Edgar Filing: Geopulse Exploration Inc. - Form 10-Q

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer and smaller reporting company in Rule 12b-2 of the Exchange Act.

Large accelerated filer

Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company)

Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

As of July 31, 2011 the Issuer had 136,180,000 shares of common stock issued and outstanding.

PART I-FINANCIAL INFORMATION

ITEM 1.

FINANCIAL STATEMENTS.

The financial statements included herein have been prepared, without audit, in accordance with accounting principles generally accepted in the United States for interim financial information. Certain information and footnote disclosures normally included in the financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted as allowed by such rules and regulations, and the Company believes that the disclosures are adequate to make the information presented not misleading. It is suggested that these financial statements be read in conjunction with the January 31, 2011 audited financial statements and the accompanying notes included in the Company's Form 10-K filed with the Commission on March 10, 2011. The results of operations for the interim periods are not necessarily indicative of the results for the full year. In management's opinion all adjustments necessary for a fair presentation of the Company's financial statements are reflected in the interim periods included, and are of a normal recurring nature.

GEOPULSE EXPLORATION INC.

(Pre-Exploration Stage Company)

NOTES TO FINANCIAL STATEMENTS

July 31, 2011

(Unaudited)

1.

ORGANIZATION

The Company was incorporated under the laws of the state of Nevada on August 13, 2004.

The Company was organized for the purpose of acquiring and developing mineral claims. During fiscal year 2011, the Company's previous mining claims lapsed, and the Company shifted its business model to look for merger possibilities, and thus entered the Development Stage. Subsequent to January 31, 2011, the Company has acquired various mining claims, and is now considered to be a pre-exploration stage company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Accounting Method

The Company recognizes income and expenses based on the accrual method of accounting.

Dividend Policy

The Company has not yet adopted a policy regarding payment of dividends.

Financial Instruments

The carrying amounts of financial instruments are considered by management to be their estimated fair values due to their short term maturities.

Income Taxes

The Company utilizes the liability method of accounting for income taxes. Under the liability method deferred tax assets and liabilities are determined based on the differences between financial reporting and the tax bases of the assets and liabilities and are measured using the enacted tax rates and laws that will be in effect, when the differences are expected to reverse. An allowance against deferred tax assets is recorded, when it is more likely than not, that such tax benefits will not be realized.

On July 31, 2011, the Company had a net operating loss carryforward of \$ 146,482. The income tax benefit of approximately \$ 50,000 has been fully offset by a valuation reserve because the use of the future tax benefit is doubtful. The net operating loss carryforward, will begin to expire in 2024.

Foreign Currency Translations

Part of the transactions of the Company were completed in Canadian dollars and have been translated to US dollars as incurred, at the exchange rate in effect at the time, and therefore, no gain or loss from the translation is recognized. The reporting and functional currency is US dollars.

Mineral Property Acquisition and Exploration Costs

Mineral property acquisition costs are initially capitalized when incurred. These costs are then assessed for impairment when factors are present to indicate the carrying costs may not be recoverable. Mineral exploration costs are expensed when incurred.

Revenue Recognition

Revenue is recognized on the sale and delivery of a product or the completion of a service provided.

Advertising and Market Development

The company expenses advertising and market development costs as incurred.

Financial and Concentrations Risk

The Company does not have any concentration or related financial credit risk.

Estimates and Assumptions

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amounts of the assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing these financial statements.

Basic and Diluted Net Income (Loss) Per Share

Basic net income (loss) per share amounts are computed based on the weighted average number of shares actually outstanding. Diluted net income (loss) per share amounts are computed using the weighted average number of common shares and common equivalent shares outstanding as if shares had been issued on the exercise of any common share rights. The Company has no outstanding options, warrants or other convertible instruments that could

affect the calculated number of shares.

Reclassifications

Certain prior period amounts have been reclassified to conform to current period presentation.

Recent Accounting Pronouncements

The Company does not expect that the adoption of other recent accounting pronouncements will have a material impact on its financial statements.

3. MINERAL LEASES

During February and July of 2011, the Company made payments of \$1,206 and \$2,380, respectively, to acquire mineral leases. The leases acquired in February 2011 have a ten year term and minimum annual rental payments of \$500 or \$1 per acre, whichever is larger (a total of 980 acres was acquired). The leases acquired in July 2011 have a ten year term and minimum annual rental payments of \$4.00 per acre for the first five years and \$1.00 per acre for years six through ten (234 acres were acquired). These leases also carry an overriding royalty rate of 5% of the gross value of potash produced. The related \$2,380 payment made to

acquire these potash leases will be applied to the first year's minimum annual rental fee.

