## **09.01 – INDEPENDENT AUDITOR’S REPORT - UNQUALIFIED OPINION**

### **Report of Independent Auditors**

To the Board of Directors and Shareholders of  
Gafisa S.A.

1 We have audited the accompanying balance sheet of Gafisa S.A. (Company) and the consolidated balance sheet of Gafisa S.A. and its subsidiaries as of December 31, 2007 and the related statements of income, of changes in shareholders’ equity and of changes in financial position of Gafisa S.A., and the related consolidated statements of income and of changes in financial position for the year then ended. These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on these financial statements.

2 We conducted our audit in accordance with approved Brazilian auditing standards, which require that we perform the audit to obtain reasonable assurance about whether the financial statements are fairly presented in all material respects. Accordingly, our work included, among other procedures: (a) planning our audit taking into consideration the significance of balances, the volume of transactions and the accounting and internal control systems of the Company, (b) examining, on a test basis, evidence and records supporting the amounts and disclosures in the financial statements, and (c) assessing the accounting practices used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

3 In our opinion, the financial statements audited by us present fairly, in all material respects, the financial position of Gafisa S.A. and Gafisa S.A. and its subsidiaries at December 31, 2007, and the results of operations, the changes in shareholders’ equity and the changes in financial position of Gafisa S.A., as well as the consolidated results of operations and the changes in financial position, for the year then ended, in accordance with accounting practices adopted in Brazil.

4 The audit of the financial statements for the year ended December 31, 2006 (Parent company and Consolidated), presented for comparison purposes, was conducted by other independent auditors, who issued an unqualified opinion thereon dated January 24, 2007.

**09.01 – INDEPENDENT AUDITOR’S REPORT - UNQUALIFIED OPINION**

5 Our audit was conducted for the purpose of forming an opinion on the financial statements mentioned in the first paragraph taken as a whole. The statements of cash flow (Parent company and Consolidated) are presented for purposes of additional analysis and are not a required part of the financial statements. This information has been subjected to the audit procedures described in the second paragraph and, in our opinion, is presented fairly, in all material respects, in relation to the financial statements taken as a whole. The statements of cash flow for the year ended December 31, 2006 (Parent company and Consolidated) were subject to auditing procedures conducted by other auditors, who issued an unqualified opinion thereon dated January 24, 2007.

## **10.01 – MANAGEMENT REPORT**

All ventures of Gafisa S.A. are characterized by responsibility and conquest. After putting into effect a strategy that aims at making our activities sustainable, we celebrate the outstanding results for 2007, with a growth of 122% in launches and 63% in sales from 2006. The land bank totaled R\$ 10.2 billion, ensuring launches for a period of two to three years, results which will be in line with our policy. We launched 53 developments and sales totaled R\$ 1.6 billion. We built nearly 40 million sq. m. and, on December 31, 2007, 118 developments were in progress simultaneously in different Brazilian states. Our net income, excluding the expenses with our public offering, amounted to R\$ 144 million, showing a growth of 89% from 2006.

Behind our achievements lies our great differential: people. We are known as a people-training machine due to the large number of professionals among our employees. We believe that this value makes us a benchmark in the Brazilian construction and real estate development market. When we adopted, in 2000, a stock option plan that privileges meritocracy and values the professionals who show their commitment with the company, we created a team that shares the same ambition:

**To be the Largest Company in Sales and the Best in Return on Equity (ROE) in the Real Estate Development, Urban Development and Construction Industry in the Residential Segment. We will achieve this with:**

- Committed personnel, focused on results and with a strong culture;**
- Differentiated products in all residential segments;**
- Competitive products that meet our customers' expectations of quality and delivery terms.**

In 2007, we took important steps in this direction when we built a business platform that significantly expands the conditions to take the opportunities offered by the Brazilian market. With the acquisition of AlphaVille Urbanismo S.A. and Cipesa Empreendimentos Imobiliários, the incorporation of Fit Residencial and Bairro Novo, and the consolidation of Gafisa Vendas, we expanded our product and service portfolio to serve most layers of the Brazilian population. We also brought together conditions to strengthen the geographic diversification process, adopting a model based on decentralization and establishment of local partnerships. In 2007, our operations reached 40 cities and 18 states, increasingly expanding our presence in Brazil.

These achievements increase our capacity to bring return to investors with whom we have established a relationship based on transparency. The demand for our shares led us to become part of the portfolio of the main index that measures the performance of the Brazilian stock market, Ibovespa, as well as IbrX-50, which gathers the 50 most traded shares on the market.

Since March 2007, we have also been the only Brazilian construction and development company to trade shares on the New York Stock Exchange, a move that was followed by the adjustment of our conducts and controls to the requirements of the Sarbanes-Oxley Act. The adjustments have been made and, motivated by a need, we started to introduce the SAP management system. This tool is important for us to face one of the main challenges in 2008: the integration of the group companies so as to capture synergies and business opportunities.

## **10.01 – MANAGEMENT REPORT**

With calm and success, we will strengthen our structure as a holding company. The companies related to Gafisa S.A. have total autonomy to conduct their businesses, ensuring a complete focus on the market niche in which each one operates. From 2008, we expect an important increase in the share of Fit Residencial and Bairro Novo in our revenues as they operate in the income segments where the largest portion of the housing deficit is concentrated.

The combination of lower interest rates, increase of the population's income and credit availability, in addition to optimistic forecasts regarding the Brazilian economy, leads us to believe that the pace of expansion in the civil construction industry will remain strong in the coming years. This scenario poses great challenges and requires precise operating and financial planning, a fact that has already determined important structuring work for our business in 2007.

All this allows us to project for 2008 launches amounting to R\$ 3 billion, representing a growth of 34% from 2007. We also expect an increase in our operating results, for which we estimate a consolidated EBITDA margin between 16% and 17%.

Our performance shows that we are on the right track. Our management capability to foresee opportunities and deliver results qualifies us to build together great results in the future.

### **Relationship with auditors**

The policy for contracting services that are not related to the external audit by our independent auditors is based on principles that preserve the auditor's independence. In accordance with internationally accepted principles, the auditor cannot: (a) audit his or her own work; (b) have a management position at his or her clients; and (c) serve as an advocate of his or her client's interests.

