately 224,000 long distance lines and 101,000 High-Speed Internet (HSI) connections as of that date.

As a result of the adoption of fresh-start reporting, the financial statements before and on October 31, 2010 are not comparable to the financial statements for the period after October 31, 2010. References to Successor refer to the Company after October 31, 2010 after giving effect to the adoption of fresh-start reporting. References to Predecessor refer to the Company prior to and on October 31, 2010. See Note 2 for further details.

*Organization*

The Company has one direct wholly-owned subsidiary, Hawaiian Telcom Communications, Inc. which has two direct wholly-owned subsidiaries Hawaiian Telcom, Inc. and Hawaiian Telcom Services Company, Inc. Hawaiian Telcom, Inc. operates the regulated local exchange carrier and Hawaiian Telcom Services Company, Inc. operates all other businesses.

**2. Chapter 11**

On December 1, 2008 (the Petition Date), Hawaiian Telcom Holdco, Inc. and its subsidiaries, with the exception of Hawaiian Telcom Insurance Company, Incorporated (the Non-Debtor), (collectively the Debtors) filed voluntary petitions for reorganization under Chapter 11 of Title 11 of the United States Code (the Bankruptcy Code) in the United States Bankruptcy Court for the District of Delaware. The cases were transferred to the District of Hawaii on December 22, 2008 (the Bankruptcy Court). The Debtors continued to operate as debtors-in-possession under the jurisdiction of the Bankruptcy Court and orders of the Bankruptcy Court. In general, as debtors-in-possession, the Debtors were authorized under Chapter 11 to continue to operate as an ongoing business but could not engage in transactions outside the ordinary course of business without the prior approval of the Bankruptcy Court.

On June 3, 2009, the Debtors filed a plan of reorganization with the Bankruptcy Court together with the disclosure statement. On August 28, 2009, the Bankruptcy Court approved distribution of the disclosure statement for vote by the prepetition creditors. On November 13, 2009, the judge of the Bankruptcy Court ruled that the plan as presented was approved. The final confirmation order was issued by the Court on

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

December 30, 2009. The plan of reorganization, including the proposed debt and equity structure, was subject to approval of the Hawaii Public Utilities Commission (HPUC) and Federal Communications Commission. Approvals were obtained in September 2010 and relevant appeal periods expired in October 2010. After satisfying all conditions precedent to emergence under the Plan, the Company emerged from Chapter 11 effective as of October 28, 2010 ( Emergence Date ).

### **3. Basis of Presentation**

The accompanying unaudited condensed consolidated financial statements of the Company have been prepared by the Company in accordance with accounting principles generally accepted in the United States of America. Certain information and disclosures normally included in annual financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been omitted and condensed. In the opinion of the Company's management, all adjustments (consisting of only normal and recurring accruals) have been made to present fairly the financial position,

Table of Contents

the results of operations and cash flows for the periods presented. The results of operations for the periods presented are not necessarily indicative of the results to be expected for the full year. Although the Company believes that the disclosures are adequate to make the information presented not misleading, these financial statements should be read in conjunction with the Company's audited consolidated financial statements as of and for the year ended December 31, 2010.

***Cash and Cash Equivalents***

Cash and cash equivalents include cash and money market accounts with maturities at acquisition of three months or less. The majority of cash balances at March 31, 2011 are held in one bank in demand deposit accounts.

***Supplemental Non-Cash Investing and Financing Activities***

Accounts payable included \$1.5 million and \$6.7 million at March 31, 2011 and 2010, respectively, for additions to property, plant and equipment.

***Taxes Collected from Customers***

The Company presents taxes collected from customers and remitted to governmental authorities on a gross basis, including such amounts in the Company's reported operating revenues. Such amounts represent primarily Hawaii state general excise taxes and HPUC fees. Such taxes and fees amounted to \$1.5 million and \$1.6 million for the three months ended March 31, 2011 and 2010, respectively.

