NON-BINDING LETTER OF INTENT WITH STINK LTD.

On September 9, 2008, Fortissimo entered into a non-binding letter of intent with Stink Ltd. (Stink), a London-based award-winning international production company that produces commercials and other content for advertising agencies and clients located throughout the world. More information concerning the business of Stink Ltd. is included below.

The non-binding letter of intent indicates that, following and conditioned upon the completion of the pending merger with Psyop, the combined Fortissimo/Psyop entity would merge with Stink to form a global animation, visual effects,

digital content and production company, initially focused on the advertising market.

The proposed terms of the transaction with Stink are summarized below. Readers are advised that the complete text of the non-binding letter of intent is contained in an exhibit to a Current Report on Form 8-K filed by Fortissimo with the Securities and Exchange Commission on September 10, 2008. If a transaction with Stink is ultimately entered into, it is likely that it will contain some terms that are different from those described in this supplement.

Pursuant to the terms of the non-binding letter of intent, the combined Fortissimo/Psyop entity would acquire all of the outstanding equity interests of Stink in exchange for the following payments to the current equity owners of that business:

a cash payment of \$5,941,267 at closing
4,538,863 shares of Fortissimo common stock

upon the achievement of the following revenue and EBITDA milestones, the following cash bonus shall be payable to the shareholders of Stink and to the former owners of Psyop prior to its merger with Fortissimo in accordance with the following ratio 41.6667% to the former owners of Psyop prior to its merger with Fortissimo and 58.3333% to the Stink shareholders. Such milestones shall be payable on a sliding scale of 90% 110% (i.e., if 90% of the threshold is met, only 90% of the bonus is paid out)

	Earnout (All Figures in \$)		
	2009	2010	2011
Revenue	120,000,000	156,000,000	203,000,000
Bonus	2,000,000	2,000,000	2,000,000
EBITDA	11,500,000	14,400,000	18,000,000
Bonus	6,500,000	6,500,000	6,500,000

upon the redemption or exercise of Fortissimo's outstanding warrants, the former owners of Psyop prior to its merger with Fortissimo and the equity owners of Stink would share in the following contingent payments:

in the event that Fortissimo calls the public warrants for redemption, which then results in more than a majority of the outstanding public warrants being exercised, a cash payment of \$15.0 million (pro rata in accordance with amount of warrants exercised following the call for redemption), shall be payable and an additional 500,000 shares of common stock of Fortissimo shall be issued to the shareholders of Stink and Psyop, in each case in accordance with the following ratio 41.6667% to the former owners of Psyop prior to its merger with Fortissimo and 58.3333% to the Stink shareholders; or

if, prior to a redemption call, a majority of the outstanding public warrants are exercised, a cash payment of \$8.0 million (pro rata in accordance with amount of warrants exercised), shall be payable to the shareholders of Stink and Psyop, in accordance with the following ratio 41.6667% to the former owners of Psyop prior to its merger with Fortissimo and 58.3333% to the Stink shareholders, in which event they will not be entitled to the \$15.0 million payment or the 500,000 shares of common stock of Fortissimo described above.

2

with respect to outstanding debt of Psyop as of the closing of its merger with Fortissimo, an amount of cash equal to 140% of the amount of such outstanding debt shall be paid to Stink shareholders in the event that Stink has no outstanding debt at the time of the closing of the merger with Stink; provided, however, that the total of all cash consideration payable to Stink (including the initial cash payment of \$5,941,267) and the payment to Stink in respect of Psyop's outstanding debt, shall not exceed in the aggregate \$6.7 million. If Stink would otherwise be entitled to additional cash consideration, the amount of such consideration in excess of \$6.7 million shall be payable in the form of shares of Fortissimo common stock at the price per share at the time of the consummation of the Stink transaction (calculated as the average of the closing prices for a share of Fortissimo common stock for the thirty trading days preceding the date that is two trading days prior to the closing date of the Stink transaction).

to provide a fund for payment to Fortissimo with respect to its post-closing rights to indemnification under the merger agreement for breaches of representations and warranties and covenants by Stink, there will be placed in escrow (with an independent escrow agent) 10% of the Fortissimo stock and cash (453,886 shares and \$594,127 cash) payable to the Stink shareholders at the time of the consummation of the Stink transaction.