(a) Procedures adopted by the Company pursuant to Item III, Article 2 of CVM Instruction No. 381/03:

The Company and its subsidiaries have as a formal policy, prior to the contracting of professional services that are not related to the external audit, to consult with the independent auditors, in order to ensure that the provision of these other services do not affect the independence and objectivity necessary for the performance of independent audit services as well as to obtain the due approval of its Audit Committee. Additionally, formal statements are required from these auditors regarding their independence to provide services that are not audit related.

In 2007, we contracted services for the review of certain processes that were implemented by Management during the year, as well as due diligence services. The total fees for these services were R\$ 929,000, which correspond to 98% of the annual fees of the external audit services.

The company is tied to the market arbitration chamber, pursuant to the commitment clause contained in its By-laws.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **1. Operations**

Gafisa S.A. and its subsidiaries (collectively designated the "Company") started their operations in 1997, having as business activities: (a) the promotion and management of real estate ventures of any nature, for own account or third parties; (b) purchase, sale and negotiation of real estate in general, including the granting of finance to its customers; (c) civil construction and supply of civil engineering services; (d) development and implementation of marketing strategies related to real estate ventures, for own account and third parties and; (e) investment in other companies, in Brazil or abroad, which are engaged in the same business activities as the Company.

The Company's real estate development ventures with third parties are structured through investment in Special Purpose Entities (SPEs) or by forming condominiums and consortiums.

In February 2006, the Company completed an initial public offering of stock on the New Market of the São Paulo Stock Exchange - BOVESPA, which resulted in a capital increase of R\$ 494,393 with the issuance of 26,724,000 common shares.

In September 2006, the subsidiary brokerage company Gafisa Vendas Intermediação Imobiliária Ltda., which is focused on the sale and promotion of the Company's ventures launched in Brazil, was incorporated.

In January 2007, the acquisition of 60% of AlphaVille Urbanismo S.A. ("AUSA"), was completed (Note 3(k)). The core business of AUSA is to identify, develop and sell residential condominiums in regions throughout Brazil.

In March 2007, the Company completed an initial public offer of stock on the New York Stock Exchange - NYSE, resulting in a capital increase of R\$ 487,813 with the issue of 18,761,992 common shares.

Also in March 2007, Gafisa started its operations in the lower income class real estate market, concentrated in one of its subsidiaries, FIT Residencial Empreendimentos Imobiliários Ltda. ("FIT Residencial").

In October 2007, Gafisa completed the acquisition of 70% of Cipesa Engenharia S.A. ("Cipesa") (Note 3(k)), a real estate developer from the state of Alagoas.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

Bairro Novo Empreendimentos Imobiliários S.A. (“Bairro Novo”) was incorporated on March 26, 2007 by means of articles of association entered into by Gafisa S.A. and Odebrecht Empreendimentos Imobiliários Ltda., in accordance with which both companies share its control as a joint venture. In November 2007, Bairro Novo launched, focused on the Brazilian lower income class market, its first venture called “Bairro Novo Cotia”.

### **2. Presentation of the financial statements**

These financial statements were approved by the Board of Directors in their meeting held on March 4, 2008.

#### **(a) Basis of presentation**

The financial statements are presented in conformity with accounting practices adopted in Brazil, based on the accounting rules set out in the Brazilian Corporate Law, also considering the accounting aspects specific to the different market segments, as regulated by the applicable regulatory authorities.

The consolidated statements of cash flow, presented as supplementary information, are not required by the Brazilian Corporate Law and were prepared according to the Accounting Rules and Practices # 20 (NPC 20) established by IBRACON.

In the preparation of the financial statements it is necessary to use estimates which affect assets and liabilities and other transactions during the reporting period and the disclosure of contingent assets and liabilities at the date of the financial statements. The financial statements include estimates that are used to determine certain items, including, among others, the estimated costs of the ventures, provisions required for the non-recovery of assets, provision for unrecognized credits related to deferred income tax and the recognition of contingent liabilities, the actual results of which may differ from the estimates.

#### **(b) Consolidation practices**

The consolidated financial statements include all subsidiaries listed in Note 8, with separate disclosure of the participation of minority shareholders. In regard to the companies-controlled jointly, through a shareholders’ agreement, the consolidation includes the assets, liabilities and income and expense accounts, proportionally to the total equity interest held in the capital of the corresponding investee.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

The intercompany balances and transactions, as well as the unrealized profits, were eliminated in the consolidation, including investments, current accounts, dividends receivable, revenues and expenses and unrealized results among the consolidated companies. Transactions and balances with related parties, shareholders and investees are reported in the corresponding notes.

### **3. Main accounting practices**

The main accounting practices adopted in the preparation of the financial statements are as follows:

#### **(a) Recognition of results**

##### **(i) Calculation of the result from the development and sale of real estate**

In the installment sales of finished units, the result is appropriated when the sale is made, irrespective of the term for receipt of the contractual price, provided that the following conditions are met: (a) the value thereof can be estimated, i.e. the receipt of the sale price is known or the sum that will not be received may be reasonably estimated, and (b) the process of recognition of the sales revenues is substantially completed, i.e. the Company is released from its obligation to perform a considerable part of its activities that will generate future expenses related to the sale of the finished unit.

In the sales of unfinished units, the procedures and rules established by Resolution 963 of the Federal Accounting Council – CFC were observed, namely:

- . The cost incurred (including the cost of land) corresponding to the units sold is fully appropriated to the result.
- . The percentage of the cost incurred in the units sold (including the land) is calculated in relation to the total estimated cost, and this percentage is applied on the revenues from units sold, adjusted pursuant to the conditions of the sales agreements, and on selling expenses, thus determining the amount of revenues and selling expenses to be recognized.
- . The amounts of sales revenues determined, including monetary correction, net of the installments already received, are accounted for as accounts receivable, or as advances from customers, when applicable.
  - . Interest and monetary variation on accounts receivable as from the delivery of the keys, are appropriated to the result from the development and sale of real estate using the accrual basis of accounting.
- . The financial charges on accounts payable from the acquisition of land and real estate credit operations incurred during the construction period are appropriated to the cost incurred, and recognized in results upon the sale of the units of the venture to which they are directly related.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

The taxes on the difference between the revenues from real estate development and the accumulated revenues subject to tax are calculated and recognized in the books when the difference in revenues is recognized.