***Earnings per Share***

Basic earnings per share is based on the weighted effect of all common shares issued and outstanding, and is calculated by dividing earnings by the weighted average shares outstanding during the period. Diluted earnings per share is calculated by dividing earnings, adjusted for the effect, if any, from assumed conversion of all potentially dilutive common shares outstanding, by the weighted average number of common shares used in the basic earnings per share calculation plus the number of common shares that would be issued assuming conversion of all potentially dilutive common shares outstanding. The computation of diluted earnings per share excludes the impact of outstanding stock options for Predecessor periods as they were antidilutive to earnings per share. The denominator used to compute basic and diluted earnings per share by the Successor for the three months ended March 31, 2011 is as follows:

Basic earnings per share - weighted average shares	10,137,696
Effect of dilutive securities:	
Employee and director restricted stock units	134,453
Warrants	655,509
Diluted earnings per share - weighted average shares	10,927,658

**4. Reorganization Items**

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting standards for financial reporting by entities in reorganization under the Bankruptcy Code. The Predecessor's condensed consolidated statement of operations for the three months ended March 31, 2010 present the results of operations during the Chapter 11 proceedings. As such, any revenues, expenses, and gains and losses realized or incurred that are directly related to the bankruptcy case were reported separately as reorganization items due to the bankruptcy. The operations of the Non-Debtor, included in the condensed consolidated statement of operations and cash flow statement were not significant.

	\$ 21,746	\$ 28,752

### 8. Long-Term Debt

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Long-term debt consists of a term loan which has an original principal amount of \$300.0 million and will mature on October 28, 2015. For each fiscal year that the Company has a cash balance that is greater than \$67.5 million, the Company shall prepay, no later than 105 days after fiscal year end, loans in an aggregate amount equal to the lesser of (i) 75% of excess cash flow, as defined, for such fiscal year; and (ii) the amount by which the cash balance exceeds \$67.5 million. In addition, the Company must make prepayment on loans in the case of certain prepayment events such as large asset sales. No term loan prepayment is anticipated for 2011.

The loans on the term loan bear interest at a Eurocurrency rate on deposits for one, two, three or six month periods but no less than 3% plus a margin of 6%. The interest rate on the debt at March 31, 2011 was 9%. The Company may request interest at the rate of 1.5% be paid-in-kind for 2011 and added to the principal balance of the loan.

Table of Contents

The term loan includes a provision whereby members of the lender group may request that the Company make an offer to exchange term loan debt for equity at the then fair value of common equity shares. The Company, in its sole discretion, can make the offer or not. The Company, in its sole discretion, can also initiate an offer to exchange term loan debt for equity at the then fair value of common equity shares. Members of the lender group are not required to accept such offers.

The Company has a revolving credit facility which matures on October 27, 2011 and has an available balance of \$30.0 million with no amounts drawn during the three months ended and as of March 31, 2011. A commitment fee is payable quarterly to the lender under the facility. Interest on amounts outstanding is based on, at the Company's option, the bank prime rate plus a margin of 3.0% or the Eurocurrency rate for one, two, three or six month periods but no less than 5.5% plus a margin of 4.0%.

The obligations under the bank facilities are guaranteed by the Company and each subsidiary with certain exceptions. In addition, the bank credit facilities are collateralized by substantially all of the Company's assets.

The bank credit facilities contain various negative and affirmative covenants that restrict, among other things, incurrence of additional indebtedness, payment of dividends, redemptions of stock, other distributions to shareholders and sales of assets. In addition, there are financial covenants consisting of a leverage ratio, minimum liquidity and a maximum level of capital expenditures.

***Contractual Interest Expense***

The Predecessor recorded postpetition interest on prepetition obligations only to the extent it believed the interest would be paid during the bankruptcy proceedings or that it was probable that the interest would be an allowed claim. Had the Predecessor recorded interest expense based on all of the prepetition contractual obligations, interest expense would have increased by \$11.8 million for the three months ended March 31, 2010.

**9. Derivative Instruments and Hedging Activities**

The Company utilized a combination of fixed-rate and variable-rate debt to finance its operations. The variable-rate debt exposed the Company to variability in interest payments due to changes in interest rates. Management believed that it was prudent to mitigate the interest rate risk on a portion of its variable-rate borrowings. To meet this objective, management maintained interest rate swap agreements to manage fluctuations in cash flows resulting from adverse changes in interest rates on its term loans and notes.

Changes in the fair value of interest rate swaps designated as hedging instruments that effectively offset the variability of cash flows associated with the Company's variable-rate debt obligations were reported in accumulated other comprehensive loss. These amounts were subsequently reclassified into interest expense as a yield adjustment of the hedged interest payment in the same period in which the related interest payments affect earnings.

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

The impact of interest rate swaps, classified as cash flow hedges, was for the three months ended March 31, 2010 a reclassification from accumulated other comprehensive loss into income (effective portion recognized as interest expense) in the amount of \$0.1 million. Amounts included in accumulated other comprehensive loss for the cash flow hedges were reclassified into earnings as cash interest was paid on the underlying debt that was hedged. There are no ongoing interest rate hedging activities.

