FORM 10-Q
(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2018

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(D) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

COMMISSION FILE NUMBER: 001-33865
Triple-S Management Corporation

Puerto Rico 66-0555678
(State or other jurisdiction of incorporation or organization) (I.R.S. Employer Identification No.)

1441 F.D. Roosevelt Avenue
San Juan, Puerto Rico 00920
(Address of principal executive offices) (Zip code)

(787) 749-4949
(Registrant's telephone number, including area code)

Not applicable
(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definitions of "large accelerated filer", "accelerated filer" and "smaller reporting

company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
Emerging growth company	

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

<u>Title of each class</u>	<u>Outstanding at September 30, 2018</u>
Common Stock Class A, \$1.00 par value	950,968
Common Stock Class B, \$1.00 par value	21,985,524

Triple-S Management Corporation
Notes to Condensed Consolidated Financial Statements
(dollar amounts in thousands, except per share data)
(Unaudited)

(1) Basis of Presentation

The accompanying condensed consolidated interim financial statements prepared by Triple-S Management Corporation and its subsidiaries are unaudited. In this filing, the “Corporation”, the “Company”, “TSM”, “we”, “us” and “our” refer to Triple-S Management Corporation and its subsidiaries. The condensed consolidated interim financial statements do not include all the information and the footnotes required by accounting principles generally accepted in the United States of America (GAAP or U.S. GAAP) for complete financial statement presentation. These condensed consolidated interim financial statements should be read in conjunction with the audited consolidated financial statements included in the Corporation’s Annual Report on Form 10-K for the year ended December 31, 2017.

In the opinion of management, all adjustments, consisting of a normal recurring nature necessary for a fair presentation of such condensed consolidated interim financial statements, have been included. The results of operations for the three months and nine months ended September 30, 2018 are not necessarily indicative of the results for the full year ending December 31, 2018.

(2) Significant Accounting Policies

Investments

Fixed maturities and other invested assets

Investment in debt securities at September 30, 2018 and December 31, 2017 consists mainly of obligations of government sponsored enterprises, U.S. Treasury securities and obligations of U.S. government instrumentalities, municipal securities, corporate bonds, residential mortgage-backed securities, and collateralized mortgage obligations. The Company classifies its debt securities in one of two categories: available-for-sale or held-to-maturity. Securities classified as held-to-maturity are those securities in which the Company has the ability and intent to hold until maturity. All other securities not included in held-to-maturity are classified as available-for-sale.

Available-for-sale securities are recorded at fair value. The fair values of debt securities (both available-for-sale and held-to-maturity investments) are based on quoted market prices for those or similar investments at the reporting date. Held-to-maturity debt securities are recorded at amortized cost, adjusted for the amortization or accretion of premiums and discounts, respectively. Unrealized holding gains and losses, net of the related tax effect, on available-for-sale securities are excluded from earnings and are reported as a separate component of other comprehensive income until realized. Realized gains and losses from the sale of available-for-sale securities are included in earnings and are determined on a specific identification basis.

Transfers of securities between categories are recorded at fair value at the date of transfer. Unrealized holding gains or losses associated with transfers of securities from held-to-maturity to available-for-sale are recorded as a separate component of other comprehensive income. The unrealized holding gains or losses included in the separate component of other comprehensive income for securities transferred from available-for-sale to held-to-maturity, are maintained and amortized into earnings over the remaining life of the security as an adjustment to yield in a manner consistent with the amortization or accretion of premium or discount on the associated security.

Table of Contents

Triple-S Management Corporation

Notes to Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except per share data)

(Unaudited)

If a fixed maturity security is in an unrealized loss position and the Company has the intent to sell the fixed maturity security, or it is more likely than not that the Company will have to sell the fixed maturity security before recovery of its amortized cost basis, the decline in value is deemed to be other-than-temporary and is recorded to other-than-temporary impairment losses recognized in earnings in the Company's consolidated statements of earnings. For impaired fixed maturity securities that the Company does not intend to sell or it is more likely than not that such securities will not have to be sold, but the Company expects not to fully recover the amortized cost basis, the credit component of the other-than-temporary impairment is recognized in other-than-temporary impairment losses recognized in earnings in the Company's consolidated statements of earnings and the non-credit component of the other-than-temporary impairment is recognized in other comprehensive income. Furthermore, unrealized losses entirely caused by non-credit related factors related to fixed maturity securities for which the Company expects to fully recover the amortized cost basis continue to be recognized in accumulated other comprehensive income.

The credit component of an other-than-temporary impairment is determined by comparing the net present value of projected future cash flows with the amortized cost basis of the fixed maturity security. The net present value is calculated by discounting the Company's best estimate of projected future cash flows at the effective interest rate implicit in the fixed maturity security at the date of acquisition.

A decline in the fair value of any available-for-sale or held-to-maturity security below cost that is deemed to be other-than-temporary results in an impairment to reduce the carrying amount to fair value. The impairment is charged to earnings and a new cost basis for the security is established. To determine whether an impairment is other-than-temporary, the Company considers whether it has the ability and intent to hold the investment until a market price recovery and considers whether evidence indicating the cost of the investment is recoverable outweighs evidence to the contrary. Evidence considered in this assessment includes the reasons for the impairment, the severity and duration of the impairment, market conditions, changes in value subsequent to year-end, forecasted performance of the investee, and the general market condition in the geographic area or industry the investee operates in.

Premiums and discounts are amortized or accreted over the life of the related held-to-maturity or available-for-sale security as an adjustment to yield using the effective interest method. Dividend and interest income are recognized when earned.

The Company regularly invests in mortgaged-backed securities and other securities subject to prepayment and call risk. Significant changes in prevailing interest rates may adversely affect the timing and amount of cash flows on such securities. In addition, the amortization of market premium and accretion of market discount for mortgaged-backed securities is based on historical experience and estimates of future payment speeds on the underlying mortgage loans. Actual prepayment speeds may differ from original estimates and may result in material adjustments to amortization or accretion recorded in future periods.

Other invested assets at September 30, 2018 and December 31, 2017 consist mainly of alternative investments in partnerships which invest in several private debt and private equity funds. Portfolios are diversified by vintage year, stage, geography, business sectors and number of investments. These investments are not redeemable with the funds. Distributions from each fund are received as the underlying investments of the funds are liquidated. It is estimated that the underlying assets of the funds will be liquidated in the next 5 to 12 years. The fair values of the investments in this class have been estimated using the net asset value (NAV) of the Company's ownership interest in the partnerships. Total unfunded capital commitments for these positions as of September 30, 2018 amounted to \$88,691. The

remaining average commitments period is approximately three years.

10

Triple-S Management Corporation

Notes to Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except per share data)

(Unaudited)

Equity investments

Investment in equity securities at September 30, 2018 and December 31, 2017 consists of mutual funds whose underlying assets are comprised of domestic equity securities, international equity securities and higher risk fixed income instruments. Equity investments are recorded at fair value. The fair values of equity investments are based on quoted market prices. Unrealized holding gains and losses, on equity investments are included in earnings. Realized gains and losses from the sale of equity investments are included in earnings and are determined on a specific identification basis.

Recent Accounting Standards

On August 29, 2018, the Financial Accounting Standard Board (FASB) issued guidance for Intangibles – Goodwill and Other – Internal-Use Software. Guidance addresses customer’s accounting for implemented costs incurred in a cloud computing arrangement that is a service contract and aims to reduce complexity in the accounting for costs of implementing a cloud computing service arrangement. The amendments require a customer in a hosting arrangement that is a service contract to determine which implementation costs to capitalize as an asset related to service contract and which costs to expense. Additionally, it requires the customer to expense the capitalized implementation costs over the term of the hosting arrangement. For public companies, these amendments, will be applied on a prospective basis, for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. The adoption of this guidance should not have a material impact on the presentation of the Company’s consolidated result of operations.

On August 28, 2018, the FASB issued guidance for Compensation – Retirement Benefits – Defined Benefit Plans – General which addresses changes to the disclosure requirement for defined benefit plans. The amendments in this guidance modify the disclosure requirements for employers that sponsor defined benefit pension or other postretirement plans. Specifically certain disclosure requirements are removed (i.e. the amounts of accumulated other comprehensive income expected to be recognized as components of net periodic benefit cost over the next fiscal year, related party disclosures concerning the amount of future annual benefits covered by an insurance and annuity contracts and significant transactions between the employer and related parties and the plan) while certain other disclosures are added (i.e. the weighted-average interest crediting rates for cash balance plans and other plans with promised interest crediting rates, an explanation for the reasons for significant gains and losses related to changes in the benefit obligation for the period). For public companies, these amendments, will be applied for fiscal years beginning after December 15, 2020. The adoption of this guidance should not have a material impact on the presentation of the Company’s consolidated result of operations.

On August 27, 2018, the FASB issued guidance for Fair Value Measurement – Disclosure Framework – Changes to the Disclosure Requirement for Fair Value Measurement. This update focuses on improving the effectiveness of disclosures in the notes to the financial statements by facilitating clear communication of the information required by U.S. GAAP that is most important to users of each entity’s financial statements. Specifically certain disclosure requirements are removed (the amount of, and reasons for, transfer between Level 1 and Level 2 of the fair value hierarchy; the policy for timing of transfers between levels; the valuation processes for Level 3 fair value measurements) while it modifies and adds certain other disclosures (the changes in unrealized gains and losses for the period included in other comprehensive income for recurring Level 3 fair value measurements held at the end of the reporting period, and the range and weighted average of significant unobservable inputs used to develop Level 3 fair

value measurements). The amendments regarding changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent period in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. For public companies, these amendments will be applied for fiscal years beginning after December 15, 2019. The adoption of this guidance should not have a material impact on the presentation of the Company's consolidated result of operations.

