Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. The number of shares outstanding of each of the issuer's classes of common stock as of May 14, 2009:
18,710,250

EXPLANATORY NOTE

We are amending our Quarterly Report on Form 10-Q for the period ended March 31, 2009 solely to include revisions in Item 4, Controls and Procedures. This amendment includes only Item 4, the signature page and the certifications pursuant to Section 302 of the Sarbanes-Oxley Act of 2002 (Exhibits 31.1 and 31.2).

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures

As required by Rule 13a-15 under the Exchange Act, our management, including Bo Chen, our Chief Executive Officer, and Junyan Tong, our Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2009.

Disclosure controls and procedures refer to controls and other procedures designed to ensure that information required to be disclosed in the reports we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating our disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management is required to apply its judgment in evaluating and implementing possible controls and procedures.

Management conducted its evaluation of disclosure controls and procedures under the supervision of our chief executive officer and our chief financial officer. Based on that evaluation, Messrs. Bo and Tong concluded that because of the material weakness in internal control over financial reporting described below, our disclosure controls and procedures were not effective as of March 31, 2009.

Management's Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting as defined in Rules 13a-15(f) and 15d-15(f) under the Securities Exchange Act. Our management is also required to assess and report on the effectiveness of our internal control over financial reporting in accordance with Section 404 of the Sarbanes-Oxley Act of 2002 ("Section 404"). Management assessed the effectiveness of our internal control over financial reporting as of three months ended March 31, 2009. In making this assessment, we used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in Internal Control – Integrated Framework.

Notwithstanding the aforementioned controls implemented in December 2006, during management's assessment of the effectiveness of internal control over financial reporting as of March 31, 2009, management identified deficiencies related to (i) the U.S. GAAP expertise of our internal accounting staff, (ii) a lack of segregation of duties within accounting functions, (iii) our internal risk assessment functions, and (iv) our communication functions. Management believes that these deficiencies amount to a material weakness that render our internal controls over financial reporting ineffective as of March 31, 2009.

A material weakness (within the meaning of PCAOB Auditing Standard No. 5) is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis.

In order to correct the foregoing deficiencies, we have taken the following remediation measures:

- Although our accounting staff is professional and experienced in accounting requirements and procedures generally accepted in the PRC, management has determined that they require additional training and assistance in U.S. GAAP matters. Management has determined that our internal audit function is also significantly deficient due to insufficient qualified resources to perform internal audit functions. We retained an outside consulting firm in September 2006, which has since been assisting us in the implementation of Section 404.

- We have committed to the establishment of effective internal audit functions and have instituted various anti-fraud control and financial and account management policies and procedures to strengthen our internal controls over financial reporting. Due to the scarcity of qualified candidates with extensive experience in U.S. GAAP reporting and accounting in the region, we were not able to hire sufficient internal audit resources before the end of the first quarter of 2009. However, we will increase our search for qualified candidates with assistance from recruiters and through referrals.
- Due to our size and nature, segregation of all conflicting duties may not always be possible and may not be economically feasible. However, to the extent possible, we will implement procedures to assure that the initiation of transactions, the custody of assets and the recording of transactions will be performed by separate individuals.
- As of the three months ended March 31, 2009 we have not yet established an effective risk assessment system that enables us to collect related information comprehensively and systematically, assess risks in a timely, realistic manner, and take appropriate measures to control risks effectively. The Company is working with its outside consultant to devise an effective risk assessment system and our Chief Financial Officer Junyan Tong is responsible for overseeing such measures.
- As of the three months ended March 31, 2009, we are working to strengthen efforts to establish an effective communication system with clear procedures that will enable us to collect, process and deliver information related to internal controls in a timely fashion. Due to our limited staff, our Chief Financial Officer, Mr. Tong, will initially be primarily responsible for collecting and delivering such information among the different levels of Company management.

We believe that the foregoing steps will remediate the significant deficiency identified above, and we will continue to monitor the effectiveness of these steps and make any changes that our management deems appropriate.

Notwithstanding the conclusion that our internal control over financial reporting was not effective as of the end of the period covered by this report, the Chief Executive Officer and the Chief Financial Officer believe that the financial statements and other information contained in this annual report present fairly, in all material respects, our business, financial condition and results of operations. Nothing has come to the attention of management that causes them to believe that any material inaccuracies or errors exist in our financial statements as of March 31, 2009. The reportable conditions and other areas of our internal control over financial reporting identified by us as needing improvement have not resulted in a material restatement of our financial statements. Nor are we aware of any instance where such reportable conditions or other identified areas of weakness have resulted in a material misstatement of omission in any report we have filed with or submitted to the Commission.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies and procedures may deteriorate.

Changes in internal control over financial reporting

There have been no changes in our internal controls over financial reporting during our first fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 6. EXHIBITS.

Copies of the following documents are included as exhibits to this report pursuant to Item 601 of Regulation S-K.

Exhibit No.	Exhibit Description
31.1	Certification of Principal Executive Officer pursuant to Rule 13a-14 and Rule 15d-14(a), promulgated under the Securities and Exchange Act of 1934, as amended
31.2	Certification of Principal Financial Officer pursuant to Rule 13a-14 and Rule 15d 14(a), promulgated under the Securities and Exchange Act of 1934, as amended
32.1	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
32.2	Certification pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

SIGNATURES

In accordance with the requirements of the Exchange Act, the registrant caused this report to be signed on its behalf by the undersigned, thereunto duly authorized.
