Your broker, bank or nominee may allow you to deliver your voting instructions over the Internet and may also permit you to vote by telephone. The telephone and Internet voting procedures are designed to authenticate shareholders’ identities, to allow stockholder to give their voting instructions and to confirm that the stockholders’ instructions have been properly recorded.

If your shares are held in street name, you must follow the instructions of your broker, bank or other nominee to revoke a previously given proxy.

Attendance at the Special Meeting

Only holders of the Company's outstanding stock as of the close of business on [•], 2012 (the "Record Date"), their proxy holders, and guests we may invite may attend the Special Meeting. If you wish to attend the Special Meeting in person but you hold your shares through someone else, such as a broker, bank or other nominee, you must bring proof of your ownership and photo identification to the Special Meeting. For example, you could bring an account statement showing that you beneficially owned shares of our stock as of the record date as acceptable proof of ownership. You must also contact your broker, bank or other nominee and follow their instructions in order to vote your shares at the Special Meeting. You may not vote your shares at the Special Meeting unless you have first followed the procedures outlined by your broker, bank or other nominee.

Stockholders Entitled to Vote and Number of Votes

Only stockholders of record as of the close of business on the Record Date are entitled to receive notice of the Special Meeting and to vote at the Special Meeting. As of the Record Date, we had [•] shares of common stock, [•] shares of Series A-1 Preferred Stock and [•] shares of Series A-2 Preferred Stock outstanding and entitled to vote at the Special Meeting. A list of stockholders eligible to vote at the Special Meeting will be available for inspection at the Special Meeting, and at our executive offices during regular business hours for a period of no less than ten days prior to the Special Meeting.

Each share of common stock is entitled to one vote on all proposals at the Special Meeting. With respect to the approval of the amendment to the Company's Certificate of Incorporation or any other proposal to properly come before the Special Meeting, each share of Series A-1 Preferred Stock is entitled to 50.0 votes and each share of Series A-2 Preferred Stock is entitled to 22.7 votes.

Quorum and Votes Required

Votes cast by proxy or in person at the Special Meeting will be tabulated by the inspector of elections appointed for the Special Meeting, who will also determine whether a quorum is present for the transaction of business. Our bylaws provide that the holders of a majority of the outstanding shares of each class of stock entitled to vote at the Special Meeting must be present or represented by proxy in order to constitute a quorum for the transaction of any business. Abstentions will be counted as shares that are present and entitled to vote for purposes of determining whether a quorum is present. If a broker indicates on its proxy that it does not have discretionary voting authority to vote shares for which it is the holder of record at the Special Meeting, the shares cannot be voted by the broker (a “broker non-vote”), although they will be counted in determining whether a quorum is present. Brokers or other nominees who hold shares in “street name” for a beneficial owner of those shares typically have the authority to vote in their discretion on “routine” proposals when they have not received instructions from beneficial owners. However, brokers are not allowed to exercise their voting discretion with respect to the election of directors or other “non-routine” proposals without specific instructions from the beneficial owner. Only the ratification of our auditors is considered to be a “routine” proposal for the purposes of brokers exercising their voting discretion.

Proposal 1 – Increase in Authorized Common Stock. Approval of the amendment to our Certificate of Incorporation in order to increase the number of shares of common stock that the Company is authorized to issue will require the affirmative vote of a majority of the outstanding shares of our common stock, Series A-1 Preferred Stock and Series A-2 Preferred Stock, voting together as a single class (with the shares of Series A-1 Preferred Stock and Series A-2 Preferred Stock voting on an as converted to common stock basis). As a result, abstentions and broker non-votes will have the same effect as votes against this proposal.

Other Matters. In order to be approved, any other matter to properly come before the Special Meeting will require the affirmative vote of a majority of the shares of common stock, Series A-1 Preferred Stock and Series A-2 Preferred Stock, voting together as a single class (with the shares of Series A-1 Preferred Stock and Series A-2 Preferred Stock voting on an as converted to common stock basis), present or represented at the meeting and entitled to vote on the subject matter.

Solicitation of Proxies

Proxies solicited by this Proxy Statement may be exercised only at the Special Meeting and any adjournment of the Special Meeting and will not be used for any other meeting. Proxies solicited by this proxy statement will be returned to our Secretary and will be tabulated by an inspector of elections designated by our board of directors who will not be employed by us.

