This press release contains forward-looking statements, including statements regarding expectations, predictions, views, opportunities, plans, strategies, beliefs, and statements of similar effect relating to Verint Systems Inc. These forward-looking statements are not guarantees of future performance and they are based on management's expectations that involve a number of risks and uncertainties, any of which could cause actual results to differ materially from those expressed in or implied by the forward-looking statements. Some of the factors that could cause actual future results or conditions to differ materially from current expectations include: uncertainties regarding the impact of general economic conditions in the United States and abroad, particularly in information technology spending and government budgets, on our business; risks associated with our ability

to keep pace with technological changes and evolving industry standards in our product offerings and to successfully develop, launch, and drive demand for new and enhanced, innovative, high-quality products that meet or exceed customer needs; risks associated with the planned merger (the Merger) with our controlling stockholder, CTI, pursuant to the terms and conditions of the Agreement and Plan of Merger we executed on August 12, 2012 (the Merger Agreement), including risks associated with our and CTI's ability to satisfy the conditions and terms of the Merger, and to execute the Merger in the estimated timeframe, or at all, and the issuance of shares of our common stock in connection with the Merger; uncertainties regarding the expected benefits of the Merger; risks arising as a result of unknown or unexpected CTI obligations or liabilities assumed upon completion of the Merger, or as a result of parties obligated to provide us with indemnification being unwilling or unable to stand behind such obligations; risks associated with any litigation against us or our directors or officers that we may face, or any litigation against counterparties that we may inherit, in connection with the Merger; uncertainties regarding the tax consequences of the Merger; risks associated with CTI's current ability to control our board of directors and the outcome of matters submitted for stockholder action; risks associated with being a consolidated subsidiary of CTI and formerly part of CTI's consolidated tax group; risks due to aggressive competition in all of our markets, including with respect to maintaining margins and sufficient levels of investment in our business; risks created by the continued consolidation of our competitors or the introduction of large competitors in our markets with greater resources than we have; risks associated with our ability to successfully compete for, consummate, and implement mergers and acquisitions, including risks associated with capital constraints, costs and expenses, maintaining profitability levels, management distraction, post-acquisition integration activities, and potential asset impairments; risks that we may be unable to maintain and enhance relationships with key resellers, partners, and systems integrators; risks relating to our ability to effectively and efficiently execute on our growth strategy, including managing investments in our business and operations and enhancing and securing our internal and external operations; risks relating to our ability to successfully implement and maintain adequate systems and internal controls for our current and future operations and reporting needs and related risks of financial statement omissions, misstatements, restatements, or filing delays; risks associated with the mishandling or perceived mishandling of sensitive or confidential information, security lapses, or with information technology system failures or disruptions; risks associated with our ability to efficiently and effectively allocate limited financial and human resources to business, development, strategic, or other opportunities that may not come to fruition or produce satisfactory returns; risks associated with significant international operations, including, among others, in Israel, Europe, and Asia, exposure to regions subject to political or economic instability, and fluctuations in foreign exchange rates; risks associated with complex and changing local and foreign regulatory environments in the jurisdictions in which we operate; risks associated with our ability to recruit and retain qualified personnel in regions in which we operate; challenges associated with selling sophisticated solutions, long sales cycles, and emphasis on larger transactions, including in accurately forecasting revenue and expenses and in maintaining profitability; risks that our intellectual property rights may not be adequate to protect our business or assets or that others may make claims on our intellectual property or claim infringement on their intellectual property rights; risks that our products may contain undetected defects, which could expose us to substantial liability; risks associated with a significant amount of our business coming from domestic and foreign government customers, including the ability to maintain security clearances for certain projects; risks associated with our dependence on a limited number of suppliers or original equipment manufacturers for certain components of our products, including companies that may compete with us or work with our competitors; risks that our customers or partners delay or cancel orders or are unable to honor contractual commitments due to liquidity issues, challenges in their business, or otherwise; risks that we may experience liquidity or working capital issues and related risks that financing sources may be unavailable to us on reasonable terms or at all; risks associated with significant leverage resulting from our current debt position, including with respect to covenant limitations and compliance, fluctuations in interest rates, and our ability to maintain our credit ratings; risks relating to our ability to timely implement new accounting pronouncements or new interpretations of existing accounting pronouncements and

related risks of future restatements or filing delays; and risks associated with changing tax rates, tax laws and regulations, and the continuing availability of expected tax benefits. We assume no obligation to revise or update any forward-looking statement, except as otherwise required by law. For a detailed discussion of these risk factors, see our Annual Report on Form 10-K for the fiscal year ended January 31, 2012, our Quarterly Report on Form 10-Q for the quarter ended October 31, 2012, when filed, and other filings we make with the SEC.