The other income and expenses, including advertising and publicity, are appropriated to the results as they are incurred using the accrual basis of accounting.

### **(ii) Supply of construction services**

Revenues from the supply of real estate services consist basically of amounts received related to the management of construction work for third parties, technical management and management of real estate. The revenues are recognized, net of the corresponding costs incurred, as services are provided.

### **(b) Cash and banks and financial investments**

Substantially represents bank deposit certificates and investment in investment funds, denominated in reais, with high market liquidity and maturity that does not exceed 90 days or in regard to which there are no penalties or other restrictions for the immediate redemption thereof.

They are stated at cost, plus the income earned up to the balance sheet date, with provisions recognized, when applicable, to reflect their market value. On December 31, 2007 and 2006, the amount related to investment funds is recorded at market value.

### **(c) Customer accounts receivable**

These are stated at cost, plus monetary correction. The allowance for doubtful accounts, when necessary, is recognized in an amount that is considered sufficient by management to cover probable losses on the realization of credits. The outstanding installments are adjusted based on the National Civil Construction Index – INCC during the construction phase, and on the General Market Prices Index – IGP/M after the date the keys of the finished units are delivered. The balance of the accounts receivable (after the keys) is generally adjusted by annual interest of 12%. The financial revenues based on the balance of the accounts receivable is recorded in the results as "Revenues from developments", and the interest recognized on December 31, 2007 and 2006 totals R\$ 9,164 and R\$ 29,328 (Parent Company) and R\$ 20,061 and R\$ 39,832 (Consolidated), respectively.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **(d) Certificates of real estate receivables - CRIs**

The Company financially assigns real estate receivables to securitize and issue CRIs. Such assignment (usually without recourse) is registered as a reduction of the accounts receivable after the date of the delivery of the keys of the corresponding real estate units that make up the CRIs portfolio (prior to the delivery of the keys, as a financial obligation) - representing the gross amount of the credits assigned. When there is recourse against the Company, the assigned accounts receivable is maintained in the balance sheet.

The financial discount, which represents the difference between the amount received and the credit at the date of the assignment, is appropriated to the results in the financial expenses account over the term of validity of the contract.

The expenses with commissions paid to the issuer of the CRIs are recognized directly in the results as they are incurred on the accrual basis.

The financial guarantees, when a participation is acquired (subordinated CRI) and maintained to secure the receivables that were assigned, are recorded in the balance sheet at their market value in Long-term receivables cost plus monetary correction.

### **(e) Real estate for sale**

This is stated at construction cost, which does not exceed its net realizable value. In the case of real estate in progress, the portion in inventories corresponds to the cost incurred in units that have not yet been sold.

The cost is made up of construction (materials, own or outsourced labor and other related items) and land, including financial charges appropriated to the venture as incurred during the construction phase.

Land is stated at cost of acquisition. The Company acquires part of the land through exchange operations in which, in exchange for the land acquired, it undertakes (a) to deliver real estate units of developments in progress or (b) part of the sales revenues originating from the sale of the real estate units of the developments. The effective construction cost of the exchanged units is diluted in the other unsold units.

The Company capitalizes interest on the developments during the construction phase, due on the National Housing System and other credit lines that are used for financing the construction of developments (limited to the corresponding financial expense amount). The amount of interest capitalized in the balance of real estate for sale on December 31, 2007 totals R\$ 36,543 (Parent Company) and R\$ 36,686 (Consolidated) (2006 - R\$ 560, Parent Company, and R\$ 3,314, Consolidated).

Unaudited  
01.545.826/0001-07**

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **(f) Expenses with sales to appropriate**

These include expenses related to costs of construction and maintenance of sales stands, mock-up apartments and corresponding furniture, as well as expenses with related brokerage incurred by the Company (the charges related with the sale commission due by the real estate buyer are not income or expenses of the Company).

The balance is amortized as selling expenses (stands, mock-up apartments and corresponding furniture) or item to be deducted from gross sales (brokerage), following the same criteria adopted for the recognition of revenues from and costs of the units sold (Note 3(a)).

### **(g) Expenses with warranties**

The Company provides limited warranties for five years, covering structural flaws in the developments sold. Given that the warranties for the work performed (responsibility and costs) are usually provided by the Company's subcontractors, the amounts paid by the Company are not significant and, therefore, they have been recognized as they are effectively incurred.

### **(h) Prepaid expenses**

Includes, among others, expenses with the issuance of debentures and shares, which were paid at the time of issue:

### **(i) Tangible assets**

Stated at acquisition cost. Depreciation is calculated on the straight-line basis, based on the estimated useful life of the assets, as follows: (i) vehicles - 5 years; (ii) utensils and installations - 10 years; (iii) computer and software licenses - 5 years. Expenses related to the acquisition and development of computer systems are capitalized.

### **(j) Intangible assets**

Intangible assets are mainly represented by preoperating expenses, expenses with reorganization and development of products and new markets and are amortized over a period of up to five (5) years as from the date they start being used.

## 11.01 – NOTES TO THE FINANCIAL STATEMENTS

(k)	<b>Investments in subsidiaries</b>
(i)	<b>Net equity value</b>

When the Company holds more than half of the voting capital of another company, the latter is considered a subsidiary company. In the investees in which the Company holds less than 50% of the voting capital, agreements ensure the veto power to the Company in decisions that significantly affect the business of the jointly-controlled company, thus ensuring to the Company a shared control.

Investments in subsidiaries are recorded using the equity method. According to this method, the Company's interest in the increase or decrease in the stockholders' equity of subsidiaries after acquisition as a result of the net income or loss for the period, or gains or losses in capital reserves or prior year adjustments, is recognized as operating income (or expenses). The variation in the percentage of the equity investment in subsidiaries is recognized as nonoperating income (or expenses).