Triple-S Management Corporation

Notes to Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except per share data)

(Unaudited)

On August 15, 2018, the FASB issued guidance for Financial Services – Insurance: Targeted Improvements to the Accounting for Long-Duration Contracts which provides meaningful improvements to the existing revenue recognition, measurement, presentation, and disclosure requirements for long-duration contracts issued by an insurance entity. The amendments improve the timeliness of recognizing changes in the liability for future policy benefits and modify rate used to discount future cash flows, simplify and improve the accounting for certain market-based options or guarantees associated with deposit contracts, simplify the amortization of deferred acquisition costs, and improves the effectiveness of the required disclosures. Specifically, this guidance requires an insurance entity to review and update, if needed, the assumptions used to measure cash flows and discount rate at each reporting date, measure all market risk benefits associated with deposit and disclose liability rollforwards and information about significant inputs, judgments, assumptions, and methods used in measurement, including changes thereto and the effect of those changes on measurement. Additionally, the amendment simplifies the amortization of deferred acquisition costs and other balances amortized in proportion to premiums, gross profits, or gross margins, and requires that those balances be amortized on a constant level basis over the expected term of the related contracts. For public companies, these amendments will be applied for fiscal years beginning after December 15, 2020. We are currently evaluating the impact the adoption of this guidance may have on the Company’s consolidated financial statements.

On July 30, 2018 and July 18, 2018, the FASB issued the following guidance Leases – Targeted Improvement and Codification Improvement to Leases, respectively, to assist in the implementation of leases and address certain technical corrections and improvement to the recently issued lease standard. Leases – Targeted Improvement provides entities with an additional and optional transition method to adopt the new lease standard under which an entity initially applies the new leases standard at the adoption date and recognizes a cumulative-effect adjustment to the opening balance of retained earnings in the period of adoption. It also provides lessors with a practical expedient, by class of underlying asset, to not separate non-lease components for the associated lease component. Codification: Improvement Leases addresses the following areas of correction or improvement (1) residual value guarantees, (2) rate implicit in the lease, (3) lessee reassessment of lease classification, (4) lessor reassessment of lease term and purchase option, (5) variable lease payments that depend on an index or a rate, (6) investment tax credits, (7) lease term and purchase option, (8) transition guidance for amounts previously recognized in business combinations, (9) certain transition adjustments, (10) transition guidance for leases previously classified as capital leases, (11) transition guidance for modification to leases previously classified as direct financing or sales-type leases, (12) transition guidance for sales and leaseback transactions; (13) impairment of net investment in the lease, (14) unguaranteed residual assets, (15) effect of initial direct costs on the rate implicit in the lease, and (16) failed sale and leaseback transactions. For public companies, these amendments will be applied for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. We expect the standard to have a significant impact on our consolidated balance sheet, but not in our consolidated statement of earnings. The most significant impact will be the recognition of right-of-use assets and lease liabilities for operating leases. The Company will adopt the standard in the first quarter of 2019 and is currently compiling an inventory of arrangements containing a lease and accumulating the lease data necessary to apply the amended guidance. In addition, the Company will implement updates to its control processes and procedures, as necessary, based on changes resulting from the new standard.

(Unaudited)

On July 16, 2018, the FASB issued guidance Codification Improvements which represents changes to clarify, correct errors in, or make minor improvements to the Codification. The change addresses conflicts or unclear intent in the following areas: (1) Comprehensive Income – Overall, (2) Debt – Modifications and Extinguishments, (3) Distinguishing Liabilities from Equity – Overall, (3) Compensation – Stock Compensation – Income Taxes, (4) Derivatives and Hedging – Overall – Other Presentation Matters, (5) Fair Value Measurement – Overall and (6) Financial Services – Brokers and Dealers – Liabilities and Financial Services – Depository and Lending. Some of the amendments in this update do not require transition guidance and are effective immediately. However, many of the amendments do have transition guidance, effective for public companies for annual periods beginning after December 15, 2018. We are currently evaluating the impact the adoption of this guidance may have on the Company’s consolidated financial statements.

Recently Adopted Accounting Standards

On February 28, 2018, the FASB issued guidance for Technical Corrections and Improvement to Financial Instruments – Overall: Recognition and Measurement of Financial Assets and Financial Liabilities. Areas for correction or improvement include (1) equity securities without a readily determinable fair value—discontinuation, (2) equity securities without a readily determinable fair value—adjustments, (3) forward contracts and purchased options, (4) presentation requirements for certain fair value option liabilities, (5) fair value option liabilities denominated in a foreign currency, and (6) transition guidance for equity securities without a readily determinable fair value. For public companies, these amendments, became effective on a prospective basis, for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Public entities with fiscal years beginning between December 15, 2017 and June 15, 2018 are not required to adopt these amendments until the interim period beginning after June 15, 2018. The Company adopted this guidance effective June 30, 2018. The adoption of this guidance did not have a material impact on the presentation of the Company’s consolidated result of operations.

On January 5, 2016, the FASB issued guidance to enhance the reporting model for financial instruments to provide users of financial statements with more decision-useful information. Among the many targeted improvements to U.S. GAAP are (1) requiring equity investments, except those accounted for under the equity method of accounting or those that result in consolidation of the investee, to be measured at fair value with changes in fair value recognized in net income; (2) simplifying the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; (3) eliminating the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities; and (4) clarifying that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity’s other deferred tax assets. This guidance applies to all entities that hold financial assets or owe financial liabilities. The Company also adopted guidance issued by FASB on March 9, 2018 that removes the previous guidance for Other Than Temporary Impairment of Certain Investments in Equity Securities as required by SEC Staff Accounting Bulletin (SAB) No. 117 and SEC Release No. 33-9273, since it is no longer applicable. For public companies, these amendments became effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company adopted this guidance for equity securities effective January 1, 2018. A cumulative-effect adjustment of \$39,882 was made from accumulated other comprehensive income to the beginning retained earnings at the implementation date.

Other than the accounting pronouncements disclosed above, there were no other new accounting pronouncements issued during the three months and nine months ended September 30, 2018 that could have a material impact on the

Corporation's financial position, operating results or financials statement disclosures.

The Company reviews the available for sale and other invested assets portfolios under the Company's impairment review policy. Given market conditions and the significant judgments involved, there is a continuing risk that declines in fair value may occur and material other-than-temporary impairments may be recorded in future periods. The Company from time to time may sell investments as part of its asset/liability management process or to reposition its investment portfolio based on current and expected market conditions.

Triple-S Management Corporation

Notes to Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except per share data)

(Unaudited)

Obligations of Government-Sponsored Enterprises, U.S. Treasury Securities and Obligations of U.S. Government Instrumentalities, and Municipal Securities: The unrealized losses of these securities were mainly caused by fluctuations in interest rates and general market conditions. The contractual terms of these investments do not permit the issuer to settle the securities at a price less than the par value of the investment. In addition, these investments have investment grade ratings. Because the decline in fair value is attributable to changes in interest rates and not credit quality; because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost basis, which may be maturity; and because the Company expects to collect all contractual cash flows, these investments are not considered other-than-temporarily impaired.

Corporate Bonds: The unrealized losses of these bonds were principally caused by fluctuations in interest rates and general market conditions. All corporate bonds with an unrealized loss have investment grade ratings. Because the decline in estimated fair value is principally attributable to changes in interest rates; because the Company does not intend to sell the investments and it is not more likely than not that the Company will be required to sell the investments before recovery of their amortized cost basis, which may be maturity; and because the Company expects to collect all contractual cash flows, these investments are not considered other-than-temporarily impaired.

Residential mortgage-backed securities and Collateralized mortgage obligations: The unrealized losses on investments in residential mortgage-backed securities and collateralized mortgage obligations (“CMOs”) were mostly caused by fluctuations in interest rates and credit spreads. The contractual cash flows of these securities, other than private CMOs, are guaranteed by a U.S. government-sponsored enterprise. Any loss in these securities is determined according to the seniority level of each tranche, with the least senior (or most junior), typically the unrated residual tranche, taking any initial loss. The investment grade credit rating of our securities reflects the seniority of the securities that the Company owns. The Company does not consider these investments other-than-temporarily impaired because the decline in fair value is attributable to changes in interest rates and not credit quality; the Company does not intend to sell the investments and it is more likely than not that the Company will not be required to sell the investments before recovery of their amortized cost basis, which may be maturity; and because the Company expects to collect all contractual cash flows.

Obligations of the Commonwealth of Puerto Rico and its Instrumentalities: As of September 30, 2018, our holdings in Puerto Rico municipals consist of escrowed bonds. The Company does not intend to sell the investments and it is more likely than not that the Company will not be required to sell the investments before recovery of their amortized cost basis, which may be maturity; and because the Company expects to collect all contractual cash flows.

Alternative Investments: As of September 30, 2018, alternative investments with unrealized losses are not considered other-than-temporarily impaired based on market conditions and the length of time the funds have been in a loss position. There were no impaired positions for the nine-month period ending September 30, 2018.

Maturities of investment securities classified as available for sale and held to maturity were as follows:

	September 30, 2018	
	Amortized cost	Estimated fair value
Fixed maturities available for sale		
Due in one year or less	\$11,238	\$11,263
Due after one year through five years	400,523	398,067
Due after five years through ten years	419,705	418,411
Due after ten years	307,040	327,117
Residential mortgage-backed securities	59,483	58,496
Collateralized mortgage obligations	11,054	10,696
	\$1,209,043	\$1,224,050
Fixed maturities held to maturity		
Due in one year or less	1,683	1,683
Due after ten years	617	724
Residential mortgage-backed securities	190	193
	\$2,490	\$2,600

Expected maturities may differ from contractual maturities because some issuers have the right to call or prepay obligations with or without call or prepayment penalties.

(5) Fair Value Measurements

Our condensed consolidated balance sheets include the following financial instruments: securities available for sale, equity investments, policy loans, policyholder deposits, and long-term borrowings. We consider the carrying amounts of policy loans, policyholder deposits, and long-term borrowings to approximate their fair value due to the short period of time between the origination of these instruments and the expected realization or payment. Certain assets are measured at fair value on a recurring basis and are disclosed below. These assets are classified into one of three levels of a hierarchy defined by GAAP. For a description of the methods and assumptions that are used to estimate the fair value and determine the fair value hierarchy classification of each class of financial instrument, see the consolidated financial statements and notes thereto included in our 2017 Annual Report on Form 10-K.