As of July 31, 2011, the Company determined that the mineral lease acquisition payments were impaired and recorded a related impairment loss of \$3,586 in its statement of operations.

4. NOTE PAYABLE

The Company completed a line of credit agreement to borrow up to \$250,000. The terms of the agreement provide for 10% interest to be accrued from the date of any amounts received with repayment of any amount requested due within four months of the request. If the Company is unable to repay the loan within the four month timeframe, the lender will be allowed to exchange every \$.07 of debt into one common share of the Company stock at the election of the lender. As of July 31, 2011, the Company has received \$20,000 on this line of credit and has accrued interest payable of \$834.

5. COMMON STOCK

During 2005 and 2006 the Company issued 20,900,000 common shares for \$19,000 and 5,280,000 common shares for \$24,000.

On May 24, 2010, the Company issued 110,000,000 common shares to its CEO for cash of \$19,973.

On June 7, 2010, the Company increased the number of its authorized common shares of stock to 1,000,000,000 shares.

On December 13, 2010, the Company approved an 11 for 1 forward stock split. All share references in these financial statements have been retroactively adjusted for this stock split.

6. SIGNIFICANT TRANSACTIONS WITH RELATED PARTIES

The Chief Executive Officer of the Company has acquired 91% of the Company's outstanding common stock, and has made advances to the Company of \$1,026. These advances are non-interest bearing and payable on demand.

Previous officers and directors have paid Company debt of \$67,899.

7. GOING CONCERN

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. The Company does not have sufficient working capital for its planned activity, and to service its debt, which raises substantial doubt about its ability to continue as a going concern.

Continuation of the Company as a going concern is dependent upon obtaining additional working capital and the management of the Company has developed a strategy, which it believes will accomplish this objective through short term loans from an officer-director, and additional equity investment, which will enable the Company to continue operations for the coming year.

8. SUBSEQUENT EVENTS

As reported in a Current Report on Form 8-K dated August 8, 2011, and filed with the SEC on August 19, 2011, on August 11, 2011, the Registrant entered into a Financing Agreement with Haycliffe, Inc., of Zurich,

Switzerland. The Financing Agreement is for a term of 90 days. Under its terms, Haycliffe has agreed to use its best efforts to seek to arrange a financing for the Registrant for a maximum amount of US\$25 million and will be entitled to a fee equal to 5% of the gross amount of the financing. The Financing Agreement provides the Registrant with a right of first refusal regarding the source of the financing which gives it the right to accept or reject any proposed financing based on its source or its terms.

ITEM 2.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

SPECIAL NOTE OF CAUTION REGARDING FORWARD-LOOKING STATEMENTS

CERTAIN STATEMENTS IN THIS REPORT, INCLUDING STATEMENTS IN THE FOLLOWING DISCUSSION, ARE WHAT ARE KNOWN AS "FORWARD LOOKING STATEMENTS", WHICH ARE BASICALLY STATEMENTS ABOUT THE FUTURE. FOR THAT REASON, THESE STATEMENTS INVOLVE RISK AND UNCERTAINTY SINCE NO ONE CAN ACCURATELY PREDICT THE FUTURE. WORDS SUCH AS "PLANS," "INTENDS," "WILL," "HOPES," "SEEKS," "ANTICIPATES," "EXPECTS "AND THE LIKE OFTEN IDENTIFY SUCH FORWARD LOOKING STATEMENTS, BUT ARE NOT THE ONLY INDICATION THAT A STATEMENT IS A FORWARD LOOKING STATEMENT. SUCH FORWARD LOOKING STATEMENTS INCLUDE STATEMENTS CONCERNING OUR PLANS AND OBJECTIVES WITH RESPECT TO THE PRESENT AND FUTURE OPERATIONS OF THE COMPANY, AND STATEMENTS WHICH EXPRESS OR IMPLY THAT SUCH PRESENT AND FUTURE OPERATIONS WILL OR MAY PRODUCE REVENUES, INCOME OR PROFITS. NUMEROUS FACTORS AND FUTURE EVENTS COULD CAUSE THE COMPANY TO CHANGE SUCH PLANS AND OBJECTIVES OR FAIL TO SUCCESSFULLY IMPLEMENT SUCH PLANS OR ACHIEVE SUCH OBJECTIVES, OR CAUSE SUCH PRESENT AND FUTURE OPERATIONS TO FAIL TO PRODUCE REVENUES, INCOME OR PROFITS. THEREFORE, THE READER IS ADVISED THAT THE FOLLOWING DISCUSSION SHOULD BE CONSIDERED IN LIGHT OF THE DISCUSSION OF RISKS AND OTHER FACTORS CONTAINED IN THIS REPORT ON FORM 10-Q AND IN THE COMPANY'S OTHER FILINGS WITH THE SECURITIES AND EXCHANGE COMMISSION. NO STATEMENTS CONTAINED IN THE FOLLOWING DISCUSSION SHOULD BE CONSTRUED AS A GUARANTEE OR ASSURANCE OF FUTURE PERFORMANCE OR FUTURE RESULTS.