Table of Contents**10. Employee Benefit Plans**

The Company sponsors a defined benefit pension plan and postretirement medical and life insurance benefits for union employees. The Company also sponsors a cash balance pension plan for nonunion employees.

The Company accrues the costs of pension and postretirement benefits over the period from the date of hire until the date the employee becomes fully eligible for benefits. The following provides the components of benefit costs for the three months ended March 31, 2011 and 2010 (dollars in thousands):

## Pension

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>
Service cost	\$ 1,821	\$ 1,756
Interest cost	2,708	2,537
Expected asset return	(2,943)	(2,103)
Amortization of loss		381
Net periodic benefit cost	1,586	2,571

## Other Postretirement Benefits

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>
Service cost	\$ 229	\$ 285
Interest cost	514	566
Amortization of gain	(99)	
Net periodic benefit cost	\$ 644	\$ 851

The Company previously disclosed in its consolidated financial statements for the year ended December 31, 2010 that it expected to contribute \$17.0 million to its pension plan in 2011. As of March 31, 2011, the Company has contributed \$3.2 million. The Company presently anticipates contributing the full amount during the remainder of 2011.

Table of Contents**11. Income Taxes**

The income tax provision differs from the amounts determined by applying the statutory federal income tax rate of 34% to the income (loss) before income tax provision for the following reasons (dollars in thousands):

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>
Income tax provision (benefit)	\$ 1,883	\$ (7,929)
Increase (decrease) resulting from:		
State income taxes, net of federal income tax	222	(933)
Valuation allowance	(2,105)	8,862
Income tax benefit	\$	\$

A valuation allowance has been provided at March 31, 2011 and December 31, 2010 for the deferred tax assets because of the uncertainty of future realization of such amounts. The Company will continue to assess the recoverability of deferred tax assets and the related valuation allowance. To the extent that the Company generates taxable income in future periods and it determines that such valuation allowance is no longer required, the tax benefit of the remaining deferred tax assets will be recognized at that time.

The Company evaluates its tax positions for liability recognition. As of March 31, 2011, the Company had no unrecognized tax benefits. No interest or penalties related to tax assessments were recognized in the Company's condensed consolidated statements of operations for the three months ended March 31, 2011 or 2010. All tax years from 2007 remain open for both federal and Hawaii state purposes.

**12. Stock Option Plan****Successor**

On October 28, 2010, the new equity incentive plan became effective pursuant to the plan of reorganization. The Compensation Committee of the Company's Board of Directors may grant awards under the plan in the form of incentive stock options, non-qualified stock options, stock appreciation rights, restricted stock, restricted stock units and other stock-based awards. The maximum number of shares issuable under the new equity incentive plan is 1,400,000 shares. All grants under the equity incentive plan will be issued to acquire shares at the fair value on date of grant.

Table of Contents

As of March 31, 2011, all awards were restricted stock units. Activity with respect to outstanding restricted stock units for the three months ended March 31, 2011 was as follows:

	Shares		Weighted-Average Grant-Date Fair Value
Nonvested at January 1, 2011	246,778	\$	12
Granted	57,639		27
Vested			
Forfeited			
Nonvested at March 31, 2011	304,417	\$	15

The Successor recognized compensation expense of \$0.3 million for the three months ended March 31, 2011. There was no cash received under all share-based payment arrangements during the same period. The Company did not receive any tax benefits for the tax deductions from share-based payment arrangements during the period.

**Predecessor**

The Predecessor recognized share-based compensation expense of less than \$0.1 million for the three months ended March 31, 2010 related to option grants.

**13. Comprehensive Income (Loss)**

A summary of components of comprehensive income (loss) is as follows (dollars in thousands):

*Third Party Claims*

In the normal course of conducting its business, the Company is involved in various disputes with third parties, including vendors and customers. The outcome of such disputes is generally uncertain and subject to commercial negotiations. The Company periodically assesses its liabilities in connection with these matters and records reserves for those matters where it is probable that a loss has been incurred and the loss can be reasonably estimated. Based on management's most recent assessment, the

Table of Contents

Company believes that the risk of loss in excess of liabilities recorded is not material for all outstanding claims and disputes and the ultimate outcome of such matters will not have a material adverse effect on the Company's results of operations, cash flows or financial position.

