*(Name, Telephone, E-mail and/or Facsimile number and Address of Company Contact Person)

Securities registered or to be registered pursuant to Section 12(b) of the Act:

Title of each class	Name of each exchange on which registered
American Depositary Shares, each representing eight Class A ordinary shares	New York Stock Exchange, Inc.
Class A ordinary shares, par value \$0.01 per share*	New York Stock Exchange, Inc.

* Not for trading, but only in connection with the registration of American Depositary Shares representing such Class A ordinary shares pursuant to the requirements of the Securities and Exchange Commission.

Securities registered or to be registered pursuant to Section 12(g) of the Act: **None**

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Table of Contents

Securities for which there is a reporting obligation pursuant to Section 15(d) of the Act: **None**

Indicate the number of outstanding shares of each of the issuer's classes of capital or common stock as of the close of the period covered by the annual report.

260,001,486 Class A ordinary shares were outstanding as of December 31, 2017
317,325,360 Class B ordinary shares were outstanding as of December 31, 2017

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes No

If this report is an annual or transition report, indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934.

Yes No

Note: Checking the box above will not relieve any registrant required to file reports pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934 from their obligations under those Sections.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registration was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer

Emerging growth company

Edgar Filing: Phoenix New Media Ltd - Form 20-F

If an emerging growth company that prepares its financial statements in accordance with U.S. GAAP, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

The term new or revised financial accounting standard refers to any update issued by the Financial Accounting Standards Board to its Accounting Standards Codification after April 5, 2012.

Indicate by check mark which basis of accounting the registrant has used to prepare the financial statements included in this filing:

U.S. GAAP

International Financial Reporting Standards as issued
by the International Accounting Standards Board

Other

If Other has been checked in response to the previous question, indicate by check mark which financial statement item the registrant has elected to follow.

Item 17 Item 18

If this is an annual report, indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

(APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PAST FIVE YEARS)

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court.

Yes No

Conventions that Apply to this Annual Report on Form 20-F

In this annual report, unless otherwise indicated:

- **ADSs** refers to our American depositary shares, each of which represents eight Class A ordinary shares and **ADRs** refers to the American depositary receipts that may evidence our ADSs;
- **affiliated consolidated entities** refer to Yifeng Lianhe (Beijing) Technology Co., Ltd., Beijing Tianying Jiuzhou Network Technology Co., Ltd., and Beijing Chenhuan Technology Co., Ltd., each of which is a PRC domestic company. Substantially all of our operations in China are conducted by our affiliated consolidated entities, in which we do not own any equity interest, through our contractual arrangements. We treat all of these three PRC domestic companies as variable interest entities and have consolidated their financial results in our financial statements in accordance with generally accepted accounting principles in the United States, or U.S. GAAP. As such, unless otherwise specified herein, references to **affiliated consolidated entities** in this annual report include Yifeng Lianhe, Tianying Jiuzhou and Chenhuan;
- **Chenhuan** refers to Beijing Chenhuan Technology Co., Ltd., a PRC domestic company and one of our affiliated consolidated entities;
- **China** or **PRC** refers to the People's Republic of China, excluding, for the purposes of this annual report on Form 20-F only, Taiwan, Hong Kong and Macau;
- **Class A ordinary shares** refer to our Class A ordinary shares, par value US\$0.01 per share;
- **Class B ordinary shares** refer to our Class B ordinary shares, par value US\$0.01 per share, each of which shall be entitled to 1.3 votes on all matters subject to shareholders' vote;
- **Fenghuang On-line** refers to Fenghuang On-line (Beijing) Information Technology Co., Ltd., a wholly foreign-owned PRC entity;

Edgar Filing: Phoenix New Media Ltd - Form 20-F

- **Fengyu Network** refers to Beijing Fengyu Network Technology Co., Ltd., a PRC domestic company and a subsidiary of Tianying Jiuzhou.
- **Huanyou Tianxia** refers to Beijing Huanyou Tianxia Technology Co., Ltd., a PRC domestic company and an indirect subsidiary of Chenhuan;
- **Qieyiyou** refers to Qieyiyou (Beijing) Information Technology Co., Ltd., a wholly foreign-owned PRC entity;
- **ordinary shares** refer to our Class A ordinary shares and Class B ordinary shares, collectively;
- **Phoenix TV** refers to Phoenix Media Investment (Holdings) Limited;
- **Phoenix TV (BVI)** refers to Phoenix Satellite Television (B.V.I) Holding Limited, a wholly owned direct subsidiary of Phoenix TV, which directly owned 54.8% of our share capital as of March 31, 2018.
- **Phoenix TV Group** refers to Phoenix TV and its subsidiaries, not including our company.
- **PRC subsidiaries** refer to Fenghuang On-line (Beijing) Information Technology Co., Ltd., Beijing Fenghuang Yutian Software Technology Co., Ltd., Fenghuang Feiyang (Beijing) New Media Information Technology Co., Ltd., Beijing Fenghuang Borui Software Technology Co., Ltd., Qieyiyou (Beijing) Information Technology Co. and any other companies established in the PRC in which we hold direct or indirect certain equity interests and whose financial results are consolidated into our financial statements in accordance with U.S. GAAP; and unless otherwise specified herein, references to **PRC subsidiaries** in this annual report do not include the companies established in the PRC in which we do not hold directly or indirectly any equity interest but whose financial results are consolidated into our financial statements as variable interest entities in accordance with U.S. GAAP.
- **RMB** or **Renminbi** refers to the legal currency of China; **\$** , **dollars** , **US\$** and **U.S. dollars** refer to the legal of the United States;
- **Tianying Jiuzhou** refers to Beijing Tianying Jiuzhou Network Technology Co., Ltd., a PRC domestic company and one of our affiliated consolidated entities;
- **we** , **us** , **our company** , **our** and **Phoenix New Media** refer to Phoenix New Media Limited, a Cayman Islands

company and its predecessor entities and subsidiaries, and, unless the context otherwise requires, our affiliated consolidated entities and their subsidiaries in China; and

- Yifeng Lianhe refers to Yifeng Lianhe (Beijing) Technology Co., Ltd., a PRC domestic company and one of our affiliated consolidated entities.

This annual report contains statistical data that we obtained from various government and private publications, as well as a database issued by Shanghai iResearch Co., Ltd, a third-party PRC consulting and market research firm focused on Internet media markets. We have not independently verified the data in these reports and database. Statistical data in these publications also include projections based on a number of assumptions. If any one of the assumptions underlying the statistical data turns out to be incorrect, actual results may differ from the projections based on these assumptions.

This annual report on Form 20-F includes our audited consolidated financial statements for the years ended December 31, 2015, 2016 and 2017, and as of December 31, 2016 and 2017.

Our ADSs are listed on the New York Stock Exchange under the symbol FENG.

Table of Contents**PART I****ITEM 1. IDENTITY OF DIRECTORS, SENIOR MANAGEMENT AND ADVISERS**

Not required.

ITEM 2. OFFER STATISTICS AND EXPECTED TIMETABLE

Not required.

ITEM 3. KEY INFORMATION**A. Selected Financial Data**

The selected consolidated financial data shown below should be read in conjunction with Item 5. Operating and Financial Review and Prospects, and the financial statements and the notes to those statements included elsewhere in this annual report on Form 20-F. The selected consolidated statements of comprehensive income data for the years ended December 31, 2015, 2016 and 2017 and the selected consolidated balance sheet data as of December 31, 2016 and 2017 have been derived from our audited consolidated financial statements, which are included elsewhere in this annual report on Form 20-F. The selected consolidated statements of comprehensive income data for the years ended December 31, 2013 and 2014 and the selected balance sheet data as of December 31, 2013, 2014 and 2015 have been derived from our audited financial statements not included in this annual report on Form 20-F. The historical results are not necessarily indicative of results to be expected in any future period.

* In 2017, we adopted the guidance of ASU 2015-17 issued by FASB in November 2015, which requires entities to present deferred tax assets and deferred tax liabilities as noncurrent in a classified balance sheet. Pursuant to the guidance, the deferred tax assets have been reclassified from current assets as presented in the previously audited financial statements to noncurrent assets in the above balance sheets information as of December 31, 2013, 2014, 2015 and 2016.

	2013 RMB	2014 RMB	For the Years Ended December 31,		2017 RMB	US\$
			2015 RMB	2016 RMB		
(In thousands)						
Non-GAAP gross profit (2)	735,413	872,523	786,145	713,733	852,912	131,090

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Non-GAAP income from operations (2)	264,912	290,818	113,328	37,262	35,835	5,506
Non-GAAP adjusted net income attributable to Phoenix New Media Limited (3)	296,277	305,150	145,156	84,277	52,028	7,995

Notes:

(2) Non-GAAP gross profit and non-GAAP income from operations are both non-GAAP financial measures. Non-GAAP gross profit is gross profit excluding share-based compensation. Non-GAAP income from operations is income from operations excluding share-based compensation.

(3) We define non-GAAP adjusted net income attributable to Phoenix New Media Limited as net income attributable to Phoenix New Media Limited excluding share-based compensation, income or loss from equity investments, including impairments, gain on disposal of subsidiaries and acquisition of equity investments, and gain on disposal of an equity investment and acquisition of available-for-sale investments.

We believe the separate analysis and exclusion of the following non-GAAP to GAAP reconciling items add clarity to the constituent parts of our performances. We review non-GAAP gross profit, non-GAAP income from operations and non-GAAP adjusted net income attributable to Phoenix New Media Limited together with gross profit, income from operations and net income attributable to Phoenix New Media Limited to obtain a better understanding of our operating performance. We use these non-GAAP financial measures for planning and forecasting and measuring results against the forecast. Using these non-GAAP financial measures to evaluate our business allows us and our investors to assess our relative performance against our competitors and ultimately monitor our capacity to generate returns for our investors. We also believe it is useful supplemental information for investors and analysts to assess our operating performance without the effect of items like share-based compensation, income or loss from equity investments, including impairments, which have been and will continue to be significant recurring items, and without the effect of gain on disposal of subsidiaries and acquisition of equity investments, and gain on disposal of an equity investment and acquisition of available-for-sale investments, which have been significant and one-time items. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact our gross profit, income from operations and net income attributable to Phoenix New Media Limited for the period. In addition, because non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similar titled measures used by other companies. In light of the foregoing limitations, you should not consider non-GAAP financial measures in isolation from or as an alternative to the financial measures prepared in accordance with U.S. GAAP.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Table of Contents

Non-GAAP to GAAP reconciling items have no income tax effect.

Our non-GAAP gross profit, non-GAAP income from operations and non-GAAP adjusted net income attributable to Phoenix New Media Limited are calculated as follows for the years presented:

	2013 RMB	2014 RMB	For the Years Ended December 31,		2017 RMB	US\$
			2015 RMB	2016 RMB		
	(In thousands)

Currency Translation and Exchange Rates

We have translated certain Renminbi, or RMB, amounts included in this annual report on Form 20-F into U.S. dollars for the convenience of the readers. The rate we used for the translations was RMB6.5063 = US\$1.00, which was the noon buying rate on December 29, 2017 in New York for cable transfers in Renminbi as set forth in the H.10 weekly statistical release of the Federal Reserve Board. The translation does not mean that RMB could actually be converted into U.S. dollars at that rate. The following table shows the noon buying rate for RMB express in RMB per US\$1.00.

Period	Period End	Noon Buying Rate		
		Average (RMB per US\$1.00)	Low	High
2013	6.0537	6.1412	6.2438	6.0537
2014	6.2046	6.1704	6.2591	6.0402

D. Risk Factors

Risks Relating to Our Business and Industry

Due to the rapidly evolving market in which we operate, our historical results may not be indicative of our future performance and there can be no assurance that we will be able to meet internal or external expectations of future performance.

Our Internet media convergence business model is new in China, where the Internet industry is rapidly evolving and new products, new business models and new players emerge on a regular basis, and we may not be able to achieve results or growth in future periods as we did in past periods. Due to the rapidly evolving market in which we operate, our historical year-over-year and quarter-over-quarter trends may not provide an accurate or reliable indication of our future performance. For certain lines of our business, we have experienced high growth rates in the past and there may be expectations that these growth rates will continue. For other lines of our business, we have experienced declining trends. Our ability to achieve and maintain profitability depends on, among other factors, the growth of the Internet advertising market and mobile Internet services industry in China, our ability to maintain cooperative relationships with Phoenix TV and mobile operators, our ability to control our costs and expenses and the continued relevance and usage of our various paid services. We may not be able to achieve or sustain profitability on a quarterly or annual basis. Accordingly, our historical growth rates may not be indicative of our future performance. In addition, our online advertising business may suffer from price competition from other online advertising companies. We may have to reduce our profit margins or operate at a loss in order to adequately fund critical innovations that we believe will create value for our company and strengthen our market position over the long term. In the past our operating results have failed to meet expectations of industry analysts and investors, and our future operating results may also fail to meet such expectations. There can be no assurance that we will be able to meet internal or external expectations of future performance, and our share price may decline as a result of any failure to meet such expectations.

We expect to continue to rely on advertising to drive a significant portion of our future revenues, and if we fail to retain existing advertisers or attract new advertisers for our advertising services, our business, operating results and growth prospects could be materially affected.

In 2015, 2016, and 2017, we generated 76.2%, 85.3% and 85.9% of our total revenues from advertising services, respectively. Going forward, we expect our net advertising revenues to contribute an increasing portion of our total revenues. Our ability to generate and maintain substantial advertising revenues will depend on a number of factors, many of which are ultimately beyond our control, including but not limited to:

- the acceptance of online (including mobile and PC-based) advertising as an effective way for advertisers to market their businesses;
- the maintenance and enhancement of our brand;
- the maintenance and development of advertising technology, such as the maintenance of advertising data base and advertising placement platform, and the ability to prevent computer virus attack;

- the maintenance and development of our programmatic advertising platforms. We launched our self-developed demand-side platform Fengyu in the second quarter of 2017 and our revenue generated from programmatic advertising has increased significantly since then. Our ability to maintain and upgrade Fengyu and its related platforms, such as data management platform and advertisement exchange platform is crucial to our advertising services;
- the development of independent and reliable means of measuring online traffic and verifying the effectiveness of our online advertising services;
- the development and retention of a large user base with attractive demographics for advertisers; and
- our ability to have continued success with innovative advertising services.

Our advertisers may choose to reduce or discontinue their business with us if they believe their advertising spending has not generated or would not generate enough sales to end customers or has not improved or would not effectively improve their brand recognition. In addition, certain technologies could potentially be developed and applied to block the display of our online advertisements and other marketing products on PC websites, mobile applications and mobile websites, which may in turn cause us to lose advertisers and adversely affect our operating results. Moreover, changes in government policies could restrict or curtail our online advertising services. Failure to retain our existing advertisers or attract new advertisers for our advertising services could seriously harm our business, operating results and growth prospects.

Table of Contents

We may not be successful in growing our mobile Internet related business and our revenue growth could be negatively impacted.

Mobile Internet services and applications, is an emerging market in China. The growth of this market and the level of demand and market acceptance of our services are subject to many uncertainties. The development of this market and our ability to derive revenues from this market depends on a number of factors, some of which are beyond our control, including but not limited to:

- the growth rate of mobile Internet industry in China;
- changes in consumer demographics and preferences;
- development in mobile device platform technologies and mobile Internet distribution channels;
- changes in government policies, regulations or their enforcement with respect to various types of mobile Internet services and applications; and
- potential competition from more established companies that decide to enter the mobile Internet market.

We rely in part on application marketplaces, Internet search engines, navigation sites, web browsers and pre-installations on handsets to drive traffic to our PC websites, mobile applications and mobile websites, and if we fail to appear near the top of such search results or rankings or to retain partnership with certain handset manufacturers, traffic to our PC websites, mobile applications and mobile websites could decline and our business and operating results could be adversely affected.

We rely on application marketplaces, such as Apple's iOS App Store, and other handset manufactures' Android App Store, to drive downloads of mobile applications of our products, including ifeng News, ifeng Video, and the digital reading application Fanyue Novel, among others. In the future, iOS App Store, Android stores or other operators of application marketplaces may make changes to their marketplaces which could hinder or impede access to our products and services. We also depend in part on Internet search engines, navigation sites and web browsers, such as Baidu, Sougou, Hao123, Hao360, UC Browser, 360 Browser and Cheetah Browser, to drive traffic to our PC websites and referrals to our mobile applications and mobile websites. For example, when a user types an inquiry into a search engine, we rely on a high organic search result ranking of our webpages in these search results to refer users to our websites. However, our ability to maintain high organic search result rankings is not totally within our control. Our competitors' search engine optimization, or SEO, efforts may result in their websites receiving a higher search result page ranking than ours, or Internet search engines could revise their methodologies in a way that would adversely affect our search result rankings. If Internet search engines modify their search algorithms or other methodologies in ways that are detrimental to us, or if our competitors' SEO efforts are more successful than ours, the growth in our user base could be adversely affected. In addition, navigation websites or web browsers might reduce the recommendation of our products for various reasons from time to time.

We also rely on pre-installations on handsets to increase traffic to our mobile applications. By partnering with mobile handset manufacturers, we can have our mobile applications exposed directly to our users without downloading from application stores once they buy certain handsets. In this way, users are more inclined to use our mobile applications for convenience reasons. Any reduction in the number of users directed to our PC websites, mobile applications and mobile websites through application marketplaces, Internet search engines, navigation sites, web browsers and pre-installations could harm our business and operating results.

If we are unable to successfully expand our mobile strategy and increase our mobile advertising revenues, our business, operating results and growth prospects could be materially affected.

Use of mobile devices for consumption of news and other media content by consumers in China has been increasing rapidly in recent years. This shift towards mobile has brought with it both challenges and opportunities. We encountered weaker demand for PC-based advertising in 2016 and 2017 but achieved year-over-year growth in mobile advertising revenues during the same period. We see mobile devices as the primary gateway for news consumption going forward and our ability to maintain and increase our mobile advertising revenues will be critical to our future business prospects. While we are taking measures to expand our user base across our various mobile applications, optimize our targeting technology and integrate next-generation high-efficiency advertising solutions, there can be no assurance that these measures will be effective. User preferences and behaviors on mobile devices are rapidly evolving and we may not be able to successfully adapt to these changes. The variety of technical and other configurations across different mobile devices, platforms and applications also increases the challenges associated with our mobile expansion. Although we have taken strict control over operating expenses, we have witnessed significant increase in our traffic acquisition expenses. Our traffic acquisition expenses may continue to increase in the future which will adversely impact our financial results. Our mobile strategy is also subject to risks relating to changes in government policies, regulations or their enforcement with respect to mobile Internet services and applications. Any change to laws and regulations applicable to the mobile Internet industry, such as those relating to content, user privacy, pricing, copyrights and distribution, may impede the growth of mobile Internet in China or make it more difficult for us to carry out our mobile advertising business. If we cannot successfully grow our user base and capitalize on emerging monetization opportunities on mobile devices, we may not be able to maintain or grow our advertising revenues, which could materially and adversely affect our operating results and growth prospects.

Table of Contents

Yidian Zixun is one of our most important investments in our mobile strategy. If we are unable to successfully realize the anticipated benefits from this investment or lose our option to consolidate Particle Inc. in the future, our mobile strategy and growth prospects could be materially affected.

As part of our mobile strategy, we have made substantial investments in Particle Inc., or Particle, in the form of investments and loans. Particle operates Yidian Zixun (), or Yidian, a personalized news and life-style information application in China that allows users to define and explore desired content on their mobile devices. As of the date hereof, we held Series B, Series C and Series D1 convertible redeemable preferred shares of Particle, which had been accounted for as available-for-sale investments, representing an aggregate of approximately 41.8% equity interest of Particle on an as-if converted basis. The fair value of our available-for-sale investments in Particle was RMB1,196.3 million (US\$183.9 million) as of December 31, 2017. As of the date hereof, we also had two outstanding unsecured short-term loans to Particle, including (i) a convertible loan granted in August 2016 with a principal amount of US\$14.8 million at an interest rate of 4.35% per annum due in August 2018 after several extensions, which can be converted into Series D1 convertible redeemable preferred shares of Particle at a conversion price of US\$1.071803 per share before August 9, 2018, and (ii) a loan granted in January 2017 with a principal amount of RMB74.0 million (US\$10.8 million) at an interest rate of 9% per annum due in July 2018 after one extension. Pursuant to an agreement among our company, Particle and Long De Cheng Zhang Culture Communication (Tianjin) Co., Ltd. (Long De), we are expected to assign to Long De or its designated affiliates our rights under the convertible loan granted in August 2016, and Long De or its affiliates should pay us approximately US\$17.0 million for the assignment. While we do not have control over, and therefore do not consolidate Particle, we may consolidate Particle as a subsidiary once Yidian's user base reaches a certain level. We have also been collaborating closely with Particle in executing our mobile strategy. As such, if Yidian fails to grow its user base and expand its business, our mobile strategy may be materially and adversely affected, we may not be able to realize anticipated benefits from consolidating Particle as a subsidiary, and we may lose our entire investments in Particle. In addition, as Particle has engaged and may continue to engage in additional onshore and offshore financing activities, as additional investors are brought in as new shareholders of Particle or any of its principal subsidiaries or affiliated consolidated entity, and as certain special rights are granted to some of these new shareholders, our equity interest in Particle may be diluted, we may not be able to consolidate Particle as a subsidiary, and Particle may lose its right to consolidate its current consolidated affiliated entity. Any of the above could have a material adverse effect on our business, financial condition and operating results.

News feed advertising is becoming an important mobile advertising format in China. If we are unable to successfully develop our news feed advertising solution and adapt to new changes in advertising formats and trends, our mobile advertising revenues and growth may be materially and adversely affected.

News feed advertising is the practice of constantly updating lists of advertisements alongside news and information. It effectively helps mobile applications enlarge their advertising inventory by inserting advertisements into the flow of content, while improving the user experience based on native appearance and contextual relevance, implying greater monetization potential. We expect news feed advertising to maintain strong growth momentum and become an increasingly important mobile advertising format in China. While we had developed and added news feed advertising into our mobile applications and mobile websites in late 2016, we are facing an increasingly competitive environment. For example, several mobile applications of other companies, such as Jinri Toutiao, Tiantian Kuaibao and QQ news (Tencent), UC Toutiao (Alibaba) and Baidu app, are all competing in news feed advertising. If we are unable to successfully develop our news feed advertising solution and deliver better return on investment, or ROI, to our advertising clients, our future mobile advertising revenues may be materially and adversely affected. Except for news feed advertising, we believe that more types of innovative mobile advertising formats may emerge in the future. If we are unable to swiftly develop and adapt to new changes in advertising formats and trends, our mobile advertising revenues may be materially and

adversely affected.

Any failure to retain large advertising agencies or attract new agencies on reasonable terms could materially and adversely affect our business. If advertising agencies demand higher service fees, our gross margin may be negatively affected.

Approximately 73.4%, 66.4% and 78.5% of our net advertising revenues in China were derived from advertising agencies in 2015, 2016 and 2017, respectively. We primarily serve our advertisers through advertising agencies and rely on these agencies for sourcing our advertisers and collecting advertising revenue. In consideration for these agencies' services, the agencies earn advertising agency service fees which are deducted from our gross advertising revenues. While advertising agencies in China commonly increase their agency service fees on a sliding scale basis along with increased volume of business, if our agency service fees increase at a materially disproportional rate relative to our gross advertising revenues, our operating results may be negatively affected. We do not have long-term or exclusive arrangements with these agencies, and we cannot assure you that we will continue to maintain favorable relationships with them. If we fail to maintain favorable relationships with large advertising agencies or attract additional agencies, we may not be able to retain existing advertisers or attract new advertisers and our business and operating results could be materially and adversely affected.

Table of Contents

Over the years, there has been some consolidation among advertising agencies in China. If the consolidation trend continues and the market is effectively controlled by a small number of large advertising agencies, such advertising agencies may be in a position to demand higher advertising agency service fees based on increased bargaining power, which could reduce our net advertising revenues.

If we fail to continue to anticipate user preferences and provide high quality content that attracts and retains users, or if we have to limit our services or cease providing certain content in order to comply with changing regulatory requirements, we may not be able to generate sufficient user traffic to remain competitive.

Our success depends on our ability to generate sufficient user traffic through the provision of attractive content. If we are not able to license or otherwise obtain popular premium content (such as we-media content, professionally-generated content, or PGC and; user-generated content, or UGC and etc.) at commercially reasonable terms, if our desired premium content becomes exclusive to our competitors, or if we do not continue to possess the license and priority over any third party to broadcast Phoenix TV's content, the attractiveness of our offerings to users may be severely impaired.

We may also be required to limit our services or be prevented from providing certain content to our users due to regulatory requirements or sanctions. For example, we received a public notice issued by the State Administration of Press, Publication, Radio, Film and Television of the People's Republic of China, or the SAPPRFT, on June 22, 2017 in connection with our and certain other Internet companies' regulatory non-compliances. The notice required us to suspend our ifeng video and audio services due to our lack of the Internet audio-visual program transmission license and our certain commentary programs that violates government regulations. We have cooperated with SAPPRFT to make the necessary changes to our ifeng video and audio services, and we no longer distribute any video and audio content from Phoenix TV accordingly. We are not sure when we can distribute this kind of content again, and whether our ifeng video and audio services will not be ordered to suspend again in the future.

Regulatory authorities in China have also increased their supervision of the content we distribute and made regulatory inquiries and oral warnings to us from time to time. In a couple of instances, the regulatory authority even ordered suspension of downloads of our mobile applications and prohibited us from providing any update to some of our content for a short period of time. We cannot assure you that similar events will not occur in the future. Any of these events could severely impair the attractiveness of our applications and websites to users, reduce our user traffic and affect our revenue.

We also produce content in-house, and intend to continue to invest resources in producing original content. If we are unable to continue to procure premium and distinctive licensed content or produce in-house content that meets users' tastes and preferences, we may lose users, and our operating results may suffer. In addition, we rely on our team of skilled editors to edit and repackage our sourced content in a timely and professional manner for our users and any deterioration in our editing team's capabilities or losses in personnel may materially and adversely affect our operating results. If our content fails to cater to the needs and preferences of our users, we may suffer from reduced user traffic and our business and operating results may be materially and adversely affected.

We may experience continued decline in demand for our MVAS business and any expected economic benefits from this business may not be realized.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

In 2015, 2016 and 2017, revenues from our mobile value-added services, or MVAS, accounted for 18.2%, 8.1% and 7.4%, respectively, of our total revenues, due to lower demand from mobile users. For more information about our MVAS, see Item 4. Information of the Company B. Business Overview Our Channels Our Operations with the Telecom Operators. In addition, we cannot assure you that we will be successful in developing our MVAS business, which will depend, among other things, on our ability to:

- respond to market developments, including the development of new channels and technologies, and changes in pricing and distribution models;
- maintain and diversify our distribution channels, including through our own mobile Internet site, the platforms of China Mobile Communications Corporation, or China Mobile, and the other Chinese mobile operators, mobile device manufacturers and mobile application stores;
- develop new high quality MVAS that can achieve significant market acceptance, and improve our existing MVAS in a timely manner to extend their life spans and to maintain their competitiveness in the Chinese mobile market;
- develop and upgrade our technologies; and
- execute our MVAS business and marketing strategies successfully.

Table of Contents

Due to the uncertainties of our MVAS business and the MVAS industry in China generally, our MVAS will contribute less to our future revenues. Any failure to successfully develop this business could have a negative impact on our business, financial condition and operating results.

If we fail to successfully develop and introduce new products and services to meet the preferences of users, our competitive position and ability to generate revenues could be harmed.

The preferences of viewers are continuously evolving and we must continue to develop new products and services. If we fail to react to changes in user preferences in a timely manner or fall behind our competitors in providing innovative products and services, we may lose user traffic, which would negatively affect our operating results. In addition, the planned timing or introduction of new products and services is subject to risks and uncertainties. Actual timing may differ materially from original plans. Unexpected technical, operational, distribution or other problems could delay or prevent the introduction of one or more of our new products or services. Moreover, we cannot assure you that our new products and services will achieve widespread market acceptance or generate incremental revenues. At the same time, other new media providers may be more successful in developing more attractive products and services. If our efforts to develop market and sell new products and services to the market are not successful, our financial position, operating results and cash flows could be materially adversely affected, the price of our ordinary shares could decline and you could lose part or all of your investment.

As devices other than personal computers, such as mobile phones, tablets and other Internet-enabled mobile devices, are increasingly used to access the Internet, we have to develop products and applications for such devices if we are to maintain or increase our market share and revenues, and we may not be successful in doing so.

Devices other than personal computers, such as mobile phones, tablets, wearable devices and other Internet-enabled mobile devices, are used increasingly in China and in overseas markets to access the Internet. We believe that, for our business to be successful, we will need to design, develop, promote and operate new products and applications that will be compatible with such devices and attractive to users. The design and development of new products and applications may not be successful. We may encounter difficulties with the development and installation of such new products and applications for mobile devices, and such products and applications may not function smoothly. As new devices are released or updated, we may encounter difficulties in developing and upgrading our products or applications for use on mobile devices and we may need to devote significant resources to the creation, support and maintenance of such products or applications for mobile devices, and we may not be successful in doing so. If these efforts are unsuccessful and we are thereby unable to maintain or increase our market share and revenues, our business, operating results and growth prospects could be materially and adversely affected.

We operate in highly competitive markets and we may not be able to compete successfully against our competitors.

We face significant competition in the new media industry in China, including competition from major Internet portals, mobile news and information application operators, Internet video companies, online video sites of major TV broadcasters, online digital reading companies, interactive and social network service providers, online and mobile gaming companies, mobile Internet services providers and other companies with strong media, online video and paid services businesses. Some of our competitors have longer operating histories and significantly greater financial resources than we do, which may allow them to attract and retain more users and advertisers. Our competitors may compete with us in a variety of ways, including by obtaining exclusive online distribution rights for popular content, conducting more aggressive brand promotions and other marketing activities and making acquisitions to increase their user bases. If any of our competitors achieves greater market acceptance or are able to offer more attractive online content, interactive services or paid services than us, our user traffic and our market share may decrease, which may result in a loss of advertisers and have a material and adverse effect on our business, financial condition and operating

results. We also face competition from traditional advertising media such as television, newspapers, magazines, billboards and radio.

We have contracted with third-party content providers and we may lose users and revenues if these relationships deteriorate or arrangements are terminated. If third-party content providers increase their content licensing fees, our operating results may be negatively affected.

We have relied and will continue to rely mostly on third parties for the content we distribute across our channels. If these parties fail to develop and maintain high-quality and engaging content or raise their licensing fees, or if a large number of our existing relationships are terminated, we could lose users and advertisers and our brand could be materially harmed. License fees for third-party content showed an increasing trend in 2017. If such license fees continue to increase significantly in the future, our income from operations may be negatively affected. In addition, the Chinese government has the ability to restrict or prevent state-owned media from cooperating with us in providing certain content to us, which, if exercised, would result in a significant decrease in the amount of content we are able to source for our PC websites, mobile applications and mobile websites and negatively impact our operating results.

Table of Contents

We may not be able to continue to receive the same level of support from Phoenix TV Group in the future. We could lose our license and priority over any third party to broadcast Phoenix TV Group's content and licensed trademarks, which would have an adverse effect on our paid services business, and would also negatively affect our video advertising business. Together, these impacts could have an adverse effect on our business and operating results.

Phoenix TV, our majority shareholder, is a leading global Chinese language TV network broadcasting premium content globally and into China. In November 2009, our PRC subsidiary, Fenghuang On-line, entered into a cooperation agreement with Phoenix TV, or the Phoenix TV Cooperation Agreement, under which Fenghuang On-line and Phoenix TV agreed to certain cooperative arrangements in the areas of content, branding, promotion and technology. Pursuant to the Phoenix TV Cooperation Agreement, in November 2009 each of Tianying Jiuzhou and Yifeng Lianhe entered into a program content license agreement, or Content License Agreement, with Phoenix Satellite Television Company Limited and a trademark license agreement, or Old Trademark License Agreement, with Phoenix Satellite Television Trademark Limited. Considering the significant growth and changes in our business since execution of these agreements in 2009, we and Phoenix TV Group entered into a new set of agreements in May 2016 and December 2017, or the New Agreements, to amend and replace the previous agreements and provide the terms of our continued cooperation. The New Agreements include Program Resource License Agreements and Program Text/Graphics Resource License Agreements, or the Program License Agreements, between Phoenix Satellite Television Company Limited and each of Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network, and new trademark license agreements by and between Phoenix Satellite Television Trademark Limited and each of Tianying Jiuzhou and Yifeng Lianhe, or the New Trademark License Agreements.

Unlike the previous agreements, the New Agreements do not grant us the right to sublicense Phoenix TV Group's copyrighted content to third parties. While we are in the process of negotiating with Phoenix TV Group to potentially re-acquire such right of sublicense, we cannot assure you that we will be able to re-acquire such right at reasonable costs or at all.

We benefit from the license with priority over any third party granted to Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network by Phoenix Satellite Television Company Limited, a wholly owned subsidiary of Phoenix TV, to broadcast Phoenix TV Group's copyrighted content from three television channels of Phoenix TV Group on ifeng.com (our main Internet channel), i.ifeng.com (a mobile Internet channel of ours), and ifeng News, ifeng Video and ifeng VIP (three mobile applications of ours) in China (excluding Hong Kong, Macau and Taiwan) concurrently with such content broadcasted on the three television channels of Phoenix TV Group, pursuant to the Program License Agreements. This license with priority helps to distinguish our content offerings from those of other Internet and new media companies in China. The fees payable to Phoenix TV Group by us for all content licenses described above is RMB10.0 million for the first year of the agreements, which will incrementally increase by 15% for each subsequent year of the agreements. Each of the parties to the Program License Agreements has the right to terminate the Program License Agreements before their expiration date by 6-month prior written notice to the other party. In addition, each of the Program License Agreements can be terminated earlier (i) by the non-breaching party in the event of a breach and if the breach is not cured within ten business days after receipt of notice of breach from the non-breaching party, (ii) in the event of bankruptcy or the cessation of business operations of either party, or a change in the shareholder or equity structure of the relevant affiliated consolidated entity, other than in connection with the contractual arrangements, (iii) by Phoenix Satellite Television Company Limited in the event that our shareholders or ownership structure change so that the shares held by Phoenix TV Group account for 50% or less of our actual total issued shares, or in the event that we lose control of Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network; or if Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network, as applicable, ceases its business operation; (iv) if either party's performance of its obligations is held unlawful under PRC law; or (v) if an event occurs that adversely affects the performance by either party of its obligations and upon written notice by the unaffected party. The Program License Agreements will, unless extended further, expire on May 26, 2019.

If the aforementioned existing agreements expire and we cannot reach new agreements with Phoenix TV Group before the expiration, we may not be able to obtain rights to use Phoenix TV Group's content and licensed trademarks on our platforms on commercially reasonable terms, with any priority or at all, which would have an effect on our paid services business, and may also negatively affect our video advertising business. Together, these impacts could have a material and adverse effect on our business, operating results and financial condition.

We received a public notice issued by SAPPRFT on June 22, 2017 in connection with our and certain other internet companies' regulatory non-compliances. The notice required us to suspend our ifeng video and audio services due to our lack of the Internet audio-visual program transmission license and our certain commentary programs that violated government regulations. We have cooperated with SAPPRFT to make the necessary changes to our ifeng video and audio services and we no longer distribute any video and audio the content from Phoenix TV accordingly. We are not sure when we can distribute this kind of content again, and whether our ifeng video and audio services will not be ordered to suspend again in the future.

Table of Contents

In addition, Tianying Jiuzhou and Yifeng Lianhe are able to use certain of Phoenix TV Group's logos pursuant to the Old Trademark License Agreement and the New Trademark License Agreements. We believe that our use of these logos helps to affiliate us with the brand of Phoenix TV Group, which helps to enhance our own brand. Different from the Old Trademark License Agreement, however, the New Trademark License Agreements no longer allow us to use the double-phoenix logo of Phoenix TV Group on a stand-alone basis and increased the annual license fee payable to Phoenix TV Group from a total of US\$10,000 to the greater of 2% of the annual revenues of Tianying Jiuzhou or Yifeng Lianhe (as the case may be) or US\$100,000 for each company. For illustrative purpose only, Tianying Jiuzhou and Yifeng Lianhe had total annual revenues of RMB570.4 million in 2016 and RMB413.8 million in 2017 in accordance with U.S.GAAP, which meant that the annual license fee payable to Phoenix TV Group would have been RMB11.4 million and RMB8.3 million in 2016 and 2017, respectively, if the New Trademark License Agreements had been implemented since January 2016. Each of the New Trademark License Agreements has an initial term of three years and may be extended prior to expiration of its term with the written confirmation of Phoenix TV Group, and may be terminated earlier by Phoenix TV Group in the event of a material breach by us of any covenant or a material failure by us to perform any of our obligation and if the breach or failure, as applicable, is not rectified within a reasonable time or ten days of receipt of written notice from Phoenix TV Group. For example, we may in practice use such logos beyond the scope authorized by Phoenix TV Group, which may constitute a breach of such agreements and cause Phoenix TV Group to terminate such New Trademark License Agreements. We cannot assure you that we will be able to continue to use Phoenix TV Group's logos in order to help maintain our brand affiliation with Phoenix TV Group. If our brand image deteriorates as a result of a weaker brand affiliation with Phoenix TV Group, our business and the price of your ADSs could be negatively affected.

On March 17, 2017, the State Administration of Taxation issued the *Announcement of the State Administration of Taxation on Issuing the Administrative Measures for Special Tax Adjustment and Investigation and Mutual Consultation Procedures*, or SAT Circular 6, which became effective on May 1, 2017, and replaced the *Circular on Enterprise Income Tax Issues concerning Disbursement of Expense by Enterprises to Overseas Related Parties*. Pursuant to SAT Circular 6, tax authorities carry out special tax adjustment monitoring and management of enterprises via review of the reporting of connected transactions, management of contemporaneous documentation, profit level monitoring and other means. When enterprises are found to have special tax adjustment risks, they will send notices to such enterprises, suggesting the existence of a tax risk. The tax authorities will pay special attention to an enterprise with the risk characteristics in the implementation of the special tax investigation. Such risk characteristics include but are not limited to: (i) engaging in connected transactions with affiliates in countries (regions) subject to lower tax rates; (ii) no distribution or reduced distribution of profit without reasonable business needs by an enterprise that is established in a country (region) where the actual tax burden is less than 12.5% controlled by resident enterprises and/or Chinese resident individuals; or (iii) other tax planning or arrangements that do not have reasonable business purposes. According to SAT Circular 6, payments made by our PRC subsidiaries and affiliated consolidated entities to Phoenix TV or its offshore affiliates under the above arrangements may be subject to stringent supervision by competent tax authority.

Any negative development in Phoenix TV's market position, harm to Phoenix TV's brand or operations, or regulatory actions or legal proceedings affecting Phoenix TV's intellectual properties on which our business relies could materially and adversely affect our business and operating results.

Our business benefits significantly from our association with Phoenix TV's brand. Many of our users and advertisers are attracted to the Phoenix () brand, with which our brand, ifeng.com () shares a similar Chinese name. Any negative development in Phoenix TV's market position or brand recognition may materially and adversely affect our marketing efforts and the popularity of our business. Any negative development in Phoenix TV's operations or attractiveness to users or advertisers may materially and adversely affect our business and operating results. Moreover, as we benefit from the content licensed to us by Phoenix TV, any regulatory actions or legal proceedings against Phoenix TV related to such content could have a material adverse impact on our operating results.

If we are unable to keep pace with rapid technological changes in the PC and mobile Internet industries, our business may suffer.

The Internet and mobile Internet industries have been experiencing rapid technological changes. For example, with the advances of search engines and social networking sites, Internet users may choose to access information through search engines or social networking sites instead of web portals or similar websites. With the advances in Internet interactivity, the interests and preferences of Internet users may increasingly shift to UGC and we-media content, such as WeChat, blogs, micro-blogs, and video podcasts. As broadband becomes more accessible, Internet users may increasingly demand content in pictorial, audio-rich and video-rich format. With the development of the mobile Internet in China, mobile users may shift from the current predominant text messaging services and other MVAS to newer services, such as mobile video streaming and mobile digital reading services. Our future success will depend on our ability to anticipate, adapt and support new technologies and industry standards. If we fail to anticipate and adapt to these and other technological changes, our market share and our profitability could suffer.

Table of Contents

Our lack of an Internet audio-visual program transmission license has exposed, and may continue to expose, us to administrative sanctions, including the banning of our paid mobile video services and video advertising services, which would materially and adversely affect our business and results of operation.

The PRC government regulates the Internet industry extensively, including foreign ownership of, and the licensing requirements pertaining to, companies in the Internet industry. A number of regulatory agencies, including the Ministry of Culture, or the MOC, the Ministry of Industry and Information Technology, or MIIT, the State Administration of Radio and Television, or SAPPRFT, (formerly the General Administration of Press, Publication, Radio, Film and Television, or GAPPRT), the State Council Information Office, or the SCIO, the Cyberspace Administrator of China, or CAC, and other governmental authorities, jointly regulate all major aspects of the Internet industry. Operators are required to obtain various government approvals and licenses prior to providing the relevant Internet information services.

Pursuant to the *Administrative Provisions on Internet Audio-visual Program Service*, or the Audio-visual Program Provisions, which was issued by the State Administration of Radio, Film and Television (the predecessor of SAPPRFT), or SARFT and MIIT on December 20, 2007, came into effect on January 31, 2008 and was revised on August 28, 2015, online transmission of audio and video programs requires an Internet audio-visual program transmission license and online audio-visual service providers must be either wholly state-owned or state-controlled. In a press conference jointly held by SARFT and MIIT to answer questions with respect to the Audio-visual Program Provisions in February 2008, SARFT and MIIT clarified that online audio-visual service providers that already had been operating lawfully prior to the issuance of the Audio-visual Program Provisions may re-register and continue to operate without becoming state-owned or controlled, provided that such providers have not engaged in any unlawful activities. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Online Transmission of Audio-Visual Programs.

We started offering Internet audio-visual program services through Tianying Jiuzhou in China prior to the issuance of the Audio-visual Program Provisions. Tianying Jiuzhou submitted an application to SAPPRFT to apply for the Internet audio-visual program transmission license when the relevant regulation came into effect. However, as of the date of this annual report, SAPPRFT has not issued Tianying Jiuzhou an Internet audio-visual program transmission license. Although we have been communicating with the relevant government authorities, such government authorities have not informed us as to when they will make a decision on whether to issue such license to Tianying Jiuzhou. In June 2017, SAPPRFT issued a notice requiring us to suspend our ifeng video and audio services due to our lack of Internet audio-visual program transmission license and certain commentary programs that violated government regulations. While we have been able to continue our video and audio operation notwithstanding the notice by cooperating with SAPPRFT to make the necessary changes to our ifeng video and audio services, complying with government regulation and continuing to improve the management and operation of the ifeng video and audio business, we cannot assure you that we will not receive similar or other notices or be subject to other penalties or disciplinary action from the relevant governmental authorities in the future regarding our dissemination of audio-visual programs through our PC websites, mobile applications and mobile websites without such license. We cannot assure you that Tianying Jiuzhou will be able to obtain the Internet audio-visual program transmission license. Based on the opinion of our PRC counsel, Zhong Lun Law Firm, due to Tianying Jiuzhou's lack of an Internet audio-visual program transmission license, the applicable local counterpart of SAPPRFT may issue further warnings, order us to rectify our violating activity and impose fines on us. In case of severe contravention as determined by SAPPRFT or its applicable local counterpart in its discretion, the applicable local counterpart of SAPPRFT may ban the violating operations, seize our equipment in connection with such operations and impose a penalty of one to two times the amount of the total investment in such operations. The banning of our paid mobile video services and video advertising services would materially and adversely affect our business and operating results.

Our lack of an Internet news license may expose us to administrative sanctions, including an order to cease our Internet information services or to cease the Internet access services provided by third parties to us. In 2017, approximately 92.6% of our total revenues were derived from Internet information services and services that relied on Internet access services from third parties.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

We are required to obtain an Internet news license from CAC for the dissemination of news through our PC websites, mobile applications and mobile websites. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Internet News Dissemination. Tianying Jiuzhou submitted an application to the CAC to apply for the Internet news license when the relevant regulation came into effect. However, as of the date of this annual report, the CAC has not issued an Internet news license to Tianying Jiuzhou. Based on the opinion of our PRC counsel, Zhong Lun Law Firm, as a result of Tianying Jiuzhou's lack of an Internet news license, the CAC or applicable cyberspace administrator at the provincial level may order us to cease our Internet information services or to cease the Internet access services provided by third parties to us and impose a fine on us of not more than RMB30,000. In 2017, approximately 92.6% of our total revenues were derived from Internet information services and services that relied on Internet access services from third parties; and therefore if we are ordered to cease such services, our business, financial condition and results of operation will be materially and adversely affected.

Table of Contents

Our business and operating results may be harmed by service disruptions, or by our failure to timely and effectively scale and adapt our existing technology and infrastructure.

The continual accessibility of our PC websites, mobile applications and mobile websites and the performance and reliability of our network infrastructure are critical to our reputation and our ability to attract and retain users, advertisers and partners. Any system failure or performance inadequacy that causes interruptions in the availability of our services or increases the response time of our services could reduce our appeal to users and consumers. Factors that could significantly disrupt our operations include system failures and outages caused by fire, floods, earthquakes, power loss, and telecommunications failures and similar events. Despite we have endeavored efforts to implement network security measures to our systems, it may also be vulnerable to computer viruses, break-ins and similar disruptions from unauthorized tampering, and security breaches related to the storage and transmission of proprietary information, such as personal information. If we were to suffer a sustained system failure or an extended decline in performance that interrupts or reduces speed of access to our services, our reputation may be harmed, we may fail to attract or retain users, advertisers and partners, and our business and operating results may be harmed as a result.

Security breaches or computer virus attacks could have a material adverse effect on our business prospects and operating results.

Any significant breach of security of our products could significantly harm our business, reputation and operating results. We have in the past experienced security breaches by third parties, including redirecting our user traffic to other websites, and we were able to rectify the security breaches without significant impact to our operations. However, we cannot assure you that our IT systems will be completely secure from future security breaches or computer virus attacks. Anyone who is able to circumvent our security measures could misappropriate proprietary information, including the personal information of our users. To cope with these circumventions, we have (i) organized a professional technical team in cyber security, who are experts in devising cyber security strategies, conducting security audits of operating source code, tracking and analyzing risks, and solving technology related troubles, (ii) communicated closely with several external security organizations, to acquire zero-day vulnerability information, (iii) purchased third-party security services, including vulnerability scanning services, and penetration and vulnerability testing every three years. Although we have already taken such measures, any circumvention of these security measures may still cause interruptions in our operations or damage our brand image and reputation, which could have a material adverse effect on our business prospects and operating results.

New technologies could block our advertisements, desktop clients and mobile applications and may enable technical measures that could limit our traffic growth and new monetization opportunities.

Technologies have been developed that can disable the display of our advertisements and that provide tools to users to opt out of our advertising products. Most of our revenues are derived from fees paid to us by advertisers in connection with the display of advertisements on webpages to our users. In addition, our traffic growth is significantly dependent on content viewing via mobile devices, such as smart phones and tablets. Technologies and tools for PCs and mobile devices, such as operating systems, Internet browsers, anti-virus software and other applications, as well as mobile application download stores could set up technical measures to direct away Internet traffic, require a fee for the download of our products or block our products all together, which could adversely affect our overall traffic and ability to monetize our services.

If we fail to maintain effective internal control over financial reporting, our ability to accurately and timely report our financial results in accordance with U.S. GAAP may be materially and adversely affected. In addition, investor confidence in us and the market price of our ADSs may decline significantly.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

We are subject to reporting obligations under U.S. securities laws. Among other things, the United States Securities and Exchange Commission, or the SEC, as required by Section 404 of the Sarbanes-Oxley Act of 2002, or Section 404, adopted rules requiring every public company, including us, to include a report from management on the effectiveness of its internal control over financial reporting in its annual report on Form 20-F starting in the annual report for its second fiscal year as a public company. In addition, beginning at the same time, an independent registered public accounting firm must attest to and report on the effectiveness of such public company's internal control over financial reporting. We were subject to these requirements for the first time with respect to our annual report on Form 20-F for the fiscal year ended December 31, 2012.

As of December 31, 2017, our management has concluded that our internal control over financial reporting is effective. See Item 15. Controls and Procedures Management's Annual Report on Internal Control over Financial Reporting. Our independent registered public accounting firm has issued an attestation report, which has concluded that our internal control over financial reporting is effective as of December 31, 2017.

Table of Contents

However, if we fail to maintain effective internal control over financial reporting in the future, our management and our independent registered public accounting firm may not be able to conclude that we have effective internal control over financial reporting at a reasonable assurance level. This could in turn result in the loss of investor confidence in the reliability of our financial statements and negatively impact the trading price of our ADSs. Furthermore, we have incurred and anticipate that we will continue to incur considerable costs, management time and other resources in an effort to maintain compliance with Section 404 and other requirements of the Sarbanes-Oxley Act.

We depend on China Mobile, a related party, and other PRC mobile telecommunications operators for the majority of our MVAS revenues, and any termination or deterioration of our relationship with these telecommunications operators may result in severe disruptions to our business operations and the loss of the majority of our MVAS revenues.

We derive majority of MVAS revenues, such as WVAS, mobile video, mobile newspaper, and mobile games from the provision of content or services through the networks of the PRC telecommunications operators. In particular, we rely primarily on the networks of China Mobile, a shareholder of Phoenix TV since August 2006 with an equity interest of 19.69% as of March 31, 2018 to deliver our services. In 2015, 2016 and 2017, we derived approximately 71.5%, 57.7% and 62.6% of our paid services revenues from China Mobile, respectively. Within these revenues, we generated a portion through fixed fee arrangements with China Mobile for our mobile newspaper services. The remainders of our MVAS revenues were derived from China United Telecommunications Corporation, or China Unicom, and China Telecommunications Corporation, or China Telecom.

We have entered into a series of agreements with China Mobile and other Chinese mobile operators and their provincial subsidiaries to provide MVAS through their networks. These mobile operators could terminate cooperation with us or refuse to perform their obligations to pay for the MVAS we provide under the terms of our agreements with them for a variety of reasons, including failure to meet specified performance standards, the provision of poor services that gives rise to a high level of customer complaints or the delivery of content that violates the relevant operator's policies and applicable law. In addition, our agreements with the mobile operators are generally for terms of one year or less. There is no assurance that we will be able to renew these agreements on commercially reasonable terms, or at all. If any of the Chinese mobile operators ceases to cooperate with us, it is unlikely that such operator's customers will continue to use our mobile services. In particular, if China Mobile ceases to cooperate with us, it is unlikely that we will be able to build up sufficient new customers through the networks of other Chinese mobile operators to develop a customer base comparable to that which we have developed through China Mobile. Due to our reliance on China Mobile and other Chinese mobile operators to deliver our MVAS to our customers, any termination or deterioration of our relationship with China Mobile or other Chinese mobile operators may result in severe disruptions to our business operations and the loss of the majority of our MVAS revenues, and could have a negative impact on our financial condition and operating results.

In addition, our negotiating leverage with China Mobile and other Chinese mobile operators is limited because China Mobile and other Chinese mobile operators operate the mobile networks through which a large number of service and content providers deliver their products to mobile phone users in China. We cannot assure you that such operators will not adopt business strategies that could have a material adverse effect on our business. In addition, our ability to develop certain new MVAS businesses going forward may be restricted by the business policies of China Mobile or other Chinese mobile operations. Due to our limited negotiating leverage with these mobile operators, we cannot exert any influence on their business decisions. Therefore, we cannot assure you that China Mobile or other Chinese mobile operators will not implement business strategies or policies that could have a negative impact on our results of operation and financial condition, or limit our ability to grow our MVAS businesses in the future.

Our efforts to develop additional distribution channels for our MVAS may not succeed or may be restricted or halted by telecommunications operators.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Cooperation with mobile service providers, which we refer to as our channel partners, and mobile device manufacturers has provided us with important distribution channels for our MVAS businesses. We sell a certain amount of our premium content and services through our channel partners' platforms. In addition, we pre-install into the menus of certain mobile devices certain of our MVAS icons and short codes for products offered on the multimedia messaging service, or MMS, short message service, or SMS, etc. A consumer who buys a new mobile device pre-installed with our MVAS icons and codes can access and subscribe to our services quickly and easily. Channel partners and mobile device manufacturers have, through our cooperation with them, become important distribution channels. However, we cannot assure you that we will continue to maintain a growing or stable number of suitable channel partners in the future. In addition, in recent years, China Mobile and other telecommunications operators have entered into cooperation agreements with mobile handset manufacturers similar to our agreements with mobile handset manufacturers. We cannot guarantee that mobile device manufacturers will continue their direct cooperation with us or maintain their current revenue sharing arrangements with us.

In addition, we cannot guarantee that MIIT or telecommunications operators will not restrict or halt our cooperation with handset manufacturers, or take other actions to limit or halt our use of mobile handsets as a distribution channel. Any such other actions could have a negative impact on our business and operating results.

Table of Contents

Our dependence on the billing systems and records of mobile operators may require us to estimate portions of our reported revenues and cost of revenues for most of our MVAS, which may require subsequent adjustments to our financial statements.

We depend largely on the billing systems and records of the telecommunications operators to record the volume of our MVAS provided, bill our customers, collect payments and remit to us our portion of the revenues. We record revenues based on monthly statements from the mobile operators confirming the value of our services that the mobile operators billed to customers during the month. Due to our past experience with the timing of receipt of the monthly statements from the mobile operators, we expect that we may need to rely on our own internal estimates for the portion of our reported revenues and cost of revenues for which we will not have received monthly statements. In such instances, our internal estimates would be based on our own internal data of expected revenues and related fees from services provided. As a result of such reliance on internal estimates, we may overstate or understate our revenues and cost of revenues for the relevant reporting period, and may be required to make adjustments in our financial reports when we actually receive the mobile operators' monthly statements for such period. We endeavor to reduce the discrepancy between our revenue estimates and the revenues calculated by the mobile operators and their subsidiaries; however, we cannot assure you that these efforts will be successful. In addition, we generally do not have the ability to independently verify or challenge the accuracy of the billing systems of the mobile operators. We cannot assure you that any negotiations between us and mobile operators to reconcile billing discrepancies would be resolved in our favor or that our financial condition and operating results would not be materially and adversely affected as a result. Historically, there has been no significant difference between our revenue estimates and the mobile operators' billing statements.

Significant changes in the policies or guidelines of China Mobile or other Chinese mobile operators with respect to services provided by us may result in lower revenues or additional costs for us and negatively impact our business operations, financial condition and operating results.

China Mobile or other Chinese mobile operators may from time to time issue policies or guidelines, requesting or stating their preferences for certain actions to be taken by all mobile Internet service providers using their networks. Due to our reliance on China Mobile and other Chinese mobile operators, a significant change in their policies or guidelines may cause our revenues to decrease or operating costs to increase. We cannot assure you that our financial condition and operating results will not be negatively impacted by policy or guideline changes by China Mobile or other Chinese mobile operators.

We cannot assure you that China Mobile or other Chinese mobile operators will not introduce additional requirements with respect to the procedures for ordering monthly subscriptions or single-transaction downloads of our MVAS, notifications to customers, the billing of customers or other consumer-protection measures or adopt other policies that may require significant changes in the way we promote and sell our MVAS, any of which could have a negative impact on our financial condition and operating results.

Our quarterly revenues and operating results may fluctuate, which makes our operating results difficult to predict and may cause our quarterly operating results to fall short of expectations.

Our quarterly revenues and operating results have fluctuated in the past and may continue to fluctuate depending upon a number of factors, many of which are out of our control. For these reasons, comparing our operating results on a period-to-period basis may not be meaningful, and you should not rely on our past results as an indication of our future performance. Our quarterly and annual revenues and costs and expenses as a percentage of our revenues may be significantly different from our historical or projected rates. Our operating results in future quarters may fall below expectations. Any of these events could cause the price of our ADSs to fall. Other factors that may affect our financial results include, among others:

- China macro-economic conditions;
- our ability to maintain and increase user traffic;
- our ability to attract and retain advertisers;
- changes in the policies of mobile operators;
- changes in government policies or regulations, or their enforcement; and
- geopolitical events or natural disasters such as war, threat of war, earthquake or epidemics.

Table of Contents

Our operating results tend to be seasonal. For instance, we may generate less revenue from brand advertising sales and paid services revenues during national holidays in China, in particular during the Chinese New Year holidays in the first quarter of each year. We may have higher net advertising revenues during the fourth quarter of each year primarily due to greater advertising spending by our advertisers near the end of the year when they spend the remaining portions of their annual budgets. In addition, advertising spending in China has historically been cyclical, reflecting overall economic conditions as well as the budgeting and buying patterns of our customers.

Failure to obtain SAPPRFT's approval for introducing and broadcasting foreign television programs could have a material adverse effect on our ability to conduct our business.

A substantial amount of the video content on our PC websites, mobile applications and mobile websites is closely linked to or is the online version of the TV content of Phoenix TV. PRC law requires approval from SAPPRFT for introducing and broadcasting foreign television programs into China. In September 2004, SARFT promulgated certain regulations of the *Administrative Regulations on the Introduction and Broadcasting of Foreign Television Programs*, pursuant to which only organizations designated by SAPPRFT are qualified to apply to SAPPRFT or its authorized entities for the introduction or broadcasting of foreign television programs. In addition, on July 6, 2004, SARFT issued the *Measures for the Administration of Publication of Audio-Visual Programs through the Internet or Other Information Networks*, or the 2004 A/V Measures, which explicitly prohibit Internet service providers from broadcasting any foreign television program over an information network and state that any violation may result in warnings, monetary penalties or, in severe cases, criminal liabilities. On November 19, 2009, SARFT issued a notice which extended this prohibition to broadcasting over mobile phones. In December 2007 and March 2009, however, SARFT issued two notices which provide that certain foreign audio-visual programs may be published through the Internet provided that certain regulatory requirements have been met and certain permits have been obtained, thereby implying that the absolute restriction against broadcasting foreign television programs on the Internet as set forth in the 2004 A/V Measures has been lifted. On April 25, 2016, SAPPRFT issued the *Administrative Provisions on Audio-Visual Program Services through Private Network and Targeted Communication*, the 2016 A/V Provisions, which replaced the 2004 Internet A/V Measures. The 2016 A/V Provisions does not explicitly specify whether broadcasting foreign television program is permitted. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Foreign Television Programs and Satellite Channels. As of the date of this annual report, we have not obtained an approval from SAPPRFT for introducing and broadcasting foreign TV programs produced by Phoenix TV or other foreign TV stations in China. We have made oral inquiries with SARFT, and were orally informed that such operations do not violate the regulations on the introduction and distribution of foreign TV programs. Therefore, there is considerable uncertainty as to whether we are permitted to transmit foreign television programs through the online video services that we offer. If SAPPRFT or its local branch requires us to obtain its approval for our introduction and online broadcasting of overseas TV programs, we may not be able to obtain such approval in a timely manner or at all. Based on the opinion of our PRC counsel, Zhong Lun Law Firm, in such case, the PRC government would have the power to, among other things, levy fines against us, confiscate our income, order us to cease certain content service, or require us to temporarily or permanently discontinue the affected portion of our business.