Background

Geopulse Exploration, Inc. was incorporated on August 13, 2004 under the laws of the state of Nevada. We previously owned one mineral claim known as the CATH 1 Claim, located in British Columbia, Canada. From the date of our incorporation to the present, we have not received any revenues from operations and we have been dependent upon obtaining financing to pursue exploration activities. However, we were unable to obtain the necessary financing to pursue exploration activities, and as of October 17, 2008, the CATH 1 Claim expired and we elected not to renew it.

Edgar Filing: Geopulse Exploration Inc. - Form 10-Q

As reported in a Current Report on Form 8-K dated February 22, 2011, on February 22, 2011, the Director of the State of Utah School and Institutional Trust Lands Administration officially approved our applications for two metalliferous mineral leases. Lease Application 1 covers a 640 acre parcel of land located in Section 16, Township T30S, Range25E, SLB Meridian located in San Juan County, Utah. Lease Application 2 covers a 340 acre parcel of land located in Section 16, Township 29 South, Range 26, East, SLB Meridian located in San Juan County, Utah. We acquired the properties to expand our asset base and further future possible exploration work.

Metalliferous mineral properties are leased for a 10-year term by competitive filing with the State of Utah, School and Institutional Trust Lands Administration. Minimum annual rental, regardless of acreage is \$500.00 or \$1.00 per acre, whichever is larger. The metalliferous mineral leases carry a royalty rate of eight (8%) for fissionable metalliferous minerals and four (4%) for non-fissionable metalliferous minerals.

As reported in a Current Report on Form 8-K dated August 8, 2011, on August 8, 2011, the School and Institutional Trust Lands Administration of the State of Utah granted us a potash lease on a 234 acre parcel of land located in San Juan County, Utah. The lease was granted to us through a competitive bidding process in which sealed bids were submitted. The lease agreement is for a 10-year term with minimum annual rentals of \$4.00 per acre for the first five years. Commencing with the 6th year, the minimum annual rental rate increases by \$1.00 per acre per year. The lease also provides for an initial royalty rate of 5% of the gross value of potash produced during its term. The acquisition price we paid was \$2,380, which will be applied to the minimum annual rent for the first year of the lease.

Plan of Operation

We have not commenced the exploration stage of our business and can provide no assurance that we will discover economic mineralization on our properties, or if such minerals are discovered, that we will enter into commercial production.

For the fiscal year ending January 31, 2012, our plan of operation is to seek to commence phase one of an exploration program on one or both of our mineral leases. Phase one of an exploration program is expected to consist of mapping, prospecting and geochemical sampling of the properties by a consulting geologist. Following completion of the phase one exploration program we will review the results and any recommendations provided by the consulting geologist and make a determination as to whether to proceed with a second phase of exploration. If it is determined that the results from the first phase of exploration justify a second phase, it will also be necessary to make a decision regarding the nature and extent of phase two of the exploration program and to establish a budget for the second phase.

For the fiscal year ending January 31, 2012, our plan of operation is also to seek to commence phase one of an exploration program on our potash lease. Phase one of an exploration program is expected to consist of mapping, prospecting and sampling of the property by a consulting geologist. Following completion of a phase one exploration program, we will review the results and any recommendations provided by the consulting geologist and make a determination as to whether to proceed with a second phase of exploration.