***Litigation***

The Company is involved in litigation arising in the normal course of business. The outcome of this litigation is not expected to have a material adverse impact on the Company's condensed consolidated financial statements.

**15. Fair Value of Financial Instruments**

The following method and assumptions were used to estimate the fair value of each class of financial instruments for which it is practical to estimate the fair value.

Cash and cash equivalents, accounts receivable and accounts payable The carrying amount approximates fair value because of the short maturities of these instruments.

Investment securities The fair value of investment securities is based on quoted market prices. Investment securities are included in other assets on the condensed consolidated balance sheets.

Debt The fair value of debt is based on the value at which the debt is trading among holders.

The estimated fair value of financial instruments is as follows (dollars in thousands):

	<b>Carrying Value</b>	<b>Fair Value</b>
<b>March 31, 2011</b>		
Assets - investment in U.S. Treasury obligations (Level 1)	\$ 1,706	\$ 1,706
Liabilities - long-term debt (carried at cost)	300,000	305,000
<b>December 31, 2010</b>		
Assets - investment in U.S. Treasury obligations (Level 1)	\$ 1,805	\$ 1,805
Liabilities - long-term debt (carried at cost)	300,000	300,000

***Fair Value Measurements***

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Fair value for accounting purposes is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price).

Accounting standards establish a fair value hierarchy that prioritizes the inputs used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurement).

Assets measured at fair value on a recurring basis represent investment securities included in other assets.

Table of Contents**16. Segment Information**

The Company operates in two reportable segments (Wireline Services and Other) based on how resources are allocated and performance is assessed by the Company's Chief Executive Officer, the Company's chief operating decision maker. The Wireline Services segment provides local telephone service including voice and data transport, enhanced custom calling features, network access, directory assistance and private lines. In addition, the Wireline Services segment provides Internet, long distance services, managed services, customer premise equipment, data solutions, billing and collection, and pay telephone services. The Other segment consists primarily of wireless services.

The following table provides operating financial information for the Company's two reportable segments (dollars in thousands):

**17. Restatement**

Subsequent to the issuance of the March 31, 2010 condensed consolidated financial statements, the Company's management determined that the Company had incorrectly assigned a value to an identifiable intangible asset for franchise rights in conjunction with the purchase of an acquired business. Because of the unique nature of this particular nontransferable franchise right, the Company concluded there is not an independent market participant useful for purposes of determining a separately identifiable value. Hence, the Company concluded no value should have been assigned. The purchase price should have instead been allocated to goodwill of its wireline segment. As a result, the accompanying condensed consolidated financial statements have been restated. The restatement resulted in the elimination of an impairment loss on the franchise right intangible asset that had been recognized in the 2007 results of operations and reclassification of the franchise right intangible asset (including the amount previously impaired) to goodwill of the Company's wireline segment. In conjunction with the restatement and the Company's annual

impairment tests for goodwill, the Company concluded that the goodwill was impaired in 2007.

Table of Contents

Because of differences in intangible asset amortization for income tax and financial reporting purposes, the 2007 restatement also impacted the tax provision for the three months ended March 31, 2010 as summarized below.

The condensed consolidated statement of operations for the three months ended March 31, 2010 was restated as follows (dollars in thousands):

Financial Condition and Results of Operations**

**Forward-Looking Statements**

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance (including our anticipated cost structure) and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as may, should, expects, intends, plans, anticipates, believes, estimates, predicts, potential, continues, assumption or the use of other comparable terminology. These statements (including statements related to our anticipated cost structure) are only predictions. Actual events or results may differ materially from those anticipated or projected due to a number of factors. These factors include, but are not limited to:

- our ability to execute our strategic plan;
- our ability to operate as a stand-alone telecommunications provider;
- our ability to maintain arrangements with third-party service providers;
- changes in regulations and legislation applicable to providers of telecommunications services;
- changes in demand for our products and services;
- technological changes affecting the telecommunications industry; and
- our indebtedness could adversely affect our financial condition.

These and other factors may cause our actual results to differ materially from any forward-looking statement. Refer to our Annual Report on Form 10-K for a detailed discussion of risks that could materially adversely affect our business, financial condition or results of operations. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial may also materially adversely affect our business operations.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. These forward-looking statements are made as of the date of issuance of these quarterly condensed consolidated financial statements, we assume no obligation to update or revise them or to provide reasons why actual results may differ.