We will bear the entire cost of solicitation of proxies by mail on behalf of the board of directors. Proxies also may be solicited by personal interview or by telephone by our directors, officers, and other employees without additional compensation. We also have made arrangements with brokerage firms, banks, nominees, and other fiduciaries to forward proxy solicitation materials for shares held of record to the beneficial owners of such shares. We will reimburse such record holders for their reasonable out-of-pocket expenses.

PROPOSAL 1—AMENDMENT TO THE COMPANY’S CERTIFICATE OF INCORPORATION TO INCREASE NUMBER OF AUTHORIZED SHARES OF COMMON STOCK

Background

After careful consideration, our board of directors has approved and has determined to ask the stockholders to approve an amendment to our Certificate of Incorporation (the “Proposed Charter Amendment”) that increases the number of shares of capital stock that we are authorized to issue to from four hundred ten million (410,000,000) to five hundred ten million (510,000,000), of which five hundred million (500,000,000) will be common stock, par value \$0.001 per share, and ten million (10,000,000) will be preferred stock, par value \$0.001 per share. The Proposed Charter Amendment does not increase the authorized number of shares of our preferred stock. As described in more detail below under “Rationale for the Proposed Charter Amendment”, the Proposed Charter Amendment was approved by our board of directors and is being proposed to our stockholders for the purpose of enabling the Company to maintain compliance with the definitive transaction documents relating to the below-described private placement that the Company completed on July 2, 2012.

Information Regarding July 2012 Private Placement

On July 2, 2012, the Company completed a private placement (the “Private Placement”) of \$12.0 million in principal amount of Senior Convertible Notes due on September 1, 2013 (the “Convertible Notes”). The Private Placement also included the issuance of Warrants to the purchasers of the Convertible Notes giving them the right to purchase up to an aggregate of 18,750,000 shares of the Company’s common stock at an exercise price of \$0.384 per share (the “Warrants”). The Convertible Notes and the Warrants were issued pursuant to a Securities Purchase Agreement, dated July 2, 2012, among the Company and the purchasers of the Convertible Notes (the “Securities Purchase Agreement”).

The Convertible Notes are convertible at any time at the option of the holder into shares of the Company’s common stock at \$0.352 per share, subject to adjustment for stock splits, stock dividends, and the like. In the event that the Company in the future issues or sells shares of the Company’s common stock, rights to purchase shares of the Company’s common stock, or securities convertible into shares of the Company’s common stock for a price per share that is less than the conversion price then in effect, the conversion price then in effect will be decreased to equal such lower price. However, the foregoing adjustments to the conversion price for future stock issues will not apply to certain exempt issuances, including issuances pursuant to certain employee benefit plans. In addition, the conversion price is subject to adjustment upon stock splits, reverse stock splits, and similar capital changes.

The Convertible Notes provide that, on the first business day of each month from October 1, 2012 through and including September 1, 2013 (the “Installment Dates”), the Company is obligated to pay to each holder of a Convertible Note an amount equal to (i) one-twelfth (1/12th) of the original principal amount of such holder’s Convertible Note (or the principal outstanding on the Installment Date, if less) plus (ii) the accrued and unpaid interest with respect to such principal plus (iii) the accrued and unpaid late charges (if any) with respect to such principal and interest. Prior to maturity, the Convertible Notes will bear interest at 8% per annum (or 15% per annum during an event of default) with interest payable monthly in arrears on the Installment Dates and on conversion dates.

Each monthly payment under the Convertible Notes may be made in cash, in shares of the Company’s common stock, or in a combination of cash and shares of the Company’s common stock. The Company’s ability to make such payments with shares of the Company’s common stock is subject to various conditions, including the existence of an effective registration statement covering the resale of the shares issued in payment (or, in the alternative, the eligibility of the shares issuable pursuant to the Convertible Notes and the Warrants for sale without restriction under Rule 144 and without the need for registration) and certain minimum trading volumes in the Company’s common stock. For purposes of making such payments with shares of common stock, such shares will be valued, as of the date on which

notice is given by the Company that payment will be made in shares, at the lower of (1) the then applicable conversion price and (2) a price that is 87.5% of the arithmetic average of the ten (or in some cases fewer) lowest weighted average prices of the Company's common stock during the twenty trading day period ending two trading days before the applicable determination date (the "Measurement Period"). The Company's right to pay monthly payments in shares depends on the following trading volume requirements in the Company's common stock: a minimum of \$250,000 in average daily trading volume during the Measurement Period, and a minimum of \$150,000 in daily trading volume during each day during the Measurement Period, with certain exceptions.

