OPERATING AND FINANCIAL REVIEW AND PROSPECTS AS OF MARCH 31, 2017

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

### Table of Contents

Services revenues amounted to \$13,227 (+27.1% vs. 1Q16) and represented 89.8% of consolidated revenues (vs. 83.5% in 1Q16). Equipment revenues decreased 26.9%, amounting to \$1,499 and represented 10.2% of consolidated revenues (vs. 16.5% in 1Q16).

### Fixed Services

During 1Q17, services revenues generated by this segment amounted to \$4,489 (+\$1,083 or 31.8% vs. 1Q16), where Voice and Internet Retail revenues have grown the most (+\$964 or +40.8% vs. 1Q16), followed by data transmission services (+\$127 or +18.5% vs. 1Q16).

Voice and Internet Retail revenues (including regulated services) reached \$3,328 in 1Q17 (+40.8% vs. 1Q16). Revenues from regulated services reached approximately 32% of the segment services revenues in 1Q17 (vs. 24% in 1Q16).

Revenues from voice services amounted to \$1,733 in 1Q17 (+77.7% vs. 1Q16). The increase was mainly due to the increase in plans prices. Internet service revenues amounted to \$1,595 in 1Q17 (+15% vs. 1Q16) as a result of the increase in the average plans prices. As a consequence, the Internet Average Monthly Revenue per User ( ARPU ) amounted to \$331.3 pesos per month in 1Q17 vs. \$248.8 pesos per month in 1Q16 (+33.2%). As of March 31, 2017, the number of ADSL subscribers amounted to approximately 1,733,000, equivalent to 44.5% of fixed telephony lines in service (vs. 45.1% in 1Q16). The churn rate per month amounted to 1.3% in 1Q17 (vs. 1.4% in 1Q16).

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$85) amounted to \$348 in 1Q17 (-2.2% vs. 1Q16). Interconnection fixed and mobile revenues decreased \$40 vs. 1Q16 while other wholesale revenues increased \$32 in 1Q17, mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

Data revenues (including the revenues generated by the subsidiary Telecom USA amounting to \$2) amounted to \$813 (+\$127 vs. 1Q16). These revenues were generated focusing on the Company's position as an integrated TICs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was primarily due to the variation of the \$/US\$ exchange rate related to agreements settled in such foreign currency and to the increase in the number of *Innovation* services customers.

### Personal Mobile Services

During 1Q17, total services revenues amounted to \$8,109 (+\$1,658 or 25.7% vs. 1Q16), being the principal business segment in revenues terms (61.3% and 62.0% of services consolidated revenues in 1Q17 and 1Q16, respectively). Personal reached 19.3 million subscribers in Argentina (-2.1% vs. 1Q16). Approximately 67% of the subscriber base is prepaid subscribers and 33% is postpaid subscribers (including Abono fijo and postpaid Mobile Internet dongles). The churn rate per month amounted to 2.9% in 1Q17 (similar to 1Q16).

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Voice revenues amounted to \$2,403 in 1Q17 (+17.3% vs. 1Q16). The increase was mainly due to the increase in monthly charges prices in the postpaid and Abono fijo subscriber base and to the increase of the online recharges in the prepaid subscriber base.

Mobile data services revenues (included in retail postpaid and prepaid revenues) amounted to \$1,244 (-\$491 or -28% vs. 1Q16). This situation is related to the main component of VAS revenues, SMS consumption, which decreased \$252 or -31.8% vs. 1Q16, experiencing a decrease in TOU (-43.3% vs. 1Q16). SMS with contents sales also decreased, showing an inter-annual decrease of \$246 or -28.1%.

Revenues related to Mobile Internet services (included in retail postpaid and prepaid revenues) amounted to \$3,678 (+\$1,476 or +67% vs. 1Q16). This increase is mainly explained by the increase in browsing services consumption of Personal s subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers, the migration of the existing ones to higher-value plans and the increase of subscribers that acquired 3G and 4G handsets, which facilitate Internet browsing.

As a consequence of the increase in VAS use (Internet and data), ARPU increased to \$133.4 pesos per month in 1Q17 (vs. \$104.4 pesos per month in 1Q16), which represents an increase of 27.8%.

Table of Contents

CPP revenues amounted to \$277 (+88.4% vs. 1Q16) mainly due to the increase in the price per minute (+173% vs. 1Q16), partially offset by a decrease in traffic volumes.

Wholesale revenues amounted to \$507 (+59.4% vs. 1Q16), basically due to the increase in average prices partially offset by a decrease in interconnection traffic volumes.

Núcleo Mobile Services

This segment generated services revenues equivalent to \$629 during 1Q17 (+\$81 or 14.8% vs. 1Q16) mainly due to the Internet revenues increase related to the increase of browsing generated by subscribers with mobile equipment prepared for that purpose. As of March 31, 2017, Núcleo's subscriber base reached 2.5 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 82% and 18% in 1Q17, respectively.

Internet revenues amounted to \$285 (+33.2% vs. 1Q16) and represented 45.3% of Núcleo Mobile Services segment services revenues (vs. 39.1% in 1Q16).

Equipment

Revenues from equipment amounted to \$1,499, -\$551 or -26.9% vs. 1Q16. This decrease is mainly related to the Personal Mobile Services with a decrease of \$504 vs. 1Q16 due to lower handsets sold (-32% vs. 1Q16) partially offset by higher handset's sale prices (+5% vs. 1Q16).

- **Operating costs**

Consolidated operating costs including depreciations, amortizations and impairment of PP&E totaled \$11,849 in 1Q17, which represents an increase of \$1,372 or +13.1% vs. 1Q16. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase in bad debt expenses and higher depreciations and amortizations, partially offset by the decrease in the cost of equipments and handsets, the decrease of VAS costs and the decrease in agent commissions.

The costs breakdown is as follows:

**Employee benefit expenses and severance payments**

Employee benefit expenses and severance payments amounted to \$2,739 (+\$565 or +26.0% vs. 1Q16). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 15,766 by the end of 1Q17, (vs. 16,290 employees in 1Q16), lines in service per employee reached 360 in the Fixed Services segment (-1.4% vs. 1Q16), subscribers per employee reached 4,226 in the Personal Mobile Services segment (+5% vs. 1Q16) and subscribers per employee reached 6,605 (+5.8% vs. 1Q16) in the Núcleo Mobile Services segment.

**Interconnection costs and other telecommunication charges**

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$791 (+\$84 or +11.9% vs. 1Q16). The increase was mainly due to higher TLRD costs.

Table of Contents

**Fees for services, maintenance, materials and supplies**

Fees for services, maintenance, materials and supplies amounted to \$1,359, +\$266 or +24.3% vs. 1Q16. The increase was mainly due to higher software maintenance costs in the fixed segment and an increase in system licenses costs in the mobile segment, higher costs of cell sites rentals and higher storage costs. There were also increases in fees for services, mainly due to higher costs recognized to suppliers in all segments.