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

We do not undertake any responsibility to release any revisions to these forward-looking statements to take into account events or circumstances that occur after the date of issuance of these quarterly condensed consolidated financial statements. Additionally, we do not undertake any responsibility to update you on the occurrence of any unanticipated events which may cause actual results to differ from those expressed or implied by the forward-looking statements contained in this quarterly report.

### **Background**

In the following discussion and analysis of financial condition and results of operations, unless the context otherwise requires, we, us or the Company refers, collectively, to Hawaiian Telcom Holdco, Inc. and its subsidiaries.

### **Chapter 11 Reorganization**

On December 1, 2008, we and certain of our subsidiaries filed voluntary petitions for relief under Chapter 11 of the Bankruptcy Code and on October 28, 2010, we emerged from Chapter 11. For further information regarding these petitions, see Note 2 to the condensed consolidated financial statements.

Table of Contents

Under the Plan of reorganization, all of the existing common stock and stock options were cancelled upon emergence and the equity holders received no recovery. Our emergence from Chapter 11 on the Emergence Date resulted in a new reporting entity and the new shares of common stock were issued to the former secured lenders. We adopted fresh-start reporting as of October 31, 2010. As required by fresh-start accounting, our assets and liabilities have been adjusted to fair value. Accordingly, our financial condition and results of operations after October 31, 2010 are not comparable to the financial condition and result of operations for periods prior to and on October 31, 2010.

**Operational Matters**

We have operated as a stand-alone service provider since the acquisition of the Company from Verizon Communications, Inc. on May 2, 2005. Our transition to becoming a stand-alone service provider included the requirement to build back-office and IT infrastructure to allow us to migrate off software systems that the Company used prior to the 2005 acquisition. This build requirement generally consisted of integration and installation of software, databases, hardware, operating systems, and internal network systems. On April 1, 2006, we cutover from the legacy Verizon systems to our new back-office and IT infrastructure. While the major network operational systems functioned without significant problems, critical systems related to back-office functions, such as customer care, order management, billing, supply chain, and other systems interfacing with our financial systems, lacked significant functionality. This led to deficiencies in order accuracy, service provisioning, billing and collections, revenue assurance and overall customer service. We responded by undertaking substantial efforts to address the deficiencies and succeeded in achieving significant improvements since 2006 in the functionality of the related systems. Among other things, we reduced our service order backlog by over 80% from 2008 and reduced the billing fallout rate to normal levels for our industry.

Although our systems are now more stable and more reliable, we continue to experience certain systems functionality issues which continue to adversely affect our overall customer experience and require us to continue to incur incremental expenses to retain third-party service providers to provide call center and manual processing services. As a result, we continue to focus on improvement of our IT systems and automation of business processes. This includes investment in our systems to provide for automation of new products and services as well as additional automation for existing products and services. These improvements are expected to reduce manual efforts and improve automated flow-through, resulting in more accurate provisioning and billing of services to our customers.

Our original strategic plan was designed to focus on opportunities to leverage our incumbent market position, enhance the penetration of certain underperforming products, introduce new products, services and bundles tailored to the specific needs of the local market, and reposition the Company as a locally branded, managed and operated full service telecommunications provider. Our ability to execute the initiatives contemplated in our original strategic plan were hindered by the functionality deficiencies experienced after the 2006 cutover to the new operating, financial and administrative information technology systems. Management was required to commit substantial resources to respond to the lack of functionality in the Company's critical back-office systems. As a result, our ability to invest in new technologies, introduce new products and enhance our customer service experience was delayed and negatively impacted our financial performance and financial condition.

We have since implemented revised strategies designed to stabilize our business and position the Company for growth. We have introduced a number of innovative new products and advanced communications solutions into the marketplace, successfully deployed next-generation network technologies capable of reaching over 90% of the State population, improved the automation of our systems, grown our broadband market share and made significant progress in rebuilding the brand and image of the Company. We believe the successful execution of these strategies has stabilized our customers, our employees and our operating results.

Table of Contents

We are in the process of implementing new strategies which focus on growing the business, delivering superior service and improving financial performance. We continue to evaluate the feasibility of various new product and service offerings in order to respond to customer demand and gain market share in our business, consumer and wholesale channels. We may also pursue other business development opportunities, cost reduction initiatives and asset rationalization options to improve financial performance and liquidity. There can be no assurance that these new strategies will be successful or even if successful whether we will have the resources to fund such strategies, or that the investments in these new strategies will be recovered.