The following tables summarize fair value measurements by level for assets measured at fair value on a recurring basis:

	September 30, 2018			Total
	Level 1	Level 2	Level 3	
Fixed maturity securities available for sale:				
Obligations of government-sponsored enterprises	\$-	\$11,330	\$ -	\$11,330

(Unaudited)

	Nine months ended September 30, 2017		
	Managed Care	Other Business Segments *	Consolidated
Claim liabilities at beginning of period	\$ 349,047	\$ 138,896	\$ 487,943
Reinsurance recoverable on claim liabilities	-	(38,998)	(38,998)
Net claim liabilities at beginning of period	349,047	99,898	448,945
Claims incurred:			
Current period insured events	1,724,890	95,227	1,820,117
Prior period insured events	(19,158)	(5,920)	(25,078)
Total	1,705,732	89,307	1,795,039
Payments of losses and loss-adjustment expenses:			
Current period insured events	1,456,098	38,222	1,494,320
Prior period insured events	242,384	35,325	277,709
Total	1,698,482	73,547	1,772,029
Net claim liabilities at end of period	356,297	115,658	471,955
Reinsurance recoverable on claim liabilities	-	636,743	636,743
Claim liabilities at end of period	\$ 356,297	\$ 752,401	\$ 1,108,698

* Other Business Segments include the Life Insurance and Property and Casualty segments, as well as intersegment eliminations.

The actual amounts of claims incurred in connection with insured events occurring in a prior period typically differ from estimates of such claims made in the prior period. Amounts included as incurred claims for prior period insured events reflect the aggregate net amount of these differences.

The unfavorable developments in the claims incurred and loss-adjustment expenses for prior period insured events for the nine months ended September 30, 2018 is driven by an adverse development of approximately \$128,707, in losses related to Hurricane Maria, offset by better than expected utilization trends in the Managed Care segment. The favorable developments in the claims incurred and loss-adjustment expenses for prior period insured events for the nine months ended September 30, 2017 are due primarily to better than expected utilization trends in the Managed Care segment. Reinsurance recoverable on unpaid claims is reported as premium and other receivables, net in the accompanying condensed consolidated financial statements. Claim liabilities as of September 30, 2018 include approximately \$488,180 related to the impact of Hurricane María, which made landfall in Puerto Rico in September 2017.

The claims incurred disclosed in this table exclude the portion of the change in the liability for future policy benefits expense, which amounted to \$22,348 during the nine months ended September 30, 2018. The change in the liability for future policy benefits during the nine months ended September 30, 2017 amounted to \$20,746.

Table of Contents

 (Unaudited)

The following is information about total incurred but not reported (IBNR) liabilities plus expected development on reported claims included in the liability for unpaid claims adjustment expenses for the Managed Care segment as of September 30, 2018.

Incurred Year	Total of IBNR Liabilities Plus Expected Development on Reported Claims
2017	\$ 11,965
2018	325,427

(7) Pension Plan

The components of net periodic benefit cost were as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
Components of net periodic benefit cost:				
Interest cost	\$ 1,713	\$ 1,652	\$ 5,099	\$ 5,248
Expected return on assets	(2,255)	(2,021)	(6,817)	(6,419)
Amortization of actuarial loss	240	79	670	251
Settlement loss	395	580	1,045	1,211
Net periodic benefit cost	\$ 93	\$ 290	\$ (3)	\$ 291

Employer Contributions: The Company disclosed in its audited consolidated financial statements for the year ended December 31, 2017 that it expected to contribute \$2,000 to the pension program in 2018. As of September 30, 2018, the Company has contributed \$2,000 to the pension program.

(8) Reinsurance

Triple-S Propiedad, Inc. (TSP) uses facultative reinsurance, pro rata, and excess of loss reinsurance treaties to manage its exposure to losses, including those from catastrophe events. TSP has geographic exposure to catastrophe losses from hurricanes and earthquakes. The incidence and severity of catastrophes are inherently unpredictable. Under these treaties, TSP ceded premiums written were \$12,658 and \$13,370 for the three months ended September 30, 2018 and 2017, respectively, and \$40,124 and \$40,091 for the nine months ended September 30, 2018, and 2017, respectively. During the nine months ended September 30, 2018 and 2017, TSP ceded claims incurred amounting to \$153,707 and \$603,893, respectively, related to losses caused by Hurricanes Irma and Maria.

Principal reinsurance agreements are as follows:

- Casualty excess of loss treaty provides reinsurance for losses up to \$12,000, subject to a retention of \$225.

- Medical malpractice excess of loss treaty provides reinsurance for losses up to \$3,000, subject to a retention of \$150.
- Property reinsurance treaty includes proportional cessions and a per risk excess of loss contract limiting losses to \$350 in \$30,000 risks.
- Catastrophe protection is purchased limiting losses to \$10,000 per event with losses up to approximately \$915,000.

Table of Contents

Triple-S Management Corporation

Notes to Condensed Consolidated Financial Statements

(Dollar amounts in thousands, except per share data)

(Unaudited)

All principal reinsurance contracts are for a period of one year and are subject to modifications and negotiations in each renewal. TSP's current property and catastrophe reinsurance program was renewed effective April 1, 2018 for a twelve months period ending March 31, 2019. Other contracts were renewed as expiring on January 1, 2018.

(9) Income Taxes

The net deferred tax asset at September 30, 2018 and December 31, 2017 of the Company and its subsidiaries is composed of the following:

	September 30, 2018		December 31, 2017
Deferred tax assets			
Gross deferred tax assets	\$ 127,563		\$ 87,058
Less: valuation allowance	(12,696)	(8,283)
Deferred tax assets	114,867		78,775
Deferred tax liabilities			
Gross deferred tax liabilities	(34,485)	(35,543)
Net deferred tax asset	\$ 80,382		\$ 43,232

The net deferred tax asset shown in the table above at September 30, 2018 and December 31, 2017 is reflected in the consolidated balance sheets as \$83,593 and \$65,123, respectively, in deferred tax assets and \$3,210 and \$21,891, in deferred tax liabilities, respectively, reflecting the aggregate deferred tax assets or liabilities of individual tax-paying subsidiaries of the Company, because under Puerto Rico income tax law, the Company is not allowed to file consolidated tax returns with its subsidiaries.

At September 30, 2018, the Company and its subsidiaries have net operating loss carry-forwards for Puerto Rico income tax purposes of approximately \$169,000, which are available to offset future taxable income for up to December 2028. The carryforwards generally expire in 2026 through 2028. The valuation allowance is mostly related to the net operating losses generated by the Company's U.S. Virgin Islands (USVI), the health's clinic's operations, and the Property and Casualty segment losses related to hurricane Maria that based on the available evidence are not considered to be realizable at the reporting dates. Except for the valuation allowance, the Company concluded that as of September 30, 2018, it is more likely than not that the entities that have these net operating loss carry-forwards will generate sufficient taxable income within the applicable net operating loss carry-forward periods to realize its deferred tax asset. This conclusion is based on the historical results of each entity, adjusted to exclude non-recurring conditions, and the forecast of future profitability. Management will continue to evaluate, on a quarterly basis, if there are any significant events that will affect the Company's ability to utilize these deferred tax assets.

(10) Comprehensive Income (Loss)

The accumulated balances for each classification of other comprehensive income (loss), net of tax, are as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
Net Unrealized Gain on Securities Beginning Balance	\$ 21,260	\$ 75,239	\$ 76,238	\$ 62,371
Unrealized loss reclassified to beginning retained earnings as a result of implementation new accounting pronouncement	-	-	(39,882)	-
Other comprehensive (loss) income before reclassifications	(6,981)	4,853	(20,460)	21,233
Amounts reclassified from accumulated other comprehensive income (loss)	765	(3,002)	(852)	(6,514)
Net current period change	(6,216)	1,851	(21,312)	14,719
Ending Balance	15,044	77,090	15,044	77,090
Liability for Pension Benefits Beginning Balance	(24,722)	(19,870)	(24,984)	(19,976)
Amounts reclassified from accumulated other comprehensive income	147	48	409	154
Ending Balance	(24,575)	(19,822)	(24,575)	(19,822)
Accumulated Other Comprehensive (Loss) Income Beginning Balance	(3,462)	55,369	51,254	42,395
Unrealized loss reclassified to beginning retained earnings as the result of implementing new accounting pronouncement	-	-	(39,882)	-
Other comprehensive (loss) income before reclassifications	(6,981)	4,853	(20,460)	21,233
Amounts reclassified from accumulated other comprehensive income (loss)	912	(2,954)	(443)	(6,360)
Net current period change	(6,069)	1,899	(20,903)	14,873
Ending Balance	\$ (9,531)	\$ 57,268	\$ (9,531)	\$ 57,268

(11) Stock Repurchase Program

The Company repurchases shares through open-market purchases of Class B shares only, in accordance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended, under repurchase programs authorized by the Board of Directors.

In August 2017, the Company's Board of Directors authorized a \$30,000 repurchase program of its Class B common stock, and in February 2018 the Company's Board of Directors authorized a \$25,000 expansion of this program. During the three months ended September 30, 2018, the Company repurchased and retired under this program 259,925

shares at an average per share price of \$23.06, for an aggregate cost of \$5,995. During the nine months ended September 30, 2018, the Company repurchased and retired under this program 903,888 shares at an average per share price of \$24.76, for an aggregate cost of \$22,390.

