**Item 8.01 Other Events.**

The following is an update to the disclosures on the decoupling proceeding and rate requests in in Management's Discussion and Analysis of Financial Condition and Results of Operations Electric utility under Regulatory and Most recent rate proceedings, which are incorporated herein by reference to pages 53-54 and 57-59, respectively, of HEI's and HECO's Form 10-K for the year ended December 31, 2011, and Other Events. C. Maui Electric Company, Inc. (MECO) 2010 Test Year Rate Case in HEI's and HECO's Current Report on Form 8-K dated March 29, 2012.

**A. MECO 2010 Test Year Rate Case**

On May 2, 2012, the Public Utilities Commission of the State of Hawaii (PUC) issued a final decision and order (D&O) in the MECO 2010 test year proceeding, which approved the updated settlement agreement entered into by MECO and the Consumer Advocate (the parties) on March 29, 2012. On May 4, 2012, the tariffs implementing the D&O became effective and MECO implemented the decoupling mechanism approved by the PUC in a separate decoupling proceeding. MECO also began tracking the target revenues and actual recorded revenues via a revenue balancing account, reset the heat rates and implemented heat rate deadbands. The revised tariffs include the implementation of the purchase power adjustment clause, which allows MECO to recover non-energy purchased power expense through a surcharge mechanism rather than through base rates as previously recovered.

The tariffs that became effective on May 4, 2012, reflect a lower increase in annual revenue requirements than the interim increase previously in effect. Since the lower revenue increase is due to factors that became effective concurrently with the effective date of the revised increase (lower depreciation rates and lower return on average common equity (ROACE) to reflect decoupling and other cost-recovery mechanisms), no refund to customers is required.

	<b>Interim D&amp;O 8/1/2010</b>	<b>Final D&amp;O 5/4/2012</b>
Revenue increase	\$ 8.5 million* (2.7% increase)	\$ 4.7 million (1.5% increase)
Depreciation expense	\$ 20.8 million	\$ 18.9 million
ROACE (%)	10.50%	10.00%**
Common equity capitalization (%)	56.86%	56.86%
Return on average rate base (%)	8.43%	8.15%
Average rate base amount	\$ 387 million	\$ 387 million

\* Adjusted from \$10.3 million to \$8.5 million on 1/12/2011 to reflect the final decision in the pending 2007 rate case at that time.

\*\* Reflects decoupling and other cost-recovery mechanisms.