**Segments and Sources of Revenue**

We operate in two reportable segments (Wireline Services and Other) based on how resources are allocated and performance is assessed by our chief operating decision maker. Our chief operating decision maker is our Chief Executive Officer.

***Overview***

We operate the incumbent local telecommunications company that serves business and residential customers in the State of Hawaii. We offer our customers a variety of telecommunication services including local telephone, network access, long distance, High-Speed Internet (HSI) and other Internet, and other telecommunication services and sales, and wireless services.

***Wireline Services***

The Wireline Services segment derives revenue from the following sources:

**Local Telephone Services** We receive revenue from providing local exchange telephone services. These revenues include monthly charges for basic service, local private line services and enhanced calling features such as voice mail, caller ID and 3-way calling.

**Network Access Services** We receive revenue from charges established to compensate us for origination, transport and termination of calls for long distance and other interexchange carriers. These include subscriber line charges imposed on end users, and switched and special access (data line) charges paid by carriers and others.

**Long Distance Services** We receive revenue from providing toll, or long distance, services to our customers.

**Internet Services** We provide HSI and dial-up Internet to our residential and business customers.

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

**Other Telecommunication Services and Sales** Other services and sales include managed services, inside wire maintenance, and installation and maintenance of customer premise equipment. In 2010, the Company began offering customers a digital television service in select areas on a no-fee trial basis and expects to launch this service commercially in 2011.

### *Other*

We receive revenue from wireless services, including the sale of wireless handsets and other wireless accessories.

### **Results of Operations for the Three Months Ended March 31, 2011 and 2010**

As discussed above, we emerged from Chapter 11 and adopted fresh-start reporting on October 31, 2010. References to "Predecessor" refer to the Company prior to and on October 31, 2010. References to "Successor" refer to the Company after October 31, 2010 after giving effect to the plan of reorganization and application of fresh-start reporting. As a result of the application of fresh-start reporting, the Successor's financial statements are not comparable with the Predecessor's financial statements. However, for purposes of the discussion of the results of operations, the Successor results for the three months ended March 31, 2011 have been compared to the Predecessor results for the three months

ended March 31, 2010. In this discussion, we will disclose the fresh-start and other impacts on our results of operations that vary from historical Predecessor periods to aid in the understanding of our performance. This discussion has been updated to reflect the effects of the restatement disclosed in Item 1, Note 17 of the condensed consolidated financial statements.

The Successor reported net income of \$5.5 million for the three months ended March 31, 2011 and the Predecessor reported a net loss of \$23.3 million for the three months ended March 31, 2010.

**Operating Revenues**

The following tables summarize our volume information as of March 31, 2011 and 2010, and our operating revenues for the three months ended March 31, 2011 and 2010. For comparability, we also present customer activity as of March 31, 2011 compared to December 31, 2010.

<b>Wireline Services</b>

Other	1,109	1,239	(130)		-10.5%
	\$ 98,505	\$ 100,253	\$ (1,748)		-1.7%

The decrease in local services revenues was caused primarily by the decline in switched access lines of 6.0% (\$2.4 million of the decline in revenue) as well as competitive pricing pressures which is the majority of the cause of the remaining dollar decline. Continued competition in the telecommunications industry has increasingly resulted in customers using technologies other than traditional phone lines for voice and data. Residential customers are increasingly moving local voice service to VoIP technology offered by cable providers, as well as using wireless services in place of traditional wireline phone service. Generally, VoIP technology offered by cable providers is less expensive than traditional wireline phone service, requiring us to respond with more competitive pricing. Also, residential second lines continue to be disconnected as customers switch from dial-up Internet services to HSI and cable broadband service. Additionally, Competitive Local Exchange Carriers (CLECs) and our cable competitor continue to focus on business customers and selling services to our customer base.

In an effort to slow the rate of line loss, we are continuing retention and acquisition programs, and are increasingly focusing efforts on bundling of services. We have instituted various "saves" campaigns.

Table of Contents

designed to focus on specific circumstances where we believe customer churn is controllable. These campaigns include targeted offers to at risk customers as well as other promotional tools designed to enhance customer retention. We are also reemphasizing win-back and employee referral programs. Additionally, we are intensifying our efforts relative to developing tools and training to enhance our customer service capability to improve customer retention.

Network access revenue for the three months ended March 31, 2011 increased as compared to the same period in the prior year. The increase in demand for data services generated additional revenue of \$2.4 million which was partially offset by the decline in switched access lines.