The cumulative movements after the acquisitions are adjusted against the cost of the investment. Unrealized gains or transactions between the Company and its associated and subsidiary companies are eliminated in proportion to the Company's investment; unrealized losses are also eliminated unless the transaction indicates a permanent loss (impairment) of the transferred asset.

The Company's investments in subsidiaries include goodwill (net of accumulated amortization) upon acquisition. When the Company's interest in the losses of subsidiaries is equal to or higher than the amount invested, the Company recognizes additional losses as it assumes obligations, make payments on behalf of these companies or makes advances for future capital increase.

The cost of acquisition of a subsidiary company is calculated at the market value of the assigned assets, shares issued or liabilities assumed on the date of acquisition, plus the costs directly attributable to the acquisition. The amount of the cost of acquisition that exceeds the book value of the net assets of the acquired subsidiary is recorded as goodwill.

When necessary, the accounting practices of the subsidiary companies are changed to ensure consistency with the practices adopted by the Company.

(ii)	<b>Goodwill and negative goodwill on the acquisition of investments</b>
------	---

The goodwill is determined upon the acquisition of or capital subscription in another company, represented by the acquisition cost of the investment that exceeds the equity value, calculated based on the percentage of acquisition or subscription over the amount of the shareholders' equity of another company.

The goodwill is amortized in accordance with the economic basis that determined it over the estimated useful life of the asset on an exponential and progressive basis (limited to the total period of ten years) (Note 8(b)). An economic

based negative goodwill is appropriated to the result as the assets are realized.

**FEDERAL PUBLIC SERVICE  
CVM – BRAZILIAN SECURITIES COMMISSION  
STANDARD FINANCIAL STATEMENTS – DFP  
COMMERCIAL, INDUSTRIAL AND OTHER  
Voluntary Resubmission  
01610-1 GAFISA S/A**

**Corporate Legislation  
Base Date – December 31, 2007  
Unaudited  
01.545.826/0001-07**

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

The Company's management determines the estimated useful life of the investment based on its evaluation of the related companies acquired upon acquisition, considering factors such as the stock of land, the ability to generate results from developments launched and/or to be launched in the future and other inherent factors. The goodwill that is not justified by bases is immediately recognized as a loss in the results for the year. The negative goodwill that is not justified by economic bases is recognized in the results only upon the disposal of the investment.

On the balance sheet date, the Company evaluates whether there are indications of a permanent loss (impairment). If there are such indications, an analysis is made to evaluate whether the book value of the goodwill may be totally recovered. If the book value exceeds the recoverable amount, the amount thereof is reduced.

In January 2007, the Company acquired the totality of the shares of Catalufa Participações Ltda. ("Catalufa") by exchanging shares that it owned in the amount of R\$134,029. At the same time, Catalufa, the main asset of which was the investment in AUSA, was merged into the Company based on its book value on the base date of the operation. As a result of this transaction, goodwill amounting to R\$ 170,941 was recorded based on expected future profitability to be amortized exponentially and progressively based on the estimated profit projected before income tax and social contribution of AUSA, determined on the accrual basis. In the year ended December 31, 2007, the Company amortized goodwill amounting to R\$ 7,500 arising from the acquisition of AUSA.

On October 26, 2007, Gafisa acquired 70% of Cipesa. Gafisa and Cipesa established a new company named "Cipesa Empreendimentos Imobiliários Ltda." ("Nova Cipesa") in which 70% of the capital will be held by Gafisa and 30% by Cipesa. Gafisa capitalized Nova Cipesa with R\$ 50,000 in cash and acquired shares of Cipesa in Nova Cipesa in the amount of R\$ 15,000 payable over the period of one year. Cipesa will be entitled to a variable portion of 2% of the Overall Sales (VGV) of the projects launched by Nova Cipesa until 2014, and this variable portion will have a maximum value of R\$ 25,000. As a result of this transaction, goodwill amounting to R\$ 40,686 was recorded based on expected future profitability to be amortized exponentially and progressively based on the estimated profit projected before income tax and social contribution of Nova Cipesa determined on the accrual basis. In the year ended December 31, 2007, the Company did not amortized goodwill arising from the acquisition of Cipesa as Nova Cipesa determined an operating loss in the period. Additionally, the amortization of the goodwill will take place as from 2009 pursuant to the criteria described above.

Until November 2007, the Company held an interest in some ventures together with Redevo do Brasil Ltda. by means of Special Purpose Entities (SPEs) that are proportionally consolidated, namely: Blue I (66.67%), Blue II (50%), Jardim Lorean (50%) and Sunplace (50%). In that month, the Company acquired the remaining part of the total interest in these SPEs for R\$ 40,000. As a result of this transaction, the Company determined negative goodwill amounting to R\$ 31,236 (Consolidated - R\$ 32,223, due to the fact that part of these SPEs was not directly acquired by the Company), justified by other economic bases. On December 31, 2007, the balance of negative goodwill from this transaction is classified in the consolidated financial statements as "Deferred income".

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **(l) Obligations for real estate developments**

These represent the estimated cost to be incurred in the units sold of the real estate developments launched up to December 31, 2003. The contra-entry is recorded in the "Result from sales of real estate to appropriate".

The changes in the estimated costs are recorded as they are known and allocated to the cost of sales and result from sales of real estate to appropriate. The costs incurred in the unsold units are recorded in "Real estate for sale".

### **(m) Obligations for purchase of real estate**

The obligations for purchase of real estate are recognized at the amounts corresponding to the obligations assumed in contracts. Subsequently, they are stated at the amortized cost, that is, plus charges and interest proportional to the period elapsed (pro rata temporis), when applicable.

The obligations related with the physical barter of land for units to be built are not recognized in the financial statements.

### **(n) Result from sales of real estate to appropriate**

These represents the residual net amount of the sales of units of the real estate developments launched until December 31, 2003, less estimated construction costs (that had as a contra-entry the Obligations for real estate developments account), cost of acquisition of land and financial charges of construction financing.

### **(o) Selling expenses**

The selling expenses, including advertising and publicity, are allocated to the results as they are incurred on the accrual basis.

### **(p) Income tax and social contribution on net income**

Income tax (25%) and social contribution on the net income (9%) are calculated based on their nominal rates, which, together, total 34%. The deferred income tax is calculated over the totality of the temporary differences.