Failure to obtain certain permits for our health and Chinese medicine verticals would subject us to penalties.

Entities in China are not allowed to provide drug-related or medical care information services online before obtaining an Internet Medicine Information Service Qualification Certificate and a Consent Letter for Internet Medical Care Information from the relevant local government agencies. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Certain Internet Content. Certain of our verticals, such as our health and traditional Chinese medicine verticals contain drug-related information and certain online health diagnoses and treatment advices provided by our users. We do not currently have such certificate or consent letter, but have engaged an agency to assist us in applying for such certificate and consent letter. We are in the process of undertaking the necessary steps for preparing this application. We cannot assure you that we may be able to obtain the certificate and consent letter. Without them, we may be subject to administrative warnings, termination of any Internet drug-related services and online health diagnoses and treatment services on our PC websites, mobile applications and mobile websites, and other penalties that are not clearly provided for in the relevant regulations.

Table of Contents

If we fail to obtain or maintain all applicable permits and approvals, or fail to comply with PRC regulations, relating to online games, our ability to conduct our online game business and certain other businesses could be affected and we could be subject to penalties and other administrative sanctions.

Pursuant to PRC regulations regulating online games, online games (including mobile games) are categorized as a type of online cultural product and the provision of online games is deemed an Internet publication activity. Therefore, in order to operate an online game business, an operator should obtain an Online Culture Operating Permit from the MOC (with a business scope covering operation of online games) and a Network Publication Service License from SAPPRFT in order to directly make its online games publicly available in China. Furthermore, pursuant to the *Provisional Measures on the Administration of Online Games* promulgated by the MOC on June 3, 2010, an online mobile games operator should make a filing with the MOC in respect of each domestic game within 30 days of commencing operations. In addition, each online game must be screened by SAPPRFT by way of an approval process before it is first published and made publicly available. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Online Cultural Activities, Online Games and Internet Music.

As of the date of this annual report, Tianying Jiuzhou, Yifeng Lianhe and Huanyou Tianxia have obtained Online Culture Operating Permits from the MOC with respect to its operation of online games. Tianying Jiuzhou has obtained an Internet Publication License from SAPPRFT with respect to books and periodicals published on the Internet, including the mobile Internet, and online and mobile games. However, neither of Yifeng Lianhe and Huanyou Tianxia has obtained an Internet Publication License or a Network Publication Service License. In addition, we license almost all of our online and mobile games from other game operators and share profits with these game operators. We require these game operators to obtain the requisite approvals from SAPPRFT, and make the filings with the MOC, for relevant online and mobile games. As of the date of this annual report, we have not obtained advanced approval for some of our mobile games from SAPPRFT or completed filing with the MOC. We cannot assure you that (i) Yifeng Lianhe and Huanyou Tianxia can obtain a Network Publication Service License; or (ii) we or such game operators can obtain all the required approvals and complete the relevant filing procedures with the relevant government authorities for each game we operate in a timely manner or at all. If the relevant authority challenges the commercial operation of our games and determines that we are in violation of the relevant laws and regulations regarding online and mobile games, it would have the power to, among other things, levy fines against us, confiscate our income and require us to discontinue our online game business. In addition, if we were deemed to be in violation of the relevant laws and regulations regarding online and mobile games, SAPPRFT would have the ability to withdraw the Internet Publication License that it granted to Tianying Jiuzhou on April 15, 2011, which may affect, directly or indirectly, our ability to conduct our online digital reading services and game services.

In addition, the MOC and the Ministry of Commerce, or MOFCOM, jointly issued in 2009 the *Notice on Strengthening the Administration of Online Game Virtual Currency*, or the Virtual Currency Notice, which requires online game operators to report the total amount of their issued virtual currency on a quarterly basis, and game operators are prohibited from issuing disproportionate amounts of virtual currency in order to generate revenues. The Virtual Currency Notice also reiterates that virtual currency can only be provided to users in exchange for an RMB payment and can only be used to pay for virtual goods and services of the issuers. We provide extra free virtual currencies to game users as they buy virtual currencies, which is not in compliance with the Virtual Currency Notice. Therefore, we may be ordered to remedy such noncompliance within the timeframe specified by the MOC or MOFCOM. If we fail to remedy any noncompliance within the specified timeframe, the MOC and MOFCOM would have the power to, among other things, levy fines against us, confiscate our income and order us to cease certain services.

Furthermore, Tianying Jiuzhou is engaged in online performance through its live broadcasting vertical, FENG Live. As of the date of this annual report, Tianying Jiuzhou has been granted an Online Culture Operating Permit with a permitted business scope of the operation of online music, art and entertainment products, online game products (including virtual currencies for online games), art products, play performance, animation products and organization of exhibition or race of the online cultural products. However, the Online Culture Operating Permit of Tianying Jiuzhou currently does not cover the operation of online performance. We are in the process of applying for the expansion of the permitted business scope to cover online performance. If we fail to expand the permitted business scope in a timely manner, the MOC would have the power to, among other things, order us to make corrections within a prescribed period, confiscate our income from such business, levy fines

against us or even withdraw the Online Culture Operating Permit that it granted to Tianying Jiuzhou.

Our affiliated consolidated entities and their respective shareholders do not own all the trademarks used in their value-added telecommunications services, which may subject them to revocation of their licenses or other penalties or sanctions.

Pursuant to the *Notice on Strengthening the Administration of Foreign Investment in Value-added Telecommunications Services* issued on July 13, 2006 by MIIT, or the MIIT 2006 Notice, domestic telecommunications service providers are prohibited from leasing, transferring or selling telecommunications business operating licenses to any foreign investors in any form, or providing any resources, sites or facilities to any foreign investors for their operation of telecommunications businesses in China. According to the MIIT 2006 Notice, the holder of a value-added telecommunications business operating license, or ICP License, or its shareholders must directly own the domain names and trademarks used in their value-added telecommunications business operations. After the promulgation of the MIIT 2006 Notice in July 2006, the MIIT issued a subsequent notice in October 2006, or the MIIT October Notice, urging value-added telecommunication service operators to conduct self-examination regarding any noncompliance with the MIIT 2006 Notice prior to November 1, 2006. Pursuant to the MIIT October Notice, ICP License-holders who were not in compliance with the MIIT 2006 Notice were allowed to submit a self-correction report to the local provincial-level branch of MIIT by November 20, 2006.

Table of Contents

Tianying Jiuzhou and Yifeng Lianhe are currently engaged in the provision of value-added telecommunications services and each of them has obtained ICP Licenses from MIIT or its local counterpart in Beijing. In addition, Tianying Jiuzhou owns our material domain names, including ifeng.com, and, as of March 31, 2018, owned six registered trademarks that were transferred to it from Phoenix Satellite Television Trademark Limited. Yifeng Lianhe owned 20 registered trademarks, and Tianying Jiuzhou and Yifeng Lianhe continue to use certain of Phoenix TV's logos that are licensed from Phoenix Satellite Television Trademark Limited, a wholly owned subsidiary of Phoenix TV, in their value-added telecommunications services. Therefore, we are not currently in compliance with the MIIT 2006 Notice.

We have designed propriety logos for use in the respective businesses of Tianying Jiuzhou and Yifeng Lianhe. As of March 31, 2018, Tianying Jiuzhou owned 189 PRC registered trademarks, six of which were transferred from Phoenix Satellite Trademark Limited, and Yifeng Lianhe owned 20 PRC registered trademarks. In addition, Tianying Jiuzhou had submitted 293 registration applications relating to 57 logo designs to the PRC Trademark Office. Despite our having registered many trademarks used in our value-added telecommunications business operations, we may continue to use certain of Phoenix TV's logos that are licensed from Phoenix Satellite Television Trademark Limited.

Although neither of our affiliated consolidated entities has been required by the MIIT or its local counterpart to obtain and hold the ownership of the relevant trademarks related to our value-added telecommunications services to date, the provincial-level counterpart of MIIT may enforce the MIIT 2006 Notice on our affiliated consolidated entities. In such case, the provincial-level counterpart of MIIT could order our affiliated consolidated entities to own the registered trademarks used in their value-added telecommunications business within a specified period of time. We do not have knowledge about the period of time that MIIT would provide us to complete the necessary remediation measures. We are also not aware that since issuing the MIIT October Notice, MIIT has promulgated any additional notices or guidelines with respect to timelines for self-examination or remediation of noncompliance with the MIIT 2006 Notice. Moreover, the MIIT October Notice does not specify how much time the MIIT allows for ICP License-holders to remedy their noncompliance issues. If we fail to remedy any noncompliance within the time frame specified by the provincial counterpart of MIIT, the relevant governmental authority would have the discretion to revoke our affiliated consolidated entities' licenses for value-added telecommunications or subject them to other penalties or sanctions, which would have a material and adverse effect on our business, financial condition, operating results and prospects.

We may be adversely affected by the complexity, uncertainties and changes in PRC regulation of Internet businesses and companies, including limitations on our ability to own key assets, such as our PC websites, mobile applications and mobile websites.

The Chinese government heavily regulates the Internet industry, including foreign investment in the Chinese Internet industry, content on the Internet and license and permit requirements for service providers in the Internet industry. Since some of the laws, regulations and legal requirements with respect to the Internet are relatively new and evolving, their interpretation and enforcement involve significant uncertainties. In addition, the Chinese legal system is based on written statutes and so that prior court decisions can only be cited for reference and have little precedential value. As a result, in many cases it is difficult to determine what actions or omissions may result in liabilities. Issues, risks and uncertainties relating to China's government regulation of the Chinese Internet sector include the following:

- We operate our PC websites, mobile applications and mobile websites in China through contractual arrangements due to restrictions on foreign investment in businesses providing value-added telecommunication services, including substantially all of our paid services and advertising services.
- Uncertainties relating to the regulation of the Internet business in China, including evolving licensing practices, give rise to the risk that some of our permits, licenses or operations may be subject to challenge, which may

be disruptive to our business, subject us to sanctions or require us to increase capital, compromise the enforceability of relevant contractual arrangements, or have other adverse effects on us. The numerous and often vague restrictions on acceptable content in China subject us to potential civil and criminal liability, temporary blockage of our PC websites, mobile applications and mobile websites or complete shut-down of the above-mentioned sites. For example, the State Secrecy Bureau, which is directly responsible for the protection of state secrets of all Chinese government and Chinese Communist Party organizations, is authorized to block any websites or mobile applications it deems to be leaking state secrets or failing to meet the relevant regulations relating to the protection of state secrets in the distribution of online information. In addition, the newly amended Law on Preservation of State Secrets which became effective on October 1, 2010 provides that whenever an Internet service provider detects any leakage of state secrets in the distribution of online information, it should stop the distribution of such information and report to the authorities of state security and public security. As per request of the authorities of state security, public security or state secrecy, the Internet service provider should delete any contents on its websites or mobile applications that may lead to disclosure of state secrets. Failure to do so on a timely and adequate basis may subject the service provider to liability and certain penalties imposed by the State Security Bureau, Ministry of Public Security and/or MIIT or their respective local counterparts.

Table of Contents

- Under the Cyber Security Law of the People's Republic of China, or Cyber Security Law, which became effective on June 1, 2017, when network operators, such as us, provide users with information publication services, instant messaging services and other services, they shall require users to provide real identity information at the time of signing agreements with users or confirming the provision of services. Where users do not provide real identity information, network operators shall not provide them with relevant services. If network operators fail to comply with these requirements, relevant competent authorities may order the operators to rectify, and if they fail to rectify or if the circumstances are serious, a fine may be imposed, and the relevant competent authorities may order the operators to suspend operation, close down the website, and revoke their relevant business permits and licenses; and a fine of no less than RMB10,000 but no more than RMB100,000 may be imposed on the persons directly in charge and other directly responsible persons.
- On September 28, 2009, the General Administration of Press and Publication (the predecessor of SAPPRFT), or GAPP and the National Office of Combating Pornography and Illegal Publications jointly published a circular expressly prohibiting foreign investors from participating in Internet game operating business via wholly owned, equity joint venture or cooperative joint venture investments in China, and from controlling and participating in such businesses directly or indirectly through contractual or technical support arrangements. On February 4, 2016, the SAPPRFT and the MIIT jointly issued the Administrative Measures on Network Publication, which took effect in March 10, 2016 and prohibit wholly foreign-owned enterprises, Sino-foreign equity joint ventures and Sino-foreign cooperative enterprises from engaging in the provision of web publishing services. In addition, project cooperation between an Internet publishing service provider and a wholly foreign-owned enterprise, Sino-foreign equity joint venture, or Sino-foreign cooperative enterprise within China or an overseas organization or individual involving Internet publishing services shall be subject to examination and approval by the SAPPRFT in advance.

Due to the increasing popularity and use of the Internet and other online services, it is possible that a number of laws and regulations may be adopted with respect to the Internet or other online services covering issues such as user privacy, pricing, content, copyrights, distribution, antitrust and characteristics and quality of products and services. The adoption of additional laws or regulations may impede the growth of the Internet or other online services, which could, in turn, decrease the demand for our products and services and increase our cost of doing business. Moreover, the applicability to the Internet and other online services of existing laws in various jurisdictions governing issues such as property ownership, sales and other taxes, libel and personal privacy is uncertain and may take years to resolve. Any new legislation or regulation, the application of laws and regulations from jurisdictions whose laws do not currently apply to our business, or the application of existing laws and regulations to the Internet and other online services could significantly disrupt our operations or subject us to penalties.

The interpretation and application of existing PRC laws, regulations and policies, the stated positions of relevant PRC government authorities and possible new laws, regulations or policies have created substantial uncertainties regarding the legality of existing and future foreign investments in, and the businesses and activities of, Internet businesses in China, including our business.

The Chinese government may prevent us from advertising or distributing content, including UGC, that it believes is inappropriate and we may be subject to penalties for such content or we may have to interrupt or stop the operation of our PC websites, mobile applications and mobile websites.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

China has enacted regulations governing Internet access and the distribution of news and other information. In the past, the Chinese government has stopped the distribution of information over the Internet or through mobile Internet devices that it believes violates Chinese law, including content that it believes is obscene or defamatory, incites violence, endangers the national security, or contravenes the national interest. In addition, certain news items, such as news relating to national security, may not be published without permission from the Chinese government. If the Chinese government were to take any action to limit or prohibit the distribution of information through our PC websites, mobile applications and mobile websites, or through our services, or to limit or regulate any current or future content or services available to users on our network, our business could be significantly harmed.

In addition to professionally produced content, content from Phoenix TV and our in-house produced content, we allow our users to upload text and images (UGC) to our PC websites, mobile applications and mobile websites. We have a content screening team of 13 full-time editors and more than 100 outsourced staff members who are responsible for monitoring and preventing the public release of inappropriate or illegal content, including UGC, on our PC websites, mobile applications and mobile websites or through our services. Although we have adopted internal procedures to monitor the content displayed on our PC websites, mobile applications and mobile websites, due to the significant amount of UGC uploaded by our users, we may not be able to identify all the UGC that may violate relevant laws and regulations. Failure to identify and prevent inappropriate or illegal content from being displayed on our PC websites, mobile applications and mobile websites may subject us to liability.

Table of Contents

Moreover, because the definition and interpretation of prohibited content is in many cases vague and subjective, it is not always possible to determine or predict what content might be prohibited under existing restrictions or restrictions that might be imposed in the future. For example, in 2005, SARFT issued a notice prohibiting commercials for WVAS related to fortune-telling from airing on radio and television stations effective in February 2005. SAPPRFT or other Chinese government authorities may prohibit the marketing of other MVAS via a channel we depend on to generate revenues, which could have a material adverse effect on our business, operating results or financial position.

Content provided on our PC websites, mobile applications and mobile websites may expose us to libel or other legal claims which may result in costly legal damages.

Claims have been threatened and filed against alleging for libel, defamation, invasion of privacy and other matters based on the nature and content of the materials posted on our PC websites, mobile applications and mobile websites. While we screen our content for such potential liability, there is no assurance that our screening process will identify all potential liability, especially liability arising from UGC and content we license from third parties. In the past, some of the claims brought against us have resulted in liability. Although to date none of such claims resulting material loss, we cannot assure you we will not be subject to future claims that could be costly, encourage similar lawsuits, distract our management team or harm our reputation and possibly our business. For more information, see Item 4. Information on the Company B. Business Overview Legal and Administrative Proceedings.

Advertisements on our PC websites, mobile applications and mobile websites may subject us to penalties and other administrative actions.

Under PRC advertising laws and regulations, we are obligated to monitor the advertising content shown on our PC websites, mobile applications and mobile websites to ensure that such content is true, accurate and in full compliance with applicable laws and regulations. In addition, where a special government review is required for specific types of advertisements prior to websites or mobile application posting, such as advertisements relating to medical treatment, pharmaceuticals, medical instruments, agrochemicals, veterinary pharmaceuticals and health food, we are obligated to confirm that such review has been performed and approval has been obtained from relevant governmental authorities, which include the local branch of the SAIC, the local branch of the State Food and Drug Administration, the local branch of the Ministry of Health and the local branch of the State Administration of Traditional Chinese Medicine. On April 24, 2015, the Standing Committee of the National People's Congress issued the Advertisement Law, which took effect on September 1, 2015, to further strengthen the supervision and management of advertisement services. In addition, on July 4, 2016, SAIC issued the *Interim Measures for the Administration of Internet Advertising*, the New Interim Measures, to further regulate Internet advertising activities. Pursuant to these laws and regulations, any advertisement that contains false or misleading information to deceive or mislead consumers shall be deemed false advertising. Furthermore, the Advertisement Law explicitly stipulates detailed requirements for the content of several different kinds of advertisement, including advertisements for medical treatment, pharmaceuticals, medical instruments, health food, alcoholic drinks, education or training, products or services having an expected return on investment, real estate, pesticides, feed and feed additives, and some other agriculture-related advertisement. Also, according to the New Interim Measures, no advertisement of such special commodities or services which are subject to examination by an advertising examination authority shall be published unless it has passed such examination. In addition, an Internet advertisement shall be identifiable and clearly identified as an advertisement so that consumers will know that it is an advertisement. Paid search advertisements shall be clearly distinguished from natural search results. We may be subject to enhanced supervision and more serious penalties in case of a violation (if any) pursuant to such new Advertisement Law and the New Interim Measures. To fulfill these monitoring functions, we include clauses in most of our advertising contracts requiring that all advertising content provided by advertisers must comply with relevant laws and regulations. Pursuant to the contracts between us and advertising agencies, advertising agencies are liable for all damages to us caused by their breach of such representations. Before a sale is confirmed and the advertisement is publicly posted on our PC websites or mobile applications and mobile websites, our account execution personnel, who comprise a separate back-office team, are required to review all advertising materials to ensure there is no racial, violent, pornographic or any other improper content, and will request the advertiser to provide proof of governmental approval if the advertisement is subject to special government review. Violation of these laws and regulations may subject us to penalties, including fines, confiscation of our advertising income, orders to cease dissemination of the advertisements and orders to eliminate the effect of illegal advertisement. PRC governmental authorities may even force us to terminate our advertising operation or revoke our licenses in circumstances involving serious violations.

Table of Contents

A majority of the advertisements shown on our PC websites, mobile applications and mobile websites are provided to us by third-party advertising agencies on behalf of advertisers. We cannot assure you that all of the content contained in such advertisements is true and accurate as required by the advertising laws and regulations. For example, the *Advertisement Law* provides that an advertisement operator who posts false or fraudulent advertisements related to the life and health of the consumers, or who knows or should have known other kind of posted advertisement is false or fraudulent will be subject to joint and several liabilities. Under the *Detailed Implementation Rules on the Administrative Regulations for Advertisement*, PC websites or mobile applications and mobile websites must not post any advertisements that are untrue or lacking the requisite governmental approval if such type of advertisements are subject to special governmental review. The New Interim Measures provides that Internet advertisement publishers shall verify related supporting documents, check the contents of the advertisement and be prohibited from publishing any advertisement with nonconforming contents or without all the necessary certification documents. However, for the determination of the truth and accuracy of the advertisements, there are no implementing rules or official interpretations, and such a determination is at the sole discretion of the relevant local branch of the SAIC, which results in uncertainty in the application of these laws and regulations. If we are found to be in violation of applicable PRC advertising laws and regulations in the future, we may be subject to penalties and our reputation may be harmed, which may have a material and adverse effect on our business, financial condition, operating results and prospects.

In addition, online information distributors and related service providers, as well as marketplace platform operators, are required to conduct businesses in full compliance with the Anti-unfair Competition Law in China, and may not unfairly compete with others or cause disruption to social and economic orders, including but not limited to carrying out any false or misleading commercial promotions, inserting a link into an online product or service legally provided by another business operator to compel a destination jump without the approval of such business operator. In November 2017, the Anti-unfair Competition Law of the PRC was amended, which further emphasized that a business operator that engage in production and business activities utilizing the information network shall abide by all the provisions of the Anti-unfair Competition Law, and may not engage in any false or misleading publicity for its products or services. Violation of these provisions may subject the relevant business operators to various penalties, including an order from the competent governmental authorities to cease its illegal acts and fines, or in case of a severe violation, revocation of business licenses.

Ineffective implementation of the separation of our advertising sales and regulatory compliance functions may result in insufficient supervision over the content of advertisements shown on our PC websites, mobile applications and mobile websites and may subject us to penalties or administrative actions.

We keep our advertising sales function separate from our team that is in charge of government compliance in order to prevent potential conflicts between our advertising business and our compliance with relevant PRC advertising laws and regulations. Before a sale is confirmed and the relevant advertisements are publicly posted on our PC websites, mobile applications and mobile websites, our account execution personnel, who comprise a separate back-office team that does not interface directly with advertisers, are required to review all advertising materials to ensure that the relevant advertisements do not contain any racial, violent, pornographic or any other improper content. These personnel will request an advertiser to provide proof of governmental approval if its advertisement is subject to special governmental review. Such procedures are designed to enhance our regulatory compliance efforts. However, in the event that the separation of advertising sales and regulatory compliance functions is not effectively implemented, the content of our advertisements may not be in full compliance with applicable laws and regulations. If we are found to be in violation of applicable laws and regulations in the future, we may be subject to penalties and our reputation may be harmed. This may have a material and adverse effect on our business, financial condition and operating results.

We prioritize product innovation and user experience over short-term operating results, which may harm our revenue and operating results.

We encourage employees to quickly develop and help us launch new and innovative features. We focus on improving the user experience for our products and services and on developing new and improved products and services for the advertisers on our platforms. We frequently make

product and service decisions that may negatively impact our short-term operating results if we believe that the decisions are consistent with our goals to improve user experience and performance for advertisers, which we believe will improve our operating results over the long term. These decisions may not be consistent with the short-term expectations of investors and may not produce the long-term benefits that we expect, in which case our user growth and user engagement, our relationships with advertisers and our business and operating results could be harmed. In addition, our focus on user experience may negatively impact our relationships with our existing or prospective customers. This could result in a loss of customers and platforms partners, which could harm our revenue and operating results.

Table of Contents

The continuing and collaborative efforts of our senior management, key employees and other employees are crucial to our success, and our business may be harmed if we were to lose their services.

Our success depends on the continuous efforts and services of Mr. Shuang Liu, our director and Chief Executive Officer, Ms. Betty Yip Ho, our director and Chief Financial Officer and Ms. Xiaoyan Chi, our Senior Vice President. If, however, one or more of our executives or other key personnel are unable or unwilling to continue to provide services to us, we may not be able to find suitable replacements easily or at all. Competition for management and key personnel is intense and the pool of qualified candidates is limited. We may not be able to retain the services of our executives or key personnel, or attract and retain experienced executives or key personnel in the future. We do not maintain key-man life insurance for any of our key personnel. If any of our executive officers or key employees joins a competitor or forms a competing company, we may lose advertisers, know-how and key professionals and staff members. Each of our executive officers and key employees has entered into an employment agreement and a non-compete agreement with us. However, if any dispute arises between us and our executives or key employees, these agreements may not be enforceable in China, where these executives and key employees reside, in light of uncertainties with China's legal system. See Risks Relating to Doing Business in China Uncertainties with respect to the PRC legal system could limit the protections available to you and us.

Our future success will also depend on our ability to attract and retain highly skilled technical, managerial, editorial, finance, marketing, sales and customer service employees. Qualified individuals are in high demand, and we may not be able to successfully attract, assimilate or retain the personnel we need to succeed.

We have granted, and may continue to grant, stock options, restricted shares and restricted share units under our share incentive plans or adopt new share incentive plans in the future, which may result in increased share-based compensation.

We adopted a share option plan in June 2008 and a restricted share and restricted share unit plan in March 2011. As of March 31, 2018, 3,901,246 contingently issuable shares and options to purchase 36,516,603 Class A ordinary shares were outstanding. We implemented an option exchange program in 2016 whereby our directors, employees and consultants exchanged options to purchase 21,011,951 Class A ordinary shares with various exercise prices greater than US\$0.4823 per share for new options with a new exercise price of US\$0.4823 per share and a new vesting schedule. See Item 6. Directors, Senior Management and Employees B. Compensation of Directors, Supervisors and Executive Directors Share Incentive Plans. For the years ended December 31, 2015, 2016 and 2017, we recorded RMB34.4 million, RMB1.9 million and RMB20.9 million (US\$3.2 million), respectively, in share-based compensation. We believe the granting of share-based awards is of significant importance to our ability to attract and retain key personnel and employees, and we will continue to grant stock options to employees in the future. We intend to grant additional stock options to our employees going forward, and we may implement additional option exchange program in the future, which we expect will further increase our share-based compensation. If we continue to grant share options in the future, our share-based compensation will increase accordingly.

We have been and expect we will continue to be exposed to intellectual property infringement and other claims, including claims based on content posted on our PC websites, mobile applications and mobile websites, which could be time-consuming and costly to defend and may result in substantial damage awards and/or court orders that may prevent us from continuing to provide certain of our existing services.

Our success depends, in large part, on our ability to operate our business without infringing third-party rights, including third-party intellectual property rights. Companies in the Internet, technology and media industries own, and are seeking to obtain, a large number of patents, copyrights, trademarks and trade secrets, and they are frequently involved in litigation based on allegations of infringement or other violations of intellectual property rights or other related legal rights. There may be patents issued or pending that are held by others that cover significant

aspects of our technologies, products, business methods or services. We license our premium licensed content from third parties. We also derive profits from online and mobile games that are based on intellectual property licensed to us by third parties. Although our license agreements with our licensors generally require that the licensors have the legal right to license such content to us and give us the right to promptly remove any content that we have been notified contains infringing material, we cannot ensure that each licensor has such authorization and we may not receive notification of infringement. If any purported licensor does not actually have sufficient authorization relating to the premium licensed content or right to license a work of authorship provided to us, we may be subject to claims of copyright infringement from third parties and penalties imposed by competent government authorities, and we cannot ensure we can be fully indemnified by the relevant licensor for all losses we may incur from such claims.

Table of Contents

In order to strengthen the protection of intellectual property right, Chinese government and courts are improving the judicial system for resolving intellectual property disputes in China. As intellectual property litigation is becoming more common in China, we face increased risk of being sued for potential intellectual property infringements. Third parties may take action and file claims against us if they believe that certain content on our site violates their copyrights or other related legal rights. We have been subject to such claims in the PRC. From January 1, 2017 to March 31, 2018, we have been subject to 95 cases in the PRC, 67 of which have been concluded. The aggregate amount of damages awards and settlements paid by us under these cases was RMB5.5 million. Government authorities may also impose administrative penalties on us if they find that we have infringed third parties' intellectual property rights. In October 2015, the National Copyright Bureau imposed a fine of RMB250,000 on one of our consolidated affiliated entities for disseminating on our PC websites, mobile applications and mobile websites one work of literature that we licensed from third parties that were alleged to have no legal rights to license such work. In November 2016, China Youth Book Inc. and Dewey Press LLC filed a claim against Tianying Jiuzhou and our company for intellectual property infringement of such work, the related claim for damage was approximately RMB235.8 million, however, the actual income we generated from such work was less than RMB1,500. This claim was withdrawn by the plaintiffs in January 2018. In April 2018, we received notices from the local court that the plaintiffs have filed a lawsuit against us again for the same claim, with the related claim for damages reduced to approximately RMB99.8 million. As of the date of this annual report, this case is still pending. In 2017, we also received some complaints and claims from third parties alleging intellectual property infringements by us, although some of the complainants have not provided necessary proofs of title or infringements. While we are negotiating with these complainants and some of these claims are still pending as of the date of this annual report, we cannot assure you that we will not be proved to have infringed their intellectual property rights or be required to pay any compensation. As litigation is subject to inherent uncertainties and this case is at its preliminary stage, and based on the legal advice, we are currently unable to make an estimation of the reasonably possible loss or range of possible loss, if any. However, our view of these matters may change in the future and will review the need for any such liability on a regular basis. For more information, see Item 4. Information on the Company B. Business Overview Legal and Administrative Proceedings.

In addition, our platforms are open to Internet users for uploading text and images and our we-media vertical obtained content produced by over 550,000 we-media publishers as of the end of 2017, such as we-media outlets, public intellectual, commentators, scholars, KOLS and professors. As a result, content posted by our users, including we-media publishers and other Internet users, may expose us to allegations by third parties of infringement of intellectual property rights, invasion of privacy, defamation and other violations of third-party rights. Pursuant to our user agreement, users agree not to use our services in a way that is illegal, obscene or may otherwise violate generally accepted codes of ethics. However, given the volume of content uploaded it is not possible, and we do not attempt to identify and remove all potentially infringing content uploaded or published by our users, which may subject us to various claims by third parties.

Moreover, as we continue to hire additional personnel to expand our product development teams, we may be subject to allegations and claims that some of our new employees may have disclosed trade secrets or other proprietary information of their former employers to us, especially when such employees were previously employed by our competitors or companies with similar businesses as ours. Any such allegation or claim, even if unfounded, could have a negative impact on our reputation, and our financial condition and operating results may suffer as a result.

We cannot assure you that we have not become subject to copyright laws in other jurisdictions, such as the United States, by virtue of our listing in the United States, the ability of users to access our videos in the United States and other jurisdictions, the ownership of our ADSs by investors, the extraterritorial application of foreign law by foreign courts or otherwise. Although we have not previously been subject to legal actions for copyright infringement in jurisdictions other than China, it is possible that we may be subject to such claims in the future. Any such claims in China, U.S., or elsewhere, regardless of their merit, could be time-consuming and costly to defend, and may result in litigation and

divert management's attention and resources. Furthermore, an adverse determination in any such litigation or proceedings to which we may become a party in China, U.S. or elsewhere could cause us to pay substantial damages. For example, statutory damage awards in the U.S. can range from US\$750 to US\$30,000 per infringement, and if the infringement is found to be intentional, can be as high as US\$150,000 per infringement. Additionally, the risk of an adverse determination in such litigation or an actual adverse determination may result in harm to our reputation or in adverse publicity. The risk of an adverse result or the actual adverse result in litigation may also require us to seek licenses from third parties, pay ongoing royalties or become subject to injunctions requiring us to remove content or take other steps to prevent infringement, each of which could prevent us from pursuing some or all of our business and result in our users and advertisers or potential users and advertising customers deferring or limiting their use of our services, which could materially adversely affect our financial condition and operating results.

Table of Contents

We may not be able to adequately protect our intellectual property, which could cause us to be less competitive.

We rely on a combination of copyright, trademark and trade secret laws and restrictions on disclosure to protect our intellectual property rights. Despite our efforts to protect our proprietary rights, unauthorized parties may attempt to copy or otherwise obtain and use our copyrighted content and other intellectual property. Monitoring such unauthorized use is difficult and costly, and we cannot be certain that the steps we have taken will prevent misappropriation. From time to time, we may have to resort to litigation to enforce our intellectual property rights, which could result in substantial costs and diversion of our resources. The PRC is increasing the protection to a company's intellectual property, but has historically afforded less protection than the United States and the Cayman Islands, and therefore companies such as ours operating in the PRC face an increased risk of intellectual property piracy.

The discontinuation of any of the preferential tax treatments available to us in China could materially and adversely affect our operating results and financial condition.

Under PRC tax laws and regulations, our PRC subsidiary, Beijing Fenghuang Yutian Software Technology Co., Ltd., or Fenghuang Yutian, Beijing Fenghuang Borui Software Technology Co., Ltd., or Fenghuang Borui, Fenghuang On-line and Tianying Jiuzhou enjoyed, or are qualified to enjoy, certain preferential income tax benefits. The PRC *Corporate Income Taxes Law* (*CIT Law*), effective on January 1, 2008, and further amended on February 24, 2017, and its implementation rules significantly curtail tax incentives granted to foreign-invested enterprises. The CIT Law generally applies an income tax rate of 25% to all enterprises, but grants preferential tax treatment to High and New Technology Enterprises (HNTes) and Software Enterprises. Under these preferential tax treatments, HNTes are entitled to an income tax rate of 15%, subject to a requirement that they re-apply for HNTe status every three years and Software Enterprises are entitled to an income tax exemption for two years beginning from its first profitable year and a 50% reduction to a rate of 12.5% for the subsequent three years.

Fenghuang On-line had been qualified as an HNTe in November 2014 and August 2017, respectively, and was entitled to a preferential tax rate of 15%. Therefore, Fenghuang On-line was subject to a 15% income tax rate for the years from 2015 to 2017 and would be subject to a 15% income tax rate from 2018 to 2019. Tianying Jiuzhou resubmitted applications for qualification and was approved as an HNTe in 2014 and 2017, respectively, and therefore, Tianying Jiuzhou was subject to a 15% income tax rate from 2015 to 2017 and would be subject to a 15% income tax rate from 2018 to 2019. In 2012, Fenghuang Yutian was qualified as a Software Enterprise. As 2013 was the first year Fenghuang Yutian generated taxable profit, it was exempted from income taxes for the years 2013 and 2014, and was subject to a 12.5% income tax rate from 2015 to 2017. In 2017, Fenghuang Yutian had been qualified as an HNTe, and therefore, Fenghuang Yutian would be subject to a 15% income tax rate from 2018 to 2019. In 2016, Fenghuang Borui was qualified as a Software Enterprise. As 2016 was the first year Fenghuang Borui generated taxable profit, it was exempted from income taxes for the years 2016 and 2017, and would be subject to a 12.5% income tax rate from 2018 to 2020.

See Item 10. Additional Information E. Taxation.

We have limited business insurance coverage.

The insurance industry in China is still young and the business insurance products offered in China are limited. We do not have any business liability or disruption insurance coverage for our operations. Any business disruption, litigation or natural disaster may cause us to incur

substantial costs and divert our resources.

A prolonged slowdown in the global or PRC economies may materially and adversely affect our operating results, financial condition, prospects and future expansion plans.

The global financial markets experienced opportunities and challenges side by side in 2017. Since United Kingdom has voted for the exit of Europe Union, the global economies have been impacted extensively. For the United States of America aspect, the U.S Tax Reform Bill was finally signed by the U.S President in December 2017. In addition, China has launched the One Belt, One Road Strategy, which has brought new economic growth engine worldwide. All these events and other international affairs may have influence on the macroeconomic conditions.

Economic conditions in the PRC are sensitive to macroeconomic conditions. In part due to lower export demand resulting from slow economic recoveries in the United States and Europe and a weak economic environment in Japan, China's GDP growth decelerated since 2012. China's year-over-year GDP growth rate in 2017, 6.9%, remained stable as compared to 6.7% in 2016 and 6.9% in 2015. In addition, there is uncertainty regarding the scale and the effects of a real estate bubble alleged by some to have reached a critical stage in the PRC. Since demand for our paid and advertising services are sensitive to macro-economic conditions globally and in the PRC, our business prospects may be affected by the macroeconomic environment. Any prolonged slowdown in the global or PRC economy may have a material adverse effect on our business, operating results and financial condition, and continued turbulence in the international markets may materially and adversely affect our ability to access the capital markets to meet liquidity needs.

Table of Contents

PRC regulations establish complex procedures for certain acquisitions of PRC companies by foreign investors, which could make it more difficult for us to pursue growth through acquisitions in China.

On August 8, 2006, six PRC regulatory authorities, including the CSRC, jointly promulgated the *Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors*, or the 2006 M&A Rules, which were later amended on June 22, 2009. The 2006 M&A Rules establish procedures and requirements that could make some acquisitions of PRC companies by foreign investors more time-consuming and complex, including requirements in some instances that MOFCOM be notified in advance of any change-of-control transaction in which a foreign investor takes control of a PRC domestic enterprise. In addition, national security review rules issued by the PRC governmental authorities in 2011 require acquisitions by foreign investors of domestic companies engaged in military related or certain other industries that are crucial to national security to be subject to prior security review. According to the MOFCOM Security Review Rules, a security review is required for mergers and acquisitions of PRC domestic enterprises by foreign investors (i) having national defense and security concerns, and (ii) where the foreign investors may acquire the de facto control of the PRC domestic enterprises having national security concerns such as key farm products, key energy and resources, and key infrastructure, transportation, technology and major equipment manufacturing industries. Circular No. 6, however, does not define the term of key or major, nor has it exhausted all the industries that may be deemed as sensitive industries subject to the security review.

We may expand our business in part by acquiring complementary businesses. Complying with the requirements of the 2006 M&A Rules, the MOFCOM Security Review Rules, if applicable, and other PRC regulations to complete such transactions could be time-consuming, and any required approval processes, including obtaining approval from MOFCOM, may delay or inhibit our ability to complete such transactions, which could affect our ability to expand our business or maintain our market share. However, it is also uncertain whether the 2006 M&A Rules, the MOFCOM Security Review Rules or the other PRC regulations regarding the acquisitions of PRC companies by foreign investors will be materially repealed or amended should MOFCOM's proposed *Foreign Investment Law*, or the Draft FIL, become effective in the future. Any adverse change in rules or regulations may have a material adverse effect on our business and operating results.

There is a substantial risk we will be classified as a passive foreign investment company, or PFIC, for 2017, which could result in adverse United States federal income tax consequences to United States Holders (as defined below).

Based upon the composition of our income, assets, including goodwill, and valuation of our assets, we believe there is a substantial risk that we will be classified as a passive foreign investment company, or PFIC, for 2017. The determination of whether or not we are a PFIC is made on an annual basis and will depend on the composition of our income and assets from time to time. Specifically, we will be classified as a PFIC for United States federal income tax purposes for any taxable year in which: (i) at least 75% of our gross income in a taxable year is passive income, or (ii) at least 50% of the value (determined based on a quarterly average) of our assets is attributable to assets that produce or are held for the production of passive income. The calculation of the value of our assets will be based, in part, on the quarterly market value of our ADSs, which is subject to change. See Item 10. Additional Information E. Taxation Material United States Federal Income Tax Consequences Passive Foreign Investment Company.

In addition, there are substantial uncertainties as to the treatment of our corporate structure and ownership of our affiliated consolidated entities for United States federal income tax purposes. If it is determined that we do not own the stock of our affiliated consolidated entities for United States federal income tax purposes (for instance, because the relevant PRC authorities do not respect these arrangements), we are more likely to be treated as a PFIC.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Such characterization as a PFIC could result in adverse United States federal income tax consequences to you if you are a United States Holder, as defined under Taxation Material United States Federal Income Tax Consequences. For example, you may become subject to increased tax liabilities under United States federal income tax laws and regulations, and will become subject to burdensome reporting requirements.

If we are a PFIC for any year during which a United States Holder holds our ADSs or ordinary shares, we generally will continue to be treated as a PFIC for all succeeding years during which such United States Holder holds our ADSs or ordinary shares. See Item 10. Additional Information

E. Taxation Material United States Federal Income Tax Consequences Passive Foreign Investment Company. The determination of our PFIC status is based on an annual analysis that investigation includes ascertaining the fair market value of all of our assets on a quarterly basis and the character of each item of income we earn. Because this involves extensive factual investigation and cannot be completed until the close of a taxable year, our U.S. counsel expresses no opinion with respect to our PFIC status.

Table of Contents

Our strategy of acquiring complementary assets, technologies and businesses may fail and may result in equity or earnings dilution.

As part of our business strategy, we intend to identify and acquire assets, technologies and businesses that are complementary to our business. Acquired businesses or assets may not yield the results we expect. In addition, acquisitions could result in the use of substantial amounts of cash, potentially dilutive issuances of equity securities, significant amortization expenses related to intangible assets and exposure to potential unknown liabilities of the acquired business. Moreover, the cost of identifying and consummating acquisitions, and integrating the acquired businesses into ours, may be significant, and the integration of acquired business may be disruptive to our business operations. In addition, we may have to obtain approval from the relevant PRC governmental authorities for the acquisitions and comply with any applicable PRC rules and regulations, which may be costly. In the event our acquisitions are not successful, our financial condition and results of operation may be materially and adversely affected.

Failure of our business strategies through our subsidiaries, affiliates and other business alliance partners could negatively affect our financial condition, operating results and reputation.

Aligned with our business strategies, we have made and may undertake in the future investments in subsidiaries, affiliates and other business alliance partners in various Internet-related businesses.

In March 2014, IDG-Accel China Growth Fund III L.P. and IDG-Accel China III Investors L.P., or the IDG-Accel Funds, acquired US\$3.0 million convertible preferred shares of Phoenix FM Limited, or Phoenix FM, previously a subsidiary of us, to accelerate development of the ifeng application business. Despite holding 100% ordinary shares of Phoenix FM, we accounted for our investment in Phoenix FM as an equity method investment since we did not control Phoenix FM due to substantive participating rights that have been provided to the IDG-Accel Funds. As of December 31, 2017, the carrying value of our equity investment in Phoenix FM was nil.

In April 2014, we established Shenzhen Fenghuang Jingcai Network Technology Co., Ltd, or Fenghuang Jingcai, a company engaged in online lottery ticket distribution with capitalization of RMB2.0 million. Subsequently, we invested additional RMB2.5 million in Fenghuang Jingcai. In 2014 and 2016, Fenghuang Jingcai obtained capital injection from other independent third parties. We held approximately 31.54% of the equity interests in Fenghuang Jingcai as of December 31, 2017 and accounted it as an equity method investment. Since March 2015, Fenghuang Jingcai had suspended all of its online lottery ticket distribution businesses, in response to the Notice related to Self-Inspection and Self-Remedy of Unauthorized Online Lottery Sales, or the Self-Inspection Notice, which was jointly promulgated by the Ministry of Finance, the Ministry of Civil Affairs and the General Administration of Sports of the People's Republic of China. As of December 31, 2017, there had been no change in the Self-Inspection Notice. Our management believes that the regulatory change brought about by the Self-Inspection Notice will continue to have negatively impact to the cash flows of Fenghuang Jingcai in the future, and that the value of Fenghuang Jingcai may not be fully recoverable. In December 2015, we recorded RMB3.2 million impairment loss for our equity investment in Fenghuang Jingcai. As of December 31, 2017, the carrying value of our equity investment in Fenghuang Jingcai was nil. We are unlikely to recover any value of Fenghuang Jingcai in the future.

We have made substantial investments in Particle in the form of investments and loans. Particle operates Yidian, a personalized news and life-style information application in China that allows users to define and explore desired content on their mobile devices. As of the date hereof, we held Series B, Series C and Series D1 convertible redeemable preferred shares of Particle, which had been accounted for as available-for-sale investments, representing an aggregate of approximately 41.8% equity interest of Particle on an as-if converted basis. The fair value of our available-for-sale investments in Particle was RMB1,196.3 million (US\$183.9 million) as of December 31, 2017. As of the date hereof, we also had two outstanding unsecured short-term loans to Particle, including (i) a convertible loan granted in August 2016 with a principal amount of

Edgar Filing: Phoenix New Media Ltd - Form 20-F

US\$14.8 million at an interest rate of 4.35% per annum due in August 2018 after several extensions, which can be converted into Series D1 convertible redeemable preferred shares of Particle at a conversion price of US\$1.071803 per share before August 9, 2018; and (ii) a loan granted in January 2017 with a principal amount of RMB74.0 million (US\$10.8 million) at an interest rate of 9% per annum due in July 2018 after one extension. Pursuant to an agreement among us, Particle and Long De, we are expected to assign to Long De or its designated affiliates our rights under the convertible loan granted in August 2016, and Long De or its affiliates should pay us approximately US\$17.0 million for the assignment.

In December 2014, we lost control over Beijing Fenghuang Tianbo Network Technology Co., Ltd., or Tianbo, a previously consolidated subsidiary, as the result of disposal of certain equity interest of Tianbo, and we currently still hold 50% of the equity interests in Tianbo. As we have significant influence over financial and operating decision-making after deconsolidation, we account for the retained 50% equity interests by using the equity method of accounting. Tianbo is principally engaged in operation of the real property channel and sales of real property advertisements for ifeng.com. As of December 31, 2016 and 2017, the carrying value of equity investment in Tianbo was RMB8.2 million and RMB15.1 million (US\$2.3 million), respectively.

Table of Contents

In January 2015, in order to leverage our brand, content platform and large user base to expand into more entertainment related businesses, we established a new subsidiary, Shanghai Meowpaw Info&Tech Co., Ltd., or Meowpaw. Meowpaw is engaged in creating intellectual properties, related games, books, movies and animations, etc. Meowpaw will apply for the necessary licenses and permits when required. As of the date of this annual report, we held 75% of Meowpaw's equity interest, and its noncontrolling shareholder, who is an individual, held the remaining 25%. Meowpaw's share capital was not sufficient to support its operations. In addition to the capital injection, we provided a long-term financing of RMB79.0 million to support its operations.

In January 2015, we acquired 5% equity interest of Beijing Phoenix Lilita Information Technology Co., Ltd., or Lilita, from a family member of the chairman of Phoenix TV, for an aggregate purchase price of RMB0.5 million. Lilita is principally engaged in P2P lending and reward-based crowd-funding businesses. In July 2016, Lilita completed its Series A round of financing and the percentage of our equity interest in Lilita decreased to 4.69%. We account for our equity interest in Lilita by using the cost method of accounting. Based on our other-than-temporary impairment assessment on equity investments and collectability assessment on the long overdue accounts receivables, we have fully written off our entire investment in Lilita with an amount of RMB0.5 million (US\$0.08 million) and made bad debt provision to receivable from Lilita with a total amount of RMB1.0 million (US\$0.2 million) in 2017.

In February 2015, we invested approximately RMB4.5 million in Hangzhou Qike Technology Co., Ltd., or Hangzhou Qike, a company engaged in providing risk management and credit control assessment based on big data analysis to enterprises and eventually directly to individual customers. We hold 45% equity interest of Hangzhou Qike and account for it by using the equity method of accounting. Based on our other-than-temporary impairment assessment on equity investments, we have fully written off our entire investment in Hangzhou Qike with an amount of RMB0.04 million (US\$0.01 million), therefore, as of December 31, 2017, the carrying value of equity investment in Hangzhou Qike was nil.

In April 2015, we acquired 0.3% equity interest of Lifeix Inc., an Internet company that operates L99.com and Lifeix.com, for an aggregate purchase price of US\$1.0 million. We account for our equity investment in Lifeix by using the cost method of accounting. In December 2015, in view of business performance and near-term business outlook that were below our previous expectation, based on the other-than-temporary impairment assessment, we recorded an impairment loss of US\$1.0 million (RMB6.4 million) to fully write down the equity investment.

In August 2017, we acquired 8% equity interest of Shenzhenshi Kuailai Technology Co., Ltd. (Kuailai) with a consideration of RMB0.2 million (US\$0.04 million). Kuailai operates Xunhutai, a life-style information application in China.

It is uncertain whether we will receive the expected benefits from these investments, due to any adverse regulatory changes, worsening of economic conditions, increased competition or other factors that may negatively affect the related business activities.

We accounted for some of our investments in affiliates under the equity method. Therefore, net losses incurred by equity method investees may cause us to record our share of the net losses. Furthermore, we may lose the capital which we have invested in affiliates and other business alliances or may incur impairment losses on securities acquired in such alliances. For example, as Particle has engaged in and may continue to engage in additional onshore and offshore financing activities, as additional investors are brought in as new shareholders of Particle or any of its principal subsidiaries or affiliated consolidated entity, and as certain special rights are granted to some of these new shareholders, our equity interest in Particle may be diluted, we may lose our option to consolidate Particle as a subsidiary, and Particle may lose its right to consolidate its current consolidated affiliated entity, which may materially and adversely affect the value of our investments in Particle. Furthermore, Yidian, which is operated by Particle, is subject to various risks in its industry, which may negatively affect its business and financial performance and frustrate our financial or operational expectations of it. For example, Yidian uses news content provided by third parties, and it may be subject to

copyright infringement claims. As a result, our investment value in Particle may substantially decrease.

While we do not have such arrangements in place, we may in the future be required under contractual or other arrangements to provide financial support, including credit support and equity investments, to our business alliance partners in the future. Additionally, we may also incur credit costs from our credit exposure to such business alliance partners. If there is any negative news coverage about our business alliance partners, our reputation may also be harmed as a result of our affiliation with them.

Table of Contents

Some of the businesses we have invested in are subject to intensive regulation. As a result of such regulations which are beyond our control, our business strategies may fail. For example, Fenghuang Jingcai suspended all of its businesses operation in 2015 due to changes in regulations of online lottery ticket distribution business in China, and we recorded a RMB3.2 million impairment loss for our equity investment in Fenghuang Jingcai in 2015. Similar adverse regulatory change may have a material adverse impact on the business and financial performance of our subsidiaries, affiliates and other business alliance partners. Furthermore, unanticipated costs and liabilities may be incurred in connection with those business strategies, including liabilities from the claims related to the businesses prior to our business alliances, and cost from actions by regulatory authorities.

We may have conflicts of interest with some of the affiliated companies we have invested in and, because some of our board members and executive officers also hold positions and have other interests in such companies, we may not be able to resolve such conflicts on terms favorable for us.

We may have conflicts of interests with some of the affiliated companies we have invested in. Certain of our board members and executive officers hold directorship and/or senior management positions and own shares, restricted share units and/or options in these affiliated companies. For example, Mr. Shuang Liu, our director and Chief Executive Officer, also serves as the chairman of Particle. Mr. Shuang Liu has been granted or promised options by Particle as incentive share compensation. These affiliated companies may continue to grant or promise incentive share compensation to certain of our board members and executive officers from time to time. These relationships could create, or appear to create, conflicts of interest when these persons are faced with decisions with potentially different implications for these affiliated companies and us. In addition, we do not have a non-compete agreement with most of these affiliated companies and therefore neither we nor they are prohibited from entering into competition with each other in respect of our respective current businesses or new businesses. As such, we may not be able to resolve potential conflicts, and even if we do so, the resolution may be less favorable to us than if we were dealing with unrelated parties.

Risks Relating to Our Corporate Structure

Phoenix TV (BVI) owns our Class B ordinary shares with 1.3 votes per share, allowing it and Phoenix TV to exercise significant influence over matters subject to shareholder approval, and their interests may not be aligned with the interests of our other shareholders.

Phoenix TV (BVI), a wholly owned direct subsidiary of Phoenix TV, owned 54.8% of our total issued and outstanding shares as of March 31, 2018. Moreover, all shares held by Phoenix TV (BVI) are Class B ordinary shares with 1.3 votes per share. As a result, Phoenix TV (BVI) held 61.2% of the total voting power of our ordinary shares as of March 31, 2018. Accordingly, Phoenix TV (BVI), and Phoenix TV through Phoenix TV (BVI), have substantial control over the outcome of corporate actions requiring shareholder approval, including the election of directors, any merger, consolidation or sale of all or substantially all of our assets or any other significant corporate transaction, and their interests may not align with the interests of our other shareholders. Phoenix TV (BVI) may take actions that are not in the best interest of us or our other shareholders and may also delay or prevent a change of control or otherwise discourage a potential acquirer from attempting to obtain control of us, even if such a change of control would benefit our other shareholders. This significant concentration of share ownership may adversely affect the trading price of our ADSs due to investors' perception that conflicts of interest may exist or arise.

We may have conflicts of interest with Phoenix TV and, because of Phoenix TV's controlling beneficial ownership interest in our company, may not be able to resolve such conflicts on terms favorable for us.

Conflicts of interest may arise between Phoenix TV and us in a number of areas relating to our past and ongoing relationships. Potential conflicts of interest that we have identified include the following:

- *Our board members or executive officers may have conflicts of interest.* Certain of our board members and executive officers own shares, restricted share units and/or options in Phoenix TV, and also hold senior management positions in Phoenix TV. Phoenix TV may continue to grant incentive share compensation to certain of our board members and executive officers from time to time. These relationships could create, or appear to create, conflicts of interest when these persons are faced with decisions with potentially different implications for Phoenix TV and us.
- *Sale of shares in our company.* Phoenix TV (BVI) may decide to sell all or a portion of our shares that it beneficially owns to a third party, including to one of our competitors, thereby giving that third party substantial influence over our business and our affairs. Such a sale could be contrary to the interests of certain of our shareholders, including our employees or public shareholders.

Table of Contents

- *Competition.* We do not have a non-compete agreement with Phoenix TV and its subsidiaries and affiliates, therefore neither we nor Phoenix TV is prohibited from entering into competition with each other in respect of our respective current businesses or new businesses.
- *Allocation of business opportunities.* Business opportunities may arise that both we and Phoenix TV find attractive, and which would complement our respective businesses. We and Phoenix TV do not have an agreement governing the allocation of new business opportunities presented to us and Phoenix TV in the future, and therefore, it is not certain which company will have the priority to pursue such business opportunities when such opportunities arise.

Although our company is a separate, stand-alone entity, Phoenix TV (BVI), a wholly owned direct subsidiary of Phoenix TV, owns Class B ordinary shares, each of which will be entitled to 1.3 votes on all matter subject to shareholders' vote, and we operate as a part of the Phoenix TV Group. Phoenix TV may from time to time make strategic decisions that it believes are in the best interests of its business as a whole, including our company. These decisions may be different from the decisions that we would have made on our own. Phoenix TV's decisions with respect to us or our business may be resolved in ways that favor Phoenix TV and therefore Phoenix TV's own shareholders, which may not coincide with the interests of our other shareholders. We may not be able to resolve any potential conflicts, and even if we do so, the resolution may be less favorable to us than if we were dealing with non-controlling shareholder. Even if both parties seek to transact business on terms intended to approximate those that could have been achieved among unaffiliated parties, this may not succeed in practice.

If the PRC government finds that the agreements that establish the structure for operating our businesses in China do not comply with PRC governmental restrictions on foreign investment in Internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we would be subject to severe penalties or be forced to relinquish our interests in those operations.

Current PRC laws and regulations place certain restrictions on foreign ownership of companies that engage in Internet and mobile businesses. Specifically, pursuant to the *Regulations for Administration of Foreign-Invested Telecommunications Enterprises* issued by the State Council on December 11, 2001 and amended on September 10, 2008 and February 6, 2016, foreign ownership in an Internet content provider or other value-added telecommunication service providers may not exceed 50%. We conduct our operations in China principally through contractual arrangements among our wholly-owned PRC subsidiary, Fenghuang On-line and Qieyiyou, and three affiliated consolidated entities in the PRC, namely, Yifeng Lianhe, Tianying Jiuzhou and Chenhuan, and their respective shareholders. Yifeng Lianhe holds the licenses and permits necessary to conduct our mobile business in China, while Tianying Jiuzhou holds the licenses and permits necessary to conduct our Internet portal, video, mobile business, and Internet advertising and related businesses in China. Our contractual arrangements with Yifeng Lianhe, Tianying Jiuzhou and Chenhuan, and their respective shareholders enable us to exercise effective control over these entities and hence treat them as our affiliated consolidated entities and consolidate their results. For a detailed discussion of these contractual arrangements, see Item 4. Information on the Company C. Organizational Structure.

We cannot assure you, however, that we will be able to enforce these contracts. Although we believe we are in compliance with current PRC regulations, we cannot assure you that the PRC government would agree that these contractual arrangements comply with PRC licensing, registration or other regulatory requirements, with existing policies or with requirements or policies that may be adopted in the future. PRC laws and regulations governing the validity of these contractual arrangements are uncertain and the relevant government authorities have broad discretion in interpreting these laws and regulations. For example, it is uncertain that how the Draft FIL, should it come in force, or its implementation rules, may impact the viability of our current corporate structure in the future. See Item 3. Key Information D. Risk Factors Risks Relating to Doing Business in China Substantial uncertainties exist with respect to the enactment timetable, interpretation and implementation of

Edgar Filing: Phoenix New Media Ltd - Form 20-F

the draft Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations. If the PRC government determines that we do not comply with applicable laws and regulations, it could revoke our business and operating licenses, require us to discontinue or restrict our operations, restrict our right to collect revenues, block our PC websites or mobile applications and mobile websites, require us to restructure our operations, impose additional conditions or requirements with which we may not be able to comply, or take other regulatory or enforcement actions against us that could be harmful to our business. The imposition of any of these penalties would result in a material and adverse effect on our ability to conduct our business.

Table of Contents

In August 2011, MOFCOM promulgated the *Rules of Ministry of Commerce on Implementation of Security Review System of Mergers and Acquisitions of Domestic Enterprises by Foreign Investors*, or the MOFCOM Security Review Rules, to implement the *Notice of the General Office of the State Council on Establishing the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors* promulgated on February 3, 2011, or Circular No. 6. The MOFCOM Security Review Rules came into effect on September 1, 2011 and replaced the *Interim Provisions of MOFCOM on Matters Relating to the Implementation of the Security Review System for Mergers and Acquisitions of Domestic Enterprises by Foreign Investors* promulgated by MOFCOM in March 2011. According to these circulars and rules, a security review is required for mergers and acquisitions by foreign investors having national defense and security concerns and mergers and acquisitions by which foreign investors may acquire the de facto control of domestic enterprises having national security concerns. In addition, when deciding whether a specific merger or acquisition of a domestic enterprise by foreign investors is subject to the security review, MOFCOM will look into the substance and actual impact of the transaction. The MOFCOM Security Review Rules further prohibit foreign investors from bypassing the security review requirement by structuring transactions through proxies, trusts, indirect investments, leases, loans, control through contractual arrangements or offshore transactions. There is no explicit provision or official interpretation stating that our online game business falls into the scope subject to the security review, and there is no requirement for foreign investors in those mergers and acquisitions transactions already completed prior to the promulgation of Circular No. 6 to submit such transactions to MOFCOM for security review. As we have already obtained the de facto control over our variable interest entities prior to the effectiveness of these circulars and rules and our current business would not have concerns on national defense and security or national security, we do not believe we are required to submit our existing contractual arrangement to MOFCOM for security review. However, as there is a lack of clear statutory interpretation on the implementation of these circulars and rules, there is no assurance that MOFCOM will have the same view as we do when applying.