In addition, the former owners of Psyop prior to its merger with Fortissimo would agree to the following modifications to the terms of the merger consideration in the transaction currently pending between Fortissimo and Psyop, which modifications would be effective only if the merger with Stink is consummated substantially on the terms described herein:

the payments of \$3 million in 2008 and \$3 million in 2009 for achievement of certain EBITDA milestones, payable to the former owners of Psyop prior to its merger with Fortissimo pursuant to the terms of the Psyop merger agreement, will be cancelled; and

the earnout payments provided for in the Psyop merger agreement will be eliminated and replaced with the earnout payments described above (to be shared among the former owners of Psyop prior to its merger with Fortissimo and the Stink shareholders, as described above).

The non-binding letter of intent also contains provisions relating to the proposed Board of Directors following the merger with Stink. It would consist of 7 persons, two designated by Fortissimo (one of whom shall be independent), two designated by the former owners of Psyop prior to its merger with Fortissimo (one of whom shall be independent), two designated by the Stink shareholders (one of whom shall be independent), and one person appointed jointly by the former owners of Psyop prior to its merger with Fortissimo and the Stink shareholders (who shall be independent). These persons would be elected at a special meeting of the stockholders of Fortissimo/Psyop that will be called to approve the Stink transaction if such transaction goes forward.

The non-binding letter of intent contains the following conditions to closing: (i) customary closing conditions for a transaction of this type, including but not limited to (a) the satisfaction with the results of confirmatory due diligence review to be conducted over a period of sixty days commencing upon the indication of the acceptance of this proposal, during which time Stink agrees not to initiate, solicit, encourage, discuss, negotiate or accept any offers regarding a sale of its business or assets with any third party, (b) the receipt by FAC of audited financial statements for the prior three years and unaudited but reviewed financial statements for the stub period, in each case audited or reviewed by an accounting firm whose audit report will be accepted by the United States Public Company Accounting Oversight Board, (c) the satisfaction with the results of confirmatory financial due diligence, including review of the audited financial statements referred to above, (d) the absence of any material adverse change in the business, assets, financial condition or prospects of the business, (e) the parties obtaining all required regulatory, board, shareholder and other third party approvals, including without limitation the approval of the public company stockholders of FAC/Psyop, and (f) negotiation and execution of employment agreements satisfactory to FAC/Psyop with certain key employees of Stink; (ii) the Fortissimo/Psyop merger having been consummated, and (iii) the execution of mutually agreeable legal documentation for the proposed transaction.

3

Pursuant to the non-binding letter of intent, each of the parties to that letter agreed to bear its own legal, accounting and other expenses in connection with the proposed transaction, whether or not the proposed transaction is consummated.

The non-binding letter of intent contains other standard provisions for such a document, including provisions relating to confidentiality, trading restrictions on the stock of Fortissimo, governing law and consent to jurisdiction, and information about the non-binding nature of the letter.

Reasons Why the Managements of Fortissimo and Psyop Believe the Proposed Transaction with Stink is Beneficial

The managements of Fortissimo and Psyop believe that the proposed acquisition of Stink by the combined Fortissimo/Psyop entity would be beneficial to the company for several reasons:

Complementary to Psyop's business Stink produces primarily live action-based commercials, while Psyop specializes in design, animation and special effects-based commercials, in which live action is sometimes a part. A joint entity would have at its disposal experts and resources in all these areas, providing customers with top talent in many disciplines all under one roof and allowing the new company to capitalize on the growing trend of mixed media, multi-platform projects.

Existing Relationship and Operating Efficiencies Psyop and Stink have been referring business to each other and have combined their resources and expertise to work together on several large international projects during the past two years, with very successful results. As a single company, some overhead would be combined, and some tasks previously outsourced by each company would be able to be performed in-house. For example, much of the post-production work currently outsourced by Stink would be done by the Psyop group. Additionally, there are potential cost savings to be achieved from combining the sales and marketing of both entities.

Geographic Expansion Stink is located in Europe, while Psyop is located in the U.S. Each entity's reputation, strength, experience and expertise in their region would facilitate growth in the other party's region.