The decrease in long distance revenue was primarily because of the decline in long distance lines partially offset by customers switching to flat rate and bundled plans which has increased the average rate per long distance line.

HSI and other Internet revenues has increased slightly when compared to the prior year as an approximate 4.0% growth in our HSI subscriber growth (\$0.3 million of the increase in revenue) was partially offset by lower rates in response to the competitive environment. We are continuing to focus on upgrading our network to expand the reach of our higher bandwidth premium services.

Other services and sales for the three months ended March 31, 2011 were comparable to the same period in the prior year.

Other revenues, primarily consisting of revenues generated from our wireless operation, decreased as we attempted to focus our marketing efforts on other segments of our business.

***Operating Costs and Expenses***

The following tables summarize our costs and expenses for the three months ended March 31, 2011 compared to the costs and expenses for the three months ended March 31, 2010 (dollars in thousands):

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>	<b>Amount</b>	<b>Change</b>	<b>Percentage</b>
Cost of revenues (exclusive of depreciation and amortization)	\$ 40,570	\$ 40,188	\$ 382		1.0%
Selling, general and administrative expenses	30,136	32,573	(2,437)		-7.5%
Depreciation and amortization	15,305	42,303	(26,998)		-63.8%
	\$ 86,011	\$ 115,064	\$ (29,053)		-25.2%

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

The Company's total headcount as of March 31, 2011 was 1405 compared to 1,445 as of March 31, 2010. Employee related costs are included in both cost of revenues and selling, general and administrative expenses.

Cost of revenues consists of costs we incur to provide our products and services including those for operating and maintaining our networks, installing and maintaining customer premise equipment, and cost of goods sold directly associated with various products. The increase was because of higher electricity costs of \$0.6 million on higher rates partially offset by improved margins on customer premise equipment sales.

Table of Contents

Selling, general and administrative expenses include costs related to sales and marketing, information systems and other administrative functions. The decrease was because of more favorable rates on information technology outsourcing for a benefit of \$2.0 million and improved bad debt expense of \$1.0 million with improved collection efforts offset by certain wage related cost increases.

Depreciation and amortization decreased because of the new lower basis assigned to our long-lived assets in fresh-start accounting.

***Other Income and (Expense)***

The following table summarizes other income (expense) for the three months ended March 31, 2011 and 2010 (dollars in thousands).

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>	<b>Amount</b>	<b>Change</b>	<b>Percentage</b>
Interest expense	\$ (6,259)	\$ (6,758)	\$ 499		-7.4%
Interest income and other	14	(5)	19		-380.0%
	\$ (6,245)	\$ (6,763)	\$ 518		-7.7%

Interest expense decreased primarily because the Company was no longer accruing paid-in-kind interest on debt in conjunction with the Chapter 11 proceeding.

***Reorganization Items***

Reorganization items represent amounts incurred as a direct result of the Company's Chapter 11 filing and are presented separately in our condensed consolidated statements of operations. Such items consist of the following (dollars in thousands):

	<b>Successor Three Months Ended March 31, 2011</b>	<b>Predecessor Three Months Ended March 31, 2010</b>
Professional fees	\$ 711	\$ 1,750
Other		(3)
	\$ 711	\$ 1,747

Reorganization professional fees declined as the activity related to the Chapter 11 reorganization has diminished.

*Income Tax Benefit*

A valuation allowance has been provided at March 31, 2011 and December 31, 2010 for our deferred tax assets because of the uncertainty as to the realization of such assets. We will continue to assess the recoverability of deferred tax assets and the related valuation allowance. To the extent that we generate taxable income in future years and it is determined that such valuation allowance is no longer required, the tax benefit of the remaining deferred tax assets will be recognized at such time.

Table of Contents

**Liquidity and Capital Resources**

As of March 31, 2011, we had cash of \$79.9 million. From an ongoing operating perspective, our cash requirements in 2011 consist of supporting the development and introduction of new products, capital expenditure projects, pension funding obligations and other changes in working capital. A combination of cash-on-hand and cash generated from operating activities will be used to fund our operating activities.

We have continued to take actions to conserve cash and improve liquidity. Actions have also been taken to generate further operating efficiencies and focus on expense management. In order to reduce our cash usage we will continue to execute our cash management program.

We have taken a number of other actions to improve operating results, including efforts to simplify product offerings, improve our customer service experience and increase our revenue enhancement activities. There can be no assurance that these additional actions will result in improved overall cash flow. We continue to have sizable retirement obligations for our existing employee base. Sustained declines in the value of pension trust assets and relatively high levels of pension lump sum benefit payments will increase the magnitude of future plan contributions.