We rely on contractual arrangements with our affiliated consolidated entities in China, and their shareholders, for our business operations, which may not be as effective in providing operational control or enabling us to derive economic benefits as through ownership of controlling equity interest.

We rely on and expect to continue to rely on contractual arrangements with our affiliated consolidated entities in China and their respective shareholders to operate our Internet and mobile businesses. These contractual arrangements may not be as effective in providing us with control over the affiliated consolidated entities as ownership of controlling equity interests would be in providing us with control over, or enabling us to derive economic benefits from the operations of, the affiliated consolidated entities. If we had direct ownership of the affiliated consolidated entities, we would be able to exercise our rights as a shareholder to (i) effect changes in the board of directors of those entities, which in turn could effect changes, subject to any applicable fiduciary obligations, at the management level, and (ii) derive economic benefits from the operations of the affiliated consolidated entities by causing them to declare and pay dividends. However, under the current contractual arrangements, as a legal matter, if any of the affiliated consolidated entities or any of their shareholders fails to perform its, his or her respective obligations under these contractual arrangements, we may have to incur substantial costs and resources to enforce such arrangements, and rely on legal remedies available under PRC laws, including seeking specific performance or injunctive relief, and claiming damages, which we cannot assure you will be effective. For example, if shareholders of an affiliated consolidated entity were to refuse to transfer their equity interests in such affiliated consolidated entity to us or our designated persons when we exercise the purchase option pursuant to these contractual arrangements, we may have to take a legal action to compel them to fulfill their contractual obligations.

If (i) the applicable PRC authorities invalidate these contractual arrangements for violation of PRC laws, rules and regulations, (ii) any affiliated consolidated entity or its shareholders terminate the contractual arrangements or (iii) any affiliated consolidated entity or its shareholders fail to perform their obligations under these contractual arrangements, our business operations in China would be adversely and materially affected, and the value of your ADSs would substantially decrease. Further, if we fail to renew these contractual arrangements upon their expiration, we would not be able to continue our business operations unless the then current PRC law allows us to directly operate the applicable businesses in China.

In addition, if any affiliate consolidated entity or all or part of its assets become subject to liens or rights of third-party creditors, we may be unable to continue some or all of our business activities, which could materially and adversely affect our business, financial condition and operating results. If any of the affiliated consolidated entities undergoes a voluntary or involuntary liquidation proceeding, its shareholders or

Edgar Filing: Phoenix New Media Ltd - Form 20-F

unrelated third-party creditors may claim rights to some or all of these assets, thereby hindering our ability to operate our business, which could materially and adversely affect our business, our ability to generate revenue and the market price of your ADSs.

All of these contractual arrangements are governed by PRC law and provide for the resolution of disputes through arbitration in the PRC. The legal environment in the PRC is not as developed as in some other jurisdictions, such as the United States. As a result, uncertainties in the PRC legal system could limit our ability to enforce these contractual arrangements. In the event we are unable to enforce these contractual arrangements, we may not be able to exert effective control over our operating entities, and our ability to conduct our business may be negatively affected.

Table of Contents

The shareholders of our affiliated consolidated entities may have potential conflicts of interest with us.

Current PRC laws and regulations place certain restrictions on foreign ownership of companies that engage in Internet and mobile businesses. The shareholders of our affiliated consolidated entities are individuals who are PRC citizens. None of the shareholders of our affiliated consolidated entities are significant shareholders of our company. In addition, one of the shareholders, Ms. Yinxia Liu, does not own any shares or rights to purchase any shares of our company. Therefore, the interests of these individuals as shareholders of the affiliated consolidated entities and the interests of our company may conflict. We cannot assure you that when conflicts of interest arise, any or all of these individuals will act in the best interests of our company or that any conflict of interest will be resolved in our favor. In addition, these individuals may breach or cause the affiliated consolidated entities that they beneficially own to breach or refuse to renew the existing contractual arrangements, which will have an adverse effect on our ability to effectively control our affiliated consolidated entities and receive economic benefits from them. Currently, we do not have existing arrangements to address potential conflicts of interest between these shareholders and our company. We rely on these shareholders to abide by the laws of the Cayman Islands and China. If we cannot resolve any conflicts of interest or disputes between us and the shareholders of the affiliated consolidated entities, we would have to rely on legal proceedings, the outcome of which is uncertain and which could be disruptive to our business.

The contractual arrangements with the affiliated consolidated entities may be subject to scrutiny by the PRC tax authorities and may result in a finding that we owe additional taxes or are ineligible for tax exemption, or both, which could substantially increase our taxes owed and thereby reduce our net income.

Under applicable PRC laws, rules and regulations, arrangements and transactions between related parties may be subject to audits or challenges by the PRC tax authorities. If any of the transactions we have entered into between our wholly-owned subsidiary in China and any of the affiliated consolidated entities and their respective shareholders are determined by the PRC tax authorities not to be on an arm's length basis, or are found to result in an impermissible reduction in taxes under applicable PRC laws, rules and regulations, the PRC tax authorities may adjust the profits and losses of such affiliated consolidated entity and assess more taxes on it. In addition, the PRC tax authorities may impose late payment fees and other penalties to such affiliated consolidated entity for under-paid taxes. Our net income may be adversely and materially affected if the tax liabilities of any of the affiliated consolidated entities increase or if it is found to be subject to late payment fees or other penalties.

We rely on dividends and other distributions on equity paid by our PRC subsidiaries to fund any cash and financing requirements we have, and any limitation on the ability of our PRC subsidiaries to pay dividends to us could have a material adverse effect on our ability to conduct our business.

We and our non-PRC subsidiaries rely on dividends and other distributions on equity paid by our PRC subsidiaries, for our cash requirements, including the funds necessary to repay the short-term loans or service any debt we may incur. If our PRC subsidiaries incur debt on its own behalf in the future, the instruments governing the debt may restrict its ability to pay dividends or make other distributions to us. In addition, the PRC tax authorities may require us to adjust our taxable income under the contractual arrangements Fenghuang On-line and Qieyiyou currently have in place with the respective affiliated consolidated entities in a manner that would materially and adversely affect the ability of Fenghuang On-line and Qieyiyou to pay dividends and other distributions to us. Further, relevant PRC laws, rules and regulations permit payments of dividends by our PRC subsidiaries only out of their retained earnings, if any, determined in accordance with accounting standards and regulations of China. Our PRC subsidiaries must set aside at least 10% of after-tax income each year to reserve funds prior to payment of dividends until the cumulative fund reaches 50% of their respective registered capital. As a result of these PRC laws, rules and regulations, our PRC subsidiaries are restricted from transferring a portion of their net assets to us whether in the form of dividends. As of December 31, 2017, our consolidated retained earnings were RMB229.3 million, out of which our PRC subsidiaries' retained earnings were approximately RMB993.1 million. Any limitation on the ability of our PRC subsidiaries to pay dividends to us and our non-PRC subsidiaries could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our businesses, pay dividends, repay loans or

otherwise fund and conduct our business.

Strengthened scrutiny over acquisition and disposition transactions by the PRC tax authorities may have a negative impact on us or your disposition of our shares or ADS.

Our operations and transactions are subject to review by the PRC tax authorities pursuant to relevant PRC laws and regulations. However, these laws, regulations and legal requirements change frequently, and their interpretation and enforcement involve uncertainties. For example, on April 30, 2009, the Ministry of Finance and the State Administration of Taxation jointly issued the *Notice on Issues Concerning Process of Enterprise Income Tax in Enterprise Restructuring Business*, or Circular 59. On December 10, 2009, the *State Administration of Taxation issued the Notice on Strengthening the Management on Enterprise Income Tax for Equity Transfers of Non-resident Enterprises*, or Circular 698. Both Circular 59 and Circular 698 became effective retroactively on January 1, 2008. Pursuant to the two circulars, in the event that we dispose of any equity interests in WOFE, whether directly or indirectly, we may be subject to income tax on capital gains generated from disposal of such equity interests. The PRC tax authorities have the discretion under Circular 59 and Circular 698 to make adjustments to taxable capital gains based on the difference between the fair value of the equity interests transferred and the cost of the corresponding investment. If the PRC tax authorities make such an adjustment, our income tax costs will be increased.

Table of Contents

By promulgating and implementing the circulars, the PRC tax authorities have strengthened their scrutiny over the direct or indirect transfer by non-resident enterprises of equity interests in PRC resident enterprises. For example, Circular 698 specifies that the PRC State Administration of Taxation is entitled to redefine the nature of an equity transfer where offshore holding vehicles are interposed for tax-avoidance purposes and without reasonable commercial purpose. On February 3, 2015, the State Administration of Taxation issued the Notice on Several Issues regarding Enterprise Income Tax for Indirect Property Transfer by Non-resident Enterprises, or SAT Circular 7, which further specifies the criteria for judging reasonable commercial purpose, and the legal requirements for the voluntary reporting procedures and filing materials in the case of indirect property transfer. SAT Circular 7 has listed several factors to be taken into consideration by tax authorities in determining whether an indirect transfer has a reasonable commercial purpose. However, despite these factors, an indirect transfer satisfying all the following criteria shall be deemed to lack reasonable commercial purpose and be taxable under the PRC laws: (i) 75% or more of the equity value of the intermediary enterprise being transferred is derived directly or indirectly from the PRC taxable properties; (ii) at any time during the one year period before the indirect transfer, 90% or more of the asset value of the intermediary enterprise (excluding cash) is comprised directly or indirectly of investments in the PRC, or 90% or more of its income is derived directly or indirectly from the PRC; (iii) the functions performed and risks assumed by the intermediary enterprise and any of its subsidiaries that directly or indirectly hold the PRC taxable properties are limited and are insufficient to prove their economic substance; and (iv) the foreign tax payable on the gains derived from the indirect transfer of the PRC taxable properties is lower than the potential PRC tax on the direct transfer of such assets. Nevertheless, the indirect transfer falling into the scope of the safe harbor under SAT Circular 7 may not be subject to PRC tax and such safe harbor includes qualified group restructuring, public market trading and tax treaty exemptions. Under SAT Circular 7, the entities or individuals obligated to pay the transfer price to the transferor shall be the withholding agent and shall withhold the PRC tax from the transfer price. If the withholding agent fails to do so, the transferor shall report to and pay the PRC tax to the PRC tax authorities. In case neither the withholding agent nor the transferor complies with the obligations under SAT Circular 7, other than imposing penalties such as late payment interest on the transferors, the tax authority may also hold the withholding agent liable and impose a penalty of 50% to 300% of the unpaid tax on the withholding agent, provided that such penalty imposed on the withholding agent may be reduced or waived if the withholding agent has submitted the relevant materials in connection with the indirect transfer to the PRC tax authorities in accordance with SAT Circular 7.

On October 17, 2017, the SAT released the *Public Notice Regarding Issues Concerning the Withholding of Non-resident Enterprise Income Tax at Source*, or SAT Public Notice 37, effective from December 1, 2017. SAT Public Notice 37 replaced a series of important circulars, including but not limited to SAT Circular 698, and revised the rules governing the administration of withholding tax on China-source income derived by non-resident enterprises. SAT Public Notice 37 made certain key changes to the current withholding regime such as (i) the withholding obligation for dividend payment to non-resident enterprises arises on the day the payment is actually made rather than the day of the board resolution to declare the dividends; and (ii) the self-reporting requirements on non-resident enterprises in certain circumstances is removed.

It is not clear to what extent the holders of our shares or ADS may be subject to these requirements. We have conducted and may conduct acquisitions and dispositions involving complex corporate structures, and we may not be able to make timely filings with the PRC tax authorities as required. The PRC tax authorities may, at their discretion, impose or adjust the capital gains on us or the holders of our shares or ADS or request us or the holders of our shares or ADS to submit additional documentation for their review in connection with any relevant acquisition or disposition, and thus cause us or the holders of our shares or ADS to incur additional costs.

Risks Relating to Doing Business in China

Adverse changes in political and economic policies of the PRC government could have a material adverse effect on the overall economic growth of China, which could reduce the demand for our services and materially and adversely affect our competitive position.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Since substantially all of our business operations are conducted in China, our business, financial condition, operating results and prospects are significantly affected by economic, political, social and legal developments in China, and by continued growth in China as a whole. The Chinese economy differs from the economies of most developed countries in many respects, including:

Table of Contents

- the degree of government involvement;
- the level of development;
- the growth rate;
- the control of foreign exchange;
- access to financing; and
- the allocation of resources.

Although the Chinese government has implemented measures emphasizing the utilization of market forces for economic reform, the reduction of state ownership of productive assets, and the establishment of improved corporate governance in business enterprises, a substantial portion of productive assets in China is still owned by the government. In addition, the Chinese government continues to play a significant role in regulating industry development. The Chinese government also exercises significant control over China's economic growth through allocating resources, controlling payment of foreign currency-denominated obligations, setting monetary policy, and providing preferential treatment to particular industries or companies.

While the Chinese economy has grown significantly in the past years, the growth has been uneven, both geographically and among various sectors of the economy. The PRC government has implemented various measures to encourage or contain economic growth and guide the allocation of resources. Some of these measures benefit the overall Chinese economy, but may also have a negative effect on our operations. For example, our operating results and financial condition may be materially and adversely affected by government control over capital investments or changes in tax regulations that are applicable to us. In addition, in the past the PRC government has implemented certain measures, including increases in interest rates and the reserve requirement ratio of the People's Bank of China, or the PBOC, to control the pace of growth.

It is unclear whether PRC economic policies will be effective in sustaining stable economic growth in the future. In addition, other economic measures, as well as future actions and policies of the PRC government, could also materially affect our liquidity and access to capital and our ability to operate our business. Substantially all of our assets are located in China and substantially all of our revenues are derived from our operations in China. Accordingly, our business, financial condition, operating results and prospects are subject, to a significant extent, to economic, political and legal developments in China.

Uncertainties with respect to the PRC legal system could limit the protections available to you and us.

The PRC legal system is a civil law system based on written statutes. Unlike in the common law system, prior court decisions may be cited for reference but have limited precedential value. Since 1979, PRC legislation and regulations have significantly enhanced the protections afforded to various forms of foreign investments in China. We conduct substantially all of our business through our subsidiary and consolidated affiliates and their subsidiaries established in China. However, since the PRC legal system continues to rapidly evolve, the interpretations of many laws, regulations and rules are not always uniform and enforcement of these laws, regulations and rules involve uncertainties, which may limit legal protections available to us. For example, we may have to resort to administrative and court proceedings to enforce the legal protection that we enjoy either by law or contract. However, since PRC administrative and court authorities have significant discretion in interpreting and implementing statutory and contractual terms, it may be more difficult to evaluate the outcome of Chinese administrative and court proceedings and the level of legal protection we enjoy in China than in more developed legal systems. These uncertainties may impede our ability to enforce the contracts we have entered into with our employees, business partners, customers and suppliers. In addition, such uncertainties, including the inability to enforce our contracts, could materially and adversely affect our business and operations. Furthermore, intellectual property rights and confidentiality protections in China may not be as effective as in the United States or other countries. Accordingly, we cannot predict the effect of future developments in the PRC legal system, including the promulgation of new laws, changes to existing laws or the interpretation or enforcement thereof, or the preemption of local regulations by national laws. For instance, on January 19, 2015, the MOFCOM published the Draft FIL on its official website for public comments. The Draft FIL embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in alignment with international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments, and thus the Draft FIL will have a far-reaching and significant impact upon foreign investments by fundamentally reshaping the entire PRC foreign investment regulatory regime. See Item 4. Information on the Company B. Business Overview Regulatory Matters Draft Foreign Investment Law. There is no definitive timeline for this law to be officially promulgated by the PRC legislature and the current draft may need to undergo significant amendment before the law is finally passed. Accordingly, substantial uncertainties still exist with respect to the enactment timetable, interpretation and implementation of this new law. As a result, we may not be aware of how it may impact the viability of our current corporate structure, corporate governance and business operations. These uncertainties could limit the legal protections available to us and other foreign investors. In addition, any litigation in China may be protracted and result in substantial costs and diversion of our resources and management attention.

Table of Contents

Fluctuations in exchange rates of the Renminbi could materially affect our reported operating results.

The exchange rates between the Renminbi and the U.S. dollar, Euro and other foreign currencies is affected by, among other things, changes in China's political and economic conditions. On July 21, 2005, the PRC government changed its policy of pegging the value of the Renminbi to the U.S. dollar. Following the removal of the U.S. dollar peg, the Renminbi appreciated more than 20.0% against the U.S. dollar over the following three years. Between July 2008 and June 2010, this appreciation halted and the exchange rate between the Renminbi and the U.S. dollar remained within a narrow band. Subsequent to June 2010, the Renminbi has started to appreciate slowly against the U.S. dollar, though there were periods when the U.S. dollar has appreciated against the Renminbi. On August 11, 2015, the People's Bank of China allowed the Renminbi to depreciate by approximately 2% against the U.S. dollar. From then until the end of 2016, the Renminbi has depreciated against the U.S. dollar by approximately 10%. Since October 1, 2016, the RMB has joined the International Monetary Fund (IMF)'s basket of currencies that make up the Special Drawing Right (SDR), along with the U.S. dollar, the Euro, the Japanese yen and the British pound. In the fourth quarter of 2016, the RMB depreciated significantly in the backdrop of a surging U.S. dollar and persistent capital outflows of China. With the development of the foreign exchange market and progress towards interest rate liberalization and Renminbi internationalization, the PRC government may in the future announce further changes to the exchange rate system and there is no guarantee that the RMB will not appreciate or depreciate significantly in value against the U.S. dollar in the future. It is difficult to predict how market forces or PRC or U.S. government policy may impact the exchange rate between the RMB and the U.S. dollar in the future.

As we may rely on dividends and other fees paid to us by our subsidiary and affiliated consolidated entities in China, any significant revaluation of the Renminbi may materially and adversely affect our cash flows, revenues, earnings and financial position, and the value of, and any dividends payable on, our ADSs in U.S. dollars. To the extent that we need to convert U.S. dollars we will receive from any offshore financing that we may undertake in the future into Renminbi for our operations, appreciation of the Renminbi against the U.S. dollar would have an adverse effect on the Renminbi amount we would receive from the conversion. Conversely, if we decide to convert our Renminbi into U.S. dollars for the purpose of making payments for dividends on our ordinary shares or ADSs or for other business purposes or commercial reasons, appreciation of the U.S. dollar against the Renminbi would have a negative effect on the U.S. dollar amount available to us. We recorded foreign exchange loss of RMB1.1 million in 2015, foreign exchange gain of RMB9.6 million in 2016, and foreign exchange loss of RMB23.6 million in 2017, primarily due to the RMB fluctuation against the U.S. dollar. Our operating results are sensitive to changes in exchange rates of the Renminbi. Future fluctuations that are adverse to us could have a material adverse effect on our results of operation, financial condition or liquidity.

You may experience difficulties in effecting service of legal process, enforcing foreign judgments or bringing original actions in China, based on United States or other foreign laws, against us, our management or the experts named in this annual report.

We conduct substantially all of our operations in China and substantially all of our assets are located in China. In addition, a majority of our senior executive officers reside within China. As a result, it may not be possible to effect service of process within the United States or elsewhere outside China upon our senior executive officers, including with respect to matters arising under U.S. federal securities laws or applicable state securities laws. Moreover, our PRC counsel has advised us that China does not have treaties with the United States or many other countries providing for the reciprocal recognition and enforcement of legal judgments.

Table of Contents

PRC regulation of loans and direct investment by offshore holding companies to PRC entities may delay or prevent us from using the net proceeds from any offshore financing that we may undertake in the future to make loans or additional capital contributions to our PRC subsidiaries and affiliated consolidated entities.

In utilizing the net proceeds from our initial public offering, as an offshore holding company of our PRC subsidiaries and affiliated consolidated entities, we may make loans to our PRC subsidiaries and affiliated consolidated entities, or we may make additional capital contributions to our PRC subsidiaries. Any loans to our subsidiary or affiliated consolidated entities in China are subject to PRC regulations, registrations and/or approvals. For example, loans by us, as an offshore holding company, to our affiliated consolidated entities must be approved by the relevant government authorities and registered with the State Administration of Foreign Exchange or SAFE, or its local counterpart. If we provide loans to our PRC subsidiaries, the total amount of such loans may not exceed the statutory limit such loans need to be registered with the SAFE which usually takes no more than 20 working days to complete. The cost of completing such registration is minimal. We may also determine to finance our PRC subsidiaries by means of capital contributions. These capital contributions shall go through record-filing procedures from MOFCOM or its local counterpart. Because the affiliated consolidated entities are domestic PRC enterprises, we are not likely to finance their activities by means of capital contributions due to regulatory issues relating to foreign investment in domestic PRC enterprises, as well as the licensing and other regulatory issues. We cannot assure you that we can obtain the required government registrations or record-filings on a timely basis, if at all, with respect to future loans or capital contributions by us to our PRC subsidiaries or any of the affiliated consolidated entities. If we fail to receive such registrations or record-filings, our ability to use the net proceeds from our initial public offering and to fund our operations in China would be negatively affected which would adversely and materially affect our liquidity and our ability to expand our business.

In addition, on August 29, 2008, SAFE promulgated the *Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign Invested Enterprises*, or SAFE Circular 142, regulating the conversion by a foreign-invested enterprise of foreign currency registered capital into Renminbi by restricting how the converted Renminbi may be used. SAFE Circular 142 provides that the Renminbi capital converted from foreign currency registered capital of a foreign-invested enterprise may only be used within the business scope approved by the applicable governmental authority and may not be used for equity investments within the PRC, unless it is provided for otherwise. In addition, SAFE strengthened its oversight of the flow and use of the Renminbi capital converted from foreign currency registered capital of a foreign-invested company. The use of such Renminbi capital may not be altered without SAFE approval, and such Renminbi capital may not in any case be used to repay Renminbi loans if the proceeds of such loans have not been used. As to the latest development, on March 30, 2015, SAFE issued the *Circular on the Management Concerning the Reform of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises*, or SAFE Circular 19, which became effective on June 1, 2015 and replaced SAFE Circular 142. Pursuant to SAFE Circular 19, up to 100% of foreign currency capital of foreign-invested enterprise may be converted into RMB capital according to the actual operation of the enterprise within the business scope at its will and the RMB capital converted from foreign currency registered capital of a foreign-invested enterprise may be used for equity investments within the PRC. However, under SAFE Circular 19, RMB capital converted from foreign currency registered capital of a foreign-invested company still may not in any case be used to advance the RMB entrusted loan or repay RMB loans if the proceeds of such loans have not been used. SAFE promulgated the *Notice of the State Administration of Foreign Exchange on Reforming and Standardizing the Foreign Exchange Settlement Management Policy of Capital Account*, or Circular 16, effective on June 9, 2016, which reiterates some of the rules set forth in Circular 19, but changes the prohibition against using RMB capital converted from foreign currency-denominated registered capital of a foreign-invested company to issue RMB entrusted loans to a prohibition against using such capital to issue loans to nonassociated enterprises. As such, if we engage in any offshore financing in the future and convert the net proceeds we may receive from such financing into Renminbi and repatriate these funds into China pursuant to SAFE Circular 19, our use of Renminbi funds will need to be for purposes within the approved business scope of our PRC subsidiaries, which may limit our ability to deploy our funds in the most desirable manner.

Table of Contents

If the PRC government finds that our PRC beneficial owners are subject to the SAFE registration requirement under SAFE Circular 37 and the relevant implementing rules and our PRC beneficial owners fail to comply with such registration requirements, such PRC beneficial owners may be subject to personal liability, our ability to acquire PRC companies or to inject capital into our PRC subsidiaries may be limited, our PRC subsidiaries' ability to distribute profits to us may be limited, or our business may be otherwise materially and adversely affected.

On July 4, 2014, SAFE issued the *Circular on Several Issues Concerning Foreign Exchange Administration of Domestic Residents Engaging in Overseas Investment, Financing and Round-Trip Investment via Special Purpose Vehicles*, or SAFE Circular 37, which became effective on the same date. SAFE Circular 37 and its detailed guidelines require PRC residents to register with the local branch of SAFE before contributing their legally owned onshore or offshore assets or equity interest into any special purpose vehicle, or SPV, directly established, or indirectly controlled, by them for the purpose of investment or financing; SAFE Circular 37 further requires that when there is (i) any change to the basic information of the SPV, such as any change relating to its individual PRC resident shareholders, name or operation period or (ii) any material change, such as increase or decrease in the share capital held by its individual PRC resident shareholders, a share transfer or exchange of the shares in the SPV, or a merger or split of the SPV, the PRC resident must register such changes with the local branch of SAFE on a timely basis. See Item 4. Information on the Company B. Business Overview Regulatory Matters Regulation of Foreign Exchange Registration of Offshore Investment by PRC Residents.

Based on the opinion of our PRC counsel, Zhong Lun Law Firm, we understand that the aforesaid registration requirement under SAFE Circular 37 and the relevant implementing rules do not apply to our PRC subsidiaries or our PRC resident beneficial owners due to the following reasons: (i) our company was incorporated and controlled by Phoenix TV, a Hong Kong listed company, rather than any PRC residents defined under SAFE Circular 37; (ii) none of the former or current shareholders of our PRC affiliated consolidated entities established or acquired interest in our company by injecting the assets of, or equity interest in, our affiliated consolidated entities; and (iii) before the public listing of our ADSs, all of our PRC resident beneficial owners obtained interest in our company through exercise of options granted to them under our employee share option plan. However, we cannot assure you that the PRC government would hold the same opinion as us, and the relevant government authorities have broad discretion in interpreting these rules and regulations. If SAFE or any of its local branches requires our PRC resident beneficial owners to register their interest in our company pursuant to SAFE Circular 37 and the related implementing rules, we will request our PRC resident beneficial owners to make the necessary registration, filings and amendments as required. However, we cannot provide any assurances that these PRC resident beneficial owners will apply for and complete any applicable registrations, filing and amendments. The failure or inability of such PRC resident beneficial owners to do so may subject our PRC subsidiaries to fines or legal sanctions, restrictions on our cross-border investment activities or our PRC subsidiaries' ability to distribute dividends to, or obtain foreign-exchange-dominated loans from, our company, or prevent us from making distributions or paying dividends. As a result, our business operations and our ability to make distributions to you could be materially and adversely affected.

Failure to comply with PRC regulations regarding the registration requirements for stock incentive plans may subject the plan participants or us to fines and other legal or administrative sanctions.

Under the applicable PRC regulations, domestic individuals (including both PRC residents and non-PRC residents who reside in the PRC for a continuous period of not less than one year, excluding the foreign diplomatic personnel and representatives of international organizations) who participate in employee stock plans or stock option plans of an overseas publicly-listed company are required to register with SAFE and complete certain other procedures. If a domestic individual participates in any stock incentive plan of an overseas listed company, a qualified PRC domestic agent, which can be the PRC subsidiaries of such overseas listed company, shall, among other things, file, on behalf of such individual, an application with SAFE to conduct the SAFE registration with respect to such stock incentive plan, and obtain approval for an annual allowance with respect to the foreign exchange conversion in connection with the stock purchase or stock option exercise. Such PRC individuals' foreign exchange income received from the sale of stocks and dividends distributed by the overseas listed company and any other income shall be fully remitted into a collective foreign currency account in the PRC opened and managed by the PRC domestic agent before distribution to such individuals. See Item 4. Information on the Company B. Business Overview Regulatory Matters SAFE Regulation of Stock

Incentive Plan. We and our employees who are domestic individuals participating in stock incentive plans are subject to these regulations. Our share incentive plans had been registered with SAFE when we became a public company listed on the New York Stock Exchange. We cannot assure you, however, that we will be able to complete relevant registration for new employees who participate in our share incentive plans in the future, in a timely manner or at all. If we or such employees fail to comply with these regulations, we or such employees may be subject to fines and other legal or administrative sanctions.

Table of Contents

The approval of the China Securities Regulatory Commission, or the CSRC, may have been required in connection with our initial public offering. Our failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.

According to the 2006 M&A Rules, an offshore special purpose vehicle, or SPV, refers to an overseas company controlled directly or indirectly by domestic companies or individuals for purposes of overseas listing of equity interests in domestic companies (defined as enterprises in the PRC other than foreign invested enterprises). If an SPV purchases, for the purpose of overseas listing and by means of paying consideration in shares of such SPV, domestic interests held by PRC domestic companies or individuals controlling such SPV, then the overseas listing by the SPV must obtain the approval of the CSRC. However, the applicability of the 2006 M&A Rules with respect to CSRC approval is unclear. The CSRC currently has not issued any definitive rule concerning whether offerings like the offering contemplated by our company are subject to the 2006 M&A Rules and related clarifications.

Our PRC counsel, Zhong Lun Law Firm, has advised us that the 2006 M&A Rules do not require that we obtain prior CSRC approval for the listing and trading of our ADSs on the New York Stock Exchange, given that:

- the CSRC approval requirement applies to SPVs that acquired equity interests in PRC companies through share exchanges and seek overseas listing;
- Fenghuang On-line and Qieyiyou were incorporated indirectly by Phoenix TV, a Hong Kong-listed company, rather than an SPV as defined under the 2006 M&A Rules; and
- Fenghuang On-line and Qieyiyou were incorporated as a wholly foreign-owned enterprise by means of direct investment rather than by merger or acquisition by our company of the equity interest or assets of any domestic company as defined under the 2006 M&A Rules, and no provision in the 2006 M&A Rules classifies the contractual arrangements between Fenghuang On-line and Qieyiyou and each of the affiliated consolidated entities as a type of acquisition transaction falling under the 2006 M&A Rules.

Our PRC counsel has further advised us that there are uncertainties regarding the interpretation and application of relevant PRC laws, regulations and rules. If the CSRC subsequently determines that its prior approval is required, we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations, limit our operating privileges, delay or restrict sending the proceeds from our initial public offering into China, or take other actions that could have a material adverse effect on our business, financial condition, operating results, reputation and prospects, as well as the trading price of our ADSs.

We cannot predict when the CSRC may promulgate additional rules or other guidance, if at all. Implementing rules or guidance, to the extent issued, may fail to resolve current ambiguities under this new PRC regulation. Uncertainties and/or negative publicity regarding this new PRC regulation could have a material adverse effect on the trading price of our ADSs.

The approval of MOFCOM may be required in connection with the establishment of our contractual arrangements with the affiliated consolidated entities. Our failure to obtain this approval, if required, could have a material adverse effect on our business, operating results, reputation and trading price of our ADSs.

The 2006 M&A Rules also provide that approval by MOFCOM is required prior to a foreign company acquiring a PRC domestic company where the foreign company and the domestic company have the same de facto controlling person(s) that are PRC domestic individual(s) or enterprise(s). The applicability of the 2006 M&A Rules with respect to MOFCOM's approval is unclear.

Table of Contents

Our PRC legal counsel has advised us that an approval from MOFCOM is not required under 2006 M&A Rules for our contractual arrangements among Fenghuang On-line, Qieyiyou and each of the affiliated consolidated entities, based on their understanding of the current PRC laws, rules and regulations, given that Fenghuang On-line was incorporated as a wholly foreign-owned enterprise by means of direct investment rather than by merger or acquisition by our company of the equity interest or assets of any domestic company as defined under the 2006 M&A Rules, and no provision in the 2006 M&A Rules classifies the contractual arrangements between Fenghuang On-line, Qieyiyou and each of the respective affiliated consolidated entities as a type of acquisition transaction falling under the 2006 M&A Rules.

However, if MOFCOM subsequently determines that its prior approval was required for our contractual arrangements with the affiliated consolidated entities, we may face regulatory actions or other sanctions from MOFCOM or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on us and the affiliated consolidated entities, which require us to restructure our ownership structure or operations, limit our operations, delay or restrict sending the net proceeds from our initial public offering into China, or take other actions. These regulatory actions could have a material adverse effect on our business, financial condition, operating results, reputation and prospects, as well as the trading price of our ADSs.

Governmental control of currency conversion may affect the value of your investment.

The PRC government imposes controls on the convertibility of the Renminbi into foreign currencies and, in certain cases, the remittance of currency out of China. We receive substantially all of our revenues in Renminbi. Under our current corporate structure, our income is primarily derived from dividend payments from our PRC subsidiaries. Shortages in the availability of foreign currency may restrict the ability of our PRC subsidiaries to remit sufficient foreign currency to pay dividends or other payments to us, or otherwise satisfy their foreign currency-denominated obligations. Under existing PRC foreign exchange regulations, payments of current account items, including profit distributions, interest payments and expenditures from trade related transactions, can be made in foreign currencies without prior approval from the SAFE by complying with certain procedural requirements. However, approval from the SAFE or its local branch is required where Renminbi is to be converted into foreign currency and remitted out of China to pay capital expenses such as the repayment of loans denominated in foreign currencies. The PRC government may also at its discretion restrict access in the future to foreign currencies for current account transactions. If the foreign exchange control system prevents us from obtaining sufficient foreign currency to satisfy our currency demands, we may not be able to pay dividends in foreign currencies to our shareholders, including holders of our ADSs.

Dividends we receive from our PRC subsidiaries located in the PRC may be subject to PRC withholding tax.

The CIT Law provides that a maximum income tax rate of 20% may be applicable to dividends payable to non-PRC investors that are non-resident enterprises, to the extent such dividends are derived from sources within the PRC, and the State Council of the PRC has reduced such rate to 10% through the implementation regulations. We are a Cayman Islands holding company and substantially all of our income may be derived from dividends we receive from our subsidiary located in the PRC. Thus, dividends paid to us by our subsidiary in China may be subject to the 10% income tax if we are considered as a non-resident enterprise under the CIT Law. If we are required under the CIT Law to pay income tax for any dividends we receive from our subsidiary in China, it would materially and adversely affect the amount of dividends, if any, we may pay to our shareholders and ADS holders.

Table of Contents

We may be deemed a PRC resident enterprise under the CIT Law and be subject to the PRC taxation on our worldwide income.

The CIT Law also provides that enterprises established outside of China whose de facto management bodies are located in China are considered resident enterprises and are generally subject to the uniform 25% enterprise income tax rate as to their worldwide income. Under the implementation regulations for the CIT Law issued by the PRC State Council, de facto management body is defined as a body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and treasury, and acquisition and disposal of properties and other assets of an enterprise. Although substantially all of our PRC operational entities' management is currently based in the PRC, it is unclear whether PRC tax authorities would treat us as a PRC resident enterprise. Despite the present uncertainties as a result of limited guidance from PRC tax authorities on the issue, we do not believe that our legal entities organized outside of the PRC should be treated as residents under the CIT Law. If we are treated as a resident enterprise for PRC tax purposes, we will be subject to PRC tax on our worldwide income at the 25% uniform tax rate, which could have an impact on our effective tax rate and an adverse effect on our net income and operating results.

Dividends payable by us to our foreign investors and gain on the sale of our ADSs or ordinary shares may become subject to taxes under PRC tax laws.

Under the CIT Law and implementation regulations issued by the State Council, PRC withholding tax at the rate of 10% is applicable to dividends payable to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such dividends have their sources within the PRC. Similarly, any gain realized on the transfer of ADSs or shares by such investors is also subject to 10% PRC income tax if such gain is regarded as income derived from sources within the PRC. The implementation regulations of the CIT Law set forth that, (i) if the enterprise that distributes dividends is domiciled in the PRC, or (ii) if gains are realized from transferring equity interests of enterprises domiciled in the PRC, then such dividends or capital gains are treated as China-sourced income. It is not clear how domicile may be interpreted under the CIT Law, and it may be interpreted as the jurisdiction where the enterprise is a tax resident. Therefore, if we are considered a PRC tax resident enterprise for tax purposes, the dividends we pay to our non-PRC enterprise investors with respect to our ordinary shares or ADSs, or the gain our non-PRC enterprise investors may realize from the transfer of our ordinary shares or ADSs, may be treated as income derived from sources within the PRC and be subject to PRC withholding tax. In addition, it is unclear whether our non-PRC individual investors would be subject to any PRC tax in the event we are deemed a PRC resident enterprise. If any PRC tax were to apply to such dividends or gains of non-PRC individual investors, it would generally apply at a tax rate of 20%. Furthermore, it is unclear in these circumstances whether holders of our ordinary shares or ADSs would be able to claim the benefit of income tax treaties entered into between China and other countries or regions. If we are required under the PRC law to withhold PRC income tax on dividends payable to our non-PRC investors, or if you are required to pay PRC income tax on the transfer of our ordinary shares or ADSs, the value of your investment in our ordinary shares or ADSs may be materially and adversely affected.

We may be required to register our operating offices not located at our residence addresses as branch companies under PRC law.

Under PRC law, a company setting up premises outside its resident address for business operations must register such operating offices with the relevant local industry and commerce bureau at the place where such premises are located as branch companies and shall obtain business licenses for such branches. Our affiliated consolidated entities have operations at locations other than their respective resident addresses. If the PRC regulatory authorities determine that we are in violation of relevant laws and regulations, we may be subject to relevant penalties, including fines, confiscation of income, and suspension of operation. If we are subject to these penalties, our business, operating results, financial condition and prospects could be materially and adversely affected.

Table of Contents

The audit report included in this annual report is prepared by an auditor who is not inspected by the Public Company Accounting Oversight Board and, as such, you are deprived of the benefits of such inspection.

Auditors of companies that are registered with the US Securities and Exchange Commission and traded publicly in the United States, including our independent registered public accounting firm, must be registered with the United States Public Company Accounting Oversight Board, or the PCAOB, and are required by the rules of the PCAOB to undergo regular inspections by the PCAOB to assess their compliance with the laws of the United States and professional standards. Because our auditor is located in the Peoples Republic of China, a jurisdiction where the PCAOB is currently unable to conduct inspections without the approval of the Chinese authorities, our auditor is not currently inspected by the PCAOB. In May 2013, PCAOB announced that it had entered into a Memorandum of Understanding on Enforcement Cooperation with the CSRC and the PRC Ministry of Finance, which establishes a cooperative framework between the parties for the production and exchange of audit documents relevant to investigations undertaken by PCAOB, the CSRC or the PRC Ministry of Finance in the United States and the PRC, respectively. PCAOB continues to be in discussions with the CSRC and the PRC Ministry of Finance to permit joint inspections in the PRC of audit firms that are registered with PCAOB and audit Chinese companies that trade on U.S. exchanges.

This lack of PCAOB inspections in China prevents the PCAOB from regularly evaluating audits and quality control procedures of any auditors operating in China, including our auditor. As a result, investors may be deprived of the benefits of PCAOB inspections.

The inability of the PCAOB to conduct inspections of auditors in China makes it more difficult to evaluate the effectiveness of our auditor's audit procedures or quality control procedures as compared to auditors outside of China that are subject to PCAOB inspections. Investors may lose confidence in our reported financial information and procedures and the quality of our financial statements.

We may be adversely affected by the outcome of the administrative proceedings brought by the SEC against the Big Four PRC-based accounting firms.

In December 2012, the SEC brought administrative proceedings against the Big Four accounting firms in China, including our independent registered public accounting firm, alleging that these accounting firms had violated U.S. securities laws and the SEC's rules and regulations thereunder by failing to provide to the SEC the firms' audit papers and other documents related to certain PRC-based companies that are publicly traded in the United States.

On January 22, 2014, the Administrative Law Judge presiding over the matter reached an initial decision that the firms had each violated the SEC's rules of practice by failing to produce the audit work papers and related documents directly to the SEC. The initial decision further determined that each of the firms should be censured and barred from practicing before the SEC for a period of six months. On February 12, 2014, the Big Four PRC-based accounting firms appealed to the SEC against this decision. In February 2015, each of these four PRC-based accounting firms agreed to a censure and to pay a fine to the SEC to settle the dispute and avoid suspension of their ability to practice before the SEC. The settlement requires the firms to follow detailed procedures to seek to provide the SEC with access to Chinese firms' audit documents via the CSRC. If the firms do not follow these procedures, the SEC could impose penalties such as suspensions, or it could restart the administrative proceedings.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

In the event that the SEC restarts the administrative proceedings, depending upon the final outcome, listed companies in the United States with major PRC operations may find it difficult or impossible to retain auditors in respect of their operations in the PRC, which could result in financial statements being determined to not be in compliance with the requirements of the Exchange Act, including possible delisting. Moreover, any negative news about the proceedings against these audit firms may cause investor uncertainty regarding China-based, U.S.-listed companies and the market price of our ADSs may be adversely affected.

If our independent registered public accounting firm was denied, even temporarily, the ability to practice before the SEC and we were unable to timely find another registered public accounting firm to audit and issue an opinion on our financial statements, our financial statements could be determined not to be in compliance with the requirements of the Exchange Act. Such a determination could ultimately lead to our delisting from the NYSE or deregistration from the SEC, or both, which would substantially reduce or effectively terminate the trading of our ADSs in the United States.

Table of Contents

Substantial uncertainties exist with respect to the enactment timetable, interpretation and implementation of the draft Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.

The MOFCOM, published the Draft FIL on its official website in January 2015. Upon its enactment, it is intended to replace the trio of existing laws regulating foreign investment in China, namely, the *Sino-foreign Equity Joint Venture Enterprise Law*, the *Sino-foreign Cooperative Joint Venture Enterprise Law* and the *Wholly Foreign-invested Enterprise Law*, together with their implementation rules and ancillary regulations. The Draft FIL embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in line with prevailing international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments. The MOFCOM is currently soliciting comments on this draft and substantial uncertainties exist with respect to its enactment timetable, interpretation and implementation. The Draft FIL, if enacted as proposed, may materially impact the viability of our current corporate structure, corporate governance and business operations in many aspects.

Among other things, the Draft FIL expands the definition of foreign investment and introduces the principle of actual control in determining whether an investment is considered a foreign investment or domestic investment. The Draft FIL specifically provides that an entity established in China but controlled by foreign investors will be treated as a foreign investor, whereas an entity set up in a foreign jurisdiction but controlled by PRC entities and/or citizens would nonetheless be treated as a PRC domestic investor, provided that the entity should obtain such determination upon market entry clearance by the competent foreign investment authority. In this connection, control is broadly defined in the draft law to cover the following summarized categories: (i) holding 50% or more of shares, equity interests, property shares, voting rights or other similar rights of the subject entity; (ii) holding less than 50% of shares, equity interests, property shares, voting rights or other similar rights, but having the power to secure at least 50% of the seats on the board or other equivalent decision making bodies, or having the voting power to materially influence the board, the shareholders meeting or other equivalent decision making bodies; or (iii) having the power to exert decisive influence, via contractual or trust arrangements, over the subject entity's operations, financial matters or other key aspects of business operations. If a foreign investment is made in an industry within the catalogue of special management measures, or the negative list, to be issued by the State Council, it would be subject to the foreign investment restrictions or prohibitions set forth therein and call for market entry clearance by the competent foreign investment authority.

The variable interest entity structure, or the VIE structure, has been adopted by many PRC-based companies, including us, to obtain necessary licenses and permits in the industries that are currently subject to foreign investment restrictions in China. See Item 3. Key Information D. Risk Factors Risks Relating to Our Corporate Structure. If the PRC government finds that the agreements that establish the structure for operating our businesses in China do not comply with PRC governmental restrictions on foreign investment in Internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we would be subject to severe penalties or be forced to relinquish our interests in those operations. Under the Draft FIL, if a variable interest entity is ultimate controlled by a foreign investor via contractual arrangement, it would be deemed as a foreign investment and thus subject to market entry clearance where such variable interest entity is engaged in the industry on the negative list. If an existing company with a VIE structure continues to engage in an industry on the negative list, the MOFCOM has proposed three possible solutions: (i) the company should declare to the MOFCOM that it is controlled by PRC entities and/or citizens, and the VIE structure would be deemed legitimate; (ii) the company should be determined by the MOFCOM that it is controlled by PRC entities and/or citizens, and the VIE structure would be deemed legitimate; or (iii) the company should pass the market access clearance by the MOFCOM. Conversely, if the actual controlling person is of a foreign nationality, then the variable interest entities will be treated as foreign invested enterprises and any operation in an industry on the negative list without market entry clearance may be considered to be illegal.

Table of Contents

We may not be considered to be ultimately controlled by PRC entities/citizens, as (i) our company was incorporated in Cayman Islands and is currently controlled by Phoenix TV, a company listed in the main board of The Stock Exchange of Hong Kong Limited; and (ii) Mr. Liu Changle, a permanent resident of Hong Kong, is deemed to have control of Phoenix TV as defined in the Codes on Takeovers and Mergers and Share Buy-backs published by the Securities and Futures Commission of Hong Kong. The Draft FIL has not taken a position on what actions will be taken with respect to the existing companies with a VIE structure, whether or not these companies are controlled by PRC entities/citizens, while it is soliciting comments from the public. Moreover, it is uncertain whether the telecommunications and Internet information services, online cultural activities, online games and other Internet-based industries, in which our variable interest entities operate, will be subject to the foreign investment restrictions or prohibitions set forth in the negative list to be issued. If the enacted version of the *Foreign Investment Law* and the final negative list mandate further actions, such as MOFCOM market entry clearance or certain restructuring of our corporate structure and operations, to be completed by companies with existing VIE structure like us, we will face substantial uncertainties as to whether these actions can be timely completed, or at all. As a result, our business and financial condition may be materially and adversely affected.

The Draft FIL, if enacted as proposed, may also materially impact our corporate governance practice and increase our compliance costs. For instance, the Draft FIL imposes stringent ad hoc and periodic information reporting requirements on foreign investors and the applicable foreign-invested enterprises. Reports are required whenever we make a new investment and modify or change our investment. Annual reports are mandatory, and large foreign investors meeting certain criteria are required to make reports quarterly. Any company found to be non-compliant with these information reporting obligations may be subject to fines and/or administrative or criminal liability, and the persons directly responsible may be subject to criminal liability.

Press reports concerning possible increased scrutiny by Chinese authorities of the VIE structure used by us and various other Chinese companies publicly-traded in the United States appear to have created concern among investors and caused the price of our common stock to drop, and such reports may have such an effect in the future.

We operate a VIE structure in which substantially all of our operations in China are conducted by our affiliated consolidated entities, in which we do not own any equity interest, through our contractual arrangements. In the recent past, various prominent Western news outlets reported that the MOFCOM and the China Securities Regulatory Commission, among other Chinese regulatory authorities, may be considering increased scrutiny or enhanced regulation of Chinese companies that use VIE structures as a means of complying with Chinese laws prohibiting or restricting foreign ownership of certain businesses in China, including businesses we are engaged in such as Internet information, content and services, online and mobile advertising, and mobile Internet and other value-added telecommunication services. Some of such news reports have also sought to draw a connection between recent widely reported accounting issues at certain Chinese companies and the use of VIE structures. Such news reports appear to have had the effect of causing significant drops in the market prices of the shares of several Chinese companies, including us, that are publicly-traded in the United States. We believe even if any such Chinese regulatory authorities were to increase scrutiny of VIE structures or adopt regulations specifically governing their use, the possibility is remote that any such scrutiny would have a material adverse impact on us or cause us to change our existing operational structure in any materially adverse way. However, it is possible that there will be such increased scrutiny or enhanced regulation in the future. In addition, while we are not aware of any causal connection between the recently reported accounting scandals and the use of VIE structures, it is possible that investors in our ADSs will believe that such a connection exists. Any of such circumstances could lead to further loss of investor confidence in Chinese companies such as ours and cause fluctuations in the market prices of our common stock and, if such prices were to drop sharply, could subject us to shareholder litigation, which could cause the price for our shares to drop further.

Table of Contents

Risks Relating to Our ADSs

The market price for our ADSs may be volatile which could result in a loss to you.

The market price for our ADSs is likely to be highly volatile and subject to wide fluctuations in response to factors, including the following:

- announcements of competitive developments;
- regulatory developments in China affecting us, our clients or our competitors;
- announcements regarding litigation or administrative proceedings involving us;
- actual or anticipated fluctuations in our quarterly operating results;
- changes in financial estimates by securities research analysts;
- addition or departure of our executive officers;
- release or expiry of lock-up or other transfer restrictions on our outstanding ordinary shares or ADSs; and
- sales or perceived sales of additional ordinary shares or ADSs.

In addition, the securities market has from time to time experienced significant price and volume fluctuations that are not related to the operating performance of particular companies. These market fluctuations may also have a material adverse effect on the market price of our ADSs.

Substantial future sales or perceived sales of our ADSs in the public market could cause the price of our ADSs to decline.

Sales of our ADSs or ordinary shares in the public market, or the perception that these sales could occur, could cause the market price of our ADSs to decline. As of March 31, 2018, we had 578,729,336 ordinary shares outstanding, including 317,325,360 Class B ordinary shares and 261,403,976 Class A ordinary shares part of which are represented by 32,202,054 ADSs. All ADSs sold in our initial public offering are freely transferable without restriction or additional registration under the Securities Act of 1933, as amended, or the Securities Act. The remaining ordinary shares outstanding are available for sale upon the expiration of any relevant lock-up periods, subject to volume and other restrictions that may be applicable under Rule 144 and Rule 701 under the Securities Act. In addition, ordinary shares that certain option holders will receive when they exercise their share options will not be available for sale until the expiration of any relevant lock-up periods, subject to volume and other restrictions that may be applicable under Rule 144 and Rule 701 under the Securities Act. We cannot predict what effect, if any, market sales of securities held by our significant shareholders or any other shareholder or the availability of these securities for future sale will have on the market price of our ADSs.

Our dual-class ordinary share structure with different voting rights could discourage others from pursuing any change of control transactions that holders of our Class A ordinary shares and ADSs may view as beneficial.

We have Class A ordinary shares and Class B ordinary shares, which are all at par value of US\$0.01 each. Holders of Class A ordinary shares are entitled to one vote per share, while holders of Class B ordinary shares are entitled to 1.3 votes per share. Phoenix TV (BVI), which is wholly owned by Phoenix TV, holds Class B ordinary shares, each of which is convertible into one Class A ordinary share at any time by the holder thereof. Class A ordinary shares are not convertible into Class B ordinary shares under any circumstances. Due to the disparate voting rights attached to these two classes, Phoenix TV (BVI) has significant voting rights over matters requiring shareholder approval, including the election and removal of directors and certain corporate transactions, such as mergers, consolidations and other business combinations. This concentrated control could discourage others from pursuing any potential merger, takeover or other change of control transactions that holders of Class A ordinary shares and ADSs may view as beneficial.

Table of Contents

Anti-takeover provisions in our articles of association may discourage a third party from offering to acquire our company, which could limit your opportunity to sell your ADSs at a premium.

Our currently effective, second amended and restated articles of association include provisions that could limit the ability of others to acquire control of us, modify our structure or cause us to engage in change of control transactions. These provisions could have the effect of depriving our shareholders of an opportunity to sell their shares at a premium over prevailing market prices by discouraging third parties from seeking to obtain control of us in a tender offer or similar transaction.

For example, our board of directors have the authority, without further action by our shareholders, to issue preference shares in one or more series and to fix the powers and rights of these shares, including dividend rights, conversion rights, voting rights, terms of redemption and liquidation preferences, any or all of which may be greater than the rights associated with our ordinary shares. Preference shares could thus be issued quickly with terms calculated to delay or prevent a change in control or make removal of management more difficult. In addition, if our board of directors issues preference shares, the market price of our ordinary shares may fall and the voting and other rights of the holders of our ordinary shares may be adversely affected.

As a foreign private issuer, we are permitted to, and we may, rely on exemptions from certain NYSE corporate governance standards applicable to U.S. issuers. This may afford less protection to holders of our ordinary shares and ADSs.

The NYSE Listed Company Manual in general require listed companies to have, among other things, a majority of its board be independent, an audit committee consisting of a minimum of three members and a nominating and corporate governance committee consisting solely of independent directors. As a foreign private issuer, we are permitted to follow, and we follow, certain home country corporate governance practices instead of the above requirements of the NYSE Listed Company Manual. The corporate governance practice in our home country, the Cayman Islands, does not require a majority of our board to consist of independent directors or the implementation of an audit committee or nominating and corporate governance committee. We rely upon the relevant home country exemption and exemptions afforded to controlled companies in lieu of certain corporate governance practices, such as having less than a majority of the board be independent and establishing an audit committee consisting of two independent directors. As a result, the level of independent oversight over management of our company may afford less protection to holders of our ordinary shares and ADSs.

As a foreign private issuer, we are not subject to U.S. proxy rules and are subject to Exchange Act reporting obligations that, to some extent, are more lenient and less frequent than those of a U.S. issuer.

As a foreign private issuer, we are exempt from certain provisions of the Exchange Act that are applicable to U.S. domestic issuers, including (i) the sections of the Exchange Act regulating the solicitation of proxies, consents or authorizations in respect of a security registered under the Exchange Act, (ii) the sections of the Exchange Act requiring insiders to file public reports of their stock ownership and trading activities and liability for insiders who profit from trades made in a short period of time, and (iii) the rules under the Exchange Act requiring the filing with the SEC of quarterly reports on Form 10-Q containing unaudited financial and other specified information, or current reports on Form 8-K, upon the occurrence of specified significant events. In addition, the executive compensation disclosure requirements to which we are subject under Form 20-F are less rigorous than those required of U.S. issuers under Form 10-K. Furthermore, foreign private issuers are not required to file their annual report on Form 20-F until 120 days after the end of each fiscal year, while U.S. domestic issuers that are not large accelerated filers or accelerated filers are required to file their annual report on Form 10-K within 90 days after the end of each fiscal year. Foreign private issuers are also exempt from the Regulation FD, aimed at preventing issuers from making selective disclosures of material information. Although we intend to make quarterly reports available to our shareholders in a timely manner and are required under the Exchange Act to provide current

reports on Form 6-K, you may not have the same protections afforded to stockholders of companies that are not foreign private issuers.

We are a Cayman Islands company and, because judicial precedent regarding the rights of shareholders is more limited under Cayman Islands law than under U.S. law, you may have less protection of your shareholder rights than you would under U.S. law.

Our corporate affairs are governed by our second amended and restated memorandum and articles of association, the Cayman Islands Companies Law (as amended) and the common law of the Cayman Islands. The rights of shareholders to take action against the directors, actions by minority shareholders and the fiduciary responsibilities of our directors to us under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from comparatively limited judicial precedent in the Cayman Islands as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of our shareholders and the fiduciary responsibilities of our directors under Cayman Islands law are not as clearly established as they would be under statutes or judicial precedent in some jurisdictions in the United States. In particular, the Cayman Islands has a less developed body of securities laws than the United States. In addition, some U.S. states, such as Delaware, have more fully developed and judicially interpreted bodies of corporate law than the Cayman Islands. Furthermore, Cayman Islands companies may not have standing to initiate a shareholder derivative action in a federal court of the United States. As a result, public shareholders may have more difficulties in protecting their interests in the face of actions taken by management, members of the board of directors or controlling shareholders than they would as shareholders of a Delaware company.

Table of Contents

Judgments obtained against us by our shareholders may not be enforceable.

We are a Cayman Islands company and substantially all of our assets are located outside of the United States. Substantially all of our current operations are conducted in the PRC. In addition, most of our directors and officers are nationals and residents of countries other than the United States. A substantial portion of the assets of these persons are located outside the United States. As a result, it may be difficult for you to effect service of process within the United States upon these persons. It may also be difficult for you to enforce in U.S. courts judgments obtained in U.S. courts based on the civil liability provisions of the U.S. federal securities laws against us and our officers and directors. Moreover, there is uncertainty as to whether the courts of the Cayman Islands or the PRC would recognize or enforce judgments of United States courts against us or such persons predicated upon the civil liability provisions of the securities laws of the United States or any state. In addition, there is uncertainty as to whether such Cayman Islands or PRC courts would be competent to hear original actions brought in the Cayman Islands or the PRC against us or such persons predicated upon the securities laws of the United States or any state.

Holders of ADSs must act through the depositary to exercise their rights as shareholders of our company.

Holders of our ADSs do not have the same rights of our shareholders and may only exercise the voting rights with respect to the underlying ordinary shares in accordance with the provisions of the deposit agreement for the ADSs. Under our second amended and restated memorandum and articles of association, the minimum notice period required to convene a general meeting is 10 days. When a general meeting is convened, you may not receive sufficient notice of a shareholders meeting to permit you to withdraw your ordinary shares to allow you to cast your vote with respect to any specific matter. In addition, the depositary and its agents may not be able to send voting instructions to you or carry out your voting instructions in a timely manner. We will make all reasonable efforts to cause the depositary to extend voting rights to you in a timely manner, but we cannot assure you that you will receive the voting materials in time to ensure that you can instruct the depositary to vote your ADSs. Furthermore, the depositary and its agents will not be responsible for any failure to carry out any instructions to vote, for the manner in which any vote is cast or for the effect of any such vote. As a result, you may not be able to exercise your right to vote and you may lack recourse if your ADSs are not voted as you requested. In addition, in your capacity as an ADS holder, you will not be able to call a shareholders meeting.

The depositary for our ADSs will give us a discretionary proxy to vote our ordinary shares underlying your ADSs if you do not vote at shareholders meetings, except in limited circumstances, which could adversely affect your interests.

Under the deposit agreement for the ADSs, the depositary will give us a discretionary proxy to vote our ordinary shares underlying your ADSs at shareholders meetings if you do not vote, unless:

- we have failed to timely provide the depositary with our notice of meeting and related voting materials;
- we have instructed the depositary that we do not wish a discretionary proxy to be given;

- we have informed the depositary that there is substantial opposition as to a matter to be voted on at the meeting; or
- a matter to be voted on at the meeting would have a material adverse impact on shareholders.

Table of Contents

The effect of this discretionary proxy is that you cannot prevent our ordinary shares underlying your ADSs from being voted, absent the situations described above, and it may make it more difficult for shareholders to influence the management of our company. Holders of our ordinary shares are not subject to this discretionary proxy.

You may be subject to limitations on transfers of your ADSs.

Your ADSs are transferable on the books of the depository. However, the depository may close its transfer books at any time or from time to time when it deems expedient in connection with the performance of its duties. In addition, the depository may refuse to deliver, transfer or register transfers of ADSs generally when our books or the books of the depository are closed, or at any time if we or the depository deems it advisable to do so because of any requirement of law or of any government or governmental body, or under any provision of the deposit agreement, or for any other reason.

Your right to participate in any future rights offerings may be limited, which may cause dilution to your holdings and you may not receive cash dividends or other distributions if it is impractical to make them available to you.

We may from time to time distribute rights to our shareholders, including rights to acquire our securities. However, we cannot make rights available to you in the United States unless we register the rights and the securities to which the rights relate under the Securities Act or an exemption from the registration requirements is available. Also, under the deposit agreement, the depository will not make rights available to you unless either both the rights and any related securities are registered under the Securities Act, or the distribution of them to ADS holders is exempted from registration under the Securities Act. We are under no obligation to file a registration statement with respect to any such rights or securities or to endeavor to cause such a registration statement to be declared effective. Moreover, we may not be able to establish an exemption from registration under the Securities Act. Accordingly, you may be unable to participate in our rights offerings and may experience dilution in your holdings.