**Taxes and fees with the Regulatory Authority**

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$1,390 (+15.1% vs. 1Q16), influenced mainly by the increase in revenues of fixed and mobile services and by the increase of the IDC related to higher collections and payments to suppliers in 1Q17 vs. 1Q16.

**Commissions**

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$1,151 (-\$80 or -6.5% vs. 1Q16). The decrease was mainly due to the decrease in Agents' commissions as well as a decrease in collection commissions, CPP commissions and others.

On the other hand, agent commissions capitalized as SAC amounted to \$239, -\$102 or -29.9% vs. 1Q16.

**Cost of equipments and handsets**

Cost of equipments and handsets amounted to \$1,173 (-\$361 or -23.5% vs. 1Q16) mainly due to a decrease in the units of handsets sold (-32% vs. 1Q16) partially offset by an increase in the average unit cost of sales (+19% vs. 1Q16) in the Personal Mobile Services segment.

On the other hand, SAC deferred costs from handsets sold amounted to \$13, -\$22 or -62.9% vs. 1Q16.

**Advertising**

Advertising amounted to \$223 (+\$31 vs. 1Q16), mainly due to the new advertising campaigns launched by the Telecom Group during 2017.

**Cost of VAS**

Cost of VAS amounted to \$283 (-\$107 or -27.4% vs. 1Q16). The decrease was mainly due to the decrease of VAS sales in the Personal Mobile Services segment, as a consequence of the service operators scrubbing carried out within the content business general reorganization realized by Personal in 2016.

**Provisions**

Provisions amounted to \$154, +\$140 vs. 1Q16. The increase was mainly due to higher labor claims (+\$121 vs. 1Q16), higher civil and commercial claims (+\$15 vs. 1Q16) and higher tax, regulatory and other contingencies (+\$4 vs. 1Q16).

**Bad debt expenses**

Bad debt expenses amounted to \$342 (+\$87 or +34.1% vs. 1Q16), representing approximately 2.3% and 2.0% of the consolidated revenues in 1Q17 and 1Q16, respectively. The main increase is derived from the Personal Mobile Services segment (amounting to \$78) as a consequence of higher aging of the accounts receivable provision, recorded in accordance with the accounting policy of the Group, and the impact of handsets sales directly financed by Personal and Núcleo to its subscribers.

**Other operating costs**

Other operating costs amounted to \$751 (+\$101 or +15.5% vs. 1Q16). The increase was mainly due to higher prices on related services in the operations in Argentina and the increase of rent prices (+\$50 or +27.9% vs. 1Q16), as a result of new agreements and the renegotiation of some of the existing ones.

- **Operating income before depreciation and amortization**

Operating income before depreciation and amortization amounted to \$4,638 in 1Q17 (+\$1,236 or 36.3% vs. 1Q16), representing 31.5% of consolidated revenues in 1Q17 (vs. 27.3% in 1Q16). This growth was mainly fueled by the Fixed Services segment (+\$290 or +35.5% vs. 1Q16) and Personal Mobile Services segment (+\$907 or +37.8% vs. 1Q16).

Operating income before depreciation and amortization generated by equipment and handset sales (including SAC capitalization) amounted to \$339 in 1Q17 vs. \$551 in 1Q16 (-\$212 or -38.5% vs. 1Q16), while operating income before depreciation and amortization generated by services sales amounted to \$4,299 in 1Q17 vs. \$2,851 in 1Q16 (+\$1,448 or +50.8% vs. 1Q16).

**Depreciation and amortization**

Depreciation and amortization amounted to \$1,673 (+\$298 or +21.7% vs. 1Q16). The increase in depreciation and amortization includes \$257 from PP&E depreciation and \$53 from amortization of SAC and service connection costs, partially offset by \$12 from amortization of intangible assets without SAC. The increase in depreciation and amortization corresponds 28% to the Fixed Services segment and 72% to the mobile services segments.

**Impairment of PP&E**

Impairment of PP&E amounted to \$72 in 1Q17 (+\$42 vs. 1Q16) and are mainly related to the Fixed Services segment.

- **Operating income**

Operating income amounted to \$2,893 in 1Q17 (+\$896 or 44.9% vs. 1Q16). The margin over consolidated revenues represented 19.7% in 1Q17 (vs. 16.0% in 1Q16). This growth was mainly fueled by the Personal Mobile Services segment (+\$714 or +45.4% vs. 1Q16) and the Fixed Services segment (+\$174 or +44.5% vs. 1Q16).

- **Financial results, net**

Net financial results resulted in a net income of \$124, representing an increase of \$681 vs. 1Q16. The higher income was mainly due to higher net foreign currency exchange gains (+\$710 vs. 1Q16) and higher interests on receivables (+\$78 vs. 1Q16), partially offset by lower investments results (-\$129 vs. 1Q16).

- Net income**

Telecom Argentina reached a net income of \$1,966 in 1Q17, +\$1,031 or +110.3% as compared to 1Q16, representing 13.4% of the consolidated revenues in 1Q17 (vs. 7.5% in 1Q16). Net income attributable to Telecom Argentina amounted to \$1,955 in 1Q17, +\$1,030 or +111.4% as compared to 1Q16.

- Net financial debt**

As of March 31, 2017, consolidated net financial debt (Cash and Cash Equivalents plus financial investments minus financial debt) amounted to \$3,023, showing a decrease of \$271 as compared to the consolidated net financial debt as of March 31, 2016 (which amounted to \$3,294). This variation was mainly due to an increase in the generation of cash from operating activities of the Telecom Group. As of March 31, 2017, the Fixed Services segment has a net financial asset of \$435, the Personal Mobile Services segment has a net financial debt of \$3,124 and the Núcleo Mobile Services segment has a net financial debt of \$334.

- Capital expenditures (CAPEX)**

CAPEX composition for 1Q17 and 1Q16 is as follows:

	In millions of \$		% of participation		Variation	
	1Q17	1Q16	1Q17	1Q16	\$	%
Fixed Services	643	582	38%	31%	61	10

<b>Total CAPEX</b>	<b>1,678</b>	<b>1,902</b>	<b>100%</b>	<b>100%</b>	<b>(224)</b>	<b>(12)</b>

PP&E CAPEX amounted to \$1,400 and intangible assets CAPEX amounted to \$278 in 1Q17, while in 1Q16 amounted to \$1,472 and \$430, respectively.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

In relative terms, CAPEX represented 11.4% of consolidated revenues in 1Q17 (15.3% in 1Q16), and were intended mainly for the external wiring and network access equipment, to the initial deployment of the new 4G network, transmission and switching equipment, computer equipment and SAC.