Table of Contents**Triple-S Management Corporation***Notes to Condensed Consolidated Financial Statements**(Dollar amounts in thousands, except per share data)*

(Unaudited)

(12) Share-Based Compensation

Share-based compensation expense recorded during the three months ended September 30, 2018 and 2017 was \$919 and \$1,481, respectively. Share-based compensation expense recorded during the nine months ended September 30, 2018 and 2017 was \$3,462 and \$1,651, respectively. During the nine months ended September 30, 2018, 24,796 shares were repurchased and retired as the result of non-cash tax withholdings upon vesting of shares. There were no non-cash tax withholdings during the nine months ended September 30, 2017.

(13) Net (Loss) Income Available to Stockholders and Net (Loss) Income per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three months ended September 30,		Nine months ended September 30,	
	2018	2017	2018	2017
Numerator for earnings per share:				
Net (loss) income attributable to TSM available to stockholders	\$(17,567) \$21,912	\$(52,400) \$30,275
Denominator for basic earnings per share:				
Weighted average of common shares	22,895,582	24,142,192	23,058,754	24,177,344
Effect of dilutive securities	-	65,830	-	54,364
Denominator for diluted earnings per share	22,895,582	24,208,022	23,058,754	24,231,708
Basic net (loss) income per share attributable to TSM	\$(0.77) \$0.91	\$(2.27) \$1.25
Diluted net (loss) income per share attributable to TSM	\$(0.77) \$0.91	\$(2.27) \$1.25

The Company excluded the effect of dilutive securities during the three months nine months ended September 30, 2018 because their effect would have been anti-dilutive given the net loss attributable to stockholders in the period. If the Company had generated income from continuing operations during the three months ended and nine months ended September 30, 2018, the effect of restricted stock awards on the diluted shares calculation would have been an increase in shares of 75,986 and 92,076 shares, respectively.

(14) Contingencies

The following information supplements and amends, as applicable, the disclosures in Note 23 to the Consolidated Financial Statements of the Company's 2017 Annual Report on Form 10-K. Our business is subject to numerous laws and regulations promulgated by Federal, Puerto Rico, USVI, Costa Rica, British Virgin Islands (BVI), and Anguilla governmental authorities. Compliance with these laws and regulations can be subject to government review and interpretation, as well as regulatory actions unknown and unasserted at this time. The Commissioner of Insurance of Puerto Rico, as well as other Federal, Puerto Rico, USVI, Costa Rica, BVI, and Anguilla government authorities, regularly make inquiries and conduct audits concerning the Company's compliance with such laws and regulations. Penalties associated with violations of these laws and regulations may include significant fines and exclusion from

participating in certain publicly funded programs and may require the Company to comply with corrective action plans or changes in our practices.

We are involved in various legal actions arising in the ordinary course of business. We are also defendants in various other litigations and proceedings, some of which are described below. Where the Company believes that a loss is both probable and estimable, such amounts have been recorded. Although we believe our estimates of such losses are reasonable, these estimates could change as a result of further developments in these matters. In other cases, it is at least reasonably possible that the Company may incur a loss related to one or more of the mentioned pending lawsuits or investigations, but the Company is unable to estimate the range of possible loss which may be ultimately realized, either individually or in the aggregate, upon their resolution. The outcome of legal proceedings is inherently uncertain and pending matters for which accruals have not been established have not progressed sufficiently to enable us to estimate a range of possible loss, if any. Given the inherent unpredictability of these matters, it is possible that an adverse outcome in one or more of these matters could have a material adverse effect on the consolidated financial condition, operating results and/or cash flows of the Company.

Table of Contents

Triple-S Management Corporation
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except per share data)
(Unaudited)

Additionally, we may face various potential litigation claims that have not been asserted to date, including claims from persons purporting to have rights to acquire shares of the Company on favorable terms pursuant to agreements previously entered by our predecessor managed care subsidiary, Seguros de Servicios de Salud de Puerto Rico, Inc. (SSS), with physicians or dentists who joined our provider network to sell such new provider shares of SSS at a future date (Share Acquisition Agreements) or to have inherited such shares notwithstanding applicable transfer and ownership restrictions.

Claims by Heirs of Former Shareholders

On August 28, 2017, local Court of First Instance entered summary judgement in Heirs of Dr. Juan Acevedo, et al., v. Triple-S Management Corporation, et al. ordering the Company to issue 63,000 stock shares in favor of Plaintiffs, plus costs and legal fees. The Company appealed said judgement and on March 15, 2018, Puerto Rico Court of Appeals revoked said judgement and ruled in favor of the Company dismissing the complaint with prejudice. On June 1, 2018, the Puerto Rico Supreme Court denied Plaintiffs' petition for a Writ of Certiorari; a request for reconsideration has been denied by the Puerto Rico Supreme Court, thus the Court of Appeals Sentence in favor of the Company is final.

On September 20, 2018, local Court of First Instance entered partial summary judgement in Wanda Irizarry Antonmattei, et al., v. Seguros de Servicios de Salud de Puerto Rico, Inc., et al. ordering the Company to issue 63,000 stock shares in favor of Plaintiffs. The Company filed for reconsideration of said judgement; and will appeal if necessary.

In re Blue Cross Blue Shield Antitrust Litigation

TSS is a co-defendant with multiple Blue Plans and the Blue Cross Blue Shield Association (BCBSA) in a multi-district class action litigation filed by a group of providers and subscribers on July 24, 2012 and October 1, 2012, respectively, that has since been consolidated by the United States District Court for the Northern District of Alabama, Southern Division, in the case captioned In re Blue Cross Blue Shield Association Antitrust Litigation. Essentially, provider plaintiffs allege that the exclusive service area requirements of the Primary License Agreements with the Blue Plans constitute an illegal horizontal market allocation under federal antitrust laws. As per provider plaintiffs, the quid pro quo for said "market allocation" is a horizontal price fixing and boycott conspiracy" implemented through the Inter-Plans Program Committee ("IPPC") and whose benefits are allegedly derived through the BCBSA's Blue Card/National Accounts Program. Among the remedies sought, provider plaintiffs seek increased compensation rates and operational changes. In turn, subscriber plaintiffs allege that the alleged conspiracy to allocate markets have prevented subscribers from being offered competitive prices and resulted in higher premiums for Blue Plan subscribers. Subscribers seek damages in the form of supra-competitive premiums allegedly charged by the Blue Plans and/or the difference between what subscribers have paid the Blues and the lower competitive premiums that non-competing Blues would have charged. Both actions seek injunctive relief.

Prior to consolidation, motions to dismiss were filed by several plans, including TSS - whose request was ultimately denied by the court without prejudice. On April 6, 2015, plaintiffs filed suit in the United States District Court of Puerto Rico against TSS. Said complaint, nonetheless, is believed not to preclude TSS' jurisdictional arguments. Since inception, the Company has joined BCBSA and other Blue Plans in vigorously contesting these claims. On April 5, 2018, the United States District Court for the Northern District of Alabama, Southern Division, issued it's ruling on the parties' respective motions for partial summary judgment on the standard of review applicable to plaintiffs' claims

under Section 1 of the Sherman Act and subscriber plaintiffs' motion for partial summary judgment on the Blue Plan's single entity defense. After considering the "undisputed" facts (for summary judgment purposes only) and evidence currently on record in the light most favorable to defendants, the court essentially found that: (a) the Exclusive Service Areas constitute horizontal market allocations that are subject to the Per Se standard of review; (b) the National Best Efforts Rule constitutes an "output restriction" subject to the Per Se standard of review; (c) there remain genuine issues of material fact as to whether defendants' conduct can be shielded by the "single entity" defense; and (d) claims concerning the BlueCard Program and uncoupling rules are due to be analyzed under the Rule of Reason standard.

Table of Contents

Triple-S Management Corporation
Notes to Condensed Consolidated Financial Statements
(Dollar amounts in thousands, except per share data)
(Unaudited)

As a result, the joint defense group obtained certification of the standard of review decision, and on July 9, 2018 appealed the matter to the 11th Circuit. Presently, the case is in a “holding pattern” until the 11th Circuit decides whether to take the Standard of Review ruling on appeal.

If successful, plaintiffs would be entitled to recover treble damages plus attorneys’ fees, costs and expenses. In addition, the challenged practice would likely be enjoined nationwide. Even if class certification is denied, any one plaintiff could still challenge the entire system and seek the same broad relief as the current putative classes. An injunction in favor of a single plaintiff could likely apply to the entire system. Damages experts have yet to issue damage estimates. Estimates of potential exposure towards providers, after trebling, exceed \$15 billion. Potential trebled damages towards subscribers are close to \$150 million. Possibilities of success are difficult to predict globally and are contingent on whether the Per Se or the Rule of Reason standard of review will apply to the practice, which classes are certified, what practice is being challenged, and whether the judge decides the case on summary judgment or a jury does at trial. The likelihood of success globally appears to be greater as to providers than as to subscribers. As part of the Joint Defense Group, TSS intends to defend vigorously while engaging in serious efforts to resolve the case through mediation.

Claims Relating to the Provision of Health Care Services

TSS was a defendant in several claims for collection of monies in connection with the provision of health care services. Among them are individual complaints filed before ASES by six community health centers alleging TSS breached their contracts with respect to certain capitation payments and other monetary claims. In May 2018, the Company settled this case with all six community health centers and paid a settlement agreement totaling \$1,200.

ASES Audits

The Company is subject to audits in connection with the provision of services to private and governmental entities. These audits may include numerous aspects of our business, including claim payment practices, contractual obligations, service delivery, third-party obligations, and business practices, among others. Deficiencies in audits could have a material adverse effect on our reputation and business, including termination of contracts, significant increases in the cost of managing and remediating deficiencies, payment of contractual penal clauses, and others, any of which could have a material and adverse effect on our results of operations, financial position and cash flows.