Platform for Additional Growth The combined company would immediately become a significant player in the production/post production arena for the advertising and marketing industries, serving as a solid foundation upon which to further grow and capitalize on the new opportunities in digital content creation.

CERTAIN RISK FACTORS RELATING TO THE PROPOSED TRANSACTION WITH STINK

We may fail to enter into a definitive merger agreement with Stink or to consummate any merger transaction with Stink.

We have entered into a non-binding letter of intent with Stink. The non-binding letter of intent is subject to numerous conditions, which are described above. These conditions include, among others, Fortissimo's being satisfied with the results of confirmatory due diligence, the receipt by Fortissimo of audited financial statements for the prior three years and unaudited but reviewed financial statements for the stub period, in each case audited or reviewed by an accounting firm whose audit report will be accepted by the United States Public Company Accounting Oversight Board, the satisfaction with the results of confirmatory financial due diligence, including review of the audited financial statements referred to above, the absence of any material adverse change in the business, assets, financial condition or prospects of Stink's business, and the parties obtaining all required regulatory, board, shareholder and other third party approvals, including without limitation the approval of the public company stockholders of Fortissimo/Psyop. In addition, the transaction with Stink is conditioned upon the Fortissimo/Psyop merger having been consummated. There can be no assurance that we will be able to successfully negotiate a definitive merger agreement with Stink nor that we will be able to consummate any merger transaction with them.

Even if the transaction is consummated, we may not realize the anticipated benefits of merging with Stink.

There are numerous potential synergies and cost savings that are possible if the combined Fortissimo/Psyop entity were to merge with Stink. These include being able to provide a more comprehensive suite of offerings to advertising agencies and their clients than either business could provide separately. However, achieving the potential benefits of the merger with Stink is subject to uncertainties, including whether the Fortissimo/Psyop entity integrates Stink in an efficient and effective manner, and general competitive factors in the marketplace. Failure to achieve these anticipated benefits could result in increased costs, decreases in expected revenues and diversion of management's time and energy and could materially and adversely impact Fortissimo/Psyop's business, financial condition and results of operations.

We may experience difficulties integrating Stink with the combined Fortissimo/Psyop business.

Integrating Stink's operations into the Fortissimo/Psyop business will be a time-consuming process that will require considerable attention on the part of our management. We may experience unanticipated difficulties or expenses in connection with the integration of global animation, visual effects, digital content and production functions. Similarly, the process of combining sales and marketing forces, consolidating information technology, communications and administrative functions, and coordinating product and service offerings can take longer, cost more, and provide fewer benefits than initially projected. To the extent any of these events occurs, the anticipated benefits of the proposed merger with Stink may not be realized, or may be realized more slowly than is currently expected. In addition, any failure to integrate the two companies in a timely and efficient manner may increase the risk that the proposed merger with Stink will result in the loss of customers or key employees or the continued diversion of the attention of management.

The combined company will be dependent on certain key personnel, and the loss of any of these persons may prevent us from implementing our combined business plan in an effective and timely manner.

Our success depends, and the success of the combination of the combined Fortissimo/Psyop entity with Stink will depend, largely upon the continued services of our executive officers and other key personnel, including creative and operational executives. Any loss or interruption of the services of one or more of our executive officers or these key personnel could result in our inability to manage our operations effectively and/or pursue our business strategy.

ADDITIONAL INFORMATION

If a transaction between the combined Fortissimo/Psyop entity and Stink proceeds, a more detailed description of Stink's activities, as well as its audited financials, will be provided to stockholders in a proxy statement at a later date to enable shareholders to make an informed decision prior to a vote on the matter. This proxy supplement is being provided solely to inform shareholders of the non-binding letter of intent that has been entered into with Stink, and the terms of a proposed merger. However, there can be no assurance that the proposed merger will in fact be consummated, or if consummated, that it will be consummated at the terms currently being proposed.

Stockholders of Fortissimo are reminded that the vote being held at the Annual Meeting of Stockholders is with respect to the merger of Fortissimo and Psyop. The proposed transaction discussed above with respect to Stink is not on the agenda at that meeting.

Stockholders are urged to read this supplement carefully together with the proxy statement, dated August 12, 2008, previously mailed to our stockholders on or about August 12, 2008.