PP&E and intangible assets additions (CAPEX plus materials additions) for 1Q17 and 1Q16 are as follows:

## 7. Outlook

Fiscal year 2017 is developing in a more favorable macroeconomic context in terms of levels of activity, salaries recovery and consumption and, essentially, a significant reduction of the inflation rate as compared to fiscal year 2016. Regarding regulatory matters, it is expected that some adjustments will continue to be performed over telecommunications industry regulations, promoting ICT services convergence and industry competition. We are optimistic that the Regulatory Authority will provide symmetrical rules among different operators that promote long-term investments and the closing of claims started in previous years.

We expect moderate economic growth rates for 2017 amounting to approximately 3.5% (GDP in real terms), with inflation rates that should not exceed 20% per year. However, we are confident that the demand of our products and services will remain at good levels, especially those

related to Internet use, and in particular of those related to innovative offers associated with convergence at home, which the Company will continue launching in order to provide to most of our customers with the benefits of hiring our services in their home, company or by enjoying the wide access levels of Personal services. We will continue working to enrich our offer with products and services to encourage the increase of our ARPU in all business segments, with pricing policies segmented to the possibilities of each type of customer, without neglecting global profitability of our business.

Fixed telephony evolution will continue in line with recent year's global trend, influenced by market maturity.

In order to continue with home Internet improving, Ultra Broad Band (high bandwidth) will continue to be developed with new technologies that replace copper by fiber optic in different network points, allowing our customers to access to speeds over 100 Mgs. These infrastructure investments will not only improve current Internet services, they will also allow the Telecom Group to improve its positioning and offer when the distribution of content in real time (in particular TV) begins, in the terms and markets that regulation allows.

We will continue developing convergent offers, under modalities allowed by current defense competition regulations in force, providing our customers with Internet services, fixed and mobile calls, with differential benefits provided by joint subscribing services. In this sense, service discharges levels will decrease, maximizing the positioning of the other service and the competitiveness level of each country region. Simplification of service offering focused on data and Internet services will continue characterizing our positioning in mobile services.

Personal will continue working focusing on service quality and the nationwide deployment of the 4G LTE network, improving coverage and network speed. 4G services will also be expanded with new frequencies and more investments, continuing with technological reconversion and the expansion of the network capacity, obtaining LTE capacity in over than 80% of our sites. The ambitious investment plan assumes that Personal will be able to develop its activities in a symmetrical competition framework with the remaining operators. The distribution of content in real time through mobile devices will be one of our competitive advantages in providing this service.

For the high value mobile segment, we will seek to improve the user experience, working in simplifying customers' management and attention, through more flexible and differential processes. These actions will also be accompanied by greater offer convenience and a 1 to 1 relationship model, repositioning Personal Black as a differential offer with special benefits for high value subscribers.

We will reinforce work at a regional level, promoting a differential offer according to the competitiveness level of each region, to enhance positioning and/or maximizing the customer base development on convergent customers.

For prepaid subscribers, we will continue working on a social network-oriented offer, coupled with real-time campaigns that promote prepaid subscribers base and improve ARPU of such subscribers.

Our mobile subscribers loyalty program *Club Personal* will maintain its goal of extending the customer's life cycle through an interactive, continuous and positive relationship, and, in 2017, this program will be unified into a single loyalty club for the Group through a cross-selling strategy that will allow customers to access to differential offers and exclusive benefits when choosing us as a comprehensive ICT provider.

Quality in customer service will continue to have focus on communication channels efficiency and care segmentation with a central customer vision. It will also continue promoting the self-management channel (through the use of social networks), to simplify the administration and control of each customer services.

For the corporate segment, efforts will continue to focus on the provision of converged solutions, with a portfolio that will provide customers with next-generation Datacenter services as well as value-added services associated with cloud computing and security solutions.

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

It is expected that, during this fiscal year, the Regulatory Authority preliminary opinion will be obtained in order to implement the corporate integration of Telecom Argentina with Personal, and thereby facilitate the services convergence promoted by recent regulatory changes.

We will continue working on our goal of promoting operational excellence, looking for a better use of the Company's physical, human and technological resources, so as to continue meeting the profitability expectations of our investors. In order to achieve this goal, we have developed an ambitious multi-year business plan that foresees for 2017 increases in services sales over the projected inflation rate, improvement in profit margins over consolidated sales, the implementation of a capital assets investment plan of approximately 20% of such sales, and greater cash flow generation that will improve net results by reducing the financial cost and will enable the Group to reduce its net financial debt by the end of 2017.

The strategy implemented by the Company's Management outlines the necessary basis for the Telecom Group to pursue its continuous goals of improving service quality, strengthening its market positioning and adequately reward the invested capital of those who finance our businesses. Our strategy and the important plan of investments in capital assets are based on this vision of future and on the commitment of the Telecom Group with our country and its people.

Table of Contents**NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation and significant accounting policies**

These consolidated financial statements have been prepared in accordance with IFRS as issued by the IASB and in accordance with RT 26 (as amended by RT 29 and RT 43) of FACPCE as adopted by the CPCECABA, and as required by the CNV in Argentina for most of public companies.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2016 annual consolidated financial statements which can be consulted at the Company's website ([www.telecom.com.ar/inversores](http://www.telecom.com.ar/inversores)).

As of March 31, 2017, entities included in the consolidation process and the respective equity interest owned by Telecom Argentina is presented as follows:

Subsidiaries	Percentage of capital stock owned and voting rights (i)	Indirect control through	Date of acquisition	Segment that consolidates (Note 4)
Telecom USA	100.00%		09.12.00	Fixed Services
Micro Sistemas (ii)	99.99%		12.31.97	Fixed Services
Personal	100.00%		07.06.94	Personal Mobile Services
Núcleo (iii)	67.50%	Personal	02.03.98	Núcleo Mobile Services
Personal Envíos (iii)	67.50%	Núcleo	07.24.14	Núcleo Mobile Services

(i) Percentage of equity interest owned has been rounded.

(ii) Dormant entity as of March 31, 2017 and December 31, 2016 and for the three-month periods ended March 31, 2017 and 2016.

(iii) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A.

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual consolidated financial statements, except for the accounting of the acquisition of the whole remaining shares of its subsidiary Telecom Personal (0.008%, see Note 10.d). By means of this transaction, the minority interest was adjusted in \$1 and the difference between the purchase value (amounting to \$4) and the minority interest was recorded into the account Cost of equity interest increase in controlled companies within the Consolidated Statement of Changes in Equity Controlling Company as of March 31, 2017 in accordance with the provisions of IFRS 10.

These unaudited condensed interim financial statements for three month period ended March 31, 2017 have not been audited. The Company's management estimates they include all the necessary adjustments to present fairly the results of operations for each period. The results for the three month period ended March 31, 2017, does not necessarily reflect in proportion the Company's results for the complete year.