On July 2, 2014, ASES notified TSS that the results of an audit conducted in connection with the government health plan contract for several periods between October 2005 and September 2013, reflected an overpayment of premiums made to TSS pursuant to prior contracts with ASES in the amount of \$7,900. The alleged overpayments were related to duplicated payments or payments made for deceased members, and ASES requested the reimbursement of the alleged overpayment. On January 16, 2015, TSS filed an injunction against ASES under the case Triple-S Salud, Inc. v. Administración de Seguros de Salud de Puerto Rico. TSS contends that ASES’ request for reimbursement has no merits on several grounds, including a 2011 settlement between both parties covering the majority of the amount claimed by ASES, and that ASES, under the terms of the contracts, was responsible for certifying the membership. On May 26, 2017, the court issued a partial judgement dismissing the complaint in favor of TSS with respect to the alleged overpayments for the period between October 2005 and September 2010, which represented approximately \$7,400 of the total alleged claim. On July 27, 2017, ASES appealed the court’s partial judgement and on January 31, 2018, the Puerto Rico Court of Appeals entered judgement in favor of the Company, thus validating the 2011

settlement agreement. No plea for reconsideration nor a writ of certiorari was filed by ASES before the Court of Appeals or the Puerto Rico Supreme Court. The parties reached a settlement agreement for the remaining \$500 in controversy subject to the final approval of ASES Board of Directors, which has been accrued as of September 30, 2018.

(Unaudited)

(15) Segment Information

The operations of the Corporation are conducted principally through three business segments: Managed Care, Life Insurance, and Property and Casualty Insurance. The Corporation evaluates performance based primarily on the operating revenues and operating income of each segment. Operating revenues include premiums earned, net, administrative service fees, net investment income, and revenues derived from other segments. Operating costs include claims incurred and operating expenses. The Corporation calculates operating income or loss as operating revenues less operating costs.

The following tables summarize the operations by reportable segment for the three months and nine months ended September 30, 2018 and 2017:

	Three months ended		Nine months ended	
	September 30,		September 30,	
	2018	2017	2018	2017
Operating revenues:				
Managed Care:				
Premiums earned, net	\$680,393	\$653,734	\$2,044,989	\$1,955,246

(16) Subsequent Events

On November 2, 2018 TSP entered into a multi-year high excess cover reinsurance agreement that includes both retroactive and prospective covers. The agreement is effective from April 1, 2018 until March 31, 2023. The Company will account for this agreement in accordance with the provisions of Accounting Standards Codification 944 Financial Services – Insurance (ASC 944). Included in ASC 944 is specific guidance on accounting for reinsurance of short-duration and long duration reinsurance contracts (formerly Statement of Financial Accounting Standards (SFAS) 113, as amended).

The retroactive portion is an adverse development reinsurance cover (ADC) providing for a coverage of \$50,000 in excess of \$76,500 of net losses, representing the adverse development related to Hurricane Maria experienced as of June 30, 2018. The Company expects to record in its consolidated balance sheet a reinsurance recoverable equal to the adverse development related to Hurricane Maria claims in excess of the \$76,500 million of net incurred losses up to the \$50,000 excess, a premium payable for the premium allocated to the retroactive cover, and a liability for a deferred gain on retroactive reinsurance. The reinsurance asset and liability will be released as the underlying recoveries are realized. The prospective portion of the agreement provides catastrophe umbrella coverage for a five-year period ending March 31, 2023 and should be recognized into operations based on the coverage period.

The Company evaluated subsequent events through the date the condensed consolidated financial statements were issued. No events, other than those described in these notes, have occurred that require adjustment or disclosure pursuant to current Accounting Standards Codification.

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

In this Management's Discussion and Analysis of Financial Condition and Results of Operations (MD&A), the "Corporation", the "Company", "TSM", "we", "us" and "our" refers to Triple-S Management Corporation and its subsidiaries. MD&A included in this Quarterly Report on Form 10-Q is intended to update the reader on matters affecting the financial condition and results of operations for the three months and nine months ended September 30, 2018. Therefore, the following discussion should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Annual Report on Form 10-K filed with the United States Securities and Exchange Commission as of and for the year ended December 31, 2017 and the MD&A included therein, and our unaudited condensed consolidated financial statements and accompanying notes as of and for the three months and nine months ended September 30, 2018 included in this Quarterly Report on Form 10-Q.

Cautionary Statement Regarding Forward-Looking Information

This Quarterly Report on Form 10-Q and other of our publicly available documents may include statements that constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, including, among other things: statements concerning our business and our financial condition and results of operations. These statements are not historical, but instead represent our belief regarding future events, any of which, by their nature, are inherently uncertain and outside of our control. These statements may address, among other things, future financial results, strategy for growth, and market position. It is possible that our actual results and financial condition may differ, possibly materially, from the anticipated results and financial condition indicated in these forward-looking statements. The factors that could cause actual results to differ from those in the forward-looking statements are discussed throughout this form. We are not under any obligation to update or alter any forward-looking statement (and expressly disclaims any such obligations), whether as a result of new information, future events or otherwise. Factors that may cause actual results to differ materially from those contemplated by such forward looking statements include, but are not limited to, rising healthcare costs, business conditions and competition in the different insurance segments, government action and other regulatory issues.

Overview

We are one of the most significant players in the managed care industry in Puerto Rico and have over 55 years of experience in this industry. We offer a broad portfolio of managed care and related products in the Commercial, Medicaid and Medicare Advantage markets. In the Commercial market, we offer products to corporate accounts, U.S. federal government employees, local government employees, individual accounts and Medicare Supplement. We also participate in the Government of Puerto Rico Health Insurance Plan (a managed care program for the medically indigent funded by the Puerto Rico Government and Medicaid, that is similar to the Medicaid program in the U.S.) (Medicaid), by administering the provision of health benefits in designated service regions in Puerto Rico. See details of the Medicaid contract in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2017 under the sub-caption "We are dependent on a small number of government contracts to generate a significant amount of the revenues of our managed care business."

We have the exclusive right to use the Blue Cross Blue Shield (BCBS) name and mark throughout Puerto Rico, the U.S. Virgin Islands (USVI), Costa Rica, the British Virgin Islands (BVI) and Anguilla. As of September 30, 2018, we served approximately 959,000 managed care members across all regions of Puerto Rico. For the nine months ended September 30, 2018 and 2017, our managed care segment represented approximately 91% of our total consolidated premiums earned. We also have significant positions in the life insurance and property and casualty insurance markets.

We participate in the managed care market through our subsidiaries, Triple-S Salud, Inc. (TSS); Triple-S Advantage, Inc. (TSA), and Triple-S Blue, Inc. I.I. (TSB). TSS, TSA and TSB are Blue Cross Blue Shield Association (BCBSA)

licensees, which provides us with exclusive use of the Blue Cross and Blue Shield name and mark throughout Puerto Rico, the USVI, Costa Rica, the BVI, and Anguilla.

34

Table of Contents

We participate in the life insurance market through our subsidiary, Triple-S Vida, Inc. (TSV), and in the property and casualty insurance market through our subsidiary, Triple-S Propiedad, Inc. (TSP).

Intersegment revenues and expenses are reported on a gross basis in each of the operating segments but eliminated in the consolidated results. Except as otherwise indicated, the numbers for each segment presented in this Quarterly Report on Form 10-Q do not reflect intersegment eliminations. These intersegment revenues and expenses affect the amounts reported on the financial statement line items for each segment, but are eliminated in consolidation and do not change net income. See Note 15 of the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

Our revenues primarily consist of premiums earned, net and administrative service fees. These revenues are derived from the sale of managed care products in the Commercial market to employer groups, individuals, and government-sponsored programs, principally Medicare and the Government of Puerto Rico Health Insurance Plan. Premiums are derived from insurance contracts and administrative service fees are derived from self-funded contracts, under which we provide a range of services, including claims administration, billing and membership services, among others. Revenues also include premiums earned from the sale of property and casualty and life insurance contracts, investment income, and revenues derived from other non-reportable segments. Substantially all our earnings are generated in Puerto Rico.

Claims incurred include the payment of benefits and losses, mostly to physicians, hospitals and other service providers, and policyholders. Each segment's results of operations depend to a significant extent on their ability to accurately predict and effectively manage claims. A portion of the claims incurred for each period consists of claims reported but not paid during the period, as well as a management and actuarial estimate of claims incurred but not reported during the period. Operating expenses consist primarily of compensation, commission payments to brokers and other overhead business expenses.

We use operating income as a measure of performance of the underwriting and investment functions of our segments. We also use the loss ratio and the operating expense ratio as measures of performance. The loss ratio is claims incurred divided by premiums earned, net, multiplied by 100. The operating expense ratio is operating expenses divided by premiums earned; net and administrative service fees, multiplied by 100.

Recent Developments

Puerto Rico Economy

Pursuant to the Puerto Rico Oversight, Management and Economic Stability Act, Pub. L. 114–187, June 30, 2016, 130 Stat. 549, the Financial Oversight and Management Board for Puerto Rico (the "Oversight Board") has certified fiscal plans for the Commonwealth and several of its instrumentalities, including the Puerto Rico Electric Power Authority, the Puerto Rico Aqueduct and Sewer Authority, the University of Puerto Rico, the Puerto Rico Highways and Transportation Authority and Government Development Bank for Puerto Rico.

The most recent fiscal plan for the Commonwealth certified by the Oversight Board is dated as of October 23, 2018 (the "Most Recent Fiscal Plan"). The Most Recent Fiscal Plan estimates a 16.1% contraction in real gross national product ("GNP") in fiscal year 2018 (July 1, 2017 – June 30, 2018), without accounting for the impact of disaster relief funding related to Hurricanes Irma and Maria or the measures and structural reforms proposed by the plan. Taking into account such factors, the Most Recent Fiscal Plan estimates an 8.0% contraction in real GNP in fiscal year 2018. It also projects that disaster relief funding will have a short-term simulative effect on Puerto Rico's economy, which, combined with the estimated effects of the proposed measures and reforms, the plan estimates will result in variable GNP growth from fiscal years 2019 through 2022, followed by GNP contraction in fiscal year 2023 as disaster relief funding decreases.

