BONSO ELECTRONICS REPORTS EARNINGS UP 679% FOR THE QUARTER
AND 48% FOR THE YEAR

Hong Kong, July 11, 2005/ - - Bonso Electronics International, Inc (NASDAQ:
BNSO) today reported net income of \$1,270,000 or \$0.21 per share (diluted) on
net sales of \$13,861,000 for the fourth fiscal quarter ended March 31, 2005.
This represented an increase of 679% in net income and decrease of 17% in net
sales as compared to \$163,000 or \$0.03 per share (diluted) on net sales of
\$16,624,000 posted during the same period last year.

Edgar Filing: BONSO ELECTRONICS INTERNATIONAL INC - Form 6-K

Net income for the fiscal year ended March 31, 2005 increased 48% to \$3,350,000 or \$0.55 per share (diluted) as compared to \$2,268,000 or \$0.37 per share (diluted) posted during the same period last year.

Net sales for the year ended March 31, 2005 decreased 7.2% to \$69,602,000 from net sales of \$74,964,000 for the year ended March 31, 2004.

Mr. George O'Leary, President and CEO stated: "We accomplished these results, over the last year, at a time when the price of raw materials and skilled labor costs were increasing. We were able to offset some of these material cost increases by initiating design and manufacturing process changes. Further contributing to the increase in net income was a reduction in administration and general expenses, specifically legal and professional fees as a result of the resolution of all pending legal proceedings."

"While our sensor based product sales increased approximately 2% over last year, it was not enough to offset the reduction in sales of approximately 25% in our telecommunications products business. We are cautiously optimistic that sales will continue to grow in the sensor based product area, as they have all year, as a result of increases from our current customers, new customers and the apparent good reaction to new product introductions we have made. We believe that telecommunications product sales will continue to be soft in the near term due to seasonality associated with telecommunications products, but we anticipate resurgence as our OEM customers release new offerings".

Mr. George O'Leary further said: "Throughout fiscal 2005, we have been enjoying the benefits of generating positive cash flow from operations. Our cash position at the end of the year is \$9.7 million (\$1.74 per share). We are continuing to invest in expansion of our plant and equipment to support future growth. We believe that we have many opportunities to exploit, and believe we will have the financial resources to implement the initiatives we choose. With minimum long-term debt and a strong balance sheet, we intend to continue to invest in the future of Bonso through the development of new products and technologies, facilities and capital equipment. We believe we have growth potential in both the sensor based and telecommunications markets we serve. Business challenges notwithstanding, we remain confident in the overall strategy and growth plan we are implementing."

About Bonso Electronics

Headquartered in Hong Kong, Bonso Electronics designs, develops, manufactures assembles and markets a comprehensive line of telecommunications products, electronic scales and weighing instruments. Bonso products are manufactured in the People's Republic of China with customers primarily located in North America and Europe. Company services include product design and prototyping, production tooling, procurement of components, total quality management, and just-in-time delivery. For further information, visit the company's website at <http://www.bonso.com>.

The statements contained in this press release which are not historical fact are forward looking statements that involve certain risks and uncertainties including, but not limited to risks associated with the uncertainty of future financial results, seasonality of scales of certain products, additional financing requirements, development of new products, government approval

processes, the impact of competitive products or pricing, technological changes, currency fluctuations, estimates of market growth, the effect of economic conditions and other uncertainties detailed in the company's filings with the Securities and Exchange Commission.