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended March 31, 2017 was approved by resolution of the Board of Directors meeting held on May 10, 2017.

b) **Financial statement formats**

The financial statement formats adopted are consistent with IAS 1, In particular:

- the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized within twelve months after the period-end;

- the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

- the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;
- the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);
- the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LGS and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

In addition, certain non-material reclassifications have been included in the comparative figures for the three-month period ended March 31, 2016 of the consolidated income statements under Other Income and Impairment of PP&E with the purpose of improving the comparability of information with that elaborated for the three-month period ended March 31, 2017.

c) **Segment reporting**

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Telecom Group's Chief Executive Officer ( CEO ).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS as issued by the IASB) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) **Net income per share**

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

For the three-month periods ended March 31, 2017 and 2016, the weighted average number of shares outstanding totaled 969,159,605 shares, respectively, due to the changes caused by the Treasury Shares Acquisition Process that began in May 2013, as described in Note 7.b) to these consolidated financial statements.

e) **Application of IAS 29 (Financial reporting in hyperinflationary economies)**

IAS 29 establishes the conditions under which an entity shall restate its financial statements if it is located in an economic environment considered hyperinflationary. It should be mentioned that if the qualitative and / or quantitative characteristics to consider an economy as a hyperinflationary economy set out in paragraph 3 of IAS 29 occur, the restatement of financial statements must be made retroactively from the date of the revaluation used as deemed cost (in the case of Group companies located in Argentina, since February 2003) or from the acquisition date for assets acquired after that date.

The Company's Management periodically verifies the evolution of official statistics as well as the general factors of the economic environment in the countries in which the Telecom Group operates. The Company's Management also considers the opinion of other organizations interested in this matter: the national and international accounting profession, domestic and foreign audit firms, national and the United States capital market regulators, and, in particular, the International Practices Task Force ( IPTF ), aware that the conclusions to which a financial statement issuer arrives must be consistent with the vision of those organizations for an uniform application of IAS 29.

Although the standard does not establish an absolute rate at which hyperinflation is deemed to arise, usually - in compliance with the provisions of IAS 29- a cumulative inflation rate over three years approaching or exceeding 100% is used as reference in conjunction with other qualitative factors related to the macroeconomic environment.

Table of Contents

The Company analyzes the economic environment as required by the provisions of IAS 29, based on the inflation rates published by the National Institute of Statistics and Census (INDEC), following the same criteria adopted by the accounting profession in the Argentine Republic.

After declaring a state of statistical emergency in January 2016 and due to the reorganization of the INDEC structure, that agency was impelled to publish the Internal Wholesale Price Index for November and December 2015 and the Consumer Price Index for the period November 2015-April 2016. Under these circumstances, the INDEC suggested the alternative utilization of Price Indexes published by the Province of San Luis and the City of Buenos Aires, which are integral part of the National Statistic System until the INDEC publishes Price Indexes in compliance with international standards of quality. Finally, in May 2016 the INDEC published the Internal Wholesale Price Index ( IPIM ) retroactively from January 2016 while the Consumer Price Index ( IPC ) was published in June 2016 from May 2016. It is worth mentioning that, as of the date of issuance of these consolidated financial statements, the INDEC has not completed the IPIM and IPC's statistical series, despite the requirements of domestic accounting profession organizations.

Therefore, for years 2015 and 2016 the Company analysis was performed according to Consumer Price Index and Internal Wholesale Price Index published by the INDEC until October 2015 and it was complemented applying November and December 2015 Price Index published by the Province of San Luis and the City of Buenos Aires, as the INDEC suggested. Also, the company applied Price Index of the period January-April 2016 published by the Province of San Luis and the City of Buenos Aires for the calculation of the Consumer Price Index for the year 2016. It is worth mentioning that these simplified procedures as provided in paragraph 17 of IAS 29 were performed due to the unavailability of official statistics at national level.

The tables below show the evolution of these indexes in the last three years according to official statistics (INDEC), with the exceptions explained above regarding the use of alternative indexes for November and December 2015 for Consumer Price and Internal Wholesale Price and, additionally, the Consumer Price Index for the period January-April 2016:

	2014	2015 (*)	2016 (**)
<b>Consumer Price Index</b>			
Consumer Price Index (annual)	23.9%	20.6%	36.3%
Consumer Price Index (3 years accumulated)	52.4%	65.8%	103.7%
<b>Internal Wholesale Price Index</b>			
Internal Wholesale Price Index (annual)	28.3%	19.2%	34.6%
Internal Wholesale Price Index (3 years accumulated)	66.5%	75.4%	105.8%

(\*) Consumer Price Index and Internal Wholesale Price Index published by INDEC until October 2015 were 11.9% and 10.6% respectively. These rates (which contain ten months accumulated), were updated with November and December 2015 Consumer Price Index average rates for this two months (7.8%) published by the Province of San Luis and the City of Buenos Aires.

(\*\*) Due to the unavailability of Consumer Price Index published by the INDEC, the Company estimated 16.6% for the period January-April 2016; this estimation is an average of the indexes published by the Province of San Luis and the City of Buenos Aires for that period. The Consumer Price Index at national level published by the INDEC for the

period May-December 2016 was 16.9%.

The Annual Price Index for the last year (Consumer Price Index: 36.3%, Internal Wholesale Price: 34.6%) and three years accumulated (Consumer Price Index: 103.7%, Internal Wholesale Price: 105.8%) show high levels of inflation rates that, for the first time, exceed 100% accumulated and highlight, between other matters, the effect in the internal prices of the Argentine peso devaluation since December 2015, the elimination of certain exchange restrictions, and the increase in the public services tariffs approved by the Government after been frozen for more than a decade.

According to the high inflation levels in Argentina registered in late years, the Company's Management has further assessed the characteristics set out in paragraph 3 of IAS 29, including (i) the quantitative condition provided in section (e) *the cumulative inflation rate over three years is approaching, or exceeds, 100%*, as well as (ii) the qualitative characteristics contained in paragraphs a) to d) of that paragraph.

From the analysis assessed as of December 31, 2016, the Company's Management considered that the quantitative condition provided in section e) of IAS 29 has been met, while the qualitative conditions of the Argentine economy are mixed (some of them would recommend the existence of a high inflation environment and others have not substantially changed respect to previous years, when it was concluded that financial statements should not be restated). Under these circumstances, and in order to objectify the analysis, the Company's Management gave priority to the conclusions reached by some international auditing firms to which the Company's Management had access, which considered that, to date, there was insufficient evidence to consider the Argentine economy as hyperinflationary under IAS 29 terms. Similar conclusions for US GAAP were reached by the IPTF, according to its memo issued on November 17, 2016.