In addition, the depository has agreed to pay to you the cash dividends or other distributions it or the custodian receives on our ordinary shares or other deposited securities after deducting its fees and expenses. You will receive these distributions in proportion to the number of ordinary shares your ADSs represent. However, the depository may, at its discretion, decide that it is impractical to make a distribution available to any holders of ADSs. For example, the depository may determine that it is not practicable to distribute certain property through the mail, or that the value of certain distributions may be less than the cost of mailing them. In these cases, the depository may decide not to distribute such property and you will not receive any such distribution.

ITEM 4. INFORMATION ON THE COMPANY

A. History and Development of the Company

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Phoenix TV registered the domain name phoenix.tv for its corporate website in 1998. Tianying Jiuzhou began operating this website after its establishment in April 2000. As part of the reorganization before its initial public offering, in September 1999, Phoenix TV incorporated Phoenix Satellite Television Information Limited in the British Virgin Islands to be the holding company of its new media business.

In November 2005, Mr. Shuang Liu, a vice president of Phoenix TV, was appointed to lead Phoenix TV's new media business. Upon his appointment, Mr. Liu began implementing his vision to transform the business from a mere corporate website of Phoenix TV into a new media company capitalizing on the future of new media convergence. Yifeng Lianhe was established in June 2006 to provide new media mobile services in China. In July 2007, Tianying Jiuzhou registered the domain name ifeng.com and redirected the traffic of phoenix.tv and phoenix.tv.cn to ifeng.com.

On November 22, 2007, Phoenix New Media Limited, an exempted limited liability company, was incorporated in the Cayman Islands as a subsidiary of Phoenix TV to be the holding company for its new media business. In May 2008, Phoenix Satellite Television (B.V.I.) Holding Limited transferred the sole outstanding share of Phoenix Satellite Television Information Limited to us in exchange for 319,999,999 ordinary shares of our company.

Table of Contents

Fenghuang On-line was established in December 2005. On December 31, 2009, Fenghuang On-line entered into a series of contractual arrangements with each of Tianying Jiuzhou and Yifeng Lianhe and their respective shareholders to govern our relationships with Tianying Jiuzhou and Yifeng Lianhe, at which time we became operational in our current corporate structure. These contractual arrangements allow us to effectively control Tianying Jiuzhou and Yifeng Lianhe and to derive substantially all of the economic benefits from them. See C. Organizational Structure Contractual Arrangements with Our Affiliated Consolidated Entities.

On May 12, 2011, our ADSs began trading on the New York Stock Exchange under the ticker symbol FENG. We closed our initial public offering on May 17, 2011 and the underwriters subsequently exercised their over-allotment option on June 8, 2011. We issued and sold a total of 13,415,125 ADSs in these transactions, representing 107,321,000 Class A ordinary shares in the form of ADSs, raising US\$137.2 million in proceeds to us before expenses but after underwriting discounts and commissions.

Our principal executive offices are located at Sinolight Plaza, Floor 16, No. 4 Qiyang Road, Wangjing, Chaoyang District, Beijing 100102, People's Republic of China. Our telephone number at this address is +(86) 10 6067 6000. Our registered office in the Cayman Islands is located at the offices of Codan Trust Company (Cayman) Limited, Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman, KY1-1111, Cayman Islands. Our agent for service of process in the United States is Law Debenture Corporate Services Inc., located at 801 2nd Avenue, Suite 403 New York, New York 10017.

B. Business Overview

We are a leading new media company providing premium content on an integrated Internet platform, including PC and mobile, in China. Having originated from a leading global Chinese language TV network based in Hong Kong, Phoenix TV, we enable consumers to access professional news and other quality information and UGC, on the Internet and through their PCs and mobile devices. We also transmit our UGC and in-house produced content to TV viewers primarily through Phoenix TV. Our PC channel includes major verticals such as news, fashion, military, finance, web-based games, and digital reading. Our mobile channel includes our mobile news application, mobile video application, HTML5-based mobile Internet websites (mobile websites), mobile digital reading application (Fanyue Novel), and prior to December 1, 2017, fashion application (Shizhuang App). We also act as a service provider for telecom operators, providing content and mobile value-added services. The appeal of our brand is enhanced by its affiliation with the Phoenix () brand of Phoenix TV.

According to iResearch, our number of PC daily unique visitors was 33.9 million, and number of monthly unique visitors was 277.4 million in December 2017. We have ranked third among all Internet portals in China in terms of daily unique visitors in December 2017, according to iResearch. According to our internal data, our aggregated mobile daily unique visitors from mobile websites i.ifeng.com and mobile applications reached 33 million in December 2017. We earn revenues from advertising and paid services, which accounted for 85.9% and 14.1% of our total revenues, respectively, in 2017.

Our net advertising revenues accounted for 76.2%, 85.3% and 85.9% of our total revenues in 2015, 2016 and 2017, respectively. We provide advertising services through PC channel and mobile channel, which accounted for 42.2% and 57.8% of our net advertising revenues respectively in 2017. We recognize revenues from our advertising services on a net basis, after deducting the agency service fees we pay to advertising agencies.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

We see mobile devices as the primary gateway for news and other media content consumption going forward. In recent years, we have taken steps to evolve our business and shift our revenue mix towards our mobile channels, which we believe have greater potential for sustainable growth over the long term, and which have demonstrated robust growth in 2017. Our mobile advertising revenues increased by 46.5% to RMB781.8 million (US\$120.2 million) in 2017 from RMB533.8 million in 2016. As part of our mobile strategy, we invested in convertible redeemable preferred shares of Particle and accounted for the investments as available-for-sale investments. Particle operates Yidian, a personalized news and life-style information application in China that allows users to define and explore desired content on their mobile devices. By partnering with Yidian and by continuing to strengthen our core competencies of content production capability, dedication to serious journalism and cutting-edge technology, we believe that we will be better positioned to capitalize on emerging opportunities as increasing numbers of consumers in China use Internet-enabled mobile devices to consume news and other media content.

Table of Contents

We offer a wide variety of paid services primarily through our mobile channel and operations with the telecom operators. We classify our paid services into (i) digital entertainment, which includes mobile value-added services delivered through telecom operators' platforms, or MVAS, and digital reading, and (ii) games and others, which includes web-based games, mobile games, content sales, and other online and mobile paid services through our own platforms. Prior to 2016, our paid service revenues mainly comprised of the revenues generated from MVAS and games and others. Digital reading was previously classified under games and others. In order to align with our overall strategies, in 2016, digital reading was re-classified from Games and others, and digital reading together with MVAS was determined as Digital entertainment. We derived 81.2% and 18.8% of our paid services revenues, respectively, from our digital entertainment and games and others in 2017. Due to an increase in revenues generated from digital reading business, our paid services revenues increased from RMB212.7 million in 2016 to RMB221.6 million (US\$34.1 million) in 2017.

Our Relationship with Phoenix TV

We are a subsidiary of Phoenix TV, a leading Hong Kong-based satellite TV network broadcasting Chinese language content globally and into China. Phoenix TV indirectly owned 54.8% of our ordinary shares and 61.2% of the voting power of our ordinary shares as of March 31, 2018.

Fenghuang On-line and Phoenix TV entered into a cooperation agreement, or the Phoenix TV Cooperation Agreement, on November 24, 2009, which expired on May 27, 2016. Under this agreement, Fenghuang On-line and Phoenix TV agreed to certain cooperative arrangements in the areas of content, branding promotion and technology. Pursuant to the Phoenix TV Cooperation Agreement, in November 2009 Tianying Jiuzhou and Yifeng Lianhe entered into a program content license agreement, or Content License Agreement, with Phoenix Satellite Television Company Limited and a trademark license agreement, or Old Trademark License Agreement, with Phoenix Satellite Television Trademark Limited. Considering the significant growth and changes in our business since execution of these agreements in 2009, we and Phoenix TV Group entered into a new set of agreements in May 2016 and December 2017, or the New Agreements, to amend and replace the previous agreements and provide the terms of our continued cooperation. The New Agreements include Program Resource License Agreements and Program Text/Graphics Resource License Agreements, or the Program License Agreements, between Phoenix Satellite Television Company Limited and each of Tianying Jiuzhou, Yifeng Lianhe, and Fengyu Network, and trademark license agreements by and among Phoenix Satellite Television Trademark Limited and each of Tianying Jiuzhou and Yifeng Lianhe, or the New Trademark License Agreements. Unlike the previous agreements, the New Agreements do not grant us the right to sublicense Phoenix TV Group's copyrighted content to third parties. While we are in the process of negotiating with Phoenix TV Group to potentially re-acquire such certain right of sublicense, we cannot assure you that we will be able to re-acquire such certain right at reasonable costs or at all. Different from the Old Trademark License Agreement, the New Trademark License Agreements no longer allow us to use the double-phoenix logo of Phoenix TV Group on a stand-alone basis and increased the annual license fee payable to Phoenix TV Group from a total of US\$10,000 to the greater of 2% of the annual revenues of Tianying Jiuzhou or Yifeng Lianhe (as the case may be) or US\$100,000 for each company. For illustrative purpose only, Tianying Jiuzhou and Yifeng Lianhe had annual revenues of RMB570.4 million in 2016 and RMB413.8 million in 2017 in accordance with U.S.GAAP, which meant that the annual license fee payable to Phoenix TV Group would have been RMB11.4 million and RMB8.3 million in 2016 and 2017, respectively, if the New Trademark License Agreements had been implemented since January 2016. Each of the New Trademark License Agreements has an initial term of three years and may be extended prior to expiration of its term with the written confirmation of Phoenix TV Group, and may be terminated earlier by Phoenix TV Group in the event of a material breach by us of any covenant or a material failure by us to perform any of our obligation and if the breach or failure, as applicable, is not rectified within a reasonable time or ten days of receipt of written notice from Phoenix TV Group. In addition, in the event that any of the shareholding structure of Tianying Jiuzhou or Yifeng Lianhe is changed which causes Phoenix TV Group to lose control of them, or any of Tianying Jiuzhou or Yifeng Lianhe is disqualified from conducting Internet service business due to applicable laws, Phoenix TV Group may terminate the New Trademark License Agreements immediately. Tianying Jiuzhou and Yifeng Lianhe are also granted a one-year license to continue to use the current marks of our two mobile applications which contain the Chinese words of Phoenix News and Phoenix Video which will be automatically renewed upon its expiration unless Phoenix TV Group raises any objection. We cannot assure you that we will be able to continue to use Phoenix TV Group's logos, which would have a material and adverse effect on our business, operating results and financial condition.

Table of Contents

We have a mutually beneficial relationship with Phoenix TV. We and Phoenix TV share a common vision of the convergence of traditional and new media channels, and work together to realize this vision. While we furnish Phoenix TV with access to our new media delivery channels, Phoenix TV enables us to display our proprietary content on its TV programs. Pursuant to the Program License Agreements, Phoenix TV Group agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network the license with priority over any third party to broadcast Phoenix TV Group's copyrighted video content from three television channels of Phoenix TV Group on ifeng.com (our main Internet channel), i.ifeng.com (a mobile Internet channel of ours), and ifeng News, ifeng Video and ifeng VIP (three mobile applications of ours) in China (excluding Hong Kong, Macau and Taiwan) concurrently with such content broadcasted on the three television channels of Phoenix TV Group. Phoenix TV Group also agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network a non-exclusive license to use Phoenix TV Group's copyrighted text and graphics on the same Internet and mobile channels of ours in China for which Phoenix TV Group's copyrighted video content license, above, was granted. These licenses help to distinguish our content offerings from those of other Internet and new media companies in China. We believe that our and Phoenix TV's active promotion of one another's brands on our respective Internet-enabled and TV platforms helps to grow our combined audience synergistically.

On February 17, 2014, our Chief Executive Officer, Mr. Shuang Liu, was also promoted to the position of chief operating officer of Phoenix TV. The key initiative for his new position at Phoenix TV is to accelerate the convergence of TV, PC and mobile platforms of the two companies. In his new role, Mr. Liu is tasked with strategizing, overseeing and allocating resources to implement this convergence strategy. Through his appointment, both companies can more seamlessly expand user reach on each of its media platforms, provide advertisers a one-stop shop solution, more effectively monetize the Phoenix brand across all verticals, and achieve greater cost synergies.

For more information about the terms of each of the New Agreements, see C. Organizational Structure Our Relationship with Phoenix TV. For more information about the risks associated with our relationship with Phoenix TV, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry We may not be able to continue to receive the same level of support from Phoenix TV Group in the future. We could lose our license and priority over any third party to broadcast Phoenix TV Group's content, which would have an adverse effect on our paid services business, and would also negatively affect our video advertising business. Together, these impacts could have an adverse effect on our business and operating results and Item 3. Key Information D. Risk Factors Risks Relating to Our Corporate Structure We may have conflicts of interest with Phoenix TV and, because of Phoenix TV's controlling beneficial ownership interest in our company, may not be able to resolve such conflicts on terms favorable for us.

Our Content

We strive to deliver the most up-to-date, in-depth, exclusive and thought-provoking content to our users. Content selection, editing and production are core focuses of our business. We obtain our content from four sources: third-party professional media companies, Phoenix TV, our in-house production, we-media accounts and UGC. The content we acquire covers a wide spectrum of user-targeted subjects, including news, current affairs, finance, technology, automobiles, fashion and entertainment, among others. We believe that we have provided the earliest video and text media coverage among Chinese media companies of certain major world events. We are uniquely positioned among our peers in China to be able to distribute our content on TV. We feed a substantial amount of in-house produced content and UGC to a number of Phoenix TV's regular prime-time programs each day. We also provide our in-house produced content to domestic TV networks, such as Shenzhen Satellite TV.

Third-Party Professional Content. We have entered into content licensing agreements with approximately 445 professional content providers in aggregate. We obtain our print content from major Chinese print media and news wires and selected international sources. Our Chinese content sources include companies such as China News Service, Xinhua News Agency and the Huanqiu.com, as well as China's top ten image providers. Our international sources include

Reuters, The Associated Press and Agence France Presse, among others. The video content we source from third parties is primarily comprised of news and documentaries, which cater to our users' preferences. We obtain our third-party video content from major Chinese television broadcasters, such as CCTV, Shenzhen Satellite TV, and Hubei Satellite TV. The content that we source from professional third parties comprises the majority of the content on our PC websites, mobile applications and mobile websites.

Table of Contents

Phoenix TV Content. Phoenix Satellite Television Company Limited, a wholly owned subsidiary of Phoenix TV, has granted Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network the license with priority over any third party effective until May 26, 2019 to broadcast Phoenix TV Group's copyrighted video content from three television channels of Phoenix TV Group on ifeng.com (our main Internet channel), i.ifeng.com (a mobile Internet channel of ours), and ifeng News, ifeng Video and ifeng VIP (three mobile applications of ours) in China (excluding Hong Kong, Macau and Taiwan) concurrently with such content broadcasted on the three television channels of Phoenix TV Group, pursuant to the Program License Agreements. Since Phoenix TV's satellite landing rights in China, outside of Guangdong Province, are limited to international residences and hotels, our integrated platforms provide a convenient alternative means for people in China to view Phoenix TV's programs. We have offered live streaming broadcasts of the Phoenix Chinese Channel, the Phoenix InfoNews Channel and the Phoenix Hong Kong Channel on ifeng.com, and delivered updated clips from a broad range of Phoenix TV's programs on both our PC and mobile channels until June 22, 2017, when we received a public notice issued by SAPPRFT, which required us to suspend our ifeng video and audio services due to our lack of the Internet audio-visual program transmission license and our certain commentary programs that violated government regulations. We are also able to leverage Phoenix Satellite's global media resources, particularly for our news and finance channels.

In-house Produced Content. We produce investigative reports, exclusive video programs and event-based coverage in-house. We frequently conduct interviews with government officials, thought leaders, celebrities and other compelling public figures and we have provided coverage on hundreds of conferences and forums. We transmit a considerable amount of our in-house produced content to Phoenix TV on a frequent basis and to certain Chinese TV networks from time to time.

We-media Content. We-media content covers various verticals in the form of text, photos, videos, etc., adding an important complementary component to the content we deliver. We have integrated our we-media platform with Yidian's, so that we can share the we-media content with each other. In sum, we obtain content from over 550,000 we-media accounts by December 2017, including content from top public intellectual, commentators, scholars, key opinion leaders, or KOLs, professors, etc.

UGC. UGC adds an important interactive component to the content we deliver. We generate text UGC through our comment-posting and user survey services. We feed UGC from our comment-posting and surveys to Phoenix TV on a number of its regular TV programs.

Content Editing and Production

Content editing and production are critical components of our content production process. We had a team of 389 editors as of December 31, 2017 organized generally by interest-based vertical. We believe that we possess a strong ability to select and distill compelling news stories and frame issues for our users in a distinctive way. Beyond distributing a large amount of news and information in a timely fashion, we provide independent social commentary and analyses. We edit our videos, primarily consisting of news, documentaries and interviews, into short clips.

We organize our content by interest-based vertical and segment it further by featured topic. We actively combine text, image, video and live broadcasting content and integrate interactive UGC, aimed at producing an engaging user experience.

Content Monitoring

We implement monitoring procedures for all of our published content to remove inappropriate or illegal content, including but not limited to we-media and UGC from our discussion forum, comments postings and user survey services. As of December 31, 2017, our content screening team consists of 13 full-time editors and more than 100 outsourced staff members who are responsible for monitoring and preventing the public release of inappropriate illegal content. Text and images are screened by our content screening team, which reviews the content on a 24-hour, 3-shift basis and employs monitoring procedures, including (i) technology screening, where a text filtering system screens content based on pre-set key words and identifies suspected information; and (ii) manual review, where the content that passes the technology screening is reviewed by the content screening team and the flagged content identified by our technology is reviewed and confirmed before it can be released. For technology screening, we use an in-house developed identification system in order to comply with PRC regulatory requirements regarding Internet content.

Table of Contents

Our Channels

We provide our content and services through three major channels, including our PC channel, our mobile channel, and our operations with the telecom operators. We also transmit our content to TV viewers, primarily through Phoenix TV. Together, these channels form a converged platform providing integrated text, image, video and live broadcasting content, and employing a variety of interactive formats to create a rich, personalized and hands-on experience for our users. We derive advertising revenues through our PC channel and mobile channel. We generate paid services revenues through PC, mobile channel and operations with the telecom operators.

Our PC Channel

Our PC channel consists of our website at ifeng.com, which comprises our interest-based verticals and interactive services. According to iResearch, our number of PC daily unique visitors was 33.9 million, and number of monthly unique visitors was 277.4 million in December 2017. We have ranked third among all Internet portals in China in terms of daily unique visitors in December 2017.

Interest-based Verticals. We currently provide over 40 interest-based verticals, each of which features integrated text, image, video and live broadcasting content and embedded interactive services, such as user surveys and comment postings. Since ifeng.com is one of multiple access points to our converged platforms, our users can also access a significant portion of our interest-based verticals content through our mobile channel and operations with the telecom operators, and can view in-house produced content and UGC created on these verticals on Phoenix TV's regular programs. Our most popular verticals include:

- *News.* Through our news vertical, ifeng News, users have easy access to breaking news coverage from multiple sources and points of view. Our news vertical also features a large amount of in-depth special reports and embedded interactive services. For our special reports, we not only have dedicated teams deliver in-depth analysis and reports, but also integrated user surveys and comment postings into the featured websites.
- *Finance.* Our finance vertical, ifeng Finance, provides up-to-date information about financial news, securities and personal finance. We have formed relationships with individual industry leaders who contribute to our in-depth reports and discussions we feature on our finance vertical. We also obtain independent finance content from Phoenix TV. Our finance vertical also offers stock quotes from the major exchanges, as well as breaking news from individual listed companies.
- *Fashion.* Our fashion vertical provides coverage on fashion, beauty, weight loss, luxury goods, travel, furniture, art and other popular topics, all centered on the theme of refined lifestyle. It offers information on international fashion trends and new fashion concepts. Our fashion vertical covers a variety of luxury topics, including

wines, cigars, high-end brand apparel and accessories, as well as services aimed at the high net worth population. It also provides real-time coverage of major world fashion events, bringing users the latest information on styles and trends.

- *Entertainment.* Our entertainment vertical spans greater China and strives to cover entertainment news and developments in China, Hong Kong, Taiwan and globally among the Chinese community. This vertical provides broad coverage of the latest entertainment news, including dining, movies, television programs, plays, operas, as well as popular and classical music. It features our in-house produced video program of candid celebrity interviews.
- *Automobiles.* Our automobiles vertical, ifeng Auto, offers the latest automobile-related news and information to provide car buyers and automobile enthusiasts with the most current information on automotive pricing, reviews and featured guides.

Table of Contents

- *Live Broadcasting.* Our live broadcasting vertical, FENG Live (), offers live broadcasting news and information to provide real-time professional reports of hit events, conferences and etc.
- *We-media.* Our we-media vertical, Dafenghao, () offers various we-media content. We have integrated our we-media platform with Yidian's Yidianhao (), and by the end of 2017, we can obtain content produced by over 550,000 we-media outlets, public intellectual, commentators, scholars, KOLS, professors, etc.in total.
- *Military affairs.* Our military affairs vertical provides updated information and commentary on military affairs and defense matters and targets a broad audience, from military professionals to hobbyists. It also provides UGC content to Phoenix TV's Tiger Talk () TV program.
- *Sports.* Our sports vertical offers multimedia news and information on a wide range of sporting events, and broadcasts both live and recorded domestic and international sports matches.
- *History.* Our history vertical provides content about Chinese and international modern history. We investigate relatively unexplored historical turning points and events and provide in-depth analyses of historical figures and events. We also cooperate with Phoenix TV's high quality history programs to provide premium content to our users.
- *Video.* Our v.ifeng.com vertical offers the following four categories of video products and services, (i) free online video on demand, or VOD. Our free online VOD typically consist of short clips of up to five minutes of news programs, interviews, documentaries and other programs. Our VOD content is easily searchable on our websites and is organized into various verticals of v.ifeng.com for easy browsing, including entertainment, fashion, sports, technology, movies and dramas, and VIP channel. In addition, we organize and present video content, supplemented by text, images, user surveys and comment postings on our v.ifeng.com vertical to create a value-added user experience that we believe is richer than that of watching traditional TV. (ii) live Phoenix TV broadcasts. We offer live streams of Phoenix TV's flagship channels, such as the Phoenix Chinese Channel, the Phoenix InfoNews Channel, and the Phoenix Hong Kong Channel. These broadcasts provide our users with exclusive online access to up-to-the-minute, quality news and other programs from Phoenix TV until June 22 2017. See Item 3. D. Risk Factors Risks Relating to Our Business and Industry If we fail to continue to anticipate user preferences and provide high quality content that attracts and retains users, or if we have to limit our services or cease providing certain content in order to comply with changing regulatory requirements, we may not be able to generate sufficient user traffic to remain competitive . These live broadcasts on our v.ifeng.com vertical provide a convenient alternative means for viewing these popular Phoenix TV programs through an Internet-enabled device. (iii) online video subscription service. Our online video subscription service enables users to watch advertisement-free premium content, such as feature-length documentaries and exclusive online Phoenix TV programming. (iv) online video pay-per-view service. However, in response to a public notice issued by the SAPPRFT, we ceased distributing any

video and audio content from Phoenix TV since June 2017. See Item 3. D. Risk Factors Risks Relating to Our Business and Industry If we fail to continue to anticipate user preferences and provide high quality content that attracts and retains users, or if we have to limit our services or cease providing certain content in order to comply with changing regulatory requirements, we may not be able to generate sufficient user traffic to remain competitive. Our online video pay-per-view service enables users to watch advertisement-free premium videos by purchasing access to particular videos on vip.v.ifeng.com. Like our online video subscription, our online video pay-per-view also include generally longer videos of up to 45 minutes in length.

Table of Contents

- *Web-based Game.* We operate third-party developed web-based games on our game platforms, play.ifeng.com. Web-based games are games that can be played directly from the user's Internet browser without downloading additional software. Currently our game platforms only offer web-based games licensed from third parties. Our game portfolio includes role-playing, strategy and casual games. Revenues generated from web-based games are recorded in games and others under paid services revenues. Web-based game industry has been declining, and therefore our web-based game revenue has also been declining, which contributed only approximately 1.6% of our total revenue in 2017.

- *PC Digital Reading.* Our PC digital reading service provides fee-based Internet literatures from writers and digital format books licensed from third-party publishers to customers on our PC platforms. Revenues generated from digital reading are recorded in digital entertainment under paid services revenues.

Interactive Services. Our interactive services aim at turning our PC websites, mobile applications and mobile websites into an active venue for social networking and community interaction. These services allow our users to interact with the content we provide, opening up avenues for lively exchange of information. Our comment posting services are available on both our PC and mobile channels. Also through our converged platforms, we feed a substantial amount of user comments to prime-time programs of Phoenix TV on a daily basis. By furnishing an engaging user experience across PC, mobile and TV channels, we believe that community-based interactive services increase user loyalty and stickiness. We currently offer the following interactive services

- *User surveys.* Our user surveys allow users to express their opinions on topics featured on our PC and mobile channels, view up-to-date opinion polls of users generally and compare their views with those of our user community at large. We offer opinion surveys on major featured topics on most of ifeng.com and v.ifeng.com. Our survey results also frequently appear on Phoenix TV's programs.

- *Comment posting.* Our comment posting feature allows registered users to post their reactions to and thoughts on our articles and videos and browse the input of other members of the ifeng.com community. Our comment postings also frequently appear on Phoenix TV's programs.

Our Mobile Channel

Our mobile channel includes (i) ifeng news application, (ii) ifeng video application, (iii) mobile Internet website i.ifeng.com (mobile websites), (iv) digital reading application and (v) before December 1, 2017, fashion application (Shizhuang App). According to our internal data, our aggregated number of mobile daily unique visitors from mobile applications and mobile websites reached 33 million in December 2017.

- *ifeng News (formerly named Phoenix News)*. We offer a wide range of mobile applications for different mobile devices. Ifeng news application is our flagship mobile product, which provides news feeds and other contents in the form of text, image, live broadcasting and video.
- *ifeng Video (formerly named Phoenix Mobile Station)*. ifeng video application provides video news, live broadcasting, and Phoenix TV programs content, etc.
- *Mobile websites*. Our i.ifeng.com website is designed and tailored to the preferences of our mobile users on mobile browser and web-based pages. As part of our converged platform, i.ifeng.com allows our users to access quality convergence content while they are on-the-go. Similar to ifeng.com, our i.ifeng.com features an array of interest-based and interactive verticals, as well as a mobile video site for watching free mobile VOD. There are two of fee-based products, including mobile digital reading and mobile games.

Table of Contents

- *Digital reading application, Fanyue Novel* (). Our digital reading application provides fee-based Internet literatures from writers and digital format books licensed from third-party publishers to customers on our mobile platform. Revenues generated from digital reading are recorded in digital entertainment under paid services revenues.
- *Fashion Application, Shizhuang* (). Fashion application provides UGC and user communication and interaction in fashion industry and community. For strategic reasons, we ceased operating or updating the Shizhuang App starting from December 1, 2017

In addition to our own mobile channel, we have opened public accounts on popular social media in China including WeChat and Weibo to distribute content in certain verticals such as finance, technology, fashion and entertainment. Among these public accounts, ifeng Finance was ranked top 3 in Hurun's 2017 most influential financial we-media public accounts ranking.

Our Operations with the Telecom Operators.

As part of our converged platforms, we provide a convenient means for our users to access our quality content through the telecom operators platforms, or MVAS, while they are on-the-go. MVAS consist mainly of the following product lines:

Mobile Newspaper Service. We edit content from our content library to deliver mobile newspapers to mobile users of China Mobile, China Telecom and China Unicom via MMS. Our mobile newspapers provide periodicals in digital form reformatted for convenient viewing on mobile devices. China Mobile's VIP subscribers can receive our mobile newspaper service as part of their subscription and other mobile users can subscribe to this service independently through any one of the three mobile operators.

Mobile Video Service. We offer video content through the mobile video platforms of all three of the telecom operators. Users pay a monthly subscription fee for access to our mobile channel on the telecom operators' platforms or pay on a per-clip pay-per-view basis, and we share the fees charged for such services with the telecom operators.

Mobile Games Service delivered through the Telecom Operators' Platforms. We currently offer mobile games through China Mobile's, China Unicom's and China Telecom's gaming platforms, which allow users to download our mobile games programs.

WVAS. We also provide wireless value-added services, or WVAS, through telecom operation's payment platforms to our users. We offer the following WVAS: (i) *SMS-based Services*, (ii) *Music Services*, (iii) *IVR-based Services*, (iv) *MMS-based Services*, (v) *Animation Services*.

Our Sources of Revenues

Advertising Services

We provide advertising services primarily through our ifeng.com, our mobile Internet websites i.ifeng.com and our mobile applications in our mobile channel. Our advertising team consists of direct sales, agency sales, advertising technology and products support, customer support, advertising design and production, resource management, advertising strategy and sales promotion and other functions.

As is typical in China's online advertising industry, we primarily enter into advertising service contracts through third-party advertising agencies. We mainly have three types of pricing models, consisting of the Fixed Price model, the Cost Per Impression (CPM) model, and the Cost Per Click (CPC) model. In 2017, our advertising services are primarily on our mobile, instead of PC channel, and we expect our advertising services on mobile will continue to increase going forward. In addition, together with Phoenix TV, we provide bundled new media and TV advertising solutions to certain of Phoenix TV's advertisers.

Table of Contents

We strive to provide our advertisers with high-quality customer service. Our experienced sales professionals help advertisers to analyze their target audiences and create innovative campaign strategies and designs. We provide a variety of advertising solutions, including online advertisements, online video advertisements, user activities, live promotions and cross media public relations campaigns. We have an advertising tracking system, which records and maintains the traffic statistics and other data that can be used to measure the effectiveness of advertisements. After the release of a customer's advertising campaign, we furnish them with a report on the campaign's effectiveness either prepared in-house or by an independent research firm.

We have a diverse advertising client base, including both Chinese and international brand advertisers. Our top ten advertisers accounted for 34.8% of our total gross advertising revenues in 2017. Our advertisers generally are in the automobile, e-commerce, food & beverages, Internet services, financial services, communication services, entertainment and game services, IT products, cosmetic products, luxury brands, airline, health care, education and industries.

Paid Services

The following table sets forth our paid services offerings on telecom operators' platforms and our own platforms and the percentage contribution of our various paid services to our paid services revenues and our total revenues in 2017.

	% of Paid Service Revenues	% of Total Revenues
Paid Services Offerings		
<i>Digital Entertainment</i>		
Mobile value-added services delivered through telecom operators' platforms, or MVAS, and digital reading	81.2	11.5
<i>Games and others</i>		
Web-based games, mobile games, content sales, and other online and mobile paid services through our own platforms	18.8	2.6

Our Advertising Execution Team

We have a dedicated team to manage the advertising execution which includes a series of review procedures on our advertising material before we display such material on our platforms interfaces. This team checks advertisements for form and reviews them to ensure that they do not contain any racial, violent, pornographic or other inappropriate content. This team also verifies that advertisers have provided relevant government approvals if their advertisements are subject to special government requirements.

Marketing and Promotion

We employ a variety of traditional and online marketing programs and promotional activities to build our brand as part of our overall marketing strategy. We focus on building brand awareness and growing our user base through proactive public relations and innovative and interactive marketing activities and events.

We believe that our distinguished content and high-quality services lead to strong word-of-mouth promotion, which drives consumer awareness of our brand in China. In addition, our engagement in philanthropic activities, such as our *Annual Forever Happiness Charity Gala Dinner* (), helps associate our brand with social responsibility.

Table of Contents

Seasonality

Seasonal fluctuations and industry cyclicality have affected, and are likely to continue to affect our business. We generally generate less revenue from advertising sales and paid services revenues during national holidays in China, in particular during the Chinese New Year holidays in the first quarter of each year. We typically generate higher net advertising revenues in the fourth quarter due to greater advertising spending by our advertisers near the end of each calendar year when they spend the remaining portions of their annual budgets. In addition, advertising spending in China has historically been cyclical, reflecting overall economic conditions as well as the budgeting and buying patterns of our advertisers. Our rapid growth has lessened the impact of the seasonal fluctuations and cyclicality. However, we expect that the seasonal fluctuations and cyclicality to cause our quarterly and annual operating results to fluctuate. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Our quarterly revenues and operating results may fluctuate, which makes our operating results difficult to predict and may cause our quarterly operating results to fall short of expectations.

Research and Development

In 2017, we continued to improve our advertising solution products as well as focus on improving our convergence model across PC, mobile and TV in order to provide our users easier access to our premium content through any device. In particular, we continued to introduce and improve our mobile applications and strengthened commercial products in certain of our verticals. For example, we internally developed an analytic platforms named *Feng Yan* (风彦;) to track and analyze certain real-time user behavior data. Through *Feng Yan* we can better understand user's profile and reading preference, and provide reference data for future content production and performance advertising solution. We also have an in-house Data Management Platform to better analyze and manage advertising data and help improve the targeting accuracy of advertisements. Another platform we launched in 2016 is *Fengyu* (风语;). *Fengyu* is a customizable and self-service marketing solution that operates under a bidding system. Customers are able to target users based on gender, age, geographic location, interests, device type, etc. Customers can place performance-based ads directly by themselves using our self-service advertising system. We launched *Feng Yi* (风易;), another customizable marketing solution, catering to premium advertising demands. In 2015, 2016 and 2017, our total technology and product development expenses, including related share-based compensation were RMB170.7 million, RMB161.9 million and RMB192.3 million (US\$29.6 million), respectively.

Infrastructure and Technology

Our technology platforms have been designed for reliability, speed, scalability and flexibility and are administered by our in-house technology department. We have access to a network of approximately 4,000 self-owned and leased servers across China mainland, Hong Kong and North America with power supply and power generator backup. We have developed our server operations based on Linux and other open source software, which has allowed us to lower software related investment and enhance our network reliability.

Content Management Technology. We have internally developed a leading new media content management system, which fully integrates our PC and mobile channels. We have also developed a new consolidated system, CMPP (Content Management Programmable Platforms), for content management and delivery, which focuses on mobile websites and

mobile applications.

Integration with Phoenix TV. The integration of our and Phoenix TV's content management systems allows us to directly access Phoenix TV's programs digitally, in addition to our access via satellite signal, and to expedite the transmission of our content to Phoenix TV.

Table of Contents

Data Analysis Technology. Based on commercial big data, we developed a data analytical system which has successfully helped build a comprehensive analytical chain of big data and helping us achieve our goals of making precise and efficient commercial strategy decisions. This system delivers comprehensive and consultative data ranging from distribution channel, content to manpower. We can access advertising exposure data as well as clicks and its corresponding costs on all business platforms, such as our PC websites, mobile applications and mobile websites. In addition, this system possesses flexible mechanics for organizing and analyzing data, with relatively lower cost.

Cloud Computing. Our technology department began researching the use of a cloud computing system in 2011 to modify our network and system infrastructure and lower our content delivery and system maintenance costs. We have built a distributed file system, which provides file access services to our content management system, and is anticipated to become a streaming media service and core storage system for each of our CDN nodes. We have commenced our distributed computing platforms project, which provide large-scale computer capacity support for our raw access log and transcoding computing-intensive applications. We have also deployed an open source virtualization cluster to integrate multiple small applications, which significantly reduced our IT costs.

Intelligent Recommender System (IRS). Our technical department developed a real-time, personalized recommender system, which produce a list of contents through collaborative and content-based filtering, to predict contents that the user may have an interest in, and to recommend additional items with similar properties. Powered by cutting-edge algorithm technology, we are able to provide useful and relative news and information to our users, and also well-equipped to provide enhanced advertising solutions that target users based on their exhibited preferences.

Competition

We operate in the market of PC and mobile Internet content and services in China. The industry is highly competitive and rapidly changing due to the fast growing market and technological developments. Our ability to compete successfully depends on many factors, including the quality and relevance of our content, the demographic composition of our users, brand recognition and reputation, user experience, the robustness of our technology platforms, our ability to provide innovative advertising services to our customers and our relationships with our advertisers.

While we believe that our integrated platforms business model and targeted user base is unique, on the whole, from other companies in China, we compete with other content and service providers in each of our individual channels for user traffic, advertising revenues and fee-based services. In Internet content and service provision, we compete primarily with NetEase, Inc., Sina Corporation, Sohu.com Inc. and Tencent Technology Limited. Besides, especially among mobile news and information application and personalized feed application, we primarily compete against Jinri Toutiao, Alibaba Group (UC Toutiao) and Baidu Inc. In terms of video content and service provision, we compete with a number of online video companies, including Jinri Toutiao, Kuaishou short video, Youku Tudou Inc., iqiyi.com, Sohu video and QQ video.

We also compete with traditional advertising media, such as television, radio, print media, as well as billboards and other forms of outdoor media. We expect large companies proportionate spending on new media advertising of their advertising budgets relative to traditional media advertising to continue increase in the future.

Intellectual Property

We rely on a combination of trademark, copyright and trade secret protection laws in China and other jurisdictions, as well as confidentiality procedures and contractual provisions to protect our intellectual property and our brand. We also enter into confidentiality, non-compete and invention assignment agreements with our employees and consultants and nondisclosure agreements with selected third parties. We had 160 PRC software registrations and owned 36 domain names, including ifeng.com, as of March 31, 2018.

Table of Contents

We have also designed proprietary logos for use in the respective businesses of Tianying Jiuzhou and Yifeng Lianhe. As of March 31, 2018, Tianying Jiuzhou owned 189 PRC registered trademarks, six of which were transferred from Phoenix Satellite Trademark Limited, and Yifeng Lianhe owned 20 PRC registered trademarks. In addition, Tianying Jiuzhou had submitted 293 registration applications relating to 57 logo designs to the PRC Trademark Office. Tianying Jiuzhou and Yifeng Lianhe continue to use certain of Phoenix TV's logos that are licensed from Phoenix Satellite Television Trademark Limited. Therefore, we are currently not in compliance with a notice of the MIIT which requires ICP License-holders to own the trademarks used in their value-added telecommunications businesses. For information about the risks related to our use of licensed trademarks and our plans to remedy such risks, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Our affiliated consolidated entities and their respective shareholders do not own all the trademarks used in their value-added telecommunications services, which may subject them to revocation of their licenses or other penalties or sanctions.

Employees

We had approximately 1,521, 1,528 and 1,402 employees as of December 31, 2015, 2016 and 2017, respectively. The table below sets forth the number of employees categorized by function as of December 31, 2017:

Function	Number of Employees
Management and administration	198
Content development	389
Mobile products and services	173
Technology and product development	320
Sales and marketing	322
Total	1,402

As of December 31, 2017, we had 1,261, 70 and 60 employees located in Beijing, Shanghai and Guangzhou, respectively, and 11 employees located in other locations in China. Currently we do not have any employees located outside of China.

Since our inception, we have not experienced any strikes or other disruptions of employment. We believe our relationships with our employees are good.

The remuneration package of our employees includes salary, bonus, share-based compensation and other cash benefits. In accordance with applicable regulations in China, we participate in a pension contribution plan, a medical insurance plan, an unemployment insurance plan, a personal injury insurance plan, maternity insurance and a housing reserve fund for the benefit of all of our employees.

Legal and Administrative Proceedings

From time to time, we are involved in claims and legal proceedings that arise in the ordinary course of business. We are currently a party to certain legal proceedings and claims which in the opinion of our management, adequate provisions have been recorded to cover the probable loss of those that can be reasonably estimated, while other claims are considered would not have material adverse effect, individually or in the

Edgar Filing: Phoenix New Media Ltd - Form 20-F

aggregate, on our financial position, results of operations or cash flows. From January 1, 2017 to March 31, 2018, we have been subject to 95 cases in the PRC, 67 of which have been concluded. The aggregate amount of damages awards and settlements paid by us was RMB5.5million. Government authorities may also impose administrative penalties on us if they find that we have infringed third parties' intellectual property rights.

Table of Contents

In October 2015, the National Copyright Bureau imposed a fine of RMB250,000 on one of our consolidated affiliated entities for disseminating on our PC websites, mobile applications and mobile websites one work of literature that we licensed from third parties that were alleged to have no legal rights to license such work. In November 2016, China Youth Book Inc. and Dewey Press LLC filed a claim against Tianying Jiuzhou and our company for intellectual property infringement of such work, the related claim for damage was approximately RMB235.8 million, however, the actual income we generated from such work was less than RMB1,500. This claim was withdrawn by the plaintiffs in January 2018. In April 2018, we received notices from the local court that the plaintiffs have filed a lawsuit against us again for the same claim, with the related claim for damages reduced to approximately RMB99.8 million. As of the date of this annual report, this case is still pending. In 2017, we received some complaints and claims from third parties alleging intellectual property infringements by us; however, some of the complainants have not provided necessary proofs of title and infringement. We are still negotiating with such complainants and some of these claims are still pending as of the date of this annual report.

Litigation is subject to inherent uncertainties and our view of these matters may change in the future. There exists the possibility of a material adverse impact on our financial position, results of operations or cash flows for the period in which the unfavorable outcome occurs, and potentially in future periods.

Facilities

Our executive office is located at Sinolight Plaza, Floor 16, No. 4 Qiyang Road, Wangjing, Chaoyang District, Beijing 100102, People's Republic of China. We maintain a number of offices in Beijing, Shanghai and Guangzhou under leases with terms ranging from one to five years.

The following table describes each of our major offices as of December 31, 2017:

Location	Space (in square meters)	Usage of Property	Expiration Dates
Beijing	15,002	Office	July 15, 2022
Guangzhou	1,161	Office	August 31, 2018
Shanghai	1,006	Office	May 31, 2019

We believe that our leased facilities are adequate to meet our needs for the foreseeable future, and that we will be able to obtain adequate facilities, principally through leasing of additional properties, to accommodate our future expansions.

Regulatory Matters

The following is a summary of the most significant PRC laws and regulations that affect our business activities in China or our shareholders' rights to receive dividends and other distributions from us.

Draft Foreign Investment Law

On January 19, 2015, the MOFCOM published the Draft FIL, on its official websites for public comments, which mainly covers: (i) definition of foreign investors and foreign investments, (ii) market entry clearance, (iii) national security review, (iv) information reporting, (v) investment promotion and protection as well as handling of complaints, (vi) legal liabilities and (vii) other general and miscellaneous provisions. The MOFCOM also published an explanatory note to the Draft FIL on its official websites. The Draft FIL, once enacted, will eventually replace the trio of the *Sino-foreign Equity Joint Venture Enterprise Law*, the *Sino-foreign Cooperative Joint Venture Enterprise Law* and the *Wholly Foreign-invested Enterprise Law* as well as their implementation rules and ancillary regulations, and will consolidate and simplify the various regulatory requirements on foreign investments.

The Draft FIL embodies an expected PRC regulatory trend to rationalize its foreign investment regulatory regime in alignment with international practice and the legislative efforts to unify the corporate legal requirements for both foreign and domestic investments, and thus the Draft FIL will have a far-reaching and significant impact upon foreign investments by fundamentally reshaping the entire PRC foreign investment regulatory regime. The Draft FIL includes, among others, the following key points:

- The Draft FIL expands the definition of foreign investment and introduces the principle of actual control in determining whether an investment is considered a foreign investment or domestic investment. An entity established in China but controlled by foreign entities and/or citizens will be treated as a foreign investor, whereas an entity set up in a foreign jurisdiction but controlled by PRC entities and/or citizens would nonetheless be treated as a PRC domestic investor, provided that the entity obtains such determination upon market entry clearance by the competent foreign investment authority.

Table of Contents

- The existing comprehensive approval system of foreign investments will be replaced by an entry clearance system in relation to foreign investments in the industries within the negative list and an information reporting system. The negative list will only comprise of two categories: the prohibited industries and the restricted industries; foreign investments in industries not listed in the negative list will not be required to apply for entry clearance or make record filing and will only be required to submit information reports. In the future, the negative list to be issued by State Council may replace the current Guidance Catalogue of Industries for Foreign Investments. The information reporting system includes the investment implementation reporting, investment amendment reporting, annual reporting and quarterly reporting. The scope of the information reporting is very extensive under the Draft FIL. In addition, any non-compliance with the information reporting obligations, concealing true information, or providing misleading or false information will be subject to monetary fines or criminal charges, depending on the seriousness of circumstances, and the persons directly responsible may also be criminally liable.
- All differences in the corporate governance requirements that currently apply to foreign invested and domestic enterprises will be removed, leaving only the requirements under the PRC Company Law, with which all foreign invested and domestic enterprises must comply.
- The national security review will be incorporated as a separate chapter and may replace the existing regulations and rules issued by the State Council or the MOFCOM. Compared with the existing regulations and rules, the scope of national security review is wider under the Draft FIL.
- The VIE structure will fall into the jurisdiction of the Draft FIL, and certain potential solutions was proposed to apply to the existing VIE structures. See Item 3. Key Information D. Risk Factors Risks Relating to Doing Business in China Substantial uncertainties exist with respect to the enactment timetable, interpretation and implementation of the draft Foreign Investment Law and how it may impact the viability of our current corporate structure, corporate governance and business operations.

Although only a first draft has been released for public comments, it is already apparent that the Draft FIL will fundamentally change the current foreign investment regulatory landscape. There is no definitive timeline for this law to be officially promulgated by the PRC legislature and the current draft may need to undergo significant amendment before the law is finally passed. Accordingly, substantial uncertainties still exist with respect to the enactment timetable, interpretation and implementation of this new law.

Regulation of Telecommunications and Internet Information Services

The telecommunications industry, including the Internet sector, is highly regulated in the PRC. Regulations issued or implemented by the State Council, the Ministry of Industry and Information Technology, or MIIT (formerly the Ministry of Information Industry, or MII), and other relevant government authorities cover many aspects of operation of telecommunications and Internet information services, including entry into the telecommunications industry, the scope of permissible business activities, licenses and permits for various business activities and foreign

investment.

The principal regulations governing the telecommunications and Internet information services we provide in the PRC include:

Telecommunications Regulations (2016, revised), or the Telecom Regulations. The Telecom Regulations categorize all telecommunications businesses in the PRC as either basic or value-added. Value-added telecommunications services are defined as telecommunications and information services provided through public network infrastructures. The currently effective *Catalog of Telecommunications Business*, an attachment to the Telecom Regulations, categorizes various types of telecommunications and telecommunications-related activities into basic or value-added telecommunications services, according to which, Internet information services, or ICP services, are classified as value-added telecommunications businesses. Under the Telecom Regulations, commercial operators of value-added telecommunications services must first obtain an operating license for value-added telecommunications services, or the ICP License, from MIIT or its provincial level counterparts.

Table of Contents

Administrative Measures on Internet Information Services (2011, revised), or the Internet Measures. According to the Internet Measures, a commercial ICP service operator must obtain an ICP License from MIIT or its provincial level counterparts before engaging in any commercial ICP service in PRC. When the ICP service involves areas of news, publication, education, medicine, health, pharmaceuticals, medical equipment and other industry and, if required by relevant laws and regulations, prior approval from the respective regulatory authorities must be obtained prior to applying for the ICP License. Moreover, an ICP service operator must display its ICP License number in a conspicuous location on its websites.

Administrative Measures for Telecommunications Business Operating License (2017, revised), or the Telecom License Measures. Pursuant to the Telecom License Measures, an ICP service operator conducting business within a single province must apply for the ICP License from MIIT's applicable provincial level counterpart, while that providing ICP services across provinces must apply for Trans-regional ICP License directly from MIIT. The appendix to the ICP License should detail the permitted activities to be conducted by the ICP service operator. An approved ICP service operator must conduct its business in accordance with the specifications recorded on its ICP License. The ICP License is subject to annual report, an ICP service operator shall report certain information to the issuing authorities through the Administrative Platforms in the first quarter every year, such information includes the business performance of the telecommunications business in the previous year; the actual progress in network building-up, business development, turnover of staff and institutional restructuring; the service quality; the actual implementation of the network and information security guarantee systems and measures; the actual implementation of the relevant provisions of MIIT and other information required to be reported to the issuing authorities. An ICP service operator shall be responsible for the authenticity of the information in the annual report.

Regulations for Administration of Foreign-Invested Telecommunications Enterprises (2016, revised), or the FITE Regulations. Under the FITE Regulations, a foreign entity is prohibited from owning more than 50% of the total equity interest in any value-added telecommunications service business in the PRC and the major foreign investor in any value-added telecommunications service business in the PRC shall have a good track record in such industry.

Notice on Strengthening the Administration of Foreign Investment in Value-added Telecommunications Services (2006), or the MIIT 2006 Notice. Under the MIIT 2006 Notice, a domestic PRC company that holds an ICP License is prohibited from leasing, transferring or selling the ICP License to foreign investors in any form, and from providing any assistance, including providing resources, sites or facilities, to foreign investors that conduct value-added telecommunications business illegally in the PRC. Further, the domain names and registered trademarks used by an operating company providing value-added telecommunications service must be legally owned by such company and/or its shareholders. In addition, such company's operation premises and equipment should comply with its approved ICP License, and such company should establish and improve its internal Internet and information security policies and standards and emergency management procedures. After the promulgation of the MIIT 2006 Notice in July 2006, the MIIT issued a subsequent notice in October 2006, or the MIIT October Notice, urging value-added telecommunication service operators to conduct self-examination regarding any noncompliance with the MIIT 2006 Notice prior to November 1, 2006.

We have also designed proprietary logos for use in the respective businesses of Tianying Jiuzhou and Yifeng Lianhe. As of March 31, 2018, Tianying Jiuzhou owned 189 PRC registered trademarks, six of which were transferred to it from Phoenix Satellite Trademark Limited, and Yifeng Lianhe owned 20 PRC registered trademarks. In addition, Tianying Jiuzhou had submitted 293 registration applications relating to 57 logo designs to the PRC Trademark Office. Tianying Jiuzhou and Yifeng Lianhe continue to use certain of Phoenix TV's logos that are licensed from Phoenix Satellite Television Trademark Limited. Therefore, we are currently not in compliance with the MIIT 2006 Notice.

All Yifeng related trademarks used by our company have been transferred to Tianying Jiuzhou and Yifeng Lianhe. In addition, we will continue to examine the possibility of the transferring to our affiliated consolidated entities all or part of the ownership of additional licensed logos currently used by them in a manner that would meet the requirements of PRC trademark regulations in due course in the future. For information about the risks related to our use of licensed trademarks, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry. Our affiliated consolidated entities and their respective shareholders do not own all the trademarks used in their value-added telecommunications services, which may subject them to revocation of their licenses or other penalties or sanctions.

Measures for the Administration of Commercial Websites Filings for Record (2004). Under these measures, commercial websites operated by ICP service operators registered in Beijing must: (i) file with the Beijing Administration of Industry and Commerce and obtain electronic registration marks, and (ii) place the registration marks on their websites' homepages.

In order to comply with these PRC laws and regulations, we operate our commercial websites through Tianying Jiuzhou, one of our PRC affiliated consolidated entities. Tianying Jiuzhou holds an ICP License and owns the material domain names for our value-added telecommunications business. In addition, Tianying Jiuzhou completed the necessary filing with the relevant Administration of Industry and Commerce to obtain the electronic registration mark for our websites and has placed the registration mark on the websites homepage. Tianying Jiuzhou has completed all necessary registrations and approvals for its use of such material domain names.

Table of Contents

Under various laws and regulations governing ICP services, ICP services operators are required to monitor their websites. They may not produce, duplicate, post or disseminate any content that falls within the prohibited categories and must remove any such content from their websites, including any content that:

- opposes the fundamental principles determined in the PRC's Constitution;
- compromises state security, divulges state secrets, subverts state power or damages national unity;
- harms the dignity or interests of the State;
- incites ethnic hatred or racial discrimination or damages inter-ethnic unity;
- sabotages the PRC's religious policy or propagates heretical teachings or feudal superstitions;
- disseminates rumors, disturbs social order or disrupts social stability;
- propagates obscenity, pornography, gambling, violence, murder or fear or incites the commission of crimes;
- insults or slanders a third party or infringes upon the lawful rights and interests of a third party; or
- includes other content prohibited by laws or administrative regulations.

The PRC government may shut down the websites of ICP License holders that violate any of the above restrictions and requirements, revoke their ICP Licenses or impose other penalties pursuant to applicable law.

In order to comply with these PRC laws and regulations, we have adopted internal procedures to monitor content displayed on our PC websites, mobile applications and mobile websites. However, because the definition and interpretation of prohibited content is in many cases vague and subjective, it is not always possible to determine or predict what content might be prohibited under existing restrictions or restrictions that might be imposed in the future and we may be subject to penalties for such content. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry The Chinese government may prevent us from advertising or distributing content, including UGC, that it believes is inappropriate and we may be subject to penalties for such content or we may have to interrupt or stop the operation of our PC websites, mobile applications and mobile websites.

Regulation of Online Transmission of Audio-Visual Programs

On July 6, 2004, SARFT promulgated the *Measures for the Administration of Publication of Audio-Visual Programs through the Internet or Other Information Networks*, or the 2004 Internet A/V Measures, which was revised on August 28, 2015. The 2004 Internet A/V Measures apply to activities relating to the opening, broadcasting, integration, transmission or download of audio-visual programs via the Internet or other information networks. An applicant who engages in the business of transmitting audio-visual programs must obtain a license from SAPPRFT in accordance with its category of business, including receiving terminals, transmission networks and other items. Foreign-invested enterprises are not allowed to engage in the above business. Pursuant to the *Certain Decisions on the Entry of the Non-State-owned Capital into the Cultural Industry*, and the *Several Opinions on Canvassing Foreign Investment into the Cultural Sector* promulgated in 2005 non-State-owned capital and foreign investors are not allowed to conduct the business of transmitting audio-visual programs via an information network.

On December 20, 2007, SARFT and MII jointly promulgated the *Administrative Provisions on Internet Audio-visual Program Service*, or the Audio-visual Program Provisions, which came into effect on January 31, 2008 and was revised on August 28, 2015. The Audio-Visual Program Provisions apply to the provision of audio-visual program services to the public via the Internet (including mobile network) in China. Providers of Internet audio-visual program services are required to obtain a License for Online Transmission of Audio-Visual Programs issued by SAPPRFT or complete certain registration procedures with SAPPRFT. Providers of Internet audio-visual program services are generally required to be either State-owned or State-controlled by the PRC government, and the business to be carried out by such providers must satisfy the overall planning and guidance catalog for Internet audio-visual program service determined by SAPPRFT. In a press conference jointly held by SARFT and MII to answer questions with respect to the Audio-Visual Program Provisions in February 2008, SARFT and MII clarified that providers of Internet audio-visual program services who engaged in such services prior to the promulgation of the Audio-Visual Program Provisions are eligible to register their business and continue their operation of Internet audio-visual program services so long as such providers have not been in violation of laws and regulations.

Table of Contents

On May 21, 2008, SARFT issued a *Notice on Relevant Issues Concerning Application and Approval of Licenses for Online Transmission of Audio-Visual Programs*, which sets forth detailed provisions concerning the application and approval process for the License for Online Transmission of Audio-Visual Programs. The notice also states that providers of Internet audio-visual program services who engaged in such services prior to the promulgation of the Audio-Visual Program Provisions are eligible to apply for the license as long as their violation of the laws and regulations is minor and can be rectified in a timely manner and they have no records of violation during the three months prior to the promulgation of the Audio-Visual Program Provisions.

On December 28, 2007, SARFT issued the *Notice on Strengthening the Administration of TV Dramas and Films Transmitted via the Internet*, or the *Notice on Dramas and Films*. According to this notice, if audio-visual programs published to the public through an information network fall under the film and drama category, the requirements of the Permit for Issuance of TV Dramas, Permit for Public Projection of Films, Permit for Issuance of Cartoons or academic literature movies and Permit for Public Projection of Academic Literature Movies and TV Plays will apply accordingly. In addition, providers of such services should obtain prior consents from copyright owners of all such audio-visual programs.

Further, on March 31, 2009, SARFT issued the *Notice on Strengthening the Administration of the Content of Internet Audiovisual Programs*, or the *Notice on Content of A/V Programs*, which reiterates the requirement of obtaining the relevant permit for publishing audio-visual programs to the public through an information network, and prohibits certain types of Internet audio-visual programs from containing violence, pornography, gambling, terrorism, superstitious or other hazardous contents.

On April 25, 2016, SAPPRFT issued the *Administrative Provisions on Audio-Visual Program Services through Private Network and Targeted Communication*, which replaced 2004 Internet A/V Measures. Pursuant to these provisions, audio-visual program services through private network and targeted communication refer to radio and TV program and other audio-visual program services to a targeted audience with TV, and all types of handheld electronic equipment, etc., as terminal recipients, and through setting up virtual private network through local area networks and Internet or with Internet and other information networks as targeted transmission channels, including the provision of contents, integrated broadcast control, transmission and distribution, and other activities conducted by such forms as Internet protocol television (IPTV), private network mobile TV, and Internet TV. Any provider who engages in aforesaid service must obtain a license from SAPPRFT. Wholly foreign-owned enterprises, Sino-foreign joint ventures and Sino-foreign cooperative enterprises are not allowed to engage in the above business.

On March 10, 2017, SAPPRFT issued the *Internet Audio-visual Program Services Categories (Provisional)*, or the Provisional Categories, which classifies Internet audio-visual programs into four categories.

In order to comply with these laws and regulations, Tianying Jiuzhou submitted an application to SAPPRFT for the License for the Online Transmission of Audio-Visual Programs. However, we have not been granted such license as to the date of this annual report and cannot assure you that we may be able to obtain one. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Our lack of an Internet audio-visual program transmission license has exposed, and may continue to expose, us to administrative sanctions, including the banning of our paid mobile video services and video advertising services, which would materially and adversely affect our business and results of operation.

Regulation of Foreign Television Programs and Satellite Channels

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Broadcast of foreign television programs is strictly regulated by SAPPRFT. On August 11, 1997, the State Council promulgated the *Administrative Regulations on Television and Radio*, which was revised on March 1, 2017, under which any foreign television drama or other foreign television program to be broadcast by television or radio stations is subject to the prior inspection and approval by SAPPRFT or its authorized entities. On June 18, 2004, SARFT promulgated the *Administrative Measures on the Landing of Foreign Satellite Television Channels*, pursuant to which foreign satellite televisions channels can only be broadcast in three-star (or above) hotels for foreigners or departments exclusively for the residence of foreigners or other specific areas, and prior broadcasting approval for such limited landing must be obtained from SAPPRFT.