Supplemental Information About Non-GAAP Financial Measures

This press release contains non-GAAP financial measures. Tables 2 and 3 include a reconciliation of each non-GAAP financial measure presented in this press release to the most directly comparable GAAP financial measure. Non-GAAP financial measures should not be considered in isolation or as a substitute for comparable GAAP financial measures. The non-GAAP financial measures we present have limitations in that they do not reflect all of the amounts associated with our results of operations as determined in accordance with GAAP, and these non-GAAP financial measures should only be used to evaluate our results of operations in conjunction with the corresponding GAAP financial measures. These non-GAAP financial measures do not represent discretionary cash available to us to invest in the growth of our business, and we may in the future incur expenses similar to or in addition to the adjustments made in these non-GAAP financial measures.

We believe that the non-GAAP financial measures we present provide meaningful supplemental information regarding our operating results primarily because they exclude certain non-cash charges or items that we do not believe are reflective of our ongoing operating results when budgeting, planning and forecasting, determining compensation, and when assessing the performance of our business with our individual operating segments or our senior management. We believe that these non-GAAP financial measures also facilitate the comparison by management and investors of results between periods and among our peer companies. However, those companies may calculate similar non-GAAP financial measures differently than we do, limiting their usefulness as comparative measures.

Adjustments to Non-GAAP Financial Measures

Revenue adjustments related to acquisitions. We exclude from our non-GAAP revenue the impact of fair value adjustments required under GAAP relating to acquired customer support contracts which would have otherwise been recognized on a standalone basis. We exclude these adjustments from our non-GAAP financial measures because these are not reflective of our ongoing operations.

Amortization of acquired intangible assets, including acquired technology. When we acquire an entity, we are required under GAAP to record the fair values of the intangible assets of the acquired entity and amortize those assets over their useful lives. We exclude the amortization of acquired intangible assets, including acquired technology, from our non-GAAP financial measures. These expenses are excluded from our non-GAAP financial measures because they are non-cash charges. In addition, these amounts are inconsistent in amount and frequency and are significantly impacted by the timing and size of acquisitions. Thus, we also exclude these amounts to provide better comparability of pre- and post-acquisition operating results.

Stock-based compensation expenses. We exclude stock-based compensation expenses related to stock options, restricted stock awards and units, stock bonus plans and phantom stock from our non-GAAP financial measures. These expenses are excluded from our non-GAAP financial measures because they are primarily non-cash charges. In prior periods, we also incurred (and excluded from our non-GAAP financial measures) significant cash-settled stock compensation expense due to our previous extended filing delay and restrictions on our ability to issue new shares of common stock to our employees.

M&A and other adjustments. We exclude from our non-GAAP financial measures legal, other professional fees and certain other expenses associated with acquisitions, whether or not consummated, and certain extraordinary transactions, including reorganizations, restructurings and expenses associated with our merger with CTI. Also excluded are changes in the fair value of contingent consideration liabilities associated with

business combinations, and expenses related to our restatement of previously filed financial statements and our previous extended filing delay. These expenses are excluded from our non-GAAP financial measures because we believe that they are not reflective of our ongoing operations.

Unrealized (gains) losses on derivatives, net. We exclude from our non-GAAP financial measures unrealized gains and losses on interest rate swaps and foreign currency derivatives. These gains and losses are excluded

from our non-GAAP financial measures because they are non-cash transactions which are highly variable from period to period and which we believe are not reflective of our ongoing operations.

Loss on extinguishment of debt. We exclude from our non-GAAP financial measures loss on extinguishment of debt attributable to refinancing of our debt because we believe it is not reflective of our ongoing operations.

Non-cash tax adjustments. We exclude from our non-GAAP financial measures non-cash tax adjustments, which represent the difference between the amount of taxes we actually paid and our GAAP tax provision on an annual basis. On a quarterly basis, this adjustment reflects our expected annual effective tax rate on a cash basis.