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

### Table of Contents

An extract of the mentioned memo stated in point III.A.3(a) related to countries with projected inflation rates above 100% (accumulated over the last three years): *The Task Force is aware that in late December 2016, certain US accounting firms submitted a white paper to the SEC staff from the Office of the Chief Accountant that asserted that the firms would not require a registrant to consider Argentina's economy as highly inflationary under US GAAP for the reporting period from October 1, 2016 to December 31, 2016. The SEC staff from the Office of the Chief Accountant, after reviewing the white paper submitted by the firms, stated that the staff would not object to a calendar year-end registrant's determination that Argentina's economy would not be considered highly inflationary under US GAAP for the reporting period from October 1, 2016 to December 31, 2016.* In addition, the Task Force suggests registrants to continue monitoring inflation information and other Argentine economy conditions in order to assess whether it is necessary to consider it as highly inflationary during 2017.

While there are differences in the definition of a hyperinflationary and highly inflationary environments between IFRS and US GAAP, respectively, the Company believed that the assessment of the macroeconomic situation of a country should be substantially similar under both accounting frameworks and, on this condition, considered consistent the conclusions arrived by the IPTF with those provided in the analysis assessed by international audit firms according to IFRS and US GAAP.

Additionally, while the CNV required public companies the full implementation of IFRS-as issued by the IASB- from periods beginning on January 1, 2012, Decree No.664/03 continues to be in force as of the date of issuance of these consolidated financial statements. Through this Decree, the PEN instructed the control authorities including the CNV- not to accept filings of restated financial statements. This legal restriction is foreseen in the current Regulations of the CNV (Title IV - Chapter III Article 3 - paragraph 1).

### Developments of the three-month period of 2017

The publication of the INDEC inflation index for the current year has shown a decrease in inflation levels during the first quarter of 2017 as compared to 2016 (the cumulative coefficient of the CPI in the first three months of 2017 amounts to 6.3% and IPIM to 4.2%, while the accumulated CPI coefficient for the last 36 months amounts to approximately 96.7% and the IPIM rate is approximately 89.5%). Based on the deceleration in inflation rates during the first three months of 2017 and in the analysis performed as of December 31, 2016 described above, the Company's Management has concluded that no new evidence has been verified during the current period which leads to qualify the economy as highly inflationary. For these reasons, these financial statements have not been adjusted for inflation in accordance with IAS 29.

Although the above described, the Company's Management will continue monitoring the characteristics and the evolution of the inflation rates in Argentina in order to comply properly with IAS 29 provisions, with special consideration of the pronouncements of Argentine regulators which as of the date are forbidden to accept the filing of financial statements restated for inflation according to Decree No. 664/03 and its supplementary standards. The Company's Management will also monitor the pronouncements of foreign regulators, as well as the evaluation that the domestic and international accounting profession will perform with regards to the uniform application of IAS 29 together with other issuers that apply IFRS in the Argentine Republic.

(\*) Effective income tax rate based on weighted statutory income tax rate in the different countries where the Telecom Group has operations. For the period presented, the statutory tax rate in Argentina was 35%, in Paraguay was 10% plus an additional rate of 5% in case of payment of dividends and in the USA the effective tax rate was 39.5%.

**NOTE 3 SUPPLEMENTARY CASH FLOW INFORMATION**

For purposes of the statements of cash flows, cash and cash equivalents comprise cash, bank current accounts and short-term highly liquid investments (with a maturity of three months or less from the date of acquisition) and bank overdrafts, which integrate the Telecom Group's cash management and whose balances fluctuate according to the Group's operating needs. Bank overdrafts are disclosed in the statement of financial position as financial debts. During the three-month periods ended March 31, 2017 and 2016 bank overdrafts have been part of the permanent short-term financing structure of the Telecom Group, so, net funds requests under that method (with maturities less than three months) are included in financing activities.

As of March 31, 2017, Nortel owns all of the Class A Preferred shares (51% of total shares of the Company) and 7.64% of the Class B Preferred shares (3.74% of total shares of the Company).

As a result of the Company's Treasury Shares Acquisition Process described in Note 7.b), as of March 31, 2017, Nortel's equity interest in Telecom Argentina amounts to 55.60% of the outstanding shares. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders Meetings.

All shares of common stock of Nortel belong to Sofora. As of March 31, 2017 these shares represent 78.38% of Nortel's capital stock.

Sofora's capital stock consists of shares of common stock, with a par value of \$1 Argentine peso each and one vote per share. As of March 31, 2017, Sofora's shares are held by Fintech Telecom LLC (68%) and WAI (32%). Additionally, Fintech holds 58,173,522 Class B shares of Telecom Argentina, which represent 5.91% of Telecom Argentina's total capital stock.

Fintech Telecom LLC, a Delaware (United States) limited liability company, is a wholly-owned direct subsidiary of Fintech Advisory Inc. and its primary purpose is to hold, directly and indirectly, the securities of Telecom Argentina. Fintech Advisory Inc., a Delaware (United States) company, is directly controlled by Mr. David Martínez. Fintech Advisory Inc. is an investor and investment manager in equity and debt securities of sovereign and private entities primarily in emerging markets.

In connection with the Shareholders' Agreement entered into by the Telecom Italia Group and WAI, as last amended on October 24, 2014 (the New Shareholders' Agreement), Fintech Telecom LLC adhered as a party to the New Shareholders' Agreement by means of execution of a Deed of Adherence, following its acquisition of 17% of Sofora's capital stock. On March 8, 2016, as a result of its acquisition of 51% of Sofora's shares, Fintech acquired all the rights and obligations of the Telecom Italia Group under the New Shareholders' Agreement.

b) **Related parties**

For the purposes of these consolidated financial statements, related parties are those individuals or legal entities that are related (in terms of IAS 24) to Fintech Telecom LLC or WAI, except Nortel and companies under Section 33 of the LGS, as explained below.

For the periods presented, the Telecom Group has not conducted any transactions with Key Managers and/or persons related to them, as described above:

The Board of Directors approved transactions representing more than 1% of the total shareholders equity of the Company, after being approved by the Audit Committee in compliance with Law No. 26,831.

Table of Contents

In connection with the change of control explained, on March 8, 2016, Fintech Telecom LLC acquired 51% of Sofora's shares from the Telecom Italia Group. As a result, since January 1, 2016 until such date (in which the Telecom Italia Group ceased to be a related party of the Telecom Group), the transactions carried out with the Group amounted to \$111 for services rendered, \$72 for services received and \$18 for purchase of PP&E. It should be mentioned that no transactions with related parties of Fintech Telecom LLC were identified since March 8, 2016 according to IAS 24.

**e) Key Managers**

Compensation for the Key Managers, including social security contribution, amounted to \$42 and \$22 for the three-month periods ended March 31, 2017 and 2016, respectively, and was recorded as expenses under the item line Employee benefits expenses and severance payments. The total expense remuneration is comprised as follows:

	Three-month periods ended March 31,

(\*) Gross compensation. Social security and income tax retentions are in charge of the employee.

As of March 31, 2017, an amount of \$12 remained unpaid.