As allowed by tax regulations, certain subsidiaries and associated companies elected the presumed profit system. For these companies, the income tax basis is calculated at 8% (social contribution on net income at 12%) on gross revenues, to which the corresponding standard income and social contribution tax rates apply.

Base Date – December 31, 2007  
Unaudited  
01.545.826/0001-07**

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

The deferred tax assets are recognized to the extent that future taxable income is available to be used to offset temporary differences based on the projections of future results that are prepared and based on internal guidelines and future economic scenarios that may, therefore, change.

Should the realization of deferred tax assets be unlikely, no amount is recorded. The deferred income tax and social contribution is presented in Note 14.

The deferred income tax on accumulated tax losses does not expire, however, their offset in future years is limited to 30% of the taxable income for each year. The companies that opt for the presumed profit system may not offset tax losses for a period in subsequent years.

### **(q) Other current and long-term liabilities**

These are stated at their known or payable value and are recorded on the accrual basis, plus, when applicable, the corresponding charges and monetary and exchange variations.

The workers' compensation liability, particularly related to the vacation charges and payroll, is provided for over the period of acquisition.

The Company and its subsidiaries do not have private pension plans or any retirement plan or benefits for employees after they leave the Company.

### **(r) Rate swap operations**

The nominal amounts of the swap operations of currency, interest rates and indexes are not recorded in the balance sheet.

The Company has derivative instruments for the purposes of minimizing the risk of its exposure to the volatility of currencies, indexes and interest, with redemptions expected to take place in accordance with the maturity of the related liabilities denominated in foreign currency. These operations are measured at their cost based on the contractual conditions between the Company and third parties and their net results are recorded in financial income (expenses).

In accordance with its treasury policies, the Company does not have or issue derivative financial instruments for purposes other than those of hedge.

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **(s) Stock option plans**

The Company manages Stock Option Plans, and the guidelines for their structuring and implementation were approved by General Shareholders' Meetings (Note 13(c)). The grant of stock options to employees does not result in an expense for accounting purposes.

In 2006, 1,532,724 new shares with no par value were subscribed and paid up by means of Subscription Lists signed by the respective beneficiaries of the Stock Options amounting to R\$ 8,209 (Note 13(a)).

Additionally, in 2007, 961,563 shares with no par value were subscribed and paid up by means of Subscription Lists signed by the respective beneficiaries of the Stock Options amounting to R\$ 8,262 (Note 13(a)).

### **(t) Profit sharing program for employees and officers**

The Company has a plan of benefit for employees in the form of profit sharing and bonus plans that is recognized in "General and administrative expenses" amounting to R\$ 23,185 on December 31, 2007 (2006 – R\$ 13,279).

Additionally, the Company's By-laws establish the distribution of profits to officers (in an amount that does not exceed the lower of their annual compensation or 10% of the Company's net income), which is recognized as "Statutory profit sharing" in the amount of R\$ 2,240 on December 31, 2007 (2006 – R\$ 3,350).

The bonus system operates with three performance triggers, structured based on the efficiency of corporate targets, followed by business targets and finally individual targets.

### **(u) Earnings per share**

Calculated considering the number of outstanding shares on the balance sheet date, net of treasury shares.

### **(v) Reclassifications**

Certain reclassifications have been made to the financial statements for the year ended December 31, 2006 for better presentation and comparison with the current financial statements, the main items being:

- . separation of customer accounts receivable from developments between current and noncurrent;
- . balance of the cancelled units to the revenues from real estate developments;
- . balance of the account expenses with the Tax on Financial Movements – CPMF to financial expenses;

. separation of real estate for sale between current and noncurrent.

**11.01 – NOTES TO THE FINANCIAL STATEMENTS****4. Cash and banks and financial investments**

Type of operation	Parent Company		2007	Consolidated 2006
	2007	2006		
Cash and banks	16,806	37,390	79,590	45,231
Financial investments				
Investment fund	289,358	30,557	299,067	31,182
Purchase and sale commitments	62,135	169,811	111,392	175,325
Bank Deposit Certificates - CDBs	17,489	9,529	18,338	10,311
Other	4,875	4,027	4,990	4,110
	373,857	213,924	433,787	220,928
Total cash and banks and financial investments	390,663	251,314	513,377	266,159

On December 31, 2007, the Bank Deposit Certificates include earned interest from 98.0% to 104% (2006 – from 100.0% to 100.8%) of the Interbank Deposit Certificate (CDI) rate.

A portion of the financial investments in investment funds is related to loans and financing (working capital, pursuant to Note 9).

**5. Trade accounts receivable from developments and services rendered**

	Parent Company		2007	Consolidated 2006 (Reclassified)
	2007	2006 (Reclassified)		
Current	314,417	260,755	524,818	365,741
Noncurrent	282,017	103,853	497,933	194,097
	596,434	364,608	1,022,751	559,838

The balance of accounts receivable from the units sold and not yet finished is not fully recognized in the financial statements as their recording is limited to the portion of revenues accounted for (pursuant to the criteria described in Note 3(a)(i)), net of the amounts already received.

The consolidated balances of advances from customers, higher than the revenues recorded in the period, total R\$ 47,662 on December 31, 2007 (2006 - R\$ 76,146) and are classified in “Advances from customers (development and services).”

The recognition of an allowance for doubtful accounts is not necessary in view of the nonexistence of a history of effective losses on these credits.

(\*)The Company participates in the development of real estate ventures with other partners, directly or through related parties, based on the constitution of condominiums and/or consortiums. The management structure of these enterprises and the cash management are centralized in the leading company of the enterprise, which manages the works and budgets. Thus, the leader of the enterprise assures that the investments of the funds necessary are made and allocated as planned. The sources and use of resources of the venture are reflected in these balances, observing the respective participation percentage, which are not subject to adjustment or financial charges and do not have a predetermined maturity date. The average term of development and completion of the enterprises in which the resources are invested is three years. Other payables to partners of real estate ventures are presented separately.

