Voice

Total Revenues for this service reached P\$782 million in 1Q12 (+6% vs. 1Q11). The results of this line of business continued to be affected by frozen tariffs of regulated services enforced by the Argentine Government in 2002.

Revenues generated by Measured Services totaled P\$299 million, an increase of P\$20 million or +7% vs. 1Q11. In relative terms, revenues from local calls increased the most, with 7% vs. 1Q11, mainly due to the incorporation of flat rate packs. Moreover, domestic long distance traffic increased by 7% vs. 1Q11 and revenues from international services increased by 4% vs. 1Q11.

Monthly Charges and Supplementary Services reached P\$269 million, an increase of P\$24 or +10% vs. 1Q11, as a consequence of a higher number of lines in service (+1%), which surpassed 4.1 million, and to the increasing penetration of Value Added Services.

The average bill per user (ARBU) reached \$47 in 1Q12 vs. \$44 in 1Q11.

Interconnection revenues reached P\$124 million (+2% vs. 1Q11). Meanwhile, other revenues totaled 90 million (-4% vs. 1Q11).

As of March 31, 2012, Telecom surpassed 1.5 million ADSL accesses (+11% vs. 1Q11). These connections represented 38% of Telecom's fixed lines in service. Consolidated Operating Costs

The Cost of Services Provided, General & Administrative Expenses and Selling Expenses totaled P\$4,098 million in 1Q12, an increase of P\$907 million, or +28%, vs. 1Q11. The increase is a consequence of higher commercial costs due

Table of Contents

to a higher volume of revenues, inflationary effects in the general cost structure, and greater expenses related to intense competition in the industry.

The cost breakdown is as follows:

- Employee benefit expenses and severance payments totaled P\$677 million (+29% vs. 1Q11), mainly affected by increases in salaries due to the labor agreement reached in July 2011 and the increase in the number of employees. Regarding personnel, 576 employees were incorporated in the mobile business and 288 employees in the fixed services vs. 1Q11 resulted in a total headcount at the end of the period of 16,587 employees.

- Taxes and fees with the regulatory authority reached P\$462 million (+28% vs. 1Q11), impacted mainly by a higher volume of revenues, an increase in the average rates of turnover taxes, by higher bank debit and credit taxes, and by higher taxes from municipal jurisdictions.

- Interconnection costs and other telecommunication charges (includes TLRD, Roaming, Interconnection, international settlement charges and lease of circuits) amounted to P\$408 million, +P\$44 million vs. 1Q11. This small increase (+14% vs. 1Q11) was achieved thanks to savings from stimulating *on-net* traffic among mobile clients and by renegotiating the lease of wireless backhaul equipment.

- Commissions (Commissions paid to Agents, prepaid card commissions and others) totaled P\$449 million (+32% vs. 1Q11), net of capitalization of SAC of P\$76 million and P\$41 million for 1Q12 and 1Q11, respectively, mainly due to the increase in commissions paid to commercial agents associated with higher revenues from the sale of more sophisticated handsets, higher costs associated with a higher volume of acquisitions and retention of customers with the aim of gaining fidelity from clients, looking towards the number portability implementation, which started in late March.

- Advertising amounted to P\$164 million (+27% vs. 1Q11), oriented towards supporting the commercial activity in mobile and Internet services and to strengthen the brands of the Telecom Group through the sponsorship of important artistic events and to continue the rebranding communication efforts of the Personal brand.

- Cost of handsets sold totaled P\$437 million (+20% vs. 1Q11), net of capitalization of SAC of P\$106 million and P\$76 million for 1Q12 and 1Q11, respectively, due to an increase in high-end handsets sales and a higher number of handset upgrades,

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

performed to stimulate VAS usage. These effects resulted in the increase of the average cost of handsets.

- Fees for services maintenance and materials amounted to \$477 million (+32% vs. 1Q11), principally due to higher costs from the call centers, more services requirements, and to the renegotiation with suppliers of certain agreements contemplating higher expenses in the cost structure of providers.

- Depreciations and Amortizations reached P\$615 million (PP&E: P\$426 million; SAC and services connection cost: P\$183 million; other intangible assets: P\$6

million), an increase of 29% vs. 1Q11. Fixed services totaled P\$224 million (+14% vs. 1Q11) while mobile services reached P\$391 million (+39% vs. 1Q11). This increase was due to higher transfers to fixed assets, mainly in network access, transmission equipment and switching equipment in both businesses.

- Others Costs totaled P\$409 million (+53% vs. 1Q11). This increase was mainly due to general increases in public services such as electricity, water (106% vs. 1Q11), affected by the subsidies elimination. Moreover, these costs were affected by the increase from provisions and others.

Consolidated Financial Results

Financial Results

(In million P\$)

Financial Results resulted in a gain of P\$61 million, an increase of P\$42 million vs. 1Q11. This was mainly due to a gain in net financial interest of P\$64 million in 1Q12 (+P\$39 million vs. 1Q11) derived from a healthy financial position and to losses for FX results of P\$6 million in 1Q12 (vs. losses of P\$4 million in 1Q11) as a result of a lower exposure to foreign currency debts.
