Vale updates on potential resumption of Samarco's operation

Rio de Janeiro, July 14th, 2016 – Vale S.A. (Vale) informs that Samarco Mineração S.A. (Samarco) filed, on June 23rd 2016, the Environmental Impact Study and the Environment Impact Report (EIA / RIMA) in the State Department of Environment and Sustainable Development of Minas Gerais (SEMAD). These studies are part of the licensing process for the use of exhausted pits for tailings disposal.

In view of the current stage of the process and the next steps required for obtaining the license, Samarco cannot precise a date for resuming operations with a reasonable accuracy. However, Samarco understands that the probability of resuming operations in 2016 is very unlikely.

This press release may include statements that present Vale's expectations about future events or results. All statements, when based upon expectations about the future and not on historical facts, involve various risks and uncertainties. Vale cannot guarantee that such statements will prove correct. These risks and uncertainties include factors related to the following: (a) the countries where we operate, especially Brazil and Canada; (b) the global economy; (c) the capital markets; (d) the mining and metals prices and their dependence on global industrial production, which is cyclical by nature; and (e) global competition in the markets in which Vale operates. To obtain further information on factors that may lead to results different from those forecast by Vale, please consult the reports Vale files with the U.S. Securities and Exchange Commission (SEC), the Brazilian Comissão de Valores Mobiliários (CVM), the French Autorité des Marchés Financiers (AMF), and The Stock Exchange of Hong Kong Limited, and in particular the factors discussed under "Forward-Looking Statements" and "Risk Factors" in Vale's annual report on Form 20-F.