## 11.01 – NOTES TO THE FINANCIAL STATEMENTS

The Company is subject to several relevant indices and limits of positive and negative performance (covenants), including, among others: (a) limitations on the level of total indebtedness; (b) relation with the number and amount of sureties, mortgage of units and pledge of credit rights to be granted; (c) certain conditions to be met in transactions with related parties, which in general must be carried out under normal market conditions and those adopted in similar operations with third parties; and (d) maintenance of financial and liquidity ratios calculated based on the financial statements prepared in accordance with the accounting practices adopted in Brazil. On December 31, 2007 the Company was in compliance with the clauses described above.

In November 2007, the Company obtained loans (working capital) in the amount of R\$ 200,000 from first class financial institutions. Together with this operation, in order to minimize the risks of foreign exchange exposure of the loans, the Company signed swap contracts in the full amount of these debts, as described in the financial instruments note (Note 15).

The consolidated noncurrent installments on December 31, 2007 mature in 2009 (R\$ 256,045), 2010 (R\$ 42,396), 2011 (R\$ 28,417), 2013 and subsequently (R\$ 53,782).

### 10. Debentures

In September 2006 the Company obtained approval for its Second Debenture Distribution Program, which enabled the offering of simple debentures, non-convertible into shares, of the subordinated type and/or secured and/or with general guarantee limited to R\$ 500,000.

Under this Program, the Company issued a series of 24,000 debentures, corresponding to a total of R\$ 240,000, with the following features:

<b>Program/issuances</b>	<b>Amount</b>	<b>Annual remuneration</b>	<b>Maturity</b>	<b>2007</b>	<b>2006</b>
Second / 1 <sup>st</sup> issuance	240,000	CDI + 1.30%	September 2011	249,190	251,038
Current portion				9,190	11,038
Noncurrent portion, principal				240,000	240,000

In addition to the early maturity clauses, which are common in this type of operation, the Second Debenture Distribution Program establishes the compliance with certain covenants, which include, among others, the maintenance of minimum levels of net indebtedness, balance of receivables and early maturity clause in the event the Company obtains a risk classification lower than a predetermined level. On December 31, 2007, the Company was in compliance with the aforesaid clauses.

**11.01 – NOTES TO THE FINANCIAL STATEMENTS****11. Other accounts payable**

	<b>Parent Company</b>		<b>Consolidated</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
Loans with partners in real estate ventures			8,255	2,079
Current accounts	200,232	119,227		87
Assignment of credit payable	1,442	1,358	1,442	1,358
Provision for losses on investments	21,608			
Acquisition of investments	48,521		48,521	
Other accounts payable	10,196	7,724	13,603	4,283
	281,999	128,309	71,821	7,807

The loans with partners in real estate ventures are related to amounts due under contracts involving the payment of current accounts, bearing the IGP-M variation, plus 12% per annum.

**12. Provision for contingencies**

The Company and its subsidiaries are parties in lawsuits and administrative proceedings at several courts and government agencies that arise from the ordinary course of business, involving tax, labor, civil and other matters. Management, based on information provided by its legal counsel and analysis of the pending claims and, with respect to the labor claims, based on past experience regarding the amounts claimed, recognized a provision in an amount considered sufficient to cover the losses estimated for the lawsuits in progress.

The changes in the provision for contingencies are summarized below:

	<b>2007</b>	
	<b>Parent Company</b>	<b>Consolidated</b>
Balance at December 31, 2006	4,105	4,105
Additions	1,359	2,258
Reductions	(1,796)	(1,796)
Addition arising from the acquisition of AUSA		16,695
Balance at December 31, 2007	3,668	21,262

Noncurrent portion		17,594
Current portion	3,668	3,668

Tax lawsuits			16,768	
	<b>3,668</b>	<b>4,105</b>	<b>21,262</b>	<b>4,105</b>

The Company and its subsidiaries are parties in judicial lawsuits and administrative proceedings related to Excise Tax (IPI) and Value-added Tax on Sales and Services (ICMS) on two imports of aircraft in 2001 and 2005, respectively, under leasing agreements without purchase option. The chances of loss in the ICMS case are estimated by the attorneys that are handling it as: (i) probable in regard to the principal and interest, and (ii) remote in regard to the fine for noncompliance with ancillary obligation. The amount of the contingency estimated by the legal counsel as a probable loss in the aforesaid case amounts to R\$ 16,768 and is provided for in the financial statements as of December 31, 2007.

Furthermore, on December 31, 2007 the Company is aware of other lawsuits and risks, the outcome of which, based on the opinion of its legal counsel is a possible, but not probable, loss, amounting to approximately R\$ 67,430 (2006 – R\$ 44,437), and for which the Company’s management believes that the recognition of a provision for losses is not necessary.

From the total funds raised in the offering of the Company’s shares in the New Market, R\$ 27,979 classified in the “Other – Escrow deposits” account in noncurrent, was retained in a “restricted deposit” account pursuant to a court order. The Company is appealing such decision on the grounds that the claim lacks merit. No provision was recognized in the financial statements of December 31, 2007 based on the position of the Company’s legal counsel.

**(b) Obligations related to the completion of real estate developments**

The Company undertakes to deliver real estate units to be built, in exchange for land acquired. The Company also undertakes to finish the units sold and abide by the laws that govern the civil construction industry, including obtaining licenses from the proper authorities.

## 11.01 – NOTES TO THE FINANCIAL STATEMENTS

### 13. Shareholders' equity

#### (a) Capital

On December 31, 2007, the Company's capital amounted to R\$ 1,221,846 (2006 - R\$ 591,742), represented by 132,577,093 nominative common shares without par value (2006 - 111,511,596 book-entry nominative common shares without par value), 3,124,972 of which were treasury shares (2006 - 8,141,646 treasury shares).

In January 2007, with the acquisition of 60% of AUSA arising from the merger of Catalufa Participações Ltda., the capital increase of R\$ 134,029 was approved through the issuance, for public subscription, of 6,358,116 new common shares, all of which to be appropriated to capital.

Additionally, the cancellation of 5,016,674 common shares issued by the Company and kept in treasury, amounting to R\$ 28,976, without reducing the capital, was approved.

Also, in the same month, the capital increase of R\$ 996, related to the stock option plan and the exercise of 153,900 common shares, was approved.