Agreements with the Hawaii Public Utilities Commission and the debt agreements of Hawaiian Telcom Communications, Inc. limit the ability of our subsidiaries to pay dividends to the parent company and restrict the net assets of all of our subsidiaries. Generally, this prohibits us from currently paying dividends to our shareholders. As the parent company has no operations, debt or other obligations, this restriction has no other immediate impact on our operations.

***Cash Flows for Three Months Ended March 31, 2011 and 2010***

Our primary source of funds continues to be cash generated from operations. We use the net cash generated from operations to fund network expansion and modernization. We expect that our capital spending requirements will continue to be financed through internally generated funds. We also expect to use cash generated in future periods for debt service. Additional debt or equity financing may be needed to fund additional development activities or to maintain our capital structure to ensure financial flexibility.

Net cash provided by operations amounted to \$13.7 million for the three months ended March 31, 2011. Our cash flows from operations are impacted by our results of operations, changes in working capital and payments on certain long-term liabilities. Net cash provided by operations amounted to \$21.5 million for the three months ended March 31, 2010 for the Predecessor. The decrease in cash provided by operating activities is primarily because of certain employee related costs paid in the first quarter of 2011 including a pension contribution of \$3.2 million and payment of annual incentive compensation.

Cash used in investing activities was comprised of \$15.5 million and \$13.3 million of capital expenditures for the three months ended March 31, 2011 and 2010, respectively. The level of capital expenditures for 2011 is expected to be comparable to 2010 as we invest in systems to support new product introductions and transform our network to enable next-generation technologies.

## Edgar Filing: Hawaiian Telcom Holdco, Inc. - Form 10-Q

Cash provided by financing activities for the three months ended March 31, 2011 was related to proceeds from the sale of common stock under our warrant agreements.

### *Outstanding Debt and Financing Arrangements*

As of March 31, 2011, we had outstanding \$300.0 million in aggregate long-term debt. The term loan has a maturity date of 2015. We do not expect to generate the necessary cash flow from operations to repay the facility in its entirety by the maturity date and repayment is dependent on our ability to refinance the credit facility at reasonable terms. We are currently attempting to refinance the term loan debt in an effort to obtain a lower interest rate margin. The ability to refinance the indebtedness at reasonable terms either now or anytime before maturity cannot be assured.

***Contractual Obligations***

During the three months ended March 31, 2011, the Company's future contractual obligations have not changed materially from the amounts disclosed as of December 31, 2010 in our Form 10-K.

We do not maintain any off balance sheet financing or other arrangements.

**Critical Accounting Policies and Estimates**

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect amounts reported in consolidated financial statements. Changes in these estimates and assumptions are considered reasonably possible and may have a material effect on the condensed consolidated financial statements and thus actual results could differ from the amounts reported and disclosed herein. The Company's critical accounting policies that require the use of estimates and assumptions were discussed in detail in our Annual Report on Form 10-K for the year ended December 31, 2010, and have not changed materially from that discussion.

**Item 3. Quantitative and Qualitative Disclosures About Market Risk**

As of March 31, 2011, our floating rate obligations consisted of \$300.0 million of debt outstanding under our term loan facility. Accordingly, our earnings and cash flow are affected by changes in interest rates. Based on our borrowings at March 31, 2011 and assuming a 1.0 percentage point increase in the average interest rate under these borrowings, we estimate that our annual interest expense would increase by approximately \$3.0 million.

**Item 4. Controls and Procedures**

**Conclusion Regarding the Effectiveness of Disclosure Controls and Procedures**

Eric K. Yeaman, Chief Executive Officer, and Robert F. Reich, Chief Financial Officer, have evaluated the disclosure controls and procedures of Hawaiian Telcom Holdco, Inc. (the Company) as of March 31, 2011. Based on their evaluations, as of March 31, 2011, they have concluded that the disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective in ensuring that information required to be disclosed by the Company in reports the Company files or submits under the Securities Exchange Act of 1934:

(1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and

(2) is accumulated and communicated to the Company's management, including the Company's principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure.

**Changes in Internal Control over Financial Reporting**

There have been no changes in internal control over financial reporting during the quarter ended March 31, 2011 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

**Certifications**

The certifications attached hereto as Exhibits 31.1, 31.2, 32.1 and 32.2 should be read in conjunction with the disclosures set forth herein.