Upon the occurrence of an event of default under the Convertible Notes, a holder of a Convertible Note may (so long as the event of default is continuing) require the Company to redeem all or a portion of its Convertible Note. Each portion of the Convertible Note subject to such redemption must be redeemed by the Company, in cash, at a price equal to the greater of (1) 125% of the sum of (a) the amount being redeemed (including principal, accrued and unpaid interest, and accrued and unpaid late charges) and (b) the amount of interest that would have accrued with respect to the amount being redeemed from the applicable redemption date through the applicable Installment Date, and (2) the sum of (x) the product of (I) the amount being redeemed and (II) the quotient determined by dividing (A) the greatest closing sale price of the shares of common stock during the period beginning on the date immediately preceding the event of default and ending on the date the holder delivers a redemption notice to the Company, by (B) the lowest conversion price in effect during such period and (y) the amount of interest that would have accrued with respect to the amount being redeemed from the applicable redemption date through the applicable Installment Date.

Subject to certain conditions, a holder of a Convertible Note may also require the Company to redeem all or a portion of its Convertible Note in connection with a transaction that results in a Change of Control of the Company (as defined in the Convertible Notes). Each portion of the Convertible Note subject to such redemption must be redeemed by the Company, in cash, at a price equal to the greater of (1) 125% of the sum of (a) the amount being redeemed (including principal, accrued and unpaid interest, and accrued and unpaid late charges) and (b) the amount of interest that would have accrued with respect to the amount being redeemed from the applicable redemption date through the applicable Installment Date, and (2) the sum of (x) the product of (I) the amount being redeemed and (II) the quotient determined by dividing (A) the greatest closing sale price of the shares of common stock during the period beginning on the date immediately preceding the earlier to occur of (i) the consummation of the Change of Control and (ii) the public announcement of such Change of Control and ending on the date the holder delivers a redemption notice to the Company, by (B) the lowest conversion price in effect during such period and (y) the amount of interest that would have accrued with respect to the amount being redeemed from the applicable redemption date through the applicable Installment Date.

The Warrants are exercisable on or after the date that is six (6) months after the date of the issuance of the Warrants, and the exercise prices for the Warrants are subject to adjustment for stock splits, stock dividends, and the like. In the event that the Company issues or sells shares of the Company's common stock, rights to purchase shares of the Company's common stock, or securities convertible into shares of the Company's common stock for a price per share that is less than the exercise price then in effect, the exercise price of the Warrant will be reduced based on a weighted-average formula. The foregoing adjustments to the exercise price for future stock issues do not apply to certain exempt issuances, including issuances pursuant to certain employee benefit plans. In addition, on the two year anniversary of the issuance date (the "Reset Date"), the then applicable exercise price will be reset to equal the lesser of (1) the then current exercise price and (2) 87.5% of the arithmetic average of the ten lowest weighted average prices of the common stock during the twenty trading day period ending two trading days immediately preceding the Reset Date. All of the Warrants will expire on the fifth (5th) anniversary of the date they first become exercisable.

Pursuant to the terms of the Securities Purchase Agreement and the Convertible Notes, for so long as any purchasers of the securities under the Securities Purchase Agreement own any such securities, the Company must take all action necessary to at all times have authorized, and reserved for the purpose of issuance, no less than (A) 150% of the sum of (i) the number of shares of the Company's common stock issuable pursuant to the terms of the Convertible Notes, including, without limitation, upon conversion, upon payment of interest, upon amortization or otherwise (without taking into account any limitations on the issuance thereof pursuant to the terms of the Convertible Notes), and (ii) the number shares of the Company's common stock issuable upon exercise of the Warrants then outstanding (without taking into account any limitations on the exercise of the Warrants set forth in the Warrants), and (B) 25.0 million shares (the "Reserve Requirement").

All monthly payments made through the date of this proxy statement under the Convertible Notes have been made in shares of the Company's common stock, and in order to preserve cash, the Company intends that all future payments under the Convertible Notes will also be made in shares of the Company's common stock. Through December 31, 2012, the Company has issued an aggregate of [•] shares of its common stock in satisfaction of interest and principal payments under the Convertible Notes. As of December 31, 2012, the outstanding principal balance under the Convertible Notes was \$[•].