In March 2007, the capital increase of R\$ 487,813 was approved through the issuance for public subscription, of 18,761,992 new common shares, without par value, at the issue price of R\$ 26 (twenty-six reais) per share, in accordance with Article 170, Paragraph 1 of Law 6404/76.

In May 2007, the capital increase of R\$ 5,217, related to the stock option plan and the exercise of 507,068 common shares, was approved.

In June 2007, the capital increase of R\$ 693, related to the stock option plan and the exercise of 105,900 common shares, was approved.

In August 2007, the capital increase of R\$ 52, related to the stock option plan and the exercise of 2,481 common shares, was approved.

In December 2007, the capital increase of R\$ 1,304, related to the stock option plan and the exercise of 192,214 common shares, was approved.

#### (b) Appropriations of net income

Pursuant to the Company's By-laws, the net income for the year is appropriated as follows: (a) 5% to the legal reserve, up to 20% of paid-up capital, and (b) 25% of the remaining balance for the payment of compulsory dividends.

## 11.01 – NOTES TO THE FINANCIAL STATEMENTS

We present below the proposal made by management regarding the appropriation of net income for the year ended December 31, 2007 (subject to approval by the Annual General Meeting - AGM):

	2007	2006
Net income for the year	113,603	46,056
Legal reserve	(5,680)	(2,303)
	107,923	43,753
Compulsory minimum dividends – 25%	(26,981)	(10,938)

The retention of earnings for 2006 was approved at the AGM (Annual General Meeting) – Minutes 55 of March 21, 2007.

Pursuant to Article 36 of the Company's By-laws, amended on March 21, 2007, the recognition of a statutory reserve became mandatory. In accordance with said article, the amount of such reserve may not exceed 71.25% of net income for the purpose of financing the expansion of the activities of the Company and its subsidiaries, including the subscription of capital increases or creation of new ventures, participation in consortiums or other forms of association for the achievement of the Company's purpose.

### (c) **Stock Option Plan**

A total of five stock option plans are offered by the Company. The first plan was launched in 2000 and is managed by a committee that periodically creates new stock option plans, determining their terms in general, which, among other things, (a) define the length of service that is required for employees to be eligible to the benefits of the plans, (b) select the employees that will be entitled to participate, and (c) establish the purchase prices of the preferred shares to be exercised under the plans.

To be eligible for the plans, participant employees are required to contribute with an amount equivalent to 10% of the value of total benefited options on the date the option is granted and, additionally, for each of the following five years, with an amount equivalent to 18% of the price of the grant per year. The price of the grant is adjusted according to the variation in the IGP-M, plus annual interest of 6%. The stock option may be exercised in one to three years subsequent to the initial date of the work period established in each of the plans. The shares are usually available to employees over a period of ten years after their contribution.

The Company accounts for the payments made by employees in an advanced payments account in liabilities. On December 31, 2006, advanced payments totaled R\$ 996.

## 11.01 – NOTES TO THE FINANCIAL STATEMENTS

The Company may decide to issue new shares or transfer the treasury shares to the employees in accordance with the clauses established in the plans. The Company has the preemptive right to refuse the purchase of the shares issued under the plans in the event of dismissals and retirement.

In such case, the amounts advanced are returned to the employees, in certain circumstances, in amounts that correspond to the greater of the market value of the shares (as established in the rules of the plans) or the amount paid plus monetary correction based on the variation in the IGP-M and annual interest of 6% a year.

### 14. Deferred income tax and social contribution

	<b>Parent Company</b>		<b>Consolidated</b>	
	<b>2007</b>	<b>2006</b>	<b>2007</b>	<b>2006</b>
<b>Assets</b>				
Temporary differences	32,038	21,309	39,482	24,800
Tax losses and social contribution tax loss carryforwards	12,499	14,363	12,499	15,880
Tax benefit arising from the merger of subsidiaries	9,341	12,454	9,341	12,454
	53,878	48,126	61,322	53,134
<b>Liabilities</b>				
Differences between income taxed on a cash basis and on the accrual basis	42,501	24,704	63,268	32,259

The Company calculates its taxes based on the recognition of results proportionally to the receipt of the contracted sales, in accordance with the rules determined by the Federal Revenue Service (SRF) Instruction 84/79, which differs from the calculation of the accounting revenues based on the costs incurred versus estimated cost. The taxation will occur over an average period of two years, considering the term for the receipt of the sales and the completion of the corresponding construction works.

On December 31, 2007, the Company had tax losses and social contribution tax loss carryforwards totaling R\$ 104,147 (2006 - R\$ 67,971), with corresponding tax benefits of R\$ 35,410 (2006 - R\$ 23,110). The net tax effect of the tax losses and social contribution tax loss carryforwards recorded as an asset in the Company totals R\$ 12,499 on December 31, 2007 (2006 - R\$ 14,363).

The Company did not record the deferred income tax asset on the tax losses and social contribution tax loss carryforwards of its subsidiaries, which adopt the taxable income system and do not have a history of taxable income for the past three years.

Based on the projections of generation of future taxable income of the Parent Company, the estimated recovery of the deferred income tax and social contribution asset over the ten-year period is as follows: 2008 - R\$ 6,530 and 2009 - R\$ 29,580.

**Base Date – December 31,  
2007**

**Unaudited**

**01.545.826/0001-07**

**11.01 – NOTES TO THE FINANCIAL STATEMENTS**

The projections of future taxable income consider estimates that are related, among other things, with the Company's performance and the behavior of the market in which it operates as well as certain economic factors. The actual amounts could differ from these estimates.

We present below the reconciliation of the effective nominal rate:

	<b>2007</b>	<b>Consolidated 2006</b>
Income before income tax and social contribution and statutory profit sharing	155,199	55,430
Income tax calculated at the standard rate - 34%	(52,768)	(18,846)
Net effect of subsidiaries taxed based on the presumed profit system	16,194	12,439
Tax losses (tax loss carryforwards used)	6,125	
Other permanent differences	(497)	383
<b>Income tax and social contribution expense</b>	<b>(30,946)</b>	<b>(6,024)</b>

Additionally, the reconciliation of the effective nominal rate in the Parent Company mainly arises from the equity in earnings and use of the balance of tax losses and social contribution tax loss carryforwards of prior years and used during the current year.