In addition, on September 23, 2004, SARFT promulgated the *Administrative Regulations on the Introduction and Broadcasting of Foreign Television Programs*, pursuant to which only organizations designated by SAPPRFT are qualified to apply to SAPPRFT or its authorized entities for introduction or broadcasting of foreign television dramas or foreign television programs. Approval of such application is subject to the general plan of SAPPRFT and the content of such foreign television dramas or programs may not in any way threaten the national security or violate any laws or regulations.

Table of Contents

The 2004 Internet A/V Measures explicitly prohibit Internet service providers from broadcasting any foreign television or radio program over an information network and state that any violation may result in warnings, monetary penalties or, in severe cases, criminal liabilities. On November 19, 2009, SARFT issued a notice to extend the prohibition to broadcasting foreign television programs via mobile phones. However, pursuant to several notices issued by SARFT, such as the *Notice on Dramas and Films* and the *Notice on Content of A/V Programs* referenced above under Regulation of Online Transmission of Audio-visual Programs, foreign audio-visual programs may be published to the public through the Internet, provided that such foreign audio-visual programs comply with the regulations on administration of radios, films and television, and that the relevant permits required by PRC laws and regulations, such as the Permit for Issuance of TV Dramas, Permit for Public Projection of Films, Permit for Issuance of Cartoons or academic literature movies and Permit for Public Projection of Academic Literature Movies and TV Plays, have been obtained for such foreign audio-visual programs. The promulgation of the *Notice on Dramas and Films* and the *Notice on Content of A/V Programs* implies that the absolute restriction against broadcasting foreign television or radio programs on the Internet as set forth in the 2004 Internet A/V Measures has been lifted.

On April 25, 2016, SAPPRFT issued the 2016 A/V Provisions, which replaced the 2004 Internet A/V Measures. The 2016 A/V Provisions does not explicitly regulate whether broadcasting foreign television program is permitted.

A substantial portion of the audio-visual programs and content on our PC websites, mobile applications and mobile websites are closely linked to or are online versions of the TV content of Phoenix TV and we currently do not have any approval from SAPPRFT for introducing and broadcasting foreign television programs into China and cannot assure you that we may be able to obtain such approval if required to do so. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Failure to obtain SAPPRFT's approval for introducing and broadcasting foreign television programs could have a material adverse effect on our ability to conduct our business.

Regulation of the Production of Radio and Television Programs

On July 19, 2004, SARFT promulgated the *Regulations on the Administration of Production of Radio and Television Programs*, or the Radio and TV Programs Regulations, which came into effect as of August 20, 2004 and was revised on August 28, 2015. Under the Radio and TV Programs Regulations, any entities that engage in the production of radio and television programs are required to apply for a license from SAPPRFT or its provincial branches. Entities with the Permit for Production and Operation of Radio and TV Programs must conduct their business operations in strict compliance with the approved scope of production and operation. Furthermore, entities other than radio and TV stations are strictly prohibited from producing radio and TV programs covering contemporary political news or similar subjects and columns.

Tianying Jiuzhou has been granted a Permit for Production and Operation of Radio and TV Programs, with a permitted scope including the production of animations, featured shows and entertainment programs.

Regulation of Online Cultural Activities, Online Games and Internet Music

The MOC promulgated the new *Provisional Measures on Administration of Internet Culture* on February 17, 2011, or the Internet Culture Measures, which became effective as of April 1, 2011 and the *Notice on Issues Relating to Implementing the Newly Amended Provisional Measures on Administration of Internet Culture* on March 18, 2011, replacing the relevant regulations promulgated in 2003. The Internet Culture Measures apply to entities that engage in activities related to online cultural products. Online cultural products are classified as cultural products

Edgar Filing: Phoenix New Media Ltd - Form 20-F

produced, disseminated and circulated via the Internet that include: (i) online cultural products specifically produced for the Internet, such as online music entertainment, network games, network performance programs, online performing arts, online artworks and online animation features and cartoons; and (ii) online cultural products that are converted from music entertainment, games, performance programs, performing arts, artworks and animation features and cartoons and disseminated via the Internet. Pursuant to the Internet Culture Measures, an entity that intends to commercially engage in any of the following types of activities are required to obtain an Online Culture Operating Permit from the applicable provincial level culture administrative authority:

- the production, duplication, import, distribution or broadcasting of online cultural products;

- the publication of online cultural products on the Internet or transmission of online cultural products via an information network, such as the Internet and mobile networks, to a computer, fixed-line or mobile phones, television sets or gaming consoles for the purpose of browsing, reviewing, using or downloading such products by online users;
or

- exhibitions or contests related to online cultural products.

Table of Contents

The *Administration Rules of Publication of Electronic Publication Rules*, or the Electronic Publication Rules, regulate the production, publishing and importation of electronic publication in the PRC and outline a licensing system for business operations involving electronic publishing. Under the Electronic Publication Rules and other regulations issued by GAPP, online games are classified as a type of electronic production and publishing of online games is required to be done by licensed electronic publishing entities with standard publication codes. If a PRC company is contractually authorized to publish foreign electronic publications, it must obtain the approval of, and register the copyright license contract with, SAPPRFT.

Pursuant to the *Tentative Administrative Measures on Internet Publication*, or the Internet Publication Measures, jointly promulgated by MII and GAPP and effective on August 1, 2002, Internet publishers must secure approval, or the Internet Publication license, from GAPP to conduct Internet publication activities, including operating of online games. In February 2016, the SAPPFRFT and the MIIT jointly issued the Administrative Measures on Network Publication, which took effect in March 2016 and replaced the Internet Publication Measures. Pursuant to the Administrative Measures on Network Publication, Internet publishers must be approved by and obtain a Network Publication Service License from SAPPFRFT in order to provide network publication services. In addition, the Administrative Measures on Network Publication does not stipulate explicitly whether the holder of Internet Publication License should reapply and obtain the Network Publication Service License within the valid term.

On September 28, 2009, GAPP and the National Office of Combating Pornography and Illegal Publications jointly published a circular prohibiting foreign investors from investing and engaging in the operation of online games services by any forms of wholly foreign-owned enterprise, Sino-foreign joint-venture or cooperation. Under this notice, foreign investors cannot control and participate in the operation of online games services provided by domestic companies in any indirect forms, such as incorporating other joint-ventures, signing relevant agreements, or providing technical supports. This circular further states that all the online games must be screened by SAPPFRFT through advanced approvals before they are operated online, and any updated online game versions or any change to the online games are subject to further approvals before they can be operated online.

On June 4, 2009, the MOC and MOFCOM jointly issued the *Notice on Strengthening the Administration of Online Game Virtual Currency*, or the Virtual Currency Notice, to regulate the trading of online game virtual currencies. The Virtual Currency Notice defines the meaning of virtual currency and places a set of restrictions on the trading and issuance of virtual currency. The Virtual Currency Notice also reiterates that virtual currency can only be provided to users in exchange for an RMB payment and can only be used to pay for virtual goods and services of the issuers. In addition, the Virtual Currency Notice states that online game operators are not allowed to give out virtual items or virtual currency through lottery-base activities, such as lucky draws, betting or random computer sampling, etc., in exchange for user's cash or virtual money. We provide extra free virtual currencies to game users as they buy virtual currencies from us. For more information regarding regulatory risks related to our online games business, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry. If we fail to obtain or maintain all applicable permits and approvals, or fail to comply with PRC regulations, relating to online games, our ability to conduct our online game business and certain other businesses could be affected and we could be subject to penalties and other administrative sanctions.

On June 3, 2010, the MOC issued the *Provisional Regulations for the Administration of Online Games*, which applies to business activities relating to online game development and operation and virtual currencies issuance and trading. Pursuant to this regulation, business entities are required to obtain an Online Culture Operating Permit prior to commencing their online game operation. Game operators must file separate applications for virtual currencies issuance and trading. Regarding virtual currencies trading, game operators can only issue virtual currencies in exchange of service they provide themselves rather than trading for service or products of the third parties. Game operators cannot appropriate advance payments from players. Game operators are not allowed to provide trading service of virtual currencies to minors. Records of all transactions in the accounts shall be kept for minimum 180 days.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

On December 2, 2016, the MOC issued *the Administrative Measures for Business Activities of Online Performances*, which became effective on January 1, 2017. According to these measures, the business of transmitting in real time the content of online games presented or narrated via information networks such as Internet, mobile communication networks and mobile Internet or uploading such contents for communication in the audio-visual form shall be administered as online performances. An operator of online performances shall apply for Online Culture Operating Permit with the competent provincial administrative cultural department, and the business scope indicated on the Online Culture Operating Permit shall clearly include online performances. In addition, an operator of online performances shall present the number of its Online Culture Operating Permit in a prominent position on the homepage of its websites.

Table of Contents

On December 1, 2016, MOC issued the *Circular of the Ministry of Culture on Regulating the Operations of Online Games and Strengthening Interim and Ex Post Regulation*, the MOC Online Games Regulation, which will become effect on May 1, 2017. Pursuant to the MOC Online Games Regulation, MOC further clarified the scope of operations of online games. Technical testing of online games conducted by an enterprise engaging in online games operations by means such as making the online games available for user registration, opening the fee-charging system of the online games, providing client-end software with direct server registration and login functions, etc. shall be deemed as the operations of online games. In addition, with respect to enterprises engaging in providing user systems, fee-charging systems, program downloading, publicity and promotion and other services for the online game products of another operating enterprise and participating in sharing the revenue from the operations of online games shall be deemed as engaging in joint operations, and shall bear corresponding liabilities. In addition, this circular standardizes the service for distributing the virtual props listed as below:

- Virtual props distributed by enterprises engaging in online games operations shall be managed pursuant to the provisions on virtual currencies of online games.

- Enterprises engaging in online games operations that intend to change the version of an online game, increase the types of virtual props, adjust the functions and use period of virtual props or hold temporary activities shall, via the official homepage of the online game or in conspicuous locations within the online game, promptly make public the name, functions, price, exchange rate and expiration date of each virtual prop involved, the corresponding ways for gifting, transferring or trading the virtual props and other relevant information.

- Enterprises engaging in online games operations that provide virtual props and value-added services of an online game by random selection shall not require users to participate by way of directly investing legal tender or the virtual currency of the online game.

- Enterprises engaging in online games operations shall publish the random selection results of participating users on the official websites of an online game or in conspicuous locations within the online game, and keep relevant records for at least 90 days for future inquiries by relevant departments.

- When providing virtual props and value-added services of an online game by way of random selection, an enterprise engaging in online games operations shall, at the same time, provide users with other means to obtain virtual props and value-added services of the same performance, such as by exchanging other virtual props, using the virtual currency of the online game to directly purchase virtual props, etc.

- Enterprises engaging in online games operations shall not provide users with services to exchange the virtual currency of an online game to legal tender or physical items, except where the said enterprise terminates the provision of online gaming products and services, and refunds the virtual currency not yet used by users in the form of legal tender or by other means acceptable to the users.

- Enterprises engaging in online games operations may not provide users with services to exchange virtual props into legal tender.

In addition, enterprises engaging in online games operations shall require online game users to register their real names by using valid identity documents and shall limit the amount that an online game user may top up each time in a single game, and send information that requires confirmation by users when they top up or engage in consumption, and shall indicate the contact details for protecting user rights and interests in conspicuous locations within an online game.

On November 20, 2006, the MOC issued *Several Suggestions on the Development and Administration of the Internet Music*, or the Suggestions, which became effective on November 20, 2006. The Suggestions, among other things, reiterate the requirement for Internet service providers to obtain an Online Culture Operating Permit to operate any business involving Internet music products. In addition, foreign investors are prohibited from operating Internet culture businesses. However, the laws and regulations on Internet music products are still evolving, and there have not been any provisions stipulating whether or how music videos will be regulated by the Suggestions.

On August 18, 2009, the MOC issued the *Notice on Strengthening and Improving the Content Review of Online Music*. According to this notice, only Internet culture operating entities approved by the MOC may engage in the production, release, dissemination (including providing direct links to music products) and importation of online music products. Online music content shall be reviewed by or filed with the MOC. Internet culture operating entities should establish a strict system for self-monitoring online music content and set up a special department in charge of such monitoring.

Table of Contents

Tianying Jiuzhou provides Internet music products on our PC websites, mobile applications and mobile websites. As of the date of this annual report, Tianying Jiuzhou has been granted an Online Culture Operating Permit with a permitted scope including the operation of online music, art and entertainment products, online game products (including virtual currencies for online games), art products, play performance, animation products and organization of exhibition or race of the online cultural products. However, the Online Culture Operating Permit does not cover the operation of online performances. Tianying Jiuzhou has also obtained an Internet Publication License from SAPPRFT with respect to books and periodicals published on the Internet, including the mobile Internet, and online and mobile games. For more information regarding regulatory risks of our online games business, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry. If we fail to obtain or maintain all applicable permits and approvals, or fail to comply with PRC regulations, relating to online games, our ability to conduct our online game business and certain other businesses could be affected and we could be subject to penalties and other administrative sanctions.

In addition, to comply with the laws and regulations on the content requirements of Internet music products, our content examination team reviews the content of online music products provided on our PC websites, mobile applications and mobile websites.

Regulation of Internet News Dissemination

Pursuant to the *Provisional Regulations for the Administration of Internet Websites Engaging in News Publication Services*, promulgated by the State Council Information Office, or the SCIO, and MII, which became effective as of November 6, 2000 websites established by non-news organizations may publish news released by certain official news agencies but may not publish news generated by themselves or news sourced elsewhere. In order to disseminate news, such websites must satisfy the relevant requirements set forth in the applicable regulations and have acquired approval from SCIO after securing permission from the news office of the provincial-level government. In addition, websites intending to publish news released by the aforementioned news agencies must enter into agreements with the respective organizations, and file copies of such agreements with the news office of the provincial-level government.

On November 4, 2016, the State Internet Information Office issued the *Provisions on the Administration of Online Live-streaming Services*, which became effective on December 1, 2016. According to these provisions, online live-streaming service providers shall obtain an Internet news license, and carry out Internet news information services within the permissible scope of the license; those who provide online performances, Internet video and audio programs and other online live-streaming services shall also obtain relevant licenses as required by laws and regulations. Online live-streaming service providers shall examine and verify the real identity information of online live-streaming service publishers and establish platforms for reviewing live-streaming content, exercise oversight over Internet news information live-streams and its interactive content following the principle of examination first and issuance later. In addition, online live-streaming service providers shall strengthen real-time management of live interactions and equip corresponding administrative staff.

On May 2, 2017, the CAC issued the *Provisions on Administration over the Internet News Information Services*, which became effective on June 1, 2017 and replaced the *Provisions for the Administration of Internet News Information Services*, promulgated by the SCIO, and MII, which became effective as of September 25, 2005. In addition, CAC issued the *Implementing Rules for the Administration of the Licensing for Internet News Information Services* on May 22, 2017, which became effective as of June 1, 2017. According to these regulations, Internet news information services are divided into three categories: collecting, editing and releasing Internet news information service; reposting Internet news information and providing platforms to disseminate such news information. Anyone who intends to provide the public with news information services on the Internet via Internet websites, applications, forums, blogs, micro-blogs, official accounts, instant messaging tools, network-based broadcast, etc. shall obtain an Internet news license, and is forbidden to carry out any activities concerning Internet news information services without the permit or beyond the permitted scope. Where such an applicant is an entity other than a news entity, or a party whose entity-in-charge is a news publicity department, the application shall first be subject to preliminary examination by the applicable cyberspace administrator at the provincial level, and thereafter be examined and approved by the CAC. No organization may establish the Internet news information service entity in the form of a Sino-foreign equity joint venture, Sino-foreign cooperative joint venture or wholly

Edgar Filing: Phoenix New Media Ltd - Form 20-F

foreign-invested enterprise. When an Internet news information service entity cooperates with a Sino-foreign equity joint venture, Sino-foreign cooperative joint venture or wholly foreign-invested enterprise, such cooperation shall be submitted to the CAC for security assessment. In addition, an Internet news information service provider shall request its users to submit their real identification information in accordance with the provisions of the Cyber Security Law, provided that it provides such users with a platform to disseminate news information on the Internet. Where any user refuses to provide its real identification information, the Internet news information service provider is not allowed to provide it with relevant services.

In order to comply with these laws and regulations, we submitted an application to CAC for the Internet news license. However, we have not been granted such license as of the date of this annual report and cannot assure you that we may be able to obtain one. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Our lack of an Internet news license may expose us to administrative sanctions, including an order to cease our Internet information services that provide political news or to cease the Internet access services provided by third parties to us.

Table of Contents

Regulation of Publication Operation

On March 25, 2011, GAPP and MOFCOM jointly issued the *Administrative Measures for the Publication Market*, or the Publication Market Measures (2011 Version), pursuant to which any entity or individual engaging in the wholesale or retail of books, newspaper, magazines, electronic publications and audio and video products must obtain an approval from the relevant press and publication administrative authority and receive a Publication Operation Permit. An enterprise that has obtained a Publication Operation Permit is not required to obtain any special permission if it utilizes the Internet and other information networks to sell such publications, but must file with the relevant press and publication administrative authority within 15 days following its commencement of operations on the Internet. Foreign investors may engage in the distribution of audio and video products in China only in the form of contractual joint ventures between foreign and Chinese investors. Due to these measures, we engage in retail of books, newspaper, magazines, electronic publications and audio and video products through Tianying Jiuzhou and wholesale and retail of books, newspaper, magazines and electronic publications through Yifeng Lianhe. Each of Tianying Jiuzhou and Yifeng Lianhe has obtained a Publication Operation Permit.

On May 31, 2016, SAPPRFT and MOFCOM jointly promulgated the *Administrative Measures for the Publication Market (2016 Version)*, or Publication Market Measures (2016 Version), which replaced the Publication Market Measures (2011 Version). According to the Publication Market Measures (2016 Version), entities and individuals engaged in the wholesale or retail of publications shall carry out the relevant activities on the strength of an operation permit for publications. Where an entity or individual is engaged in the distribution of publications via the Internet or other information networks, it or he/she shall obtain the operation permit for publications; where an entity or individual that has obtained the operation permit for publications is engaged in the distribution of publications via the Internet or other information networks within the approved business scope, it or he/she shall go through the record-filing formalities with the publication administrative department that granted approval within 15 days after launching the online distribution business. Pursuant to the Publication Market (2016 Version), foreign-invested enterprises are allowed to engage in the distribution of publications.

Regulation of Internet Publication

SAPPRFT is the government agency regulating publishing activities in the PRC. On June 27, 2002, MII and GAPP jointly promulgated the *Tentative Administration Measures on Internet Publication*, or the Internet Publication Measures, which took effect on August 1, 2002. The Internet Publication Measures require Internet publishers to secure approval, or the Internet Publication License, from SAPPRFT to conduct Internet publication activities. In February 2016, the SAPPRFT and the MIIT jointly issued the Administrative Measures on Network Publication, which took effect in March 2016 and replaced the Internet Publication Measure. The Administrative Measures on Network Publication further strengthen and expand supervision over and management of network publication services, and require Internet publishers to be approved by and obtain a Network Publication Service License from SAPPRFT. Pursuant to the Administrative Measures on Network Publication, network publication services refers to activities including providing network publications to the public through information network, and network publications refers to digitalized works with publishing features such as editing, producing and processing. The Administrative Measures on Network Publication also detailed qualifications and application procedures for obtaining a Network Publication Service License.

User generated content, the programs we select, produce and/or edit for users browsing, reading or downloading or our online games may be deemed a kind of Internet publication and the relevant authority could require us to obtain a Network Publication Service License. Tianying Jiuzhou has obtained an Internet Publication License from SAPPRFT. However, Yifeng Lianhe has not obtained this license. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry If we fail to obtain or maintain all applicable permits and approvals, or fail to comply with PRC regulations, relating to online games, our ability to conduct our online game business and certain other businesses could be affected and we could be subject to penalties and other administrative sanctions.

Regulation of Short Message Services

MII issued the *Notice on Certain Issues Regarding Standardizing Short Message Services* on April 15, 2004, specifying that only those information service providers holding the relevant license can provide short message services in the PRC. Such notice also specifies that information service providers shall examine the contents of short messages and automatically record and keep for five months the time of sending and receiving the short messages, the mobile numbers or codes of the sending terminal and receiving terminal of the short messages.

MIIT issued the *Administrative Provisions on Short Message Services for Communication* on May 19, 2015, which became effective on June 30, 2015. According to such provisions, an entity shall obtain relevant telecommunications business license (the relevant licenses) to engage in short message service.

Table of Contents

In order to comply with these laws and regulations, Tianying Jiuzhou and Yifeng Lianhe have obtained the relevant licenses, for provision of information via mobile networks. In addition, we have certain personnel to examine and screen on contents of short messages and keep the relevant records as required by the law.

Regulation of Telecommunications Networks Code Number Resources

On January 29, 2003, MII issued the *Administrative Measures on Telecommunications Networks Code Number Resources*, or the Code Number Measures, which was revised on September 23, 2014, to regulate code numbers, including those of mobile communications networks. According to such administrative measures, entities which apply for code numbers to be used in a trans-provincial range shall apply to MIIT, and entities which apply for code numbers to be used within provincial-level administrative regions shall apply to MIIT at the provincial level. Such administrative measures also specify the qualification requirements for code number applicants, required application materials and the application procedures.

In June 2006, MII issued the *Administrative Measures on Application, Distribution, Usage and Withdrawal of SMS Services Access Codes*. According to such administrative measures, the administration and usage of services relating to SMS short codes shall comply with the Code Number Measures. Such administrative measures also specify that operators who provide services relating to SMS short codes across provinces or in the territory of the whole country shall file with the relevant provincial-level counterparts of MII.

Each of Tianying Jiuzhou and Yifeng Lianhe has been granted the code numbers to be used in a trans-provincial range and has completed the filing in all of the provinces in the PRC.

Regulation of Certain Internet Content

Internet Medicine Information

The *Administration Measures on Internet Medicine Information Service* issued by The State Food and Drug Administration, or the SFDA, and related implementing rules and notices govern the classification, application, approval, contents, qualifications and requirements for Internet medicine information services. An ICP service operator that provides information regarding medicine or medical equipment must obtain an Internet Medicine Information Service Qualification Certificate from the applicable provincial level counterpart of SFDA.

Certain of our verticals contain medicine-related. We currently do not have such consent letter or qualification certificate, but have engaged an agency to assist us in applying for such certificate and consent letter. We cannot assure you that we may be able to obtain them. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Failure to obtain certain permits for our health and Chinese medicine verticals would subject us to penalties.

Regulation of Internet Privacy

The PRC Constitution states that PRC law protects the freedom and privacy of communications of citizens and prohibits the infringement of such rights. In recent years, PRC government authorities have passed regulations on Internet use to protect personal information from unauthorized disclosure. The Internet Measures prohibit an ICP service operator from insulting or slandering a third party or infringing upon the lawful rights and interests of a third party. The regulations also authorize the relevant telecommunications authorities to order ICP service operators to rectify unauthorized disclosures. ICP service operators are subject to legal liability if unauthorized disclosure results in damages or losses to users. The PRC government, however, has the power and authority to order ICP service operators to turn over personal information if an Internet user posts any prohibited content or engages in illegal activities on the Internet. Pursuant to the *Information Protection Decision* issued by the Standing Committee of the National People's Congress of the PRC and the *Order for the Protection of Telecommunication and Internet User Personal Information* issued by MIIT on July 16, 2013, or the Order, any collection and use of user personal information shall be subject to the consent of the user, abide by the principles of legality, rationality and necessity and be within the specified purposes, methods and scope. The *Information Protection Decision* and the Order further states that Internet service providers and other enterprises and institutions must keep users' personal information that is gathered in the course of their business activities confidential and are further prohibited from divulging, tampering or destroying of any such information, or selling or providing such information to other parties. Any violations of the *Information Protection Decision* or the Order may subject such companies to penalties such as warnings, fines, confiscation of its unlawful income, revocation of licenses, cancellation of filings, shutdown of their websites or even criminal liabilities.

Table of Contents

Our platforms are open to Internet users for uploading text and images. As a result, content posted by our users may expose us to allegations by third parties of invasion of privacy. Though our users agree not to use our services in a way that is illegal, given the volume of content uploaded, it is not possible to identify and remove all potentially infringing content uploaded by our users and we may therefore be subject to litigations or claims in connection with invasion of user privacy.

Regulation of Advertising Business

The State Administration for Industry and Commerce, or SAIC, is the government agency responsible for regulating advertising activities in the PRC.

According to *PRC Advertisement Law* and relevant rules and regulations, companies that engage in advertising activities must obtain from SAIC or its local branches a business license which specifically includes advertising within its business scope. PRC advertising laws and regulations set forth certain content requirements for advertisements in the PRC including, among other things, prohibitions on false or misleading content, superlative wording, socially destabilizing content or content involving obscenities, superstition, violence, discrimination or infringement of the public interest. Advertisers, advertising agencies, and advertising distributors are required to ensure that the content of the advertisements they prepare or distribute is true and in full compliance with applicable law. In providing advertising services, advertising operators and advertising distributors must review the supporting documents provided by advertisers for their advertisements and verify that the content of the advertisements complies with applicable PRC laws and regulations. Prior to distributing advertisements that are subject to government censorship and approval, advertising distributors are obligated to verify that such censorship has been performed and approval has been obtained. The release or delivery of advertisements through the Internet shall not impair the normal use of the users. Advertisements released in pop-up forms on a webpage and other forms shall indicate the close flag in prominent manner and ensure one-key close. Violation of these regulations may result in penalties, including fines, confiscation of advertising income, orders to cease dissemination of the advertisements and orders to eliminate the effect of illegal advertisement. In circumstances involving serious violations, SAIC or its local branches may revoke violators' licenses or permits for their advertising business operations.

On July 4, 2016, SAIC issued the *Interim Measures for the Administration of Internet Advertising* to regulate Internet advertising activities, which became effect on September 1, 2016. According to these measures, no advertisement of any medical treatment, medicines, foods for special medical purpose, medical apparatuses, pesticides, veterinary medicines, dietary supplement or other special commodities or services which are subject to examination by an advertising examination authority as stipulated by laws and regulations shall be published unless it has passed such examination. In addition, no entity or individual may publish any advertisement of over-the-counter medicines or tobacco by means of the Internet. An Internet advertisement shall be identifiable and clearly identified as an advertisement so that consumers will know that it is an advertisement. Paid search advertisements shall be clearly distinguished from natural search results. In addition, the following violations shall be forbidden in Internet advertising activities: providing or using any application programs or hardware to intercept, filter, cover, fast forward or otherwise restrict any authorized advertisement of other persons; using network pathways, network equipment or applications to disrupt the normal data transmission of advertisements, alter or block authorized advertisements of other persons or load advertisements without authorization; or using false statistical data, transmission effect or Internet medium prices to induce incorrect quotations, seek undue interests or damage the interests of other persons. Internet advertisement publishers shall verify related supporting documents, check the contents of the advertisement and be prohibited from publishing any advertisement with nonconforming contents or without all the necessary certification documents. Internet information service providers that are not involved in Internet advertising business activities but simply provide information services shall stop any attempt to publish an advertisement through their information services when they know, or should reasonably know, that such advertisement is illegal.

In November, 2017, the Standing Committee of the National People's Congress released a newly amended Anti-unfair Competition Law of the PRC, or the Anti-unfair Competition Law, which became effective on January 1, 2018. Such newly amended Anti-unfair Competition Law

Edgar Filing: Phoenix New Media Ltd - Form 20-F

further emphasize that a business operator that engage in production and business activities by taking advantage of the network shall abide all the provisions under Anti-unfair Competition Law, and shall not engage in any false or misleading publicity for its products. Violation of these provisions may subject the relevant business operators to various penalties, including an order from the competent governmental authorities to cease its illegal acts and impose a fine, or in case of a severe violation, revocation of business licenses.

Violation of these regulations may result in penalties, including fines, confiscation of advertising income, orders to cease dissemination of the advertisements and orders to eliminate the effect of illegal advertisement. In circumstances involving serious violations, SAIC or its local branches may revoke violators' licenses or permits for their advertising business operations.

Table of Contents

In order to comply with these laws and regulations, our advertising contracts require that all advertising agencies or advertisers that contract with us must examine the advertising content provided to us to ensure that such content are truthful, accurate and in full compliance with PRC laws and regulations. In addition, we have established a task force to review all advertising materials to ensure the content does not violate relevant laws and regulations before displaying such advertisements, and we also request relevant advertiser to provide proof of governmental approval if an advertisement is subject to special government review.

Regulation of Information Security and Censorship

Applicable PRC laws and regulations specifically prohibit the use of Internet infrastructure where it may breach public security, distribute content harmful to the stability of society or disclose state secrets. It is mandatory for Internet companies in the PRC to complete security filing procedures and regularly update information security and censorship systems for their websites with the local public security bureau. In addition, the newly amended *Law on Preservation of State Secrets*, which became effective on October 1, 2010, provides that whenever an Internet service provider detects any leakage of state secrets in the distribution of online information, it should stop the distribution of such information and report such violation to the state security and public security authorities. Upon request of state security, public security or state secrecy authorities, the Internet service provider must delete any contents on its websites that may lead to disclosure of state secrets. Failure to do so on a timely and adequate manner may subject the Internet service provider to liability and certain penalties enforced by the State Security Bureau, the Ministry of Public Security and/or MIIT or their respective local counterparts.

On June 28, 2016, the State Internet Information Office issued the *Administrative Provisions on Mobile Internet Applications Information Services*, which became effect on August 1, 2016, to further strengthen administration over mobile Internet applications information services. Pursuant to these provisions, owners or operators of mobile Internet applications that provide information services shall fulfill their information security management responsibilities strictly and perform their obligations listed as below:

- certify the identification information of registered users including their mobile telephone number based information under the principle of a real name backstage, and a freely-chosen name on stage;
- establish and perfect the mechanism for protecting users' information, and follow the principle of legality, rightfulness and necessity, indicate expressly the purpose, method and scope of collection and use and obtain the consents of users while collecting and using users' personal information;
- establish and perfect the mechanism for verifying and managing information contents, and in terms of any information content released that violates laws or regulations, take such measures as warning, restricting functions, suspending updates and closing accounts as the case may be, keep relevant records and report the same to relevant competent departments;
- safeguard users' right to know and to make choices when users are installing or using such applications, and refrain from starting such functions as collecting the information of users' location, accessing users' contacts, turning

on users' camera and recording sound, or any other function irrelevant to the services, nor forcefully install any other irrelevant application, for so long as users are not notified of the same clearly and do not give their consent;

- respect and protect intellectual property and refrain from producing or releasing any application that infringes others' intellectual property; and
- record the users' log information and keep the same for 60 days.

On November 7, 2016, the Standing Committee of the National People's Congress promulgated the Cyber Security Law to preserve cyberspace security and order. Pursuant to Cyber Security Law, network operators shall strictly keep confidential users' personal information that they have collected, and establish and improve systems to protect users' information. To collect and use personal information, network operators shall follow the principles of legitimacy, rightfulness and necessity, disclose their rules of data collection and use, clearly express the purposes, means and scope of collecting and using information, and obtain the consent of persons whose data is gathered. Network operators shall not gather personal information unrelated to the services they provide. Network operators shall not divulge, distort or damage the personal information they have collected, and shall not provide the personal information to others without the consent of the persons whose data is collected, except under circumstance where the information has been processed and cannot be recovered and thus it is impossible to match such information with specific persons. In addition, network operators shall perform the following security obligations according to the requirements of the classified protection system for cyber security to ensure that the network is free from interference, damage or unauthorized access, and prevent network data from being divulged, stolen or falsified:

Table of Contents

- formulate internal security management systems and operating instructions, determine the persons responsible for cyber security, and fulfill the responsibilities of cyber security protection;
- take technological measures to prevent computer viruses, network attacks, network intrusions and other actions endangering cyber security;
- take technological measures to monitor and record the network operation status and cyber security incidents, and preserve relevant web logs for no less than six months according to the provisions; and
- take measures such as data classification, as well as back-up and encryption of important data.

Violation of these laws and provisions may result in penalties, including fines, confiscation of illegal income. In circumstances involving serious violations, the competent telecommunication department, public security departments and other relevant authorities may order the network operators to suspend relevant business, stop the business for rectification or close down the websites, or revoke violators' licenses or permits for their business operations.

On August 25, 2017, the CAC promulgated the *Administrative Provisions on Internet Follow-up Comment Services*, which became effective on October 1, 2017, pursuant to which Internet follow-up comment services refers to the services of publishing transcripts, symbols, expressions, pictures, audio and video and other information offered by Internet websites, applications, interactive communication platforms and other types of communication platforms with news and public opinion property and social mobilization function by way of post, reply, message, bullet screen and using other means. The Internet follow-up comment service providers shall strictly assume the primary responsibilities and discharge the following obligations according to the law:

- verify the real identity information of registered users following the principle of using real name at foreground and volunteering to do so at background and forbid the provision of Internet follow-up comment services for users whose real identity information is not verified;
- establish and improve a user information protection system;
- establish a system of reviewing at first and then publishing comments if the service providers offer Internet follow-up comment services to news information;

- establish and improve an Internet follow-up comment review and administration, real-time check, emergency response and other information security administration systems, timely identify and process illicit information and submit a report to the relevant competent authorities;
- develop Internet follow-up comment information protection and administration technologies, timely identify security flaws and loopholes and other risks existing in Internet follow-up comment services, take remedial measures and submit a report to the relevant competent authorities; and
- build a reviewing and editing team in line with service scale and improve the professionalism of editors.

In addition, on August 25, 2017, the CAC promulgated the *Administrative Provisions on Internet Forum and Community Services*, which became effective on October 1, 2017, pursuant to which the Internet forum and community service providers shall assume the primary responsibility for establishing and improving the information check and verification, public information real-time check, emergency response and personal information protection and other information security administration systems, institute safe and controllable preventative measures, employ professionals in line with their service scale, and provide necessary technical support for the relevant departments in performing duties according to the law. The Internet forum and community service providers shall not use Internet forum and community services to publish or disseminate information banned by laws, regulations and the relevant provisions of the state. Where the Internet forum and community service providers identify any aforementioned information, they shall cease the transmission of such information forthwith, take deletion and other handling measures, retain the relevant records and timely submit a report to the CAC or its local counterparts.

To comply with these laws and regulations, we have completed the mandatory security filing procedures with the local public security authorities, and regularly updated the information security and content-filtering systems with newly issued content restrictions as required by the relevant laws and regulations. However, not all of our users have registered their real names by using valid identity documents, we may be ordered to effect rectification by the relevant competent authorities; where we fail to effect rectification or if the circumstances are serious, a fine of no less than RMB50,000 but no more than RMB500,000 may be imposed, and the relevant competent authorities may order us to suspend operation, stop doing business for internal rectification, close down the website, or may revoke relevant business permits or business licenses; and a fine of no less than RMB10,000 but no more than RMB100,000 may be imposed on the persons directly in charge and other directly responsible persons.

Table of Contents

Regulation of Internet Copyrights

In order to address copyright issues relating to the Internet, in December 2012, the PRC Supreme People's Court adopted the *Provisions on Certain Issues Concerning the Applicable Laws in the Trial of Civil Cases Involving Disputes over Infringement of the Right of Dissemination through Information Networks*, or the Provisions, which provides that the courts will require ICP service providers to remove not only links or content that have been specifically mentioned in the notices of infringement from right holders, but also links or content they should have known to contain infringing content. The Provisions further provide that where an ICP service provider has directly obtained economic benefits from any content made available by an Internet user, it has a higher duty of care with respect to Internet users' infringement of third-party copyrights. According to the Copyright Law, an infringer may be subject to various consequences, which include stopping the infringement, eliminating the damages, apologizing to the copyright owners and compensating the loss of copyright owners. The *Copyright Law* further provides that the infringer shall compensate the actual loss suffered by the copyright owner. If the actual loss of the copyright owner is difficult to determine, the illegal income received by the infringer as a result of the infringement shall be deemed as the actual loss or if such illegal income is difficult to be determine, the court may decide the amount of the actual loss up to RMB500,000.

Under the applicable laws and regulations, where a copyright holder finds that any content communicated through the Internet infringes upon its copyright and sends a notice to the ICP service operator, the ICP service operator shall immediately take measures to remove the relevant content. Such ICP service operator is also required to retain all infringement notices for six months and to record the content, display time and IP addresses and the domain names related to the infringement for 60 days. Where an ICP service operator removes relevant content of an Internet content provider according to the notice of a copyright holder, the Internet content provider may deliver a counter-notice to both the ICP service operator and the copyright holder, stating that the removed contents do not infringe upon the copyright of other parties. After the delivery of such counter-notice, the ICP service operator may immediately reinstate the removed contents and shall not bear administrative legal liability for such reinstatement. Where an ICP service operator is clearly aware of the infringement by an Internet content provider of another's copyright through the Internet, or, although not being aware of such activity, fails to take measures to remove relevant contents upon receipt of the copyright owner's notice, and as a result, damages public interests, the ICP service operator could be subject to an order to stop the tortious act and other administrative penalties such as confiscation of illegal income and fines. Where there is no evidence to indicate that an ICP service operator is clearly aware of the facts of tort, or the ICP service operator has taken measures to remove relevant contents upon receipt of the copyright owner's notice, the ICP service provider shall not bear the relevant administrative legal liabilities.

Our content licensors and users have entered into agreements with us in which they make an undertaking not to provide or upload any contents that may have infringed on the copyright of any third parties. However, we cannot ensure you that our content licensors or users who upload contents to our PC websites, mobile applications and mobile websites will not infringe on the copyright of any third parties and we could delete any infringed contents in a time manner or at all. We may be consequently subject to copyright infringement claims arising thereof. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry We have been and expect we will continue to be exposed to intellectual property infringement and other claims, including claims based on content posted on our PC websites, mobile applications and mobile websites, which could be time-consuming and costly to defend and may result in substantial damage awards and/or court orders that may prevent us from continuing to provide certain of our existing services.

Regulation of Foreign Exchange Control and Administration

Under the *Foreign Exchange Administration Rules*, Renminbi is convertible for current account items, including the distribution of dividends, interest payments, trade and service-related foreign exchange transactions. As for capital account items, such as direct investments, loans, security investments and the repatriation of investment returns, however, the conversion of foreign currency is still subject to the approval of, or registration with, SAFE or its competent local branches. SAFE approval is not necessary for the conversion of Renminbi for foreign currency payments for current account items except as otherwise explicitly provided by laws and regulations. Under the *Administration Rules of the*

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Settlement, Sale and Payment of Foreign Exchange, enterprises may only buy, sell or remit foreign currencies at banks that are authorized to conduct foreign exchange business after the enterprise provides valid commercial documents and relevant supporting documents and, in the case of certain capital account transactions, after obtaining approval from SAFE or its competent local branches. If we provide loans to any of our PRC subsidiaries, the total amount of such loans may not exceed the difference between its total investment as approved by the foreign investment authorities and its registered capital at the time of the provision of such loans. Such loans need to be registered with the SAFE, which usually takes no more than 20 working days to complete. The cost of completing such registration is minimal. Capital investments by enterprises outside of the PRC are subject to further limitations, which include approvals by MOFCOM, SAFE and the National Development and Reform Commission, or their respective competent local branches.

Table of Contents

On August 29, 2008, SAFE issued the *Circular on the Relevant Operating Issues Concerning the Improvement of the Administration of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises*, or SAFE Circular 142. Pursuant to SAFE Circular 142, Renminbi capital obtained from settlement of the foreign currency capital of a foreign-invested enterprise must be used within the business scope as approved by the applicable government authority and unless otherwise specifically provided by law, such Renminbi capital cannot be used for domestic equity investments. In addition, SAFE strengthened its oversight of the flow and use of the Renminbi capital converted from foreign currency registered capital of a foreign-invested company. As a result, the use of such Renminbi capital may not be altered without the SAFE's approval, and such Renminbi capital may not be used to repay Renminbi loans if the relevant loan proceeds have not been used. As to the latest development, on March 30, 2015, SAFE issued the *Circular on the Management Concerning the Reform of the Payment and Settlement of Foreign Currency Capital of Foreign-Invested Enterprises*, or SAFE Circular 19, which became effective on June 1, 2015 and replaced SAFE Circular 142. Pursuant to SAFE Circular 19, up to 100% of foreign currency capital of foreign-invested enterprise may be converted into RMB capital according to the actual operation of the enterprise within the business scope at its will and the RMB capital converted from foreign currency registered capital of a foreign-invested enterprise may be used for equity investments within the PRC. However, under SAFE Circular 19, RMB capital converted from foreign currency registered capital of a foreign-invested company still may not in any case be used to advance the RMB entrusted loan or repay RMB loans if the proceeds of such loans have not been used.

On November 19, 2012, SAFE promulgated the *Circular of Further Improving and Adjusting Foreign Exchange Administration Policies on Foreign Direct Investment*, or SAFE Circular 59, which became effective on December 17, 2012. SAFE Circular 59 substantially amends and simplifies the current foreign exchange procedure. The major developments under SAFE Circular 59 are that the opening of various special purpose foreign exchange accounts, such as pre-establishment expenses accounts, foreign exchange capital accounts and guarantee accounts, no longer requires the approval of SAFE. Furthermore, multiple capital accounts for the same entity may be opened in different provinces, which was not possible before the issuance of SAFE Circular 59. The reinvestment of lawful incomes, such as profit and proceeds of equity transfer, capital reduction, liquidation and early repatriation of investment, by foreign investors in the PRC and the purchase and remittance of foreign exchange as a result of capital reduction, liquidation, early repatriation or share transfer in a foreign-invested enterprise no longer requires SAFE approval.

On May 10, 2013, SAFE promulgated the *Circular on Printing and Distributing the Provisions on Foreign Exchange Administration over Domestic Direct Investment by Foreign Investors and the Supporting Documents*, which specifies that the administration by SAFE or its local branches over direct investment by foreign investors in the PRC shall be conducted by way of registration. Institutions and individuals shall register with SAFE and/or its branches for their direct investment in the PRC. Banks shall process foreign exchange business relating to the direct investment in the PRC based on the registration information provided by SAFE and its branches.

On February 13, 2015, SAFE issued the *Circular on Further Simplifying and Improving the Foreign Exchange Administration Policies on Direct Investments*, or SAFE Circular 13, pursuant to which the administrative examination and approval procedures with SAFE or its local branches relating to the foreign exchange registration approval for domestic direct investments as well as overseas direct investments have been cancelled, and qualified banks are delegated the power to directly conduct such foreign exchange registrations under the supervision of SAFE or its local branches. SAFE Circular 13 took effect on June 1, 2015.

On April 26, 2016, SAFE issued the *Circular of the State Administration of Foreign Exchange on Further Promoting Trade and Investment Facility and Improving the Examination and Verification of the Authenticity*, pursuant to which when handling the remittance of profits exceeding the equivalent of US\$50,000 abroad for a domestic institution, a bank shall examine, according to the principle of transaction authenticity, the profit distribution resolution of the board of directors (or the profit distribution resolution of all partners) that is related to this remittance of profits abroad, the original of its tax record-filing form and the financial statements in proof of the profits involved in this remittance.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

On June 9, 2016, SAFE issued the *Circular of the State Administration of Foreign Exchange on Reforming and Regulating Policies on the Control over Foreign Exchange Settlement of Capital Accounts*, to promote nationwide the reform of control approaches to foreign exchange settlement of foreign debts of enterprises and in the meantime to unify and regulate control over discretionary settlement and payment of foreign exchange receipts under capital accounts. Pursuant to this circular, domestic enterprises (including foreign-invested enterprises) may go through foreign exchange settlement formalities for their foreign debts at their discretion. In addition, domestic institutions may, at their discretion, settle up to 100% of foreign exchange receipts under capital accounts for the time being.

Table of Contents***Regulation of Foreign Exchange Registration of Offshore Investment by PRC Residents***

On July 4, 2014, SAFE issued the *Circular on Several Issues Concerning Foreign Exchange Administration of Domestic Residents Engaging in Overseas Investment, Financing and Round-Trip Investment via Special Purpose Vehicles*, or SAFE Circular 37, which became effective on the same date. SAFE Circular 37 and its detailed guidelines require PRC residents to register with the local branch of SAFE before contributing their legally owned onshore or offshore assets or equity interest into any special purpose vehicle, or SPV, directly established, or indirectly controlled, by them for the purpose of investment or financing; and when there is (i) any change to the basic information of the SPV, such as any change relating to its individual PRC resident shareholders, name or operation period or (ii) any material change, such as increase or decrease in the share capital held by its individual PRC resident shareholders, a share transfer or exchange of the shares in the SPV, or a merger or split of the SPV, the PRC resident must register such changes with the local branch of SAFE on a timely basis. According to the relevant SAFE rules, failure to comply with the registration procedures set forth in SAFE Circular 37 may result in restrictions being imposed on the foreign exchange activities of the relevant onshore companies of SPVs, including the payment of dividends and other distributions to its offshore parent or affiliate and the capital inflow from such offshore entity, and may also subject the relevant PRC residents and onshore companies to penalties under PRC foreign exchange administration regulations. Further, failure to comply with various SAFE registration requirements described above would result in administrative penalties or even criminal liabilities under PRC laws. On February 13, 2015, SAFE issued SAFE Circular 13, which is the *Circular on Further Simplifying and Improving the Foreign Exchange Administration Policies on Direct Investments*. Under SAFE Circular 13, qualified banks are delegated the power to register all PRC residents' investments in SPVs pursuant to SAFE Circular 37, saving for supplementary registration application made by PRC residents who failed to comply with SAFE Circular 37, which shall still fall into the jurisdiction of the local branch of SAFE. SAFE Circular 13 took effect on June 1, 2015.

We understand that the aforesaid registration requirement under SAFE Circular 37, SAFE Circular 13 and the relevant implementing rules do not apply to our PRC subsidiaries or our PRC resident beneficial owners due to the following reasons: (i) our company was incorporated and controlled by Phoenix TV, a Hong Kong listed company, rather than any PRC residents defined under SAFE Circular 37, (ii) none of the former or current shareholders of our PRC affiliated consolidated entities established or acquired interest in our company by injecting the assets of, or equity interest in, our affiliated consolidated entities, and (iii) before the public listing of our ADSs all of our PRC resident beneficial owners obtained interest in our company through exercise of options granted to them under our share incentive plan. However, we cannot assure you that SAFE or its local branch would hold the same opinion with us and the relevant government authorities have broad discretion in interpreting these rules and regulations. See Item 3. Key Information D. Risk Factors Risk Relating to Doing Business in China. If the PRC government finds that our PRC beneficial owners are subject to the SAFE registration requirement under SAFE Circular 37 and the relevant implementing rules and our PRC beneficial owners fail to comply with such registration requirements, such PRC beneficial owners may be subject to personal liability, our ability to acquire PRC companies or to inject capital into our PRC subsidiaries may be limited, our PRC subsidiaries' ability to distribute profits to us may be limited, or our business may be otherwise materially and adversely affected.

SAFE Regulation of Stock Incentive Plan

On December 25, 2006, the People's Bank of China promulgated the *Administrative Measures for Individual Foreign Exchange*. On January 5, 2007, SAFE issued the *Implementation Rules of the Administrative Measures for Individual Foreign Exchange*, or the Individual Foreign Exchange Rules, which, among other things, specifies the approval requirements for a domestic individual's (including both PRC residents and non-PRC residents who reside in the PRC for a continuous period of not less than one year, excluding the foreign diplomatic personnel and representatives of international organizations) participation in employee stock plans or stock option plans of an overseas publicly listed company. On February 15, 2012, SAFE issued the *Notices on Issues concerning the Foreign Exchange Administration for Domestic Individuals Participating in Stock Incentive Plan of Overseas Publicly-Listed Company*, or the Stock Incentive Plan Rules, which terminated the *Processing Guidance on Foreign Exchange Administration of Domestic Individuals Participating in the Employee Stock Ownership Plans or Stock Option Plans of Overseas-Listed Companies* issued by SAFE on March 28, 2007. According to the Stock Incentive Plan Rules, if a domestic individual participates in any stock incentive plan of an overseas listed company, a qualified PRC domestic agent, which can be the PRC subsidiaries of such overseas listed company, shall, among other things, file, on behalf of such individual, an application with SAFE to conduct the SAFE registration with respect to such stock incentive plan, and obtain approval for an annual allowance with respect to the purchase of foreign

Edgar Filing: Phoenix New Media Ltd - Form 20-F

exchange in connection with the stock purchase or stock option exercise. Such PRC individuals' foreign exchange income received from the sale of stocks and dividends distributed by the overseas listed company and any other income shall be fully remitted into a collective foreign currency account in the PRC opened and managed by the PRC domestic agent before distribution to such individuals.

Table of Contents

Our employees who are domestic individuals and have been granted share options, or PRC optionees are subject to the Stock Incentive Plan Rules. Our stock incentive plan has been registered with SAFE when we listed in New York Stock Exchange, however, we cannot assure you that we will be able to complete relevant registration for other employees who participate such stock incentive plan in the future, in a timely manner or at all. If we or our PRC optionees fail to comply with the Individual Foreign Exchange Rules and the Stock Incentive Plan Rules, we and/or our PRC optionees may be subject to fines and other legal sanctions. We may also face regulatory uncertainties that could restrict our ability to adopt additional option plans for our directors and employees under PRC law. See Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry Failure to comply with PRC regulations regarding the registration requirements for stock incentive plans may subject the plan participants or us to fines and other legal or administrative sanctions.

Regulation of Dividend Distributions

Wholly foreign-owned enterprises in the PRC may pay dividends only out of their accumulated profits, if any, as determined in accordance with PRC accounting standards and regulations. In addition, a wholly foreign-owned enterprise in the PRC is required to set aside at least 10% of its after-tax profit based on PRC accounting standards each year to its general reserves until its cumulative total reserve funds reaches 50% of its registered capital. The board of directors of a wholly foreign-owned enterprise has the discretion to allocate a portion of its after-tax profits to its employee welfare and bonus funds. These reserve funds, however, may not be distributed as cash dividends. Under the CIT Law and its implementation rules, dividends payable by a foreign-invested enterprise in the PRC to its foreign investor who is a non-resident enterprise will be subject to a 10% withholding tax, unless any such foreign investor's jurisdiction of incorporation has a tax treaty with the PRC that provides for a lower withholding tax rate.

Regulation of Overseas Listings

On August 8, 2006, six PRC regulatory agencies, namely, MOFCOM, the State Assets Supervision and Administration Commission, the State Administration for Taxation, SAIC, CSRC and SAFE, jointly adopted the *Regulations on Mergers and Acquisitions of Domestic Enterprises by Foreign Investors*, or the M&A Rules, which became effective on September 8, 2006 and were amended in June 22, 2009. The M&A Rules purport, among other things, to require that offshore special purpose vehicles, or SPVs, that are controlled by PRC companies or individuals and that have been formed for overseas listing purposes through acquisitions of PRC domestic interest held by such PRC companies or individuals, to obtain the approval of the CSRC prior to publicly listing their securities on an overseas stock exchange. On September 21, 2006, the CSRC published a notice on its official websites specifying documents and materials required to be submitted to it by SPVs seeking CSRC approval of their overseas listings. While the application of the M&A Rules remains unclear, our PRC counsel has advised us that based on its understanding of the current PRC laws, rules and regulations and the M&A Rules, prior approval from the CSRC is not required under the M&A Rules for the listing and trading of our ADSs on the NYSE because we have not acquired any equity interest or assets of a PRC domestic company owned by PRC companies or individuals, as defined under the M&A Rules, that are our beneficial owners after the effective date of the M&A Rules.

However, our PRC counsel has further advised us uncertainties still exist as to how the M&A Rules will be interpreted and implemented and its opinions summarized above are subject to any new laws, rules and regulations or detailed implementations and interpretations in any form relating to the M&A Rules. If the CSRC or another PRC regulatory agency subsequently determines that prior CSRC approval was required, we may face regulatory actions or other sanctions from the CSRC or other PRC regulatory agencies. These regulatory agencies may impose fines and penalties on our operations, limit our operating privileges, delay or restrict the repatriation of the proceeds from our initial public offering into the PRC or payment or distribution of dividends by our PRC subsidiaries, or take other actions that could materially adversely affect our business, financial condition, operating results, reputation and prospects, as well as the trading price of our ADSs. If the CSRC later requires that we obtain its approval for our initial public offering, we may be unable to obtain a waiver of CSRC approval requirements, if and when procedures are established to obtain such a waiver. Any uncertainties or negative publicity regarding CSRC approval requirements could have a

material adverse effect on the trading price of our ADSs.

C. Organizational Structure

Our Corporate Structure

The following diagram illustrates our corporate structure as of the date of this annual report, including our subsidiaries, affiliated consolidated entities and their subsidiaries which are significant subsidiaries as defined in rule 1-02(w) of Regulation S-X:

Table of Contents

Aligned with our business strategies, we have made the following investments in subsidiaries, affiliates and other business alliance partners in various Internet-related businesses.

In March 2014, the IDG-Accel Funds acquired US\$3.0 million convertible preferred shares of Phoenix FM, previously a subsidiary of us, to accelerate development of the ifeng application business. Despite holding 100% ordinary shares of Phoenix FM, we accounted for our investment in Phoenix FM as an equity method investment since we did not control Phoenix FM due to substantive participating rights that have been provided to the IDG-Accel Funds. As of December 31, 2017, the carrying value of our equity investment in Phoenix FM was nil.

In April 2014, we established Fenghuang Jingcai, a company engaged in online lottery ticket distribution with capitalization of RMB2.0 million. Subsequently, we invested additional RMB2.5 million in Fenghuang Jingcai. In 2014 and 2016, Fenghuang Jingcai obtained capital injection from other independent third parties. We held approximately 31.54% of the equity interests in Fenghuang Jingcai as of December 31, 2017 and accounted it as an equity method investment. As of December 31, 2017, the carrying value of our equity investment in Fenghuang Jingcai was nil. We are unlikely to recover any value of Fenghuang Jingcai in the future.

In October 2014, we acquired Series B convertible redeemable preferred shares of Particle, representing 9.34% of the equity interest in Particle on an as-if converted basis, with a total cash consideration of US\$6.0 million. Particle operates Yidian, a personalized news and life-style information application in China that allows users to define and explore desired content on their mobile devices. In December 2014, we acquired

ordinary shares of Particle, representing 9.08% of the equity interest in Particle on an as-if converted basis, with a cash consideration of US\$5.0 million and a number of our ordinary shares with fair value of US\$2.8 million. In April 2015, we acquired Series C convertible redeemable preferred shares of Particle with a cash consideration of US\$30.0 million, and we also acquired additional ordinary shares and Class A ordinary shares of Particle from certain existing shareholders for an aggregate purchase price of US\$27.6 million. Following the transactions, also in April 2015, Particle repurchased all the ordinary shares and Class A ordinary shares held by us, including ordinary shares purchased by us in 2014, and issued to us one Series C convertible redeemable preferred share for each ordinary share or Class A ordinary share. In January and April 2016, we granted two unsecured short-term loans to Particle with an aggregate principal amount of US\$20.0 million, and we converted the principal amounts of these loans and all accrued interests with a total amount of US\$20.7 million into Series D1 convertible redeemable preferred shares of Particle in December 2016.

Table of Contents

As of the date hereof, we held Series B, Series C and Series D1 convertible redeemable preferred shares, which had been accounted for as available-for-sale investments, representing an aggregate of approximately 41.8% equity interest of Particle on an as-if converted basis. The fair value of our available-for-sale investments in Particle was RMB1,196.3 million (US\$183.9 million) as of December 31, 2017.

In December 2014, we lost control over Tianbo, a previously consolidated subsidiary, as the result of disposal of certain equity interests in Tianbo, and we currently still hold 50% of the equity interest of Tianbo. As we have significant influence over financial and operating decision-making after deconsolidation, we account for the retained 50% equity interests by using the equity method of accounting. Tianbo is principally engaged in operation of the real property channel and sales of real property advertisements for ifeng.com. As of December 31, 2016 and 2017, the carrying value of equity investment in Tianbo was RMB8.2 million and RMB15.1 million (US\$2.3 million), respectively.

In January 2015, in order to leverage our brand, content platform and large user base to expand into more entertainment related businesses, we established a new subsidiary, Meowpaw. Meowpaw is engaged in creating intellectual properties, related games, books, movies and animations, etc. As of the date of this annual report, we held 75% of Meowpaw's equity interest, and its noncontrolling shareholder, who is an individual, held the remaining 25%. Meowpaw's share capital was not sufficient to support its operations. In addition to the capital injection, we provided a long-term financing of RMB79.0 million to support its operations.

In January 2015, we acquired 5% equity interest of Lilita from a family member of the chairman of Phoenix TV, for an aggregate purchase price of RMB0.5 million. Lilita is principally engaged in P2P lending and reward-based crowd-funding businesses. In July 2016, Lilita completed its Series A round of financing and the percentage of our equity interest in Lilita decreased to 4.69%. We account for our equity interests in Lilita by using the cost method of accounting. Based on our other-than-temporary impairment assessment on equity investments and collectability assessment on the long overdue accounts receivables, we have fully written off our entire investment in Lilita with an amount of RMB0.5 million (US\$0.08 million) and made bad debt provision to receivable from Lilita with a total amount of RMB1.0 million (US\$0.2 million) in 2017.

In February 2015, we invested approximately RMB4.5 million in Hangzhou Qike, a company engaged in providing risk management and credit control assessment based on big data analysis to enterprises and eventually directly to individual customers. We hold 45% equity interest of Hangzhou Qike and account for it by using the equity method of accounting. Based on our other-than-temporary impairment assessment on equity investments, we have made impairment provisions in investment in Hangzhou Qike in 2017 and fully written off our entire investment in Hangzhou Qike with an amount of RMB0.04 million (US\$0.01 million), therefore, as of December 31, 2017, the carrying value of equity investment in Hangzhou Qike was nil.

In April 2015, we acquired 0.3% equity interest of Lifeix Inc., an Internet company that operates L99.com and Lifeix.com, for an aggregate purchase price of US\$1.0 million. We account for our equity investment in Lifeix by using the cost method of accounting. In December 2015, in view of business performance and near-term business outlook that were below our previous expectation, based on the other-than-temporary impairment assessment, we recorded an impairment loss of US\$1.0 million (RMB6.4 million) to fully write down the equity investment.

In August 2017, we acquired 8% equity interest of Kuailai with a consideration of RMB0.2 million (US\$0.04 million). Kuailai operates Xunhutai, a life-style information application in China.

Contractual Arrangements with Our Affiliated Consolidated Entities

Foreign investment in the Internet and mobile services industries is currently prohibited or restricted in China. As a Cayman Islands company, we do not qualify to conduct these businesses under PRC regulations. See [B. Business Overview](#) [Regulatory Matters](#). As a result, our business in China is operated through contractual arrangements with our affiliated consolidated entities.