Before proceeding with commencement of a proposed phase one exploration program on one or both of our mineral leases, or on our potash lease, we intend to obtain an estimate for the cost of completion of such an exploration program. As of July 31, 2011, we have approximately \$6,250 of cash on hand. However, we believe these funds will be needed to pay basic operating costs and costs associated with preparation and filing of required periodic reports. Therefore, before proceeding with commencement of the proposed phase one exploration program, we anticipate that we will also need to obtain sufficient additional financing to cover the associated costs.

Liquidity and Capital Resources

As of July 31, 2011, the Company is in the pre-exploration. Our balance sheet reflects total assets of \$6,250, all in the form of cash, and total current liabilities of \$21,860. We currently have a deficit accumulated in the pre-exploration stage of \$(146,482).

As reported in a Current Report on Form 8-K dated February 22, 2011, on February 22, 2011, the Company entered into an unsecured Line of Credit Agreement (the "Line of Credit") with Rampoldi, Inc. (the "Rampoldi") for a Line of Credit totaling \$250,000. Pursuant to the terms of the Line of Credit, Rampoldi will provide the Company with cash advances as requested by the Company, in an aggregate amount up to \$250,000. The cash advances will bear interest at a rate of 10% per annum beginning on the date the proceeds of each cash advance are delivered to the Registrant. The Line of Credit does not have a set

maturity date, but Rampoldi has the right to request repayment of the cash advances at anytime. In the event Rampoldi requests the repayment of a cash advance, the Company has four months in which to repay the outstanding principal and interest due under such cash advance. In the event the Company is unable to fulfill any repayment request within the specified four month period, Rampoldi then has the right to elect to convert every \$0.07 of outstanding debt due under the cash advance into one share of the Company's common stock.

The proceeds of the cash advances are intended to be used for operating capital of the Company.

Subsequent Event

As reported in a Current Report on Form 8-K dated August 8, 2011, and filed with the SEC on August 19, 2011, on August 11, 2011, the Registrant entered into a Financing Agreement with Haycliffe, Inc., of Zurich, Switzerland. The Financing Agreement is for a term of 90 days. Under its terms, Haycliffe has agreed to use its best efforts to seek to arrange a financing for the Registrant for a maximum amount of US\$25 million and will be entitled to a fee equal to 5% of the gross amount of the financing. The Financing Agreement provides the Registrant with a right of first refusal regarding the source of the financing which gives it the right to accept or reject any proposed financing based on its source or its terms.

Off Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

ITEM 3.

QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not Applicable.

ITEM 4T.

CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

The Securities and Exchange Commission defines the term "disclosure controls and procedures" to mean a company's controls and other procedures of an issuer that are designed to ensure that information required to be disclosed in the reports that it files or submits under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported, within the time periods specified in the Securities and Exchange Commission's rules and forms. Disclosure controls and procedures include, without limitation, controls and procedures designed to ensure that information required to be disclosed by an issuer in the reports that it files or submits under the Securities Exchange Act of 1934 is accumulated and communicated to the issuer's management, including its principal executive and principal financial officers, or persons performing similar functions, as appropriate to allow timely decisions regarding required disclosure. The Company maintains such a system of controls and procedures in an effort to ensure that all information which it is required to disclose in the reports it files under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified under the SEC's rules and forms and that information required to be disclosed is accumulated and communicated to principal executive and principal financial officers to allow timely decisions regarding disclosure.

As of the end of the period covered by this report, we carried out an evaluation, under the supervision and with the participation of our principal executive officer and principal financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures are designed to provide reasonable assurance of achieving the objectives of timely alerting them to material

information required to be included in our periodic SEC reports and of ensuring that such information is recorded, processed, summarized and reported within the time periods specified. Our principal executive officer and principal financial officer also concluded that our disclosure controls and procedures were effective as of the end of the period covered by this report to provide reasonable assurance of the achievement of these objectives.

Changes in Internal Control over Financial Reporting

There was no change in the Company's internal control over financial reporting during the period ended July 31, 2011, that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II-OTHER INFORMATION

ITEM 1.

LEGAL PROCEEDINGS.

The Company is not a party to any pending legal proceedings, and no such proceedings are known to be contemplated. No director, officer or affiliate of the Company, and no owner of record or beneficial owner of more than 5.0% of the securities of the Company, or any associate of any such director, officer or security holder is a party adverse to the Company or has a material interest adverse to the Company in reference to pending litigation.
