Industrias Bachoco Announces Fourth Quarter and 2008 Full Year Results

Celaya, Gto., Mexico, - February 12, 2009 - Industrias Bachoco S.A.B. de C.V. (“Bachoco” or “the Company”) (NYSE: IBA; BMV: Bachoco), Mexico’s leading producer and processor of poultry products, announced today its unaudited results corresponding to the fourth quarter and full year ended December 31, 2008. All figures have been prepared in accordance with Mexican GAAP. In line with the Mexican Accounting Principles, data for 2008 is presented in nominal pesos while that of 2007 is presented in constant pesos as of December 31, 2007.

Highlights:

- Total sales in 4Q 2008 increased 23.3% when compared with the same period of 2007; recording the highest sales level in a quarter in the Company’s history, and increasing 10.4% for the full year.
- Chicken sales volume increased of 7.1% in the period, traditionally the best quarter of a year, and a 4.9% during 2008.
- The Company recorded a negative operating margin of 1.4% during 4Q 2008 but a positive EBITDA margin of 1.4%.
- Net loss per share in 4Q 2008 was Ps. 1.46, or US\$1.26 per ADR, compared to a net income per share of Ps. 0.30, or US\$0.26, per ADR reported in the same 2007 period.

CEO’s Comments:

Cristóbal Mondragon, Bachoco’s CEO, stated, “During the quarter, the Company had to tackle several adverse conditions that again affected our results: inventory on hand at higher cost, currently being consumed, affected our cost of sales, and the Mexican economy slowed down following global trends, which led us to post negative results in terms of operating margin. In addition, the abrupt depreciation of the Mexican peso against the US dollar also affected our operating results, but mainly affected our net margins for the quarter.

“Despite this adverse environment, and oversupply conditions in the chicken market at the beginning of the quarter, which were later reversed in the end, we were able to record encouraging results. We recorded the highest sales level for a quarter in the Company’s history; particularly robust was the volume of chicken sold, our main product line, while reporting strong results in table eggs, our second main business line.

“In terms of EBITDA, we achieved positive results and by the end of the quarter we also registered positive operating levels that have spilled over to the beginning of 2009.

“As we have reported during the quarter, our comprehensive financial cost was strongly affected by the abrupt depreciation of the Mexican peso against the US dollar given our hedging position; however, our strong financial position will allow us to face the conditions ahead.

“The Company has successfully implemented several measures to wane the impact of such a challenging scenario, like: the restructuring of the derivatives portfolio, the optimization of the product mix, better services for customers, and productivity improvements, among others. We trust that such strategies will contribute with positive results to the Company’s performance and will allow us to obtain better results in the near future,” concluded Mr. Mondragón.

Releases during the quarter:

§ October 14, Bachoco Informs the Effects of the Financial Volatility on Its Financial Position.

§ December 15, Bachoco provides a major disclosure about its financial derivatives position.

FOURTH QUARTER 2008 RESULTS

Net Sales

Net sales for the quarter were Ps. 5,674.3 million, 23.3% above the Ps. 4,602.6 million reported in 4Q07. This increase was mainly driven by higher sales in the main business lines: chicken sales rose 26.6%, while table eggs sales increased 15.8% and swine sales increased 46.2%.

	Net Sales	4Q08 (%)	4Q07 (%)
CHICKEN		77.7	75.7
EGGS		10.0	10.6
BALANCED FEED		6.4	7.7
SWINE		1.1	0.9
OTHER LINES		4.8	5.1
TOTAL COMPANY		100.0	100.0

Operating Results

Bachoco's fourth quarter gross margin was 9.8%, below the 17.0% reached in the same 2007 quarter. Said decrease is attributed to a 34.0% increase in the cost of sales. During this quarter cost of sales remained affected by the high costs of raw materials, basically corn and soy bean meal.

The Company had an operating loss of Ps. 79.1 million, compared to an operating profit of Ps. 200.6 million in the same 2007 quarter. Even when operating expenses increased 9.3% during the quarter, the operating expenses as a percentage of sales decreased when compared to the same period of 2007.

The EBITDA result was positive and amounted to Ps. 76.8 million, compared with Ps. 347.6 million reached in the same period of 2007.

Taxes

During the fourth quarter, the Company recognized a positive provision for income tax and deferred income taxes amounting to Ps. 247.0 million.

Comprehensive Financial Income (Cost)

The depreciation of the Mexican exchange rate during fourth quarter strongly impacted our hedging structure, which added to the mark-to-market valuations, affected our financial comprehensive cost. The Company's financial comprehensive cost amounted to Ps. 1,056.0 million during the quarter, compared to a financial comprehensive cost of Ps. 10.2 million reported in the same quarter last year.

Net Income

During the fourth quarter the Company reported a negative net majority income result of Ps. 873.5 million, or Ps. 1.46 per share (US\$1.26 per ADR), compared to a net majority income of Ps. 180.3 million, or Ps. 0.30 per share (US\$0.26 per ADR) reported in the same 2007 period.