We do not have any equity interests in Tianying Jiuzhou or its subsidiaries, Yifeng Lianhe, or Chenhuan or its subsidiaries. However, as a result of these contractual arrangements, we are the primary beneficiary of each of Tianying Jiuzhou, Yifeng Lianhe and Chenhuan and account for them as our affiliated consolidated entities under U.S. GAAP. Outstanding equity interests in Tianying Jiuzhou, Yifeng Lianhe and Chenhuan are held by Haiyan Qiao and Ximin Gao, Yinxia Liu and Yansheng He, and Haipeng Wu and Yansheng He respectively. Messrs. Qiao, Gao, Wu and He are all current employees of our company and have each been employed by us for approximately ten years. Ms. Liu is an employee of Zhongcheng Letian Property Development Company Ltd., a company founded by the chairman of Phoenix TV, Mr. Changle Liu. See [Item 3. Key Information](#) [D. Risk Factors](#) [Risks Relating to Our Corporate Structure](#). The shareholders of our affiliated consolidated entities may have potential conflicts of interest with us.

Table of Contents

We have consolidated the financial results of each of Tianying Jiuzhou and its subsidiaries, Yifeng Lianhe, and Chenhuan and its subsidiaries in our consolidated financial statements in accordance with U.S. GAAP. In 2017, Tianying Jiuzhou and its subsidiaries accounted for 47.0% of our total revenues, Yifeng Lianhe accounted for 0.9% of our total revenues, and Chenhuan and its subsidiaries accounted for 2.0% of our total revenues.

Overview of the Contractual Arrangements

The contractual arrangements among Fenghuang On-line, Qieyiyou, the affiliated consolidated entities and the shareholders of the affiliated consolidated entities enable us to:

- receive substantially all of the economic benefits from Tianying Jiuzhou and its subsidiaries, Yifeng Lianhe and Chenhuan and its subsidiaries in consideration for the technical and consulting services provided and intellectual property rights licensed by Fenghuang On-line;
- exercise effective control over Tianying Jiuzhou and its subsidiaries, Yifeng Lianhe, and Chenhuan and its subsidiaries; and
- have an exclusive option to purchase all of the equity interests in Tianying Jiuzhou, Yifeng Lianhe and Chenhuan when and to the extent permitted under PRC laws.

Agreements that Transfer Economic Benefits to Us

Exclusive Technical Consulting and Service Agreements. Under the exclusive technical consulting and service agreements between Fenghuang On-line and each of Tianying Jiuzhou and Yifeng Lianhe, or the Fenghuang On-line Technical Service Agreements, Fenghuang On-line has the exclusive right to provide designated technical and consulting services to the affiliated consolidated entities, including developing and upgrading various software, developing system technology, maintaining operational hardware and providing various training and consulting services, among other services. Third parties may only be engaged to provide the designated services to the affiliated consolidated entities under limited circumstances that are within the control of Fenghuang On-line.

The Fenghuang On-line Technical Service Agreements also transfer all of the economic benefit of intellectual property created by the relevant affiliated consolidated entities to Fenghuang On-line. To the extent that the relevant affiliated consolidated entities jointly develop business-related technologies with Fenghuang On-line or are entrusted by Fenghuang On-line to develop business-related technologies, the ownership and patent application rights for such technologies are vested in Fenghuang On-line. To extent that the relevant affiliated consolidated

entities develop business-related technologies independently, the relevant affiliated consolidated entities are required to promptly notify Fenghuang On-line of such technologies, and Fenghuang On-line has the right to purchase each such technology for RMB1 or the minimum purchase price permitted by then applicable law, or otherwise has priority rights with respect to any transfer or license of such technologies. In addition, Fenghuang On-line controls the patent applications of any business-related technologies created by the relevant affiliated consolidated entities.

The term of each Fenghuang On-line Technical Service Agreements is indefinite unless terminated by Fenghuang On-line by providing prior written notice to the relevant affiliated consolidated entity. The Fenghuang On-line Technical Service Agreements provide that the relevant affiliated consolidated entities cannot terminate such agreements under any circumstances or on any ground unless otherwise provided for by law.

The Fenghuang On-line Technical Service Agreements provide that any disputes shall be resolved by the parties through negotiation, and if the parties cannot reach an agreement within thirty days, the dispute shall be submitted to the China International Economic and Trade Arbitration Commission in Beijing. The arbitral awards shall be final and binding upon both parties.

On January 13, 2014, Qieyiyou, Chenhuan and each of the shareholders of Chenhuan entered into an exclusive technical consulting and service agreement, or Qieyiyou Technical Service Agreements (collectively with Fenghuang On-line Technical Service Agreements as the Technical Service Agreements). The Qieyiyou Technical Service Agreements contains terms substantially similar to the Fenghuang On-line Technical Service Agreements described above.

Table of Contents

Pursuant to the Technical Service Agreements, the affiliated consolidated entities have each agreed to pay to Fenghuang On-line or Qieyiyou an amount equal to a certain percentage of their respective annual revenues, plus a special service fee for certain services rendered by Fenghuang On-line or Qieyiyou at the request of the relevant affiliated consolidated entity. However, the Technical Service Agreements also provide that notwithstanding such agreement as to payment, the actual amount of the service fee may be adjusted upon mutual agreement of the parties. Historically, the affiliated consolidated entities have deducted relevant costs and expenses from the amount that is subject to the service fee payment. In 2015, 2016 and 2017, the affiliated consolidated entities transferred technical service fees of RMB236.4 million, RMB119.0 million and RMB39.0 million (US\$6.0 million), respectively, to Fenghuang On-line and Qieyiyou and their subsidiaries

Agreements that Provide Us with Effective Control and Grant Fenghuang On-line and Qieyiyou an Exclusive Option to Purchase all of the Equity Interests in the Respective Affiliated Consolidated Entities When and to the Extent Permitted Under PRC Laws

Voting Right Entrustment Agreements. Each of the Tianying Jiuzhou and Yifeng Lianhe, their respective shareholders and Fenghuang On-line have entered into a voting right entrustment agreement. Pursuant to the voting right entrustment agreements the shareholders of each relevant affiliated consolidated entity have granted a person designated by Fenghuang On-line, or the trustee, the right to exercise their rights as shareholders, including all voting rights, as well as rights to attend and propose the convening of shareholder meetings. Under the voting right entrustment agreements, the respective trustees have the right to access all information regarding the relevant affiliated consolidated entity's operation, business, clients, finances and employees, as well as their financial, business and corporate documentation.

The term of each voting right entrustment agreement is indefinite unless both parties agree to terminate the agreement in writing, or unless Fenghuang On-line decides in its discretion to terminate the relevant agreement after the relevant affiliated consolidated entity or one of its shareholders breaches the agreement and such breach is not remedied within ten days of receipt of written notice. The voting right entrustment agreements provide that the relevant affiliated consolidated entities cannot terminate such agreements under any circumstances or on any ground unless otherwise provided for by law.

The voting right entrustment agreements provide that any disputes shall be resolved by the parties through negotiation, and if the parties cannot reach an agreement within thirty days, the dispute shall be submitted to the China International Economic and Trade Arbitration Commission in Beijing. The arbitral awards shall be final and binding upon both parties.

On January 13, 2014, Qieyiyou, Chenhuan and each of the shareholders of Chenhuan entered into a voting right entrustment agreement. The voting right entrustment agreement contains terms substantially similar to the voting right entrustment agreement relating to Fenghuang On-line described above.

Exclusive Equity Option Agreements. Each of the Tianying Jiuzhou and Yifeng Lianhe, their respective shareholders and Fenghuang On-Line have entered into an exclusive equity option agreement, or equity option agreement, pursuant to which Fenghuang On-line has an irrevocable, unconditional and exclusive option to purchase, or to designate other persons to purchase from the shareholders, to the extent permitted by applicable PRC laws, rules and regulations, all of the equity interest in the affiliated consolidated entities. Fenghuang On-line may acquire all of the equity interest in the relevant affiliated entity through one purchase or a series of purchases, the timing, manner and frequency of which

are in Fenghuang On-line's discretion. The purchase price for the entire equity interest is to be calculated based on the paid-up amount of the relevant equity interest or the minimum price permitted by applicable PRC laws, rules and regulations. In addition, the amount borrowed by the respective shareholders from Fenghuang On-line for making the capital contributions to the relevant affiliated consolidated entities under the loan agreements, as described in Loan Agreements, shall offset the purchase price paid for any transfer of equity interest from the respective shareholders to Fenghuang On-line.

Under the equity option agreements, the shareholders have agreed that, without Fenghuang On-line's written consent, they will not take certain actions, including transferring any of their equity interests in the relevant affiliated consolidated entities, disposing or causing the relevant affiliated consolidated entities' management to dispose of any of the entities' tangible or intangible assets, terminating any material agreement to which the relevant affiliated consolidated entities are party, appointing or removing any of the relevant affiliated consolidated entities' directors, supervisors or management members, causing or endorsing the declaration or actual distribution of any profit, bonus, dividends or interests of the relevant affiliated consolidated entities, or causing or endorsing any lending or borrowing or provision of any guarantee or creation of any other security interest other than in the normal course of business, among other actions.

Table of Contents

The term of each equity option agreement will expire when all of the equity interests in the relevant affiliated consolidated entities have been duly transferred to Fenghuang On-line or its designated representative. In addition, the equity option agreements provide that neither of the relevant affiliated consolidated entities nor their shareholders may terminate such agreements under any circumstances or on any ground.

The equity option agreements provide that any disputes shall be resolved by the parties through negotiation, and if the parties cannot reach an agreement within thirty days, the dispute shall be submitted to the China International Economic and Trade Arbitration Commission in Beijing. The arbitral awards shall be final and binding upon both parties.

On January 13, 2014, Qieyiyou, Chenhuan and each of the shareholders of Chenhuan entered into an exclusive equity option agreement. The exclusive equity option agreement contains terms substantially similar to the exclusive equity option agreement relating to Fenghuang On-line described above.

Loan Agreements. Pursuant to the loan agreements among Fenghuang On-line and the respective shareholders of Tianying Jiuzhou and Yifeng Lianhe, Fenghuang On-line granted interest-free loans to the shareholders of the relevant affiliated consolidated entities in an amount equal to their respective capital contribution in the relevant affiliated consolidated entities. The loans can be repaid only with proceeds from the sale of all of the respective shareholder's equity interests in the applicable affiliated consolidated entity to Fenghuang On-line or its designated representatives pursuant to the applicable equity option agreement.

The term of each loan is ten years from the execution of the applicable loan agreement, and may be extended upon mutual agreement of the parties. Any disputes shall be resolved by the parties through negotiation, and if the parties cannot reach an agreement within thirty days, the dispute shall be submitted to the China International Economic and Trade Arbitration Commission in Beijing. The arbitral awards shall be final and binding upon both parties.

On January 13, 2015, Qieyiyou and the shareholders of Chenhuan entered into a loan agreement. The loan agreement contains terms substantially similar to the loan agreement relating to Fenghuang On-line described above.

Business Management Agreement. Pursuant to the business management agreement entered into by and among Chenhuan, its respective shareholders and Qieyiyou, Qieyiyou agrees to be the guarantor of Chenhuan in contracts, agreements or transactions entered into between Chenhuan and any third party in connection with Chenhuan's business and operations, to provide full guarantees for the performance of such contracts, agreements or transactions by Chenhuan. As counter-guarantee, Chenhuan agrees to pledge the accounts receivable in its operations and all of its assets to Qieyiyou. In addition, Qieyiyou has the exclusive right to nominate directors, general manager and other senior management of Chenhuan.

Equity Pledge Agreements. Each of Tianying Jiuzhou and Yifeng Lianhe, their respective shareholders and Fenghuang On-line, have entered into an equity pledge agreement. Under the equity pledge agreements, the shareholders have pledged their respective equity interests in the relevant affiliated consolidated entities to Fenghuang On-line to secure the performance of the obligations of the relevant affiliated consolidated entities and the shareholders under the applicable technical service agreements, voting right entrustment agreements, equity option agreements and loan agreements, including, among others, the payment of the service fees, the entrustment of the shareholders' voting rights in the affiliated consolidated entities, the conditional transfer of the shareholders' equity interests in the affiliated consolidated entities and the repayment of the shareholder loans with proceeds from the transfer of the shareholders' equity interests, respectively. In addition, the shareholders of Chenhuan and Qieyiyou have also entered into an equity pledge agreement, or Qieyiyou Equity Pledge Agreement, which is substantially similar to the equity pledge agreements of Tianying Jiuzhou and Yifeng Lianhe except that the amount of such guarantee under the Qieyiyou Equity Pledge Agreement is limited to an amount equal to the shareholders' respective capital contribution in the Chenhuan, and the scope of such guarantee is extended to cover the obligations of Chenhuan under the business management agreement, the Qieyiyou Equity Pledge Agreement contains terms substantially similar to the equity pledge agreement relating to Fenghuang On-line. All registrations necessary to secure the enforceability of each of the equity pledge agreements have been completed.

The term of each equity pledge agreement will expire when the secured obligations have been fully performed or released. Any disputes shall be resolved by the parties through negotiation, and if the parties cannot reach an agreement within thirty days, the dispute shall be submitted to the China International Economic and Trade Arbitration Commission in Beijing. The arbitral awards shall be final and binding upon both parties.

We have been advised by our PRC legal counsel, Zhong Lun Law Firm, that the structure for operating our business in China (including our corporate structure and our contractual arrangements with our affiliated consolidated entities) complies with all applicable PRC laws, rules and regulations, and does not violate, breach, contravene or otherwise conflict with any applicable PRC laws, rules or regulations. However, there are uncertainties regarding the interpretation and application of the relevant PRC laws, rules and regulations. Accordingly, there can be no assurance that the PRC regulatory authorities will not take a view that is contrary to the opinion of our PRC legal counsel. Our PRC legal counsel has further advised that if a PRC government authority determines that our corporate structure, the contractual arrangements or the reorganization to establish our current corporate structure violates any applicable PRC laws, rules or regulations, the contractual arrangements will become invalid or unenforceable, and we could be subject to severe penalties and required to obtain additional governmental approvals from the PRC regulatory authorities. See Item 3. Key Information D. Risk Factors Risks Relating to Our Corporate Structure If the PRC government finds that the agreements that establish the structure for operating our businesses in China do not comply with PRC governmental restrictions on foreign investment in Internet businesses, or if these regulations or the interpretation of existing regulations change in the future, we would be subject to severe penalties or be forced to relinquish our interests in those operations and Item 3. Key Information D. Risk Factors Risks Relating to Doing Business in China Uncertainties with respect to the PRC legal system could limit the protections available to you and us.

Our Relationship with Phoenix TV

We are currently a subsidiary of Phoenix TV, the leading Hong Kong-based satellite TV network broadcasting Chinese language content globally and into China. Phoenix TV owned 54.8% of our outstanding ordinary shares and 61.2% of the voting power of our ordinary shares as of March 31, 2018. Phoenix TV first reported its new media business as one of its business segments in its annual report submitted to the Hong Kong Stock Exchange for the year ended December 31, 2007.

Fenghuang On-line and Phoenix TV entered into a cooperation agreement, or the Phoenix TV Cooperation Agreement, on November 24, 2009, which expired on May 27, 2016. Under this agreement, Fenghuang On-line and Phoenix TV agreed to certain cooperative arrangements in the areas of content, branding promotion and technology. Pursuant to the Phoenix TV Cooperation Agreement, in November 2009 Tianying Jiuzhou and Yifeng Lianhe entered into a program content license agreement, or Content License Agreement, with Phoenix Satellite Television Company Limited and a trademark license agreement, or Old Trademark License Agreement, with Phoenix Satellite Television Trademark Limited. Considering the significant growth and changes in our business since execution of these agreements in 2009, we and Phoenix TV Group entered into a new set of agreements in May 2016 and December 2017, or the New Agreements, to amend and replace the previous agreements and provide the terms of our continued cooperation. The New Agreements include Program Resource License Agreements and Program Text/Graphics Resource License Agreements, or the Program License Agreements, between Phoenix Satellite Television Company Limited and each of Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network, and trademark license agreements by and among Phoenix Satellite Television Trademark Limited and each of Tianying Jiuzhou and Yifeng Lianhe, or the New Trademark License Agreements. Unlike the previous agreements, the New Agreements do not grant us the right to sublicense Phoenix TV Group's copyrighted content to third parties. While we are in the process of negotiating with Phoenix TV Group to potentially re-acquire such right of sublicense, we cannot assure you that we will be able to re-acquire such right at reasonable costs or at all.

Pursuant to the Program License Agreements, Phoenix TV Group agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network the license with priority over any third party to broadcast Phoenix TV Group's copyrighted video content from three television channels of Phoenix TV Group on ifeng.com (our main Internet channel), i.ifeng.com (a mobile Internet channel of ours), and ifeng News, ifeng Video and ifeng VIP (three mobile applications of ours) in China (excluding Hong Kong, Macau and Taiwan) concurrently with such content broadcasted on the three television channels of Phoenix TV Group. Phoenix TV Group also agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network a non-exclusive license to use Phoenix TV Group's copyrighted text and graphics on the same Internet and mobile channels of ours in China for which Phoenix TV Group's copyrighted video content license, above, was granted. These licenses help to distinguish our content offerings from those of other Internet and new media companies in China. The fees payable to Phoenix TV Group by us for all content licenses described above will be RMB10.0 million for the first year of the agreements, which will incrementally increase by 15% for each subsequent year of the agreements.

Each of the Program License Agreements has an initial term of three years and will expire on May 26, 2019 and may be renewed on an annual basis thereafter upon agreement of both parties. Each of the parties to the Program License Agreements has the right to terminate the Program License Agreements before their expiration date by 6-month prior written notice to the other party. In addition, each of the Program License Agreements can be terminated earlier (i) by the non-breaching party in the event of a breach and if the breach is not cured within ten business days after receipt of notice of breach from the non-breaching party, (ii) in the event of bankruptcy or the cessation of business operations of either party, or a change in the shareholder or equity structure of Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network, other than in connection with the contractual arrangements, (iii) by Phoenix Satellite Television Company Limited in the event that our shareholders or ownership structure change so that the shares held by Phoenix TV Group account for 50% or less of our actual total issued shares, or in the event that we lose control of Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network; or if Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network, as applicable, ceases business operation; (iv) if either party's performance of its obligations is held unlawful under PRC law; or (v) if an event occurs that adversely affects the performance by either party of its obligations and upon written notice by the unaffected party.

Table of Contents

In addition, Tianying Jiuzhou and Yifeng Lianhe are able to use certain of Phoenix TV Group's logos pursuant to the Old Trademark License Agreement and the New Trademark License Agreements. We believe that our use of these logos helps to affiliate us with the brand of Phoenix TV Group, which helps to enhance our own brand. Different from the Old Trademark License Agreement, however, the New Trademark License Agreements no longer allow us to use the double-phoenix logo of Phoenix TV Group on a stand-alone basis and increased the annual license fee payable to Phoenix TV Group from a total of US\$10,000 to the greater of 2% of the annual revenues of Tianying Jiuzhou or Yifeng Lianhe (as the case may be) or US\$100,000 for each company. For illustrative purpose only, Tianying Jiuzhou and Yifeng Lianhe had annual revenues of RMB570.4 million in 2016 and RMB413.8 million in 2017 in accordance with U.S.GAAP, which meant that the annual license fee payable to Phoenix TV Group would have been RMB11.4 million and RMB8.3 million in 2016 and 2017, respectively, if the New Trademark License Agreements had been implemented since January 2016. Each of the New Trademark License Agreements has an initial term of three years and may be extended prior to expiration of its term with the written confirmation of Phoenix TV Group, and may be terminated earlier by Phoenix TV Group in the event of a material breach by us of any covenant or a material failure by us to perform any of our obligation and if the breach or failure, as applicable, is not rectified within a reasonable time or ten days of receipt of written notice from Phoenix TV Group. For example, we may in practice use such logos beyond the scope authorized by Phoenix TV Group, which may constitute a breach of such agreements and cause Phoenix TV Group to terminate such New Trademark License Agreements. We cannot assure you that we will be able to continue to use Phoenix TV Group's logos in order to help maintain our brand affiliation with Phoenix TV Group. If our brand image deteriorates as a result of a weaker brand affiliation with Phoenix TV Group, our business and the price of your ADSs could be negatively affected.

We have a mutually beneficial relationship with Phoenix TV. We and Phoenix TV share a common vision of the convergence of traditional and new media channels, and work together to realize this vision. Phoenix TV enables us to display our proprietary content on its TV programs. We believe that our and Phoenix TV's active promotion of one another's brands on our respective Internet-enabled and TV platforms helps to grow our combined audience synergistically.

On February 17, 2014, our Chief Executive Officer Mr. Shuang Liu was also promoted to the position of Chief Operating Officer of Phoenix TV. The key initiative for his new position at Phoenix TV is to accelerate the convergence of TV, Internet and mobile platforms of the two companies. In his new role, Mr. Liu is tasked with strategizing, overseeing and allocating resources to implement this convergence strategy. Through this appointment, both companies can more seamlessly expand user reach on each of its media platforms, provide advertisers a one-stop shop solution, more effectively monetize the Phoenix brand across all verticals, and achieve greater cost synergies.

Although we believe that our interests and those of Phoenix TV are mostly aligned because Phoenix TV will continue to consolidate our financial results as long as Phoenix TV maintains a majority voting interest in our company, there may be conflicts of interest between our company and Phoenix TV from time to time. We may not be able to resolve any potential conflicts, and even if we do so, the resolution may be less favorable to us than if we were dealing with a non-controlling shareholder. For more information about our potential conflicts of interest with Phoenix TV, see Item 3. Key Information D. Risk Factors Risks Relating to Our Corporate Structure. We may have conflicts of interest with Phoenix TV and, because of Phoenix TV's controlling beneficial ownership interest in our company, may not be able to resolve such conflicts on terms favorable for us.

OPERATING AND FINANCIAL REVIEW AND

Unless otherwise states, the discussion and analysis of our financial condition and results of operation in this section apply to our financial information as prepared according to U.S. GAAP. You should read the following discussion and analysis of our financial condition and operating results in conjunction with our consolidated financial statements and the related notes included elsewhere in this annual report. The following discussion contains forward-looking statements based upon current expectations that involve risks and uncertainties. Our actual results and the timing of selected events may differ materially from those anticipated in these forward-looking statements as a result of various factors, including those set forth under Item 3. Key Information D. Risk Factors.

Table of Contents

Overview

We are a leading new media company providing premium content on an integrated Internet platform, including PC and mobile, in China. Having originated from a leading global Chinese language TV network based in Hong Kong, Phoenix TV, we enable consumers to access professional news and other quality information and UGC, on the Internet and through their PCs and mobile devices. We also transmit our UGC and in-house produced content to TV viewers primarily through Phoenix TV. Our PC channel includes major verticals such as news, fashion, military, finance, web-based games, and digital reading. Our mobile channel includes our mobile news application, mobile video application, HTML5-based mobile Internet websites, mobile digital reading application (Fanyue Novel), and before December 1, 2017, fashion application (Shizhuang App). We also act as a service provider for telecom operators, providing content and mobile value-added services. The appeal of our brand is enhanced by its affiliation with the Phoenix () brand of Phoenix TV.

According to iResearch, our number of PC daily unique visitors was 33.9 million, and number of monthly unique visitors was 277.4 million in December 2017. We have ranked third among all Internet portals in China in terms of daily unique visitors in December 2017, according to iResearch. According to our internal data, our aggregated mobile daily unique visitors from mobile websites i.ifeng.com and mobile applications reached 33 million in December 2017. We earn revenues from advertising and paid services, which accounted for 85.9% and 14.1% of our total revenues, respectively, in 2017.

Our net advertising revenues accounted for 76.2%, 85.3% and 85.9% of our total revenues in 2015, 2016 and 2017, respectively. We provide advertising services through PC channel and mobile channel, which accounted for 42.2% and 57.8% of our net advertising revenues respectively in 2017. We recognize revenues from our advertising services on a net basis, after deducting the agency service fees we pay to advertising agencies.

We see mobile devices as the primary gateway for news and other media content consumption going forward. In recent years, we have taken steps to evolve our business and shift our revenue mix towards our mobile channels, which we believe have greater potential for sustainable growth over the long term, and which have demonstrated robust growth in 2017. Our mobile advertising revenues increased by 46.5% to RMB781.8 million (US\$120.2 million) in 2017 from RMB533.8 million in 2016. As part of our mobile strategy, we invested in convertible redeemable preferred shares of Particle and accounted for the investments as available-for-sale investments. Particle operates Yidian, a personalized news and life-style information application in China that allows users to define and explore desired content on their mobile devices. By partnering with Yidian and by continuing to strengthen our core competencies of content production capability, dedication to serious journalism and cutting-edge technology, we believe that we will be better positioned to capitalize on emerging opportunities as increasing numbers of consumers in China use Internet-enabled mobile devices to consume news and other media content.

We offer a wide variety of paid services primarily through our mobile channel and operations with the telecom operators. We classify our paid services into (i) digital entertainment, which includes mobile value-added services delivered through telecom operators' platforms, or MVAS, and digital reading, and (ii) games and others, which includes web-based games, mobile games, content sales, and other online and mobile paid services through our own platforms. Prior to 2016, our paid service revenues mainly comprised of the revenues generated from MVAS and games and others. Digital reading was previously classified under games and others. In order to align with our overall strategies, in 2016, digital reading was re-classified from Games and others, and digital reading together with MVAS was determined as Digital entertainment. We derived 81.2% and 18.8% of our paid services revenues, respectively, from our digital entertainment and games and others in 2017. Due to an increase in revenues generated from digital reading business, our paid services revenues increased from RMB212.7 million in 2016 to RMB221.6 million (US\$34.1 million) in 2017.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Our business and operating results are affected by general factors affecting China's new media industry, which include China's overall economic growth, per capita disposable income, the trend of media convergence, growth of new media and its popularity as an advertising medium, growth of Internet (including mobile Internet) penetration, adoption of paid services, including 3G /4G mobile services, and smart phones. Unfavorable changes in any of these general industry conditions could negatively affect demand for our services and negatively and materially affect our operating results.

Our business, operating results, financial condition and future growth are more directly affected by company specific factors and trends, including:

Table of Contents

- our ability to maintain and expand our target user base;
- our ability to provide effective advertising services and enhance our pricing power;
- our ability to grow our paid services on both mobile operators' platforms and our own platforms; and
- our ability to procure and produce content in a cost-effective manner.

Critical Accounting Policies and Estimates

The following descriptions of critical accounting policies, judgments and estimates should be read in conjunction with our consolidated financial statements and other disclosures included in this annual report. When reviewing our financial statements, you should consider (i) our selection of critical accounting policies, (ii) judgment and other uncertainties affecting the application of such policies and (iii) the sensitivity of reported results to changes in conditions and assumptions.

Basis of Presentation; Principles of Consolidation and Recognition of Noncontrolling Interests

The consolidated financial statements include the financial statements of us, our subsidiaries, our affiliated consolidated entities, and the subsidiaries of our affiliated consolidated entities. The consolidated financial statements have been prepared in accordance with U.S. GAAP and on a going concern basis. All significant transactions and balances among us, our subsidiaries, our affiliated consolidated entities and the subsidiaries of our affiliated consolidated entities have been eliminated upon consolidation. We consolidate our affiliated consolidated entities and the subsidiaries of our affiliated consolidated entities as required by Accounting Standards Codification, or ASC, 810 *Consolidation*, because Fenghuang On-line and Qieyiyou hold all the variable interests of our affiliated consolidated entities and the subsidiaries of our affiliated consolidated entities and have been determined to be the primary beneficiary of our affiliated consolidated entities.

Use of Estimates

The preparation of our consolidated financial statements in conformity with U.S. GAAP requires us to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from such estimates. These estimates and assumptions include, but are not limited to, the accounting for advertising and paid services revenues, the determination of estimated selling prices of multiple elements revenues contract, accounting for income taxes and uncertain tax positions, allowance for doubtful accounts, share-based compensation, consolidation, foreign currency translation, determination of the estimated useful lives of property and equipment and intangible assets, assessment of impairment of long-lived assets and equity investments, and determination of fair value of

financial instruments.

Revenue Recognition

Revenue is recognized when persuasive evidence of an arrangement exists, the price is fixed or determinable, service is performed and the collectability of the related fee is reasonably assured. In October 2009, the Financial Accounting Standards Board, or the FASB, issued Accounting Standards Update, or ASU, 2009-13, *Multiple Deliverable Revenue Arrangements*, to address the accounting for multiple-deliverable arrangements. We have applied ASU 2009-13 to all revenue arrangements for all years presented in the financial statements

(i) *Net Advertising Revenues*

Advertising revenues are derived principally from advertising arrangements where the advertisers pay to place their advertisements on our ifeng.com, mobile Internet website i.ifeng.com and our mobile applications in different formats over a particular period of time. Such formats generally include but are not limited to banners, news feed, text-links, videos, logos, buttons and rich media.

The majority of our advertising revenue arrangements involve multiple element deliverables, including placements of different advertisement formats on our PC websites, mobile applications and mobile websites over different periods of time. We break down the multiple element arrangements into single units of accounting when possible, and allocate total consideration to each single unit of accounting using the relative selling price method. For most deliverables in its multiple element arrangements, we use management's best estimate of the selling price in the allocation as the vendor-specific objective evidence or third-party evidence of selling price is not available for those deliverables. The best estimate of the selling price is determined based on the publicly published advertising rate card, times the relevant discount rates, which are taking into considerations of the historical trend, the pricing of advertising areas sold with similar popularities, advertisements with similar formats and quoted prices from competitors, and other relevant market conditions. We recognize revenue on the elements delivered and defers the recognition of revenue for the estimated value of the undelivered elements until the remaining obligations have been satisfied. When all of the elements within an arrangement are delivered uniformly over the agreement period, the revenues are recognized on a straight-line basis over the contract period.

Table of Contents

Currently the advertising business has three main types of pricing models, consisting of the Fixed Price model, the Cost Per Impression (CPM) model, and the Cost Per Click (CPC) model.

Fixed Price model. Under the Fixed Price model, advertisements on our PC websites, mobile applications and mobile websites are generally charged on the basis of duration, and advertising contractual arrangements are entered to establish the fixed price and the advertising services to be provided. Where collectability is reasonably assured, advertising revenues from advertising contractual arrangements are recognized ratably over the contract period of display.

CPM model. The CPM model refers to advertising bought on the basis of impression. This is in contrast to the various types of pay-for-performance advertising, whereby payment is only triggered by a mutually agreed upon activity (i.e. click-through, lead, sale).

CPC model. Under the CPC model, there is no overall fixed price for advertising services stated in the contract with the advertiser. We charge advertisers on a per-click basis when the users click on the advertisements. The unit price for each click is auction-based. The revenue is recognized based on qualified clicks and the corresponding unit price.

We provide cash incentives in the form of agency service fees to certain third-party advertising agencies based on their sales performance, and account for such incentives as a reduction item of revenues in accordance with ASC 605-50-25, *Customer Payments and Incentives: Recognition*.

We enter into barter transactions involving advertising services and follow ASC 605-20, *Revenue Recognition: Services*. Revenues or expenses from barter transactions are recognized at fair value during the period in which the advertisements are provided only if the fair value of the advertising services surrendered in the transaction is determinable based on our own historical practice of receiving cash and cash equivalents, marketable securities, or other consideration that is readily convertible to a known amount of cash for similar advertising from buyers unrelated to the counterparty in the barter transaction. We did not recognize revenue and expenses for advertising-for-advertising barter transactions since the fair value of the advertising services surrendered or received in the transaction is not determinable for the years ended December 31, 2015, 2016 and 2017.

(ii)

Paid Services Revenues

We offer a wide variety of paid services primarily through mobile channel and operations with the telecom operators. Prior to 2016, our paid service revenues mainly comprised of the revenues generated from MVAS and games and others. Digital reading was previously classified under games and others . In order to align with our overall strategies, in 2016, digital reading was re-classified from Games and others , and digital reading together with MVAS was determined as Digital entertainment .

As such, effective in 2016, paid services revenues now comprise of (i) revenues from digital entertainment, which includes MVAS and digital reading, and (ii) revenues from games and others, which includes web-based games, mobile games, content sales, and other online and mobile paid services through our own platforms.

Digital entertainment.

Digital Entertainment revenues mainly comprised revenues generated from MVAS and digital reading.

MVAS

MVAS revenues are derived from providing mobile phone users with mobile newspaper services, mobile game services delivered through the telecom operators' platforms, mobile video services, and WVAS. WVAS include SMS, music services such as RBT, IVR services, MMS and animation services. Revenues from MVAS are charged on a monthly or per-usage basis, and are recognized in the period in which the service is performed, provided that no significant obligation remains, collection of the receivables is reasonably assured and the amounts can be accurately estimated.

We mainly contract with China Mobile and its subsidiaries, and to a lesser degree, with other mobile operators, for billing, collection and transmission services related to the MVAS offered to our users. The determination of whether to record these revenues using the gross or net method is based on an assessment of various factors. The primary factors are whether we are acting as the principal in offering services to the customer or as an agent in the transaction, and the specific requirement of each contract. Most of revenues from mobile newspaper services, mobile video services, and most WVAS are recorded on a net basis as we are acting as an agent of operators in these transactions. For most of mobile game services delivered through telecom operators, we are responsible to provide desired services to the customers and have primary responsibility and broad discretion to establish price. Therefore, we are considered the primary obligor in these transactions, and revenues from these services are recorded on a gross basis.

Table of Contents

Due to the time lag between when the services are rendered and when the operators' billing statements are received, most MVAS revenues are estimated based on our internal billing records and transmissions for the month, adjusting for prior periods' confirmation rates with operators and prior periods' discrepancies between internally estimated revenues and actual revenues confirmed by operators. There was no significant difference between our estimates and the operators' billing statements for all the years presented.

We also contract with China Mobile to provide news content and other services to China Mobile. News content and other services are charged for fixed fees respectively. The revenues attributable to the news content are recognized on a straight-line basis over the periods in which the news content is provided. Revenues attributable to other services are recognized when the other services are provided.

Digital reading

Digital reading revenues are derived from providing fee-based Internet literatures from writers and digital format books licensed from third-party publishers to customers on both of our PC and mobile platforms. Most revenues generated from digital reading are recorded on a gross basis and recognized evenly over the subscription period, or in the period in which a pay-per-view service is provided, as we are responsible for providing the desired services to the customers and have primary responsibility and broad discretion to establish price, therefore we are considered the primary obligor in these transactions.

Games and others

Games and others include web-based games, mobile games, content sales, and other online and mobile paid services through our own platforms. Revenues from these services are recognized over the periods in which the services are performed, provided that no significant obligations remain, collection of the receivables is reasonably assured and the amounts can be accurately estimated.

For web-based game services, all of the web-based games provided on our platforms are developed by third-party game developers and can be accessed and played by game players without downloading separate software. We primarily view the game developers to be our customers and consider our responsibility under our agreements with the game developers to be promotion of the game developers' games. We only collect payments from game players in connection with the sale of in-game virtual currencies and remit certain agreed-upon percentages of the proceeds to the game developers. Revenue from the sale of in-game virtual currency is recorded net of remittances to game developers and deferred until the estimated consumption date of the virtual items, which is within a short period of time, typically a few days, after purchase of the in-game virtual currency.

We also provide video programming through our online subscription and pay-per-view services to the customers. Revenues from these services, which are recorded on a gross basis, are recognized evenly over the subscription period, or in the period in which a pay-per-view service is provided.

We generate revenues from video content sales agreements for television programming mainly produced by Phoenix TV Group and content purchased from third parties. The video content sales agreements we enter into involve the transfer of non-exclusive broadcasting rights to other

third party websites or other Internet and mobile media companies for a definitive license period. In accordance with ASC 926-605, *Entertainment-Films, Revenue Recognition*, we recognize revenues in respect of our video content sales arrangements when the following criteria are met: persuasive evidence of a video content sales arrangement with a customer exists, the content has been delivered or is available for immediate and unconditional delivery, the sublicense period of the arrangement has begun and the customer can begin its exhibition, the arrangement fee is fixed or determinable and collection of the arrangement fee is reasonably assured.

Expense Allocation with Phoenix TV

We and Phoenix TV Group have engaged in various mutual cooperation activities in content, branding, promotions, technical support and corporate management. Fenghuang On-line entered into the Phoenix TV Cooperation Agreement with Phoenix TV Group which stipulates the costs and expenses charged to us related to content and other services provided by. Based on the Phoenix TV Cooperation Agreement, we paid to Phoenix TV Group 50% of the after-tax revenues earned from sublicensing Phoenix TV Group's video content to third parties, plus a fixed amount of payment to cover other services provided by Phoenix TV Group. The fixed amount was RMB1.6 million for the first year of the Agreement, and increased by 25% annually. The Phoenix TV Cooperation Agreement was effective as of January 1, 2010 and expired on May 27, 2016. We and Phoenix TV Group entered into the New Agreements, effective as of May 27, 2016 and will expire on May 26, 2019, to amend and replace the previous Phoenix TV Cooperation Agreement and provide the terms of continued cooperation. The fees payable to Phoenix TV Group by us are RMB10.0 million for the first year of the New Agreements, which will incrementally increase by 15% for each subsequent year of the New Agreements. Unlike the previous agreements, the New Agreements do not grant us the right to sublicense Phoenix TV Group's copyrighted content to third parties. As such, we do not incur such revenue sharing fee to Phoenix TV Group accordingly. We and Phoenix TV Group entered into new trademark license agreements in December 2017, which became effective on December 8, 2017 and will expire on December 7, 2020. These agreements no longer allow us to use the double-phoenix logo of Phoenix TV Group on a stand-alone basis and have increased the annual license fee payable to Phoenix TV Group from a total of US\$10,000 to the greater of 2% of the annual revenues of Tianying Jiuzhou and Yifeng Lianhe or US\$100,000 for each company.

Table of Contents

Apart from the above cooperation agreements, Phoenix TV Group also paid certain expenses on our behalf, such as data line usage and other general and administrative expenses, which we needed to settle with Phoenix TV Group based on the actual amount and were recorded in the consolidated statements of comprehensive income.

Share-based Compensation

We have share incentive plans for the granting of share-based awards, including share options, restricted shares and restricted share units. We measure the cost of employee services received in exchange for share-based compensation at the grant date fair value of the award. We recognize the share-based compensation as costs and/or expenses in our consolidated statements of comprehensive income, net of estimated forfeitures, on a graded-vesting basis over the vesting term of the awards.

The share-based awards to nonemployees are accounted for based on the fair value of the consideration received or the fair value of the award issued, whichever is more reliably measurable. Share-based compensation expense for share options granted to non-employees is measured at fair value at the earlier of the performance commitment date or the date service is completed and recognized over the period during which the service is provided. We apply the guidance in ASC 505-50 to re-measure share options granted to non-employees based on the then-current fair value at each reporting date until the service has been provided and the performance targets have been met.

Cancellation of an award accompanied by the concurrent grant of a replacement award is accounted for as a modification of the terms of the cancelled award, or modification awards. The share-based compensation cost associated with the modification awards are recognized if either the original vesting condition or the new vesting condition has been achieved. Such compensation costs cannot be less than the grant-date fair value of the original award. The incremental compensation cost is measured as the excess of the fair value of the replacement award over the fair value of the cancelled award at the cancellation date. Therefore, in relation to the modification awards, we recognize share-based compensation over the vesting periods of the new awards, which comprises, (1) the amortization of the incremental portion of share-based compensation over the remaining vesting term and (2) any unrecognized compensation cost of original award, using either the original term or the new term, whichever is higher for each reporting period.

We used the Black-Scholes option pricing model to determine the fair value of share options based on the fair value of underlying ordinary shares at the grant date. The assumptions used in calculating the fair value of share options represent management's best estimates, but these estimates involve inherent uncertainties and the application of management judgment. The fair values of the options granted during 2015, 2016 and 2017 used the following assumptions.

	For the Years Ended December 31,		
	2015	2016	2017
Expected volatility rate	54.23%-54.32%	50.67%-55.65%	48.84%-57.06%
Expected dividend yield			
Expected term (years)	5.91-6.16	3.91-6.16	3.13-6.16
Risk-free interest rate (per annum)	1.90%-1.98%	1.30%-1.55%	0.90%-1.92%

Expected Volatility. We estimated the expected volatility at the date of grant based on the average annualized standard deviation of the share prices of comparable listed companies.

Expected Dividend Yield. The Black-Scholes option pricing model calls for a single expected dividend yield as an input. We have not declared or paid any cash dividends on our capital stock, and we do not anticipate any dividend payments on our ordinary shares in the foreseeable future.

Expected Term. We estimated the expected term based on the vesting schedule and the exercise period of the options.

Risk-Free Interest Rate. We estimated the risk-free interest rate used in the Black-Scholes option pricing model based on the derived market yield of the USD denominated Chinese government bonds for the term approximating the expected life of award at the time of grant.

We determined the fair value of restricted share and restricted share units based on the fair value of the underlying ordinary shares at the grant date and considered the dilutive effect of restricted share and restricted share units.

Forfeiture rates are estimated at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from initial estimates. We use historical data to estimate pre-vesting option and restricted share units forfeitures and record share-based compensation only for those awards that are expected to vest.

Table of Contents

Income Taxes

Current income taxes are provided on the basis of net income for financial reporting purposes, adjusted for income and expense items which are not assessable or deductible for income tax purposes, in accordance with the regulations of the relevant tax jurisdictions. Deferred income taxes are provided using an asset and liability method. Under this method, deferred income taxes are recognized for the tax consequences of temporary differences by applying enacted statutory rates applicable to future years to differences between the financial statement carrying amounts and the tax bases of existing assets and liabilities. The tax base of an asset or liability is the amount attributed to that asset or liability for tax purpose. The effect on deferred taxes of a change in tax rates is recognized in our consolidated statements of comprehensive income in the period of change. A valuation allowance is provided to reduce the amount of deferred tax assets if it is considered more likely than not that some portion of, or all of the deferred tax assets will not be realized.

In order to assess uncertain tax positions, we apply a more likely than not threshold and a two-step approach for the tax position measurement and financial statement recognition. Under the two-step approach, the first step is to evaluate the tax position for recognition by determining if the weight of available evidence indicates that it is more likely than not that the position will be sustained, including resolution of related appeals or litigation processes, if any. The second step is to measure the tax benefit as the largest amount that is more than 50% likely of being realized upon settlement. We did not have significant unrecognized uncertain tax positions or any unrecognized liabilities, interest or penalties associated with unrecognized tax benefit as of and for the years ended December 31, 2015, 2016 and 2017.

Allowance for Doubtful Accounts Receivable

The carrying value of accounts receivable is reduced by an allowance that reflects our best estimate of the amounts that will not be collected. We make estimations for general allowance considering many factors, including but not limited to reviewing accounts receivable balances, historical bad debt rates, aging analysis, customer credit worthiness, and industry trend analysis. We also make the specific allowance if there is evidence showing that the receivable is unlikely to be collected. Accounts receivable balances are written off against the allowance when they are determined to be uncollectible. If the economic situation and the financial condition of a customer deteriorates which results in an impairment of its ability to make payments, additional allowances might be required.

Foreign Currency

Our functional currency is the U.S. dollar. Our subsidiaries and affiliated consolidated entities in the British Virgin Islands, Hong Kong and China use their respective currencies as their functional currencies. An entity's functional currency is the currency of the primary economic environment in which the entity operates or, in the case of a start-up entity, is the currency that the entity plans to use on a long-term basis. Management must use judgment in determining an entity's functional currency, assessing economic factors including cash flow, sales price, sales market, expense, financing and inter-company transactions and arrangements. The determination of our functional currency as the U.S. dollar is based largely on our planned future operations overseas. To the extent we significantly change how we carry out these plans or they do not materialize, we would need to re-assess the determination of our functional currency. To the extent a re-assessment results in a change to our functional currency our financial position and operating results may be materially impacted.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Impact from exchange rate changes related to transactions denominated in currencies other than the functional currency is recorded as a gain and loss in our consolidated statements of comprehensive income, while impact from exchange rate changes related to translating a foreign entity's financial statements from its functional currency to our reporting currency, the RMB, is disclosed and accumulated in a separate component under the equity section of our consolidated balance sheets. Translation adjustments are not released to net income unless the associated net investment has been sold, liquidated or substantially liquidated. Management uses judgment in determining the timing of recognition of translation gains or losses. Such determination requires assessing whether translation gains or losses were derived from the sale or complete or substantially complete liquidation of an investment in a foreign entity. Different judgments or assumptions resulting in a change of the timing of recognition of foreign exchange gains or losses may materially impact our financial position and operating results.

Fair Value Determination Related to Financial Instruments Accounted for at Fair Value

U.S. GAAP establishes a three-tier hierarchy to prioritize the inputs used in the valuation methodologies in measuring the fair value of financial instruments. This hierarchy also requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The three-tier fair value hierarchy is:

Table of Contents

Level 1 Observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets

Level 2 Include other inputs that are directly or indirectly observable in the marketplace

Level 3 Unobservable inputs which are supported by little or no market activity

U.S. GAAP describes three main approaches to measuring the fair value of assets and liabilities: (1) market approach; (2) income approach and (3) cost approach. The market approach uses prices and other relevant information generated from market transactions involving identical or comparable assets or liabilities. The income approach uses valuation techniques to convert future amounts to a single present value amount. The measurement is based on the value indicated by current market expectations about those future amounts. The cost approach is based on the amount that would currently be required to replace an asset. When available, we use quoted market prices to determine the fair value of an asset or liability. If quoted market prices are not available, we will measure fair value using valuation techniques that use, when possible, current market-based or independently sourced market parameters, such as interest rates and currency rates. All financial assets and liabilities are recognized or disclosed at fair value in the consolidated financial statements on a recurring basis.

We have a significant amount of financial instruments that are classified as Level 2 and Level 3 according to ASC 820 *Fair Value Measurement and Disclosures*. The financial instruments classified as Level 2 are short term investments. The valuation for the available-for-sale investments classified as Level 3 are determined based on unobservable inputs which require significant judgment. The valuation for the available-for-sale investments has been performed by valuation specialists under our management's supervision. We believe that the estimated fair value of the available-for-sale investments is based on reasonable assumptions. However, such assumptions are inherently uncertain and actual results could differ from those estimates.

The key inputs used in available-for-sale investments valuation as of December 31, 2016 and 2017 were as follows:

	As of December 31,	
	2016	2017
Discount rate	23.0%	23.0%
Lack of marketability discount (DLOM)	25.0%	25.0%
Volatility	47.0%	45.3%
Revenue growth rate	10.0-349.0%	5.0-93.8%
Terminal growth rate	3.0%	3.0%

Term deposits, short term investments

Term deposits represent term deposits placed with banks with original maturity of more than three months and up to one year.

Short term investments represent investments in financial instruments with a variable interest rate indexed to performance of underlying assets and investments that we have positive intent and ability to hold to maturity, all of which are with original maturity of less than 12 months.

In accordance with ASC 825, for investments in financial instruments with a variable interest rate indexed to performance of underlying assets, we elected the fair value method at the date of initial recognition and carried these investments at fair value. Fair value is estimated based on quoted prices of similar products provided by banks at the end of each period. We classify the valuation techniques that use these inputs as Level 2 of fair value measurements.

Convertible loans due from a related party

Convertible loans due from a related party represent short-term loans advanced to a related party of which we may at our option to convert all or a portion into preferred shares. We have determined that the convertible loans are not within the scope ASC 320 *Investment debt and equity securities* and therefore are accounted for under ASC 310 *Receivables*. The conversion features were considered as embedded derivatives that do not meet the criteria to be bifurcated under ASC 815-15-25-1 and were accounted for in a similar method as for the short-term loans advanced to a related party. We account for the convertible loans due from a related party at an amortized cost basis after deduction of any other-than-temporary impairment loss and review for impairment on a regular basis.

Table of Contents

Available-for-sale investments

In accordance with ASC topic 320 *Investments-Debt and Equity Securities*, we classify the investments in debt and equity securities as held-to-maturity, trading or available-for-sale. The securities that we have positive intent and ability to hold to maturity are classified as held-to-maturity securities. The securities that are bought and held principally for the purpose of selling them in the near term are classified as trading securities. Investments not classified as trading or as held-to-maturity are classified as available-for-sale investments. Available-for-sale investments are reported at fair value, which is estimated by management after considering an independent appraisal performed by a reputable appraisal firm, with unrealized gains and losses, if any, recorded in the accumulated other comprehensive loss or income in shareholder's equity. Realized gains and losses are reflected in earnings during the year in which the gains and losses are realized. An impairment loss on the available-for-sale investments would be recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other-than-temporary. Investments with maturities of greater than 12 months are recorded in non-current assets.

Equity investments

Investments in entities in which we can exercise significant influence but does not own a majority equity interest or control are accounted for using the equity method of accounting in accordance with ASC topic 323 *Investments-Equity Method and Joint Ventures*. We adjust the carrying amount of equity method investment for its share of the income or losses of the investee and report the recognized income or losses in the consolidated statements of comprehensive income. Our shares of the income or losses of an investee are based on the shares of common stock and in-substance common stock held by us.

Investments in entities in which we do not have significant influence and which does not have readily determinable fair value are accounted for using the cost method of accounting in accordance with ASC subtopic 325-20 *Investments-Other-Cost Method Investments*.

An impairment loss on the equity investments is recognized in the consolidated statements of comprehensive income when the decline in value is determined to be other-than-temporary.

We assess our equity investments for other-than-temporary impairment by considering factors as well as all relevant and available information including, but not limited to, current economic and market conditions, the operating performance of the companies including current earnings trends and other company-specific information such as financing rounds.

Segment Reporting

Our segments are business units that offer different services and are reviewed separately by the chief operating decision maker (the CODM) in deciding how to allocate resources and in assessing performance. Our CODM has been identified as the Chief Executive Officer. As our long-lived assets and revenues are substantially located in and derived from the PRC, no geographical segments are presented.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Our organizational structure is based on a number of factors that the CODM uses to evaluate, view and run our business operations, which include, but are not limited to, customer base, homogeneity of products and technology. Our operating segments are based on our organizational structure and information reviewed by our CODM to evaluate the operating segment results.

Description of Key Statement of Comprehensive Income Items

Revenues

The following table sets forth the principal components of our total revenues by amount and by percentage of total revenues for the years presented.

	2015		For the Years Ended December 31, 2016			2017	
	RMB	%	RMB	%	RMB	US\$	%
(In thousands except percentages)							
Revenues:							
Net advertising revenues	1,226,516	76.2	1,232,210	85.3	1,353,480	208,026	85.9
Paid services revenues	382,680	23.8	212,697	14.7	221,612	34,061	14.1
Total revenues	1,609,196	100.0	1,444,907	100.0	1,575,092	242,087	100.0

Table of Contents*Revenues*

We derive our revenues from advertising services and paid services.

Advertising services. Our net advertising revenues accounted for 76.2%, 85.3% and 85.9% of our total revenues in 2015, 2016 and 2017, respectively. We generate our net advertising revenues from payments made by advertisers to place their advertisements on our ifeng.com, mobile Internet websites i.ifeng.com and our mobile applications in different formats over a particular period of time. Such formats generally include but are not limited to banners, news feed, videos, text-links, logos, buttons and rich media.

Advertisers purchase our advertising services primarily through third-party advertising agencies. Currently the advertising business has three main types of pricing models, consisting of the Fixed Price model, the Cost Per Impression (CPM) model, and the Cost Per Click (CPC) model. We recognize advertising revenues on a net basis after deducting service fees earned by advertising agencies. Going forward, we expect our net advertising revenues to comprise an increasing share of our total revenues.

We also earn advertising revenues from related parties, including Phoenix TV, for joint TV and online advertising solutions which we provide together with Phoenix TV to certain Phoenix TV advertising customers, China Mobile and our investees for online advertising services. We also record these revenues as net advertising revenues earned from related parties. Our net advertising revenues earned from related parties accounted for 5.8%, 8.0% and 5.0% of our net advertising revenues in 2015, 2016 and 2017, respectively.

Paid services. Our paid services revenues contributed 23.8%, 14.7% and 14.1% of our total revenues in 2015, 2016 and 2017, respectively. The following table sets forth our paid services offerings and their respective contributions to our paid services revenues and total revenues in 2015, 2016 and 2017, respectively.

Paid Services Offerings	For the Years Ended December 31,			% of Total Revenues		
	2015	2016	2017	2015	2016	2017
<i>Digital entertainment</i> (1)	80.7	74.6	81.2	19.2	11.0	11.5
<i>Games and others</i> (2)	19.3	25.4	18.8	4.6	3.7	2.6

Notes:

(1) Prior to 2016, our paid service revenues mainly comprised of the revenues generated from MVAS and games and others. Digital reading was previously classified under games and others. In order to align with our overall strategies, in 2016, digital reading was re-classified from Games and others, and digital reading together with MVAS was determined as Digital entertainment. Accordingly, the percentage of paid services revenues and the percentage of total revenues in 2015 have been revised to conform to those of 2016 and 2017.

(2) Games and others include web-based games, online digital reading, content sales, and other online and mobile paid services through our own platforms. As mentioned in note (1) above, the percentage of paid services revenues and the percentage of total revenues in 2015 have been revised to conform to those of 2016 and 2017.

These revenues were recorded either on gross or net basis depending on the nature of the services that we provided to the customers.

Our paid services revenues generated from China Mobile, a related party, accounted for 71.5%, 57.7% and 62.6% of our paid services revenues in 2015, 2016 and 2017, respectively. We generated paid services revenues of RMB262.7 million, RMB105.4 million and RMB126.7 million (US\$19.5 million) from providing services to customers of China Mobile and collecting fees through arrangements with China Mobile in 2015, 2016 and 2017, respectively. The increase in paid services revenues with China Mobile was primarily due to an increase in the MVAS revenues related to certain short-term new business. We derived paid services revenues of RMB10.8 million, RMB17.3 million and RMB12.0 million (US\$1.8 million) for the years ended December 31, 2015, 2016 and 2017, respectively, from fixed fees from China Mobile for our mobile newspaper service.

Cost of Revenues

Our cost of revenues consists primarily of (1) revenue sharing fees, including service fees retained by mobile operators, which are recognized as cost of revenues for revenues recorded on gross basis, and revenue sharing fees paid to our channel and content partners, (2) content and operational costs, including personnel-related cost associated with content production and certain advertisement sales support personnel, content procurement costs to third-party professional media companies and to Phoenix TV Group, direct costs related to in-house content production, channel testing costs, rental cost, depreciation and amortization and other miscellaneous costs, (3) bandwidth costs and (4) sales taxes and surcharges, including value added tax, or VAT, and other surcharges. The following table sets forth the components of our cost of revenues by amount and by percentage of total revenues for the years indicated.

Table of Contents

	2015		For the Years Ended December 31,			2017	
	RMB	%	RMB	%	RMB	US\$	%
	(In thousands except percentages)						
Cost of revenues:							
Revenue sharing fees	216,972	13.5	72,027	5.0	72,613	11,160	4.6
Content and operational costs	406,741	25.3	470,813	32.6	466,379	71,681	29.6
Bandwidth costs	83,171	5.2	64,200	4.4	55,050	8,461	3.5
Sales taxes and surcharges	122,502	7.6	119,767	8.3	133,155	20,466	8.5
Total cost of revenues	829,386	51.5	726,807	50.3	727,197	111,768	46.2

Revenue Sharing Fees. We share the revenues generated from these services with the mobile operators through whose networks and/or service platforms we offer our services to our users, and record the revenue sharing fee as cost of revenues. We also share the revenues generated from our paid services with channel partners through whose platforms we market and distribute our services and with certain content providers, as applicable. The percentage allocations for our revenue sharing are determined with the relevant parties and vary by service.

Content and Operational Costs. Our content costs consist of (i) personnel-related costs which include share-based compensation associated with content production and advertising sales support staff, (ii) payments we make to third-party professional media companies, (iii) revenue sharing fees we pay to Phoenix TV Group for sales of its video content, (iv) the license fees we pay to Phoenix TV Group for the use of its content, (v) production costs related to our in-house produced content, and (vi) operational costs which consist of channel testing costs, event costs incurred in connection with advertising revenue-generating activities, rental costs, depreciation and amortization costs, and other miscellaneous costs.

Bandwidth Costs. Bandwidth costs are the fees we pay to mobile operators and other service providers for telecommunications services and for hosting our servers at their Internet data centers.

Sales Taxes and Surcharges. On May 1, 2016, the transition from the imposition of Business Tax to the imposition of VAT was expanded to all industries in China, and all of our revenues have been subject to VAT since that date. We are also subject to a cultural development fee on the provision of advertising services in the PRC and the applicable tax rate is 3% of the net advertising revenues.

For more information about such taxes, surcharges and fees, see [Taxation](#). For more information about risks related to potential changes in the taxes applicable to us, see [Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry](#). The discontinuation of any of the preferential tax treatments available to us in China could materially and adversely affect our operating results and financial condition.

Operating Expenses

Our operating expenses consist of sales and marketing expenses, general and administrative expenses and technology and product development expenses, and include allocations of expenses from Phoenix TV. Share-based compensation is included in our operating expenses as they are incurred. The decrease in operating expenses from 2015 to 2016 was primarily attributable to a decrease in share-based compensation expenses, which was partially offset by an increase in expenses associated with traffic acquisition. The increase in operating expenses from 2016 to 2017 was primarily attributable to increased traffic acquisition expenses and share-based compensation expenses.

The following table sets forth our operating expenses, divided into their major categories, by amount and by percentage of total revenues for the years indicated.

	2015		For the Years Ended December 31,				
	RMB	%	2016		RMB	2017 US\$	%
			RMB	%			
	(In thousands except percentages)						
Operating expenses:							
Sales and marketing expenses	346,133	21.5	339,171	23.5	493,664	75,875	31.3
General and administrative expenses	183,989	11.4	181,677	12.6	146,923	22,582	9.3
Technology and product development expenses	170,714	10.6	161,880	11.2	192,325	29,560	12.2
Total operating expenses	700,836	43.6	682,728	47.3	832,912	128,017	52.8

Table of Contents

Sales and Marketing Expenses. Our sales and marketing expenses consist primarily of sales and marketing personnel-related expenses, including sales commissions, advertising and promotion expenses including traffic acquisition expenses, rental expenses, and depreciation and amortization expenses.

General and Administrative Expenses. Our general and administrative expenses primarily consist of personnel-related expenses for management and administrative staff, professional service expenses, bad debt provision, rental expenses, and depreciation and amortization expenses.

Technology and Product Development Expenses. Our technology and product development expenses mainly consist of personnel-related expenses associated with the development and maintenance of, and enhancement to our PC websites, mobile applications and mobile websites, expenses associated with new technology and product development and enhancement, rental expenses, and depreciation and amortization expenses.