As of March 31, 2017 and 2016, the Company has recorded a provision of \$11 and \$7, respectively, for the fees of its Board of Directors members. Additionally, a member of the Board of Directors (included in the Company's payroll) has performed technical and administrative tasks for \$4, recorded within salaries and social security compensation in the Consolidated Income Statements for the three-month period ended March 31, 2017.

The members and alternate members of the Board of Directors do not hold executive positions in the Company or Company's subsidiaries.

**NOTE 6 COMMITMENTS AND CONTINGENCIES OF THE TELECOM GROUP**

**a) Purchase commitments**

The Telecom Group has entered into various purchase orders amounting in the aggregate to approximately \$7,764 as of March 31, 2017 (of which \$3,594 corresponds to PP&E commitments), primarily related to the supply of switching equipment, external wiring, infrastructure agreements, inventory and other service agreements.

**b) Contingencies**

The Telecom Group is a party to several civil, tax, commercial, labor and regulatory proceedings and claims that have arisen in the ordinary course of business. In order to determine the proper level of provisions, Management of the Company, based on the opinion of its internal and external legal counsel, assesses the likelihood of any adverse judgments or outcomes related to these matters as well as the range of probable losses that may result from the potential outcomes. A determination of the amount of provisions required, if any, is determined after an analysis of each individual case.

The determination of the required provisions may change in the future due to new developments or unknown facts at the time of the evaluation of the claims or changes as a matter of law or legal interpretation. Consequently, as of March 31, 2017, the Telecom Group has recorded provisions in an aggregate amount of \$1,873 to cover potential losses under these claims (\$56 for regulatory contingencies deducted from assets and \$1,817 included under provisions) and certain amounts deposited in the Company's bank accounts have been restricted as to their use due to some judicial proceedings. As of March 31, 2017, these restricted funds totaled \$69 (included under Other receivables item line in the consolidated statement of financial position).

**(b) Acquisition of Treasury Shares**

The Company's Ordinary Shareholders' Meeting held on April 23, 2013, which was adjourned until May 21, 2013, approved at its second session of deliberations the creation of a Voluntary Reserve for Capital Investments of \$1,200, granting powers to the Company's Board of Directors to decide its total or partial application, and to approve the methodology, terms and conditions of such investments.

In connection with the foregoing, on May 22, 2013, Telecom Argentina's Board of Directors approved a Treasury Shares Acquisition Program of Telecom Argentina in the market in Argentine pesos (the Treasury Shares Acquisition Program) for the purpose of avoiding any possible damages to Telecom Argentina and its shareholders derived from fluctuations and unbalances between the shares' price and Telecom Argentina's solvency, for the following maximum amount and with the following deadline:

- Maximum amount to be invested: \$1,200.
- Deadline for the acquisitions: until April 30, 2014.

According to the offer made on November 7, 2013 by Fintech Telecom LLC for the acquisition of the controlling interest of the Telecom Italia Group in Telecom Argentina, Telecom Argentina suspended the acquisition of treasury shares and its Board of Directors considered appropriate to request the opinion of the CNV on the applicability of the new provisions contained in the rules issued by that entity (Title II, Chapter I, Section 13 and concurring) with respect to the continuation of the Treasury Shares Acquisition Program.

The CNV did not answer the Company's request and the Telecom Argentina's Board of Directors, at its meeting held on May 8, 2014, decided to conclude the request considering that the Treasury Shares Acquisition Program finished on April 30, 2014, which had been approved by Telecom Argentina's Board of Directors Meeting held on May 22, 2013.

Telecom Argentina's Board of Directors, at its meeting held on June 27, 2014, decided to request a new opinion from the CNV to confirm whether Telecom Argentina is obliged to refrain from acquiring treasury shares in the market under Section 13, Chapter I, Title II of the CNV rules (NT 2013).

Pursuant to Section 67 of Law No. 26,831, the Company must sell its treasury shares within three years of the date of acquisition. Pursuant to Section 221 of the LGS, the rights of treasury shares shall be suspended until such shares are sold, and shall not be taken into account to determine the quorum or the majority of votes at the Shareholders' Meetings. No restrictions apply to Retained Earnings as a result of the creation of a specific reserve for such purposes named Voluntary Reserve for Capital Investments, which, as of March 31, 2017 amounted to \$3,191. The Company's General Ordinary and Extraordinary Shareholders' Meeting held on April 27, 2017 approved the partial disposal of such reserve in the amount of \$2,730. As consequence, after the mentioned disposal, the balance of the Voluntary Reserve for Capital Investments amounts to \$461.

On April 29, 2016, the Ordinary and Extraordinary Shareholders Meeting approved an additional 3-year extension for the disposal due date of treasury shares provided by Section 67 of Law No. 26,831.

As of March 31, 2017, the Company owns 15,221,373 treasury shares, representing 1.55% of its total capital. The acquisition cost of these shares in the market amounted to \$461.

**NOTE 8 RESTRICTIONS ON DISTRIBUTION OF PROFITS**

The Company is subject to certain restrictions on the distribution of profits. Under the LGS, the by-laws of the Company and rules and regulations of the CNV, a minimum of 5% of net income for the year in accordance with the statutory books, plus/less previous years adjustments and accumulated losses, if any, must be appropriated by resolution of the shareholders to a legal reserve until such reserve reaches 20% of the outstanding capital (common stock plus inflation adjustment of common stock). On May 21, 2014, Telecom Argentina reached the maximum amount of its Legal Reserve according to LGS and CNV provisions previously disclosed.

**NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE THREE-MONTH PERIOD ENDED MARCH 31, 2017 FOR THE TELECOM GROUP****a) Pre-cancellation of Personal's bank loan**

On January 28, 2015, Personal had signed a loan agreement with a foreign bank for US\$40.8 million (equivalent to \$353 at such date). The capital was fully cancelable in 27 months (bullet) with quarterly interest payments.

On February 7, 2017, with the maturity of the interest service, Personal proceeded to fully prepay the loan, paying US\$40.8 million of capital (equivalent to \$606), US\$1 million of interest (equivalent to \$16) and US\$0.3 million of pre-cancellation fee (equivalent to \$5).

**b) NDF to hedge interest rate fluctuations**

During 1Q17, Personal entered into several hedging agreements (NDF) to cover fluctuations in the LIBO rate of the loan with the International Financing Corporation in an amount of US\$400 million. These NDF allow fixing the variable rate to be set as from March 15, 2017 and for the full loan term, ranging from 2.087% to 2.4525% nominal per annum (a weighted average of 2.2258% nominal per annum).

**c) Sofora, Nortel and Telecom Group's corporate reorganization**

The Reorganization

On March 31, 2017, each of the Board of Directors of Sofora, Personal and Nortel (together, the Absorbed Companies ) and Telecom Argentina approved a preliminary reorganization agreement ( Compromiso Previo de Fusión ) (the Preliminary Reorganization Agreement ). Under the terms of the Preliminary Reorganization Agreement, Telecom Argentina will absorb to Nortel, Sofora and Personal according to the provisions of sections 82 and 83 of the LGS., subject to the approval of the relevant extraordinary general shareholders meetings in the case of Telecom Argentina, Personal, Nortel and Sofora and special shareholders meetings in the case of Nortel and to other authorizations (the Reorganization ).