The Most Recent Fiscal Plan outlines a number of structural reforms and fiscal measures that the Oversight Board deems necessary to improve the Commonwealth's fiscal balance and economic condition. Such measures include structural reforms, such as labor, ease of doing business, energy sector, and infrastructure reforms, as well as fiscal measures, such as agency consolidations, reductions in budgetary appropriations, and pension reform. The Most Recent Fiscal Plan and the fiscal plans certified by the Oversight Board for the Commonwealth's instrumentalities conclude that the Commonwealth and its instrumentalities will not be able to meet all of their contractual obligations, even after implementing the measures and reforms contemplated therein,

Table of Contents

The Governor and other government officers have publicly expressed their disagreement with several of the measures contemplated by the Most Recent Fiscal Plan, particularly the pension reform, which contemplates average pension benefit reductions of approximately 10%, and the labor reform, which contemplates the elimination of certain mandatory benefits to public and private employees. The Governor had also previously challenged the Oversight Board's authority with respect to certain matters related to the Commonwealth's budget and a previous version of the fiscal plan before the U.S. District Court for the District of Puerto Rico (the "District Court") in Hon. Ricardo Roselló Nevares v. The Financial Oversight and Management Board for Puerto Rico, Case No. 17-3283 (the "Adversary Proceeding"). The District Court issued an order on August 27, 2018 partially dismissing certain portions of the Adversary Proceeding and, on October 9, 2018, the District Court certified certain aspects such order for interlocutory appeal.

See Item 1A. Risk Factors – Risks Related to our Business – “Our business is geographically concentrated in Puerto Rico and weakness in the economy and the fiscal health of the government has adversely impacted and may continue to adversely impact us, particularly following Hurricanes Irma and Maria.” included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Puerto Rico Government Health Reform Program

TSS extended the term of its contract with the Puerto Rico Health Insurance Administration (“ASES,” by its Spanish acronym) for the offering of health care services for the Medicaid subscribers in the Metro North and West regions of the Government of Puerto Rico's health insurance program, known as the Government Health Plan (the “Contract”). The amendment signed on June 30, 2018 extended the term of the Contract until July 31, 2018. On July 31, 2018 TSS signed another extension of the terms of the Contract until October 31, 2018. All other provisions of the Contract, as amended, including the per member per month payments made by ASES to TSS, will remain in full force and effect during the extension periods.

On September 21, 2018, TSS entered into a contract with ASES whereby TSS, as one of five managed care organizations (“MCOs”), will offer health care services to Medicaid and Child Health Insurance subscribers for the Government of Puerto Rico's revised Medicaid health insurance program (the “New Contract”). The New Contract requires MCOs to serve subscribers on an island-wide basis, rather than assigning each MCO specific regions. The term of the New Contract is from November 1, 2018 to September 30, 2021, which term may be extended for an additional year at ASES's option. Under this agreement, TSS is responsible for the provision of medical, mental, pharmacy and dental healthcare services on an at-risk basis to subscribers who enroll with TSS. ASES will pay TSS a per member per month rate that will vary depending on the clinical condition or category of the subscriber. Premiums rates will be negotiated for each contract year. The New Contract initially assigned Triple-S approximately 280,000 subscribers. Once the term of the New Contract commences, subscribers will have approximately three months to select their insurance carriers, during which time, MCOs will be able to compete for membership across Puerto Rico.

See Item 1A. Risk Factors—Risks Related to Our Business – “We are dependent on a small number of government contracts to generate a significant amount of the revenues of our managed care business.” included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Political and Regulatory Developments

CMS announced final benchmark rates for the 2019 Medicare Advantage plans. The call letter maintains the zero claims adjustment and allows certain Puerto Rico counties to qualify for double bonus status. The impact of these updates, result in a Puerto Rico benchmark estimated average increase of about 5.7%. See Item 1A. Risk Factors—Risks Related to the Regulation of our Industry – “The revised rate calculation system for Medicare Advantage, the payment system for the Medicare Part D and changes in the methodology and payment policies used by CMS to establish rates could reduce our profitability and the benefits we offer our beneficiaries” included in our Annual Report

on Form 10-K for the year ended December 31, 2017.

36

Table of Contents

Property and Casualty – Hurricane Maria Unfavorable Reserve Development

During the three months ended September 30, 2018, the Property and Casualty segment increased by approximately \$68.9 million to \$968.5 million the gross losses related to Hurricane Maria. With this increase in the gross losses related to this catastrophe, the segment reports \$52.3 million and \$128.7 million unfavorable prior period reserve development, net of reinsurance, during the three months and nine months ended September 30, 2018.

As loss information has continued to emerge during the three months ended September 30, 2018, gross reserves were updated reflecting a worsening of the loss expectations for Hurricane Maria. As a consequence, the segment increased specific and bulk reserves for unpaid claims.

On November 2, 2018 TSP entered into a multi-year high excess cover reinsurance agreement that includes both retroactive and prospective covers. The agreement is effective April 1, 2018 until March 31, 2023. The retroactive portion is an adverse development reinsurance cover providing for a coverage of \$50 million in excess of \$76.5 million of net losses, representing the adverse development related to Hurricane Maria experienced as of June 30, 2018. The prospective portion of the agreement provides catastrophe umbrella coverage for a five-year period ending March 31, 2023. This reinsurance agreement will increase TSP's statutory surplus, improve RBC scores, and assures catastrophe protection for five years for a portion of our reinsurance program. See Note 16 of the Condensed Consolidated Financial Statements included in this Quarterly Report on Form 10-Q.

As the result of the unfavorable reserve development, TSP estimates that its Risk Based Capital (RBC) at the end of the year is going to be lower than the 300% minimum requirement and will require a plan to increase the capital and surplus. The lower capital levels could also negatively impact the segment's A.M. Best rating for 2018. Management is evaluating several alternatives to increase TSP's statutory capital in order to meet minimum capital requirements, which could include reinsurance agreements, capital infusion, and/or the issuance of surplus notes.

See Item 1A. Risk Factors—Risks Related to Our Business – “Our failure to accurately estimate incurred but not reported claims would affect our reported financial results”, “Our ability to manage our exposure to underwriting risks in our life insurance and property and casualty insurance business depends on the availability and cost of reinsurance coverage”, “If our reinsurers do not pay our claims or do not pay them in a timely manner, we may incur losses”, “A downgrade in our A.M. Best rating could affect our ability to write new business or renew our existing business in our property and casualty segment”, and “Our insurance subsidiaries are subject to minimum capital requirements. Our failure to meet these standards could subject us to regulatory actions” included in our Annual Report on Form 10-K for the year ended December 31, 2017. Additional information on how each reportable segment determines its claim liabilities, and the variables considered in the development of this amount, is included in our latest Annual Report on Form 10-K under Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations—Critical Accounting Estimates”.

Recent Accounting Standards

For a description of recent accounting standards, see Note 2 to the unaudited condensed consolidated financial statements included in this quarterly report on Form 10-Q.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

Operating Revenues

Consolidated premiums earned, net increased by \$28.1 million, or 3.9%, to \$742.4 million, primarily reflecting higher Medicaid and Medicare premiums within the Managed Care segment. Increase in Medicaid premiums mostly reflects higher membership, while in the Medicare business, premiums increased due to this year's achievement of a four-star rated Medicare Advantage HMO contract that resulted in a 5% bonus applied to the benchmark used in premium calculation as well as an increase in the 2018 Medicare reimbursement rates. These increases were partially offset by lower Commercial and Medicare membership.

Net unrealized investment gains on equity investments

The \$5.6 million in consolidated net unrealized investment gains on equity investments is the impact of a new accounting guidance implemented effective January 1, 2018, which requires the change in unrealized gain (loss) of equity investments, previously recorded through comprehensive income, to be recorded through earnings.

Claims Incurred

Consolidated claims incurred increased by \$65.0 million, or 11.1%, to \$648.6 million mainly driven by a \$52.3 million unfavorable prior period reserve development in the Property and Casualty segment related to Hurricane Maria, a category 4 hurricane that impacted Puerto Rico in September 2017. In addition, the 2017 period includes an

estimated reduction of \$32.9 million in the Managed Care segment due to a drop in utilization caused by Hurricanes Irma and Maria and \$13.5 million of hurricane related net losses recognized by the Property and Casualty segment. The consolidated loss ratio increased by 570 basis points to 87.4%.

See “Recent Developments – Property and Casualty – Hurricane Maria Unfavorable Reserve Development”.

39

Table of Contents

Operating Expenses

Consolidated operating expenses increased by \$21.8 million, or 18.3%, to \$141.0 million. The higher operating expenses are mostly the result of the reinstatement of the Health Insurance Providers Fee (HIP fee) of \$13.1 million, higher professional services and personnel costs related to ongoing Managed Care initiatives, and Medicaid new model implementation expenses of \$1.0 million. For the three months ended September 30, 2018, the consolidated operating expense ratio increased 230 basis points to 18.9%.

Income Taxes

Consolidated income tax benefit for the three months ended September 30, 2018 was \$3.4 million, compared to an expense of \$11.8 million during the three months ended September 30, 2017. The year over year change in income taxes primarily reflects the loss before taxes in the Property and Casualty segment.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

Operating Revenues

Consolidated premiums earned, net increased by \$96.8 million, or 4.5%, to \$2,236.3 million, reflecting higher Medicaid and Medicare premiums within the Managed Care segment. Increase in Medicaid premiums mostly reflects the higher premiums rates that became effective July 1, 2017 as well as increase in membership. In the Medicare business, premiums increased as the result of achieving a 4-star rating in our Medicare Advantage HMO contract that resulted in a 5% bonus applied to the benchmark used in premium calculation as well as an increase in the 2018 Medicare reimbursement rates. These increases were partially offset by lower Commercial and Medicare membership.

Net unrealized investment losses on equity investments

The \$11.3 million in consolidated net unrealized investment losses on equity investments is the impact of a new accounting guidance implemented effective January 1, 2018, which requires the change in unrealized gain (loss) of equity investments, previously recorded through comprehensive income, to be recorded through earnings.