Share-based Compensation

We measure the cost of employee services received in exchange for share-based compensation at the grant date fair value of the award. We recognize share-based compensation, net of forfeitures, on a graded-vesting basis over the vesting term of the award. We adopt the Black-Scholes option pricing model to determine the fair value of stock options, and determine the fair value of restricted share and restricted share units based on the fair value of the underlying ordinary shares at the grant date considering the dilutive effect of restricted share and restricted share units. We account for share-based compensation using an estimated forfeiture rate at the time of grant and revised, if necessary, in subsequent periods if actual forfeitures differ from initial estimates. Share-based compensation is recorded net of estimated forfeitures such that expenses are recorded only for share-based awards that are expected to vest.

Related Party Transactions

In 2015, 2016 and 2017, we have entered into transactions with our related parties Phoenix TV and China Mobile that impact our net advertising revenues, paid services revenues, cost of revenues, sales and marketing expenses and general and administrative expenses. In 2015, 2016 and 2017, we also have entered into transactions with our certain investees. See Item 7. Major Shareholders and Related Party Transactions B. Related Party Transactions. The following table sets forth the significant transactions with our related parties.

	2015 RMB	For the Years Ended December 31,			US\$
		2016 RMB	2017 RMB	2017 RMB	
(In thousands)					
Transactions with the non-US listed part of Phoenix TV Group :					
Content provided by Phoenix TV Group	(4,730)	(7,447)	(12,090)		(1,858)

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Data line services provided by Phoenix TV Group	(180)			
Advertising and promotion expenses charged by Phoenix TV Group	(1,788)	(1,277)	(23)	(4)
Corporate administrative expenses charged by Phoenix TV Group	(1,812)	(260)	(6,245)	(960)

Table of Contents

Other Income, net

Our other income, net reflects government subsidies, interest income, interest expense, foreign currency exchange gain or loss, income/ (loss) from equity investments, including impairment, and others, net.

Taxation

We are incorporated in the Cayman Islands. Under the current law of the Cayman Islands, we are not subject to income or capital gains tax. In addition, dividend payments are not subject to withholding tax in the Cayman Islands.

Our subsidiaries incorporated in the British Virgin Islands are exempted from income tax on their foreign-derived income and are not subject to withholding taxes. Our subsidiaries incorporated in Hong Kong are subject to a tax rate of 16.5% on the estimated assessable profit arising in Hong Kong.

Each of our PRC subsidiaries and our affiliated consolidated entities are obligated to pay income tax in the PRC. The CIT Law generally applies an income tax rate of 25% to all enterprises, but grants preferential tax treatment to High and New Technology Enterprises (HNTes) and Software Enterprises. Under these preferential tax treatments, HNTes are entitled to an income tax rate of 15%, subject to a requirement that they re-apply for HNTe status every three years and Software Enterprises are entitled to an income tax exemption for two years beginning from its first profitable year and a 50% reduction to a rate of 12.5% for the subsequent three years.

Fenghuang On-line had been qualified as an HNTe in November 2014 and August 2017, respectively, and was entitled to a preferential tax rate of 15%. Therefore, Fenghuang On-line was subject to a 15% income tax rate for the years from 2015 to 2017 and would be subject to a 15% income tax rate from 2018 to 2019.

Tianying Jiuzhou resubmitted applications for qualification and was approved as an HNTe in 2014 and 2017, respectively, and therefore, Tianying Jiuzhou was subject to a 15% income tax rate from 2015 to 2017 and would be subject to a 15% income tax rate from 2018 to 2019.

In 2012, Fenghuang Yutian was qualified as a Software Enterprise. As 2013 was the first year Fenghuang Yutian generated taxable profit, it was exempted from income taxes for the years 2013 and 2014, and was subject to a 12.5% income tax rate from 2015 to 2017. In 2017, Fenghuang Yutian had been qualified as an HNTe, and therefore, Fenghuang Yutian would be subject to a 15% income tax rate from 2018 to 2019.

In 2016, Fenghuang Borui was qualified as a Software Enterprise. As 2016 was the first year Fenghuang Borui generated taxable profit, it was exempted from income taxes for the years 2016 and 2017, and would be subject to a 12.5% income tax rate from 2018 to 2020.

All our other PRC subsidiaries and affiliated consolidated entities were subject to a 25% income tax rate for all the years presented.

Under the CIT Law, dividends paid from our PRC subsidiaries are subject to a withholding tax at 10%. This new dividend withholding tax, however, will only be levied on our PRC subsidiaries in respect of profits earned in 2008 onwards. Profits distributed after January 1, 2008 but related to financial results generated in the year ended December 31, 2007 and prior years will not be subject to dividend withholding tax. The dividend withholding tax rate can be lower than 10% subject to tax treaties between China and foreign countries or regions.

The CIT Law also provides that an enterprise established under the laws of foreign countries or regions but whose de facto management body is located in the PRC be treated as a resident enterprise for PRC tax purposes and consequently be subject to the PRC income tax at the rate of 25% for its global income. On April 22, 2009, the SAT issued a circular, known as Circular 82, which provides certain specific criteria for determining whether the de facto management body of a PRC-controlled enterprise that is incorporated offshore is located in China. Under Circular 82, an offshore incorporated enterprise controlled by a PRC enterprise or a PRC enterprise group will be regarded as a PRC tax resident by virtue of having its de facto management body in China and will be subject to PRC enterprise income tax on its global income only if all of the following conditions are met: (i) the primary location of the day-to-day operational management is in the PRC; (ii) decisions relating to the enterprise's financial and human resource matters are made or are subject to approval by organizations or personnel in the PRC; (iii) the enterprise's primary assets, accounting books and records, company seals, and board and shareholder resolutions, are located or maintained in the PRC; and (iv) at least 50% of voting board members or senior executives habitually reside in the PRC. Based on a review of surrounding facts and circumstances, we do not believe that it is more likely than not that our operations outside of the PRC should be considered a resident enterprise for PRC tax purposes. However, there is limited guidance and implementation history with respect to the CIT Law. Should we be treated as a resident enterprise for PRC tax purposes, we would be subject to PRC tax on worldwide income at a uniform tax rate of 25% retroactive to January 1, 2008.

Table of Contents

On May 1, 2016, the transition from the imposition of Business Tax to the imposition of VAT was expanded to all industries in China, and all of our revenues have been subject to VAT since that date. We are also subject to a cultural development fee on the provision of advertising services in China. The applicable tax rate is 3% of the net advertising revenues. For more information about risks related to potential changes in the taxes applicable to us, see Item 3. Key Information D. Risk Factors Risks Relating to Our Business and Industry The discontinuation of any of the preferential tax treatments available to us in China could materially and adversely affect our operating results and financial condition.

A. Results of Operations

Selected Consolidated Financial Information

The following table sets forth the selected consolidated statements of comprehensive income data by amount and by percentage of total revenues for the years indicated. This information should be read together with our consolidated financial statements and related notes included elsewhere in this annual report. The operating results in any period are not necessarily indicative of the results you may expect for future periods.

Table of Contents

Notes:

- (1) Includes share-based compensation as follows:

	For the Years Ended December 31,			US\$
	2015 RMB	2016 RMB	2017 RMB	
	(In thousands)			
Allocation of share-based compensation:				
Cost of revenues	6,335	(4,367)	5,017	771
Sales and marketing expenses	3,043	(2,842)	1,877	288
General and administrative expenses	21,836	11,025	10,796	1,659
Technology and product development expenses	3,140	(1,926)	3,162	486
Total share-based compensation included in cost of revenues and operating expenses	34,354	1,890	20,852	3,204

- (2) Non-GAAP gross profit and non-GAAP income from operations are both non-GAAP financial measures. Non-GAAP gross profit is gross profit excluding share-based compensation. Non-GAAP income from operations is income from operations excluding share-based compensation.

- (3) We define non-GAAP adjusted net income attributable to Phoenix New Media Limited as net income attributable to Phoenix New Media Limited excluding share-based compensation, income or loss from equity investments, including impairments, and gain on disposal of subsidiaries and acquisition of equity investments.

We believe the separate analysis and exclusion of the following non-GAAP to GAAP reconciling items add clarity to the constituent parts of our performances. We review non-GAAP gross profit, non-GAAP income from operations and non-GAAP adjusted net income attributable to Phoenix New Media Limited together with gross profit, income from operations and net income attributable to Phoenix New Media Limited to obtain a better understanding of our operating performance. We use these non-GAAP financial measures for planning and forecasting and measuring results against the forecast. Using these non-GAAP financial measures to evaluate our business allows us and our investors to assess our relative performance against our competitors and ultimately monitor our capacity to generate returns for our investors. We also believe it is useful supplemental information for investors and analysts to assess our operating performance without the effect of items like share-based compensation, income or loss from equity investments, including impairments, which have been and will continue to be significant recurring items, and without the effect of gain on disposal of subsidiaries and acquisition of equity investments, and gain on disposal of an equity investment and acquisition of available-for-sale investments, which have been significant and one-time items. However, the use of non-GAAP financial measures has material limitations as an analytical tool. One of the limitations of using non-GAAP financial measures is that they do not include all items that impact our gross profit, income from operations and net income attributable to Phoenix New Media Limited for the period. In addition, because non-GAAP financial measures are not calculated in the same manner by all companies, they may not be comparable to other similar titled measures used by other companies. In light of the foregoing limitations, you should not consider non-GAAP financial measures in isolation from or as an alternative to the financial measures prepared in accordance with U.S. GAAP.

Non-GAAP to GAAP reconciling items have no income tax effect.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Our non-GAAP gross profit, non-GAAP income from operations and non-GAAP adjusted net income attributable to Phoenix New Media Limited are calculated as follows for the years presented:

	2015 RMB	For the Years Ended December 31,		2017 US\$
		2016 RMB	RMB	
	(In thousands)			
Gross Profit	779,810	718,100	847,895	130,319
Excluding:

Table of Contents

Year Ended December 31, 2017 Compared to Year Ended December 31, 2016

Revenues. Our total revenues increased by 9.0% from RMB1.4 billion in 2016 to RMB1.6 billion (US\$242.1 million) in 2017. Net advertising revenues (net of advertising agency service fees) increased by 9.8% from RMB1.2 billion in 2016 to RMB1.4 billion (US\$208.0 million), primarily due to the 46.5% year-over-year growth in mobile advertising revenues, which was partially offset by the decrease in PC advertising revenues. Paid service revenues increased by 4.2% from RMB212.7 million in 2016 to RMB221.6 million (US\$34.1 million) in 2017, which was primarily due to the 51.3% year-over-year increase in digital reading revenues, and partially offset by the decrease in games and others revenues.

Cost of Revenues. Our cost of revenues for the years ended December 31, 2016 and 2017 were RMB726.8 million and RMB727.2 million (US\$111.8 million), respectively. Cost of revenues as a percentage of our revenues decreased from 50.3% in 2016 to 46.2% in 2017.

- **Revenue sharing fees.** Our revenue sharing fees for the years ended December 31, 2016 and 2017 were RMB72.0 million and RMB72.6 million (US\$11.2 million), respectively.
- **Content and operational costs.** Our content and operational costs for the years ended December 31, 2016 and 2017 were RMB470.8 million and RMB466.4 million (US\$71.7 million), respectively.
- **Bandwidth costs.** Our bandwidth costs decreased by 14.3% from RMB64.2 million in 2016 to RMB55.1 million (US\$8.5 million) in 2017 primarily due to a decline in the unit purchasing price of bandwidth costs.
- **Sales taxes and surcharges.** Our sales taxes and surcharges increased by 11.2% from RMB119.8 million in 2016 to RMB133.2 million (US\$20.5 million) in 2017. This increase was primarily due to a year-over-year increase in revenues.
- **Share-based compensation.** Our share-based compensation allocated to cost of revenues as part of content and operational costs above, increased from negative RMB4.4 million in 2016 to RMB5.0 million (US\$0.8 million) in 2017. The negative amount of 2016 was mainly due to the reversal of share-based compensation caused by the increase in estimated forfeiture rate of share-based awards based on the actual forfeiture rate in the year.

As a result of the foregoing, our gross profit increased by 18.1% from RMB718.1 million in 2016 to RMB847.9 million (US\$130.3 million) in 2017. Our gross margin increased from 49.7% in 2016 to 53.8% in 2017 mainly due to the increase of revenues and the decrease of cost of revenues as explained above.

Operating Expenses. Our operating expenses increased by 22.0% from RMB682.7 million in 2016 to RMB832.9 million (US\$128.0 million) in 2017, primarily due to the increase in traffic acquisition expenses. Our operating expenses as a percentage of revenues increased from 47.3% in 2016 to 52.8% in 2017.

- **Sales and marketing expenses.** Our sales and marketing expenses increased by 45.5% from RMB339.2 million in 2016 to RMB493.7 million (US\$75.9 million) in 2017. This increase was mainly due to the increase in traffic acquisition expenses.
- **General and administrative expenses.** Our general and administrative expenses decreased by 19.1% from RMB181.7 million in 2016 to RMB146.9 million (US\$22.6 million) in 2017. This decrease was mainly due to a year-over-year decrease in bad debt provision expense of RMB41.6 million (US\$6.4 million), primarily caused by the negative RMB9.1 million (US\$1.4 million) of bad debt provision expense recognized in 2017 resulting from the subsequent collection of previously fully-reserved receivables of RMB25.4 million (US\$3.9 million) in 2017 and the one-off specific bad debt provision expense of RMB23.8 million recognized in 2016.
- **Technology and product development expenses.** Our technology and product development expenses increased by 18.8% from RMB161.9 million in 2016 to RMB192.3 million (US\$29.6 million) in 2017. This increase was primarily due to an increase in staff cost.
- **Share-based compensation.** Our share-based compensation allocated to each of the three categories of operating expenses increased by 153.0% from RMB6.3 million in 2016 to RMB15.8 million (US\$2.4 million) in 2017. This increase was mainly due to the share-based awards newly granted in 2017 and our option exchange program implemented in the fourth quarter of 2016 while there was a reversal of share-based compensation in 2016 caused by the increase of estimated forfeiture rate of share-based awards based on the actual forfeiture rate in the year.

Related Party Transactions

- Our net advertising revenues from related parties decreased by 31.5% from RMB98.4 million in 2016 to RMB67.4 million (US\$10.4 million) in 2017, which was primarily attributable to the decrease in advertising revenues earned from Phoenix TV Group and its customers.

Table of Contents

- Our paid service revenues from related parties increased by 13.3% from RMB122.8 million in 2016 to RMB139.1 million (US\$21.4 million) in 2017, which was primarily attributable to the increase in paid services revenues generated from China Mobile.
- Our cost of revenues due to transactions with related parties increased by 96.6% from RMB29.1 million in 2016 to RMB57.1 million (US\$8.8 million) in 2017, which was primarily due to the increase in revenues sharing and bandwidth cost with China Mobile.
- Our operating expenses due to transactions with related parties increased by 354.8% from RMB1.5 million in 2016 to RMB7.0 million (US\$1.1 million) in 2017, which was mainly attributable to an increase in trademark license fee charged by Phoenix TV Group.

Other Income, Net. Our other income, net decreased by 39.9% from RMB56.9 million in 2016 to RMB34.2 million (US\$5.3 million) in 2017. The decrease in other income, net in 2017 was mainly due to the foreign currency exchange loss caused by the appreciation of Renminbi against US dollars.

Income Tax Expense. Our income tax expense increased by 4.9% from RMB14.1 million in 2016 to RMB14.8 million (US\$2.3 million) in 2017. Our effective tax rate decreased from 15.9% in 2016 to 14.1% in 2017. The decrease in effective tax rate was mainly due to a lesser increase in valuation allowance in 2017 as compared to that of 2016.

Net Income Attributable to Phoenix New Media Limited. As a result of the foregoing, net income attributable to our company decreased by 53.5% from RMB80.6 million in 2016 to RMB37.5 million (US\$5.8 million) in 2017.

Year Ended December 31, 2016 Compared to Year Ended December 31, 2015

Revenues. Our revenues for the years ended December 31, 2015 and 2016 were RMB1.6 billion and RMB1.4 billion, respectively. Paid services revenues decreased by 44.4% from RMB382.7 million in 2015 to RMB212.7 million in 2016. This decrease was mainly due to the decrease in revenues generated from MVAS with telecom operators resulted from the decline in users' demand for services provided through telecom operators in China, which was consistent with our expectations given the shrinking demand for such services in general.

Cost of Revenues. Our cost of revenues decreased by 12.4% from RMB829.4 million in 2015 to RMB726.8 million in 2016. Cost of revenues as a percentage of our revenues decreased from 51.5% in 2015 to 50.3% in 2016.

- **Revenue sharing fees.** Our revenue sharing fees decreased by 66.8% from RMB217.0 million in 2015 to RMB72.0 million in 2016 primarily due to the decrease in sales of MVAS.
- **Content and operational costs.** Our content and operational costs increased by 15.8% from RMB406.7 million in 2015 to RMB470.8 million in 2016 primarily due to an increase in personnel-related cost and advertisement-related content production costs. Personnel-related cost increased mainly due to a general increase in salary.
- **Bandwidth costs.** Our bandwidth costs decreased by 22.8% from RMB83.2 million in 2015 to RMB64.2 million in 2016 primarily due to a decline in the unit purchasing price of bandwidth costs.
- **Sales taxes and surcharges.** Our sales taxes and surcharges for the years ended December 31, 2015 and 2016 were RMB122.5 million and RMB119.8 million, respectively, decreased in line with the year-over-year decreases in revenues.
- **Share-based compensation.** Our share-based compensation allocated to cost of revenues as part of content and operational costs above, decreased from RMB6.3 million in 2015 to negative RMB4.4 million in 2016. This decrease was mainly due to the increase of the estimated forfeiture rate of share-based awards in 2016, which was partially offset by our option exchange program implemented in the fourth quarter of 2016.

As a result of the foregoing, our gross profit decreased by 7.9% from RMB779.8 million in 2015 to RMB718.1 million in 2016. Our gross margin increased from 48.5% in 2015 to 49.7% in 2016 mainly due to the reduction of sales from low gross margin products in paid services.

Operating Expenses. Our operating expenses decreased by 2.6% from RMB700.8 million in 2015 to RMB682.7 million in 2016, primarily due to a decrease in share-based compensation, which was partially offset by an increase in expenses associated with traffic acquisition. Our operating expenses as a percentage of revenues increased from 43.6% in 2015 to 47.3% in 2016.

- **Sales and marketing expenses.** Our sales and marketing expenses decreased by 2.0% from RMB346.1 million in 2015 to RMB339.2 million in 2016. This decrease was mainly due to a decrease in staff costs, general operating expense and promotion fees, which was partially offset by an increase in traffic acquisition expenses.

Table of Contents

- **General and administrative expenses.** Our general and administrative expenses decreased by 1.3% from RMB184.0 million in 2015 to RMB181.7 million in 2016. This decrease was mainly due to a decrease in share-based compensation which was offset by an increase in staff cost and other general operating cost.
- **Technology and product development expenses.** Our technology and product development expenses decreased by 5.2% from RMB170.7 million in 2015 to RMB161.9 million in 2016. This decrease was primarily due to a decrease in share-based compensation and technical service cost which was offset by an increase in staff cost.
- **Share-based compensation.** Our share-based compensation allocated to each of the three categories of operating expenses decreased by 77.7% from RMB28.0 million in 2015 to RMB6.3 million in 2016. This decrease was mainly due to the increase of the estimated forfeiture rates of share-based awards based on the actual forfeiture rates in 2016.

Related Party Transactions

- Our net advertising revenues from related parties increased by 38.5% from RMB71.0 million in 2015 to RMB98.4 million in 2016, which was primarily attributable to advertising revenues earned from Phoenix TV Group and its customers, China Mobile and our investees.
- Our paid services revenues from related parties decreased by 55.6% from RMB276.7 million in 2015 to RMB122.8 million in 2016, which was primarily attributable to the decrease in paid services revenues generated from China Mobile resulted from the decline in users' demand for services provided through telecom operators in China, which was consistent with our expectations given the shrinking demand for such services in general.
- Our cost of revenues due to transactions with related parties decreased by 41.1% from RMB49.4 million in 2015 to RMB29.1 million in 2016, which was primarily due to the decrease in revenues sharing and bandwidth cost with China Mobile.
- Our operating expenses due to transactions with related parties decreased by 57.3% from RMB3.6 million in 2015 to RMB1.5 million in 2016, which was attributable to a decrease expense incurred by Phoenix TV Group on our behalf.

Other Income, Net. Our other income, net increased by 200.8 % from RMB18.9 million in 2015 to RMB56.9 million in 2016. The increase in other income, net was mainly due to the loss from equity investments including impairments recognized in 2015.

Income Tax Expense. Our income tax expense decreased by 44.8 % from RMB25.5 million in 2015 to RMB14.1 million in 2016. Our effective tax rate decreased from 16.0% in 2015 to 15.9% in 2016. The decrease in effective tax rate was mainly due to the effect of changes to certain preferential tax benefits, for example, the income tax rate for Fenghuang Borui changed from 25.0% in 2015 to 0% in 2016.

Net Income Attributable to Phoenix New Media Limited. As a result of the foregoing, net income attributable to our company increased by 9.5% from RMB73.6 million in 2015 to RMB80.6 million in 2016.

B. Liquidity and Capital Resources

The following table sets forth a summary of our cash flows for the years indicated:

	2015 RMB	For the Years Ended December 31,		2017 RMB	US\$
		2016 RMB	(In thousands)		
Net cash provided by operating activities	220,812	203,686	172,980	26,588	
Net cash used in investing activities	(1,131,868)	(313,547)	(6,390)	(983)	
Net cash provided by/(used in) financing activities	64,366	217,148	(16,234)	(2,495)	
Effect of exchange rate changes on cash, cash equivalents and restricted cash	(3,488)	14,340	(8,090)	(1,243)	
Net (decrease)/increase in cash, cash equivalents and restricted cash	(850,178)	121,627	142,266	21,867	
Cash, cash equivalents and restricted cash at the beginning of the year	1,285,847	435,669	557,296	85,654	
Cash, cash equivalents and restricted cash at the end of the year	435,669	557,296	699,562	107,521	

As of December 31, 2017, we had RMB362.9 million (US\$55.8 million) in cash and cash equivalents and RMB336.7 million (US\$51.8 million) in restricted cash. Our cash and cash equivalents consist of cash on hand and demand deposits, which are unrestricted as to withdrawal or use, and which have original maturities of three months or less. Our restricted cash represents guarantee of banking facility which is restricted to withdrawal or usage. We have not encountered any difficulties in meeting our cash obligations to date. As of December 31, 2017, we also had RMB737.7 million (US\$113.4 million) in term deposits and short term investments with maturities up to one year. We believe that our operating cash flows, existing cash balances and term deposits and short term investments will be sufficient to meet our anticipated cash needs for the next twelve months from April 26, 2018.

Table of Contents

We are a holding company, and we rely principally on dividends and other distributions from our subsidiaries in China for our cash requirements. Current PRC regulations permit our subsidiaries to pay dividends to us only out of its accumulated profits, if any, determined in accordance with Chinese accounting standards and regulations. Any limitations on the ability of our PRC subsidiaries to transfer funds to us could materially and adversely limit our ability to grow, make investments or acquisitions that could be beneficial to our business, pay dividends and otherwise fund and conduct our business.

Any earnings that our PRC subsidiaries distribute would be paid to our offshore intermediate holding company primarily through dividends. To date, our PRC subsidiaries have not paid dividends to us. As a holding company, we have not required cash for our operations outside of China and therefore our PRC subsidiaries have retained their earnings for the purpose of conducting our business operations in China. As of December 31, 2015, 2016 and 2017, our PRC subsidiaries' retained earnings were RMB799.8 million, RMB898.7 million and RMB993.1 million (US\$152.6 million), respectively, and our PRC subsidiaries' cash and cash equivalents were RMB103.3 million, RMB58.5 million and RMB117.6 million (US\$18.1 million), respectively.

Although we currently anticipate that we will be able to fund operations for at least the next twelve months with operating cash flows, existing cash balances and term deposits and short term investments, we may require additional cash resources due to changed business conditions or other future developments, including any investments or acquisitions we may decide to pursue. If these sources are insufficient to satisfy cash requirements, we may seek to sell additional equity or debt securities or to obtain additional credit facilities. The sale of additional equity or equity-linked securities could result in additional dilution to shareholders. The incurrence of indebtedness would result in increased debt service obligations and could result in operating and financial covenants that would restrict operations. Financing may not be available in amounts or on terms acceptable to us, if at all.

Operating Activities

In 2017, our operating activities generated net cash of RMB173.0 million (US\$26.6 million). This was primarily due to (i) net income of RMB34.4 million, (ii) non-cash adjustments which primarily included depreciation and amortization expenses of RMB35.6 million, foreign currency exchange loss of RMB23.6 million, and share-based compensation of RMB20.9 million, (iii) an increase in accrued expenses and other current liabilities of RMB62.0 million, (iv) an increase in advances from customers of RMB37.4 million, and (v) an increase in tax payable of RMB16.6 million. These items were partially offset by (i) an increase in accounts receivable of RMB44.6 million mainly attributable to the increase of advertising revenues, and (ii) an increase in amounts due from related parties of RMB23.0 million mainly attributable to increase in the loans granted to Particle in 2017.

In 2016, our operating activities generated net cash of RMB203.7 million. This was primarily due to (i) net income of RMB78.2 million, (ii) non-cash adjustments which primarily included depreciation and amortization expenses of RMB42.0 million and provision for allowance for doubtful accounts of RMB48.2 million, (iii) a decrease in accounts receivable of RMB55.3 million primarily due to the accelerated collection of accounts receivables from customers, (iv) an increase in accrued expenses and other current liabilities of RMB30.2 million and (v) an increase in advances from customers of RMB12.6 million. These items were partially offset by (i) a decrease in accounts payable of RMB31.5 million mainly attributable to the payment of our revenue sharing fees, (ii) an increase in prepayments and other current assets of RMB18.5 million, (iii) an increase in deferred income tax of RMB18.3 million, (iv) a decrease in tax payable of RMB17.5 million, and (v) foreign currency exchange gain of RMB9.6 million.

In 2015, our operating activities generated net cash of RMB220.8 million. This was primarily due to (i) net income of RMB72.4 million, (ii) non-cash adjustments which primarily include depreciation and amortization expenses of RMB45.5 million mainly attributable to increased

acquisition of property and equipment, provision for allowance for doubtful accounts of RMB49.3 million, impairment of intangible assets of RMB3.8 million, loss from equity investments including impairments of RMB41.9 million and share-based compensation of RMB34.4 million, (iii) an increase in accounts payable of RMB24.4 million primarily due to increases in our revenue sharing fees and advertising agency fees, and (iv) a decrease in amounts due from related parties of RMB41.4 million primarily due to the settlement of advertising revenues earned from Phoenix TV Group. These items were partially offset by (i) an increase in deferred income tax of RMB11.4 million, (ii) an increase in accounts receivable of RMB59.8 million mainly attributable to an increase in days of receivable recovery and (iii) an increase in prepayments and other current assets of RMB18.3 million.

Investing Activities

We had net cash used in investing activities of RMB6.4 million (US\$1.0 million) for 2017. This was primarily due to (i) placement of term deposits and short term investments of RMB2.8 billion, (ii) loan provided to Particle of RMB74.0 million, and (iii) capital expenditures of RMB27.8 million as described in *Capital Expenditures*, partially offset by the maturity of term deposits and short term investments of RMB2.8 billion and loan repaid by a related party of RMB53.1 million.

We had net cash used in investing activities of RMB313.5 million for 2016. This was primarily due to (i) placement of term deposits and short term investments of RMB3.2 billion, (ii) loans provided to Particle of RMB45.9 million and issuance of convertible loans to Particle of RMB228.3 million, and (iii) capital expenditures of RMB29.3 million as described in *Capital Expenditures*, partially offset by the maturity of term deposits and short term investments of RMB3.2 billion.

We had net cash used in investing activities of RMB1.1 billion for 2015. This was primarily due to (i) placement of term deposits and short term investments of RMB3.3 billion, (ii) cash paid for available-for-sale investments in Particle of RMB352.0 million, and (iii) capital expenditures of RMB43.5 million, partially offset by the maturity of term deposits and short term investments of RMB2.6 billion.

Table of Contents

Financing Activities

We had net cash used in financing activities of RMB16.2 million (US\$2.5 million) for 2017, mainly attributable to the repayment of short-term bank loans of RMB357.1 million, partially offset by proceeds from short-term bank loans of RMB328.5 million and proceeds from exercise of stock option of RMB12.4 million.

We had net cash provided by financing activities of RMB217.1 million for 2016, mainly attributable to proceeds from short-term bank loans of RMB214.7 million and proceeds from exercise of stock option of RMB2.4 million.

We had net cash provided by financing activities of RMB64.4 million for 2015, mainly attributable to proceeds from short-term loans of RMB123.6 million and proceeds from exercise of stock option of RMB6.9 million, offset by RMB66.4 million used in connection with the repurchase of our ADS.

Capital Expenditures

We had capital expenditures of RMB43.5 million, RMB29.3 million and RMB27.8 million (US\$4.3 million) in 2015, 2016 and 2017, respectively. The capital expenditures were mainly attributable to purchasing servers and network equipment. We expect capital expenditures to increase to approximately RMB63.5 million in 2018. We plan to fund our capital expenditures in 2018 with cash flows from our operations and cash and cash equivalents.

Recently Issued Accounting Standards

Revenue from Contracts with Customers. In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, *Revenue from Contracts with Customers (Topic 606)*. This guidance supersedes current guidance on revenue recognition in Topic 605: *Revenue Recognition*. The new revenue standard is effective beginning on January 1, 2018, and early adoption is permitted. The guidance permits two methods of adoption: retrospectively to each prior reporting period presented (full retrospective approach), or retrospectively with the cumulative effect of initially applying the guidance recognized at the date of initial application (the modified retrospective approach). We will adopt the new standard effective January 1, 2018, using the modified retrospective method. The cumulative effect of initially applying the guidance that will be recognized at the date of initial application is not expected to be material and the financial statements of prior periods will not be retrospectively adjusted. We have substantially completed the assessment and implementation work, and the main impact will be (1) the reclassification of sales taxes and surcharges from cost of revenues to a reduction of revenues, (2) revenues or expenses from some advertising barter transactions will be recognized beginning from January 1, 2018 in accordance with the new guidance, as the provision of Topic 605 exempting some advertising-for-advertising barter transactions, for which the fair value of the advertising services surrendered or received was not determinable, from being reported at fair value has been

superseded. If presented net of sales taxes and surcharges, revenues for the year ended December 31, 2017 would have been approximately 8.5% lower than currently presented. Total revenues from advertising-for-advertising barter transactions not recognized in 2017 were RMB2.4 million (US\$0.4 million), which would be recognized as revenues and increase the amount of revenues under Topic 606 beginning from January 1, 2018.

Recognition and Measurement of Financial Assets and Financial Liabilities. On January 5, 2016, the FASB issued ASU 2016-01, *Recognition and Measurement of Financial Assets and Financial Liabilities*, which amends certain aspects of recognition, measurement, presentation and disclosure of financial instruments. This amendment requires all equity investments to be measured at fair value, with changes in the fair value recognized through net income (other than those accounted for under equity method of accounting or those that result in consolidation of the investee). This standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. We will apply the new standard beginning January 1, 2018 and recognize the changes in fair value for all equity investments other than those accounted for under equity method of accounting measured at fair value through net income/(loss). For investments in equity securities lacking of readily determinable fair values, we will elect to use the measurement alternative defined as cost, less impairments, adjusted by observable price changes. We anticipate that the adoption of ASU 2016-01 will increase the volatility of our other income/(expense), net, as a result of the remeasurement of our equity securities upon the occurrence of observable price changes and impairments.

Leases. On February 25, 2016, the FASB issued ASU 2016-02, *Leases*. ASU 2016-02 specifies the accounting for leases. For operating leases, ASU 2016-02 requires a lessee to recognize a right-of-use asset and a lease liability, initially measured at the present value of the lease payments, in its balance sheet. The standard also requires a lessee to recognize a single lease cost, calculated so that the cost of the lease is allocated over the lease term, on a generally straight-line basis. In addition, this standard requires both lessees and lessors to disclose certain key information about lease transactions. ASU 2016-02 is effective for public companies for annual reporting periods, and interim periods within those years, beginning after December 15, 2018. Early adoption is permitted. We are currently evaluating the impact of adopting this standard on our consolidated financial statements.

Financial Instruments-Credit Losses. In June 2016, the FASB issued ASU 2016-13, *Financial Instruments-Credit Losses (Topic 326)*, which requires entities to measure all expected credit losses for financial assets held at the reporting date based on historical experience, current conditions, and reasonable and supportable forecasts. This replaces the existing incurred loss model and is applicable to the measurement of credit losses on financial assets measured at amortized cost. This guidance is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Early application will be permitted for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. We are currently evaluating the impact that the standard will have on our consolidated financial statements and related disclosures.

Table of Contents

Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments. In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows – Classification of Certain Cash Receipts and Cash Payments*, which clarifies the presentation and classification of certain cash receipts and cash payments in the statement of cash flows. This guidance is effective for financial statements issued for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We do not expect this standard to have a material impact on our consolidated financial statements.

Statement of Cash Flows (Topic 230): Restricted Cash. In November 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230): Restricted Cash*. The guidance requires that a statement of cash flows explain the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The standard is effective for fiscal years beginning after December 15, 2017, and interim period within those fiscal years and is applied retrospectively. We have early adopted this guidance retrospectively. Accordingly, the item changes in restricted cash previously included in investing activities in the consolidated statements of cash flows for the years ended December 31, 2015 and 2016 with an amount of RMB125.0 million and RMB229.6 million, respectively, had been removed from cash flows from investing activities and included in beginning and ending cash, cash equivalents and restricted cash balances retrospectively. The following table provides a reconciliation of cash, cash equivalents, and restricted cash reported within the balance sheet that sum to the total of the same such amounts shown in the statement of cash flows.

	2015 RMB	For the Years Ended December 31,		2017 US\$
		2016 RMB	2017 RMB	
	(In thousands)			
Cash and cash equivalents	310,669	202,694	362,862	55,771
Restricted cash	125,000	354,602	336,700	51,750
Total cash, cash equivalents, and restricted cash shown in the statement of cash flows	435,669	557,296	699,562	107,521

Business Combinations (Topic 805): Clarifying the Definition of a Business. In January 2017, the FASB issued ASU 2017-01, *Business Combinations (Topic 805): Clarifying the Definition of a Business*, which clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether transactions should be accounted for as acquisitions or disposals of assets or businesses. The standard is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Early adoption is permitted. The standard should be applied prospectively on or after the effective date. We are currently evaluating the impact of adopting this standard prospectively upon any transactions of acquisitions or disposals of assets or businesses and do not expect this standard to have a material impact on our consolidated financial statements.

Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting. In May 2017, the FASB issued ASU 2017-09, *Compensation – Stock Compensation (Topic 718): Scope of Modification Accounting*. The amendments in this Update provide guidance about which changes to the terms or conditions of a share-based payment award require an entity to

apply modification accounting in Topic 718. The guidance is effective for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted, including adoption in any interim period. The guidance should be applied prospectively to an award modified on or after the adoption date. We are currently evaluating the impact of adopting this standard on our consolidated financial statements and do not expect this standard to have a material impact on our consolidated financial statements.

Trend Information

Please refer to A. Results of Operations for a discussion of the most recent trends in our services, sales and marketing by the end of 2017. In addition, please refer to discussions included in such Item for a discussion of known trends, uncertainties, demands, commitments or events that we believe are reasonably likely to have a material effect on our net sales and operating revenues, income from continuing operations, profitability, liquidity or capital resources, or that would cause reported financial information to be not necessarily indicative of our future operating results or financial condition.

Table of Contents**E. Off-Balance Sheet Arrangements**

We have not entered into any financial guarantees or other commitments to guarantee the payment obligations of any third parties. In addition, we have not entered into any derivative contracts that are indexed to our own shares and classified as shareholder's equity, or that are not reflected in our consolidated financial statements. Furthermore, we do not have any retained or contingent interest in assets transferred to an unconsolidated entity that serves as credit, liquidity or market risk support to such entity. Moreover, we do not have any variable interest in any unconsolidated entity that provides financing, liquidity, market risk or credit support to us or engages in leasing, hedging or research and development services with us.

F. Tabular Disclosure of Contractual Obligations

The following table sets forth our contractual obligations as of December 31, 2017.

	Total	2018	Payments Due by Period		2021	2022 and Thereafter
			2019	2020		
			(RMB in thousands)			
Rental	149,965	37,224	32,654	30,917	31,992	17,178
Bandwidth purchases	15,892	8,132	2,191	2,191	2,191	1,187
Cooperation with Phoenix TV Group	17,129	9,016	6,812	1,301		
Content purchases	44,992	29,900	11,420	509	319	2,844
Property and equipment, and intangible assets	1,722	970	752			
Others	7,444	5,469	1,850	125		
Total	237,144	90,711	55,679	35,043	34,502	21,209

As a result of our adoption of Accounting Standard Codification 740 *Income Taxes*, we recorded uncertain tax positions of RMB24.7 million (US\$3.8 million) as of December 31, 2017 and recognized it as long-term liabilities, as ASC 740 specifies that tax positions for which the timing of the ultimate resolution is uncertain should be recognized as long-term liabilities. At this time, we are unable to make a reasonable estimate on the timing of payments in individual years beyond 12 months due to uncertainties in the timing. As a result, this amount is not included in the table above.

G. Safe Harbor

This annual report on Form 20-F contains forward-looking statements that involve risks and uncertainties. All statements other than statements of historical facts are forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from those expressed or implied by the forward-looking statements.

Edgar Filing: Phoenix New Media Ltd - Form 20-F

You can identify these forward-looking statements by words or phrases such as aim , anticipate , believe , estimate , expect , intend , likely , plan , will or other similar expressions. We have based these forward-looking statements largely on our current expectations and projections about future events and financial trends that we believe may affect our financial condition, operating results, business strategy and financial needs. These forward-looking statements include:

- our growth strategies, including without limitation strategies to grow particular products or services;
- our future business development, operating results and financial condition;
- expected changes in our revenues, including in components of our total revenues, and cost or expense items;
- our ability to continue and manage the expansion of our operations; and
- changes in general economic and business conditions in China.

The forward-looking statements made in this annual report on Form 20-F relate only to events or information as of the date on which the statements are made in this annual report on Form 20-F. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise, after the date on which the statements are made or to reflect the occurrence of unanticipated events. You should read this annual report on Form 20-F and the documents that we reference in this annual report on Form 20-F and have filed as exhibits hereto with the understanding that our actual future results may be materially different from what we expect. You should not rely upon forward-looking statements as predictions of future events.

Other sections of this annual report on Form 20-F include additional factors that could adversely impact our business and financial performance. Moreover, we operate in an evolving environment. New risk factors and uncertainties emerge from time to time and it is not possible for our management to predict all risk factors and uncertainties, nor can we assess the impact of all factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements.

Table of Contents**ITEM 6. DIRECTORS, SENIOR MANAGEMENT AND EMPLOYEES****A. Executive Officers and Directors**

The following table sets forth information regarding our executive officers and directors as of the date of this annual report.

Directors and Executive Officers	Age	Position/Title
Keung Chui	67	Chairman of the Board of Directors
Shuang Liu	48	Director, Chief Executive Officer
Daguang He	61	Director
Ka Keung Yeung	59	Director
Betty Yip Ho	49	Director, Chief Financial Officer
Carson Wen	66	Independent Director
Jerry Juying Zhang	58	Independent Director
Xiaoyan Chi	39	Senior Vice President

Keung Chui has served as the chairman of our board of directors since the establishment of Phoenix New Media Limited in November 2007. Mr. Chui has served as the deputy Chief Executive Officer in charge of administration of Phoenix Satellite Television Company Limited since 1998. He served as vice chairman of the board of directors of Hong Kong Letian Development Limited from 1993 to 1996. From 1980 to 1992, Mr. Chui worked at China Central People's Radio Station, where he served as a journalist, editor and senior editor. Mr. Chui has served as a director of Phoenix Satellite Television Company Limited since 1996 and is a director of numerous subsidiaries of Phoenix TV. Mr. Chui has also served as a director of PCNE Holdings Limited since 2000, a director of Shenzhen Wutongshan TV and Broadcasting Co., Ltd. since 2001 and a director of Green Lagoon Investments Limited since 2006. Mr. Chui received a bachelor's degree from Fudan University.

Shuang Liu has served as our director and Chief Executive Officer since the establishment of Phoenix New Media Limited in November 2007. Mr. Liu was also promoted to the position of Chief Operating Officer of Phoenix TV in February 2014. Mr. Liu has been employed by Phoenix TV from 2001 to the present, and where he has served in various managing positions, including chief director of business development and vice president in charge of investment, finance, investor relationships, legal affairs, public affairs and development of the finance channel. Before joining Phoenix TV, Mr. Liu worked at Simpson Thacher & Bartlett LLP, Milbank, Tweed, Hadley & McCloy LLP and Morrison & Foerster LLP from 1996 to 2001. Mr. Liu received a J.D. degree from Duke University Law School, and a bachelor's degree from University of International Business & Economic.

Daguang He was appointed as the executive vice president of Phoenix TV and Phoenix Satellite Television Company Limited on 10 October 2015 and Mr. He is also a member of the risk management committee of Phoenix TV. Mr. He joined Phoenix in 2001, since then he served as Chief Financial Officer (mainland China) and vice president of Phoenix TV. He currently assists on Phoenix TV's departmental coordination and daily affairs and is responsible for

managing Phoenix TV's daily operation as well as finance, personnel and administration affairs. Mr. He graduated from Shaanxi Institute of Finance and Economics in 1983. Since his graduation, Mr. He worked for China International Water & Electric Corporation as the deputy chief accountant and managing director subsequently. During such period, Mr. He was mainly responsible for business and financial management in respect of investment and development projects in collaboration with various international financial institutions.

Ka Keung Yeung has served as our director since May 2011. Mr. Yeung is the executive vice president and Chief Financial Officer of Phoenix Satellite Television Company Limited in charge of corporate finance, human resources and administration. He is also the qualified accountant and company secretary of Phoenix Satellite Television Company Limited. Mr. Yeung joined Phoenix Satellite Television Company Limited in March 1996 and has been in charge of all of such company's internal and external financial management and arrangements, as well as the supervision of administration and personnel matters since that time. Mr. Yeung received a B.A. from the University of Birmingham and remained in the United Kingdom until 1992 after obtaining his qualification as a chartered accountant. Upon returning to Hong Kong, he worked at Hutchison Telecommunications and Star Television Limited in the fields of finance and business development. Mr. Yeung currently serves as an independent director for The9 Limited (NASDAQ:NCTY).

Betty Yip Ho joined our company as Chief Financial Officer in October 2013 and has served as our director since November 2017. Ms. Ho has over 20 years of professional experience working for publicly listed companies, and in investment banking and private equity fields in multiple sectors including Internet, TMT, manufacturing and consumer retail. Before joining us, Ms. Ho served as Chief Financial Officer for Rock Mobile Corporations from 2011 to 2013, and Chief Financial Officer and executive director for A8 Digital Music Holdings Limited (HKEx: 800) from 2007 to 2011. From 2001 to 2007, she was the senior vice president at LJ International Inc. (NASDAQ: JADE) responsible for corporate finance, investor relations and mergers and acquisitions. In 1998, Ms. Ho cofounded the Strategic Capital Group, an e-commerce private equity firm. Prior to that, she held management positions in audit and direct investment with Arthur Andersen & Co and United Overseas Bank (UOB) Asia. Ms. Ho received her Bachelor degree of Commerce in Finance from the University of Toronto and is a Certified Public Accountant as well as member of the AICPA and HKICPA.

Carson Wen has served as an independent director of our company since May 2011. Mr. Wen was formerly a Partner and then an Of Counsel at Jones Day, and has more than 30 years of experience in business, corporate and securities law. Mr. Wen is also Chairman of BOA Financial Group, Bank of Asia (BVI) Limited and the Sancus Group of Companies. Mr. Wen is a Justice of the Peace of Hong Kong and was awarded the Bronze Bauhinia Star by the Hong Kong government for his contribution to economic ties between Hong Kong, the PRC and the rest of the world. He is a guest professor of the Law School of Sun Yat-Sen University (Zhongshan University) in Guangzhou, China, and sits on the board of numerous organizations, including the China Africa Business Council (Hong Kong), and the Pacific Basin Economic Council. He is a member of the Business Advisory Council of the United Nation Economic and Social Commission for Asia and the Pacific (UNESCAP) and the chairman of its Green Business Task Force. He was a deputy of the National People's Congress of the PRC. Mr. Wen holds a B.A. and M.A. degree in Law from Oxford University, where he was a Younger Prizeman in law at Balliol College, and a B.A. in Economics from Columbia University. Mr. Wen currently serves as an independent director for Winox Limited (HKEx: 6838).

Table of Contents

Jerry Juying Zhang has served as an independent director of our company since May 2011. Mr. Zhang has been a managing director of China Orient Asset Management (International) in Hong Kong since March 2015. He was a senior managing director of CITIC Capital Holdings Limited between June 2009 and December 2014. Prior to joining CITIC Capital Holdings Limited, Mr. Zhang was a managing director in the investment banking division of Deutsche Bank in Hong Kong from August 2006 to June 2009. He served as a managing director and the head of investment banking of CITIC Capital Markets Holdings Limited in Hong Kong from March 2003 to July 2006 and, prior to that time, as executive director in the communications, media and entertainment group of the investment banking department of Goldman Sachs in Hong Kong from April 2001 to January 2003. Mr. Zhang held the positions of associate, vice president and director at Salomon Smith Barney from August 1994 to March 2001. Prior to joining Salomon Smith Barney, he served as accounting manager for Town & Country Homes in Chicago from January 1990 to December 1993 and as accountant, audit senior and supervisor at Ernst & Young in Chicago and Hong Kong. Mr. Zhang held CPA qualifications in China and the State of Kentucky, both of which he has surrendered voluntarily. He holds an M.B.A. from the University of Chicago, an M.A. in Accounting from the Ministry of Finance Graduate School in the PRC and a B.A. degree from Inner Mongolia University.

Xiaoyan Chi has served as our Senior Vice President since January 2018. Ms. Chi joined our company in 2009 as part of our team providing branded advertising and marketing solutions to advertisers. Prior to the promotion to the position of Senior Vice President, Ms. Chi served as Vice President in advertising since 2016. Ms. Chi has more than 16 years of experience in media marketing and management. She is the co-founder of China Internet Advertising Summit and Online Advertising Competition. She served as a final judgment committee member of Effie Awards of Greater China, visiting professor of Communication University of China, vice president of Digital Marketing Committee of China Advertising Association of Commerce and the special columnist of Digital Marketing Magazine. She has extensive experience in branded communications and advertisement sales. Ms. Chi received an EMBA and a master's degree from Peking University and a bachelor's degree from Beijing Technology and Business University.

**B.
Executive Directors**

Compensation of Directors, Supervisors and

For the year ended December 31, 2017, we paid an aggregate of approximately US\$1.5 million in cash to our executive officers and directors.

Share Incentive Plans

In June 2008, we adopted the 2008 share option plan, and in March 2011, we adopted the 2011 restricted share and restricted share unit plan, together, the share incentive plans, to attract and retain the best available personnel, provide additional incentives to our employees, directors and consultants, and promote the success of our business. The share incentive plans provide for the grant of options, restricted shares and restricted share units, collectively referred to as awards. We have already granted the full number of awards that were authorized under the 2011 restricted share and restricted share unit plan. In June and August 2012, June 2014 and October 2016, the shareholders of each of Phoenix TV and our company approved three refreshments of the total number of Class A ordinary shares, which may be issued upon exercise of all options to be granted under the 2008 share option plan (excluding awards previously granted, outstanding, cancelled, lapsed or exercised). As of

March 31, 2018, a total of 15,244,026 Class A ordinary shares are available for grant of additional options under the 2008 share option plan.

Plan Administration. Our compensation committee administers the share incentive plans and determines the participants to receive awards, the type and number of awards to be granted, the terms and conditions of each award grant.

Award Agreements. Awards granted under the share incentive plans are evidenced by an award agreement that sets forth the terms, conditions and limitations for each award, which may include the term of the award, the provisions applicable in the event of the grantee's employment or service terminates, and our authority to unilaterally or bilaterally amend, modify, suspend, cancel or rescind the award.

Option Exercise. The term of awards granted under the share incentive plans may not exceed ten years from the date of grant.

Restricted Shares and Restricted Share Units. Restricted ordinary shares granted under the 2011 restricted share and restricted share unit plan are subject to applicable vesting, transfer, forfeiture and other restrictions as set forth in the plan and, as applicable, in the award agreements. Each restricted share unit is an unsecured promise of our company to issue and deliver one ordinary share on a specified date, which unit is subject to applicable vesting, transfer, forfeiture and other restrictions as set forth in the plan and, as applicable, in the award agreements.

Transfer Restrictions. The right of a grantee in an award granted under the share incentive plans may not be transferred in any manner by the grantee other than by will or the laws of succession and, with limited exceptions, may be exercised during the lifetime of the grantee only by the grantee.

Acceleration upon a Takeover Offer. If a takeover offer for our company becomes unconditional or is approved by the necessary number of shareholders, as the case may be, the vesting of the awards shall be accelerated.

Termination and Amendment. Our board of directors has the authority to amend or terminate the share incentive plans subject to shareholder approval to the extent necessary to comply with applicable law. In addition, our shareholders may, by ordinary resolution, terminate our share incentive plans at any time.

Table of Contents

Lapse of Awards. An award will lapse if the optionee ceases to be eligible by reason of, among other things, (i) illness, injury, disability or death; (ii) retirement; (iii) voluntary resignation; (iv) termination of employment for serious misconduct; and (v) breach of contract.

We granted awards to our employees, directors and consultants under the share incentive plans in November 2008, July 2009, September 2009, January 2010, July 2010, March 2011, March 2013, May 2013, October 2013, December 2013, March 2014, June 2014, July 2014, October 2014, July 2015, October 2016, September 2017, November 2017 and January 2018.

With the approvals of the board of directors and shareholders of us and Phoenix TV, we implemented an option exchange program from October 21, 2016 to November 1, 2016 whereby our directors, employees and consultants exchanged options to purchase 21,011,951 Class A ordinary shares granted under the 2008 share option plan with various exercise prices greater than US\$0.4823 per share (or US\$3.8587 per ADS) for new options granted under the same plan with a new exercise price of US\$0.4823 per share and a new vesting schedule that generally adds 12 months to each original vesting date, and the new options would vest no sooner than May 1, 2017.

As of March 31, 2018, options to purchase 36,516,603 Class A ordinary shares granted under the 2008 share option plan were outstanding. The table below sets forth the awards that we granted in 2017 to our directors and executive officers (including pursuant to the exchange program described above) and were outstanding as of March 31, 2018:

Name	Class A Ordinary Shares Underlying Outstanding Awards	Exercise Price or Purchase Price (US\$/Share)	Date of Grant	Date of Expiration
Shuang Liu	6,800,000	US\$0.4657, US\$0.4823	May 23, 2013, October 21, 2016	May 22, 2023, July 10, 2024, July 15, 2025
Betty Yip Ho	*	US\$0.4823	October 21, 2016	October 7, 2023, October 10, 2024
Xiaoyan Chi	*	US\$0.0322, US\$0.4657, US\$0.4823, US\$0.4734, US\$0.4149	July 31, 2009, September 15, 2009, May 23, 2013, October 21, 2016, October 17, 2016, September 14, 2017	July 30, 2019, September 14, 2019, May 22, 2023, July 10, 2024, July 15, 2025, October 16, 2026, September 13, 2027
Total	10,642,799			

* Less than 1% of our total outstanding Class A ordinary shares.

As of March 31, 2018, other employees and consultants in aggregate held awards entitling them to receive 29,775,050 Class A ordinary shares, with exercise prices ranging from US\$0 to US\$1.3100 per Class A ordinary share.

C.

Board Practices

Board of Directors

Our board of directors currently consists of seven directors. Our directors are elected by the holders of our ordinary shares, which will include holders of our Class A ordinary shares and Class B ordinary shares.

A director is not required to hold any shares in our company by way of qualification. Subject to any separate requirement for audit committee approval and unless disqualified by the chairman of the meeting, a director may vote with respect to any contract, proposed contract or arrangement in which he or she is materially interested provided they have disclosed such interest to the board. The board may exercise all the powers of our company to borrow money, mortgage its undertaking, property and uncalled capital, and issue debentures or other securities whenever money is borrowed or as security for any obligation of our company or of any third party.

Table of Contents

Committees of the Board of Directors

We have established three committees under the board of directors: the audit committee, the compensation committee and the corporate governance and nominating committee. We have adopted a charter for each of the three committees. Each committee's members and functions are described below.

Audit Committee. Our audit committee consists of Jerry Juying Zhang and Carson Wen. Our board of directors has determined that each of Jerry Juying Zhang and Carson Wen satisfies the independence requirements of Rule 10A-3 under the Securities Exchange Act of 1934, as amended, and Section 303A of the New York Stock Exchange Listed Company Manual, or the NYSE Manual. Jerry Juying Zhang is the chairman of our audit committee and meets the criteria of an audit committee financial expert as set forth under the applicable rules of the SEC. Our audit committee oversees our accounting and financial reporting processes and the audits of the financial statements of our company. The audit committee is responsible for, among other things:

- selecting the independent auditors and pre-approving all auditing and non-auditing services permitted to be performed by the independent auditors;
- reviewing with the independent auditors any audit problems or difficulties and management's response;
- reviewing and approving all proposed related party transactions, as defined in Item 404 of Regulation S-K under the Securities Act;
- discussing the annual audited financial statements with management and the independent auditors;
- reviewing major issues as to the adequacy of our internal controls and any special audit steps adopted in light of material control deficiencies; annually reviewing and reassessing the adequacy of our audit committee charter;
- meeting separately and periodically with management and the independent auditors; and
- reporting regularly to our board of directors.

Compensation Committee. Our compensation committee consists of Shuang Liu, Daguang He, Jerry Juying Zhang and Carson Wen. Our board of directors has determined that each of Jerry Juying Zhang and Carson Wen satisfies the independence requirements of Section 303A of the NYSE Manual. Shuang Liu is the chairman of our compensation committee. Our compensation committee assists the board in reviewing and approving the compensation structure, including all forms of compensation, relating to our directors and executive officers. Our Chief Executive Officer may not be present at any committee meeting during which his compensation is deliberated. The compensation committee is responsible for, among other things:

- reviewing and recommending to the board with respect to the total compensation package for our three most senior executives;
- approving and overseeing the total compensation package for our executives other than the three most senior executives;
- reviewing and recommending to the board with respect to the compensation of our directors; and
- reviewing periodically and approving any long-term incentive compensation or equity plans, programs or similar arrangements, annual bonuses, employee pension and welfare benefit plans.

Corporate Governance and Nominating Committee. Our corporate and nominating committee consists of Keung Chui, Shuang Liu and Carson Wen. Our board of directors has determined that Carson Wen satisfies the independence requirements of Section 303A of the NYSE Manual. Keung Chui is the chairman of our corporate governance and nominating committee. Our corporate governance and nominating committee assists the board of directors in selecting individuals qualified to become our directors and in determining the composition of the board and its committees. The corporate governance and nominating committee is responsible for, among other things:

Table of Contents

- selecting and recommending to the board nominees for election or re-election to the board, or for appointment to fill any vacancy;
- reviewing annually with the board the current composition of the board with regards to characteristics such as independence, age, skills, experience and availability of service to us;
- selecting and recommending to the board the names of directors to serve as members of the audit committee and the compensation committee, as well as the corporate governance and nominating committee itself;
- advising the board periodically with regards to significant developments in the law and practice of corporate governance as well as our compliance with applicable laws and regulations, and making recommendations to the board on all matters of corporate governance and on any remedial action to be taken; and
- monitoring compliance with our code of business conduct and ethics, including reviewing the adequacy and effectiveness of our procedures to ensure proper compliance.

Duties of Directors

Under Cayman Islands law, our directors have a fiduciary duty to act honestly, in good faith and with a view to our best interests. Our directors also have a duty to exercise the skills they actually possess and such care and diligence that a reasonably prudent person would exercise in comparable circumstances. In fulfilling their duty of care to us, our directors must ensure compliance with our memorandum and articles of association, as amended and restated from time to time. Subject to laws, a shareholder has the right to seek damages if a duty owed by our directors is breached.

The functions and powers of our board of directors include, among others:

- convening shareholders annual general meetings and reporting its work to shareholders at such meetings;
- issuing authorized but unissued shares and redeem or purchase outstanding shares of our company;

- declaring dividends and other distributions;
- appointing officers and determining the term of office of officers;
- exercising the borrowing powers of our company and mortgaging the property of our company; and
- approving the transfer of shares of our company, including the registering of such shares in our share register.

Terms of Directors and Officers

Our officers are elected by and serve at the discretion of the board of directors. Our directors are not subject to a term of office and hold office in accordance with the articles of association, which provide that at each annual general meeting, one-third of the directors for the time being (or, if their number is not a multiple of three, the number nearest to but not greater than one-third) shall retire from office by rotation provided that the chairman of the board and/or the managing director of our company shall not, whilst holding such office, be subject to retirement by rotation or be taken into account in determining the number of directors to retire in each year. A retiring director shall be eligible for re-election. A director will be removed from office automatically if, among other things, the director (i) becomes bankrupt or makes any arrangement or composition with his creditors; or (ii) dies or is found by our company to be or becomes of unsound mind. No benefits are payable to members of the board upon termination of their relationship with us.

D. Employees

See Item 4. Information on the Company B. Business Overview Employees.

Table of Contents**E. Share Ownership**

The following table sets forth information with respect to the beneficial ownership, within the meaning of Rule 13d-3 under the Exchange Act, of our ordinary shares, as of March 31, 2018:

- each of our directors and executive officers; and
- each person known to us to own beneficially more than 5% of each class of our ordinary shares.

The calculations in the tables below assume there are 261,403,976 Class A ordinary shares and 317,325,360 Class B ordinary shares, outstanding as of March 31, 2018. Beneficial ownership is determined in accordance with Rule 13d-3 of the General Rules and Regulations under the Exchange Act. In computing the number of shares beneficially owned by a person and the percentage ownership of that person, we have included shares that the person has the right to acquire within 60 days of this annual report on Form 20-F, including through the exercise of any option, the vesting of any contingently issuable share, restricted share, restricted share unit or the conversion of any other security. These shares, however, are not included in the computation of the percentage ownership of any other person.

Holding Limited is controlled by Phoenix Satellite Television Holdings Limited, a public company listed on the Hong Kong Stock Exchange. The registered office for Phoenix Satellite Television Holdings Limited is Cricket Square, Hutchins Drive, P.O. Box 2681, Grand Cayman KY1-1111, Cayman Islands.