As a consequence of the reorganization and with effect as of the date thereof: (i) the total equities of the Absorbed Companies will be transferred to Telecom Argentina to the book values of such items in the respective Special Individual Reorganization Financial Statements. According to this, Telecom Argentina will acquire all rights, obligations and responsibilities of any nature of Personnel, Sofora and Nortel; (ii) Telecom Argentina will be the continuing company of all Personal, Sofora and Nortel activities; (iii) Personal, Sofora and Nortel will be dissolved without liquidation and (iv) Nortel s shares and ADS s and Soforas and Personal s ordinary shares will be cancelled.

As a consequence of the Reorganization, Nortel will:

- (i) distribute a portion of Nortel s Telecom Argentina Class A Shares to the holders of Sofora Common Shares,
- (ii) convert Nortel s remaining Telecom Argentina Class A Shares to Telecom Argentina Class B Shares,
- (iii) distribute all of Nortel s Telecom Argentina Class B Shares (including all of Nortel s Telecom Argentina Class B Shares that will be converted from Telecom Argentina Class A Shares) to the holders of Nortel s Class B Preferred Shares, and
- (iv) cancel all of Nortel s Class B preferred shares and ordinary shares.

Telecom Argentina will not issue any new Class B Shares or Class A Shares in connection with the Reorganization. The Reorganization is subject to certain authorizations of ENACOM.

Table of Contents

If the Reorganization is approved at the shareholders meetings of the Absorbed Companies and Telecom Argentina, such companies expect to enter into a definitive reorganization agreement (the Final Reorganization Agreement), which will be filed with the Argentine administrative authorities in accordance with applicable corporate procedures.

Since (i) Nortel and Sofora are holding companies with no operations or assets other than direct and indirect interests, respectively, in Telecom Argentina and (ii) Personal is a wholly-owned subsidiary of Telecom Argentina, Telecom Argentina does not expect any material changes in its statement of financial position or income statement. The Reorganization will be accounted for under the Absorbed Companies basis of accounting, as permitted by IFRS as issued by the IASB. Under this method, assets and liabilities of the Absorbed Companies will be incorporated into Telecom Argentina at their respective book values.

As of the date of this issuance of these consolidated financial statements, the Reorganization is subject to the satisfaction of the following conditions:

- (i) approval of the Reorganization on the terms and conditions set forth in the Preliminary Reorganization Agreement by the shareholders of the Absorbed Companies and Telecom Argentina at each of their respective general extraordinary shareholders meetings (in the case of Telecom Argentina, Personal, Nortel and Sofora) and special shareholders meetings in the case of Nortel;
- (ii) the subscription of the Final Reorganization Agreement;
- (iii) the procurement of certain regulatory approvals by ENACOM;
- (iv) the amortization in full of 140,704,640 common shares issued by Sofora owned by W de Argentina-Inversiones S.A. ( WAI ) representing 32% of Sofora's capital stock; and
- (v) Telecom Argentina has conditioned its technical and operational systems with the capacity to absorb the operations of Personal, Nortel and Sofora.

In addition, the perfection of the Reorganization's corporate and administrative procedures is subject to the following conditions, among others, (i) obtaining the administrative consent of the CNV with respect to the Reorganization; (ii) the registration of the Final Reorganization Agreement with the IGJ and (iii) the procurement of any other authorization that would be required by other regulatory bodies (SEC, among others).

Amortization of Sofora shares

In March 2017, WAI offered to Sofora and Sofora accepted with the consent of Fintech, the controlling shareholder of Sofora, an offer to amortize, in two tranches, all of the 140,704,640 shares issued by Sofora and owned by WAI. As a result of the amortization, Sofora agreed to pay WAI an amount equal to the par value of WAI's shares of capital stock issued by Sofora, such amount being equivalent to \$140,704,640, and issue in the name of WAI one or more dividend certificates (any such certificate, a Class A Bono de Goce) evidencing WAI's rights to dividends up to an aggregate amount of up to US\$470 million less the amounts paid to amortize the shares of Sofora owned by WAI.

As a result of the amortization of the first tranche of the shares issued by Sofora owned by WAI representing 17% of Sofora's capital stock, a Class A dividend certificate (Bono de Goce) will be issued in favor of WAI, which will grant WAI the right to dividends up to a maximum amount of US\$ 249,687,500 less the US dollar equivalent of \$74,749,340.

As a result of the amortization of the second tranche of the shares issued by Sofora owned by WAI representing the remaining 15% of Sofora's capital stock, which is subject to ENACOM authorization, an additional Class A Bono de Goce will be issued in favor of WAI for an amount equivalent to US\$220,312,500 less the US dollar equivalent of \$65,955,300. By the end of the amortizations, Fintech will be the sole shareholder of Sofora.

Table of Contents

The principal terms and conditions of each Bono de Goce provide that: (i) dividend payments of up to the maximum amount under the Bono de Goce will be made only if and when Sofora resolves to pay a dividend, (ii) dividend payments made by Sofora shall be paid to the holder of the Bono de Goce with priority over all other shareholders of Sofora, (iii) all dividends to be paid under the Bono de Goce will be paid by Sofora with liquid and realized profits (*ganancias realizadas y líquidas*), (iv) the maximum amount of dividends to be collected under the Bono de Goce shall accrete every year on June 1 on the amount of dividends that remain unpaid by Sofora as of May 31 of the relevant year at a rate that will be set by the Board of Directors of Sofora and WAI, (v) Sofora has a right to redeem the Bono de Goce at any time after the later of 36 months from the date of issuance or the payment of 60% of the maximum amount of dividends under the Bono de Goce and, whatever occur at last (vi) in the event that Sofora is absorbed by another continuing company of Sofora's activities, the preference of the Class A Bono de Goce will remain only in respect of those shares of the continuing company that Sofora's shareholders receive according to the expected exchange ratio of the Reorganization, so that this preference does not affect the other shareholders of the absorbing company, meaning that, in the case of the Reorganization, the preference for the Class A Bono de Goce will only be verified with respect to the Class A Shares of Telecom Argentina that receives Fintech and will not affect the Class B Shares of Telecom Argentina.

If the Reorganization is consummated, Telecom Argentina will assume all the rights and obligations of Sofora as issuer of the Class A Bonos de Goce. In no event shall the dividend rights under the Class A Bonos de Goce affect the dividend rights of holders of Telecom Argentina Class B Shares.

**d) Acquisition of Nortel's interest in Personal**

On March 31, 2017, the Board of Directors of Nortel approved the sale of its interest of 120,000 shares of Personal to Telecom Argentina (representing 0.008% of Personal's capital stock) for an amount of \$4, which were fully paid in April. As a result of this transaction, as of March 31, 2017, Telecom Argentina owns 100% of Personal.