Claims Incurred

Consolidated claims incurred increased by \$143.9 million, or 7.9%, to \$1,959.7 million mainly driven by a \$128.7 million unfavorable prior period reserve development in the Property and Casualty segment related to Hurricane Maria, a category 4 hurricane that impacted Puerto Rico in September 2017. In addition, the 2017 period includes \$32.9 million in the Managed Care segment due to a drop in utilization caused by Hurricanes Irma and Maria and \$13.5 million of hurricane related net losses recognized by the Property and Casualty segment. The consolidated loss ratio increased by 270 basis points to 87.6%.

See “Recent Developments – Property and Casualty – Hurricane Maria Unfavorable Reserve Development”.

Operating Expenses

Consolidated operating expenses increased by \$60.0 million, or 17.2%, to \$408.8 million. The higher operating expenses are mostly the result of the reinstatement of the HIP fee of \$37.0 million and higher professional services and personnel costs related to ongoing Managed Care initiatives. For the nine months ended September 30, 2018, the consolidated operating expense ratio increased 200 basis points to 18.2%.

Income Taxes

Consolidated income tax benefit for the nine months ended September 30, 2018 was \$30.9 million, compared to an expense of \$6.6 million during the nine months ended September 30, 2017. The year over year change in income taxes primarily reflects the loss before taxes in the Property and Casualty segment.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

Medical Operating Revenues

Medical premiums earned increased by \$26.6 million, or 4.1%, to \$680.7 million. This increase is principally the result of the following:

Medical premiums generated by the Medicare business amounted to \$283.6 million, \$19.3 million, or 7.3% higher than last year, primarily reflecting an increase in the Medicare reimbursement rates for the first time since 2012, the increase related to the 4-star rating achievement in our 2018 HMO product, and higher average membership risk score. These increases were offset partially by a decrease in enrollment of approximately 33,000 member months.

Medical premiums generated by the Medicaid business increased \$8.9 million, or 4.7% to \$199.8 million. Increase primarily reflects higher membership by approximately 54,000 member months, \$8.7 million of premiums related to the achievement of the contract's quality incentive metrics, and \$3.6 million related to the reinstatement of the HIP fee pass-through in 2018. These increases were partially offset by the impact of the profit sharing accrual, which decreased 2018 premiums by approximately \$5.6 million.

-

Medical premiums generated by the Commercial business decreased by \$1.6 million, or 0.8%, to \$197.3 million. This fluctuation primarily reflects lower fully-insured enrollment during the year by approximately 55,000 member months offset by \$3.0 million related to the reinstatement of the HIP fee pass-through in 2018.

Table of Contents

Medical Claims Incurred

Medical claims incurred increased by \$27.0 million, or 5.0%, to \$566.1 million when compared to the three months ended September 30, 2017. The medical loss ratio (MLR) of the segment increased 80 basis points during the 2018 period, to 83.2%. This fluctuation is primarily attributed to the net effect of the following:

The medical claims incurred of the Commercial business increased by \$21.2 million, or 14.6%, during the 2018 period and its MLR, at 84.5 points higher than last year, primarily reflecting the decrease in utilization in the 2017 period caused by Hurricanes Irma and Maria and unfavorable prior period reserve development. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$16.6 million, or 830 basis points of last year's MLR. Adjusting for the effect of prior period reserve development in 2018 and 2017 period as well as adjusting for the 2017 hurricane related impact in utilization, the Commercial MLR would have been approximately 83.3%, 410 basis points higher than last year, reflecting claim trends higher than premium trends.

Medical claims incurred of the Medicare business increased by \$7.8 million, or 3.5%, during the 2018 period and its MLR decreased by 300 basis points, to 80.3%, primarily reflecting higher premium rates, the estimated impact in utilization in the 2017 period caused by Hurricanes Irma and Maria, and higher benefits on the 2018 products. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$15.3 million, or 580 basis points of last year's MLR. Adjusting for the effect of prior period reserve development in the 2018 and 2017 periods, moving the risk score revenue to its corresponding period, as well as adjusting for the 2017 hurricane related impact in utilization, the Medicare MLR would have been approximately 82.7%, 510 basis points lower than last year, primarily reflecting the higher premium rates in the 2018 period.

The Medicaid claims incurred decreased by \$2.0 million, or 1.2%, during the 2018 period and its MLR, at 85.9%, is 510 basis points lower than last year. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$1.0 million, or 50 basis points of last year's MLR. Adjusting for the effect of prior period reserve developments, the increase in quality incentive premiums, and the 2018 profit sharing accrual, the Medicaid MLR would have been approximately 87.3%, 50 basis points lower than the adjusted MLR for last year.

Medical Operating Expenses

Medical operating expenses increased by \$23.1 million, or 26.0%, to \$112.1 million. The operating expense ratio increased by 290 basis points to 16.4% in 2018. The higher operating expenses and expense ratio are mostly driven by the reinstatement of the HIP fee in 2018 of \$13.1 million, higher professional services and personnel costs related to ongoing operational and clinical initiatives, and the expenses related to the new Medicaid model implementation expenses.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

Medical Operating Revenues

Medical premiums earned increased by \$89.8 million, or 4.6%, to \$2,046.0 million. This increase is principally the result of the following:

Medical premiums generated by the Medicare business increased by \$62.8 million, or 8.0%, to \$851.3 million, primarily reflecting an increase in the Medicare reimbursement rates for the first time since 2012, the increase related to the 4-star rating achievement in our 2018 HMO product, increase in the risk score adjustment, as well as to a higher average membership risk score.

•

Medical premiums generated by the Medicaid business amounted to \$603.9 million, \$43.6 million, or 7.8% higher when compared to the prior period. Increase primarily reflects higher premiums rates effective July 1, 2017, \$10.9 million related to the reinstatement of the HIP fee pass-through in 2018, an \$8.7 million increase in premiums related to the achievement of the contract's quality incentive metrics, and an increase in member months enrollment of approximately 84,000. These increases were partially offset by impact of the profit sharing accrual, which decreased 2018 premiums by approximately \$5.6 million.

Table of Contents

Medical premiums generated by the Commercial business decreased by \$16.6 million, or 2.7%, to \$590.8 million.

• This fluctuation primarily reflects lower fully-insured enrollment during the year by approximately 168,000 member months and \$9.0 million related to the reinstatement of the HIP fee pass-through in 2018.

Medical Claims Incurred

Medical claims incurred increased by \$27.8 million, or 1.6%, to \$1,733.6 million and the MLR of the segment decreased 250 basis points during the 2018 period, to 84.7%. This fluctuation is primarily attributed to the net effect of the following:

The medical claims incurred of the Medicare business increased by \$14.0 million, or 2.0%, during the 2018 period and its MLR decreased by 490 basis points, to 84.4%, primarily reflecting higher premium rates, the decrease in utilization in the 2017 period caused by Hurricanes Irma and Maria and higher benefits on 2018 products. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$15.3 million, or 200 basis points of last year's MLR. Adjusting for the effect of prior period reserve development in 2018 and 2017 period, moving the risk score revenue to its corresponding period, as well as adjusting for the 2017 hurricane related impact in utilization, the Medicare MLR would have been approximately 85.1%, about 590 basis points lower than last year, primarily reflecting the higher premium rates in the 2018 period offset in part by the increased utilization of services as the result of the waiver of pre-authorization requirements mandated by CMS following the impact of the hurricanes in 2017 and changes in benefits. The waiver was in place until June 15, 2018.

Medicaid medical claims incurred increased by \$10.1 million, or 1.9%, in the 2018 period and its MLR decreased by 500 basis points, to 87.9%. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$1.0 million, or 10 basis points of last year's MLR. Adjusting for the effect of prior period reserve developments, the increase in quality incentive premiums, and the 2018 profit sharing accrual, the Medicaid MLR would have been approximately 87.8%, 380 basis points lower than the adjusted MLR for last year mostly reflecting the impact of higher premium rates in 2018 and the impact of cost containment initiatives.

The Commercial medical claims incurred increased by \$3.7 million, or 0.8%, during the 2018 period and its MLR, at 82.0%, was 290 basis points higher year over year, primarily reflecting the decrease in utilization in the 2017 period caused by Hurricanes Irma and Maria offset in part by favorable prior period reserve development. The hurricane related decrease in utilization was estimated to lower 2017 claims by approximately \$16.6 million, or 280 basis points of last year's MLR. Adjusting for the effect of prior period reserve development in 2018 and 2017 period as well as adjusting for the 2017 hurricane related impact in utilization, the Commercial MLR would have been approximately 83.5%, 250 basis points higher than last year, reflecting claim trends higher than premium trends.

Medical Operating Expenses

Medical operating expenses increased by \$58.2 million, or 22.4%, to \$317.9 million. The operating expense ratio increased by 220 basis points to 15.4% in 2018. The higher operating expenses and expense ratio are mostly driven by the reinstatement of the HIP fee in 2018, resulting in an increase of \$37.0 million, higher professional services and personnel costs related to ongoing operational and clinical initiatives.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

Operating Revenues

Premiums earned, net increased by \$1.4 million, or 3.4% to \$42.3 million mainly as the result of higher sales in the Individual Life and Cancer lines of business.

Policy Benefits and Claims Incurred

Policy benefits and claims incurred increased by \$2.2 million, or 9.5%, to \$25.3 million, mostly reflecting a higher volume of claims as well as an increase in the average cost per claim in the Cancer line of business. As a result, the segment's loss ratio increased 330 basis point to 59.8%.

Underwriting and Other Expenses

Underwriting and other expenses decreased \$1.7 million, or 8.8%, to \$17.7 million. The segment's operating expense ratio improved 560 basis points to 41.8%.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

Operating Revenues

Premiums earned, net increased by \$3.7 million, or 3.0% to \$125.1 million mainly as the result of higher sales and improved policy retention in the segment's Individual Life and Cancer lines of business.