**15. Financial instruments**

The Company participates in operations involving financial instruments, all of which are recorded in the balance sheet, for the purposes of meeting its operating needs and reducing its exposure to credit, currency and interest rate risks. These risks are managed by control policies, specific strategies and determination of limits, as follows:

- (a) **Considerations on risks**
- (i) **Credit risk**

The Company restricts its exposure to credit risks associated with banks and financial investments, investing in first class financial institutions and with remuneration in short-term securities.

In regard to accounts receivable, the Company restricts its exposure to credit risks through sales to a broad base of customers and ongoing credit analysis. Additionally, there is no history of losses due to the existence of liens for the recovery of its products in the cases of default during the construction period.

On December 31, 2007 and 2006, the Company's management did not deem necessary the recognition of a provision to cover losses on the recovery of receivables related to finished real estate. In the same period, there was no material concentration of credit risk associated with customers.

**11.01 – NOTES TO THE FINANCIAL STATEMENTS**

**(ii)**

**Currency risk**

The Company participates in operations involving derivative financial instruments for the purposes of protecting itself against fluctuation in foreign exchange rates.

In the year ended December 31, 2007, the amount of R\$ 1,070 related to the net positive (negative) result from the swap operations of currency and interest rates was recognized in “financial income (expenses)”, allowing for the correlation between the effect of these operations with the fluctuation in foreign currencies in the Company’s balance sheet.

The nominal value of the swap contracts is R\$ 200,000 on December 31, 2007. The unrealized gains (losses) of these operations are recorded in the balance sheet as follows:

Gains and losses accounted for per contract:

Rate swap contracts - (US dollar e yen for CDI)	Brazilian reais Nominal value	Original index	Brazilian reais		
			Percentage Swap Instruments	Net unrealized gains from Derivative Instruments	Market Value Unrecorded)
Banco ABN Amro Real S.A.	100,000	yen + 1.4%	105% CDI	(541)	955
Banco Votorantim S.A.	100,000	US dollar + 7%	104% CDI	1,611	2,544
	200,000			1,070	3,499

The Company does not make sales denominated in foreign currency.

**(iii)**

**Interest rate risk**

The interest rates on loans and financing are mentioned in Note 9. The interest rates contracted on financial investments are mentioned in Note 4. Accounts receivable from finished real estate, as mentioned in Note 5, are subject to interest of 12% a year, applied on a pro rata temporis basis.

Additionally, as mentioned in Notes 7 and 11, a significant portion of the balances maintained with related parties and the balances maintained with partners in the ventures are not subject to financial charges.

**(b) Valuation of financial instruments**

The main financial instruments receivable and payable are described below, as well as the criteria for their valuation:

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

### **(i) Cash and banks and financial investments**

The market value of these assets does not significantly differ from the amounts presented in the financial statements (Note 4). The rates agreed reflect usual market conditions.

The financial investments are recorded based on effectively contracted remuneration rates as the Company intends to maintain these investments until they are effectively redeemed.

### **(ii) Loans and financing and debentures**

Financing is recorded based on the contractual interest rates of each operation. For the calculation of their market value, interest rate estimates were used for contracting operations with similar terms and amounts. The terms and conditions of loans and financing and debentures obtained are presented in Notes 9 and 10.

The amount for the settlement of these liabilities does not significantly differ from the amounts presented in the financial statements.

## **16. Insurance**

Gafisa S.A. and its subsidiaries maintain insurance policies against engineering risk, barter guarantee, guarantee for the completion of the work and civil liability related to unintentional personal damages caused to third parties and material damages to tangible assets, as well as against fire hazards, lightning strikes, electrical damages, natural disasters and gas explosion. The contracted coverage is considered sufficient by management to cover possible risks involving its assets and/or responsibilities.

## **17. Subsequent events**

On December 28, 2007, Law 11,638/07 was enacted, amending the Corporate Law regarding the accounting practices adopted in Brazil as from the year ended December 31, 2008.

Under the new Law, the issue of accounting regulations by the Brazilian Securities Commission (CVM) for public companies shall be in conformity with international standards. In a market release, in which its initial understanding is expressed, CVM says that the standards adopted by the IASB - International Accounting Standards Board are considered an international reference for accounting standards.

Other amendments or legal provisions are expected to be the subject matter of regulation by CVM in 2008, considering the powers of each regulatory agency. Currently, the Company is conducting studies and evaluating the impact of this new Law, including with the support of entities that represent the industry, in order to measure the effects of the changes in accounting practices. Among the main changes introduced by this Law are:

## **11.01 – NOTES TO THE FINANCIAL STATEMENTS**

- .Permanent assets will include the subgroup “Intangible assets” and formally include the intangible rights to be used by the Company or exercised for this purpose, including the acquired goodwill. Property and equipment will include the assets arising from operations in which benefits, control and risk are transferred, regardless of whether ownership is transferred. Deferred charges are restricted to preoperating expenses and incremental restructuring expenses.
- .Creation of a new subgroup in shareholders’ equity called “Net asset evaluation adjustment”, which will include the contra-entry of the foreign exchange variation in equity investments abroad when the functional currency of the investee is different from that of the parent company, and the contra-entry of increases or reductions in the value attributed to asset and liability elements as a result of their evaluation at market price.
- .Introduction of the “Adjustment to present value” concept for long-term asset and liability operations and material short-term ones.
- .Mandatory periodic analysis to verify the level of recovery of assets recorded in property and equipment, intangible assets and deferred charges.
- .Change in the treatment of tax incentives, which will be now recorded in income (expenses), although they may be subsequently appropriated to a tax incentive revenue reserve and excluded from the basis of compulsory minimum dividends.
- .In merger, combination or spin-off operations, all assets and liabilities of the merged, combined or spun-off company must be identified, evaluated and accounted for at market value, provided that the operations are carried out between unrelated parties and result in the effective transfer of control.

Based on its initial analysis, Management estimates that the changes above will not have material effects on the Company’s financial statements as at December 31, 2008, however, at the moment and in these circumstances, it is not possible to determine with reasonable certainty the effects of the full adoption of the new Law.