**e) Radioelectric Spectrum Fees**

In October 2016 Personal modified the criteria used for the statement of some of its commercial plans ( Abono Fijo ) for purposes of paying the radioelectric spectrum fees (*derecho de uso de espectro radioeléctrico* or DER ), taking into account certain changes in such plans' composition. This meant a reduction in the amount of fees paid by Personal.

In March 2017, the ENACOM demanded Personal to rectify its statements, requiring that such plans' statements continue to be prepared based on the previous criteria. Personal believes that it has solid legal arguments to defend its position, so, as a consequence, filed the applicable administrative recourse. However, it cannot be assured that such arguments will be accepted by the ENACOM. The difference resulting from both sets of liquidation criteria is of approximately \$23 million per month since October 2016, plus interests.

**f) Claims of some Personal Content Providers**

## Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

In the framework of the general reorganization of the content business started out by Personal in 2016, and given the upcoming expiration of agreements with content providers, some of the latter have been notified that such agreements will not be renewed.

By virtue of that communication, three of those companies initiated and obtained in court (between January 12, 2017 and February 24, 2017), precautionary measures against Personal, in order to avoid that the duly notified decision of not renewing the agreements be effective, and thus, forcing Personal to refrain from disconnecting or interrupting the contractual relationship on the scheduled dates.

On February 24, 2017, the ENACOM notified Personal the Resolution 2017-1122-APN-ENACOM # MCO, which set out that Mobile Operators may receive, in every respect, a percentage that should not exceed 40% of the services invoiced on behalf and to the order of providers of audiotext and mass calling Value Added Services. In addition, the Resolution sets forth a 30-day period to file under the ENACOM the interconnection contracts or the addenda to the existing ones, that ensure adjustments to the contracts already in force and with relation to the services rendered by the members of the Argentine Mobile Value Added Corporation (*Cámara Argentina de Valor Agregado Móvil* or CAVAM ).

On March 22, 2017, Personal based on the advice of its legal counsel and due to its solid arguments, filed a recourse requiring the revocation of Resolution No. 2017-1122-APN-ENACOM # MCO. However, if the recourse is not successful, Personal's revenues could be negatively impacted. If this occurs, it cannot be guaranteed that it will not have an adverse effect on our results of operations, financial condition and cash flows.

Table of Contentsg) **Telecom Argentina s declaration as proper taxpayer**

Pursuant to Law No. 27,260, Argentine companies that have properly fulfilled their tax obligations during the two fiscal year periods prior to the 2016 fiscal year and comply with other requirements may qualify for an exemption from the personal assets tax for the 2016, 2017 and 2018 fiscal years. The request for this tax exemption should be filed before March 31, 2017.

Telecom Argentina has already filed this request related to the payment of the tax on personal property on behalf of Shareholders. As a consequence, Telecom Argentina recorded in 2017 the reversal of the current tax credit on personal property on behalf of Shareholders and the corresponding liability that it had recorded as of December 31, 2016 which amounted to \$8 and has discontinued recording such receivables and liabilities since January 1, 2017.

Notwithstanding, it cannot be assured that in the future, Telecom Argentina can fulfill those requirements and maintain the referred exemption.

h) **Document on *Consultation on ICT Network Service Quality***

On April 12, 2017, Telecom Argentina and Personal submitted to the ICT Secretary its opinions and proposals for the published consultation.

i) **Núcleo s dividends distribution**

The Ordinary Shareholders Meeting of Núcleo held on March 28, 2017, approved the distribution of cash dividends for an amount \$109 (that correspond to 40,000 million of Guaraníes translated to Argentine pesos at the exchange rate of the approval day). According to this, the total dividends amount that will be paid is as follows:

Month of dividends payment	Dividends corresponding to Personal	Dividends corresponding to non-controlling shareholders		Total
		ABC	Telecomunicaciones	
May 2017	37	18		55
October 2017	37	17		54
<b>Total</b>	<b>74</b>	<b>35</b>		<b>109</b>

j) **Interest rate applicable to the matters under Labor Courts of the City of Buenos Aires**

On May 21, 2014 the National Labor Court of Appeals agreed, as a result of a divided vote, that the interest rate applicable to the matters under its jurisdiction in the City of Buenos Aires shall be the nominal annual rate for personal loans with free use of funds of the *Argentine National Bank* for a 49 to 60 month term (3% per month). The Court also resolved that in those cases that the Court sentences are still pending, this new rate shall be applied as from the date on which each amount is due.

As from 2002 the above mentioned Court had resolved to apply the interest rate resulting from the monthly average of the interest rate used by the National Bank of Argentina for the granting of loans (1.972% per month). Therefore, this disposition represents an increase in the interest rate, which the Company has reflected in its assessment of the provisions for pending labor claims.

As of the date of issuance of the annual financial statements at December 31, 2016, Telecom Group's Management, with the assistance of its legal counsel, considered that there were strong legal arguments to challenge the retroactive application of the new rate. However, it could not be assured the outcome of the Court of Appeals' decision until courts set uniform criteria through future rulings.

However, during the first quarter of 2017 the labor courts have applied the new rate criterion retroactively as from the date each amount is considered due. The Telecom Group has appealed these decisions but the National Labor Court of Appeals validated the criterion mentioned in recent cases and extraordinary appeals have been dismissed before the Supreme Court. For this reason, as of March 31, 2017, the Telecom Group has recorded provisions that it considers sufficient to cover the impacts that these rulings could have.

**k) Modification of the forms to be submitted by affidavits related to the FFSU contributions**

In accordance with ENACOM Resolution No. 6,981-E/16 issued on October 19, 2016, the FFSU and the FFSU Investment Contribution Settlement and Interest Report forms were approved and will be in force since January 1, 2017, being operationally implemented since March 2017. As a result, the Company and Personal have continued submitting the presentation of their monthly payments to the ENACOM, with the existing formalities prior to the Resolution No. 2,642/16. Taking into consideration the changes introduced in the Affidavits Form approved by the regulation, the Company and Personal made a presentation to the Regulatory Authority exposing the need to introduce amendments to the forms in order to continue deducting the SU services that both companies are providing.

On May 4, 2017, ENACOM Resolution No. 2,884/17 was published in the Official Bulletin. This Resolution amends the Affidavits Form of the FFSU contributions, adding, within the possible deductions, the Discount Annex Res. SC 154/10 Art 1st Section B) i) 2nd paragraph . Said rule allows deducting, until the Regulatory Authority issue its regulation, any amounts that eventually may correspond to SU Initial Programs or other than those provided for in Annex III of Decree No. 764/00, in accordance with the provisions of Section 2 of Decree No. 558/08 and Section 6 of Annex III of Decree No. 764/00, replaced by Decree No. 558/08.