Policy Benefits and Claims Incurred

Policy benefits and claims incurred increased by \$5.1 million, or 7.4%, to \$73.8 million, mostly as the result of higher number of death benefits paid in the Individual Life line of business as well as increased average cost of claims in the Cancer line of business. As a result, the segment's loss ratio increased 240 basis point to 59.0%.

Underwriting and Other Expenses

Underwriting and other expenses decreased \$2.0 million, or 3.5%, to \$55.8 million. The segment's operating expense ratio improved 300 basis points to 44.6%.

Three Months Ended September 30, 2018 Compared to Three Months Ended September 30, 2017

Operating Revenues

Total premiums written increased by \$2.3 million, or 7.4%, to \$33.3 million, driven by higher sales and premium rates of Commercial Auto and Commercial Package products.

The premiums ceded to reinsurers decreased by \$0.8 million, or 6.0%, mostly reflecting lower premiums written in Commercial insurance products during 2018 and lower facultative cessions. These decreases were offset in part by an increase in cessions in the Commercial quota share agreement from 30% in 2017 to 35% 2018.

The \$2.8 decrease million in the change in unearned premiums reflects the increase in premiums written experienced in the 2018 quarter.

Claims Incurred

Claims incurred increased by \$36.2 million, or 164.5%, to \$58.2 million driven by a \$52.3 million unfavorable prior period reserve development in claims related to Hurricane Maria, a category 4 hurricane that impacted Puerto Rico in September 2017. The increase was offset in part by the \$13.5 million of net losses related to Hurricanes Irma and Maria recognized in the 2017 quarter. See “Recent Developments – Property and Casualty – Hurricane Maria Unfavorable Reserve Development”.

Underwriting and Other Expenses

Underwriting and other operating expenses were in line with previous year, increasing \$0.3 million, or 2.7%, to \$11.4 million. The operating expense ratio was 56.7%, 90 basis points higher than prior year.

Nine Months Ended September 30, 2018 Compared to Nine Months Ended September 30, 2017

Operating Revenues

Total premiums written decreased by \$5.1 million, or 4.9%, to \$99.7 million, driven by lower volume of Commercial Property, Commercial Package, and Commercial Liability products, mostly resulting from the selective and disciplined underwriting of Commercial risks.

The premiums ceded to reinsurers remained at \$40.1 million, including an increase in cessions in the Commercial quota share agreement from 30% in 2017 to 35% 2018.

Table of Contents

The \$8.8 million increase in the change in unearned premiums reflects the lower premiums written in the 2018 period.

Claims Incurred

Claims incurred increased by \$111.6 million, or 256.6%, to \$155.1 million driven by a \$128.7 million unfavorable prior period reserve development in claims related to Hurricane Maria, a category 4 hurricane that impacted Puerto Rico in September 2017. The increase was offset in part by the \$13.5 million of net losses related to Hurricanes Irma and Maria recognized in the 2017 period. See “Recent Developments – Property and Casualty – Hurricane Maria Unfavorable Reserve Development”.

Underwriting and Other Expenses

Underwriting and other operating expenses increased by \$3.2 million, or 10.2%, to \$34.5 million mostly due to higher amortization of deferred acquisition costs and personnel costs, offset by lower commissions expense. The operating expense ratio was 51.4%, 200 basis points higher than prior year.

Liquidity and Capital Resources

Cash Flows

A summary of our major sources and uses of cash for the periods indicated is presented in the following table:

(dollar amounts in millions)	Nine months ended	
	September 30, 2018	2017
Sources (uses) of cash:		
Cash (used in) provided by operating activities	\$ (3.9)	\$ 191.8
Net (purchases) sales of investment securities	(52.5)	2.8
Net capital expenditures	(12.3)	(15.9)
Proceeds from long-term borrowings	-	24.3
Payments of long-term borrowings	(2.4)	(26.3)
Proceeds from policyholder deposits	14.7	12.1
Surrenders of policyholder deposits	(21.4)	(17.4)
Repurchase and retirement of common stock	(22.4)	(12.6)
Other	8.3	7.7
Net (decrease) increase in cash and cash equivalents	\$ (91.9)	\$ 166.5

Decrease in net cash provided by operating expenses by approximately \$195.7 million mostly reflects Property and Casualty hurricane related claim payments and the collection in advance of October CMS premiums in the 2017 period; offset in part by collections of the higher 2018 Medicare premiums primarily due to the increase in reimbursement rates and the increase related to the 4-star rating achievement in our 2018 HMO product.

During the nine months ended September 30, 2017, we received \$24.3 million from a loan with a commercial bank related with a credit agreement entered into in December 2016. These proceeds were used during the 2017 period to prepay the outstanding principal amount of \$24.0 million of the 6.6% senior unsecured notes.

In August 2017, the Company’s Board of Directors authorized a \$30.0 million repurchase program of its Class B common stock and in February 2018 the Company’s Board of Directors authorized a \$25.0 million expansion of this program. Repurchases were conducted through open-market purchases of Class B shares only, in accordance with Rule 10b-18 under the Securities Exchange Act of 1934, as amended. During the nine months ended September 30,

2018, the Company repurchased and retired under this program 903,888 of our Class B Common Stock shares at an average per share price of \$24.23, for an aggregate cost of \$22.4 million.

Table of Contents

Financing and Financing Capacity

We have several short-term facilities available to address timing differences between cash receipts and disbursements. These short-term facilities are mostly in the form of arrangements to sell securities under repurchase agreements. As of September 30, 2018, we had \$60.0 million of available credit under these facilities. There are no outstanding short-term borrowings under these facilities as of September 30, 2018.

On December 28, 2016, TSM entered into a \$35.5 million credit agreement with a commercial bank in Puerto Rico. The agreement consists of three term loans: (i) Term Loan A in the principal amount of \$11.2 million, (ii) Term Loan B in the principal amount of \$20.2 million and (iii) Term Loan C in the principal amount of \$4.1 million. Term Loan A matures in October 2023 while the Term Loans B and C mature in January 2024. Term Loan A was used to refinance a previous \$41.0 million secured loan payable with the same commercial bank. Pursuant to the credit agreement, interest is payable on the outstanding balance of the Loan at the following annual rate: (i) 1% over LIBOR for Term Loan A, (ii) 2.75% over LIBOR for Term Loan B, and (iii) 3.25% over LIBOR for Term Loan C. The loan includes certain financial and non-financial covenants, which are customary for this type of facility, including but not limited to, restrictions on the granting of certain liens, limitations on acquisitions and limitations on changes in control and dividends. Failure to meet these covenants may trigger the accelerated payment of the outstanding balance. As of September 30, 2018, we are in compliance with these covenants.

On April 18, 2017, TSA entered into a \$10.0 million revolving loan agreement with a commercial bank in Puerto Rico. This line of credit has an interest rate of 30-day LIBOR plus 25 basis points contains certain financial and non-financial covenants that are customary for this type of facility. This line of credit had an original maturity date of April 17, 2018 and was renewed for an additional year, maturing on April 30, 2019.

We anticipate that we will have sufficient liquidity to support our currently expected needs.

Further details regarding the senior unsecured notes and the credit agreements are incorporated by reference to “Item 7.—Management Discussion and Analysis of Financial Condition and Results of Operations” included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Item 3. Quantitative and Qualitative Disclosures about Market Risk

We are exposed to certain market risks that are inherent in our financial instruments, which arise from transactions entered into in the normal course of business. We have exposure to market risk mostly in our investment activities. For purposes of this disclosure, “market risk” is defined as the risk of loss resulting from changes in interest rates and equity prices. No material changes have occurred in our exposure to financial market risks since December 31, 2017. A discussion of our market risk is incorporated by reference to “Item 7A. Quantitative and Qualitative Disclosures about Market Risk” included in our Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

In connection with the preparation of this Quarterly Report on Form 10-Q, management, under the supervision and with the participation of the chief executive officer and chief financial officer, conducted an evaluation of the effectiveness of the “disclosure controls and procedures” (as such term is defined under Exchange Act Rule 13a-15(e)) of the Corporation and its subsidiaries. Disclosure controls and procedures are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and that such information is accumulated and communicated to management, including the chief executive officer and chief financial officer, to allow timely decisions regarding required disclosures. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility that judgments in decision-making can be faulty, and breakdowns as a result of simple errors or mistake. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions.

Based on this evaluation, our chief executive officer and chief financial officer have concluded that as of September 30, 2018, which is the end of the period covered by this Quarterly Report on Form 10-Q, our disclosure controls and procedures are effective to a reasonable level of assurance.

There were no significant changes in our disclosure controls and procedures, or in factors that could significantly affect internal controls, subsequent to the date the chief executive officer and chief financial officer completed the evaluation referred to above.

Changes in Internal Controls Over Financial Reporting

No changes in our internal control over financial reporting (as such term is defined in Exchange Act Rule 13a-15(f)) occurred during the fiscal quarter ended September 30, 2018 that materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Part II – Other Information

Item 1. Legal Proceedings

For a description of legal proceedings that have experienced significant developments during this quarter, see Note 14 to the unaudited condensed consolidated financial statements included in this quarterly report on Form 10-Q.

Item 1A. Risk Factors

For a description of our risk factors, see Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2017.

Table of Contents

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Purchases of Equity Securities by the Issuer

The following table presents information related to our repurchases of common stock for the period indicated:

(Dollar amounts in millions, except per share data)	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Programs ¹	Approximate Dollar Value of Shares that May Yet Be Purchased Under the Programs
July 1, 2018 to July 31, 2018	-	\$ -	-	\$ 18.5
August 1, 2018 to August 31, 2018	115,626	25.93	115,626	15.5
September 1, 2018 to September 30, 2018	144,299	20.77	144,299	12.5

¹ In August 2017 the Company's Board of Directors authorized a \$30.0 million Share Repurchase Program of its Class B common stock. In February 2018 the Company's Board of Directors authorized a \$25.0 million expansion of this program.