Rationale for Proposed Charter Amendment

Our board of directors has determined the Proposed Charter Amendment is advisable and in the best interests of the Company so that we will be able to maintain sufficient shares of the Company's common stock authorized and reserved for issuance pursuant to the Convertible Notes and Warrants and to remain in compliance with the Reserve Requirement. Our board of directors has also determined that it is advisable and in the best interests of the Company and our stockholders to increase the authorized shares of the Company's common stock so that a sufficient number of additional shares of the Company's common stock are available, after taking into account the Reserve Requirement, for future financing transactions, acquisitions, stock dividends, stock issuances pursuant to employee benefit plans and other appropriate corporate opportunities and purposes. Our board of directors does not intend to issue any shares except on terms that it considers to be in the best interests of the Company and our stockholders.

The additional shares of common stock for which authorization is sought would be a part of the existing class of common stock. If and when issued, these shares would have the same rights and privileges as the shares of common stock presently outstanding. No holder of common stock has any preemptive rights to acquire additional shares of the common stock.

The issuance of additional shares could reduce existing shareholders' percentage ownership and voting power and, depending on the transaction in which they are issued, could affect our per share book value or other per share financial measures.

Potential Anti-Takeover Effects

Although the Proposed Charter Amendment is not intended to be an anti-takeover measure, shareholders should note that, under certain circumstances, the additional shares of common stock could be used to make any attempt to gain control of our company or our board of directors more difficult or time-consuming. Any of the additional shares of common stock could be privately placed with purchasers who might side with our board of directors in opposing a hostile takeover bid.

The Proposed Charter Amendment might be considered to have the effect of discouraging an attempt by another person or entity, through the acquisition of a substantial number of shares of our capital stock, to acquire control of us, since the issuance of the additional shares of common stock could be used to dilute the stock ownership of a person or entity seeking to obtain control and to increase the cost to a person or entity seeking to acquire a majority of the voting power of our company. If so used, the effect of the additional authorized shares of common stock might be (i) to deprive shareholders of an opportunity to sell their stock at a temporarily higher price as a result of a tender offer or the purchase of shares by a person or entity seeking to obtain control of us or (ii) to assist incumbent management in retaining its present position.

Text of the Proposed Charter Amendment

Pursuant to the Proposed Charter Amendment, Article IV of our Certificate of Incorporation is proposed to be amended and restated to read as follows:

“The Corporation shall have authority to issue Five Hundred Ten Million (510,000,000) shares of capital stock, consisting of Five Hundred Million (500,000,000) shares of common stock, \$0.001 par value per share (the “Common Stock”), and Ten Million (10,000,000) shares of preferred stock, \$0.001 par value per share (the “Preferred Stock”), of which One Million Eight Hundred Seventy-Five Thousand (1,875,000) shares are hereby designated as “Series A-1 Preferred Stock” and Three Million Two Hundred Eighty-One Thousand Two Hundred Fifty-Three (3,281,253) shares are hereby designated as “Series A-2 Preferred Stock.” The Preferred Stock authorized by the Certificate of Incorporation, as amended, may be issued from time to time in one or more series. The Board of Directors is hereby authorized to fix or alter the rights, preferences, privileges and restrictions granted to or imposed upon any series of Preferred Stock, and the number of shares constituting any such series and the designation thereof, or any of them. The voting powers, designations, preferences and other special rights, and qualifications, limitations and restrictions of the Series A-1 Preferred Stock and Series A-2 Preferred Stock (collectively, the “Series A Preferred Stock”) are set forth in an Amended and Restated Certificate of Designation, Preferences, and Rights previously filed by the Corporation with the Secretary of State of Delaware on November 2, 2010 (the “Series A Certificate of Designation”).”

THE BOARD OF DIRECTORS RECOMMENDS A VOTE FOR PROPOSAL NO. 1 AND PROXIES THAT ARE RETURNED WILL BE SO VOTED UNLESS A CONTRARY VOTE IS DESIGNATED.

If the proposed amendment to the Certificate of Incorporation, as outlined in Proposal No. 1, is approved by the Stockholders, the board of directors will cause an Amendment to Certificate of Incorporation reflecting the amendment adopted to be filed with the Secretary of State of Delaware, and such Amendment will be effective upon such filing.