RESULTS BY BUSINESS SEGMENT

Chicken

The results recorded for the chicken business line were strong during the fourth quarter; sales increased 26.6% as chicken prices rose 18.1%, and volume increased 7.1% from the previous year. The Company was able to transfer part of its cost increases to chicken prices. It is also worth noting that this result is also attributed to seasonality factors.

Table Eggs

The table egg business line also remained strong; sales increased by 15.8% during the quarter as egg prices rose 20.9%, which was partially offset by a 4.2% decrease in volume.

Balanced Feed

Sales of balanced feed increased 2.0% during the fourth quarter, as balanced feed prices jumped by 29.2%, but the positive impact was offset by the significant decline in volume of 21.1% when compared to the previous year. This business line is directly affected by the ongoing increases of raw materials prices that occurred during 2008.

Swine

Demand and supply remained stable during this quarter, swine sales significantly increased by 46.6% from 4Q07, driven by a 35.2% increase in swine prices and 8.1% in volume sold.

Other Lines

Sales of other lines increased 18.7% mainly due to higher turkey sales.

YEAR 2008

Net Sales

Net sales for 2008 amounted to Ps. 20,109.6 million, 10.4% above the Ps. 18,208.8 million reported in 2007. The increase was driven by the growth in all the business lines: a 9.5% increase in chicken sales, 20.4% in table eggs sales, 35.3% in swine sales, and 0.9% increases in sales of balanced feed and 18.0% in other lines.

Net Sales	Year 2008 (%)	Year 2007 (%)
CHICKEN	76.9	77.6
EGGS	10.5	9.6
BALANCED FEED	7.3	8.0
SWINE	1.1	0.9
OTHER LINES	4.2	3.9
TOTAL COMPANY	100.0	100.0

Operating Results

The Company's gross margin for year was 13.1%, lower than the 20.5% reported in 2007, reflecting the steady raw materials price increases during the whole year, as well as increase in the exchange rate between peso-USD. Operating profit was Ps. 233.2 million, lower than the Ps. 1,487.8 million reached during the year 2007. EBITDA amounted to Ps. 837.8 million, below the Ps. 2,059.2 million of the same 2007 period. EBITDA margin was 4.2% during the year.

Taxes

The Company recognized a positive provision for income taxes and deferred income taxes amounting to Ps. 543.1 million.

Comprehensive Financial Income (Cost)

The Company had a financial comprehensive cost for the year amounting to Ps. 1,308.4 million, which compares to a financial comprehensive income of Ps. 98.2 millions reported in 2007. As the Company previously announced, the negative effect of its hedging instruments resulted from the high cost of its raw materials and the volatility of the exchange rate (peso-USD). The main effect was a realized loss in its hedging instruments registered as interest expenses and financing cost, and mark-to-market valuations registered as interest income.

Net Income

The Company recorded a net loss for 2008 of Ps. 548.5 million, or Ps. 0.91 per share (US\$0.79 per ADR), compared to net income of Ps. 1,278.3 million, or Ps. 2.13 per share (US\$1.85 per ADS) reported in 2007.

Balance Sheet

Despite the adverse conditions, the Company's financial structure remained healthy, and allowed the Company to face all its commitments. Cash and cash equivalents totaled Ps. 1,972.2 million as of December 31, 2008, below the Ps. 3,040.0 million reported in 2007. Said decrease was mainly driven by larger inventory and higher CAPEX, which accounted for Ps. 1,052.7 million during 2008. The total debt outstanding as of December 31, 2008 amounted to Ps. 625.9 million.

Outlook

- The Company expects the peso-USD exchange rate to remain volatile.
- The worldwide decrease in the costs of raw material will benefit the Company's cost of sales at the beginning of 2009.
 - We expect a strong demand and good level of chicken prices during the first quarter of 2009.

Company Description

Industrias Bachoco S.A.B. de C.V. (also referred to in this report as Bachoco or the Company) is the largest poultry company in Mexico, with over 700 production and distribution facilities currently organized in nine complexes throughout the country. Bachoco's main business lines are: chicken, egg, and balanced feed, among others. The Company is also present in other businesses like swine, beef, margarine and turkey in Mexico. The Company's headquarters are in Celaya, Guanajuato, located in Mexico's central region. For more information, please visit Bachoco's website at <http://www.bachoco.com.mx> or contact our IR department.

This press release contains certain forward-looking statements that are subject to a number of uncertainties, assumptions and risk factors that may influence its accuracy. Actual results may differ. Factors that could cause these projections to differ, include, but are not limited to: supply and demand, industry competition, environmental risks, economic and financial market conditions in Mexico and operating cost estimates. For more information regarding Bachoco and its outlook, please contact the Company's Investor Relations Department.