Table of Contents

As of March 31, 2018, 260,547,720 Class A ordinary shares or 98.6% of our outstanding Class A ordinary shares in the form of ADSs are held by one record holder in the United States, JPMorgan Chase Bank, N.A. Because many of these shares are held by brokers or other nominees, we cannot ascertain the exact number of beneficial shareholders with addresses in the United States.

Holders of Class A ordinary shares are entitled to one vote per share, while the holder of Class B ordinary shares are entitled to 1.3 votes per share. Our major shareholders have the same voting rights as our other shareholders. We are not aware of any arrangement that may, at a subsequent date, result in a change of control of our company.

B.

Related Party Transactions

We conduct business with related parties on arm's length basis and generally follow market practice for similar transactions between unrelated parties to the extent possible. In accordance with our audit committee charter, all of our related party transactions described in this annual report have been reviewed and approved by our audit committee.

Phoenix TV, through its wholly owned subsidiary, is our controlling shareholder, with beneficial ownership and voting power of 54.8% and 61.2%, respectively, of our outstanding ordinary shares as of March 31, 2018. Phoenix TV has the power acting alone to approve any action requiring a vote of the majority of our ordinary shares.

Transactions Related to Our Corporate Structure

To comply with the applicable PRC laws, rules and regulations, we conduct our operations in China through contractual arrangements between our wholly owned PRC subsidiaries, Fenghuang On-line, Qieyiyou and our affiliated consolidated entities. See Item 4. Information on the Company C. Organizational Structure Contractual Arrangements with Our Affiliated Consolidated Entities.

Agreements and Transactions with Phoenix TV and Certain of its Subsidiaries

Phoenix TV Cooperation Agreement and Phoenix TV Content License Agreements

Fenghuang On-line entered into a Content, Branding, Promotion and Technology Cooperation Agreement, or the Phoenix TV Cooperation Agreement, with Phoenix TV on November 24, 2009, certain terms of which were amended pursuant to a supplemental agreement entered into by the parties on March 28, 2011. Pursuant to the Phoenix TV Cooperation Agreement, Phoenix TV agreed to procure and procure its subsidiaries, Phoenix Satellite Television Company Limited and Phoenix Satellite Television Trademark Limited, respectively, to enter into content license agreements, or the Content License Agreements, and trademark license agreements, or the Old Trademark License Agreements, with Tianying Jiuzhou and Yifeng Lianhe. Fenghuang On-line agreed to provide Phoenix TV with our proprietary text, image, sound and video content. In addition, Fenghuang On-line and Phoenix TV agreed to promote one another's brand and content on their respective new media and TV platforms. As compensation for the rights granted to Fenghuang On-line under the agreement, Fenghuang On-line is obligated to pay Phoenix TV an annual service fee in the amount of RMB1.6 million for the first year of the agreement, which incrementally increases by 25% for each subsequent year of the agreement. The annual service payment to Phoenix TV under the Phoenix TV Cooperation Agreement for 2016 before expiration of the agreement was RMB2.5 million. Fenghuang On-line must also pay to Phoenix TV 50% of the after-tax revenues Tianying Jiuzhou earns from sublicensing Phoenix TV's video content to third parties. In the event that Phoenix TV's indirect voting interest in Fenghuang On-line falls to 50% or below, Phoenix TV has the right to amend the annual service fee, provided that it may not be raised to more than 500% of the original annual service fee. If Phoenix TV's beneficial ownership stake in us decreases to 35% or below, Phoenix TV has the right to immediately terminate or renegotiate the Phoenix TV Cooperation Agreement.

Pursuant to the Phoenix TV Cooperation Agreement, Tianying Jiuzhou and Yifeng Lianhe each entered into a Content License Agreement with Phoenix Satellite Television Company Limited on November 24, 2009. Pursuant to the Content License Agreements, Phoenix TV granted each of Tianying Jiuzhou and Yifeng Lianhe an exclusive license to use its copyrighted text, images, sound and videos on its Internet and mobile channels, as applicable, in China. Payments for the content license are made in accordance with the payment provisions set forth in the Phoenix TV Cooperation Agreement. The Content License Agreements can be terminated earlier (i) by the non-breaching party in the event of a breach and if the breach is not cured within ten business days after receipt of notice of breach from the non-breaching party, (ii) in the event of bankruptcy or the cessation of business operations of either party, or a change in the shareholder or equity structure of the relevant affiliated consolidated entity, other than in connection with the contractual arrangements, (iii) if either party's performance of its obligations is held unlawful under PRC law; or (iv) if an event occurs that adversely affects the performance of either party of its respective obligations and upon written notice by the unaffected party.

All of the above agreements expired on May 27, 2016 and were replaced by the Program License Agreements described below.

Table of Contents

Program License Agreements

As the Phoenix TV Cooperation Agreement and Phoenix TV Content License Agreements expired in May 2016, Phoenix Satellite Television Company Limited, a wholly owned subsidiary of Phoenix TV, and each of Tianying Jiuzhou, Yifeng Lianhe, and Fengyu Network entered into a Program Resource License Agreements and a Program Text/Graphics Resource License Agreements, or the Program License Agreements, in May 2016. Under these agreements, Phoenix TV Group agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network the license with priority over any third party to broadcast Phoenix TV Group's copyrighted video content from three television channels of Phoenix TV Group on ifeng.com (our main Internet channel), i.ifeng.com (a mobile Internet channel of ours), and ifeng News, ifeng Video and ifeng VIP (three mobile applications of ours) in China concurrently with such content broadcasted on the three television channels of Phoenix TV Group, pursuant to the Program License Agreements; and Phoenix TV Group agreed to grant Tianying Jiuzhou, Yifeng Lianhe and Fengyu Network a non-exclusive license to use Phoenix TV Group's copyrighted text and graphics on the same Internet and mobile channels for which Phoenix TV Group's copyrighted video content license, above, was granted. The fees payable to Phoenix TV Group by us for all content licenses described above will be RMB10.0 million for the first year of the agreements, which will incrementally increase by 15% for each subsequent year of the agreement. Unlike the previous agreements, the Program License Agreements do not grant us the right to sublicense Phoenix TV Group's copyrighted content to third parties. While we are in the process of negotiating with Phoenix TV Group to potentially re-acquire such right of sublicense, we cannot assure you that we will be able to re-acquire such right at reasonable costs or at all.

Each of the Program License Agreements has an initial term of three years and will expire on May 26, 2019 and may be renewed on an annual basis thereafter upon agreement of both parties. Each of the parties to the Program License Agreements has the right to terminate the Program License Agreements before their expiration date by 6-month prior written notice to the other party. In addition, each of the Program License Agreements can be terminated earlier (i) by the non-breaching party in the event of a breach and if the breach is not cured within ten business days after receipt of notice of breach from the non-breaching party, (ii) in the event of bankruptcy or the cessation of business operations of either party, or a change in the shareholder or equity structure of Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network, other than in connection with the contractual arrangements, (iii) by Phoenix Satellite Television Company Limited in the event that our shareholders or ownership structure change so that the shares held by Phoenix TV Group account for 50% or less of our actual total issued shares, or in the event that we lose control of Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network; or if Tianying Jiuzhou, Yifeng Lianhe or Fengyu Network, as applicable, ceases business operation; (iv) if either party's performance of its obligations is held unlawful under PRC law; or (v) if an event occurs that adversely affects the performance by either party of its obligations and upon written notice by the unaffected party.

Phoenix TV Trademark License Agreements

Pursuant to the Phoenix TV Cooperation Agreement, Tianying Jiuzhou and Yifeng Lianhe each entered into the Old Trademark License Agreement with Phoenix Satellite Television Trademark Limited on November 24, 2009. Pursuant to the Old Trademark License Agreements, Phoenix Satellite Television Trademark Limited granted Tianying Jiuzhou and Yifeng Lianhe non-exclusive rights to use certain of its logos for the purpose of conducting Tianying Jiuzhou's and Yifeng Lianhe's respective businesses. Tianying Jiuzhou may sub-license such trademarks to China Mobile, pursuant to the China Mobile Cooperation Agreement, as described below. Tianying Jiuzhou is obligated to pay Phoenix Satellite Television Trademark Limited an annual license fee of US\$7,000, while Yifeng Lianhe is obligated to pay Phoenix Satellite Television Trademark Limited an annual license fee of US\$3,000, under the respective Old Trademark License Agreement. Phoenix Satellite Television Trademark Limited may in its discretion waive such license fees.

On December 8, 2017, Tianying Jiuzhou and Yifeng Lianhe each entered into a new trademark license agreement, or the New Trademark License Agreements, with Phoenix Satellite Television Trademark Limited to replace the Old Trademark License Agreements. Under the New Trademark License Agreements, Phoenix Satellite Television Holdings Limited agreed to continue to license to Tianying Jiuzhou and Yifeng Lianhe certain trademarks containing the double-phoenix logo and the Chinese or English words of Phoenix New Media or ifeng for an initial

term of three years, while Tianying Jiuzhou and Yifeng Lianhe are not allowed to use the double-phoenix logo on a stand-alone basis. Tianying Jiuzhou and Yifeng Lianhe are also granted a one-year license to continue to use the current marks of our two mobile applications which contain the Chinese words of Phoenix News and Phoenix Video which will be automatically renewed upon its expiration unless Phoenix TV raises any objection. The annual license fee payable to Phoenix Satellite Television Holdings Limited by each of Tianying Jiuzhou and Yifeng Lianhe will be the greater of 2% of the annual revenues of Tianying Jiuzhou or Yifeng Lianhe (as the case may be) or US\$100,000 for each company, while the annual fee under the Old Trademark License Agreements was US\$10,000 in aggregate.

Transactions with Phoenix TV and Certain of its Subsidiaries

Costs for content provided to us by Phoenix TV Group were RMB4.7 million, RMB7.4 million and RMB12.1 million (US\$1.9 million) in 2015, 2016 and 2017, respectively. Costs for data line services provided to us by Phoenix TV Group were RMB0.2 million, nil and nil in 2015, 2016 and 2017, respectively. We were charged by Phoenix TV Group for advertising and promotion expenses of RMB1.8 million, RMB1.3 million and RMB0.02 million (US\$0.004 million) in 2015, 2016 and 2017, respectively. We were charged corporate administrative expenses by Phoenix TV Group in the total amounts of RMB1.8 million, RMB0.2 million and RMB2.7 million (US\$0.4 million) in 2015, 2016 and 2017, respectively. We were also charged Trademark license fee by Phoenix TV Group with the total amounts of RMB0.1 million, RMB0.1 million and RMB3.6 million (US\$0.5 million) in 2015, 2016 and 2017, respectively.

Table of Contents

We provided joint advertising campaign solutions together with Phoenix TV Group to Phoenix TV Group's advertisers from which we earned advertising revenues of RMB16.5 million and RMB10.4 million and RMB9.5 million (US\$1.5 million) in 2015, 2016 and 2017, respectively.

As of December 31, 2015, 2016 and 2017, we had amounts due from Phoenix TV Group with the amounts of RMB20.1 million, RMB31.5 million and RMB10.5 million (US\$1.6 million), respectively, and accounts due to Phoenix TV Group with the amounts of RMB17.1, RMB17.7 million and RMB8.6 million (US\$1.3 million), respectively.

Cooperation Agreement with China Mobile Communication Corporation

China Mobile Communication Corporation, or China Mobile, is a shareholder of our parent company, Phoenix TV. As of March 31, 2018, China Mobile held 19.7% of the outstanding shares of Phoenix TV. In each of 2015, 2016 and 2017, Tianying Jiuzhou entered into a cooperation agreement with China Mobile, together, the China Mobile Cooperation Agreements. Pursuant to the China Mobile Cooperation Agreements, Tianying Jiuzhou agreed to produce certain MMS content exclusively for China Mobile to be used in China Mobile's mobile newspaper service offerings and provide other media and content resource to China Mobile, and China Mobile agreed to pay fees of RMB40.0 million, RMB19.8 million and RMB14.9 million (US\$2.1 million) for such content purchased by China Mobile in 2015, 2016 and 2017, respectively. Tianying Jiuzhou has also granted to China Mobile non-exclusive sub-licenses under the China Mobile Cooperation Agreements to use certain trademarks of Phoenix TV in China, and has agreed to co-host certain offline events with China Mobile free of charge.

We obtained revenues for our paid services through China Mobile of RMB273.5 million, RMB122.7 million and RMB138.7 million (US\$21.3 million) in 2015, 2016 and 2017, respectively. We earned revenues from China Mobile for advertising services of RMB35.8 million, RMB32.0 million and RMB33.5 million (US\$5.2 million) in 2015, 2016 and 2017, respectively. We incurred revenue sharing and bandwidth costs in connection with MVAS provided through China Mobile's platforms in the amounts of RMB44.4 million, RMB20.9 million and RMB43.6 million (US\$6.7 million) in 2015, 2016 and 2017, respectively.

As of December 31, 2015, 2016 and 2017, we had amounts due from China Mobile with the amounts of RMB58.3 million, RMB48.8 million and RMB63.2 million (US\$9.7 million), respectively, and accounts due to China Mobile with the amounts of RMB1.8 million, RMB0.2 million and RMB4.0 million (US\$0.6 million), respectively.

Cooperation Agreement and License Agreement with Lilita

In September 2014, Tianying Jiuzhou entered into a brand authorization cooperation agreement with Lilita, or the Lilita Cooperation Agreement, pursuant to which, Tianying Jiuzhou granted Lilita an exclusive right to use its brand resources, including operating on the platforms of jr.ifeng.com, for the purpose of conducting P2P lending and reward-based crowd-funding businesses. Lilita is obligated to pay Tianying Jiuzhou an annual license fee of RMB3.0 million for using its brand resources under the Lilita Cooperation Agreement. In December 2014, Tianying Jiuzhou and Lilita further entered into a platforms license agreement, or the Lilita Platforms License Agreement, pursuant to which Lilita was granted an exclusive right to conduct P2P lending and reward-based crowd-funding businesses on the platforms of www.ifeng.com, 3g.ifeng.com and v.ifeng.com for a term of three years. Lilita is obligated to pay Tianying Jiuzhou an annual license fee of RMB0.17 million for the first two years and RMB0.16 million for the third year for conducting businesses on the licensed platforms. In December 2015, Tianying Jiuzhou and Lilita further entered into an advertisement cooperation framework agreement, or the Lilita Framework Agreement, pursuant to

which Lilita agreed to place, and Tianying Jiuzhou agreed to launch, Internet advertisements provided by Lilita from time to time on the PC websites, mobile applications and mobile websites operated by Tianying Jiuzhou. The Lilita Framework Agreement amended the Lilita Cooperation Agreement by enlarging the scope of advertising services to be provided by Tianying Jiuzhou to Lilita, by increasing the annual revenue cap for the calendar year ended December 31, 2015 to HK\$17.5 million, by increasing the annual revenue cap for the calendar year ended December 31, 2016 to HK\$38.0 million, and by setting the annual revenue cap for the calendar year ending December 31, 2017 at HK\$57.0 million. As Lilita subsequently advised Tianying Jiuzhou that its business growth exceeded its expectations in 2016 and the existing annual revenue caps would no longer meet its business needs, Tianying Jiuzhou entered into a supplemental agreement with Lilita in May 2016 in order to increase the annual revenue caps set forth in the Lilita Framework Agreement to RMB49.0 million and RMB80.0 million for the calendar years ended December 31, 2016 and 2017, respectively. Both the Lilita Platforms License Agreement and the Lilita Framework Agreement have expired and we have not entered into any new agreements with Lilita as of the date of this annual report.

We earned revenues from Lilita for advertising services of RMB14.4 million, RMB42.6 million and RMB10.0 million (US\$1.5 million) in 2015, 2016 and 2017, respectively. We also earned revenues from Lilita for brand license authorization of RMB3.2 million, RMB0.2 million and RMB0.2 million (US\$0.03 million) in 2015, 2016 and 2017, respectively.

As of December 31, 2015, 2016, we had accounts due from Lilita with the amounts of RMB18.2 million and RMB9.5 million, respectively. In 2017, Lilita repaid RMB9.5 million (US\$1.5 million) of the amount due to us. As of December 31, 2017, our net amount due from Lilita was RMB9.2 million (US\$1.4 million) netting off a bad debt provision of RMB1.0 million (US\$0.2 million).

Table of Contents

Convertible Loans and Loans Provided to Particle

In January and April 2016, we granted two unsecured short-term convertible loans to Particle with an aggregate principal amount of US\$20.0 million, and we converted the principal amounts of these loans and all accrued interests with a total amount of US\$20.7 million into Series D1 convertible redeemable preferred shares of Particle in December 2016. In August 2016, we granted an unsecured short-term loan to Particle with a principal amount of US\$14.8 million at an interest rate of 4.35% per annum and with an initial term of six months, which was extended to twenty-four months after several extensions. Particle agreed to grant us the right to convert, at our option, all or a portion of the principal amount of the loan granted to Particle in August 2016 (plus interests incurred as of the conversion) into Series D1 convertible redeemable preferred shares to be issued by Particle at a conversion price of US\$1.071803 per share before August 9, 2018. Our rights under the aforementioned convertible loan granted in August 2016 are expected to assign to Long De or its designated affiliates, and Long De or its affiliates should pay us approximately US\$17.0 million for the assignment. In November 2016, we granted an unsecured short-term loan to Particle with a principal amount of approximately US\$6.8 million at an interest rate of 9% per annum and with an initial term of six months, which was subsequently extended to twelve months and repaid in November 2017. In January 2017, we granted an unsecured short-term loan to Particle with a principal amount of RMB74.0 million (US\$10.8 million) at an interest rate of 9% per annum and with an initial term of twelve months, which were extended to eighteen months. Particle is required to use the proceeds of the loans for its working capital requirements in the ordinary course of its business. Particle informed us that it intends to use the proceeds of these loans mainly for market promotion and expansion of its user base.

Loans and Advances Provided to Phoenix FM

We have provided financial support to Phoenix FM in the form of unsecured short-term loans and financial advanced expenses. Phoenix FM was our subsidiary in 2013 and became our affiliate in 2014. As of December 31, 2014 and 2015, the outstanding balance of our loans and financial advanced expenses to Phoenix FM was RMB7.1 million and RMB15.2 million, respectively. We charged interest on all of our loans to Phoenix FM at the bank loan benchmark interest rate effective in China during the life of the loans. In 2016, Phoenix FM repaid certain of the financial advanced expenses and loans with a total amount of RMB7.2 million. As of the date of this annual report, the outstanding amount of our loans to Phoenix FM is RMB8.0 million (US\$1.2 million) which had been fully impaired as of December 31, 2017.

Our loans to Phoenix FM are unsecured and do not have any priority over Phoenix FM's other debts. Therefore, if Phoenix FM becomes unable to repay all of its debts, we will be competing with Phoenix FM's other unsecured creditors for its remaining assets. In particular, Mr. Ya Li, the chairman of Phoenix FM, and a director and the co-president of our company until his resignation on September 8, 2017, granted loans in the amount of RMB10.8 million, RMB10.0 million and RMB6.3 million (US\$1.0 million) to Phoenix FM in 2015, 2016 and 2017, respectively, which ranks paripassu with our loans. Mr. Ya Li granted the loans for his personal investment purpose and used his personal funds for the loan.

Advertisement Agreement with Tianbo

In 2013, Tianying Jiuzhou and Tianbo entered into an Agreement on Operation and Advertisement Agency for Real Estate Channel and an Advertisement Source Purchase Agreement, or the Previous Tianbo Agreements, pursuant to which, Tianying Jiuzhou granted Tianbo the exclusive right to operate our real estate channel (house.ifeng.com) and act as the exclusive agent for placement of real estate advertisements on ifeng.com (). The Previous Tianbo Agreements expired on March 31, 2018 and we entered into series of new agreements, or the New Tianbo Agreements, in April 2018 with Tianbo to continue the business cooperation with Tianbo. Different from the Previous Tianbo Agreements, the New Tianbo Agreements granted Tianbo a non-exclusive right to operate our real estate channel and act as the non-exclusive agent for placement of real estate advertisements

on Internet. As of December 31 2016, the amount due from Tianbo was RMB16.0 million. In 2017, Tianbo repaid RMB0.5 million (US\$0.1 million) of the amount due to us. As of December 31, 2017, the net amount due from Tianbo was approximately RMB14.8 million (US\$2.3 million) netting off a bad debt provision of RMB14.7 million (US\$2.3 million), which was recognized in 2017.

Dividend Policy and Distributions

Our board of directors has complete discretion as to whether to distribute dividends. Even if our board of directors decides to pay dividends, the form, frequency and amount will depend upon our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions and other factors that our board of directors may deem relevant.

We have not paid in the past and do not have any present plan to declare and pay any dividends on our ordinary shares or ADSs in the near future. We currently intend to retain most, if not all, of our available funds and any future earnings to operate and expand our business.

We are a holding company incorporated in the Cayman Islands. We may rely on dividends from our subsidiaries in China, which in turn relies on the payments received from our affiliated consolidated entities in China pursuant to the contractual arrangements that established our corporate structure. Current PRC laws, rules and regulations permit our PRC subsidiaries to pay dividends to us only out of its accumulated profits, if any, determined in accordance with PRC accounting standards and regulations. In addition, our subsidiaries in China are required to set aside a certain amount of their accumulated after-tax profits each year to fund statutory reserves. These reserves may not be distributed as cash dividends. Further, if our subsidiaries in China incur debt on its own behalf, the instruments governing the debt may restrict its ability to pay dividends or make other payments to us.

If we pay any dividends, we will pay our ADS holders to the same extent as holders of our Class A ordinary shares, subject to the terms of the deposit agreement, including the fees and expenses payable thereunder. Cash dividends on our ordinary shares, if any, will be paid in U.S. dollars.

B. Significant Changes

We have not experienced any significant changes since the date of our audited consolidated financial statements included in this annual report.

ITEM 9. THE OFFER AND LISTING

Our ADSs, each representing eight of Class A ordinary shares, have been listed on the New York Stock Exchange since May 12, 2011 under the symbol FENG. The table below shows, for the periods indicated, the high and low market prices on the New York Stock Exchange for our ADSs.

Table of Contents

	Market Price for Each ADS	
	High US\$	Low US\$
Annual highs and lows		
2015	9.90	3.87
2016	5.98	3.11
2017	8.14	2.43
Quarterly highs and lows		
Second quarter 2015	9.90	5.60
Third quarter 2015	8.06	3.87
Fourth quarter 2015	6.19	4.31
First quarter 2016	5.98	3.31
Second quarter 2016	4.56	3.49
Third quarter 2016	4.05	3.40
Fourth quarter 2016	3.99	3.11
First quarter 2017	4.30	3.12
Second quarter 2017	3.68	2.55
Third quarter 2017	6.73	2.43
Fourth quarter 2017	8.14	4.50
First quarter 2018	7.42	4.02
Second quarter 2018 (through April 20, 2018)	4.44	3.99
Monthly highs and lows		
October 2017	6.60	4.50
November 2017	8.14	5.07
December 2017	7.21	6.05
January 2018	7.42	6.49
February 2018	6.86	5.07

Taxation

Cayman Islands Taxation

Pursuant to section 6 of the Tax Concessions Law (1999 Revision) of the Cayman Islands, our company has obtained an undertaking from the Governor-in-Cabinet (1) that no law which is enacted in the Cayman Islands imposing any tax to be levied on profits, income, gains or appreciation shall apply to our company or its operations; and (2) that the aforesaid tax or any tax in the nature of estate duty or inheritance tax

Edgar Filing: Phoenix New Media Ltd - Form 20-F

shall not be payable on or in respect of the shares, debentures or other obligations of our company. The undertaking for our company is for a period of twenty years from December 4, 2007.

The Cayman Islands currently levy no taxes on individuals or corporations based upon profits, income, gains or appreciations and there is no taxation in the nature of inheritance tax or estate duty. There are no other taxes likely to be material to our company levied by the Government of the Cayman Islands save for certain stamp duties which may be applicable, from time to time, on certain instruments executed in or brought within the jurisdiction of the Cayman Islands. The Cayman Islands are a party to a double tax treaty entered into with the United Kingdom in 2010 but otherwise is not party to any double tax treaties.

Table of Contents

No stamp duty is payable in the Cayman Islands on transfers of shares of Cayman Islands companies except those which hold interests in land in the Cayman Islands.

An exempted company shall make available at its registered office, in electronic form or any other medium, such register of members, including any branch register of members, as may be required of it upon service of an order or notice by the Tax Information Authority pursuant to the Tax Information Authority Law of the Cayman Islands.

People's Republic of China Taxation

The CIT Law provides that enterprises established outside of China whose de facto management bodies are located in China are considered resident enterprises of China. Under the implementation regulations for the CIT Law issued by the PRC State Council, de facto management body is defined as a body that has material and overall management and control over the manufacturing and business operations, personnel and human resources, finances and treasury, and acquisition and disposal of properties and other assets of an enterprise. Despite the present uncertainties as a result of limited guidance from PRC tax authorities on the issue, we do not believe that our legal entities organized outside of the PRC should be treated as residents under the CIT Law.

Under the CIT Law and implementation regulations issued by the State Council, PRC withholding tax at the rate of 10% is applicable to dividends payable to investors that are non-resident enterprises, which do not have an establishment or place of business in the PRC, or which have such establishment or place of business but the relevant income is not effectively connected with the establishment or place of business, to the extent such dividends have their sources within the PRC. Similarly, any gain realized on the transfer of ADSs or shares by such investors is also subject to 10% PRC income tax if such gain is regarded as income derived from sources within the PRC. The implementation regulations of the CIT Law set forth that, (i) if the enterprise that distributes dividends is domiciled in the PRC, or (ii) if gains are realized from transferring equity interests of enterprises domiciled in the PRC, then such dividends or capital gains are treated as China-sourced income. It is not clear how domicile may be interpreted under the CIT Law, and it may be interpreted as the jurisdiction where the enterprise is a tax resident. Therefore, if we are considered a PRC resident enterprise, dividends we pay to our non-PRC enterprise investors with respect to our Class A ordinary shares or ADSs, or the gain our non-PRC enterprise investors may realize from the transfer of our Class A ordinary shares or ADSs, may be treated as income derived from sources within the PRC and be subject to PRC tax. In addition, it is unclear whether our non-PRC individual investors would be subject to any PRC tax in the event we are deemed a PRC resident enterprise. If any PRC tax were to apply to such dividends or gains of non-PRC individual investors, it would generally apply at a tax rate of 20%. Furthermore, it is unclear whether, if we are considered a PRC resident enterprise, holders of our Class A ordinary shares or ADSs might be able to claim the benefit of income tax treaties entered into between China and other countries or regions.

Material United States Federal Income Tax Consequences

The following summary describes material United States federal income tax consequences of the ownership and disposition of our ADSs and Class A ordinary shares as of the date hereof. The discussion is applicable only to United States Holders (as defined below) who hold our ADSs or Class A ordinary shares as capital assets (generally, property held for investment) under the United States Internal Revenue Code of 1986, as amended (the Code). As used herein, the term United States Holder means a beneficial owner of an ADS or Class A ordinary share that is for United States federal income tax purposes:

- an individual who is a citizen or resident of the United States;
- a corporation (or other entity treated as a corporation for United States federal income tax purposes) created or organized in or under the laws of the United States, any state thereof or the District of Columbia;
- an estate the income of which is subject to United States federal income taxation regardless of its source; or
- a trust if it (1) is subject to the primary supervision of a court within the United States and one or more United States persons have the authority to control all substantial decisions of the trust, or (2) has a valid election in effect under applicable United States Treasury regulations to be treated as a United States person.

This summary does not purport to be a detailed description of the United States federal income tax consequences applicable to you if you are subject to special treatment under the United States federal income tax laws, such as:

- a dealer in securities or currencies;
- a financial institution;
- a regulated investment company;
- a real estate investment trust;
- an insurance company;
- a tax-exempt organization;
- a person holding our ADSs or Class A ordinary shares as part of a hedging, integrated or conversion transaction, a constructive sale or a straddle;

- a trader in securities that has elected the mark-to-market method of accounting for your securities;
- a person liable for alternative minimum tax;

Table of Contents

- a person who owns or is deemed to own 10% or more of our voting stock;
- a partnership or other pass-through entity for United States federal income tax purposes; or
- a person whose functional currency is not the United States dollar.

The discussion below is based upon the provisions of the Code and United States Treasury regulations, rulings and judicial decisions thereunder as of the date hereof. Such authorities may be replaced, revoked or modified so as to result in United States federal income tax consequences different from those discussed below. In addition, this summary is based, in part, upon representations made by the depositary to us and assumes that the deposit agreement, and all other related agreements, will be performed in accordance with their terms.

This discussion does not consider the tax treatment of partnerships or other pass-through entities that hold our ADSs or Class A ordinary shares, or of persons who hold our ADSs or Class A ordinary shares through such entities. If a partnership holds ADSs or Class A ordinary shares, the tax treatment of a partner will generally depend upon the status of the partner and the activities of the partnership. If you are a partner of a partnership holding our ADSs or Class A ordinary shares, you should consult your tax advisors.

This summary does not contain a detailed description of all the United States federal income tax consequences to you in light of your particular circumstances and does not address the effects of any state, local or non-United States tax laws.

If you are considering the purchase, ownership or disposition of our ADSs or Class A ordinary shares, you should consult your own tax advisors concerning the United States federal income tax consequences to you in light of your particular situation as well as any consequences arising under the laws of any other taxing jurisdiction.

ADSs

If you hold ADSs, for United States federal income tax purposes, you generally will be treated as the owner of the underlying Class A ordinary shares that are represented by such ADSs. Accordingly, deposits or withdrawals of Class A ordinary shares for ADSs will not be subject to United States federal income tax.

Taxation of Dividends

Edgar Filing: Phoenix New Media Ltd - Form 20-F

Subject to the rules discussed under **Passive Foreign Investment Company** below, the gross amount of distributions with respect to our ADSs or Class A ordinary shares (including any amounts withheld to reflect PRC withholding taxes) will be taxable as dividends, to the extent paid out of our current or accumulated earnings and profits, as determined under United States federal income tax principles. Such income (including withheld taxes) will be includable in your gross income as dividend income on the day actually or constructively received by you, in the case of the Class A ordinary shares, or by the depositary, in the case of ADSs. Such dividends will not be eligible for the dividends received deduction allowed to corporations under the Code.

With respect to non-corporate United States Holders, certain dividends received from a qualified foreign corporation may be subject to reduced rates of taxation. A non-United States corporation is treated as a qualified foreign corporation with respect to dividends paid by that corporation on shares (or ADSs backed by such shares) that are readily tradable on an established securities market in the United States. U.S. Treasury Department guidance indicates that our ADSs (but not our Class A ordinary shares), which are listed on the New York Stock Exchange, are readily tradable on an established securities market in the United States. Thus, we believe that dividends we pay on our Class A ordinary shares that are represented by ADSs, but not on our Class A ordinary shares that are not so represented, will meet such conditions required for the reduced tax rates. There can be no assurance that our ADSs will be considered readily tradable on an established securities market in later years. A qualified foreign corporation also includes a foreign corporation that is eligible for the benefits of certain income tax treaties with the United States. In the event that we are deemed to be a PRC resident enterprise under the PRC tax law (see discussion under **Item 10. Additional Information E. Taxation People's Republic of China Taxation**), we may be eligible for the benefits of the income tax treaty between the United States and the PRC, and if we are eligible for such benefits, dividends we pay on our Class A ordinary shares, regardless of whether such shares are represented by ADSs, would be subject to the reduced rates of taxation. Non-corporate United States Holders that do not meet a minimum holding period requirement during which they are not protected from the risk of loss, or that elect to treat the dividend income as investment income pursuant to Section 163(d)(4) of the Code, will not be eligible for the reduced rates of taxation regardless of our status as a qualified foreign corporation. In addition, the rate reduction will not apply to dividends if the recipient of a dividend is obligated to make related payments with respect to positions in substantially similar or related property. This disallowance applies even if the minimum holding period has been met. Furthermore, non-corporate United States Holders will not be eligible for reduced rates of taxation on any dividends received from us if we are a PFIC (as discussed below under **Passive Foreign Investment Company**) in the taxable year in which such dividends are paid or in the preceding taxable year (as we believe there is a substantial risk of in 2017). You should consult your own tax advisors regarding the application of these rules given your particular circumstances.

In the event that we are deemed to be a PRC resident enterprise under the PRC tax law, you may be subject to PRC withholding taxes on dividends paid to you with respect to the ADSs or Class A ordinary shares. In that case, however, you may be able to obtain a reduced rate of PRC withholding taxes under the treaty between the United States and the PRC if certain requirements are met. In addition, subject to certain conditions and limitations, PRC withholding taxes on dividends, if any, may be treated as foreign taxes eligible for credit against your United States federal income tax liability. For purposes of calculating the foreign tax credit, dividends paid to you with respect to our ADSs or Class A ordinary shares will be treated as income from sources outside the United States and will generally constitute passive category income. Furthermore, in certain circumstances, if you have held our ADSs or Class A ordinary shares for less than a specified minimum period during which you are not protected from risk of loss, or are obligated to make payments related to the dividends, you will not be allowed a foreign tax credit for any PRC withholding taxes imposed on dividends paid on our ADSs or Class A ordinary shares. The rules governing the foreign tax credit are complex. You are urged to consult your tax advisors regarding the availability of the foreign tax credit under your particular circumstances.

Table of Contents

To the extent that the amount of the distribution exceeds our current and accumulated earnings and profits for a taxable year, as determined under United States federal income tax principles, the distribution will be treated first as a tax-free return of your tax basis in our ADSs or Class A ordinary shares held by you, and to the extent the amount of the distribution exceeds your tax basis, the excess will be taxed as capital gain recognized on a sale or exchange. We do not expect to keep earnings and profits in accordance with United States federal income tax principles. Therefore, you should expect that a distribution will generally be treated as a dividend (as discussed above).

Passive Foreign Investment Company

In general, we will be a PFIC for any taxable year in which:

- at least 75% of our gross income is passive income, or
- at least 50% of the value (determined based on a quarterly average) of our assets is attributable to assets that produce or are held for the production of passive income.

For this purpose, passive income generally includes dividends, interest, royalties and rents (other than royalties and rents derived in the active conduct of a trade or business and not derived from a related person). If we own at least 25% (by value) of the stock of another corporation, we will be treated, for purposes of the PFIC tests, as owning our proportionate share of the other corporation's assets and receiving our proportionate share of the other corporation's income. However, it is not entirely clear how the contractual arrangements between us and our affiliated consolidated entities will be treated for purposes of the PFIC rules. If it is determined that we do not own the stock of the affiliated consolidated entities for United States federal income tax purposes (for instance, because the relevant PRC authorities do not respect these arrangements), we are more likely to be treated as a PFIC.

Based on the composition of our income, assets, including goodwill, and valuation of our assets, we believe there is a substantial risk that we will be classified as a PFIC for U.S. federal income tax purposes for 2017. The determination of whether we are a PFIC is made annually. Accordingly, it is possible that our status as a PFIC may change in any future taxable year due to changes in our asset or income composition. The determination of PFIC status is an annual analysis that involves ascertaining the fair market value of all of our assets on a quarterly basis and the character of each item of income we earn. Because this involves extensive factual investigation and cannot be completed until the close of a taxable year, our U.S. counsel expresses no opinion with respect to our PFIC status.

If we are a PFIC for any taxable year during which you hold our ADSs or Class A ordinary shares, you will be subject to special tax rules discussed below for that year and for each subsequent year in which you hold the ADSs or Class A ordinary shares (even if we do not qualify as a PFIC in such subsequent years). However, if we cease to be a PFIC, you can avoid the continuing impact of the PFIC rules by making a special election (a Purging Election) to recognize gain in the manner described below as if your ADSs or Class A ordinary shares had been sold on the last day of the last taxable year during which we were a PFIC. In addition, a new holding period would be deemed to begin for your ADSs or Class A ordinary shares for purposes of the PFIC rules. After the Purging Election, your ADSs or Class A ordinary shares with respect to which the Purging Election was made will not be treated as shares in a PFIC unless we subsequently become a PFIC. You are urged to consult your own tax advisor about the availability of this election, and whether making the election would be advisable in your particular circumstances.

If we are a PFIC for any taxable year during which you hold our ADSs or Class A ordinary shares, you will be subject to special tax rules with respect to any excess distribution received and any gain realized from a sale or other disposition, including a pledge, of our ADSs or Class A ordinary shares. Distributions received in a taxable year that are greater than 125% of the average annual distributions received during the shorter of the three preceding taxable years or your holding period for our ADSs or Class A ordinary shares will be treated as excess distributions. Under these special tax rules:

- the excess distribution or gain will be allocated ratably over your holding period for our ADSs or Class A ordinary shares,
- the amount allocated to the current taxable year, and any taxable year prior to the first taxable year in which we were a PFIC, will be treated as ordinary income, and
- the amount allocated to each other year will be subject to tax at the highest tax rate in effect for that year and the interest charge generally applicable to underpayments of tax will be imposed on the resulting tax attributable to each such year.

In addition, non-corporate United States Holders will not be eligible for reduced rates of taxation on any dividends received from us (as described above under Taxation of Dividends) if we are a PFIC in the taxable year in which such dividends are paid or in the preceding taxable year. You will generally be required to file Internal Revenue Service Form 8621 if you hold our ADSs or Class A ordinary shares in any year in which we are classified as a PFIC.

If we are a PFIC for any taxable year during which you hold our ADSs or Class A ordinary shares and any of our non-United States subsidiaries is also a PFIC, a United States Holder would be treated as owning a proportionate amount (by value) of the shares of the lower-tier PFIC for purposes of the application of these rules. You are urged to consult your tax advisors about the application of the PFIC rules to any of our subsidiaries.

Table of Contents

In certain circumstances, in lieu of being subject to the excess distribution rules discussed above, you may make an election to include gain on the stock of a PFIC as ordinary income under a mark-to-market method, provided that such stock is regularly traded on a qualified exchange. Under current law, the mark-to-market election may be available to holders of our ADSs because they are listed on the New York Stock Exchange, which constitutes a qualified exchange, although there can be no assurance that our ADSs will be regularly traded for purposes of the mark-to-market election. It should also be noted that only our ADSs and not our Class A ordinary shares are listed on the New York Stock Exchange. Consequently, if you are a holder of our Class A ordinary shares that are not represented by ADSs, you generally will not be eligible to make a mark-to-market election if we are a PFIC.

If you make an effective mark-to-market election, you will include in each taxable year that we are a PFIC, as ordinary income, the excess of the fair market value of our ADSs held by you at the end of the year over your adjusted tax basis in our ADSs. You will be entitled to deduct as an ordinary loss in each such year the excess of your adjusted tax basis in our ADSs over their fair market value at the end of the year, but only to the extent of the net amount previously included in income as a result of the mark-to-market election. If you make an effective mark-to-market election, in each year that we are a PFIC, any gain you recognize upon the sale or other disposition of our ADSs will be treated as ordinary income and any loss will be treated as ordinary loss, but only to the extent of the net amount previously included in income as a result of the mark-to-market election.

Your adjusted tax basis in our ADSs will be increased by the amount of any income inclusion and decreased by the amount of any deductions under the mark-to-market rules. If you make a mark-to-market election it will be effective for the taxable year for which the election is made and all subsequent taxable years, unless our ADSs are no longer regularly traded on a qualified exchange or the Internal Revenue Service consents to the revocation of the election. Because a mark-to-market election cannot be made for any lower-tier PFICs that we may own, a United States Holder may continue to be subject to the PFIC rules with respect to such United States Holder's indirect interest in any investments held by us that are treated as an equity interest in a PFIC for United States federal income tax purposes.

You are urged to consult your tax advisor about the availability of the mark-to-market election, and whether making the election would be advisable in your particular circumstances.

Alternatively, you can sometimes avoid the rules described above with respect to the stock you own in a PFIC by electing to treat such PFIC as a qualified electing fund under Section 1295 of the Code. However, this option is not available to you because we do not intend to comply with the requirements necessary to permit you to make this election. You are urged to consult your tax advisors concerning the United States federal income tax consequences of holding our ADSs or Class A ordinary shares if we are considered a PFIC in any taxable year.

Taxation of Capital Gains

For United States federal income tax purposes, you will recognize taxable gain or loss on any sale or exchange of our ADSs or Class A ordinary shares in an amount equal to the difference between the amount realized for our ADSs or Class A ordinary shares and your tax basis in such ADSs or Class A ordinary shares. Subject to the discussion under *Passive Foreign Investment Company* above, such gain or loss will generally be capital gain or loss. Capital gains of individuals derived with respect to capital assets held for more than one year are eligible for reduced rates of taxation. The deductibility of capital losses is subject to limitations. Any gain or loss recognized by you will generally be treated as United States source gain or loss. Consequently, you may not be able to use the foreign tax credit arising from any PRC tax imposed on the disposition of our ADSs or Class A ordinary shares unless such credit can be applied (subject to applicable limitations) against tax due on other income treated as derived from foreign sources. However, in the event that we are deemed to be a PRC resident enterprise under the PRC tax law and PRC tax is imposed on any gain from the sale or exchange of our ADSs or Class A ordinary shares, a United States Holder eligible for

Edgar Filing: Phoenix New Media Ltd - Form 20-F

the benefits of the income tax treaty between the United States and the PRC may be able to elect to treat such gain as PRC-source income. You are urged to consult your tax advisors regarding the tax consequences if a foreign withholding tax is imposed on a disposition of our ADSs or Class A ordinary shares, including the availability of the foreign tax credit under your particular circumstances.

Information Reporting and Backup Withholding

Pursuant to the Hiring Incentives to Restore Employment Act enacted on March 18, 2010, an individual United States Holder may be required to submit to the Internal Revenue Service certain information reporting with respect to his or her beneficial ownership of our ADSs or Class A ordinary shares, unless such ADSs were held on his or her behalf by a United States financial institution. This law also imposes penalties if an individual United States Holder is required to submit such information to the Internal Revenue Service and fails to do so.

Moreover, information reporting will apply to dividends in respect of our ADSs or Class A ordinary shares and the proceeds from the sale, exchange or redemption of our ADSs or Class A ordinary shares that are paid to you within the United States (and in certain cases, outside the United States), unless you are an exempt recipient. Backup withholding may apply to such payments if you fail to provide a taxpayer identification number or certification of other exempt status or fail to report in full dividend and interest income.

Backup withholding is not a tax. Any amounts withheld under the backup withholding rules will be allowed as a refund or a credit against your United States federal income tax liability provided the required information is timely furnished to the Internal Revenue Service. You should consult your tax advisors regarding the application of the United States information reporting and backup withholding rules to your particular circumstances.

H. Documents on Display

We have filed this annual report on Form 20-F, including exhibits, with the SEC. As allowed by the SEC, in Item 19 of this annual report, we incorporate by reference certain information we filed with the SEC. This means that we can disclose important information to you by referring you to another document filed separately with the SEC. The information incorporated by reference is considered to be part of this annual report.

You may read and copy this annual report, including the exhibits incorporated by reference in this annual report, at the SEC's Public Reference Room at 100 F Street, N.E., Washington, D.C. 20549 and at the SEC's regional offices in New York, New York, and Chicago, Illinois. You can also request copies of this annual report, including the exhibits incorporated by reference in this annual report, upon payment of a duplicating fee, by writing to the SEC's Public Reference Room for information.

The SEC also maintains a websites that contains reports, proxy statements and other information about issuers, such as us, who file electronically with the SEC. The address of that websites is <http://www.sec.gov>. The information on that websites is not a part of this annual report.

I. Subsidiary Information

Not applicable.

**ITEM 11.
ABOUT MARKET RISK**

QUANTITATIVE AND QUALITATIVE DISCLOSURES

Concentration risk

We depend on China Mobile, which is a shareholder of Phoenix TV, for a significant portion of our business. The revenues generated from advertising and paid services we provided through China Mobile for the years ended December 31, 2015, 2016 and 2017 were RMB309.3 million, RMB154.6 million and RMB172.2 million (US\$26.5 million), respectively, which accounted for 19.2%, 10.7% and 10.9% of our total

revenues in the respective years.

We had accounts receivable from China Mobile as of December 31, 2016 and 2017 of RMB48.8 million and RMB63.2 million (US\$9.7 million), respectively, which are included on our balance sheets as Amounts due from related parties. Apart from China Mobile and an advertising agent, we have no other customer with revenues or accounts receivable accounting for over 10% of our total revenues or total account receivables, net and due from related parties, respectively.

Credit risk

Our credit risk arises from cash and cash equivalents, term deposits and short term investments and restricted cash, as well as credit exposures to receivables due from our customers, related parties and other parties.

We believe that there is no significant credit risk associated with cash and cash equivalents, term deposits and short term investments and restricted cash for short-term bank loans which were held by reputable financial institutions in the jurisdictions where we are located. We believe that we are not exposed to unusual risks as these financial institutions have high credit quality.

As of the date hereof, we had two outstanding unsecured short-term loans to Particle, including (i) a convertible loan with a principal amount of US\$14.8 million at an interest rate of 4.35% per annum due in August 2018 after several extensions, which can be converted into Series D1 convertible redeemable preferred shares of Particle at a conversion price of US\$1.071803 per share before August 9, 2018; (ii) a loan with a principal amount of RMB74.0 million (US\$10.8 million) at an interest rate of 9% per annum due in July 2018. Particle is required to use the proceeds of the loans for its working capital requirements in the ordinary course of their businesses. We depend on the ability of Particle to generate sufficient cash flow from its operations or financing activities to repay our loans. As such, we are exposed to the credit risk of Particle.

We have no significant concentrations of credit risk with respect to our customers and related parties, except for the account receivable from China Mobile and an advertising agent, and unsecured short-term loans to Particle as discussed above. We assess the credit quality of, and set credit limits on our customers by taking into account their financial position, the availability of guarantees from third parties, their credit history and other factors such as current market conditions.

Inflation Risk

In recent years, inflation has not had a material impact on our operating results. According to the National Bureau of Statistics of China, the change in the Consumer Price Index in China was 1.4%, 2.0% and 1.6% in 2015, 2016 and 2017, respectively. Although we have not been materially affected by inflation in the past, we can provide no assurance that we will not be affected in the future by higher rates of inflation in China. We do not anticipate being exposed to material risks due to changes in market interest rates. However, our future interest income may fall short of expectations due to changes in market interest rates.

Table of Contents

Foreign Currency Risk

Substantially all our revenues and expenses are denominated in Renminbi. We have not had any material foreign exchange gains or losses. Although in general, our exposure to foreign exchange risks should be limited, the value of your investment in our ADSs will be affected by the foreign exchange rate between U.S. dollars relative to the Renminbi because the value of our business is effectively denominated in Renminbi, while the ADSs are traded in U.S. dollars. Furthermore, a decline in the value of the Renminbi could reduce the U.S. dollar equivalent of the value of the earnings from, and our investments in, our subsidiaries and PRC-incorporated affiliates in China. In addition, appreciation or depreciation in the value of the Renminbi relative to the U.S. dollar would affect our reported financial results in U.S. dollar terms. As of December 31, 2017, we had RMB denominated cash and cash equivalents, term deposits and short term investments and restricted cash, totaling RMB1.4 billion (US\$215.2 million), and U.S. dollar denominated cash and cash equivalents and term deposits totaling US\$5.0 million. See Item 3. Key Information D. Risk Factors Risks Relating to Doing Business in China Fluctuations in exchange rates of the Renminbi could materially affect our reported operating results.

D.

American Depositary Shares

Edgar Filing: Phoenix New Media Ltd - Form 20-F

In July 2016, we appointed JPMorgan Chase Bank, N.A., or JPMorgan, as the successor depositary for our ADR program. JPMorgan replaced Deutsche Bank Trust Company Americas, or Deutsche Bank, as depositary for our ADR program effective from July 18, 2016. We entered into an amended and restated deposit agreement with JPMorgan, as depositary, and all holders from time to time of our ADRs in July 2016 to amend and restate the previous deposit agreement with Deutsche Bank dated as of May 11, 2011.

Fees and Charges

As an ADS holder, you will be required to pay the following service fees to JPMorgan as the depositary bank:

Service:	Fee:
Issuance of ADSs, including issuances resulting from a distribution of shares or rights or other property	\$5.00 for each 100 ADSs (or portion thereof) issued
Cancellation of ADSs, including in the case of termination of the deposit agreement	\$5.00 for each 100 ADSs (or portion thereof) cancelled
Distribution of cash dividends or other cash distributions	Up to \$0.05 per ADS held
Distribution of ADSs pursuant to share dividends, free share distributions or exercise of rights	Up to \$0.05 per ADS held
Distribution of securities other than ADSs or rights to purchase ADSs or additional ADSs	A fee being in an amount equal to the fee for the execution and delivery of ADSs which would have been charged as a result of the deposit of such securities
Depositary services	An aggregate fee of U.S.\$0.05 per ADS per calendar year (or portion thereof) for services performed by the Depositary in administering the ADRs
Transfer of ADRs	\$1.50 per certificate presented for transfer

As an ADS holder, you will also be responsible to pay certain fees and expenses incurred by the depositary bank and certain taxes and governmental charges such as:

Fees for the transfer and registration of ordinary shares charged by the registrar and transfer agent for the ordinary shares in the Cayman Islands (i.e., upon deposit and withdrawal of ordinary shares).

Table of Contents

- Expenses incurred for converting foreign currency into U.S. dollars.
- Expenses for cable, telex and fax transmissions and for delivery of securities.
- Taxes and duties upon the transfer of securities, including any applicable stamp duties, any stock transfer charges or withholding taxes (i.e., when ordinary shares are deposited or withdrawn from deposit).
- Fees and expenses incurred in connection with the delivery or servicing of ordinary shares on deposit.
- Fees and expenses incurred in connection with complying with exchange control regulations and other regulatory requirements applicable to ordinary shares, deposited securities, ADSs and ADRs.
- Any applicable fees and penalties thereon.

The depositary fees payable upon the issuance and cancellation of ADSs are typically paid to the depositary bank by the brokers (on behalf of their clients) receiving the newly issued ADSs from the depositary bank and by the brokers (on behalf of their clients) delivering the ADSs to the depositary bank for cancellation. The brokers in turn charge these fees to their clients. Depositary fees payable in connection with distributions of cash or securities to ADS holders and the depositary services fee are charged by the depositary bank to the holders of record of ADSs as of the applicable ADS record date.

The depositary fees payable for cash distributions are generally deducted from the cash being distributed or by selling a portion of distributable property to pay the fees. In the case of distributions other than cash (i.e., share dividends, rights), the depositary bank charges the applicable fee to the ADS record date holders concurrent with the distribution. In the case of ADSs registered in the name of the investor (whether certificated or uncertificated in direct registration), the depositary bank sends invoices to the applicable record date ADS holders. In the case of ADSs held in brokerage and custodian accounts (via DTC), the depositary bank generally collects its fees through the systems provided by DTC (whose nominee is the registered holder of the ADSs held in DTC) from the brokers and custodians holding ADSs in their DTC accounts. The brokers and custodians who hold their clients' ADSs in DTC accounts in turn charge their clients' accounts the amount of the fees paid to the depositary banks.

In the event of refusal to pay the depositary fees, the depositary bank may, under the terms of the deposit agreement, refuse the requested service until payment is received or may set off the amount of the depositary fees from any distribution to be made to the ADS holder.

The depositary has agreed to reimburse us for a portion of certain expenses we incur that are related to establishment and maintenance of the ADR program, including investor relations expenses. There are limits on the amount of expenses for which the depositary will reimburse us, but the amount of reimbursement available to us is not related to the amounts of fees the depositary collects from investors. Further, the depositary has agreed to reimburse us certain fees payable to the depositary by holders of ADSs. Neither the depositary nor we can determine the exact amount to be made available to us because (i) the number of ADSs that will be issued and outstanding, (ii) the level of service fees to be charged to holders of ADSs and (iii) our reimbursable expenses related to the program are not known at this time.

Payments by Depositary

As of March 31, 2018, we had received total payments of US\$0.37 million from JPMorgan, the current depositary bank for our ADR program for reimbursement of investor relations expenses and other program related expenses.

ITEM 15.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

As of December 31, 2017, an evaluation has been carried out under the supervision and with the participation of our management, including our Chief Executive Officer and our Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures, as such term is defined under Rules 13a-15(e) and 15d-15(e) promulgated under the Securities Exchange Act of 1934, as amended. Disclosure controls and procedures are designed to ensure that information required to be disclosed in the reports filed or submitted under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding the required disclosures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of the controls and procedures. Disclosure controls and procedures are designed to provide reasonable assurance of achieving their objectives. Based upon our evaluation, our management has concluded that, as of December 31, 2017, our disclosure controls and procedures were effective.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended, for our company. Internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of consolidated financial statements in accordance with generally accepted accounting principles and includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and disposals of our assets, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with U.S. GAAP and that a company's receipts and expenditures are being made only in accordance with authorizations of our management and directors, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposal of our assets that could have a material effect on our consolidated financial statements.

Because of its inherent limitations, a system of internal control over financial reporting can provide only reasonable assurance with respect to consolidated financial statements preparation and presentation and may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

As required by Section 404 of the Sarbanes-Oxley Act of 2002 and related rules as promulgated by the Securities and Exchange Commission, our management, including our Chief Executive Officer and Chief Financial Officer, assessed the effectiveness of internal control over financial reporting as of December 31, 2017 using the criteria set forth in the report *Internal Control - Integrated Framework (2013)* published by the Committee of Sponsoring Organizations of the Treadway Commission. Based on this evaluation, management concluded that our internal control over financial reporting was effective as of December 31, 2017.

Attestation Report of the Independent Registered Public Accounting Firm

The effectiveness of our internal control over financial reporting as of December 31, 2017 has been audited by PricewaterhouseCoopers Zhong Tian LLP, an independent registered public accounting firm, as stated in their report which appears on page F-2 of this annual report on Form 20-F.

Changes in Internal Control over Financial Reporting

We maintain a system of internal control over financial reporting that is designed to provide reasonable assurance that our books and records accurately reflect our transactions and that our established policies and procedures are followed. As required by Rule 13a-15(d), under the Exchange Act, our management, including our Chief Executive Officer, president and our Chief Financial Officer, has also conducted an evaluation of our internal control over financial reporting to determine whether any changes occurred during the period covered by this report have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting. There were no changes in our internal control over financial reporting that occurred during the year ended December 31, 2017 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 16A.

AUDIT COMMITTEE FINANCIAL EXPERT

Our Board of Directors has determined that Jerry Juying Zhang, who is an independent director, qualifies as an audit committee financial expert as defined in Item 16A of the instruction to Form 20-F.

ITEM 16B.

CODE OF ETHICS

We have adopted a code of ethics which applies to our directors, employees, advisors and officers, including our Chief Executive Officer and Chief Financial Officer. No changes have been made to the code of ethics since its adoption and no waivers have been granted therefrom to our directors or employees. We have filed our code of business conduct and ethics as an exhibit to our F-1 registration statement (File No. 333-173666), as amended, initially filed with the Commission on April 21, 2011, and a copy is available to any shareholder upon request. This code of ethics is also available on our website at ir.ifeng.com.

Table of Contents**ITEM 16C.****PRINCIPAL ACCOUNTANT FEES AND SERVICES**

PricewaterhouseCoopers Zhong Tian LLP has served as our independent public accountant for each of the fiscal years in the three-year period ended December 31, 2017, for which audited financial statements appear in this annual report.

The following table sets forth the aggregate fees by categories specified below in connection with certain professional services rendered by PricewaterhouseCoopers Zhong Tian LLP, for the years indicated.

	For the Years Ended December 31,	
	2016	2017
	(In thousands of US dollars)	
Audit Fees (1)	1,075	1,173
Tax Fees (2)	30	15
All Other Fees (3)	50	17
Total	1,155	1,205

(1) Audit fees consist of fees associated with the annual audit, reviews of our quarterly financial statements and related statutory and regulatory filings. For 2016 and 2017, the audit refers to financial audit and audit pursuant to Section 404 of the Sarbanes-Oxley Act of 2002.

(2) Tax fees include fees billed for tax compliance and tax advice services.

(3) All other fees comprise fees for all other services provided by PricewaterhouseCoopers Zhong Tian LLP, other than those services covered in footnotes (1) to (2) above.

Pre-Approval Policies and Procedures

Our audit committee is responsible for the oversight of our independent accountants' work. The policy of our audit committee is to pre-approve all audit and non-audit services provided by PricewaterhouseCoopers Zhong Tian LLP, including audit services, audit-related services, tax services and other services, as described above.

All audit and non-audit services performed by PricewaterhouseCoopers Zhong Tian LLP must be pre-approved by the Audit Committee.

ITEM 16G.

CORPORATE GOVERNANCE

We are a foreign private issuer (as such term is defined in Rule 3b-4 under the Exchange Act), and our ADSs, each representing eight ordinary shares, are listed on the New York Stock Exchange. Under Section 303A of the New York Stock Exchange Listed Company Manual, New York Stock Exchange listed companies that are foreign private issuers are permitted to follow home country practice in lieu of the corporate governance provisions specified by the New York Stock Exchange with limited exceptions. The following summarizes some significant ways in which our corporate governance practices differ from those followed by domestic companies under the listing standards of the New York Stock Exchange.

- In respect of independent directors on our Board of Directors: Only two of our seven directors are independent directors: As our home country practice does not require a majority of our Board of Directors to be independent, two of our seven directors are independent.
- In respect of composition of our audit committee: As our home country practice does not require us to have a minimum of three members of our audit committee, our audit committee is comprised of two independent directors.

- In respect of the oversight of our executive officer compensation and director nominations matters: As our home country practice does not require independent director oversight of executive officer compensation and director nomination matters, our compensation and corporate governance and nominating committees are not comprised solely of independent directors.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of Phoenix New Media Limited:

Opinions on the Financial Statements and Internal Control over Financial Reporting

We have audited the accompanying consolidated balance sheets of Phoenix New Media Limited and its subsidiaries (the Company) as of December 31, 2017 and 2016, and the related consolidated statements of comprehensive income, shareholders' equity and cash flows for each of the three years in the period ended December 31, 2017, including the related notes (collectively referred to as the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 31, 2017 and 2016, and the results of their operations and their cash flows for each of the three years in the period ended December 31, 2017 in conformity with accounting principles generally accepted in the United States of America. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2017, based on criteria established in *Internal Control - Integrated Framework* (2013) issued by the COSO.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in Management's Annual Report on Internal Control over Financial Reporting appearing under Item 15. Our responsibility is to express opinions on the Company's consolidated financial statements and on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation

of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (i) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (ii) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (iii) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

* In 2017, the Company adopted the guidance of ASU 2015-17 issued by FASB in November 2015, which requires entities to present deferred tax assets and deferred tax liabilities as noncurrent in a classified balance sheet. Pursuant to the guidance, the Company retrospectively reclassified RMB54.3 million of deferred tax assets from current assets to noncurrent assets in the balance sheets as of December 31, 2016.

The accompanying notes are an integral part of these consolidated financial statements.
